FOR IMMEDIATE RELEASE

Matav Reports on Potential Investment in Barak

NETANYA, Israel March 22, 2006 Matav-Cable Systems Media Ltd. (NASDAQ & TASE: MATV) announced today, further to reports published in Israel, that Barak I.T.C. (1995) Ltd., a minority owned indirect subsidiary of Matav, is conducting negotiations with Sky, a private equity fund, and Clal Industries and Investments Ltd., an Israeli company whose shares are traded on the Tel Aviv Stock Exchange (Clal), regarding a \$35 million investment in Barak, one of the three international telephony providers in Israel.

Matav currently holds 18.5% of Barak, and the remainder of Barak's shares are held by Clal and an affiliate of Clal. The following are the key principles of the proposed investment:

A total investment of \$35 million in Barak, based on a pre-money valuation to Barak of \$32 million;

Out of the \$35 million investment, \$20 million will be invested through convertible debentures (\$10 million by each of Sky and Clal) and \$15 million in equity (\$10 million by Sky and \$5 million by Clal);

The parties are examining a potential merger between Barak and an affiliate of Clal, Netvision Ltd., a company engaged in Internet and telephony services, whose shares are traded on the Tel Aviv Stock Exchange. If the merger will not occur within 3 years of closing the investment, Sky will have a put option to sell its securities in Barak to Clal whereas Clal will have a call option to purchase such securities;

The debentures will have a 5 year maturity, bearing an interest at the annual rate of 5.5%, and convertible into Barak shares at a conversion price based on a pre-money valuation to Barak of \$47 million, with mandatory conversion upon certain events, including upon consummation of the said merger between Barak and Netvision; and

Clal and Sky will assist Barak in raising an additional \$30 million for purposes of redeeming approximately \$65 million of Barak's currently outstanding notes.

Edgar Filing: MATAV CABLE SYSTEMS MEDIA LTD - Form 6-K

Matav and the affiliate of Clal have a right to participate in the investment based on their proportionate holdings in Barak. At this time, Matav is reviewing the proposed transaction and has not determined whether it will exercise such right.

IMPORTANT: There is no assurance if and when the said investment (including the potential merger of Barak with Netvision) will be consummated and on what terms. The parties to the said transaction are only in the stage of negotiations, none of the transaction documents have been signed as of yet, and, in any event, the transaction is subject to the conclusion of the negotiations, the execution of the transaction documents, and other customary approvals.
