**THE SERVICEMASTER COMPANY**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(UNAUDITED)**

**Note 1. Basis of Presentation**

The ServiceMaster Company ( ServiceMaster, the Company, we, us or our ) is a global company serving both residential and commercial customers. ServiceMaster's services include termite and pest control, lawn care, home warranties and preventative maintenance contracts, cleaning and disaster restoration, house cleaning, wood furniture repair and home inspection. ServiceMaster provides these services through a network of company-owned, franchised and licensed locations operating primarily under the following leading brands: Terminix, TruGreen, American Home Shield, ServiceMaster Clean, Merry Maids, Furniture Medic and AmeriSpec.

The condensed consolidated financial statements include the accounts of ServiceMaster and its majority-owned subsidiary partnerships, limited liability companies and corporations. All consolidated ServiceMaster subsidiaries are wholly owned. ServiceMaster is organized into five principal reportable segments: Terminix, TruGreen, American Home Shield, ServiceMaster Clean and Other Operations and Headquarters. Intercompany transactions and balances have been eliminated.

The condensed consolidated financial statements have been prepared by the Company in accordance with generally accepted accounting principles in the United States ( GAAP ) and pursuant to the rules and regulations of the Securities and Exchange Commission ( SEC ). The Company recommends that the quarterly condensed consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, as filed with the SEC (the 2012 Form 10-K ). The condensed consolidated financial statements reflect all adjustments that are, in the opinion of management, necessary for the fair presentation of the financial position, results of operations and cash flows for the interim periods presented. The results of operations for any interim period are not indicative of the results that might be achieved for a full year.

On July 24, 2007 (the Closing Date ), ServiceMaster was acquired pursuant to a merger transaction (the Merger ), and, immediately following the completion of the Merger, all of the outstanding common stock of ServiceMaster Global Holdings, Inc. ( Holdings ), the ultimate parent company of ServiceMaster, was owned by investment funds sponsored by, or affiliated with, Clayton, Dubilier & Rice, LLC ( CD&R ), Citigroup Private Equity LP ( Citigroup ), BAS Capital Funding Corporation ( BAS ) and JPMorgan Chase Funding Inc. ( JPMorgan ). On September 30, 2010, Citigroup transferred the management responsibility for certain investment funds that own shares of common stock of Holdings to StepStone Group LLC ( StepStone ) and its proprietary interests in such investment funds to Lexington Partners Advisors LP.

**Note 2. Significant Accounting Policies**

The Company's significant accounting policies are included in the 2012 Form 10-K. The following selected accounting policies should be read in conjunction with the 2012 Form 10-K.

Revenues from lawn care and pest control services, as well as liquid and fumigation termite applications, are recognized as the services are provided. The Company eradicates termites through the use of non-baiting methods (e.g., fumigation or liquid treatments) and baiting systems. Termite services using baiting systems, termite inspection and protection contracts, as well as home warranties, are frequently sold through annual contracts for a one-time, upfront payment. Direct costs of these contracts (service costs for termite contracts and claim costs for home warranties) are expensed as incurred. The Company recognizes revenue over the life of these contracts in proportion to the expected direct costs. Those costs bear a direct relationship to the fulfillment of the Company's obligations under the contracts and are representative of the relative value provided to the customer (proportional performance method). The Company regularly reviews its estimates of direct costs for its termite bait contracts and home warranties and adjusts the estimates when appropriate.

The Company has franchise agreements in its Terminix, TruGreen, ServiceMaster Clean, AmeriSpec, Furniture Medic and Merry Maids businesses. Franchise revenue (which in the aggregate represents approximately four percent of annual consolidated operating revenue from continuing operations) consists principally of continuing monthly fees based upon the franchisee's customer level revenue. Monthly fee revenue is recognized when the related customer level revenue is reported by the franchisee and collectability is reasonably assured. Franchise revenue also includes initial fees resulting from the sale of a franchise or license. These initial franchise or license fees are pre-established, fixed amounts and are recognized as revenue when collectability is reasonably assured and all material services or conditions relating to the sale have been substantially performed. Total profits from the franchised operations were \$18.1 million and \$16.8 million for the three months ended March 31, 2013 and 2012, respectively. Consolidated operating income from continuing operations was \$20.1 million and \$54.8 million for the three months ended March 31, 2013 and

Table of Contents

2012, respectively. The Company evaluates the performance of its franchise businesses based primarily on operating profit before corporate general and administrative expenses, interest expense and amortization of intangible assets. The portion of total franchise fee income related to initial fees received from the sale of franchises was immaterial to the Company's condensed consolidated financial statements for all periods.

The Company had \$549.5 million and \$483.9 million of deferred revenue as of March 31, 2013 and December 31, 2012, respectively. Deferred revenue consists primarily of payments received for annual contracts relating to home warranties, termite baiting, termite inspection, pest control and lawn care services.

Customer acquisition costs, which are incremental and direct costs of obtaining a customer, are deferred and amortized over the life of the related contract in proportion to revenue recognized. These costs include sales commissions and direct selling costs which can be shown to have resulted in a successful sale. Deferred customer acquisition costs amounted to \$47.2 million and \$33.9 million as of March 31, 2013 and December 31, 2012, respectively.

TruGreen has significant seasonality in its business. In the winter and spring, this business sells a series of lawn applications to customers which are rendered primarily in March through October (the production season). This business incurs incremental selling expenses at the beginning of the year that directly relate to successful sales for which the revenues are recognized in later quarters. On an interim basis, TruGreen defers these incremental selling expenses, pre-season advertising costs and annual repair and maintenance costs that are incurred primarily in the first quarter. These costs are deferred and recognized in proportion to the revenue generated over the production season and are not deferred beyond the calendar year-end. Other business segments of the Company also defer, on an interim basis, advertising costs incurred early in the year. These pre-season costs are deferred and recognized approximately in proportion to revenue over the balance of the year and are not deferred beyond the calendar year-end.

The cost of direct-response advertising at Terminix, consisting primarily of direct-mail promotions, is capitalized and amortized over its expected period of future benefits.

The preparation of the condensed consolidated financial statements requires management to make certain estimates and assumptions required under GAAP which may differ from actual results. Disclosures in the 2012 Form 10-K presented the significant areas requiring the use of management estimates and discussed how management formed its judgments. The areas discussed included revenue recognition; the allowance for uncollectible receivables; accruals for self-insured retention limits related to medical, workers' compensation, auto and general liability insurance claims; accruals for home warranties and termite damage claims; the possible outcome of outstanding litigation; accruals for income tax liabilities as well as deferred tax accounts; the deferral and amortization of customer acquisition costs; useful lives for depreciation and amortization expense; the valuation of marketable securities; and the valuation of tangible and intangible assets.

**Newly Issued Accounting Statements and Positions**

In July 2012, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2012-02, Intangibles Goodwill and Other: Testing Indefinite-Lived Intangible Assets for Impairment, which amends the guidance on testing indefinite-lived intangible assets, other than goodwill, for impairment. This standard allows an entity testing an indefinite-lived intangible asset for impairment the option of performing a qualitative assessment before calculating the fair value of the asset. If entities determine, on the basis of the qualitative assessment, that the fair

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

value of the indefinite-lived intangible asset is more likely than not greater than its carrying amount, the quantitative impairment test would not be required. Otherwise, further testing would be needed. This standard revises the examples of events and circumstances that an entity should consider in interim periods, but it does not revise the requirements to test indefinite-lived intangible assets (1) annually for impairment and (2) between annual tests if there is a change in events or circumstances. The amendments in this standard are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. The Company adopted the required provisions of this standard during the first quarter of 2013. The adoption of this standard did not have a material impact on the Company's condensed consolidated financial statements.

In February 2013, the FASB issued ASU 2013-02, Reporting of Amounts Reclassified out of Accumulated Other Comprehensive Income to improve the reporting of reclassifications out of accumulated other comprehensive income by requiring an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under GAAP that provide additional detail about those amounts. The amendments in this standard do not change the current requirements for reporting net income or other comprehensive income in financial statements and are effective

Table of Contents

prospectively for reporting periods beginning after December 15, 2012. The Company adopted the required provisions of this standard during the first quarter of 2013. The disclosures required by this standard are presented in Note 7 of the Company's notes to condensed consolidated financial statements.

**Note 3. Restructuring Charges**

The Company incurred restructuring charges of \$3.3 million (\$2.0 million, net of tax) and \$4.0 million (\$2.4 million, net of tax) for the three months ended March 31, 2013 and 2012, respectively. Restructuring charges were comprised of the following:

(In thousands)	Three months ended March 31,	
	2013	2012
Terminix branch optimization(1)	\$ 950	\$ 2,120
TruGreen reorganization and restructuring(2)	324	671

(1) For the three months ended March 31, 2013 and 2012, these charges included lease termination costs.

(2) For the three months ended March 31, 2013 and 2012, these charges included severance costs of \$0.3 million and \$0.2 million, respectively. For the three months ended March 31, 2012, these charges included lease termination costs of \$0.5 million.

(3) For the three months ended March 31, 2013, these charges included severance costs.

(4) Represents restructuring charges related to an initiative to enhance capabilities and reduce costs in the Company's headquarters functions that provide company-wide administrative services for our operations that we refer to as centers of excellence. For the three months ended March 31, 2013 and 2012, these charges included professional fees of \$1.4 million and \$0.7 million, respectively, and severance and other costs of \$0.4 million and \$0.5 million, respectively.

The pretax charges discussed above are reported in Restructuring charges in the condensed consolidated statements of operations and comprehensive loss.

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

A reconciliation of the beginning and ending balances of accrued restructuring charges, which are included in Accrued liabilities - Other on the condensed consolidated statements of financial position, is presented as follows:

(In thousands)	Accrued Restructuring Charges	
Balance as of December 31, 2012	\$	4,542
Costs incurred		3,277
Costs paid or otherwise settled		(4,653)
Balance as of March 31, 2013	\$	3,166

### Note 4. Commitments and Contingencies

A portion of the Company's vehicle fleet and some equipment are leased through month-to-month operating leases, cancelable at the Company's option. There are residual value guarantees by the Company (which approximated 84 percent of the estimated terminal value at the inception of the lease) relative to these vehicles and equipment, which historically have not resulted in significant net payments to the lessors. The fair value of the assets under all of the fleet and equipment leases is expected to substantially mitigate the Company's guarantee obligations under the agreements. As of March 31, 2013, the Company's residual value guarantees related to the leased assets totaled \$17.7 million for which the Company has recorded a liability for the estimated fair value of these guarantees of \$0.3 million in the condensed consolidated statements of financial position.

