✓ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended August 31, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-16111

GLOBAL PAYMENTS INC.
(Exact name of registrant as specified in charter)

Georgia	58-2567903
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
10 Glenlake Parkway, North Tower, Atlanta, Georgia	30328
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code: (770) 829-8000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☐
Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes ☐ No ☒

The number of shares of the issuer's common stock, no par value outstanding as of September 30, 2011 was 78,315,770.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business, consolidation and presentation— Global Payments Inc. is a high-volume processor of electronic transactions for merchants, multinational corporations, financial institutions, consumers, government agencies and other business and non-profit business enterprises to facilitate payments to purchase goods and services or further other economic goals. Our role is to serve as an intermediary in the exchange of information and funds that must occur between parties so that a transaction can be completed. We were incorporated in Georgia as Global Payments Inc. in September 2000 and we spun-off from our former parent company on January 31, 2001. Including our time as part of our former parent company, we have been in business since 1967.

These unaudited consolidated financial statements include our accounts and those of our majority-owned subsidiaries and all intercompany balances and transactions have been eliminated. These unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial information and with Rule 10-01 of Regulation S-X.

In the opinion of our management, all known adjustments necessary for a fair presentation of the results of the interim periods have been made. These adjustments consist of normal recurring accruals and estimates that impact the carrying value of assets and liabilities. We suggest that these financial statements be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended May 31, 2011.

Use of estimates— The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Correction of an error and change in accounting principle— During the quarter ended August 31, 2011 we determined that our presentation of repurchased shares as a separate component of shareholders' equity ("Treasury stock") in previously issued financial statements was at variance with Georgia incorporation law. As such, our shares repurchased during fiscal year 2010 and the first quarter of fiscal 2011 should have been accounted for as constructively retired, and the cost of repurchased shares should have been charged to paid-in capital in accordance with our accounting policy at that time. As a result of this error, our previously reported balances of treasury stock and paid-in capital as of May 31, 2011 and 2010 were misstated. To correct this error we have restated our May 31, 2011 treasury stock and paid-in capital balances. This adjustment is reflected in our consolidated statements of changes in equity by eliminating treasury stock and reclassifying this balance to paid-in capital. The May 31, 2011 treasury stock balance of \$113.0 million has been reclassified to reduce paid-in capital by \$113.0 million. The May 31, 2010 treasury stock balance of \$100.0 million has been reclassified to reduce paid-in capital by \$100.0 million. The effect of these misstatements was limited to treasury stock and paid-in capital.

Effective June 1, 2011, we elected to change our method of accounting for the retirement of repurchased shares. We previously accounted for the retirement of repurchased shares by charging the entire cost to paid-in capital. Our new method of accounting allocates the cost of repurchased and retired shares between paid-in capital and retained earnings. We believe that this method is preferable because it more accurately reflects our paid-in capital balances by allocating the cost of the shares repurchased and retired to paid-in capital in proportion to paid-in capital associated with the original issuance of said shares. We reflected the application of this new accounting method retrospectively by adjusting prior periods. This change is limited to an increase to the beginning balance of paid-in capital and a decrease to beginning balance of retained earnings of \$29.6 million at May 31, 2011 and 2010 and is reflected in our consolidated balance sheets and statements of changes in equity.

Revenue recognition— Our two merchant services segments primarily include processing solutions for credit cards, debit cards, and check-related services. Revenue is recognized as such services are performed. Revenue for processing services provided directly to merchants is recorded net of interchange fees charged by card issuing banks. The majority of our business model provides payment products and services directly to merchants as our end customers. We also provide similar products and services to financial institutions and a limited number of Independent Sales Organizations (ISOs) that, in turn, resell our products and services, in which case, the financial institutions and select ISOs are our end customers. The majority of merchant services revenue is generated on services priced as a percentage of transaction value or a specified fee per transaction, depending on card type. We also charge other fees based

Table of Contents

on specific services that are unrelated to the number of transactions or the transaction value. The majority of credit cards and signature debit cards, which are only a U.S. based card type, are based on a percentage of transaction value along with other related fees, while PIN debt cards are typically a fee per transaction.

Cash and cash equivalents— Cash and cash equivalents include cash on hand and all liquid investments with an initial maturity of three months or less when purchased. These amounts also include cash that we hold related to reserve funds collected from our merchants that serve as collateral (“Merchant Reserves”) to minimize contingent liabilities associated with any losses that may occur under the merchant agreement. We record a corresponding liability in settlement processing assets and settlement processing obligations in our consolidated balance sheet. While this cash is not restricted in its use, we believe that designating this cash to collateralize Merchant Reserves strengthens our fiduciary standing with our member sponsors and is in accordance with guidelines set by the card networks. As of August 31, 2011 and May 31, 2011, our cash and cash equivalents included \$284.7 million and \$271.4 million, respectively, related to Merchant Reserves.

Our cash and cash equivalents include settlement related cash balances. Settlement related cash balances represent surplus funds that we hold on behalf of our member sponsors when the incoming amount from the card networks precedes the member sponsors’ funding obligation to the merchant. Settlement related cash balances are not restricted; however, these funds are generally paid out in satisfaction of settlement processing obligations the following day. Please see Settlement processing assets and obligations below for further information.

Inventory— Inventory, which includes electronic point of sale terminals, automated teller machines, and related peripheral equipment, is stated at the lower of cost or market. Cost is determined by using the average cost method.

Settlement processing assets and obligations— We are designated as a Merchant Service Provider by MasterCard and an Independent Sales Organization by Visa. These designations are dependent upon member clearing banks (“Member”) sponsoring us and our adherence to the standards of the networks. We have five primary financial institution sponsors in the United States, Canada, the United Kingdom, Spain, the Asia-Pacific region and the Russian Federation with whom we have sponsorship or depository and clearing agreements. These agreements allow us to route transactions under the member banks’ control and identification numbers to clear credit card transactions through Visa and MasterCard. Visa and MasterCard set the standards with which we must comply. Certain of the member financial institutions of Visa and MasterCard are our competitors. In certain markets, we are members in various payment networks, allowing us to process and fund transactions without third-party sponsorship.

We also provide credit card transaction processing for Discover Financial Services or Discover Card (“Discover”) and are designated as an acquirer by Discover. Our agreement with Discover allows us to acquire, process and fund transactions directly through Discover’s network without the need of a financial institution sponsor. Otherwise, we process Discover transactions similarly to how we process MasterCard and Visa transactions. Discover publishes acquirer operating regulations, with which we must comply. We use our Members to assist in funding merchants for Discover transactions.

Funds settlement refers to the process of transferring funds for sales and credits between card issuers and merchants. Depending on the type of transaction, either the credit card interchange system or the debit network is used to transfer the information and funds between the Member and card issuer to complete the link between merchants and card issuers.

For transactions processed on our systems, we use our internal network telecommunication infrastructure to provide funding instructions to the Members who in turn fund the merchants. In certain of our markets, merchant funding primarily occurs after the Member receives the funds from the card issuer through the card networks creating a net settlement obligation on our balance sheet. In our other markets, the Member funds the merchants before the Member

receives the net settlement funds from the card networks, creating a net settlement asset on our balance sheet. In certain markets in the Asia-Pacific region, the Member provides the payment processing operations and related support services on our behalf under a transition services agreement. In such instances, we do not reflect the related settlement processing assets and obligations in our consolidated balance sheet. The Member will continue to provide these operations and services until the integration to our platform is completed. After our integration, the Member will continue to provide funds settlement services similar to the functions performed by our Members in other markets at which point the related settlement assets and obligations will be reflected in our consolidated balance sheet.

Timing differences, interchange expense, Merchant Reserves and exception items cause differences between the amount the Member receives from the card networks and the amount funded to the merchants. The standards of the card networks restrict us from performing funds settlement or accessing merchant settlement funds, and, instead, require that these funds be in the possession

Table of Contents

of the Member until the merchant is funded. However, in practice and in accordance with the terms of our sponsorship agreements with our Members, we generally follow a net settlement process whereby, if the incoming amount from the card networks precedes the Member's funding obligation to the merchant, we temporarily hold the surplus on behalf of the Member in our account at the Member bank and record a corresponding liability. Conversely, if the Member's funding obligation to the merchant precedes the incoming amount from the card networks, the amount of the Member's net receivable position is either subsequently advanced to the Member by us or the Member satisfies this obligation with its own funds. If the Member uses its own funds, the Member assesses a funding cost, which is included in interest and other expense on the accompanying consolidated statements of income. Each participant in the transaction process receives compensation for its services.

