Executive Employment Agreements and 2009 Executive Compensation

The following discussion summarizes the terms of our employment arrangements with, and the compensation paid for 2009 to, the Company’s Chief Executive Officer, Chief Financial Officer, the Company’s three next most highly compensated executive officers and the Company’s former Chief Medical Officer. Detailed information regarding the Company’s executive compensation for 2009 will be set forth in the Company’s definitive proxy statement for the 2010 Annual Meeting of Stockholders, and the information set forth below is not intended to represent the amounts that will be included in the compensation tables contained in the proxy statement.

With respect to the Company’s 2009 Management Incentive Compensation Plan (the “2009 Bonus Plan”), the summary information set forth below is qualified in its entirety by the text of the 2009 Bonus Plan, which was filed as Exhibit 10.1 to the Company’s Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 and is incorporated herein by reference.

Christian Itin, President and Chief Executive Officer

The Company entered into an employment agreement with Dr. Itin as of June 2, 2006 with a term through June 1, 2010. The agreement may be extended for successive one-year terms.

- Annual Salary. For 2009, Dr. Itin's base salary was €291,200, or \$417,377 using the exchange rate as of December 31, 2009.
- Annual Cash Bonus. Under the 2009 Bonus Plan, Dr. Itin's target cash bonus was 50% of his 2009 base salary, or €145,600, which corresponds to \$208,693 using the exchange rate as of December 31, 2009. The bonus paid to Dr. Itin under the 2009 Bonus Plan was entirely dependent upon the achievement of specified corporate goals.

During 2009, the Company's compensation committee recommended, and its Board of Directors approved, the following corporate goals for all of the Company's executive officers under the 2009 Bonus Plan, along with each goal's relative weight. In January 2010, the compensation committee determined the achievement of the corporate goals listed below as set forth in the table below:

Corporate Goal	Weighting	Achieved
1. Enter into a new corporate collaboration agreement based on the Company's technology	25%	12.5%
2. Resolution of a contractual matter relating to one of the Company's product candidates	20%	20%
3. Advance the development of MT110 in clinical trials and establish a therapeutic window for this product candidate	15%	7.5%
4. Set up the first pivotal clinical trial for blinatumomab	15%	10%
5. Achieve the primary endpoint of efficacy in the phase 2 clinical trial of blinatumomab in patients with acute lymphoblastic leukemia	10%	12.5%
6. Establish final dose and schedule in the phase 1 clinical trial of blinatumomab in patients with non-Hodgkin's lymphoma	5%	5%
7. Common stock share price to outperform the NASDAQ Biotechnology Index during the year by a specified percentage	3%	3%
8. Increase awareness of Micromet and BiTE antibody technology through publication of a specified number of articles in the press or scientific journals	2%	2%
9. Achieve a specified goal in one of the Company's product development collaborations	%	2%
10. Achieve year-end cash balance consistent with approved 2009 budget and realize budgeted reimbursements from partnerships	2	3%

In addition to the achievement of the corporate goals set forth above, the compensation committee considered the Company's consummation of a public offering of its common stock in the third quarter of 2009 from which the Company raised net proceeds of \$74.9 million. Taking into account this additional corporate achievement, the compensation committee determined that the corporate goals had been achieved at an aggregate level of 90%. This percentage achievement of the Company's corporate goals was used for the bonus determinations of all participants in the 2009 Bonus Plan.

Therefore, Dr. Itin's bonus for 2009 was 90% of his target bonus, or €131,040 (or \$187,820 using the exchange rate as of December 31, 2009).

- **Stock Options.** On April 1, 2009, Dr. Itin was granted two stock options. The first option is exercisable for 100,000 shares of common stock at an exercise price of \$3.16 per share and vests in 36 equal monthly installments through April 1, 2012. The second option was initially exercisable for an additional 100,000 shares of common stock at an exercise price of \$3.16 per share and was scheduled to vest based on the Company's achievement of specified corporate performance criteria relating to the establishment of corporate partnerships and clinical development goals during 2009. On January 29, 2010, the compensation committee determined that the performance criteria had been partially met, resulting in vesting of the option as to 58,333 shares, and the remainder of the option expired.
 - **Other Benefits.** As Dr. Itin is domiciled in Germany, the Company also makes payments to him in lieu of payments on his behalf into the German state pension, unemployment and health insurance system. For 2009, these payments to Dr. Itin amounted to \$23,348.
- **Potential Severance and Change of Control Payments.** If the Company were to terminate Dr. Itin's employment without "cause," or if he were to resign for "good reason," as those terms are defined in his employment agreement, he would receive, in addition to his accrued salary through the date of termination:
 - o 12 months of salary continuation (increased to 18 months of salary continuation if the termination is within 6 months prior to or 12 months following a change of control of the Company), or the benefits under any other severance benefit plan applicable to Dr. Itin as of the termination date, if greater;
 - o continuation of payments based on the amounts Micromet AG is paying under government-mandated social security and health insurance benefits programs for its employees in Germany for the same period of time as the salary continuation payments are being made;
 - o the average of his bonuses for the three years prior to the date of termination;
 - o life insurance benefits coverage to the extent he was receiving such benefits prior to the date of termination;
 - o costs for outplacement services up to €15,000; and
 - o 12 months' acceleration of vesting with respect to unvested stock awards then held by Dr. Itin.

