Notes to Consolidated Financial Statements (unaudited)

1. Summary of Significant Accounting Policies

Basis of presentation

In the opinion of management, the accompanying unaudited interim Consolidated Financial Statements of Eaton Vance Corp. (the Company) include all adjustments necessary to present fairly the results for the interim periods in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Such financial statements have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures have been omitted pursuant to such rules and regulations. As a result, these financial statements should be read in conjunction with the audited Consolidated Financial Statements and related notes included in the Company's latest Annual Report on Form 10-K.

Adoption of new accounting standards

In March 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update, *Improvements to Employee Share-Based Payment Accounting* (ASU 2016-09), which simplifies certain aspects of the accounting for share-based payment transactions. The Company adopted ASU 2016-09 as of November 1, 2017. One of the impacts of adoption is that excess tax benefits or tax deficiencies related to the exercise of stock options and vesting of restricted stock awards are no longer recognized in additional paid-in capital but rather as an income tax benefit or income tax expense in the period of vesting or settlement. This provision requires a prospective approach to adoption. During the three and six months ended April 30, 2018, the Company recognized excess tax benefits of \$1.9 million and \$13.7 million, respectively, attributable to the exercise of stock options and vesting of restricted stock awards in conjunction with the adoption of this ASU.

This guidance also requires that the excess tax benefits or tax deficiencies described above be classified as an operating cash flow within the Consolidated Statements of Cash Flows as opposed to a financing cash flow, as previously reported. The Company elected to use a retrospective approach to the adoption of this provision. As a result, the excess tax benefit of \$8.2 million recognized for the six months ended April 30, 2017 was reclassified out of financing activities and into operating activities.

Finally, the guidance allows companies to elect to continue to account for forfeitures using an estimate or instead to elect to account for forfeitures as they occur. Upon adoption, the Company elected to account for forfeitures as they occur and adopted this provision using the modified retrospective approach. Therefore, upon adoption, the Company recognized a \$0.5 million cumulative effect adjustment (reduction) to retained earnings, net of related income tax effects, to reflect the timing difference of when forfeitures are recognized in the measurement of stock-based compensation cost.

The Company's accounting policy related to stock-based compensation has been amended to reflect the adoption of this new accounting standard and is summarized below.

Stock-based compensation

The Company accounts for stock-based compensation expense at fair value. Under the fair value method, stock-based compensation expense, which reflects the fair value of stock-based awards measured at grant date, is recognized on a straight-line basis over the relevant service period (generally five years) and is adjusted each period for forfeitures as they occur.

The fair value of each option award granted is estimated using the Black-Scholes option valuation model. The Black-Scholes option valuation model incorporates assumptions as to dividend yield, expected volatility, an appropriate risk-free interest rate and the expected life of the option.

The fair value of profit interests granted under subsidiary long-term equity plans is estimated on the grant date by averaging fair value established using an income approach and fair value established using a market approach for each subsidiary.

The tax effect of the difference, if any, between the cumulative compensation expense recognized for a stock-based award for financial reporting purposes and the deduction for such award for tax purposes is recognized as income tax expense (for tax deficiencies) or benefit (for excess tax benefits) in the Company's Consolidated Statements of Income in the period in which the tax deduction arises (generally in the period of vesting or settlement of a stock-based award, as applicable) and are reflected as an operating activity on the Company's Consolidated Statements of Cash Flows. Shares of non-voting common stock withheld for tax withholding purposes upon the vesting of restricted share awards are reflected as a financing activity in the Company's Consolidated Statements of Cash Flows.

Total investment securities, trading	\$885,651	\$708,376

The Company recognized gains (losses) related to trading securities still held at the reporting date of \$(14.2) million and \$6.3 million for the three months ended April 30, 2018 and 2017, respectively, and \$(7.0) million and \$8.6 million for the six months ended April 30, 2018 and 2017, respectively, within gains (losses) and other investment income,

net, on the Company's Consolidated Statements of Income.

Investment securities, available-for-sale

The following is a summary of the gross unrealized gains and losses included in accumulated other comprehensive income (loss) related to securities classified as available-for-sale at April 30, 2018 and October 31, 2017:

April 30, 2018		Gross Unrealized		Fair Value
(in thousands)	Cost	Gains	Losses	
Investment securities, available-for-sale	\$15,811	\$8,106	\$ (20)	\$23,897

October 31, 2017		Gross Unrealized		Fair Value
(in thousands)	Cost	Gains	Losses	
Investment securities, available-for-sale	\$15,755	\$6,718	\$ (8)	\$22,465

Net unrealized holding gains (losses) on investment securities classified as available-for-sale included in other comprehensive income (loss) on the Company's Consolidated Statements of Comprehensive Income were \$0.4 million and \$0.5 million for the three months ended April 30, 2018 and 2017, respectively, and \$1.4 million and \$1.1 million for the six months ended April 30, 2018 and 2017, respectively.

The Company did not recognize any impairment losses on investment securities classified as available-for-sale during the three and six months ended April 30, 2018 or 2017.

The aggregate fair value of available-for-sale investments in an unrealized loss position at April 30, 2018 was \$0.6 million; unrealized losses related to these investments totaled \$20,000. No investment with a gross unrealized loss has been in a loss position for greater than one year.

The following is a summary of the Company's realized gains and losses recognized upon disposition of investments classified as available-for-sale for the three and six months ended April 30, 2018 and 2017:

Investments in equity method investees

The Company has a 49 percent interest in Hexavest Inc. (Hexavest), a Montreal, Canada-based investment adviser. The carrying value of this investment was \$142.3 million and \$142.0 million at April 30, 2018 and October 31, 2017, respectively. At April 30, 2018, the Company's investment in Hexavest consisted of \$6.3 million of equity in the net assets of Hexavest, definite-lived intangible assets of \$22.8 million and goodwill of \$119.3 million, net of a deferred tax liability of \$6.1 million. At October 31, 2017, the Company's investment in Hexavest consisted of \$6.1 million of equity in the net assets of Hexavest, definite-lived intangible assets of \$23.7 million and goodwill of \$118.6 million, net of a deferred tax liability of \$6.4 million. The Company's investment in Hexavest is denominated in Canadian dollars and is subject to foreign currency translation adjustments, which are recorded in accumulated other comprehensive income (loss). The year-to-date change in the carrying value of goodwill is entirely attributable to foreign currency translation adjustments.

The Company also has a seven percent equity interest in a private equity partnership managed by a third party that invests in companies in the financial services industry. The Company's investment in the partnership was \$3.6 million and \$2.9 million at April 30, 2018 and October 31, 2017, respectively.

The Company did not recognize any impairment losses related to its investments in equity method investees during the three and six months ended April 30, 2018 or 2017.

During the six months ended April 30, 2018 and 2017, the Company received dividends of \$6.1 million and \$5.1 million, respectively, from its investments in equity method investees.

Investments, other

Investments, other, which totaled \$18.9 million and \$18.8 million at April 30, 2018 and October 31, 2017, respectively, primarily consists of investments carried at cost.

During the fiscal year ended October 31, 2016, the Company participated as lead investor in an equity financing in SigFig, an independent San Francisco-based wealth management technology firm. The carrying value of the Company's investment in SigFig was \$17.0 million at both April 30, 2018 and October 31, 2017.

4. Derivative Financial Instruments

Derivative financial instruments designated as cash flow hedges

In April 2017, the Company issued \$300.0 million in aggregate principal amount of 3.5 percent ten-year senior notes due April 6, 2027 (2027 Senior Notes). The Company entered into a Treasury lock transaction with a notional amount of \$125.0 million and concurrently designated the Treasury lock as a cash flow hedge of its exposure to variability in the forecasted semi-annual interest payments on \$125.0 million of principal outstanding on the 2027 Senior Notes. The benchmark U.S. Treasury rate declined from the time the Treasury lock was entered into until the time the 2027 Senior Notes were priced, and the Treasury lock was net settled for cash at a loss of \$0.7 million. The Treasury lock was determined to be a highly effective cash flow hedge and the entire \$0.7 million loss, net of the associated deferred tax benefit of \$0.3 million, was recorded in other comprehensive income (loss), net of tax. During the three months ended April 30, 2018 and 2017, the Company reclassified \$17,000 and \$3,000, respectively, of this deferred loss into

interest expense. During the six months ended April 30, 2018 and 2017, the Company reclassified \$34,000 and \$3,000, respectively, of this deferred loss into interest expense. The Company will reclassify the remaining \$0.6 million of unamortized loss as of April 30, 2018 to earnings as a component of interest expense over the remaining term of the debt. During the next twelve months, the Company expects to reclassify approximately \$68,000 of the loss into interest expense.

In fiscal 2013, the Company entered into a forward-starting interest rate swap in connection with the offering of its 3.625 percent unsecured senior notes due June 15, 2023 (2023 Senior Notes) and recorded the unamortized gain on the swap in other comprehensive income (loss), net of tax. The Company reclassified \$50,000 and \$0.1 million of the deferred gain into interest expense during both the three and six months ended April 30, 2018 and 2017, respectively, and will reclassify the remaining \$1.0 million of unamortized gain as of April 30, 2018 to earnings as a component of interest expense over the remaining term of the debt. During the next twelve months, the Company expects to reclassify approximately \$0.2 million of the gain into interest expense.

Other derivative financial instruments not designated for hedge accounting

The Company utilizes stock index futures contracts, total return swap contracts, foreign exchange contracts, commodity futures contracts, currency futures contracts and interest rate futures contracts to hedge the market and currency risks associated with its investments in certain consolidated seed investments.

The Company was a party to the following derivative financial instruments at April 30, 2018 and October 31, 2017:

	April 30, 2018		October 31, 2017	
	Number of Contracts	Notional Value <i>(in millions)</i>	Number of Contracts	Notional Value <i>(in millions)</i>
Stock index futures contracts	1,411	\$ 117.8	1,470	\$ 118.1
Total return swap contracts	3	\$ 106.5	2	\$ 50.2
Foreign exchange contracts	20	\$ 19.4	31	\$ 28.1
Commodity futures contracts	183	\$ 10.1	213	\$ 10.2
Currency futures contracts	143	\$ 14.4	131	\$ 14.5
Interest rate futures contracts	121	\$ 24.4	134	\$ 25.6

The Company has not designated any of these derivative contracts as hedging instruments for accounting purposes. The derivative contracts outstanding, and the notional values they represent at April 30, 2018 and October 31, 2017, are representative of derivative balances throughout each respective period.

The Company has not elected to offset fair value amounts related to derivative instruments executed with the same counterparty under master netting arrangements; as a result, the Company records all derivative financial instruments as either other assets or other liabilities, gross, on its Consolidated Balance Sheets and measures them at fair value. The following tables present the fair value of derivative financial instruments not designated for hedge accounting and how they are reflected in the Company's Consolidated Financial Statements as of April 30, 2018 and October 31, 2017:

	April 30, 2018		October 31, 2017

Interest rate futures contracts	(103)	-	(18)	-
Total	\$ 5,294	\$ (8,489)	\$(4,291)	\$(15,414)

In addition to the derivative contracts described above, certain consolidated seed investments may utilize derivative financial instruments within their portfolios in pursuit of their stated investment objectives.

5. Variable Interest Entities

Investments in VIEs that are consolidated

Consolidated sponsored funds

The Company invests in investment companies that meet the definition of a VIE. Disclosure regarding such consolidated sponsored funds is included in Note 2.

Consolidated CLO entities

As of April 30, 2018 and October 31, 2017, the Company deems itself to be the primary beneficiary of one non-recourse CLO entity, namely, Eaton Vance CLO 2017-1 (CLO 2017-1), a warehousing phase CLO entity.

Eaton Vance CLO 2017-1 (CLO 2017-1)

The Company established CLO 2017-1 on August 24, 2017. CLO 2017-1 was in the warehousing phase as of April 30, 2018 and October 31, 2017. The Company contributed \$18.8 million in capital at the inception of the entity and concurrently entered into a credit facility agreement with a third-party lender to provide CLO 2017-1 with a \$160.0 million non-recourse revolving line of credit. The credit facility agreement requires the Company to maintain certain levels of contributed capital relative to the total outstanding borrowings under the line of credit. During the second quarter of fiscal 2018, the Company made an additional capital contribution of \$6.2 million in order to increase the level of funding available for borrowing under the line of credit. At April 30, 2018 and October 31, 2017, \$89.7

million and \$12.6 million, respectively, was outstanding under this revolving line of credit. As collateral manager, the Company has the unilateral ability to liquidate CLO 2017-1 without cause, a right that, by definition, provides the Company with the power to direct the activities that most significantly impact the economic performance of the entity. The Company's investment in CLO 2017-1 serves as first-loss protection to the third-party lender and provides the Company with an obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the entity. Accordingly, the Company deems itself to be the primary beneficiary of CLO 2017-1 from establishment of the warehouse on August 24, 2017.

