**KINDRED HEALTHCARE, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**NOTE 1 BASIS OF PRESENTATION**

*Business*

Kindred Healthcare, Inc. through its subsidiaries operates hospitals, nursing centers, institutional pharmacies and a contract rehabilitation services business across the United States (collectively, Kindred or the Company ). At September 30, 2005, the Company s hospital division operated 73 hospitals in 24 states. The Company s health services division operated 245 nursing centers in 28 states. The Company s pharmacy division operated an institutional pharmacy business with 39 pharmacies in 23 states and a pharmacy management business servicing substantially all of the Company s hospitals. The Company also operated a contract rehabilitation services business which began operating as a separate division on January 1, 2004.

In recent years, the Company has completed several transactions related to the divestiture of unprofitable hospitals, nursing centers and other healthcare businesses to improve its future operating results. For accounting purposes, the operating results of these businesses and the losses associated with these transactions have been classified as discontinued operations in the accompanying unaudited condensed consolidated statement of operations for all periods presented. Assets not sold at September 30, 2005 have been measured at the lower of carrying value or estimated fair value less costs of disposal and have been classified as held for sale in the accompanying unaudited condensed consolidated balance sheet. See Note 3 for a summary of discontinued operations.

In April 2001, the Company and its subsidiaries emerged from proceedings under Chapter 11 of Title 11 of the United States Code (the Bankruptcy Code ) pursuant to the terms of the Company s Fourth Amended Joint Plan of Reorganization (the Plan of Reorganization ), as modified at the confirmation hearing by the United States Bankruptcy Court for the District of Delaware. In connection with its emergence, the Company changed its name to Kindred Healthcare, Inc.

*Impact of recent accounting pronouncement*

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ( SFAS ) No. 123 (revised 2004) ( SFAS 123R ), Share-Based Payment, which requires companies to expense the fair value of employee stock options and other forms of stock-based compensation for interim periods that begin after June 15, 2005. This requirement represents a significant change because stock option awards have not been recognized as compensation expense in the Company s historical consolidated financial statements under Accounting Principles Board Opinion No. 25 ( APB 25 ), Accounting for Stock Issued to Employees. SFAS 123R requires the cost of an award, based upon fair value on the date of grant, to be recognized over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). The fair value of the award on the date of grant will be estimated using option pricing models. In April 2005, the Securities and Exchange Commission (the SEC ) approved a new rule that delays the effective date of SFAS 123R for public companies until the first annual period, rather than the first interim period, that begins after June 15, 2005. The Company expects to adopt SFAS 123R on January 1, 2006 and recognize compensation expense prospectively for non-vested stock options outstanding at December 31, 2005 and for all future stock option grants.

*Stock option accounting*

As discussed above, the Company currently follows APB 25 and related interpretations in accounting for its employee stock options.

<b>Comprehensive income</b>	<b>\$ 16,118</b>	<b>\$ 15,857</b>	<b>\$ 118,577</b>	<b>\$ 50,976</b>

*Other information*

The accompanying unaudited condensed consolidated financial statements do not include all of the disclosures normally required by generally accepted accounting principles or those normally required in annual reports on Form 10-K. Accordingly, these financial statements should be read in conjunction with the audited consolidated financial statements of the Company for the year ended December 31, 2004 filed with the SEC on Form 10-K.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the Company's customary accounting practices. Management believes that financial information included herein reflects all adjustments necessary for a fair presentation of interim results and, except as otherwise disclosed, all such adjustments are of a normal and recurring nature.

**Table of Contents**

**KINDRED HEALTHCARE, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**NOTE 1 BASIS OF PRESENTATION (Continued)**

*Reclassifications*

Certain prior period amounts have been reclassified to conform with the current period presentation. These changes did not have any impact on the Company's financial position, results of operations or liquidity.

**NOTE 2 DIVESTITURES**

During the third quarter of 2005, the Company disposed of an unprofitable leased nursing center and designated two owned nursing centers as held for sale. The pretax loss associated with these transactions totaled \$5.1 million (\$3.2 million net of income taxes).

During the third quarter of 2004, the Company purchased for resale three leased nursing centers in exchange for total consideration of \$18.7 million. Based upon the expected net realizable value of these properties, the Company recorded a pretax loss of \$12.3 million (\$7.5 million net of income taxes).

For the nine months ended September 30, 2005, the Company recorded pretax losses associated with the divestiture of discontinued operations of \$0.8 million (\$0.5 million net of income taxes) compared to pretax losses of \$14.0 million (\$8.6 million net of income taxes) in the same period a year ago.

During the first nine months of 2004, the Company allowed leases on three other nursing centers to expire. No gain or loss resulted from these transactions.

**NOTE 3 DISCONTINUED OPERATIONS**

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the divestitures discussed in Notes 1 and 2 have been accounted for as discontinued operations. Accordingly, the results of operations of these businesses for all periods presented and the losses related to these divestitures have been classified as discontinued operations, net of income taxes, in the accompanying unaudited condensed consolidated statement of operations. At September 30, 2005, the Company held for sale two hospitals and three nursing centers.

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

Discontinued operations included a favorable pretax adjustment of \$4.1 million and \$11.0 million for the third quarter of 2005 and 2004, respectively, and \$36.7 million and \$11.0 million for the nine months ended September 30, 2005 and 2004, respectively, resulting from a change in estimate for professional liability reserves related primarily to the Company's former nursing centers in Florida and Texas.

**NOTE 4 SIGNIFICANT QUARTERLY ADJUSTMENTS**

Operating results for the third quarter and nine months ended September 30, 2005 included pretax income of \$5.9 million and \$63.4 million, respectively, related to the settlement of prior year hospital Medicare cost reports. For the third quarter and nine months ended September 30, 2004, the Company recorded pretax income of \$1.6 million and \$7.7 million, respectively, related to the settlement of prior year hospital Medicare cost reports.

Operating results for the third quarter of 2005 included costs associated with Hurricane Katrina and Hurricane Rita which reduced hospital pretax income by \$2.1 million.

**Table of Contents****KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 4 SIGNIFICANT QUARTERLY ADJUSTMENTS (Continued)**

Operating results for the nine months ended September 30, 2005 included pretax charges of \$14.2 million (including a \$0.7 million favorable adjustment recorded in the third quarter of 2005) related to a special recognition payment to non-executive caregivers and employees and \$5.0 million related to a charitable donation. The allocation of these costs by segment follows (in thousands):

	<b>Recognition</b>	<b>Charitable</b>
	<b>payment</b>	<b>donation</b>
Hospital division	\$ 3,703	\$
Health services division	8,576	
Rehabilitation division	1,024	
Pharmacy division	697	
Corporate	216	5,000
	<b>\$ 14,216</b>	<b>\$ 5,000</b>

Operating results for the nine months ended September 30, 2005 included pretax income of \$16.6 million related to retroactive nursing center Medicaid rate increases in the state of Indiana, of which \$14.5 million related to prior years. Operating results for the nine months ended September 30, 2004 included pretax income of \$5.9 million related to similar increases in the state of North Carolina, approximately one-half of which related to a prior year. Retroactive revenues and related provider tax expense associated with these transactions have been reflected in the accompanying unaudited condensed consolidated statement of operations as follows (in thousands):

	<b>Three months ended</b>		<b>Nine months ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2005</b>	<b>2004</b>	<b>2005</b>	<b>2004</b>
Revenues	\$ 709	\$	\$ 32,941	\$ 8,726
Other operating expenses			16,343	2,848
	<b>\$ 709</b>	<b>\$</b>	<b>\$ 16,598</b>	<b>\$ 5,878</b>

Corporate overhead for the third quarter of 2004 included a \$3.4 million pretax charge related to a terminated pension plan.

Interest expense for the nine months ended September 30, 2004 included a pretax charge of \$1.2 million resulting from the refinancing of the Company's credit facilities. Investment income for the nine months ended September 30, 2004 included a credit of \$0.6 million resulting from the recovery of certain surety deposits.

