Chardan China Acquisition Corp.
625 Broadway, Suite 1111
San Diego, CA 92101

To the Stockholders of Chardan China Acquisition Corp:

You are cordially invited to attend a special meeting of the stockholders of Chardan China Acquisition Corp. ("Chardan"), relating to its proposed purchase of the stock of State Harvest Holdings Limited ("Origin"), a

Edgar Filing: Origin Agritech LTD - Form S-4/A

British Virgin Islands company, and related matters. The meeting will be held at 10:00 a.m., eastern time, on _____, 2005, at Chardan's offices at 625 Broadway, Suite 1111, San Diego, California, 92101.

At this meeting, you will be asked to consider and vote upon the following proposals:

1. to approve a Stock Purchase Agreement, dated as of December 20, 2004 ("Purchase Agreement") among Chardan, Origin and the stockholders of Origin (the "Origin Stockholders") and the transactions contemplated thereby. Origin and the Origin Stockholders (collectively, the "Origin Parties") have already approved the Purchase Agreement;

2. to approve the merger of Chardan with and into a wholly owned subsidiary formed under the laws of the British Virgin Islands, with the name Origin Agritech Limited ("Agritech") for the purposes of redomestication of our company to the British Virgin Islands (the "Redomestication Merger") and acquiring Origin; and 3. to approve the Chardan 2005 Performance Equity Plan ("Stock Option Plan");

If these proposals are approved:

- o we will acquire an operating business in China;
- o we will change our corporate domicile from the State of Delaware to the British Virgin Islands, which means we will be governed by the laws of the British Virgin Islands;
- o we will change our corporate name to "Origin Agritech Limited" as a result of the Redomestication Merger;
- o the majority of our board of directors and officers will be the Origin Stockholders and their designees; o the Agritech Memorandum of Association and the Articles of Association will become the equivalent of our certificate of incorporation and by-laws, respectively;
- o each share of common stock of Chardan will automatically convert into one share of common stock of Agritech; and
- o each outstanding warrant of Chardan will be assumed by Agritech with the same terms, but exercisable for common stock of Agritech.

Agritech will continue as a reporting company under the Securities Exchange Act of 1934, as amended, with its units, common stock and warrants trading on the Nasdaq National Market for which it has received provisional approval of listing concurrent with the consummation of the Redomestication Merger.

We will not consummate the transactions described under proposal 1 unless the Redomestication Merger in proposal 2 is also approved. Similarly, the Redomestication Merger will not take place if the Purchase Agreement is not approved. The approval of the Stock Option Plan in proposal 3 is not a condition to consummation for the Purchase Agreement and the Redomestication Merger.

At the closing of the Purchase Agreement, the Origin Stockholders and

Edgar Filing: Origin Agritech LTD - Form S-4/A

their designee, A Plus Resources Limited, will be paid an aggregate of \$10,000,000 in cash and issued an aggregate of 10,000,000 shares of Agritech common stock for all the outstanding common stock of Origin. Of the cash portion of the purchase price, \$250,000 will be retained for one year by Agritech to secure certain indemnification obligations of the Origin Stockholders. The above cash payment will be made with some of the funds from the trust account; the balance of the trust account will be used by Agritech for operating capital.

Additional purchase price payments will be made to the Origin Stockholders and their designee, up to an aggregate of \$15,000,000, if either of the following occurs during any fiscal year of Agritech after the closing date until December 31, 2008 (or June 30, 2009 if the fiscal year is changed to a July 1 - June 30 fiscal year) from funds generated in the additional financing or from operational earnings as described below:

A. If Agritech receives at least \$40,000,000 in gross proceeds in additional financing as a result of (i) the call of the outstanding public warrants assumed by Agritech at the closing; (ii) Agritech's successful completion of a follow-on offering; or (iii) a private investment into Agritech by a strategic investor ("Financing Adjustment"), then Agritech will pay an additional \$15,000,000 to the Origin Stockholders and their designee; or

B. If Agritech generates net positive cash flow of \$2,000,000 or more on a consolidated basis ("Earnings Adjustment"), then the Origin Stockholders and their designee will be entitled to receive 75% of the net positive cash flow up to a maximum of \$7,500,000 per fiscal year and \$15,000,000 in the aggregate.

If both an Earnings Adjustment and a Financing Adjustment occur, the maximum aggregate amount to be paid to the Origin Stockholders and their designee, from one or both adjustments, is \$15,000,000.

As further additional purchase price, certain Origin Stockholders and their designee will be issued an aggregate of 1,500,000 shares of common stock of Agritech for each of the next four years if, on a consolidated basis, Agritech generates after-tax profits (excluding after-tax operating profits from any subsequent acquisitions of securities that have a dilutive effect and before the expenses of this transaction and director and employee option expense) of at least the following amounts:

Year ending June 30, -----	After-Tax Profit -----
2006	\$11,000,000
2007	\$16,000,000
2008	\$21,000,000
2009	\$29,000,000

The affirmative vote of the holders of a majority of the outstanding shares of Chardan common stock is required to approve each of the Purchase Agreement and the Redomestication Merger. The affirmative vote of holders of a majority of the shares represented and entitled to vote at the meeting is required for approval of the Stock Option Plan.

Each Chardan stockholder that holds shares of common stock issued in Chardan's initial public offering has the right to vote against the stock purchase proposal and at the same time demand that Chardan convert such stockholder's shares into cash equal to a pro rata portion of the funds held in the trust account into which a substantial portion of the net proceeds of Chardan's initial public offering was deposited. These shares will be converted

Edgar Filing: Origin Agritech LTD - Form S-4/A

into cash only if the Purchase Agreement is consummated. However, if the holders of 805,000 or more shares of common stock issued in Chardan's initial public offering vote against the stock purchase proposal and demand conversion of their shares, then Chardan will not consummate the Purchase Agreement. Chardan's initial stockholders who purchased their shares of common stock prior to its initial public offering and presently own an aggregate of approximately 17.9% of the outstanding shares of Chardan common stock, have agreed to vote all of their shares on the Purchase Agreement and Redomestication Merger proposals as the majority of the other shares are voted.

Immediately after consummation of the Purchase Agreement, if no holder of shares of Chardan common stock demands that Chardan convert these shares into a pro rata portion of the trust account, Chardan stockholders will own approximately 32.5% of Agritech's issued and outstanding shares of common stock. If one or more of Chardan's stockholders vote against the stock purchase proposal and demand that Chardan convert their shares into a pro rata portion of the trust account, then Chardan's stockholders will own less than approximately 32.5% of Agritech's issued and outstanding shares of common stock.

Chardan's shares of common stock, warrants and units currently are listed on the Over-the-Counter Bulletin Board under the symbols CAQC, CAQCW and CAQCU, respectively. Chardan, however, has applied for listing on the Nasdaq National Market and been provisionally approved contingent on the consummation of the Redomestication Merger under the proposed symbols SEED, SEEDW and SEEDU. If the securities are not listed on Nasdaq for some reason, they will remain traded on the OTCBB.

After careful consideration of the terms and conditions of the proposed Purchase Agreement, the Redomestication Merger and the Stock Option Plan, the board of directors of Chardan has determined that the Purchase Agreement and the transactions contemplated thereby, the Redomestication Merger and the Stock Option Plan are fair to and in the best interests of Chardan and its stockholders. The board of directors of Chardan did not obtain a fairness opinion on which to base this assessment. The board of directors of Chardan unanimously recommends that you vote or give instruction to vote "FOR" the approval of the Purchase Agreement, the Redomestication Merger and the Stock Option Plan.

Enclosed is a notice of special meeting and proxy statement containing detailed information concerning the Purchase Agreement and the transactions contemplated thereby, the Redomestication Merger and the Stock Option Plan. Whether or not you plan to attend the special meeting, we urge you to read this material carefully.

Your vote is important. Whether you plan to attend the special meeting or not, please sign, date and return the enclosed proxy card as soon as possible in the envelope provided.

I look forward to seeing you at the meeting.

Sincerely,

Richard D. Propper, MD

PROXY STATEMENT FOR SPECIAL MEETING OF STOCKHOLDERS OF
CHARDAN CHINA ACQUISITION CORP.

PROSPECTUS FOR UP TO 4,375,000 UNITS, 12,950,000 SHARES OF COMMON STOCK,
AND
8,750,000 WARRANTS OF ORIGIN AGRITECH LIMITED

The board of directors of Chardan China Acquisition Corp. ("Chardan") and its wholly-owned subsidiary, Origin Agritech Limited ("Agritech") have unanimously approved the acquisition of State Harvest Holdings Limited ("Origin") pursuant to a stock purchase agreement whereby Agritech will purchase all of the outstanding securities held by the stockholders of Origin. Furthermore, the board of directors of Chardan has unanimously approved the reincorporation of Chardan from the State of Delaware to the British Virgin Islands, through a redomestication merger with Agritech such that the merged corporation will be incorporated under, and subject to, the laws of the British Virgin Islands. We also believe that, for a variety of financial and tax reasons, the British Virgin Islands is an attractive country of incorporation for a company wholly operating in China. As a British Virgin Islands corporation, Agritech will be able to benefit from these advantages, and we believe the redomestication merger will permit us to take advantage of such benefits.

In connection with the redomestication merger, you will receive from Agritech units, common stock or warrants equal to the number of units, common stock or warrants you own in Chardan, which will be in the name of Agritech, following the redomestication merger. Agritech will assume the outstanding obligations under the Chardan warrants, the terms and conditions of which will not change, except that, upon exercise, warrant holders will receive shares of common stock of Agritech, the newly reincorporated company. Upon consummation of the redomestication merger, the operations and assets of Origin will become those of Agritech and under the Agritech name.

Chardan was organized to serve as a vehicle for the acquisition of a company operating in the Peoples Republic of China. Origin, through its four operating subsidiaries in China, develops, produces, distributes and markets hybrid food crop seeds to the Chinese agricultural industry.

Chardan's common stock, warrants and units are currently listed on the Over-the-Counter Bulletin Board under the symbols CAQC, CAQCW and CAQCU, respectively. The securities of Agritech, at the time of the redomestication merger, will be listed on the Nasdaq National Market. The proposed symbols are SEED, SEEDW and SEEDU.

This proxy statement/prospectus provides you with detailed information about the acquisition of Origin and redomestication merger and the special meeting of stockholders. We encourage you to carefully read this entire document and the documents incorporated by reference. YOU SHOULD ALSO CAREFULLY CONSIDER THE RISK FACTORS BEGINNING ON PAGE 23.

The acquisition of Origin cannot be completed unless at least a majority of the shares of Chardan's common stock, are present in person or by proxy and entitled to vote at the special meeting as of [], 2005, approve the acquisition. The redomestication merger cannot be completed unless at least a majority of outstanding shares of Chardan's common stock, present in person or by proxy and entitled to vote at the special meeting as of [], 2005, approve the redomestication merger.

The board of directors unanimously approved and declared advisable the acquisition and the redomestication merger and unanimously recommends that you

Edgar Filing: Origin Agritech LTD - Form S-4/A

vote or instruct your vote to be cast "FOR" the approval of the acquisition proposal and "FOR" the approval of the redomestication merger proposal. The board of directors did not obtain a fairness opinion for any aspect of the transaction.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION NOR HAS THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROXY STATEMENT/PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

THIS PROXY STATEMENT/PROSPECTUS IS DATED [], 2005, AND IS FIRST BEING MAILED TO CHARDAN STOCKHOLDERS ON OR ABOUT [], 2005.

The financial statements of Origin are prepared using Renminbi, the currency of the Peoples Republic of China ("PRC"). For convenience, the Renminbi amounts have been converted throughout the text of the proxy statement/prospectus into United States dollars. The Renminbi is a controlled currency, and the exchange rate maintained by the PRC is approximately 8.27 Renminbi to one United States dollar. - A. Chardan will merge into Agritech, incorporated as a British company on March 11, 2005, and its wholly owned subsidiary. This procedure will result in you becoming a stockholder in Agritech.
- Q. Will the Chardan stockholders be taxed as a result of the redomestication merger?
- A. Generally for United States federal income tax purposes, if you are a United States holder, you will not recognize any gain or loss if you own 5% or more of the common stock of Agritech following the redomestication merger. 3

- Q. If I have conversion rights, how do I exercise them?
- A. If you wish to exercise your conversion rights, you must vote in favor of the stock purchase proposal and at the same time demand that the company convert your shares into cash. The Companies

Chardan

Chardan is a blank check company organized as a corporation under the laws of the State of Delaware on December 5, 2003. It was formed to effect a business combination with an unidentified operating business having operations based in China and significant growth potential. On March 22, 2004, Chardan successfully consummated an initial public offering of its equity securities from which it derived net proceeds of approximately \$21,242,000. The prices of Chardan's common stock, warrants to purchase common stock and units (each unit consisting of one share of common stock and two warrants to purchase common stock) are quoted on the Over-the-Counter Bulletin Board under the symbols CAQC for the common stock, CAQCW for the warrants and CAQCU for the units. Approximately \$20,527,500 of the net proceeds of the initial public offering was placed in a trust account and will be released to Chardan upon consummation of the stock purchase, subject to the exercise of conversion rights by holders of less than 20% of the Chardan stock issued in the initial public offering. The balance of the net proceeds of approximately \$714,500 has been and will be used by Chardan to pay the expenses incurred in its pursuit of a business combination. These expenses include legal and accounting fees, payment to consultants to Chardan who have assisted with due diligence reviews of business combination targets, travel expenses, monthly office expenses of \$7,500 payable to Chardan Ventures LLC, and premiums for general and officer and director insurance. Other than its initial public offering and the pursuit of a business combination, Chardan has not engaged in any business to date. If Chardan does not consummate a business combination by the later of September 22, 2005 and March 22, 2006, if a letter of intent, an agreement in principle or a definitive agreement to complete a business combination has been executed but not consummated by September 22, 2005, then, pursuant to article fifth of its certificate of incorporation, Chardan's officers must take all actions necessary to dissolve and liquidate Chardan within 60 days.

The Origin Parties

Origin was organized by the Origin stockholders as a corporation under the laws of the British Virgin Islands on November 24, 2004, and on December 25, 2004 Origin entered into consignment agreements and technology agreements to control the stock of the four Origin Operating Companies. Origin itself does not engage in any operations.

The four Origin Operating Companies are Beijing Origin Seed Limited, Changchun Origin Seed Technology Development Limited, Henan Origin Cotton Technology Development Limited and the newly created and currently inactive Beijing Origin State Harvest Biotechnology Limited, the technology-intellectual property holding and licensing company ("Origin Biotechnology"). Beijing Origin

7

Seed Limited is 97.96% controlled by Origin, with Henan Agriculture University holding the remaining 2.04%; Henan Origin Cotton Technology Development Limited is 97.96% controlled by Origin, with the remaining 2.04% owned by Mr. Gu Dengbin, an individual; and Changchun Origin Seed Technical Development Limited and Origin Biotechnology is 100% controlled by Origin. Three of the Chinese Operating Companies have also executed Technology Service Agreements with Origin Biotechnology for the assignment, holding and management of the technology and intellectual property of the seeds and their production. The four Origin Operating Companies are organized and exist under the laws of the PRC. The Origin Operating Companies conduct the various business operations which include development, production, marketing, distributions and sale of food crop hybrid seeds. The businesses of the Origin Operating Companies began in 1997.

Under Chinese law, it is permissible for record owners of a Chinese corporation to consign to another all the indicia of ownership and control of their stock while retaining only title. This includes the consignment of the record owner's voting, dispositive, dividend, meeting calling, proposal submission and other rights so that the consignee is for all intents and purposes the functional owner, except for record ownership. The reason for this is that PRC law relating to corporations prevents the full title transfer of shares of a joint stock company for three years after the corporate creation. In the case of the Beijing Origin, Changchun Origin and Henan Origin, these corporations were reorganized in 2003, and the stock of these companies is under this title transfer restriction. Origin Biotechnology was created as a wholly foreign-owned company of Origin, hence a consignment agreement for its control is unnecessary. The consignment agreements provide for the full transfer of share ownership, including title, when the corporate law restrictions terminate. However, because the Origin Operating Companies are engaged in the "fundamental" business of food production, only a 49% title transfer of ownership is permitted under PRC law and is expected to occur, and the consignment agreements will continue to be binding on the stockholders and their heirs until a greater title ownership may be held by Origin. As greater title ownership is permitted, the shares automatically transfer to Origin for no additional consideration.

Both counsel for Chardan and the Origin Parties have assured all the parties to the stock purchase agreement and consignment agreements that the

Edgar Filing: Origin Agritech LTD - Form S-4/A

consignment agreements are enforceable under the laws of the PRC so as to give Origin the functional ownership of the Origin Operating Companies.

For the years ended December 31, 2003 and 2004, Origin generated approximately \$23,000,000 and approximately \$36,000,000 in revenue, respectively, principally from the sale of hybrid corn seeds.

The Origin Operating Companies have in development a number of additional hybrid corn seeds which they plan to seek approval for and begin marketing over the next years. There is also under development cotton and rice seeds which the Origin Operating Companies plan to commence marketing in 2005.

The current management of the Origin Operating Companies is led by Dr. Gengchen Han and Messrs. Yasheng Yang and Liang Yuan, each of whom will become executive officers of Agritech and will continue to operate the Origin Operating Companies. These persons will also become three of the nine-person board of directors of Agritech. Kerry Propper, a current director and an officer of Chardan, also will be a director of Agritech. Dr. Han and Messrs. Yang and Yuan will enter into a voting agreement with Agritech and Mr. Propper for their commitment to take such action as is necessary to nominate and elect Mr. Propper and a designee of his (currently Mr. Steven Urbach) as directors of Agritech for three years after the closing. Of the remaining four director positions, two will be filled upon the recommendation of the Origin Parties and two will be jointly determined by the Origin Parties and Chardan, but consideration will be made in meeting the requirements of having directors who are both independent and financially literate.

The mailing address of Origin's principal executive offices is 12 Shangdi Xinxu Lu, Haidian District, Beijing 100085 China, and its telephone number is (86) 10-62988498.

The Business Combination

The stock purchase agreement provides for Chardan to form a wholly owned subsidiary under the laws of the British Virgin Islands, under the name "Origin Agritech Limited." At the time of closing of the stock purchase agreement, Chardan will merge with and into Agritech for the purpose of redomestication out of the United States to secure future tax benefits and greater corporate flexibility to structure the business of Origin within China and effect acquisitions and reorganizations under Chinese law. Simultaneously with the redomestication merger, Agritech will acquire all of the issued and outstanding stock of Origin, gaining control of the four Origin Operating Companies pursuant to existing stock consignment agreements, dated December 24, 2004, between Origin and the stockholders of the Origin Operating Companies other than Origin Biotechnology which latter company is wholly owned by Origin. Following consummation of the stock purchase agreement and the redomestication merger, Agritech will continue as the surviving company and owner of Origin and, effectively, the Origin Operating Companies. Pursuant to the redomestication merger, all of the Chardan common stock held by Chardan's stockholders will be converted into common stock in Agritech and the other outstanding warrants of Chardan will be assumed by Agritech.

At the closing, the Origin Stockholders and their designee, A Plus Resources Limited, will be paid an aggregate of \$10,000,000 in cash, using the funds held in the trust account, and will issue an aggregate of 10,000,000

Edgar Filing: Origin Agritech LTD - Form S-4/A

shares of Agritech common stock for all the outstanding common stock of Origin. Of the cash portion of the purchase price, \$250,000 will be held back for one year by Agritech to secure certain indemnification obligations of the Origin Stockholders.

Additional purchase price payments will be made to the Origin Stockholders and their designee, up to an aggregate of \$15,000,000, if either of the following occurs during any fiscal year of Agritech after the closing date until December 31, 2008 (or June 30, 2009 if the fiscal year is changed to a July 1 - June 30 fiscal year) from funds generated in the additional financing or from operational earnings as described below:

A If Agritech receives at least \$40,000,000 in gross proceeds in additional financing as a result (i) of the call of the issued and outstanding public warrants assumed by Agritech at the closing; (ii) Agritech's successful completion of a follow-on offering; or (iii) a private investment into Agritech by a strategic investor ("Financing Adjustment"), then Agritech will pay an additional \$15,000,000 to the Origin Stockholders and their designee; or

B If Agritech generates net positive cash flow of \$2,000,000 or more on a consolidated basis ("Earnings Adjustment"), then the Origin Stockholders and their designee will be entitled to receive 75% of the net positive cash flow up to a maximum of \$7,500,000 per fiscal year and \$15,000,000 in the aggregate.

If both an Earnings Adjustment and a Financing Adjustment occur, the maximum aggregate amount to be paid to the Origin Stockholders from one or both adjustments is \$15,000,000.

As further additional purchase price, certain Origin Stockholders and their designee will be issued an aggregate of 1,500,000 shares of common stock of Agritech for each of the next four years if, on a consolidated basis, Agritech generates after-tax profits (excluding after-tax operating profits from any subsequent acquisitions of securities that have a dilutive effect and before the expenses of this transaction and director and employee option expense) of at least the following amounts:

9

Year ending June 30,	After-Tax Profit
2006	\$11,000,000
2007	\$16,000,000
2008	\$21,000,000
2009	\$29,000,000

Chardan and the Origin Parties plan to complete the stock purchase promptly after the Chardan special meeting, provided that:

- o Chardan's stockholders have approved the stock purchase agreement and the redomestication merger proposals;
- o holders of less than 20% of the shares of common stock issued in Chardan's initial public offering vote against the stock purchase

Edgar Filing: Origin Agritech LTD - Form S-4/A

proposal and demand conversion of their shares into cash; and

- o the other conditions specified in the stock purchase agreement have been satisfied or waived.

The designee, A Plus Resources Limited, a company formed under the laws of the British Virgin Islands, is owned by Ms. Song Baoqing, and provided financial advisory services to the Origin Parties.

The Stock Purchase Agreement

The stock purchase agreement is included as an annex to this proxy statement/prospectus. We encourage you to read the stock purchase agreement. It is the legal document that governs the stock purchase and the other transactions contemplated by the stock purchase agreement. It is also described in detail elsewhere in this proxy statement/prospectus.

The Chardan Stock Option Plan

The stock option plan reserves 1,500,000 shares of Chardan common stock for issuance in accordance with the plan's terms. The purpose of the stock option plan is to enable Chardan to offer its employees, officers, directors and consultants whose past, present and/or potential contributions to Chardan have been, are or will be important to the success of Chardan, an opportunity to acquire a proprietary interest in Chardan. The various types of awards that may be provided under the stock option plan will enable Chardan to respond to changes in compensation practices, tax laws, accounting regulations and the size and diversity of its business. Upon the redomestication merger, the plan will become that of Agritech, and will be administered by the board of directors of Agritech using the common stock of Agritech instead of Chardan common stock.

The stock option plan is included as an annex to this proxy statement/prospectus. We encourage you to read the stock option plan in its entirety.

Management

After the consummation of the stock purchase and of the redomestication merger, the board of directors of the surviving corporation will be Dr. Gengchen Han, Liang Yuan, Yasheng Yang, Bailiang Zhang, Da Fang Huang, Kerry Propper, Steven Urbach, Michael D. Chermak and Remo Richli.

10

Each of Dr. Gengchen Han and Messrs. Liang Yuan and Yasheng Yang will enter into a three-year employment agreement with Origin. Dr. Han will be employed as Origin's chairman and chief executive officer, Mr. Yuan will be the executive vice chairman and Mr. Yang will be president and chief operating officer. The form of executive employment agreement which they will sign is annexed as an annex to this proxy statement/prospectus.

The approval of the stock option plan is not a condition to consummation of either the stock purchase or the redomestication merger proposals.

Conversion Rights

Pursuant to Chardan's certificate of incorporation, a holder of shares of Chardan's common stock issued in its initial public offering may, if the stockholder votes against the stock purchase, demand that Chardan convert such shares into cash. This demand must be made in writing at the same time that the stockholder votes against the stock purchase proposal. If so demanded, Chardan will convert each share of common stock into a pro rata portion of the trust account as of the record date. If you exercise your conversion rights, then you will be exchanging your shares of Chardan common stock for cash and will no longer own these shares. You will be entitled to receive cash for these shares only if you continue to hold these shares through the effective time of the stock purchase and then tender your stock certificate to the combined company. If the stock purchase is not completed, then these shares will not be converted into cash at that time.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Appraisal Rights

Appraisal rights are available under the Delaware General Corporation Law for the stockholders of Chardan in connection with the redomestication merger proposal. Proxies may be solicited by mail, telephone or in person.

In addition, there are four additional insider persons who beneficially own 185,499 shares of common stock acquired prior to the initial public offering. Together the Management Shareholders and these stockholders are the "Initial Shareholders." The total of these two groups of shares represent 875,000 shares or approximately 17.9% of Chardan's issued and outstanding common stock. In connection with its initial public offering, Chardan and EarlyBirdCapital, Inc. entered into agreements with each of the Initial Shareholders, pursuant to which each Initial Stockholder agreed to vote his or its shares of Chardan common stock on the business combination in accordance with the majority of the votes cast by the holders of shares issued in connection with the initial public offering.

Chardan's Board of Directors' Recommendation

After careful consideration, Chardan's board of directors has determined unanimously that the stock purchase plan proposal, the redomestication merger proposal, and the stock option proposal are fair to, and in the best interests of, Chardan and its stockholders. Chardan's board has unanimously approved and declared advisable the stock purchase proposal, the redomestication merger proposal and the stock option plan proposal, and unanimously recommends that you vote or instruct your vote to be cast "FOR" the adoption of the stock purchase proposal, the redomestication merger proposal, and the stock option plan proposal. The board of directors did not obtain a fairness opinion.

Interests of Chardan Directors and Officers in the Stock Purchase

When you consider the recommendation of Chardan's board of directors that you vote in favor of adoption of the stock purchase proposal, you should keep in mind that a number of Chardan's executives and members of Chardan's board have interests in the stock purchase agreement that are different from, or in addition to, your interests as a stockholder. These interests include, among other things:

No Solicitation

The stock purchase agreement contains detailed provisions prohibiting each of Chardan and the Origin Parties from seeking an alternative transaction. These covenants generally prohibit Chardan and the Origin Parties, as well as their officers, directors, subsidiaries, employees, agents and representatives, from taking any action to solicit an alternative acquisition proposal. The stock purchase agreement does not, however, prohibit Chardan from considering an unsolicited bona fide written superior proposal from a third party. The approval of the stock purchase agreement by the Origin Parties has already been given, and no proposal from a third party will be effective to revoke or withdraw that approval.

Termination, Amendment and Waiver

The stock purchase agreement may be terminated at any time prior to the consummation of the stock purchase, whether before or after receipt of the Chardan stockholder approval, as follows:

- o by mutual written consent of Chardan and Origin;
- o by either party if the other party amends a schedule and such amendment or supplement reflects a material adverse change in the condition, operations or prospects of its business;
- o by either party if the closing has not occurred by August 1, 2005 (unless such terminating party is in breach of any of its material covenants, representations or warranties);
- o by either party if the other party has breached any of its covenants

- o by Origin, if the board of directors of Chardan (or any committee thereof) shall have failed to recommend or withdraw or modify in a manner adverse to Origin its approval or recommendation of the stock purchase agreement and any of the transactions contemplated thereby;
- o by Chardan if its board of directors shall have determined in good faith, based upon the advice of outside legal counsel, that failure to terminate the stock purchase agreement is reasonably likely to result in the board of directors breaching its fiduciary duties to stockholders by reason of a pending, unsolicited, bona fide written proposal for a superior transaction; or

15

- o by either party if, at the Chardan stockholder meeting, the stock purchase agreement and the redomestication merger shall fail to be approved and adopted by the affirmative vote of the holders of Chardan's common stock, or 20% or more of the shares sold in Chardan's initial public offering request conversion of their shares into the pro rata portion of the trust account in accordance with the Chardan certificate of incorporation.

If the stock purchase agreement is terminated by Chardan for material breach of a covenant, representation or warranty or material amendment to a schedule of Origin (which includes information about the Origin Operating Companies) or Origin Stockholders, then the Origin Stockholders will pay Chardan \$1,000,000 upon termination of the stock purchase agreement in lieu of any other right or remedy that the Chardan may have against the other parties to the stock purchase agreement for such breach. If the stock purchase agreement is terminated by Origin for a material breach of a covenant, representation or warranty or material amendment to a schedule of Chardan, or because the board of directors of Chardan fails to recommend or withdraws or modifies its approval or recommendation of approval of the stock purchase agreement, then Richard Propper, Kerry Propper, Jiangnan Huang, Li Zhang, Dan Beharry and Steven Urbach (pro rata in relation to their initial ownership in Chardan) will pay Origin \$1,000,000 upon termination of the stock purchase agreement in lieu of any other right or remedy that Origin may have against the other parties to the stock purchase agreement for such breach. The \$1,000,000 amount payable to the Origin Stockholders by the foregoing person will be prorated based on their initial ownership of Chardan common stock. The Origin Parties have no right to damages from Chardan or Agritech and they have no right to any amount held in the trust account. The Origin Parties have agreed not to make any claim against Chardan and Agritech that would adversely affect the business, operations or prospects of Chardan and Agritech or the amount of the funds held in the trust account.

Quotation or Listing

Chardan's outstanding common stock, warrants and units are quoted on the Over-the-Counter Bulletin Board. The common stock, warrants and units of Agritech, at the consummation of the stock purchase, will be quoted on the Nasdaq National Market. The proposed symbols for Nasdaq are SEED, SEEDW and

Edgar Filing: Origin Agritech LTD - Form S-4/A

SEEDU. Seeking the Nasdaq listing is an obligation of Chardan under the stock purchase agreement. Agritech's securities have been provisionally approved for listing on the Nasdaq National Market, subject to consummation of the redomestication merger and stock purchase of Origin. If Nasdaq listing is not achieved, it is anticipated that the common stock, warrants and units will continue to trade on the OTCBB.

Governance and Voting Arrangements after the Purchase

As provided in the stock purchase agreement, the board of the combined company will initially consist of nine members, five of whom are designated by Origin, two of whom are designated by Chardan and the others to be mutually determined. At the closing, Dr. Han and Messrs. Yang and Yuan will enter into a voting agreement with Agritech and Mr. Kerry Propper pursuant to which they will agree to take such action as is necessary to nominate and elect Mr. Kerry Propper and a designee of his (currently Mr. Steven Urbach) as directors for three years after the closing.

Indemnification by Origin Stockholders

The Origin Stockholders have agreed to indemnify Agritech for breaches of the representations, warranties and covenants of the Origin Parties. In order to secure the indemnity obligation, \$250,000 of the purchase price will be retained by Agritech. The funds do not represent the exclusive remedy for losses incurred in connection with a breach by the Origin Parties. The holdback will only be available to satisfy claims against the Origin Parties that are made within one year after the completion of the stock purchase. On the one-year anniversary of completion of the stock purchase, any remaining holdback that has not been used to satisfy damages will be released to the Origin Stockholders, however, certain rights to indemnification survive for longer periods.

16

Comparison of Stockholders Rights

In connection with the consummation of the stock purchase agreement, Chardan has formed a wholly owned subsidiary under the laws of the British Virgin Islands, under the name of Agritech. Chardan will, if the stock purchase proposal and redomestication merger proposal are approved, merge with Agritech, effectively changing its jurisdiction of incorporation from Delaware to the British Virgin Islands. Chardan's common stock will be converted into common stock of Agritech. The rights of Chardan stockholders will change accordingly. A comparison of the rights of stockholders under Delaware and British Virgin Islands law is included elsewhere in this proxy statement/prospectus.

Material United States Federal Income Tax Consequences of the Stock Purchase

Chardan expects that the redomestication merger will qualify as a reorganization for United States income tax purposes. No gain or loss will be recognized on the exchange of the Chardan common stock for the stock of Agritech, provided no holder of Chardan common stock owns 5% or more of the stock of Agritech following the redomestication merger. Stockholders of Chardan are encouraged to consult their own tax advisors, because the tax consequences may be different among the stockholders depending on their personal circumstances.

Chardan will not recognize any gain or loss as a result of the stock purchase or redomestication merger with Agritech.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Accounting Treatment

The stock purchase will be accounted for as a recapitalization of Origin rather than as an acquisition. The financial statements of Agritech will combine the historical statements of Origin and Chardan for the prior years giving effect to the merger and stock purchase transactions as if it occurred on January 1, 2004. After the acquisition, the financial statements of Origin Companies will become the financial statements of Agritech.

Regulatory Matters

The stock purchase and the transactions contemplated by the stock purchase agreement are not subject to any federal or state regulatory requirement or approval, including the Hart-Scott-Rodino Antitrust Improvements Act of 1976, or HSR Act, except for filings necessary to effectuate the transactions contemplated by the stock purchase and redomestication merger proposals with the State of Delaware and the British Virgin Islands.

Board Solicitation

Your proxy is being solicited by the board of directors of Chardan on each of the three proposals being presented to the stockholders at the special meeting.

SELECTED UNAUDITED PRO FORMA COMBINED FINANCIAL INFORMATION

Edgar Filing: Origin Agritech LTD - Form S-4/A

The stock purchase will be accounted for as a recapitalization of Origin rather than an acquisition. Accordingly, although the merger and stock purchase is structured such that the Origin Operating Companies will be directly and indirectly controlled subsidiaries of Agritech at closing, Origin and the Origin Operating Companies will be treated as the continuing reporting entity for accounting purposes. The assets and liabilities of Chardan will be recorded, as of completion of the merger and stock purchase, at their respective historical cost, which is considered to be the equivalent of fair value and added to those of Origin and the Origin subsidiaries. For a more detailed description of purchase accounting, see "The Merger--Anticipated Accounting Treatment" on page 38.

We have presented below selected unaudited pro forma combined financial information that reflects the purchase method of accounting and is intended to provide you with a better picture of what our businesses might have looked like had they actually been combined. The combined financial information may have been different had the companies actually been combined. The selected unaudited pro forma combined financial information does not reflect the effect of asset dispositions, if any, or cost savings that may result from the stock purchase. You should not rely on the selected unaudited pro forma combined financial information as being indicative of the historical results that would have occurred had the companies been combined or the future results that may be achieved after the stock purchase. RISK FACTORS

You should carefully consider the following risk factors, together with all of the other information included in this proxy statement/prospectus, before you decide whether to vote or instruct your vote to be cast to adopt the stock purchase proposal.

If Origin and the Origin Operating Companies do not manage their growth successfully, their growth and chances for continued profitability may slow or stop.

Origin and the Origin Operating Companies have expanded their operations rapidly during the last several years, and they plan to continue to expand with new seed products and distribution outlets. This expansion has created significant demands on their administrative, operational and financial personnel and other resources, particularly its need for working capital. Additional expansion in existing or new markets and new lines of business could strain these resources and increase its need for capital, which may result in cash flow shortages. Origin's and the Origin Operating Companies' personnel, systems, procedures, controls and existing space may not be adequate to support further expansion.

Origin and the Origin Operating Companies have a short operating history and are subject to the risks of a new enterprise any one of which could limit growth and product and market development.

Origin's and the Origin Operating Companies' short operating history makes it difficult to predict how their businesses will develop. Accordingly, Origin and the Origin Operating Companies face all of the risks and uncertainties encountered by early-stage companies, such as:

- o uncertain growth in the market for, and uncertain market acceptance of, its products and services;
- o the evolving nature of the crop seed business in PRC, where significant consolidation is likely to occur, leading to the formation of companies better able to compete with Origin than is currently the case; and
- o the risks of competition, technological change or evolving customer preferences could harm sales of their products or services.

If Origin and the Origin Operating Companies are not able to meet the challenges of building their businesses and managing their growth, the likely

Edgar Filing: Origin Agritech LTD - Form S-4/A

result will be slowed growth, lower margins, additional operational costs and lower income.

The profitability of Origin's and the Origin Operating Companies' businesses will decrease if they do not continue to find and market products considered valuable by Chinese farmers.

The profitability of Origin's seed business depends on recurring and sustained reorders. Reorder rates are inherently uncertain due to several factors, many of which are outside Origin's control. These include changing customer preferences, competitive price pressures, failure to develop acceptable new products and general economic conditions.

23

Three of the Origin Operating Companies will be controlled subsidiaries through stock consignment agreements rather than by direct ownership of shares, the terms of which may have to be enforced causing extra costs, uncertainty of ownership of the operating businesses and the possible loss of rights.

PRC law does not permit the transfer of shares in a Chinese joint stock company within three years of its formation. In addition, under PRC law, foreign entities are not currently permitted to own more than 49% of a seed production company. These legal restrictions prevent Agritech, through Origin, from having full ownership of the stock of three of the Origin Operating Companies because they underwent restructuring in 2003. In order to address those restrictions, Origin, a non-Chinese entity, will not directly own the shares of three of the Chinese Operating Companies. Rather, it will hold the right to control the shares in all respects, including voting, dividends, nomination of directors, and corporate management, through stock consignment agreements executed by the owners of the stock of these companies. When the shares can be transferred, they will be transferred over to Origin for no additional consideration. These agreements are commonly used in the PRC, and Chardan has consulted its Chinese counsel and been assured of their efficacy and enforceability.

There is the risk, however, that a consigning stockholder will not fulfill its obligations under the stock consignment agreement. In that event, Origin may need to resort to PRC courts to have its rights under the agreements enforced. Such enforcement will cause Origin to incur legal expenses, while the case is pending it will cause uncertainty in the rights of Origin, and may result in a PRC court deciding not to enforce the agreements in part or at all. To the extent these agreements are neither observed nor enforced as intended, the Origin Operating Companies will not be controlled by Origin as intended which will affect their value to Origin and restrict the ability to obtain the income and other rights of ownership. It may also prevent the consolidation of their financial statements which would reduce the reported earnings of the consolidated companies. The uncertainty of ownership may also affect the market value of the company.

Origin and the Origin Operating Companies, due to their size and short operating history, depends substantially on a few key personnel which if not retained would cause declines in productivity and profitability and loss of vision, all of which would diminish the prospects of the company and investor interest.

Due to their size and short operating history, Origin's and the Origin Operating Companies' success depends to a large extent upon the continued service of a few executive officers and key employees, including:

Edgar Filing: Origin Agritech LTD - Form S-4/A

- o Dr. Gengchen Han;
- o Dr. Yasheng Yang; and
- o Liang Yuan.

The loss of the services of one or more of these key employees could have an adverse effect on Origin and the Origin Operating Companies, as each of these individuals played a significant role in developing and executing the overall Origin business plan and maintaining customer relationships and proprietary technology systems. While none of these key personnel is irreplaceable, the loss of the services of any of these individuals would be disruptive in business through a disruption to the senior management and loss of the current corporate vision. Origin believes that its overall future success will depend in large part upon its ability to attract and retain highly skilled managerial and marketing personnel. There can be no assurance that Origin and the Origin Operating Companies will be successful in attracting and retaining such personnel on terms acceptable to them. Inadequate personnel will limit growth of the company, and will be seen as a detriment to the prospects of the company and result in loss of investor interest in the company.

24

If Origin and the Origin Operating Companies do not comply with applicable government regulations, they may be prohibited from continuing some or all of their operations resulting in a reduction of growth and ultimately market share due to loss of competitive position.

The revenue of Origin depends on receiving approval from the PRC government to market new seed hybrids that the Origin Operating Companies will develop. In addition, there may be circumstances under which the approvals granted are subject to change without substantial advance notice, and it is possible that the Origin Operating Companies could fail to obtain the approvals that they require to expand their business as they intend to do. The failure to obtain or to maintain such approvals would limit the number and quality of products that the Origin Operating Companies would be able to offer. This reduction in product offerings would cause a reduction in the growth previously experienced and over time would result in loss of market share from the competitive pressures of seeds developed by others that would likely be better than the Origin products.

The single business line of crop seed development and production does not permit Origin to spread its business risks among different business segments, such that a disruption in its seed production or the industry would hurt the company more immediately and directly.

After the stock purchase there will be one industry in which Origin will be operating. Without business line diversity, Origin will not be able to spread the risk of its operations. Therefore, its business opportunities, revenues and income could be more immediately and directly affected by disruptions in production of seed from such things as drought and disease or widespread problems affecting the industry such as the absence of farmer credit and payment disruptions and rejection of modified crop seeds. If there is a disruption as described above, the revenues and income of the Origin will be reduced and the business operations may have to be scaled back.

Natural disaster could damage seed production, in which event Origin will suffer a loss of production and will suffer the consequential losses of revenues,

Edgar Filing: Origin Agritech LTD - Form S-4/A

market disruption and reputation, and there is no agriculture insurance in the PRC to cover loss of seed crops.

