NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except per share data)

(unaudited)

NOTE A ORGANIZATION, CONSOLIDATION, AND BASIS OF PRESENTATION

USANA Health Sciences, Inc. develops and manufactures high-quality nutritional and personal care products that are sold internationally through a global network marketing system, which is a form of direct selling. The Consolidated Financial Statements include the accounts and operations of USANA Health Sciences, Inc. and its wholly-owned subsidiaries (collectively, the Company or USANA) in two geographic regions: Asia Pacific, and Americas and Europe. Asia Pacific is further divided into three sub-regions: Greater China, Southeast Asia Pacific, and North Asia. Greater China includes Hong Kong, Taiwan and China; Southeast Asia Pacific includes Australia, New Zealand, Singapore, Malaysia, the Philippines, Thailand, and Indonesia; North Asia includes Japan, and South Korea. Americas and Europe includes the United States, Canada, Mexico, Colombia, the United Kingdom, France, Belgium, and the Netherlands. All intercompany accounts and transactions have been eliminated in this consolidation.

The condensed consolidated balance sheet as of January 2, 2016, derived from audited consolidated financial statements, and the unaudited interim consolidated financial information of the Company have been prepared in accordance with Article 10 of Regulation S-X promulgated by the Securities and Exchange Commission. Certain information and footnote disclosures that are normally included in financial statements that have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted pursuant to such rules and regulations. The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of any contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. In the opinion of management, the accompanying interim condensed consolidated financial information contains all adjustments, consisting only of normal recurring adjustments that are necessary to state fairly the Company s financial position as of July 2, 2016 and results of operations for the quarters and six months ended July 4, 2015 and July 2, 2016.

The interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto that are included in the Company s Annual Report on Form 10-K for the year ended January 2, 2016. The results of operations for the six months ended July 2, 2016, may not be indicative of the results that may be expected for the fiscal year 2016 ending December 31, 2016.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued an Accounting Standard Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 includes a five-step process by which entities will recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which an entity expects to be entitled in exchange for those goods or services. The standard also will require enhanced disclosures to enable users of financial statements to understand the nature, amount, timing,

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

and uncertainty of revenue and cash flows arising from contracts with customers. In July 2015, the FASB announced a decision to defer the effective date of this ASU. ASU 2014-09 is effective for annual and interim reporting periods beginning after December 15, 2017, with early adoption permitted for annual and interim reporting periods beginning after December 15, 2016. The Company is currently evaluating the impact ASU 2014-09 will have on its consolidated financial statements.

Table of Contents

USANA HEALTH SCIENCES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(in thousands, except per share data)

(unaudited)

NOTE A ORGANIZATION, CONSOLIDATION, AND BASIS OF PRESENTATION - CONTINUED

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). ASU 2016-02 is intended to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. Additionally, the ASU will require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases, including qualitative and quantitative requirements. The update requires lessees to apply a modified retrospective approach for recognition and disclosure, beginning with the earliest period presented. The ASU is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, with early adoption permitted. The Company is currently evaluating the impact ASU 2016-02 will have on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. ASU 2016-09 was issued as part of the FASB's simplification initiative aimed at reducing costs and complexity while maintaining or improving the usefulness of financial information. This update involves several aspects of the accounting for share-based payment transactions, including the income tax consequences, forfeitures, statutory tax withholding requirements, and classification in the statement of cash flows. This ASU is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted for any interim or annual period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period, and the entity must adopt all of the amendments in the same period. The Company elected to early adopt ASU 2016-09 during the quarter ended April 2, 2016.

The impact of the early adoption of this standard increased net earnings by approximately \$541 and \$825 for the quarter and six months ended July 2, 2016, respectively. Diluted earnings per share, however, only benefited the quarter and six months ended July 2, 2016, by \$0.02 due to a higher dilutive share count.

[Table of Contents](#)**USANA HEALTH SCIENCES, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(in thousands, except per share data)****(unaudited)****NOTE B FAIR VALUE MEASURES**

The Company measures at fair value certain of its financial and non-financial assets and liabilities by using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, essentially an exit price, based on the highest and best use of the asset or liability. The levels of the fair value hierarchy are:

- Level 1 inputs are quoted market prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 inputs are from other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable and are used to measure fair value in situations where there is little, if any, market activity for the asset or liability at the measurement date.

As of the dates indicated, the following financial assets and liabilities were measured at fair value on a recurring basis using the type of inputs shown:

	Fair Value Measurements Using			
	January 2, 2016	Level 1	Inputs Level 2	Level 3
Money market funds included in cash equivalents	\$ 14,460	\$ 14,460	\$	\$
Foreign currency contracts included in prepaid expenses and other current assets	33		33	
	\$ 14,493	\$ 14,460	\$ 33	\$

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

	Fair Value Measurements Using			
	July 2, 2016	Level 1	Inputs Level 2	Level 3
Money market funds included in cash equivalents	\$ 22,938	\$ 22,938	\$	\$
Foreign currency contracts included in other current liabilities	(161)		(161)	
	\$ 22,777	\$ 22,938	\$ (161)	\$

[Table of Contents](#)**USANA HEALTH SCIENCES, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(in thousands, except per share data)****(unaudited)****NOTE B FAIR VALUE MEASURES - CONTINUED**

There were no transfers of financial assets or liabilities between levels of the fair value hierarchy for the periods indicated.

