Notes to Consolidated Financial Statements

In the opinion of management, the accompanying unaudited financial statements include all adjustments (consisting of only normal adjustments) necessary for a fair presentation of the results for the interim periods. Certain reclassifications have been made to the previous year's results to present comparable financial statements.

Common Stock Subscription:

In August 2007, the Company sold \$60,000 of restricted Common Stock in a private (non-public), unregistered offering pursuant to Section 4(2) of the Securities Act of 1933. The proceeds are intended to finance a 28 day in-vivo study of cardiovascular stents coated with the Company's Cell Anti-mitosis and Anti-thrombogenic coating, at a facility that is subject to regulations and guidelines promulgated or released by the FDA.

Mr. Dieter Heinemann, a Director of the Company purchased 20,000 shares for \$40,000 on August 14, 2007. 10,000 shares were purchased by Manfred F. Dyck, the Company's Chairman of the Board, President and CEO on August 22, 2007 for \$20,000. 5-year options were granted along with the purchase: Mr. Heinemann receiving 10,000 options and Mr. Dyck, 5,000 options. Each option allows for the purchase of one share of restricted Common stock at \$3.00/share, exercisable immediately.

There were no underwriting discounts or commissions. The Company received the full proceeds of \$60,000.

Segment Reporting:

The Company operates two primary business segments. The Company evaluates the segments by revenues, total expenses and earnings before taxes. Corporate Overhead is excluded from the business segments as to not distort the contribution of each segment.

The results for the three months ended September 30, by segment are:

	Polymer Research	Medical Products	Corporate Overhead	Total
2007				
Revenues	\$ 1,175,964	\$ 783,249		\$ 1,959,213

Item #2

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Results of Operations

The Company's revenues for the quarter ended September 30, 2007 were \$1,959,213, down slightly by 3.4% from the \$2,027,773 for the same period the year before. Revenues are comprised of the sale of Products and Services and Royalty and Contract payments.

Product sales and services were \$1,566,928 for the quarter ended September 30, 2007 as compared to \$1,576,680 for the same period the year before, a decrease of \$9,752 or 0.6%. The periodic private label T-HEXX DRY teat sealant revenues in the current fiscal quarter was offset by the higher medical device sales from an inventory call the year before.

Royalty and Contract revenues includes royalties received and the periodic recurring payments from license, option and other agreements for other than product and services. Included in Royalty and Contract revenues are revenues from support and supply agreements. For the quarter ended September 30, 2007, Royalty and Contract revenues were \$392,285, down \$58,808 or 13.0% from the \$451,093 the same period a year ago. The prior year amount includes the final amortization of a technology transfer fee and a stand still agreement aggregating to \$40,000.

As of September 30, 2007, our open sales order book was approximately \$1,307,000. Although some of these orders are subject to cancellation, the Company is of the opinion that no substantial cancellations will occur. The open order book does not include future orders calling for immediate delivery that would come up during the normal course of business.

Total Expenses for the quarter ended September 30, 2007 were \$1,910,540 as compared with \$2,178,608 the year before, a decrease of \$268,068 or 12.3%.

The Company's Cost of Goods Sold was \$803,491 for the quarter ended September 30, 2007 as compared with \$847,585 the year prior, a decrease of \$44,094 or 5.2%. The difference in product mix along with lower production costs, including the phase out of a product line transferred to our customer's in-house production, resulted in the lower cost of sales.

Operating expenses were \$1,074,207 for the quarter ended September 30, 2007 as compared with \$1,356,879 the year before, lower by \$282,672 or 20.8%. Lower staffing levels resulted in lower salaries expense during the current period as compared with the corresponding period a year ago.

Interest expense, included in Other Expenses, for the three months ended September 30, 2007 and September 30, 2006 were \$44,912 and \$47,937, respectively.

Net income of \$48,673 (\$0.01 per share) is reported for the quarter ended September 30, 2007 as compared to a net loss of \$150,835 (\$0.03 per share) the year before.

While product and services revenues were essentially flat for the comparative first quarters, production costs were lower due to the product mix and the elimination of a product line. However, the improved results for the current quarter came essentially from the restructuring and re-alignment of personnel scope: shifting our bio-polymer focus

towards the cardiovascular and neurological arenas with results to date to include our patent pending anti-thrombogenic and cell anti-mitosis technologies. For such new developments to avail, we need to invest in Research & Development. During the quarter ending September 30, 2007, R&D spends amounted to \$225,000, or 21% of Operating Expenses. Such R&D expenditures does provide an added incentive to the Company beyond its developments and the revenues derived there from: R&D tax credits. For the quarter ending September 30, 2007, a tax benefit of \$10,000 is recorded for such tax credits. (There was no tax provision required for the quarter ended September 30, 2007 due to the carryforward of NOL's [credits]).

Financial Condition

Working capital increased \$37,149 during the three months ended September 30, 2007.

Net operating activities provided \$196,245 for the three month period ended September 30, 2007.

The net income as adjusted for non-cash expenses, provided for \$133,929 in net cash. The cash used for accounts payable and accrued liabilities, was off-set by the decrease in accounts receivables, inventory and prepaid assets.

Investing activities used \$141,448 and financing activities provided \$37,818 during the three months ended September 30, 2007.

During the three months, the Company expended \$109,336 on capital expenditures and \$32,132 into its patent estate. Long-term borrowings of \$52,365 were repaid along with \$33,564 to the Company's revolving line of credit during the period. During the current quarter, new equipment was procured under a capital lease agreement for \$63,747.

The Company's Line of Credit is due to mature on January 31, 2008. The Company is seeking to renew this credit facility or seek alternative financing/cash sources.

Item # 3

Disclosure Controls and Procedures

As of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and President and the Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures.

Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, our disclosure controls and procedures were effective and that there were no changes to our Company's internal control over financial reporting that have materially affected, or is reasonably likely to materially affect the Company's internal control over financial reporting during the period covered by the Company's quarterly report.

PART II - Other Information

The Company operates entirely from its sole location at 35 Industrial Parkway in Branchburg, New Jersey, an owned facility secured by mortgages through banks.

The existing facility will be adequate for the Company's operations for the foreseeable future.

Item # 2.

Change in Securities

In August 2007, the Company sold 30,000 shares of restricted stock at \$2.00/share in a private (non-public), unregistered offering pursuant to Section 4(2) of the Securities Act of 1933. Please see the footnotes for additional information.

Item # 6. Exhibits and Reports on form 8-K:

a) Exhibits - none

b) Reports on form 8-K - The Company filed four Form 8-K's during the quarter ending September 30, 2007. Each 8-K reported press releases issued by the Company on new Coating Services, Supply and/or Support Agreements.
