PROXY STATEMENT

This Proxy Statement and the enclosed form of proxy card and voting instructions for Employee Stock Purchase Plan (“proxy card”) are furnished for the solicitation of proxies by the Board of Directors of MGP Ingredients, Inc. (the “Company”) for use at the annual meeting of its stockholders to be held on Thursday, May 23, 2013, as set forth in the preceding Notice. We expect to provide notice and electronic delivery of this Proxy Statement and the enclosed proxy card to stockholders on or about April 11, 2013.

In 2011, we changed our fiscal year end from June 30 to December 31. Accordingly, some of the information contained in this Proxy Statement, including compensation-related disclosure, covers the six month period from July 1, 2011 (following the conclusion of our prior fiscal year) to December 31, 2011. In this Proxy Statement, “2011 transition period” means the six-month period from July 1, 2011 to December 31, 2011, “fiscal year 2011” means the fiscal year ended June 30, 2011 and “fiscal year 2010” means the fiscal year ended June 30, 2010.

In 2012, we reorganized into a holding company structure. On January 3, 2012, the Company became the holding company for the former MGP Ingredients, Inc., which is now named MGPI Processing, Inc. (“Old MGPI”) and which is now a wholly-owned subsidiary of the Company. In connection with the reorganization, the Company changed its name from MGPI Holdings, Inc. to MGP Ingredients, Inc. (“New MGPI”). All of the outstanding common shares of Old MGPI were converted, without exchange, into an equal number of common shares of New MGPI, and all of the outstanding preferred shares of Old MGPI were converted, without exchange, into an equal number of preferred shares of New MGPI. The common stock of New MGPI trades on the NASDAQ Global Select Market under the symbol “MGPI.” In the reorganization, the persons serving as members of the Board of Directors or executive officers of Old MGPI became members of the Board of Directors and executive officers of New MGPI, respectively, and New MGPI assumed each plan governing equity compensation for directors, officers and employees of Old MGPI. Throughout this Proxy Statement, when we refer to the Company in reference to activities that occurred prior to the reorganization on January 3, 2012, we are referring to Old MGPI, and when we refer to the Company in reference to activities occurring after the reorganization, we are referring to New MGPI, except to the extent that the context otherwise indicates.

VOTING MATTERS

How You Can Vote

If your shares are registered in your own name, you may simplify voting and save the Company expense by voting by telephone or by Internet. Telephone and Internet voting information is provided on your proxy card. A Control Number on the proxy card is designed to verify your identity and allow you to vote your shares and confirm that your voting instructions have been properly recorded. If you vote by telephone or Internet, you need not mail back your proxy card.

If you choose to vote by mail, please return your proxy card, properly signed, in the postage-paid envelope provided.

If you hold your shares through a broker, bank or other financial institution, please follow its directions for how to vote. Your broker will not be permitted to vote on your behalf for the first and the third proposal unless you instruct your broker as to how to vote your shares. For your vote to be counted, you will need to communicate your voting decisions to your broker, bank or other financial institution. Voting your shares is important to ensure that we meet the minimum quorum requirements for the meeting. If you have any questions about the voting process, please contact the broker, bank, or other financial institution where you hold your shares.

Persons with shares held in the Company’s Employee Stock Purchase Plan (“ESPP”) may give their voting instructions to the ESPP plan administrator by any of the methods specified above. If you hold shares in the ESPP and do not

provide instructions, your shares will not be voted.

1

How You May Revoke or Change Your Vote

You may revoke your proxy at any time before it is voted at the meeting by:

- sending timely written notice of revocation to the corporate secretary;
- submitting another timely proxy by telephone, Internet or mail; or
- attending the annual meeting and voting in person. If voting in person, please bring written evidence confirming your ownership of the shares you wish to vote.

Other Voting Matters

The holders of record of Common Stock and Preferred Stock of the Company at the close of business on April 3, 2013 are entitled to notice of and to vote at the annual meeting. As of March 1, 2013, there were 17,934,233 shares of Common Stock outstanding and 437 shares of Preferred Stock outstanding. You are entitled to one vote for each share owned of record on that date.

All shares that have been properly voted and not revoked will be voted at the annual meeting in accordance with your instructions. If you sign your proxy card but do not give voting instructions, the shares represented by the proxy will be voted by those named in the proxy card in accordance with the recommendations of the Board of Directors.

If any other matters are properly presented at the annual meeting for consideration, the persons named in the enclosed proxy card will have the discretion to vote on those matters for you. As of the printing of this Proxy Statement, we do not know of any other matter to be raised at the annual meeting.

How Votes are Counted and Voting Requirements

Holders of a majority of the shares of each class of stock entitled to vote at the annual meeting, present in person or represented by proxy, will constitute a quorum for the meeting. Abstentions and “broker non-votes” (defined below) are counted as present and entitled to vote for purposes of determining if a quorum for the annual meeting exists. A broker non-vote occurs when a broker submits a proxy card with respect to shares of common stock held in a representative capacity (typically referred to as being held in “street name”), but the broker cannot vote on a particular matter because the broker has not received voting instructions from the beneficial owner.

Generally, holders of Common Stock and Preferred Stock each vote separately as a class with respect to each matter that the class is authorized to vote on, with each share of stock in each class being entitled to one vote. Election of directors is determined by a plurality vote, and the candidates for office who receive the highest number of votes will be elected. Because it is a plurality vote, abstentions and withheld votes will have no effect on the election of directors.

The affirmative vote of holders of a majority of shares of Common Stock and a majority of shares of Preferred Stock entitled to vote that are present in person or by proxy is required for the approval of the appointment of KPMG LLP as our independent registered public accounting firm and the approval of executive compensation. Abstentions with respect to the advisory vote on executive compensation and on ratification of the appointment of KPMG LLP as our independent registered public accounting firm will have the same effect as a vote against the proposal.

In case of a broker non-vote, brokers may vote on routine matters but cannot vote on non-routine matters. Ratification of the independent registered public accounting firm is considered a routine matter. The other proposals are not considered routine matters, and without your instructions, your broker cannot vote your shares.

The principal executive offices of the Company are located at Cray Business Plaza, 100 Commercial Street, Atchison, Kansas 66002 and the Company's telephone number at that address is (913) 367-1480.

The Board of Directors, upon recommendation of its Audit Committee, recommends that you ratify the appointment of KPMG LLP as our independent registered public accounting firm to audit the books, records and accounts of the Company and its subsidiaries for the fiscal year ending December 31, 2013. A representative of KPMG LLP will be present at the annual meeting, will have an opportunity to make a statement if he or she desires to do so, and will be available to respond to appropriate questions.

For the ratification of the Audit Committee's selection of KPMG LLP as our independent registered public accounting firm for the year ending December 31, 2013, the affirmative vote of the holders of a majority of the shares of Preferred Stock and of the holders of a majority of the shares of Common Stock, present in person or by proxy and entitled to vote at the meeting, is required. Abstentions with respect to the advisory vote on ratification of the appointment of KPMG LLP as our independent registered public accounting firm will have the same effect as a vote against the proposal. The Board of Directors recommends a vote "FOR" the Ratification of the Appointment of KPMG LLP as the Company's Independent Registered Public Accountant.