Settlement processing assets and obligations represent intermediary balances arising in our settlement process for direct merchants. Settlement processing assets consist primarily of (i) our receivable from merchants for the portion of the discount fee related to reimbursement of the interchange expense ("Interchange reimbursement"), (ii) our receivable from the Members for transactions we have funded merchants on behalf of the Members in advance of receipt of card association funding ("Receivable from Members"), (iii) our receivable from the card networks for transactions processed on behalf of merchants where we are a Member of that particular network ("Receivable from networks"), and (iv) exception items, such as customer chargeback amounts receivable from merchants ("Exception items"), all of which are reported net of (iv) Merchant Reserves held to minimize contingent liabilities associated with charges properly reversed by a cardholder ("Merchant Reserves"). Settlement processing obligations consist primarily of (i) Interchange reimbursement, (ii) our liability to the Members for transactions for which we have received funding from the Members but have not funded merchants on behalf of the Members ("Liability to Members"), (iii) our liability to merchants for transactions that have been processed but not yet funded where we are a Member of that particular network ("Liability to merchants"), (iv) Exception items, (v) Merchant Reserves, (vi) the fair value of our guarantees of customer chargebacks (see Reserve for operating losses below), and (vii) the reserve for sales allowances. In cases in which the Member uses its own funds to satisfy a funding obligation to merchants that precedes the incoming amount from the card network, we reflect the amount of this funding as a component of "Liability to Members."

A summary of these amounts as of August 31, 2011 and May 31, 2011 is as follows:

	August 31, 2011	May 31, 2011
	(in thousands)	
Settlement processing assets:		
Interchange reimbursement	\$67,736	\$72,022

Reserve for operating losses— As a part of our merchant credit and debit card processing and check guarantee services, we experience merchant losses and check guarantee losses, which are collectively referred to as “operating losses.”

Our credit card processing merchant customers are liable for any charges or losses that occur under the merchant agreement.

10

Table of Contents

In the event, however, that we are not able to collect such amount from the merchants, due to merchant fraud, insolvency, bankruptcy or any other merchant-related reason, we may be liable for any such losses based on our merchant agreement. We require cash deposits, guarantees, letters of credit, and other types of collateral by certain merchants to minimize any such contingent liability. We also utilize a number of systems and procedures to manage merchant risk. We have, however, historically experienced losses due to merchant defaults.

We account for our potential liability for the full amount of the operating losses discussed above as guarantees. We estimate the fair value of these guarantees by adding a fair value margin to our estimate of losses. This estimate of losses is comprised of estimated incurred losses and a projection of future losses. Estimated incurred loss accruals are recorded when it is probable that we have incurred a loss and the loss is reasonably estimable. These losses typically result from chargebacks related to merchant bankruptcies, closures, or fraud. Estimated incurred losses are calculated at the merchant level based on chargebacks received to date, processed volume, and historical chargeback ratios. The estimate is reduced for any collateral that we hold. Accruals for estimated incurred losses are evaluated periodically and adjusted as appropriate based on actual loss experience. Our projection of future losses is based on an assumed percentage of our direct merchant credit card and signature debit card sales volumes processed, or processed volume. Historically, this estimation process has been materially accurate.

As of August 31, 2011 and May 31, 2011, \$3.6 million and \$3.1 million, respectively, have been recorded to reflect the fair value of guarantees associated with merchant card processing. These amounts are included in settlement processing obligations in the accompanying unaudited consolidated balance sheets. The expense associated with the fair value of the guarantees of customer chargebacks is included in cost of service in the accompanying consolidated statements of income. For the three months ended August 31, 2011 and 2010, we recorded such expenses in the amounts of \$2.4 million and \$0.9 million, respectively.

In our check guarantee service offering, we charge our merchants a percentage of the gross amount of the check and guarantee payment of the check to the merchant in the event the check is not honored by the checkwriter's bank in accordance with the merchant's agreement with us. The fair value of the check guarantee is equal to the fee charged for the guarantee service, and we defer this fee revenue until the guarantee is satisfied. We have the right to collect the full amount of the check from the checkwriter but have not historically recovered 100% of the guaranteed checks. Our check guarantee loss reserve is based on historical and projected loss experiences. As of August 31, 2011 and May 31, 2011, we have a check guarantee loss reserve of \$4.8 million and \$3.9 million, respectively, which is included in net claims receivable in the accompanying consolidated balance sheets. For the three months ended August 31, 2011 and 2010, we recorded expenses of \$4.4 million and \$4.1 million, respectively. The estimated check returns and recovery amounts are subject to the risk that actual amounts returned and recovered in the future may differ significantly from estimates used in calculating the receivable valuation allowance.

As the potential for merchants' failure to settle individual reversed charges from consumers in our merchant credit card processing offering and the timing of individual checks clearing the checkwriters' banks in our check guarantee offering are not predictable, it is not practicable to calculate the maximum amounts for which we could be liable under the guarantees issued under the merchant card processing and check guarantee service offerings. It is not practicable to estimate the extent to which merchant collateral or subsequent collections of dishonored checks, respectively, would offset these exposures due to these same uncertainties.

Property and equipment— Property and equipment are stated at cost. Depreciation and amortization are calculated using the straight-line method, except for certain technology assets discussed below. Leasehold improvements are amortized over the lesser of the remaining term of the lease or the useful life of the asset. Maintenance and repairs are charged to operations as incurred.

We develop software that is used in providing processing services to customers. Capitalization of internally developed software, primarily associated with operating platforms, occurs when we have completed the preliminary project stage, management authorizes the project, management commits to funding the project, it is probable the project will be completed and the project will be used to perform the function intended. The preliminary project stage consists of the conceptual formulation of alternatives, the evaluation of alternatives, the determination of existence of needed technology and the final selection of alternatives. Costs incurred prior to the preliminary project stage are expensed as incurred.

We placed into service \$54.9 million of hardware and software associated with our next generation technology processing platform, referred to as G2. This platform is planned to be a new front-end operating environment for our merchant processing and is intended to replace a number of legacy platforms that have higher cost structures. Depreciation and amortization associated with these costs is calculated based on transactions expected to be processed over the life of the platform. We believe that this method is more representative of the platform's use than the straight-line method. We are currently processing transactions on our G2 platform

Table of Contents

in seven markets in our Asia-Pacific region. As these markets represent a small percentage of our overall transactions, depreciation and amortization related to our G2 platform for the three months ended August 31, 2011 was not significant. Depreciation and amortization expense will increase as we complete migrations of other markets to the G2 platform.

Goodwill and other intangible assets— We completed our most recent annual goodwill impairment test as of January 1, 2011 and determined that the fair value of each of our reporting units is substantially in excess of the carrying value. No events or changes in circumstances have occurred since the date of our most recent annual impairment test that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

Goodwill is tested for impairment at the reporting unit level, and the impairment test consists of two steps. In the first step the reporting unit's carrying amount, including goodwill, is compared to its fair value which is measured based upon, among other factors, a discounted cash flow analysis as well as market multiples for comparable companies. If the carrying amount of the reporting unit is greater than its fair value, goodwill is considered impaired and step two must be performed. Step two measures the impairment loss by comparing the implied fair value of reporting unit goodwill with the carrying amount of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit to all the assets and liabilities of that unit (including unrecognized intangibles) as if the reporting unit had been acquired in a business combination. The excess of fair value over the amounts allocated to the assets and liabilities of the reporting unit is the implied fair value of goodwill. The excess of the carrying amount over the implied fair value is the impairment loss.

We have six reporting units: North America Merchant Services, UK Merchant Services, Asia Pacific Merchant Services, Central and Eastern Europe Merchant Services, Russia Merchant Services and Spain Merchant Services. We estimate the fair value of our reporting units using a combination of the income approach and the market approach. The income approach utilizes a discounted cash flow model incorporating management's expectations for future revenue, operating expenses, EBITDA, capital expenditures and an anticipated tax rate. We discount the related cash flow forecasts using our estimated weighted-average cost of capital for each reporting unit at the date of valuation. The market approach utilizes comparative market multiples in the valuation estimate. Multiples are derived by relating the value of guideline companies, based on either the market price of publicly traded shares or the prices of companies being acquired in the marketplace, to various measures of their earnings and cash flow. Such multiples are then applied to the historical and projected earnings and cash flow of the reporting unit in developing the valuation estimate.

Preparation of forecasts and the selection of the discount rates involve significant judgments about expected future business performance and general market conditions. Significant changes in our forecasts, the discount rates selected or the weighting of the income and market approach could affect the estimated fair value of one or more of our reporting units and could result in a goodwill impairment charge in a future period.

Other intangible assets primarily represent customer-related intangible assets (such as customer lists and merchant contracts), contract-based intangible assets (such as non-compete agreements, referral agreements and processing rights), and trademarks associated with acquisitions. Customer-related intangible assets, contract-based intangible assets and certain trademarks are amortized over their estimated useful lives of up to 30 years. The useful lives for customer-related intangible assets are determined based primarily on forecasted cash flows, which include estimates for the revenues, expenses, and customer attrition associated with the assets. The useful lives of contract-based intangible assets are equal to the terms of the agreements. The useful lives of amortizable trademarks are based on our plans to phase out the trademarks in the applicable markets.

Amortization for most of our customer-related intangible assets is calculated using an accelerated method. In determining amortization expense under our accelerated method for any given period, we calculate the expected cash

flows for that period that were used in determining the acquired value of the asset and divide that amount by the expected total cash flows over the estimated life of the asset. We multiply that percentage by the initial carrying value of the asset to arrive at the amortization expense for that period. In addition, if the cash flow patterns that we experience are less favorable than our initial estimates, we will adjust the amortization schedule accordingly. These cash flow patterns are derived using certain assumptions and cost allocations due to a significant amount of asset interdependencies that exist in our business.

