Notes to Condensed Consolidated Financial Statements

NOTE 1 – Significant Accounting Policies and Procedures

Organization

The Company was incorporated in the State of Delaware on April 28, 1986 (“Inception”) and was formerly known as Art World Industries (“AWI”). On August 6, 2002, the Company changed its name to ISSG, Inc. In addition, on March 9, 2004, the Company completed the acquisition of a wholly owned subsidiary, Dial-A-Cup Corporation (“DAC”), a New York Corporation. Further, on June 2, 2005, the Company completed a merger with Rub Investments Ltd., (“Rub”) on September 6, 2006; the Company changed its name to Rubicon Financial Incorporated. Effective February 1, 2007, the Company completed a merger with Rubicon Financial Insurance Services, Inc. a California corporation (“RFIS”), pursuant to an agreement and plan of merger. The agreement and plan of merger provided that ISSG Sub, Inc. our wholly owned subsidiary, merged with and into RFIS, with RFIS as the surviving corporation and new wholly-owned subsidiary of the Company. The Company issued 50,000 shares of its common stock in exchange for 100% of the outstanding shares of RFIS. On February 13, 2007, the Company formed a wholly owned subsidiary, Rubicon Securities, Inc., a Nevada corporation. Effective May 11, 2007, the Company acquired Rubicon Real Estate and Mortgages, Inc., a California corporation (“RREM”), pursuant to an agreement and plan of merger. The agreement and plan of merger provided that DeeSound, Inc. our wholly owned subsidiary, merged with and into RREM, with RREM as the surviving corporation and new wholly owned subsidiary of the Company. The Company issued 1,159,000 shares of its common stock in exchange for 100% of the outstanding shares of RREM. On June 2, 2008, the Company completed its acquisition of Newport Coast Securities, Inc. (“NCS”) (formerly Grant Bettingen, Inc.), a California corporation registered with the Financial Industry Regulatory Authority. Pursuant to an agreement and plan of merger, the Company issued 1,200,000 shares of its common stock and agreed to pay cash totaling \$974,000 in exchange for 100% of the outstanding shares of NCS. During the year ended December 31, 2010, the Company dissolved RREM and disposed of RFIS.

Principles of Consolidation

The financial statements as of December 31, 2010 and for the nine months ended September 30, 2010 include those of: Rubicon Financial Incorporated (“Rubicon”); and its wholly owned subsidiaries, Rubicon Financial Insurance Services, Inc. (“RFIS”), Rubicon Real Estate and Mortgages, Inc. (“RREM”), Newport Coast Securities, Inc. (“NCS”). During the year ended December 31, 2010, the Company dissolved RREM and disposed of RFIS. Neither RREM or RFIS have any assets as of December 31, 2010 or September 30, 2011. The activity of RREM and RFIS is shown as discontinued operations on the income statement and statement of cash flows for the nine months ended September 30, 2010. Neither subsidiary had activity for the nine months ended September 30, 2011. All significant inter-company transactions and balances have been eliminated. RBCF and its subsidiaries are collectively referred to herein as the “Company”.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported periods. Actual results could materially differ from those estimates. Significant estimates made by management include the recoverability of intangible assets.

Cash Equivalents

The Company maintains cash balances in interest and non-interest bearing accounts. For the purpose of these financial statements, all highly liquid cash and investments with a maturity of three months or less are considered to be cash equivalents.

Table of Contents

## Fixed Assets

Property and equipment are recorded at cost. Expenditures for major additions and improvements are capitalized and minor replacements, maintenance, and repairs are charged to expense as incurred. When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method for financial statement purposes. The Company uses other depreciation methods (generally accelerated) for tax purposes where appropriate. The estimated useful lives for significant property and equipment categories are as follows:

Equipment	3-5 years
Furniture	7 years

The Company reviews the carrying value of property, plant, and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there were no impairments needed as of December 31, 2010 or September 30, 2011. Depreciation expense for the nine months ended September 30, 2011 and 2010 was \$20,873 and \$31,868, respectively.

## Impairment of long-lived assets

The Company reviews its long-lived assets and intangibles periodically to determine potential impairment by comparing the carrying value of the long-lived assets with the estimated future cash flows expected to result from the use of the assets, including cash flows from disposition. Should the sum of the expected future cash flows be less than the carrying value, the Company would recognize an impairment loss. An impairment loss would be measured by comparing the amount by which the carrying value exceeds the fair value of the long-lived assets and intangibles. The Company recognized no impairment losses during the nine months ended September 30, 2011 or 2010.