**NOTE 5 REORGANIZATION ITEMS**

Transactions related to the Plan of Reorganization have been classified separately in the accompanying unaudited condensed consolidated statement of operations. Operating results for the nine months ended September 30, 2005 included income of \$1.4 million resulting from changes in estimates for accrued professional and administrative costs in connection with the completion of legal proceedings related to the Plan of Reorganization. Operating results for the nine months ended September 30, 2004 included a favorable adjustment of \$0.3 million related to accrued reorganization costs.

**Table of Contents****KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 6 PHARMACY ACQUISITIONS**

On March 2, 2005, the Company acquired the assets of Pharmacy Partners, Inc., an operator of two institutional pharmacies in Pennsylvania (the PPI Acquisition). The transaction was financed through the use of existing cash. Goodwill recorded in connection with the PPI Acquisition aggregated \$11.0 million. The purchase price also included acquired identifiable intangible assets totaling \$11.3 million that will be amortized over approximately 12 years. Additional adjustments to the purchase price of up to \$0.8 million may occur through September 2006 as a result of contingent consideration in accordance with the acquisition agreement.

On April 1, 2005, the Company acquired the assets of Skilled Care Pharmacy, an operator of two institutional pharmacies in California (the SCP Acquisition). The transaction was financed through the use of existing cash and the Company's revolving credit facility. Goodwill recorded in connection with the SCP Acquisition aggregated \$16.7 million. The purchase price also included acquired identifiable intangible assets totaling \$10.4 million that will be amortized over approximately 13 years.

A preliminary summary of both the PPI Acquisition and the SCP Acquisition follows (in thousands):

	<b>PPI Acquisition</b>	<b>SCP Acquisition</b>
	<u>          </u>	<u>          </u>
Fair value of assets acquired, including goodwill and other intangible assets	\$ 31,085	\$ 37,480
Fair value of liabilities assumed	(213)	(732)
	<u>          </u>	<u>          </u>
Net cash paid	<b>\$ 30,872</b>	<b>\$ 36,748</b>
	<u>          </u>	<u>          </u>

The purchase price of the assets acquired in both the PPI Acquisition and the SCP Acquisition resulted from negotiations with each of the respective sellers that were based upon both the historical and expected future cash flows of the respective enterprises.

The operating results of these acquisitions have been included in the accompanying unaudited condensed consolidated financial statements of the Company since the respective acquisition dates.

**NOTE 7 REVENUES**

Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

Revenues are recorded based upon estimated amounts due from patients and third party payors for healthcare services provided, including anticipated settlements under reimbursement agreements with Medicare, Medicaid and other third party payors.

A summary of revenues by payor type follows (in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2005	2004	2005	2004
Medicare	\$ 406,553	\$ 366,073	\$ 1,284,988	\$ 1,125,135

**NOTE 9 BUSINESS SEGMENT DATA**

As described in Note 1, the Company operates four business segments: the hospital division, the health services division, the rehabilitation division and the pharmacy division.

The Company defines operating income as earnings before interest, income taxes, depreciation, amortization and rent. Operating income reported for each of the Company's business segments excludes the allocation of corporate overhead.

**Table of Contents****KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 9 BUSINESS SEGMENT DATA (Continued)**

On July 1, 2004, the rehabilitation division and pharmacy division began providing services to the Company's hospital division. Internal personnel from the hospital division were transferred to the rehabilitation division and pharmacy division in conjunction with the realignment of these services (the Hospital Services Reorganization).

The Company identifies its segments in accordance with the aggregation provisions of SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information. This information is consistent with information used by the Company in managing its businesses and aggregates businesses with similar economic characteristics.

The following table sets forth certain data by business segment (in thousands):

	<b>Three months ended</b>		<b>Nine months ended</b>

**Table of Contents****KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 10 INSURANCE RISKS**

The Company insures a substantial portion of its professional liability risks and workers compensation risks through a wholly owned limited purpose insurance subsidiary. Provisions for loss for these risks are based upon independent actuarially determined estimates.

The allowance for professional liability risks includes an estimate of the expected cost to settle reported claims and an amount, based upon past experiences, for losses incurred but not reported. These liabilities are necessarily based upon estimates and, while management believes that the provision for loss is adequate, the ultimate liability may be in excess of or less than the amounts recorded. To the extent that subsequent expected ultimate claims costs vary from historical provisions for loss, future earnings will be charged or credited.

The provision for loss for insurance risks, including the cost of coverage maintained with unaffiliated commercial insurance carriers, follows (in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2005	2004	2005	2004

**KINDRED HEALTHCARE, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**NOTE 10 INSURANCE RISKS (Continued)**

Provisions for loss for professional liability risks retained by the limited purpose insurance subsidiary have been discounted based upon management's estimate of long-term investment yields and independent actuarial estimates of claim payment patterns. The interest rate used to discount funded professional liability risks in each period presented was 5%. Amounts equal to the discounted loss provision are funded annually. The Company does not fund the portion of professional liability risks related to estimated claims that have been incurred but not reported. Accordingly, these liabilities are not discounted. If the Company did not discount any of the allowances for professional liability risks, these balances would have approximated \$272.1 million at September 30, 2005 and \$302.3 million at December 31, 2004.

Provisions for loss for workers compensation risks retained by the limited purpose insurance subsidiary are not discounted and amounts equal to the loss provision are funded annually.

As a result of improved professional liability underwriting results of the Company's limited purpose insurance subsidiary, the Company received a return of capital of approximately \$30 million from its limited purpose insurance subsidiary during the second quarter of 2005.

**Table of Contents****KINDRED HEALTHCARE, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****NOTE 11 LEASES**

Under the Plan of Reorganization, the Company assumed the original master lease agreements with Ventas and its affiliates and simultaneously amended and restated the agreements into four new master leases (the Master Leases ). Under the Master Leases, Ventas has a right to sever properties from the existing leases in order to create additional leases, a device adopted to facilitate its financing flexibility. In such circumstances, the aggregate lease obligations remain unchanged. Ventas exercised this severance right in December 2001 with respect to Master Lease No. 1 to create a new lease of 40 nursing centers (the CMBS Lease ) and mortgaged these properties in connection with a securitized mortgage financing. In September 2004, Ventas exercised this severance right with respect to Master Lease No. 1 to create a new lease of one hospital and seven nursing centers ( Master Lease No. 1A ). The CMBS Lease and Master Lease No. 1A are in substantially the same form as the other Master Leases with certain modifications requested by Ventas's lenders and required to be made by the Company pursuant to the Master Leases.

The Master Leases, the CMBS Lease and Master Lease No. 1A are referred to collectively as, the Master Lease Agreements. At September 30, 2005, the Company leased from Ventas 39 long-term acute care hospitals and 186 nursing centers.

**NOTE 11 LEASES (Continued)**

Ventas has a one-time option to reset the rent and the related rent escalators under each of its original Master Leases with the Company to the Fair Market Rental of the leased properties. Fair Market Rental is determined through an appraisal procedure set forth in the Master Leases.

Generally, the Master Leases provide that Ventas can initiate the rent reset procedure under each Master Lease at any time between January 20, 2006 and July 19, 2007 by delivering a notice to the Company proposing the Fair Market Rental (as described below) for the balance of the lease term (the Reset Proposal Notice). If the Company and Ventas are unable to reach an agreement on the Fair Market Rental within 30 days following delivery of the Reset Proposal Notice, the Company and Ventas each must select an independent appraiser. These two appraisers then will have ten days to select a third independent appraiser (the Independent Appraiser). The Independent Appraiser will have 60 days to complete its determination of Fair Market Rental and the annual rent escalator, which determination will be final and binding on the parties. Within 30 days following the Independent Appraiser's determination, Ventas may elect to exercise its right to reset Fair Market Rental by sending the Company a final exercise notice (the Final Exercise Notice).