In addition, upon any change of control of the Company, 50% of Dr. Itin's unvested stock awards would immediately vest upon the closing or the stockholder vote resulting in the change of control, and all of Dr. Itin's remaining unvested stock awards would vest and become exercisable 6 months following such date, if he is employed by the Company or the successor entity at that time. If the Company were to terminate his employment without cause, or if he were to resign for good reason, within 6 months prior to or 24 months following a change of control of the Company, then all of his remaining unvested stock awards would automatically vest and become exercisable on the later of the date of termination or the date of the first closing of any transaction or the stockholder vote resulting in such change of control.

Barclay Phillips, Senior Vice President and Chief Financial Officer

The Company entered into an employment agreement with Mr. Phillips as of August 30, 2008, which was amended on November 18, 2008 and December 23, 2008, without a specified term.

- Annual Salary. For 2009, Mr. Phillips's base salary was \$306,000.
 - Annual Cash Bonus. In accordance with the terms of Mr. Phillips' amended employment agreement, he was not entitled to participate in the Company's management incentive compensation plan until the 2010 plan year. Therefore, he did not participate in the 2009 Bonus Plan. However, in March 2010, the Company's compensation committee awarded Mr. Phillips a discretionary bonus of \$13,644 in consideration of Mr. Phillips's contributions to the Company's public offering of its common stock that closed in August 2009.
 - Stock Options. On April 1, 2009, Mr. Phillips was granted two stock options. The first option is exercisable for 37,500 shares of common stock at an exercise price of \$3.16 per share and vests in 36 equal monthly installments through April 1, 2012. The second option was initially exercisable for an additional 37,500 shares of common stock at an exercise price of \$3.16 per share and was scheduled to vest based on the Company's achievement of specified corporate performance criteria relating to the establishment of corporate partnerships and clinical development goals during 2009. On January 29, 2010, the compensation committee determined that the performance criteria had been partially met, resulting in vesting of the option as to 21,875 shares, and the remainder of the option expired.
 - Relocation Expenses and Other Benefits. As part of Mr. Phillips' employment agreement, the Company agreed to reimburse him for his expenses incurred in relocating to the area of the Company's headquarters in Bethesda, Maryland. These relocation expenses include travel expenses and the costs of selling his prior residence and temporary housing and transportation in the Washington, DC region. During 2009, the Company paid aggregate relocation expenses of \$84,622 to Mr. Phillips or on his behalf. In addition, in accordance with the terms of his employment agreement, the Company paid to or on behalf of Mr. Phillips insurance premiums for health, life, and disability insurance in the amount of \$33,866 in the aggregate during 2009.
 - Potential Severance and Change of Control Payments. If the Company were to terminate Mr. Phillips's employment without "cause," or if he were to resign for "good reason," as those terms are defined in his employment agreement, he would receive, in addition to his accrued salary through the date of termination:
 - o A lump sum payment equal to 12 months of base salary;
 - o continuation of health insurance premiums under COBRA and life insurance benefits for 12 months;
 - o the average of his bonuses for the three years prior to the date of termination, prorated for the year of termination, unless the termination is within 6 months prior to or 12 months following a change of control, in which case there is no proration;
-

- o costs for outplacement services up to \$15,000; and
- o 12 months' acceleration of vesting with respect to unvested stock awards then held by Mr. Phillips.

In addition, upon any change of control of the Company, 50% of Mr. Phillips's unvested stock awards would immediately vest upon the closing or the stockholder vote resulting in the change of control. If the Company were to terminate his employment without cause, or if he were to resign for good reason, within 6 months prior to or 24 months following a change of control of the Company, then all of his remaining unvested stock awards would automatically vest and become exercisable on the later of the date of termination or the date of the first closing of any transaction or the stockholder vote resulting in such change of control.