Impairment of long-lived assets— We regularly evaluate whether events and circumstances have occurred that indicate the carrying amount of property and equipment and finite-lived intangible assets may not be recoverable. When factors indicate that these long-lived assets should be evaluated for possible impairment, we assess the potential impairment by determining whether the carrying value of such long-lived assets will be recovered through the future undiscounted cash flows expected from use of the asset and its eventual disposition. If the carrying amount of the asset is determined not to be recoverable, a write-down to fair value is

Table of Contents

recorded. Fair values are determined based on quoted market values or discounted cash flows analyses as applicable. We regularly evaluate whether events and circumstances have occurred that indicate the useful lives of property and equipment and finite-life intangible assets may warrant revision. In our opinion, the carrying values of our long-lived assets, including property and equipment and finite-life intangible assets, were not impaired at August 31, 2011 and May 31, 2011.

Income taxes— Deferred income taxes are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax laws and rates. A valuation allowance is provided when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Our effective tax rates were 32.7% and 31.7% for the three months ended August 31, 2011 and 2010, respectively. The effective tax rates for the three months ended August 31, 2011 and 2010 reflect adjustments to our UK deferred tax asset due to legislated enacted corporate tax rate reductions in the United Kingdom of 2% and 1%, respectively. Please see Note 5 – Income Tax for further information.

Fair value of financial instruments— We consider that the carrying amounts of our financial instruments, including cash and cash equivalents, receivables, lines of credit, accounts payable and accrued liabilities, approximate their fair value given the short-term nature of these items. Our term loans include variable interest rates based on the prime rate or London Interbank Offered Rate plus a margin based on our leverage position. At August 31, 2011, the carrying amount of our term loans approximates fair value. Our subsidiary in the Russian Federation has notes payable with interest rates ranging from 8.0% to 10.0% and maturity dates ranging from September 2011 through August 2016. At August 31, 2011, we believe the carrying amount of these notes approximates fair value. Please see Note 4 – Long-Term Debt and Credit Facilities for further information.

Financing receivables— Our subsidiary in the Russian Federation purchases Automated Teller Machines (ATMs) and leases those ATMs to our sponsor bank. We have determined these arrangements to be direct financing leases. Accordingly, we have \$17.5 million and \$18.9 million of financing receivables included in our August 31, 2011 and May 31, 2011 consolidated balance sheets, respectively.

There is an inherent risk that our customer may not pay the contractual balances due. We periodically review the financing receivables for credit losses and past due balances to determine whether an allowance should be recorded. Historically we have not had any credit losses or past due balances associated with these receivables, and therefore we do not have an allowance recorded. We have had no financing receivables modified as troubled debt restructurings nor have we had any purchases or sales of financing receivables.

Foreign currencies— We have significant operations in a number of foreign subsidiaries whose functional currency is their local currency. Gains and losses on transactions denominated in currencies other than the functional currencies are included in determining net income for the period. For the three months ended August 31, 2011 and 2010, our transaction gains and losses were insignificant.

The assets and liabilities of subsidiaries whose functional currency is a foreign currency are translated at the period-end rate of exchange. Income statement items are translated at the average rates prevailing during the period. The resulting translation adjustment is recorded as a component of other comprehensive income and is included in equity. Translation gains and losses on intercompany balances of a long-term investment nature are also recorded as a component of other comprehensive income.

Earnings per share— Basic earnings per share is computed by dividing reported earnings available to common shareholders by the weighted average shares outstanding during the period. Earnings available to common shareholders are the same as reported net income attributable to Global Payments for all periods presented.

Diluted earnings per share is computed by dividing reported earnings available to common shareholders by the weighted average shares outstanding during the period and the impact of securities that would have a dilutive effect on earnings per share. All options with an exercise price less than the average market share price for the period are assumed to have a dilutive effect on earnings per share. The diluted share base for the three months ended August 31, 2011 and 2010 excludes shares of 0.2 million and 1.0 million, respectively, related to stock options. These shares were not considered in computing diluted earnings per share because including them would have had an antidilutive effect. No additional securities were outstanding that could potentially dilute basic earnings per share.

Table of Contents

The following table sets forth the computation of diluted weighted average shares outstanding for the three months ended August 31, 2011 and 2010 (in thousands):

	Three Months Ended August 31,	
	2011	2010
Basic weighted average shares outstanding	80,076	79,597
Plus: dilutive effect of stock options and other share-based awards	755	742
Diluted weighted average shares outstanding	80,831	80,339

New accounting pronouncements— From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board (“FASB”) or other standards setting bodies that are adopted by us as of the specified effective date. Unless otherwise discussed, our management believes that the impact of recently issued standards that are not yet effective will not have a material impact on our consolidated financial statements upon adoption.

In September 2011, the FASB issued ASU 2011-08, Testing Goodwill for Impairment (“ASU 2011-08”). The amendments in ASU 2011-08 will allow an entity to first assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. Under these amendments, an entity would not be required to calculate the fair value of a reporting unit unless the entity determines, based on a qualitative assessment, that it is more likely than not that its fair value is less than its carrying amount. The amendments include a number of events and circumstances for an entity to consider in conducting the qualitative assessment. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted. We are currently evaluating the impact of ASU 2011-08 on our goodwill impairment testing process.

In June 2011, the FASB issued ASU 2011-05, “Presentation of Comprehensive Income” (“ASU 2011-05”). In accordance with ASU 2011-05, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. ASU 2011-05 does not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. ASU 2011-05 is effective retrospectively for fiscal years, and interim periods within those years, beginning after December 15, 2011. This standard will become effective for us beginning June 2012. We are currently evaluating the options provided in the standard for reporting comprehensive income.

In May 2011, the FASB issued ASU 2011-04, “Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS” (“ASU 2011-04”). The amendments in ASU 2011-04 result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRS. Consequently, ASU 2011-04 changes the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. For many of the requirements, the FASB does not intend for the amendments in ASU 2011-04 to result in a change in the application of the requirements in Topic 820. ASU 2011-04 is effective prospectively for interim and annual reporting periods beginning after December 15, 2011. This ASU will become effective for us beginning in the quarter ended May 31, 2012. We do not expect an impact on our consolidated financial statements.

In December 2010, the FASB issued ASU 2010-29, "Disclosure of Supplementary Pro Forma Information for Business Combinations" ("ASU 2010-29"). ASU 2010-29 amends and clarifies the acquisition date to be used for reporting pro forma financial disclosures when comparative financial statements are presented. In addition, it requires a description of the nature of and amount of any material, non-recurring pro forma adjustments directly attributable to the business combination. ASU 2010-29 was effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010, with early adoption permitted. The standard did not have an impact on our financial position or results of operations as it only amends required disclosures.

Table of Contents

In December 2010, the FASB issued ASU 2010-28, “When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts” (“ASU 2010-28”). ASU 2010-28 modifies Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. The qualitative factors are consistent with existing guidance which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. ASU 2010-28 became effective for us on June 1, 2011 and did not have an impact on our financial position or results of operations because none of our reporting units have zero or negative carrying amounts.

NOTE 2—BUSINESS ACQUISITIONS

Fiscal 2011

Comercia Global Payments Entidad de Pago, S.L.

On December 20, 2010, we acquired a 51% controlling financial interest in Comercia Global Payments Entidad de Pago, S.L. (“Comercia”), a newly formed company into which Caixa d’Estalvis i Pensions de Barcelona (“la Caixa”) contributed its merchant acquiring business in Spain. “la Caixa” owns the remaining 49% of Comercia. We purchased our share of Comercia for €125 million. The shareholders contributed a total of €6.4 million as initial capital to form Comercia. Our total investment in Comercia, including our 51% share of the initial capital was €128.3 million (\$173.5 million as of the closing date). We manage the day-to-day operations of the corporation, control all major decisions and, accordingly, consolidate the corporation’s financial results for accounting purposes effective with the closing date. In conjunction with the acquisition, “la Caixa” agreed to a twenty year marketing alliance agreement in which “la Caixa” will refer customers to Comercia for payment processing services in Spain and provide sponsorship into the card networks. We funded the purchase with a combination of existing cash resources in Europe and borrowings on our Corporate Credit Facility. During fiscal 2011, we expensed acquisition costs of \$1.0 million associated with this transaction. These costs were recorded in selling, general and administrative expenses in the accompanying consolidated statements of income. The revenues and earnings of Comercia since the date of acquisition were not significant to our fiscal 2011 consolidated results of operations.

We formed Comercia with “la Caixa”, one of the largest retail banks in Spain, to provide merchant acquiring services to merchants in Spain. The purchase price was determined by analyzing the historical and prospective financial statements. This business acquisition was not significant to our consolidated financial statements and accordingly, we have not provided pro forma information relating to this acquisition.

The following table summarizes the purchase price allocation (in thousands):

Goodwill	\$ 147,535
Customer-related intangible assets	96,100
Contract-based intangible assets	54,141
Working capital, net	8,476
Total assets acquired	306,252
Non-controlling interest	(132,738)
Net assets acquired	\$ 173,514

The goodwill associated with the acquisition is deductible for tax purposes. The customer-related intangible assets have estimated amortization periods of 10 years. The contract-based intangible assets have estimated amortization periods of 20 years.