Alternatively, Ventas may decide not to exercise its rent reset option, in which event the rent and existing 3 1/2% contingent annual escalator would remain at their then current levels under the Master Leases. Provided that Ventas exercises its rent reset right in accordance with the Master Leases, the rent reset will become effective on the later of July 19, 2006 or the date of delivery of the Reset Proposal Notice, which can be no later than July 19, 2007.

As a condition to exercising its rent reset right, upon delivery of the Final Exercise Notice, Ventas is required to pay the Company a reset fee equal to a prorated portion of \$5 million based upon the proportion of base rent payable under the Master Lease(s) with respect to which rent is reset to the total base rent payable under all of the Master Leases.

Fair Market Rental is generally defined under the Master Leases as the amount (including escalations) that a willing tenant would pay, and a willing landlord would accept, for leasing the leased properties for the term (including renewal terms). Fair Market Rental is to be determined on the basis of certain assumptions, including (1) all leased properties are in good condition and repair (given their respective ages and prevailing healthcare industry standards with respect to what is considered good condition and repair), without any deferred maintenance (but allowing for ordinary wear and tear), (2) all leased properties are in material compliance with applicable laws and have all authorizations necessary for use as a nursing center or hospital, as applicable, and (3) the replacement cost of the leased properties are not determinative of Fair Market Rental. In addition, Fair Market Rental shall take into account market conditions, market levels of earnings before interest, income taxes, depreciation, amortization, rent and management fees (EBITDARM), the ratio of market levels of EBITDARM to market levels of rent and the actual levels of EBITDARM at the applicable leased properties, as well as historical levels of EBITDARM at the applicable leased properties (including the EBITDARM of the leased properties measured as of April 20, 2001).

As previously discussed, under the Master Leases, Ventas has a right to sever properties from the existing leases in order to create additional leases, a device adopted to facilitate its financing flexibility. However, for purposes of the rent reset right, the additional leases are disregarded

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

and the Fair Market Rental is determined for each of the four original Master Leases.

Additional information regarding the Master Lease Agreements is contained in the Company's Form 10-K for the year ended December 31, 2004 and copies of the Master Lease Agreements filed with the SEC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**NOTE 12 CONTINGENCIES**

Management continually evaluates contingencies based upon the best available information. In addition, allowances for loss are provided currently for disputed items that have continuing significance, such as certain third party reimbursements and deductions that continue to be claims in current cost reports and tax returns.

Management believes that allowances for losses have been provided to the extent necessary and that its assessment of contingencies is reasonable.

Principal contingencies are described below:

*Revenues* Certain third party payments are subject to examination by agencies administering the various programs. The Company is contesting certain issues raised in audits of prior year cost reports.

*Professional liability risks* The Company has provided for loss for professional liability risks based upon actuarially determined estimates. Ultimate claims costs may differ from the provisions for loss. See Notes 3 and 10.

*Guarantees of indebtedness* Letters of credit and guarantees of indebtedness approximated \$5.3 million at September 30, 2005.

*Income taxes* In November 2004, the Internal Revenue Service (the IRS) proposed certain adjustments to the Company's 2000 and 2001 federal income tax returns which the Company is contesting. The principal proposed adjustment relates to the manner of reduction of the Company's tax attributes, primarily its net operating loss carryforwards (NOLs), in connection with the Company's emergence from proceedings under the Bankruptcy Code. These proposed adjustments could have the effect of substantially eliminating the Company's NOLs.

*Litigation* The Company is a party to certain material litigation as well as various suits and claims arising in the ordinary course of business. See Note 13.

*Other indemnifications* In the ordinary course of business, the Company enters into contracts containing standard indemnification provisions and indemnifications specific to a transaction such as a disposal of an operating facility. These indemnifications may cover claims against

employment-related matters, governmental regulations, environmental issues, and tax matters, as well as patient, third party payor, supplier and contractual relationships. Obligations under these indemnities generally would be initiated by a breach of the terms of the contract or by a third party claim or event.

#### **NOTE 13 LITIGATION**

Summary descriptions of various significant litigation follow.

A shareholder derivative suit entitled *Thomas G. White on behalf of Vencor, Inc. and Ventas, Inc. v. W. Bruce Lunsford, et al.*, Case No. 98CI03669, was filed on July 2, 1998 in the Jefferson County, Kentucky, Circuit Court. The suit was brought on behalf of the Company and Ventas against certain former executive officers and directors of the Company and Ventas. The complaint alleges that the defendants damaged the Company and Ventas by engaging in violations of the securities laws, engaging in insider trading, fraud and securities fraud and damaging the reputation of the Company and Ventas. The plaintiff asserts that such actions were taken deliberately, in bad faith and constitute breaches of the defendants' duties of loyalty and due care. The complaint alleges that certain of the Company's and Ventas's former executive officers during a specified time frame violated Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 (the Exchange Act), by, among other things, issuing to the investing public a series of false and misleading statements concerning

---

**Table of Contents**

**KINDRED HEALTHCARE, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**NOTE 13 LITIGATION (Continued)**

Ventas' s then current operations and the inherent value of its common stock. The complaint further alleges that as a result of these purported false and misleading statements concerning Ventas' s revenues and successful acquisitions, the price of its common stock was artificially inflated. In particular, the complaint alleges that the defendants issued false and misleading financial statements during the first, second and third calendar quarters of 1997 which misrepresented and understated the impact that changes in Medicare reimbursement policies would have on Ventas' s core services and profitability. The complaint further alleges that the defendants issued a series of materially false statements concerning the purportedly successful integration of Ventas' s acquisitions and prospective earnings per share for 1997 and 1998, which the defendants knew lacked any reasonable basis and were not being achieved. The suit seeks unspecified damages, interest, punitive damages, reasonable attorneys fees, expert witness fees and other costs, and any extraordinary equitable and/or injunctive relief permitted by law or equity to assure that the Company and Ventas have an effective remedy. In October 2002, the defendants filed a motion to dismiss for failure to prosecute the case. The court granted the motion to dismiss but the plaintiff subsequently moved the court to vacate the dismissal. The defendants filed an opposition to the plaintiff' s motion to vacate the dismissal, but in August 2003 the court reinstated the lawsuit. In September 2003, the Company filed a renewed motion to dismiss, as to all defendants, based upon the plaintiff' s failure to make a demand for remedy upon the appropriate board of directors. On July 26, 2005, the court granted the defendants' motion to dismiss based upon the plaintiff' s failure to make a statutorily required demand for remedy upon the appropriate board of directors. On August 25, 2005, the plaintiff filed an appeal with the Court of Appeals of Kentucky. The parties currently are awaiting the Court of Appeals' order setting a briefing schedule. The Company believes that the allegations in the complaint are without merit and intends to defend this action vigorously.

The Company is a party to various legal actions (some of which are not insured), and regulatory and other government investigations and sanctions arising in the ordinary course of its business. The Company is unable to predict the ultimate outcome of pending litigation and regulatory and other government investigations. In addition, there can be no assurance that the U.S. Department of Justice (the DOJ), the Centers for Medicare and Medicaid Services (CMS) or other federal and state enforcement and regulatory agencies will not initiate additional investigations related to the Company' s businesses in the future, nor can there be any assurance that the resolution of any litigation or investigations, either individually or in the aggregate, would not have a material adverse effect on the Company' s financial position, results of operations or liquidity.

**NOTE 14 SUBSEQUENT EVENTS**

*Commonwealth acquisition*

On October 24, 2005, the Company announced that it had signed a definitive agreement (the Agreement) to acquire the operations of the long-term acute care hospitals, skilled nursing facilities and assisted living facilities operated by Commonwealth Communities Holdings LLC and certain of its affiliates (collectively, Commonwealth) for a total purchase price of \$125 million in cash.