## Revenue Recognition

The Company recognizes revenue in accordance with ASC subtopic 605-10 net of expected cancellations and allowances. As of September 30, 2011 and December 31, 2010, the Company evaluated evidence of cancellation in order to make a reliable estimate and determined there were no material cancellations during the years and therefore no allowances has been made.

Investment banking revenues and advisory fees from mergers, acquisitions and restructuring transactions are recorded when services for the transactions are determined to be completed, generally as set forth under the terms of the engagement. Transaction related expenses, primarily consisting of legal, travel and other costs directly associated with the transaction, are deferred and recognized in the same period as the related investment banking transaction revenue. Underwriting revenues are presented net of related expenses. The Company recognizes commissions from its broker services based on a settlement date basis. Fees billed and collected before services are performed are included in deferred revenue. Normal expenses are recorded when the obligation is incurred.

## Available-for-sale securities

The Company classifies its marketable equity securities as available-for-sale and they are carried at fair market value, with the unrealized gains and losses included in the determination of comprehensive income and reported in stockholders' equity. See Note 5 for further details.

## Table of Contents

### Income Taxes

The Company follows ASC subtopic 740-10 (formerly Statement of Financial Accounting Standard No. 109, "Accounting for Income Taxes") for recording the provision for income taxes. ASC 740-10 requires the use of the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are computed based upon the difference between the financial statement and income tax basis of assets and liabilities using the enacted marginal tax rate applicable when the related asset or liability is expected to be realized or settled. Deferred income tax expenses or benefits are based on the changes in the asset or liability each period. If available evidence suggests that it is more likely than not that some portion or all of the deferred tax assets will not be realized, a valuation allowance is required to reduce the deferred tax assets to the amount that is more likely than not to be realized. Future changes in such valuation allowance are included in the provision for deferred income taxes in the period of change.

Deferred income taxes may arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. Deferred taxes are classified as current or non-current, depending on the classification of assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the temporary differences are expected to reverse.

### Fair Value of Financial Instruments

The Company has financial instruments whereby the fair value of the financial instruments could be different from that recorded on a historical basis in the accompanying balance sheets. The Company's financial instruments consist of cash, receivables, accounts payable, accrued liabilities, and notes payable. The carrying amounts of the Company's financial instruments approximate their fair values as of September 30, 2011 and December 31, 2010 due to their short-term nature. See Note 13 for further details.

### Income / Loss per Common Share

Net income/loss per share is computed in accordance with ASC subtopic 260-10. The Company presents basic loss per share ("EPS") and diluted EPS on the face of consolidated statements of operations. Basic EPS is computed by dividing reported earnings by the weighted average shares outstanding. Diluted EPS is computed by adding to the weighted average shares the dilutive effect if the preferred stock was converted and in-the-money stock options and warrants were exercised into common stock. For the three and nine months ended September 30, 2011, and the nine months ended September 30, 2010 the denominator in the diluted EPS computation is the same as the denominator for basic EPS due to the anti-dilutive effect on the Company's net loss. For the three months ended September 30, 2010, the denominator in the diluted EPS is 776,316 shares higher than the denominator for basic EPS because there were in-the-money options and preferred stock that could be converted into common stock.

### Reclassifications

Certain reclassifications have been made to the prior years' financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

### Recent Pronouncements

In December 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2010-29, "Business Combinations (Topic 805): Disclosures of Supplementary Pro Forma Information for Business Combinations" (ASU 2010-29), which specifies that pro forma disclosures for business combinations are to be reported as if the business combinations that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period. The pro forma disclosures must also include a description of material, nonrecurring pro forma adjustments. ASU 2010-29 is effective for business combinations with an acquisition date of January 1, 2011 or later. Adoption of the new requirement did not have an effect on the Company's financial position,

results of operations or cash flows.

Table of Contents

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, “Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs”. The amendments result in common fair value measurement and disclosure requirements in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs), and do not require additional fair value measurements and are not intended to establish valuation standards or affect valuation practices. The amendments in this update are effective during interim and annual periods beginning after December 15, 2011. Adoption of the new requirement is not expected to have an effect on the Company’s financial position, results of operations or cash flow.

In June 2011, the FASB issued Accounting Standards Update No. 2011-05, “Comprehensive Income (Topic 220): Presentation of Comprehensive Income”. In this update, FASB eliminated the option to present components of other comprehensive income as part of the statement of changes in stockholders’ equity. The amendments require that all non-owner changes in equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in this update are effective for fiscal years, and interim periods within these years, beginning after December 15, 2011. Adoption of the new requirement is not expected to have an effect on the Company’s financial position, results of operations or cash flow.

