ELECTION OF DIRECTORS (PROPOSAL 1)

The Board of Directors is divided into three classes which consist of nine directors, five of whom are not, and have not been, officers or employees of the Company. The terms of three directors currently expire at this year's Annual Meeting, the terms of three directors currently expire at the 2004 Annual Meeting and the terms of three directors currently expire at the 2005 Annual Meeting. At this year's Annual Meeting, three directors will be elected for a term expiring at the 2006 Annual Meeting.

Provided a quorum is present, a plurality of the votes cast in person or by proxy by the holders of shares entitled to vote is required to elect directors. With respect to the election of directors, shareholders have cumulative voting rights, which means that each shareholder entitled to vote (a) has the number of votes equal to the number of shares held by such shareholder multiplied by the number of directors to be elected and (b) may cast all such votes for one nominee or distribute such shareholder's votes among the nominees as the shareholder chooses. The right to cumulate votes may not be exercised until a shareholder has given written notice of the shareholder's intention to vote cumulatively to the corporate

secretary on or before the day preceding the election. If any shareholder gives such written notice, then all shareholders entitled to vote may cumulate their votes. Upon such written notice, the persons named in the accompanying form of Proxy may cumulate their votes if additional persons are nominated at the Annual Meeting for the election of directors. As a result, the Board of Directors is soliciting discretionary authority to cumulate votes.

The following table sets forth certain information concerning each nominee and continuing director. Except as set forth therein, none of the nominees or

In addition, each committee chairman receives an annual retainer of \$4,000. The Company also reimburses travel and accommodation expenses of directors incurred with respect to board and committee meetings. #### EXECUTIVE COMPENSATION

EXECUTIVE COMPENSATION AND STOCK OPTION COMMITTEE  
REPORT ON EXECUTIVE COMPENSATION

## Edgar Filing: ENNIS BUSINESS FORMS INC - Form DEF 14A

The Executive Compensation and Stock Option Committee of the Board of Directors of the Company (the "Committee"), which is composed entirely of the three non-employee directors listed below, has furnished the following report on executive compensation. The Committee's report documents the components of the Company's executive officer compensation programs and describes the

7

compensation philosophy on which 2003 compensation determinations were made by the Committee with respect to the executive officers of the Company, including the Chief Executive Officer and the four other executive officers that are named in the compensation tables who are currently employed by the Company (the "Named Executives"). The decisions of the Committee with respect to the compensation of the executive officers are submitted to and subject to ratification by the Board of Directors prior to implementation.

### COMPENSATION PHILOSOPHY

The executive compensation program of the Company is reviewed annually by the Committee and it is the philosophy of the Company that executive compensation is directly linked to continuous improvements in corporate performance. Specifically, the following objectives have been adopted by the Committee as guidelines for compensation decisions:

- o Provide a competitive total executive compensation package that enables the Company to attract and retain key executives and maintain a competitive position in the executive marketplace with employers of comparable size and in similar lines of business.
- o Enhance the compensation potential of executives by integrating pay programs with the Company's annual and long-term business objectives and strategy, and focus executives on the fulfillment of these objectives.
- o Provide variable compensation opportunities that are linked with the performance of the Company, emphasizing net earnings, return on capital and revenue growth.

The Committee periodically engages recognized independent compensation consultants to undertake a third-party evaluation of current compensation arrangements in light of competitive market conditions.

### CASH COMPENSATION

Cash compensation includes base salary and the Company's annual incentive plan awards. The base salary of each of the Company's executive officers is determined by an evaluation of the responsibilities of that position and by comparison to the range of salaries paid in the competitive market in which the Company competes for comparable executive ability and experience. The performance of each Named Executive officer is reviewed annually by the Committee and the Chief Executive Officer in the case of the other executive officers, taking into account the Company's operating and financial results for that year, the contribution of each executive officer to such results, the achievement of goals established for each such executive officer at the beginning of each year, and competitive salary levels for persons in those positions in the markets in which the Company competes. To assist in its deliberations, the Committee accesses comparable salary and incentive compensation information for a number of representative companies in the industry for comparison purposes. Following its review of the performance of the Company's Named Executive officers, the Committee reports its recommendations for salary increases and incentive awards to the Board of Directors. In fiscal

## Edgar Filing: ENNIS BUSINESS FORMS INC - Form DEF 14A

year 2003, annual base salary increases and incentive compensation awards were approved by the Committee and reported to the Board of Directors for all of the Named Executives, and incentive compensation awards were approved by the Committee for all of the executives (other than the Named Executives). The Committee believes the

8

recommended salary increases and incentive awards were warranted, are properly aligned to the Board's compensation philosophy, and consistent with the performance of such executives during fiscal year 2003 based on the Committee's evaluation of each individual's overall contribution to accomplishing the Company's fiscal year 2003 corporate goals and of each individual's achievement of individual goals during the year.

