NOVA ANNOUNCES 60% REVENUE INCREASE IN 2006 WITH SIGNIFICANT REDUCTION IN NET LOSS

Cash and equivalents at 2006 year end were \$15.2 million, a decrease of \$0.9 million compared to the end of the third quarter of 2006.

2006 was a year of major achievement for Nova, said Gabi Seligsohn, President and CEO. In addition to very strong revenue growth in our core business as well as significant market share gains, we accomplished some important objectives. We added important new products and made a strategic acquisition in order to expand our available market. We also realigned the management team and implemented a cost reduction initiative. Reflecting our successful initial penetration into a new market, revenues from Stand Alone Optical CD products accounted for approximately 10% of our overall yearly systems revenues.

Looking ahead, continued Seligsohn, we expect further growth from our new products, mainly in the second half of the year. Together with our focus on cost controls, we expect this growth to enable us to generate improved profitability in 2007.

The Company will host a conference call today, February 20, 2007 at 10:00am EST. A recording of the call will be available on Nova's website, within 24 hours following the end of the call.