Year-end

The Company has adopted December 31, as its fiscal year end.

Basis of Presentation

The unaudited condensed consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation. All such adjustments are of a normal recurring nature. The results of operations for the interim period are not necessarily indicative of the results to be expected for a full year. Certain amounts in the prior year statements have been reclassified to conform to the current year presentations. The statements should be read in conjunction with the financial statements and footnotes thereto included in our audit for the year ended December 31, 2010.

NOTE 2 – Going concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has an accumulated deficit of \$15,994,785 since inception and incurred net losses of \$577,124 and \$467,960 for the years ended December 31, 2010 and 2009. As of September 30, 2011, the Company has a negative working capital of \$141,878. These conditions give rise to doubt about the Company’s ability to continue as a going concern. These financial statements do not include adjustments relating to the recoverability and classification of reported asset amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company’s continuation as a going concern is dependent upon its ability to generate profitability, obtain additional financing, or obtain proceeds from the sale of its stock.

NOTE 3 – Restricted Cash

The Company’s wholly owned subsidiary, NCS, has entered into securities clearing agreements with Penson Financial Services, Inc. (“Penson”) and Wedbush, Morgan Securities, Inc. (“Wedbush”). Pursuant to these agreements, the Company is required to maintain a deposit account with each respective clearing firm in amounts determined based on the Company’s transaction volume. As of September 30, 2011, the Company maintained deposits with Penson of \$250,405 and \$61,412, respectively, for total restricted cash of \$311,817. As of December 31, 2010, the Company maintained deposits with Penson of \$250,405 and \$61,370, respectively, for total restricted cash of \$311,775.

NOTE 4 – Intangible Assets – customer lists

During the year ended December 31, 2008, the Company consummated the acquisition of 100% of the outstanding common shares of NCS. As a result of the acquisition, Rubicon identified intangible assets in the NCS customer lists that were valued at \$2,403,671. This asset was evaluated for impairment as of September 30, 2011 and December 31, 2010 and management determined that no impairment was needed.

Table of Contents

NOTE 5 - Marketable Securities

The Company classifies its marketable equity securities as available-for-sale and carries them at fair market value, with the unrealized gains and losses included in the determination of comprehensive income and reported in stockholders' equity. Losses that the Company believes are other-than-temporary are realized in the period that the determination is made. As of December 31, 2010, the Company believed that all unrealized losses are not other-than-temporary based on market conditions and the volatility of investments being held. During the nine months ended September 30, 2011, the Company made the determination that two of the investments had unrealized losses that were other-than-temporary and realized the losses. All other unrealized losses and gains will be excluded from earnings and reported in other comprehensive income until realized. None of the investments have been hedged in any manner.

As of December 31, 2010:

The Company held thirteen investments in publically-traded common stock in various corporations with an aggregate cost of \$1,274,710 and a fair market value, based on published market prices, of \$193,633. ## NOTE 11 – Operating Segments

Rubicon’s operating segments are evidence of its internal organization. The major segments are defined by the type of financial services offered. Each segment operates in a distinct industry: brokerage services (NCS), mortgage and real estate services (RREM) and personal and commercial insurance services (RFIS). During 2010, RREM and RFIS were dissolved and disposed, respectively and therefore have no activity in the nine months ended September 30, 2011. Where applicable, “Corporate” represents items necessary to reconcile to the consolidated financial statements, which generally include corporate activity at the parent level and eliminations.

Net revenues as shown below represent commissions earned for each segment. Intercompany revenues have been eliminated and are immaterial for separate disclosure.

The Company evaluates performance of individual operating segments based on pre-tax income (loss). On a consolidated basis, this amount represents total net loss as shown in the consolidated statement of operations. Reconciling items represent corporate costs that are not allocated to the operating segments including; insurance, office, legal, accounting, depreciation, executive compensation, and other professional services expenses. Such costs have not been allocated from the parent to the subsidiaries.

## NOTE 12 – Commitments and Contingencies

## Litigation

## Grant Bettingen Lawsuit:

In July of 2009, the Company filed its first amended complaint against Grant Bettingen and Grant Bettingen, as Trustee of the 1999 Bettingen Trust U/D/T October 8, 1999, seeking damages for (i) Breach of Contract, (ii) Fraud, (iii) Declaratory Relief, (iv) Breach of Covenant of Good Faith and Fair Dealing, and (v) Unjust Enrichment. These claims arise from the June 2008 merger between the Company and NCS (then known as Grant Bettingen, Inc.) On or about August 10, 2009, the Company was served with a suit from M. Grant Bettingen, the Bettingen 1999 Trust and Christi Bettingen (the “Bettingen Cross-Complaint”) stemming from the same transaction. The Bettingen Cross-Complaint was dismissed in July of 2010 and has been appealed. While it is not possible to predict with certainty what liability or damages the Company might incur in connection with this lawsuit, based on the advice of counsel and a management review of the existing facts and circumstances related to this lawsuit, the Company has

accrued \$487,000 as of September 30, 2011 and December 31, 2010 for this matter, which is included in accrued investment obligation on its Consolidated Balance Sheet.