During the warehouse phase, the Company, acting as collateral manager and subject to the approval of the third-party lender, intends to use its capital contributions along with the proceeds from the revolving line of credit to accumulate a portfolio of commercial bank loan investments in open market purchases in an amount sufficient for eventual securitization. The Company has no right to receive the benefits from,

nor does the Company bear the risks associated with, the commercial bank loan investments held by CLO 2017-1 beyond the Company's capital contributions. In the event of default, recourse to the Company is limited to its investment in the warehouse. The Company does not earn any collateral management fees from CLO 2017-1 during the warehousing phase. The Company will be the collateral manager of the CLO entity during the securitization phase.

The size of the non-recourse revolving line of credit can be increased subject to the occurrence of certain events and the mutual consent of the parties. The line of credit is secured by all of the commercial bank loan investments in CLO 2017-1 and initially bears interest at a rate of daily LIBOR plus 1.25 percent per annum (with such interest rate, upon completion of the initial twelve-month warehousing period, increasing to daily LIBOR plus 2.0 percent per annum). The third-party lender does not have any recourse to the Company's general credit.

The Company's total capital contributions of \$25.0 million to CLO 2017-1 were eliminated in consolidation. Upon consolidation, the Company irrevocably elected to subsequently measure the commercial bank loan investments at fair value using the fair value option.

The following table presents, as of April 30, 2018, the fair value of CLO 2017-1's assets that are subject to fair value accounting:

April 30, 2018	CLO Bank Loan Investments	
	Total CLO Bank Loan Investments	90 Days or More Past Due
(in thousands)		
Unpaid principal balance	\$ 132,782	\$ -
Unpaid principal balance over fair value	1,085	-
Fair value	\$ 133,867	\$ -

As of October 31, 2017, the unpaid principal balance of the commercial bank loan investments approximated fair value, and there were no unpaid principal balances of such loans that were 90 days or more past due or in non-accrual status. Disclosure of the fair value of bank loan investments at April 30, 2018 and October 31, 2017, is included in Note 6.

The Company did not elect the fair value option for amounts outstanding under the revolving line of credit upon the initial consolidation of CLO 2017-1 as these liabilities are temporary in nature. Disclosure of the fair value of amounts outstanding under the revolving line of credit is included in Note 7. If the Company determines it is the primary beneficiary of CLO 2017-1 during the securitization phase, the Company intends to irrevocably elect the fair value option for the note obligations of CLO 2017-1 upon their issuance, mitigating any potential accounting mismatches between the carrying value of the note obligations to be issued during the securitization phase and the carrying value of the commercial bank loan investments held to provide the cash flows for those note obligations.

Changes in the fair values of CLO 2017-1's bank loan investments resulted in net gains of \$0.2 million and \$1.1 million for the three and six months ended April 30, 2018, respectively. These amounts are recorded in gains and other investment income, net, of consolidated CLO entity on the Company's Consolidated Statements of Income. For the three and six months ended April 30, 2018, the Company recorded net

income of \$0.8 million and \$2.4 million, respectively, related to CLO 2017-1, all of which was recorded as net income attributable to Eaton Vance Corp. shareholders.

Eaton Vance CLO 2015-1 (CLO 2015-1)

On November 1, 2017, the Company purchased 100 percent of the equity interests in CLO 2015-1 for \$26.7 million and reconsidered whether it was the primary beneficiary of CLO 2015-1 as of that date. As collateral manager, the Company had the power to direct the activities that most significantly impact the economic performance of the entity. The Company's newly acquired equity interest provided it with an obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the entity. Accordingly, the Company deemed itself to be the primary beneficiary of CLO 2015-1 as of November 1, 2017. On December 8, 2017, the Company sold 95 percent of its equity interest in CLO 2015-1 for \$24.7 million and recognized a loss on disposal of \$0.6 million, which is included in gains and other investment income, net, on the Company's Consolidated Statement of Income for the six months ended April 30, 2018. The transaction settled on December 22, 2017. Although the Company continues to serve as collateral manager of the entity, and therefore has the power to direct the activities that most significantly impact the economic performance of the entity, the Company determined that it no longer has an obligation to absorb losses of, or the right to receive benefits that could potentially be significant to CLO 2015-1. As a result, the Company concluded that it is no longer the primary beneficiary and therefore deconsolidated CLO 2015-1 during the first quarter of fiscal 2018.

On April 13, 2018, the Company sold certain of its investments in the senior debt tranches of CLO 2015-1 with an aggregate par value of \$6.7 million and received total proceeds of \$6.6 million from the sale, consisting of principal and accrued interest. The Company recognized a loss of \$0.1 million on the sale, which is included in gains and other investment income, net on the Company's Consolidated Statements of Income for the three and six months ended April 30, 2018. The Company maintains its remaining 5 percent equity interest in CLO 2015-1 as an investment in non-consolidated CLO entities. In addition to the 5 percent equity interest, the Company holds \$12.3 million in senior debt of the CLO, resulting in a total investment of \$13.6 million in CLO 2015-1 as of April 30, 2018.

Investments in VIEs that are not consolidated

Sponsored funds

The Company classifies its investments in certain sponsored funds that are considered VIEs as available-for-sale investments when it is not considered the primary beneficiary of these VIEs (generally when the Company owns less than 10 percent of the fund). The Company provides aggregated disclosures with respect to these non-consolidated sponsored fund VIEs in Note 3.

Non-consolidated CLO entities

The Company is not deemed to be the primary beneficiary of several CLO entities in which it holds variable interests that consist of direct investments and management fees (including subordinated management fees) earned from managing the collateral of these CLO entities. In its role as collateral manager, the Company often has the power to direct the activities that most significantly impact the economic performance of these CLO entities. In developing its conclusion that it is not the primary beneficiary of these entities, the Company determined that for certain of these entities, although it has variable interests in each by virtue of its beneficial interests therein and the collateral management fees it receives, its variable interests neither individually nor in the aggregate represent an obligation to absorb losses of, or a right to receive benefits from, any such entity that could potentially be significant to that entity. Quantitative factors supporting the Company's qualitative conclusion in each case included the relative

size of the Company's beneficial interest and the overall magnitude and design of the collateral management fees within each structure.

The Company's maximum exposure to losses with respect to these managed CLO entities is limited to the carrying value of its investments in, and collateral management fees receivable from, these entities as of April 30, 2018. Additional information regarding the Company's investments in non-consolidated CLO entities is included in Note 3. Collateral management fees receivable for these entities totaled \$0.2 million and \$0.4 million on April 30, 2018 and October 31, 2017, respectively. Investors in these CLO entities have no recourse against the Company for any losses sustained in the CLO structures. The Company did not provide any financial or other support to these entities that it was not previously contractually required to provide in any of the periods presented. Income from these entities is recorded as a component of gains (losses) and other investment income, net, in the Company's Consolidated Statements of Income, based upon projected investment yields.

Other entities

The Company holds variable interests in, but is not deemed to be the primary beneficiary of, certain sponsored privately offered equity funds with total assets of \$20.1 billion and \$18.1 billion on April 30, 2018 and October 31, 2017, respectively. The Company's variable interests in these entities consist of the Company's direct ownership therein, which in each case is insignificant relative to the total ownership of the fund, and any investment advisory fees earned but uncollected. The Company held investments in these entities totaling \$2.9 million and \$2.7 million on April 30, 2018 and October 31, 2017, respectively, and investment advisory fees receivable totaling \$1.2 million and \$1.1 million on April 30, 2018 and October 31, 2017, respectively. The Company did not provide any financial or other support to these entities that it was not contractually required to provide in any of the periods presented. The Company's risk of loss with respect to these managed entities is limited to the carrying value of its investments in, and investment advisory fees receivable from, the entities as of April 30, 2018. The Company does not consolidate these VIEs because it does not have the obligation to absorb losses of the VIE's that could potentially be significant to the VIEs or right to receive benefits that could potentially be significant to the VIE.

The Company's investments in privately offered equity funds are carried at fair value and included in investment securities, available-for-sale, which are disclosed as a component of investments in Note 3. The Company records any change in fair value, net of tax, in other comprehensive income (loss).

The Company also holds a variable interest in, but is not deemed to be the primary beneficiary of, a private equity partnership managed by a third party that invests in companies in the financial services industry. The Company's variable interest in this entity consists of the Company's direct ownership in the private equity partnership, equal to \$3.6 million and \$2.9 million at April 30, 2018 and October 31, 2017, respectively. The Company did not provide any financial or other support to this entity. The Company's risk of loss with respect to the private equity partnership is limited to the carrying value of its investment in the entity as of April 30, 2018. The Company does not consolidate this VIE because the Company does not hold the power to direct the activities that most significantly impact the VIE.

The Company's investment in the private equity partnership is accounted for as an equity method investment and disclosures related to this entity are included in Note 3 under the heading investments in equity method investees.

During the three and six months ended April 30, 2018, the Company recognized \$0.2 million of other-than-temporary impairment losses related to its investments in non-consolidated CLO entities. The Company did not recognize any impairment losses on investments in non-consolidated CLO entities during the three and six months ended April 30, 2017.

⁽³⁾ *Investments, other, include investments carried at cost that are not measured at fair value in accordance with U.S. GAAP.*

Valuation methodologies

Cash equivalents

Cash equivalents include investments in money market funds, government agency securities, certificates of deposit and commercial paper with original maturities of less than three months. Cash investments in actively traded money

market funds are valued using published net asset values and are classified as Level 1 within the fair value measurement hierarchy. Government agency securities are valued based upon quoted market prices for similar assets in active markets, quoted prices for identical or similar assets that are not active and inputs other than quoted prices that are observable or corroborated by observable market data. The carrying amounts of certificates of deposit and commercial paper are measured at amortized cost, which approximates fair value due to the short time between the purchase and expected maturity of the investments. Depending on the nature of the inputs, these assets are generally classified as Level 1 or 2 within the fair value measurement hierarchy.

Investment securities, trading – short-term debt

Short-term debt securities include certificates of deposit, commercial paper and corporate debt obligations with remaining maturities from three months to 12 months. Short-term debt securities held

are generally valued on the basis of valuations provided by third-party pricing services, as derived from such services' pricing models. Inputs to the models may include, but are not limited to, reported trades, executable bid and ask prices, broker-dealer quotations, prices or yields of securities with similar characteristics, benchmark curves or information pertaining to the issuer, as well as industry and economic events. The pricing services may use a matrix approach, which considers information regarding securities with similar characteristics to determine the valuation for a security. These assets are generally classified as Level 2 within the fair value measurement hierarchy.

Investment securities, trading – other debt

Other debt securities classified as trading include debt obligations held in the portfolios of consolidated sponsored funds and separately managed accounts. Other debt securities held are generally valued on the basis of valuations provided by third-party pricing services as described above for investment securities, trading – short-term debt. Other debt securities purchased with a remaining maturity of 60 days or less (excluding those that are non-U.S. denominated, which typically are valued by a third-party pricing service or dealer quotes) are generally valued at amortized cost, which approximates fair value. Depending upon the nature of the inputs, these assets are generally classified as Level 1 or 2 within the fair value measurement hierarchy.

Investment securities, trading – equity

Equity securities classified as trading include foreign and domestic equity securities held in the portfolios of consolidated sponsored funds and separately managed accounts. Equity securities are valued at the last sale, official close or, if there are no reported sales on the valuation date, at the mean between the latest available bid and ask prices on the primary exchange on which they are traded. When valuing foreign equity securities that meet certain criteria, the portfolios use a fair value service that values such securities to reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or other instruments that have a strong correlation to the fair-valued securities. In addition, the Company performs its own independent back test review of fair values versus the subsequent local market opening prices when available. Depending upon the nature of the inputs, these assets generally are classified as Level 1 or 2 within the fair value measurement hierarchy.