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

Commonwealth operates five freestanding hospitals and one hospital-in-hospital with a total of 421 hospital beds. Three of these hospitals also operate co-located subacute units and traditional skilled nursing units with a total of 168 beds. In addition, the Company will acquire the operations of nine skilled nursing facilities containing 1,316 beds and four assisted living facilities with a total of 215 beds. In the transaction, the Company also will acquire Commonwealth's right to develop 95 additional hospital beds in Massachusetts. All of Commonwealth's facilities are located in Massachusetts except for two freestanding assisted living facilities located in Maine.

**Table of Contents**

**KINDRED HEALTHCARE, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**NOTE 14 SUBSEQUENT EVENTS (Continued)**

*Commonwealth acquisition (Continued)*

The transaction is subject to several regulatory approvals and other conditions to closing, including the expiration of the waiting period under the Hart-Scott-Rodino Antitrust Improvement Act of 1976, as amended. The transaction is expected to close in the first quarter of 2006.

The foregoing description of the Commonwealth transaction does not purport to be complete and is qualified in its entirety by reference to the Agreement, a copy of which has been filed with the SEC.

The Agreement has been filed with the SEC to provide investors with information regarding its terms. Except for their status as the contractual documents that establish and govern legal relations among the parties, the Agreement is not intended to be a source of factual, business or operational information about the parties.

The representations, warranties and covenants made by the parties in the Agreement are qualified, including by the information in the schedules referenced in the Agreement that the parties delivered in connection with the execution of the Agreement. Representations and warranties may be used as a tool to allocate risks between the respective parties to the Agreement, including where the parties do not have complete knowledge of all facts, instead of establishing these matters as facts. Furthermore, they may be subject to standards of materiality applicable to the contracting parties, which may differ from those applicable to investors. These representations and warranties may or may not have been accurate as of any specific date and do not purport to be accurate as of the date of this filing. Accordingly, they should not be relied upon as statements of factual information.

The Company also announced that it has entered into a non-binding term sheet to purchase the real estate associated with four of Commonwealth's freestanding hospitals from an affiliate of Health Care REIT, Inc. ( HCN ) for \$80 million in cash. In addition, the Company will enter into a new master lease with HCN to lease the nine Commonwealth skilled nursing facilities and the two assisted living facilities for an initial annual rental of approximately \$10.7 million with an annual rent escalator that should approximate 2 1/2%. The Company anticipates that the transaction with HCN would close simultaneously with the Commonwealth closing.

The transaction with HCN is subject to a number of conditions including, without limitation, entering into definitive agreements, the receipt of certain other approvals and the successful closing of the Commonwealth transaction.

*Pharmacy acquisition*

On November 1, 2005, the Company acquired the assets of RXPERTS, Inc. ( RXPERTS ), an operator of an institutional pharmacy in Illinois. RXPERTS currently provides services to approximately 8,600 customer beds and generates annualized revenues of approximately \$45 million. The cost of the transaction approximated \$35 million and was financed through the use of existing cash.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS**

**Cautionary Statement**

This Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. All statements regarding the Company's expected future financial position, results of operations, cash flows, financing plans, business strategy, budgets, capital expenditures, competitive positions, growth opportunities, plans and objectives of management and statements containing the words such as "anticipate," "approximate," "believe," "plan," "estimate," "expect," "project," "could," "intend," "may" and other similar expressions, are forward-looking statements.

Such forward-looking statements are inherently uncertain, and stockholders and other potential investors must recognize that actual results may differ materially from the Company's expectations as a result of a variety of factors, including, without limitation, those discussed below. Such forward-looking statements are based upon management's current expectations and include known and unknown risks, uncertainties and other factors, many of which the Company is unable to predict or control, that may cause the Company's actual results or performance to differ materially from any future results or performance expressed or implied by such forward-looking statements. These statements involve risks, uncertainties and other factors discussed below and detailed from time to time in the Company's filings with the SEC. Factors that may affect the Company's plans or results include, without limitation:

the Company's ability to operate pursuant to the terms of its debt obligations and its Master Lease Agreements with Ventas,

the Company's ability to meet its rental and debt service obligations,

adverse developments with respect to the Company's results of operations or liquidity,

the Company's ability to attract and retain key executives and other healthcare personnel,

increased operating costs due to shortages in qualified nurses, therapists and other healthcare personnel,

the effects of healthcare reform and government regulations, interpretation of regulations and changes in the nature and enforcement of regulations governing the healthcare industry,

changes in the reimbursement rates or methods of payment from third party payors, including the Medicare and Medicaid programs, changes arising from and related to the Medicare prospective payment system for long-term acute care hospitals ( "LTAC PPS" ), the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 ( "MMA" ), and changes in nursing center Medicare reimbursement resulting from revised resource utilization groupings ( "RUGs" ) payments,

national and regional economic conditions, including their effect on the availability and cost of labor, materials and other services,

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

the Company's ability to control costs, including labor and employee benefit costs,

the Company's ability to comply with the terms of its Corporate Integrity Agreement,

the Company's ability to successfully pursue its development activities and successfully integrate new operations, including the realization of anticipated revenues, economies of scale, cost savings and productivity gains associated with such operations,

the increase in the costs of defending and insuring against alleged professional liability claims and the Company's ability to predict the estimated costs related to such claims,

the Company's ability to successfully reduce (by divestiture of operations or otherwise) its exposure to professional liability claims,

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Cautionary Statement (Continued)**

the Company's ability to successfully dispose of unprofitable facilities, and

the Company's ability to ensure and maintain an effective system of internal controls over financial reporting.

Many of these factors are beyond the Company's control. The Company cautions investors that any forward-looking statements made by the Company are not guarantees of future performance. The Company disclaims any obligation to update any such factors or to announce publicly the results of any revisions to any of the forward-looking statements to reflect future events or developments.

**General**

The business segment data in Note 9 of the Notes to Condensed Consolidated Financial Statements should be read in conjunction with the following discussion and analysis.

The Company through its subsidiaries operates hospitals, nursing centers, institutional pharmacies and a contract rehabilitation services business across the United States. At September 30, 2005, the Company's hospital division operated 73 hospitals (5,603 licensed beds) in 24 states. The Company's health services division operated 245 nursing centers (31,323 licensed beds) in 28 states. The Company's pharmacy division operated an institutional pharmacy business with 39 pharmacies in 23 states and a pharmacy management business servicing substantially all of the Company's hospitals. The Company also operated a contract rehabilitation services business which began operating as a separate division on January 1, 2004.

On July 1, 2004, the Company completed the Hospital Services Reorganization.

In recent years, the Company has completed several transactions related to the divestiture of unprofitable hospitals, nursing centers and other healthcare businesses to improve its future operating results. For accounting purposes, the operating results of these businesses and the losses associated with these transactions have been classified as discontinued operations in the accompanying unaudited condensed consolidated statement of operations for all periods presented. Assets not sold at September 30, 2005 have been measured at the lower of carrying value or estimated fair value less costs of disposal and have been classified as held for sale in the accompanying unaudited condensed consolidated balance sheet. See Note 3 of the Notes to Condensed Consolidated Financial Statements.

In April 2001, the Company and its subsidiaries emerged from proceedings under the Bankruptcy Code pursuant to the terms of the Plan of Reorganization.

**Critical Accounting Policies**

Management's discussion and analysis of financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the use of estimates and judgments that affect the reported amounts and related disclosures of commitments and contingencies. The Company relies on historical experience and on various other assumptions that management believes to be reasonable under the circumstances to make judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates.

The Company believes the following critical accounting policies, among others, affect the more significant judgments and estimates used in the preparation of its consolidated financial statements.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Critical Accounting Policies (Continued)**

*Revenue recognition*

The Company has agreements with third party payors that provide for payments to each of its operating divisions. These payment arrangements may be based upon prospective rates, reimbursable costs, established charges, discounted charges or per diem payments. Net patient service revenue is reported at the estimated net realizable amounts from Medicare, Medicaid, other third party payors and individual patients for services rendered. Retroactive adjustments that are likely to result from future examinations by third party payors are accrued on an estimated basis in the period the related services are rendered and adjusted as necessary in future periods based upon final settlements.