The majority of the Company's non-financial assets, which include goodwill, intangible assets, and property and equipment, are not required to be carried at fair value on a recurring basis. However, if certain triggering events occur (or tested at least annually for goodwill and indefinite-lived intangibles) such that a non-financial asset is required to be evaluated for impairment, an impairment charge is recorded to reduce the carrying value to the fair value, if the carrying value exceeds the fair value. At January 2, 2016 and July 2, 2016, there were no non-financial assets measured at fair value on a non-recurring basis.

The Company's financial instruments include cash equivalents, accounts receivable, restricted cash, notes receivable, and accounts payable. The recorded values of cash equivalents, accounts receivable, restricted cash, and accounts payable approximate their fair values, based on their short-term nature. The carrying value of the notes receivable approximate fair value because the variable interest rates in the notes reflect current market rates.

NOTE C INVENTORIES

Inventories consist of the following:

	January 2, 2016		July 2, 2016
Raw materials	\$ 22,529	\$	25,958
Work in progress	8,701		9,628
Finished goods	34,889		35,746
	\$ 66,119	\$	71,332

NOTE D OTHER ASSETS

Other assets consists primarily of a secured loan to a third-party supplier of the Company's nutrition bars and land use rights related to a production facility under development in China.

The Company has extended non-revolving credit to its supplier of nutrition bars to allow them to acquire equipment that is necessary to manufacture the USANA nutrition bars. This relationship provides improved supply chain stability for USANA and creates a mutually beneficial relationship between the parties. Notes receivable are valued at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value. Interest accrues at an annual interest rate of LIBOR plus 400 basis points. The note has a maturity date of February 1, 2024 and will be repaid by a combination of cash payments and credits for the manufacture of USANA's nutrition bars. There is no prepayment penalty. Notes receivable from this supplier as of January 2, 2016, and July 2, 2016 were \$8,339 and \$7,377, respectively.

This third-party supplier is considered to be a variable interest entity; however, the Company is not the primary beneficiary due to the inability to direct the activities that most significantly affect the third-party supplier's economic performance. Additionally, the Company does not absorb a majority of the third-party supplier's expected losses or returns. Consequentially, the financial information of the third-party supplier is not consolidated. The maximum exposure to loss as a result of the Company's involvement with the third-party supplier is limited to the carrying value of the note receivable due from the third-party supplier.

The Company is building a state-of-the-art manufacturing and production facility in China, which is expected to become operational during the fourth quarter of 2016. As part of this project, land use rights totaling \$7,053, and \$6,879 as of January 2, 2016 and July 2, 2016, respectively, have been purchased and are being amortized over 50 years.

USANA HEALTH SCIENCES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(in thousands, except per share data)

(unaudited)

NOTE E LINE OF CREDIT

On February 19, 2016, the Company entered into an Amended and Restated Credit Agreement (Credit Agreement), with Bank of America, which extends the term of the Credit Agreement to April 27, 2021. The Credit Agreement also increases the amount the Company may borrow under the credit facility from \$75,000 to up to \$125,000, through October 31, 2016. On November 1, 2016, the amount the Company may borrow will revert to \$75,000 for the remainder of the agreement. The only other modification to the Credit Agreement was an increase to the Company's consolidated rolling four-quarter adjusted EBITDA covenant from \$60,000 to equal to or greater than \$100,000.

Interest is computed based on the bank's Prime Rate or LIBOR, adjusted by features specified in the Credit Agreement. The collateral for this line of credit is the pledge of the capital stock of certain subsidiaries of the Company, set forth in a separate pledge agreement with the bank. Part of the credit agreement is that any existing bank guarantees are considered a reduction of the overall availability of credit and part of the covenant calculation. This resulted in a \$4,153, and \$4,227 reduction in the available borrowing limit as of January 2, 2016 and July 2, 2016, respectively, due to existing normal course of business guarantees in certain markets.

There was no outstanding debt on this line of credit at January 2, 2016 or at July 2, 2016. The Company will be required to pay any balance on this line of credit in full at the time of maturity in April 2021 unless the line of credit is replaced or terms are renegotiated.

NOTE F CONTINGENCIES

The Company is involved in various lawsuits, claims and other legal matters from time to time that arise in the ordinary course of conducting business, including matters involving our products, intellectual property, supplier relationships, distributors, competitor relationships, employees and other matters. The Company records a liability when a particular contingency is probable and estimable. The Company has not accrued for any contingency at July 2, 2016 as the Company does not consider any contingency to be probable nor estimable. The Company faces contingencies that are reasonably possible to occur; however, they cannot currently be estimated. While complete assurance cannot be given to the outcome of these proceedings, management does not currently believe that any of these matters, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, liquidity or results of operations.

