(Attach extra Sheets if Needed)

The registrants are not in a position where they will be able to file their Quarterly Report on Form 10-Q for the thirteen-week period ended March 29, 2008 (the Report ), in a timely manner. The principal reason for the registrants' delay in filing the Report relates to the filing by the registrants and their direct and indirect U.S. subsidiaries (collectively, the Company ) of voluntary petitions for relief under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware on May 2, 2008 (jointly administered under Case No. 08 10832). The Company requires additional time to complete the preparation of the consolidated financial statements for such period and management's discussion and analysis of financial condition and results of operations. The delay is necessary in part because, in connection with the Company's bankruptcy filing, the Company is performing an impairment analysis related to certain of its tangible and intangible assets, which is not yet complete. The Company intends to file the Report as soon as reasonably practicable, but will not be in a position to file the Report by the fifth calendar day following the required filing date, as prescribed in Rule 12b-25.

(2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s).

Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As disclosed in Part III above, the delay in filing the Report is necessary in part because, in connection with the Company's bankruptcy filing, the Company is performing an impairment analysis related to certain of its tangible and intangible assets, which is not yet complete. Subject to such impairment analysis, the registrants do not anticipate that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected in the Report. However, at this time the registrants cannot predict the outcome of the impairment analysis, which could result in the Report reflecting a significant change in results of operations from the corresponding period for the last fiscal year.