The Origin Operating Companies produce their seeds using a network of approximately 60,000 farmers, which plant the crops and harvest the seeds for use as crop seeds for the next growing season. As a result, the source of supply for Origin's seeds is subject to all of the risks associated with any agricultural enterprise, including widespread drought, pestilence or other natural disasters. While the use of such a large number of farmers provides some protection against a widespread failure of any particular crop, the majority of the seed production farmers are located in a just two provinces, making them subject to risks that are somewhat local in nature. Origin has attempted to manage this risk by obligating itself to pay the farmers who produce its seeds only for the quantity of seeds that they produce. However, a significant portion of Origin's expenses are in the nature of fixed overhead, and in the event of a widespread failure of the seed crop, Origin would likely sustain substantial operating losses. Although insurance to protect against such a risk is available in many jurisdictions, such insurance is not available in the PRC.

25

The Origin Operating Companies rely on its network of 60,000 farmers for production of its seeds, and although its relationship with those farmers has been stable in the past, there are no assurances that those relationships will remain stable in the future, the result of which could limit the amount of seed products available to the Origin Operating Companies for sale to customers and customer loyalty.

The Origin Operating Companies believe they maintain a favorable relationship with the farmers in the seed production network by paying them a higher price for their crop seeds than they would receive by producing crops for sale in the market. In addition, the large number of farmers on which the Origin Operating Companies rely to produce crop seeds means that no one or even several of them can, acting independently, adversely and materially affect the business of Origin. However, events such as a shift in pricing caused by an increase in the value of food crops rather than seed crops, increase in land prices or competition could disrupt the chain of supply. Any of these disruptions could limit the supply of seeds that the Origin Operating Companies obtain, adversely affecting supply and thereby lowering revenues from the lack of product to sell. Such disruption could also damage distributor relationships and farmer loyalty to the brand if the Origin Operating Companies cannot supply the quantity of seed expected from them.

The corn seed prices and sales volumes may decrease in any given year with a corresponding reduction in sales, margins and profitability.

During most of the brief existence of the Origin Operating Companies, the corn seed market has been stable in the PRC, but in the past, it was marked by periods of instability. In the future there may be periods of instability during which commodities prices and sales volume might fluctuate greatly. Commodities can be affected by general economic conditions, weather, disease and aspects of demand such as financing, competition and trade restrictions. Although Origin has followed a branded product strategy to differentiate its products from those of other crop seed producers, the crop seed market continues to behave as a commodity market. As a result, the price that Origin is able to demand for its seeds is somewhat dependent on the size of the supply of its seeds and the seeds of other producers. Therefore, the potential exists for fluctuation in supply, and consequently in price, in Origin's own markets, even

Edgar Filing: Origin Agritech LTD - Form S-4/A

in the absence of significant external events that might cause volatility. As a result, the level of revenues that Origin receives in any given year is subject to change. Because decisions are made regarding the level of production prior to the time that the volume of orders and the market price for those orders is known, it is possible that Origin will have too much or not enough product available, each with the attendant impact on revenues, margins and profitability.

Origin's revenues depend on the ability of a large number of small farmers buying the seed for cash because financing for purchases of this size and type is not available; therefore, if a substantial number of Origin's customers become unable to pay for seed, Origin's sales, revenues and profitability will decline.

Origin has a large and diversified customer base, with no single customer representing even 1% of its revenues. The large customer base provides some protection against the loss of revenues due to the inability of a significant number of Origin's customers paying for the seed that has been previously ordered. The unavailability of credit for farmers in China further reduces the ability of those farmers to withstand the effects of difficult economic times. The lack of credit could prevent them from fulfilling their purchasing commitments with the result that Origin's revenues and profitability would be reduced.

26

Competition, both domestic and foreign, may slow or reverse Origin's recent rapid growth, which could result in a decrease in margins and cause an operating loss.

Competition may develop from consolidation within the Chinese seed industry and privatization of seed producers that are extensions of the county governments. A number of companies are developing using more efficient business models. Competition may develop from foreign seed producers who have high-quality products. As competition develops, Origin will expect its recent rapid growth to slow and will probably experience a reduction in margins. As marketing expenses increases, it may experience operating losses.

Technological change in creating seed hybrids could adversely affect Origin's business, causing a loss in business opportunities, market share and revenues.

Origin currently relies upon traditional methods of creating crop seed hybrids to develop its new products. While these methods are highly effective, there has been an increase in the development of genetically modified agricultural products to increase the quality and quantity of crop yields. This new genetic technology is controversial, and it has not been widely accepted in many regions of the world, including China. However, as the ability to use genetic modification to produce seeds that are superior to or less costly than those that Origin produces by traditional methods increases, the threat of competition from this source becomes more realistic. A number of factors that are difficult to predict, such as a shift among farmer and consumer attitudes making these kinds of products fore or less acceptable, affect the extent to which this potential threat could affect Origin's business prospects.

Origin is taking steps to respond to the competition risk presented by genetically modified agricultural products. It has commenced its own research and development efforts for genetically modified seeds, and it has entered into agreements with other research institutions in China working on genetic

Edgar Filing: Origin Agritech LTD - Form S-4/A

modifications that give Origin the right to market the seeds they develop. However, there can be no assurance that these efforts will be successful in producing improved seed varieties that are able to compete with those produced by other genetically-modified seed producers or that ultimately genetically modified seeds will be accepted by the Chinese farmer or Chinese consuming public.

If the PRC does not leave in place or continue to expand its economic reforms, the result may be to interfere with the growth of private businesses in the PRC such as Origin and the source of much needed capital from elsewhere will become limited.

Since the late 1970's, the PRC has been reforming its economic system and changing from a planned economy based on governmental dictates and priorities. It has implemented measures to emphasize the use of market forces and reduce state ownership and control of business and business planning. It is impossible to predict whether or not the government will continue to encourage economic liberalization and further release its control over the economy and encourage private enterprise. We also cannot predict the timing or extent of future economic reforms that may be proposed. Any return to the PRC's policies in effect previously could reduce the freedom of private businesses to operate in a profitable manner, reduce the incentives of those businesses to be profitable or both

The economy of China has been experiencing unprecedented growth and resulted in some inflation which if the government tries to control by traditional means of monetary policy or returns to planned economic techniques, Origin's business will suffer a reduction in sales growth and expansion opportunities.

The rapid growth of the Chinese economy has resulted in higher levels of inflation. If the government tries to control inflation, it may have an adverse effect on the business climate and growth of private enterprise in the PRC. An economic slow down will have an adverse effect on Origin's sales and may increase costs. If inflation is allowed to proceed unchecked, Origin's costs would likely increase, and there can be no assurance that it would be able to increase its prices to an extent that would offset the increase in its expenses.

27

A return to profit repatriation controls may limit the ability to pay dividends, expand business and reduce the attractiveness of investing in Chinese business opportunities.

PRC law allows enterprises owned by foreign investors to remit their profits, dividends and bonuses earned in the PRC to other countries, and the remittance does not require prior approval by the State Administration of Foreign Exchange (SAFE). SAFE regulations required extensive documentation and reporting, some of which was burdensome and slowed payments. If there is a return to payment restrictions and reporting, the ability of a Chinese company to attract investors will be reduced. Also, current investors may not be able to obtain the profits of the business in which they own for other reasons. Relevant PRC law and regulation permit payment of dividends only from retained earnings, if any, determined in accordance with PRC accounting standards and regulations. It is possible that the PRC tax authorities may require changes in income of the company that would limit the ability of it to pay dividends and other distributions. PRC law requires companies to set aside a portion of net income to fund certain reserves which amounts are to distributable as dividends. These rules and possible changes could restrict a company in the PRC from repatriating funds to State Harvest and ultimately Agritech and the shareholders as

Edgar Filing: Origin Agritech LTD - Form S-4/A

dividends.

Any devaluation of the currency of the PRC could negatively impact Origin's results of operations as reported in United States dollars.

Upon consummation of the acquisition of Origin, the operations of the company will be located exclusively in the PRC. If the exchange rate of the Renminbi is effected by lowering its value as against the US dollar, Origin's reported profitability when stated in US dollars will decrease. Origin does not engage in any currency hedging transactions because its business is conducted in the PRC and it has few obligations denominated in foreign currencies.

There government regulations that limit or prohibit foreign investment in the PRC, which may restrict the growth of Origin.

Although there is a general restriction on foreign investment in the seed industry in the PRC, the corporate structure of Origin enables it to receive foreign investment. The continued ability to receive foreign investment may be important to its ability to continue to rapidly expand its business and to manage that expansion effectively. There is no way to be certain that a change in the regulations allowing Origin to receive foreign investment will not occur which could disrupt its plan to expand its business.

If certain exemptions within the PRC regarding withholding taxes are removed, we may be required to deduct Chinese corporate withholding taxes from any dividends that are paid by the Chinese companies to its parent company which will reduce the return on investment.

Under current PRC tax laws, regulations and rulings, companies are exempt from paying withholding taxes with respect to dividends paid to stockholders outside the PRC. If the foregoing exemption is eliminated, Origin may be required to withhold such taxes which will reduce the revenues of the parent company and the amount of retained earnings that may be distributed to the stockholders.

Because some of the Agritech directors and officers will reside outside of the United States and substantially all of the assets will be located outside of the United States, it may be difficult for investors to enforce their legal rights against such individuals and the company.

Some of our directors and officers after the consummation of the stock purchase will reside outside of the United States and substantially all of our assets will be located outside of the United States. As a result, it may not be possible for investors in the United States to enforce their legal rights, to effect service of process upon our directors or officers or to enforce judgments of United States courts predicated upon civil liabilities and criminal penalties of our directors and officers under the United States securities laws, the laws of the British Virgin Islands and the Agritech Memorandum and Articles of Association. Moreover, Chardan has been advised that the PRC does not have treaties providing for the reciprocal recognition and enforcement of judgments of courts with the United States and it is uncertain whether or not there would be effective enforcement in the PRC of criminal penalties imposed under United States securities laws.

There will be a substantial number of shares of common stock available for sale in the future which may be increased volumes of common stock available and a

Edgar Filing: Origin Agritech LTD - Form S-4/A

decline in the market price of the common stock.

The initial purchase price for the acquisition of Origin and its subsidiaries includes 10,000,000 shares of common stock. These shares are not being registered and a substantial portion of them will be held by insiders; therefore they will be restricted. Commencing one year after the consummation of the acquisition, these shares will become eligible for resale in the public market under Rule 144 with limitations, and after two years some of these shares may become eligible for resale in the public market under Rule 144(k). As a result, the number of shares available for sale will likely increase which tends to adversely impact the market price of a stock.

As a result of the reincorporation in the British Virgin Islands, the governing documents of the company will provide its stockholders with rights that differ from those afforded by Delaware law which may be more protective in some instances and less protective in others.

Chardan will merge with its wholly owned subsidiary in the British Virgin Islands, and the constituent documents of the BVI company will be in compliance with the laws of that jurisdiction. The rights of stockholders and requirements of directors of a BVI company differ in a number of respects from those of a Delaware company. These differences may result in differing outcomes in the event of takeovers, stockholder suits and governance procedures from those that the stockholders are familiar with when investing in United States companies. In addition, there is not a substantive body of law interpreting the corporate law of the BVI, so there is no basis for analyzing likely outcomes of such matters in advance. Finally, if there are controversies, these will have to be determined in accordance with BVI law and may have to be determined and enforced in jurisdictions other than the United States resulting in less predictability and additional costs.

As a result of the redomestication merger, the Chardan stockholders have appraisal rights, the exercise of which would reduce the amount of cash assets available to the surviving corporation.

The Chardan stockholders have appraisal rights under Delaware law in connection with the redomestication merger. If exercised, these persons are entitled to a cash payment for the fair value of their shares at the time of the redomestication merger, without increase or decrease for the anticipated value of the merger or subsequent acquisition. Any payment will reduce the cash assets of the surviving company which may limit its ability to implement its business plan.

The combined company's working capital could be reduced, and Chardan stockholders could own as little as 28.65% of the combined company's common stock, if Chardan stockholders exercise their right to convert their shares into cash.

Pursuant to Chardan's certificate of incorporation, holders of shares issued in Chardan's initial public offering may vote against the stock purchase and demand that Chardan convert their shares into a pro rata share of the trust account, as of the record date, where a substantial portion of the net proceeds of the initial public offering are held, including all interest earned thereon. Chardan and the Origin Parties will not consummate the stock purchase if holders of 805,000 or more shares of common stock issued in Chardan's initial public offering, exercise these conversion rights. To the extent the stock purchase is

Edgar Filing: Origin Agritech LTD - Form S-4/A

consummated and holders have demanded to so convert their shares, there will be a corresponding reduction in the amount of funds available to the combined company following the stock purchase. As of _____, 2005, the record date, assuming the stock purchase proposal is adopted, the maximum amount of funds that could be disbursed to Chardan's stockholders upon the exercise of their conversion rights is approximately \$_____, or approximately 20% of the funds then held in the trust account.

The outstanding warrants may be exercised and as a result the underlying shares would become eligible for future resale in the public market which would result in dilution and might have an adverse effect on the market price of the common stock.

Outstanding warrants and unit purchase options to purchase an aggregate of 9,100,000 shares of common stock issued in connection with the Chardan initial public offering will become exercisable after the consummation of the stock purchase. If they are exercised, then a substantial number of additional shares of Chardan common stock will be eligible for resale in the public market. Sales of substantial numbers of such shares in the public market could adversely affect the market price of such shares.

If certain financial or financing objectives are achieved, the Origin Stockholders will be entitled to receive additional stock of Agritech as contingent consideration for the acquisition of their Origin stock which would result in dilution and might have an adverse effect on the market price of the common stock.

Under the stock purchase agreement, the Origin Stockholders are entitled to receive additional common stock if certain financial or financing targets are achieved. There is no obligation to register the stock after issuance. However, after being held for the appropriate periods, the common stock will be eligible for resale under Rule 144. If the additional stock is earned, it will significantly increase the number of shares of common stock outstanding. The issuance of this additional stock will have a dilutive effect on the stock already outstanding and may cause a reduction in the trading price of the common stock in the public market.

If Origin meets targeted financing and earnings objectives, the Origin Stockholders will be entitled to additional cash payments which will reduce the amount of working capital available for use in the business which may hinder expansion or cause the company to borrow to cover expenses.

In the future, if Origin raises additional capital and/or has net profits, the Origin Stockholders will be entitled to an additional \$15,000,000 of cash consideration as contingent purchase price for their share in Origin. To the extent that Origin must pay these amounts from its future additional capital and future profits, then it will have less funds available for use in the business. The reduced working capital may limit or hinder expansion or to cover expenses cause the company to borrow more funds at a time when borrowings may not be advantageous and at costs that are in excess of what might otherwise be acceptable.

If Chardan is unable to receive a listing of its securities on the Nasdaq National Market, then it may be more difficult for its stockholders to sell their securities.

Edgar Filing: Origin Agritech LTD - Form S-4/A

The units, common stock and warrants are currently traded in the over-the-counter market and quoted on the Over-the-Counter Bulletin Board. Agritech has applied for listing on the Nasdaq National Market, and received indication that the listing will be confirmed upon consummation of the business combination. If Agritech is unable to obtain a listing or approval of trading of its securities on Nasdaq National Market, then it may be more difficult for its stockholders to sell their securities.

Chardan directors and executive officers have interests in the stock purchase that are different from yours because if the stock purchase is not approved then the securities held by them may become worthless.

In considering the recommendation of the board of directors of Chardan to vote for the proposal to adopt the stock purchase agreement and other proposals you should be aware that certain members of the Chardan board are parties to agreements or arrangements that provide them with interests that differ from, or are in addition to, those of Chardan stockholders generally. Chardan's executives and directors are not entitled to receive any of the net proceeds of Chardan's initial public offering that may be distributed upon liquidation of Chardan. Therefore, if the stock purchase is not approved and Chardan fails to consummate an alternative transaction within the time allotted pursuant to its certificate of incorporation, the securities held by Chardan's officers and directors may be worthless.

Voting control by executive officers, directors and other affiliates of the combined company may limit your ability to influence the outcome of director elections and other matters requiring stockholder approval.

Upon consummation of the stock purchase, executive officers, directors and affiliates of the combined company will own a majority of the combined company's voting stock. These stockholders can control substantially all matters requiring approval by our stockholders, including the election of directors and the approval of other business transactions. This concentration of ownership could have the effect of delaying or preventing a change in our control or discouraging a potential acquirer from attempting to obtain control of us, which in turn could have a material adverse effect on the market price of the common stock or prevent our stockholders from realizing a premium over the market price for their shares of common stock.

Edgar Filing: Origin Agritech LTD - Form S-4/A

We are furnishing this proxy statement/prospectus to you as part of the solicitation of proxies by the Chardan board of directors for use at the special meeting in connection with the proposed stock purchase, redomestication merger and stock option plan. Date, Time and Place

We will hold the special meeting at 10:00 a.m., PST, on _____ at 625 Broadway, Suite 1111, San Diego, California 92101, to vote on the proposals to approve the stock purchase agreement, the redomestication merger and stock option plan.

Purpose of the Special Meeting

At the special meeting, we are asking holders of Chardan common stock to: o approve the stock purchase proposal; o approve the redomestication merger proposal; and o approve the stock option proposal.

The Chardan board of directors:

- o has unanimously determined that the stock purchase proposal, the redomestication merger proposal and the stock option proposal are fair to and in the best interests of Chardan and its stockholders;
- o has unanimously approved the stock purchase proposal, the redomestication merger proposal and the stock option proposal;

- o unanimously recommends that Chardan common stockholders vote "FOR" the proposal to adopt the stock option plan.

Record Date; Who is Entitled to Vote

The "record date" for the special meeting is _____, 2005. Record holders of Chardan common stock at the close of business on the record date are entitled to vote or have their votes cast at the special meeting. On the record date, there were 4,900,000 outstanding shares of Chardan common stock.

Each share of Chardan common stock is entitled to one vote per share at the special meeting.

33

Pursuant to agreements with Chardan, any shares of Chardan common stock held by stockholders who purchased their shares of common stock prior to the initial public offering will be voted in accordance with the majority of the votes cast at the special meeting on the stock purchase and redomestication merger proposals.

Chardan's issued and outstanding warrants do not have any voting rights, and record holders of Chardan warrants will not be entitled to vote at the special meeting.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Voting Your Shares

Each share of Chardan common stock that you own in your name entitles you to one vote. Your proxy card shows the number of shares of Chardan common stock that you own.

There are three ways to vote your shares of Chardan common stock at the special meeting:

- o You can vote by signing and returning the enclosed proxy card. If you vote by proxy card, your "proxy," whose name is listed on the proxy card, will vote your shares as you instruct on the proxy card. If you sign and return the proxy card but do not give instructions on how to vote your shares, your shares will be voted as recommended by the Chardan board "FOR" the adoption of the stock purchase proposal, the redomestication merger proposal, and the stock option plan proposal.
- o You can vote by telephone or on the internet by following the telephone or Internet voting instructions that are included with your proxy card. If you vote by telephone or by the Internet, you should not return the proxy card.
- o You can attend the special meeting and vote in person. We will give you a ballot when you arrive. However, if your shares are held in the name of your broker, bank or another nominee, you must get a proxy from the broker, bank or other nominee. That is the only way we can be sure that the broker, bank or nominee has not already voted your shares.

IF YOU DO NOT VOTE YOUR SHARES OF CHARDAN COMMON STOCK IN ANY OF THE WAYS DESCRIBED ABOVE, IT WILL HAVE THE SAME EFFECT AS A VOTE AGAINST THE ADOPTION OF THE STOCK PURCHASE PROPOSAL AND THE REDOMESTICATION MERGER PROPOSAL, BUT WILL NOT HAVE THE EFFECT OF A DEMAND OF CONVERSION OF YOUR SHARES INTO A PRO RATA SHARE OF THE TRUST ACCOUNT IN WHICH A SUBSTANTIAL PORTION OF THE PROCEEDS OF CHARDAN'S INITIAL PUBLIC OFFERING ARE HELD OR A DEMAND FOR APPRAISAL RIGHTS UNDER DELAWARE LAW.

Who Can Answer Your Questions About Voting Your Shares

If you have any questions about how to vote or direct a vote in respect of your Chardan common stock, you may call Dr. Richard D. Propper, Chardan's chairman, (619) 795-4627.

No Additional Matters May Be Presented at the Special Meeting

This special meeting has been called only to consider the adoption of the stock purchase proposal, the redomestication merger proposal and the stock option proposal. Under Chardan's by-laws, other than procedural matters incident to the conduct of the meeting, no other matters may be considered at the special meeting, if they are not included in the notice of the meeting.

Revoking Your Proxy

Edgar Filing: Origin Agritech LTD - Form S-4/A

If you give a proxy, you may revoke it at any time before it is exercised by doing any one of the following:

- o You may send another proxy card with a later date;
- o You may notify Dr. Propper, Chardan's chairman, in writing before the special meeting that you have revoked your proxy; and
- o You may attend the special meeting, revoke your proxy, and vote in person, as indicated above.

Vote Required

The presence, in person or by proxy, of a majority of all the outstanding shares of common stock constitutes a quorum at the special meeting. Proxies that are marked "abstain" and proxies relating to "street name" shares that are returned to Chardan but marked by brokers as "not voted" will be treated as shares present for purposes of determining the presence of a quorum on all matters. The latter will not be treated as shares entitled to vote on the matter as to which authority to vote is withheld by the broker ("broker non-votes"). If you do not give the broker voting instructions, under the rules of the NASD, your broker may not vote your shares on the proposals to approve the stock purchase, the redomestication merger or the stock option plan.

The approval of the stock purchase and redomestication merger proposals will require the affirmative vote of the holders of a majority of the Chardan common stock outstanding on the record date. Because each of these proposals require the affirmative vote of a majority of the shares of common stock outstanding and entitled to vote, abstentions and shares not entitled to vote because of a broker non-vote will have the same effect as a vote against the proposal.

For consummation of the stock purchase agreement, the redomestication merger proposal must be approved by the stockholders. For the redomestication merger to be implemented, the stock purchase proposal must be approved by the stockholders.

The approval of the stock option plan will require the affirmative vote of a majority of the Chardan common stock present and entitled to vote at the meeting. Abstentions are deemed entitled to vote on the proposal, therefore, they have the same effect as a vote against the proposal, and broker non-votes are not deemed entitled to vote on the proposal, therefore, they will have no effect on the vote on the proposal.

Conversion Rights

Any stockholder of Chardan holding shares of common stock issued in Chardan's initial public offering who votes against the stock purchase proposal may, at the same time, demand that Chardan convert his shares into a pro rata portion of the trust account as of the record date. If demand is made and the stock purchase is consummated, Chardan will convert these shares into a pro rata portion of funds held in a trust account plus interest, as of the record date.

The closing price of Chardan's common stock on _____, 2005 (the record date) was \$_____ and the per-share, pro-rata cash held in the trust

Edgar Filing: Origin Agritech LTD - Form S-4/A

account on that date was approximately \$_____. Prior to exercising conversion rights, Chardan stockholders should verify the market price of Chardan's common stock as they may receive higher proceeds from the sale of their common stock in the public market than from exercising their conversion rights if the market price per share is higher than the conversion price.

35

If the holders of 805,000 or more shares of common stock issued in Chardan's initial public offering (an amount equal to 20% or more of these shares), vote against the stock purchase and demand conversion of their shares, Chardan will not be able to consummate the stock purchase.

If you exercise your conversion rights, then you will be exchanging your shares of Chardan common stock for cash and will no longer own these shares. You will be entitled to receive cash for these shares only if you continue to hold these shares through the effective time of the stock purchase and then tender your stock certificate to the combined company.

Appraisal Rights

Under Delaware corporate law, the redomestication merger of Chardan with Agritech causes the stockholders of Chardan to have appraisal rights in connection with the transactions for which approval is sought. This right is separate from the conversion rights of the holders of shares of Chardan common stock issued in the initial public offering. However, because the exercise of the appraisal right and the conversion rights both require a tender of the holder's shares to Chardan, only one right may be elected in respect of the shares. See pages 63 to 65 and Annex I for more information about appraisal rights.

Solicitation Costs

Chardan is soliciting proxies on behalf of the Chardan board of directors. This solicitation is being made by mail but also may be made by telephone or in person. Chardan and its respective directors, officers and employees may also solicit proxies in person, by telephone or by other electronic means. In addition, the preferred member representatives and officers of the Origin Parties are soliciting proxies and may solicit proxies in person, by telephone or by other electronic means. These persons will not be paid for doing this.

Chardan has not hired a firm to assist in the proxy solicitation process but may do so if it deems this assistance necessary. Chardan will pay all fees and expenses related to the retention of any proxy solicitation firm.

Chardan will ask banks, brokers and other institutions, nominees and fiduciaries to forward its proxy materials to their principals and to obtain their authority to execute proxies and voting instructions. Chardan will reimburse them for their reasonable expenses.

Stock Ownership

At the close of business on the record date, Dr. Richard D. Propper, Kerry S. Propper, Jiangnan Huang, Li Zhang, Daniel P. Beharry, Steven Urbach, Anthony Errico and the Estate of Michael Urbach beneficially owned and were entitled to vote approximately 875,000 shares of Chardan common stock, or approximately 17.9% of the then outstanding shares of Chardan common stock,

Edgar Filing: Origin Agritech LTD - Form S-4/A

which includes all of the shares held by the directors and executive officers of Chardan and their affiliates. Those persons, who were stockholders of Chardan prior to its initial public offering of securities, have agreed to vote their shares on the stock purchase and redomestication merger proposals in accordance with the majority of the votes cast by the holders of shares issued in Chardan's initial public offering.

Dr. Richard D. Propper is currently chairman of the board of directors of Chardan, Mr. Huang is chief executive officer, Mr. Kerry S. Propper is executive vice president, and Mr. Zhang is chief financial officer. On the record date, directors and executive officers of Chardan and their affiliates beneficially owned and were entitled to vote 689,501 shares of Chardan's common stock. These shares represent approximately 14.1% of Chardan's outstanding common stock.

36

Fairness Opinion

Chardan did not obtain a fairness opinion in respect of the acquisition of Origin or the redomestication merger.

CONSIDERATION OF THE STOCK PURCHASE TRANSACTION

The following discussion of the principal terms of the stock purchase agreement dated as of December 20, 2004 among Chardan, Dr. Richard D. Propper, Kerry S. Propper, MD, Jiangnan Huang, Zhang Li, Daniel P. Beharry, Steven Urbach and the Origin Parties is subject to, and is qualified in its entirety by reference to, the stock purchase agreement. A copy of the stock purchase agreement is attached as an annex to this proxy statement/prospectus and is incorporated in this proxy statement/prospectus by reference.

General Description of the Stock Purchase

Pursuant to the stock purchase agreement, on March 11, 2005, Chardan established a wholly owned subsidiary, Origin Agritech Limited, under the laws of the British Virgin Islands, and Chardan will merge with and into Agritech. Agritech will be the surviving entity, and the separate corporate existence of Chardan will cease at the effective time of the merger. Simultaneously with the merger, Agritech will purchase the issued and outstanding stock of Origin, which in turn will own, or will have acquired the rights to control, the outstanding stock of the Origin Operating Companies. We refer to Agritech, after giving effect to completion of the stock purchase, as Agritech or the combined company. As a result of the stock purchase, the former owners of Origin and the Origin Operating Companies will own approximately 66.2% of the outstanding shares of the combined company's common stock, assuming no redemptions or exercise of appraisal rights.

Background of the Stock Purchase

The terms of the stock purchase agreement are the result of arm's-length negotiations between representatives of Chardan and the Origin Parties. The following is a brief discussion of the background of these negotiations, the stock purchase and related transactions.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Chardan was formed on December 5, 2003 to serve as a vehicle to accomplish a business combination with an unidentified operating business in the PRC with significant growth potential. Chardan completed an initial public offering in March 2004, in which it raised net proceeds of approximately \$21,242,000. Of these net proceeds, \$20,527,500 were placed in a trust account immediately following the initial public offering and, in accordance with Chardan's certificate of incorporation, will be released either upon the consummation of a business combination or upon the liquidation of Chardan. Chardan must liquidate unless it has consummated a business combination by September 22, 2005. If a letter of intent, agreement in principle or a definitive agreement to complete a business combination was executed but the transaction was not consummated prior to September 22, 2005, then it is not required to liquidate unless the business combination contemplated by such letter of intent, agreement in principle or definitive agreement is not consummated by March 22, 2006.

37

At the end of March 2004, Chardan commenced its efforts to locate a company with which to effect a business combination. To assist Chardan in locating and evaluating companies in the PRC, on March 29, 2004, Chardan engaged Best of the Best, a business acquisition consulting firm, to identify potential acquisition candidates, prepare background investigations, industry analysis and due diligence reports. Best of the Best was contacted immediately after the consummation of the initial public offering by Huang Jiangnan, an officer and director of Chardan who has known the principals of Best of the Best for many years. This initial contact was made after the effective date of the initial public offering, and discussions about their engagement commenced shortly thereafter. Under the terms of the agreement, Best of the Best will be paid a total of \$250,000, payable in four installments: \$87,500 at the commencement of their engagement, \$37,500 on the announcement of Chardan's intention to pursue a particular business combination, \$87,500 when Chardan's stockholders approve a business combination, and \$37,500 when a business combination is approved. In addition, upon consummation of the business combination, Chardan will issue 200,000 shares of restricted common stock to Best of the Best. The services that Best of the Best provided included the following: assisting Chardan in identifying acquisition opportunities, assisting in preparing and executing required confidentiality, market stand-off and similar agreements; compiling preliminary information about merger candidates; performing financial due diligence and analysis; recommending acquisition structures; assessing the information about the potential target that is available; and working with accountants and legal staff to prepare for a business combination, including agreement negotiation.

Best of the Best commenced identifying and screening acquisition candidates in April 2004. Best of the Best used its knowledge of Chinese companies and its network of contacts, screening potential companies based on Chardan's criteria. Chardan also sought to identify acquisition candidates, principally through the efforts of Huang Jiangnan and Li Zhang, officers and directors of Chardan. Both of these persons have extensive contacts through the Chinese business and legal community in the PRC.

Best of the Best and Chardan selected ten companies as potential candidates for a business combination, Chardan requested preliminary reports from Best of the Best for its evaluation of the potential targets. On the basis of that review and information, in May 2004, Chardan selected one candidate with which to pursue an agreement. Chardan was not able to agree to acceptable terms with this first target company. Based on an analysis of the valuation of comparable public companies, this first target's existing financial condition,

Edgar Filing: Origin Agritech LTD - Form S-4/A

management expertise, volatile earnings quarter over quarter, and the fact that the target's management dramatically reduced their forecast for 2004 after tax income, Chardan determined that a business combination with that first target was not in the best interests of Chardan's stockholders.

During the negotiations with the first target, Best of the Best continued their due diligence on the other previously identified companies, which included the Origin Operating Companies. After deciding not to pursue that first potential transaction in late June 2004, Chardan entered into discussions with Dr. Han, the principal of the Origin Operating Companies, regarding a potential business combination.

The Origin Operating Companies had been among the companies with which Chardan had held preliminary meetings in April, but had not pursued any substantive business combination discussions. The first formal meeting to discuss this transaction was held on June 24, 2004, in Beijing, China. Chardan and an advisory firm for the Origin Parties, Chum Investment Corporation, exchanged information about Chardan and the Origin Operating Companies and suggested a general structure and terms of an acquisition by Chardan. Then on June 26, 2004, representatives of Chardan, the Origin Stockholders and Chum met at the offices of the Origin Operating Companies in Beijing to discuss preliminary issues of due diligence, exchange of information, pricing and other terms of an acquisition. During its discussions with the Origin Operating Companies, Chardan continued to evaluate other potential candidates for a business combination.

On August 23, 2004, Dr. Propper, Mr. Huang and Mr. Zhang from Chardan and the Origin Stockholders, including representatives of Chum, met in Beijing for further discussions about the respective businesses and terms of the transaction. The parties were in general agreement about the acquisition terms, but at this meeting they began to discuss various specifics and raised related topics to the acquisition and disclosure process.

38

After several days of negotiations and due diligence review in Beijing from September 19 to September 21, 2004 by and among Dr. Propper, Mr. Kerry Propper, Mr. Zhang Li and Mr. Jiangnan Huang of Chardan and Dr. Gengchen Han, Mr. Yasheng Yang and Ms. Yu Ping Zhao of the Origin Operating Companies, Chardan, for itself, and Dr. Han, in respect of the Origin Parties, signed a memorandum of understanding on September 22, 2004. This memorandum set forth the following:

- o the reorganization of the Origin Operating Companies which was to take into account the best tax arrangements for all parties;
- o the consideration to be paid for the Origin Operating Companies, which is reflected in the stock purchase agreement;
- o the terms of the additional purchase price to be paid over time based on performance criteria;
- o the desire for a stock option plan; and
- o the inclusion of certain Origin Stockholders on the board of directors of the surviving corporation.

Promptly after the execution of the memorandum of understanding, Chardan's United States counsel prepared a draft of the stock purchase agreement

Edgar Filing: Origin Agritech LTD - Form S-4/A

and sent it to counsel for the Origin Parties. In addition, the Chinese counsel of Chardan consulted with Chinese counsel for the Origin Parties and commenced negotiation of the stock consignment agreements, the technology assignment agreements and reorganization of the Chinese Operating Companies. Origin, under the name State Harvest Holding Limited, was established in the British Virgin Islands on November 24, 2004 by Chinese counsel for the Origin Parties.

During the period between October 20, 2004 and December 6, 2004, counsel exchanged emails about various points in the agreements and continued to modify them and exchanged drafts of documents. Counsel and the accountants for all the parties conducted legal and financial due diligence and negotiated points in the agreements. During this period, representatives of Chardan and the Origin Parties also conducted further due diligence from a business point of view and began preparation of this proxy statement/prospectus.

On October 30, 2004, representatives of Best of the Best met with the board of directors of Chardan to give a report of their due diligence of the Origin Operating Companies and analysis of the business in which the Origin Operating Companies operate. At the meeting were all the board members of Chardan and Mr. Wu Cheong, representing Best of the Best, who made the report. The board of directors unanimously resolved to proceed with the acquisition process and continue to work towards execution of a definitive stock purchase agreement.

On November 22, 2004, Dr. Propper and Dr. Han and Messrs. Yang and Yuan exchanged emails about the terms and forms of employment agreements. These agreements were further negotiated and the terms subsequently finalized on December 1, 2004.

On December 7, 2004, there was a meeting at the offices of Chardan's United States counsel, Graubard Miller, in New York City, to negotiate the final terms of stock purchase agreement. All the officers and directors of Chardan and Chardan's United States counsel attended the meeting in person. Dr. Han and Mr. Song Xuesong, executive director of Chum Investment Corporation, advisor to the Origin Parties, and Mr. Cui Ligu, partner of Guantao Law Firm, counsel to the Origin Parties, attended the meeting in person. Other members of Guantao Law Firm attended the meeting by telephone conference.

On December 7, 2004, after the meeting with the Origin representatives, the board of directors of Chardan met to review the transaction documents and evaluate and approve the acquisition of Origin. The board of directors reviewed the latest forms of stock purchase agreement, the stock consignment agreements, the technology license agreements, the employment agreements and voting agreement. The board of directors also reviewed the disclosure schedules to the stock purchase agreement of the Origin Parties. After review of the due diligence materials and the report of Best of the Best and discussion, the foregoing were unanimously approved, subject to final negotiation and modification, and the board determined to recommend the approval of the stock purchase agreement, redomestication merger and related transactions and the stock option plan to the stockholders.

From December 8, 2004 to December 10, 2004, Dr. Propper, Mr. Propper and Dr. Han met with their respective counsel in meetings in New York City to finalize the transaction documents, and the Origin Parties delivered the preliminary financial statements required before the signing of the stock purchase agreement.

Edgar Filing: Origin Agritech LTD - Form S-4/A

The stock purchase agreement was signed on December 20, 2004. Chardan filed a press release and Current Report on Form 8-K on December 27, 2004 announcing the execution of the agreement and discussing the terms of the stock purchase. The Current Report was amended on January 21, 2005 to file the audited financial statements of Origin for the years ended December 31, 2001, 2002 and 2003 and for the nine months ended September 30, 2004 and pro forma statements of operations of Chardan showing the acquisition as if it occurred on January 1, 2003 and pro forma balance sheets as if it occurred September 30, 2004.

Board Consideration and Approval of Transaction

While no one factor determined the final agreed upon consideration in the stock purchase, Chardan's board of directors reviewed various industry and financial data, including certain valuation analyses and metrics compiled by members of the board and by Best of Best in order to determine that the consideration to be paid to the Origin Parties was reasonable and that the stock purchase was in the best interests of Chardan's stockholders.

Best of the Best conducted a due diligence review of Origin and the Origin Operating Companies that included an industry analysis, a description of Origin's existing business model, a valuation analysis and financial projections in order to enable the board of directors to ascertain the reasonableness of this range of consideration. Throughout the negotiation process, Best of the Best continued to assemble and review relevant due diligence materials and, on October 22, 2004, delivered a presentation to the board of directors and a due diligence package that included the information regarding Origin and the Origin Operating Companies that Best of the Best had gathered and prepared. During its negotiations with the Origin Parties, Chardan did not receive services from any financial advisor other than Best of the Best.

Interest of Chardan Directors and Officers in the Stock Purchase

In considering the recommendation of the board of directors of Chardan to vote for the proposals to approve the stock purchase agreement, the redomestication merger and the stock option plan, you should be aware that certain members of the Chardan board have agreements or arrangements that provide them with interests in the stock purchase that differ from, or are in addition to, those of Chardan stockholders generally. In particular:

40

- o if the stock purchase is not approved and Chardan fails to consummate an alternative transaction within the time allotted pursuant to its amended and restated certificate of incorporation, Chardan would be required to liquidate. In such event, the shares of common stock held by Chardan's directors and officers would be worthless because Chardan's directors and officers are not entitled to receive any of the liquidation proceeds and any warranty they hold will expire worthless.

- o Chardan's executives and directors own a total 689,501 shares of Chardan common stock that have a market value of \$_____ based on Chardan's share price of \$_____ as of _____ 2005, the record date. However, as Chardan's directors and executives are contractually prohibited from selling their shares prior to March

Edgar Filing: Origin Agritech LTD - Form S-4/A

16, 2007 (during which time the value of the shares may increase or decrease), it is impossible to determine what the financial impact of the stock purchase will be on Chardan's directors and executives;

- o the transactions contemplated by the stock purchase agreement provide that Mr. Kerry Propper will be a director of Agritech and he will have the right to appoint one additional director of the nine members of the board of directors of the combined company for three years (which person is currently Steven Urbach);
- o after completion of the stock purchase, Dr. Propper will continue to serve in the capacity of Vice President, Corporate Development (without personal compensation), and Chardan Capital LLC, an affiliate of Dr. Propper, Mr. Beharry, Mr. Zhang and Mr. Huang, will provide a variety of ongoing services to Origin over the next two years at a cost to Origin of \$30,000 per month, which services will be on a non-exclusive basis and include advice and help in meeting US public reporting requirements and accounting standards, Sarbanes-Oxley compliance, corporate structuring and development, stockholder relations, corporate finance and operational capitalization and such other similar services as suggested and agreed to by Chardan Capital, LLC; and
- o Chardan's directors and officers and certain initial stockholders may be personally liable for a pro rata share of a termination fee of \$1 million that is payable to the Origin Stockholders if the stock purchase agreement is terminated under certain limited conditions.

Chardan's Reasons for the Stock Purchase and Recommendation of the Chardan Board

The Chardan board of directors concluded that the stock purchase agreement with the Origin Parties is in the best interests of Chardan's stockholders. The Chardan board of directors did not obtain a fairness opinion.

Each member of Chardan's board of directors has extensive experience in performing due diligence of acquisition targets and in valuing companies. Three of the directors, Dr. Propper and Messrs. Li and Huang, are currently principals in Chardan Capital LLC, a strategic financial and management consulting company that focuses on identifying attractive Chinese companies and in structuring transactions involving those companies. One director, Mr. Kerry Propper, is the Chief Executive Officer of Chardan Capital Markets, a registered NASD broker dealer.

The Chardan board of directors considered a wide variety of factors in connection with its evaluation of the stock purchase. In light of the complexity of those factors, the Chardan board of directors did not consider it practicable to, nor did it attempt to, quantify or otherwise assign relative weights to the specific factors it considered in reaching its decision. In addition, individual members of the Chardan board may have given different weight to different factors.

Edgar Filing: Origin Agritech LTD - Form S-4/A

In considering the stock purchase, the Chardan board of directors gave considerable weight to the following factors:

Origin's and the Origin Operating Companies' record of growth and expansion and high potential for future growth

Important criteria to Chardan's board of directors in identifying an acquisition target was that the company has established business operations, that it was generating current revenues, and that it had what Chardan believes to be a potential to experience rapid additional growth in the future. Chardan's board of directors believes that Origin and the Origin Operating Companies have in place the infrastructure for strong business operations, a large and growing customer base, significant technological capabilities and brand name recognition. Origin commenced business operations in late 1997, and it has experienced an average annual revenue growth of greater than 30% from 2002 through 2004. The 2003 revenues were approximately \$27 million, with then estimated revenues for 2004 of approximately \$36 million, and then projected revenues for 2005 of greater than \$55 million.