In August 2014, a purported shareholder derivative lawsuit was filed in the Third Judicial District Court of Salt Lake County, State of Utah (James Robert Rawcliffe v. Robert Anciaux, et al.) against certain of the Company's directors and officers. The derivative complaint, which also names USANA as a nominal defendant but is asserted on USANA's behalf, contains claims of breach of fiduciary duty, waste of corporate assets and unjust enrichment against the defendant directors and officers in connection with certain equity awards granted by the Compensation

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

Committee of the Company's Board of Directors in February 2014. In October 2014, the Company filed a motion to dismiss the complaint and, in March 2015, the court granted that motion and dismissed the complaint without prejudice. In May 2015, the plaintiffs filed an appeal with the Utah Supreme Court. The Supreme Court remanded the Company's case to the Utah Court of Appeals. The plaintiff and the Company have each filed their appellate brief with the court and are awaiting a hearing date. The Company believes that the claims in the complaint are without merit and will continue to vigorously defend this suit. The Company continues to believe, based on information currently available, that the final outcome of this suit will not have a material adverse effect on the Company's business, results of operations or consolidated financial position.

[Table of Contents](#)**USANA HEALTH SCIENCES, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(in thousands, except per share data)****(unaudited)****NOTE G COMMON STOCK AND EARNINGS PER SHARE**

Basic earnings per share are based on the weighted-average number of shares outstanding for each period. Shares that have been repurchased and retired during the periods specified below have been included in the calculation of the number of weighted-average shares that are outstanding for the calculation of basic earnings per share based on the time they were outstanding in any period. Diluted earnings per common share are based on shares that are outstanding (computed under basic EPS) and on potentially dilutive shares. Shares that are included in the diluted earnings per share calculations under the treasury stock method include equity awards that are in-the-money but have not yet been exercised.

The following is a reconciliation of the numerator and denominator used to calculate basic earnings per share and diluted earnings per share for the periods indicated:

	Quarter Ended		Six Months Ended	
	July 4, 2015	July 2, 2016	July 4, 2015	July 2, 2016
Net earnings available to common shareholders	\$ 25,416	\$ 25,762	\$ 45,096	\$ 48,061
Weighted average common shares outstanding - basic	12,740	11,978	12,694	12,040
Dilutive effect of in-the-money equity awards	485	480	461	485
Weighted average common shares outstanding - diluted	13,225	12,458	13,155	12,525
Earnings per common share from net earnings - basic	\$ 1.99	\$ 2.15	\$ 3.55	\$ 3.99
Earnings per common share from net earnings - diluted	\$ 1.92	\$ 2.07	\$ 3.43	\$ 3.84

Equity awards for the following shares were not included in the computation of diluted EPS due to the fact that their effect would be anti-dilutive:

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

	Quarter Ended		Six Months Ended	
	July 4, 2015	July 2, 2016	July 4, 2015	July 2, 2016
	102	1,105	113	1,100

During the six months ended July 2, 2016, the Company repurchased and retired 553 shares, for \$64,610, under the Company's share repurchase plan. The excess of the repurchase price over par value is allocated between additional paid-in capital and retained earnings on a pro-rata basis. The purchase of shares under this plan reduces the number of shares outstanding in the above calculations.

As of July 2, 2016, the remaining approved repurchase amount under the stock repurchase plan was \$35,390. There currently is no expiration date on the remaining approved repurchase amount and no requirement for future share repurchases.

Table of Contents**USANA HEALTH SCIENCES, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(in thousands, except per share data)****(unaudited)****NOTE H SEGMENT INFORMATION**

USANA operates as a direct selling company that develops, manufactures, and distributes high-quality nutritional and personal care products that are sold through a global network marketing system of independent distributors (Associates). As such, management aggregates its operating segments into one reportable segment as management believes that the Company's segments exhibit similar long-term financial performance and have similar economic characteristics. Performance for a region or market is evaluated based on sales. No single Associate accounted for 10% or more of net sales for the periods presented. The table below summarizes the approximate percentage of total product revenue that has been contributed by the Company's nutritional and personal care products for the periods indicated.

	Quarter Ended		Six Months Ended	
	July 4,	July 2,	July 4,	July 2,

Sensé beautiful science®	6%	6%	6%	7%

Selected financial information for the Company is presented for two geographic regions: Asia Pacific, with three sub-regions under Asia Pacific, and Americas and Europe. Individual markets are categorized into these regions as follows:

- Asia Pacific
- Greater China Hong Kong, Taiwan and China(1)
- Southeast Asia Pacific Australia, New Zealand, Singapore, Malaysia, the Philippines, Thailand, and Indonesia(2)
- North Asia Japan and South Korea

- Americas and Europe United States, Canada, Mexico, Colombia, the United Kingdom, France, Belgium, and the Netherlands.