PROPOSAL 3 – APPROVAL OF
COMPENSATION OF THE NAMED EXECUTIVE OFFICERS

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) provides that the Company’s stockholders have the opportunity to vote to approve, on an advisory (nonbinding) basis, the compensation of the Company’s named executive officers as disclosed in this Proxy Statement in accordance with the Securities and Exchange Commission’s (“SEC”) rules. Pursuant to Section 14A of the Securities Exchange Act of 1934, as amended, the Company is presenting the following “say-on-pay” proposal, which gives stockholders the opportunity to approve or not approve the Company’s compensation program for named executive officers, as disclosed pursuant to Item 402 of Regulation S–K, by voting for or against the resolution set out below. While our Board intends to carefully consider the stockholder vote resulting from this proposal, the final vote will not be binding on the Company and is advisory in nature.

This say-on-pay vote is advisory, and therefore, is not binding on the Company, the Human Resources and Compensation Committee or the Board. The Board and the Company’s Human Resources and Compensation Committee value the opinions of our stockholders, and to the extent there is any significant vote against the named executive officer compensation as disclosed in this Proxy Statement, the Company, the Board and the Human Resources and Compensation Committee will consider the results of the vote in future compensation deliberations.

In addition to the say-on-pay vote, the Dodd–Frank Act requires that stockholders have the opportunity to vote on how often they believe the advisory vote on executive compensation should be held in the future (the frequency vote). The Company held the frequency vote at the 2011 stockholder annual meeting, where the stockholders voted for holding a say-on-pay vote every year.

For the advisory vote seeking approval of named executive officer compensation, the affirmative vote of the holders of a majority of the shares of Preferred Stock and of the holders of a majority of the shares of Common Stock, present in person or by proxy and entitled to vote at the meeting, is required. Abstentions with respect to the advisory vote on executive compensation will have the same effect as a vote against the proposal. In case of a broker non-vote, your broker may not vote your shares.

The Board of Directors recommends an advisory vote “FOR” the following resolution: “RESOLVED, that the stockholders of MGP Ingredients, Inc. approve, on an advisory basis, compensation paid to the Company’s named executive officers, as disclosed pursuant to Item 402 of Regulation S–K, including the Compensation Overview, compensation tables and narrative discussion.”

CORPORATE GOVERNANCE AND COMMITTEE REPORTS

The Board; Standing Committees; Meetings; Independence

The Board of Directors believes that a majority of the directors should be independent and has determined that the following members are independent: Michael Braude, John E. Byom, Gary Gradinger, Linda E. Miller, Daryl R. Schaller and John R. Speirs. Mr. Newkirk, Chief Executive Officer and President, is the only non-independent member of the Board. In determining the independence of directors, the Board found that none of the directors, other than Mr. Newkirk, has any material relationship with the Company other than as a director. In making these determinations, the Board considers all facts and circumstances as well as the standards defined in Rule 4200(a)(15) of the NASDAQ Stock Market.

The Board has three standing committees: Audit Committee, Nominating and Governance Committee and Human Resources and Compensation Committee. The composition of the Committees throughout 2012 was as follows: Audit Committee – John E. Byom (Chairman), Michael Braude, Gary Gradinger, Linda E. Miller and Daryl R. Schaller; Human Resources and Compensation Committee – Daryl R. Schaller (Chairman), Michael Braude, John E. Byom, Gary Gradinger and Linda E. Miller; Nominating and Governance Committee – Linda E. Miller (Chairwoman), Michael Braude, John Byom, Gary Gradinger and Daryl R. Schaller.

All of the members of the Nominating and Governance Committee are determined independent under the NASDAQ listing rules. The members of the Audit Committee are independent under the NASDAQ listing rules and meet the applicable independence requirements of Section 10A (m) (3) of the Securities Exchange Act of 1934, as amended. The members of the Human Resources and Compensation Committee are also determined independent under the NASDAQ listing rules and applicable rules of the Securities and Exchange Commission. Each director on the Committees is a "non-employee" director as defined in Rule 16b-3(b)(3) promulgated under the Securities Exchange Act of 1934 and an "outside" director as defined under Section 162(m) of the Internal Revenue Code.

The Board meets immediately after each annual meeting of the stockholders and may hold other regular and special meetings. The meetings are led by Mr. Speirs, the current Chairman of the Board. During 2012, the Board met 4 times, the Audit Committee met 3 times, the Human Resources Committee met 4 times and the Nominating and Governance Committee met 3 times. Each director attended more than 75% of the meetings of the Board and the Committees of which the director was a member.

Audit Committee

The Audit Committee assists the Board of Directors in fulfilling the Board's oversight responsibilities with respect to the quality and integrity of the financial statements, financial reporting process, and systems of internal controls. The Audit Committee also assists the Board in monitoring the independence and performance of the independent

registered public accountant and the internal audit department. It also reviews and makes recommendations with regard to the process involved in the Company's implementation of its conflict of interest and business conduct policy, is responsible for establishing and monitoring compliance under the code of conduct applicable to the chief executive and financial officers and oversees the Board's risk management process. In connection with this work, the Committee engages in regular discussions of the Company's risks with senior management, internal auditors and external auditors and annually reviews: (a) the adequacy of the Audit Committee's written charter that has been adopted by the Board of Directors; (b) the independence and financial literacy of each member of the Audit Committee; (c) the plan for and scope of the annual audit; (d) the services and fees of the independent auditor; (e) certain matters relating to the independence of the independent auditor; (f) certain matters required to be discussed with the independent auditor relative to the quality of the Company's accounting principles; (g) the audited financial statements and results of the annual audit; (h) recommendations of the independent auditor with respect to internal controls and other financial matters; (i) significant changes in accounting principles that are brought to the attention of the Committee; and (j) various other matters that are brought to the attention of the Committee.

The Board of Directors has determined that John E. Byom is an “audit committee financial expert,” as defined in Item 407(d)(5) of SEC Regulation S-K. The Board has determined that Mr. Byom is independent, as independence for audit committees is defined in the applicable listing standards of the NASDAQ Stock Market. Under SEC regulations, a person who is determined to be an audit committee financial expert will not be deemed an “expert” for any purpose, including without limitation for purposes of section 11 of the Securities Act of 1933. Further, the designation or identification of a person as an audit committee financial expert does not impose any duties, obligations or liability on such person that are greater than the duties, obligations and liability imposed on such person as a member of the audit committee and board of directors in the absence of such designation or identification and does not affect the duties, obligations or liability of any other member of the audit committee or board of directors.

The Board of Directors has adopted a written charter for the Audit Committee, which may be found on the Company’s website at www.mgpingredients.com.

Audit Committee Report

The Audit Committee has reviewed and discussed with management the audited financial statements for fiscal 2012; has discussed with the independent auditor the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, and as adopted by the Public Company Accounting Oversight Board (“PCAOB”) in Rule 3200T pursuant to Item 407(d)(3)(i)(B) of Regulation S-K of the Securities Exchange Act of 1934, as amended, regarding “Communications with Audit Committees”; has received the written disclosures and letter from the independent auditor required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant’s communications with the audit committee; and has discussed with the independent auditor the auditor’s independence. Based on such review and discussions, the Audit Committee recommended to the Board of Directors that the audited financial statements for fiscal 2012 be included in the Company’s Annual Report on Form 10-K for filing with the Securities and Exchange Commission.

Audit Committee Members:

The Audit Committee Report shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933 or under the Securities Exchange Act of 1934, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts.

Nominating and Governance Committee

The purposes of the Nominating and Governance Committee are to recommend to the Board the qualifications for new director nominees, candidates for nomination and policies concerning compensation and length of service. The Nominating and Governance Committee has a charter, a copy of which is available to stockholders on the Company’s website at www.mgpingredients.com.