## General Litigation:

In addition to the above referenced lawsuit, the Company has several pending claims and arbitrations incurred in the normal course of business. In the Company's opinion, such claims can be resolved without any material adverse effect on its consolidated financial position, results of operations, or cash flows.

The Company maintains certain liability insurance; however, certain costs of defending lawsuits, such as those below the insurance deductible amount, are not covered by or only partially covered by its insurance policies, or its insurance carriers could refuse to cover certain of these claims in whole or in part. The Company accrues costs to defend itself from litigation as it is incurred or as it becomes determinable.

The outcome of litigation may not be assured, and despite management's views of the merits of any litigation, or the reasonableness of the Company's estimates and reserves, the Company's financial statements could nonetheless be materially affected by an adverse judgment. The Company believes it has adequately reserved for the contingencies arising from currently pending legal matters where an outcome was deemed to be probable, and the loss amount could be reasonably estimated. While it is not possible to predict with certainty what liability or damages the Company might incur in connection with any legal matter, based on the advice of counsel and a management review of the existing facts and circumstances related to pending legal matters, the Company has accrued \$459,350 and \$681,359 as of September 30, 2011 and December 31, 2010, respectively, for these matters, which is included on its Consolidated Balance Sheet. Management feels it is unlikely that any expense (exclusive of legal fees) associated with current litigation or arbitrations would exceed the amount accrued.

## Office lease agreements

As of December 31, 2009, the Company leased office space under a long-term lease agreement expiring in January of 2010. The amount due for January 2010 was \$8,690. During January 2010, the Company moved its offices to another location as noted below.

On October 21, 2009, the Company entered into a long-term lease agreement commencing January 1, 2010 and ending on June 30, 2015. The annual lease payments due pursuant to this agreement are as follows:

	Year Ending December 31,	Amount
2011		\$ 188,820
2012		193,016
2013		199,310
2014		205,604
2015		104,900
Total		\$ 891,650

## NOTE 13 - Fair Value Measurements

The Company adopted ASC Topic 820-10 at the beginning of 2009 to measure the fair value of certain of its financial assets required to be measured on a recurring basis. The adoption of ASC Topic 820-10 did not impact the Company's financial condition or results of operations. ASC Topic 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). ASC Topic 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability. The three levels of the fair value hierarchy under ASC Topic 820-10 are described below:

Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities that an entity has the ability to access.

Level 2 – Valuations based on quoted prices for similar assets and liabilities in active markets, quoted prices for identical assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets or liabilities.

Level 3 – Valuations based on inputs that are supportable by little or no market activity and that are significant to the fair value of the asset or liability.

The Company has no level 3 assets or liabilities.

The following table presents a reconciliation of all assets and liabilities measured at fair value on a recurring basis as of December 31, 2010:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview of Current Operations

We are a financial service holding company operating primarily through our wholly-owned subsidiary, Newport Coast Securities, Inc. ("NCS"), a private brokerage firm registered with the Financial Industry Regulatory Authority ("FINRA") providing retail brokerage services and investment banking. During 2010 we also had two other operating subsidiaries; (i) Rubicon Financial Insurance Services, Inc. ("RFIS"), a full service insurance agency; and (ii) Rubicon Real Estate and Mortgages, Inc. ("RREM"), which provided professional assistance in the fields of residential and commercial real estate and mortgage loans in California. RFIS was disposed of through the sale to its former president in September of 2010 and RREM was dissolved in June of 2010.

We also have a non-operating subsidiary, Dial-A-Cup, Inc. ("DAC"), which has developed a hot-water dispensing system that will brew one fresh cup of coffee, tea, hot chocolate, soup, etc. on demand. On July 31, 2007, we entered into a Separation and Distribution Agreement with DAC, whereby we agreed to spin-out at least 50% of the shares of DAC common stock owned by us to our shareholders on a one for ten basis. The Separation and Distribution Agreement also provides that DAC will take all of the businesses, assets and liabilities relating to the DAC business previously held by us. DAC intends to file a registration statement on Form S-1 to register the shares of DAC common stock to be distributed. As of the date of this report, the Form S-1 has not been filed.

