1. BALANCE SHEET

1.1. Assets

As of December 31, 2010, Bancolombia's assets totaled COP 68,095 billion, which represents an increase of 5% compared to 3Q10 and of 10% compared to 4Q09.

Assets denominated in COP totaled COP 51,362 billion at the end of 4Q10, increasing 8% compared to 3Q10 and 11% compared to 4Q09. Assets denominated in currencies other than COP (mainly American dollars ("USD")) represented 25% of total assets (or USD 8.7 billion) at the end of 4Q10, decreasing 9% compared to 3Q10 and increasing 16% compared to 4Q09.

Loans and financial leases, net of provisions, represented 68% of assets at the end of 4Q10, increasing as compared to the proportion they represented at the end of 3Q10 (66%) and 4Q09 (64%). Net investments were 13% of total assets at the end of the quarter, decreasing as compared to their participation in assets at the end of 3Q10 (14%) and 4Q09 (14%).

1.2. Loan Portfolio

During the fourth quarter of 2010, there was growth of the loan portfolio in our operation in Colombia. Loans denominated in COP totaled COP 36,075 billion at the end of 4Q10, and increased 3% compared to 3Q10 and 14% compared to 4Q09. On the other hand, loans denominated in USD totaled USD 6,544 million (26% of the loan portfolio), increasing 13% compared to 3Q10 and 30% compared to 4Q09. These USD denominated loans correspond to loans in Colombia (USD 2,431 million or 38% of loans in USD), El Salvador (USD 2,345 million or 37% of loans in USD) and other countries (USD 1,571 million or 25% of loans in USD).

The COP depreciated 6% against the USD during 4Q10 and appreciated 6% against that same currency since 4Q09. The depreciation during the quarter positively affected the conversion to COP of loans denominated in USD. Overall, Bancolombia's gross loans totaled COP 48,601 billion at the end of 4Q10 and increased 7.1% compared to the COP 45,368 billion at the end of 3Q10.

In annual terms, gross loans increased 16% compared to the COP 42,042 billion in loans reported as of the end of 4Q09. This increase is explained by the growth of loans in both COP and USD, although the conversion of USD denominated loans to COP results in total loan growth in COP of 21% for the dollar denominated portfolio compared to 4Q09. In general, the higher volume of loans denominated in USD during the quarter, reflect increased credit demand on the part of Colombian companies. The recovery of international trade flows played a key role in the increase of loans denominated in USD. Similarly, loans denominated in COP, which constitutes the majority of our loan portfolio, confirms the positive trend that began to show in 2Q10.

Commercial loans denominated in COP remained dynamic and ended 4Q10 at COP 21,808 billion and showed an increase of 4% with respect to 3Q10. Commercial loans denominated in USD totaled USD 4,799 million at the end of the quarter and increased 18% compared to 3Q10. Companies are consistently demanding credit, which again confirms the trend that has been observed since last quarter.

Consumer loans denominated in COP also continued to show dynamism during the quarter, reaching COP 6,182 billion, a figure 8% higher than that reported at the end of 3Q10 and 28% higher than that reported at the end of

4Q09. In contrast, consumer loans originated in El Salvador continue to be subdued although they already started to show a slight improvement. Overall, consumer loans denominated in USD totaled USD 1,042 million and increased 1% with respect to 3Q10 and 3% with respect to 4Q09.

4Q10

In 4Q10, mortgage loans expressed in COP decreased COP 329 billion, and reached COP 3,343 billion. This decrease is explained by the securitization of COP 931 billion during the quarter, which resulted in a total outstanding balance of securitized mortgages of COP 3,104 billion at the end of 4Q10. When taking into account securitizations, mortgage loans increased 4% during the quarter and 11% during the past 12 months. The increased dynamism of mortgage lending in Colombia is explained by optimism regarding the economy, lower long-term interest rates, as well as by the Colombian government's interest rate subsidy program, which have produced higher credit demand in this segment. On the other hand, the outstanding mortgage balances denominated in USD from our operation in El Salvador totaled USD 429 million, stable compared to the mortgage balances in USD reported in 3Q10 and 4% lower than those reported in 4Q09.

Financial leases, 91% of which are denominated in COP, increased 6% during the quarter and 7% compared to 4Q09. Operating leases, net of depreciation, increased 4% during 4Q10 and 19% over the last 12 months.

When analyzing the performance of the loan portfolio according to the categories established by Bancolombia to manage its commercial strategy, it becomes clear that corporate loans were key drivers of the growth of the total loan portfolio during the quarter as they increased 11% with respect to 3Q10. This increase is explained by higher demand for working capital and financing by businesses. On the other hand, retail and SME loans increased 6% in the same period due to greater demand for consumer loans and credit cards.

Reserves for loan losses increased 1% during 4Q10 and totaled COP 2,509 billion, or 5.2% of total loans at the end of the quarter. For further explanation regarding coverage of the loan portfolio and credit quality trends, please see Section 2.4. "Asset Quality, Provision Charges and Balance Sheet Strength" of this report.