Operating results for the third quarter and nine months ended September 30, 2005 included revenues of approximately \$5 million and \$63 million, respectively, related to the settlement of prior year hospital Medicare cost reports. For the third quarter and nine months ended September 30, 2004, the Company recorded revenues of approximately \$2 million and \$8 million, respectively, related to the settlement of prior year hospital Medicare cost reports.

Operating results for the nine months ended September 30, 2005 also included revenues of \$33 million (including a \$1 million favorable adjustment recorded in the third quarter of 2005) related to retroactive nursing center Medicaid rate increases in the state of Indiana, of which approximately \$29 million related to prior years. Operating results for the nine months ended September 30, 2004 included revenues of \$9 million related to retroactive nursing center Medicaid rate increases in the state of North Carolina, approximately one-half of which related to a prior year.

See Note 4 of the Notes to Condensed Consolidated Financial Statements.

*Collectibility of accounts receivable*

Accounts receivable consist primarily of amounts due from the Medicare and Medicaid programs, other government programs, managed care health plans, commercial insurance companies and individual patients. Estimated provisions for doubtful accounts are recorded to the extent it is probable that a portion or all of a particular account will not be collected.

In evaluating the collectibility of accounts receivable, the Company considers a number of factors, including the age of the accounts, changes in collection patterns, the composition of patient accounts by payor type, the status of ongoing disputes with third party payors and general industry conditions. Actual collections of accounts receivable in subsequent periods may require changes in the estimated provision for loss. Changes in these estimates are charged or credited to the results of operations in the period of the change.

The provision for doubtful accounts totaled \$3 million and \$4 million for the third quarter of 2005 and 2004, respectively, and totaled \$12 million and \$16 million for the nine months ended September 30, 2005 and 2004, respectively.

*Allowances for insurance risks*

The Company insures a substantial portion of its professional liability risks and workers compensation risks through a wholly owned limited purpose insurance subsidiary. Provisions for loss for these risks are based upon independent actuarially determined estimates.

---

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Critical Accounting Policies (Continued)**

*Allowances for insurance risks (Continued)*

The allowance for professional liability risks includes an estimate of the expected cost to settle reported claims and an amount, based upon past experiences, for losses incurred but not reported. These liabilities are necessarily based upon estimates and, while management believes that the provision for loss is adequate, the ultimate liability may be in excess of or less than the amounts recorded. To the extent that subsequent expected ultimate claims costs vary from historical provisions for loss, future earnings will be charged or credited.

Provisions for loss for professional liability risks retained by the limited purpose insurance subsidiary have been discounted based upon management's estimate of long-term investment yields and independent actuarial estimates of claim payment patterns. The interest rate used to discount funded professional liability risks in each period presented was 5%. Amounts equal to the discounted loss provision are funded annually. The Company does not fund the portion of professional liability risks related to estimated claims that have been incurred but not reported. Accordingly, these liabilities are not discounted. The allowance for professional liability risks aggregated \$259 million at September 30, 2005 and \$287 million at December 31, 2004. If the Company did not discount any of the allowances for professional liability risks, these balances would have approximated \$272 million at September 30, 2005 and \$302 million at December 31, 2004.

Changes in the number of professional liability claims and the cost to settle these claims significantly impact the allowance for professional liability risks. A relatively small variance between the Company's estimated and ultimate actual number of claims or average cost per claim could have a material impact, either favorable or unfavorable, on the adequacy of the allowance for professional liability risks. For example, a 1% variance in the allowance for professional liability risks at September 30, 2005 would impact the Company's operating income by approximately \$3 million. During the third quarter of 2005 and 2004, the Company recorded a favorable pretax change in estimate aggregating approximately \$4 million and \$11 million, respectively, and \$37 million and \$11 million for the nine months ended September 30, 2005 and 2004, respectively, for professional liability reserves related primarily to its former nursing centers in Florida and Texas (included in discontinued operations).

The provision for professional liability risks (continuing operations), including the cost of coverage maintained with unaffiliated commercial insurance carriers, aggregated \$19 million and \$18 million in the third quarter of 2005 and 2004, respectively, and \$60 million for the nine months ended September 30, 2005 and 2004.

Provisions for loss for workers compensation risks retained by the limited purpose insurance subsidiary are not discounted and amounts equal to the loss provision are funded annually. The allowance for workers compensation risks aggregated \$78 million at September 30, 2005 and \$72 million at December 31, 2004. The provision for workers compensation risks, including the cost of coverage maintained with unaffiliated commercial insurance carriers, aggregated \$12 million for the third quarter of both 2005 and 2004 and \$37 million for both nine month periods ended September 30, 2005 and 2004.

See Note 10 of the Notes to Condensed Consolidated Financial Statements.

*Accounting for income taxes*

The provision for income taxes is based upon the Company's estimate of taxable income or loss for each respective accounting period. The Company recognizes an asset or liability for the deferred tax consequences of temporary differences between the tax bases of assets and liabilities and their reported amounts in the financial statements. These temporary differences will result in taxable or deductible amounts in future years when the reported amounts of the assets are recovered or liabilities are settled. The Company also recognizes as deferred

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Critical Accounting Policies (Continued)**

*Accounting for income taxes (Continued)*

tax assets the future tax benefits from net operating and capital loss carryforwards. A valuation allowance is provided for these deferred tax assets if it is more likely than not that some portion or all of the net deferred tax assets will not be realized.

There are significant uncertainties with respect to professional liability costs and future government payments to both the Company's hospitals and nursing centers which, among other things, could affect materially the realization of certain deferred tax assets. Accordingly, the Company has recognized deferred tax assets to the extent it is more likely than not they will be realized and a valuation allowance is provided for deferred tax assets to the extent the realizability of the deferred tax assets is uncertain. The Company recognized deferred tax assets totaling approximately \$182 million at September 30, 2005 and \$161 million at December 31, 2004.

In November 2004, the IRS proposed certain adjustments to the Company's 2000 and 2001 federal income tax returns which the Company is contesting. The principal proposed adjustment relates to the manner of reduction of the Company's tax attributes, primarily its NOLs, in connection with the Company's emergence from proceedings under the Bankruptcy Code. These proposed adjustments could have the effect of substantially eliminating the Company's NOLs. However, management believes at this time that the ultimate resolution of these issues will not have a material adverse effect on the Company's financial position, results of operations or liquidity.

The Company is subject to various income tax audits at the federal and state levels in the ordinary course of business. Such audits could result in increased tax payments, interest and penalties. While the Company believes its tax positions are appropriate, there can be no assurance that the various authorities engaged in the examination of its income tax returns will not challenge the Company's positions.

*Valuation of long-lived assets and goodwill*

The Company regularly reviews the carrying value of certain long-lived assets and the related identifiable intangible assets with respect to any events or circumstances that indicate an impairment or an adjustment to the amortization period is necessary. If circumstances suggest the recorded amounts cannot be recovered based upon estimated future undiscounted cash flows, the carrying values of such assets are reduced to fair value.

In assessing the carrying values of long-lived assets, the Company estimates future cash flows at the lowest level for which there are independent, identifiable cash flows. For this purpose, these cash flows are aggregated based upon the contractual agreements underlying the operation of the facility or group of facilities. Generally, an individual facility is considered the lowest level for which there are independent,

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

identifiable cash flows. However, to the extent that groups of facilities are leased under a master lease agreement in which the operations of a facility and compliance with the lease terms are interdependent upon other facilities in the agreement (including the Company's ability to renew the lease or divest a particular property), the Company defines the group of facilities under the master lease agreement as the lowest level for which there are independent, identifiable cash flows. Accordingly, the estimated cash flows of all facilities within a master lease agreement are aggregated for purposes of evaluating the carrying values of long-lived assets.