On February 22, 2011, DAC issued a press release announcing that it had entered into a letter of intent to merge with Horizon Exterior Technology, Inc. ("Horizon"). Horizon is the exclusive distributor of high quality roofing, fascia, and interior wall tiles imported from China. These ICC tested and approved light-weight ultra-durable porcelain-ceramic tiles are intended to be sold through a network of regional distributors to national builders, building supply houses, select retailers, and registered, authorized contractors.

The letter of intent requires completion of formal substantive agreements with substantial conditions to be performed, including the following: adequate due diligence by DAC, approval by each party's respective shareholders, approval of each party's respective board of directors, pre-merger financing by Horizon, and other conditions which would need to be satisfied in a transaction of this nature.

On August 22, 2011, we entered into an Agreement and Plan of Merger and Reincorporation with Rubicon Financial Incorporated, a newly-formed Nevada corporation ("RUBICON NV"), in order to change our domicile from Delaware to Nevada. Pursuant to the terms of the Agreement and Plan of Merger and Reincorporation, we merged with and into RUBICON NV, making RUBICON NV the surviving corporation.

Overview of Financial Services

Economic Conditions

Our revenues are derived primarily from managed investment portfolios with the majority of our assets under management being located within the United States. Our revenues depend largely on the total value and composition of assets under our management. Accordingly, fluctuations in financial markets and in the composition of assets affect our revenues and results of operations. The significant downturn in the financial and real estate markets during 2008 through 2011 has had a material effect on investor returns and real property values. Though we have not experienced significant declines in our brokerage services, the impact to our real estate services was considerable. In response, we have implemented measures to reduce overall operating costs through the reduction of staff and administrative expenses. Although we have not made any fundamental changes to our business model like many other financial service companies, as part of our long term growth strategy, we continually evaluate our existing portfolio of

businesses as well as new business opportunities to ensure we are investing in those businesses with the largest, most profitable, growth potential.

Table of Contents

We have established our headquarters in Orange County, California to capitalize on the perceived large and affluent demographic base for our products in the financial services industry. The types of financial services we offer are: insurance, both personal and commercial; mortgage loan and real estate services, both residential and commercial; and retail brokerage services, securities market making, as well as investment banking services for small to mid-sized companies. Each subsidiary providing these services is an individually licensed corporation doing business under the parent holding company, which is intended to allow us to become a unique, single-source, financial services provider.

## Results of Operations

The following tables summarize selected items from the statement of operations for the three and nine months ended September 30, 2011 and 2010.

## Revenue:

	Three Months Ended		% Change	Nine Months Ended		% Change	
	September 30,			September 30,			
	2011	2010		2011	2010		
Consolidated							
Revenue	\$3,494,991	\$3,472,529	1	% \$11,909,577	\$10,383,489	15	%
Operating expenses	\$3,640,277	\$3,584,685	2	% \$11,661,025	\$10,871,237	7	%
Net operating income (loss)	\$(145,286 )	\$(112,156 )	30	% \$248,552	\$(487,748 )	-	

The third quarter is consistently our slowest quarter for business, primarily due to Summer vacation time; however, we were still able to increase revenues by a modest 1% for the three months ended September 30, 2011 and 15% for the nine months ended September 30, 2011. We believe our continued focus on providing alternative investment products through NCS and the recruitment of additional registered representatives will continue to result in increased revenues.

During the three and nine months ended September 30, 2011 our operating expenses increased by only 2% and 7%, respectively, over the same periods of 2010. We previously increased administrative and compliance staffing to support anticipated growth in registered representatives, which has helped us to maintain operating expenses at a reduced level with increases being relative to increases in revenues. In addition, we intend to continue our focus on reducing operating expenses as efficiently as possible while continuing to plan for anticipated growth.

As stated above, the third quarter is our slowest quarter of the year, thus during the three months ended September 30, 2011 we generated a net operating loss of \$145,286, compared to a net operating loss of \$112,156 for the same period in 2010. However, for the nine months ended September 30, 2011 we generated a net operating income of \$248,552, compared to a net operating loss of \$487,748 for the same nine month period in 2010.

Operating expenses	\$3,640,277	\$3,584,685	2	\$11,661,025	\$10,871,237	7	%

Operating expenses increased 2% and 7%, respectively, for the three and nine month periods ended September 30, 2011 compared to the same periods of 2010. Material increases in general and administrative expenses and executive compensation for each of the three and nine month periods ended September 30, 2011, were offset by substantial decreases in consulting and professional fees over the same periods.