Although revenue projections are inherently uncertain, Chardan's board of directors believed, and continues to believe, the projections for Origin's business are much more reliable than most, based on its expected revenues. Approximately 80% of Origin's orders for seeds to be delivered in the next growing season are received in the prior year. These orders are accompanied by deposits of 10% to 20% of the purchase price so there is a strong indication of the actual purchase that will take place in the following year and, therefore, projected revenues are able to be anticipated with relative certainty.

This record of significant and predictable growth helped to convince Chardan's board of directors that a business combination with Origin would be in the best interests of Chardan's stockholders.

Chardan's board of directors believes that Origin and the Origin Operating Companies have the ability to continue growth because:

- o the existing customers represent a recurring revenue stream;
- o Origin budgets approximately 5% of current revenue to research and development activities during the following year. However, because of the revenue growth experienced by Origin, the amount actually spent has been approximately 3% of Origin's total revenue. Through this research and development, Origin has developed and Chardan's board of directors believes it will continue to develop additional hybrid seed offerings;
- o Origin places an emphasis on its sales and marketing functions, with over 1,000,000 customers in a database, the production and circulation of a newspaper three times a year through their distributor network that reaches between 1,000,000 and 2,000,000 readers per issue, television advertising, product demonstrations, and the maintenance of a call center for receiving customer service inquiries;
- o the Chinese crop seed market remains fragmented and consists of large numbers of companies that operate at the county and provincial level; and
- o few of the competing companies to Chardan's knowledge have a research and development program that appears to be as effective as Origin's, resulting in what the Chardan board believes will be a

Edgar Filing: Origin Agritech LTD - Form S-4/A

continuation of superior seed and support offerings by Origin to customers, thereby increasing its customer base and sales in the future.

42

Based on its review of the Origin Operating Companies historical financial statements and their business model and relationships, Chardan's board of directors believes that Origin Operating Companies' products are sold at attractive gross margins, and that they have controllable variable costs and low, scalable fixed costs.

Origin represents an opportunity to invest in a growing, dynamic industry

Another criterion important to Chardan's board of directors in identifying an acquisition target was that the company be in an emerging or expanding industry with potential for growth. China's enormous population represents one of the largest market for crops in the world. Although the growth rate of China's population has slowed, China's population will continue to increase in absolute terms. While the demand for corn and other crops for consumption by the Chinese population is large and growing, the use of corn, in particular, as an animal feed, source of starch products and even for use as a fuel will likely support continued growth in this industry.

Although there are currently a large number of seed companies that meet the demand of farmers in the PRC, Chardan's board of directors believes that few of them are developing and producing advanced hybrid seeds that offer the advantages of Origin's hybrid seeds. Chardan's board of directors expects that Origin's product offerings, continued efforts to develop and produce hybrids for additional crops, its market presence and effective marketing strategies will result in an increase of Origin's share of its existing markets and enable Origin to enter additional markets.

The experience of Origin's management.

Another criterion important to Chardan's board of directors in identifying an acquisition target was that the company have a seasoned management team with specialized knowledge of the markets within which it operates and the ability to lead a company in a rapidly changing environment. Chardan's board of directors believes that Origin's management has demonstrated that ability, addressing what has until now been a market consisting of local businesses with little meaningful research and development into a biotech industry that focuses on product development, efficient production and effective marketing and customer service programs. By utilizing its growing revenues to expand its market share and develop additional products, Origin's management seems to have demonstrated a commitment to a strategy that has given it a significant presence in the seed industry in the PRC.

Origin's ability to execute its business plan, even with the risk that Chardan's public stockholders would vote against the stock purchase and exercise their conversion rights.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Chardan's board of directors considered the risk that the current public stockholders of Chardan would vote against the stock purchase and demand to redeem their shares for cash upon consummation of the stock purchase, thereby depleting the amount of cash available to the combined company following the stock purchase or cause a condition of the stock purchase agreement not to be met. Chardan's board of directors deemed this risk to be no worse with regard to Origin than it would be for other target companies and believes that Origin will still be able to implement its business plan, even if the full amount of the funds deposited in the trust account are not available at closing.

Due Diligence Information Materials

In performing the analysis described above, Chardan's board of directors also reviewed an information statement prepared by Chardan's consultants, Best of the Best, in connection with its search for a suitable target company.

43

The Best of the Best information included a general description of the business of the Origin Operating Companies as it existed prior to the report, a diagram of the Origin Parties' business model, including its research and development capabilities, its licensing strategy, its seed production processes and distribution network. A separate diagram showed the capital structure of the Origin Parties as of the date of the package, valuation calculations and analysis, projected uses of the cash in Chardan's trust account subsequent to the stock purchase and an organizational chart for Origin and the Origin Operating Companies.

The Best of the Best information then gave a market overview that described the Chinese seed crop market generally and how the Origin Operating Companies fit into and compete within that market. The description showed Origin to be engaged principally in corn seed production, but it also showed Origin moving into cotton and other crop seeds, both as a diversification and an expansion strategy. Depending on the market prices for crops, farmers will often convert their land from production of one crop to another. The materials described how Origin's plan to enter the cotton seed markets will enable it to hedge against shifts in farmers' crop selection. It also provided information regarding the geographical markets in which the Origin Operating Companies compete within the PRC. A separate section detailed the nature of the seed distribution process in the PRC and another examined the competitive and other threats that the Origin Operating Companies face in conducting their business, including market fluctuations and unfavorable weather.

The materials also contained an overview of the products of the Origin Operating Companies, both current and those in development, and the permit process that companies must go through to sell seeds in the PRC, including a separate process for new hybrid seeds. The package made a specific point of describing the Origin Operating Companies past and current approach and past success in moving products through that permit process.

The materials contained a section describing the Origin Operating Companies' business model. Among the elements in that business model are the development of strong internal research and development, continued use of licensed seed products, establishment of strong brand identity, reliance on an

Edgar Filing: Origin Agritech LTD - Form S-4/A

effective system of master and sub distributors to extend the reach of Origin into the marketplace, a strong, value added customer service and technical support component and the emphasis on print and other advertising to establish, maintain and extend Origin's customer base.

A section on personnel examined the role of its principal executives, including Dr. Han, who is the Executive Chairman, Mr. Yang, who has overall operational responsibility and direct control over marketing, and Mr. Yuan, whose responsibilities include infrastructure and public relations. The information described in this section supports Chardan's board of directors' determination that the Origin Operating Companies have an experienced and talented management team, capable of continuing the success achieved in the past.

A section on risk factors in the materials described the risks inherent the business plan of the Origin Operating Companies. These risks are discussed, among others, in the risk factors section of this proxy statement/prospectus.

A section in the Best of the Best information materials discussed the history of Origin that showed a record of growth and a leverageable business model, including rapidly increasing revenues, solid gross profit margins and, controllable variable costs. This section also discussed the substantial reinvestment in the business made by Origin through a strong research and development effort, something that Origin considers to be important to its future success.

Chardan's board of directors also reviewed a report prepared for Chardan by Xing An Securities Co. Ltd., based in China, to prepare an overview of the seed business in China, highlighting their thoughts on Origin's place therein. This document corroborated Chardan's board of director's initial view of the potential of the Origin Operating Companies.

44

Mr. Kerry Propper, a director and officer of Chardan, prepared for the board of directors an analysis of the post-transaction value of the Origin Operating Companies. He analyzed comparable companies in the seed/agricultural markets, taking into account their relative market presences and cycle maturity. He prepared a list of comparative price/earnings ratios of these companies and compared them to the price/earnings of the Origin Operating Companies and their anticipated price/earnings. The valuation for the future of the Origin Operating Companies was based on many assumptions, including projected top-line sales, assumed margins, and projected net income. Since there is little depreciation and amortization in the company's history, taxes were eliminated. Capital resources were taken into account, based on the capital of the company after the acquisition and for income and reinvestment, and for the potential of exercise of outstanding warrants of Chardan. Based on this analysis, Mr. Propper concluded that comparatively speaking, the enterprise value of the Origin Operating Companies, immediately after the acquisition, was favorable. On the basis of the analysis, he concluded that the board of directors, from an economic point of view, should consider the acquisition of the Origin Operating Companies.

Chardan's board of directors also considered the methods by which a foreign company may own and control the PRC companies that are newly organized or are in restricted industries. In structuring the transaction and in preparing the documentation, Chardan retained its own PRC counsel to advise it on the

Edgar Filing: Origin Agritech LTD - Form S-4/A

acquisition of stock that is subject to transfer restrictions. The methodology of stock consignment agreements and technology service agreements is widely used in these instances. The agreements were drafted by its PRC counsel and reviewed by United States counsel. Although the agreements are initially control arrangements, they provide for transfer of title in the future if and when the restrictions lift, without any further consideration. Moreover, the consignment agreements prevent the title holder from transferring the shares to another or taking any action limiting the rights of Origin. The consignment agreement freezes the ownership in the hands of the record/title owner, but gives the consignee, Origin, all the incidents of beneficial ownership, including voting, dividend, director nomination, management selection and every other right of ownership other than record ownership. Record ownership is subject to the directions of Origin so long as it is a permitted transfer and transferee under PRC law. The stock purchase agreement provides for opinions of PRC counsel on the validity and enforceability of all the agreements by the Origin Parties. On the basis of its discussions with counsel and the similarity of the Origin agreements to those used by other foreign owners, the Chardan board of directors believed that the restrictions and use of stock consignment agreements was an acceptable business strategy to obtain an acquisition opportunity in the PRC.

Satisfaction of 80% Test

It is a requirement that any business acquired by Chardan have a fair market value equal to at least 80% of its net assets at the time of acquisition, which assets shall include the amount in the trust account. Based on the financial analysis of Origin generally used to approve the transaction, the Chardan board of directors determined that this requirement was met. More specifically, the board used a comparable price/earnings ratio analysis, discounted cash flow analysis and asset valuation analysis and believes that, on the basis of these methodologies, the fair market value of Origin substantially exceeds 80% of the Chardan assets. Furthermore, just the value of the shares forming a portion of the consideration being paid, which amount was negotiated at arms-length, is well in excess of 80% of the Chardan assets. The Chardan board of directors believes because of the financial skills and background of several of its members, it was qualified to make these different analysis itself and conclude that the acquisition of the Origin Operating Companies met this requirement without recourse to an independent source.

45

Conclusion of the Board of Directors

After careful consideration, Chardan's board of directors determined unanimously that each of the stock purchase proposal, the redomestication merger proposal and the stock option proposal is fair to and in the best interests of Chardan and its stockholders. Chardan's board of directors has approved and declared advisable the stock purchase proposal, the redomestication merger proposal and the stock option proposal and unanimously recommends that you vote or give instructions to vote "FOR" each of the proposals to adopt the stock purchase proposal, the redomestication merger proposal, the stock option proposal and the election of directors.

The foregoing discussion of the information and factors considered by the Chardan board of directors is not meant to be exhaustive, but includes the material information and factors considered by the Chardan board of directors.

Material U.S. Federal Income Tax Considerations of the Redomestication Merger

Edgar Filing: Origin Agritech LTD - Form S-4/A

The following discusses the material U.S. federal income tax consequences of the redomestication merger to the Chardan stockholders who are U.S. Holders. A United States Holder is: (i) a beneficial owner of Chardan common stock that is a citizen or resident of the United States, a corporation, partnership or other entity created or organized in or under the laws of the United States or any political subdivision thereof, or an estate or trust that is described in Section 7701(a)(3) of the Code and (ii) holds the Chardan common stock as a capital asset. This discussion is based on the United States Internal Revenue Code of 1986, as amended, which we refer to as the Code, and Treasury regulations promulgated thereunder.

Chardan expects that the redomestication merger will qualify as a reorganization under the Code. No gain or loss will be recognized on the exchange of the Chardan common stock held by Chardan's stockholders for stock of Agritech, provided no holder of Chardan common stock owns 5% or more of the stock of Agritech following the redomestication merger. The federal tax basis of the shares of Agritech received by the holder of Chardan common stock in the merger will be the same as the adjusted tax basis of such Chardan common stock surrendered in exchange therefore. The holding period of the shares of Agritech received in the redomestication merger by the holder of Chardan common stock will include the period during which such Chardan common stock was held as a capital asset on the date of the redomestication merger.

The foregoing U.S. federal income tax consequences is not affected by the changes made to the Code by the American Jobs Creation Act of 2004 in the treatment of domestic business entities which expatriate from the United States to a foreign jurisdiction. These new provisions generally apply to the direct or indirect acquisition of substantially all of the properties of a domestic enterprise by a foreign corporation if there is at least 60% or 80% of continuing share ownership in the successor foreign entity by the former U.S. corporation's stockholders and substantial business activities are not conducted in the jurisdiction in which such successor is created or organized. Under the Chardan redomestication merger and the stock purchase agreement, following the redomestication merger into Agritech, the holders of Chardan common stock will own 32.5% of the shares of Agritech.

For United States federal income tax purposes, the gross amount of all dividends paid with respect to Agritech shares out of current or accumulated earnings and profit ("E&P") to a United States Holder generally will be treated as foreign source ordinary income to such holder. United States corporations that hold Agritech common stock will not be entitled to the dividends received deduction available for dividends received from United States corporations. To the extent a distribution exceeds E&P, it will be treated first as a return of capital to the extent of the United States Holder's basis, and then as gain from the sale of a capital asset.

The conclusions expressed above are based on current law. Future legislative, administrative or judicial changes or interpretations, which can apply retroactively, could affect the accuracy of those conclusions. No rulings have been or will be sought from the Internal Revenue Service concerning the tax consequences of the transactions contemplated by the stock purchase agreement or redomestication merger.

Edgar Filing: Origin Agritech LTD - Form S-4/A

The discussion does not address all of the tax consequences that may be relevant to particular taxpayers in light of their personal circumstances or to taxpayers subject to special treatment under the Code. Such taxpayers include non-U.S. persons, insurance companies, tax-exempt entities, dealers in securities, banks and persons who acquired their stock interests pursuant to the exercise of employee options or otherwise as compensation.

BECAUSE OF THE COMPLEXITY OF THE TAX LAWS, AND BECAUSE THE TAX CONSEQUENCES TO ANY PARTICULAR STOCKHOLDER MAY BE AFFECTED BY MATTERS NOT DISCUSSED ABOVE, EACH STOCKHOLDER IS URGED TO CONSULT A TAX ADVISOR WITH RESPECT TO THE SPECIFIC TAX CONSEQUENCES OF THE TRANSACTIONS CONTEMPLATED BY THE REDOMESTICATION MERGER AND THE STOCK PURCHASE TO HIM, HER OR IT, INCLUDING THE APPLICABILITY AND EFFECT OF STATE, LOCAL AND NON-U.S. TAX LAWS, AS WELL AS U.S. FEDERAL TAX LAWS

Anticipated Accounting Treatment

The stock purchase will be accounted for as a capital transaction for accounting and financial reporting purposes. Accordingly, for accounting purposes, the stock purchase will be treated as the equivalent of Origin's issuing stock for the net monetary assets of Chardan, accompanied by a recapitalization. The net monetary assets of Chardan will be stated at their fair value, essentially equivalent to historical costs, with no goodwill or other intangible assets recorded. Under this method of accounting, Origin will be the continuing entity for financial reporting purposes. The retained earnings (deficit) of Origin will be carried forward after the stock purchase. Operations prior to the stock purchase will be those of Origin and the Origin Operating Companies.

Regulatory Matters

The stock purchase and the transactions contemplated by the stock purchase agreement are not subject to the HSR or any federal or state regulatory requirement or approval, except for filings necessary to effectuate the transactions contemplated by the stock purchase proposal with the State of Delaware and the British Virgin Islands.

THE STOCK PURCHASE AGREEMENT

The following summary of the material provisions of the stock purchase agreement is qualified by reference to the complete text of the stock purchase agreement, a copy of which is attached as an annex to this proxy statement/prospectus, and is incorporated by reference. All stockholders are encouraged to read the stock purchase agreement in its entirety for a more complete description of the terms and conditions of the stock purchase.

Structure of the Stock Purchase and Redomestication Merger

At the effective time of the stock purchase agreement, Chardan will be merged with and into Agritech. Agritech will continue as the surviving company. All of the stock of Chardan will be converted into the right to receive stock in Agritech on a one-for-one basis. Thereafter, Agritech will purchase all the common stock of Origin, a British Virgin Island corporation, for \$10,000,000 and 10,000,000 shares of common stock, and the additional purchase price described below. At the time that Origin is acquired by Agritech, Origin will acquire

Edgar Filing: Origin Agritech LTD - Form S-4/A

direct ownership and rights to control the stock of the Origin Operating Companies, thus obtaining the seed development, distribution and licensing operations in the PRC from the current owners.

Closing and Effective Time of the Stock Purchase

The closing of the stock purchase will take place promptly following the satisfaction of the conditions described below under "The stock purchase agreement--Conditions to the Stock Purchase," unless Chardan and the Origin Parties agree in writing to another time.

The balance of the funds in the trust account will be used for operational expenses.

48

Additional purchase price payments will be made to the Origin Stockholders and their designee of up to an aggregate of \$15,000,000, if either of the following occurs during any fiscal year of Agritech after the closing date until December 31, 2008 (or June 30, 2009 if the fiscal year is changed to a July 1-June 30 fiscal year) from funds generated from financing activities or earnings as described below:

A. If Agritech receives at least \$40,000,000 in gross proceeds in additional financing as a result (i) of the call of the outstanding public

Edgar Filing: Origin Agritech LTD - Form S-4/A

warrants assumed by Agritech at the closing; (ii) Agritech's successful completion of a follow-on offering; or (iii) a private investment into Agritech by a strategic investor ("Financing Adjustment"), then Agritech will pay an additional \$15,000,000 to the Origin Stockholders and their designee; or

B. If Agritech generates net positive cash flow of \$2,000,000 or more on a consolidated basis ("Earnings Adjustment"), then the Origin Stockholders and their designee will be entitled to receive 75% of the net positive cash flow up to a maximum of \$7,500,000 per fiscal year and \$15,000,000 in the aggregate.

In the event that both an Earnings Adjustment and a Financing Adjustment occurs, the maximum aggregate amount to be paid to the Origin Stockholders and their designee from one or both adjustments is \$15,000,000.

As further additional purchase price, certain Origin Stockholders and their designee will be issued an aggregate of 1,500,000 shares of common stock of Agritech for each of the next four years, if on a consolidated basis, Agritech generates after-tax profits (excluding after-tax operating profits from any subsequent acquisition for securities that have a dilutive effect and before the expenses of this transaction and director and employee option expense) of at least the following amounts:

Year ending June 30, -----	After Tax Profit -----
2006	\$11,000,000
2007	\$16,000,000
2008	\$21,000,000
2009	\$29,000,000

- o the amount of funds contained in the trust account.

Materiality and Material Adverse Effect

Many of the representations and warranties made by the Origin and the Origin Stockholders are qualified by materiality or the use of the term "material adverse effect." For the purposes of the stock purchase agreement, a "material adverse effect" means a material adverse effect on the business, financial condition or results of operations or prospects of Origin or the Origin Operating Companies.

Several of the representations and warranties made by Chardan are qualified by materiality. However, only Chardan's representation and warranty related to the absence of litigation is qualified by the use of the term "material adverse effect."

Yang and Yuan) and two persons will be Mr. Kerry Propper and one designee of his (currently, Mr. Steven Urbach), and the remaining persons will be selected on the basis of their complying with listing and other legal requirements.

No Solicitation by Chardan

Except as described below, generally Chardan will not:

- o solicit, initiate or encourage the submission of any acquisition proposal;
- o enter into any agreement with respect to any acquisition proposal; or
- o participate in any discussions or negotiations regarding, or furnish to any person any information with respect to, or take any other action to facilitate any inquiries or the making of any proposal that constitutes, or may reasonably be expected to lead to, any acquisition proposal.

However, as provided under Delaware corporate law, if Chardan receives a bona fide written acquisition proposal which was not solicited by Chardan, it may, before the stock purchase agreement is adopted by its stockholders, furnish information regarding itself to the person making the acquisition proposal and participate in discussions, but not negotiations, with the person regarding the acquisition proposal, if:

Edgar Filing: Origin Agritech LTD - Form S-4/A

- o the board of directors determines, in good faith that the acquisition proposal constitutes or is reasonably likely to lead to a superior proposal; and

53

- o the board of directors determines in good faith that failure to submit such superior proposal to its stockholders would cause the board of directors to violate its fiduciary duties to the stockholders under applicable law.

If Chardan has received a superior proposal, Chardan has the right to terminate the stock purchase agreement, based upon a determination in good faith, based upon the advice of outside legal counsel, that the failure to terminate is reasonably likely to result in the board of directors breaching its fiduciary duty.

Chardan has agreed not to withdraw or modify, or propose to withdraw or modify, in a manner adverse to the Origin Parties, the approval by its board of directors of the stock purchase agreement or the stock purchase or the recommendation by the board of directors of the transactions contemplated by the stock purchase agreement.

The Origin Stockholders have acknowledged that they have already approved the stock purchase agreement and that no modification will be effective to withdraw or revoke their approval of the stock purchase agreement.

Chardan Stockholders' Meeting

Chardan has agreed to call and hold a meeting of its stockholders, as soon as practicable after the date of the stock purchase agreement for the purpose of seeking the approval of the stock purchase by its stockholders. The information will be held in confidence to the extent required by the provisions of the confidentiality agreement between the two parties.

54

This includes:

- o obtaining all necessary actions or non-actions, waivers, consents and approvals from governmental entities and making all necessary registrations and filings, including filings with governmental entities, if any and taking all reasonable steps as may be necessary to obtain an approval or waiver from, or to avoid an action or proceeding by, any governmental entity;

- o executing and delivering any additional instruments necessary to consummate the stock purchase or other transactions contemplated by the stock purchase agreement and to fully carry out the purposes of the stock purchase agreement and the transaction agreements contemplated by the stock purchase agreement.

The Origin Parties will give prompt notice to Chardan, and Chardan will give prompt notice to the Origin Parties, of:

- o any representation or warranty made by it or contained in the stock purchase agreement that is not qualified as to materiality becoming untrue or inaccurate in any respect or any representation or warranty that is qualified by materiality becoming untrue or inaccurate in any material respect; or
- o the failure by it to comply with or satisfy in any material respect any covenant, condition or agreement to be complied with or satisfied by it under the stock purchase agreement.

However, no notification will affect the representations, warranties, covenants or agreements of the parties or the conditions to the obligations of the parties under the stock purchase agreement or the agreements contemplated thereby as originally made. Accordingly, such notification may permit a

Edgar Filing: Origin Agritech LTD - Form S-4/A

termination of the stock purchase agreement.

Indemnification

The Origin Stockholders shall indemnify and hold harmless Agritech for any damages, whether as a result of any third party claim or otherwise, and which arise from or in connection with the breach of representations and warranties and agreements and covenants of the Origin Parties. Agritech shall indemnify and hold harmless each Origin Stockholder for any damages, whether as a result of any third party claim or otherwise, and which arise from or in connection with the breach of representations and warranties and agreements and covenants of Chardan, which will be assumed by Agritech upon the redomestication merger. Claims may be asserted once the damages exceed \$50,000. Any indemnification payments shall be deemed to be an adjustment to the purchase price. There will be withheld \$250,000 from the initial payment of \$10,000,000 to be paid to the Origin Stockholders at the closing, for a period of 12 months, to be available to satisfy, in whole or part, any claim under the indemnification obligations of the Origin Stockholders.

55

The determination to assert a claim for indemnification against the Origin Stockholders for the benefit of Agritech will be determined by an independent committee of the board of directors of Agritech. The independent committee of the board of directors will consist of two persons, as selected by the board of directors, none of whom is an officer or employee of Agritech and its subsidiaries or is the direct or beneficial owner of 5% or more of the voting capital stock of Agritech.

Expenses

Except as provided in the stock purchase agreement, all fees and expenses incurred in connection with the stock purchase and the other transactions contemplated by the stock purchase agreement will be paid by the party incurring such expenses, whether or not the stock purchase is consummated. The Origin Parties have agreed they have no right to claim or be paid any amount from the Chardan trust account, except on consummation of the stock purchase agreement.

Public Announcements

Chardan, on the one hand, and the Origin Parties, on the other hand, have agreed:

- o to consult with each other before issuing, and provide each other the opportunity to review and comment upon, any press release or other public statements with respect to the stock purchase and the other transactions contemplated by the stock purchase agreement; and
- o not to issue any press release or make any public statement prior to this consultation, except as may be required by applicable laws or court process.

Conditions to the Completion of the Acquisition

Consummation of the stock purchase is conditioned on the stockholders of Chardan, at a meeting called for these purposes, (i) approving the stock

Edgar Filing: Origin Agritech LTD - Form S-4/A

purchase agreement and related transactions, and (ii) approving the merger of Chardan into Agritech for the purpose of corporate reincorporation and redomestication in the British Virgin Islands, which will include retention of the Agritech name and an increase in the authorized capital of the current company. The stockholders will also be asked to adopt a stock option and award plan, but the stock purchase and redomestication transactions are not dependent on the approval of this plan.

In addition, the stock purchase agreement is conditioned upon (i) no order, stay, judgment or decree issued by any governmental authority preventing, restraining or prohibiting in whole or in part, the consummation of the transactions contemplated in the stock purchase agreement, (ii) execution and delivery to each party of each of the various transaction documents, (iii) delivery by each party to the other party of a certificate to the effect that the representations and warranties of each party are true and correct in all material respects as of the closing and all covenants contained in the stock purchase agreement have been materially complied with by each party, and (iv) receipt of necessary consents and approvals by third parties and completing necessary proceedings.

56

The obligations of Origin and each Origin Stockholder to consummate the transactions contemplated by the stock purchase agreement also are conditioned upon each of the following, among other things:

- o Agritech will be an existing company under the laws of the British Virgin Islands;
- o Origin shall have entered into, effective as of the closing, the employment agreements with the key executives, Dr. Han and Messrs. Yang and Yuan, the forms of which are exhibits to the stock purchase agreement; and

The obligation of Chardan to consummate the transactions contemplated by the stock purchase agreement also are conditioned upon each of the following, among other things:

- o the Origin Stockholders will have delivered the Origin stock;
- o the stock consignment agreements and technology services agreements will have been executed and delivered;
- o at the closing, there will have been no material adverse change in the assets, liabilities, financial condition or prospects of Origin, the Origin subsidiaries or its business from that shown or reflected in the financial statements of Origin at September 30, 2004 and as to be described in the Chardan proxy statement, and between the date of the stock purchase agreement and the closing date, there shall not have occurred an event which, in the reasonable opinion of Chardan would have a material adverse effect on Origin or the subsidiaries of Origin;
- o at the closing, Origin and its subsidiaries, on a consolidated basis immediately prior to closing, will have not less than US \$10,000,000

Edgar Filing: Origin Agritech LTD - Form S-4/A

- o the information about Origin and its subsidiaries and its management provided for inclusion in the Chardan proxy statement at the time of its distribution and at the closing, will accurately reflect the business, Origin, the Origin subsidiaries and the Origin Stockholders, and not contain any untrue statement of a material fact or omission; and
- o each of Dr. Han and Messrs. Yang and Yuan will have entered into the form of voting agreement which is an exhibit to the stock purchase agreement that provides for them to vote all of the shares of Agritech over which they have direct or beneficial ownership and voting authority in favor of Kerry Propper and one of Mr. Propper's designees (currently Mr. Steven Urbach) as directors of Agritech for a period of three years after the closing.

The obligation of the Origin Parties to consummate the transactions contemplated by the stock purchase agreement are also conditioned upon each of the following, among other things:

- o Chardan must have performed all its obligations and all of Chardan's representations and warranties must be true and correct; and
- o the Origin Parties must have received an opinion, dated as of the closing, from Guantao Law Firm, counsel to the Origin Parties.

57

Termination

The stock purchase agreement may be terminated at any time, but not later than the closing as follows:

- o by mutual written consent of Chardan and Origin;
- o by either party if the other party amends a schedule and such amendment or supplement reflects a material adverse change in the condition, operations or prospects of its business;
- o by either party if the closing has not occurred by August 1, 2005 (unless such terminating party is in breach of any of its material covenants, representations or warranties);
- o by either party if the other party has breached any of its covenants or representations and warranties in any material respect and has not cured its breach within 10 business days of the notice of an intent to terminate, provided that the terminating party is itself not in breach;
- o by Origin, if the board of directors of Chardan (or any committee thereof) shall have failed to recommend or withdraw or modify in a manner adverse to Origin its approval or recommendation of the stock

Edgar Filing: Origin Agritech LTD - Form S-4/A

purchase agreement and any of the transactions contemplated thereby;

- o by Chardan if its board of directors shall have determined in good faith, based upon the advice of outside legal counsel, that failure to terminate the stock purchase agreement is reasonably likely to result in the board of directors breaching its fiduciary duties to stockholders by reason of a pending, unsolicited, bona fide written proposal for a superior transaction; or
- o by either party if, at the Chardan stockholder meeting, the stock purchase agreement and redomestication merger and the transactions contemplated thereby shall fail to be approved and adopted by the affirmative vote of the holders of Chardan's common stock, or 20% or more of the shares sold in the initial public offering are presented for conversion into the pro rata portion of the trust account in accordance with the Chardan certificate of incorporation.

If the stock purchase agreement is terminated by Chardan for material breach of a covenant, representation or warranty or material amendment to a schedule of Origin, the Origin subsidiaries or Origin Stockholders, then the Origin Stockholders will pay Chardan \$1,000,000 upon termination of the stock purchase agreement in lieu of any other right or remedy that the Chardan may have against the other parties to the stock purchase agreement for such breach. If the stock purchase agreement is terminated by Origin for a material breach of a covenant, representation or warranty or material amendment to a schedule of Chardan, or because the board of directors of Chardan fails to recommend or withdraws or modifies its approval or recommendation of approval of the stock purchase agreement, then Richard Propper, Kerry Propper, Jiangnan Huang, Li Zhang, Dan Beharry and Steven Urbach (pro rata in relation to their initial ownership in Chardan) will pay Origin \$1,000,000 upon termination of the stock purchase agreement in lieu of any other right or remedy that Origin may have against the other parties to the stock purchase agreement for such breach. The \$1,000,000 amount payable to the Origin Stockholders by the foregoing person will be pro-rated based on their initial ownership of Chardan common stock. The Origin entities have no right to damages from Chardan or Agritech and they have no right to any amount held in the trust account, and they have agreed not to make any claim against Chardan and Agritech that would adversely affect the business, operations or prospects of Chardan and Agritech or the amount of the funds held in the trust account.

58

Effect of Termination

In the event of proper termination by either Chardan or the Origin Parties, the stock purchase agreement will become void and have no effect, without any liability or obligation on the part of Chardan or the Origin Parties, except in connection with:

- o the confidentiality obligations set forth in the stock purchase agreement; and
- o the provisions described above relating to certain payments to be paid upon termination.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Amendment

The stock purchase agreement may be amended at any time before or after receipt of the approval from Chardan's stockholders. However, after receipt of the approval from Chardan's stockholders, the parties may not, without further stockholders' approval, amend the stock purchase agreement, in a manner that by law requires further approval by the stockholders of Chardan. In addition, no amendment will be binding on any of the parties unless such amendment made in writing by all of them.

Extension; Waiver

At any time prior to the consummation of the stock purchase, Chardan and the Origin Parties may extend the time for the performance of any of the obligations or other acts, waive any inaccuracies in the representations and warranties or waive compliance with any of the conditions. Any agreement on the part of either Chardan or the Origin Parties to any such extension or waiver will be valid only if set forth in an instrument in writing signed on behalf of it. The failure of Chardan or the Origin Parties to assert any of its rights will not constitute a waiver.

Employment Agreements

Each of Dr. Han and Messrs. Yuan and Yang will enter into a three-year employment agreement with Origin. Dr. Han will be employed as the chairman and chief executive officer, Mr. Yuan will be the executive vice chairman and Mr. Yang will be president and chief operating officer. Each of the agreements provide for an annual salary of \$250,000 and a discretionary cash bonus based on growth in Chardan's per-share value, achievement of growth and business targets, satisfaction of company capital requirements and other criteria, as the compensation committee determines. The executives will be entitled to insurance benefits, five weeks vacation, a car and reimbursement of business expenses and, if necessary, relocation expenses. The agreements will be terminable by Origin for death, disability and cause. The executive may terminate for good reason, which includes Chardan's breach, the executive not being a member of the board of directors, and change of control. In the event of termination for good reason, the executive will receive two years compensation and benefits. The agreements contain provisions for the protection of confidential information and a three-year-after employment non-competition period within China. In the stock purchase agreement, there is an additional non-competition agreement applicable to these persons for the greater of five years after consummation or two years after employment that includes Hong Kong and Taiwan, in addition to China.

Stock Consignment Agreement

The stock consignment agreements provide for the control of the shares of the Origin Operating Companies, other than the Origin Biotechnology. The reason for the agreement is that the shares of the initial stockholder of a joint stock company formed under PRC law may not be transferred for three years starting from the date of establishment of the incorporated company, and there is an additional restriction on foreign investment in certain industries, including seed production.

The agreements give Origin the control of the shares subject thereto in the three Origin Operating Companies. The agreements give Origin the right to manage in all respects the shares held in title by the stockholder, including all stockholder rights to call meetings of stockholders, to submit stockholder proposals, to elect directors, to vote the shares on all matters and to exercise all other rights of a stockholder in respect of the shares consigned. More specifically, the consignment agreements include giving the right to select, replace and increase the number of the directors, supervisors and recommend new director and supervisor persons, and to exercise management rights, controlling rights and decision-making power over the shares or the subject company. The title holder of the shares has agreed not to interfere with Origin's exercise of its rights and to cooperate fully and promptly to permit Origin to exercise its authority over the consigned shares. This includes all limitations on the ability of the consignee to transfer or dispose of the shares to someone other than Origin, give guarantees using the shares, consign the shares to another, alter the ownership proportion in any way, dispose of any rights in the ownership of the shares, and agree to any debt or restructuring of the shares. Origin has the right to take all action in respect of the consigned shares to avoid any damage or infringement of its rights, including in the event of the consigning stockholder's bankruptcy. Origin, under the agreements, has all the property rights in the consigned shares, including the profits, interests, dividends, bonuses and residue assets. If, in the future, any stock subject to the consignment agreements can be legally transferred to Origin, without further action or payment by Origin, it shall be transferred to Origin in whole or in part for no additional consideration to the consigning stockholder. All the stockholder's stock is subject to the agreement. The agreement is subject to force majeure limitations. The term of the agreement is initially three years, but is automatically renewed indefinitely until both Origin and the consignee agree to terminate. There is no unilateral right of termination, except in the event of a breach in which event the non-breaching party may cancel the consignment agreement after notice and a reasonable cure period. The consigning stockholder has warranted its authority to enter into the agreement and that Origin has the sole rights under the consignment agreement to the shares. The agreement is binding on the heirs of the respective consigning stockholder.

The import of the stock consignment agreements is that Origin, and subsequently Agritech, may consolidate the Origin Operating Companies whose shares are subject to stock consignment agreements in the manner of wholly and majority owned subsidiaries and enjoy the economic benefits of such subsidiaries. The stock consignment agreement is subject to enforceability and limitations of the laws and rules of PRC. The consignee may not transfer the consignment agreement, except as permitted by PRC law, such that the consignee cannot do indirectly what the title owner cannot do directly. However, Agritech may transfer its interest in Origin without limitation from the PRC law relating to restrictions on the consigned shares. If there is non-performance by the stockholder or unenforceability of some or all of the agreement, Origin and Agritech may lose the benefits of the agreements and suffer severe economic loss and right. No assurance can be given that a foreign company will be able to enforce their rights vis-a-vis a PRC citizen, and Chardan is not aware of any cases where these types of stock consignment agreements have been interpreted by PRC courts. Notwithstanding the foregoing, PRC counsel to the Origin Parties and PRC counsel to Chardan have indicated in writing that these agreements are enforceable under current PRC law, noting, however, that none of these kinds of agreements have yet been subject to judicial review or interpretation. The

Edgar Filing: Origin Agritech LTD - Form S-4/A

consignment agreement provides that if there is any interpretation of the terms by a PRC court, the agreement should be construed in such a way as to give Origin as much of the full and actual ownership and full beneficial rights and benefits of the consigned stock as is possible, so as to approximate full ownership under all applicable law. In the event that the consignment agreement is not enforced or is terminated because of a breach by Origin that is not cured, the right to the stock would be lost and the economic rights would be terminated. Such a termination would not terminate the technology assignment agreements, so notwithstanding the termination of a consignment agreement, the technology and intellectual property would continue to be owned by Origin. Also, the termination of one stockholder's consignment agreement does not cause the termination of any of the other consignment agreements, so it would only result as a reduction in consigned shares under Origin's control.

The following is a table of the parties to the consignment agreements:

Consigned Stock	Consigning Owner	% of Shares Consigned

Technology Service Agreements

As part of the reorganization of the Origin Operating Companies, all of the intellectual property rights of Beijing Origin, Changchun Origin and Henan Origin are being transferred to Origin Biotechnology pursuant to technology service agreements, dated December 25, 2004. The purpose of this was to permit the better management and licensing of the intellectual property. Under the technology agreements, Origin Biotechnology will provide technical research and production and distribution services for the seeds produced by the group. These services will include support in the research and development of agricultural seeds, analysis of breeding technologies, environment and feasibility suggestions, technical tutorials and breeding field supervision, market analysis and seed promotion, insect prevention and technical education to distributors and farmers. The term is for an initial three years, but it is automatically

Edgar Filing: Origin Agritech LTD - Form S-4/A

renewed unless both parties agree to a termination. The fees payable among the Origin Operating Companies is variable depending on differing formulae for different categories of seeds. Generally, the fees will be as follows: 1.20 Yuan RMB per kilogram of corn sold by the party receiving the technical services; 6 Yuan RMB per kilogram of rice sold by the party receiving the technical service and 12 Yuan RMB per kilogram of cotton sold by the party receiving the technical services. The fees will be confirmed and paid at the end of each growing season.

Officers of the Combined Company

After the consummation of the stock purchase, the board of directors will appoint the following executive officers:

- o Gengchen Han as the Chairman and Chief Executive Officer,
- o Yasheng Yang as President and Chief Operating Officer,

61

- o Liang Yuan as Executive Vice Chairman, and
- o Dr. Richard Propper, Vice President, Corporate Development.

Voting Agreement

Dr. Han and Messrs. Yang and Yuen have agreed that for three years after the closing of the stock purchase, they will vote or cause to be voted all of their shares of common stock in Agritech for Mr. Kerry Propper and one nominee designated (currently Mr. Steven Urbach) by Mr. Propper as directors of Agritech.

CHARDAN REDOMESTICATION MERGER

General

Chardan is reincorporating in the British Virgin Islands and in that process changing its name and corporate documents and affecting a new board of directors. The redomestication merger is an obligation under the stock purchase agreement with the Origin Parties.

We believe that the reincorporation in the British Virgin Islands (BVI) will give the continuing company more flexibility and simplicity in various corporate transactions. We also believe that being reincorporated in the BVI will facilitate and reduce the costs of any further reorganization of the Origin Operating Companies and permit the creation and acquisition of additional companies in China as the business of Origin expands. We believe that the reincorporation will reduce taxes and other costs of doing business by Agritech in the future because its operations will be in China after the acquisition. The BVI has adopted an International Business Companies Act that allows for flexible

Edgar Filing: Origin Agritech LTD - Form S-4/A

and creative corporate structures for international businesses. Further, BVI international business companies are wholly exempt from BVI tax on their income. As part of the reincorporation, Chardan's corporate name will be that of the surviving company, "Origin Agritech Limited."

The full texts of the Plan of Merger and the Memorandum and Articles of Association of Agritech are set forth in annexes to this proxy statement/prospectus. The discussion of these documents and the comparison of rights set forth below are qualified in their entirety by reference to those annexes.

Adoption of the Redomestication Merger

The board of directors has approved the reincorporation plan and redomestication merger and recommends that the stockholders of Chardan approve it.

The affirmative vote of the holders of a majority of the shares outstanding of Chardan is required for approval of the reincorporation plan and redomestication merger. Abstentions and broker non-votes will have the effect of a vote against the proposal.

The reincorporation plan will not be implemented if the stock purchase agreement is not approved or the stock purchase is not consummated. The stock purchase will not be consummated if Chardan does not reincorporate in the BVI.

The board of directors unanimously recommends a vote "FOR" the approval of the reincorporation plan and redomestication merger.

