Table of Contents**FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited)****(1) Description of Business and Basis of Presentation**

Organization. Federal Trust Corporation (Federal Trust) is the sole shareholder of Federal Trust Bank (the Bank). Federal Trust operates as a unitary savings and loan holding company. Federal Trust 's primary business activity is the operation of the Bank. The Bank is federally-chartered as a stock savings bank. The Bank 's deposits are insured up to the applicable limits by the Federal Deposit Insurance Corporation. The Bank provides a wide range of banking services to individual and corporate customers through its six offices located in Orange, Seminole and Volusia Counties, Florida. FTB Financial, Inc., a wholly-owned subsidiary of the Bank, was established in May 1996, to provide investment services to customers of the Bank. FTB Financial, Inc. ceased operations in September 2003, and is currently inactive.

The condensed consolidated financial statements, include the accounts of Federal Trust, the Bank and the Bank 's subsidiary (collectively, the Company). All significant intercompany accounts and transactions have been eliminated in consolidation.

In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments (principally consisting of normal recurring accruals) necessary to present fairly the financial position as of March 31, 2004, and the results of operations and cash flows for the three-month periods ended March 31, 2004 and 2003. The results of operations for the three-month period ended March 31, 2004, are not necessarily indicative of the results to be expected for the entire year ended December 31, 2004. These statements should be read in conjunction with the consolidated financial statements included in the Company 's Annual Report on Form 10 - KSB for the year ended December 31, 2003.

A provision for loan losses is charged to earnings based upon management's evaluation of the potential losses in its loan portfolio. During the three months ended March 31, 2004, management made a provision of \$550,000 based on its evaluation of the loan portfolio, compared to a provision of \$220,000 made in the comparable period in 2003. The increase is primarily a result of an increase in total loans outstanding as well as an increase in the percentage of commercial loans in the Company's portfolio. At March 31, 2004, management believes that the allowance is adequate, primarily as a result of the overall quality, and the high percentage of residential single family home loans, in the portfolio.

Table of Contents**FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited), Continued****(3) Regulatory Capital**

The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's and the Company's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and percentages (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets and Tier I capital to average adjusted assets (as defined in the regulations). Management believes that, as of March 31, 2004, the Bank exceeds the minimum capital adequacy requirements to which it is subject.

In addition, as of March 31, 2004, the Bank met the requirements to be categorized as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain total risk-based, Tier I risk-based and Tier I leverage percentages as set forth in the table below. There are no conditions or events since March 31, 2004 that management believes would change the institution's categorization as well capitalized. The following table summarizes the capital thresholds for each prompt corrective action capital category. An institution's capital category is based on whether it meets the threshold for all three capital ratios within the category. The Bank's actual capital amounts and percentages are also presented in the table (\$ in thousands).

	For Capital Adequacy				To Be Well Capitalized Under Prompt Corrective Action	
	Actual		Purposes		Provisions	
	Amount	%	Amount	%	Amount	%
At March 31, 2004:

Table of Contents**FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited), Continued****(4) Earnings Per Share of Common Stock**

The Company follows the provisions of Financial Accounting Standards No. 128, Earnings Per Share (SFAS No. 128). SFAS No. 128 provides accounting and reporting standards for calculating earnings per share. Basic earnings per share of common stock has been computed by dividing the net earnings for the period by the weighted-average number of shares outstanding. Shares of common stock purchased by the Company's Employee Stock Ownership Plan (ESOP) are considered outstanding when the shares are allocated to participants. Diluted earnings per share is computed by dividing net earnings by the weighted-average number of shares outstanding including the dilutive effect of stock options computed using the treasury stock method. The following table presents the calculation of basic and diluted earnings per share of common stock (in thousands, except per share amounts):

	Three Months Ended March 31,	
	2004	2003
Weighted-average shares outstanding before adjustment for unallocated ESOP shares	6,662	6,591

Weighted-average shares and equivalents outstanding for diluted earnings per share	<u>6,683</u>	<u>6,681</u>
Diluted earnings per share	<u>\$.12</u>	<u>\$.10</u>

(5) Stock Option Plans

The Company has two stock options plans. The Key Employee Stock Compensation Program (the Employee Plan) is authorized to issue up to 475,000 shares through the exercise of incentive stock options, compensatory stock options, stock appreciation rights or performance shares. All awards granted under the Employee Plan have been incentive stock options. These options have ten year terms and vest ratably over various terms up to five years. At March 31, 2004, the Company had 24,142 options available for future grants under the Employee Plan.

Edgar Filing: FEDERAL TRUST CORP - Form 10QSB

The Directors' Stock Option Plan (the Director Plan) is authorized to issue up to 140,000 shares. All options granted under the Director Plan have ten year terms, vest immediately and are not exercisable for a period of six months after the grant date. At March 31, 2004, all of the allocated options in the Director Plan had been granted.