Investment securities, available-for-sale

Investment securities classified as available-for-sale include investments in sponsored mutual funds and privately offered equity funds. Sponsored mutual funds are valued using published net asset values and are classified as Level 1 within the fair value measurement hierarchy. Investments in sponsored privately offered equity funds that are not listed on an active exchange but have net asset values that are comparable to mutual funds and have no redemption restrictions are classified as Level 2 within the fair value measurement hierarchy.

Derivative instruments

Derivative instruments, which include stock index futures contracts, total return swap contracts, foreign exchange contracts, commodity futures contracts, currency futures contracts and interest rate futures contracts, are recorded as either other assets or other liabilities on the Company's Consolidated Balance Sheets. Stock index futures contracts, total return swap contracts, commodity futures contracts, currency futures contracts and interest rate futures contracts are valued using a third-party pricing service that determines fair value based on bid and ask prices. Foreign exchange contracts are valued by interpolating a value using the spot foreign exchange rate and forward points, which are based on spot rate and currency interest rate differentials. Derivative instruments generally are classified as Level 2 within the fair value measurement hierarchy.

Assets of consolidated CLO entity

Consolidated CLO entity assets include investments in bank loans. Fair value is determined utilizing unadjusted quoted market prices when available. Interests in senior floating-rate loans for which reliable market quotations are readily available are valued generally at the average mid-point of bid and ask quotations obtained from a third-party pricing service. Fair value may also be based upon valuations obtained from independent third-party brokers or dealers utilizing matrix pricing models that consider information regarding securities with similar characteristics. In certain instances, fair value has been determined utilizing discounted cash flow analyses or single broker non-binding quotes. Depending on the nature of the inputs, these assets are classified as Level 2 or 3 within the fair value measurement hierarchy.

Transfers in and out of Levels

The following table summarizes fair value transfers between Level 1 and Level 2 of the fair value measurement hierarchy for the three and six months ended April 30, 2018 and 2017:

<i>(in thousands)</i>	Three Months Ended		Six Months Ended	
	April 30, 2018	2017	April 30, 2018	2017
Transfers from Level 1 into Level 2 ⁽¹⁾	\$ 26	\$ 48	\$ 1	\$ 457
Transfers from Level 2 into Level 1 ⁽²⁾	5	42	5	47

⁽¹⁾ *Transfers from Level 1 into Level 2 represent securities for which unadjusted quoted market prices in active markets became unavailable.*

⁽²⁾ *Transfers from Level 2 into Level 1 represent securities for which unadjusted quoted market prices in active markets became available.*

Level 3 assets and liabilities

The Company did not hold any assets or liabilities valued on a recurring basis and classified as Level 3 within the fair value measurement hierarchy during the three and six months ended April 30, 2018 or 2017.

7. Fair Value Measurements of Other Financial Instruments

Certain financial instruments are not carried at fair value, but their fair value is required to be disclosed. The following is a summary of the carrying amounts and estimated fair values of these financial instruments at April 30, 2018 and October 31, 2017:

(in thousands)	April 30, 2018			October 31, 2017		
	Carrying Value	Fair Value	Fair Value Level	Carrying Value	Fair Value	Fair Value Level
Loan to affiliate	\$5,000	\$5,000	3	\$5,000	\$5,000	3
Investments, other	\$18,695	\$18,695	3	\$18,685	\$18,685	3
Other assets	\$-	\$-	-	\$6,440	\$6,440	3

Consolidated CLO entity line of credit	\$89,686	\$89,686	2	\$12,598	\$12,598	2

As discussed in Note 19, on December 23, 2015, Eaton Vance Management Canada Ltd. (EVMC), a wholly owned subsidiary of the Company, loaned \$5.0 million to Hexavest under a term loan agreement to seed a new investment strategy. The carrying value of the loan approximates fair value. The fair value is determined annually using a cash flow model that projects future cash flows based upon contractual obligations, to which the Company then applies an appropriate discount rate.

Included in investments, other, is a non-controlling capital interest in SigFig carried at \$17.0 million at both April 30, 2018 and October 31, 2017 (see Note 3). The carrying value of this investment approximates fair value, as there have been no events or changes in circumstances that would have had a significant effect on the value of this investment as of April 30, 2018.

Included in other assets at October 31, 2017 was an option to acquire an additional 26 percent interest in Hexavest carried at \$6.4 million. The Company valued the option as of October 31, 2017 using a market approach and determined that the carrying value of the option was representative of fair value. The Company determined not to exercise the option, which expired unexercised on December 11, 2017. Upon expiration, the Company recognized a loss equal to the option's carrying amount of \$6.5 million as of December 11, 2017 within gains (losses) and other investment income, net, in the Company's Consolidated Statement of Income.

The fair value of the Company's debt has been determined based on quoted prices in inactive markets.

The Company established CLO 2017-1 on August 24, 2017 and deems itself to be the primary beneficiary of CLO 2017-1 from that date. The Company did not elect the fair value option for amounts outstanding under the revolving line of credit upon the initial consolidation of CLO 2017-1. Additional information regarding CLO 2017-1, including the terms of the revolving line of credit, is included in Note 5. The carrying amount of the revolving line of credit of \$89.7 million and \$12.6 million as of April 30, 2018 and October 31, 2017, respectively, approximates fair value.

8.

Acquisitions

Atlanta Capital Management Company, LLC (Atlanta Capital)

In the first quarter of fiscal 2018, the Company paid \$2.5 million to settle call options exercised during the fourth quarter of fiscal 2017 through which it purchased all of the remaining 0.45 percent direct profit interests held by non-controlling interest holders of Atlanta Capital pursuant to the provisions of the original Atlanta Capital acquisition agreement, as amended.

In the second quarter of fiscal 2017, the Company exercised a call option through which it purchased 0.1 percent direct profit interests held by non-controlling interest holders of Atlanta Capital pursuant to the provisions of the original Atlanta Capital acquisition agreement, as amended, for \$0.4 million. The transaction settled in May 2017.

In the first quarter of fiscal 2018, the Company paid \$4.2 million to settle call options exercised during the fourth quarter of fiscal 2017 through which it purchased 1.1 percent of indirect profit interests held by non-controlling interest holders of Atlanta Capital pursuant to the provisions of the Atlanta Capital Management Company, LLC Long-term Equity Incentive Plan (the Atlanta Capital Plan). There were no puts or calls exercised in relation to indirect profit interests held by non-controlling interest holders of Atlanta Capital pursuant to the terms of the Atlanta Capital Plan during the first six months of fiscal 2018. The Company did not grant any indirect profit interests under the Atlanta Capital Plan during the first six months of fiscal 2018.

In the first quarter of fiscal 2017, the Company paid \$1.9 million to settle call options exercised during the fourth quarter of fiscal 2016 through which it purchased 0.9 percent of indirect profit interests held by non-controlling interest holders of Atlanta Capital pursuant to the provisions of the Atlanta Capital Plan. Separately, the Company granted a 1.1 percent indirect profit interest to employees of Atlanta Capital pursuant to the terms of the Atlanta Capital Plan in the first quarter of fiscal 2017.

Total profit interests in Atlanta Capital held by non-controlling interest holders was 11.6 percent on April 30, 2018 and October 31, 2017, reflecting the transactions described above.

Calvert Research and Management (Calvert)

On December 30, 2016, the Company, through its newly formed subsidiary Calvert, acquired substantially all of the assets of Calvert Investment Management, Inc. (Calvert Investments) for cash. The transaction was accounted for as an asset acquisition because substantially all of the fair value of the gross assets acquired was concentrated in a single identifiable intangible asset related to acquired contracts to manage and distribute sponsored mutual funds (the Calvert Funds). The Calvert Funds are a diversified family of mutual funds, encompassing actively and passively managed equity, fixed income and asset allocation strategies managed in accordance with the Calvert Principles for Responsible Investment or other responsible investment criteria.

Parametric Portfolio Associates LLC (Parametric)

In the first quarter of fiscal 2018, the Company exercised the final call option related to non-controlling interests in Parametric issued in conjunction with the Clifton acquisition, resulting in the Company's acquisition of the remaining indirect 0.5 percent profit interests and 0.5 percent capital interests in

Parametric. This transaction settled in December 2017 for \$8.4 million. In the first quarter of fiscal 2017, the Company exercised a call option related to non-controlling interests in Parametric issued in conjunction with the Clifton acquisition, resulting in the Company's acquisition of an indirect 0.5 percent profit interests and a 0.5 percent capital interests in Parametric. This transaction settled in January 2017 for \$6.9 million.

In the first quarter of fiscal 2018, the Company paid \$5.7 million to settle call options exercised in the fourth quarter of fiscal 2017 through which it purchased 0.5 percent indirect profit interests held by non-controlling interest holders of Parametric pursuant to the provisions of the Parametric Portfolio Associates LLC Long-term Equity Plan (the Parametric Plan). In the first quarter of fiscal 2017, the Company paid \$0.6 million to settle call options exercised in the fourth quarter of fiscal 2016 through which it purchased 0.1 percent indirect profit interests held by non-controlling interest holders of Parametric pursuant to the provisions of the Parametric Plan. There were no puts or calls exercised in relation to indirect profit interests held by non-controlling interest holders of Parametric pursuant to the terms of the Parametric Plan during the first six months of fiscal 2018. The Company did not grant any indirect profit interests under the Parametric Plan during the first six months of fiscal 2018.

Total profit interests in Parametric held by non-controlling interest holders, including indirect profit interests issued pursuant to the Parametric Plan, decreased to 5.5 percent as of April 30, 2018 from 6.0 percent as of October 31, 2017, reflecting the transactions described above. Total capital interests in Parametric held by non-controlling interest holders decreased to 0.8 percent as of April 30, 2018 from 1.3 percent as of October 31, 2017.

Tax Advantaged Bond Strategies (TABS)

In fiscal 2009, the Company acquired the TABS business of M.D. Sass Investors Services for cash and future consideration. During the second quarter of fiscal 2017, the Company made a final contingent payment of \$11.6 million to the selling group based upon prescribed multiples of TABS's revenue for the twelve months ended December 31, 2016. The payment increased goodwill by \$11.6 million, as the acquisition was completed prior to the change in accounting for contingent purchase price consideration.

10.**Debt*****2027 Senior Notes***

On April 6, 2017, the Company issued \$300.0 million in aggregate principal amount of 3.5 percent ten-year senior notes due April 6, 2027, resulting in net proceeds of approximately \$296.1 million after deducting the underwriting discount and offering expenses. Interest is payable semi-annually in arrears on April 6th and October 6th of each year, commencing on October 6, 2017. The 2027 Senior Notes are unsecured and unsubordinated obligations of the Company.

Redemption of 2017 Senior Notes

On May 6, 2017, the Company used the net proceeds from the 2027 Senior Notes to redeem the remaining \$250.0 million aggregate principal amount of its 2017 Senior Notes. The Company paid total consideration of \$256.8 million at redemption, which represented the sum of the aggregate principal amount then outstanding, the present value of the remaining scheduled payments of interest through the original maturity date and interest accrued to the date of redemption. The Company recognized a \$5.4 million non-operating loss on the extinguishment of the 2017 Senior Notes during the third quarter of fiscal 2017,

representing the difference between the total consideration paid and the net carrying amount of the extinguished debt plus interest accrued to the date of redemption.

11. Stock-Based Compensation Plans

The Company recognized compensation cost related to its stock-based compensation plans for the three and six months ended April 30, 2018 and 2017 as follows:

(in thousands)	Three Months Ended		Six Months Ended	
	April 30, 2018	2017	April 30, 2018	2017
Omnibus Incentive Plans:

Atlanta Capital Phantom Incentive Plan	138	-	281	-
Total stock-based compensation expense	\$ 20,786	\$ 19,141	\$ 45,437	\$ 39,440

The total income tax benefit recognized for stock-based compensation arrangements was \$5.2 million and \$7.0 million for the three months ended April 30, 2018 and 2017, respectively, and \$10.9 million and \$14.3 million for the six months ended April 30, 2018 and 2017, respectively.

Stock options

Stock option transactions under the Company's 2013 Omnibus Incentive Plan (the 2013 Plan) and predecessor plans for the six months ended April 30, 2018 were as follows:

(share and intrinsic value figures in thousands)	Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value
--	--------	---	---	---------------------------------

Edgar Filing: EATON VANCE CORP - Form 10-Q

(in years)

Options exercisable, end of period	8,928	\$ 30.28	4.1	\$215,240

The Company received \$48.8 million and \$41.1 million related to the exercise of options for the six months ended April 30, 2018 and 2017, respectively.