62

Plan of Reincorporation and Redomestication Merger

The reincorporation will be achieved by the merger of Chardan, a Delaware company, with and into Agritech, a BVI corporation, which is wholly owned by Chardan at this time, with Agritech being the surviving entity. The Memorandum of Association and the Articles of Association, the equivalent of a certificate of incorporation and bylaws of a United States company, of the surviving company will be those of Agritech, written in compliance with BVI law. The effectiveness of the reincorporation and the merger is conditioned upon the filing by both Chardan and Agritech of a certificate of merger with the State of Delaware and articles of merger with the BVI. Upon the filing of these documents, Chardan will cease its corporate existence in the State of Delaware.

At the time of the redomestication merger, one new share of Agritech will be issued for each outstanding share of common stock of Chardan held by our stockholders on the effective date for the reincorporation. Each share of Agritech that is owned by Chardan will be canceled and resume the status of authorized and unissued Agritech common stock. The Chardan shares no longer will be eligible to trade on the over-the-counter bulletin board market. The shares

Edgar Filing: Origin Agritech LTD - Form S-4/A

of Agritech will be eligible to trade in their place beginning on or about the effective date of the reincorporation under a new CUSIP number and trading symbol. The symbol will be assigned if the market will be the OTCBB or will be as determined with the approval of Nasdaq if that is where the shares will trade upon consummation of the stock purchase.

Your percentage ownership of Chardan will not be affected by the reincorporation. As part of the stock purchase transaction, however, there will be the issuance of additional shares of common stock as partial consideration for the Origin Companies. As part of the reincorporation, Agritech will assume the outstanding warrants of Chardan on the same terms as currently issued. In addition, Agritech will assume all outstanding obligations of Chardan and succeed to those benefits enjoyed by Chardan. The business of Chardan, upon the reincorporation and the acquisition of the Origin Companies will become that of Origin.

Replacement of the current stock certificate of Chardan after the redomestication merger will not be necessary. DO NOT DESTROY YOUR CURRENT STOCK CERTIFICATES IN THE CHARDAN NAME. The issued and outstanding stock certificates of Chardan will represent the rights that our stockholders will have in Agritech. Stockholders, however, may submit their stock certificates to our transfer agent, Continental Stock Transfer and Trust Company, 17 Battery Place, New York, New York 10004 (212-509-4000) for new certificates, subject to normal requirements as to proper endorsement, signature guarantee, if required, and payment of applicable taxes.

If you have lost your certificate, you can contact our transfer agent to have a new certificate issue. You may be requested to post a bond or other security to reimburse us for any damages or costs if the lost certificate is later delivered for sale or transfer.

Management of Agritech

The directors of Agritech will be nine persons. These will be Dr. Gengchen Han and Messrs. Yasheng Yang, Liang Yuan, Bailiang Zhang, Da Fang Huang, Kerry Proper, Steven Urbach, Michael D. Chermak and Remo Richli. The officers of Agritech will be Dr. Han and Messrs. Yang, and Yuan. See "Directors and Management of the Combined Company following the Stock Purchase."

Dr. Han and Messrs. Yang and Yuan will be employed pursuant to written employment agreements described above.

Appraisal Rights

If the redomestication merger occurs, the Chardan stockholders who do not vote in favor of the redomestication merger have the right to demand in cash the fair value of their Chardan shares (exclusive of any element of value arising from the accomplishment or expectation of the merger) instead of taking the surviving corporation common stock. Holders of options or warrants to purchase Chardan common stock do not have any appraisal rights.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Chardan common stock will not be converted into surviving corporation common stock if the holder of the shares validly exercises and perfects statutory appraisal rights with respect to the shares. When and if the holder of those shares withdraws the demand for appraisal or otherwise becomes ineligible to exercise appraisal rights, the shares will automatically convert into shares of the surviving corporation common stock on the same basis as the other shares that convert in the redomestication merger.

To perfect the appraisal right, stockholders must not vote in favor of the redomestication merger and then mail or deliver a written demand for appraisal, before the taking of the vote on the merger at the special meeting of Chardan stockholders. This written demand must be separate from any written consent or vote against approval of the redomestication merger. Voting against approval of the redomestication merger or failing to vote on the proposal will not constitute a demand for appraisal within the meaning of Section 262 of the Delaware General Corporations Law. The written demand should be delivered to:

Chardan China Acquisition Inc./Origin Agritech Limited
625 Broadway, Suite 1111
San Diego, CA 92101
Attention: Dr. Richard Propper

A written demand for appraisal of the Chardan shares is only effective if it reasonably informs Chardan of the identity of the stockholder and that the stockholder demands appraisal of his, her or its shares. Accordingly, the written demand for appraisal should specify the stockholder's name and mailing address, the number of shares of Chardan stock owned and that the stockholder is thereby demanding appraisal.

A dissenting stockholder who is the record owner, such as a broker, of Chardan stock as a nominee for others, may exercise a right of appraisal with respect to the common stock held for one or more beneficial owners, while not exercising such right for other beneficial owners. In that case, the record stockholder should specify in the written demand the number of shares as to which the stockholder wishes to demand appraisal. If the written demand does not expressly specify the number of shares, Chardan will assume that the written demand covers all the shares of Chardan common stock that are in the nominee's name.

It is important that Chardan receive all written demands promptly as provided above. Failure to comply with any of these conditions will result in the stockholder only being entitled to receiving the shares of Agritech in the redomestication merger.

Dissenting stockholders must not approve the redomestication merger. If a dissenting stockholder votes in favor of the merger, the stockholder's right to appraisal will terminate, even if the stockholder previously filed a written demand for appraisal. A vote against approval of the redomestication merger is not required in order to exercise appraisal rights.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Dissenters must continuously hold their shares of Chardan common stock from the date they make the demand for appraisal through the closing of the redomestication merger. Record holders of Chardan common stock who make the appraisal demand, but subsequently sell their shares of common stock prior to the merger will lose any right to appraisal in respect of the sold shares.

64

Within 120 days after the effective date of the merger, either the surviving corporation or any stockholder who has complied with the conditions of Section 262 may file a petition in the Delaware Court of Chancery demanding that the Chancery Court determine the fair value of the shares of stock held by all the stockholders who are entitled to appraisal rights. Neither Chardan nor the surviving corporation has any intention at this time of filing this petition. Because the surviving corporation has no obligation to file this petition, if no dissenting stockholder files this petition within 120 days after the closing, the dissenting stockholder may lose its rights of appraisal.

A dissenting stockholder who no longer wishes to exercise appraisal rights must withdraw the holder's demand for appraisal rights within 60 days after the effective date of the redomestication merger. A stockholder also may withdraw a demand for appraisal after 60 days after the effective date of the merger, but only with the written consent of the surviving corporation. If a stockholder effectively withdraws a demand for appraisal rights, the stockholder will receive the merger consideration provided in the redomestication merger.

If the stockholder is in compliance with the demand requirements, its is entitled to receive from the surviving corporation a statement setting for the aggregate number of shares for which appraisal has been demanded and the aggregate number of stockholders making the demand. To obtain this statement, the stockholder must make a written demand to the surviving corporation within 120 days after the effective date of the redomestication merger. The surviving corporation must make the statement before the later of (i) the 10th day after receiving such request or (ii) the 10th day after the period in which demand for appraisal rights must be made has expired.

If a Chancery Court proceeding is commenced by a dissenting stockholder, the surviving corporation has 20 days to provide the court with the names of dissenting stockholders with which it has not settled a claim for appraisal. The court may then send notice of a hearing to all the stockholders demanding appraisal rights, and then conduct a hearing to determine whether the stockholders have fully complied with Section 262 and their entitlement to the appraisal rights under that section. The court may require deposit of the stock certificates of dissenting stockholders with the court. A dissenting stockholder who does not follow this requirement may be dismissed from the proceeding.

The Chancery Court will determine the value of the shares. To determine the fair value, the court will consider all relevant factors, and will exclude any appreciation or depreciation due to the anticipation or accomplishment of the redomestication merger. Whether or not an investment banking firm has determined that the merger is fair is not an opinion that the merger consideration is fair value under Section 262. Upon determination of the value, the surviving corporation will be ordered to pay that value, together with

Edgar Filing: Origin Agritech LTD - Form S-4/A

simple or compound interest as the court directs. To receive payment, the dissenting stockholders must surrender their stock certificates to the surviving corporation.

The costs of the appraisal proceeding may be assessed against the surviving corporation and the stockholders as the court determines.

Differences of Stockholder Rights

Upon the completion of the reincorporation, the memorandum (as amended) and articles of association of Agritech will become the governing documents of the surviving corporation. Although the corporate statutes of Delaware and the British Virgin Islands are similar, certain differences exist. The most significant differences, in the judgment of the management of Chardan are

65

summarized below. Stockholders should refer to the annexes of the memorandum (as amended) and articles of association and to the Delaware corporate law and corporate law of the British Virgin Islands, including the International Business Company's Act ("IBCA") to understand how these laws apply to Chardan and Agritech and may affect you. Under the British Virgin Islands law, holders of a company's stock are referred to as members, as opposed to stockholders, which reference is carried through in the table.

Indemnification Of Officers And Directors

As indicated in the comparison of charter provisions, a director, officer or agent of a company formed under the laws of the British Virgin Islands is obligated to act honestly and in good faith and exercise care, diligence and skill of a reasonably prudent person acting in comparable circumstances. The Memorandum and Articles of Agritech do not relieve directors,

Edgar Filing: Origin Agritech LTD - Form S-4/A

officers or agents from personal liability arising from the management of the business of the company. Notwithstanding the foregoing, Section 57 of the International Companies Ordinance of 1984 of the British Virgin Islands may indemnify directors, officers and agents against all expenses, including legal fees and judgments, fines and settlements, in respect of actions related to their employment. The stock purchase agreement provides indemnification in respect of the representations, warranties and covenants of the parties, some of which may relate to the securities laws of the United States. There are no agreements that relieve directors, officer or agents from personal liability. Agritech is permitted and intends to obtain director and officer insurance.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers or persons controlling the registrant pursuant to the foregoing provisions, Agritech and Chardan have been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy, as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable.

71

Defenses Against Hostile Takeovers

While the following discussion summarizes the reasons for, and the operation and effects of, the principal provisions of Agritech's Memorandum (as amended) and Articles of Association that management has identified as potentially having an anti-takeover effect, it is not intended to be a complete description of all potential anti-takeover effects, and it is qualified in its entirety by reference to the full texts of Agritech's Memorandum and Articles of Association.

In general, the anti-takeover provisions of Agritech's Memorandum and Articles of Association are designed to minimize susceptibility to sudden acquisitions of control that have not been negotiated with and approved by Agritech's board of directors. As a result, these provisions may tend to make it more difficult to remove the incumbent members of the board of directors. The provisions would not prohibit an acquisition of control of Agritech or a tender offer for all of Agritech's capital stock. The provisions are designed to discourage any tender offer or other attempt to gain control of Agritech in a transaction that is not approved by the board of directors, by making it more difficult for a person or group to obtain control of Agritech in a short time and then impose its will on the remaining stockholders. However, to the extent there provisions successfully discourage the acquisition of control of Agritech or tender offers for all or part of Agritech's capital stock without approval of the board of directors, they may have the effect of preventing an acquisition or tender offer which might be viewed by stockholders to be in their best interests.

Tender offers or other non-open market acquisitions of stock will generally be made at prices above the prevailing market price of Agritech's stock. In addition, acquisitions of stock by persons attempting to acquire control through market purchases may cause the market price of the stock to reach levels that are higher than would otherwise be the case. Anti-takeover provisions may discourage such purchases, particularly those of less than all of

Edgar Filing: Origin Agritech LTD - Form S-4/A

Agritech's stock, and may thereby deprive stockholders of an opportunity to sell their stock at a temporarily higher price. These provisions may therefore decrease the likelihood that a tender offer will be made, and, if made, will be successful. As a result, the provisions may adversely affect those stockholders who would desire to participate in a tender offer. These provisions may also serve to insulate incumbent management from change and to discourage not only sudden or hostile takeover attempts, but also any attempts to acquire control that are not approved by the board of directors, whether or not stockholders deem such transactions to be in their best interest.

Stockholder Meetings. British Virgin Island law provides that stockholder meetings shall be convened by the board of directors upon the written request of stockholders holding more than 50% of the votes of the outstanding voting shares of the company. Agritech's Articles of Association provide that annual stockholder meetings for the election of directors may be called only by the directors.

Number of Directors and Filling Vacancies on the Board of Directors. British Virgin Island law requires that the board of directors of a corporation consist of one or more members and that the number of directors shall be set by the corporation's Articles of Association. Agritech's Articles of Association provide that the number of directors shall be not less than one, subject to any subsequent amendment to change the number of directors. The power to determine the number of directors is vested in the board of directors. The power to fill vacancies, whether occurring by reason of an increase in the number of directors or by resignation, is vested primarily in the board of directors. Directors may be removed by the members only for cause or without cause on a vote of the members representing 66-2/3 of the shares entitled to vote.

Election of Directors. Under British Virgin Island law, there is no cumulative voting by stockholders for the election of the directors. The absence of cumulative voting rights effectively means that the holders of a majority of the stock voted at a stockholders meeting may, if they so choose, elect all directors of Agritech, thus precluding a small group of stockholders from controlling the election of one or more representatives to the board of directors.

72

Advance Notice Requirements for Nomination of Directors and Presentation of New Business at Meetings of Stockholders; Action by Written Consent. The Agritech Articles of Association will provide for advance notice requirements for stockholder proposals and nominations for director. Generally, to be timely, notice must be delivered to the secretary of Agritech at its principal executive offices not fewer than 30 days nor more than 60 days prior to the first anniversary date of the annual meeting for the preceding year. Special meetings may be called by Agritech's board of directors or by stockholders comprising 50% of the combined voting power of the holders of the then outstanding shares entitled to vote. These provisions make it more procedurally difficult for a stockholder to place a proposal or nomination on the meeting agenda or to take action without a meeting, and therefore may reduce the likelihood that a stockholder will seek to take independent action to replace directors or seek a stockholder vote with respect to other matters that are not supported by management.

Federal Income Tax Consequences of the Reincorporation

Edgar Filing: Origin Agritech LTD - Form S-4/A

Chardan believes that, for federal income tax purposes, no gain or loss will be recognized by Chardan, Agritech or the stockholders of Chardan who receive Agritech common stock for their Chardan common stock in connection with the reincorporation and redomestication merger. The adjusted tax basis of each whole share of Agritech common stock receives by a Chardan stockholder as a result of the reincorporation and redomestication merger will be the same as the stockholder's aggregate adjusted tax basis in the shares of Chardan common stock. A stockholder who holds Chardan common stock will include in his holding period for the Agritech common stock that he receives his holding period for the Chardan common stock.

State, local or foreign income tax consequences to stockholders may vary from the federal income tax consequences described above, and STOCKHOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISOR AS TO THE CONSEQUENCES TO THEM OF THE REINCORPORATION UNDER ALL APPLICABLE TAX LAWS.

Transfer of Agritech Securities Upon Death of Holder

Because Agritech is a BVI company, the transfer of the securities of Agritech, including the common stock and warrants, for estate administration purposes will be governed by BVI law. This may require that the estate of a decedent security holder of Agritech seek to probate or transfer under letters of administration for the estate issued by a court in the BVI. Agritech has attempted to modify this requirement by inserting in its Articles of Association a provision that permits the board of directors to decide whether or not to permit decedent transfers based on estate documentation from jurisdictions other than the BVI, more in accordance with United States practice, without any action having to be taken in the BVI. The board of directors intends to follow this procedure. There is no assurance that this will result in an enforceable transfer. The board of directors will be fully indemnified for its actions in this regard pursuant to the Articles of Association.

73

CHARDAN 2005 PERFORMANCE EQUITY PLAN

Background

Effective as of December 7, 2004, the Chardan board of directors approved by unanimous written consent the "2005 Performance Equity Plan," subject to stockholder approval. The plan reserves 1,500,000 shares of Chardan common stock for issuance in accordance with the plan's terms. The purpose of the stock option plan is to enable Chardan to offer its employees, officers, directors and consultants whose past, present and/or potential contributions to Chardan have been, are or will be important to the success of Chardan, an opportunity to acquire a proprietary interest in Chardan. The various types of incentive awards that may be provided under the stock option plan will enable Chardan to respond to changes in compensation practices, tax laws, accounting regulations and the size and diversity of its business.

There are approximately 400 persons who will be eligible to be granted

Edgar Filing: Origin Agritech LTD - Form S-4/A

awards, including directors, officers and employees of the Origin Operating Companies and Origin and Agritech. No allocations of shares that may be subject to awards have been made in respect of the executive officers or any other group. All awards will be subject to the recommendations of management and the compensation committee and approval by the board of directors or the stock option committee.

A summary of the principal features of the stock option plan is provided below, but is qualified in its entirety by reference to the full text of the stock option plan which is attached to this proxy statement/prospectus as an annex.

Shares Available

The stock option plan reserves 1,500,000 shares of common stock for awards. If Chardan's stockholders approve this proposal, the total number of shares of common stock available for issuance under the stock option plan will be subject to the adjustments described below.

Administration

The plan is administered by our compensation committee. Under the plan, the compensation committee has full authority, subject to the provisions of the plan, to award any of the following, either alone or in tandem with each other:

- o stock options;
- o stock appreciation rights;
- o restricted stock;
- o deferred stock;
- o stock reload options; and
- o other stock-based awards.

Subject to the provisions of the plan, the compensation committee determines, among other things, the persons to whom from time to time awards may be granted, the specific type of award to be granted, the number of shares subject to each award, share prices, any restrictions or limitations on the awards, and any vesting, exchange, deferral, surrender, cancellation, acceleration, termination, exercise or forfeiture provisions related to the awards. The interpretation and construction by the compensation committee of any provisions of, and the determination by the compensation committee of any questions arising under, the plan or any rule or regulation established by the compensation committee pursuant to the plan is final and binding on all persons interested in the plan.

Stock subject to the plan

Edgar Filing: Origin Agritech LTD - Form S-4/A

The plan authorizes a total of 1,500,000 shares of common stock to be granted as awards under the plan. In order to prevent the dilution or enlargement of the rights of holders under the plan, our compensation committee may determine whether or not to adjust the terms of the awards or the number of shares reserved for issuance under the plan in the event of any stock split, reverse stock split, stock dividend payable on our shares of common stock, combination or exchange of shares, or other extraordinary event occurring after the grant of an award. Shares of our common stock that are awarded under the plan may be either treasury shares or authorized but unissued shares. Treasury shares are those purchased or acquired by us from a stockholder or in the public market. If any award granted under the plan is forfeited or terminated, the shares of common stock reserved for issuance pursuant to the award will be made available for future award grants under the plan. The committee may not grant to any one holder options to purchase more than 300,000 shares of common stock in any one calendar year in the aggregate under the plan.

Eligibility

Subject to the provisions of the plan, awards may be granted to key employees, officers, directors and consultants who are deemed to have rendered or are able to render significant services to us or our subsidiaries and who are deemed to have contributed or to have the potential to contribute to our success. Incentive stock options may only be awarded to individuals who are our employees at the time of grant. Notwithstanding the foregoing, an award may be granted to an individual in connection with his or her hiring or retention, or at any time on or after the date he or she reaches an agreement with us, either oral or in writing, with respect to his or her hiring, even though it may be prior to the date he or she first performs services for us or our subsidiaries. However, no portion of any award of this nature can vest prior to the date that the individual first performs the services he or she was hired or retained to perform.

Types of awards

Options. Under the plan, our compensation committee may award to participants stock options that:

- o are intended to qualify as "incentive stock options" within the meaning of Section 422 of the Code; or
- o are not intended to be so qualified.

Incentive stock options may only be awarded to our employees and those of our subsidiaries. To the extent that any stock option intended to qualify as an incentive stock option does not so qualify it will constitute a non-incentive stock option.

Our compensation committee will fix the term of each stock option. However, an incentive stock option may be granted only within the ten-year period commencing from the effective date of the plan and may only be exercised within ten years from the date of grant, or five years from the date of grant in the case of a participant who at the time the stock option is granted owns more than 10% of the total combined voting power of all of our classes of voting

securities.

75

The exercise price of stock options granted under the plan will be determined by our compensation committee at the time of the grant, but in no event will the price be less than the fair market value of the underlying common stock on the last trading day prior to the date the stock option is granted. However, the exercise price of an incentive stock option granted to a 10% stockholder will not be less than 110% of the fair market value of the shares on the last trading day prior to the date the stock option is granted. The number of shares covered by incentive stock options which may be exercised by participants in any year cannot have an aggregate fair market value in excess of \$100,000, measured at the date of grant.

The compensation committee will determine the terms and conditions of stock options and when they will become exercisable. Any requirement that options be exercised in installments may be waived in whole or in part by the compensation committee.

Payment of the exercise price may be made in cash, in shares of our common stock owned by the participant, in a combination of the two, or otherwise, as reflected in the applicable award agreement. Additionally, the compensation committee may permit a participant to elect to pay the exercise price by irrevocably authorizing a third party to sell shares of common stock, or a sufficient portion of the shares, acquired upon exercise of the stock option and pay to us a sufficient portion of the sale proceeds to pay the entire exercise price and any tax withholding resulting from the exercise. A participant has no rights as a stockholder with respect to the shares of our common stock underlying a stock option granted under the plan until shares are actually issued upon exercise of the stock option.

If the employment of a participant who is an employee of ours or a subsidiary of ours is terminated by reason of the participant's death or disability, any stock option held by the participant will automatically terminate except that any vested portion of the option may be exercised by the disabled participant, or by his legal representative or legatee, as the case may be, for a period of one year or a greater or lesser period as may be specified by the compensation committee in the grant, from the date of the death or disability, or until the expiration of the exercise period for the stock option, which ever is shorter.

Unless otherwise provided in the grant of a stock option, if a participant's employment with us or any of our subsidiaries is terminated for any reason other than due to death or disability, the participant's stock option will automatically terminate. However, if the participant's employment is terminated without cause or due to retirement on or after the age of 65, then the portion of his or her stock option which has vested as the date of termination may be exercised:

- o for three months after termination or for the balance of the stock option's exercise period, which ever is shorter; or

Edgar Filing: Origin Agritech LTD - Form S-4/A

- o for a greater or lesser period as may be specified by the compensation committee in the grant.

Stock appreciation rights. Under the plan, our compensation committee may grant stock appreciation rights to participants who have received stock options. A stock appreciation right entitles the holder to surrender to us all or a portion of a stock option in exchange for a number of shares of our common stock determined by multiplying the excess of the fair market value per share of our common stock on the exercise date over the exercise price per share by the number of shares subject to the stock option and then dividing it by the fair market value of the common stock on the date the stock appreciation right is exercised. In the case of an incentive stock option, a stock appreciation right may only be granted simultaneously with the grant of the underlying incentive stock option. In the case of non-incentive stock option, a stock appreciation right may be granted at or after the time of the grant of the underlying non-incentive stock option. A stock appreciation right will terminate upon termination or exercise of the related stock option. Upon exercise of a stock appreciation right, the underlying stock option will be deemed to have been exercised, and the related shares of our common stock will no longer be available for issuance under the plan.

76

Restricted stock. Our compensation committee may award shares of our common stock which are subject to restrictions as the compensation committee may determine in addition to, or in lieu of, other awards granted to participants under the plan. The compensation committee will determine at the time of the award, the period during which the award may be subject to forfeiture and the vesting schedule of the shares under the award. A participant will have the right to vote the restricted stock granted to him and to receive dividend payments distributed on the shares in the form of cash or cash equivalents. However, during the time that restricted stock is subject to forfeiture and until the restricted stock is fully vested, we will retain custody of the stock certificate representing the restricted shares and will retain custody of all distributions, other than payment of dividends in cash or in cash equivalents, made or declared with respect to the restricted stock. If the participant breaches the terms or conditions set forth in the plan or in the award agreement pertaining to the restricted stock award, or if the restricted stock otherwise does not vest, then the participant will forfeit the award of restricted stock and any distributions which were retained by us relating to the restricted stock.

Deferred stock. Our compensation committee may award shares of our common stock to be received at the end of a specified deferral period and upon satisfaction of any other applicable restrictions, terms and conditions provided for in the grant of the award. Any deferred stock that does not vest will be forfeited. Deferred stock awards granted under the plan may not be sold, exchanged, assigned, transferred, pledged, encumbered or otherwise disposed of other than to us the applicable deferral period. A participant will not have any rights as a stockholder by virtue of the award of deferred stock until the expiration of the applicable deferral period and the issuance by of a stock certificate evidencing the award of the deferred stock. A participant may request that the compensation committee defer issuance of an award of deferred shares for an additional specified period, subject to certain conditions.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Stock reload options. Our compensation committee may grant to a participant, concurrently with the grant of an incentive stock option, and at or after the time of grant in the case of a non-incentive stock option, an option covering a number of shares up to the amount of shares of our common stock held by the participant for at least six months and used to pay all or part of the exercise price of an option, and any shares withheld by us as payment for withholding taxes. Any stock reload option will have an exercise price equal to the fair market value of our common stock as of the date of grant of the stock reload option. Unless otherwise provided in the stock reload option grant, a stock reload option may be exercised commencing one year after it is granted and will expire on the date of expiration of the stock option to which the reload option is related.

Other stock-based awards. Our compensation committee may award other stock-based awards, subject to limitations under applicable law, in addition to, or in lieu of, other awards granted to participants under the plan. These other stock-based awards are payable in, valued in, or otherwise based on, or related to, our shares of common stock. These other stock-based awards may be in the form of the right to purchase shares of our common stock which are not subject to any restrictions or conditions, convertible or exchangeable debentures or other rights convertible into shares of our common stock, as well as awards valued by reference to the value of securities of, or the performance of, one of our subsidiaries. Subject to the terms of the plan, the compensation committee has complete discretion to determine the terms and conditions of other stock-based awards. Other stock-based awards may be awarded either alone, in addition to, or in tandem with any other awards under the plan or any other plan in effect.

77

Accelerated Vesting and Exercisability

Unless otherwise provided in the grant of an award, if any "person," as is defined in Sections 13(d) and 14(d) of the Securities and Exchange Act of 1934, as amended ("Exchange Act"), is or becomes the "beneficial owner," as referred in Rule 13d-3 under the Exchange Act, directly or indirectly, of our securities representing 50% or more of the combined voting power of our then outstanding voting securities in one or more transactions, and our board of directors does not authorize or approve the acquisition, then the vesting periods with respect to options and awards granted and outstanding under the plan will be accelerated and will immediately vest, and each participant of an option and award will have the immediate right to purchase and receive all shares of our common stock subject to the option and award in accordance with the terms set forth in the plan and in the corresponding award agreements.

Unless otherwise provided in the grant of an award, the compensation committee may, in the event of an acquisition of substantially all of our assets or at least 50% of the combined voting power of our then outstanding securities in one or more transactions, including by way of merger or reorganization, which has been approved by our board of directors, accelerate the vesting of any and all stock options and other awards granted and outstanding under the plan.

Repurchases

Edgar Filing: Origin Agritech LTD - Form S-4/A

Unless otherwise provided in the grant of an award, the compensation committee may, in the event of an acquisition of substantially all of our assets or at least 50% of the combined voting power of our then outstanding securities in one or more transactions, including by way of merger or reorganization, which has been approved by our board of directors, require a holder of any award granted under the plan to relinquish the award to us upon payment by us to the holder of cash in an amount equal to the fair market value of the award or \$0.01 per share for awards that are out-of-the money.

Forfeitures

Unless otherwise provided in the grant of an award, if a participant's employment with us or a subsidiary of ours is terminated for any reason and within 12 months of the termination, the person either:

- o accepts employment with any competitor of, or otherwise engages in competition with, our business;
- o solicits any of our or our subsidiaries' customers or employees to do business with or render services to the person or any business with which the person becomes affiliated or to which the person renders services; or
- o discloses to anyone outside our company or uses any of our or our subsidiaries' confidential information or material in violation of our policies or any agreement between the person and us or any of our subsidiaries,

the compensation committee may require the participant to return to us the economic value of any award which was obtained by the participant during the period beginning six months prior to the date the participant's employment with us was terminated. Unless otherwise provided in the grant of an award, if a participant is terminated for cause, the compensation committee may require that the participant return to us the economic value of any award which was obtained by the participant during the six month period.

78

Withholding taxes

We may withhold, or require participants to remit to us, an amount sufficient to satisfy any federal, state or local withholding tax requirements associated with awards under the plan. If permitted by our compensation committee, tax withholding may be settled with shares of our common stock, including shares that are part of the award that gives rise to the withholding requirement.

Awards of stock appreciation rights, deferred shares, performance shares and performance units under the plan may, in some cases, result in the deferral of compensation that is subject to the requirements of Code Section 409A. To date, the U.S. Treasury Department and Internal Revenue Service have issued only preliminary guidance regarding the impact of Code Section 409A on the taxation of these types of awards. Generally, to the extent that deferrals

Edgar Filing: Origin Agritech LTD - Form S-4/A

of these awards fail to meet certain requirements under Code Section 409A, such awards will be subject to immediate taxation and tax penalties in the year they vest unless the requirements of Code Section 409A are satisfied. It is the intent of the Company that awards under the 2005 Plan will be structured and administered in a manner that complies with the requirements of Code Section 409A.

Agreements; Transferability

Stock options, stock appreciation rights, restricted stock, deferred stock, stock reload options and other stock-based awards granted under the plan will be evidenced by agreements consistent with the plan in a form as prescribed by the compensation committee. Neither the plan nor agreements evidencing awards under the plan confer any right to continued employment upon any holder of a stock option, stock appreciation right, restricted stock, deferred stock, stock reload option or other stock-based award. Further, except as:

- o expressly provided in the plan,
- o expressly provided in the grant of an award, or
- o discussed above with respect to the transferability of stock options in certain limited exceptions,

all agreements will provide that the right to exercise stock options, receive restricted stock after the expiration of the restriction period or deferred stock after the expiration of the deferral period, receive payment under other stock-based awards, or exercise a stock appreciation right cannot be transferred except by will or the laws of descent and distribution.

Stock options may not be assigned or transferred by a participant except by will or by the laws of descent and distribution, and during the lifetime of a participant, the stock options may only be exercisable by the person to whom it was granted, or, to the extent of legal incapacity or incompetency, the participant's guardian or legal representative. Notwithstanding the foregoing, with the approval of the compensation committee, a participant may transfer a stock option:

- o by gift, for no consideration, or pursuant to a domestic relations order, in either case, to or for the benefit of the participant's immediate family; or
- o to an entity in which the participant or members of the participant's immediate family own more than fifty percent of the voting interest, in exchange for an interest in that entity.

Additionally, the transfer will be subject to any additional limits that the compensation committee may establish and the execution of any documents that the compensation committee may require. If a transfer of this nature is made, the transferee shall remain subject to all the terms and conditions applicable to the stock option prior to the transfer.

Term and amendments

The plan will terminate when there are no awards outstanding and when no further awards may be granted, provided that incentive options may only be granted until December 7, 2014. Our board of directors has the right to amend, suspend or discontinue any provision of the plan, provided that the action may not adversely affect awards previously granted between a participant and us without the participant's consent.

Federal income tax consequences

The following discussion of the federal income tax consequences of participation in the plan is only a summary of the general rules applicable to the grant and exercise of stock options and other awards and does not give specific details or cover, among other things, state, local and foreign tax treatment of participation in the plan. The information contained in this section is based on present law and regulations, which are subject to being changed prospectively or retroactively.

Incentive stock options

Participants will recognize no taxable income upon the grant or exercise of an incentive stock option. The participant will realize no taxable income when the incentive stock option is exercised if the participant has been an employee of our company or our subsidiaries at all times from the date of the grant until three months before the date of exercise, one year if the participant is disabled. The excess, if any, of the fair market value of the shares on the date of exercise of an incentive stock option over the exercise price will be treated as an item of adjustment for a participant's taxable year in which the exercise occurs and may result in an alternative minimum tax liability for the participant. We will not qualify for any deduction in connection with the grant or exercise of incentive stock options. Upon a disposition of the shares after the later of two years from the date of grant or one year after the transfer of the shares to a participant, the participant will recognize the difference, if any, between the amount realized and the exercise price as long-term capital gain or long-term capital loss, as the case may be, if the shares are capital assets.

If common stock acquired upon the exercise of an incentive stock option is disposed of prior to the expiration of the holding periods described above:

- o the participant will recognize ordinary compensation income in the taxable year of disposition in an amount equal to the excess, if any, of the lesser of the fair market value of the shares on the date of exercise or the amount realized on the disposition of the shares, over the exercise price paid for the shares; and
- o we will qualify for a deduction equal to any amount recognized, subject to the limitation that the compensation be reasonable.

In the case of a disposition of shares earlier than two years from the date of the grant or in the same taxable year as the exercise, where the amount realized on the disposition is less than the fair market value of the shares on the date of exercise, there will be no adjustment since the amount treated as an item of adjustment, for alternative minimum tax purposes, is limited to the excess of

Edgar Filing: Origin Agritech LTD - Form S-4/A

the amount realized on the disposition over the exercise price, which is the same amount included in regular taxable income.

80

Non-Incentive stock options

With respect to non-incentive stock options:

- o upon grant of the stock option, the participant will recognize no income provided that the exercise price was not less than the fair market value of our common stock on the date of grant;
- o upon exercise of the stock option, if the shares of common stock are not subject to a substantial risk of forfeiture, the participant will recognize ordinary compensation income in an amount equal to the excess, if any, of the fair market value of the shares on the date of exercise over the exercise price, and we will qualify for a deduction in the same amount, subject to the requirement that the compensation be reasonable; and
- o we will be required to comply with applicable federal income tax withholding requirements with respect to the amount of ordinary compensation income recognized by the participant.

On a disposition of the shares, the participant will recognize gain or loss equal to the difference between the amount realized and the sum of the exercise price and the ordinary compensation income recognized. The gain or loss will be treated as capital gain or loss if the shares are capital assets and as short-term or long-term capital gain or loss, depending upon the length of time that the participant held the shares.

If the shares acquired upon exercise of a non-incentive stock option are subject to a substantial risk of forfeiture, the participant will recognize ordinary income at the time when the substantial risk of forfeiture is removed, unless the participant timely files under the Code, Section 83(b), to elect to be taxed on the receipt of shares, and we will qualify for a corresponding deduction at that time. The amount of ordinary income will be equal to the excess of the fair market value of the shares at the time the income is recognized over the amount, if any, paid for the shares.

Stock appreciation rights

Upon the grant of a stock appreciation right, the participant recognizes no taxable income and we receive no deduction. The participant recognizes ordinary income and we receive a deduction at the time of exercise equal to the cash and fair market value of common stock payable upon the exercise.

Restricted stock

A participant who receives restricted stock will recognize no income on the grant of the restricted stock and we will not qualify for any deduction. At

Edgar Filing: Origin Agritech LTD - Form S-4/A

the time the restricted stock is no longer subject to a substantial risk of forfeiture, a participant will recognize ordinary compensation income in an amount equal to the excess, if any, of the fair market value of the restricted stock at the time the restriction lapses over the consideration paid for the restricted stock. A participant's shares are treated as being subject to a substantial risk of forfeiture so long as his or her sale of the shares at a profit could subject him or her to a suit under Section 16(b) of the Exchange Act. The holding period to determine whether the participant has long-term or short-term capital gain or loss begins when the restriction period expires, and the tax basis for the shares will generally be the fair market value of the shares on this date.

A participant may elect under Section 83(b) of the Code, within 30 days of the transfer of the restricted stock, to recognize ordinary compensation income on the date of transfer in an amount equal to the excess, if any, of the fair market value on the date of transfer of the shares of restricted stock, as determined without regard to the restrictions, over the consideration paid for the restricted stock. If a participant makes an election and thereafter forfeits the shares, no ordinary loss deduction will be allowed. The forfeiture will be treated as a sale or exchange upon which there is realized loss equal to the excess, if any, of the consideration paid for the shares over the amount realized on such forfeiture. The loss will be a capital loss if the shares are capital assets. If a participant makes an election under Section 83(b), the holding period will commence on the day after the date of transfer and the tax basis will equal the fair market value of shares, as determined without regard to the restrictions, on the date of transfer.

81

On a disposition of the shares, a participant will recognize gain or loss equal to the difference between the amount realized and the tax basis for the shares.

Whether or not the participant makes an election under Section 83(b), we generally will qualify for a deduction, subject to the reasonableness of compensation limitation, equal to the amount that is taxable as ordinary income to the participant, in its taxable year in which the income is included in the participant's gross income. The income recognized by the participant will be subject to applicable withholding tax requirements.

Dividends paid on restricted stock which is subject to a substantial risk of forfeiture generally will be treated as compensation that is taxable as ordinary compensation income to the participant and will be deductible by us subject to the reasonableness limitation. If, however, the participant makes a Section 83(b) election, the dividends will be treated as dividends and taxable as ordinary income to the participant, but will not be deductible by us.

Deferred stock

A participant who receives an award of deferred stock will recognize no income on the grant of the award. However, he or she will recognize ordinary compensation income on the transfer of the deferred stock, or the later lapse of a substantial risk of forfeiture to which the deferred stock is subject, if the participant does not make a Section 83(b) election, in accordance with the same rules as discussed above under the caption "Restricted stock."

Other stock-based awards

The federal income tax treatment of other stock-based awards will depend on the nature and restrictions applicable to the award.

INFORMATION ABOUT THE ORIGIN PARTIES

Business of Origin

General

State Harvest Holdings Limited (referred to as Origin), is a British Virgin Islands holding company was established on October 6, 2004. On December 25, 2004, it entered into stock consignment agreements for the control of the Origin Operating Companies, other than Origin Biotechnology of which it owns 100% of the outstanding stock. Through the control of the four Origin Operating Companies, it will conduct operations in the field of hybrid crop seed development, production and distribution through its subsidiaries, which are Beijing Origin Seed Limited ("Origin Seed"), Changchun Origin Seed Technology Development Limited, Henan Origin Cotton Technology Development Limited and Beijing Origin State Harvest Biotechnology Limited ("Origin Biotechnology"), the technology-intellectual property holding and licensing company. All of the Origin Operating Companies are organized under the laws of the PRC.

82

The first Origin Operating Company formed was Origin Seed, which was founded in Beijing in 1997 and began operations in 1998. The initial operations consisted of licensing existing proprietary hybrid corn seeds for development and production and initial commercial distribution of its first hybrid corn seed, YuYu 22. Although Origin has continued to license hybrid seeds from others, it is increasingly relying on its own proprietary hybrid seed varieties which it began to develop in 1998. In 2003, it began commercial distribution of OS 19, the first of Origin's products to be entirely internally developed.

The Chinese Crop Seed Market

The Chinese agricultural sector is primarily made up of small land holdings. Typically, farms are family owned and tend to be small, on average just 0.2 hectares (about 0.5 acres). Origin estimates that there are approximately 200,000,000 peasant family farms in China. The Chinese farms are currently providing the majority of the food that is consumed in China. Increasingly, corn is becoming an important crop in China because it has a number of uses, including as livestock feed and a source of fuel in the nature of ethanol.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Origin believes that the Chinese agricultural seed industry can be characterized as fragmented, generally served by small, local seed suppliers. These seed companies typically developed as part of the local county governmental structure, designed to provide service and support to local farmers prior to China's more recent drive toward modernization and a market economy. They are, in a true sense, extensions of the government bureaucracy. As a result, these local seed suppliers tend to be small, inefficient, resistant to or lacking the resources to pursue innovation and technology and, since they are government run, not very profitable. Their products tend to be based on those varieties of crops that have been grown in their respective locales for years, or even decades. Rarely is there much upgrading of the quality of the seeds and varieties by these local seed suppliers.

Improved seed products have been generally available in China through large multinational suppliers, the largest being Pioneer International, Monsanto and Sygenta, and each having established operations in China some time ago. However, management has observed that these large companies tend to operate in a manner typical of western-style agribusiness, where customers are large corporations themselves with extensive in-house technical staffs to select seeds and develop cultivation methods that maximize yields. Success for them depends on making sales to a relative few accounts that do not require a high level of technical support. Management believes that the traditional Western agribusiness model does not work well in China, where small family farms continue to predominate. As a result, it does not appear that the multinational seed companies have penetrated the Chinese market to any appreciable extent.

Origin was founded with a business strategy that would meet what it believes to be the needs of Chinese farmers. That business strategy consisted of the following elements:

(i) Reliance on proprietary seed products, initially licensed and increasingly internally developed, to deliver superior value to customers and establish barriers to competition;

(ii) Devising a process for obtaining regulatory approvals for new crop seeds (a Chinese legal requirement) that has proven efficient and effective;

(iii) Establishing a broad network of farmers in several regions to participate in the seed development process and to produce crop seeds for commercial distribution once approval is received;

(iv) Creating an effective distribution system using a relatively small network of primary distributors, only one in each county with exclusive territories, with which it can deal directly and efficiently which, in turn, develop their own secondary distribution network to reach out directly to the family farmers. This distribution network is not only a means for securing and fulfilling orders, but it acts as a conduit for Origin's marketing and technical support activities.