(1) The Company's business in China is that of BabyCare, its wholly-owned subsidiary.

(2) The Company commenced operations in Indonesia in the fourth quarter of 2015.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of USANA's financial condition and results of operations is presented in six sections:

- Overview
- Customers
- Current Focus and Recent Developments
- Results of Operations
- Liquidity and Capital Resources
- Forward-Looking Statements and Certain Risks

This discussion and analysis should be read in conjunction with the Unaudited Condensed Consolidated Financial Statements and Notes thereto that are contained in this quarterly report, as well as Management's Discussion and Analysis of Financial Condition and Results of Operations that are included in our Annual Report on Form 10-K for the year ended January 2, 2016, and our other filings, including Current Reports on Form 8-K, that have been filed with the Securities and Exchange Commission ("SEC") through the date of this report.

Overview

We develop and manufacture high-quality, science-based nutritional and personal care products that are distributed internationally through a network marketing system, which is a form of direct selling. We have chosen this distribution method as we believe it is more conducive to meeting our vision as a company, which is improving the overall health and nutrition of individuals and families around the world. Our customer base comprises two types of customers: Associates and Preferred Customers. Associates share in our company vision by acting as independent distributors of our products in addition to purchasing our products for their personal use. Preferred Customers purchase our products strictly for their personal use and are not permitted to resell or to distribute the products. As of July 2, 2016, we had approximately

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

460,000 active Associates and approximately 97,000 active Preferred Customers worldwide. For purposes of this report, we only count as active customers those Associates and Preferred Customers who have purchased from us at any time during the most recent three-month period.

We have ongoing operations in the following markets, which are grouped and presented as follows:

- Asia Pacific
- Greater China Hong Kong, Taiwan, and China(1)
- Southeast Asia Pacific Australia, New Zealand, Singapore, Malaysia, the Philippines, Thailand, and Indonesia(2)
- North Asia Japan and South Korea
- Americas and Europe United States, Canada, Mexico, Colombia, the United Kingdom, France, Belgium, and the Netherlands

(1) Our business in China is that of BabyCare, our wholly-owned subsidiary.

(2) We commenced operations in Indonesia in the fourth quarter of 2015.

Our primary product lines consist of USANA® Nutritionals, USANA Foods, and Sensé beautiful science® (Sensé), which is our line of personal care products. The USANA Nutritionals product line is further categorized into two separate classifications: Essentials and Optimizers. The following tables summarize the approximate percentage of total product revenue that has been contributed by our major product lines and our top-selling products for the current and prior-year periods as indicated:

Table of Contents

	Six Months Ended	
	July 4, 2015	July 2, 2016
<u>Product Line</u>		
USANA® Nutritionals		
Essentials	23%	20%
Optimizers	58%	62%
USANA Foods	12%	10%
Sensé beautiful science®	6%	7%
All Other	1%	1%
<u>Key Product</u>		
USANA® Essentials	15%	13%
Proflavanol®	13%	13%
BiOmega-3	12%	13%

We believe that our ability to attract and retain Associates and Preferred Customers to sell and consume our products is positively influenced by a number of factors, some of which include: the general public's heightened awareness and understanding of the connection between diet and long-term health, and the growing desire for a secondary source of income and small business ownership.

We believe that our high-quality products and our financially rewarding Associate Compensation Plan are the key components to attracting and retaining Associates. We periodically make changes to our Compensation Plan in an effort to ensure that our plan is among the most rewarding in the industry, to encourage behavior that we believe leads to a successful business for our Associates, and to ensure that our plan provides us with leverage to grow sales and earnings.

To further support our Associates in building their businesses, we sponsor meetings and events throughout the year, which offer information about our products and our network marketing system. These meetings are designed to assist Associates in their business development and to provide a forum for interaction with our Associate leaders and members of our management team. We also provide low cost sales tools, including online sales, business management, and training tools, which we believe are an integral part of building and maintaining a successful home-based business for our Associates. Although we provide training and sales tools, we ultimately rely on our Associates to sell our products, attract new customers to purchase our products, and educate and train new Associates.

Because we have operations in multiple markets, with sales and expenses being generated and incurred in multiple currencies, our reported U.S. dollar sales and earnings can be significantly affected by fluctuations in currency exchange rates. In general, our operating results are affected positively by a weakening of the U.S. dollar and negatively by a strengthening of the U.S. dollar. During the six months ended July 2, 2016, net sales outside of the United States represented 86.6% of consolidated net sales. In our net sales discussions that follow, we approximate the impact of currency fluctuations on net sales by translating current year sales at the average exchange rates in effect during the comparable periods of the prior year.