The Company carries insurance policies on insurable risks at levels which it believes to be appropriate, including workers' compensation, auto and general liability risks. The Company purchases insurance policies from third-party insurance carriers, which typically incorporate significant deductibles or self-insured retentions. The Company is responsible for all claims that fall below the retention limits. In determining the Company's accrual for self-insured claims, the Company uses historical claims experience to

Table of Contents

establish both the current year accrual and the underlying provision for future losses. This actuarially determined provision and related accrual includes known claims, as well as incurred but not reported claims. The Company adjusts its estimate of accrued self-insured claims when required to reflect changes based on factors such as changes in health care costs, accident frequency and claim severity.

A reconciliation of beginning and ending accrued self-insured claims, which are included in Accrued liabilities – Self-insured claims and related expenses and Other long-term obligations, primarily self-insured claims on the condensed consolidated statements of financial position, net of reinsurance receivables, which are included in Prepaid expenses and other assets and Other assets on the condensed consolidated statements of financial position, is presented as follows:

<b>(In thousands)</b>	<b>Accrued Self-insured Claims, Net</b>
Balance as of December 31, 2012	\$ 103,825
Provision for self-insured claims	11,857
Cash payments	(11,156)
Balance as of March 31, 2013	\$ 104,526

<b>(In thousands)</b>	<b>Accrued Self-insured Claims, Net</b>
Balance as of December 31, 2011	\$ 108,082
Provision for self-insured claims	11,596
Cash payments	(8,327)
Balance as of March 31, 2012	\$ 111,351

Accruals for home warranty claims in the American Home Shield business are made based on the Company's claims experience and actuarial projections. Termite damage claim accruals in the Terminix business are recorded based on both the historical rates of claims incurred within a contract year and the cost per claim. Current activity could differ causing a change in estimates. The Company has certain liabilities with respect to existing or potential claims, lawsuits and other proceedings. The Company accrues for these liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Any resulting adjustments, which could be material, are recorded in the period the adjustments are identified.

In the ordinary course of conducting business activities, the Company and its subsidiaries become involved in judicial, administrative and regulatory proceedings involving both private parties and governmental authorities. These proceedings include insured and uninsured matters that are brought on an individual, collective, representative and class action basis, or other proceedings involving regulatory, employment, general and commercial liability, automobile liability, wage and hour, environmental and other matters. The Company has entered into settlement agreements in certain cases, including with respect to putative collective and class actions, which are subject to court or other approvals. If one or more of the Company's settlements are not finally approved, the Company could have additional or different exposure, which could be material. At this time, the Company does not expect any of these proceedings to have a material effect on its reputation, business, financial position, results of operations or cash flows; however, the Company can give no assurance that the results of any such proceedings will not materially affect its reputation, business, financial position, results of operations and cash flows.

**Note 5. Goodwill and Intangible Assets**

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

Goodwill and intangible assets that are not amortized are subject to assessment for impairment by applying a fair-value based test on an annual basis or more frequently if circumstances indicate a potential impairment. The Company's annual assessment date is October 1. There were no goodwill or trade name impairment charges recorded in the three months ended March 31, 2013 and 2012, respectively.

During the three months ended March 31, 2013, the increase in goodwill and other intangible assets related primarily to tuck-in acquisitions completed throughout the period by Terminix, TruGreen and Merry Maids.

**Note 6. Stock-Based Compensation**

For the three months ended March 31, 2013 and 2012, the Company recognized stock-based compensation expense of \$1.3 million (\$0.8 million, net of tax) and \$1.7 million (\$1.0 million, net of tax), respectively. As of March 31, 2013, there was \$12.1 million of total unrecognized compensation costs related to non-vested stock options and restricted share units granted by Holdings under the Amended and Restated ServiceMaster Global Holdings, Inc. Stock Incentive Plan (the MSIP). These remaining costs are expected to be recognized over a weighted-average period of 2.5 years.

**Note 7. Comprehensive Income**

Comprehensive (loss) income, which primarily includes net (loss) income, unrealized gain (loss) on marketable securities, unrealized gain (loss) on derivative instruments and the effect of foreign currency translation is disclosed in the condensed consolidated statements of operations and comprehensive loss.

The following tables summarize the activity in other comprehensive income (loss), net of the related tax effects.

The Company acquired \$13.9 million and \$1.8 million of property and equipment through capital leases and other non-cash financing transactions in the three months ended March 31, 2013 and 2012, respectively, which have been excluded from the condensed consolidated statements of cash flows as non-cash investing and financing activities.

### **Note 9. Receivable Sales**

The Company has an accounts receivable securitization arrangement under which Terminix and TruGreen may sell certain eligible trade accounts receivable to ServiceMaster Funding Company LLC ( "Funding" ), the Company's wholly owned, bankruptcy-remote subsidiary, which is consolidated for financial reporting purposes. Funding, in turn, may transfer, on a revolving basis, an undivided percentage ownership interest of up to \$50.0 million in the pool of accounts receivable to one or both of the purchasers who are parties to the accounts receivable securitization arrangement ( "Purchasers" ). The amount of the eligible receivables varies during the year based on seasonality of the businesses and could, at times, limit the amount available to the Company from the sale of these interests. As of March 31, 2013, the amount of eligible receivables was approximately \$39.2 million.

Table of Contents

During the three months ended March 31, 2013, there were no transfers of interests in the pool of trade accounts receivables to Purchasers under this arrangement. As of March 31, 2013 and December 31, 2012, the Company had \$10.0 million outstanding under the arrangement and, as of March 31, 2013, had \$29.2 million of remaining capacity available under the accounts receivable securitization arrangement.

The accounts receivable securitization arrangement is a 364-day facility scheduled to mature on October 23, 2013. The Company has recorded its obligation to repay the Purchasers for their interest in the pool of receivables within the current portion of long-term debt on the condensed consolidated statements of financial position. The interest rates applicable to the Company's obligation are based on a fluctuating rate of interest based on the Purchasers' pooled commercial paper rate (0.21 percent as of March 31, 2013). In addition, the Company pays usage fees on its obligations and commitment fees on undrawn amounts committed by the Purchasers. Unless the arrangement is renegotiated or extended prior to its expiration, all obligations under the accounts receivable securitization arrangement must be repaid by October 23, 2013.

**Note 10. Cash and Marketable Securities**

Cash, money market funds and certificates of deposits with maturities of three months or less when purchased are included in Cash and cash equivalents on the condensed consolidated statements of financial position. As of March 31, 2013 and December 31, 2012, the Company's investments consisted primarily of domestic publicly traded debt and certificates of deposit (Debt securities) and common equity securities (Equity securities). The amortized cost, fair value and gross unrealized gains and losses of the Company's short- and long-term investments in Debt securities and Equity securities as of March 31, 2013 and December 31, 2012 were as follows:

(In thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale and trading securities, March 31, 2013:				
Debt securities	\$ 104,896	\$ 5,465	\$ (39)	\$ 110,322

Total securities	\$ 137,857	\$ 9,582	\$ (1,636)	\$ 145,803

The portion of unrealized losses which had been in a loss position for more than one year was \$0.3 million and \$1.5 million as of March 31, 2013 and December 31, 2012, respectively. The aggregate fair value of the investments with unrealized losses was \$13.7 million and \$13.1 million as of March 31, 2013 and December 31, 2012, respectively.

As of March 31, 2013 and December 31, 2012, \$265.9 million and \$243.7 million, respectively, of the cash and short- and long-term marketable securities balance were associated with regulatory requirements at American Home Shield and for other purposes. Such amounts, although not necessarily subject to third-party restrictions, are identified as being potentially unavailable to be paid to the Company by its subsidiaries. There

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

are third-party restrictions on the ability of certain of the Company's subsidiaries to transfer funds to the Company. These restrictions are related to regulatory requirements at American Home Shield and to a subsidiary borrowing arrangement at The ServiceMaster Acceptance Company Limited Partnership (SMAC). As of March 31, 2013, the total net assets subject to these third-party restrictions was \$176.9 million. American Home Shield's investment portfolio has been invested in a combination of high-quality, short-duration fixed-income securities and equities.

Table of Contents

Gains and losses on sales of investments, as determined on a specific identification basis, are included in investment income in the period they are realized. The Company periodically reviews its portfolio of investments to determine whether there has been an other than temporary decline in the value of the investments from factors such as deterioration in the financial condition of the issuer or the market(s) in which the issuer competes. The table below summarizes proceeds, gross realized gains and gross realized losses, each resulting from sales of available-for-sale securities. There were no impairment charges due to other than temporary declines in the value of certain investments for the three months ended March 31, 2013 and 2012.

(3) The increase in the balance from December 31, 2012 to March 31, 2013 reflects the amortization of fair value adjustments related to purchase accounting, which increases the effective interest rate from the coupon rates shown above.

Interest rate swap agreements in effect as of March 31, 2013 are as follows:

Trade Date	Effective Date	Expiration Date	Notional Amount	Fixed Rate(1)	Floating Rate

---

(1) Before the application of the applicable borrowing margin.

On February 22, 2013, the Company entered into the 2013 Term Loan Facility Amendment to amend the credit agreement governing the Term Loan Facility (the Credit Agreement ) primarily to extend the maturity date of a portion of the borrowings under the Term Loan Facility. Pursuant to the 2013 Term Loan Facility Amendment, the maturity of the outstanding Tranche A loans was extended, and such loans were converted into a new tranche of term loans in an aggregate principal amount, along with new loans extended by certain new lenders, of \$1.220 billion (the Tranche C loans ). The maturity date for the new Tranche C loans is January 31, 2017. The interest rates applicable to the Tranche C loans under the Term Loan Facility are based on a fluctuating rate of interest measured by reference to either, at the Company's option, (i) an adjusted London inter-bank offered rate (adjusted for

Table of Contents

maximum reserves) plus 3.25 percent, with a minimum adjusted London inter-bank offered rate of 1.00 percent or (ii) an alternate base rate plus 2.25 percent, with a minimum alternate base rate of 2.00 percent. As part of the 2013 Term Loan Facility Amendment, the Company paid an original issue discount equal to 1.00 percent of the outstanding borrowings, or \$12.2 million. Voluntary prepayments of borrowings under the Tranche C Loans are permitted at any time, in minimum principal amounts, without premium or penalty, except for a 1.00 percent premium payable in connection with certain repricing transactions within the first year. As a result of the amendment entered into in August 2012 (the 2012 Term Loan Facility Amendment ) and the 2013 Term Loan Facility Amendment, the Company has, as of March 31, 2013, approximately \$2.203 billion of outstanding borrowings maturing January 31, 2017, after including the unamortized portion of the original issue discount paid.

