Notes to the Consolidated Financial Statements

June 30, 2007 and December 31, 2006

NOTE 1 -

BASIS OF PRESENTATION

The financial information included herein is unaudited and has been prepared consistent with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, these financial statements do not include all information and footnotes required by generally accepted accounting principles for complete financial statements. These statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's annual report on Form 10-KSB for the year ended December 31, 2006. In the opinion of management, these financial statements contain all adjustments (consisting solely of normal recurring adjustments) which are, in the opinion of management, necessary for a fair statement of results for the interim period presented.

The results of operations for the three and six months ended June 30, 2007 are not necessarily indicative of the results to be expected for the full year.

Notes to the Consolidated Financial Statements

June 30, 2007 and December 31, 2006

NOTE 3 -

OIL AND GAS PROPERTIES

The full cost method is used in accounting for oil and gas properties. Accordingly, all costs associated with acquisition, exploration, and development of oil and gas reserves, including directly related overhead costs, are capitalized. In addition, depreciation on property and equipment used in oil and gas exploration and interest costs incurred with respect to financing oil and gas acquisition, exploration and development activities are capitalized in accordance with full cost accounting. Capitalized interest for the six months ended June 30, 2007 and 2006 was \$0.

All capitalized costs of proved oil and gas properties subject to amortization are being amortized on the unit-of-production method using estimates of proved reserves. Investments in unproved properties and major development projects not subject to amortization are not amortized until proved reserves associated with the projects can be determined or until impairment occurs. If the results of an assessment indicate that the properties are impaired, the amount of the impairment is added to the capitalized costs to be amortized. As of June 30, 2007 and December 31, 2006, proved oil and gas reserves had been identified on certain of the Company's oil and gas properties. During the six months ended June 30, 2007 and 2006, the Company recorded depletion of \$80,858 and \$29,007 on its producing properties. All other wells are incomplete as of June 30, 2007 and December 31, 2006.

NOTE 4 -

SIGNIFICANT TRANSACTIONS

During the six months ended June 30, 2007, the Company issued the following shares of common stock:

-

2,200,000 shares through the exercise of common stock warrants at prices ranging from \$0.06 to \$0.20 per share, for total proceeds of \$230,000 and a subscription receivable of \$30,000.

-

5,966,212 shares for cash in the amount of \$687,857, at prices ranging from \$0.05 to \$0.28 per share.

In May 2007, the Company extended the maturity date on 2,000,000 common stock warrants, exercisable at prices ranging from \$0.12 to \$0.16 per share. The extension of these warrants resulted in an additional expense of \$201,399 for the three months ended June 30, 2007.

The Company uses the Black-Scholes model to value stock options. The Black-Scholes model requires the use of employee exercise behavior data and the use of a number of assumptions, including volatility of the Company's stock price, the weighted average risk-free rate, and the weighted average expected life of the options. Because the Company does not pay dividends, the dividend rate variable in the Black-Scholes model is zero. The Company estimated the fair value of the stock options at the grant date based on the following weighted average assumptions:

	For the six month period ended June 30, 2007	For the six month period ended June 30, 2006
Risk free interest rate	4.93%	N/A
Expected life	1.25 years	N/A
Expected volatility	58.10%	N/A
Dividend yield	0.00%	N/A

During the period ended June 30, 2007 the Company repurchased and cancelled 302,800 shares of its own stock on the open market at prices ranging from \$0.25 to \$0.31 per share. The total cost of these shares was \$83,145.

NOTE 4 -

SIGNIFICANT TRANSACTIONS (Continued)

In May 2006, the Company purchased a 95% working interest in a separate property in Texas for a total of \$500,000. In addition, the Company also implemented a plan to sell 25% of their working interest in the property in increments of 2.5% as follows:

-

During the year ended December 31, 2006, the Company sold 7.5% of their working interest in this property to an unrelated party for a total of \$6,000,000, less a commission of \$1,200,000.

-

During the three months ended March 31, 2007, the Company sold 7.5% of their working interest in this property to an unrelated party for a total of \$6,000,000, less a commission of \$1,200,000.

-

During the six months ended June 30, 2007, the Company sold 7.5% of their working interest in this property to an unrelated party for \$6,000,000, less a commission of \$1,200,000. The receivable balance related to this transaction at June 30, 2007 was \$2,281,163.

Since the Company is in the business of buying and selling working interests in producing oil and gas properties, the sale of working interests is being recorded as revenue in the accompanying statements of operations for the three months and six months ended June 30, 2007 and 2006.