Table of Contents**Customers**

Because we sell our products exclusively to a customer base of independent Associates and Preferred Customers, to increase net sales we must either increase the number or the productivity of our Associates and Preferred Customers. Increasing the productivity of our Associates and Preferred Customers has not been our primary focus. Rather, we seek to increase the number of Associates and Preferred Customers who use our products. We believe this focus is more consistent with our vision of improving the overall health and nutrition of individuals and families around the world. Sales to Associates account for the majority of our product sales, representing approximately 92% of product sales during the six months ended July 2, 2016; the remainder of our sales are to Preferred Customers. Increases or decreases in product sales are typically the result of variations in the volume of product sold relating to fluctuations in the number of active Associates and Preferred Customers purchasing our products. The number of active Associates and Preferred Customers is, therefore, used by management as a key non-financial measure.

The tables below summarize the changes in our active customer base by geographic region. These numbers have been rounded to the nearest thousand as of the dates indicated.

Active Associates by Region						
	As of July 4, 2015		As of July 2, 2016		Change from Prior Year	Percent Change

Table of Contents

Current Focus and Recent Developments

Our primary objective is to increase the number of Associates and Preferred Customers (referred to together as customers) who use our products throughout the world. We have several strategies in place to support this objective, including:

- Our focus on personalizing our customer's overall experience with USANA, which includes personalizing our product offering, Associate Compensation Plan, and our online business environment;
- Our investment in increasing our brand recognition, which includes our relationship as a Trusted Partner and Sponsor of *The Dr. Oz Show*, our sponsorship of the U.S. Ski Team, and our partnership with the Women's Tennis Association; to make it easier for our Associates to talk about USANA with potential customers;
- Our development and offering of market-specific incentives and promotions for our Associates to incent sales and customer growth around the world;
- Our focus on product innovation, information technology systems, and infrastructure to continue to improve our customers' experience with us and to prepare for growth and expansion; and
- Our continued focus on expansion in China, where we plan to continue devoting significant time and resources on growing this market. Our efforts in this regard include commencing operations at our manufacturing and production facility in Beijing, which we anticipate will occur during the fourth quarter of 2016.

At our 2015 convention, we introduced our new MySmartTMFoods line of products, which continues our philosophy and strategy of personalization. We made MySmartTMFoods available to our Associates for a limited time at our convention only, as a pre-launch opportunity to purchase and try the products. In April 2016, we officially launched MySmartTMFoods at our Asia Pacific Convention in Singapore. Since our convention, we have launched these products in several markets and will continue to introduce them in additional markets throughout the remainder of 2016.

Our MySmartTMFoods launch will be followed by what we anticipate will be an even more significant product launch to a record breaking number of attendees at our 2016 international convention in Salt Lake City. These new products, like all of USANA's products, are based on the leading science and represent the next phase of our personalization strategy.

Results of Operations

Summary of Financial Results

Net sales for the second quarter of 2016 increased 10.8% to \$258.5 million, an increase of \$25.3 million, compared with the second quarter of 2015. This increase was driven by higher product sales volume due in great part to strong customer growth. The increase in net sales was driven by 15.9% growth in the number of active Associates and 6.6% growth in the number of Preferred Customers. Associate and customer growth during the quarter was the result of continued momentum in our world-wide business. This increase in net sales during the second quarter of 2016 was partially offset by unfavorable changes in currency exchange rates that reduced net sales for the quarter by \$12.4 million.

Net earnings for the second quarter of 2016 increased 1.4% to \$25.8 million, an increase of \$0.3 million, compared with the second quarter of 2015. The increase in net earnings was driven by higher net sales and a lower effective tax rate, which were largely offset by lower gross margins and higher operating expenses.

Table of Contents**Quarters Ended July 4, 2015 and July 2, 2016***Net Sales*

The following table summarizes the changes in our net sales by geographic region for the quarters ended as of the dates indicated:

		Net Sales by Region (in thousands) Quarter Ended								Percent change excluding currency impact
July 4, 2015				July 2, 2016		Change from prior year		Percent change		Currency impact on sales
Asia Pacific										
Greater China	\$	112,333	48.2%	\$	131,840	51.0%	\$	19,507	17.4%	\$ (6,639) 23.3%
Southeast Asia Pacific		46,033	19.7%		51,123	19.8%		5,090	11.1%	(2,369) 16.2%
North Asia		10,346	4.4%		11,261	4.3%		915	8.8%	(507) 13.7%
Asia Pacific Total		168,712	72.3%		194,224	75.1%		25,512	15.1%	(9,515) 20.8%
Americas and Europe										
		64,532	27.7%		64,290	24.9%		(242)	(0.4)%	(2,932) 4.2%
	\$	233,244	100.0%	\$	258,514	100.0%	\$	25,270	10.8%	\$ (12,447) 16.2%

Asia Pacific: The increase in net sales in Greater China continues to be driven by growth in Mainland China, where local currency net sales increased 29.2% and the number of active Associates increased 26.0%. The increase in local currency net sales in Southeast Asia Pacific was driven by strong Associate growth in several markets, led by Australia and Malaysia. The increase in local currency net sales in North Asia continues to be driven by growth in South Korea, where local currency net sales increased 15.2%. The number of active Associates and Preferred Customers in South Korea increased 27.3%, and 11.1%, respectively.