Edgar Filing: Origin Agritech LTD - Form S-4/A

(v) Origin relies on a number of marketing activities to retain existing customers and attract new ones. These marketing activities include:

- a demonstration program that provides technical assistance to customers regarding the correct seed choice and proper cultivation methods;

- television advertising and a newsletter published three times per year that reaches nearly 2 million seed customers and provides them with information on the benefits of Origin's products and the techniques for maximizing yields;

- a database of over 1 million customers that Origin uses to keep repeat sales at a high level, an important component of revenue growth.

(vi) Origin delivers customer service and technical support to assist customers throughout the growing season for its products. Customers can contact Origin through a dedicated call center that handles up to 6,000 calls per day. Field service representatives are dispatched within 48 hours of a customer's request for help.

This business model and strategy has proven effective. Origin has increased its annual revenues by an annual average of more than 30% over the three year period of fiscal 2002 through fiscal 2004. Management believes that it will increase revenues for fiscal 2005. This estimate is based on the fact that Origin receives orders with deposits well in advance of the next year's growing season, which enables it to calculate demand and make estimates of its sales volume and revenue. Generally, Origin seed products carry a premium price. Several factors enable Origin to obtain the higher price, including what it believes to be superior quality of the seeds, which superiority is based on higher crop yield factors and disease and drought resistance of its seeds. Origin seeds currently provide dealers a higher profit margin, therefore, management finds that they tend to more actively promote Origin products in the market place.

Origin Represents a Consolidation Opportunity in a Fragmented Market

Origin believes that the global hybrid seed market is largely controlled by Monsanto, Pioneer International and Sygenta; however, there does not appear to be a market leader in China at this time. The Chinese seed market has many suppliers. Management believes that eight companies control less than 25% of the market. Management believes that most of the seed companies, especially the small and government-affiliated ones, are generally, poorly run and have no motivation to expand geographically. Management also believes that their product is generally neither uniform nor up to international standards. Origin believes that, in the future, it is likely that these companies will discontinue seed production and become distributors for the larger, better capitalized and quality oriented seed companies, like Origin.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Intellectual Property Base

Origin has a growing portfolio of its own seed hybrids and varieties, some of which are subject to Chinese patents. Origin considers its proprietary products and patents to be important to its business. The basis for a patent on a seed is the use of DNA fingerprinting. The presence of a DNA fingerprint enables identification of the seed and can be used to determine if others are infringing on the patent. Origin also uses additional measures of identification, including holographic coding of each bag of seed, to limit infringement and support enforcement of its rights. Farmers can call the technical support line to verify the code, ensuring the seed is a genuine Origin product. Operators note each time a code is verified, negating the possibility of a counterfeiter repeatedly using the same number. Origin receives as many as 6,000 phone calls per day for technical assistance and code verification. The patented seeds are as follows:

84

Patent -----	Name of Patent -----	Patent Number -----	Proprietor of Patent -----
Design Patent to	Packing bag	ZL 993 14865.4	Beijing Origin Seed Limited
Invention Patent to	A method of producing hybrid corn seed	ZL 02146510.X	Beijing Origin Seed Limited Henan Agriculture University

In addition, the Origin Operating Companies have seven trademarks that have been registered in the PRC, which registrations cover periods expiring between 2009 through 2015. These trademarks include names and artwork and are used in connection with all their seed products and packaging.

Origin launched its first proprietary product in 2003 after six years of research and development. In 2004, Origin delivered four new proprietary corn seeds and one cottonseed products. With its research, breeding system and management, Origin is planning to introduce approximately 40 new proprietary products into the government testing and approval cycle in the calendar years 2005 through 2008. The testing and approval process takes three full years. Currently, Origin has seven products in the third and last year of the testing and approval cycle, 16 products in the second and 23 products in the first.

In addition to the development of its own proprietary seeds, Origin

Edgar Filing: Origin Agritech LTD - Form S-4/A

licenses the distribution of seeds developed by independent research and development institutions which have no commercialization ability or distribution channels of their own. Currently, Origin licenses 14 varieties of corn and two varieties of cotton seed. Under the typical license agreement, one of the Origin Operating Companies will license a designated product for exclusive production and marketing within China. The license fees vary in their method of determination, but generally they are a percentage of revenues from the sale of the variety or is a flat fee arrangement. No agreement requires payment in excess of 1% of the revenues of Origin. Beijing Origin has these types of agreements with Hubei Province Shiyuan Agricultural Sciences Institute, China Academy of Sciences Microbiology Institute and Corn Research Institution of Li County in Hebei Province. Only one corn seed product, YuYu 22, is licensed on a non-exclusive basis. The YuYu 22 variety is licensed from Henan Agricultural University for an indefinite term. The university has granted the right to produce, distribute and propagate the variety. The university also will provide technical materials and instructions, supervise seed quality and evaluate growing areas. It will also pursue the PRC New Plant Variety Notification for YuYu 22. Beijing Origin pays a technology license fee of 20RMB for each mu (unit of area equivalent to .164 of an acre) of seed production area per year. Beijing Origin is responsible for all the propagation costs, maintaining quality standards, and safeguarding the variety reputation and rights of the university. As the Origin Operating Companies develop more of their own seeds and as they are approved, the number of seeds that they license from others has been declining. Origin expects that this decline in licensing from others will continue. Origin does not consider that it is dependant on any single licensed seed product.

In the future, Origin will pursue licensing of its own proprietary seeds. One of the goals of the reorganization and establishment of Origin Biotechnology is to hold all the intellectual property assets of the Origin Operating Companies. To date, Origin has not engaged in any meaningful licensing arrangements of its seeds for the production and sale by others.

Origin has also sought and achieved court protection of its branded seeds. In an action commenced in the Nanzhou courts, in July 2004 against 12 seed companies which sold one of its corn seed products without license, the first tribunal level ordered a cease and desist of infringement of the company seed product and awarded damages in the amount of RMB 4,700,000 (US\$567,873). The case was appealed by the defendants on the issue of the damages only, which appeal was dismissed. This case is unique in China and has demonstrated support for protecting seed production and ownership rights under the Regulations of the PRC on the Protection of New Varieties of Plants which protects the right of an owner of a plant variety to produce and sell the varieties and propagating material.

Genetically modified (GM) seeds have not enjoyed a large share of Chinese crop seed market to date. The timing and rate of acceptance of GM seeds in China are not yet clear. However, Origin believes that the advantages of GM seeds potentially makes them a significant component of the Chinese crop seed market. As a result, it has begun its own biotech research program to develop GM seeds, giving it the future capability to enter the market as acceptance of those products grows.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Origin's Commercial Product Development.

Origin believes that it maintains a strict seed quality control system. It was the first Chinese seed company to gain ISO9001-2000 certification. To continue its position as a quality producer, the company budgets approximately 5% of its gross income resources based on the prior year results on research and development. Because of the increase in gross revenues, the actual amount spend has generally been 3%. Origin has spent 6,773,621RMB (US\$818,416), 5,287,964RMB and 5,371,954RMB in each of the years ended December 31, 2004, 2003, and 2002, respectively.

Also, Origin established its own stable of seed production bases in Gansu and Inner Mongolia by providing seed-producing farmers with technical training and field quality control practices. Origin believes that it has significant processing capability and uses advanced equipment for efficiency and maintaining a high quality of hybrid seeds. By employing these practices, Origin believes that it has achieved a product quality on par with that of its foreign counterparts that is consistently well received by its customers.

Origin has close relationships with some of the top academic research institutions in China, including the Chinese Academy of Science, China Agricultural Academy of Science, Beijing Agricultural Academy of Science, Henan Agricultural University and Liaoning Agricultural Academy. Origin has cooperated with these institutions through contractual research, partnering relationships and by joint-licensing various varieties of their hybrid seeds. One of Origin's subsidiaries is 2.04% owned by Henan Agricultural University.

These relationships were important to Origin in its early stages to help it get started in the crop seed business as they made available to Origin already developed and approved seeds that Origin could then put into production and distribution. As Origin has developed its internal capabilities to perform research and develop hybrid and genetically modified seeds, the importance of these relationships has diminished significantly, but they remain helpful to Origin continuing its efforts to expand its product offering and its market share.

The development of the science of genetics has permitted the creation of new species of corn, rice and cotton, rather than just new varieties. Genetically modified (GM) corn, soybean and cotton have been widely used in the United States and many other countries to guard against insect damage and to increase yields. The future potential for GM corn and rice in China exists. Since receiving Chinese government approval, cotton modified to guard against borer damage is now widely planted. Because the Chinese market has widely accepted GM cotton and the Ministry of Agriculture is beginning to promote GM rice seed as well, Origin believes that GM products will eventually be fully promoted and accepted in the Chinese market.

In response to these developments, Origin initiated its own biotech program in 2000, and it is cooperating with the Chinese Academy of Science,

Edgar Filing: Origin Agritech LTD - Form S-4/A

China Agricultural University, China Agricultural Academy of Science and Beijing Agricultural Academy of Science on gene research. Origin's strategy is to ensure that its technology will be ready when the market is ready.

Once approval for distribution of a new seed is obtained, the producer must turn to commercial development of the seed variety. Origin does this by distributing the seed to its network of more than 60,000 farmers, each of whom plants the hybrid to produce seeds for commercial distribution the following season. This network of local farmers who produce Origin's seeds is an important element of Origin's strategy to produce an increasing number of products with consistent quality.

Origin depends on this network of farmers to grow and develop its seeds for commercial distribution. A problem in this network could disrupt the introduction of a new product or the continued availability of an existing one. However, Origin has taken several measures to reduce those risks and to convert its commercial product development network into a reliable source of its products. Those measures include obtaining the cooperation of local government officials in converting land to crop seed production and offering the farmers who produce the seeds attractive returns relative to those they would receive from growing crops for sale or consumption.

National Marketing and Distribution

Origin has its own sales organization consisting of 142 persons that oversee all aspects of the distribution and retail sale network and promote the company sales to the expanding distribution chain.

Origin has established a stable, nationwide distribution network with over 1,200 first-level distributors and over 20,000 second-level distributors and some retailers. The distributors in turn sell to the retailers and retailers sell to the farmers. This distribution network covers almost all the provinces of the PRC, excluding only Qinghai and Tibet. The top five provinces in terms of sales volume are Jilin, Sichuan, Liaoning, Chongqin and Hunan, representing 42.51% of Origin's 2003 annual sales volume.

The terms of the Origin distributor agreement provide for territorial exclusivity, usually on a county-wide basis. To enforce exclusivity and monitor product locations, Origin assigns a code to each distributor and marks all packaging sent to the distributor with this code. Vigilant monitoring of territory integrity and enforcement of contractual penalties, which may include termination of distribution rights, provides stability and profitability within the distribution network, ensuring quality services and product availability. Origin believes that it enjoys a very positive reputation for its implementation and enforcement of this exclusive distribution system. Distributors buy Origin seeds at a wholesale price established by Origin, and are required to make full payment prior to delivery. Distributors which place orders and make deposits on an order in the period August - October for sales to be made the following year are generally offered a discount. At the end of the annual sales season, Origin sets a final sales price that often is below the suggested retail price. Normally, Origin will defer recognition of revenue from deposits until services have been rendered, the price is fixed or determinable, collectibility is reasonably assured and the right of return is expired. In the seed industry in the PRC, the selling price will be determined around April or May for seeds sold

Edgar Filing: Origin Agritech LTD - Form S-4/A

during the several months prior to that time. Advance deposit orders account for between 70% and 80% of Origin's sales. The term of a typical distributor agreement varies depending on negotiations and the nature of the distributor and its prospective territory. There usually is an initial payment for the distribution right which is applied in whole or in part to future orders, depending upon compliance with the terms of the agreement. The agreement also delineates pricing adherence requirements and permissibly discounting sales, territory, ordering and supply obligations, returns market support and other regular business terms and dispute resolution agreements. No one distributor accounts for more than 1% of sales.

87

On an annual basis, Origin's sales team assists distributors in writing monthly sales plans. These sales plans are then submitted to Origin via facsimile 30 days prior to required seed delivery dates. Every year during the harvest season, Origin organizes corn production demonstrations in cooperation with local villages and seed distributors, to which are invited farmers and others in the seed distribution chain. At these demonstrations, Origin teams show their hybrid corn, explain planting techniques, discuss industry best practices and disseminate promotional materials. These marketing and production demonstrations help create new demand, not only in each village where demonstrations are held, but also in nearby villages, for both the current season and for succeeding years.

The technical service department of Origin has a 24-hour toll-free number available for farmers and distributors, through which they can obtain solutions to specific technical problems and issues of seed piracy. If on-site help is required, a Technical Assistant will arrive on location within 48 hours of a call. Origin also enlists the help of its distributors to provide help and advice to the farmer. Origin believes that its focus on customer service and technical support have helped it to build brand identity and loyalty, contributing to its total sales growth over the last several years.

Using local TV and radio broadcasts, Origin promotes its brand to over 70% of its geographic market, reaching over fourteen million individual farmer households. Additionally, Origin publishes a seasonal newspaper, "Origin News," with a distribution to about twenty million farmers in which it addresses technical issues, shares success stories and further promotes the Origin brand. Origin News is the de facto source of product and technical information for the Chinese peasant farmer. Origin maintains a database of over 1,000,000 farmers that tracks buying habits and contact information.

Product and technical service brochures are provided throughout the distribution network and prove a valuable tool in promoting the sale of the corn seed product and the recognition of the Origin brand. The Origin slogan, "When buying seed, quality is paramount -- trust Origin," appears on all promotional material, helping to build the brand in all the local markets.

Future Strategy: Entering the Cottonseed and Rice Seed Markets

Edgar Filing: Origin Agritech LTD - Form S-4/A

Origin believes that the PRC is the largest producer and consumer of cotton in the world and demand appears to be growing in the PRC. In China, rice is planted mainly for human consumption, and the demand for rice seed is substantial in China. Since the business models for corn, cotton and rice production are very similar, and they share similar sales channels, part of Origin's strategic plan is to participate in the cotton and rice seed business.

Since its inception in 1998, Origin has been working to develop its own hybrid cottonseed. Currently, it has two cotton products in government testing programs. After its success with corn seed sales in the Southwest of China (a primary agricultural area for rice), Origin decided to enter the rice business by taking advantage of its existing sales channels and corporate brand image. To facilitate a quick start to this program, Origin plans to license a hybrid rice seed from a partner research institute for resale by the end of this year.

Government Regulation

Participation in the crop seed business is a highly regulated activity in the PRC. For a company to enter the seed business, it must obtain two special licenses. One is issued at the provincial level, entitling the holder to engage in seed production in that province. This license specifies the types of seeds which may be produced. The second is a license to distribute seeds. As described below, the level of the licensee's registered capital determines if the distribution license is issued at the national or provincial level:

88

- o To obtain a national distribution license, the licensee must have registered capital of at least RMB 30 million (approximately \$3,750,000);
- o To obtain a provincial license to distribute hybrid seeds, the licensee requires registered capital of not less than RMB 5 million (approximately \$645,000); and
- o To obtain a provincial license to distribute non-hybrid seed varieties, the licensee requires registered capital of not less than RMB 1 million (approximately \$125,000).

A separate license is required to import and export seeds. To obtain this license, the applicant must have minimum registered capital of RMB 10 million (approximately \$1,250,000).

Origin has a national distribution license, which entitles it to sell approved seeds in any province in the PRC.

Edgar Filing: Origin Agritech LTD - Form S-4/A

In addition to the license(s) needed to engage in the seed production and distribution business, each seed must undergo a stringent regulatory review before it may be sold in China. A seed production company cannot receive a license to engage in seed production, regardless of the level of its registered capital, until it has secured rights to an approved seed product.

The testing of seeds for approval can be conducted at the provincial level or the national level. However, seeds that have been approved at the provincial level can only be distributed in the province in which the approval was issued. An approval at the national level means the approved seed can be distributed nationwide.

The procedure for provincial examination and approval requires the applicant to:

- o Submit the application to provincial government;
- o Go through two cycles of monitored growth in at least five different locations in the province. Seeds submitted for testing are planted together with control seeds, which is typically the most popular seed with farmers in the testing locations. Only seeds that have an increased yield of 8% or higher versus the control seeds and that rank in the top 6 among all seeds then being tested are cleared to proceed to the second year of testing, during which the results of the initial test season must be confirmed;
- o Go through one successful cycle of trial production, also in at least five different locations; and
- o Granting of the provincial examination certificate and public announcement.

The procedure for national examination and approval requires the applicant to:

- o Submit the application to the Ministry of Agriculture;
- o Go through two cycles of monitored production in at least five different locations. Only seeds that have 8% or higher yield compared to control seeds and that also rank in the top 6 among all seeds being tested in that cycle can proceed to the second year of testing; and
- o Go through one successful cycle of trial production in at least five different locations.

Seeds developed outside of China must also follow the above procedures before they can be distributed in China.

Edgar Filing: Origin Agritech LTD - Form S-4/A

The ability to process an application for approval is an important element of success, especially in view of the long timeframe associated with obtaining approval after the seed has been developed. Failures and delays in getting the approvals on a timely basis can seriously disrupt the planning that is critical to begin commercial production. A minimum of six years - three to obtain approval and three to develop the first crop of seed for commercial distribution - is required to bring a seed to market after it has been developed. Because of its extensive network of seed-producing farmers, Origin is able to bring a new product to market consistently in the minimum time. Other seed companies often take an additional season or more to bring an approved product to market. This loss of an entire growing season can be a significant disadvantage.

Origin has been able to successfully process 12 applications for approval through the required agencies, including one in 2003, four in 2004 and seven in 2005. While no approval is assured until granted, Origin believes that it can expect to have a high number of successful product approvals for its upcoming products, and thus ensure that it will have a product base that will enable it to continue to expand its market presence.

Competition

Origin faces competition at several different levels, ranging from several other private Chinese companies, local seed companies that are often extensions of the local government, and large multinational hybrid and genetically modified seed producers. Origin believes that it can compete effectively with each of these and believes that it can continue to do so into the future. Each of these groups of competitors is discussed in turn, below.

Other Large Chinese Seed Companies. Origin believes there are eight seed companies that control about 25% of the corn seed market. Of the other seed suppliers, most have a market share that probably is measured in fractions of a percent. The majority of the largest crop seed companies have been in existence for considerably longer periods of time than Origin. Many of them have greater financial resources than Origin. Some of these larger entities are state owned enterprises where the incentives are different and the business agility is not as great. Origin competes within this group on the basis of its consistent product quality, brand identity, customer and technical support, enforcement of its intellectual property rights, and a pipeline of proprietary products.

Local Seed Companies. The local seed companies in China are the legacy of the centrally planned agricultural economy that was predominant in China until recently. Most of these are, or were, affiliated with county governments, which played a role in determining what crops would be grown and by whom. As was often the case with planned economies, these extensions of the bureaucracy had no profit motive, and no incentive to improve efficiencies, increase sales or innovate with new products. Market expansion was limited by the tight geographic boundaries within which they were designed to operate.

The majority of these local companies lack the scale and the resources to compete with Origin in a number of ways. They lack access to the improved, proprietary hybrids that are the core of Origin's business. For the most part

Edgar Filing: Origin Agritech LTD - Form S-4/A

they do not have effective marketing, advertising, technical support or customer service operations. The majority of Origin's recent growth has come from acquiring customers from these operations. Origin believes that the existing trend will continue, and that eventually some of these smaller, local distributors can be integrated into Origin's distribution network.

Multinational Seed Companies. At the opposite end of the competitive spectrum from the local seed companies are the large multinational companies, of which Pioneer International, Monsanto and Sygenta are just two. These concerns present a formidable competitive threat from the standpoint of their financial resources and the high quality of their seed products. However, the unique aspects of the Chinese crop seed market, which distinguish it from the market in western countries, have proven a significant barrier to entry for these very large companies, even though they have come to the market through joint ventures formed with existing Chinese seed companies.

90

The principal difference between the Chinese and Western markets is the sheer number of customers which these companies need to reach in China that in turn produces a low average sale. Success in China depends on effectively marketing to a very large number of small customers, which is entirely different from selling to large agricultural customers that dominate the markets in North America and Europe. Relatively few Chinese companies have achieved any degree of success in doing so, and the international competitors, despite several years of trying, have not succeeded to any meaningful degree.

Another important consideration limiting the competitiveness of these multinationals is their heavy reliance on genetically modified organisms to produce their crops. Origin's market research indicates that most of the superior products that the multinationals have to offer are genetically modified. To date, a cotton seed is the only genetically modified seed product to have received approval in China. By contrast, Origin relies primarily upon standard hybridizing to produce its improved seed varieties. However, Origin recognizes the potential that genetically modified crop seeds will gain acceptance in China and for that reason it has begun a biotech seed development program that relies on genetic modifications to improve the quality of seeds and their yields, positioning Origin to compete in that portion of the market..

Should genetically modified seeds begin to gain broader acceptance in the market, the large biotech companies, who currently make the majority of those seeds, would become more serious competitors. However, they will also continue to face numerous obstacles in competing with Origin, including the significant lead time associated with obtaining approval of a new seed and the need to establish effective sales, marketing and distribution networks to manage the large volume of small purchases that is characteristic of the Chinese market.

Employees

As of December 31, 2004, Origin and the Origin Operating Companies had

Edgar Filing: Origin Agritech LTD - Form S-4/A

approximately 400 full-time employees. Origin and the Origin Operating Companies expect to employ additional personnel as they expand their operations. Origin believes that its employee relations are good.

Origin currently has 32 research and development specialists, 142 sales people, 59 administrative staff, and 183 technicians in its production plants.

Facilities

The Origin Operating Companies own or lease manufacturing facilities, laboratories, seed production and other agricultural facilities, office space, warehouses, research stations and breeding centers in Beijing and Gansu, Henan, Helongjiang, Liaoning, Jilin, Hainan and Sichuan Provinces. The leased facilities are rented at regular commercial rates, and management believes other facilities are available at competitive rates should it be required to change locations or add facilities.

91

The Origin headquarters are located in Beijing, where it leases office space and land for research and development center.

Origin owns three seed conditioning plants located in Linze (in northwest China), Changchun (in northeast China) and Zhengzhou (in central China), and leases one seed conditioning plant located in Chengdu (in southwest China). At these properties are seed processing equipment, bleachers, warehouses and other production facilities.

Origin also leases land as maize breeding stations in Harbin, Tieling (northwest China), Beijing, Zhengzhou), Chengdu, and Hainan island.

Origin is planning on building additional facilities in Beijing and in two other locations for the Linze branch office and for Changchun Origin.

Together, the owned, leased and proposed facilities are adequate to conduct the business operations of Origin.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Business

Edgar Filing: Origin Agritech LTD - Form S-4/A

Origin develops and supplies crop seeds to the PRC agricultural market. Its initial focus was on hybrid corn seed production and sales, but it has expanded its activities to include the development and sale of hybrid cotton seeds and rice seeds as well.

Origin achieved net income of RMB 65.46 million (US\$ 7.9 million) in 2004 and RMB28.95 million (US\$3.49 million) in 2003, and RMB 26.56 million (US\$3.2 million) in 2002. For 2004, Origin generated RMB 301.52 million (US\$36.43 million) in total revenues, compared to RMB 191.65 million (US\$23.16 million) and RMB 98.72 million (US\$11.93 million) for 2003 and 2002, respectively, representing an increase of 57.33% and 94.14%, respectively. During 2004, approximately 97.67% of Origin's product revenues came from sales of its corn hybrid seeds. The remaining approximately 1.6% of revenues were derived from the sale of cotton seeds, and 0.73 % of revenues came from rice seed . The rice seed business is expected to become a growth point in Origin's business in the near term.

Origin's ability to continue growing sales will depend upon a number of factors, including its need of sufficient funds to expand market share and to develop and to offer new superior quality products and after sales service, which historically has been the principal driver of increased sales, its continued ability to obtain new customers who will re-order on a predictable basis, its ability to continue expansion of its product line to include rice seeds, and the decreasing competitiveness of the local seed companies that formerly dominated the seed market in the PRC.

Origin was incorporated under the laws of the British Virgin Islands on October 6, 2004. On December 1, 2004, Origin established Beijing Origin State Harvest Biotechnology Limited ("BioTech"), a wholly foreign owned enterprise under the laws of PRC.

To comply with ownership requirements under PRC law which restrict direct wholly foreign ownership of companies in the seed industry in the PRC, Origin have entered into a series of stock consignment agreements with three affiliated Chinese entities Beijing Origin, Henan Cotton and Changchun Origin and all the stockholders of Beijing Origin, together holding 97.96% of the total equity shares of Beijing Origin (except for the Henan Agriculture University who holds 2.04% of the Beijing Origin's shares); all stockholders of the Henan Origin Cotton together holding 97.96% of the total equity shares of the Henan Cotton (except for Mr. Gu Dengbin, who holds 2.04% of the Henan Cotton's shares), and all stockholders holding 100% of the equity shares of the Changchun Origin. Origin conducts substantially all of its business through Beijing Origin, Henan Cotton and Changchun Origin.

Through the stock consignment agreements with these aforesaid stockholders of Chinese affiliates, Origin has the power to vote all shares of all these stockholders on all matters and otherwise control the three companies. During the consignment period which is three years from the signing of this

Edgar Filing: Origin Agritech LTD - Form S-4/A

Agreement and is extended automatically until a written termination agreement is signed by the parties, Origin is entitled to exercise and enjoy any and all property rights, other than title, in relation to the consigned shares which include, but are not limited to, the profits, interests, dividends, bonus, and after liquidation, the residue assets. If Origin is permitted to acquire title under PRC law, the consigned shares will be transferred to Origin with no additional compensation to be paid by Origin to any consigning stockholder. Beijing Origin, Henan Cotton and Changchun Origin (collectively "the Variable Interest Entities") also entered into technical service agreements with BioTech. Under these agreements, BioTech shall provide, with its own technical research resources and team, technical services for the production and distribution of agricultural seeds during the period of this agreement. In return, the Variable Interest Entities are required to pay BioTech service fees calculated according to the weight of corn, rice and cotton seeds sold by the Variable Interest Entities.

Under the requirements of FIN 46 (Revised) "Consolidation of Variable Interest Entities" ("FIN 46 (R)"), Origin is deemed to be the sole beneficiary of the Variable Interest Entities: Beijing Origin, Henan Cotton and Changchun Origin. Accordingly, Origin's consolidated financial statements are prepared by including the consolidated financial statements of Beijing Origin and its subsidiaries through December 24, 2004, and subsequently the Company's consolidated financial statements includes Origin and its subsidiary and Beijing Origin and its subsidiaries, Henan Cotton and Changchun Origin.

Critical Accounting Policies.

The discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States, or U.S. GAAP. The preparation of those financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses and related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are those that reflect significant judgments or uncertainties, and potentially result in materially different results under different assumptions and conditions. We have described below what we believe are our most critical accounting policies that involve a high degree of judgment and the methods of their application. For a description of all of the company's significant accounting policies, see Note 2 to Origin's consolidated financial statements.

Revenue Recognition

Origin derives revenue primarily from the sale of various branded conventional seeds and branded seeds with biotechnology traits. Origin recognizes revenue when pervasive evidence of an arrangement exists, services have been rendered, the price is fixed and determinable, collectibility is reasonably assured and the right of return has expired. Accordingly, Origin defers revenue until all sale return privileges lapse which generally occurs within 15 days of delivery at which time the selling price has been finalized

Edgar Filing: Origin Agritech LTD - Form S-4/A

with the customer. Amounts billed in excess of revenue recognized are recorded as deferred revenue.

Impairment of long-lived assets

Origin reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable. When these events occur, Origin measures impairment by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from the use of the asset and eventual disposition. If the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment loss, equal to the excess of the carrying amount over the fair market value of the asset is recognized.

93

Acquired intangible assets, net

Acquired intangible assets consist primarily of purchased technology rights and are stated at cost less accumulated amortization. Amortization is calculated on a straight-line basis over the estimated useful lives of these assets of 6 to 10 years and records in cost of revenues.

Government subsidies

Origin receives government subsidies in the form funds for research and development activities and subsidies which reduce the cost of land use rights.

Results of Operations

Year Ended December 31, 2004 Compared to Year Ended December 31, 2003.

Total net revenue increased by 57.33% from 2003 to 2004, to RMB 301.52 million (US\$36.43 million) in 2004, as compared to RMB 191.65 million (US\$23.16 million) in 2003. This increase was due to an increase in the quantity of corn seed sold together with a higher selling price. The expansion of sales in the Southwest and Northeast regions of China caused a substantial increase in sales quantity. The volume of corn seed was increased by 12.15 million kilograms, which grew from 26.3 million kilograms in 2003 to 38.45 million kilograms in 2004. In addition, the expansion in net revenue was due to the change in product sales mix. In 2003, the corn seed product brand YuYu 22 was the principal product. However, its unit selling price was relatively lower than the other corn seeds sold by Origin. In 2004, the corn seed product brand, Linao 1, had a relatively higher unit selling price brand and was the most popular product sold. In addition, there were 140,000 kilograms in rice seed sales valued at (RMB2.22 million (US\$0.27 million)), resulting from Origin developing, planting, and selling rice seeds beginning in 2004.

Edgar Filing: Origin Agritech LTD - Form S-4/A

The cost of seeds sold increased by 49.53% to RMB 178.31 million (US\$ 21.54 million) in 2004 from RMB 118.98 million (US\$14.38 million) in 2003. This increase was primarily the result of the increase in the quantity of corn seed sold. Nevertheless, the increase in cost of sales is less than the increase in net revenue. This was mainly caused by the increase in selling price which outweigh the increase in cost of sales. In 2004, cost of corn seeds sold was RMB 173.79million (US\$20.99 million). The average cost of corn seed sold per unit increased by 1.5% in 2004 compared to 2003, of which in 2004, an increase in technology usage fees and the shipping costs were the key causes. On the other hand, there was saving in other material costs such as seed coatings. The technology usage fees, paid based on quantity sold were RMB13.39 million (US\$1.62 million) and, RMB 6.52 million (US\$0.79 million) in 2004 and in 2003 respectively. The increase of technology usage fee is more than the increase of cost of sales, which is mainly due to the amount sold of product YuYu 22, which had a lower charge for technology usage fee, and the decrease in sales quantity from 48.42% in 2003 to 18.7% in 2004. Shipping and handling costs increased by 70% to RMB8.09 million in 2004 from RMB4.75 million in 2003 because of the increase in sales together with the increase in gas prices and strict limits on loads per trucks.

As a percentage of total net revenues, overall gross margin was 40.86% in the year ended December 31, 2004, as compared with 37.92% in the year ended December 31, 2003. This increase in gross margins were primarily the result of change in product sales mix, an increase in the selling price and effective cost controls.

94

Operating expenses increased to RMB51.31 million (US\$6.20 million) from RMB 37.55 million (US\$4.54 million) in 2003. The increase was due to substantial increases in selling and marketing expenses and general and administrative expenses and, to a lesser extent, an increase in research and development expenses.

Selling and marketing expenses increased by 53.19% to RMB 20.39 million (US\$2.46 million) in 2004 from RMB 13.31 million (US\$1.61 million) in 2003. Of the RMB 20.39 million (US\$2.46 million) in 2004, approximately RMB3.15 million (US\$0.38 million) was used for advertising, RMB 3.06(US\$0.37 million) million was used for materials to educate our customers about the basics of planting our seed products, RMB 9.17 million (US\$1.11 million) was spent for transportation and traveling, RMB 3.44 million (US\$0.42 million) for salary and benefits, and RMB 1.42 million (US\$0.17 million) on telecommunication. The increase in selling and marketing expenses was primarily due to an increase in advertising by RMB1.35 million (US\$0.16 million), an increase in materials to educate our customers by RMB1.85 million (US\$0.22 million), an increase in transportation and traveling expenses by RMB 3.04 million (US\$0.37 million) and an increase in salary and benefits expenses by RMB 0.79 million (US\$0.09 million), related to increased sales, set up three new marketing departments in Changchun, Baoding and Shenyang, and the increase in incentive bonuses for its marketing staff.

General and administrative expenses increased by 27.44% to RMB 24.15 million (US\$2.92 million) in 2004 from RMB 18.95 million (US\$2.29 million) in

Edgar Filing: Origin Agritech LTD - Form S-4/A

2003 primarily due to the increase in general personnel expenses by RMB3.67 million (US\$0.44 million), increase in expenses associated with running motor vehicles and traveling expenses by RMB0.56 million (US\$0.07 million) and an increase in general office supplies by RMB0.42 million (US\$0.05million). All these were associated with the increase in the scale of our operation.

Research and development expense increased by 27.98% to RMB6.77 million (US\$0.82 million) in 2004 from RMB 5.29 million (US\$0.64 million) in 2003. The increase was due primarily to the hiring of additional staff in developing own breeding program and the set up of two research stations in Chendu and Changchun.

Income from operations increased by 104.69%, from RMB 35.12 million (US\$4.24 million) in 2003 to RMB 71.89 million (US\$8.69 million) in 2004. This increase in income from operations was primarily attributable to the large growth in overall revenues and the level of the costs for sales Origin maintained.

Interest expense increased by 72% to RMB 0.83 million (US\$0.1 million) in 2004 from RMB 0.48 million (US\$0.06 million) in 2003. The increase in interest expense was primarily attributable to the amount of loans increased from RMB35million (US\$4.23 million) in 2003 to RMB41 million (US\$4.95 million) in 2004, and the average interest rate increased from 5.04% to 5.33%.

Equity in earnings of associated company increased to RMB1.92 million (US\$0.23 million) in 2004 from zero in 2003 due to the acquisition of 30% interest in Shijiazhuang Li Yu Technology Development Co., Ltd.

Other income decreased by 86.89% to RMB0.15 million (US\$0.02 million) in 2004 from RMB 1.14 million (US\$0.14 million) in 2003 as reduction in subsidy from government.

Income taxes decreased 1.4% to RMB7.7 million (US\$0.93 million) in 2004 from RMB7.81 million (US\$0.94 million) in 2003. Though Origin recorded a substantial increase in income before taxation, there was still a decrease in taxation due to the shifting of operations to our PRC subsidiary and branch which were either exempted or enjoyed the tax cut from the enterprise income tax in 2004.

95

Net income increased 126.10% to RMB 65.46 million (US\$7.91 million) in 2004, compared to approximately RMB 28.95 million (US\$3.49 million) in 2003. This significant increase in profits was primarily the result of an increase in sales, both in terms of volume and average selling price per kilogram of seed, with a lower growth rate in the associated costs to produce the income as compared with fiscal year 2003.

Year Ended December 31, 2003 Compared to Year Ended December 31, 2002.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Total net revenues increased by 94.14% from 2002 to 2003, being approximately RMB 191.65 million (US\$23.15 million) in 2003, as compared to approximately RMB 98.72 million (US\$11.93 million) in 2002. This increase was the result of an increase in corn seed sales of 15.8 million kilograms from 10.50 million kilograms to 26.30 million kilograms, mainly due to the exploitation of the northeast market and further development of the market in the Yellow River, Huai River and southwest regions. Increase in sales in these areas is about 5.95 million kilograms, 2.6million kilograms, and 6.86million kilograms respectively in 2003 as compared with 1.2million kilograms, 6.0 million kilograms, and 3.4 million kilograms respectively in 2002.

Cost of seeds sold increased 158.61% to RMB 118.98 million (US\$14.38 million) in 2003, as compared to RMB 46 million (US\$5.56 million) in 2002. The increase of the cost of seed is mainly due to the increase of quantity of corn seed sold. The average cost of corn seed sold per unit was increased by 3% in 2003 compared to 2002. Of which in 2003, increase in technology usage fee , the shipping cost and manufacturing cost were the key drivers. Technology usage fees, paid based on quantity sold, were RMB6.52 million (US\$0.79 million) and, RMB1.75 million (US\$0.21 million) in 2003 and in 2002 respectively. The increase of technology usage fee is more than the increase of cost of sales, which is mainly due to the product YuYu 22, which had a lower charge for technology usage fee, decreased in sales quantity from 55.07% in 2002 to 48.42% in 2003. Shipping and handling cost increased by 141.50% to RMB4.75 million in 2003 from RMB1.97 million in 2002 because of more use of trucks to transport seeds which was more expensive than use of train and long distance between planting station in Gansu to the manufacturing plant in northeast market. Manufacturing cost increased by 212% to RMB9.04 million (US\$1.09 million) in 2003 from RMB2.9 million (US\$0.35 million) in 2002. The increase of manufacturing cost is more than the increase of the quantity of seed sold was mainly due to an increase of RMB0.6 million (US\$0.07) for workers' salaries.

As a percentage of total net revenues, overall gross margins were 37.92% in 2003, as compared with 53.40% in 2002. This decrease in gross margins was primarily the result of higher salaries, increasing manufacturing costs, a slightly higher price per unit of purchased seeds, and an increase in shipping fees associated with entering the northeast market. Another important factor was management's decision to decrease the price of its leading product, YuYu 22, as part of a strategy to increase the sales volumes of other products that are complementary to it.

Selling and marketing expenses increased by 105.40% to RMB 13.31 million (US\$1.61 million) in 2003 from RMB 6.48 million (US\$0.78 million) in 2002. For the RMB13.3 1 million in 2003, approximately RMB 1.8 million (US\$ 0.22) was expended for advertising, RMB 1.2 million (US\$ 0.14 million) was expended for materials to educate customers about the basics of plant our seed production, RMB 6.13 million (US\$ 0.74 million) was spent for transportation and traveling, RMB1.48 million (US\$ 0.19 million) was spent for telecommunications, RMB2.64 million (US\$0.32 million) for salary and benefits. The increase of selling and marketing expenses was primarily due to an increase of adverting by RMB1.06 million (US\$0.13 million), an increase in materials to educate customer by RMB0.27 million (US\$0.03 million) for promoting new seed productions. And due to increase of sales volume, the transportation and traveling expenses increased RMB3.4 million (US\$0.41million), telecommunication cost increased RMB1.05 million (US\$0.13). In 2003, Origin set up two new sales branch in Tieling and Cheng du, which cause the increase of salary by RMB1.09 million (US\$0.13million).

General and administrative expenses increased 96.57% to RMB 18.95 million (US\$2.29 million) in 2003 from RMB9.64 million (US\$1.16 million) in 2002, primarily due to the increase in general personnel expenses by RMB 4.27 million (US\$ 0.52 million), office supplies & electricity cost increased by RMB 2.13 million (US\$ 0.26 million), depreciation and amortization expenses increased by RMB1.37 million (US\$0.16 million). These increase was primarily due to increase of the operation scales and the establishment of two new sales branches in Tieling and Chengdu.

Research and development expense was RMB 5.28 million (US\$ 0.64) and RMB 5.37 (US\$0.65) for 2003 and 2002 respectively, which consist primarily of salaries, welfare& benefits, depreciation & amortization, office supplies and electricity cost , lease fee for research. In order to maintain the leadership of seed technology, Origin maintain a high expense to research and development department. Income from operations increased by 104.69%, from RMB 35.12 million (US\$4.24 million) in 2003 to RMB 71.89 million (US\$8.69 million) in 2004. This increase in income from operations was primarily attributable to the large growth in overall revenues and the level of the costs for sales Origin maintained.

Income from operations increased by 12.49%, from RMB 31.22 million (US\$3.77 million) in 2002 to RMB 35.12 million (US\$4.24 million) in 2003. This increase in income from operations was less than the increase of revenue, mainly due to the decrease of gross margin, increase of operating expenses.

Other income decreased by 99.12% to RMB1.14 million (US\$0.14 million) in 2003 from RMB2.27 million (US\$0.27 million) in 2002 as a reduction of RMB1.50 million (US\$0.18million) from license income.

Income taxes increased 423.48% to RMB7.8 million (US\$0.94 million) in 2003 from RMB1.49 million (US\$0.18 million) in 2002. This increase was due to the increase of effective tax from 5% in 2002 to 21% in 2003.

Net income increased by 9% to RMB 28.95 million (US\$3.49 million) in 2003 from RMB 26.56 million (US\$3.21 million) in 2002. This increase of Net income was less than the increase of Revenue, mainly due to the decrease of gross margin, increase of operating expenses.

Origin financed its operations through cash generated from our operating activities and short term borrowings.