Employment Agreement

On May 10, 2007 the Company entered into an employment agreement with its Chief Executive Officer (CEO), effective January 1, 2007. Per the terms of the agreement the Company is to pay the CEO a salary of \$600,000 per year, payable semi-monthly. In addition, the Company will also pay a cash bonus of 10% of the Company's net income before taxes to the Company that exceeds \$750,000 per quarter. For the six months ended June 30, 2007, the amount of accrued bonus related to this agreement was \$594,132.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statement Regarding Forward-looking Statements

This report may contain "forward-looking" statements. Examples of forward-looking statements include, but are not limited to: (a) projections of revenues, capital expenditures, growth, prospects, dividends, capital structure and other financial matters; (b) statements of plans and objectives of our management or Board of Directors; (c) statements of our future economic performance; (d) statements of assumptions underlying other statements and statements about us and our business relating to the future; and (e) any statements using the words "anticipate," "expect," "may," "project," "intend" or similar expressions.

General. The Company is in the business of acquiring and developing the working interest in leases of oil and gas leases with the intent of reselling a portion of the working interests acquired. The Company reviews and evaluates the geological and other technical data applicable lease in order to determine the likely viability and possible profitability of commencing and completing multiple well drilling programs on the properties covered by the leases. If determined to be viable, the Company also engages third party contractors to explore for, drill, re-work and further develop the properties in order to maximize economically justified oil and gas production from those leases in a cost effective manner.

During 2006, the Company acquired a 95% working interest in the Brookshire Salt Dome project in Waller County, Texas, containing approximately 647 acres. Two wells are currently in production. During the three months ended June 30, 2007, the Company sold 7.5% of their working interest in this property to an unrelated party for a total of \$6,000,000, less a commission of \$1,200,000. The carrying value of the 7.5% interest at the date of the sale was \$0.00. The receivable balance on this transaction at June 30, 2007 was \$2,281,163. Since the Company is in the business of buying and selling working interest in producing oil and gas properties, the sale of working interests is being recorded as revenue in the accompanying statements of operations for the three months ended June 30, 2007 and 2006.

Employment Agreement

On May 10, 2007 the Company entered into an employment agreement with its Chief Executive Officer (CEO), effective January 1, 2007. Per the terms of the agreement the Company is to pay the CEO a salary of \$600,000 per year, payable semi-monthly. In addition, the Company will also pay a cash bonus of 10% of the Company's net income before taxes to the Company that exceeds \$750,000 per quarter. For the six months ended June 30, 2007 the amount of accrued bonus related to this agreement was \$594,132.

Results of Operations for the Three and Six Months Ended June 30, 2007 compared with 2006

Revenues: Total revenues increased to \$5,448,548 in the three months ended June 30, 2007 from \$5,151,517 in the prior year period. During the three months ended June 30, 2007, the Company had revenues from oil and gas sales of \$648,548, an increase of \$92,031 or approximately 16.5% compared to \$556,517 for the three months ended June 30, 2006. The Company also had revenues from property and working interest sales of \$4,800,000, an increase of \$205,000 or approximately 4.5% compared to \$4,595,000 for the three months ended June 30, 2006.

Revenues: Total revenues increased to \$10,907,676 in the six months ended June 30, 2007 from \$10,010,797 in the prior year period. During the six months ended June 30, 2007, the Company had revenues from oil and gas sales of \$1,366,833, an increase of \$571,036 or approximately 71.8% compared to \$795,797 for the six months ended June 30, 2006. The Company also had revenues from property and working interest sales of \$9,540,843, an increase of \$325,843 or approximately 3.5% compared to \$9,215,000 for the six months ended June 30, 2006. Based on the increased number of lease acquisitions and the continued effort to produce oil and gas from these leases, the Company anticipates that oil and gas sales in the balance fiscal 2007 will increase but expects that sales of property and working interests will continue to produce the majority of the Company's revenues.

Expenses: Total expenses increased significantly for the three and six months ended June 30, 2007. Total expenses related to the three months ended June 30, 2007 increased to \$2,060,387 from \$1,434,151 in the prior year period and total expenses related to the six months ended June 30, 2007 increased to \$4,120,425 from \$1,808,334 in the prior year period. The increase is attributable primarily to large increases in general and administrative expenses, lease operating costs, bonuses, marketing administration and legal and professional fees. Some of these increases are in expenses directly associated with the increase in business activities over the prior year period. In addition, the Company entered into an employment agreement with its Chief Executive Officer, as described above, that includes the payment of a salary and bonus based on the Company's net income before taxes. The Company has also incurred additional expenses for marketing its property and working interests.

Net Income: Due to the significant increases in expenses outlined above, net income for the three months ended June 30, 2007 decreased to \$2,245,462 from \$2,249,439 in the prior year period and net income for the six months ended June 30, 2007 decreased to \$5,183,717 from \$5,208,674 in the prior year period. Management believes that the increased expenses are necessary to support operations staff and services such that the Company can continue to achieve sales of oil and gas properties and working interests, as well as to continue to acquire, develop and operate additional oil and gas properties. Management plans to continue to aggressively pursue its strategic objectives in the balance of fiscal 2007.