In identifying nominees for the Board of Directors, the Nominating and Governance Committee relies on personal contacts of the committee members and other members of the Board of Directors and management. The Nominating and Governance Committee will also consider candidates recommended by stockholders in accordance with its policies and procedures. However, the Nominating and Governance Committee may choose not to consider an unsolicited candidate recommendation if no vacancy exists on the Board. The Nominating and Governance Committee may, in its discretion, use an independent search firm to identify nominees.

The Nominating and Governance Committee believes that each candidate for the Board should be a person known for his or her integrity and honesty. Although the Committee does not have a formal policy with regard to diversity in identifying candidates, it looks for education, experience, knowledge or skills that complement those of existing members and that may be helpful to the Board in exercising its oversight responsibilities. A sufficient number of Board members must meet the tests for independence set forth in the applicable listing standards of the NASDAQ Stock Market and Section 10A of the Securities Exchange Act of 1934, as amended, to permit the Company to satisfy applicable NASDAQ and legal requirements. The Committee also believes it is desirable for at least one Board member to be an "audit committee financial expert," as defined in Rule 407(d)(5) of Regulation S-K. In considering candidates, the Committee may take into account other factors as it deems relevant.

In evaluating potential nominees, the Nominating and Governance Committee determines whether the nominee is eligible and qualified for service on the Board of Directors by evaluating the candidate under the selection criteria set forth above. The Nominating and Governance Committee generally will conduct a check of the individual's background and conduct personal interviews before recommending any candidate to the Board. The Nominating and Governance Committee in its sole discretion may require candidates (including a stockholder's recommended candidate) to complete a form of questionnaire providing information required to be disclosed in the Company's proxy statement.

Stockholders who wish to recommend candidates for consideration by the Nominating and Governance Committee in connection with next year's annual meeting should submit the candidate's name and the information set forth below in writing to the chairperson of the Nominating and Governance Committee, in care of the Company's Secretary, at Cray Business Plaza, 100 Commercial Street, P.O. Box 130, Atchison, Kansas, 66002, on or before December 12, 2013. In addition to the name of the candidate, a stockholder should submit:

his or her own name and address as they appear on the Company's records;

if not the record owner, a written statement from the record owner of the shares that verifies the recommending stockholder's beneficial ownership and period of ownership and that provides the record holder's name and address as they appear on the Company's records;

a statement disclosing whether such recommending stockholder is acting with or on behalf of any other person, entity or group and, if so, the identity of such person, entity or group;

the written consent of the person being recommended to being named in the proxy statement as a nominee if nominated and to serving as a director if elected; and

pertinent information concerning the candidate's background and experience, including information regarding such person required to be disclosed in solicitations of proxies for election of directors under Regulation 14A of the Securities Exchange Act of 1934, as amended.

Human Resources and Compensation Committee

The Human Resources and Compensation Committee recommends to the Board of Directors the salary and incentive compensation of the Chief Executive Officer and other executive officers of the Company. The Committee reviews the scope and type of compensation plans for other management personnel and makes recommendations to the Board with respect to equity based-plans that are subject to Board approval. The Committee administers the Company's stock option and restricted stock plans, and also serves as an executive search committee. Each Committee member qualifies as a non-employee director under SEC Rule 16b-3 and as an outside director for purposes of Internal Revenue Code Section 162(m). The Committee has a charter, which may be found on the Company's website at www.mgpingredients.com.

The Committee typically meets four or five times a year and generally considers and recommends various components of the Company's compensation programs at regularly scheduled times throughout the year. Such programs typically originate as recommendations of management. The Committee typically considers any proposed amendments to benefit plans that are to take effect in the following fiscal year at its November meeting. It has typically conducted performance and salary reviews of the CEO and receives the CEO's performance reviews and salary recommendations for other officers at its November meeting. It generally considers long term incentive awards and performance goals for annual cash incentives in March, though annual cash incentives were reconsidered at the November 2012 meeting in light of expected increases in applicable tax rates for calendar 2013.

When considering compensation matters, the Committee relies upon the experience of its members, the recommendations of management and outside consultants retained by the Committee. During fiscal 2011, at the direction of the Committee, management retained Greg Wolf of Greg Wolf Consulting to review the Company's compensation program for directors and to make recommendations that would increase the overall competitiveness of Board compensation. In 2012 the Committee retained Compdata Consulting, a compensation consultant, in order to obtain information concerning base salary trends for executive and non-executive employees. The Board will review director compensation in November, 2013.

See "EXECUTIVE COMPENSATION AND OTHER MATTERS - Compensation Overview – How We Determine Compensation" for further information on the processes we follow in setting compensation.

Board Leadership Structure

Our Board does not have a policy regarding the separation of the roles of Chief Executive Officer and Chairman of the Board. The Board believes it is in the best interest of the Company to make that determination in a manner it believes best provides appropriate leadership for the Company at the time, based on the circumstances and direction of the Company and the membership of the Board. Our current structure has a separate Chief Executive Officer and Chairman of the Board of Directors, the latter also acting in the capacity of lead director. Timothy W. Newkirk is our Chief Executive Officer and President and is responsible for day-to-day leadership of the Company. John Speirs serves as the Chairman of the Board and as lead director. The Board of Directors believes this is the most appropriate structure for the Company at this time, as it permits the President and Chief Executive Officer to focus his attention on managing our day-to-day business and enhances the ability of the Board of Directors to provide strong, independent oversight of the Company's management and affairs.

Risk Management

Management is responsible for assessing and managing risk exposures on a day-to-day basis, and the Board is responsible for overseeing the Company's risk management process. This process is designed to provide to the Board timely visibility about the identification, assessment and management of critical risks. The Audit Committee assists the Board by annually reviewing and discussing with management this process and its functionality. The areas of critical risk include strategic, operational, compliance, environmental and financial risks. The full Board, or the appropriate Committee, receives this information through updates from the appropriate members of management to enable it to understand and monitor the Company's risk management process. Information brought to the attention of the committees can then be shared with the full Board, as appropriate.

We believe that the various components of our compensation program are effective in linking performance based compensation to stockholder interests without encouraging executives to take unnecessary risks (see discussion of compensation programs in EXECUTIVE COMPENSATION AND OTHER INFORMATION). We also believe that our compensation program is properly balanced and does not encourage taking short term risks at the expense of long term results. Our annual incentive program is designed to encourage programs that have appropriate returns on our investment. To the extent that our annual incentive program might encourage actions contrary to our long-term

interest, the Human Resources and Compensation Committee retains discretion to modify factors relevant in determining annual compensation. Further, long-term incentives are in the form of restricted stock or restricted stock unit awards, which are generally made on an annual basis and are subject to a multi-year vesting schedule. We believe that such awards appropriately link the interest of our executives and stockholders and balance the short-term nature of annual cash incentives and any related risk of undue risk taking.

Compensation Committee Interlocks and Insider Participation

No member of the Human Resources and Compensation Committee is now or was at any time during the past year an officer or employee of the Company or any of its subsidiaries, was formerly an officer of the Company or any of its subsidiaries, or had any relationship with the Company requiring disclosure under Item 404 of Regulation S-K.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Compensation Overview

This discussion provides an overview and analysis of our compensation programs and policies, the compensation decisions we made under those programs and policies, and the factors we considered in making those decisions. We also provide a series of tables that present information about the compensation earned or paid in each of fiscal 2011, the 2011 transition period, and fiscal 2012 to our named executive officers, including:

- Timothy W. Newkirk - Mr. Newkirk has served as President and Chief Executive Officer since March 5, 2008;
- Donald P. Tracy – Mr. Tracy joined the Company in October 2009 and has served as Vice President of Finance and Chief Financial Officer since November 6, 2009; and
- Randall M. Schrick - Mr. Schrick has served as Vice President of Engineering since June 2009. From November 11, 2009 to December 31, 2011, he also served as President of Illinois Corn Processing, LLC (“ICP”), which was a 50% owned joint venture company until February 1, 2012 (now 30%) and which operates our former facility in Pekin, Illinois.

