Item 8.01. Other Events

Global Payments Inc. (the "Company") is filing this Current Report on Form 8-K (this "Current Report") to provide certain information from the Company's Annual Report on Form 10-K for the year ended May 31, 2015 filed with the Securities and Exchange Commission (the "SEC") on July 30, 2015 (the "Fiscal 2015 Annual Report") solely to reflect, for all periods presented, the retrospective effects of a change in reportable segments, the adoption of certain accounting standards updates and a stock split in the form of a stock dividend, each of which occurred subsequent to the filing of the Fiscal 2015 Annual Report, and each of which is described in greater detail below. As required by SEC rules, the Company is updating the financial statements included herein to allow them to be incorporated by reference into the Company's Registration Statement on Form S-4 that the Company intends to file in connection with its proposed acquisition of Heartland Payment Systems, Inc. ("Heartland"). The updated information is attached to this Current Report as Exhibit 99.1, which is incorporated herein by reference.

Commencing with the Company's fiscal year ending May 31, 2016, which the Company refers to as "fiscal 2016," the Company began reporting based on realigned segments (North America, Europe and Asia-Pacific) due to international investment and a realigned management structure. As a result, Exhibit 99.1 presents prior-year segment data in a manner that conforms to the Company's fiscal 2016 presentation.

In November 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-17, "Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes." To simplify the presentation of deferred income taxes, the amendments in this update require that deferred tax liabilities and assets be classified as noncurrent in a classified balance sheet. The Company adopted this ASU during the three months ended November 30, 2015. As a result, Exhibit 99.1 presents prior-year amounts for deferred income taxes in a manner that conforms to the Company's current presentation. The adoption of this standard did not affect the Company's results of operations or cash flows in either the current or prior interim or annual periods.

In April 2015, the FASB issued ASU 2015-03, "Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs." The update requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of the related debt liability instead of being presented as an asset. In August 2015, the FASB issued ASU 2015-15, "Interest-Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements-Amendments to SEC Paragraphs Pursuant to Staff Announcement at June 18, 2015 EITF Meeting," to clarify that an entity may elect to present debt issuance costs related to a line-of-credit arrangement as an asset, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. The Company adopted both ASUs as of June 1, 2015 and elected to continue to present debt issuance costs related to its revolving credit facilities as an asset. As a result, Exhibit 99.1 presents prior-year amounts for debt issuance costs related to its term loans in a manner that conforms to the Company's current presentation. The adoption of this standard did not affect the Company's results of operations or cash flows in either the current or prior interim or annual periods.

During the second quarter of fiscal 2016, the Company's board of directors declared a two-for-one stock split in the form of a stock dividend paid on November 2, 2015 (the "Stock Split"). As a result, all share and per share information presented in Exhibit 99.1 has been retrospectively adjusted to reflect the Stock Split, except for authorized common shares which were not affected.

The following sections of the Fiscal 2015 Annual Report have been updated solely to reflect the retrospective presentation of the change in reportable segments, the adoption of new accounting standards and the Stock Split:

- Part I, Item 1. Business
- Part II, Item 6. Selected Financial Data
- Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

•Part II, Item 8. Financial Statements and Supplementary Data

The Company has included the entire text of the above sections of the Fiscal 2015 Annual Report in Exhibit 99.1. These sections have been updated solely to reflect the change in reportable segments, the adoption of the accounting standards described above and the Stock Split. Other than as required to reflect the change in reportable segments, adoption of accounting standards and Stock Split, this Current Report does not update the other disclosures contained in the Fiscal 2015 Annual Report, nor does it reflect any subsequent information, activities, events, risks or trends. No sections of the Fiscal 2015 Annual Report other than those listed above have been updated in this Current Report. As a result, this Current Report should be read in conjunction with the Fiscal 2015 Annual Report, including without limitation, Item 1A Risk Factors and the Company's

subsequent SEC filings. Certain of these other filings contain important information regarding forward-looking statements, events, developments or updates to certain expectations of the Company that have arisen since the filing of the Fiscal 2015 Annual Report.