As of April 30, 2018, there was \$50.7 million of compensation cost related to unvested stock options granted under the 2013 Plan and predecessor plans not yet recognized. That cost is expected to be recognized over a weighted-average period of 2.9 years.

Restricted shares

A summary of the Company's restricted share activity for the six months ended April 30, 2018 under the 2013 Plan and predecessor plans is as follows:

(share figures in thousands)	Shares	Weighted-Average Grant Date Fair Value
Unvested, beginning of period	4,565	\$ 36.22
Granted	1,398	50.94
Vested	(1,229)	35.92
Forfeited	(74)	39.45
Unvested, end of period	4,660	\$ 40.67

As of April 30, 2018, there was \$141.6 million of compensation cost related to unvested restricted shares granted under the 2013 Plan and predecessor plans not yet recognized. That cost is expected to be recognized over a weighted-average period of 3.1 years.

Phantom stock units

Phantom stock units issued to non-employee Directors under the 2013 Plan are accounted for as liability awards. During 2017, the 2013 Plan was amended such that non-employee Directors no longer have substantive service conditions for vesting of awards. Once the awards are granted, the non-employee Directors have the right to receive cash payment related to such awards upon separation from the Company (other than for cause). As a result, phantom units granted on or after November 1, 2017 are considered fully vested on grant date and the entire grant date fair value of these awards is recognized as compensation cost on the date of grant.

During the six months ended April 30, 2018, 14,085 phantom stock units were issued to non-employee Directors pursuant to the 2013 Plan. As of April 30, 2018, there was \$0.1 million of compensation cost related to unvested phantom stock units granted under the 2013 Plan prior to November 2017 not yet recognized. That cost is expected to be recognized over a weighted-average period of six months.

12. Common Stock Repurchases

The Company's current Non-Voting Common Stock share repurchase program was announced on January 11, 2017. The Board authorized management to repurchase and retire up to 8.0 million shares of its Non-Voting Common Stock on the open market and in private transactions in accordance with applicable securities laws. The timing and amount of share purchases are subject to management's discretion. The Company's share repurchase program is not subject to an expiration date.

In the first six months of fiscal 2018, the Company purchased and retired approximately 2.0 million shares of its Non-Voting Common Stock under the current repurchase authorization. Approximately 4.1 million additional shares may be repurchased under the current authorization as of April 30, 2018.

13. Non-operating Income (Expense)

The components of non-operating income (expense) for the three and six months ended April 30, 2018 and 2017 were as follows:

<i>(in thousands)</i>	Three Months Ended		Six Months Ended	
	April 30, 2018	2017	April 30, 2018	2017

Total non-operating income (expense)	\$ (5,349)	\$ 1,223	\$ (7,035)	\$ (5,630)

⁽¹⁾ For the six months ended April 30, 2018, includes the \$6.5 million loss associated with the Company's determination not to exercise the option to acquire an additional 26 percent ownership interest in Hexavest.

14. Income Taxes

The provision for income taxes was \$34.0 million and \$44.7 million, or 26.7 percent and 37.5 percent of pre-tax income, for the three months ended April 30, 2018 and 2017, respectively. The provision for income taxes was \$82.7 million and \$81.4 million, or 31.6 percent and 37.4 percent of pre-tax income, for the six months ended April 30, 2018 and 2017, respectively.

On December 22, 2017, the Tax Cuts and Jobs Act (the Tax Act) was signed into law in the U.S. Among other significant changes, the Tax Act reduced the statutory federal income tax rate for U.S. corporate taxpayers from a

maximum of 35 percent to 21 percent and required the deemed repatriation of foreign earnings not previously subject to U.S. taxation. Because the lower federal income tax rate took effect two months into the Company's fiscal year, a blended federal tax rate of 23.3 percent applies to the Company for fiscal 2018.

The Company's income tax provision for the three months ended April 30, 2018 includes a non-recurring charge of \$42,000 for the deemed repatriation of foreign-sourced net earnings not previously subject to U.S. taxation. The Company's effective tax rate for the three months ended April 30, 2018 was decreased by the income tax benefit of \$1.9 million related to the exercise of stock options and vesting of restricted stock during the period, and increased by \$54,000 related to the net income attributable to redeemable non-controlling interests and other beneficial interests, which is not taxable to the Company.

The Company's income tax provision for the first six months of fiscal 2018 includes a non-recurring charge of approximately \$24.8 million to reflect the estimated effect of the Tax Act. The non-recurring charge is considered to be a provisional estimate under the U.S. Securities and Exchange Commission Staff Accounting Bulletin 118 (SAB 118) and, based on current interpretation of the tax law changes, includes \$21.7 million from the revaluation of the Company's deferred tax assets and liabilities, and \$3.1 million for the deemed repatriation of foreign-sourced net earnings not previously subject to U.S. taxation. The increase in the Company's effective tax rate for the first six months of fiscal 2018 resulting from this charge was partially offset by an income tax benefit of \$13.7 million related to the exercise of stock options and vesting of restricted stock during the period, and \$2.8 million related to the net income attributable to redeemable non-controlling interests and other beneficial interests, which is not taxable to the Company. The following table reconciles the statutory federal income tax rate to the Company's effective tax rate for the three and six months ended April 30, 2018:

	Three Months Ended April 30, 2018		Six Months Ended April 30, 2018	
Statutory U.S. federal income tax rate ⁽¹⁾	23.3	%	23.3	%
State income taxes for current year, net of federal income tax benefits	4.3	%	4.3	%
Net income attributable to non-controlling and other beneficial interests	0.1	%	-0.9	%
Other items	0.5	%	0.7	%
Non-recurring impact of U.S. tax reform	0.0	%	9.5	%
Net excess tax benefits from stock-based compensation plans ⁽²⁾	-1.5	%	-5.3	%
Effective income tax rate	26.7	%	31.6	%

Statutory U.S. federal income tax rate is a blend of 35 percent and 21 percent based on the number of days in the Company's fiscal year before and after the January 1, 2018 effective date of the reduction in the federal corporate income tax rate pursuant to the Tax Act.

This amount reflects the impact of Accounting Standard Update 2016-09, Improvements to Employee Share-Based Payment Accounting, which was adopted in the first quarter of fiscal 2018. The Company anticipates that the adoption of this guidance may cause fluctuations in the Company's effective tax rate, particularly in the first quarter of each fiscal year, when most of the Company's annual stock-based awards vest.

The Company continues to carefully evaluate the impact of the Tax Act, certain provisions of which will not take effect for the Company until fiscal 2019, including, but not limited to, the global intangible low-taxed income, foreign-derived intangible income and base erosion anti-abuse tax provisions. Under the guidance provided by the Security and Exchange Commission in SAB 118, no provisional estimate is required for these items until the accounting for these elements of the Tax Act is complete.

No valuation allowance has been recorded for deferred tax assets, reflecting management's belief that all deferred tax assets will be utilized.

Edgar Filing: EATON VANCE CORP - Form 10-Q

As of April 30, 2018, the Company considers the undistributed earnings of certain foreign subsidiaries to be indefinitely reinvested in foreign operations; however, as a result of the Tax Act, an estimated tax of \$3.1 was recorded during the six months ended April 30, 2018 on these earnings. The calculation of this non-recurring charge is based on the Tax Act, guidance issued by the Internal Revenue Service and our interpretation of this information. The Company anticipates additional guidance will be issued by the

Internal Revenue Service and continues to monitor interpretative developments. As additional guidance becomes available, the Company may reconsider its repatriation policy and this estimated tax charge may change.

The Company is generally no longer subject to income tax examinations by U.S. federal, state, local or non-U.S. taxing authorities for fiscal years prior to fiscal 2014.

15. Non-controlling and Other Beneficial Interests

The components of net (income) loss attributable to non-controlling and other beneficial interests for the three and six months ended April 30, 2018 and 2017 were as follows:

Antidilutive common shares related to stock options and unvested restricted stock excluded from the computation of earnings per diluted share were approximately 1.9 million and 3.6 million for the three months ended April 30, 2018 and 2017, respectively, and approximately 2.1 million and 4.1 million for the six months ended April 30, 2018 and 2017, respectively.

18. Commitments and Contingencies

In the normal course of business, the Company enters into agreements that include indemnities in favor of third parties, such as engagement letters with advisors and consultants, information technology agreements, distribution agreements and service agreements. In certain circumstances, these indemnities in favor of third parties relate to service agreements entered into by investment funds advised by Eaton Vance Management, Boston Management and Research, or Calvert, all of which are direct or indirect wholly-owned subsidiaries of the Company. The Company has also agreed to indemnify its directors, officers and employees in accordance with the Company's Articles of Incorporation, as amended. Certain agreements do not contain any limits on the Company's liability and, therefore, it is not possible to estimate the Company's potential liability under these indemnities. In certain cases, the Company has recourse against third parties with respect to these indemnities. Further, the Company maintains insurance policies that may provide coverage against certain claims under these indemnities.

The Company and its subsidiaries are subject to various legal proceedings. In the opinion of management, after discussions with legal counsel, the ultimate resolution of these matters will not have a material effect on the consolidated financial condition, results of operations or cash flows of the Company.

19. Related Party Transactions

Sponsored funds

The Company is an investment adviser to, and has administrative agreements with, certain sponsored funds, privately offered equity funds and closed-end funds for which employees of the Company are officers and/or directors. Revenues for services provided or related to these funds for the three and six months ended April 30, 2018 and 2017 are as follows:

(in thousands)	Three Months Ended		Six Months Ended	
	April 30, 2018	2017	April 30, 2018	2017
Management fees	\$253,291	\$226,959	\$509,005	\$441,708
Distribution fees	18,940	18,998	38,727	37,279
Service fees	29,831	30,067	60,675	58,978
Shareholder services fees	1,477	1,271	2,868	1,973
Other revenue	140	576	284	1,090
Total	\$303,679	\$277,871	\$611,559	\$541,028

For the three months ended April 30, 2018 and 2017, the Company had investment advisory agreements with certain sponsored funds pursuant to which the Company contractually waived \$4.3 million and \$4.0 million, respectively, of management fees it was otherwise entitled to receive. For the six months ended April 30, 2018 and 2017, the Company contractually waived \$8.6 million and \$7.7 million, respectively, of management fees it was otherwise entitled to receive.

Sales proceeds and net realized gains (losses) for the three and six months ended April 30, 2018 and 2017 from investments in sponsored funds classified as available-for-sale are as follows:

(in thousands)	Three Months Ended		Six Months Ended	
	April 30, 2018	2017	April 30, 2018	2017
Proceeds from sales	\$ -	\$ 1	\$ -	\$ 3,734
Net realized gains (losses)	(110)	-	(105)	203

The Company bears the non-advisory expenses of certain sponsored funds for which it earns an all-in management fee and provides subsidies to startup and other smaller sponsored funds to enhance their competitiveness. For the three months ended April 30, 2018 and 2017, expenses of \$11.0 million and \$8.4 million, respectively, were incurred by the Company pursuant to these arrangements. For the six months ended April 30, 2018 and 2017, expenses of \$22.0 million and \$16.0 million, respectively, were incurred by the Company pursuant to these arrangements.

Included in management fees and other receivables at April 30, 2018 and October 31, 2017 are receivables due from sponsored funds of \$101.1 million and \$100.0 million, respectively. Included in accounts payable and accrued expenses at April 30, 2018 and October 31, 2017 are payables due to sponsored funds of \$3.2 million and \$1.7 million, respectively.

Loan to affiliate

On December 23, 2015, EVMC, a wholly owned subsidiary of the Company, loaned \$5.0 million to Hexavest under a term loan agreement to seed a new investment strategy. The loan renews automatically for an additional one-year period on each anniversary date unless written termination notice is provided by EVMC. The loan earns interest equal to the one-year Canadian Dollar Offered Rate plus 200 basis points, which is payable quarterly in arrears. Hexavest may prepay the loan in whole or in part at any time without penalty. During the three months ended April 30, 2018 and 2017, the Company recorded \$48,000 and \$39,000, respectively, of interest income related to the loan in gains (losses) and other investment income, net, on the Company's Consolidated Statement of Income. During both the six months ended April 30,

2018 and 2017, the Company recorded \$0.1 million of interest income related to the loan. Interest due from Hexavest under this arrangement included in other assets on the Company's Consolidated Balance Sheets was \$16,000 and \$13,000 at April 30, 2018 and October 31, 2017, respectively.