The discussion below is intended to help you understand the information provided in the tables and put that information into context within our overall compensation program.

Objectives of our Compensation Program

Our compensation program objectives are to align compensation programs with our business objectives and stockholders’ interests, to reward performance, to be externally competitive and internally equitable and to retain talent on a long-term basis. In particular, our philosophy is to balance salary and benefits with incentive and equity compensation in order that the interests of the executive officers will be aligned with those of stockholders.

Components of Our Compensation Program

The principal components of our compensation program have been base salary, annual cash incentive awards, long term equity incentives and equity and non-equity based retirement compensation.

Base salary is designed to attract and retain executives over time. In setting base salaries, our objectives are to assure internal fairness of pay in terms of job size, external competitiveness so that we can attract and retain needed talent, and a consistent, motivating system for administering compensation. Base salaries of named executive officers are reported in the Salary column of the Summary Compensation Table.

Annual cash incentive awards are intended to focus executives on factors deemed critical to our profitability. By rewarding named executive officers for good performance, we believe we help align their interests with those of our stockholders. Such awards, when paid to named executive officers, are reflected in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

Long-Term Incentives, which have been in the form of restricted stock or restricted stock units, are intended to motivate the achievement of key long-term financial performance goals and thereby generate stockholder value, provide management an opportunity to increase ownership of our stock, help attract and retain key employees and be cost efficient. The Human Resources and Compensation Committee's typical practice is to grant awards made with respect to a fiscal year following the close of that fiscal year. In accordance with the rules of the Securities and Exchange Commission relating to the reporting of stock awards, such awards are included in the Summary Compensation Table for the year in which they were made, rather than in the year with respect to which they relate. The grant date fair values of awards, computed in accordance with FASB ASC Topic 718, made during fiscal 2012, the 2011 transition period, and fiscal 2011 to named executive officers are shown in the Stock Awards and Option Awards columns of the Summary Compensation Table. Awards made with respect to fiscal 2012 were made on November 29, 2012 and are included in the Summary Compensation Table. Awards made with respect to the 2011 transition period were made on March 1, 2012, and are included in the Summary Compensation Table for fiscal 2012. Awards made with respect to fiscal 2011 were made in August 2011 and are included in the Summary Compensation Table for the 2011 transition period. Awards made with respect to fiscal 2010 were made in August 2010 and are included in the Summary Compensation Table for fiscal 2011. Any dividends paid on restricted shares during a period are included in the All Other Compensation column of the Summary Compensation Table for the period in which they are paid.

Retirement Compensation

Non-Equity Based Retirement Compensation, provided through our 401(k) plan, permits employees to reduce their current income taxes by making limited pre-tax contributions to increase, enhance and diversify their retirement savings. Named executive officers participate in the 401(k) plan on the same basis as other eligible employees. Amounts, if any, contributed by the Company under the 401(k) plan are included in the All Other Compensation column of the Summary Compensation Table.

Equity Based Retirement Compensation in prior years was also provided through our employee stock ownership plan (“ESOP”). We made no contributions to the ESOP in any of the periods covered in the Summary Compensation Table. On April 23, 2012, the Company received approval from the Internal Revenue Service to terminate the ESOP and the plan was terminated retroactively to be effective as of June 30, 2010. During fiscal 2012 the shares of stock held by the ESOP were distributed out to participants under the ESOP.

Consideration of Say-On-Pay Results

At our 2012 annual meeting, we held a stockholder advisory vote on the compensation paid to our named executive officers, or a “say-on-pay” vote. A substantial majority, over 94% of the votes cast, approved our compensation program for named executive officers described in our proxy statement for the 2012 annual meeting. The Human Resources and Compensation Committee did not change its approach to compensation during 2012, except to amend the Annual Cash Incentive Plan to allow the Committee the discretion to reduce the payout level to 100% in cases where performance is over 100% and to reduce carryover to the subsequent year. In evaluating our compensation practices during 2012, the Committee was mindful of the support our stockholders expressed for the philosophy and objectives of our compensation program. It determined to retain our general approach to executive compensation for our most senior executive officers by continuing to base their annual incentives on improvements in modified economic profit, or “MEP,” as discussed herein. See “Annual Cash Incentive – Current MEP Program (Fiscal 2012)” below.

How we Determine Compensation

As noted elsewhere in this Proxy Statement, our Human Resources and Compensation Committee recommends to the Board of Directors the salary and incentive compensation of the Chief Executive Officer and other executive officers of the Company. The Committee reviews the scope and type of compensation plans for other management personnel and makes recommendations to the Board with respect to equity based plans that are subject to Board approval. The CEO provides the Committee with performance reviews and salary recommendations for other officers.

The Committee has unrestricted access to management. It may also request the participation of management or the Committee's independent consultant at any meeting or executive session. Committee meetings are regularly attended by the Chief Executive Officer, except for executive sessions and discussions of his own compensation and the Committee's independent consultant. The Committee regularly reports to the Board on compensation matters and annually reviews the Chief Executive Officer's compensation with the Board in executive session of non-management directors only.

The Committee has sole discretion, at Company expense, to retain and terminate independent advisors, including sole authority to approve the fees and retention terms for such advisors, if it shall determine the services of such advisors to be necessary or appropriate.

Base Salary. We generally determine salaries of named executive officers through the following process, which we usually undertake every three years. We most recently undertook this process in 2010 and anticipate doing so again in 2013. Our Vice President – Human Resources develops a summary of the titles and job descriptions of senior officers and other employees and submits them to the retained compensation consultant, which maintains survey data for similar sized manufacturing firms located in the Midwest. The retained compensation consultant prepares a report identifying the ranges of compensation at these companies for persons with similar responsibilities to those employees described in the company-prepared summary. In addition, annually we obtain from the retained compensation consultant updated information regarding average pay increases at the companies for which the retained compensation consultant maintains survey data. This survey information or summaries thereof is provided to the Human Resources and Compensation Committee. The Committee reviews this information, considers any recommendation made by the CEO with respect to other named executive officers and tries to assure that each officer's base compensation falls within a range that is within 80% to 120% of a specified percentile of salaries paid to executives holding comparable positions at the surveyed companies. Although the ultimate goal is to compensate executive officers at the midpoint of this targeted range for comparable positions at companies within the survey, a particular individual's salary may fall above or below the targeted level because of his or her tenure, experience level or performance. The Human Resources and Compensation Committee has approved the 50th percentile of the market as the target for base salaries.

When made, annual adjustments are usually made prior to the start of the next fiscal year. When making annual adjustments, the Human Resources and Compensation Committee generally uses a matrix format that takes into account each executive's performance review and the extent to which his or her salary is above or below the midpoint for comparable positions. In June 2011, Mr. Newkirk's base salary was increased to \$390,000 based on his performance and to bring his salary closer to the target level. Salary increases for fiscal 2011 for other executive officers generally ranged from 0% to 5%, depending primarily on performance and the relationship of existing pay levels to targeted pay levels. No executive salary adjustments were made during the 2011 transition period or in fiscal 2012; however, the Human Resources and Compensation Committee considered and increased base pay for Mr. Newkirk by 3%, which was effective January 1, 2013. Adjustments are sometimes made as a result of a promotion or other change in duties.