Our direct costs, which increased only minimally for the three months ended September 30, 2011 and 8% for the nine months ended September 30, 2011, have a direct relationship to our revenue and will increase or decrease with changes in revenue.

## Other income and (expense)

	Three Months Ended			Nine Months Ended			
	September 30,		%	September 30,		%	
	2011	2010	Change	2011	2010	Change	
Consolidated							
Interest income	\$5,876	\$4,787	23	\$23,414	\$13,061	79	%

Other income (expense)	13,167	5,634	134	34,444	14,732	133	%

Other income and expense consists of interest earned and expensed. We experienced a 23% increase in interest income for the three months ended September 30, 2011 and 79% for the nine months ended September 30, 2011, as a direct result of increased cash resources held in interest bearing money market accounts. Interest was incurred during ordinary course of business through the use of corporate credit cards and outstanding bank loans.

Table of Contents

During the nine months ended September 30, 2011, the Company made the determination that two investments, Clean Coal Technologies and American International Industries, had unrealized losses that were other-than-temporary and realized the losses totaling \$1,194,893 for the nine month period.

An investment in the publically-traded common stock of Clean Coal Technologies, Inc. had a cost of \$300,000 and a fair market value of \$212 as of September 30, 2011. This investment has been in a loss position for over twelve months. During the quarter ended September 30, 2011, the Company made the determination that this unrealized loss was other-then-temporary and should be realized. A total of \$300,000 was adjusted from unrealized to realized and the amount was moved from the other accumulated comprehensive loss on the balance sheet to the realized loss on investments on the statement of operations.

An investment in the publically-traded common stock of American International Industries, Inc. had a cost of \$974,100. During the nine months ended September 30, 2011, a portion of this investment with a cost of \$200,000 was sold for proceeds of \$28,116 resulting in a realized loss of \$171,884. As of September 30, 2011, the investment had a remaining cost of \$774,100 and a fair market value of \$51,091. This investment has been in a loss position for over twelve months. During the quarter ended September 30, 2011, the Company made the determination that this unrealized loss was other-then-temporary and should be realized. A total of \$723,009, the difference between the cost and market value as of September 30, 2011, was adjusted from unrealized to realized and the amount was moved from the other accumulated comprehensive loss on the balance sheet to the realized loss on investments on the statement of operations.

On June 3, 2008, Rubicon was issued a note receivable in the amount of \$100,000 from Marc Riviello pursuant to the "Stock Repurchase and Settlement Agreement". The note accrues interest at a rate of 6% per annum and was due June 1, 2009. The loan was not repaid and subsequently the Company took legal action against Mr. Riviello and was awarded a judgment in excess of \$100,000. During the quarter ended September 30, 2011, the Company determined that collecting on the judgment was in doubt due to Mr. Riviello's incarceration and took a bad debt write-off of the full \$118,500. However, the judgment remains valid and the Company may pursue collection efforts through the balance of the term of the judgment.

Satisfaction of our cash obligations for the next 12 months.

As of September 30, 2011 we had available cash of \$1,344,555. We believe these funds will help support existing operational costs and will satisfy our working capital requirements for at least the next twelve months. However, in the event of unexpected expenditures, including arbitration claims, we may need to raise additional funds through either equity, including convertible securities such as preferred stock or debentures, or debt financing.

Summary of any product research and development that we will perform for the term of our plan of operation.

We do not anticipate performing any additional significant product research and development under our plan of operation with Dial-A-Cup, NCS or in the financial services industry.

Expected purchase or sale of plant and significant equipment.

We do not anticipate the purchase or sale of any plant or significant equipment; as such items are not required by us at this time.

Table of Contents

Significant changes in the number of employees.

We have experienced significant changes in our staffing and executive management team as a result of our business acquisitions. Historically we have relied on outside consultants to fulfill the needs of the Company while also relying heavily on our CEO, Joseph Mangiapane, Jr. whom we have a full time employment agreement with. As we have achieved milestones in our growth projections, it has become financially prudent to increase our internal staff to satisfy the operational needs of our business. Likewise, as we have been impacted by the overall economic recession we have also reduced staffing as appropriate.

At our subsidiary levels, we have increased our number of employees to a level which satisfies our current requirements in an economically sensible manner. As the economic conditions improve, we anticipate an increase in our staffing levels as a measure to ensure continued growth. Currently, we employ two executives and thirteen administrative staff within NCS.