In connection with SFAS No. 142, Goodwill and Other Intangible Assets, the Company is required to perform an impairment test for goodwill at least annually or more frequently if adverse events or changes in circumstances indicate that the asset may be impaired. The Company performs its annual impairment test at the end of each year. No impairment charge was recorded at December 31, 2004 in connection with the annual impairment test.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Recent Developments**

Medicare payments to the Company's nursing centers are based upon certain RUGs payment rates developed by CMS that provide various levels of reimbursement based upon patient acuity. On July 28, 2005, CMS published the final rules related to revised payment rates to nursing centers. Among other things, the final rules provide for a 3.1% inflation update to all RUGs categories effective October 1, 2005. Based upon current Part A Medicare payment rates, the Company expects that these rates will increase from approximately \$350 per patient day to approximately \$360 per patient day on October 1, 2005.

In addition, the final rules increase the indexing of RUGs categories, expand the total RUGs categories from 44 to 53 and eliminate the 20% payment add-on for the care of higher acuity patients that had been in effect since 2000 under the Balanced Budget Refinement Act (the BBRA). These changes are expected to reduce Medicare Part A per diem rates to the Company's nursing centers from \$360 per patient day to approximately \$345 per patient day beginning on January 1, 2006.

On August 1, 2005, CMS published the final rules related to the weights for diagnosis related groups (DRGs) and the geometric length-of-stay thresholds that take effect for hospital Medicare discharges occurring on or after October 1, 2005. In connection with the final rules, CMS estimated that these changes could result in an aggregate reduction in payments to long-term acute care hospitals of approximately 4.2%. The Company expects these changes to reduce Medicare revenues to the Company's hospitals between \$35 million to \$40 million on an annual basis based upon the Company's historical Medicare patient volumes.

**Results of Operations - Continuing Operations**

***Hospital Division***

Revenues increased 11% to \$389 million in the third quarter of 2005 from \$350 million in the same period a year ago and 17% to \$1.2 billion for the nine months ended September 30, 2005 from \$1.0 billion in the same period last year. Revenue growth in both periods resulted primarily from growth in admissions, new hospital development and the previously discussed Medicare cost report settlements. On a same-store basis, revenues increased 7% in the third quarter of 2005 and 8% for the nine months ended September 30, 2005 compared to the same periods a year ago.

Admissions rose 9% in both the third quarter and nine months ended September 30, 2005 compared to the respective prior year periods, while patient days rose 3% in both the third quarter and nine months ended September 30, 2005 compared to the same periods a year ago as a result of reduced length of stay. On a same-store basis, admissions increased 6% in the third quarter of 2005 and 5% for the nine months ended September 30, 2005 compared to the respective prior year periods, while patient days were relatively unchanged in both the third quarter and nine months ended September 30, 2005 compared to the respective prior year periods.

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

Hospital wage and benefit costs increased 10% to \$171 million for the third quarter of 2005 compared to \$156 million in the same period last year and increased 4% to \$514 million for the nine months ended September 30, 2005 compared to \$495 million reported in the same period last year. Wage and benefit costs for the nine month period ended September 30, 2005 included \$3 million related to a special recognition payment to the Company's non-executive caregivers and employees. Average hourly wage rates grew 3% and 4% for the third quarter and nine months ended September 30, 2005, respectively, compared to the same periods a year ago. The Hospital Services Reorganization that took effect on July 1, 2004 had the effect of reducing hospital wage and benefit costs and increasing other hospital operating expenses.

Hospital operating income increased 15% to \$91 million in the third quarter of 2005 from \$79 million in the same period a year ago and increased 33% to \$327 million for the nine months ended September 30, 2005 from \$245 million in the same period a year ago.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Results of Operations - Continuing Operations (Continued)**

*Hospital Division (Continued)*

Excluding the items discussed in Note 4 of the Notes to Condensed Consolidated Financial Statements, hospital operating income grew 12% in the third quarter and 13% for the nine months ended September 30, 2005 compared to the same periods last year. Growth in hospital operating income in both periods was primarily attributable to growth in admissions, operating efficiencies and generally favorable reimbursement rates. Operating income in the third quarter and nine months ended September 30, 2005 was reduced by approximately \$5 million and \$13 million, respectively, compared to \$4 million in both the third quarter and nine months ended September 30, 2004, in connection with the Hospital Services Reorganization. Aggregate operating costs per admission, including costs associated with the Hospital Services Reorganization, increased 1% and 2% in the third quarter and nine months ended September 30, 2005, respectively, compared to the same prior year periods.

Professional liability costs were \$5 million in the third quarter of both 2005 and 2004 and \$16 million for both nine month periods ended September 30, 2005 and 2004.

*Health Services Division*

Revenues increased 5% to \$466 million in the third quarter of 2005 compared to \$444 million in the same period a year ago and increased 6% to \$1.4 billion for the nine months ended September 30, 2005 from \$1.3 billion in the same period last year. Revenues increased primarily as a result of generally favorable reimbursement rates.

Excluding the previously discussed retroactive Medicaid rate increases, aggregate revenues per patient day increased 7% in the third quarter of 2005 and 6% for the nine months ended September 30, 2005 compared to the respective prior year periods. Aggregate patient days declined 1% in the third quarter of 2005 and 2% for the nine months ended September 30, 2005 compared to the respective prior year periods.

Nursing center wage and benefit costs increased 5% to \$252 million in the third quarter of 2005 compared to \$239 million for the same period a year ago and increased 5% to \$745 million for the nine months ended September 30, 2005 compared to \$707 million for the same period a year ago. Wage and benefit costs for the nine month period ended September 30, 2005 included \$9 million related to a special recognition payment to the Company's non-executive caregivers and employees. Average hourly wage rates increased 5% in the third quarter and 4% for the nine months ended September 30, 2005 compared to the same periods a year ago, while employee benefit costs increased 1% in the respective periods.

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

Nursing center operating income declined 13% to \$50 million in the third quarter of 2005 compared to \$58 million in the third quarter of 2004 and was relatively unchanged at \$169 million for the nine months ended September 30, 2005 compared to the same period a year ago. Excluding the items discussed in Note 4 of the Notes to Condensed Consolidated Financial Statements, nursing center operating income declined 15% and 2% for the third quarter and nine months ended September 30, 2005, respectively, compared to the same periods last year. Despite generally favorable reimbursement rates, adjusted nursing center operating income for the third quarter of 2005 declined primarily due to a decline in census and an increase in wage and contract labor costs in connection with the Company's efforts to improve the quality of its services. Aggregate operating costs per patient day increased 10% in the third quarter of 2005 compared to the same period last year.

Professional liability costs were \$13 million in the third quarter of both 2005 and 2004, and \$43 million and \$44 million for the nine months ended September 30, 2005 and 2004, respectively.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Results of Operations - Continuing Operations (Continued)**

***Rehabilitation Division***

Revenues increased 7% to \$66 million in the third quarter of 2005 from \$61 million for the same period a year ago and increased 18% to \$196 million for the nine months ended September 30, 2005 from \$166 million for the same period a year ago. Revenues derived from unaffiliated customers aggregated \$15 million in the third quarter of both 2005 and 2004, and \$46 million and \$48 million for the nine months ended September 30, 2005 and 2004, respectively.

Operating income increased 2% in the third quarter of 2005 compared to the same period a year ago and increased 5% for the nine months ended September 30, 2005 compared to the same period a year ago. The Company continues to face challenges related to wage pressures, recruitment costs and retention of therapists in a highly competitive marketplace.

***Pharmacy Division***

Revenues increased 40% to \$135 million in the third quarter of 2005 compared to \$97 million for the same period a year ago and increased 44% to \$375 million for the nine months ended September 30, 2005 compared to \$261 million for the same period a year ago. The increase in revenues in both periods resulted primarily from acquisitions, price increases and, for the first nine months of 2005, same-store growth in the number of non-affiliated customers. At September 30, 2005, the Company provided pharmacy services to nursing centers containing 83,900 licensed beds, including 28,700 licensed beds that it operates. At September 30, 2004, the Company provided pharmacy services to nursing centers containing 65,100 licensed beds, including 28,500 licensed beds that it operates. Aggregate revenues associated with both the PPI Acquisition and the SCP Acquisition totaled \$25 million and \$53 million in the third quarter and nine months ended September 30, 2005, respectively.