Other

During fiscal year 2011, we acquired contract-based and customer related intangible assets in our United States merchant services channel for \$3.5 million. These intangible assets are being amortized on a straight-line basis over their estimated useful lives of 5 to 7 years.

Table of Contents

NOTE 3—GOODWILL AND INTANGIBLE ASSETS

As of August 31, 2011 and May 31, 2011, goodwill and intangible assets consisted of the following:

	August 31, 2011	May 31, 2011
	(in thousands)	
Goodwill	\$ 775,505	\$ 779,637
Other intangible assets:		
Customer-related intangible assets	\$ 454,681	\$ 457,226
Trademarks, finite life	8,537	8,659
Contract-based intangible assets	72,448	72,681
	535,666	538,566
Less accumulated amortization on:		
Customer-related intangible assets	191,397	181,372
Trademarks	4,392	4,138
Contract-based intangible assets	12,883	11,556
	208,672	197,066
	\$ 326,994	\$ 341,500

The following table discloses the changes in the carrying amount of goodwill for the three months ended August 31, 2011 (in thousands):

	North America merchant services (in thousands)	International merchant services	Total
Balance at May 31, 2011	\$ 217,422	\$ 562,215	\$ 779,637
Accumulated impairment losses	—	—	—
	217,422	562,215	779,637
Goodwill acquired	—	—	—
Effect of foreign currency translation	(948)	(3,184)	(4,132)
Balance at August 31, 2011	\$ 216,474	\$ 559,031	\$ 775,505

Table of Contents

NOTE 4—LONG-TERM DEBT AND CREDIT FACILITIES

Outstanding debt consisted of the following:

	August 31, 2011 (in thousands)	May 31, 2011
Lines of credit:		
Corporate Credit Facility - long-term	\$ 230,500	\$ 183,975
Short-term lines of credit:		
United Kingdom Credit Facility	121,786	108,333
Hong Kong Credit Facility	70,898	73,554
Canada Credit Facility	13,772	18,725
Malaysia Credit Facility	21,223	17,743
Spain Credit Facility	44,294	17,646
Singapore Credit Facility	21,332	17,245
Philippines Credit Facility	9,927	9,736
Maldives Credit Facility	3,461	3,202
Macau Credit Facility	2,134	2,372
Sri Lanka Credit Facility	2,245	2,189
Total short-term lines of credit	311,072	270,745
Total lines of credit	541,572	454,720
Notes Payable	14,141	14,285
Term loans	135,029	155,759
Total debt	\$ 690,742	\$ 624,764
Current portion	\$ 404,976	\$ 356,547
Long-term debt	285,766	268,217
Total debt	\$ 690,742	\$ 624,764

Lines of Credit

The Corporate Credit Facility is available for general corporate purposes and to fund future strategic acquisitions. Our line of credit facilities are used to fund settlement and provide a source of working capital. With certain of our credit facilities, the facility nets the amounts pre-funded to merchants against specific cash balances in local Global Payments accounts, which we characterize as cash and cash equivalents. Therefore, the amounts reported in lines of credit, which represents the amounts pre-funded to merchants, may exceed the stated credit limit, when in fact the combined position is less than the credit limit. The total available incremental borrowings under our credit facilities at August 31, 2011 were \$803.5 million, of which \$369.5 million is available under our Corporate Credit Facility.

Term Loans

We have a five year unsecured \$200.0 million term loan agreement with a syndicate of banks in the United States which we used to partially fund our HSBC Merchant Services LLP acquisition. The term loan bears interest, at our election, at the prime rate or LIBOR, plus a leverage based margin. As of August 31, 2011 the interest rate on the term loan was 1.33%. The term loan calls for quarterly principal payments of \$5.0 million beginning with the quarter ended August 31, 2008 and increasing to \$10.0 million beginning with the quarter ended August 31, 2010 and \$15.0 million beginning with the quarter ending August 31, 2011. As of August 31, 2011, the outstanding balance of the term loan was \$105.0 million.

Table of Contents

We have a \$300.0 million term loan agreement (\$230.0 million and £43.5 million) with a syndicate of financial institutions. We used the proceeds of this term loan to pay down our then-existing credit facility which had been used to initially fund the purchase of the remaining 49% interest in HMS. In December 2010, the entire balance of the United States dollar portion of the term loan was repaid by a borrowing on the Corporate Credit Facility, and the facility terms were amended. The term loan expires in July 2012 and has a variable interest rate based on the London Interbank Offered Rate plus a leverage based margin. As of August 31, 2011, the interest rate on the remaining British Pound Sterling portion of the term loan was 2.17%. The term loan requires quarterly principal payments of £2.2 million beginning with the quarter ended August 31, 2009 and increasing to £3.3 million beginning with the quarter ended August 31, 2010. As of August 31, 2011, the outstanding balance of this term loan was \$30.0 million (£18.5 million).

Notes Payable

UCS, our subsidiary in the Russian Federation has notes payable with a total outstanding balance of approximately \$14.1 million at August 31, 2011. These notes have fixed interest rates ranging from 8.0% to 10.0% with maturity dates ranging from September 2011 through August 2016.

Compliance with Covenants

There are certain financial and non-financial covenants contained in our various credit facilities and term loans. Our term loan agreements include financial covenants requiring a leverage ratio no greater than 3.25 to 1.00 and a fixed charge coverage ratio no less than 2.50 to 1.00. We complied with these covenants as of and for the three months ended August 31, 2011.

NOTE 5—INCOME TAX

We have a deferred tax asset of \$95.5 million at August 31, 2011 primarily associated with the purchase of the remaining 49% interest in HSBC Merchant Services LLP ("UK deferred tax asset").

Our effective tax rates were 32.7% and 31.7% for the three months ended August 31, 2011 and 2010, respectively. The effective tax rates for the three months ended August 31, 2011 and 2010 reflect adjustments to our UK deferred tax asset due to legislated enacted corporate tax rate reductions in the United Kingdom of 2% and 1%, respectively.

As of August 31, 2011 and May 31, 2011, other long-term liabilities included liabilities for unrecognized income tax benefits of \$39.6 million and \$37.2 million, respectively. Accrued interest and penalties were insignificant.

During the three months ended August 31, 2011, we recognized additional liabilities of \$2.4 million for unrecognized income tax benefits. During both the three months ended August 31, 2011 and 2010, amounts recorded for accrued interest and penalty expense related to the unrecognized income tax benefits was insignificant.

We conduct business globally and file income tax returns in the United States federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, we are subject to examination by taxing authorities throughout the world, including such major jurisdictions as the United States, United Kingdom and Canada. With few exceptions, we are no longer subject to income tax examinations for years ended May 31, 2005 and prior.

NOTE 6—SHAREHOLDERS' EQUITY

On August 8, 2011, our Board of Directors approved a share repurchase program that authorized the purchase of up to \$100.0 million of Global Payments' stock in the open market at the current market price, subject to market conditions,

business opportunities, and other factors. Under this authorization, we repurchased 1,854,259 shares of our common stock at a cost of \$80.5 million, or an average of \$43.43 per share, including commissions during the first quarter of fiscal 2012. As of August 31, 2011, we paid \$73.2 million in cash for such shares with the remaining \$7.3 million paid in September 2011, and recorded in accounts payable and accrued liabilities. During the second quarter of fiscal 2012, we concluded this repurchase program with an additional purchase of 435,800 shares at a cost of \$19.1 million, or an average of \$43.78 per share.

During the first quarter of fiscal 2011, we used the \$13.0 million remaining under the authorization from our original share

Table of Contents

repurchase program initiated during fiscal 2007 to repurchase 344,847 shares of our common stock a cost of \$13.0 million, or an average of \$37.64 per share, including commissions.

NOTE 7—SHARE-BASED AWARDS AND OPTIONS

As of August 31, 2011, we have awards outstanding under four share-based employee compensation plans. The fair value of share-based awards is amortized as compensation expense on a straight-line basis.

Non-qualified stock options and restricted stock have been granted to officers, key employees and directors under the Global Payments Inc. 2000 Long-Term Incentive Plan, as amended and restated (the “2000 Plan”), the Global Payments Inc. Amended and Restated 2005 Incentive Plan (the “2005 Plan”), and an Amended and Restated 2000 Non-Employee Director Stock Option Plan (the “Director Plan”) (collectively, the “Plans”). There were no further grants made under the 2000 Plan after the 2005 Plan was effective and the Director Plan expired by its terms on February 1, 2011 so no further grants will be granted thereunder.

On September 27, 2011, we held our 2011 Annual Meeting of Shareholders (the “Annual Meeting”). At the Annual Meeting, our shareholders approved the Global Payments Inc. 2011 Incentive Plan (the “2011 Plan”), a plan that permits for grants of equity and employees, officers, directors and consultants. A total of 7.0 million shares of our common stock were reserved and made available for issuance pursuant to awards granted under the 2011 Plan. Effective with the adoption of the 2011 Plan, there will be no future grants under the 2005 Plan.

