Yes ☐ No ☒

Tendering Procedure for Petrobras Mature Fields

(Rio de Janeiro, February 14, 2003). PETROLEO BRASILEIRO S.A. Petrobras, (BOVESPA: PETR3 / PETR4, NYSE: PBR / PBRA, LATIBEX: XPBR / XPBRA), Brazil's largest oil and gas, petrochemicals and energy company, announces that the public submission of bids for tender E&P-CORP No 001/2002, which is for the total assignment of exploration, development and production rights for oil and natural gas with the associated assets for the groups of fields BA2A, BA3A, BA4, BA5, BA6 and SE1A, scheduled for February 18, 2003, has been postponed to April 8, 2003.

This postponement arises from the need to study the effect on minimum prices of the new criterion for total assignment of rights over mature fields recently defined by the ANP.

In due course PETROBRAS will advise the participating companies as to whether there is any need to alter the tender prospectus, particularly with respect to the minimum prices that have been published.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