Americas and Europe: Net sales in this region was again driven by growth in Canada and Mexico, where local currency net sales increased 11.8% and 25.1%, respectively. The number of active Associates and Preferred Customers in Mexico increased 16.7% and 25.0%, respectively. Net Sales in the United States decreased \$1.9 million or 5.8%, due to a decline in the number of active customers in this market.

Gross Profit

Gross profit decreased 60 basis points to 82.2% of net sales for the second quarter of 2016, from 82.8% in the prior year. This reduction can be attributed to an unfavorable shift in currency exchange rates. This reduction was partially offset by a favorable shift in sales mix by market, modest product price adjustments introduced during the first quarter of 2016 and a decreased level of costs related to scrap that occurred during

the first quarter of 2016.

Associate Incentives

Associate incentives were 44.6% of net sales for the second quarter of 2016, compared with 43.7% in the second quarter of 2015. This increase can be primarily attributed to higher payout on base commissions and Associate bonus programs. Associate incentives expense has been fairly consistent over the past few quarters and is roughly in-line with our expectations for the remainder of the year.

Table of Contents

Selling, General and Administrative Expenses

In absolute terms, our selling, general and administrative expense increased \$7.2 million during the second quarter of 2016 when compared with the same period of the prior year. This increase can be attributed to costs associated with supporting our 2016 strategic initiatives, including (i) higher wages and benefits expense to support our growing customer base and to further improve our customers' experience around the world, (ii) investment in information technology systems and infrastructure, and (iii) continued investment in Mainland China.

Income Taxes

Income taxes were 31.6% of earnings in the second quarter of 2016 compared with 34.3% of earnings in the second quarter of 2015. The primary reason for the year-over-year effective tax rate improvement was due to the early adoption of ASU 2016-09 Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which requires excess tax benefits or tax deficiencies resulting from exercise or settlement of share-based payment transactions to be recognized as an income tax benefit or expense in the income statement prospectively. Additionally, the second quarter of 2016 benefited from a federal research credit which was unavailable in the second quarter of 2015.

Diluted Earnings Per Share

Diluted earnings per share increased 7.8% in the second quarter of 2016 when compared with the prior year quarter. This increase was mostly due to a lower number of shares outstanding resulting from activity under our share buyback program, and a slight increase in net earnings as discussed above.

Table of Contents**Six Months Ended July 4, 2015 and July 2, 2016***Net Sales*

The following table summarizes the changes in our net sales by geographic region for the periods ended as of the dates indicated:

	Net Sales by Region (in thousands) Six Months Ended				Change from prior year	Percent change	Currency impact on sales	Percent change excluding currency impact
	July 4, 2015		July 2, 2016					
Asia Pacific								
Greater China	\$ 213,619	47.2%	\$ 248,838	49.9%	\$ 35,219	16.5%	\$ (11,966)	22.1%
Southeast Asia Pacific	91,372	20.2%	99,984	20.0%	8,612	9.4%	(6,500)	16.5%
North Asia	19,575	4.3%	21,821	4.4%	2,246	11.5%	(1,317)	18.2%
Asia Pacific Total	324,566	71.7%	370,643	74.3%	46,077	14.2%	(19,783)	20.3%
Americas and Europe	128,056	28.3%	128,320	25.7%	264	0.2%	(6,913)	5.6%
	\$ 452,622	100.0%	\$ 498,963	100.0%	\$ 46,341	10.2%	\$ (26,696)	16.1%

Asia Pacific: The increase in net sales in Greater China continues to be driven by growth in Mainland China, where local currency net sales increased 27.6% and the number of active Associates increased 26.0%. The increase in local currency net sales in Southeast Asia Pacific was driven by double-digit sales growth in many of our markets led by Malaysia, Australia, and Thailand. This increase was the result of growth in the average number of active Associates and Preferred Customers purchasing our products during the first six months of the year. The increase in local currency net sales in North Asia continues to be driven by growth in South Korea, where local currency net sales increased 20.5%.

Americas and Europe: The increase in local currency net sales in this region was driven by growth in Canada and Mexico, where local currency net sales increased 16.8% and 21.2%, respectively. Net Sales in the United States declined 4.1%, due to a decline in the number of active customers in this market.

Gross Profit

Gross profit decreased to 82.2% of net sales for the first six months of 2016, from 82.7% in the comparable prior year period. This reduction can be attributed to an unfavorable shift in currency exchange rates. This reduction was partially offset by favorable shift in sales mix by market.

and to a lesser extent by modest price adjustments that we implemented during the first half of the year.

Associate Incentives

Associate incentives were 44.6% of net sales for the first six months of 2016, compared with 44.9% in the comparable prior year period. This decrease can primarily be attributed to decreased spending on contests and promotions, and by modest price adjustments that we implemented during the first half of the year.