Annual Cash Incentive. We believe a significant portion of the compensation of senior managers should be incentive based, and that by rewarding good performance, such arrangements help align the interests of our named executive officers with those of stockholders. The goal of our annual program is to align more closely how we compensate employees with our business strategy. Specifically, we want to encourage employees to think about how they can contribute to driving Company profitability, reduce costs for goods and equipment and create efficiencies to improve our ongoing operations. We reward them for success by basing annual cash bonuses primarily on amounts earned in excess of what the Human Resources and Compensation Committee deems a fair return on our assets.

2011 MEP Program (2011 Transition Period and Fiscal 2011).

In December 2009 the Human Resources and Compensation Committee recommended, and the Board adopted a program based on what MGP called modified economic profit (“MEP”), which considered the dollar amount of wealth that was created or lost in a reporting period (the “2011 MEP Program”). This program applied to fiscal 2011 and was the basis for the 2011 transition period short term incentive.

Under the 2011 MEP Program, annual awards were a percentage of base pay set by the Human Resources and Compensation Committee and were based on improvements in MEP, whose definition was changed to mean adjusted net income from operations (net income from operations, plus depreciation less capital expenditures), net of taxes paid during the specified fiscal year (“Adjusted NOPAT”), minus a charge representing our weighted estimated economic cost of capital (“C”) multiplied by the sum of average monthly total funded indebtedness plus average monthly total equity (“TC”). The formula used for determining MEP under the 2011 MEP Program was: $MEP = \text{Adjusted NOPAT} - (C \times TC)$. The Committee was permitted to determine whether any non-recurring or unusual item would be included in income from operations, and in this regard make an adjustment for the margin sharing arrangement with the Company’s joint venture, ICP.

The actual amount of awards that may be paid under the 2011 MEP Program depended on the percentage of base pay set by the Committee and the extent to which improvement in MEP over the base period met or exceeded targeted growth. No incentive compensation was payable if growth was less than 80% of target. If growth in MEP was between 80% and 90% of the growth target, 75% of targeted incentive compensation was payable. If growth in MEP was between 90% and 98% of the growth target, 85% of targeted compensation was payable. If growth in MEP was between 98% and 102% of the growth target, 100% of targeted incentive compensation was payable. If growth in MEP was between 102% and 110% of growth target, 115% of targeted incentive compensation was payable. If growth in MEP exceeded 110% of the growth target, 125% of target incentive compensation was payable.

For fiscal 2011, growth in MEP was measured from fiscal 2010. For the 2011 transition period, the Company used 50% of MEP for fiscal 2011 as a base from which growth in MEP was measured. The target for growth in MEP in the 2011 transition period was 50% of the increase amount that was targeted for fiscal 2011. The incentive targets as a percentage of Base Pay for fiscal 2011 and the 2011 transition period are set forth below. We did not exceed our targeted growth in MEP of \$1.5 million in the 2011 transition period or \$3 million in fiscal 2011, and no annual incentive was paid for either period. Participation levels were based on recommendations from Pearl Meyer & Partners.

Participant	Incentive Target % of Base Pay	Fiscal 2011 Cash Incentive	2011 Transition Period Cash Incentive
Mr. Newkirk	100	\$0	\$0
Mr. Tracy	70	\$0	\$0
Mr. Schrick	70	\$0	\$0

As noted above, the Human Resources and Compensation Committee has discretion under the annual incentive plan to adjust factors used in determining incentive compensation and to include or exclude unusual items. In measuring 2011 transition period growth in MEP, the Human Resources and Compensation Committee determined to exclude from the calculation of MEP a non-cash bargain purchase gain and related tax benefit resulting from the purchase of the beverage alcohol distillery assets of Lawrenceburg Distillers Indiana, LLC.

Current MEP Program (Fiscal 2012).

On December 14, 2012, the Board approved the adoption of the First Amended and Restated MGP Ingredients, Inc. Short-Term Incentive Plan (the “Current MEP Plan”) related to annual cash incentives provided to employees that applied to fiscal 2012 and will apply in subsequent years. The Current MEP Plan gives the Human Resources and Compensation Committee discretion (i) to make partial bonus payments during the last month of the plan year to which they relate, based on estimated bonus achievement, (ii) to limit the payout amount to 100% of achievement where achievement is over 100% of target, and (iii) to limit or eliminate next-year carryover of excess and unpaid bonus achievement.

Under the Current MEP Plan, annual awards are a percentage of base pay set by the Committee and are based on either, (i) improvements in modified economic profit, or “MEP”, (ii) 50% on improvements in MEP and 50% on individual performance, or (iii) 100% on individual performance. Awards to named executive officers and officers elected by the Board (but not the corporate secretary) are based 100% on improvement in MEP. MEP equals adjusted net income from operations (net income from operations, plus depreciation less capital expenditures), net of taxes paid during the specified plan year (“Adjusted NOPAT”), minus a charge representing the weighted economic cost of capital (“C”) to the Company multiplied by the sum of average monthly total funded indebtedness plus average monthly total equity (“TC”). The formula used for determining MEP is: $MEP = \text{Adjusted NOPAT} - (C \times TC)$. The Committee may (i) estimate the MEP for the Company’s fiscal year in order to calculate estimated MEP incentive compensation prior to the end of fiscal year and (ii) determine whether the calculation of MEP should include or exclude, in whole or in part, any unusual or non-recurring item or adjusted to reflect any unusual or non-recurring item, and may also determine whether individual performance goals should be adjusted to take into account factors not reasonably foreseeable at the beginning of a plan year.

The actual amount of awards that may be paid for a fiscal year depends on the extent that improvement in MEP during such fiscal year over the base period meets or exceeds targeted growth. No incentive based on MEP is paid to participants if growth is less than 50% of target. If growth in MEP ranges between 50% and 100% of target, an equivalent percentage of targeted bonus that is based on MEP will be paid. If growth in MEP is over 100% of target, then an equivalent percentage of targeted MEP bonus will be paid, provided that no bonus in excess of 125% will be paid and the Committee has discretion to limit the payout to 100% where growth in MEP over target ranges from 100% to 125%. Any MEP improvement in excess of 100% that is not paid will be carried over to the next plan year and be added to the growth in MEP for the following year to determine the amount of incentive compensation payable with respect to that year, unless the Committee decides to carry over a lesser, or no, amount.

In the final month of each plan year, the Committee may use projections of MEP and MEP growth performance to determine estimated annual incentive compensation payments to participants where the Committee wishes to make a 90% payment in such final month (a "December Payment"). After the financial results for the plan year are available, the annual incentive compensation payment of those participants who received a December Payment will be calculated and a true-up payment for any remainder will be paid. In the event that a December Payment is in excess of the finally determined amount of actual incentive compensation, the participant is required to pay to the Company the amount of such excess payment within 15 days of the Company's demand and the Company may elect to setoff any amount it otherwise owes to the participant by the amount of such excess.

For 2012, growth in MEP was measured from calendar year 2011. Participation levels of named executive officers for 2012 at the target level, as a percentage of base pay, are as follows: Timothy W. Newkirk (CEO) (100%); Don Tracy (CFO) (70%); and Randy M. Schrick (70%).