Employee loan program

The Company has established an Employee Loan Program under which a program maximum of \$20.0 million is available for loans to officers (other than executive officers) and other key employees of the Company for purposes of financing the exercise of employee stock options. Loans outstanding under this program, which are full recourse in nature, are reflected as notes receivable from stock option exercises in shareholders' equity and amounted to \$9.4 million and \$11.1 million at April 30, 2018 and October 31, 2017, respectively.

20. Geographic Information

Revenues by principal geographic area for the three and six months ended April 30, 2018 and 2017 are as follows:

(in thousands)	Three Months Ended		Six Months Ended	
	April 30, 2018	2017	April 30, 2018	2017

U.S.	\$ 47,987	\$ 46,804
International	2,277	2,185
Total	\$ 50,264	\$ 48,989

International revenues and long-lived assets are attributed to countries based on the location in which revenues are earned.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Item includes statements that are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding our expectations, intentions or strategies regarding the future. All statements, other than statements of historical facts, included in this Form 10-Q regarding our financial position, business strategy and other plans and objectives for future operations are forward-looking statements. The terms "may," "will," "could," "anticipate," "plan," "continue," "project," "intend," "estimate," "believe," "expect" and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such words. Although we believe that the assumptions and expectations reflected in such forward-looking statements are reasonable, we can give no assurance that they will prove to have been correct or that we will take any actions that may now be planned. Certain important factors that could cause actual results to differ materially from our expectations are disclosed in the "Risk Factors" in Item 1A in our latest Annual Report on Form 10-K. All subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by such factors. We disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The discussion and analysis below should be read in conjunction with the consolidated financial statements appearing elsewhere in this report. Management has presumed that the readers of this interim financial information have read or have access to Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in our Annual Report on Form 10-K for the year ended October 31, 2017.

Overview

Our principal business is managing investment funds and providing investment management and advisory services to high-net-worth individuals and institutions. Our core strategy is to develop and sustain management expertise across a range of investment disciplines and to offer leading investment products and services through multiple distribution channels. In executing this strategy, we have developed broadly diversified investment management capabilities and a highly functional marketing, distribution and customer service organization. We measure our success as a Company based on investment performance delivered, reputation in the marketplace, progress achieving strategic objectives, employee development and satisfaction, business and financial results, and shareholder value created.

We conduct our investment management and advisory business through wholly- and majority-owned investment affiliates, which include: Eaton Vance Management, Parametric Portfolio Associates LLC (Parametric), Atlanta Capital Management Company, LLC (Atlanta Capital) and Calvert Research and Management (Calvert). We also offer investment management advisory services through minority-owned affiliate Hexavest Inc. (Hexavest).

Through Eaton Vance Management, Atlanta Capital, Calvert and our other affiliates, we manage active equity, income and alternative strategies across a range of investment styles and asset classes, including U.S. and global equities, floating-rate bank loans, municipal bonds, and global income, high-yield and investment grade bonds. Through Parametric, we manage a range of engineered alpha strategies, including systematic equity, systematic alternatives and managed options strategies. Through Parametric, we also provide portfolio implementation and overlay services, including tax-managed and non-tax-managed Custom Core equity

strategies, centralized portfolio management of multi-manager portfolios and customized exposure management services. We also oversee the management of, and distribute, investment funds sub-advised by unaffiliated third-party managers, including global, emerging market and regional equity and asset allocation strategies.

Our breadth of investment management capabilities supports a wide range of products and services offered to fund shareholders, retail managed account investors, institutional investors and high-net-worth clients. Our equity strategies encompass a diversity of investment objectives, risk profiles, income levels and geographic representation. Our income investment strategies cover a broad duration, geographic representation and credit quality range and encompass both taxable and tax-free investments. We also offer a range of alternative investment strategies, including commodity- and currency-based investments and a spectrum of absolute return strategies. Although we manage and distribute a wide range of investment products and services, we operate in one business segment, namely as an investment adviser to funds and separate accounts. As of April 30, 2018, we had \$440.1 billion in consolidated assets under management.

We distribute our funds and retail managed accounts principally through financial intermediaries. We have broad market reach, with distribution partners including national and regional broker-dealers, independent broker-dealers, registered investment advisors, banks and insurance companies. We support these distribution partners with a team of 127 sales professionals covering U.S. and international markets.

We also commit significant resources to serving institutional and high-net-worth clients who access investment management services on a direct basis and through investment consultants. Through our wholly-and majority-owned affiliates and consolidated subsidiaries, we manage investments for a broad range of clients in the institutional and high-net-worth marketplace in the U.S. and internationally, including corporations, sovereign wealth funds, endowments, foundations, family offices and public and private employee retirement plans.

Our revenue is derived primarily from management, distribution and service fees received from Eaton Vance-, Parametric- and Calvert-branded funds and management fees received from separate accounts. Our fees are based primarily on the value of the investment portfolios we manage and fluctuate with changes in the total value and mix of assets under management. As a matter of course, investors in our sponsored open-end funds and separate accounts have the ability to redeem their investments at any time, without prior notice, and there are no material restrictions that would prevent them from doing so. Our major expenses are employee compensation, distribution-related expenses, fund-related expenses, service fee expense, facilities expense and information technology expense.

Our discussion and analysis of our financial condition, results of operations and cash flows is based upon our Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses, and related

disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to goodwill and intangible assets, income taxes, investments and stock-based compensation. We base our estimates on historical experience and on various assumptions that we believe to be reasonable under current circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

Business Developments

We are pursuing five primary strategic priorities to support our long-term growth. Those priorities are: (1) capitalizing on our investment performance leadership and distribution strengths to grow sales and gain market share in actively managed investment strategies; (2) extending the success we have had with our Custom Beta lineup of rules-based separately managed accounts; (3) becoming a more global company by building our investment and distribution capabilities outside the United States; (4) positioning NextShares™ exchange-traded managed funds (NextShares) to become the vehicle of choice for investors in actively managed funds in the U.S; and (5) leveraging our Calvert acquisition to lead the growth of responsible investing.

As of April 30, 2018, we had 67 U.S. mutual funds rated four or five stars by Morningstar™ for at least one class of shares, including 23 funds rated five stars for at least one class of shares. Although actively managed strategies as a whole are losing share to passive investments, the Company believes that top-performing active strategies can continue to grow, particularly in asset classes where competition versus passive alternatives is less acute. In the first six months of fiscal 2018, net flows into the Company's active strategies totaled \$7.0 billion.

In the first six months of fiscal 2018, we continued to experience growth in our Custom Beta Strategies, which include the Parametric Custom Core equity and Eaton Vance laddered municipal and corporate bond separate account offerings to the retail and high-net-worth markets. Compared to index mutual funds and exchange-traded funds, rules-based separately managed accounts can provide clients with the ability to tailor their market exposures to achieve better tax outcomes and to reflect client-specified responsible investing criteria, and desired portfolio tilts and exclusions. In the first six months of fiscal 2018, net inflows into Parametric Custom Core and Eaton Vance laddered municipal and corporate bond strategies offered as retail managed accounts and high-net-worth separate accounts totaled \$6.4 billion.

Outside the United States, the Company continues to expand investment staff and commit additional client service and distribution resources to support business growth. On January 31, 2018, Eaton Vance Management (International) Limited (EVMI) announced an agreement to hire a five-person global fixed-income team in Frankfurt, Germany, which advises approximately \$0.8 billion in client mandates assumed by Eaton Vance upon the team's hiring. In addition to providing portfolio advisory services for fixed-income accounts, EVMI's Frankfurt branch provides sales and client service support for our European business. In the first six months of fiscal 2018, net inflows into funds and accounts managed for Eaton Vance clients outside the U.S. totaled \$1.9 billion.

Over the past several years, we have committed significant resources towards achieving commercial success of our NextShares fund structure. On November 20, 2017, together with UBS Financial Services Inc., we announced the availability of NextShares through the UBS brokerage platforms and UBS Strategic Advisor, a non-discretionary advisory program, which the Company believes will stimulate growth in NextShares managed assets. As of the end of

the second quarter of fiscal 2018, 17 NextShares funds from eight different fund families were listed for trading, with approximately half available for purchase at UBS and the balance undergoing their due diligence.

On December 30, 2016, we completed the purchase of substantially all of the business assets of Calvert Investments. The Calvert Funds are one of the largest and most diversified families of responsibly invested mutual funds, encompassing actively and passively managed equity, fixed and floating-rate income, and asset allocation strategies managed in accordance with the Calvert Principles for Responsible Investment (Calvert

Principles) or other responsible investment criteria. Responsible investing is a leading trend in asset management, appealing to the growing universe of investors who seek both financial returns and positive societal impact from their investments. The Calvert Funds are offered through Eaton Vance Distributors, Inc. (EVD). In the first six months of fiscal 2018, net flows into Calvert Funds and Calvert-managed separate accounts totaled \$0.9 billion. Excluding managed assets in Calvert Funds sub-advised by other Eaton Vance affiliates, Calvert’s assets under management increased to \$11.8 billion at April 30, 2018 from \$9.9 billion at acquisition on December 30, 2016, an increase of 19 percent. Please see page 43 “Consolidated Assets under Management by Investment Affiliate,” for further information related to Calvert’s assets under management.

Consolidated Assets under Management

Prevailing equity and income market conditions and investor sentiment affect the sales and redemptions of our investment products, managed asset levels, operating results and the recoverability of our investments. During the second quarter and first six months of fiscal 2018, the S&P 500 Index, a broad measure of U.S. equity market performance, had total returns of -6.2 percent and 2.7 percent, respectively, and the MSCI Emerging Market Index, a broad measure of emerging market equity performance, had total returns of -6.7 percent and 3.1 percent, respectively. Over the same periods, the Barclays U.S. Aggregate Bond Index, a broad measure of U.S. bond market performance, had total returns of -0.8 percent and -1.9 percent, respectively.

Consolidated assets under management of \$440.1 billion on April 30, 2018 increased \$53.1 billion, or 14 percent, from \$387.0 billion on April 30, 2017. The year-over-year increase reflects net inflows of \$28.6 billion and market price appreciation in managed assets of \$24.5 billion.

The following tables summarize our consolidated assets under management by investment mandate, investment vehicle and investment affiliate as of April 30, 2018 and 2017. Within the investment mandate table, the “Portfolio implementation” category comprises of Parametric’s Custom Core equity strategies and centralized portfolio management services, and the “Exposure management” category consists of Parametric’s futures- and options-based customized exposure management services.

Consolidated average assets under management presented in the following tables are derived by averaging the beginning and ending assets of each month over the period. The tables are intended to provide information useful in the analysis of our asset-based revenue and distribution expenses. Separate account management fees are generally calculated as a percentage of either beginning, average or ending quarterly

assets. Fund management, distribution and service fees, as well as certain expenses, are generally calculated as a percentage of average daily assets.

Consolidated Net Flows

Consolidated net inflows of \$4.4 billion in the second quarter of fiscal 2018 represented 4 percent annualized internal growth in managed assets (consolidated net inflows divided by beginning of period consolidated assets under management). For comparison, the Company had consolidated net inflows of \$12.9 billion in the second quarter of fiscal 2017, equal to 14 percent annualized internal growth in managed assets. The Company's annualized internal management fee revenue growth rate (management fees attributable to consolidated inflows less management fees attributable to consolidated outflows divided by beginning of period consolidated management fee revenue) was 7 percent in the second quarter of both fiscal 2018 and 2017, as the management fee revenue contribution from new sales and other inflows during each period exceeded the management fee revenue lost from redemptions.

The following tables summarize our consolidated assets under management and asset flows by investment mandate and investment vehicle for the three and six months ended April 30, 2018 and 2017:

Results of Operations

In evaluating operating performance, we consider net income attributable to Eaton Vance Corp. shareholders and earnings per diluted share, which are calculated on a basis consistent with U.S. GAAP, as well as adjusted net income attributable to Eaton Vance Corp. shareholders and adjusted earnings per diluted share, both of which are internally derived non-U.S. GAAP performance measures.