Table of Contents

Selling, General and Administrative Expenses

In absolute terms, our selling, general and administrative expense increased \$14.0 million during the first six months of 2016 when compared with the same period of the prior year. This increase can be attributed to costs associated with supporting our 2016 strategic initiatives, including (i) higher wages and benefits expense to support our growing customer base and to further improve our customers' experience around the world, (ii) investment in information technology systems and infrastructure, and (iii) continued investment in Mainland China.

Income Taxes

Income taxes were 32% of earnings for the first six months of 2016 compared with 34.3% of earnings in the first six months of 2015. The primary reason for the year-over-year effective tax rate improvement was due to the early adoption of ASU 2016-09 Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which requires excess tax benefits or tax deficiencies resulting from exercise or settlement of share-based payment transactions to be recognized as an income tax benefit or expense in the income statement prospectively. In addition, the first six months of 2016 benefited from a federal research credit which was unavailable in the first six months of 2015.

Diluted Earnings Per Share

Diluted earnings per share increased 11.9% in the first six months of 2016 when compared with the prior year period. This increase was the result of higher net earnings as discussed above, and due to a lower number of shares outstanding resulting from activity under our share buyback program.

Liquidity and Capital Resources

We have historically met our working capital and capital expenditure requirements by using both net cash flow from operations and by drawing from our line of credit. Our principal source of liquidity is our operating cash flow. Although we are required to maintain cash deposits with banks in certain of our markets, there are currently no material restrictions on our ability to transfer and remit funds among our international markets. Notwithstanding the foregoing, if we were to repatriate the \$18.2 million of cumulative earnings that have been indefinitely reinvested in certain of our markets at July 2, 2016, there would be a tax liability to the Company of approximately \$3.1 million.

We have historically generated positive cash flow due to our strong operating margins. Net cash flow from operating activities totaled \$48.0 million in the first six months of 2016. Items increasing cash flows from operations in the first six months of 2016 are higher net earnings, equity based compensation expense, and accrued incentives, reduced by employee compensation costs, and taxes payable.

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

Net cash flow from operating activities totaled \$46.2 million in the first six months of 2015. Items increasing cash flows from operations in the first six months of 2015 were higher net earnings, accrued incentives and deferred revenue, and taxes payable, reduced by inventory and employee compensation costs.

Cash and cash equivalents decreased to \$112.4 million at July 2, 2016, from \$143.2 million at January 2, 2016. Of the \$112.4 million held at July 2, 2016, \$8.4 million was held in the United States and \$104.0 million was held by international subsidiaries. Of the \$143.2 million in cash and cash equivalents held at January 2, 2016, \$16.2 million was held in the United States and \$127.0 million was held by international subsidiaries. Net working capital decreased to \$93.9 million at July 2, 2016, from \$112.9 million at January 2, 2016.

We continue to expect that our new state-of-the-art manufacturing and production facility in China will become operational within the next three to five months. The permit approval process is taking longer than expected. Of the anticipated \$40 million investment for this project, we have incurred \$32.0 million through the end of the second quarter of 2016, \$5.7 million of which was incurred during the first six months of 2016.

Table of Contents

We have extended non-revolving credit to the supplier of our nutrition bars to allow this supplier to modify its facility and acquire the necessary equipment to manufacture our bars. Notes receivable from this supplier as of January 2, 2016 and July 2, 2016, were \$8.3 million and \$7.4 million, respectively, and are included as non-current other assets on the balance sheet.

Line of credit

We have a long-standing relationship with Bank of America. On February 19, 2016, we entered into an Amended and Restated Credit Agreement (Credit Agreement), with Bank of America, which extends the term of the Credit Agreement to April 27, 2021. The Credit Agreement also increases the amount we may borrow under the credit facility from \$75.0 million to up to \$125.0 million through October 31, 2016. On November 1, 2016, the amount we may borrow will revert to \$75.0 million pursuant to the Credit Agreement with the bank, which expires in April 2021.

Bank guarantees are considered a reduction of the overall availability of credit. As of July 2, 2016, such normal course of business bank guarantees reduced our available borrowing limit by \$4.2 million. During the first six months, we utilized our credit facility, but as of July 2, 2016, there was no outstanding debt on this line of credit.

The Credit Agreement for this credit facility contains restrictive covenants, which require us to maintain a consolidated rolling four-quarter adjusted earnings before interest, taxes, depreciation and amortization (adjusted EBITDA) equal to or greater than \$100.0 million (increased by the Amendment from \$60.0 million), and a ratio of consolidated funded debt to adjusted EBITDA of 2.0 to 1.0 at the end of each quarter. The adjusted EBITDA under this agreement is modified for certain non-cash expenses. As of July 2, 2016, we were in compliance with these covenants. Management is not aware of any issues currently impacting Bank of America's ability to honor their commitment to extend credit under this facility.