### STOCK OPTIONS

The Committee believes that it is essential to align the interests of the Company executives and other management personnel responsible for the growth of the Company with the interests of the Company's stockholders. The Committee believes the long-term alignment of its executives to shareholders is best accomplished through the provision of stock option grants. Therefore, pursuant to the recommendation of the members of the Committee, the Company's Board of Directors and stockholders approved the 1998 Option and Restricted Stock Plan at the June 18, 1998 Shareholders Meeting that provides for granting stock options and restricted stock awards. The purpose of this Plan is to foster and promote the long-term financial success of the Company by providing a means through which the Company and its subsidiaries can attract and retain key executive and managerial employees, consultants and non-employee directors who can contribute materially to that success. The Committee will continue to review long-term incentives and make recommendations, where appropriate, to the Company's Board of Directors, from time to time, to assure the Company's executive officers and other key employees are appropriately motivated and rewarded based on the long-term financial progress of the Company.

### COMPENSATION OF CEO

In determining the compensation of Mr. Keith Walters, the Chairman and Chief Executive Officer, the Committee (with Mr. Walters not participating) reviewed the Company's operating and financial results for fiscal year, evaluated his individual performance and contribution to those results, and considered the compensation range for other chief executive officers of companies in the industry. Based on that review and assessment, the Committee recommended and the Company's Board of Directors ratified that his base annual salary was adjusted to \$430,000 (midpoint for his position in the Company's salary administration system) in April 2001. A performance bonus of \$47,203 was approved for Mr. Walters based on predetermined performance criteria on revenue growth, return on capital employed and net income for the fiscal year ended February 2003. In addition, Mr. Walters was granted a discretionary bonus of \$80,000 (bringing the cash bonus to a total of \$127,203).

### SUMMARY

As demonstrated in each of the plans above, compensation in all its forms is linked directly to objective performance criteria of the Company, business units where applicable, and the individual executive's performance. By doing so, the Committee has created an environment which encourages long-term decisions which will benefit the Company, its shareholders, customers, and employees and at the same time allows the executives, managers, and key contributors within the Company to share in the success of those decisions and actions. Furthermore, the Committee believes that the total compensation program for executive

## Edgar Filing: ENNIS BUSINESS FORMS INC - Form DEF 14A

officers of the Company will be competitive with the compensation programs provided by other corporations with which the Company competes.

The Committee believes the actions taken regarding executive compensation were appropriate in view of individual and corporate performance.

### SECTION 162(m) OF THE INTERNAL REVENUE CODE

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") disallows a corporation's deduction for remuneration paid to its chief executive officer and its named executive officers in excess of \$1 million per person. Performance-based compensation and certain other compensation, as defined, is not subject to the deduction limitation of this regulation.

### EMPLOYMENT CONTRACTS AND CHANGE-IN-CONTROL ARRANGEMENTS

The Company has entered into employment agreements with the executive officers of the Company. The agreements provide that for a continuing three-year employment period plus two 1-year extensions. Each of such employment agreements provides that if the officer terminates his employment for good reason or during the two-year period following a change of control of the Company, the Company will (a) make a lump sum payment to him of salary earned through the date of termination, (b) make a lump sum severance payment to him of the amount determined by multiplying his base amount times a multiple per his agreement, (c) accelerate vesting of all long-term incentives, to include but not limited to stock options, restricted stock, any other long-term incentive grants, and (d) continue to provide certain welfare plan and other benefits for a period of one year or as long as such plan or benefits allow or until the executive is employed under the benefit plans of another company.

For purposes of the employment agreements, "good reason" includes (i) a change in the officer's position, authority, duties or responsibilities, (ii) changes in the office or location at which he is based without his consent (such consent not to be unreasonably withheld), (iii) certain breaches of the agreement and (iv) a reduction in base annual salary.

### COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

All of the members of the Executive Compensation and Stock Option Committee are non-employee directors of the Company and are not former officers of the Company. During fiscal year 2003, no executive officer of the Company served as a member of the Board of Directors or on the compensation committee of a corporation where one of whose executive officers served on the Executive Compensation and Stock Option Committee or on the Board of Directors of the Company.

(1) The Company has a noncontributory retirement plan that covers substantially all of the employees of the Company and certain of its subsidiaries. The plan provides for retirement benefits on a formula based on the average pay of the highest five consecutive compensation years during active employment, integration of certain Social Security benefits, length of service and a normal retirement age of sixty-five. All forms of remuneration, including overtime, shift differentials and bonuses, are covered by the plan. However, due to restrictions imposed by the Revenue Reconciliation Act of 1993, effective March 1, 1997, the maximum annual compensation covered by the plan is limited to \$160,000. Future years' maximum can be increased for inflation. The tables above sets forth approximate annual retirement benefits that would be received under the plan, computed on the basis of the specified average annual earnings and years of service. The table presents annual benefit amounts for remuneration above the current \$160,000 since (a) the \$160,000 maximum can increase with inflation and (b) prior to 1994 the maximum annual compensation limitation was more than \$160,000.