Certain executives are granted two different types of performance units. A portion of those performance units represent the right to earn 0% to 200% of a target number of shares of Global Payments stock depending upon the achievement level of certain performance measures during the grant year (“PRSU”). The target number of PRSUs and the performance measures (at threshold, target, and maximum) are set by our Compensation Committee. PRSUs are converted to a time-based restricted stock grant only if the Company's performance during the fiscal year exceeds pre-established goals. The other portion of these performance units represent the right to earn 0% to 200% of target shares of Global Payments stock based on Global Payments' relative total shareholder return compared to peer companies over a three year performance period (“TSRs”). The target number of TSRs for each executive is set by our Compensation Committee and a monte carlo simulation is used to calculate the estimated share payout.

The following table summarizes the share-based compensation cost charged to income for (i) all stock options granted, (ii) our restricted stock program, and (iii) our employee stock purchase plan. The total income tax benefit recognized for share-based compensation in the accompanying unaudited statements of income is also presented.

	Three Months Ended	
	August 31, 2011	August 31, 2010
	(in millions)	
Share-based compensation cost	\$4.0	\$3.5
Income tax benefit	\$1.3	\$1.2

Stock Options

Stock options are granted at 100% of fair market value on the date of grant and have 10-year terms. Stock options granted vest one year after the date of grant in 25% increments over a four year period. The Plans provide for accelerated vesting under certain conditions. We have historically issued new shares to satisfy the exercise of options. There were no options granted under the 2005 Plan during the three months ended August 31, 2011.

The following is a summary of our stock option plans as of and for the three months ended August 31, 2011:

Table of Contents

	Options (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in millions)
Outstanding at May 31, 2011	2,453	\$32	5.1	\$45.9
Granted	—	\$—		
Forfeited	(24)	) \$36		
Exercised	(24)	) \$29		
Outstanding at August 31, 2011	2,405	\$32	4.8	\$29.7
Options vested and exercisable at August 31, 2011	1,966	\$32	4.0	\$27.5

The aggregate intrinsic value of stock options exercised during the three months ended August 31, 2011 and 2010 was \$0.3 million and \$0.9 million, respectively. As of August 31, 2011, we had \$4.7 million of total unrecognized compensation cost related to unvested options which we expect to recognize over a weighted average period of 1.5 years.

The weighted average grant-date fair values of each option granted during the three months ended August 31, 2010 were \$11. The fair value of each option granted was estimated on the date of grant using the Black-Scholes valuation model with the following weighted average assumptions for grants during the period:

	Three Months Ended August 31, 2011		2010	
2005 Plan				
Risk-free interest rates	—	1.74	%	
Expected volatility	—	31.96	%	
Dividend yields	—	0.21	%	
Expected lives	—	5 years		

The risk-free interest rate is based on the yield of a zero coupon U.S. Treasury security with a maturity equal to the expected life of the option from the date of the grant. Our assumption on expected volatility is based on our historical volatility. The dividend yield assumption is calculated using our average stock price over the preceding year and the annualized amount of our current quarterly dividend. We based our assumptions on the expected lives of the options on our analysis of the historical exercise patterns of the options and our assumption on the future exercise pattern of options.

Restricted Stock

Shares awarded under the restricted stock program of the 2000 Plan and 2005 Plan are held in escrow and released to the grantee upon the grantee's satisfaction of conditions of the grantee's restricted stock agreement. The grant date fair value of restricted stock awards is based on the quoted fair market value of our common stock at the award date.

Grants of restricted shares are subject to forfeiture if a grantee, among other conditions, leaves our employment prior to expiration of the restricted period. New grants of restricted shares generally vest one year after the date of grant in 25% increments over a four year period.

The following table summarizes the changes in non-vested restricted stock awards for the three months ended August 31, 2011.

20

Table of Contents

	Share Awards	Weighted Average Grant-Date Fair Value
	(in thousands)	
Non-vested at May 31, 2011	869	\$40
Granted	466	48
Vested	(308)	40
Forfeited	(34)	41
Non-vested at August 31, 2011	993	44

The total fair value of shares vested during the three months ended August 31, 2011 was \$12.3 million. During the three months ended August 31, 2010, the weighted average grant-date fair value of shares vested was \$42 and the total fair value of shares vested was \$10.3 million.

We recognized compensation expenses for restricted stock of \$3.0 million and \$2.7 million in the three months ended August 31, 2011 and 2010, respectively. As of August 31, 2011, there was \$42.4 million of total unrecognized compensation cost related to unvested restricted stock awards that is expected to be recognized over a weighted average period of 3 years.

Employee Stock Purchase Plan

We have an Employee Stock Purchase Plan under which the sale of 2.4 million shares of our common stock has been authorized. Employees may designate up to the lesser of \$25,000 or 20% of their annual compensation for the purchase of stock. The price for shares purchased under the plan is 85% of the market value on the last day of the quarterly purchase period. As of August 31, 2011, 0.9 million shares had been issued under this plan, with 1.5 million shares reserved for future issuance.

The weighted average grant-date fair value of each designated share purchased under this plan during the three months ended August 31, 2011 and 2010 was \$8 and \$5, respectively, which represents the fair value of the 15% discount.

NOTE 8—SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow disclosures are as follows:

	Three Months Ended August 31, 2011 2010 (in thousands)	
Income taxes paid, net of refunds	\$4,703	\$2,538
Interest paid	3,470	5,460
Financing receivables:		
Investment in equipment for financing leases	\$—	\$(54)
Principal collections from customers – financing leases	583	508
Net decrease in financing receivables	\$583	\$454

NOTE 9—NONCONTROLLING INTERESTS

The following table details the components of redeemable noncontrolling interests for the three months ended August 31, 2011 and 2010:

21

Table of Contents

	Three Months Ended August 31,	
	2011	2010
	(in thousands)	
Beginning balance	\$ 133,858	\$ 102,672
Net income attributable to redeemable noncontrolling interest	2,605	2,367
Foreign currency translation adjustment	132	—
Increase in the maximum redemption amount of redeemable noncontrolling interest	1,842	115
Ending balance	\$ 138,437	\$ 105,154

For the three months ended August 31, 2011 and 2010, net income included in the consolidated statements of changes in shareholders' equity is reconciled to net income presented in the consolidated statements of income as follows:

	Three Months Ended August 31,	
	2011	2010
	(in thousands)	
Net income attributable to Global Payments	\$ 63,974	\$ 49,368
Net income attributable to nonredeemable noncontrolling interest	5,502	2,059
Net income attributable to redeemable noncontrolling interest	2,605	2,367
Net income including noncontrolling interest	\$ 72,081	\$ 53,794

NOTE 10—SEGMENT INFORMATION

General information

We operate in two reportable segments, North America Merchant Services and International Merchant Services. The merchant services segments primarily offer processing solutions for credit cards, debit cards, and check-related services.

Information about profit and assets

We evaluate performance and allocate resources based on the operating income of each segment. The operating income of each segment includes the revenues of the segment less those expenses that are directly related to those revenues. Operating overhead, shared costs and certain compensation costs are included in Corporate in the following table. Interest expense or income and income tax expense are not allocated to the individual segments. Lastly, we do not evaluate performance or allocate resources using segment asset data. The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies in Note 1.

Information on segments, including revenues by geographic distribution within segments, and reconciliations to consolidated revenues and consolidated operating income are as follows for the three months ended August 31, 2011 and 2010:

Table of Contents

	Three Months Ended	
	August 31, 2011	August 31, 2010
	(in thousands)	
Revenues:		
United States	\$287,425	\$255,630
Canada	91,221	81,213
North America merchant services	378,646	336,843
Europe	129,414	73,796
Asia-Pacific	34,711	29,499
International merchant services	164,125	103,295
Consolidated revenues	\$542,771	\$440,138
Operating income for segments:		
North America merchant services	\$71,758	\$68,368
International merchant services	55,658	31,393
Corporate	(18,806)	(17,654)
Consolidated operating income	\$108,610	\$82,107
Depreciation and amortization:		
North America merchant services	\$8,532	\$7,664
International merchant services	15,160	8,919
Corporate	524	121
Consolidated depreciation and amortization	\$24,216	\$16,704

Our results of operations and our financial condition are not significantly reliant upon any single customer.

NOTE 11—COMMITMENTS AND CONTINGENCIES

We have a redeemable noncontrolling interest associated with our Asia-Pacific merchant services business. Global Payments Asia-Pacific, Limited, or GPAP, is the entity through which we conduct our merchant acquiring business in the Asia-Pacific region. We own 56% of GPAP and HSBC Asia Pacific owns the remaining 44%. The GPAP shareholders agreement includes provisions pursuant to which HSBC Asia Pacific may compel us to purchase, at the lesser of fair value or a net revenue multiple, additional GPAP shares from HSBC Asia Pacific (the "Put Option"). HSBC Asia Pacific may exercise the Put Option on each anniversary of the closing of the acquisition. HSBC Asia Pacific did not exercise the Put Option on the first exercisable date of July 24, 2011. By exercising the Put Option, HSBC Asia Pacific can require us to purchase, on an annual basis, up to 15% of the total issued shares of GPAP. We estimate the maximum total redemption amount of the redeemable noncontrolling interest under the Put Option would be \$138.4 million as of August 31, 2011, \$45.6 million of which was puttable to us on July 24, 2011. We have adjusted our redeemable noncontrolling interest to reflect the maximum redemption amount as of August 31, 2011 on our consolidated balance sheet.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

For an understanding of the significant factors that influenced our results, the following discussion should be read in conjunction with our unaudited consolidated financial statements and related notes appearing elsewhere in this report. This management's discussion and analysis should also be read in conjunction with the management's discussion and analysis and consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2011.