**Note 12. Discontinued Operations**

Loss from discontinued operations, net of income taxes, for all periods presented includes the operating results of the previously sold businesses noted in the 2012 Form 10-K.

The operating results of discontinued operations were as follows:

(In thousands)	2013	Three months ended March 31,	2012
<b>Operating Results:</b>			
Operating revenue	\$		\$
Operating loss		(269)	(331)

**Note 13. Income Taxes**

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

As of March 31, 2013 and December 31, 2012, the Company had \$8.2 million and \$8.3 million, respectively, of tax benefits primarily reflected in state tax returns that have not been recognized for financial reporting purposes ( unrecognized tax benefits ). The Company currently estimates that, as a result of pending tax settlements and expiration of statutes of limitations, the amount of unrecognized tax benefits could be reduced by approximately \$0.7 million during the next 12 months.

As required by Accounting Standard Codification ( ASC ) 740 Income Taxes, the Company computes interim period income taxes by applying an anticipated annual effective tax rate to our year-to-date income or loss from continuing operations before income taxes, except for significant unusual or infrequently occurring items. The Company's estimated tax rate is adjusted each quarter in accordance with ASC 740.

The effective tax rate on loss from continuing operations was 39.5 percent for the three months ended March 31, 2013 compared to 37.8 percent for the three months ended March 31, 2012. The effective tax rate on loss from discontinued operations was 38.8 percent for each of the three month periods ended March 31, 2013 and 2012.

Table of Contents**Note 14. Business Segment Reporting**

The business of the Company is conducted through five reportable segments: Terminix, TruGreen, American Home Shield, ServiceMaster Clean and Other Operations and Headquarters.

In accordance with accounting standards for segments, the Company's reportable segments are strategic business units that offer different services. The Terminix segment provides termite and pest control services to residential and commercial customers and distributes pest control products. The TruGreen segment provides residential and commercial lawn, tree and shrub care services. The American Home Shield segment provides home warranties and preventative maintenance contracts for household systems and appliances. The ServiceMaster Clean segment provides residential and commercial disaster restoration, janitorial and cleaning services through franchises primarily under the ServiceMaster, ServiceMaster Restore and ServiceMaster Clean brand names, on-site wood furniture repair and restoration services primarily under the Furniture Medic brand name and home inspection services primarily under the AmeriSpec brand name. The Other Operations and Headquarters segment includes the franchised and Company-owned operations of Merry Maids, which provide home cleaning services. The Other Operations and Headquarters segment also includes SMAC, our financing subsidiary exclusively dedicated to providing financing to our franchisees and retail customers of our operating units, and the Company's headquarters operations, which provide various technology, marketing, finance, legal and other support services to the business units. The composition of our reportable segments is consistent with that used by our chief operating decision maker to evaluate performance and allocate resources.

Information regarding the accounting policies used by the Company is described in Note 2. The Company derives substantially all of its revenue from customers and franchises in the United States with less than two percent generated in foreign markets. Operating expenses of the business units consist primarily of direct costs.

**Note 15. Related Party Transactions**

In connection with the Merger and the related transactions, the Company entered into a consulting agreement with CD&R under which CD&R provides the Company with on-going consulting and management advisory services. The annual management fee payable under the consulting agreement with CD&R is \$6.25 million. Under this agreement, the Company recorded management fees of \$1.6 million in each of the three month periods ended March 31, 2013 and 2012, which is included in Selling and administrative expenses in the condensed consolidated statements of operations and comprehensive loss. The consulting agreement also provides that CD&R may receive additional fees in connection with certain subsequent financing and acquisition or disposition transactions. There were no additional fees incurred in the three months ended March 31, 2013 and 2012, respectively. The consulting agreement will terminate on July 24, 2017, unless terminated earlier at CD&R's election.

In addition, in August 2009, the Company entered into consulting agreements with Citigroup, BAS and JPMorgan. Under the consulting agreements, Citigroup, BAS and JPMorgan each provide the Company with on-going consulting and management advisory services through June 30, 2016 or the earlier termination of the existing consulting agreement between the Company and CD&R. On September 30, 2010, Citigroup transferred the management responsibility for certain investment funds that own shares of common stock of Holdings to StepStone and Lexington Partners Advisors LP. Citigroup also assigned its obligations and rights under its consulting agreement to StepStone, and beginning in the fourth quarter of 2010, the consulting fee otherwise payable to Citigroup became payable to StepStone. As of December 22, 2011, Holdings purchased from BAS 7.5 million shares of capital stock of Holdings, and, effective January 1, 2012, the annual consulting fee payable to BAS was reduced to \$0.25 million. The Company pays annual consulting fees of \$0.5 million, \$0.25 million and \$0.25 million to StepStone, BAS and JPMorgan, respectively. The Company recorded aggregate consulting fees related to these agreements of \$0.25 million in each of the three month periods ended March 31, 2013 and 2012, which is included in Selling and administrative expenses in the condensed consolidated statements of operations and comprehensive loss.

**Note 16. Fair Value Measurements**

The period end carrying amounts of receivables, accounts payable and accrued liabilities approximate fair value because of the short maturity of these instruments. The period end carrying amounts of long-term notes receivable approximate fair value as the effective interest rates for these instruments are comparable to market rates at period end. The period end carrying amounts of short- and long-term marketable securities also approximate fair value, with unrealized gains and losses reported net of tax as a component of accumulated other comprehensive income on the

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

condensed consolidated statements of financial position, or, for certain unrealized losses, reported in interest and net investment income in the condensed consolidated statements of operations and comprehensive loss if the decline in value is other than temporary. The carrying amount of total debt was \$3.957 billion and \$3.961 billion and the estimated fair value was \$4.068 billion and \$4.018 billion as of March 31, 2013 and December 31, 2012, respectively. The fair value of the Company's debt is estimated based on available market prices for the same or similar instruments which are considered significant other observable inputs (Level 2) within the fair value hierarchy. The fair values presented reflect the amounts that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The fair value estimates presented in this report are based on information available to the Company as of March 31, 2013 and December 31, 2012.

The Company has estimated the fair value of its financial instruments measured at fair value on a recurring basis using the market and income approaches. For investments in marketable securities, deferred compensation trust assets and derivative contracts, which are carried at their fair values, the Company's fair value estimates incorporate quoted market prices, other observable inputs (for example, forward interest rates) and unobservable inputs (for example, forward commodity prices) at the balance sheet date.

Edgar Filing: SERVICEMASTER CO - Form 10-Q

Table of Contents

Interest rate swap contracts are valued using forward interest rate curves obtained from third-party market data providers. The fair value of each contract is the sum of the expected future settlements between the contract counterparties, discounted to present value. The expected future settlements are determined by comparing the contract interest rate to the expected forward interest rate as of each settlement date and applying the difference between the two rates to the notional amount of debt in the interest rate swap contracts.

Fuel swap contracts are valued using forward fuel price curves obtained from third-party market data providers. The fair value of each contract is the sum of the expected future settlements between the contract counterparties, discounted to present value. The expected future settlements are determined by comparing the contract fuel price to the expected forward fuel price as of each settlement date and applying the difference between the contract and expected prices to the notional gallons in the fuel swap contracts. The Company regularly reviews the forward price curves obtained from third-party market data providers and related changes in fair value for reasonableness utilizing information available to the Company from other published sources.

The Company has not changed its valuation techniques for measuring the fair value of any financial assets and liabilities during the year. Transfers between levels, if any, are recognized at the end of the reporting period. There were no significant transfers between levels during each of the three month periods ended March 31, 2013 or 2012.

The carrying amount and estimated fair value of the Company's financial instruments that are recorded at fair value on a recurring basis for the periods presented are as follows:

The following table presents information relating to the significant unobservable inputs of our Level 3 financial instruments as of March 31, 2013:

Item	Fair Value as of March 31, 2013 (in thousands)	Valuation Technique	Unobservable Input	Range	Weighted Average
Fuel swap contracts	\$ 2,768	Discounted Cash Flows	Forward Unleaded Price per Gallon(1)	\$ 3.39 - \$ 3.94	\$ 3.71
			Forward Diesel Price per Gallon(1)	\$ 3.84 - \$ 3.97	\$ 3.93

(1) Forward price per gallon for unleaded and diesel were derived from third-party market data providers. A decrease in the forward price would result in a decrease in the fair value of the fuel swap contracts.

The Company uses derivative financial instruments to manage risks associated with changes in fuel prices and interest rates. The Company does not hold or issue derivative financial instruments for trading or speculative purposes. In designating its derivative financial instruments as hedging instruments under accounting standards for derivative instruments, the Company formally documents the relationship between the hedging instrument and the hedged item, as well as the risk management objective and strategy for the use of the hedging instrument. This documentation includes linking the derivatives to forecasted transactions. The Company assesses at the time a derivative contract is entered into, and at least quarterly thereafter, whether the derivative item is effective in offsetting the projected changes in cash flows of the associated forecasted transactions. All of the Company's designated hedging instruments are classified as cash flow hedges.

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

The Company has historically hedged a significant portion of its annual fuel consumption of approximately 20 million gallons. The Company has also hedged the interest payments on a portion of its variable-rate debt through the use of interest rate swap agreements. All of the Company's fuel swap contracts and interest rate swap contracts are classified as cash flow hedges, and, as such, the hedging instruments are recorded on the condensed consolidated statements of financial position as either an asset or liability at fair value, with the effective portion of changes in the fair value attributable to the hedged risks recorded in accumulated other comprehensive income. Any change in the fair value of the hedging instrument resulting from ineffectiveness, as defined by accounting standards, is recognized in current period earnings. Cash flows related to fuel and interest rate derivatives are classified as operating activities in the condensed consolidated statements of cash flows, other than cash flows related to one amended interest rate swap contract which are classified as financing activities.