Management believes that certain non-U.S. GAAP financial measures, specifically, adjusted net income attributable to Eaton Vance Corp. shareholders and adjusted earnings per diluted share, while not a substitute for U.S. GAAP financial measures, may be effective indicators of the Company's performance over time. Non-U.S. GAAP financial measures should not be construed to be superior to U.S. GAAP measures. In calculating these non-U.S. GAAP financial measures, net income attributable to Eaton Vance Corp. shareholders and earnings per diluted share are adjusted to exclude items management deems non-operating or non-recurring in nature or otherwise outside the ordinary course of business. These adjustments may include the add back of adjustments made in connection with changes in the estimated redemption value of non-controlling interests in our affiliates redeemable at other than fair value (non-controlling interest value adjustments) and, when applicable, other items such as closed-end fund structuring fees, special dividends, costs associated with retiring debt, tax settlements, tax impact of stock-based compensation shortfalls or windfalls and non-recurring charges for the effect of the U.S. tax law changes. Management and our Board of Directors, as well as certain of our outside investors, consider these adjusted numbers a measure of the Company's underlying operating performance. Management believes adjusted net income attributable to Eaton Vance Corp. shareholders and adjusted earnings per diluted share are important indicators of our operations because they exclude items that may not be indicative of, or are unrelated to, our core operating results, and may provide a useful baseline for analyzing trends in our underlying business.

The following table provides a reconciliation of net income attributable to Eaton Vance Corp. shareholders and earnings per diluted share to adjusted net income attributable to Eaton Vance Corp. shareholders and adjusted earnings per diluted share, respectively, for the three and six months ended April 30, 2018 and 2017:

The 34 percent increase in net income attributable to Eaton Vance Corp. shareholders in the second quarter of fiscal 2018 compared to the second quarter of fiscal 2017 is attributable primarily to the following:

An increase in revenue of \$39.6 million, or 11 percent, primarily reflecting growth in consolidated average assets under management, partially offset by lower consolidated average annualized management fee rates.

An increase in expenses of \$24.9 million, or 10 percent, reflecting increases in compensation, distribution expense, amortization of deferred sales commissions, fund-related expenses and other

operating expenses, partially offset by a decrease in service fee expense. The increase in compensation expense is driven by higher salaries and benefits associated with increases in headcount, higher operating income- and performance-based bonus accruals and higher stock-based compensation, partially offset by a decrease in sales-based incentive compensation. The increase in non-compensation related costs, including distribution fees, fund subsidies, sub-advisory fees and fund expenses borne by the Company, is attributable primarily to higher average fund assets subject to these expenses. The increase in other operating expenses is primarily attributable to higher information technology, facilities, travel, and professional services expenses, partially offset by a decrease in other corporate expenses. The decrease in service fee expense reflects lower average assets in fund share classes subject to service fee payments.

A \$9.5 million decrease in gains and other investment income, net, primarily related to the Company's investments in sponsored strategies, including consolidated sponsored funds. Net gains and other investment income in the second quarter of fiscal 2017 included a \$1.9 million gain recognized upon the release from escrow of payments received in connection with the sale of the Company's equity interest in Lloyd George Management (BVI) Ltd. (Lloyd George Management) in fiscal 2011.

A \$2.2 million decrease in interest expense, primarily reflecting the May 2017 retirement of \$250 million in aggregate principal amount of the Company's 6.5 percent senior notes due October 2, 2017 (2017 Senior Notes) and the April 2017 issuance of \$300 million in aggregate principal amount of 3.5 percent senior notes due April 6, 2027 (2027 Senior Notes).

Income contribution of \$0.8 million from a warehouse-stage CLO entity that the Company began consolidating in the fourth quarter of fiscal 2017.

A reduction in income taxes of \$10.6 million, reflecting a decrease in the Company's statutory U.S. federal income tax rate resulting from the enactment of the Tax Cuts and Jobs Act (the Tax Act) on December 22, 2017 and \$1.9 million of net excess tax benefits recognized from the exercise of stock options and vesting of restricted stock awards during the second quarter of fiscal 2018. New accounting guidance adopted in the first quarter of fiscal 2018 requires these net excess tax benefits to be recognized in earnings.

A decrease in net income attributable to non-controlling and other beneficial interests of \$5.9 million, primarily reflecting a decrease in income earned by consolidated sponsored funds.

Weighted average diluted shares outstanding increased by 7.8 million shares, or 7 percent, in the second quarter of fiscal 2018 compared to the second quarter of fiscal 2017, primarily reflecting an increase in the dilutive effect of in-the-money options and unvested restricted stock, offset by an increase in share repurchases.

The 32 percent increase in net income attributable to Eaton Vance Corp. shareholders in the first six months of fiscal 2018 compared to the first six months of fiscal 2017 can be primarily attributed to the following:

An increase in revenue of \$106.1 million, or 15 percent, primarily reflecting growth in consolidated average assets under management, partially offset by lower consolidated average annualized management fee rates.

An increase in expenses of \$61.0 million, or 12 percent, primarily reflecting increases in compensation, distribution expense, amortization of deferred sales commissions, fund-related expenses and other operating expenses. The

increase in compensation expense is driven by higher salaries and benefits associated with increases in headcount, higher operating income- and performance-based bonus accruals and higher stock-based compensation, partially offset by a decrease in sales-based incentive compensation. The increase in non-compensation related costs, including distribution fees, fund subsidies, sub-advisory fees, and fund expenses borne by the Company, is attributable primarily to the

increase in average fund assets subject to these expenses. The increase in other operating expenses is primarily attributable to higher information technology, facilities, travel and professional services expenses.

A \$7.4 million decrease in gains and other investment income, net, primarily related to the Company's investments in sponsored strategies, including consolidated sponsored funds. Net gains and other investment income in the first six months of fiscal 2018 included a \$6.5 million loss recognized upon expiration during the period of the Company's option to acquire an additional 26 percent ownership interest in 49 percent-owned Hexavest under the terms of the option agreement entered into when the Company acquire its Hexavest position in 2012. Net gains and other investment income in the first six months of fiscal 2017 included a \$1.9 million gain recognized upon the release from escrow of payments received in connection with the sale of the Company's equity interest in Lloyd George Management in fiscal 2011.

A \$3.6 million decrease in interest expense, primarily reflecting the May 2017 retirement of the Company's 6.5 percent 2017 Senior Notes and the April 2017 issuance of the Company's 3.5 percent 2027 Senior Notes. Income contribution of \$2.4 million from a warehouse-stage CLO entity that the Company began consolidating in the fourth quarter of fiscal 2017.

An increase in income taxes of \$1.3 million, or 2 percent, primarily reflecting a non-recurring charge of \$24.8 million recognized in the first quarter of fiscal 2018 to reflect the estimated effect of the Tax Act, partially offset by a decrease in the Company's statutory U.S. federal income tax rate resulting from the enactment of the Tax Act. The Company's income tax provision for the six months ended April 30, 2018 also reflects \$13.7 million of net excess tax benefits recognized from the exercise of stock options and vesting of restricted stock awards during the period in connection with new accounting guidance adopted in the first quarter of fiscal 2018.

An increase in equity in net income of affiliates, net of tax, of \$0.5 million, primarily reflecting an increase in the Company's proportionate net interest in the earnings of Hexavest and a private equity partnership, both of which are accounted for under the equity method.

An increase in net income attributable to non-controlling and other beneficial interest holders of \$1.0 million, primarily reflecting an increase in net income attributable to non-controlling interest holders in the Company's consolidated sponsored funds and majority-owned subsidiaries.

Weighted average diluted shares outstanding increased by 8.7 million shares, or 8 percent, in the first six months of fiscal 2018 compared to the first six months of fiscal 2017, primarily reflecting an increase in the dilutive effect of in-the-money options and unvested restricted stock and a decrease in share repurchases.

Revenue

The following table shows our management fees, distribution and underwriter fees, service fees and other revenue for the three and six months ended April 30, 2018 and 2017:

(in thousands)	Three Months Ended			Six Months Ended

Total revenue	\$414,261	\$374,632	11	%	\$835,673	\$729,591	15	%

Management fees

The increase in management fees in the second quarter and first six months of fiscal 2018 from the same periods a year earlier is primarily attributable to an increase in consolidated average assets under management, partially offset by a decline in our consolidated average annualized management fee rate. Consolidated average assets under management increased by 17 percent and 21 percent in second quarter and first six months of fiscal 2018 from the same periods a year earlier, respectively. Excluding performance-based fees, consolidated average annualized management fee rates decreased to 33.3 basis points and 33.6 basis points in the second quarter and first six months of fiscal 2018, respectively, from 34.7 basis points and 34.9 basis points in the second quarter and first six months of fiscal 2017, respectively. Performance-based fees, all associated with one fund, were \$(0.5) million and \$(1.0) million in the second quarter and first six months of fiscal 2018, negligible in the second quarter of fiscal 2017 and contributed \$0.1 million in the first six months of 2017. Changes in consolidated average annualized management fee rates for the compared periods primarily reflect the ongoing shift in the Company's mix of business towards lower-fee mandates.

Consolidated average management fee rates, excluding performance-based fees, for the three and six months ended April 30, 2018 and 2017 were as follows:

<i>(in basis points on average managed assets)</i>	Three Months Ended			Six Months Ended

Service fees

Service fee revenue decreased 1 percent in the second quarter of fiscal 2018 from the same period a year earlier, primarily reflecting a decrease in average assets in funds and fund share classes subject to service fees. Service fee revenue increased 3 percent in the first six months of fiscal 2018 from the same period a year earlier, primarily reflecting an increase in average assets in funds and fund share classes subject to service fees.

Other revenue

Other revenue, which consists primarily of shareholder servicing fees, miscellaneous dealer income and Hexavest-related distribution and service revenue, increased 20 percent and 34 percent in the second quarter and first six months of fiscal 2018 from the same periods a year earlier, primarily reflecting increases in each of the principal components.

Expenses

Operating expenses increased by 10 percent, or \$24.9 million, in the second quarter of fiscal 2018 from the same period a year earlier, reflecting increases in compensation, distribution expense, amortization of deferred sales commissions, fund-related expenses and other operating expenses partially offset by a decrease in service fee expense. Expenses in connection with the Company's NextShares initiative totaled approximately \$1.7 million in the second quarter of fiscal 2018, a decrease of 6 percent from \$1.8 million in the second quarter of fiscal 2017.

Operating expenses increased by 12 percent, or \$61.0 million, in the first six months of fiscal 2018 from the same period a year earlier, reflecting increases in compensation, distribution expense, service fee expense, amortization of deferred sales commissions, fund-related expenses and other operating expenses. Expenses in connection with the Company's NextShares initiative totaled approximately \$3.6 million in the first six months of fiscal 2018, a decrease of 5 percent from \$3.8 million in the first six months fiscal 2017.

The following table shows our operating expenses for the three and six months ended April 30, 2018 and 2017:

Total	\$147,989	\$135,467	9 %	\$303,037	\$270,602	12 %	

Compensation expense increased by \$12.5 million, or 9 percent, in the second quarter of fiscal 2018 from the same period a year earlier. The increase was driven primarily by (i) a \$6.3 million increase in base salaries and employee benefits, reflecting higher headcount, fiscal year-end compensation increases and an increase in our corporate 401(k) match; (ii) a \$1.6 million increase in stock-based compensation expense primarily due to higher stock-based compensation awards; and (iii) a \$5.3 million increase in operating income-based bonus accruals due to higher pre-bonus adjusted operating income and a modest increase in bonus accrual rates. These increases were partially offset by a \$1.0 million decrease in sales-based incentive compensation resulting from a decrease in compensation-eligible sales.

Compensation expense increased by \$32.4 million, or 12 percent, in the first six months of fiscal 2018 from the same period a year earlier. The increase was driven primarily by (i) a \$15.0 million increase in base salaries and benefits, reflecting higher headcount, fiscal year-end compensation increases and an increase in our corporate 401(k) match; (ii) a \$6.0 million increase in stock-based compensation expense primarily due to higher stock-based compensation awards; and (iii) a \$14.5 million increase in operating income-based bonus accruals due to higher pre-bonus adjusted operating income and a modest increase in bonus accrual rates. These increases were partially offset by a \$3.4 million decrease in sales-based incentive compensation resulting from a decrease in compensation-eligible sales.