Subject to Committee discretion in the case of terminations without cause, an employee whose employment is terminated during a plan year will not be entitled to incentive compensation under the plan. The plan will terminate upon a change in control and pro rated payments made, based on year-to-date performance through the most recently completed fiscal quarter.

Awards made under the plan are subject to any clawback policy that may be adopted by the Human Resources and Compensation Committee from time to time. Under the policy adopted by the Committee and approved by the Board of Directors, awards based on achievement of financial results that are subsequently determined to be erroneous are subject to forfeiture in whole or in part in the discretion of the independent directors on the Board.

For 2012, the Committee has estimated that the MEP improvement is substantially more than 100% of target. The December Payment equal to 90% of the incentive compensation payable of the MEP improvement at 100% was paid under the plan. After the financial results for fiscal 2012 became available, a true-up payment for the remainder was paid in March, 2013. The true-up payment is not reflected in the table below because it was made in fiscal 2013. The Committee has determined not to carry over the excess MEP growth to the 2013 plan year.

Participant	Incentive Target % of Base Pay	Fiscal 2012 Cash Incentive
Mr. Newkirk	100	\$351,000
Mr. Tracy	70	\$140,517
Mr. Schrick	70	\$155,797

Long-Term Incentives. At the 2004 annual meeting, stockholders approved the MGP Ingredients, Inc. Stock Incentive Plan of 2004 (the “2004 Plan”), which authorized restricted stock as well as other forms of equity based awards, such as restricted stock units, or “RSUs,” and stock options. The 2004 Plan expires on October 14, 2014. The 2004 Plan was amended at the 2009 annual meeting to, among other matters, increase the number of shares issuable under the 2004 Plan from 980,000 to 2,680,000. At March 9, 2013, after giving effect to prior awards and forfeitures, awards for 1,344,312 shares may be made under the 2004 Plan in addition to those heretofore made. We developed the 2004 Plan with the assistance of Pearl Meyer & Partners. In 2003 we asked them to recommend a program which motivated the generation of stockholder value, increased management ownership of stock and provided (i) a long term financial performance counterbalance to the short term orientation of salary and annual cash incentives, (ii) long term incentives in a cost efficient manner and (iii) a tool to help increase retention of and attract executives to the Company.

The Board has also approved a restricted stock program to be administered under the 2004 Plan and that awards amounts based in part on improvements to MEP. Following the holding company reorganization effected on January 3, 2012, this program was converted to a restricted stock unit program under which shares are only issued after awards vest. Under the restricted stock unit program, an asset sale at the subsidiary level would not trigger a change in control at either the subsidiary or holding company level and, thus, would not trigger full vesting of the unvested restricted stock units. For the 2011 transition period (a partial calendar year), the Human Resources and Compensation Committee determined that awards would be made at approximately 50% of the applicable annual level. The actual number of shares or restricted stock units issued to participants is determined on the date the Human Resources and Compensation Committee makes the awards. Shares or restricted stock units awarded vest in 5 years and are eligible for dividends or dividend equivalents payable in cash during the vesting period. Provisions for forfeiture and accelerated and pro rata vesting are generally described herein in Potential Payments upon Termination or Change-in-Control.

The fiscal 2011, increase in MEP was below target, and shares awarded with respect to fiscal 2011 were awarded at the minimal level. The 2011 transition period increase in MEP was also below target, and the Committee determined to award 129,000 restricted stock units with respect to the 2011 transition period, which was approximately the minimum level. The Committee also determined to award an additional 45,000 units as a special bonus relating to the acquisition of the assets of Lawrenceburg Distillers Indiana, LLC, including 10,000 units to each of Messrs. Newkirk and Tracy. For fiscal 2012, increase in MEP was substantially more than 100% of target, and the Committee determined to award 227,000 restricted stock units, with each named executive officer receiving 15,000 restricted stock units. The award date with respect to fiscal 2011 was August 25, 2011, the award date with respect to the 2011 transition period and special bonus was March 1, 2012, and the award date with respect to fiscal 2012 was November 29, 2012.

Each named executive officer’s participation level is subject to Human Resources and Compensation Committee discretion. Individual participation levels for the August 25, 2011 and the March 1, 2012 transition period grants were based on the recommendation of Mr. Newkirk. The special bonus of restricted stock units awarded on March 1 was based on the recommendation of the Chairman of the Board, John Speirs. Participation levels for restricted stock or restricted stock unit awards made with respect to fiscal 2011, the 2011 transition period (including the March 1, 2012 special bonus) and fiscal 2012 of persons who were deemed by us to be named executive officers in both the 2011 transition period and each such year are as set forth below, based on a grant date fair value per share of \$5.85 on August 25, 2011, \$5.92 on March 1, 2012 and \$3.27 on November 29, 2012.

Retirement Compensation. Historically we have provided equity based retirement compensation through participation in our ESOP and non-equity based compensation through our 401(k) plan. Both are tax qualified defined contribution plans. The amounts of our contributions to the ESOP and the 401(k) Plan have been determined by the Board each year based on the Human Resources and Compensation Committee's recommendation. The Committee bases its recommendation primarily upon the recommendations of management as well as Company performance for the year. While the ESOP was invested primarily in Company stock, the 401(k) plan allows employees to direct and diversify their retirement accounts into various mutual funds. Our ESOP was terminated effective June 30, 2010, and we have made no further contributions to the ESOP. In fiscal 2012, the shares of stock held by the ESOP were distributed to participants of the ESOP. In each of fiscal 2011 and the 2011 transition period, the Committee recommended contributing 8% of eligible compensation to the 401(k) Plan. Effective January 1, 2012, the non-union 401(k) plan was amended to allow a company match of 1% for each 1% of employee deferral to a maximum of 6%.

Named executive officers participate in the 401(k) plan on the same basis as other employees. Amounts contributed under the 401(k) plan have been allocated to participant accounts in proportion to each participant's eligible compensation, as defined, in the plan. Three years' service is required for full vesting in the amount of the Company contribution to the 401(k) Plan.

Other Compensation Programs. We do not provide executive perquisites of any significance. We also do not have significant executive benefits, such as supplemental executive retirement plans or deferred compensation arrangements.

Except for provisions in long-term incentive plans applicable to all participants, we generally do not have formal arrangements for paying severance to our executive officers upon their termination of employment or a change in control, but may negotiate severance arrangements on a case-by-case basis.

Tax and Accounting Considerations and Other Matters.

Tax Considerations. Under IRC Section 162(m), publicly held companies may not deduct compensation paid to named executive officers to the extent that an executive's compensation exceeds \$1,000,000 in any one year, unless such compensation is "performance based." Because our incentive programs have a retention purpose as well as an incentive purpose, our Human Resources and Compensation Committee generally has not viewed it as practicable or in our best interests to qualify compensation programs under 162(m).

Accounting Considerations. We do not expect accounting treatment of differing forms of equity awards to vary significantly and, therefore, accounting treatment is not expected to have a material effect on the selection of forms of compensation. Compensation expense related to our performance accelerated restricted stock awards that were granted in prior years is based on the market price of stock on the date the Board approved the program. Total expected compensation expense for each program is amortized over the vesting period of the awards, three years, five years or seven years. Compensation expense related to the restricted stock awards that we made on August 25, 2011 and restricted stock unit awards that we made on March 1, 2012 and November 29, 2012 was based on market price of

stock on those dates and is being amortized in each case over five years.

Other Matters. Although we seek to increase management's opportunity to own our stock through our long term incentive program, we have not adopted share ownership guidelines. A number of our senior executives already have significant direct or indirect holdings.