Table of Contents

The effect of derivative instruments on the condensed consolidated statements of operations and comprehensive loss and accumulated other comprehensive income on the condensed consolidated statements of financial position for the three months ended March 31, 2013 and 2012, respectively, is presented as follows:

(In thousands)

Derivatives designated as Cash Flow Hedge Relationships	Effective Portion of Gain Recognized in Accumulated Other Comprehensive Income	Effective Portion of Gain (Loss) Reclassified from Accumulated Other Comprehensive Income into Earnings		Location of Gain (Loss) included in Earnings
		Three months ended March 31, 2013		
Fuel swap contracts	\$ 924	\$ 482		Cost of services rendered and products sold
Interest rate swap contracts	\$ 2,204	\$ (2,259)		Interest expense

Derivatives designated as Cash Flow Hedge Relationships	Effective Portion of Gain Recognized in Accumulated Other Comprehensive Income	Effective Portion of Gain (Loss) Reclassified from Accumulated Other Comprehensive Income into Earnings		Location of Gain (Loss) included in Earnings
		Three months ended March 31, 2012		
Fuel swap contracts	\$ 3,997	\$ 409		Cost of services rendered and products sold
Interest rate swap contracts	\$ 4,795	\$ (7,860)		Interest expense

Ineffective portions of derivative instruments designated in accordance with accounting standards as cash flow hedge relationships were insignificant during the three months ended March 31, 2013. As of March 31, 2013, the Company had fuel swap contracts to pay fixed prices for fuel with an aggregate notional amount of \$32.3 million, maturing through 2014. Under the terms of its fuel swap contracts, the Company is required to post collateral in the event that the fair value of the contracts exceeds a certain agreed upon liability level and in other circumstances required by the counterparty. As of March 31, 2013, the Company had posted \$4.0 million in letters of credit as collateral under its fuel hedging program, none of which were posted under the Company's senior secured revolving credit facility (the Revolving Credit Facility). As of March 31, 2013, the Company had interest rate swap contracts to pay fixed rates for interest on long-term debt with an aggregate notional amount of \$730.0 million, maturing through 2013.

The effective portion of the gain or loss on derivative instruments designated and qualifying as cash flow hedging instruments is recorded in accumulated other comprehensive income. These amounts are reclassified into earnings in the same period or periods during which the hedged forecasted debt interest settlement or the fuel settlement affects earnings. The amount expected to be reclassified into earnings during the next 12 months includes unrealized gains and losses related to open fuel hedges and interest rate swap contracts. Specifically, as the underlying forecasted transactions occur during the next 12 months, the hedging gains and losses in accumulated other comprehensive income expected to be recognized in earnings is a loss of \$0.1 million, net of tax, as of March 31, 2013. The amounts that are ultimately reclassified into earnings will be based on actual interest rates and fuel prices at the time the positions are settled and may differ materially from the amount noted above.

**Note 17. Condensed Consolidating Financial Statements of The ServiceMaster Company and Subsidiaries**

The following condensed consolidating financial statements of the Company and its subsidiaries have been prepared pursuant to Rule 3-10 of Regulation S-X. These condensed consolidating financial statements have been prepared from the Company's financial information on the same basis of accounting as the condensed consolidated financial statements. Goodwill and other intangible assets have been allocated to all of the subsidiaries of the Company based on management's estimates.

The payment obligations of the Company under the \$600 million aggregate principal amount of 8 percent senior notes due 2020 (the 8% 2020 Notes ) and \$750 million aggregate principal amount of 7 percent senior notes due 2020 (the 7% 2020 Notes , and together with the 8% 2020 Notes, the 2020 Notes ) are jointly and severally guaranteed on a senior unsecured basis by the Company's domestic subsidiaries that guarantee our indebtedness under the Term Loan Facility, the pre-funded letter of credit facility (together, the Term Facilities ) and the Revolving Credit Facility (together with the Term Facilities, the Credit Facilities ) (the Guarantors ). Each of the Guarantors is wholly owned, directly or indirectly, by the Company, and all guarantees are full and unconditional. Our non-U.S. subsidiaries, our subsidiaries subject to regulation as an insurance, home warranty, service contract or similar company, or certain other subsidiaries (the Non-Guarantors ) do not guarantee the 2020 Notes. A Guarantor will be released from its obligations under its guarantee under certain customary circumstances, including, (i) the sale or disposition of the Guarantor, (ii) the release of the Guarantor from all of its obligations under all guarantees related to any indebtedness of the Company, (iii) the merger or consolidation of the Guarantor as specified in the indenture governing the 2020 Notes, (iv) the Guarantor becomes an unrestricted subsidiary under the indenture governing the 2020 Notes, (v) the defeasance of the Company's obligations under the indenture governing the 2020 Notes or (vi) the payment in full of the principal amount of the 2020 Notes.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Recent Developments**

Harry J. Mullany III, our former Chief Executive Officer ( CEO ), resigned from the Company effective April 12, 2013. John Krenicki, Jr., the Chairman of the board of directors of Holdings, will serve as Interim CEO until a new CEO is named. Effective March 29, 2013, Charles M. Fallon, the former President of Terminix, resigned from the Company. Terminix's Vice President of Operations, Larry Pruitt, will serve as Interim President of Terminix until a new President of Terminix is named.

**Results of Operations**

The Company reported operating revenue of \$608.1 million for the first quarter of 2013, a \$46.6 million or 7.1 percent decrease compared to the first quarter of 2012. The operating revenue decrease was driven by the results of our business units as described in our Segment Review.

Operating income was \$20.1 million for the first quarter of 2013 compared to \$54.8 million for the first quarter of 2012. Loss from continuing operations before income taxes was \$37.8 million for the first quarter of 2013 compared to \$46.8 million for the first quarter of 2012. The change in loss from continuing operations before income taxes of \$9.0 million primarily reflects the net effect of year over year changes in the following items:

**(In thousands)**

Loss on extinguishment of debt(1)	\$	39,193
Interest expense(2)		4,579
Segment results(3)		(35,220)
Other		410
	\$	8,962

(1) Represents the loss on extinguishment of debt recorded in the first quarter of 2012 related to the redemption of \$600 million aggregate principal amount of the outstanding 10.75 percent senior notes due 2015 (the 2015 Notes ).

(2) Represents a decrease in interest expense as a result of decreases in our weighted average interest rate and average long-term debt balance during the first quarter of 2013 as compared to the first quarter of 2012.

(3) Represents the year over year change in loss from continuing operations before income taxes, as adjusted for the specific items included in the table above. Includes technology related costs of \$4.2 million recorded in the first quarter of 2012 related to the abandonment of certain internally developed software at Merry Maids, which did not recur in 2013.

Although no impairment of goodwill or trade names was indicated as of March 31, 2013, the financial performance of TruGreen was significantly below prior year levels. If this trend continues, goodwill and trade name impairments at TruGreen could result. It is possible that such impairments, if required, could be material and may need to be recorded before the Company's annual goodwill and trade name impairment test, which is conducted in the fourth quarter of each year.

### *Operating and Non-Operating Expenses*

#### *Cost of Services Rendered and Products Sold*

The Company reported cost of services rendered and products sold of \$373.2 million for the first quarter of 2013 compared to \$386.6 million for the first quarter of 2012. As a percentage of operating revenue, these costs increased to 61.4 percent for the first quarter of 2013 from 59.0 percent for the first quarter of 2012. This percentage increase primarily reflects reduced leverage due to the decline in operating revenue, lower labor efficiency at Terminix and TruGreen, an increase in ice melt sales at TruGreen, which has lower margins than core lawn services, and higher expenses in our automobile, general liability and workers' compensation insurance program, offset, in part, by lower provisions for certain legal matters at Terminix and lower product distribution revenue at Terminix, which has lower margins than pest control or termite revenue.

#### *Selling and Administrative Expenses*

The Company reported selling and administrative expenses of \$197.6 million for the first quarter of 2013 compared to \$191.4 million for the first quarter of 2012. As a percentage of operating revenue, these costs increased to 32.5 percent for the first quarter of 2013 from 29.2 percent for the first quarter of 2012. This percentage increase primarily reflects reduced leverage due to the decline in operating revenue, investments in sales labor at Terminix and TruGreen, higher costs related to new information technology systems at TruGreen and investments to drive improvements in service delivery at American Home Shield, offset, in part, by lower technology costs at Merry Maids, a reduction in tax-related reserves at American Home Shield and a reduction in spending in the Company's centers of excellence.

Table of Contents*Amortization Expense*

Amortization expense was \$13.9 million for the first quarter of 2013 compared to \$18.0 million for the first quarter of 2012. The decrease was a result of certain finite-lived intangible assets recorded in connection with the Merger being fully amortized.

*Restructuring Charges*

The Company incurred restructuring charges of \$3.3 million and \$4.0 million for the first quarter of 2013 and 2012, respectively. Restructuring charges were comprised of the following:

(In thousands)	Three months ended			
	March 31,		March 31,	
	2013	2012	2013	2012
Terminix branch optimization(1)	\$	950	\$	2,120

Total restructuring charges	\$	3,277	\$	3,990

(1) For the first quarter of 2013 and 2012, these charges included lease termination costs.

(2) For the first quarter of 2013 and 2012, these charges included severance costs of \$0.3 million and \$0.2 million, respectively. For the first quarter of 2012, these charges included lease termination costs of \$0.5 million.

(3) For the first quarter of 2013, these charges included severance costs.

(4) Represents restructuring charges related to an initiative to enhance capabilities and reduce costs in the Company's headquarters functions that provide company-wide administrative services for our operations that we refer to as centers of excellence. For the first quarter of 2013 and 2012, these charges included professional fees of \$1.4 million and \$0.7 million, respectively, and severance and other costs of \$0.4 million and \$0.5 million, respectively.

*Non-Operating Expense*

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

Non-operating expense totaled \$58.0 million for the first quarter of 2013 compared to \$101.5 million for the first quarter of 2012. This decrease is primarily due to a \$39.2 million loss on extinguishment of debt recorded in the first quarter of 2012 related to the redemption of \$600 million aggregate principal amount of the outstanding 2015 Notes and a \$4.6 million decrease in interest expense as a result of a decrease in our weighted average interest rate and average long-term debt balance. Interest and net investment income was comprised of the following for the first quarter of 2013 and 2012:

(In thousands)	Three months ended March 31,			
	2013		2012	
Realized gains(1)	\$	1,354	\$	1,346
Deferred compensation trust(2)		764		1,050
Other(3)		301		246
Interest and net investment income	\$	2,419	\$	2,642

---

(1) Represents the net investment gains and the interest and dividend income realized on the American Home Shield investment portfolio.

(2) Represents investment income resulting from a change in the market value of investments within an employee deferred compensation trust (for which there is a corresponding and offsetting change in compensation expense within loss from continuing operations before income taxes).

(3) Represents interest income on other cash balances.

Table of Contents**Income Taxes**

The effective tax rate on loss from continuing operations was 39.5 percent for the first quarter of 2013 compared to 37.8 percent for the first quarter of 2012.

**Net Income**

Net loss for the first quarter of 2013 was \$23.1 million compared to \$30.0 million for the first quarter of 2012. The \$6.9 million improvement was primarily driven by a \$9.0 million improvement in loss from continuing operations before income taxes and a \$0.8 million improvement in loss from discontinued operations, offset, in part, by a \$2.7 million reduction in benefit for income taxes.

**Key Performance Indicators**

The table below presents selected operating metrics related to customer counts and customer retention for our three largest revenue generating businesses. These measures are presented on a rolling, twelve-month basis in order to avoid seasonal anomalies. The impact of changes in our key performance indicators on the operating results of our business units is described in Segment Review.

