DIAGEO ANNOUNCES FURTHER RESTRUCTURING AND UPDATES  
ON EXISTING INITIATIVES

New restructuring initiatives

Diageo has identified further restructuring opportunities which are expected to give rise to cost savings of approximately £40 million per annum in the year ending 30 June 2012. In addition the cost of production of maturing stocks will be reduced by about £10 million per annum in the year ending 30 June 2011. This will initially be reflected in the value of inventory and will not be reflected in reduced cost of goods sold until future years. Related restructuring costs of approximately £120 million will be taken as an exceptional charge in the year ending 30 June 2010. The cash cost of this exceptional charge is estimated to be £90 million which will largely be incurred in the year ending 30 June 2010.

As part of these restructuring projects, changes to supply operations in Scotland have been announced today including:

- The consolidation of packaging operations from three sites, at Kilmarnock, Glasgow and Fife, to two sites and the closure of the packaging plant at Kilmarnock.
  - The closure of the Port Dundas distillery and the adjacent cooperage.
  - The outsourcing of certain warehousing operations.

Update on Restructuring Announcement Made in February

In February 2009 Diageo announced a restructuring programme which was estimated to reduce costs by £100 million in the year ending 30 June 2010. The related restructuring charge was estimated to be £200 million. It is now estimated that this restructuring programme will result in a year on year cost reduction totaling £120 million in the year ending 30 June 2010 which will benefit both cost of goods sold and overheads. The associated cost will result in an exceptional charge of approximately £180 million in the year ended 30 June 2009 and a further exceptional charge of £90 million in the year ending 30 June 2010.

### Brewing in Ireland

As previously announced Diageo is carrying out a review of its plans for the restructuring of brewing operations in Ireland. The revised proposal will have substantially the same scope as the original proposal, namely the restructuring of all three Diageo breweries in Ireland and is expected to yield cost savings at least equal to the original proposal. An exceptional charge of £78 million was made in respect of the restructuring of brewing operations in Ireland in the year ended 30 June 2008. There will be further exceptional charges of approximately £20 million in the year ended 30 June 2009 and a similar amount in the year ending 30 June 2010.

### Summary

In summary Diageo expects to generate cost savings from restructuring of £120 million in the financial year ending 30 June 2010 and an additional £40 million in the financial year ending 30 June 2012. Additional cost savings will accrue from the financial year ending 30 June 2014 in respect of the restructuring of brewing operations in Ireland. Lower inventory costs for maturing stocks will provide additional cost savings but over a longer timescale.

In respect of these cost saving programmes Diageo expects exceptional charges in respect of restructuring of £200 million in the year ended 30 June 2009 (being £180 million in respect of the restructuring programme announced in February 2009 and £20 million in respect of the restructuring of brewing operations in Ireland) and of £210 million in the year ending 30 June 2010 (being £120 million in respect of the restructuring programme announced today and £90 million in respect of the restructuring programme announced in February 2009).

Diageo's East African subsidiary, East African Breweries Limited, issues statement in respect of Tanzania operations to Kenyan stock exchange

East African Breweries Limited (EABL), a subsidiary of Diageo, has issued a cautionary announcement that on 16 July 2009 it entered into a conditional agreement to acquire a substantial interest in a Tanzanian company, Serengeti Breweries Limited (SBL), from existing shareholders for an undisclosed sum.

EABL has also given notice to terminate its existing brewing and distribution agreement with Tanzania Breweries Limited, for the manufacture and sale of its brands in Tanzania. Issues have arisen between EABL and Tanzania Breweries Limited which are currently the subject of legal proceedings. Therefore, Tanzania Breweries Limited currently remains the sole and exclusive manufacturer and distributor of EABL products in Tanzania.

SBL is Tanzania's second largest brewing operation and maker of the popular Serengeti Lager. SBL currently accounts for 17 per cent of the Tanzanian market by volume, and has grown market share by 10 per cent over the last three years. Serengeti Lager, a premium priced product, is the flagship brand of SBL accounting for 85 per cent of its sales volume. As at 31 December 2008, SBL's total gross assets were 83,438million Tanzanian Shillings (approximately £38million at current exchange rates).

SBL will form an integral part of EABL's East African supply footprint providing additional capacity to Kenya and Uganda.