(continued)

Table of Contents**FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited), Continued****(5) Stock Option Plans, Continued**

During 1998, 350,000 options were granted under both plans at an exercise price less than the then market price. This amount was being expensed over the related vesting periods of options still outstanding. These options were fully vested during the second quarter of 2003, consequently there was no compensation costs relating to these options during the three months ended March 31, 2004. Compensation costs relating to these options was approximately \$6,000 for the three months ended March 31, 2003.

A summary of stock option transactions follows (\$ in thousands, except per share data):

Table of Contents**FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited), Continued****(5) Stock Option Plans, Continued**

Statement of Financial Accounting Standards No. 123 (SFAS No. 123) requires pro forma fair value disclosures if the intrinsic value method is being utilized to calculate the fair value of options. For purposes of pro forma disclosures, the estimated fair value is included in expense in the period vesting occurs. The proforma information has been determined as if the Company had accounted for its stock options under the fair value method of SFAS No. 123. The Company accounts for its stock option plans under the recognition and measurement principles of Accounting Principles Board Opinion No. 25. No stock-based employee compensation cost is reflected in net earnings, except for those options granted in 1998 as discussed above, as all stock options granted under the plans had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates assumptions used in calculating the grant-date fair value and the effect on net earnings and basic and diluted earnings per share as if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation (\$ in thousands, except per share amounts):

FEDERAL TRUST CORPORATION AND SUBSIDIARY

Review by Independent Accountants

Hacker, Johnson & Smith PA, the Company's independent accountants, have made a limited review of the financial data as of March 31, 2004, and for the three-month periods ended March 31, 2004 and 2003 presented in this document, in accordance with standards established by the American Institute of Certified Public Accountants.

Their report furnished pursuant to Article 10 of Regulation S-X is included herein.

Independent Accountants Report

Federal Trust Corporation

Sanford, Florida:

We have reviewed the accompanying condensed consolidated balance sheet of Federal Trust Corporation and Subsidiary (the Company) as of March 31, 2004, and the related condensed consolidated statements of earnings, stockholders' equity and cash flows for the three-month periods ended March 31, 2004 and 2003. These financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet as of December 31, 2003, and the related consolidated statements of earnings, stockholders' equity and cash flows for the year then ended (not presented herein); and in our report dated January 30, 2004 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2003, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

**Item 2. Management's Discussion and Analysis of
Financial Condition and Results of Operations**

Comparison of March 31, 2004 and December 31, 2003

General

Federal Trust Corporation (Federal Trust) is the sole shareholder of Federal Trust Bank (the Bank). Federal Trust operates as a unitary savings and loan holding company. Federal Trust's business activities primarily include the operation of the Bank. The Bank is federally-chartered as a stock savings bank and the Bank's deposits are insured up to the applicable limits by the Federal Deposit Insurance Corporation. The Bank provides a wide range of banking services to individual and corporate customers through its six offices located in Orange, Seminole and Volusia Counties, Florida. FTB Financial, Inc., a wholly-owned subsidiary of the Bank, was established in May 1996, to provide investment services to customers of the Bank. FTB Financial, Inc. ceased operations in September 2003 and is currently inactive.

Forward Looking Statements

Readers should note, in particular, that this document contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), that involve substantial risks and uncertainties. When used in this document, or in the documents incorporated by reference herein, the words anticipate, believe, estimate, may, intend and expect and similar expressions identify certain of such forward-looking statements. Actual results, performance or achievements could differ materially from those contemplated, expressed or implied by the forward-looking statements contained herein. Actual results may differ materially, depending upon a variety of important factors, including competition, inflation, general economic conditions, changes in interest rates and changes in the value of collateral securing loans we have made, among other things.

Capital Resources

During the three months ended March 31, 2004, the Company's primary source of funds consisted of a net increase in deposits of \$20.9 million and net principal repayments and sales of loans of \$16.5 million and securities available for sale of \$3.9 million. The Company used its capital resources principally to purchase loans of \$31.2 million, repay \$7.3 million in Federal Home Loan Bank advances and to purchase securities available for sale of \$4.0 million.

Off-Balance Sheet Arrangements and Aggregate Contractual Obligations

Edgar Filing: FEDERAL TRUST CORP - Form 10QSB

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, unused lines of credit, standby letters of credit and loans in process. These instruments involve, to varying degrees, elements of credit and interest-rate risk in excess of the amounts recognized in the condensed consolidated balance sheet. The contract amounts of those instruments reflect the extent of the Company's involvement in particular classes of financial instruments.

Table of Contents**FEDERAL TRUST CORPORATION AND SUBSIDIARY****Item 2. Management's Discussion and Analysis****of Financial Condition and Results of Operations, Continued**

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit, unused lines of credit and loans in process is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments as it does for on-balance sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total committed amounts do not necessarily represent future cash requirements. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if it is deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the counter party.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers.