4Q10

1.3. Investment Portfolio

As of December 31, 2010, Bancolombia's net investment portfolio totaled COP 8,676 billion, decreasing 5% compared to 3Q10 and 3% compared to 4Q09. The investment portfolio is mainly composed of debt investment securities, which represented 94% of Bancolombia's total investments and 12% of assets at the end of 4Q10. Investments denominated in USD totaled USD 1,027 million and represented 23% of the investment portfolio. Additionally, the Bank has COP 2,411 billion in mortgage backed securities, which represents 28% of the investment portfolio. The duration of the debt securities portfolio was 22.9 months with a yield to maturity of 4.55% at the end of 4Q10.

1.4. Goodwill

As of 4Q10, Bancolombia's goodwill totaled COP 750 billion and decreased 12% compared to the amount reported in 4Q09. This variation is explained by the appreciation of the Colombian peso in the quarter and the amortization of goodwill reported during the past year (under COL GAAP, goodwill is amortized within a period of 20 years). As of December 31, 2010, Bancolombia's goodwill included USD 390 million related mostly to the acquisition of Banagrícola in 2007 and COP 5 billion related to the acquisition of a participation of Renting Bancolombia by Leasing Bancolombia.

1.5. Funding

As of December 31, 2010, Bancolombia's liabilities totaled COP 60,148 billion and increased 5% compared to 3Q10 and 10% compared to 4Q09. During 4Q10, the Bank maintained a solid liquidity position. The ratio of net loans to deposits (including borrowings from domestic development banks) was 100% at the end of 4Q10 and increased compared to the 96% reported in 3Q10 and the 88% reported in 4Q09.

Deposits totaled COP 43,539 billion (or 72% of liabilities) at the end of 4Q10 and increased 3% during the quarter and 3% over the last 12 months. CDs represented 43% of deposits in 4Q09, but represented only 35% in 4Q10. This decrease is in line with the funding strategy executed by the Bank in the last few quarters, which is aimed at taking advantage of the greater liquidity and low interest rates through increasing savings and checking accounts. As a result of this recomposition of the funding mix, demand deposits went from representing 57% of the Bank's total deposits in 4Q09, to representing 65% as of the end of 4Q10.

Through this strategy, interest expense was reduced by 26% with compared to 4Q09. Additionally, even though total deposits increased 3% during the quarter, interest expense remained stable over the same period.

1.6. Shareholders' Equity and Regulatory Capital

Shareholders' equity at the end of 4Q10 was COP 7,947 billion, increasing 13%, or COP 914 billion, with respect to the COP 7,033 billion reported at the end of 4Q09.

Bancolombia's capital adequacy ratio was 14.67%, 50 basis points below the 15.17% for 3Q10 and 144 bps above the 13.23% for 4Q09. The year over year increase was a result of the growth in secondary capital, product of a subordinated bonds issuance for USD 620 million that happened in July 2010.

Bancolombia's capital adequacy ratio was 567 basis points above the minimum level required by Colombia's regulator, while the basic capital ratio (tier 1) was 10.32% and the tangible capital ratio, which is equal to shareholders' equity minus goodwill and intangible assets divided by tangible assets, was 10.3% at the end of 4Q10.

INCOME STATEMENT

Net income totaled COP 429 billion in 4Q10, or COP 545 per share – USD 1.14 per ADR, which represents an increase of 16% compared to 4Q09 and of 14% compared to 3Q10. Bancolombia's ROE was 22.1% for 4Q10, higher than the annualized ROE of 20.6% for 3Q10 and the 21.8% reported in 4Q09.

2.1.

Net Interest Income

Net interest income totaled COP 851 billion in 4Q10, 1% lower than that reported in 3Q10, and 18% lower than the figure for 4Q09. Interest income decreased slightly during the quarter, while interest expense increased 1%. The lower funding cost associated with a better funding mix and the re-pricing of deposits, made it possible to compensate the lower interest rates of new loans granted during the period.

During 4Q10, income generated by the investment portfolio totaled COP 99 billion, a figure 30% lower than the COP 141 billion for 3Q10 and 68% lower than the COP 308 billion for 4Q09. During 4Q10, income generated by the investment portfolio decreased due to lower bond prices in the secondary markets. These mark-to-market losses were realized primarily in Colombia where interest rates in the secondary bond markets showed upward trends in the last months of the year.

Net Interest Margin

Annualized net interest margin ended 4Q10 at 5.9%, lower than the annualized interest margin of 6.2% reported in 3Q10. Annualized net interest margin for investments was 1.9% in 4Q10, while the annualized net interest margin for loans, financial leases and overnight funds was 6.6%. Both margins decreased with respect to those reported in 3Q10 due to lower interest rates on loans and lower income generated by our investment portfolio.

Annualized Interest Margin	4Q09	1Q10	2Q10	3Q10	4Q10
Loans' interest margin	7.3 %	7.1 %	7.1 %	6.7 %	6.6 %
Debt investments' margin	11.1 %	0.6 %	3.1 %	3.6 %	1.9 %
Net interest margin	7.9 %	6.1 %	6.4 %	6.2 %	5.9 %

Notably, funding cost continued to decrease significantly during 4Q10. The lower funding cost is the result of the liability re-pricing effort undertaken during the last quarters and the changes in the funding mix composition. The annualized weighted average cost of deposits reached 2.39% in 4Q10, decreasing as compared to the 2.47% and 3.36% for 3Q10 and 4Q09, respectively.