General

We are a provider of electronic payments transaction processing services for consumers, merchants, Independent Sales Organizations (ISOs), financial institutions, government agencies and multi-national corporations located throughout the United States, Canada, the United Kingdom, Spain, the Asia-Pacific region, the Czech Republic and the Russian Federation. We serve as an intermediary to facilitate payments transactions and operate in two business segments, North America Merchant Services and International Merchant Services. We were incorporated in Georgia as Global Payments Inc. in September 2000 and spun-off from our former parent company on January 31, 2001. Including our time as part of our former parent company, we have been in business since 1967.

Our North America Merchant Services and International Merchant Services segments target customers in many vertical industries including financial institutions, gaming, government, health care, professional services, restaurants, retail, universities, nonprofit organizations and utilities.

Our offerings provide merchants, ISOs and financial institutions with credit and debit card transaction processing and check-related services. The majority of our business model provides payment products and services directly to merchants as our end customers. We also provide similar products and services to financial institutions and a limited number of ISOs that, in turn, resell our products and services, in which case, the financial institutions and select ISOs are our end customers. These particular services are marketed in the United States, Canada, and parts of Eastern Europe.

The majority of merchant services revenue is generated on services priced as a percentage of transaction value or a specified fee per transaction, depending on card type. We also charge other fees based on specific services that are unrelated to the number of transactions or the transaction value. The majority of credit cards and signature debit cards, which are only a U.S. based card type, are based on a percentage of transaction value along with other related fees, while PIN debit cards are typically a fee per transaction.

Our products and services are marketed through a variety of sales channels that include a dedicated direct sales force, ISOs, an internal telesales group, retail outlets, trade associations, alliance bank relationships and financial institutions. We seek to leverage the continued shift to electronic payments by expanding market share in our existing markets through our distribution channels or through acquisitions in North America, the Asia-Pacific region and Europe, and investing in and leveraging technology and people, thereby maximizing shareholder value. We also seek to enter new markets through acquisitions in the Asia-Pacific region, Europe, and Latin America.

Our business does not have pronounced seasonality in which more than 30% of our revenues occur in one quarter. However, each geographic channel has somewhat higher and lower quarters given the nature of the portfolio. While there is some variation in seasonality across markets, the first and fourth quarters are generally the strongest, and the third quarter tends to be the slowest due to lower volumes in the months of January and February.

Executive Overview

Revenues increased \$102.6 million, or 23%, during the three months ended August 31, 2011 compared to the prior year's comparable period. Revenue growth was driven by strong performance across all of our regions, the impact of our acquisition in Spain on December 20, 2010, and favorable foreign currency trends.

Operating income increased \$26.5 million during the three months ended August 31, 2011 compared to the prior year's comparable period. Operating margins for the three months ended August 31, 2011 increased to 20.0% compared to 18.7% during the three months ended August 31, 2010. The increase in operating margin is due to strong results in our International merchant services segment, a marketing fee true-up in Spain, favorable foreign currency trends and a stable performing Canada, partially

Table of Contents

offset by the margin dilutive effect of our ISO channel.

For the three months ended August 31, 2011 currency exchange rate fluctuations increased our revenues by \$15.0 million and our earnings by \$0.05 per diluted share. To calculate this impact, we converted our fiscal 2011 actual revenues and expenses from continuing operations at fiscal 2010 currency exchange rates. Further fluctuations in currency exchange rates or decreases in consumer spending could cause our results to differ from our current expectations.

Table of Contents

Results of Operations

The following table shows key selected financial data for the three months ended August 31, 2011 and 2010, this data as a percentage of total revenue, and the changes between three months ended August 31, 2011 and 2010, in dollars and as a percentage of the prior year's comparable period. Comercia's results of operations are included in our consolidated results of operations and results of operations of our International merchant services segment from December 20, 2010, the date we acquired our controlling financial interest. Accordingly, results of operations for the three months ended August 31, 2011 reflect the results of Comercia's operations, while results of operations for the three months ended August 31, 2010 do not.

	Three Months Ended August 31, 2011 (dollar amounts in thousands)	% of Revenue ⁽¹⁾	Three Months Ended August 31, 2010	% of Revenue ⁽¹⁾	Change	% Change

International merchant services	33.9	%	30.4	%	3.5	%

⁽¹⁾ Percentage amounts may not sum to the total due to rounding.

Revenues

We derive our revenues from three primary sources: charges based on volumes and fees for services, charges based on transaction quantity, and equipment sales, leases and service fees. Revenues generated by these areas depend upon a number of factors, such as demand for and price of our services, the technological competitiveness of our product

offerings, our reputation for providing timely and reliable service, competition within our industry and general economic conditions.

Table of Contents

For the three months ended August 31, 2011, revenues increased 23% to \$542.8 million compared to the prior year's comparable period. For the three months ended August 31, 2011, currency exchange rate fluctuations increased our revenues by \$15.0 million.

North America Merchant Services Segment

For the three months ended August 31, 2011, revenue from our North America merchant services segment increased 12% to \$378.6 million compared to the prior year's comparable period.

We grow our United States revenue by adding small and mid-market merchants in diversified vertical markets, primarily through our ISO channel. For the three months ended August 31, 2011, our United States direct credit and debit card processed transactions grew 12%, and our total United States revenue grew 12% compared to the prior year period. For the three months ended August 31, 2011 compared to the prior year's comparable period, our United States average ticket decreased approximately 3% which was offset by increased spreads. This decline in average ticket is primarily due to a shift toward smaller merchants added through our ISO channel. Smaller merchants tend to have lower average tickets than larger merchants. The effect of consumers replacing cash-based payments with debit card transactions also lowers our overall average ticket amounts. Based on our mix of merchants, slightly more than half of our United States transactions are comprised of a combination of signature- and PIN-based debit transactions, with PIN-based debit transactions representing less than 10% of our total transactions.

For the three months ended August 31, 2011, our Canadian revenue increased 12% compared to the prior year period. The increase in revenue was due to favorable foreign currency trends in Canada and credit and debit card transaction of growth of 4%, which were somewhat offset by market-driven pricing pressure compared to the prior year's comparable period.

International Merchant Services Segment

For the three months ended August 31, 2011 International merchant services revenue increased 59% to \$164.1 million compared to the prior year's comparable period.

Our Europe merchant services revenue for the three months ended August 31, 2011 increased 75% to \$129.4 million compared to the prior year period. Our Europe merchant services revenue increased due to the impact of our acquisition in Spain on December 20, 2010, pricing benefits in the United Kingdom, a marketing fee true-up in Spain and favorable foreign currency trends.

Asia-Pacific merchant services revenue for the three months ended August 31, 2011 increased 18% to \$34.7 million compared to the prior year's comparable period. The growth was due to solid business performance across the region.

Consolidated Operating Expenses

Cost of service consists primarily of the following costs: operations-related personnel, including those who monitor our transaction processing systems and settlement functions; assessment fees paid to card networks; transaction processing systems, including third-party services such as the costs for transition services paid to HSBC in the Asia-Pacific market and the United Kingdom; network telecommunications capability; depreciation and occupancy costs associated with the facilities performing these functions; amortization of intangible assets; and provisions for operating losses.

Cost of service increased 27% to \$191.5 million for the three months ended August 31, 2011 compared to the prior year's comparable period. As a percentage of revenue, cost of service increased to 35.3% of revenue for the three months ended August 31, 2011 from 34.3% for the prior year's comparable period.

Sales, general and administrative expenses consists primarily of salaries, wages and related expenses paid to sales personnel; non-revenue producing customer support functions and administrative employees and management; commissions paid to ISOs, independent contractors, and other third parties, advertising costs; other selling expenses, share-based compensation expenses and occupancy of leased space directly related to these functions.

Sales, general and administrative expenses increased 17% to \$242.6 million for the three months ended August 31, 2011 compared to the prior year's comparable period, primarily due to an increase in commission payments to ISOs. As a percentage of

Table of Contents

revenue, sales, general and administrative expense decreased to 44.7% for the three months ended August 31, 2011 compared to 47.0% in the prior year's comparable period as revenues increased due to pricing changes in the United Kingdom, a pricing rebate we received in Spain and favorable foreign currency trends; all of which did not have proportional increases in sales, general and administrative expenses.

Operating Income and Operating Margin for Segments

For the purpose of discussing segment operations, we refer to operating income as calculated by subtracting segment direct expenses from segment revenue. Overhead and shared expenses, including share-based compensation costs, are not allocated to segment operations; they are reported in the caption "Corporate." Similarly, references to operating margin regarding segment operations mean segment operating income divided by segment revenue.