Pharmacy operating income increased 33% to \$14 million in the third quarter of 2005 from \$11 million in the same period a year ago and increased 50% to \$39 million for the nine months ended September 30, 2005 from \$26 million for the same period a year ago. Aggregate operating income associated with both the PPI Acquisition and the SCP Acquisition totaled \$2 million in the third quarter of 2005 and \$5 million for the nine months ended September 30, 2005. The cost of goods sold as a percentage of institutional pharmacy revenues was 65.9% and 65.3% in the third quarter and nine months ended September 30, 2005, respectively, compared to 65.3% and 65.2% in the respective prior year periods. Operating income for the nine months ended September 30, 2005 was favorably impacted by the Hospital Services Reorganization.

***Corporate Overhead***

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

Operating income for the Company's operating divisions excludes allocations of corporate overhead. These costs aggregated \$33 million and \$100 million in the third quarter and nine months ended September 30, 2005, respectively, compared to \$33 million and \$90 million in the respective prior year periods. Corporate overhead for the nine months ended September 30, 2005 included a \$5 million charge related to a charitable donation, while corporate overhead for the third quarter of 2004 included a \$3 million charge related to a terminated pension plan. As a percentage of consolidated revenues, corporate overhead totaled 3.4% in both the third quarter and nine months ended September 30, 2005 compared to 3.8% and 3.5% in the respective prior year periods.

Corporate expenses included the operating losses of the Company's limited purpose insurance subsidiary of \$3 million and \$8 million in the third quarter and nine months ended September 30, 2005, respectively, and \$2 million and \$5 million in the same periods a year ago.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Results of Operations - Continuing Operations (Continued)**

*Capital Costs*

Rent expense increased to \$69 million in the third quarter of 2005 compared to \$66 million for the same period a year ago and increased to \$206 million for the nine months ended September 30, 2005 compared to \$194 million for the same period a year ago. A substantial portion of the increase in both periods resulted from contractual inflation increases, including those associated with the Master Lease Agreements, and growth in the number of leased hospitals operated by the Company as a result of the Company's ongoing development activities.

Depreciation and amortization expense increased to \$27 million in the third quarter of 2005 compared to \$23 million for the same period a year ago and increased to \$76 million for the nine months ended September 30, 2005 compared to \$66 million for the same period a year ago. The increase in both periods was primarily a result of the Company's ongoing capital expenditure program.

Interest expense aggregated \$2 million in the third quarter of 2005 compared to \$3 million for the same period a year ago and \$6 million for the nine months ended September 30, 2005 compared to \$11 million for the same period a year ago. The decline in both periods was primarily a result of the repayment of long-term debt in 2004.

Investment income, related primarily to the Company's excess cash balances and insurance subsidiary investments, approximated \$3 million in the third quarter of 2005 compared to \$2 million for the same period a year ago and \$8 million for the nine months ended September 30, 2005 compared to \$5 million for the same period last year.

*Consolidated Results*

Income from continuing operations before income taxes totaled \$32 million for the third quarter of 2005 compared to \$31 million for the same period a year ago and \$173 million for the nine months ended September 30, 2005 compared to \$103 million for the same period a year ago. Net income from continuing operations in the third quarter of 2005 was unchanged at \$19 million compared to the same period a year ago and \$103 million for the nine months ended September 30, 2005 compared to \$61 million for the same period a year ago.

The aggregate effect of the items discussed in Notes 4 and 5 of the Notes to Condensed Consolidated Financial Statements increased net income from continuing operations by \$3 million in the third quarter of 2005 and reduced net income from continuing operations by \$1 million for the third quarter of 2004. For the first nine months of 2005 and 2004, these items increased net income from continuing operations by \$36 million and \$4 million, respectively.

**Discontinued Operations**

Net income from discontinued operations aggregated \$0.3 million in the third quarter of 2005 compared to \$4 million for the same period a year ago. Net income from discontinued operations aggregated \$17 million for the nine months ended September 30, 2005 compared to a net loss of \$1 million for the same period in 2004. Net income from discontinued operations included a favorable pretax adjustment of \$4 million and \$11 million for the third quarter of 2005 and 2004, respectively, and \$37 million and \$11 million for the nine months ended September 30, 2005 and 2004, respectively, resulting from a change in estimate for professional liability reserves related primarily to the Company's former nursing centers in Florida and Texas. See Notes 3 and 10 of the Notes to Condensed Consolidated Financial Statements.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Discontinued Operations (Continued)**

Net losses associated with the divestiture of discontinued operations totaled \$4 million in the third quarter of 2005 compared to \$8 million in the third quarter of 2004 and \$0.5 million for the nine months ended September 30, 2005 compared to \$9 million for the same period a year ago.

**Liquidity**

Cash flows provided by operations (including discontinued operations) aggregated \$107 million for the nine months ended September 30, 2005 compared to \$174 million for the same period a year ago. Operating cash flows were negatively impacted in the first nine months of 2005 by growth in accounts receivable. During both periods, the Company maintained sufficient liquidity to fund its ongoing capital expenditure program and finance acquisitions.

Cash and cash equivalents totaled \$38 million at September 30, 2005 compared to \$69 million at December 31, 2004. Based upon existing cash levels, expected operating cash flows and capital spending, and the availability of borrowings under the Company's revolving credit facility, management believes that the Company has the necessary financial resources to satisfy expected short-term liquidity needs. The Company is currently reviewing various debt financing alternatives with respect to the recently announced Commonwealth transaction and related real estate purchases. There were no outstanding borrowings under the revolving credit facility at September 30, 2005.

As a result of improved professional liability underwriting results of the Company's limited purpose insurance subsidiary, the Company received a return of capital of approximately \$30 million from its limited purpose insurance subsidiary during the second quarter of 2005. These proceeds were used primarily to repay borrowings under the Company's revolving credit facility.

The Company expects to receive the remaining cash proceeds from a \$55 million favorable hospital prior year Medicare cost report settlement recorded in the second quarter of 2005 on or before April 30, 2006. Through September 30, 2005, the Company had received approximately \$3 million in cash proceeds related to this settlement.

In August 2005, the Company announced the completion of certain amendments to its revolving credit facility. The amendments (a) increase the amount permitted for acquisitions and certain investments by the Company from \$150 million to \$400 million, (b) provide the Company with the additional flexibility to repurchase up to \$150 million of its common stock and warrants, and (c) increase the Company's permitted capital expenditures in each fiscal year. The amendments also expand the borrowing base of the revolving credit facility to include certain additional real estate holdings. In addition, the amendments clarify certain regulatory issues and expand certain representations and covenants of the Company, none of which are expected to impact the Company's financial flexibility. The Company was in compliance with the terms of its revolving credit facility at September 30, 2005.

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

The Company also announced in August 2005 that its Board of Directors has authorized up to \$100 million in common stock and warrant repurchases. The Company intends to finance any repurchases from operating cash flows or borrowings under its revolving credit facility. No equity repurchases were made in the third quarter of 2005.

### **Capital Resources**

Excluding acquisitions, capital expenditures totaled \$80 million for the nine months ended September 30, 2005 compared to \$58 million for the nine months ended September 30, 2004. Capital expenditures (excluding

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Capital Resources (Continued)**

acquisitions) could approximate \$120 million to \$130 million in 2005. Management believes that its capital expenditure program is adequate to improve and equip existing facilities. The Company's capital expenditure program is financed generally through the use of operating cash flows. At September 30, 2005, the estimated cost to complete and equip construction in progress approximated \$48 million.

During the first nine months of 2005, the Company expended \$74 million for acquisitions. The Company financed these acquisitions primarily through the use of operating cash flows.