2.2. Fees and Income from Services

During 4Q10, net fees and income from services totaled COP 420 billion, 8% higher than that reported in 3Q10 and 7% higher than that reported in 4Q09. In particular, fees from collection and payment services increased 11% with respect to 3Q10, and 23% with respect to 4Q09, and fees from banking services increased 18% with respect to 3Q10 and 38% with respect to 4Q09. These increases were generated by the larger number of transactions that occur in the last quarter of the year. Fees from fiduciary activities, and fees from pension fund management decreased during 4Q10, while brokerage fees grew 28%.

2.3. Other Operating Income

Total other operating income was COP 170 billion in 4Q10, 37% higher than in 3Q10, and 29% higher than in 4Q09.

Revenues aggregated in the communication, postage, rent and others totaled COP 49 billion in 4Q10, 9% higher as compared to 3Q10 and 23% higher as compared to 4Q09. This line includes commercial discounts and operating leases payments, which have grown as the value of assets rented under operating leasing contract has increased.

2.4. Asset Quality, Provision Charges and Balance Sheet Strength

The deterioration of the loan portfolio (new past due loans before charge-offs) was COP 41 billion in 4Q10, a figure 43% lower than that presented in 3Q10 (COP 73 billion) and 64% lower than that presented in 4Q09 (COP 116 billion). This slower pace of deterioration is in line with a better performance of the economy. Credit quality continues to be impacted by unemployment, although the new vintages of loans have a low deterioration and contribute to the

improvement of the loan portfolio quality.

Past due loans (those overdue more than 30 days) totaled COP 1,396 billion at the end of 4Q10, which represents 2.9% of total gross loans. The PDL ratio decreased from 3.4% at the end of 3Q10 and from 3.9% at the end of 4Q09. Loan charge-offs totaled COP 166 billion in 4Q10, 20% more than charge-offs for 3Q10 (COP 139 billion) and 28% less than those for 4Q09 (COP 229 billion).

Provision charges (net of recoveries), totaled COP 81 billion in 4Q10, 41% lower than those reported in 3Q10 and 73% lower than those of 4Q09. It is remarkable that while gross loan provisions decreased 50% in the last 12 months, recovery of charged-off loans increased 23%, and that while foreclosed asset provisions decreased 56% in the last 12 months, recovery of provisions for foreclosed assets increased 135%.

4Q10

Bancolombia maintains a strong balance sheet in terms of loan loss reserves. Allowances for loan losses totaled COP 2,509 billion, or 5.2% of total loans at the end of 4Q10, decreasing with respect to the 5.8% presented at the end of 4Q09. Additionally, coverage, measured by the ratio of allowances for loans losses (principal) to PDLs (overdue 30 days), was 180% at the end of 4Q10, increasing with respect to the 163% at the end of 3Q10, and the 149% at the end of 4Q09. Likewise, coverage measured by the ratio of allowances for loans losses to loans classified as C, D and E, was 120% at the end of the fourth quarter of 2010, increasing with comparison to 118% in 3Q10 and 113% in 4Q09.

(1) "Performing" past due loans are loans upon which Bancolombia continues to recognize income although interest in respect of such loans has not been received. Mortgage loans cease to accumulate interest on the statement of operations when they are more than 60 days past due. For all other loans and financial leasing operations of any type, interest is no longer accumulated after they are more than 30 days past due.

(2) Under Colombian Bank regulations, a loan is past due when it is at least 31 days past the actual due date.

2.5. Operating Expenses

During 4Q10, operating expenses totaled COP 814 billion, increasing 8% compared to 3Q10 and 11% compared to 4Q09.

Personnel expenses (the sum of salaries and employee benefits, bonus plan payments and compensation) totaled COP 348 billion in 4Q10, increasing 11% as compared to 3Q10 and 16% as compared to 4Q09. The increase is mainly explained by the annual increment in salaries and by the charges that the Bank did in order to accumulate provisions for salary and benefit payments based on actuarial calculations defined by international financial reporting standards that will be implemented in Colombia in the near future. These charges were COP 57 billion during 4Q10 and COP 101 billion during the whole year. Had those charges not taken place during 4Q10, personnel expenses would have decreased 3% with respect to 4Q09.

During 4Q10, administrative and other expenses totaled COP 386 billion and increased 5% as compared to 3Q10 and 5% compared to 4Q09. This variation is explained by higher expenses for rentals and leasing of technology that the Bank has incurred into since some years ago. The Bank has implemented the strategy of selling real estate properties and then renting them, this with the purpose of obtaining liquidity and tax benefits. This strategy generated a gain in asset sales and increased the rent expenses. In 4Q10, Bancolombia sold or transferred properties worth COP 67 billion, which generated a gain of COP 31 billion. Rent expenses were COP 24 billion during the quarter.

Depreciation expenses totaled COP 50 billion in 4Q10, increasing 1% as compared to 3Q10 and 6% compared to 4Q09.