Origin's net cash provided by operating activities in 2004 was RMB42.74million (US\$5.16 million). This was primarily attributable to our net income of RMB65.4 million (US\$7.9 million), as adjusted for an add-back of RMB5.2 million (US\$0.6 million) in depreciation and amortization as a non-cash item, a RMB8.2 million (US\$0.9 million) increase in accounts payable, a RMB47 million (US\$5.6 million) increase in amounts due to growers and a RMB 5.2 million (US\$0.63 million) increase in advances from customers which was offset by a RMB64.9 million (US\$7.8 million) increase in inventories and a RMB 27 million (US\$3.2 million) decrease in advances from deferred revenues. Our net cash used in operating activities in 2003 was RMB14.9 million (US\$1.8million). This was primarily attributable to our net income of RMB28.9 million (US\$3.49 million), as adjusted for an add-back of RMB3.2 million (US\$0.38 million) in depreciation and amortization as a non-cash item, a RMB5.3 million (US\$0.64 million) decrease in accounts receivable and a RMB16 million (US\$1.9 million) increase in advances from customers which was offset by a RMB 55.9 million (US\$6.7 million) increase in inventories, a RMB7 million (US\$0.8 million) decrease in due to growers and a RMB 9 million (US\$1.1 million) decrease in deferred revenues. Our net cash provided by operating activities in 2002 was RMB55.9 million (US\$6.7 million). This was primarily attributable to our net income of RMB26.5 million (US\$3.2 million), as adjusted for a RMB 35.7 million (US\$4.3 million) increase in due to growers and a RMB69.9 million (US\$8.4 million) increase in deferred revenues which was offset by a RMB76.7 million (US\$9.2 million) increase in inventory.

Net accounts receivable decreased from RMB5 million (US\$0.6 million) as of December 31, 2002 to zero as of December 31, 2003 and remained nil as of

Edgar Filing: Origin Agritech LTD - Form S-4/A

December 31, 2004. This decrease was primarily due to the full settlement of accounts receivable and the cancellation of credit sale policy in 2003.

Inventories increased from RMB114.9 million (US\$13.88 million) as of December 31, 2002 to RMB170 million (US\$20 million) as of December 31, 2003 and to RMB235.8 million (US\$28.5 million) as of December 31, 2004. This increase was primarily due to the increase in inventory level so as to meet customer requirements and our scheduled production. Consistent with the nature of the seed industry, we generally produce in one growing season and then sell the seed inventories in the following season. It will take two years time so that the hybrid seeds are ready to be sold to the peasants. Any unfavorable weather may affect the output. As the finished goods can be kept for 3 years, we revised upward the safety level and trading level for keeping the inventories in 2003. In 2004, we started to deliver earlier to the farmers in the southwest region because sales have grown more rapidly in that region than originally anticipated.

Due to growers fluctuated from RMB42.5 million (US\$5.1 million) as of December 31, 2002 to RMB35 million (US\$4.2 million) as of December 31, 2003 and to RMB 83 million (US\$10 million) as of December 31, 2004. The fluctuation was primarily due to schedule of payment to farmers in 2003 and 2004 and an increase of 10 million kilogram seeds in 2004. The payment to growers is normally by installments, 45% when purchased the seeds, about 50% would be paid before the Chinese New Year. The date of Chinese New Year in 2003, 2004 and 2005 were February 1, January 22, and February 9 respectively. The last 5% would be paid several months later.

98

Deferred revenues decreased from RMB74.7 million (US\$9 million) as of December 31, 2002 to RMB65 million (US\$7.8 million) as of December 31, 2003 and to RMB37.9 million (US\$4.5 million) as of December 31, 2004. This decrease was primarily due to a boom in the seed market, because of which, many farmers had to prepay the full amount before they could get the seeds. The significant decrease in 2004 was caused by significant growth in sales of corn in the Southwestern region of China, where the sales season in most parts of the region ends much earlier than that of the company's other sales regions. Normally, we defer the recognition of revenue until services have been rendered, the price is fixed or determinable, collectibility is reasonably assured and the right of return has expired.

Net cash used in investment activities was RMB 27 million (US\$3 million) in 2004 of which RMB15 million (US\$1.8 million) was used in purchase of plant and equipment, RMB8 million (US\$0.9 million) in the acquisition of 8% interest in Chuang Shi Ji Zhuan Ji Yin Technology Co., Ltd. and RMB 3 million (US\$0.36 million) in the acquisition of technology usage agreements. Net cash used in investing activities was RMB32.9 million (US\$3.97 million) in 2003 of which RMB26.9 million (US\$3.2 million) was used in purchase of plant and equipment and RMB 5.9 million (US\$0.7 million) in the acquisition of land use rights. Net cash used in investing activities was RMB24.5 million (US\$2.9 million) in 2002 of which RMB20 million (US\$2.4 million) was used in purchase of plant and equipment and RMB 4.5 million (US\$0.5 million) in the acquisition of land use rights. The increase was primarily attributable to the amount of capital expenditure used for the construction of new headquarters offices in

Edgar Filing: Origin Agritech LTD - Form S-4/A

Beijing and for set up the manufacturing plant in Shenyang which amounted to RMB15 millions (US\$1.8 million). We spent RMB32 million (US\$3.8 million) capital expenditure in 2003 for setting up the new manufacturing plants in Changchun and Chengdu.

Net cash provided by financing activities was RMB 4 million (US\$0.48 million) in 2004, RMB 18 million (US\$2.1 million) in 2003 and RMB 10 million (US\$1.2 million) in 2002. The primary source of fund was short-term borrowings from the banks. All short-term borrowings were fully settled when due.

To date, Origin has funded its operations through revenues derived from operations and short-term borrowings. Due to the cyclical nature of the cash flow inherent in Origin's business, with the majority of revenues received just prior to the start of the planting season, the loans are bridge financing arrangements and use the company's bank credit facilities to cover operating expenses during low-revenue portions of the year.

The nature of Origin's business involves cycles in expenses and revenues that are not always in phase. Most often in the third calendar quarter of each year, Origin can face costs that are in excess of its revenue sources during that period. Whether that occurs, and to what extent it occurs, depends on the amount of deposits received from customers compared with the advanced payments made to its seed producing farmers and the final payment for seed procurement. The exact timing of these payments is determined by the Chinese lunar calendar. As a result, in some years its cash needs are greater than in others. This aspect of the business is the reason it has customarily relied upon short term bridge loans to cover its expenses pending receipt of revenues from farmers at the time of seed purchases.

Origin, on a consolidated basis, has had access to sufficient financing in the past to manage these cash flow cycles. As discussed above, it has consistently repaid its short-term borrowings at or before maturity. Its strengthening balance sheet has enabled Origin to secure this financing the past two fiscal years without the need for the third party guarantees needed initially, and the average rate of interest that it has had to pay has steadily declined over the past several years.

99

Origin believes that its cash and cash equivalents balance, together with its access to financing sources, will continue to be sufficient to meet the working capital needs associated with its current operations on an ongoing basis, although that cannot be assured. Also, it is possible that Origin's cash flow requirements could increase as a result of a number of factors, including unfavorable timing of cash flow events, the decision to increase investment in marketing and development activities or the use of cash for the acquisition of one or more of its competitors to accelerate its rate of growth.

Contractual Obligations and Commercial Commitments

Origin has various contractual obligations that will affect its liquidity. The following table sets forth the contractual obligations of Origin

Edgar Filing: Origin Agritech LTD - Form S-4/A

as of December 31, 2004:

Equivalent US\$	4,426,675	2,997,708	137,570	139,305	53,013

Other contractual commitments compose of capital commitment for the purchase of plant and equipment of RMB17,958,444 (US\$2,169,811) and share purchase commitment of RMB5,600,000 (US\$676,616).

Capital commitments for the purchase of plant and equipment, as of December 31, 2004 are as follows:

	RMB	US\$
Plant and building construction	16,255,074	1
Land use rights	1,200,000	
Equipment	503,370	
Total	17,958,444	2

Beijing Origin signed a contract on December 28, 2004 to purchase 7% of the total outstanding shares of Chuang Shi Ji Zhuan Ji Yin Technology Co., Ltd. for a total purchase price of RMB 5,600,000 (US\$676,614). Origin will pay the amount upon obtaining the necessary government approvals in 2005.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Operating lease

The Company leases certain office premises under non-cancelable leases. Rent expense under operating leases for the years ended December 31, 2004, 2003, and 2002 were RMB 2,867,698 (US\$346,487), RMB 2,015,914 (US\$243,571), and RMB 1,434,648 (US\$173,340), respectively.

Off-Balance Sheet Arrangements

Except as described above under "-Indebtedness", we have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third parties.

Quantitative and Qualitative Disclosures about Market Risk. Origin is exposed to various market risks, including: widespread drought, pestilence or other natural disasters, could damage seed production, in which event, Origin will suffer a loss of production and will suffer the consequential losses of revenues, and there is no agriculture insurance in China to cover loss of seed crops. Origin has attempted to manage this risk by obligating itself to pay the farmers who produce its seeds only for the quantity of seeds that they produce and setting up seed storage system in 2003. However, a significant portion of Origin's expenses are in the nature of fixed overhead, and in the event of a widespread failure of the seed crop, Origin would likely sustain substantial operating losses. In addition, there is a high risk for seed storage, due to difficulty in management of moisture, temperature, humidity of storage condition, any failure of which may result in damage of seeds in store and operating losses; seasonal nature associates with seed market. Sales season of main products of Origin last from October to June 31 next year, which results in cycle changes of cash flow and operating activities. Repeal of privileges granted by government to seed industry, such as tax exemption, reduction and subsidies could adversely affect Origin's earnings; changes in foreign currency exchange rates, all of Origin's product sales, assets and liabilities are denominated in RMB and therefore it is exposed to foreign currency exchange risk. For example, if Origin decides to convert Renminbi into US dollars for the purpose of declaring dividends on the ordinary shares for other business purposes and the US dollars appreciates against the Renminbi, the US dollar equivalent of the earnings from the subsidiaries and variable interest entities in China would be reduced. Origin has also not entered into financial instruments to manage and reduce the impact of changes in foreign currency exchange rates, although Origin may enter into such transactions in the future; Origin's exposure to changes in interest rates relates primarily to the interest income generated by the cash deposits in banks and interest expense arising from the short-term borrowings. Origin has not used derivative financial instruments to hedge interest rate risk. Origin has not been exposed nor do they anticipate being exposed to material risks due to changes in interest rates. The future interest income may fluctuate in line with changes in interest rates. However, the risk associated with fluctuating interest rates is principally confined to the cash deposits in banks and, therefore, the exposure to interest rate risk is minimal.

INFORMATION ABOUT CHARDAN

Business of Chardan

General

Chardan was formed on December 5, 2003, to serve as a vehicle to effect a stock purchase, capital stock exchange, asset acquisition or other similar business combination with an unidentified operating business with operations in the Peoples Republic of China and believed to have significant growth potential. Prior to executing the stock purchase agreement with the Origin Parties, Chardan's efforts were limited to organizational activities, completion of its initial public offering and the evaluation of possible business combinations.

Offering Proceeds Held in Trust

Chardan consummated its initial public offering on March 22, 2004. The net proceeds of the offering, after payment of underwriting discounts and expenses, were approximately \$21,242,000. Of that amount, \$20,527,500 was placed in the trust account and invested in government securities. The remaining proceeds have been used by Chardan in its pursuit of a business combination. The trust account will not be released until the earlier of the consummation of a business combination or the liquidation of Chardan. The trust account contained approximately \$_____ as of _____, 2005, the record date. If the stock purchase with the Origin Parties is consummated, the trust account will be released to Chardan, less:

- o amounts paid to stockholders of Chardan who do not approve the stock purchase and elect to convert their shares of common stock into their pro-rata share of the trust account; and
- o the \$9,750,000 (\$10,000,000, less the \$250,000 holdback) being paid to Origin and the Origin Stockholders in the stock purchase.

Fair Market Value of Target Business

Pursuant to Chardan's certificate of incorporation, the initial target business that Chardan acquires must have a fair market value equal to at least 80% of Chardan's net assets at the time of such acquisition. Chardan's board of directors determined that this test was clearly met in connection with its acquisition of Origin.

Stockholder Approval of Business Combination

Chardan will proceed with the acquisition of Origin only if a majority of all of the outstanding shares of Chardan is voted in favor of the stock purchase and redomestication merger proposals. The stockholders existing prior to the initial public offering have agreed to vote their common stock on these proposals in accordance with the vote of the majority offering. If the holders of 20% or more of Chardan's common stock vote against the stock purchase proposal and demand that Chardan convert their shares into, their pro rata share of the trust account, then Chardan will not consummate the stock purchase. In this case, Chardan would be able to present another potential business

Edgar Filing: Origin Agritech LTD - Form S-4/A

combination to its stockholders, subject to the time limitations set forth below.

102

Liquidation if no business combination

If Chardan does not complete a business combination by September 22, 2005, or by March 22, 2006 if the extension criteria described below have been satisfied, Chardan will be dissolved and will distribute to all of its public stockholders, in proportion to their respective equity interests, an aggregate sum equal to the amount in the trust account, inclusive of any interest, plus any remaining net assets. Chardan's existing stockholders have waived their rights to participate in any liquidation distribution with respect to shares of common stock owned by them immediately prior to the initial public offering. There will be no distribution from the trust account with respect to Chardan's warrants.

If Chardan were to expend all of the net proceeds of the initial public offering, other than the proceeds deposited in the trust account, the per-share liquidation price as of _____, 2005 would be \$_____, or \$_____ less than the per-unit offering price of \$6.00 in Chardan's initial public offering. The proceeds deposited in the trust account could, however, become subject to the claims of Chardan's creditors and there is no assurance that the actual per-share liquidation price will not be less than \$_____, due to those claims. If Chardan liquidates prior to the consummation of a business combination, Richard D. Propper, MD, chairman of the board, Jiangnan Huang, chief executive officer and director, Zhang Li, Chief Financial Officer and director, and Kerry S. Propper, executive vice president and director, will be personally liable to pay debts and obligations to vendors and certain other entities that are owed money by, or hold a claim against Chardan, in an amount in excess of the net proceeds of Chardan's initial public offering not held in the trust account. There is no assurance, however, that they would be able to satisfy those obligations.

If Chardan enters into either a letter of intent, an agreement in principle or a definitive agreement to complete a business combination prior to September 22, 2005, but is unable to complete the business combination by September 22, 2005, then Chardan will have an additional six months in which to complete the business combination contemplated by the letter of intent, agreement in principle or definitive agreement. If Chardan is unable to do so by March 22, 2006, upon notice from Chardan, the trustee of the trust account will commence liquidating the investments constituting the trust account and will turn over the proceeds to the transfer agent for distribution to the stockholders holding shares acquired through the initial public offering.

The stockholders holding shares of Chardan common stock issued in the initial public offering will be entitled to receive funds from the trust account only in the event of Chardan's liquidation or if the stockholders seek to convert their respective shares into cash and the stock purchase is actually completed. In no other circumstances shall a stockholder have any right or interest of any kind to or in the trust account.

Plan of Operations

The following discussion should be read in conjunction with Chardan's Financial Statements and related notes thereto included elsewhere in this proxy statement/prospectus.

Chardan was formed on December 5, 2003 to serve as a vehicle to effect a stock purchase, capital stock exchange, asset acquisition or other similar business combination with a currently unidentified business with operations in

Edgar Filing: Origin Agritech LTD - Form S-4/A

the PRC that Chardan believes has significant growth potential.

Chardan consummated its initial public offering on March 22, 2004.

The net loss of \$667,699 for the year ended December 31, 2004 consisted primarily of \$224,198 of travel and entertainment expenses, \$232,304 of consulting expenses, \$91,567 for directors and officers liability insurance, \$71,371 for a monthly administrative services agreement, \$174,999 for professional fees, \$13,964 for transfer agent fees and other formation expenses, operating costs of \$1,608 and franchise taxes of \$24,171, offset by interest income on the trust account investments, excluding deferred interest, in the amount of \$166,483. Of the consulting expenses, \$125,000 relates to an agreement Chardan entered into with Best of the Best during the quarter ended June 30, 2004, to assist in Chardan's search for prospective target companies in China. The consulting firm has also performed due diligence on prospective target businesses and assisted Chardan in structuring and consummating a business combination with Origin. In the event Chardan acquires Origin, we are obligated to pay the consulting firm an additional \$125,000.

Chardan has also employed a financial public relations firm for a period of one year, commencing in December 2004. Chardan agreed to an initial retainer of \$24,000 for the first two months of services to be paid \$20,000 on signing and the balance of \$4,000 payable upon closing of the proposed business combination. For the remaining 10 months, Chardan will pay \$10,000 per month, plus reasonable and necessary out-of-pocket expenses. The monthly payment will accrue until the closing of the proposed business combination. The agreement is renewed automatically for successive one year periods unless notice of termination is given 30 days in advance of the renewal date.

\$20,527,500 of the net proceeds of the initial public offering are in trust, with the remaining net proceeds of approximately \$714,500 to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. The amount of net proceeds to be available for these purposes was determined through discussion with the underwriters of the initial public offering and based on the experience of other companies engaged in similar business endeavors.

Chardan has incurred expenses in excess of the net proceeds not held in the trust account from its initial public offering. The reason for this is in part due to unanticipated additional expenses, including the costs associated with a transaction that was not pursued, greater costs in the due diligence process, and unanticipated additional travel between the United States and China. All of the net proceeds of its initial public offering not held in trust will be used to identify and evaluate prospective acquisition candidates, select the target business, and structure, negotiate and consummate the business combination.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Chardan intends to utilize its cash, including the funds held in the trust account, capital stock, debt or a combination of the foregoing to effect a business combination. To the extent that its capital stock or debt securities are used in whole or in part as consideration to effect a business combination, the proceeds held in the trust account as well as any other available cash will be used to finance the operations of the target business. At March 31, 2005, we had cash outside of the trust account of \$19,974, and total liabilities of \$421,291, leaving Chardan with working capital of \$20,442,666 or (\$401,317), excluding investments held in trust. If Chardan is unable to consummate its proposed business combination with Origin discussed above in Item 1, it does not believe it will have sufficient available funds outside of the trust account to operate through March 22, 2006. Accordingly, Chardan intends to seek alternative funds through borrowings, including from its officers and directors who have indicated their willingness to lend the necessary sums.

Chardan is obligated to pay to Chardan Ventures LLC a monthly fee of \$7,500 for general and administrative services. In addition, in December 2003 and January 2004, Kerry Propper, Chardan's executive vice president, advanced an aggregate of \$70,000 to us, on a non-interest bearing basis, for payment of offering expenses on Chardan's behalf. These amounts were repaid in March 2004 out of proceeds of its initial public offering.

Chardan is obligated, commencing April 1, 2004, to pay to Chardan Ventures, an affiliate of Dr. Richard D. Propper, its chairman of the board, Jiangnan Huang, a director and chief executive officer and Zhang Li, a director and chief financial officer, a monthly fee of \$7,500 for general and administrative services.

Off-Balance Sheet Arrangements.

PRO FORMA

UNAUDITED PRO FORMA CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following unaudited pro forma condensed consolidated balance sheet combines the consolidated historical balance sheet of State Harvest Holdings Limited, a BVI company, and the Origin Operating Companies (together, "Origin") and the historical balance sheet of Chardan Capital Acquisition Corp. ("Chardan") as of December 31, 2004.

Edgar Filing: Origin Agritech LTD - Form S-4/A

The following unaudited pro forma condensed consolidated statements of operations combine the historical statements of operations of Origin and Chardan for the year ended December 31, 2004, giving effect to the transaction described in the Stock Purchase Agreement, dated December 20, 2004 (the "Transaction"), as if it had occurred on January 1, 2004.

The unaudited pro forma condensed consolidated balance sheet at December 31, 2004 and the statement of operations for the year then ended has been prepared using two different levels of approval of the Transaction by the Chardan stockholders, as follows:

- o Assuming Maximum Approval: This presentation assumes that 100% of Chardan stockholders approve the Transaction; and
- o Assuming Minimal Approval: This presentation assumes that only 80.1% of Chardan stockholders approve the Transaction.

We are providing this information to aid you in your analysis of the financial aspects of the Transaction. The unaudited pro forma condensed consolidated financial statements described above should be read in conjunction with the historical financial statements of Origin and Chardan and the related notes thereto. The unaudited pro forma information is not necessarily indicative of the financial position or results of operations that may have actually occurred had the Transaction taken place on the dates noted, or the future financial position or operating results of the combined company.

The unaudited pro forma condensed consolidated financial statements were prepared treating the Transaction as a recapitalization of Origin. Since Chardan is not an operating company, the Transaction is treated as the issuance of shares of Origin for the net tangible assets (consisting principally of cash) of Chardan. Therefore, no goodwill has been recorded in the Transaction.

Meetings and Committees of the Board of Directors of Chardan

During the fiscal year ended December 31, 2004, Chardan's board of directors held four meetings. Although Chardan does not have any formal policy regarding director attendance at annual stockholder meetings, Chardan attempts to schedule its annual meetings so that all of its directors can attend. In addition, Chardan expects its directors to attend all board and committee meetings and to spend the time needed and meet as frequently as necessary to properly discharge their responsibilities.

Independence of Directors

In anticipation of being listed on the Nasdaq National Market, Agritech will elect to follow the rules of Nasdaq in determining whether a director is independent. The board of directors of Agritech also will consult with the Company's counsel to ensure that the board's determinations are consistent with those rules and all relevant securities and other laws and regulations regarding the independence of directors. The Nasdaq listing standards define an "independent director" generally as a person, other than an officer of the company, who does not have a relationship with the company that would interfere with the director's exercise of independent judgment. Consistent with these considerations, the board of directors of Agritech has affirmatively determined that, upon the appointment to the board of directors of Agritech on the closing of the stock purchase, Messrs. Da Fang Huang, Bailiang Zhang, Steven Urbach, Michael D. Chermak and Remo Richli will be the independent directors of Agritech for the ensuing year. The other directors are not independent.

Chardan currently does not have an independent board of directors and is not required to have one.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Audit Committee

In anticipation of being listed on the Nasdaq National Market, Agritech will establish an audit committee to be effective at the consummation of the stock purchase the members will be: Remo Richli (chairman), Steven Urbach and Michael Chermak. As required by Nasdaq listing standards, Chardan's audit committee is comprised of at least three independent directors who are also "financially literate." The listing standards define "financially literate" as being able to read and understand fundamental financial statements, including a company's balance sheet, income statement and cash flow statement. Messrs. Richli, Urbach and Chermak are financially literate. The board of directors believes that each audit committee member has an understanding of generally accepted accounting principles and financial statements, the ability to assess the general application of such principles in connection with the company's financial statements, including estimates, accruals and reserves, experience in analyzing or evaluating financial statements of similar breadth and complexity as the company's financial statements, an understanding of internal controls and procedures for financial reporting and an understanding of audit committee functions.

Audit Committee Financial Expert

The board of directors believes that Mr. Remo Richli, a director of Agritech, will qualify as an "audit committee financial expert" within the meaning of all applicable rules. The board of directors believes that Mr. Richli has financial expertise from his degrees in business, his activities as a chief executive officer and chief financial officer of various companies, and his consulting activities in the areas of accounting, corporate finance, capital raising and corporate financial analysis.

115

Current Chardan Board of Directors

In March 2005, the board of directors of Chardan established an audit committee. The sole member of the committee is Mr. Michael Chermak, who is an "independent director" and who is considered "financially literate," as such terms are defined by Nasdaq. In March 2005 the board of directors adopted an audit committee charter. Pursuant to the terms of the charter, the audit committee's responsibilities include, among other things:

- o annually reviewing and reassessing the adequacy of the committee's formal charter;
- o reviewing our annual audited financial statements with our management and our independent auditors and the adequacy of our internal accounting controls;
- o reviewing analyses prepared by management and independent auditors concerning significant financial reporting issues and judgments made in connection with the preparation of our financial statements;
- o the engagement of the independent auditor;
- o reviewing the independence of the independent auditors;
- o reviewing our auditing and accounting principles and practices with the independent auditors and reviewing major changes to our auditing and accounting principles and practices as suggested by the

Edgar Filing: Origin Agritech LTD - Form S-4/A

independent auditor or our management;

- o the appointment of the independent auditor to the board of directors, which firm is ultimately accountable to the audit committee and the board of directors;
- o approving professional services provided by the independent auditors, including the range of audit and non-audit fees; and
- o reviewing all related party transactions on an ongoing basis for potential conflict of interest situations.

The audit committee will pre-approve the services to be provided by its independent auditors going forward. The audit committee also reviews and recommends to the board of directors whether or not to approve transactions between the company and an officer or director outside the ordinary course.

Meetings and Attendance

As the Chardan audit committee was not formed until March 2005, it did not meet in the year ended December 31, 2004.

Independent Auditors' Fees

Goldstein Golub Kessler LLP ("GGK") has a continuing relationship with American Express Tax and Business Services Inc. ("TBS") from which it leases auditing staff who are full time, permanent employees of TBS and through which its partners provide non-audit services. As a result of this arrangement, GGK has no full time employees and therefore, none of the audit services performed were provided by permanent full-time employees of GGK. GGK manages and supervises the audit and audit staff, and is exclusively responsible for the opinion rendered in connection with its examination.

116

Other services, which do not include Financial Information System Design and Implementation fees, have been provided by TBS.

Audit Fees

During the fiscal year ended December 31, 2004, Chardan paid, or expect to pay, Chardan's principal accountant \$20,000 for the services they performed in connection with the initial public offering, including the financial statements included in the Current Report on Form 8-K filed with the Securities and Exchange Commission on March 22, 2004, \$2,000 in connection with the 2003 Form 10-KSB, \$15,000 in connection with the review of the Quarterly Reports on Form 10-QSB, and approximately \$12,000 in connection with the December 31, 2004 audit and Form 10-KSB.

Audit-Related Fees

During 2004, Chardan's principal accountant did not render assurance and related services reasonably related to the performance of the audit or review of financial statements.

Tax Fees

During 2004, Chardan paid TBS approximately \$1,900 for tax compliance.

All Other Fees

Edgar Filing: Origin Agritech LTD - Form S-4/A

During 2004, there were no fees billed for products and services provided by the principal accountant to Chardan other than those set forth above.

Audit Committee Pre-Approval Policies and Procedures

In accordance with Section 10A(i) of the Securities Exchange Act of 1934, before the company engages its independent accountant to render audit or permitted non-audit services, the engagement will be approved by the audit committee.

Audit Committee Report

As the audit committee of Chardan was not be formed until March 2005, it has not yet met in respect of the end of a fiscal year or prepared a committee report.

Code of Ethics

In anticipation of the stock purchase, the board of directors of Agritech will adopt a code of ethics that applies to Agritech's directors, officers and employees as well as those of its subsidiaries. A copy of the form of Agritech's code of ethics has been filed as an annex to this proxy statement. Requests for copies of Agritech's code of ethics should be sent in writing to Chardan China Acquisition Corp., 625 Broadway, Suite 111, San Diego, California 92101, Attention: Secretary.

Chardan has not yet adopted a formal code of ethics statement because the board of directors evaluated the business of the company and the number of employees and determined that since the business is largely limited to maintaining its cash investments while its searches for a target company and consummates an acquisition and the only persons acting for Chardan are the five directors who are also the officers, general rules of fiduciary duty and federal and state securities laws are adequate ethical guidelines.

117

Stock Option Committee Information

Upon consummation of the stock purchase, the board of directors of Agritech will establish a stock option committee with Steven Urbach and Remo Richli as its members. The purpose of the stock option committee will be to administer the company's stock option plans, including authority to make and modify awards under such plans. Initially, the plan will be the Chardan 2005 Performance Equity Plan, as assumed by Agritech. Since the plan has not yet been approved, the stock option committee has not had any meetings and no options or other awards have been granted under the plan.

Nominating Committee Information

In anticipation of being listed on the Nasdaq National Market, Agritech will form a nominating committee in connection with the consummation of the stock purchase. The members will be Steven Urbach, Remo Richli and Michael D. Chermak, each an independent director under Nasdaq listing standards. The nominating committee will be responsible for overseeing the selection of persons to be nominated to serve on Agritech's board of directors. The nominating committee will consider persons identified by its members, management, stockholders, investment bankers and others. A copy of the form of nominating committee charter is attached as an annex to this proxy statement.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Chardan does not have any restrictions on stockholder nominations under its certificate of incorporation or by-laws. The only restrictions are those applicable generally under Delaware corporate law and the federal proxy rules. Prior to the consummation of the stock purchase agreement, Chardan has not had a nominating committee or a formal means by which stockholders can nominate a director for election. Currently the entire board of directors decides on nominees, on the recommendation of one or more members of the board. None of the members of the board of directors are "independent." Currently, the board of directors will consider suggestions from individual stockholders, subject to evaluation of the person's merits. Stockholders may communicate nominee suggestions directly to any of the board members, accompanied by biographical details and a statement of support for the nominees. The suggested nominee must also provide a statement of consent to being considered for nomination. Although there are no formal criteria for nominees, the board of directors believes that persons should be actively engaged in business endeavors, have a financial background, and be familiar with acquisition strategies and money management.

Because the management and directors of Chardan are the same persons, the board of directors has determined not to adopt a formal methodology for communications from stockholders on the belief that any communication would be brought to the boards' attention by virtue of the co-extensive employment.

Director Compensation

Agritech intends to pay its non-employee directors a per diem for each board meeting that they attend, reimburse their expenses incurred in attending meetings and award options to purchase shares of common stock to be issued on election, exercisable at the market price of the common stock on the date of issuance, vesting immediately and exercisable for five years. The options will be issued under the stock option plan approved by the board of directors and stockholders pursuant to this proxy statement and the underlying common stock will be registered for issuance upon exercise. The amounts of compensation and numbers of shares subject to options have not been determined.

118

Chardan's directors do not currently receive any cash compensation for their service as members of the board of directors.

Executive Compensation

Each of Dr. Gengchen Han and Messrs. Liang Yuan and Yasheng Yang will enter into employment agreements with Origin, effective as of the effective time of the redomestication merger. Dr. Han will be employed as the chairman and chief executive officer, Mr. Yuan will be the executive vice chairman and Mr. Yang will be president and chief operating officer. The agreements will provide for an annual salary of \$250,000 and a discretionary cash bonus based on growth in the combined company's per-share value, achievement of growth and business targets, satisfaction of company capital requirements and other criteria, as the compensation committee determines. The executives will be entitled to insurance benefits, five weeks vacation, a car and reimbursement of business expenses and, if necessary, relocation expenses. The agreements will be terminable by Origin for death, disability and cause. The executive may terminate for good reason, which includes Origin's breach, the executive not being a member of the board of directors, and change of control. In the event of termination for good reason, the executive will receive two years compensation and benefits. The agreements

Edgar Filing: Origin Agritech LTD - Form S-4/A

contain provisions for the protection of confidential information and a three-year-after employment non-competition period within China. In the purchase agreement, there is an additional non-competition agreement applicable to these persons for the greater of five years after consummation or two years after employment that includes Hong Kong and Taiwan, in addition to China.

Chardan Executive Officers

No executive officer of Chardan has received any cash or non-cash compensation for services rendered to Chardan. Each executive officer has agreed not to take any compensation prior to the consummation of a business combination.

119

Commencing April 1, 2004 and ending upon the acquisition of a target business, Chardan has paid and will continue to pay an administrative services fee totaling \$7,500 per month to Chardan Ventures for providing Chardan with office space and certain office and secretarial services. Other than this \$7,500 per month in fees, no compensation of any kind, including finders and consulting fees, has been or will be paid to any of the Chardan stockholders existing prior to its initial public offering, or any of their respective affiliates, for services rendered prior to or in connection with a business combination. However, Chardan stockholders existing prior to its initial public offering have been and will continue to be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf, such as identifying potential

Edgar Filing: Origin Agritech LTD - Form S-4/A

target businesses and performing due diligence on suitable business combinations.

Executive Compensation Determination

It is the intention of Agritech to determine executive compensation by a decision of the majority of the independent directors, at a meeting at which the chief executive officer will not be present. In the future, the board may establish a committee. At this time, Agritech does not believe a separate committee is necessary because the senior executives of the company are employed under written compensation agreements and the Stock Purchase Agreement provides for equity-based incentive compensation, all of which agreements were negotiated by the Chardan board of directors in arms-length negotiations.

125

DESCRIPTION OF THE COMBINED COMPANY'S
SECURITIES FOLLOWING THE STOCK PURCHASE

The following description of the material terms of the capital stock and warrants of the combined company following the stock purchase includes a summary of specified provisions of the certificate of incorporation and by-laws of Agritech that will be in effect upon completion of the stock purchase and the merger. This description is subject to the relevant provisions of the Corporation Law of the British Virgin Islands and is qualified by reference to Agritech's certificate of incorporation and by-laws, copies of which are attached to this proxy statement/prospectus and are incorporated in this proxy statement/prospectus by reference.

General

The combined company has no authorized share capital, but it will be authorized to issue 61,000,000 shares of all classes of capital stock, of which 60,000,000 will be ordinary shares, no par value and 1,000,000 will be preference shares of, no par value. The capital of Agritech will be stated in United States dollars.

Ordinary Shares

The holders of the combined company's ordinary shares are entitled to one vote for each share on all matters submitted to a vote of stockholders and do not have cumulative voting rights. Subject to the preferences and rights, if any, applicable to the shares of preference stock, the holders of the ordinary shares are entitled to receive dividends if and when declared by the board of directors. Subject to the prior rights of the holders, if any, of the preference shares, the holders of the ordinary shares are entitled to share ratably in any distribution of the assets of the combined company upon liquidation, dissolution or winding-up, after satisfaction of all debts and other liabilities.

Preference Stock

Shares of preference stock may be issued from time to time in one or more series and the board of directors of Agritech, without approval of the stockholders, is authorized to designate series of preference stock and to fix the rights, privileges, restrictions and conditions to be attached to each such series of shares of preference stock. The issuance of shares of preference stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, adversely affect the voting power of holders of the combined company's shares of common stock.

As of the date of this proxy statement/prospectus, there are no outstanding shares of preference stock of any series.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Anti-takeover Effect of Unissued Shares of Capital Stock

Common Stock. After the stock purchase and redomestication merger, Agritech will have outstanding approximately 15,100,000 shares of common stock, assuming that none of the public stockholders elects to exercise the conversion rights. The remaining shares of authorized and unissued common stock will be available for future issuance without additional stockholder approval. While the additional shares are not designed to deter or prevent a change of control, under some circumstances the combined company could use the additional shares to create voting impediments or to frustrate persons seeking to effect a takeover or otherwise gain control by, for example, issuing those shares in private placements to purchasers who might side with the combined company's board of directors in opposing a hostile takeover bid.

126

Preference Stock. The memorandum and articles will grant the board of directors the authority, without any further vote or action by the combined company's stockholders, to issue preference stock in one or more series and to fix the number of shares constituting any such series and the preferences, limitations and relative rights, including dividend rights, dividend rate, voting rights, terms of redemption, redemption price or prices, conversion rights and liquidation preferences of the shares constituting any series. The existence of authorized but unissued preference stock could reduce the combined company's attractiveness as a target for an unsolicited takeover bid since the combined company could, for example, issue shares of preference stock to parties who might oppose such a takeover bid or shares that contain terms the potential acquirer may find unattractive. This may have the effect of delaying or preventing a change in control, may discourage bids for the common stock at a premium over the market price of the common stock, and may adversely affect the market price of, and the voting and other rights of the holders of, common stock.

Warrants

As of _____, 2005, there were 8,050,000 warrants outstanding. Each warrant entitles the registered holder to purchase one share of our common stock at a price of \$5.00 per share, subject to adjustment as discussed below, at any time commencing on the later of:

- o the completion of the stock purchase; or
- o March 16, 2005.

The warrants will expire at 5:00 p.m., New York City time on March 16, 2008. Chardan may call the warrants for redemption with EarlyBirdCapital's prior consent:

- o in whole and not in part;
- o at a price of \$.01 per warrant at any time after the warrants become exercisable;
- o upon not less than 30 days' prior written notice of redemption to each warrant holder; and
- o if, and only if, the reported last sale price of the common stock equals or exceeds \$8.50 per share, for any 20 trading days within a

Edgar Filing: Origin Agritech LTD - Form S-4/A

30 trading day period ending on the third business day prior to the notice of redemption to warrant holders.

The warrants have been issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and Chardan.

The exercise price and number of shares of common stock issuable on exercise of the warrants may be adjusted in certain circumstances, including in the event of a stock dividend, recapitalization, reorganization, stock purchase or consolidation of the company. However, the warrants will not be adjusted for issuances of common stock at a price below their respective exercise prices.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price, by certified check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of common stock and any voting rights until they exercise their warrants and receive common stock. After the issuance of shares of common stock upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by stockholders.

127

The warrants may be deprived of any value and the market for the warrants may be limited if the prospectus relating to the common stock issuable upon the exercise of the warrants is not current or if the common stock is not qualified or exempt from qualification in the jurisdictions in which the holders of the warrants reside. No fractional shares will be issued upon exercise of the warrants. However, if a warrant holder exercises all warrants then owned of record by him, Chardan will pay to the warrant holder, in lieu of the issuance of any fractional share which is otherwise issuable to the warrant holder, an amount for such fractional share in cash based on the market value of the common stock on the last trading day prior to the exercise date.

Purchase Option

Chardan has issued to the representative of the underwriters of its initial public offering an option to purchase up to a total of 350,000 units at a per-unit price of \$9.90, commencing on the later of the consummation of the stock purchase or March 16, 2005. The option expires on March 16, 2009. The units issuable upon exercise of this option are the same as the publicly traded units, consisting of one share of common stock and two warrants, except that the warrants are exercisable at \$6.40. The option contains demand and piggy-back registration rights for period of five and seven years, respectively, and the combined company will bear the expenses of the registration of the securities for the holders of the option. The exercise price and number of units are subject to adjustment in certain circumstances, including a stock dividend, recapitalization reorganization, merger or consolidation.

Registration Rights Agreements

Chardan has entered into a registration rights agreement providing for the registration of the shares of common stock issued prior to the initial public offering and included in the purchase option. The warrants, to be exercisable, must also continue to have the common stock underlying the warrants registered on an effective registration statement.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF
DIRECTORS AND SHAREHOLDERS OF
STATE HARVEST HOLDINGS LIMITED

We have audited the accompanying consolidated balance sheets of State Harvest Holdings Limited and its subsidiaries (the "Company") as of December 31, 2002, 2003 and 2004 and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years ended December 31, 2004, all expressed in Renminbi. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of the internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2002, 2003 and 2004 and the results of its operations and its cash flows for each of the three years ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America.

Our audits also comprehended the translation of Renminbi amounts into United States Dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2. Such United States Dollar amounts are presented solely for the convenience of the readers.

STATE HARVEST HOLDINGS LIMITED
 NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2002, 2003 AND 2004

1. ORGANIZATION AND PRINCIPAL ACTIVITIES

Edgar Filing: Origin Agritech LTD - Form S-4/A

Beijing Origin Seed Technology Inc. ("Beijing Origin") was established on December 26, 1997 as a private limited liability company in the People's Republic of China ("PRC") with an initial operating period of twenty years.

On September 26, 2003, under PRC law, Beijing Origin was converted from a private limited liability company to a joint stock company in order to issue common shares. The registered capital, together with the reserves, were converted into common shares.

Beijing Origin has six branches located in Lin Ze of Gan Su Province; Zheng Zhou of He Nan Province; Cheng Du of Si Chuan Province; Tie Ling and Shen Yang of Liao Ning Province; Bao Ding of He Bei Province, respectively. Beijing Origin is the majority stockholder of two subsidiaries with 90% and 99% shareholding, respectively, (1) He Nan Origin Cotton Technology Limited ("He Nan Cotton"), (2) Chang Chun Origin Seed Technology Development Limited ("Chang Chun Origin"). Beijing Origin and its subsidiaries were engaged in the research, development, and distribution of hybridized corn seed and other agriculture seed.

State Harvest Holdings Limited ("State Harvest") was incorporated under the laws of the British Virgin Islands on October 6, 2004. On December 1, 2004, State Harvest established Beijing Origin State Harvest Biotechnology Limited ("BioTech"), a wholly foreign owned enterprise under the laws of PRC with an operating period of 20 years.

PRC regulations restrict direct wholly foreign ownership of seed industry in the PRC. In order to comply with these regulations while allowing foreign indirect participation, State Harvest conducts substantially all of its business through its variable interest entity Beijing Origin, including Beijing Origin subsidiaries: He Nan Cotton and Chang Chun Origin.

Beijing Origin entered into Technical Service Agreements with BioTech. Under these agreements, BioTech shall provide, with its own technical research resource and team, technical services for the production and distribution of agricultural seeds during the period of this agreement. In return, Beijing Origin is required to pay BioTech a service fee calculated according to the weight of corn, rice and cotton seeds sold by the Beijing Origin.

