**Item 1.01. Entry Into a Material Definitive Agreement.**

*Term Loan Facility*

On June 27, 2016, Plug Power Inc., a Delaware corporation (the *Company*), and its subsidiaries Emerging Power Inc. and Emergent Power Inc. entered into a loan and security agreement (the *Loan Agreement*) with Hercules Capital, Inc. (*Hercules*) pursuant to which Hercules agreed to make available to the Company a secured term loan facility in the amount of \$40 million (the *Term Loan Facility*), subject to certain terms and conditions. The Company borrowed \$25 million under the Loan Agreement on the date of closing. The Company may borrow an additional \$5 million under the Loan Agreement between October 12, 2016 and December 12, 2016 subject to the Company satisfying certain conditions. The Company may also borrow an additional \$10 million under the Loan Agreement after June 27, 2016 and until June 27, 2017 subject to satisfying certain conditions.

Advances under the Term Loan Facility bear interest at the rate of 10.45% per annum, subject to compliance with financial covenants and other conditions. The Loan Agreement includes covenants, limitations, and events of default customary for similar facilities. The term of the Loan Agreement is three years, ending June 27, 2019 (the *Maturity Date*).

Interest is payable on a monthly basis and the entire then outstanding principal balance of the Term Loan Facility, together with all accrued and unpaid interest, is due and payable on the Maturity Date. On the earliest to occur of the Maturity Date, the date on which the obligations under the Loan Agreement are paid and the date on which such obligations become due and payable, the Company is also required to pay the Lender an end of term charge from \$2.475 million to \$3.3 million, depending on the amount borrowed.

Until such time as certain net income milestones are met, the Loan Agreement has financial covenants that require the Company to maintain at all times minimum unencumbered cash and cash equivalents equal to or greater than 75% of the then outstanding principal balance of the Term Loan Facility. After such net income milestones are met, the Loan Agreement's financial covenants are reduced to require minimum unencumbered cash and cash equivalents equal to or greater than 50% of the then outstanding principal balance of the Term Loan Facility.

All obligations under the Loan Agreement are unconditionally guaranteed by the Company's subsidiaries, Emerging Power Inc. and Emergent Power Inc. The Term Loan Facility is secured by substantially all of the Company's and the guarantors' assets, including all intellectual property, all securities in domestic subsidiaries and 65% of the securities in foreign subsidiaries, subject to certain exceptions and exclusions.

The Loan Agreement contains customary covenants for transactions of this type and other covenants agreed to by the parties, including, among others, (i) the provision of annual and quarterly financial statements, management rights and insurance policies and (ii) restrictions on incurring debt, granting liens, making acquisitions, making loans, paying dividends, dissolving, and entering into leases and asset sales. The Loan Agreement also provides for customary events

of default, including, among others, payment, bankruptcy, covenant, representation and warranty, change of control, judgment and material adverse effect defaults.

The foregoing summary does not purport to be complete and is qualified in its entirety by reference to the Loan Agreement, which is filed as Exhibit 10.1 to this Current Report on Form 8-K and incorporated herein by reference.

A copy of the Generate Loan Agreement was filed by the Company as Exhibit 10.1 to the March 2, 2016 Current Report on Form 8-k (File No. 1-34392).