**Segment Review**

The following business segment reviews should be read in conjunction with the required footnote disclosures presented in the Notes to condensed consolidated financial statements.

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

The Company uses Adjusted EBITDA and Operating Performance to facilitate operating performance comparisons from period to period. Adjusted EBITDA and Operating Performance are supplemental measures of the Company's performance that are not required by, or presented in accordance with, GAAP. Adjusted EBITDA and Operating Performance are not measurements of the Company's financial performance under GAAP and should not be considered as alternatives to net income or any other performance measures derived in accordance with GAAP or as alternatives to net cash provided by operating activities or any other measures of the Company's cash flow or liquidity. Adjusted EBITDA means net income (loss) before: income (loss) from discontinued operations; provision (benefit) for income taxes; equity in losses of joint ventures; other expense; gain (loss) on extinguishment of debt; interest expense; interest and net investment income; and depreciation and amortization expense; as well as adding back interest and net investment income and non-cash goodwill and trade name impairment. Operating Performance is calculated by adding back to Adjusted EBITDA an amount equal to the non-cash stock-based compensation expense; non-cash effects on Adjusted EBITDA attributable to the application of purchase accounting in connection with the Merger; restructuring charges and management and consulting fees.

The Company believes Adjusted EBITDA facilitates company-to-company operating performance comparisons by backing out potential differences caused by variations in capital structures (affecting net interest income and expense), taxation and the age and book depreciation of facilities and equipment (affecting relative depreciation expense), which may vary for different companies for reasons unrelated to operating performance. The Company uses Operating Performance as a supplemental measure to assess the Company's performance because it excludes non-cash stock-based compensation expense, non-cash effects on Adjusted EBITDA attributable to the application of purchase accounting in connection with the Merger, restructuring charges and management and consulting fees. The Company presents Operating Performance because it believes that it is useful for investors, analysts and other interested parties in their analysis of the Company's operating results.

Table of Contents

Charges relating to stock-based compensation expense and the impact of purchase accounting are non-cash and the exclusion of the impact of these items from Operating Performance allows investors to understand the current period results of operations of the business on a comparable basis with previous periods and, secondarily, gives the investors added insight into cash earnings available to service the Company's debt. We believe this to be of particular importance to the Company's public investors, which are debt holders. The Company also believes that the exclusion of purchase accounting, non-cash stock-based compensation expense, restructuring charges and management and consulting fees may provide an additional means for comparing the Company's performance to the performance of other companies by eliminating the impact of differently structured equity-based, long-term incentive plans, restructuring initiatives and consulting agreements (although care must be taken in making any such comparison, as there may be inconsistencies among companies in the manner of computing similarly titled financial measures).

Adjusted EBITDA and Operating Performance have limitations as analytical tools, and should not be considered in isolation or as substitutes for analyzing the Company's results as reported under GAAP. Some of these limitations are:

- Adjusted EBITDA and Operating Performance do not reflect changes in, or cash requirements for, the Company's working capital needs;
- Adjusted EBITDA and Operating Performance do not reflect the Company's interest expense, or the cash requirements necessary to service interest or principal payments on the Company's debt;
- Adjusted EBITDA and Operating Performance do not reflect the Company's tax expense or the cash requirements to pay the Company's taxes;
- Adjusted EBITDA and Operating Performance do not reflect historical cash expenditures or future requirements for capital expenditures or contractual commitments, nor should they be relied upon to assess current or future liquidity;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA and Operating Performance do not reflect any cash requirements for such replacements;
- Other companies in the Company's industries may calculate Adjusted EBITDA and Operating Performance differently, limiting their usefulness as comparative measures;
- Operating Performance does not include purchase accounting and non-cash stock-based compensation expense; the latter of which may cause the overall compensation cost of the business to be understated; and

Edgar Filing: SERVICEMASTER CO - Form 10-Q

- Operating Performance does not include restructuring charges and management and consulting fees, the exclusion of which may cause the operating expenses of the business to be understated.

(2) Interest and net investment income is primarily comprised of investment income and realized gain (loss) on our American Home Shield segment investment portfolio. Cash, short- and long-term marketable securities associated with regulatory requirements in connection with American Home Shield and for other purposes totaled \$265.9 million as of March 31, 2013. American Home Shield interest and net investment income was \$1.4 million and \$1.3 million for the first quarter of 2013 and 2012, respectively. The balance of interest and net investment income primarily relates to (i) investment income from our employee deferred compensation trust (for which there is a corresponding and offsetting change in compensation expense within loss from continuing operations before income taxes) and (ii) interest income on other cash balances.

(3) Represents restructuring charges primarily related to a branch optimization project at Terminix, a reorganization of field leadership and a restructuring of branch operations at TruGreen, reorganization of leadership at ServiceMaster Clean and Merry Maids and an initiative to enhance capabilities and reduce costs in our centers of excellence at Other Operations and Headquarters.

(4) Represents management and consulting fees payable to certain related parties. See Note 15 to the condensed consolidated financial statements for further information on management and consulting fees.

(5) There are no adjustments necessary to reconcile operating loss from discontinued operations to Operating Performance from discontinued operations for the first quarter of 2013 and 2012.

(6) The Merger was accounted for using purchase accounting. This adjustment represents the aggregate, non-cash adjustments (other than amortization and depreciation) attributable to the application of purchase accounting.

***Terminix Segment***

***Three Months Ended March 31, 2013***

The Terminix segment, which provides termite and pest control services to residential and commercial customers and distributes pest control products, reported a 0.6 percent increase in operating revenue, a 0.5 percent decrease in operating income and a 2.9 percent decrease in Operating Performance for the first quarter of 2013 compared to the first quarter of 2012. Pest control revenue, which was 55 percent of the segment's operating revenue in the first quarter of 2013, increased 5.0 percent compared to 2012, reflecting a 0.4 percent increase in average customer counts and improved price realization. Absolute pest control customer counts as of March 31, 2013 compared to March 31, 2012 decreased 0.5 percent, driven by a 130 basis points ( bps ) decrease in the customer retention rate and a decrease in new unit sales and acquisitions. Termite revenue, which was 41 percent of the segment's operating revenue in the first quarter of 2013, decreased 3.7 percent compared to 2012. Termite renewal revenue comprised 60 percent of total termite revenue, while the remainder consisted of termite new unit sales. The decrease in termite revenue reflects a decrease in new unit sales, a 1.4 percent decrease in average renewal customer counts and the unfavorable timing of renewal revenue, offset, in part, by improved price realization. Absolute termite renewal customer counts as of March 31, 2013 compared to March 31, 2012 declined 1.9 percent driven by a 60 bps decrease in the customer retention rate and a decrease in new unit sales, offset, in part, by acquisitions. Product distribution revenue, which has lower margins than pest or termite revenue and accounted for approximately four percent of the segment's operating revenue in the first quarter of 2013, decreased \$1.3 million compared to 2012.

Terminix's Operating Performance decreased \$2.6 million for the first quarter of 2013 compared to the first quarter of 2012. This decrease primarily reflects lower labor efficiency, investments in sales labor to support targeted sales growth in certain areas of the country and higher bad debt expense, offset, in part, by the impact of higher operating revenue, lower provisions for certain legal matters and lower product distribution revenue, which has lower margins than pest control or termite revenue.

*TruGreen Segment*

TruGreen ended 2012 with three key challenges: a product offering that was too narrow, operational inefficiency due to changes in key technology and lower customer counts. The Company has taken steps in the first quarter of 2013 to begin to address each of these challenges. First, the Company redesigned its core product offerings and introduced a tiered product structure, giving customers varying price points to choose from. In addition, the Company has made investments in all sales and marketing channels, including higher staffing levels, improved training programs and new sales tools. The Company also continues to invest in, and improve, its newly implemented operating systems.

Table of Contents

***Three Months Ended March 31, 2013***

The TruGreen segment reported a 28.3 percent decrease in operating revenue, a \$35.1 million decrease in operating income and a \$34.1 million decrease in Operating Performance for the first quarter of 2013 compared to the first quarter of 2012. Revenue from residential lawn service customers, which was 81 percent of the segment's operating revenue in the first quarter of 2013, decreased 32.5 percent compared to 2012, reflecting a 10.5 percent decline in average residential full program customer counts, inefficiencies in service delivery caused by integration issues with newly implemented technology and the unfavorable timing of production driven by a much colder and wetter first quarter than experienced a year ago. Absolute customer counts as of March 31, 2013 compared to March 31, 2012 declined 9.8 percent, driven by a decrease in new unit sales and acquisitions, offset, in part, by a 300 bps increase in the residential full program customer retention rate. The decrease in new unit sales was significantly impacted by limited options in our 2012 product offerings and the rebalancing of our sales channel mix in 2012. For the first quarter of 2013 compared to 2012, the segment's operating revenue also reflects a \$2.4 million decrease in revenue from commercial customers, offset, in part, by a \$1.8 million increase in third-party revenue, primarily sales of ice melt products.

TruGreen's Operating Performance decrease of \$34.1 million for the first quarter of 2013 compared to the first quarter of 2012 primarily reflects the impact of lower operating revenue, lower labor efficiency, higher sales staffing levels, higher costs related to new information technology systems, which were recently deployed, an increase in ice melt sales, which has lower margins than core lawn services, and higher key executive transition charges.

***American Home Shield Segment***

***Three Months Ended March 31, 2013***

The American Home Shield segment, which provides home warranties and preventative maintenance contracts for household systems and appliances, reported a 9.9 percent decrease in operating revenue, a 15.3 percent decrease in operating income and a 13.6 percent decrease in Operating Performance for the first quarter of 2013 compared to the first quarter of 2012. The operating revenue results reflect a decrease due to differences between years in the timing of contract claims, offset, in part, by improved price realization and a 0.2 percent increase in average customer counts. American Home Shield recognizes revenue over the contract period in proportion to expected direct costs. Absolute customer counts as of March 31, 2013 increased 0.8 percent compared to March 31, 2012 driven by an increase in new unit sales, offset, in part, by a 60 bps decrease in the customer retention rate.

American Home Shield's Operating Performance decreased \$4.3 million for the first quarter of 2013 compared to the first quarter of 2012. This decrease primarily reflects the impact of lower operating revenue and investments to drive improvements in service delivery, offset, in part, by a \$3.3 million reduction in tax-related reserves, which was recorded in the first quarter of 2013, and a favorable adjustment to reserves for prior year contract claims.