North America Merchant Services Segment

Operating income in the North America merchant services segment increased 5% to \$71.8 million for the three months ended August 31, 2011 compared to the prior year's comparable period. The operating margin was 19.0% and 20.3% for the three months ended August 31, 2011 and 2010, respectively. Growth in the U.S. ISO channel reduced margins for the three months ended August 31, 2011. The ISO channel generally has a dilutive effect on our operating margin compared to our other channels due to the ongoing commission payments to the ISOs.

International Merchant Services Segment

Operating income in the International merchant services segment increased 77% to \$55.7 million for the three months ended August 31, 2011 compared to the prior year's comparable period. The operating margin was 33.9% and 30.4% for the three months ended August 31, 2011 and 2010, respectively. The increase in operating margin is due to the strong segment results, a marketing fee true-up in Spain and favorable currency trends.

Corporate

Our corporate expenses include costs associated with our Atlanta headquarters, expenses related to our Global Service Center in Manila, Philippines that have not been allocated to our business segments, insurance, employee incentive programs, and certain corporate staffing areas, including finance, accounting, legal, human resources, marketing, and executive. Corporate also includes expenses associated with our share-based compensation programs. Our corporate costs increased 7% to \$18.8 million for the three months ended August 31, 2011 compared to the prior year's comparable period due to general infrastructure growth.

Consolidated Operating Income

During the three months ended August 31, 2011, our consolidated operating income increased \$26.5 million to \$108.6 million compared to the prior year's comparable period. The increase in our consolidated operating income is due to the increases in our International merchant services segment, offset by increased corporate, sales, general and administrative expenses as discussed above.

Consolidated Other Income/Expense, Net

Other income and expense consists primarily of interest income and interest expense. Other expense, net, decreased to \$1.6 million for the three months ended August 31, 2011 compared to \$3.3 million in the prior year's comparable period. The decrease in other expense is due to lower interest expense resulting from a decrease in term loan outstanding balance and lower interest rates.

Table of Contents

Provision for Income Taxes

Our effective tax rates were 32.7% and 31.7% for the three months ended August 31, 2011 and 2010, respectively. The effective tax rates for the three months ended August 31, 2011 and 2010 reflect adjustments to our UK deferred tax asset due to legislated enacted corporate tax rate reductions in the United Kingdom of 2% and 1%, respectively.

Noncontrolling Interests, Net of Tax

Noncontrolling interests, net of tax increased to \$8.1 million from \$4.4 million for the three months ended August 31, 2011 and 2010, respectively, primarily due to our acquisition of a 51% controlling financial interest in Comercia on December 20, 2010.

Liquidity and Capital Resources

A significant portion of our liquidity comes from operating cash flows. Cash flow from operations is used to make planned capital investments in our business, to pursue acquisitions that meet our corporate objectives, to pay dividends, and to pay off debt and repurchase our shares at the discretion of our Board of Directors. Accumulated cash balances are invested in high quality and marketable short term instruments.

Our capital plan objectives are to support the Company's operational needs and strategic plan for the long-term growth while maintaining a low cost of capital. Lines of credit are used in certain of our markets to fund settlement and as a source of working capital and, along with other bank financing, to fund acquisitions. We regularly evaluate our liquidity and capital position relative to cash requirements, and we may elect to raise additional funds in the future, either through the issuance of debt, equity or otherwise.

At August 31, 2011, we had cash and cash equivalents totaling \$724.0 million. Of this amount, we consider \$234.1 million to be available cash. Our available cash balance includes \$174.6 million of cash held by foreign subsidiaries that are considered permanently reinvested. These cash balances reflect the accumulation of cash flows generated by each subsidiary's operations, net of cash flows used to service debt locally and fund non-US acquisitions. We believe that we are able to maintain a sufficient level of liquidity for our domestic operations and commitments without repatriation of the cash held by these foreign subsidiaries.

Available cash generally excludes settlement related and merchant reserve cash balances. Settlement related cash balances represent funds that we hold on behalf of our member sponsors when the incoming amount from the card networks precedes the member sponsors' funding obligation to the merchant. Merchant reserve cash balances represent funds collected from our merchants that serve as collateral ("Merchant Reserves") to minimize contingent liabilities associated with any losses that may occur under the merchant agreement. At August 31, 2011, our cash and cash equivalents included \$284.7 million related to Merchant Reserves. While this cash is not restricted in its use, we believe that designating this cash to collateralize Merchant Reserves strengthens our fiduciary standing with our member sponsors and is in accordance with the guidelines set by the card networks. See Cash and cash equivalents and Settlement processing assets and obligations under Note 1 in the notes to the consolidated financial statements for additional details.

Operating activities used net cash of \$605.9 million during the three months ended August 31, 2011 compared to using net cash of \$104.4 million during the prior year's comparable period. The decrease in cash flow from operating activities was primarily due the change in net settlement processing assets and obligations of \$497.1 million. See

Settlement processing assets and obligations under Note 1 in the notes to the unaudited consolidated financial statements for additional details.

Net cash used in investing activities decreased \$15.3 million to \$11.6 million for the three months ended August 31, 2011 from the prior year's comparable period, primarily due to a reduction in our capital expenditures for investments in software and infrastructure of \$12.6 million.

For the three months ended August 31, 2011, we used \$11.7 million in cash for financing activities compared to \$61.8 million cash used in financing activities in the prior year. The decrease in cash used in financing activities was primarily due to an increase in line of credit borrowings of \$35.4 million to fund settlement, and an increase in borrowings on our Corporate Credit Facility of

Table of Contents

\$69.4 million. In addition, in the first quarter of fiscal year 2012 we repurchased an additional 1,854,259 shares of our common stock at a cost of \$80.5 million. As of August 31, 2011, we paid \$73.2 million in cash for such shares with the remaining \$7.3 million paid in September 2011, and recorded in accounts payable and accrued liabilities. During the second quarter of fiscal 2012, we concluded this repurchase program with an additional purchase of 435,800 shares at a cost of \$19.1 million, or an average of \$43.78 per share. Cash paid for share repurchases during the first quarter of fiscal year 2011 was \$14.9 million.

We believe that our current level of cash and borrowing capacity under our lines of credit described below, together with future cash flows from operations, are sufficient to meet the needs of our existing operations and planned requirements for the foreseeable future. During fiscal year 2012, we expect capital expenditures to range between \$85.0 and \$90.0 million.

Contractual Obligations

The operating lease commitments disclosed in our Annual Report on Form 10-K for the year ended May 31, 2011 have not changed significantly. Our remaining current contractual and other obligations are as follows:

Redeemable Noncontrolling interest

We have a redeemable noncontrolling interest associated with our Asia-Pacific merchant services business. Global Payments Asia-Pacific, Limited, or GPAP, is the entity through which we conduct our merchant acquiring business in the Asia-Pacific region. We own 56% of GPAP and HSBC Asia Pacific owns the remaining 44%. The GPAP shareholders agreement includes provisions pursuant to which HSBC Asia Pacific may compel us to purchase, at the lesser of fair value or a net revenue multiple, additional GPAP shares from HSBC Asia Pacific (the "Put Option"). HSBC Asia Pacific may exercise the Put Option on each anniversary of the closing of the acquisition. HSBC Asia Pacific did not exercise the Put Option on the first exercisable date of July 24, 2011. By exercising the Put Option, HSBC Asia Pacific can require us to purchase, on an annual basis, up to 15% of the total issued shares of GPAP. We estimate the maximum total redemption amount of the redeemable noncontrolling interest under the Put Option would be \$138.4 million as of August 31, 2011, \$45.6 million of which was puttable to us on July 24, 2011. We have adjusted our redeemable noncontrolling interest to reflect the maximum redemption amount as of August 31, 2011 on our consolidated balance sheet

Long-Term Debt and Credit Facilities

Outstanding debt consisted of the following:

Table of Contents

	August 31, 2011 (in thousands)	May 31, 2011
Lines of credit:		
Corporate Credit Facility - long term	\$ 230,500	\$ 183,975
Short-term lines of credit:

Philippines Credit Facility	9,927	9,736
Maldives Credit Facility	3,461	3,202
Macau Credit Facility	2,134	2,372
Sri Lanka Credit Facility	2,245	2,189
Total short-term lines of credit	\$ 311,072	\$ 270,745
Total lines of credit	541,572	454,720
Notes Payable	14,141	14,285
Term loans	135,029	155,759
Total debt	\$ 690,742	\$ 624,764
Current portion	\$ 404,976	\$ 356,547
Long-term debt	285,766	268,217
Total debt	\$ 690,742	\$ 624,764

Lines of Credit

The Corporate Credit Facility is available for general corporate purposes and to fund future strategic acquisitions. Our line of credit facilities are used to fund settlement and provide a source of working capital. With certain of our credit facilities, the facility nets the amounts pre-funded to merchants against specific cash balances in local Global Payments accounts, which we characterize as cash and cash equivalents. Therefore, the amounts reported in lines of credit, which represents the amounts pre-funded to merchants, may exceed the stated credit limit, when in fact the combined position is less than the credit limit. The total available incremental borrowings under our credit facilities at August 31, 2011 were \$803.5 million, of which \$369.5 million is available under our Corporate Credit Facility.