A summary of the amounts of the Company's financial instruments, with off-balance sheet risk at March 31, 2004, follows (in thousands):

	Contract Amount
Commitments to extend credit	\$ 5,646
Unused lines of credit	\$ 3,013
Standby letters of credit	\$ 494
Loans in process	\$ 3,272

Management believes the Company has adequate resources to fund all its commitments. At March 31, 2004, the Company had approximately \$134.6 million in time deposits maturing in one year or less. Management also believes that, if so desired, it can adjust the rates on time deposits to retain or obtain new deposits in a changing interest rate environment.

Management believes the Bank was in compliance with all minimum capital requirements which it was subject to at March 31, 2004. See note 3 to the condensed consolidated financial statements.

Management is not aware of any trends, demands, commitments or uncertainties which are expected to have a material impact on future operating results, liquidity or capital resources.

Table of Contents**FEDERAL TRUST CORPORATION AND SUBSIDIARY****Comparison of the Three-Month Periods Ended March 31, 2004 and 2003**

General. The Company had net earnings for the three-month period ended March 31, 2004, of \$810,000 or \$.12 per basic and diluted share, compared to \$654,000 or \$.10 per basic and diluted share for the same period in 2003. The increase in net earnings was primarily due to an increase in net interest income, partially offset by increases in the provision for loan losses and other expenses.

Interest Income. Interest income increased by \$305,000 or 5.6% to \$5.8 million for the three-month period ended March 31, 2004, from \$5.5 million for the same period in 2003. Interest income on loans increased \$324,000 or 6.3% to \$5.5 million in 2004 from \$5.1 million in 2003, primarily as a result of an increase in the average amount of loans outstanding from \$356.1 million in 2003 to \$412.1 million in 2004, partially offset by a decrease in the average yield earned on loans from 5.76% for the three-month period ended March 31, 2003, to 5.29% for the comparable period in 2004. Interest income on securities decreased by \$8,000 for the three-month period ended March 31, 2004, over the same period in 2003, primarily as a result of a decrease in the average yield, mostly offset by an increase in the average balance of securities owned. Management expects the rates earned on the portfolio to fluctuate with general market conditions.

Interest Expense. Interest expense decreased by \$379,000 or 13.7% to \$2.4 million during the three-month period ended March 31, 2004, compared to \$2.8 million for the same period in 2003. Interest on deposits decreased \$375,000 or 18.4% to \$1.7 million in 2004 from \$2.0 million in 2003, as a result of a decrease in the average cost of deposits from 2.75% for the three-month period ended March 31, 2003, to 2.04% for the comparable period in 2004, partially offset by an increase in average deposits outstanding from \$295.8 million in 2003 to \$324.4 million in 2004. Interest on other borrowings decreased to \$735,000 in 2004 from \$739,000 in 2003, primarily as a result of a decrease in the average rate paid from 3.51% in 2003 to 2.38% in 2004, mostly offset by an increase in the average balance of other borrowings from \$84.3 million during 2003 to \$123.3 million in 2004. Management expects to continue to use FHLB advances and other borrowings to provide liquidity and as a liability management tool.

Provision for Loan Losses. A provision for loan losses is charged to earnings based upon managements evaluation of the losses in its loan portfolio. During the quarter ended March 31, 2004, management recorded a provision for loan losses of \$550,000 based on its evaluation of the loan portfolio, which was an increase of \$330,000 from the same period in 2003, primarily as a result of the increase in total loans outstanding as well as an increase in the percentage of commercial loans in the Company's portfolio. The allowance for loan losses at March 31, 2004, was \$3.3 million or .79% of total loans outstanding, versus \$2.8 million at December 31, 2003, or .69% of total loans outstanding. Management believes the allowance for loan losses at March 31, 2004 is adequate.

Other Income. Other income increased \$71,000 or 11.7% from \$607,000 for the three-month period ended March 31, 2003, to \$678,000 for the same period in 2004. The increase in other income was primarily due to increases of \$52,000, \$170,000 and \$81,000 in gain on sale of loans held for sale, service charges and fees and other income, respectively, partially offset by a decrease of \$196,000 in gain on sale of securities available for sale. The increase in gain on sale of loans held for sale is due to the Company selling more loans during 2004 as compared to 2003. The increase in service charges and fees primarily resulted from an increase in prepayment fees earned during 2004. The increase in other income resulted from an increase in earnings on bank-owned life insurance.

Other Expenses. Other expenses increased \$208,000 or 9.7% to \$2.3 million for the three-month period ended March 31, 2004, from \$2.1 million for the same period in 2003. Salary and employee benefits increased \$73,000, occupancy expense increased \$74,000 and professional services increased \$107,000 due to an increase in commercial lending personnel and the overall growth of the Company.

Income Taxes. Income taxes for the three months ended March 31, 2004, was \$377,000 (an effective rate of 31.8%), compared to \$316,000 (an effective rate of 32.6%) for the same period in 2003.