Liquidity and Capital Resources

The Company's need for new capital is directly related to the acquisition of new oil and gas properties and to associated drilling and operating expenses. The Company expects to be able to finance new and existing drilling activities primarily out of cash flow. The Company expects to identify and acquire oil and gas properties for future development where the cost of acquiring a working interest in identified reserves that can be exploited for cost-efficient future production and can be financed by selling a portion of the working interest to be acquired.

Cash and cash equivalents on hand at June 30, 2007, was \$3,634,610 as compared to \$2,733,437 at December 31, 2006. At June 30, 2007, accounts receivable from related parties totaled a net of \$557,497. The related party is a Company that is owned by the Company's President. Accounts receivable totaled \$5,001,485, consisting of amounts received primarily from the sale of 7.5% of the Companies working interest in a property in Texas to an unrelated party for a total of \$6,000,000, less a commission of \$1,200,000.

Property and equipment of the Company at June 30, 2007 was \$58,010, net. Property and equipment consists primarily of vehicles and computer equipment associated with operations.

At June 30, 2007, net oil and gas properties totaled \$21,296,609 compared to \$16,614,718 at December 31, 2006. The increase in oil and gas properties occurred due to management's acquisition of additional oil and gas properties during the six months ended June 30, 2007.

At June 30, 2007, total assets were \$32,125,450 compared to \$24,895,055 at December 31, 2006, due to the acquisition of additional oil and gas properties. Total liabilities increased to \$12,357,926 at June 30, 2007 from \$11,209,788 at December 31, 2006 due primarily to increases in income taxes payable, accrued expenses and accounts payable, offset by a decrease in stock deposits and notes payable.

For the six months ended June 30, 2007, cash flows from operations totaled \$6,655,134 compared to \$4,664,187 for the prior year period. Cash for operations was generated primarily from sales of properties and working interests.

For the six months ended June 30, 2007, cash used by investing activities totaled \$4,943,916, primarily for expenditures for the development of oil and gas properties. In the prior year, cash used by investing activities totaled \$1,610,126, for expenditures for the development of properties.

For the six months ended June 30, 2007, cash used by financing activities was \$810,145, including payments on notes payable and long-term liabilities offset by proceeds from the issuance of common stock for the exercise of outstanding warrants. In the prior year, proceeds from financing activities was \$1,308,602, including proceeds from the issuance of common stock offset by payments on notes payable and long-term liabilities.

Plans for continuing operations. Management believes its business and marketing strategy is proving to be a successful strategy for operations. The Company plans to continue to identify, evaluate, acquire working interests in oil and gas leases; sell a portion of the working interests so acquired; and to explore for, develop and market production from those operations. The Company expects to continue to be able to finance acquisitions through the sale of working interests. Management believes that revenues from operations of developed properties will increase in the balance of fiscal 2007.

Impact of Inflation

At this time, we do not anticipate that inflation will have a material impact on our current or future operations.

Critical Accounting Policies and Estimates

Except with regard to the estimated future cash flows of the capitalized oil and gas properties, the Company does not employ any critical accounting policies or estimates that are either selected from among available alternatives or require the exercise of significant management judgment to apply or that if changed are likely to materially affect future periods. Management reviews the carrying value of the capitalized oil and gas properties annually for evidence of impairment and considers, based on its current marketing activities, plans and expectations, and the perceived effects of competitive factors, whether any write-downs should be taken or whether the estimated reserves should be changed.

Recent Accounting Pronouncements

In February 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) 155, Accounting for Certain Hybrid Financial Instruments, which amends SFAS 133, Accounting for Derivative Instruments and Hedging Activities, and SFAS 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities a replacement of FASB Statement No. 125. SFAS 155 will be effective for all financial instruments issued or acquired after the beginning of an entity's first fiscal year that begins after September 15, 2006. Management has no present expectation of issuing or acquiring any financial instruments likely to be affected by SFAS 155 in the foreseeable future.

In July 2006, the FASB issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, an Interpretation of Statement of Financial Accounting Standard No. 109. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken in a tax return. We must determine whether it is more likely than not that a tax position will be sustained upon examination based on the technical merits of the position. FIN 48 is effective for fiscal years beginning after December 15, 2006. Management is currently evaluating the likely impact of adopting FIN 48 on its financial statements.

In September 2006, the FASB issued SFAS 157, Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 will be effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Management does not believe that the application of SFAS 157 will have a material impact on the Company's

consolidated financial statements.

ITEM 3. CONTROLS AND PROCEDURES

Our principal executive and principal financial officer has participated with management in the evaluation of effectiveness of the controls and procedures required by paragraph (b) of Rule 13a-15 or Rule 15d-15 under the Exchange Act as of the end of the period covered by this report. Based on that evaluation, our principal executive and principal financial officer believes that our disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act) are effective as of the end of the period covered by the report. There have been no changes in our internal controls that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting during the period covered by this report.