During the quarter ended August 31, 2011 the maximum and average borrowings under our credit facilities were \$708.9 million and \$451.9 million, respectively. The weighted average interest rates on these borrowings were 1.85% and 1.72%, respectively. Our maximum borrowed amount was greater than our average and period end borrowings due to share repurchases and the timing of settlement funding.

Term Loans

We have a five year unsecured \$200.0 million term loan agreement with a syndicate of banks in the United States which we used to partially fund our HSBC Merchant Services LLP acquisition. The term loan bears interest, at our election, at the prime rate or LIBOR, plus a leverage based margin. As of August 31, 2011 the interest rate on the term loan was 1.33%. The term loan calls for quarterly principal payments of \$5.0 million beginning with the quarter ended August 31, 2008 and increasing to \$10.0 million beginning with the quarter ended August 31, 2010 and \$15.0 million

beginning with the quarter ending August 31, 2011. As of

31

Table of Contents

August 31, 2011, the outstanding balance of the term loan was \$105.0 million.

We have a \$300.0 million term loan agreement (\$230.0 million and £43.5 million) with a syndicate of financial institutions. We used the proceeds of this term loan to pay down our then-existing credit facility which had been used to initially fund the purchase of the remaining 49% interest in the LLP. In December 2010, the entire balance of the United States dollar portion of the term loan was repaid by a borrowing on the Corporate Credit Facility, and the facility terms were amended. The term loan expires in July 2012 and has a variable interest rate based on the London Interbank Offered Rate plus a leverage based margin. As of August 31, 2011, the interest rate on the remaining British Pound Sterling portion of the term loan was 0.02%. The term loan requires quarterly principal payments of £2.2 million beginning with the quarter ended August 31, 2009 and increasing to £3.3 million beginning with the quarter ended August 31, 2010. As of August 31, 2011, the outstanding balance of this term loan was \$30.0 million (£18.5 million).

Notes Payable

UCS, our subsidiary in the Russian Federation has notes payable with a total outstanding balance of approximately \$14.1 million at August 31, 2011. These notes have fixed interest rates ranging from 8.0% to 10.0% with maturity dates ranging from September 2011 through August 2016.

Compliance with Covenants

There are certain financial and non-financial covenants contained in our various credit facilities and term loans. Our term loan agreements include financial covenants requiring a leverage ratio no greater than 3.25 to 1.00 and a fixed charge coverage ratio no less than 2.50 to 1.00. We complied with these covenants as of August 31, 2011.

Critical Accounting Estimates

In applying the accounting policies that we use to prepare our consolidated financial statements, we necessarily make accounting estimates that affect our reported amounts of assets, liabilities, revenues, and expenses. Some of these accounting estimates require us to make assumptions about matters that are highly uncertain at the time we make the accounting estimates. We base these assumptions and the resulting estimates on historical information and other factors that we believe to be reasonable under the circumstances, and we evaluate these assumptions and estimates on an ongoing basis; however, in many instances we reasonably could have used different accounting estimates, and in other instances changes in our accounting estimates are reasonably likely to occur from period to period, with the result in each case being a material change in the financial statement presentation of our financial condition or results of operations. We refer to accounting estimates of this type as “critical accounting estimates.”

Accounting estimates necessarily require subjective determinations about future events and conditions. During the three months ended August 31, 2011, we have not adopted any new critical accounting policies, have not changed any critical accounting policies and have not changed the application of any critical accounting policies from the year ended May 31, 2011. You should read the Critical Accounting Estimates in Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations, Item 1A – Risk Factors included in our Annual Report on Form 10-K for the year ended May 31, 2011 and our summary of significant accounting policies in Note 1 of our notes to the unaudited consolidated financial statements in this Form 10-Q.

Special Cautionary Notice Regarding Forward-Looking Statements

We believe that it is important to communicate our plans and expectations about the future to our shareholders and to the public. Investors are cautioned that some of the statements we use in this report, and in some of the documents we incorporate by reference in this report, contain forward-looking statements and are made pursuant to the “safe-harbor” provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve a number of risks and uncertainties, are predictive in nature, and depend upon or refer to future events or conditions. You can sometimes identify forward-looking statements by our use of the words “believes,” “anticipates,” “expects,” “intends,” “plans” and similar expressions. Actual events or results might differ materially from those expressed or forecasted in these forward-looking statements.

Although we believe that the plans and expectations reflected in or suggested by our forward-looking statements are reasonable,

those statements are based on a number of assumptions, estimates, projections or plans that are inherently subject to significant risks, uncertainties, and contingencies that are subject to change. Accordingly, we cannot guarantee you that our plans and expectations will be achieved. Our actual revenues, revenue growth and margins, other results of operations and shareholder values could differ materially from those anticipated in our forward-looking statements as a result of many known and unknown factors. We advise you to review the risk factors presented in Item 1A – Risk Factors of our Annual Report on Form 10-K for the fiscal year ended May 31, 2011 for information on some of the matters which could adversely affect our business and results of operations.

Our forward-looking statements speak only as of the date they are made and should not be relied upon as representing our plans and expectations as of any subsequent date. While we may elect to update or revise forward-looking statements at some time in the future, we specifically disclaim any obligation to release publicly the results of any revisions to our forward-looking statements. You are advised, however, to consult any further disclosures we make in our reports filed with the Securities and Exchange Commission and in our press releases.

Where to Find More Information

We file annual and quarterly reports, proxy statements and other information with the SEC. You may read and print materials that we have filed with the SEC from their website at www.sec.gov. In addition, certain of our SEC filings, including our annual report on Form 10-K, our quarterly reports on Form 10-Q, our current reports on Form 8-K and amendments thereto can be viewed and printed from the investor information section of our website at www.globalpaymentsinc.com free of charge. Certain materials relating to our corporate governance, including our senior financial officers' code of ethics, are also available in the investor information section of our website. Copies of our filings and specified exhibits and these corporate governance materials are also available, free of charge, by writing or calling us using the address or phone number on the cover of this Form 10-Q. You may also telephone our investor relations office directly at (770) 829-8234. We are not including the information on our website as a part of, or incorporating it by reference into, this report.

Our SEC filings may also be viewed and copied at the following SEC public reference room, and at the offices of the New York Stock Exchange, where our common stock is quoted under the symbol "GPN."

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk related to changes in interest rates on our debt and cash investments. Our long-term debt has the option of variable interest rates based on the prime rate or London Interbank Offered Rate plus a margin based on our leverage position. We invest our excess cash in securities that we believe are highly liquid and marketable in the short term. These investments are not held for trading or other speculative purposes. Interest rates on our lines of credit are based on market rates and fluctuate accordingly. Under our current policies, we do not use interest rate derivative instruments to manage exposure to interest rate changes and believe the market risk arising from investment instruments and debt to be minimal.

Although the majority of our operations are conducted in U.S. dollars, a substantial amount of our operations are conducted in foreign currencies. Consequently, a portion of our revenues and expenses may be affected by

fluctuations in foreign currency exchange rates. We are also affected by fluctuations in exchange rates on assets and liabilities related to our foreign operations. We have not hedged our translation risk on foreign currency exposure. For the three months ended August 31, 2011, currency rate fluctuations increased our revenues by \$15.0 million and our diluted earnings per share by \$0.05. To calculate this we converted our fiscal 2012 actual revenues and expenses from continuing operations at fiscal 2011 currency exchange rates.

Our Annual Report on Form 10-K for the fiscal year ended May 31, 2011 contains additional information regarding our

Table of Contents

exposure to market risk.

Item 4. Controls and Procedures

As of August 31, 2011, management carried out, under the supervision and with the participation of our principal executive officer and principal financial officer, an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of August 31, 2011, our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms and are designed to ensure that information required to be disclosed in those reports is accumulated and communicated to management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

We have and plan to continue to rely on Caixa d'Estalvis i Pensions de Barcelona ("la Caixa") to provide financial data, such as revenue billed to merchants, to assist us with compiling our accounting records until we can fully integrate the Comercia financial reporting functions into our own. Accordingly, our internal controls over financial reporting could be materially affected, or are reasonably likely to be materially affected, by la Caixa internal controls and procedures. In order to mitigate this risk, we have implemented internal controls over financial reporting which monitor the accuracy of the financial data being provided by la Caixa.

There were no changes in our internal control over financial reporting during the quarter ended August 31, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(c) Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The shares repurchased in the first quarter of fiscal 2012, the average price paid, including commissions, and the dollar value remaining available for purchase are as follows:

Period	Total Number of Shares (or Units) Purchased (a)	Average Price Paid per Share (or Unit) (b)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs (c)	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs (d)
June 1, 2011 – June 30, 2011	—	—	—	\$—
July 1, 2011 – July 31, 2011	—	—	—	\$—
August 1, 2011 – August 31, 2011	1,854,259	\$43.43	1,854,259	\$19,473,470

Edgar Filing: GLOBAL PAYMENTS INC - Form 10-Q

Total	1,854,259	\$ 43.43	1,854,259
-------	-----------	----------	-----------

Note: On August 8, 2011, our Board of Directors approved a share repurchase program that authorized the purchase of up to \$100 million of Global Payments' stock in the open market or at the current market price, subject to market conditions, business opportunities, and other factors. Repurchased shares under this authorization were retired.