In addition, State Harvest has been assigned 97.96% voting rights by the stockholders of Beijing Origin through a Consignment Agreement which includes the following terms: (1) the shares of Beijing Origin cannot be transferred without the approval of State Harvest; (2) State Harvest has the right to appoint all directors and senior management personnel of Beijing Origin and (3) the stockholder rights including voting rights require the transfer of the shares of Beijing Origin to State Harvest or any party designated by the Company within three years upon the removal of the PRC legal restriction.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Through the consignment agreement described above, State Harvest is deemed the sole beneficiary of Beijing Origin resulting in Beijing Origin being deemed a subsidiary of State Harvest under the requirements of FIN 46 (Revised) "Consolidation of Variable Interest Entities" ("FIN 46 (R)"). The agreements described above provided for effective control of Beijing Origin and its subsidiaries, He Nan Cotton and Chang Chun Origin to be transferred to State Harvest at December 25, 2004. Neither State Harvest nor BioTech had any operating activity prior to entering into the consignment agreement with Beijing Origin. In substance, State Harvest has substantially the same stockholders of Beijing Origin. This transaction has been accounted for as a reorganization of entities under common control. Accordingly, State Harvest's consolidated financial statements are prepared by including the consolidated financial statements of Beijing Origin and its subsidiaries through December 24, 2004, and subsequently the Company's consolidated financial statements includes State Harvest and its subsidiary and Beijing Origin and its subsidiaries.

Basis of presentation

The consolidated financial statements of the Company are prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Basis of consolidation

The consolidated financial statements include the financial statements of State Harvest, its majority owned subsidiary and its Variable Interest Entities, Beijing Origin and its majority-owned subsidiary. All significant inter-company transactions and balances are eliminated in consolidation.

Investments in operating companies in which the Company has the ability exercise significant influence, which is normally indicated by a 20% to 50% interest, are accounted for under the equity method. The Company's share of these companies' earnings or losses are included in the consolidated statement of operations.

Convenience translation into United States dollars

The consolidated financial statements are presented in Renminbi ("RMB"). The translation of RMB amounts into United States dollars has been made for the convenience of the reader and has been made at the exchange rate quoted by the People's Bank of China on December 31, 2004 of RMB 8.2765 to US\$1.00. Such translation amounts should not be construed as representations that the RMB amounts could be readily converted into United States dollars at that rate or any other rate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Use of estimates

The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates are adjusted to reflect actual experience when necessary. Significant accounting estimates reflected in the Company's consolidated financial statements include revenue recognition, inventory valuation, allowance for doubtful accounts, useful lives of plant and equipment and intangible assets, and the valuation allowance for deferred income taxes. Actual results could differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and highly liquid investments which are unrestricted as to withdrawal or use, and which have maturities of three months or less when purchased.

Concentrations of credit risk

Financial instruments that subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents. The Company maintains its cash and cash equivalents with high-quality institutions and only invests in high quality credit instruments. Deposits held with banks may exceed the amount of insurance provided on such deposits. Generally these deposits may be redeemed upon demand and therefore bear minimal risk.

Inventories

Inventories are stated at the lower of cost or market value. Actual cost is used to value raw materials and supplies. Finished goods and work in process are valued at weighted-average actual cost. Weighted-average actual cost includes packaging costs and manufacturing overhead costs.

Land use rights, net

Land use rights are recorded at cost less accumulated amortization. Amortization is provided over the term of the land use right agreement on a straight-line basis for 50 years.

STATE HARVEST HOLDINGS LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued FOR THE YEARS ENDED DECEMBER 31, 2002, 2003 AND 2004

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Plant and equipment, net

Edgar Filing: Origin Agritech LTD - Form S-4/A

Plant and equipment are recorded at cost less accumulated depreciation and amortization. Depreciation and amortization are calculated on a straight-line basis over the following estimated useful lives:

Leasehold improvements	Shorter of the useful lives or the lease te
Plant and building	20-40 ya
Machinery and equipment	10-15 ya
Furniture and office equipment	5 ya
Motor vehicles	5 ya

The Company constructs certain of its plant and facilities. In addition to costs under construction contracts, external costs directly related to the construction of such facilities, including duty and tariff, and equipment installation and shipping costs, are capitalized. Depreciation is recorded at the time assets are placed in service.

Acquired intangible assets, net

Acquired intangible assets consist primarily of purchased technology rights and are stated at cost less accumulated amortization. Amortization is calculated on a straight-line basis over the estimated useful lives of these assets of 6 to 10 years and recorded in cost of revenues.

Impairment of long-lived assets

The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable. When these events occur, the Company measures impairment by comparing the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from the use of the asset and eventual disposition. If the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment loss, equal to the excess of the carrying amount over the fair market value of the asset, is recognized.

Due to growers

The Company purchases seeds from the growers throughout the operating cycle. The majority of the seeds are purchased from the growers from the end of November through the following February.

Advances from customers

Beginning in 2003, due to the high demand for the Company's products, the Company requires all customers to pay cash in full prior to delivery of the seeds. Advances from customers represent cash received from customers in advance of fulfilling a customer's purchase order. Revenues related to such transactions are recognized when the seeds are delivered and all other revenue recognition criteria are met.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEARS ENDED DECEMBER 31, 2002, 2003 AND 2004

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Revenue recognition

The Company derives its revenue primarily from the sale of various branded conventional seeds and branded seeds with biotechnology traits.

Revenue is recognized when pervasive evidence of an arrangement exists, services have been rendered, the price is fixed or determinable, collectibility is reasonably assured and the right of return has expired. Accordingly, the Company defers revenue until all sale return privileges lapse generally occurs within 15 days of delivery, at which time the selling price has been finalized with the customer.

Amounts billed in excess of revenue recognized are recorded as deferred revenue.

Government subsidies

The Company receives government subsidies in the form of funds for research and development activities and subsidies which reduce the cost of land use rights.

(a) The Company received RMB610,000, RMB1,137,139 and RMB 70,960, to fund research and development activities for the years ended December 31, 2002, 2003 and 2004, respectively.

(b) The Company received a government incentive of RMB 5,005,148 and RMB3,719,940 for the year ended December 31, 2003 and 2004, respectively, in the form of a reduction in the cost of land use rights.

Research and development costs

Research and development costs relating to the development of new products and processes, including significant improvements and refinements to existing products, are expensed as incurred.

Advertising costs

Advertising costs are expensed as incurred. Advertising expenses were RMB817,689, RMB1,806,363 and RMB3,153,745, for the years ended December 31, 2002, 2003 and 2004, respectively, and included as part of selling and marketing expenses.

Income taxes

Deferred income taxes are recognized for the future tax consequences of temporary differences between the tax basis of assets and liabilities and their reported amounts in the consolidated financial statements, net operating loss carry forwards and credits. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Current income taxes are provided for in accordance with the laws of the relevant taxing authorities.

Fair value of financial instruments

The carrying amounts of financial instruments, consisting primarily of cash and cash equivalents, accounts receivables, accounts payable, accrued liabilities, advances from and payables to growers, short-term borrowings, and income taxes payable, approximate their fair values due to the short-term maturity of these instruments.

Shipping and Handling costs

The Company includes shipping and handling costs as either cost of goods sold or selling and administrative expenses depending on the nature of the expenses. The shipping and handling costs included as part of cost sold in the statement of operations for the years ended 2002, 2003 and 2004 was RMB1,968,015, RMB4,752,863 and RMB8,089,211, respectively. The shipping and handling costs included as part of selling and marketing expenses in the statement of operations for the years ended 2002, 2003 and 2004 was RMB1,405,049, RMB3,981,134 and RMB6,321,683, respectively.

Recently issued accounting standards

In May 2003, the Financial Accounting Standards Board ("FASB") issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity." The Statement establishes standards for how an issuer classifies and measures certain financial instruments. This Statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The Statement requires that certain financial instruments that, under previous guidance, issuers could account for as equity be classified as liabilities (or assets in some circumstances) in statement of positions or consolidated balance sheets, as appropriate. The financial instruments within the scope of this Statement are: (i) mandatory redeemable shares that an issuer is obligated to buy back in exchange for cash or other assets; (ii) financial instruments that do or may require the issuer to buy back some of its shares in exchange for cash or other assets; and (iii) financial instruments that embody an obligation that can be settled with shares, the monetary value of which is fixed, tied solely or predominantly to a variable such as a market index, or varies inversely with the value of the issuer's shares (excluding certain financial instruments indexed partly to the issuer's equity shares and partly but not predominantly, to something else). This Statement does not apply to features embedded in a financial instrument that is not a derivative in

Edgar Filing: Origin Agritech LTD - Form S-4/A

its entirety. The Statement also requires disclosures about alternative ways of settling the instruments and the capital structure of entities, all of whose shares are mandatory redeemable. The adoption of SFAS No. 150 did not have a material impact on the company's financial position, cash flows or results of operations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

In January 2003, the FASB issued Interpretation No. ("FIN") 46, "Consolidation of Variable Interest Entities." FIN 46 clarifies the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements," and provides guidance on the identification of entities for which control is achieved through means other than voting rights ("variable interest entities" or "VIEs") and how to determine when and which business enterprise should consolidate the VIEs. This new model for consolidation applies to an entity in which either: (1) the equity investors (if any) lack one or more characteristics deemed essential to a controlling financial interest or (2) the equity investment at risk is insufficient to finance that entity's activities without receiving additional subordinated financial support from other parties. FIN 46 was applicable for periods ending December 15, 2003. In December 2003, the FASB issued FIN 46 (revised), "Consolidation of Variable Interest Entities" ("FIN 46-R"), which provides for the deferral of implementation date to the end of the first reporting period after December 15, 2004, unless the group has a special purpose entity, in which case the provision must be applied for fiscal years ending December 31, 2004. The company has adopted the provisions of FIN 46 (revised) since December 25, 2004.

In December 2003, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin ("SAB") No. 104, "Revenue Recognition." SAB No. 104 revises or rescinds portions of the interpretative guidance included in Topic 13 of the codification of staff accounting bulletins in order to make this interpretive guidance consistent with current authoritative accounting and auditing guidance and SEC rules and regulations. It also rescinds the Revenue Recognition in Financial Statements Frequently Asked Questions and Answers document issued in conjunction with Topic 13. Selected portions of that document have been incorporated into Topic 13. The adoption of SAB No. 104 in December 2003 did not have an impact on the company's financial position, cash flows or results of operations.

	<u>=====</u>	<u>=====</u>	<u>=====</u>

The Company did not have any timing differences relating to deferred tax liabilities as of December 31, 2002, 2003 and 2004.

A significant portion of the deferred tax assets recognized relate to net operating loss and credit carry forwards. The Company operates through multiple branches and subsidiaries and the valuation allowance is considered on each individual basis. Where a valuation allowance was not recorded, the Company believes that there was sufficient positive evidence to support its conclusion not to record a valuation allowance as it expects to generate sufficient taxable income in the future.

The valuation allowance in 2002 and 2003 has increased as it relates to the net operating losses of Beijing Branch, He Nan Branch and Bao Ding Branch of Beijing Origin. There is significant increase in valuation allowance from 2003 and 2004 as Beijing Origin entered into a technical service arrangement with BioTech in December 2004 which the Company believes will not generate future taxable income to recognize the income tax benefit.

A reconciliation between total income tax expense and the amount computed by applying the statutory income tax rate to income before taxes is as follows:

These reserve funds can only be used for specific purposes of enterprise expansion and staff welfare and bonus and are not distributable as cash dividends. CHARDAN CHINA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2004 AND 2003

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business and Organization

Edgar Filing: Origin Agritech LTD - Form S-4/A

Chardan China Acquisitions Corp. (Chardan) was incorporated in Delaware on December 5, 2003 as a blank check company whose objective is to acquire an operating business that has its primary operating facilities in the Peoples Republic of China.

In March 2004, Chardan completed an initial public offering (the Offering) in which it raised net proceeds of approximately \$21,242,000. Immediately following the Offering, \$20,527,500 of the net proceeds were placed in an interest bearing trust account until the earlier of the consummation of a business combination or the liquidation of the Company. The Company's Certificate of Incorporation provides for mandatory liquidation of the Company, without stockholder approval, in the event that the Company does not consummate a Business Combination prior to September 22, 2005, or March 22, 2006 if certain extension criteria have been satisfied. In the event of liquidation, it is likely that the per share value of the residual assets remaining available for distribution (including Trust Fund assets) will be less than the initial public offering price per share in the Offering due to costs related to the Offering and since no value would be attributed to the Warrants contained in the Units sold (Note 3).

In April 2004, Chardan commenced its efforts to locate a company with which to effect a business combination (Note 5).

After signing a definitive agreement for the acquisition of a target business, such transaction will be submitted for stockholder approval. In the event that stockholders owning 20% or more of the outstanding stock excluding, for this purpose, those persons who were stockholders prior to the Offering, vote against the Business Combination and exercise their conversion rights described below, the Business Combination will not be consummated. All of the Company's stockholders prior to the Offering, including all of the officers and directors of the Company ("Initial Stockholders"), have agreed to vote their 875,000 founding shares of common stock in accordance with the vote of the majority in interest of all other stockholders of the Company ("Public Stockholders") with respect to the Business Combination. After consummation of the Business Combination, all of these voting safeguards will no longer be applicable. With respect to a Business Combination which is approved and consummated, any Public Stockholder who voted against the Business Combination may demand that the Company convert his shares. The per share conversion price will equal the amount in the Trust Fund as of the record date for determination of stockholders entitled to vote on the Business Combination divided by the number of shares of common stock held by Public Stockholders at the consummation of the Offering. Accordingly, Public Stockholders holding 19.99% of the aggregate number of shares owned by all Public Stockholders may seek conversion of their shares in the event of a Business Combination. Such Public Stockholders are entitled to receive their per-share interest in the Trust Fund computed without regard to the shares held by Initial Stockholders. Accordingly, a portion of the net proceeds from the offering (19.99% of the amount originally held in the Trust Fund) has been classified as common stock subject to possible conversion in the accompanying balance sheet and 19.99% of the related interest earned on the investments held in the Trust Fund has been recorded as deferred interest.

FOR THE YEARS ENDED DECEMBER 31, 2004 AND 2003

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For financial statement purposes, the Company considers all highly liquid debt instruments with a maturity of three months or less when purchased to be cash equivalents. The Company maintains its cash in bank deposit accounts in the United States of America which, at times, may exceed applicable insurance limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

Investments Held in Trust

Investments held in trust are invested in United States government securities (Treasury Bills) with a maturity of 180 days or less which are accounted for as a trading security and recorded at market value which approximates amortized cost. The amount held in the Trust Fund, including money market funds of approximately \$1,800, was approximately \$20,734,000 at December 31, 2004. The excess of market value over cost, exclusive of the deferred interest described below, is included in interest income in the accompanying Statement of Operations.

Deferred Interest

Deferred interest consists of 19.99% of the interest earned on the investments held in trust.

Income Taxes

The Company accounts for income taxes using the asset and liability method, as prescribed by Statement of Financial Accounting Standards No. 109 "Accounting for Income Taxes." Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Statutory taxes not based on income are included in general and administrative expenses.

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2004 AND 2003

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Initial Public Offering

On March 22, 2004, the Company sold 4,025,000 units ("Units") in an initial public offering, which included all of the 525,000 Units subject to the underwriters' over-allotment option. Each Unit consisted of one share of the Company's common stock, \$.0001 par value, and two Redeemable Common Stock Purchase Warrants ("Warrants"). Each Warrant will entitle the holder to purchase from the Company one share of common stock at an exercise price of \$5 commencing the later of the completion of a Business Combination with a target business or one year from the effective date of the Offering and expiring five years from the date of the prospectus. The Warrants will be redeemable at a price of \$.01 per Warrant upon 30 days' notice after the Warrants become exercisable, only in the event that the last sale price of the common stock is at least \$8.50 per share for any 20 trading days within a 30 trading day period ending on the third day prior to the date on which notice of redemption is given. In connection with the Offering, the Company issued, for \$100, an option to the representative of the underwriters to purchase 350,000 Units at an exercise price of \$9.90 per Unit. In addition, the warrants underlying such Units are exercisable at \$6.40 per share.

As of December 31, 2004, 9,100,000 shares of common stock were reserved for issuance upon exercise of redeemable warrants and underwriters' unit purchase option.

Deferred Offering Costs

Deferred offering costs consisted principally of legal and underwriting fees incurred through December 31, 2003 that were related to the proposed offering and that were charged to capital upon the receipt of the capital raised.

Reverse Stock Split

In February 2004, the Company's Board of Directors authorized a 1.1666666-to-one forward stock split of its common stock. All references in the accompanying financial statements to the numbers of shares have been retroactively restated to reflect the stock split.

Income (Loss) Per Common Share

Basic and diluted loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding after giving effect to the stock split. Diluted earnings per share gives effect to dilutive options, warrants and other potential common stock outstanding during the period. Potential common stock, amounting 9,100,000 shares, has not been included in the computation of diluted loss per share, as the effect would be antidilutive.

Recent Pronouncements

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

CHARDAN CHINA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2004 AND 2003

2. INCOME TAXES

As of December 31, 2004 and 2003 the Company had approximately \$668,000 and \$535 of net operating loss carry forwards which expire in tax years beginning in 2023. The availability to offset income taxes in future years may be restricted if the Company undergoes an ownership change, which may occur as a result of any Business Combination.

The tax effect of temporary differences that give rise to the Company's deferred tax assets and liabilities are as follows as of December 31, 2004:

	2004	2003
	-----	-----
Net operating loss carry forwards	\$227,000	\$ 182
Less: Valuation allowance	227,000	182
	-----	-----
Net deferred income tax asset	\$ --	\$ --
	=====	=====

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets depends on the generation of future taxable income and tax planning in making these assessments.

3. RELATED PARTY TRANSACTIONS

Commencing on March 16, 2004 and ending upon the acquisition of a target business, the Company incurs an administrative fee of \$7,500 per month from Chardan Ventures, LLC, a company managed and owned 50% by the Company's Chairman of the Board. The fee includes the provision of office space and certain office and secretarial services.

In December 2003 and January 2004, an officer of Chardan advanced \$60,000 and \$10,000, respectively, for payment of offering expenses. The advances were evidenced by unsecured non-interest bearing promissory notes payable on the earlier of December 29, 2004 or the consummation of the Company's initial public offering. The loans were repaid following the successful completion of the initial public offering.

4. COMMITMENTS AND CONTINGENCIES

During the quarter ended June 30, 2004, the Company entered into an agreement with a consulting firm to assist in the search to identify prospective target businesses for the Business Combination. As part of the agreement, the consulting firm received \$125,000 and agreed to perform due diligence on such prospective target businesses as well as assist in structuring and consummating the business combination. Under the agreement, as amended, in the event a business combination is ultimately approved by Chardan's stockholders and consummated, the Company is obligated to issue 200,000 shares of the Company's common stock to the consulting firm and to pay the consulting firm an

additional \$125,000.

Thereafter, the agreement requires monthly payments of \$10,000 plus reasonable and necessary out-of-pocket expenses. The monthly retainer for month three until the closing of the target acquisition accrues but is not payable until said closing. The contract remains in effect for successive one year periods, subject to termination by either party on any yearly anniversary date upon 30 days written notice. Additional services provided by Equity are to be billed separately at mutually agreed upon fees.

As of December 31, 2004, the minimum non-cancelable commitment under the agreement is \$114,000.

5. PURCHASE AGREEMENT FOR PROPOSED BUSINESS COMBINATION

On December 20, 2004, the Company entered into a Stock Purchase Agreement with State Harvest Holdings Limited, a British Virgin Islands corporation ("Origin"), and all the stockholders of Origin ("Origin stockholders"). The Stock Purchase Agreement was subsequently amended through June 16, 2005.

NOTES TO UNAUDITED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements at March 31, 2005 and for the periods ended March 31, 2005 and March 31, 2004 are unaudited. In the opinion of management, all adjustments (consisting of normal accruals) have been made that are necessary to present fairly the financial position of

Edgar Filing: Origin Agritech LTD - Form S-4/A

Chardan China Acquisition Corp. (the "Company") as of March 31, 2005 and the results of its operations and its cash flow for the three months ended March 31, 2005 and March 31, 2004 and from December 5, 2003 (inception) to March 31, 2005. Operating results for the interim periods presented are not necessarily indicative of the results to be expected for a full year.

The statements and related notes have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the financial statements that were included in the Company's Annual Report on Form 10-KSB for the periods ended December 31, 2004 and 2003.

Business and Organization

The Company was incorporated in Delaware on December 5, 2003 as a blank check company whose objective is to acquire an operating business that has its primary operating facilities in the People's Republic of China.

In March 2004, Chardan completed an initial public offering (the Offering) in which it raised net proceeds of approximately \$21,242,000. Immediately following the Offering, \$20,527,500 of the net proceeds were placed in an interest bearing trust account until the earlier of the consummation of a business combination or the liquidation of the Company. The Company's Certificate of Incorporation provides for mandatory liquidation of the Company, without stockholder approval, in the event that the Company does not consummate a Business Combination prior to September 22, 2005, or March 22, 2006 if certain extension criteria have been satisfied. In the event of liquidation, it is likely that the per share value of the residual assets remaining available for distribution (including Trust Fund assets) will be less than the initial public offering price per share in the Offering due to costs related to the Offering and since no value would be attributed to the Warrants contained in the Units sold.

In April 2004, Chardan commenced its efforts to locate a company with which to effect a business combination (Note 5).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Business and Organization (Continued)

After signing a definitive agreement for the acquisition of a target business, such transaction will be submitted for stockholder approval. In the event that stockholders owning 20% or more of the outstanding stock excluding, for this purpose, those persons who were stockholders prior to the Offering, vote against the Business Combination and exercise their conversion rights described below, the Business Combination will not be consummated. All of the Company's stockholders prior to the Offering, including all of the officers and directors of

Edgar Filing: Origin Agritech LTD - Form S-4/A

the Company ("Initial Stockholders"), have agreed to vote their 875,000 founding shares of common stock in accordance with the vote of the majority in interest of all other stockholders of the Company ("Public Stockholders") with respect to the Business Combination. After consummation of the Business Combination, all of these voting safeguards will no longer be applicable. With respect to a Business Combination which is approved and consummated, any Public Stockholder who voted against the Business Combination may demand that the Company convert his shares. The per share conversion price will equal the amount in the Trust Fund as of the record date for determination of stockholders entitled to vote on the Business Combination divided by the number of shares of common stock held by Public Stockholders at the consummation of the Offering. Accordingly, Public Stockholders holding 19.99% of the aggregate number of shares owned by all Public Stockholders may seek conversion of their shares in the event of a Business Combination. Such Public Stockholders are entitled to receive their per-share interest in the Trust Fund computed without regard to the shares held by Initial Stockholders. Accordingly, a portion of the net proceeds from the offering (19.99% of the amount originally held in the Trust Fund) has been classified as common stock subject to possible conversion in the accompanying balance sheet and 19.99% of the related interest earned on the investments held in the Trust Fund has been recorded as deferred interest.

Investments Held in Trust

Investments held in trust are invested in United States government securities (Treasury Bills) with a maturity of 180 days or less which are accounted for as a trading security and recorded at market value which approximates amortized cost. The amount held in the Trust Fund, including money market funds of approximately \$2,750, was approximately \$20,844,000 at March 31, 2004. The excess of market value over cost, exclusive of the deferred interest described below, is included in interest income in the accompanying Statement of Operations.

Deferred Interest

Deferred interest consists of 19.99% of the interest earned on the investments held in trust.

NOTES TO UNAUDITED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes

The Company accounts for income taxes using the asset and liability method, as prescribed by Statement of Financial Accounting Standards No. 109 "Accounting for Income Taxes". Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or

Edgar Filing: Origin Agritech LTD - Form S-4/A

settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Statutory taxes not based on income are included in general and administrative expenses.

Initial Public Offering

On March 22, 2004, the Company sold 4,025,000 units ("Units") in an initial public offering, which included all of the 525,000 Units subject to the underwriters' over-allotment option. Each Unit consisted of one share of the Company's common stock, \$.0001 par value, and two Redeemable Common Stock Purchase Warrants ("Warrants"). Each Warrant will entitle the holder to purchase from the Company one share of common stock at an exercise price of \$5 commencing the later of the completion of a Business Combination with a target business or one year from the effective date of the Offering and expiring five years from the date of the prospectus. The Warrants will be redeemable at a price of \$.01 per Warrant upon 30 days' notice after the Warrants become exercisable, only in the event that the last sale price of the common stock is at least \$8.50 per share for any 20 trading days within a 30 trading day period ending on the third day prior to the date on which notice of redemption is given. In connection with the Offering, the Company issued, for \$100, an option to the representative of the underwriters to purchase 350,000 Units at an exercise price of \$9.90 per Unit. In addition, the warrants underlying such Units are exercisable at \$6.40 per share.

As of March 31, 2005, 9,100,000 shares of common stock were reserved for issuance upon exercise of redeemable warrants and underwriters' unit purchase option.

Reverse Stock Split

In February 2004, the Company's Board of Directors authorized a 1.1666666 to one forward stock split of its common stock. All references in the accompanying financial statements to the numbers of shares have been retroactively restated to reflect the stock split.

Income (Loss) Per Common Share

Basic and diluted loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding after giving effect to the stock split.

F-41

CHARDAN CHINA ACQUISITION CORP.

NOTES TO UNAUDITED FINANCIAL STATEMENTS

2. INCOME TAXES

As of March 31, 2005 the Company had approximately \$819,000 of net operating loss carryforwards which expire in tax years beginning in 2023. The availability to offset income taxes in future years may be restricted if the Company undergoes an ownership change, which may occur as a result of any Business Combination.

The tax effect of temporary differences that give rise to the Company's

Edgar Filing: Origin Agritech LTD - Form S-4/A

deferred tax assets and liabilities are as follows as of March 31, 2005:

Net operating loss carryforwards	\$	278,500
Less: Valuation allowance		278,500

Net deferred income tax asset	\$	-
		=====

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets depends on the generation of future taxable income and tax planning in making these assessments.

3. RELATED PARTY TRANSACTIONS

Commencing on March 16, 2004 and ending upon the acquisition of a target business, the Company incurs an administrative fee of \$7,500 per month from Chardan Ventures, LLC, a company managed and owned 50% by the Company's Chairman of the Board. The fee includes the provision of office space and certain office and secretarial services.

In December 2003 and January 2004, an officer of Chardan advanced \$60,000 and \$10,000, respectively, for payment of offering expenses. The advances were evidenced by unsecured non-interest bearing promissory notes payable on the earlier of December 29, 2004 or the consummation of the Company's initial public offering. The loans were repaid following the successful completion of the initial public offering.

4. COMMITMENTS AND CONTINGENCIES

During the quarter ended June 30, 2004, the Company entered into an agreement with a consulting firm to assist in the search to identify prospective target businesses for the Business Combination. As part of the agreement, the consulting firm received \$125,000 and agreed to perform due diligence on such prospective target businesses as well as assist in structuring and consummating the business combination. In the event a business combination is ultimately approved by Chardan's stockholders and consummated, the Company is obligated to pay the consulting firm an additional \$125,000.

4. COMMITMENTS AND CONTINGENCIES (Continued)

In December 2004, Chardan entered into a consulting agreement with The Equity Group Inc. (Equity) to provide financial public relations and investor relations services to Chardan. The terms of the agreement provide for an initial retainer of \$24,000, covering the first two months of the agreement, to be paid \$20,000 upon signing with the balance of \$4,000 payable upon closing of the target acquisition (Note 5). Thereafter, the agreement requires monthly payments of \$10,000 plus

Edgar Filing: Origin Agritech LTD - Form S-4/A

reasonable and necessary out-of-pocket expenses. The monthly retainer for month three until the closing of the target acquisition accrues but is not payable until said closing. The contract remains in effect for successive one year periods, subject to termination by either party on any yearly anniversary date upon 30 days' written notice. Additional services provided by Equity are to be billed separately at mutually agreed upon fees.

As of March 31, 2005, the minimum non-cancelable commitment under the agreement is \$114,000.

5. PURCHASE AGREEMENT FOR PROPOSED BUSINESS COMBINATION

On December 20, 2004, the Company entered into a Stock Purchase Agreement with State Harvest Holdings Limited, a British Virgin Islands corporation ("Origin"), and all the stockholders of Origin ("Origin stockholders"). Origin is a British Virgin Islands holding company formed for the purpose of owning, as of the closing, four Chinese companies engaged in the production, sale and licensing of agricultural corn, cotton and rice seeds. The three operating companies are Beijing Origin Seed Limited, Changchun Origin Seed Technical Development Limited and Henan Origin Cotton Technology Development Limited, and the technology - intellectual property holding and licensing company is Beijing Origin State Harvest Biotechnology Limited. At the closing, the Origin stockholders and their designees, subject to adjustments and certain holdbacks, will be paid an aggregate of \$10,000,000 in cash and will be issued an aggregate of 10,000,000 shares of common stock for all the outstanding common stock of Origin. Of the cash portion of the purchase price, \$250,000 will be held back for one year to secure certain indemnification obligations of the Origin stockholders. As additional purchase price, the Origin stockholders and their designees will receive up to an aggregate of \$15,000,000 and up to an aggregate of 6,000,000 additional shares of common stock in the event certain conditions are met.

Origin was founded in December 1997, with headquarters in Beijing. Origin specializes in the research, development, production, sale and distribution of agricultural crop seeds with a primary concentration on hybrid corn seed. They have over four hundred employees and four subsidiaries, one of which is a technology holding corporation to hold and manage its intellectual property. Origin operates through several branches in locations in Beijing, Hebei, Gansu, Henan, Liaoning, Jilin, and Sichuan with plans to expand to additional production facilities, sales offices and research stations throughout China's main corn, cotton, and rice agricultural belts.

If approved, it is anticipated that the transaction will be consummated in the second or third quarter of 2005.

17. The Company may purchase, redeem or otherwise acquire and hold its own shares but only out of surplus or in exchange for newly issued shares of equal value.
18. Subject to provisions to the contrary in
 - (a) the Memorandum or these Articles;
 - (b) the designations, powers, preferences, rights, qualifications, limitations and restrictions with which the shares were issued; or

 - (c) by virtue of the provisions of Section 83 of the Act; or
 - (d) pursuant to an order of the Court.
21. 5

23. The Company may by a resolution of directors include in the computation of surplus for any purpose the unrealised appreciation of the assets of the Company, and, in the absence of fraud, the decision of the directors as to the value of the assets is conclusive, unless a question of law is involved.

MORTGAGES AND CHARGES OF REGISTERED SHARES

24. Members may pledge, hypothecate, mortgage or charge their registered shares in the Company and upon satisfactory evidence thereof the Company shall give effect to the terms of any valid pledge, hypothecation, mortgage or charge except insofar as it may conflict with any requirements herein contained for consent to the transfer of shares.

Edgar Filing: Origin Agritech LTD - Form S-4/A

made unless some sum in respect of which the lien exists is presently payable nor until the expiration of twenty-one days after a notice in writing, stating and demanding payment of the sum presently payable and giving notice of the intention to sell in default of such payment, has been served on the holder for the time being of the share.

35. The net proceeds of the sale by the Company of any shares on which it has a lien shall be applied in or towards payment or discharge of the promissory note or other binding obligation to contribute money or property or any combination thereof in respect of which the lien exists so far as the same is presently payable and any residue shall (subject to a like lien for debts or liabilities not presently payable as existed upon the share prior to the sale) be paid to the holder of the share immediately before such sale. For giving effect to any such sale the directors may authorize some person to transfer the share sold to the purchaser thereof. 10

- (b) if all members holding shares entitled to vote on all or any matters to be considered at the meeting have waived notice of the meeting and for this purpose presence at the meeting shall be deemed to constitute waiver. 57. The inadvertent failure of the directors to give notice of a meeting to a member, or the fact that a member has not received notice, does not invalidate the meeting.

- 58. A member may be represented at a meeting of members by a proxy who may speak and vote on behalf of the member.
- 59. The instrument appointing a proxy shall be produced at the place appointed for the meeting before the time for holding the meeting at which the person named in such instrument proposes to vote.

To be timely, a member's notice must be delivered not less than 60 days nor more than 90 days prior to the anniversary date of the prior year's annual meeting; provided, however, that in the event that the date of the annual meeting changed by more than 30 days from such anniversary date, in order to be timely, notice by the member must be so received not later than the close of business on the tenth day following the day on which public disclosure is first made of the date of the annual meeting. For the purposes of this Regulation 66, any adjournment(s) or postponement(s) of the original meeting whereby the meeting will reconvene within 30 days from original date shall be deemed, for purposes of notice, to be a continuation of the original meeting and no business may be brought before any reconvened meeting unless such timely notice of such business was given to the Secretary for the meeting as originally scheduled. However, the notice requirements set out in this Regulation 66 shall be deemed satisfied by a member if the member has notified the Company of his intention to present a proposal at a meeting of members and such member's proposal has been included in a proxy statement that has been distributed by, at the direction of,

Edgar Filing: Origin Agritech LTD - Form S-4/A

or on behalf of, the directors to solicit proxies for such meeting; provided that, if such member does not appear or send a qualified representative, as determined by the chairman of the meeting, to present such proposal at such meeting, the Company need not present such proposal for a vote at such meeting notwithstanding that proxies in respect of such vote may have been received by the Company.

If the chairman shall have any doubt as to the outcome of any resolution put to the vote, he shall cause a poll to be taken of all votes cast upon such resolution, but if the chairman shall fail to take a poll then any member present in person or by proxy who disputes the announcement by the chairman of the result of any vote may immediately following such announcement demand that a poll be taken and the chairman shall thereupon cause a poll to be taken. If a poll is taken at any meeting, the result thereof shall be duly recorded in the minutes of that meeting by the chairman.
- 13
70. Any person other than an individual shall be regarded as one member and subject to the specific provisions hereinafter contained for the appointment of representatives of such persons the right of any individual to speak for or represent such member shall be determined by the law of the jurisdiction where, and by the documents by which, the person is constituted or derives its existence. In case of doubt, the directors may in good faith seek legal advice from any qualified person and unless and until a court of competent jurisdiction shall otherwise rule, the directors may rely and act upon such advice without incurring any liability to any member.
 71. Any person other than an individual which is a member of the Company may by resolution of its directors or other governing body authorize such person as it thinks fit to act as its representative at any meeting of the Company or of any class of members of the Company, and the person so authorized shall be entitled to exercise the same powers on behalf of the person which he represents as that person could exercise if it were an individual member of the Company.

For the purposes of this Regulation, any adjournment or postponement of the original meeting whereby the meeting will reconvene within 30 days from the original date shall be deemed for the purposes of this notice to be a continuation of the original meeting and no nominations by a member of persons to be elected directors of the Company may be made at any such reconvened meeting unless pursuant to a notice which was timely for the meeting on the date originally scheduled. Each such notice shall set out

91. The directors may, by a resolution of directors, appoint any person, including a person who is a director, to be an officer or agent of the Company. The resolution of directors appointing an agent may authorize the agent to appoint one or more substitutes or delegates to exercise some or all of the powers conferred on the agent by the Company.

other directors.

20

114. A director who has an interest in any particular business to be considered at a meeting of directors or members may be counted for purposes of determining whether the meeting is duly constituted.

INDEMNIFICATION

115. To the full extent permitted by the Act or any other applicable laws presently or hereafter in effect, no director of the Company shall be personally liable to the Company or its members for or with respect to any acts or omissions in the performance of his or her duties as a director of the Company. Any repeal or modification of this Regulation 115 by a resolution of members shall not adversely affect the right or protection of a director of the Company existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification.
116. Subject to the limitations hereinafter provided the Company may indemnify against all expenses, including legal fees, and against all judgments, fines and amounts paid in settlement and reasonably incurred in connection with legal, administrative or investigative proceedings any person who

118. The decision of the directors as to whether the person acted honestly and in good faith and with a view to the best interests of the Company and as to whether the person had no reasonable cause to believe that his conduct was unlawful is, in the absence of fraud, sufficient for the purposes of these Articles, unless a question of law is involved.
119. The termination of any proceedings by any judgment, order, settlement, conviction or the entering of a nolle prosequi does not, by itself, create a presumption that the person did not act honestly and in good faith and with a view to the best interests of the Company or that the person had reasonable cause to believe that his conduct was unlawful.

21

Edgar Filing: Origin Agritech LTD - Form S-4/A

120. 124. The directors may from time to time pay to the members such interim dividends as appear to the directors to be justified by the profits of the Company.
125. The directors may, before declaring any dividend, set aside out of the profits of the Company such sum as they think proper as a reserve fund, and may invest the sum so set aside as a reserve fund upon such securities as they may select.
126. shown in its books of account, and its capital. In the absence of fraud, the decision of the directors as to the realizable value of the assets of the Company is conclusive, unless a question of law is involved.

129. A share issued as a dividend by the Company shall be treated for all purposes as having been issued for money equal to the surplus that is transferred to capital upon the issue of the share.
130. In the case of a dividend of authorized but unissued shares with par value, an amount equal to the aggregate par value of the shares shall be transferred from surplus to capital at the time of the distribution.
131. In the case of a dividend of authorized but unissued shares without par value, the amount designated by the directors shall be transferred from surplus to capital at the time of the distribution, except that the directors must designate as capital an amount that is at least equal to the amount that the shares are entitled to as a preference, if any, in the assets of the Company upon liquidation of the Company.
132. A division of the issued and outstanding shares of a class or series of shares into a larger number of shares of the same class or series having a proportionately smaller par value does not constitute a dividend of shares.

(a) to select the officers, employees, directors and consultants of the Company or any Subsidiary to whom Stock Options, Stock Appreciation Rights, Restricted Stock, Deferred Stock, Reload Stock Options and/or Other Stock-Based Awards may from time to time be awarded hereunder.

(b) to determine the terms and conditions, not inconsistent with the terms of the Plan, of any award granted hereunder (including, but not limited to, number of shares, share exercise price or types of consideration paid upon exercise of such options, such as other securities of the Company or other property, any restrictions or limitations, and any vesting,

(h) to make payments and distributions with respect to awards (i.e., to "settle" awards) through cash payments in an amount equal to the Repurchase Value.

Notwithstanding anything to the contrary, the Committee shall not grant to any one Holder in any one calendar year awards for more than 300,000 shares in the aggregate.

2.3. Interpretation of Plan.

(a) Committee Authority. Subject to Section 11, below, the Committee shall have the authority to adopt, alter and repeal such administrative rules, guidelines and practices governing the Plan as it shall from time to time deem advisable to interpret the terms and provisions of the Plan and any award issued under the Plan (and to determine the form and substance of all agreements relating thereto), and to otherwise supervise the administration of the Plan. Subject to Section 11, below, all decisions made by the Committee pursuant to the provisions of the Plan shall be made in the Committee's sole discretion and shall be final and binding upon all persons, including the Company, its Subsidiaries and Holders.

(b) Incentive Stock Options. Anything in the Plan to the contrary notwithstanding, no term or provision of the Plan relating to Incentive Stock Options (including but not limited to Stock Reload Options or Stock Appreciation rights granted in conjunction with an Incentive Stock Option) or any Agreement providing for Incentive Stock Options shall be interpreted, amended or altered, nor shall any discretion or authority granted under the Plan be so

4

exercised, so as to disqualify the Plan under Section 422 of the Code or, without the consent of the Holder(s) affected, to disqualify any Incentive Stock Option under such Section 422.

Section 3. Stock Subject to Plan.

3.1. Number of Shares. The total number of shares of Common Stock reserved and available for issuance under the Plan shall be 1,500,000 shares. Shares of Common Stock under the Plan ("Shares") may consist, in whole or in part, of authorized and unissued shares or treasury shares. If any shares of Common Stock that have been granted pursuant to a Stock Option cease to be subject to a Stock Option, or if any shares of Common Stock that are subject to any Stock Appreciation Right, Restricted Stock award, Deferred Stock award, Reload Stock Option or Other Stock-Based Award granted hereunder are forfeited or any such

Edgar Filing: Origin Agritech LTD - Form S-4/A

award otherwise terminates without a payment being made to the Holder in the form of Common Stock, such shares shall again be available for distribution in connection with future grants and awards under the Plan. If a Holder pays the exercise price of a Stock Option by surrendering any previously owned shares and/or arranges to have the appropriate number of shares otherwise issuable upon exercise withheld to cover the withholding tax liability associated with the Stock Option exercise, then the number of shares available under the Plan shall be increased by the lesser of (i) the number of such surrendered shares and shares used to pay taxes; and (ii) the number of shares purchased under such Stock Option.

3.2. Adjustment Upon Changes in Capitalization, Etc. In the event of any merger, reorganization, consolidation, common stock dividend payable on shares of Common Stock, Common Stock split or reverse split, combination or exchange of shares of Common Stock, or other extraordinary or unusual event which results in a change in the shares of Common Stock of the Company as a whole, the Committee shall determine, in its sole discretion, whether such change equitably requires an adjustment in the terms of any award (including number of shares subject to the award and the exercise price) or the aggregate number of shares reserved for issuance under the Plan. Any such adjustments will be made by the Committee, whose determination will be final, binding and conclusive.