#### Liquidity and Capital Resources

A critical component of our operating plan impacting our continued existence is the ability to obtain additional capital through additional equity and/or debt financing. We do not anticipate generating sufficient positive internal operating cash flow until such time as we can deliver our product to market, complete additional financial service company acquisitions and generate substantial revenues, which may take the next few years to fully realize. In the event we cannot obtain the necessary capital to pursue our strategic plan, we may have to cease or significantly curtail our operations. This would materially impact our ability to continue operations.

The following table summarizes our current assets, liabilities and working capital at September 30, 2011 compared to December 31, 2010.

	September 30, 2011	December 31, 2010	Increase / (Decrease)	
			\$	%
Current Assets	\$ 2,467,037	\$ 2,702,196	\$ (235,159)	(9%)
Current Liabilities	2,608,915	2,970,341	(241,936)	(12%)
Working Capital	\$ (141,878)	\$ (268,145)	\$ (126,267)	(47%)

During the first three quarters of 2011 we generated a net operating income of \$52,535 and \$393,838, respectively. However, as we expand our activities we may experience net negative cash flows from operations, pending receipt of additional revenues.

We believe the \$1,337,745 in un-restricted cash on hand at September 30, 2011 will be sufficient to sustain operations for at least twelve months. However, we may need to seek additional funding for acquisitions, expansion of operations or unexpected expenditures through equity or debt offerings. In addition, we may need to further do so in the future through additional financing, acquisitions, joint ventures or other means available to us. Along these lines, in February of 2011, we borrowed \$300,000 pursuant to a line of credit through our bank. There can be no assurance that we will be able to complete a transaction or complete a transaction on terms favorable to our stockholders or us.

#### Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results or operations, liquidity, capital expenditures or capital resources that is material to investors.

### Going Concern

The financial statements included in this filing have been prepared in conformity with generally accepted accounting principles that contemplate the continuance of Rubicon as a going concern. Rubicon's cash position is currently inadequate to pay all of the costs associated with its operations. However, Rubicon has generated a net operating income for the first two quarters of 2011. Management intends to use net operating income, borrowings and security sales to potentially mitigate any negative effects of its cash position, however no assurance can be given that debt or equity financing, if and when required will be available. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and classification of liabilities that might be necessary should Rubicon be unable to continue existence.

### Critical Accounting Policies and Estimates

**Revenue Recognition:** We recognizes revenue in accordance with ASC subtopic 605-10 (formerly SEC Staff Accounting Bulletin No. 104 and 13A, "Revenue Recognition") net of expected cancellations and allowances. As of December 31, 2010 and 2009, we evaluated evidence of cancellation in order to make a reliable estimate and determined there were no material cancellations during the years and therefore no allowances have been made.

Investment banking revenues and advisory fees from mergers, acquisitions and restructuring transactions are recorded when services for the transactions are determined to be completed, generally as set forth under the terms of the engagement. Transaction related expenses, primarily consisting of legal, travel and other costs directly associated with the transaction, are deferred and recognized in the same period as the related investment banking transaction revenue. Underwriting revenues are presented net of related expenses. The Company recognizes commissions from its broker services based on a settlement date basis. Fees billed and collected before services are performed are included in deferred revenue. Normal expenses are recorded when the obligation is incurred.

### Recent Accounting Developments

In December 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2010-29, "Business Combinations (Topic 805): Disclosures of Supplementary Pro Forma Information for Business Combinations" (ASU 2010-29), which specifies that pro forma disclosures for business combinations are to be reported as if the business combinations that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period. The pro forma disclosures must also include a description of material, nonrecurring pro forma adjustments. ASU 2010-29 is effective for business combinations with an acquisition date of January 1, 2011 or later. Adoption of the new requirement did not have an effect on the Company's financial position, results of operations or cash flows.

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs". The amendments result in common fair value measurement and disclosure requirements in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs), and do not require additional fair value measurements and are not intended to establish valuation standards or affect valuation practices. The amendments in this update are effective during interim and annual periods beginning after December 15, 2011. Adoption of the new requirement is not expected to have an effect on the Company's financial position, results of operations or cash flow.

In June 2011, the FASB issued Accounting Standards Update No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income". In this update, FASB eliminated the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments require that all

non-owner changes in equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in this update are effective for fiscal years, and interim periods within these years, beginning after December 15, 2011. Adoption of the new requirement is not expected to have an effect on the Company's financial position, results of operations or cash flow.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Not applicable.

Item 4T. Controls and Procedures.

Our Chief Executive Officer and Principal Financial Officer, Joseph Mangiapane, Jr., evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Report. Based on the evaluation, Mr. Mangiapane concluded that our disclosure controls and procedures are effective in timely altering him to material information relating to us (including our consolidated subsidiaries) required to be included in our periodic SEC filings.