Share repurchase

We have a share repurchase plan that has been ongoing since the fourth quarter of 2000. The objective of this plan is to return value to our shareholders. Our Board of Directors has periodically approved additional dollar amounts for share repurchases under that plan. Share repurchases are made from time-to-time, in the open market, through block trades or otherwise, and are based on market conditions, the level of our cash balances, general business opportunities, and other factors. During the six months ended July 2, 2016, we repurchased 553,082 shares of common stock for a total investment of \$64.6 million, at an average market price of \$116.82 per share pursuant to a preset trading plan meeting the requirements of a Rule 10b5-1 under the Securities Exchange Act of 1934 as amended. As of July 2, 2016, the remaining approved repurchase amount under the plan was \$35.4 million. There is currently no expiration date on the remaining approved repurchase amount and no requirement for future share repurchases.

Summary

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

We believe that current cash balances, future cash provided by operations, and amounts available under our line of credit will be sufficient to cover our operating and capital needs in the ordinary course of business for the foreseeable future. If we experience an adverse operating environment or unanticipated and unusual capital expenditure requirements, additional financing may be required. No assurance can be given, however, that additional financing, if required, would be available at all or on favorable terms. We might also require or seek additional financing for the purpose of expanding into new markets, growing our existing markets, or for other reasons. Such financing may include the use of additional debt or the sale of additional equity securities. Any financing which involves the sale of equity securities or instruments that are convertible into equity securities could result in immediate and possibly significant dilution to our existing shareholders.

Table of Contents

Forward-Looking Statements and Certain Risks

The statements contained in this report that are not purely historical are considered to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and Section 21E of the Securities Exchange Act of 1934 (the Exchange Act). These statements represent our expectations, hopes, beliefs, anticipations, commitments, intentions, and strategies regarding the future. They may be identified by the use of words or phrases such as believes, expects, anticipates, should, plans, estimates, and potential, among others. Forward-looking statements include, but are not limited to, statements contained in Management's Discussion and Analysis of Financial Condition and Results of Operations regarding our financial performance, revenue, and expense levels in the future and the sufficiency of our existing assets to fund our future operations and capital spending needs. Readers are cautioned that actual results could differ materially from the anticipated results or other expectations that are expressed in these forward-looking statements for the reasons that are detailed in our most recent Annual Report on Form 10-K. The fact that some of these risk factors may be the same or similar to those in our past SEC reports means only that the risks are present in multiple periods. We believe that many of the risks detailed here and in our other SEC filings are part of doing business in the industry in which we operate and will likely be present in all periods reported. The fact that certain risks are common in the industry does not lessen their significance. The forward-looking statements contained in this report are made as of the date of this report, and we assume no obligation to update them or to update the reasons why our actual results could differ from those that we have projected. Among others, risks and uncertainties that may affect our business, financial condition, performance, development, and results of operations include:

- Our ability to attract and maintain a sufficient number of Associates;
- Our dependence upon a network marketing system to distribute our products and the activities of our independent Associates;
- The expansion of our business in China through BabyCare;
- Unanticipated effects of changes to our Compensation Plan;
- Our planned expansion into international markets, including delays in commencement of sales or product offerings in any new market, delays in compliance with local marketing or other regulatory requirements, or changes in target markets;
- General economic conditions, both domestically and internationally;
- Potential political events, natural disasters, or other events that may negatively affect economic conditions;

- Potential effects of adverse publicity regarding the Company, nutritional supplements, or the network marketing industry;
- Reliance on key management personnel;
- Extensive government regulation of the Company's products, manufacturing, and network marketing system;
- Potential inability to sustain or manage growth, including the failure to continue to develop new products;
- An increase in the amount of Associate incentives;
- Our reliance on the use of information technology;
- The effects of competition from new and established network and direct selling organizations in our key markets;
- The adverse effect of the loss of a high-level sponsoring Associate, together with a group of leading Associates, in that person's downline;
- The loss of product market share or Associates to competitors;
- Potential adverse effects of customs, duties, taxation, and transfer pricing regulations, including regulations governing distinctions between and Company responsibilities to employees and independent contractors;
- The fluctuation in the value of foreign currencies against the U.S. dollar;
- Our reliance on outside suppliers for raw materials and certain manufactured items;

Table of Contents

- Shortages of raw materials that we use in certain of our products;
- Significant price increases of our key raw materials;
- Product liability claims and other risks that may arise with our manufacturing activity;
- Intellectual property risks;
- Liability claims that may arise with our Athlete Guarantee program;
- Continued compliance with debt covenants;
- Disruptions to shipping channels that are used to distribute our products to international warehouses;
- The introduction of new laws or changes to existing laws, both domestically and internationally; and
- The outcome of regulatory and litigation matters.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes from the information presented for the year ended January 2, 2016.

Item 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information that is required to be disclosed in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods that are specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including our Principal Executive Officer and Principal Financial Officer, as appropriate, to allow timely decisions regarding any required disclosure. In designing and evaluating these disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

As of the end of the period covered by this report, our Principal Executive Officer and Principal Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based on this evaluation, the Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective as of July 2, 2016.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended July 2, 2016, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