Section 4. Eligibility.

Awards may be made or granted to employees, officers, directors and consultants who are deemed to have rendered or to be able to render significant services to the Company or its Subsidiaries and who are deemed to have contributed or to have the potential to contribute to the success of the Company. No Incentive Stock Option shall be granted to any person who is not an employee of the Company or a Subsidiary at the time of grant. Notwithstanding the foregoing, an award may be made or granted to a person in connection with his hiring or retention, or at any time on or after the date he reaches an agreement (oral or written) with the Company with respect to such hiring or retention, even though it may be prior to the date the person first performs services for the Company or its Subsidiaries; provided, however, that no portion of any such award shall vest prior to the date the person first performs such services.

5

Section 5. Stock Options.

5.1. Grant and Exercise. Stock Options granted under the Plan may be of two types: (i) Incentive Stock Options and (ii) Nonqualified Stock Options. Any Stock Option granted under the Plan shall contain such terms, not inconsistent with this Plan, or with respect to Incentive Stock Options, not inconsistent with the Plan and the Code, as the Committee may from time to time approve. The Committee shall have the authority to grant Incentive Stock Options or Non-Qualified Stock Options, or both types of Stock Options which may be granted alone or in addition to other awards granted under the Plan. To the extent that any Stock Option intended to qualify as an Incentive Stock Option does not so qualify, it shall constitute a separate Nonqualified Stock Option.

5.2. Terms and Conditions. Stock Options granted under the Plan shall be subject to the following terms and conditions:

(a) Option Term. The term of each Stock Option shall be fixed by the Committee; provided, however, that an Incentive Stock Option may be granted only within the ten-year period commencing from the Effective Date and may only be exercised within ten years of the date of grant (or five years in the case of an

Edgar Filing: Origin Agritech LTD - Form S-4/A

Incentive Stock Option granted to an optionee who, at the time of grant, owns Common Stock possessing more than 10% of the total combined voting power of all classes of voting stock of the Company ("10% Stockholder").

(b) Exercise Price. The exercise price per share of Common Stock purchasable under a Stock Option shall be determined by the Committee at the time of grant, provided, however, that in no event may the exercise price per share be less than \$[.02] under any Stock Option.

(c) Exercisability. Stock Options shall be exercisable at such time or times and subject to such terms and conditions as shall be determined by the Committee and as set forth in Section 10, below. If the Committee provides, in its discretion, that any Stock Option is exercisable only in installments, i.e., that it vests over time, the Committee may waive such installment exercise provisions at any time at or after the time of grant in whole or in part, based upon such factors as the Committee shall determine.

(d) Method of Exercise. Subject to whatever installment, exercise and waiting period provisions are applicable in a particular case, Stock Options may be exercised in whole or in part at any time during the term of the Option by giving written notice of exercise to the Company specifying the number of shares of Common Stock to be purchased. Such notice shall be accompanied by payment in full of the purchase price, which shall be in cash or, if provided in the Agreement, either in shares of Common Stock (including Restricted Stock and other contingent awards under this Plan) or partly in cash and partly in such Common Stock, or such other means which the Committee determines are consistent with the Plan's purpose and applicable law. Cash payments shall be made by wire transfer, certified or bank check or personal check, in each case payable to the order of the Company; provided, however, that the Company shall not be required to deliver certificates for shares of Common Stock with respect to which an Option is exercised until the Company has confirmed the receipt of good and available

6

funds in payment of the purchase price thereof (except that, in the case of an exercise arrangement approved by the Committee and described in the last sentence of this paragraph, payment may be made as soon as practicable after the exercise). Payments in the form of Common Stock shall be valued at the Fair Market Value on the date prior to the date of exercise. Such payments shall be made by delivery of stock certificates in negotiable form that are effective to transfer good and valid title thereto to the Company, free of any liens or encumbrances. Subject to the terms of the Agreement, the Committee may, in its sole discretion, at the request of the Holder, deliver upon the exercise of a Nonqualified Stock Option a combination of shares of Deferred Stock and Common Stock; provided, however, that, notwithstanding the provisions of Section 8 of the Plan, such Deferred Stock shall be fully vested and not subject to forfeiture. A Holder shall have none of the rights of a Stockholder with respect to the shares subject to the Option until such shares shall be transferred to the Holder upon the exercise of the Option. The Committee may permit a Holder to elect to pay the Exercise Price upon the exercise of a Stock Option by irrevocably authorizing a third party to sell shares of Common Stock (or a sufficient portion of the shares) acquired upon exercise of the Stock Option and remit to the Company a sufficient portion of the sale proceeds to pay the entire Exercise Price and any tax withholding resulting from such exercise.

(e) Transferability. Except as may be set forth in the next sentence of this Section or in the Agreement, no Stock Option shall be transferable by the Holder other than by will or by the laws of descent and distribution, and all Stock Options shall be exercisable, during the Holder's lifetime, only by

Edgar Filing: Origin Agritech LTD - Form S-4/A

the Holder (or, to the extent of legal incapacity or incompetency, the Holder's guardian or legal representative). Notwithstanding the foregoing, a Holder, with the approval of the Committee, may transfer a Stock Option (i) (A) by gift, for no consideration, or (B) pursuant to a domestic relations order, in either case, to or for the benefit of the Holder's "Immediate Family" (as defined below), or (ii) to an entity in which the Holder and/or members of Holder's Immediate Family own more than fifty percent of the voting interest, in exchange for an interest in that entity, subject to such limits as the Committee may establish and the execution of such documents as the Committee may require, and the transferee shall remain subject to all the terms and conditions applicable to the Stock Option prior to such transfer. The term "Immediate Family" shall mean any child, stepchild, grandchild, parent, stepparent, grandparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law or sister-in-law, including adoptive relationships, any person sharing the Holder's household (other than a tenant or employee), a trust in which these persons have more than fifty percent beneficial interest, and a foundation in which these persons (or the Holder) control the management of the assets.

(f) Termination by Reason of Death. If a Holder's employment by the Company or a Subsidiary terminates by reason of death, any Stock Option held by such Holder, unless otherwise determined by the Committee and set forth in the Agreement, shall thereupon automatically terminate, except that the portion of such Stock Option that has vested on the date of death may thereafter be exercised by the legal representative of the estate or by the legatee of the Holder under the will of the Holder, for a period of one year (or such other greater or lesser period as the Committee may specify in the Agreement) from the date of such death or until the expiration of the stated term of such Stock Option, whichever period is shorter.

7

(g) Termination by Reason of Disability. If a Holder's employment by the Company or any Subsidiary terminates by reason of Disability, any Stock Option held by such Holder, unless otherwise determined by the Committee and set forth in the Agreement, shall thereupon automatically terminate, except that the portion of such Stock Option that has vested on the date of termination may thereafter be exercised by the Holder for a period of one year (or such other greater or lesser period as the Committee may specify in the Agreement) from the date of such termination of employment or until the expiration of the stated term of such Stock Option, whichever period is shorter.

(h) Other Termination. Subject to the provisions of Section 13.3, below, and unless otherwise determined by the Committee and set forth in the Agreement, if such Holder's employment or retention by, or association with, the Company or any Subsidiary terminates for any reason other than death or Disability, the Stock Option shall thereupon automatically terminate, except that if the Holder's employment is terminated by the Company or a Subsidiary without cause or due to Normal Retirement, then the portion of such Stock Option that has vested on the date of termination of employment may be exercised for the lesser of three months after termination of employment or the balance of such Stock Option's term.

(i) Additional Incentive Stock Option Limitation. In the case of an Incentive Stock Option, the aggregate Fair Market Value (on the date of grant of the Option) with respect to which Incentive Stock Options become exercisable for the first time by a Holder during any calendar year (under all such plans of the Company and its Parent and Subsidiaries) shall not exceed \$100,000.

(j) Buyout and Settlement Provisions. The Committee may at any time,

Edgar Filing: Origin Agritech LTD - Form S-4/A

in its sole discretion, offer to repurchase a Stock Option previously granted, based upon such terms and conditions as the Committee shall establish and communicate to the Holder at the time that such offer is made.

5.3. Stock Reload Option. If a Holder tenders shares of Common Stock to pay the exercise price of a Stock Option ("Underlying Option") and/or arranges to have a portion of the shares otherwise issuable upon exercise withheld to pay the applicable withholding taxes, then the Holder may receive, at the discretion of the Committee, a new Stock Reload Option to purchase that number of shares of Common Stock equal to the number of shares tendered to pay the exercise price and the withholding taxes (but only if such tendered shares were held by the Holder for at least six months). Stock Reload Options may be any type of option permitted under the Code and will be granted subject to such terms, conditions, restrictions and limitations as may be determined by the Committee from time to time. Such Stock Reload Option shall have an exercise price equal to the Fair Market Value as of the date of exercise of the Underlying Option. Unless the Committee determines otherwise, a Stock Reload Option may be exercised commencing one year after it is granted and shall expire on the date of expiration of the Underlying Option to which the Reload Option is related.

8

Section 6. Stock Appreciation Rights.

6.1. Grant and Exercise. The Committee may grant Stock Appreciation Rights to participants who have been or are being granted Stock Options under the Plan as a means of allowing such participants to exercise their Stock Options without the need to pay the exercise price in cash. In the case of a Nonqualified Stock Option, a Stock Appreciation Right may be granted either at or after the time of the grant of such Nonqualified Stock Option. In the case of an Incentive Stock Option, a Stock Appreciation Right may be granted only at the time of the grant of such Incentive Stock Option.

6.2. Terms and Conditions. Stock Appreciation Rights shall be subject to the following terms and conditions:

(a) Exercisability. Stock Appreciation Rights shall be exercisable as shall be determined by the Committee and set forth in the Agreement, subject to the limitations, if any, imposed by the Code with respect to related Incentive Stock Options.

(b) Termination. A Stock Appreciation Right shall terminate and shall no longer be exercisable upon the termination or exercise of the related Stock Option.

(c) Method of Exercise. Stock Appreciation Rights shall be exercisable upon such terms and conditions as shall be determined by the Committee and set forth in the Agreement and by surrendering the applicable portion of the related Stock Option. Upon such exercise and surrender, the Holder shall be entitled to receive a number of shares of Common Stock equal to the SAR Value divided by the Fair Market Value on the date the Stock Appreciation Right is exercised.

(d) Shares Affected Upon Plan. The granting of a Stock Appreciation Right shall not affect the number of shares of Common Stock available under for awards under the Plan. The number of shares available for awards under the Plan will, however, be reduced by the number of shares of Common Stock acquirable upon exercise of the Stock Option to which such Stock Appreciation Right relates.

Edgar Filing: Origin Agritech LTD - Form S-4/A

Section 7. Restricted Stock.

7.1. Grant. Shares of Restricted Stock may be awarded either alone or in addition to other awards granted under the Plan. The Committee shall determine the eligible persons to whom, and the time or times at which, grants of Restricted Stock will be awarded, the number of shares to be awarded, the price (if any) to be paid by the Holder, the time or times within which such awards may be subject to forfeiture ("Restriction Period"), the vesting schedule and rights to acceleration thereof and all other terms and conditions of the awards.

7.2. Terms and Conditions. Each Restricted Stock award shall be subject to the following terms and conditions:

(a) Certificates. Restricted Stock, when issued, will be represented by a stock certificate or certificates registered in the name of the Holder to whom such Restricted Stock

9

shall have been awarded. During the Restriction Period, certificates representing the Restricted Stock and any securities constituting Retained Distributions (as defined below) shall bear a legend to the effect that ownership of the Restricted Stock (and such Retained Distributions) and the enjoyment of all rights appurtenant thereto are subject to the restrictions, terms and conditions provided in the Plan and the Agreement. Such certificates shall be deposited by the Holder with the Company, together with stock powers or other instruments of assignment, each endorsed in blank, which will permit transfer to the Company of all or any portion of the Restricted Stock and any securities constituting Retained Distributions that shall be forfeited or that shall not become vested in accordance with the Plan and the Agreement.

(b) Rights of Holder. Restricted Stock shall constitute issued and outstanding shares of Common Stock for all corporate purposes. The Holder will have the right to vote such Restricted Stock, to receive and retain all regular cash dividends and other cash equivalent distributions as the Board may in its sole discretion designate, pay or distribute on such Restricted Stock and to exercise all other rights, powers and privileges of a holder of Common Stock with respect to such Restricted Stock, with the exceptions that (i) the Holder will not be entitled to delivery of the stock certificate or certificates representing such Restricted Stock until the Restriction Period shall have expired and unless all other vesting requirements with respect thereto shall have been fulfilled; (ii) the Company will retain custody of the stock certificate or certificates representing the Restricted Stock during the Restriction Period; (iii) other than regular cash dividends and other cash equivalent distributions as the Board may in its sole discretion designate, pay or distribute, the Company will retain custody of all distributions ("Retained Distributions") made or declared with respect to the Restricted Stock (and such Retained Distributions will be subject to the same restrictions, terms and conditions as are applicable to the Restricted Stock) until such time, if ever, as the Restricted Stock with respect to which such Retained Distributions shall have been made, paid or declared shall have become vested and with respect to which the Restriction Period shall have expired; (iv) a breach of any of the restrictions, terms or conditions contained in this Plan or the Agreement or otherwise established by the Committee with respect to any Restricted Stock or Retained Distributions will cause a forfeiture of such Restricted Stock and any Retained Distributions with respect thereto.

(c) Vesting; Forfeiture. Upon the expiration of the Restriction Period with respect to each award of Restricted Stock and the satisfaction of

Edgar Filing: Origin Agritech LTD - Form S-4/A

any other applicable restrictions, terms and conditions (i) all or part of such Restricted Stock shall become vested in accordance with the terms of the Agreement, subject to Section 10, below, and (ii) any Retained Distributions with respect to such Restricted Stock shall become vested to the extent that the Restricted Stock related thereto shall have become vested, subject to Section 10, below. Any such Restricted Stock and Retained Distributions that do not vest shall be forfeited to the Company and the Holder shall not thereafter have any rights with respect to such Restricted Stock and Retained Distributions that shall have been so forfeited.

Section 8. Deferred Stock.

8.1. Grant. Shares of Deferred Stock may be awarded either alone or in addition to other awards granted under the Plan. The Committee shall determine the eligible persons to whom and the time or times at which grants of Deferred Stock will be awarded, the number of

10

shares of Deferred Stock to be awarded to any person, the duration of the period ("Deferral Period") during which, and the conditions under which, receipt of the shares will be deferred, and all the other terms and conditions of the awards.

8.2. Terms and Conditions. Each Deferred Stock award shall be subject to the following terms and conditions:

(a) Certificates. At the expiration of the Deferral Period (or the Additional Deferral Period referred to in Section 8.2 (d) below, where applicable), share certificates shall be issued and delivered to the Holder, or his legal representative, representing the number equal to the shares covered by the Deferred Stock award.

(b) Rights of Holder. A person entitled to receive Deferred Stock shall not have any rights of a Stockholder by virtue of such award until the expiration of the applicable Deferral Period and the issuance and delivery of the certificates representing such Common Stock. The shares of Common Stock issuable upon expiration of the Deferral Period shall not be deemed outstanding by the Company until the expiration of such Deferral Period and the issuance and delivery of such Common Stock to the Holder.

(c) Vesting; Forfeiture. Upon the expiration of the Deferral Period with respect to each award of Deferred Stock and the satisfaction of any other applicable restrictions, terms and conditions all or part of such Deferred Stock shall become vested in accordance with the terms of the Agreement, subject to Section 10, below. Any such Deferred Stock that does not vest shall be forfeited to the Company and the Holder shall not thereafter have any rights with respect to such Deferred Stock.

(d) Additional Deferral Period. A Holder may request to, and the Committee may at any time, defer the receipt of an award (or an installment of an award) for an additional specified period or until a specified event ("Additional Deferral Period"). Subject to any exceptions adopted by the Committee, such request must generally be made at least one year prior to expiration of the Deferral Period for such Deferred Stock award (or such installment).

Section 9. Other Stock-Based Awards.

Other Stock-Based Awards may be awarded, subject to limitations under applicable law, that are denominated or payable in, valued in whole or in part

Edgar Filing: Origin Agritech LTD - Form S-4/A

by reference to, or otherwise based on or related to, shares of Common Stock, as deemed by the Committee to be consistent with the purposes of the Plan, including, without limitation, purchase rights, shares of Common Stock awarded which are not subject to any restrictions or conditions, convertible or exchangeable debentures, or other rights convertible into shares of Common Stock and awards valued by reference to the value of securities of or the performance of specified Subsidiaries. Other Stock-Based Awards may be awarded either alone or in addition to or in tandem with any other awards under this Plan or any other plan of the Company. Each other Stock-Based Award shall be subject to such terms and conditions as may be determined by the Committee.

11

Section 10. Accelerated Vesting and Exercisability.

10.1. Non-Approved Transactions. If any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act of 1934, as amended ("Exchange Act")), is or becomes the "beneficial owner" (as referred in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing more than 50% of the combined voting power of the Company's then outstanding securities in one or more transactions, and the Board does not authorize or otherwise approve such acquisition, then the vesting periods of any and all Stock Options and other awards granted and outstanding under the Plan shall be accelerated and all such Stock Options and awards will immediately and entirely vest, and the respective holders thereof will have the immediate right to purchase and/or receive any and all Common Stock subject to such Stock Options and awards on the terms set forth in this Plan and the respective agreements respecting such Stock Options and awards.

10.2. Approved Transactions. The Committee may, in the event of an acquisition of substantially all of the Company's assets or at least 50% of the combined voting power of the Company's then outstanding securities in one or more transactions (including by way of merger or reorganization) which has been approved by the Company's Board of Directors, (i) accelerate the vesting of any and all Stock Options and other awards granted and outstanding under the Plan, or (ii) require a Holder of any award granted under this Plan to relinquish such award to the Company upon the tender by the Company to Holder of cash in an amount equal to the Repurchase Value of such award or, in the event that an outstanding award does not have any Repurchase Value, then the Board of Directors may terminate the award on payment of \$.01 per share that may be acquired or vest under an award.

Section 11. Amendment and Termination.

The Board may at any time, and from time to time, amend alter, suspend or discontinue any of the provisions of the Plan, but no amendment, alteration, suspension or discontinuance shall be made that would impair the rights of a Holder under any Agreement theretofore entered into hereunder, without the Holder's consent, except as set forth in this Plan.

Section 12. Term of Plan.

12.1. Effective Date. The Plan shall be effective as of December 7, 2004 subject to the approval of the Plan by the Company's stockholders within one year after the Effective Date. Notwithstanding the foregoing, if the Plan is not approved by the Company's stockholders, it will continue to be effective provided that no Incentive Stock Options will be issued under the Plan Any awards granted under the Plan prior to such approval shall be effective when made (unless otherwise specified by the Committee at the time of grant), but shall be conditioned upon, and subject to, such approval of the Plan by the

Edgar Filing: Origin Agritech LTD - Form S-4/A

Company's stockholders and no awards shall vest or otherwise become free of restrictions prior to such approval.

12.2. Termination Date. Unless terminated by the Board, this Plan shall continue to remain effective until such time as no further awards may be granted and all awards granted

12

under the Plan are no longer outstanding. Notwithstanding the foregoing, grants of Incentive Stock Options may be made only during the ten-year period following the Effective Date.

Section 13. General Provisions.

13.1. Written Agreements. Each award granted under the Plan shall be confirmed by, and shall be subject to the terms of, the Agreement executed by the Company and the Holder, or such other document as may be determined by the Committee. The Committee may terminate any award made under the Plan if the Agreement relating thereto is not executed and returned to the Company within 10 days after the Agreement has been delivered to the Holder for his or her execution.

13.2. Unfunded Status of Plan. The Plan is intended to constitute an "unfunded" plan for incentive and deferred compensation. With respect to any payments not yet made to a Holder by the Company, nothing contained herein shall give any such Holder any rights that are greater than those of a general creditor of the Company.

13.3. Employees.

(a) Engaging in Competition With the Company; Solicitation of Customers and Employees; Disclosure of Confidential Information. If a Holder's employment with the Company or a Subsidiary is terminated for any reason whatsoever, and within 12 months after the date thereof such Holder either (i) accepts employment with any competitor of, or otherwise engages in competition with, the Company or any of its Subsidiaries, (ii) solicits any customers or employees of the Company or any of its Subsidiaries to do business with or render services to the Holder or any business with which the Holder becomes affiliated or to which the Holder renders services or (iii) discloses to anyone outside the Company or uses any confidential information or material of the Company or any of its Subsidiaries in violation of the Company's policies or any agreement between the Holder and the Company or any of its Subsidiaries, the Committee, in its sole discretion, may require such Holder to return to the Company the economic value of any Shares that was realized or obtained by such Holder at any time during the period beginning on the date that is six months prior to the date such Holder's employment with the Company is terminated. In such event, Holder agrees to remit to the Company, in cash, an amount equal to the difference between the Fair Market Value of the Shares on the date of termination (or the sales price of such Shares if the Shares were sold during such six month period) and the price the Holder paid the Company for such Shares.

(b) Termination for Cause. The Committee may, if a Holder's employment with the Company or a Subsidiary is terminated for cause, annul any award granted under this Plan to such employee and, in such event, the Committee, in its sole discretion, may require such Holder to return to the Company the economic value of any Shares that was realized or obtained by such Holder at any time during the period beginning on that date that is six months prior to the date such Holder's employment with the Company is terminated. In

Edgar Filing: Origin Agritech LTD - Form S-4/A

such event, Holder agrees to remit to the Company, in cash, an amount equal to the difference between the Fair Market Value of the Shares on the date of termination (or the sales price of such Shares if the

13

Shares were sold during such six month period) and the price the Holder paid the Company for such Shares.

(c) No Right of Employment. Nothing contained in the Plan or in any award hereunder shall be deemed to confer upon any Holder who is an employee of the Company or any Subsidiary any right to continued employment with the Company or any Subsidiary, nor shall it interfere in any way with the right of the Company or any Subsidiary to terminate the employment of any Holder who is an employee at any time.

13.4. Investment Representations; Company Policy. The Committee may require each person acquiring shares of Common Stock pursuant to a Stock Option or other award under the Plan to represent to and agree with the Company in writing that the Holder is acquiring the shares for investment without a view to distribution thereof. Each person acquiring shares of Common Stock pursuant to a Stock Option or other award under the Plan shall be required to abide by all policies of the Company in effect at the time of such acquisition and thereafter with respect to the ownership and trading of the Company's securities.

13.5. Additional Incentive Arrangements. Nothing contained in the Plan shall prevent the Board from adopting such other or additional incentive arrangements as it may deem desirable, including, but not limited to, the granting of Stock Options and the awarding of Common Stock and cash otherwise than under the Plan; and such arrangements may be either generally applicable or applicable only in specific cases.

13.6. Withholding Taxes. Not later than the date as of which an amount must first be included in the gross income of the Holder for Federal income tax purposes with respect to any Stock Option or other award under the Plan, the Holder shall pay to the Company, or make arrangements satisfactory to the Committee regarding the payment of, any Federal, state and local taxes of any kind required by law to be withheld or paid with respect to such amount. If permitted by the Committee, tax withholding or payment obligations may be settled with Common Stock, including Common Stock that is part of the award that gives rise to the withholding requirement. The obligations of the Company under the Plan shall be conditioned upon such payment or arrangements and the Company or the Holder's employer (if not the Company) shall, to the extent permitted by law, have the right to deduct any such taxes from any payment of any kind otherwise due to the Holder from the Company or any Subsidiary.

13.7. Governing Law. The Plan and all awards made and actions taken thereunder shall be governed by and construed in accordance with the laws of the State of Delaware (without regard to choice of law provisions); provided, however, that all matters relating to or involving corporate law shall be governed by the laws of the State of Delaware.

13.8. Other Benefit Plans. Any award granted under the Plan shall not be deemed compensation for purposes of computing benefits under any retirement plan of the Company or any Subsidiary and shall not affect any benefits under any other benefit plan now or subsequently in effect under which the availability or amount of benefits is related to the level of compensation (unless required by specific reference in any such other plan to awards under this Plan).

13.9. Non-Transferability. Except as otherwise expressly provided in the Plan or the Agreement, no right or benefit under the Plan may be alienated, sold, assigned, hypothecated, pledged, exchanged, transferred, encumbered or charged, and any attempt to alienate, sell, assign, hypothecate, pledge, exchange, transfer, encumber or charge the same shall be void.

13.10. Applicable Laws. The obligations of the Company with respect to all Stock Options and awards under the Plan shall be subject to (i) all applicable laws, rules and regulations and such approvals by any governmental agencies as may be required, including, without limitation, the Securities Act of 1933 (the "Securities Act"), as amended, and (ii) the rules and regulations of any securities exchange on which the Common Stock may be listed.

13.11. Conflicts. If any of the terms or provisions of the Plan or an Agreement conflict with the requirements of Section 422 of the Code, then such terms or provisions shall be deemed inoperative to the extent they so conflict with such requirements. Additionally, if this Plan or any Agreement does not contain any provision required to be included herein under Section 422 of the Code, such provision shall be deemed to be incorporated herein and therein with the same force and effect as if such provision had been set out at length herein and therein. If any of the terms or provisions of any Agreement conflict with any terms or provisions of the Plan, then such terms or provisions shall be deemed inoperative to the extent they so conflict with the requirements of the Plan. Additionally, if any Agreement does not contain any provision required to be included therein under the Plan, such provision shall be deemed to be incorporated therein with the same force and effect as if such provision had been set out at length therein.

13.12. Non-Registered Stock. The shares of Common Stock to be distributed under this Plan have not been, as of the Effective Date, registered under the Securities Act of 1933, as amended, or any applicable state or foreign securities laws and the Company has no obligation to any Holder to register the Common Stock or to assist the Holder in obtaining an exemption from the various registration requirements, or to list the Common Stock on a national securities exchange or any other trading or quotation system, including the Nasdaq National Market and Nasdaq SmallCap Market.

Annex I

Section 262 of the Delaware General Corporation Law

262 APPRAISAL RIGHTS. (a) Any stockholder of a corporation of this State who holds shares of stock on the date of the making of a demand pursuant to subsection (d) of this section with respect to such shares, who continuously holds such shares through the effective date of the merger or consolidation, who has otherwise complied with subsection (d) of this section and who has neither voted in favor of the merger or consolidation nor consented thereto in writing pursuant to ss. 228 of this title shall be entitled to an appraisal by the Court of Chancery of the fair value of the stockholder's shares of stock under the circumstances described in subsections (b) and (c) of this section. As used in this section, the word "stockholder" means a holder of record of stock in a stock corporation and also a member of record of a nonstock corporation; the words "stock" and "share" mean and include what is ordinarily meant by those words and also membership or membership interest of a member of a nonstock corporation; and the words "depository receipt" mean a receipt or other instrument issued by a depository representing an interest in one or more shares, or fractions thereof, solely of stock of a corporation, which stock is deposited with the depository.

(b) Appraisal rights shall be available for the shares of any class or series of stock of a constituent corporation in a merger or consolidation to be effected pursuant to ss. 251 (other than a merger effected pursuant to ss. 251(g) of this title), ss. 252, ss. 254, ss. 257, ss. 258, ss. 263 or ss. 264 of this title:

(1) Provided, however, that no appraisal rights under this section shall be available for the shares of any class or series of stock, which stock, or depository receipts in respect thereof, at the record date fixed to determine the stockholders entitled to receive notice of and to vote at the meeting of stockholders to act upon the agreement of merger or consolidation, were either (i) listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or (ii) held of record by more than 2,000 holders; and further provided that no appraisal rights shall be available for any shares of stock of the constituent corporation surviving a merger if the merger did not require for its approval the vote of the stockholders of the surviving corporation as provided in subsection (f) of ss. 251 of this title.

(2) Notwithstanding paragraph (1) of this subsection, appraisal rights under this section shall be available for the shares of any class or series of stock of a constituent corporation if the holders thereof are required by the

Edgar Filing: Origin Agritech LTD - Form S-4/A

terms of an agreement of merger or consolidation pursuant to ss.ss. 251, 252, 254, 257, 258, 263 and 264 of this title to accept for such stock anything except:

a. Shares of stock of the corporation surviving or resulting from such merger or consolidation, or depository receipts in respect thereof;

b. Shares of stock of any other corporation, or depository receipts in respect thereof, which shares of stock (or depository receipts in respect thereof) or depository receipts at the effective date of the merger or consolidation will be either listed on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or held of record by more than 2,000 holders;

c. Cash in lieu of fractional shares or fractional depository receipts described in the foregoing subparagraphs a. and b. of this paragraph; or

d. Any combination of the shares of stock, depository receipts and cash in lieu of fractional shares or fractional depository receipts described in the foregoing subparagraphs a., b. and c. of this paragraph.

(3) In the event all of the stock of a subsidiary Delaware corporation party to a merger effected under ss. 253 of this title is not owned by the parent corporation immediately prior to the merger, appraisal rights shall be available for the shares of the subsidiary Delaware corporation.

(c) Any corporation may provide in its certificate of incorporation that appraisal rights under this section shall be available for the shares of any class or series of its stock as a result of an amendment to its certificate of incorporation, any merger or consolidation in which the corporation is a constituent corporation or the sale of all or substantially all of the assets of the corporation. If the certificate of incorporation contains such a provision, the procedures of this section, including those set forth in subsections (d) and (e) of this section, shall apply as nearly as is practicable.

(d) Appraisal rights shall be perfected as follows:

(1) If a proposed merger or consolidation for which appraisal rights are provided under this section is to be submitted for approval at a meeting of stockholders, the corporation, not less than 20 days prior to the meeting, shall notify each of its stockholders who was such on the record date for such meeting with respect to shares for which appraisal rights are available pursuant to subsection (b) or (c) hereof that appraisal rights are available for any or all of the shares of the constituent corporations, and shall include in such notice a copy of this section. Each stockholder electing to demand the appraisal of such stockholder's shares shall deliver to the corporation, before the taking of the vote on the merger or consolidation, a written demand for appraisal of such stockholder's shares. Such demand will be sufficient if it reasonably informs the corporation of the identity of the stockholder and that the stockholder intends thereby to demand the appraisal of such stockholder's shares. A proxy or vote against the merger or consolidation shall not constitute such a demand. A stockholder electing to take such action must do so by a separate written demand as herein provided. Within 10 days after the effective date of such merger or consolidation, the surviving or resulting corporation shall notify each stockholder of each constituent corporation who has complied with this subsection and has not voted in favor of or consented to the merger or consolidation of the date that the merger or consolidation has become effective; or

Edgar Filing: Origin Agritech LTD - Form S-4/A

(2) If the merger or consolidation was approved pursuant to ss. 228 or ss. 253 of this title, then, either constituent corporation before the effective date of the merger or consolidation, or the surviving or resulting corporation within ten days thereafter, shall notify each of the holders of any class or series of stock of such constituent corporation who are entitled to appraisal rights of the approval of the merger or consolidation and that appraisal rights are available for any or all shares of such class or series of stock of such constituent corporation, and shall include in such notice a copy of this section. Such notice may, and, if given on or after the effective date of the merger or consolidation, shall, also notify such stockholders of the effective date of the merger or consolidation. Any stockholder entitled to appraisal rights may, within 20 days after the date of mailing of such notice, demand in writing from the surviving or resulting corporation the appraisal of such holder's shares. Such demand will be sufficient if it reasonably informs the corporation of the identity of the stockholder and that the stockholder intends thereby to demand the appraisal of such holder's shares. If such notice did not notify stockholders of the effective date of the merger or consolidation, either (i) each such constituent corporation shall send a second notice before the effective date of the merger or consolidation notifying each of the holders of any class or series of stock of such constituent corporation that are entitled to appraisal rights of the effective date of the merger or consolidation or (ii) the surviving or resulting corporation shall send such a second notice to all such holders on or within 10 days after such effective date; provided, however, that if such second notice is sent more than 20 days following the sending of the first notice, such second notice need only be sent to each stockholder who is entitled to appraisal rights and who has demanded appraisal of such holder's shares in accordance with this subsection. An affidavit of the secretary or assistant secretary or of the transfer agent of the corporation that is required to give either notice that such notice has been given shall, in the absence of fraud, be prima facie evidence of the facts stated therein. For purposes of determining the stockholders entitled to receive either notice, each constituent corporation may fix, in advance, a record date that shall be not more than 10 days prior to the date the notice is given, provided, that if the notice is given on or after the effective date of the merger or consolidation, the record date shall be such effective date. If no record date is fixed and the notice is given prior to the effective date, the record date shall be the close of business on the day next preceding the day on which the notice is given.

(e) Within 120 days after the effective date of the merger or consolidation, the surviving or resulting corporation or any stockholder who has complied with subsections (a) and (d) hereof and who is otherwise entitled to appraisal rights, may file a petition in the Court of Chancery demanding a

determination of the value of the stock of all such stockholders. Notwithstanding the foregoing, at any time within 60 days after the effective date of the merger or consolidation, any stockholder shall have the right to withdraw such stockholder's demand for appraisal and to accept the terms offered upon the merger or consolidation. Within 120 days after the effective date of the merger or consolidation, any stockholder who has complied with the requirements of subsections (a) and (d) hereof, upon written request, shall be entitled to receive from the corporation surviving the merger or resulting from the consolidation a statement setting forth the aggregate number of shares not voted in favor of the merger or consolidation and with respect to which demands for appraisal have been received and the aggregate number of holders of such shares. Such written statement shall be mailed to the stockholder within 10 days after such stockholder's written request for such a statement is received by the surviving or resulting corporation or within 10 days after expiration of the period for delivery of demands for appraisal under subsection (d) hereof,

Edgar Filing: Origin Agritech LTD - Form S-4/A

whichever is later.

(f) Upon the filing of any such petition by a stockholder, service of a copy thereof shall be made upon the surviving or resulting corporation, which shall within 20 days after such service file in the office of the Register in Chancery in which the petition was filed a duly verified list containing the names and addresses of all stockholders who have demanded payment for their shares and with whom agreements as to the value of their shares have not been reached by the surviving or resulting corporation. If the petition shall be filed by the surviving or resulting corporation, the petition shall be accompanied by such a duly verified list. The Register in Chancery, if so ordered by the Court, shall give notice of the time and place fixed for the hearing of such petition by registered or certified mail to the surviving or resulting corporation and to the stockholders shown on the list at the addresses therein stated. Such notice shall also be given by one or more publications at least one week before the day of the hearing, in a newspaper of general circulation published in the City of Wilmington, Delaware or such publication as the Court deems advisable. The forms of the notices by mail and by publication shall be approved by the Court, and the costs thereof shall be borne by the surviving or resulting corporation.

(g) At the hearing on such petition, the Court shall determine the stockholders who have complied with this section and who have become entitled to appraisal rights. The Court may require the stockholders who have demanded an appraisal for their shares and who hold stock represented by certificates to submit their certificates of stock to the Register in Chancery for notation thereon of the pendency of the appraisal proceedings; and if any stockholder fails to comply with such direction, the Court may dismiss the proceedings as to such stockholder.

(h) After determining the stockholders entitled to an appraisal, the Court shall appraise the shares, determining their fair value exclusive of any element of value arising from the accomplishment or expectation of the merger or consolidation, together with a fair rate of interest, if any, to be paid upon the amount determined to be the fair value. In determining such fair value, the Court shall take into account all relevant factors. In determining the fair rate of interest, the Court may consider all relevant factors, including the rate of interest which the surviving or resulting corporation would have had to pay to borrow money during the pendency of the proceeding. Upon application by the surviving or resulting corporation or by any stockholder entitled to participate in the appraisal proceeding, the Court may, in its discretion, permit discovery or other pretrial proceedings and may proceed to trial upon the appraisal prior to the final determination of the stockholder entitled to an appraisal. Any stockholder whose name appears on the list filed by the surviving or resulting corporation pursuant to subsection (f) of this section and who has submitted such stockholder's certificates of stock to the Register in Chancery, if such is required, may participate fully in all proceedings until it is finally determined that such stockholder is not entitled to appraisal rights under this section.

(i) The Court shall direct the payment of the fair value of the shares, together with interest, if any, by the surviving or resulting corporation to the stockholders entitled thereto. Interest may be simple or compound, as the Court may direct. Payment shall be so made to each such stockholder, in the case of holders of uncertificated stock forthwith, and the case of holders of shares represented by certificates upon the surrender to the corporation of the certificates representing such stock. The Court's decree may be enforced as other decrees in the Court of Chancery may be enforced, whether such surviving or resulting corporation be a corporation of this State or of any state.

Edgar Filing: Origin Agritech LTD - Form S-4/A

(j) The costs of the proceeding may be determined by the Court and taxed upon the parties as the Court deems equitable in the circumstances. Upon application of a stockholder, the Court may order all or a portion of the expenses incurred by any stockholder in connection with the appraisal proceeding, including, without limitation, reasonable attorney's fees and the fees and expenses of experts, to be charged pro rata against the value of all the shares entitled to an appraisal.

(k) From and after the effective date of the merger or consolidation, no stockholder who has demanded appraisal rights as provided in subsection (d) of this section shall be entitled to vote such stock for any purpose or to receive payment of dividends or other distributions on the stock (except dividends or other distributions payable to stockholders of record at a date which is prior to the effective date of the merger or consolidation); provided, however, that if no petition for an appraisal shall be filed within the time provided in subsection (e) of this section, or if such stockholder shall deliver to the surviving or resulting corporation a written withdrawal of such stockholder's demand for an appraisal and an acceptance of the merger or consolidation, either within 60 days after the effective date of the merger or consolidation as provided in subsection (e) of this section or thereafter with the written approval of the corporation, then the right of such stockholder to an appraisal shall cease. Notwithstanding the foregoing, no appraisal proceeding in the Court of Chancery shall be dismissed as to any stockholder without the approval of the Court, and such approval may be conditioned upon such terms as the Court deems just.

(l) The shares of the surviving or resulting corporation to which the shares of such objecting stockholders would have been converted had they assented to the merger or consolidation shall have the status of authorized and unissued shares of the surviving or resulting corporation.

Item 20. Indemnification of Directors and Officers

Section 57 of the International Companies Ordinance of 1984 generally provides for indemnification and permits a company to obtain insurance. The Memorandum of Association of the Registrant follows the statute. The Registrant intends to obtain director and officer insurance at the consummation of the acquisition of the Origin companies.

The following is a statement of Section 57 of the International Companies Ordinance of 1984:

Indemnification.

Edgar Filing: Origin Agritech LTD - Form S-4/A

(1) Subject to subsection (2) and any limitations in its Memorandum or Articles, a company incorporated under this Ordinance may indemnify against all expenses, including legal fees, and against all judgments, fines, and amounts paid in settlement and reasonably incurred in connection with legal, administrative or investigative proceedings any person who

(a) is or was a party or is threatened to be made a party to any threatened, pending or completed proceedings, whether civil, criminal, administrative or investigative, by reason of the fact that the person is or was a director, an officer or a liquidator of the company; or

(b) is or was, at the request of the company, serving as a director, officer or liquidator of, or in any other capacity is or was acting for, another company or a partnership, joint venture, trust or other enterprise.

(2) Subsection (1) only applies to a person referred to in that subsection if the person acted honestly and in good faith with a view to the best interests of the company and, in the case of criminal proceedings, the person had no reasonable cause to believe that his conduct was unlawful.

(3) The decision of the directors as to whether the person acted honestly and in good faith and with a view to the best interests of the company and as to whether the person had no reasonable cause to believe that his conduct was unlawful is in the absence of fraud, sufficient for the purposes of this section, unless a question of law is involved.

(4) The termination of any proceedings by any judgment, order, settlement, conviction or the entering of a nolle prosequi does not, by itself, create a presumption that the person did not act honestly and in good faith and with a view to the best interests of the company or that the person had reasonable cause to believe that his conduct was unlawful.

(5) If a person referred to in subsection (1) has been successful in defense of any proceedings referred to in subsection (1), the person is entitled to be indemnified against all expenses, including legal fees, and against all judgments, fines and amounts paid in settlement and reasonably incurred by the person in connection with the proceedings.

The following is a statement of Section 58 of the International Companies Ordinance of 1984:

Item 22. Undertakings

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post effective amendment to this registration statement:

i. To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) To file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A of form 20-F at the start of any delayed offering or throughout a continuous offering.

II-4

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such Director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public

Edgar Filing: Origin Agritech LTD - Form S-4/A

policy as expressed in the Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes as follows: that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.

The registrant undertakes that every prospectus: (1) that is filed pursuant to the immediately preceding paragraph, or (2) that purports to meet the requirements of Section 10(a)(3) of the Act and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference into the prospectus pursuant to Item 4, 10(b), 11, or 13 of this form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.