Distribution expense

The following table shows our distribution expense for the three and six months ended April 30, 2018 and 2017:

(in thousands)	Three Months Ended			Six Months Ended			
	April 30, 2018	2017	% Change	April 30, 2018	2017	% Change	
Class A share commissions	\$ 412	\$ 605	-32 %	\$ 839	\$ 1,372	-39 %	
Distribution fees	13,908	13,152	6 %	28,508	26,131	9 %	
Closed-end fund dealer compensation payments	939	949	-1 %	1,921	1,907	1 %	
Intermediary marketing support payments	12,653	12,118	4 %	25,187	23,339	8 %	
Discretionary marketing expenses	6,622	5,183	28 %	13,719	10,375	32 %	
Total	\$ 34,534	\$ 32,007	8 %	\$ 70,174	\$ 63,124	11 %	

Distribution expense increased \$2.5 million, or 8 percent, in the second quarter of fiscal 2018 and increased \$7.1 million, or 11 percent, in the first six months of fiscal 2018 versus the same periods a year earlier. The increase during both periods is primarily attributable to increases in fund assets held for more than one year in share classes on which we pay distribution fees, intermediary marketing support payments to our distribution partners and discretionary marketing expenses related to significant corporate initiatives. These increases are partially offset by a decrease in Class A sales on which we pay commissions.

Service fee expense

Service fee expense decreased \$0.5 million, or 2 percent, in the second quarter of fiscal 2018 from the same period a year earlier, reflecting lower average fund assets retained more than one year in funds and share classes that are subject to service fee payments. Service fee expense increased 2 percent, or \$1.1 million, in the first six months of fiscal 2018 versus the same period a year earlier, reflecting higher average fund assets retained more than one year in funds and share classes that are subject to service fee payments.

Amortization of deferred sales commissions

Amortization expense increased 10 percent, or \$0.4 million, in the second quarter of fiscal 2018 from the same period a year earlier, reflecting higher private fund commission amortization partially offset by lower Class C share commission amortization. Amortization expense increased 10 percent, or \$0.8 million, in the first six months of fiscal 2018 compared to the same period a year earlier, reflecting higher private fund commission amortization partially offset by lower Class C share commission amortization.

Fund-related expenses

Fund-related expenses increased \$3.5 million, or 29 percent, in the second quarter of fiscal 2018 over the same period a year earlier, reflecting increases in fund subsidy accruals and sub-advisory fees paid. Fund-related expenses increased \$7.5 million, or 33 percent, in the first six months of fiscal 2018 compared to the same period a year earlier for the same reasons.

Other expenses

The following table shows our other expenses for the three and six months ended April 30, 2018 and 2017:

(in thousands)	Three Months Ended			Six Months Ended			
	April 30, 2018	2017	% Change	April 30, 2018	2017	% Change	
Information technology	\$ 22,141	\$ 19,723	12 %	\$ 43,488	\$ 37,418	16 %	
Facilities-related	12,763	10,233	25 %	23,454	19,937	18 %	
Travel	4,814	4,122	17 %	8,753	7,695	14 %	
Professional services	4,530	3,526	28 %	7,747	6,458	20 %	
Communications	1,444	1,425	1 %	2,856	2,679	7 %	
Amortization of intangible assets	2,239	2,239	0 %	4,478	4,535	-1 %	
Other corporate expense	4,031	4,269	-6 %	8,425	8,430	0 %	
Total	\$ 51,962	\$ 45,537	14 %	\$ 99,201	\$ 87,152	14 %	

Other expenses increased 14 percent in the second quarter of fiscal 2018 from the same period a year earlier, primarily attributable to increases in information technology, facilities-related, travel and professional services expenses. The increase in information technology expense is attributable primarily to increases in costs associated with the consolidation of our trading platforms, enhancements to Calvert's research system, higher market data expenses, and ongoing system maintenance costs, partially offset by a decrease in outside custody and back-office service costs. The increase in facilities-related expenses reflects the acceleration of \$1.5 million of depreciation in the second quarter of fiscal 2018, as well as increases in rent and building-related expenses. The increase in travel expense relates to increased travel activity. The increase in professional services expense is primarily attributable to an increase in corporate consulting engagements and external legal costs.

Other expenses increased 14 percent in the first six months of fiscal 2018 from the same period a year earlier, primarily attributable to increases in information technology, facilities-related, travel and professional services expenses. The increase in information technology expense is attributable primarily to increases in costs associated with the consolidation of our trading platforms, enhancements to Calvert's research system, higher market data expenses, ongoing system maintenance costs, small equipment and software expenses. The increase in facilities-related expenses reflects the acceleration of \$1.5 million of depreciation in the second quarter of fiscal 2018, as well as increases in rent and building-related expenses. The increase in travel expense relates to increased travel activity. The increase in professional services expense is primarily attributable to an increase in corporate consulting engagements and external legal costs.

Non-operating Income (Expense)

The main categories of non-operating income (expense) for the three and six months ended April 30, 2018 and 2017 are as follows:

(in thousands)	Three Months Ended			Six Months Ended		
	April 30, 2018	2017	% Change	April 30, 2018	2017	% Change
Gains (losses) and other investment income, net	\$ (261)	\$ 9,288	NM	\$ 2,337	\$ 9,782	-76 %

Total non-operating income (expense)	\$ (5,349)	\$ 1,223	NM	\$ (7,035)	\$ (5,630)	25 %

Gains (losses) and other investment income, net, decreased by \$9.5 million in the second quarter of fiscal 2018 compared to the same period a year ago, primarily reflecting a \$9.4 million increase in net losses attributable to investments in sponsored strategies and associated hedges, partially offset by an increase in interest income of \$1.3 million and a \$0.4 million increase in foreign currency gains. Gains (losses) and other investment income, net, for the second quarter of fiscal 2017 included a \$1.9 million gain recognized upon the release from escrow of payments received in connection with the sale of the Company's equity interest in Lloyd George Management in fiscal 2011.

The \$2.2 million decrease in interest expense in the second quarter of fiscal 2018 compared to the same period a year earlier reflects the May 2017 retirement of the Company's 6.5 percent 2017 Senior Notes and the April 2017 issuance of the Company's 3.5 percent 2027 Senior Notes.

The increase in other income (expense) of consolidated CLO entity is a result of income contribution from a consolidated warehouse-stage CLO entity of \$0.8 million, which the Company began consolidating in the fourth quarter of fiscal 2017.

Gains (losses) and other investment income, net, decreased by \$7.4 million in the first six months of fiscal 2018 compared to the same period a year earlier, primarily reflecting (i) a \$6.5 million loss recognized in the first six months of fiscal 2018 upon expiration of the Company's option to acquire an additional 26 percent ownership interest in Hexavest under the terms of the option agreement entered into when we acquired our Hexavest position in 2012; (ii) a \$4.5 million increase in net losses attributable to investments in sponsored strategies and associated hedges; (iii) a \$1.9 million gain recognized in the first six months of fiscal 2017 upon the release from escrow of payments received in connection with the sale of the Company's equity interest in Lloyd George Management in fiscal 2011; and (iv) a \$0.3 million increase in foreign currency losses. These decreases are partially offset by an increase in interest income of \$5.8 million.

The \$3.6 million decrease in interest expense in the first six months of fiscal 2018 compared to the same period a year earlier reflects the May 2017 retirement of the Company's 6.5 percent 2017 Senior Notes and the April 2017 issuance

of the Company's 3.5 percent 2027 Senior Notes.

Other income (expense) of the Company's consolidated warehouse-stage CLO entity, which the Company began consolidating in the fourth quarter of fiscal 2017, totaled \$0.8 million and \$2.4 million for the three and six months ended April 30, 2018, respectively.

Income Taxes

Our effective tax rate, calculated as a percentage of income before income taxes and equity in net income of affiliates, was 26.7 percent in the second quarter of fiscal 2018 and 37.5 percent in the second quarter of fiscal 2017.

On December 22, 2017, the Tax Act was signed into law in the U.S. Among other significant changes, the Tax Act reduced the statutory federal income tax rate for U.S. corporate taxpayers from a maximum of 35 percent to 21 percent and required the deemed repatriation of foreign earnings not previously subject to U.S. taxation. Because the lower federal income tax rate took effect two months into our fiscal year, a blended federal tax rate of 23.3 percent applies to the Company for fiscal 2018.

Our income tax provision for the three and six months ended April 30, 2018 was reduced by net excess tax benefits of \$1.9 million and \$13.7 million, respectively, related to the exercise of stock options and vesting of restricted stock during those periods. New accounting guidance adopted in the first quarter of fiscal 2018 requires these net excess tax benefits to be recognized in earnings. Our income tax provision for the six months ended April 30, 2018 also includes a non-recurring charge of approximately \$24.8 million to reflect the estimated effect of the Tax Act. The non-recurring charge includes \$21.7 million from the revaluation of the Company's deferred tax assets and liabilities and \$3.1 million for the deemed repatriation of foreign-sourced net earnings not previously subject to U.S. taxation.

Our calculations of adjusted net income and adjusted earnings per diluted share remove the effect of the net excess tax benefits recognized in the second and first quarters of fiscal 2018 in connection with the new accounting guidance and the non-recurring impact of the tax reform recognized in the first quarter of fiscal 2018. On this basis, our adjusted effective tax rate was 28.2 percent and 27.4 percent for the three and six months ended April 30, 2018, respectively.

The following table reconciles the statutory federal income tax rate to our effective tax rate for the three and six months ended April 30, 2018:

	Three Months Ended April 30, 2018		Six Months Ended April 30, 2018	
Statutory U.S. federal income tax rate ⁽¹⁾	23.3	%	23.3	%
State income taxes for current year, net of federal income tax benefits	4.3		4.3	
Net income attributable to non-controlling and other beneficial interests	0.1		(0.9)
Other items	0.5		0.7	
Adjusted effective income tax rate⁽²⁾	28.2		27.4	
Non-recurring impact of U.S. tax reform	-		9.5	
Net excess tax benefits from stock-based compensation plans ⁽³⁾	(1.5)	(5.3)
Effective income tax rate	26.7	%	31.6	%

Statutory U.S. federal income tax rate is a blend of 35 percent and 21 percent based on the number of days in our
⁽¹⁾*fiscal year before and after the January 1, 2018 effective date of the reduction in the federal corporate income tax rate pursuant to the Tax Act.*

Represents the Company's effective income tax rate, excluding the tax impact of stock-based compensation shortfalls or windfalls, which recently-adopted accounting guidance requires to be recognized in earnings, and the
⁽²⁾*non-recurring tax impact of U.S. tax law changes recognized in the first quarter of fiscal 2018. Management believes that the Company's adjusted effective income tax rate is an important indicator of our operations because it excludes items that may not be indicative of, or are unrelated to, our core operating results, and may provide a useful baseline for analyzing trends in our underlying business.*

This amount reflects the impact of Accounting Standard Update (ASU) 2016-09, Improvements to Employee
⁽³⁾*Share-Based Payment Accounting, which was adopted in the first quarter of fiscal 2018. The Company anticipates that the adoption of this guidance may cause fluctuations in the Company's effective tax rate, particularly in the first quarter of each fiscal year, when most of the Company's annual stock-based awards vest.*

We continue to carefully evaluate the impact of the Tax Act, certain provisions of which will not take effect for the Company until fiscal 2019, including, but not limited to, the global intangible low-taxed income, foreign-derived intangible income and base erosion anti-abuse tax provisions.

Equity in Net Income of Affiliates, Net of Tax

Equity in net income of affiliates, net of tax, for the second quarter and first six months of fiscal 2018 primarily reflects our 49 percent equity interest in Hexavest and our seven percent minority equity interest in a private equity partnership managed by a third party. Equity in net income of affiliates, net of tax, was \$3.1 million and \$6.1 million in the second quarter and first six months of fiscal 2018, respectively, and \$3.1 million and \$5.7 million in the respective periods a year earlier.

The following table summarizes the components of equity in net income of affiliates, net of tax, for the three and six months ended April 30, 2018 and 2017:

(in thousands)	Three Months Ended			Six Months Ended			
	April 30, 2018	2017	% Change	April 30, 2018	2017	% Change	
Investment in Hexavest, net of tax and amortization	\$ 2,802	\$ 2,982	-6 %	\$ 5,606	\$ 5,379	4	%
Investment in private equity partnership, net of tax	310	162	91 %	521	271	92	%
Total	\$ 3,112	\$ 3,144	-1 %	\$ 6,127	\$ 5,650	8	%

Net (Income) Loss Attributable to Non-controlling and Other Beneficial Interests

The following table summarizes the components of net (income) loss attributable to non-controlling and other beneficial interests for the three and six months ended April 30, 2018 and 2017:

(in thousands)	Three Months Ended			Six Months Ended			
	April 30, 2018	2017	% Change	April 30, 2018	2017	% Change	
Consolidated sponsored funds	\$ 3,947	\$ (1,727)	NM	\$ (2,353)	\$ (1,712)	37	%
Majority-owned subsidiaries	(3,752)	(3,932)	-5 %	(7,907)	(7,650)	3	%
Non-controlling interest value adjustments ⁽¹⁾	-	1	-100 %	-	74	-100	%
Net (income) loss attributable to non- controlling and other beneficial interests	\$ 195	\$ (5,658)	NM	\$ (10,260)	\$ (9,288)	10	%

⁽¹⁾Relates to non-controlling interests redeemable at other than fair value.