We do not have a hedging policy, but our code of conduct discourages short sales and trading in our stock on a short term basis.

Under our clawback policy, a participant under any of our annual incentive or other performance-based compensation plans is required to repay or forfeit, to the fullest extent permitted by law and as directed by the Board, any annual incentive or other performance-based compensation received by him or her if:

the payment, grant or vesting of such compensation was based on the achievement of financial results that were subsequently determined to be erroneous,

the amount of the compensation that would have been received by the participant had the financial results been properly reported would have been lower than the amount actually received, and

the Board determines in its sole discretion that it is in the best interests of the Company and its stockholders for the participant to repay or forfeit all or any portion of the compensation. In this regard, compensation includes proceeds, gains or other economic benefit actually or constructively received by the participant upon receipt or exercise of an award or upon receipt of resale of any shares of stock underlying an award.

All determinations and decisions made by the Board pursuant to the provisions of this policy shall be final, conclusive and binding on all persons.

Our policy applies to any annual incentive or other performance-based award granted to an officer with respect to fiscal periods beginning on or after July 1, 2009 and to other participants with respect to any annual incentive or other performance-based award granted with respect to fiscal periods beginning on or after July 1, 2011. The remedy specified in this policy is not intended to be exclusive but in addition to every other right or remedy at law or in equity that may be available to us.

Our policy will be amended if and as required to comply with the Dodd-Frank Wall Street Reform and Consumer Protection Act, as it is implemented. Any such amendment will be applicable to any annual incentive or other performance-based award made to any executive officer with respect to fiscal periods beginning prior to July 1, 2009, to the extent required by law.

Potential Payments upon Termination or Change-in-Control

General

As noted above, except for provisions in long-term incentive plans applicable to all participants, we generally do not have formal arrangements for paying severance to named executive officers upon their termination or a change in control, but may negotiate severance arrangements on a case by case basis.

Restricted Stock and Restricted Stock Unit Awards

Immediate vesting occurs under our restricted stock awards and restricted stock unit awards upon a change of control. Accelerated or pro rata vesting is permitted for restricted stock units if employment is terminated as a result of death, disability, retirement or, in the discretion of the Human Resources and Compensation Committee, termination without cause. The following summarizes the arrangements provided for outstanding restricted stock awards and restricted stock unit awards in the event of termination or change in control, although the Committee has discretion under the 2004 Plan to modify these arrangements and has generally exercised such discretion in the event of involuntary termination. We provide for change in control payments in our long term incentive plans so that employees will remain focused on our business in the event of potential or actual changes in control.

In fiscal 2007 and prior years we granted performance accelerated restricted shares that vested in three years if specified performance goals were met and seven years if such goals were not met. In the event of death, disability, retirement or, in the sole discretion of the Human Resources and Compensation Committee, involuntary termination of employment without cause, in any such case after three years from the date of grant specified in the agreement evidencing the stock award but prior to the end of the seventh fiscal year after the fiscal year in which the award was made, the outstanding performance accelerated restricted shares issued to a participant in fiscal 2007 and prior years vest on the date of termination as to the number of restricted shares issued to the participant multiplied by a fraction, the numerator of which equals the number of months of employment (including fractional months as full months) that the participant was employed by us, commencing as of the first day of the fiscal year in which the award was made and ending on the date of termination of employment, and the denominator of which is eighty-four. The balance of outstanding performance accelerated restricted shares is forfeited by the participant.

Restricted stock and stock unit awards granted since fiscal 2008 vest in five years. In the event of a participant's death, disability, retirement or, in the sole discretion of the Human Resources and Compensation Committee, involuntary

termination of employment without cause, in any such case after three years from the date of grant specified in the agreement evidencing the stock award, restricted shares issued to the participant on August 28, 2008, June 11, 2009, August 26, 2010, August 25, 2011 and stock units issued on March 1, 2012 and November 29, 2012 vest as to the number of restricted shares issued to the participant multiplied by a fraction, the numerator of which equals the number of months (including fractional months as full months) that such participant was employed by us, commencing as of July 1, 2008, June 11, 2009, August 26, 2010, August 25, 2011, March 1, 2012 and November 29, 2012, respectively, and ending on the date of termination of employment, and the denominator of which is sixty. The balance of restricted shares and restricted stock units issued to the participant is forfeited. However, unlike restricted stock, restricted stock unit awards granted in 2012 provide for pro rata vesting after one year in the event of a participant's death, disability, retirement or, in the sole discretion of the Human Resources and Compensation Committee, involuntary termination of employment without cause. Further, in accordance with the requirements of Section 409A of the Internal Revenue Code of 1986, as amended ("Section 409A"), the vested portion of a participant's restricted stock unit award will be distributed in shares of the Company's common stock on the earliest to occur of (i) the end of the five year vesting period, (ii) the participant's death or "separation from service" (as defined in the Section 409A Treasury regulations) or (iii) certain change in control events described below. If a participant is a "specified employee" under the Section 409A Treasury regulations (generally an officer whose annual compensation exceeds \$160,000), a distribution of vested restricted stock unit award shares on account of the participant's separation from service will be delayed until the first business day immediately following the six month anniversary of the date the participant separates from service.

As noted above, the Human Resources and Compensation Committee has exercised its discretion to modify these arrangements from time to time. The 2004 Plan permits accelerated vesting on a pro rata basis of restricted stock and restricted unit awards not intended to be qualified under Section 162(m) of the Internal Revenue Code when employment is terminated by reason of disability, death, retirement or, at the discretion of Human Resources and Compensation Committee, involuntarily without cause. The Committee has exercised its discretion to waive minimum vesting periods to permit such pro rata vesting of awards.

All restricted stock awards become fully vested in the event of a change of control. A change in control is deemed to occur in the event of (i) certain acquisitions of 30% or more of our outstanding Common Stock and 50% of our outstanding Preferred Stock or 30% of the combined voting power of our then outstanding voting securities entitled to vote generally in the election of directors, (ii) certain changes of more than a majority of the membership of the Board of Directors, or (iii) certain mergers which result in our stockholders owning less than 50% of the combined voting power of the surviving corporation. All restricted stock unit awards also become fully vested and the shares of Company common stock covered by the awards are immediately distributed to the participants upon a “change in the ownership” of the Company or the subsidiary for which a participant performs services, a “change in effective control” of the Company or a “change in the ownership of a substantial portion of the assets” of the Company (in each case as defined in the Section 409A Treasury regulations). Generally, (i) a change in ownership of the Company or a subsidiary occurs upon an acquisition that gives the acquirer ownership of more than 50% of the total fair market value or voting power of the Company or a subsidiary, respectively, (ii) a change in effective control of the Company occurs upon either (A) the acquisition of 30% or more of the total voting power of the Company during a twelve month period or (B) the replacement of a majority of the members of the Company’s Board of Directors during a twelve month period where such replacement was not endorsed by the existing members and (iii) a change in the ownership of a substantial portion of assets of the Company occurs upon an acquisition during a twelve month period of 50% or more of the total gross fair market value of all the assets of the Company.

There were 423,264 restricted stock unit awards and 956,207 restricted stock awards outstanding at December 31, 2012. Assuming termination without cause or that a change in control occurred as of December 31, 2012, the value of the restricted stock unit awards and restricted stock awards outstanding as of such date held by the named executive officers that would vest (a) in accordance with the terms of their grant awards and (b) if the Human Resources and Compensation Committee were to waive all vesting requirements, is as shown below. Amounts shown are based on a price of \$3.42 per share, the closing market price on December 31, 2012.