The number of full years of continuous service in the plan as of February 28, 2003 for Mr. Walters, Graham and Cathey were 6, 5, and 34, respectively. Mr. Overstreet is not covered by the plan.

AUDIT COMMITTEE REPORT

The Audit Committee is responsible for monitoring and assuring the integrity of the Company's financial reporting process. It accomplishes this function by assessing the internal accounting and auditing practices of the Company, and the independent auditor's fulfillment of its role in the financial reporting process. The Board of Directors adopted a written charter for the Audit Committee in June 2000 further describing the role of the Committee.

During the fiscal year ended in February 2003, the Audit Committee reviewed interim quarterly financial statements with management and the independent auditors. This review was conducted prior to filing of the Company's 10-Q reports containing the respective interim quarterly financial statements. In

addition, the Committee reviewed and discussed the 2003 year-end audited financial statements with executive management, including the Chief Financial Officer, and the independent auditors. This review took place prior to publication of the audited financial statements in the 10-K filing and annual report to shareholders. Each review was conducted with the understanding that management is responsible for preparing the Company's financial statements and the independent auditors are responsible for reviewing the interim quarterly financial statements and auditing the annual financial statements.

In further discharge of its responsibilities, the Audit Committee met with the independent auditors, both in the presence of management and privately. The Committee and independent auditors discussed those matters described in Statement of Auditing Standards No. 61, "Communications with Audit

14

Committee." These discussions included review of the scope of the audit performed with respect to the Company's financial statements.

The Audit Committee received the independent auditor's written statement required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees." This written statement described any relationships between the independent auditors and the company that may reasonably be thought to bear on independence. Following receipt of this written statement and discussions of the matters described in it, the Committee was satisfied as to the auditor's independence.

Based upon the foregoing, the Audit Committee recommended to Board of Directors that audited financial statements be included in the Company's annual report on form 10-K, for the fiscal year ended February 28, 2003.

### AUDIT FEES

AUDIT FEES - Fees billed or expected to be billed to the Company by Ernst & Young LLP for the audit of the Company's annual financial statements for the year ended February 28, 2003 and for reviews of those financial statements included in the Company's fiscal year 2003 quarterly reports on Form 10-Q total \$224,000. Aggregate fees for audit services in 2002 was \$130,000.

ALL OTHER FEES - In addition to the fees described above, other fees billed to the Company by Ernst & Young LLP for services provided during the Company's 2003 fiscal year total \$269,000. Including audit related services in the amount of \$224,000 and other services of \$45,000. The audit related services include services rendered in connection with audits of the Company's employee benefit plans and assurance services in connection with SEC registration statements. The other services consist primarily of tax services. In reviewing the independence of Ernst & Young LLP, the Audit Committee considered whether the provision of these other services is compatible with maintaining the auditor's independence, and has determined that the provision of such services in 2003 has not adversely impacted the auditor's independence. There were no non-audit fees in 2002.

The Audit Committee:

James B. Gardner (Chairman)  
Harold W. Hartley  
Kenneth G. Pritchett

### RELATED PARTY TRANSACTIONS

On December 18, 2002, the Company purchased its new headquarters site from the Corporation for the Economic Development of Midlothian, a special purpose corporation (the "Corporation"), which is an affiliate of the City of Midlothian, Texas. This site was formerly owned by a corporation which is an affiliate of Kenneth G. Pritchett, a Director of the Company, and is located in a business park which is being developed by Mr. Pritchett. Mr. Pritchett has owned and developed a substantial amount of commercial real estate in this area for many years. An ad hoc committee of the Board, of which Mr. Pritchett was a non-voting member, conducted an extensive search for a new site in the area and concluded that this site was the most suitable for Ennis. Ennis had previously

## Edgar Filing: ENNIS BUSINESS FORMS INC - Form DEF 14A

held discussions with the Corporation regarding its policy of purchasing, developing and re-selling business sites as a matter of policy to attract new businesses to the city to increase its tax base. After the site was identified by the Committee and approved by the Board, Ennis indicated its interest in purchasing the property from the Corporation, and the Corporation then purchased the property from Mr. Pritchett for \$780,000 on December 12, 2002, below independently appraised value. Subsequently, on December 18, 2002, the Corporation sold the property to Ennis at the same price. However, Ennis will receive a \$300,000 cash incentive from the Corporation on occupancy. Mr. Pritchett is not a member of the Midlothian city council nor an officer or director of the Corporation and did not participate in the negotiation of the price of the property to Ennis. The Corporation had the power and authority to make an independent decision to sell the property to Ennis and to determine the sale price. The selection and purchase of the site was unanimously approved by the Board, with Mr. Pritchett abstaining.