Net (income) loss attributable to non-controlling and other beneficial interests is not adjusted for taxes due to the underlying tax status of our consolidated majority-owned subsidiaries, which are treated as partnerships or other pass-through entities for tax purposes.

Changes in Financial Condition, Liquidity and Capital Resources

The following table summarizes certain key financial data relating to our liquidity and capital resources on April 30, 2018 and October 31, 2017 and the use of cash for the six months ended April 30, 2018 and 2017.

Liquidity and Capital Resources

Liquid assets consist of cash and cash equivalents and management fees and other receivables. Cash and cash equivalents consist of cash and short-term, highly liquid investments that are readily convertible to cash. Management fees and other receivables primarily represent receivables due from sponsored funds and separately managed accounts for investment advisory and distribution services provided. Liquid assets represented 30 percent and 35 percent of total assets on April 30, 2018 and October 31, 2017, respectively, excluding those assets identified as assets of our consolidated CLO entity. Not included in the liquid asset amounts are \$279.7 million and \$213.5 million of highly liquid short-term debt securities with remaining maturities between three and 12 months at April 30, 2018 and October 31, 2017, respectively, which are included within investments on our Consolidated Balance Sheets. Our seed investments in consolidated funds and separate accounts are not treated as liquid assets because they may be longer term in nature.

The \$93.3 million decrease in liquid assets in the first six months of fiscal 2018 primarily reflects the repurchase of \$109.5 million of Non-Voting Common Stock, \$82.8 million of net purchases of bank loan investments by our consolidated CLO entity, the payment of \$73.7 million of dividends to shareholders, the purchase of additional non-controlling interests for \$20.8 million, net purchases of investments for \$13.5 million and the addition of \$7.7

million in equipment and leasehold improvements offset by net proceeds of \$77.1 million from our consolidated CLO entity's line of credit issuance, proceeds from net subscriptions received from non-controlling interests holders of \$67.5 million, proceeds from the issuance of Non-Voting Common Stock of \$53.7 million in connection with the exercise of employee stock options and other employee stock purchases, cash provided by operating activities of \$7.6 million, an increase in management fees and

other receivables of \$5.5 million, principal repayments on notes receivable from stock options exercises of \$2.5 million and an increase in the effect of currency rate changes on cash and cash equivalents of \$0.8 million.

On April 30, 2018, our debt consisted of \$325 million in aggregate principal amount of 3.625 percent Senior Notes due in June 2023 and \$300 million in aggregate principal amount of 3.5 percent Senior Notes due in April 2027.

We maintain a \$300 million unsecured revolving credit facility with several banks that expires on October 21, 2019. The facility provides that we may borrow at LIBOR-based rates of interest that vary depending on the level of usage of the facility and our credit ratings. The agreement contains financial covenants with respect to leverage and interest coverage and requires us to pay an annual commitment fee on any unused portion. We had no borrowings under our revolving credit facility at April 30, 2018 or at any point during the first six months of fiscal 2018. We were in compliance with all debt covenants as of April 30, 2018.

We continue to monitor our liquidity daily. We remain committed to growing our business and returning capital to shareholders. We expect that our main uses of cash will be paying dividends, acquiring shares of our Non-Voting Common Stock, making seed investments in new products and strategic acquisitions, enhancing our technology infrastructure and paying the operating expenses of our business, which are largely variable in nature and fluctuate with revenue and assets under management. We believe that our existing liquid assets, cash flows from operations and borrowing capacity under our existing credit facility are sufficient to meet our current and forecasted operating cash needs. The risk exists, however, that if we need to raise additional capital or refinance existing debt in the future, resources may not be available to us in sufficient amounts or on acceptable terms. Our ability to enter the capital markets in a timely manner depends on a number of factors, including the state of global credit and equity markets, interest rates, credit spreads and our credit ratings. If we are unable to access capital markets to issue new debt, refinance existing debt or sell shares of our Non-Voting Common Stock as needed, or if we are unable to obtain such financing on acceptable terms, our business could be adversely affected.

Recoverability of our Investments

Our \$1.1 billion of investments as of April 30, 2018 consisted of our 49 percent equity interest in Hexavest, positions in Company-sponsored funds and separate accounts entered into for investment and business development purposes, and certain other investments held directly by the Company. Investments in Company-sponsored funds and separate accounts and investments held directly by the Company are generally in liquid debt or equity securities and are carried at fair market value. We test our investments, other than trading and equity method investments, for impairment on a quarterly basis. We evaluate our investments in non-consolidated CLO entities and investments classified as available-for-sale for impairment using quantitative factors, including how long the investment has been in a net unrealized loss position, and qualitative factors, including the credit quality of the underlying issuer and our ability and intent to continue holding the investment. If markets deteriorate in the quarters ahead, our assessment of

impairment on a quantitative basis may lead us to impair additional investments in future quarters that were in an unrealized loss position at April 30, 2018.

We test our investments in equity method investees, goodwill and indefinite-lived intangible assets for impairment in the fourth quarter of each fiscal year, or as facts and circumstances indicate that additional analysis is warranted. There have been no significant changes in financial condition in the first six months of fiscal 2018 that would indicate that an impairment loss exists at April 30, 2018.

We periodically review our deferred sales commissions and amortizing identifiable intangible assets for impairment as events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. There have been no significant changes in financial condition in the first six months of fiscal 2018 that would indicate that an impairment loss exists at April 30, 2018.

Operating Cash Flows

Cash provided by operating activities totaled \$7.6 million in the first six months of fiscal 2018, compared to \$20.9 million in the first six months of fiscal 2017. The decrease in net cash provided by operating activities year-over-year primarily reflects an increase in net cash used to settle accrued compensation, an increase in net cash used to purchase trading securities, and a net decrease as a result of timing differences in the cash settlements of our deferred income taxes and other assets and liabilities.

Investing Cash Flows

Cash used for investing activities totaled \$104.0 million in the first six months of fiscal 2018 compared to \$63.7 million in the first six months of fiscal 2017. The increase in cash used for investing activities year-over-year is attributable primarily to \$82.8 million of net purchases of bank loan investments by our consolidated CLO entity, which the Company began consolidating in the fourth quarter of fiscal 2017, an increase in net purchases of investments of \$19.4 million, primarily related to investments in non-consolidated CLO entities, and an increase in equipment and leasehold improvements of \$1.6 million offset by a decrease in cash paid in acquisition of \$63.6 million.

Financing Cash Flows

Cash used for financing activities totaled \$3.2 million in the first six months of fiscal 2018 compared to cash provided by financing activities of \$281.6 million in the first six months of fiscal 2017. The decrease in cash provided by financing activities is primarily attributable to the issuance of \$300 million in aggregate principal amount of 3.5 percent Senior Notes in the second quarter of fiscal 2017.

Share repurchases in the first six months of fiscal 2018 totaled \$109.5 million. As of April 30, 2018, we have authorization to purchase an additional 4.1 million shares under our current share repurchase authorization and anticipate that future repurchases will continue to be an ongoing use of cash.

Dividends declared per share were \$0.62 in the first six months of fiscal 2018 compared to \$0.56 per share in the first six months of fiscal 2017. We currently expect to declare and pay quarterly dividends on our Voting and Non-Voting Common Stock comparable to the dividend declared in the second quarter of fiscal 2018.

Contractual Obligations

We have future obligations under various contracts relating to debt, interest payments and operating leases. During the first six months April 30, 2018 there were no material changes to our contractual obligations as previously reported in our Annual Report on Form 10-K for the year ended October 31, 2017, except as discussed below.

Non-controlling interests held by employees in Atlanta Capital and Parametric long-term equity incentive plans are not subject to mandatory redemption. The purchase of non-controlling interests is predicated on the exercise of a series of puts held by non-controlling interest holders and calls held by us. The puts provide the

non-controlling interest holders the right to require us to purchase these retained interests at specific intervals over time, while the calls provide us with the right to require the non-controlling interest holders to sell their retained equity interests to us at specified intervals over time, as well as upon the occurrence of certain events such as death or permanent disability. These non-controlling interests are redeemable at fair value. There is significant uncertainty as to the timing and amount of any non-controlling interest purchase in the future. Although the timing and amounts of these purchases cannot be predicted with certainty, we anticipate that the purchase of non-controlling interests in our consolidated subsidiaries may be a significant use of cash in future years.

We have presented all redeemable non-controlling interests at redemption value on our Consolidated Balance Sheet as of April 30, 2018. We have recorded the current quarter change in the estimated redemption value of non-controlling interests redeemable at fair value as a component of additional paid-in capital. Based on our calculations, the estimated redemption value of our non-controlling interests, totaled \$335.3 million on April 30, 2018 compared to \$250.8 million on October 31, 2017. These interests are all redeemable at fair value. No puts or calls redeemable at other than fair value were outstanding as of April 30, 2018.

Redeemable non-controlling interests as of April 30, 2018 consisted of third-party investors' ownership in consolidated investment funds of \$231.8 million, non-controlling interests in Parametric issued in conjunction with the Parametric Risk Advisors LLC (Parametric Risk Advisors) final put option of \$15.8 million and profit interests granted under the long-term incentive plans of Parametric and Atlanta Capital of \$52.8 million and \$34.9 million, respectively, all of which are redeemable at fair value.

Foreign Subsidiaries

We consider the undistributed earnings of certain of our foreign subsidiaries to be indefinitely reinvested in foreign operations as of April 30, 2018; however, as a result of the Tax Act, an estimated tax of \$3.1 million was recognized during the six months ended April 30, 2018 on these earnings. The calculation of this non-recurring charge was based on the Tax Act, guidance issued by the Internal Revenue Service, and our interpretations of this information. We anticipate additional guidance to be issued by the Internal Revenue Service and continue to monitor interpretative developments. As a result, this estimated tax charge may change. In light of the changes contained in the Tax Act, and as additional guidance becomes available, we may reconsider our repatriation policy.

Off-Balance Sheet Arrangements

We do not invest in any off-balance sheet vehicles that provide financing, liquidity, market or credit risk support or engage in any leasing activities that expose us to any liability that is not reflected in our Consolidated Financial

Statements.

Critical Accounting Policies

As of November 1, 2017, the Company has amended its significant accounting policy for stock-based compensation to reflect the adoption of Accounting Standard Update 2016-09, *Improvements to Employee Share-Based Payment Accounting*. For further details regarding the amended policy, please see Note 1, “Summary of Significant Accounting Policies” in Item 1, “Consolidated Financial Statements.” There have been no other updates to our critical accounting policies from those disclosed in Management’s Discussion and Analysis of Financial Condition in our Form 10-K for the fiscal year ended October 31, 2017.

Accounting Developments

There have been no material changes in our accounting developments from those previously disclosed in our Annual Report on Form 10-K for the year ended October 31, 2017.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our Quantitative and Qualitative Disclosures About Market Risk from those previously reported in our Annual Report on Form 10-K for the year ended October 31, 2017.

Item 4. Controls and Procedures

We evaluated the effectiveness of our disclosure controls and procedures as of April 30, 2018. Disclosure controls and procedures are designed to ensure that the information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time period specified in the SEC's rule and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), to allow timely decisions regarding required disclosure. Our CEO and CFO participated in this evaluation and concluded that, as of April 30, 2018, our disclosure controls and procedures were effective.

There have been no changes in our internal control over financial reporting that occurred during the second quarter of our fiscal year ended October 31, 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information**Item 1. Legal Proceedings**

There have been no material developments in litigation previously reported in our SEC filings.

Item 1A. Risk Factors

There have been no material changes to our Risk Factors from those previously reported in our Annual Report on Form 10-K for the year ended October 31, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The table below sets forth information regarding purchases by the Company of our Non-Voting Common Stock on a monthly basis during the second quarter of fiscal 2018:

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid Per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	(d) Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