American Home Shield is investing in a new operating system that is designed to improve customer relationship management capabilities and enhance our operations. The development has taken longer than anticipated, which has resulted in delays in our implementation. We expect to continue to incur capitalizable and non-capitalizable technology charges through the final implementation date but do not expect these charges to have a material impact on our financial position, results of operations or cash flows.

*ServiceMaster Clean Segment*

*Three Months Ended March 31, 2013*

The ServiceMaster Clean segment, which provides residential and commercial disaster restoration, janitorial and cleaning services through franchises primarily under the ServiceMaster, ServiceMaster Restore and ServiceMaster Clean brand names, on-site wood furniture repair and restoration services primarily under the Furniture Medic brand name and home inspection services primarily under the AmeriSpec brand name, reported a 10.9 percent increase in operating revenue, a 14.2 percent increase in operating income and a 13.6 percent increase in Operating Performance for the first quarter of 2013 compared to the first quarter of 2012. Domestic royalty fees, which were 53 percent of the segment's operating revenue in the first quarter of 2013, increased 5.9 percent compared to 2012, primarily driven by increases in disaster restoration services. Revenue from janitorial national accounts, which was 14 percent of the segment's operating revenue in the first quarter of 2013, increased 48.9 percent compared to 2012, driven by strong sales activity. Sales of products to franchisees, which were 8 percent of the segment's operating revenue in the first quarter of 2013, increased 9.6 percent compared to 2012, driven by higher franchisee demand for equipment.

Table of Contents

ServiceMaster Clean's Operating Performance increased \$1.8 million for the first quarter of 2013 compared to the first quarter of 2012. This increase primarily reflects the impact of higher operating revenue and improved efficiencies in sales labor.

***Other Operations and Headquarters Segment***

***Three Months Ended March 31, 2013***

This segment includes the franchised and Company-owned operations of Merry Maids, SMAC and the Company's headquarters functions. The segment reported a 3.8 percent increase in operating revenue, an 8.5 percent improvement in operating loss and a 12.2 percent improvement in Operating Performance for the first quarter of 2013 compared to the first quarter of 2012.

Merry Maids, which accounted for 92.9 percent of the segment's operating revenue in the first quarter of 2013, reported a 3.1 percent increase in operating revenue, a \$3.4 million increase in operating income and a \$3.4 million increase in Operating Performance for the first quarter of 2013 compared to the first quarter of 2012. Revenue from company-owned branches, which was 73 percent of Merry Maids' operating revenue in the first quarter of 2013, increased 3.9 percent compared to 2012, reflecting an 8.9 percent increase in average customer counts and improved price realization, offset, in part, by a decline in the frequency of services provided for existing customers. Absolute customer counts as of March 31, 2013 compared to March 31, 2012 increased 7.8 percent driven by a 250 bps increase in the customer retention rate and an increase in acquisitions, offset, in part, by a decrease in new unit sales. Royalty fees, which were 21 percent of Merry Maids' operating revenue in the first quarter of 2013, were comparable to 2012. Sales of products to franchisees, which were 6 percent of Merry Maids' operating revenue in the first quarter of 2013, increased 5.8 percent compared to 2012, driven by higher sales of equipment and cleaning supplies.

Merry Maids' Operating Performance increased \$3.4 million for the first quarter of 2013 compared to the first quarter of 2012. Technology costs of \$4.2 million were recorded in the first quarter of 2012, which related to the abandonment of certain internally developed software. The remaining \$0.8 million decrease primarily reflects higher branch labor costs and higher technology costs related to a new operating system, offset, in part, by the impact of higher operating revenue.

The Operating Performance of the Company's headquarters functions and SMAC increased \$0.4 million for the first quarter of 2013 compared to the first quarter of 2012. This increase primarily reflects a reduction in spending in the Company's centers of excellence and lower key executive transition charges, offset, in part, by higher expenses in our automobile, general liability and workers' compensation insurance program.

***Discontinued Operations***

The components of loss from discontinued operations, net of income taxes for the first quarter of 2013 and 2012 are as follows:

(In thousands)	Three months ended			
	March 31,		2012	
	2013		2012	
Operating loss	\$	(269)	\$	(331)
Benefit for income taxes		(104)		(129)
Operating loss, net of income taxes		(165)		(202)
Loss on sale, net of income taxes				(722)
Loss from discontinued operations, net of income taxes	\$	(165)	\$	(924)

There were no adjustments necessary to reconcile operating loss from discontinued operations to Operating Performance from discontinued operations for the first quarters of 2013 and 2012.

## FINANCIAL POSITION AND LIQUIDITY

### *Cash Flows from Operating Activities from Continuing Operations*

Net cash used for operating activities from continuing operations decreased \$18.8 million to \$13.1 million for the first quarter of 2013 compared to \$31.9 million for the first quarter of 2012.

Net cash used for operating activities for the first quarter 2013 was comprised of a \$17.0 million increase in cash required for working capital and \$4.7 million in cash payments related to restructuring charges, offset, in part, by \$8.5 million in earnings adjusted for non-cash charges. The increase in working capital requirements for the first quarter of 2013 was driven primarily by the timing of interest payments on the 2020 Notes, incentive compensation payments related to 2012 performance and seasonal activity.

Table of Contents

Net cash used for operating activities for the first quarter of 2012 was comprised of a \$36.7 million increase in cash required for working capital, \$32.3 million in cash payments for the call premium paid on the redemption of \$600 million aggregate principal amount of the outstanding 2015 Notes and \$3.4 million in cash payments related to restructuring charges, offset, in part, by \$37.4 million in earnings adjusted for non-cash charges and \$3.0 million in premiums received on issuance of the 8% 2020 Notes. The increase in working capital requirements for the first quarter of 2012 was driven primarily by seasonal activity, incentive compensation payments related to 2011 performance and the timing of interest payments on the 2015 Notes.

***Cash Flows from Investing Activities from Continuing Operations***

Net cash used for investing activities from continuing operations was \$26.1 million for the first quarter of 2013 compared to \$44.2 million for the first quarter of 2012.

Capital expenditures decreased to \$19.1 million for the first quarter of 2013 from \$29.9 million for the first quarter of 2012 and included recurring capital needs and information technology projects, including a new operating system and telecommunications infrastructure at TruGreen and a new operating system at American Home Shield. The Company anticipates that capital expenditures for the full year 2013 will range from \$85.0 million to \$95.0 million, reflecting recurring needs and the continuation of investments in information systems and productivity enhancing technology including new operating systems at TruGreen, American Home Shield and Merry Maids. The Company fulfilled its vehicle fleet needs through vehicle capital leases in 2012 and expects to fulfill its ongoing vehicle fleet needs in the same manner. The Company has no additional material capital commitments at this time.

Cash payments for acquisitions for the first quarter of 2013 totaled \$3.8 million, compared with \$6.0 million for the first quarter of 2012. Consideration paid for tuck-in acquisitions consisted of cash payments and debt payable to sellers. The Company expects to continue its tuck-in acquisition program at levels consistent with prior periods.

Cash flows used for notes receivable, financial investments and securities, net for the first quarter of 2013 was driven by increased investments in marketable securities at American Home Shield, offset, in part, by collections of amounts financed by SMAC. Cash flows used for notes receivable, financial investments and securities, net for the first quarter of 2012 was primarily driven by increased investments in marketable securities at American Home Shield.

***Cash Flows from Financing Activities from Continuing Operations***

Net cash used for financing activities from continuing operations was \$29.2 million for the first quarter of 2013 compared to \$23.9 million for the first quarter of 2012.

During the first quarter of 2013, the Company made scheduled principal payments on long-term debt of \$11.1 million and made payments on other long-term financing obligations of \$1.7 million. Additionally, the Company borrowed an incremental \$0.9 million, paid \$12.2 million in original issue discount and paid debt issuance costs of \$5.1 million as part of the 2013 Term Loan Facility Amendment.

During the first quarter of 2012, the Company sold \$600.0 million aggregate principal amount of the 8% 2020 Notes and used the proceeds, together with available cash, to redeem \$600.0 million aggregate principal amount of the outstanding 2015 Notes, made scheduled principal payments on long-term debt of \$9.5 million, made payments on other long-term financing obligations of \$1.7 million and paid debt issuance costs of \$12.7 million related to the sale of the 8% 2020 Notes.

### *Liquidity*

The Company is highly leveraged, and a substantial portion of the Company's liquidity needs is due to service requirements on indebtedness incurred in connection with the Merger, all of which has been refinanced, and from funding the Company's operations, working capital and capital expenditures. The agreements governing the Term Facilities, the 2020 Notes and the Revolving Credit Facility contain covenants that limit or restrict the ability of the Company to incur additional indebtedness, repurchase debt, incur liens, sell assets, make certain payments (including dividends) and enter into transactions with affiliates. As of March 31, 2013, the Company was in compliance with the covenants under these agreements that were in effect on such date.

The Company's ongoing liquidity needs are expected to be funded by cash on hand, net cash provided by operating activities and, as required, borrowings under the Revolving Credit Facility. We expect that cash provided from operations and available capacity under the Revolving Credit Facility will provide sufficient funds to operate our business, make expected capital expenditures and meet our liquidity requirements for the following 12 months, including payment of interest and principal on our debt. As of March 31, 2013, the Company had \$447.7 million of remaining capacity available under the Revolving Credit Facility.

Table of Contents

*Cash and Marketable Securities*

Cash and short- and long-term marketable securities totaled \$509.9 million as of March 31, 2013, compared with \$568.5 million as of December 31, 2012. As of March 31, 2013 and December 31, 2012, \$265.9 million and \$243.7 million, respectively, of the cash and short- and long-term marketable securities balances were associated with regulatory requirements at American Home Shield and for other purposes. Such amounts are identified as being potentially unavailable to be paid to the Company by its subsidiaries. American Home Shield's investment portfolio has been invested in a combination of high-quality, short-duration fixed-income securities and equities. The Company closely monitors the performance of the investments. From time to time, the Company reviews the statutory reserve requirements to which its regulated entities are subject and any changes to such requirements. These reviews may result in identifying current reserve levels above or below minimum statutory reserve requirements, in which case the Company may adjust its reserves. The reviews may also identify opportunities to satisfy certain regulatory reserve requirements through alternate financial vehicles.

*Fleet and Equipment Financing Arrangements*

A portion of the Company's vehicle fleet and some equipment are leased through month-to-month operating leases, cancelable at the Company's option. There are residual value guarantees by the Company (which approximated 84 percent of the estimated terminal value at the inception of the lease) relative to these vehicles and equipment, which historically have not resulted in significant net payments to the lessors. The fair value of the assets under all of the fleet and equipment leases is expected to substantially mitigate the Company's guarantee obligations under the agreements. As of March 31, 2013, the Company's residual value guarantees related to the leased assets totaled \$17.7 million for which the Company has recorded as a liability the estimated fair value of these guarantees of \$0.3 million in the condensed consolidated statements of financial position.