Annual Incentive Plan

If an employee's employment during a plan year terminates for any reason, he or she shall not be entitled to the payment of incentive compensation for the plan year. However, the Human Resources and Compensation Committee has full discretion to determine that payment of a prorated annual component may be made when termination results from job elimination, reduction in work force or other similar Company initiative or is otherwise without cause, or is encouraged or induced by incentives offered by us. Upon a change in control, the annual incentive plan terminates. The Committee will determine MEP on an annualized basis, based on our performance through the most recently completed fiscal quarter for which financial results are available. Incentive compensation will be paid on a pro rata basis (measured through the end of such fiscal quarter) in accordance with the guidelines for payment of annual incentive compensation described in "Compensation Overview – Annual Cash Incentive." The Committee may elect to make a partial incentive compensation payment on the basis of estimated results before the end of the fiscal year. Payment is to be made in a lump sum as soon as feasible following the change in control, but in no event later than two and one-half months following the end of the plan year in which the change in control occurs.

(1) Employee directors receive a fee of \$437.50 for attendance at each meeting of the Board of Directors. Non-employee directors receive a retainer at the rate of \$10,000 quarterly, meeting fees of \$2,000 for each meeting of the Board and \$1,750 for each committee meeting thereof attended. The chairperson of the Audit Committee is paid an additional retainer at the rate of \$3,500 per meeting, the chairperson of the Human Resources and Compensation Committee is paid an additional retainer at the rate of \$1,750 per meeting and the chairperson of the Nominating and Governance Committee is paid an additional retainer at the rate of \$1,500 per meeting. The annual fee for serving as lead director and Chairman of the Board is \$165,000 in addition to the retainer and meeting fees listed above.

(2) Under the Non-Employee Directors' Restricted Stock Plan, which was approved by stockholders at the 2006 annual meeting and amended at the 2009 annual meeting, on the first business day following the date of each annual meeting of stockholders, each non-employee director has been awarded shares of restricted stock with a fair market value of \$12,500, as determined on such first business day following the annual meeting. The amount shown in the table is the grant date fair value of the awards computed in accordance with FASB ASC Topic 718. Grant date fair value per share was assumed to be the closing price of the Company's common stock on the grant date. In connection with the holding company reorganization, this Plan was amended to provide for the award of restricted stock units, which will convert to shares of stock upon vesting. Restricted stock unit awards were made in 2012 and will be made annually subsequently. We pay dividends on the restricted stock shares and dividend equivalents on restricted stock unit awards during the vesting period, which are not taken into account in determining their grant date fair value.

The awarded restricted stock and the restricted stock units become fully vested upon the occurrence of one of the following events: (1) the third anniversary of the award date, (2) the death of the director, or (3) a change in control, as defined in the Plan. The Human Resources and Compensation Committee may allow accelerated vesting in the event of specified terminations, including retirement at the end of the director's term, termination of service as a result of not standing for reelection and termination of service due to inability to substantially perform his or her duties. In accordance with the requirements of Section 409A of the Internal Revenue Code of 1986, as amended ("Section 409A"), a director's vested restricted stock unit awards are distributed in shares of the Company's common stock on the earliest to occur of (i) the third anniversary of the award date, (ii) the director's death or "separation from service" (as defined in the Section 409A Treasury regulations) or (iii) a "change in the ownership," a "change in effective control" or a "change in the ownership of a substantial portion of the assets" (in each case as defined in the Section 409A Treasury regulations)

of the Company. If a director is a “specified employee” under the Section 409A Treasury regulations, a distribution of vested restricted stock unit award shares on account of the director’s separation from service will be delayed until the first business day immediately following the six month anniversary of the date the director separates from service.

- (3) Consists of amounts paid as dividends on unvested restricted stock awards.

RELATED TRANSACTIONS

The Audit Committee is responsible for reviewing and approving material related party transactions. The Company's written Code of Conduct requires Audit Committee preapproval of any transaction involving an executive officer or director exceeding \$50,000 in value in which such person might have a conflict of interest with the Company. Examples of conflicts of interest as defined in the Code of Conduct include having a significant financial or other interest in a customer, supplier or competitor of the Company.

We have developed and implemented processes and controls to obtain information from the directors and executive officers about related person transaction, and for then identifying the transactions in which the Company is a participant and the amount involved exceeds the lesser of \$120,000 or 1% of the average of the Company's total assets at year end for the last two completed fiscal years.

Pursuant to these processes, all directors and executive officers annually complete, sign submit a Director and Executive Officer Questionnaire, which is designed to identify related person transactions and both actual and potential conflicts of interest. We also make appropriate inquiries as to the nature and extent of business that the Company conducts with other companies for whom any of our directors or executive officers also serve as directors or executive officers. Under the Company's Code of Conduct, if a conflict of interest exists, an executive officer should either have the activity approved by a disinterested member of management or cease engaging in the activity. Any transaction approved by a member of management must be reported promptly to the Vice President of Human Resources who will at least annually present a summary of such transactions to the Audit Committee.

During fiscal 2012, the 2011 transition period and fiscal 2011, there were no transactions involving related persons required to be disclosed under Item 404(a) of SEC Regulation S-K where the Company's policies did not require review, approval or ratification or where such policies and procedures were not followed. Generally, Item 404(a) of Regulation S-K for smaller reporting companies, requires disclosure of transactions in which the Company is a participant and the amount involved exceeds the lesser of \$120,000 or 1% of the average of the Company's total assets at year end for the last two completed fiscal years.

On August 27, 2009, we entered a consultation and non-solicitation agreement with Ladd Seaberg, who resigned as director on such date. The agreement expired during fiscal 2011 and provided for annual payments aggregating \$250,000. Mr. Seaberg is the husband of Mrs. Karen Seaberg and the son-in-law of Mr. Cloud L. Cray, Jr.

The Company has an interest in a joint venture entity named Illinois Corn Processing, LLC ("ICP). The other owner of ICP is Illinois Corn Processing Holdings, LLC ("ICP Holdings"), a subsidiary of SEACOR Holdings Inc., which holds more than 5% of the Company's Common Stock. Prior to February 1, 2012 the Company had a 50% interest in ICP. On February 1, 2012, ICP Holdings exercised an option and purchased an additional 20 percent from the Company for \$9,103,000, reducing the Company's ownership from 50% to 30%. During 2012, the Company purchased food and industrial grade alcohol from ICP pursuant to a marketing agreement with ICP.

As of December 31, 2012, December 31, 2011 and June 30, 2011, the Company recorded \$4,008,000, \$6,167,000 and \$6,616,000 respectively, of amounts due ICP in its consolidated balance sheet. During the fiscal year ended December 31, 2012, the six month transition period ended December 31, 2011 and fiscal year ended June 30, 2011, the Company purchased approximately \$48,611,000, \$40,159,000 and \$57,482,000 of product from ICP, and made net payments of approximately \$2,174,700, \$2,154,000 and \$2,881,000 to ICP under the marketing agreement.

In 2010, ICP acquired an existing steam facility that services its plant for \$5,000,000. The Company and ICP Holdings each contributed \$1,000,000 towards the purchase price at that time. On January 19, 2011 and January 19, 2012 the Company and ICP Holdings each contributed \$500,000 towards the balance due on the purchase price. SEACOR Holdings Inc. may be deemed to have an indirect interest in these transactions because of its

ownership of ICP Holdings.