There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II--OTHER INFORMATION

Item 1. Legal Proceedings.

In addition to the matters described below, in the normal course of business, we may, from time to time, be named as defendants in various judicial, regulatory, and arbitration proceedings in the future. The nature of such proceedings may involve large claims subjecting us to exposure. In addition, claims may be made against our broker-dealer subsidiary relating to investment banking underwritings, which may be brought as part of a class action, or may be routine retail customer complaints regarding losses in individual accounts, which are ordinarily subject to FINRA arbitration proceedings. Our broker-dealer subsidiary may also become subject to investigations or proceedings by governmental agencies and self-regulatory organizations, which can result in fines or other disciplinary action being imposed on the broker-dealer and/or individuals. Additionally, legal proceedings may be brought against us from time to time in the future. In view of the inherent difficulty of predicting the outcome of legal proceedings, particularly where the plaintiffs seek substantial or indeterminate damages or where novel legal theories or a large number of parties are involved, we cannot state with confidence what the eventual outcome of currently pending matters will be, what the timing of the ultimate resolution of these matters will be or what the eventual result in each pending matter will be.

Rubicon Financial Incorporated v. Grant Bettingen

In July of 2009, we filed our first amended complaint in the Superior Court of the State of California, for the County of Orange – Central Justice Center (Case Number 30-2009-00124138-CU-BC-CJC), against Grant Bettingen and Grant Bettingen, as Trustee of the 1999 Bettingen Trust U/D/T October 8, 1999, seeking damages for:

1. Breach of Contract;
2. Fraud;
3. Declaratory Relief;
4. Breach of Covenant of Good Faith and Fair Dealing; and
5. Unjust Enrichment.

These claims arise from the June 2008 merger between us and Grant Bettingen, Inc. (now known as Newport Coast Securities, Inc.). On or about August 10, 2009, we were served with a suit from M. Grant Bettingen, the Bettingen 1999 Trust and Christi Bettingen (collectively the “Bettingens”)(Case Number 30-2009-00290794) stemming from the same transaction and alleging 31 causes of action. These two cases were consolidated. On July 29, 2010, our demurrer to the second amended cross-complaint filed by the Bettingens was sustained without leave to amend. The Court’s ruling was as follows:

RUBICON FINANCIAL, INC. V. BETTINGEN, ET AL.

Demurrer by Rubicon Financial, Inc., et al. to Second Amended Cross-complaint of Bettigen et al.:

The demurrer is sustained without leave to amend.

The cross-complainants have had an adequate opportunity to correct the problems of pleading a viable cross-complaint, however, the subject pleading still fails to state facts sufficient to constitute a cause of action. There are no significant changes in the present version of the cross-complaint as compared to its prior iterations.

Within 5 court days of the hearing, the moving parties are hereby ordered to prepare, file and serve the proposed order sustaining the demurrer without leave to amend, and shall give notice of ruling.

Table of Contents

The Court's ruling effectively dismissed the Bettingens second amended cross-complaint and the causes of action resulting therefrom. The Bettingens have appealed the Court's ruling on the demurrer and we are now going through the appeals process. Oral arguments for the appeal are scheduled for November 17, 2011.

In addition, on October 14, 2010, our motion for attorney's fees and costs against the Bettingens was granted. The Court's ruling was as follows:

RUBICON FINANCIAL INCORPORATED (RUBICON) V. BETTINGEN, ET AL.

Motion by cross-defendant Rubicon for attorneys' fees and costs:

The motion is granted.

The court finds the cross-defendants are the prevailing parties on the breach of contract causes of action.

The court finds that no apportionment of fees and costs need be allocated between the contract causes of action and the other causes of action.

The court further finds reasonable attorneys' fees in the sum of \$337,634.00, and costs in the sum of \$18,235.50, and orders such amounts be awarded to the cross-defendants jointly, and against the cross-complainants M. Grant Bettingen, individually and as Trustee of the Bettingen 1999 Trust, and Chrisi Bettingen, all jointly and severally.

The moving parties are hereby ordered to prepare, file and serve the proposed order and judgment in accordance with this ruling, and shall give notice of ruling.

The Bettingens have appealed the Court's ruling on the motion for attorney's fees and we are now going through the appeals process.

We are continuing to pursue the July 2009 lawsuit against Grant Bettingen and Grant Bettingen, as Trustee of the 1999 Bettingen Trust U/D/T October 8, 1999. This case is in the complex litigation court and is still in the discovery stage.