The Company has entered into a fleet management services agreement (the "Fleet Agreement") which, among other things, allows the Company to obtain fleet vehicles through a leasing program. The Company expects to fulfill substantially all of its vehicle fleet needs in 2013 through the leasing program under the Fleet Agreement. As of March 31, 2013, the Company had acquired \$13.9 million of vehicles under the Fleet Agreement leasing program. All leases under the Fleet Agreement are capital leases for accounting purposes. The lease rental payments include an interest component calculated using a variable rate based on one-month LIBOR plus other contractual adjustments and a borrowing margin totaling 2.45%. The Company has no minimum commitment for the number of vehicles to be obtained under the Fleet Agreement. The Company anticipates that new lease financings under the Fleet Agreement for the full year 2013 will range from \$45.0 million to \$55.0 million.

Under the terms of its fuel swap contracts, the Company is required to post collateral in the event that the fair value of the contracts exceeds a certain agreed upon liability level and in other circumstances required by the counterparty. As of March 31, 2013, the estimated fair value of the Company's fuel swap contracts was a net asset of \$2.8 million, and the Company had posted \$4.0 million in letters of credit as collateral under its fuel hedging program, none of which were issued under the Company's Revolving Credit Facility. The continued use of letters of credit for this purpose could limit the Company's ability to post letters of credit for other purposes and could limit the Company's borrowing availability under the Revolving Credit Facility. However, the Company does not expect the fair value of its outstanding fuel swap contracts to materially impact its financial position or liquidity.

*Term Facilities*

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

On February 22, 2013, the Company entered into the 2013 Term Loan Facility Amendment to amend the Credit Agreement primarily to extend the maturity date of a portion of the borrowings under the Term Loan Facility. Pursuant to the 2013 Term Loan Facility Amendment, the maturity of the outstanding Tranche A loans was extended, and such loans were converted into Tranche C loans. The maturity date for the new Tranche C loans is January 31, 2017. The interest rates applicable to the Tranche C loans under the Term Loan Facility are based on a fluctuating rate of interest measured by reference to either, at the Company's option, (i) an adjusted London inter-bank offered rate (adjusted for maximum reserves) plus 3.25 percent, with a minimum adjusted London inter-bank offered rate of 1.00 percent or (ii) an alternate base rate plus 2.25 percent, with a minimum alternate base rate of 2.00 percent. As part of the 2013 Term Loan Facility Amendment, the Company paid an original issue discount equal to 1.00 percent of the outstanding borrowings, or \$12.2 million. Voluntary prepayments of borrowings under the Tranche C Loans are permitted at any time, in minimum principal amounts, without premium or penalty, except for a 1.00 percent premium payable in connection with certain repricing transactions within the first year. As a result of the 2012 Term Loan Facility Amendment and the 2013 Term Loan Facility Amendment, the Company has, as of March 31, 2013, approximately \$2.203 billion of outstanding borrowings maturing January 31, 2017, after including the unamortized portion of the original issue discount paid.

### *Senior Notes*

In August 2012, the Company sold in transactions exempt from registration under the Securities Act of 1933, as amended, \$750 million aggregate principal amount of 7% 2020 Notes. In connection with the issuance of the 7% 2020 Notes, the Company entered into a registration rights agreement, pursuant to which the Company filed with the SEC a registration statement with respect to

Table of Contents

the resale of the 7% 2020 Notes, which was declared effective on April 18, 2013. The 7% 2020 Notes will mature on August 15, 2020 and bear interest at a rate of 7 percent per annum. The 2020 Notes are guaranteed on a senior unsecured basis by certain domestic subsidiaries of the Company. The Company used a majority of the proceeds from the 7% 2020 Notes to redeem the remaining \$396 million aggregate principal amount of its 2015 Notes and to repay \$276 million of outstanding borrowings under its Term Facilities during the third quarter of 2012.

*Accounts Receivable Securitization*

The Company has an accounts receivable securitization arrangement under which Terminix and TruGreen may sell certain eligible trade accounts receivable to Funding, the Company's wholly owned, bankruptcy-remote subsidiary, which is consolidated for financial reporting purposes. Funding, in turn, may transfer, on a revolving basis, an undivided percentage ownership interest of up to \$50.0 million in the pool of accounts receivable to one or both of the Purchasers. The amount of the eligible receivables varies during the year based on seasonality of the businesses and could, at times, limit the amount available to the Company from the sale of these interests. As of March 31, 2013, the amount of eligible receivables was approximately \$39.2 million.

During the first quarter of 2013, there were no transfers of interests in the pool of trade accounts receivable to Purchasers under this arrangement. As of March 31, 2013 and December 31, 2012, the Company had \$10.0 million outstanding under the arrangement and, as of March 31, 2013, had \$29.2 million of remaining capacity available under the accounts receivable securitization arrangement.

The accounts receivable securitization arrangement is a 364-day facility scheduled to mature on October 23, 2013. Unless the arrangement is renegotiated or extended prior to its expiration, all obligations under the accounts receivable securitization arrangement must be repaid by October 23, 2013.

*Limitations on Distributions and Dividends by Subsidiaries*

As a holding company, we depend on our subsidiaries to distribute funds to us so that we may pay our obligations and expenses, including our debt service obligations. The ability of our subsidiaries to make distributions and dividends to us depends on their operating results, cash requirements and financial condition and general business conditions, as well as restrictions under the laws of their jurisdictions.

The payment of ordinary and extraordinary dividends by the Company's subsidiaries that are regulated as an insurance, home warranty, service contract or similar company is subject to applicable state law limitations. Insurance subsidiaries and home warranty and similar subsidiaries (through which ServiceMaster conducts its American Home Shield business) are subject to significant regulatory restrictions under the laws and regulations of the states in which they operate. Among other things, such laws and regulations require certain such subsidiaries to maintain minimum capital and net worth requirements and may limit the amount of ordinary and extraordinary dividends and other payments that these subsidiaries can pay to ServiceMaster. For example, certain states prohibit payment by these subsidiaries to ServiceMaster of dividends in excess of 10% of their capital as of the most recent year end, as determined in accordance with prescribed insurance accounting practices in those states. Of the \$265.9 million as of March 31, 2013, which we identify as being potentially unavailable to be paid to the Company by its subsidiaries, approximately \$210.9 million is held by our home warranty and insurance subsidiaries and is subject to these regulatory limitations on the payment of funds to us. Such limitations will be in effect through the end of 2013, and we expect similar limitations will be in effect in 2014. The remainder of the \$265.9 million, or \$55.0 million, is related to amounts that the Company's management does not consider readily

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

available to be used to service indebtedness due, among other reasons, to the Company's cash management practices and working capital needs at various subsidiaries. None of the subsidiaries of ServiceMaster are obligated to make funds available to ServiceMaster through the payment of dividends.

We consider undistributed earnings of our foreign subsidiaries as of March 31, 2013, to be indefinitely reinvested and, accordingly, no U.S. income taxes have been provided thereon. The amount of cash associated with indefinitely reinvested foreign earnings was approximately \$27.6 million and \$28.7 million as of March 31, 2013 and December 31, 2012, respectively. We have not repatriated, nor do we anticipate the need to repatriate, funds to the United States to satisfy domestic liquidity needs arising in the ordinary course of business, including liquidity needs associated with our domestic debt service requirements.

### *Contractual Obligations*

The 2012 Form 10-K includes disclosure of the Company's contractual obligations and commitments as of December 31, 2012. The Company continues to make the contractually required payments, and, therefore, the 2013 obligations and commitments as listed in the 2012 Form 10-K have been reduced by the required payments. Other than the debt transactions discussed above in Term

Table of Contents

Facilities, there were no material changes outside of the ordinary course of business in the Company's previously disclosed contractual obligations and commitments during the three months ended March 31, 2013.

***Off-Balance Sheet Arrangements***

The Company has off-balance sheet arrangements in the form of guarantees as discussed in Note 4 of the condensed consolidated financial statements.

**Disclosure under Section 13(r) of the Exchange Act**

Under Section 13(r) of the Exchange Act as added by the Iran Threat Reduction and Syrian Human Rights Act of 2012, we are required to include certain disclosures in our periodic reports if we or any of our affiliates (as defined in Rule 12b-2 thereunder) knowingly engage in certain activities specified in Section 13(r) during the period covered by the report. Because the SEC defines the term "affiliate" broadly, it includes any entity that controls us or is under common control with us ("control" is also construed broadly by the SEC). Our affiliate, CD&R, has informed us that an indirect subsidiary of SPIE S.A. ("SPIE"), an affiliate of CD&R based in France, maintained bank accounts at Bank Melli with the approval of the French financial regulator (applying European Union law) during the period covered by this report. Bank Melli is an Iranian bank designated under Executive Order No. 13382. We have no knowledge of or control over the activities of SPIE or its subsidiaries. CD&R has informed us that during the period covered by this report, the SPIE subsidiary used the accounts to make two tax payments to the Government of Iran, withdrew cash to pay various administrative expenses, and received a transfer of funds from a vendor. The total volume of these transactions in the SPIE subsidiary's accounts at Bank Melli, excluding transfers between those accounts, during the period covered by this report was the equivalent of less than \$200,000 at the Iranian Central Bank's official exchange rate. CD&R has informed us that SPIE and its subsidiaries obtained no revenue or profit from these transactions, that CD&R and SPIE have disclosed these matters to the Office of Foreign Assets Control in the U.S. Treasury Department ("OFAC"), that SPIE and its subsidiaries intended to comply with all applicable laws, and that SPIE and its subsidiaries do not intend to conduct any transaction or dealing with Bank Melli or the Government of Iran in the future other than any transactions that may be authorized by the applicable French governmental authority and OFAC.

**Information Regarding Forward-Looking Statements**

This report contains forward-looking statements and cautionary statements. Some of the forward-looking statements can be identified by the use of forward-looking terms such as believes, expects, may, will, shall, should, would, could, seeks, aims, projects, is optimistic, estimates, anticipates or other comparable terms. Forward-looking statements include, without limitation, all matters that are not historical facts. They appear in a number of places throughout this report and include, without limitation, statements regarding our intentions, beliefs, assumptions or current expectations concerning, among other things, financial position; results of operations; cash flows; prospects; commodities trends; growth strategies or expectations; expanding our commercial services; expectations for American Home Shield's and Merry Maids' new operating systems, which are currently under development, and TruGreen's new operating system, which was recently deployed; capital expenditures and requirements, including for American Home Shield's, TruGreen's and Merry Maids' new operating systems; plans for equipping TruGreen's sales associates with handheld technology to make the sales process more efficient and effective; human resources, finance and other outsourcing and insourcing arrangements; customer retention; the continuation of acquisitions; fuel prices; impairment charges related to goodwill and intangible assets; estimates of future amortization expense for intangible assets; attraction and retention of key personnel, including attracting a new CEO; the impact of interest rate hedges and fuel swaps; the cost savings from restructurings and reorganizations and expected charges related to such restructurings and reorganizations; the impact on the amount of unrecognized tax benefits resulting from pending tax settlements and expiration of statutes of limitations; the valuation of marketable securities; estimates of accruals for self-insured

claims related to workers' compensation, auto and general liability risks; estimates of accruals for home warranty claims; estimates of future payments under operating and capital leases; the outcome (by judgment or settlement) and costs of legal or administrative proceedings, including, without limitation, collective, representative or class action litigation; continuation of tuck-in acquisitions; and the impact of prevailing economic conditions.

Forward-looking statements are subject to known and unknown risks and uncertainties, many of which may be beyond our control. We caution you that forward-looking statements are not guarantees of future performance or outcomes and that actual performance and outcomes, including, without limitation, our actual results of operations, financial condition and liquidity, and the development of the market segments in which we operate, may differ materially from those made in or suggested by the forward-looking statements contained in this report. In addition, even if our results of operations, financial condition and cash flows, and the development of the market segments in which we operate, are consistent with the forward-looking statements contained in this report, those results or developments may not be indicative of results or developments in subsequent periods. A number of important factors, including, without limitation, the risks and uncertainties discussed in Item 1A Risk Factors in Part I of the 2012 Form 10-K and in Risk Factors in the Company's Form S-4 filed on April 16, 2013, could cause actual results and outcomes to differ materially from

those reflected in the forward-looking statements. Additional factors that could cause actual results and outcomes to differ from those reflected in forward-looking statements include, without limitation:

- the effects of our substantial indebtedness and the limitations contained in the agreements governing such indebtedness;
- our ability to generate the significant amount of cash needed to fund our operations and service our debt obligations, among other things;
- changes in interest rates, because a significant portion of our indebtedness bears interest at variable rates;
- changes in the discount rates, revenue growth, cash flow growth rates or other assumptions used by the Company in its assessment for impairment of goodwill and intangible assets and adverse economic conditions or other factors that would result in significant impairment charges to our goodwill and/or intangible assets;
- our ability to secure sources of financing or other funding to allow for leasing of commercial vehicles, primarily for Terminix and TruGreen;
- our ability to successfully implement our strategy for TruGreen, including the redesign of TruGreen's product mix and the re-balancing of its sales mix and marketing program and the deployment of TruGreen's new mobility technology;
- changes in the source and intensity of competition in our market segments;
- our ability to attract and retain key personnel, including attracting a new CEO;
- weather conditions, including, without limitation, potential impacts, if any, from climate change, known and unknown, and seasonality factors that affect the demand for, or our ability to provide, our services and the cost and quantity of our claims and services;
- higher commodity prices and lack of availability thereof, including, without limitation, fuel and chemicals (primarily at Terminix and TruGreen), which could impact our ability to provide our services and the profitability of our brands;

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

- increases in operating costs, such as higher insurance premiums, self-insurance costs, labor expense and compensation and benefits costs, including, without limitation, costs related to the comprehensive health care reform law enacted in 2010;
- associate retention and labor shortages, changes in employment and wage and hour laws and regulations, such as equal pay initiatives, additional anti-discrimination rules or tests and different interpretations of exemptions from overtime laws;
- epidemics, pandemics or other public health concerns or crises that could affect the demand for, or our ability to provide our services, resulting in a reduction in operating revenue;
- a continuation or change in general economic, financial and credit conditions in the United States and elsewhere (for example, any adverse developments in the global credit and financial markets due to the ongoing European financial and economic crisis and the United States debt ceiling, deficit and budget issues), especially as such may affect home sales, consumer or business liquidity, bank failures, consumer or commercial confidence or spending levels including as a result of inflation or deflation, unemployment, interest rate fluctuations, changes in discount rates, mortgage foreclosures and subprime credit dislocations;
- a failure of any insurance company that provides insurance or reinsurance to us or of third-party contract partners, including counterparties to our fuel and interest rate swaps;
- changes in our services or products;
- existing and future governmental regulation and the enforcement thereof, including, without limitation, regulation relating to the environment, including the Federal Trade Commission rules on green marketing; restricting or banning of telemarketing; door-to-door solicitation; direct mail or other marketing activities; Terminix's termite inspection and

protection plan; chemicals used in our businesses; regulations impacting contractual provisions requiring arbitration or automatic renewals of contracts; or other legislation, regulation or interpretations impacting our business;

- laws and regulations relating to financial reform and the use of derivative instruments and any new regulations or changes in existing regulations promulgated by the U.S. Consumer Financial Protection Bureau;
  
- the success of, and costs associated with, restructuring initiatives;
  
- the number, type, outcomes (by judgment or settlement) and costs of legal, regulatory (for example, relating to the Real Estate Settlement Procedures Act) or administrative proceedings, including, without limitation, collective, representative or class action litigation, and changes in the law regarding arbitration and conduct of collective, representative and class action litigation;
  
- labor organizing activities at our subsidiaries or our franchisees and new regulations or changes in existing regulations and procedures by the National Labor Relations Board, including those that may affect our associates, such as our arbitration and other policies;
  
- risk of liabilities being passed through from our franchisees and licensees;
  
- risks associated with acquisitions or other strategic transactions, including, without limitation, acquired liabilities, retaining customers from businesses acquired, achieving expected synergies from acquired businesses and difficulties in integrating acquired businesses or implementing strategic transactions generally, in addition to risks associated with international acquisition transactions or joint ventures;
  
- risks associated with dispositions, for example, post-closing claims being made against us, post-closing purchase price adjustments (including, without limitation, items related to working capital), disruption to our other businesses during the disposition process or thereafter; credit risks associated with any buyer of such disposed businesses and our ability to collect funds due from any such buyer related to seller financings, licensing arrangements, transition services arrangements or surety bond guarantees;
  
- constraints associated with non-compete agreements or other restrictive covenants entered into by the Company, including, without limitation, in connection with business dispositions or strategic contracts, some or all of which may restrict our ability to conduct business in particular market segments or compete in particular geographic regions;
  
- risks associated with budget deficits at federal, state and local levels resulting from economic conditions, which could result in federal, state and local governments decreasing their purchasing of our products or services and/or increasing taxes or other fees on businesses,

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

including ServiceMaster, to generate more tax revenues, which could negatively impact spending by commercial customers and municipalities on our services;

- regulations imposed by several states related to our home warranty and insurance subsidiaries, including those limiting the amount of funds that can be paid to the Company by its subsidiaries;
- changes in claims trends in our medical plan and our automobile, general liability and workers' compensation program;
- significant disruptions, terminations or substandard performance of our outsourced services, including possible breaches by third-party vendors of their agreements with us;
- the cost, timing, structuring or results of our business process outsourcing (and insourcing), including, without limitation, any current or future outsourcing (or insourcing) or restructuring of all or portions of our information technology, call center, certain human resource functions and other corporate functions, and risks associated with such outsourcing (or insourcing) or restructuring or transitioning from outsourcing providers to insourcing;
- costs and timing of implementation of upgrades to our information technology systems, including the completion of American Home Shield's, TruGreen's and Merry Maids' new operating systems (certain aspects of which are related to customer relationship management and mobility technology) and the information technology initiatives for our human resources and other corporate functions, which are intended to: enhance customer service; protect against theft of customer and corporate sensitive information; comply with industry standards; and minimize disruptions in the Company's operations and centers of excellence; and

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

*Interest Rate Risk*

The Company is exposed to the impact of interest rate changes and manages this exposure through the use of variable-rate and fixed-rate debt and by utilizing interest rate swap contracts. The Company does not enter into these contracts for trading or speculative purposes. In the Company's opinion, the market risk associated with debt obligations and other significant instruments as of March 31, 2013 has not materially changed from December 31, 2012 (see Item 7A of the 2012 Form 10-K).

*Fuel Price Risk*

The Company is exposed to market risk for changes in fuel prices through the consumption of fuel by its vehicle fleet in the delivery of services to its customers. The Company uses approximately 20 million gallons of fuel on an annual basis. A ten percent change in fuel prices would result in a change of approximately \$6.8 million in the Company's annual fuel cost before considering the impact of fuel swap contracts.

The Company uses fuel swap contracts to mitigate the financial impact of fluctuations in fuel prices. As of March 31, 2013, the Company had fuel swap contracts to pay fixed prices for fuel with an aggregate notional amount of \$32.3 million, maturing through 2014. The estimated fair value of these contracts as of March 31, 2013 was a net asset of \$2.8 million. These fuel swap contracts provide a fixed price for approximately 60 percent and 10 percent of the Company's estimated fuel usage for the remainder of 2013 and 2014, respectively.

**ITEM 4. CONTROLS AND PROCEDURES**

## Edgar Filing: SERVICEMASTER CO - Form 10-Q

**Effectiveness of Disclosure Controls and Procedures.** ServiceMaster's Interim Chief Executive Officer, John Krenicki, Jr., and ServiceMaster's Senior Vice President and Interim Chief Financial Officer ( CFO ), David W. Martin, have evaluated ServiceMaster's disclosure controls and procedures (as defined in Rule 15d-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Messrs. Krenicki and Martin have concluded that both the design and operation of ServiceMaster's disclosure controls and procedures were effective as of March 31, 2013.

**Changes in Internal Control over Financial Reporting.** No change in ServiceMaster's internal control over financial reporting occurred during the first quarter of 2013 that has materially affected, or is reasonably likely to materially affect, ServiceMaster's internal control over financial reporting.

**PART II. OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

In the ordinary course of conducting business activities, the Company and its subsidiaries become involved in judicial, administrative and regulatory proceedings involving both private parties and governmental authorities. These proceedings include insured and uninsured matters that are brought on an individual, collective, representative and class action basis, or other proceedings involving regulatory, employment, general and commercial liability, automobile liability, wage and hour, environmental and other matters. The Company has entered into settlement agreements in certain cases, including with respect to putative collective and class actions, which are subject to court or other approvals. If one or more of the Company's settlements are not finally approved, the Company could have additional or different exposure, which could be material. At this time, the Company does not expect any of these proceedings to have a material effect on its reputation, business, financial position, results of operations or cash flows; however, the Company can give no assurance that the results of any such proceedings will not materially affect its reputation, business, financial position, results of operations and cash flows.