The terms of the revolving credit facility include certain covenants which limit the Company's acquisitions and annual capital expenditures.

**Other Information**

***Effects of Inflation and Changing Prices***

The Company derives a substantial portion of its revenues from the Medicare and Medicaid programs. Congress and certain state legislatures have enacted or may enact additional significant cost containment measures limiting the Company's ability to recover its cost increases through increased pricing of its healthcare services. Medicare revenues in the Company's long-term acute care hospitals and nursing centers are subject to fixed payments under the Medicare prospective payment systems. Medicaid reimbursement rates in many states in which the Company operates nursing centers also are based upon fixed payment systems. Generally, these rates are adjusted annually for inflation. However, these adjustments may not reflect the actual increase in the costs of providing healthcare services.

Medicare payments to the Company's nursing centers are based upon certain RUGs payment rates developed by CMS that provide various levels of reimbursement based upon patient acuity. On July 28, 2005, CMS published the final rules related to revised payment rates to nursing centers. Among other things, the final rules provide for a 3.1% inflation update to all RUGs categories effective October 1, 2005. Based upon current Part A Medicare payment rates, the Company expects that these rates will increase from approximately \$350 per patient day to approximately \$360 per patient day on October 1, 2005.

In addition, the final rules increase the indexing of RUGs categories, expand the total RUGs categories from 44 to 53 and eliminate the 20% payment add-on for the care of higher acuity patients that had been in effect since 2000 under the BBRA. These changes are expected to reduce Medicare Part A per diem rates to the Company's nursing centers from \$360 per patient day to approximately \$345 per patient day beginning on January 1, 2006.

Most of the Company's hospitals have been operating under LTAC PPS since September 1, 2003. Operating results under this system are subject to changes in patient acuity and expense levels in the Company's hospitals. These factors, among others, are subject to significant change. Slight variations in patient acuity could significantly change Medicare revenues generated under LTAC PPS. In addition, the Company's hospitals may not be able to appropriately adjust their operating costs as patient acuity levels change. Under this system, Medicare reimbursements to the Company's hospitals are based upon a fixed payment system. Operating margins in the hospital division could be negatively impacted if the Company is unable to control its operating costs. As a result of these uncertainties, the Company cannot predict the ultimate long-term impact of LTAC PPS on its hospital operating results and the Company can provide no assurances that such regulations or operational changes resulting from these regulations will not have a material adverse impact on its financial position, results of operations or liquidity. In addition, the Company can provide no assurances that LTAC PPS will not have a material adverse effect on revenues from private and commercial third party payors. Various factors, including a reduction in average length of stay, have had a negative impact on revenues from private and commercial third party payors.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND  
RESULTS OF OPERATIONS (Continued)**

**Other Information (Continued)**

*Effects of Inflation and Changing Prices (Continued)*

On August 1, 2005, CMS published the final rules related to the weights for DRGs and the geometric length-of-stay thresholds that take effect for hospital Medicare discharges occurring on or after October 1, 2005. In connection with the final rules, CMS estimated that these changes could result in an aggregate reduction in payments to long-term acute care hospitals of approximately 4.2%. The Company expects these changes to reduce Medicare revenues to the Company's hospitals between \$35 million to \$40 million on an annual basis based upon the Company's historical Medicare patient volumes.

In January 2005, CMS issued final regulations on MMA which will be effective on January 1, 2006. Medicare beneficiaries who also are entitled to benefits under a state Medicaid program (so-called "dual eligibles") will have their outpatient prescription drug costs covered by the new Medicare drug benefit, subject to certain limitations. Most of the nursing center residents that the Company serves whose drug costs are currently covered by state Medicaid programs are dual eligibles who will qualify for the new Medicare drug benefit. Accordingly, Medicaid will no longer be a payor for the pharmacy services provided to these residents.

The Company continues to review the final MMA regulations but it cannot assess the overall impact of MMA on its institutional pharmacy business. The impact of this legislation depends upon a variety of factors, including the sub-regulatory guidance from CMS, the Company's ultimate relationships with the private prescription drug plans which will provide coverage for prescription drugs under MMA and the patient mix of its customers. This legislation may reduce revenue and impose additional costs to the industry. In addition, since CMS may issue additional federal regulations and guidance related to the MMA, there can be no assurance that the MMA and related regulations promulgated under it will not have a material adverse effect on the Company's institutional pharmacy business.

Management believes that the Company's operating margins may continue to be under pressure as the growth in operating expenses, particularly professional liability, labor and employee benefits costs, exceeds payment increases from third party payors. In addition, as a result of competitive pressures, the Company's ability to maintain operating margins through price increases to private patients is limited.

*Litigation*

The Company is a party to certain material litigation. See Note 13 of the Notes to Condensed Consolidated Financial Statements.

**Table of Contents****ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The following discussion of the Company's exposure to market risk contains forward-looking statements that involve risks and uncertainties. The information presented has been prepared utilizing certain assumptions considered reasonable in light of information currently available to the Company. Given the unpredictability of interest rates as well as other factors, actual results could differ materially from those projected in such forward-looking information.

The Company's exposure to market risk relates to changes in the prime rate, federal funds rate and the London Interbank Offered Rate which affect the interest paid on certain borrowings.

The following table provides information about the Company's financial instruments that are sensitive to changes in interest rates. The table presents principal cash flows and related weighted average interest rates by expected maturity date.

**Interest Rate Sensitivity****Principal (Notional) Amount by Expected Maturity****Average Interest Rate****(Dollars in thousands)**

	Expected maturities						Total	Fair value 9/30/05
	2005	2006	2007	2008	2009	Thereafter		
<b>Liabilities:</b>								
Long-term debt, including amounts due within one year:								
Fixed rate:

Average interest rate	10.9%	10.9%	11.0%	10.9%	10.9%	10.6%		
Variable rate (a)	\$	\$	\$	\$	\$	\$	\$	\$

(a) The Company had no outstanding variable rate long-term debt at September 30, 2005. Interest on borrowings under the Company's revolving credit facility is payable, at the Company's option, at (1) the London Interbank Offered Rate plus an applicable margin ranging

## Edgar Filing: KINDRED HEALTHCARE, INC - Form 10-Q

from 2.00% to 2.75% or (2) prime plus an applicable margin ranging from 1.00% to 1.75%. The applicable margin is based upon the Company's adjusted leverage ratio as defined in the Company's revolving credit facility.

**Table of Contents**

**ITEM 4. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures and Changes in Internal Control Over Financial Reporting**

The Company has carried out an evaluation under the supervision and with the participation of management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of September 30, 2005, the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed in the reports that the Company files and submits under the Exchange Act is recorded, processed, summarized and reported as and when required.

There has been no change in the Company's internal control over financial reporting during the Company's quarter ended September 30, 2005, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings**

Summary descriptions of various significant litigation follow.

A shareholder derivative suit entitled *Thomas G. White on behalf of Vencor, Inc. and Ventas, Inc. v. W. Bruce Lunsford, et al.*, Case No. 98CI03669, was filed on July 2, 1998 in the Jefferson County, Kentucky, Circuit Court. The suit was brought on behalf of the Company and Ventas against certain former executive officers and directors of the Company and Ventas. The complaint alleges that the defendants damaged the Company and Ventas by engaging in violations of the securities laws, engaging in insider trading, fraud and securities fraud and damaging the reputation of the Company and Ventas. The plaintiff asserts that such actions were taken deliberately, in bad faith and constitute breaches of the defendants' duties of loyalty and due care. The complaint alleges that certain of the Company's and Ventas's former executive officers during a specified time frame violated Sections 10(b) and 20(a) of the Exchange Act, by, among other things, issuing to the investing public a series of false and misleading statements concerning Ventas's then current operations and the inherent value of its common stock. The complaint further alleges that as a result of these purported false and misleading statements concerning Ventas's revenues and successful acquisitions, the price of its common stock was artificially inflated. In particular, the complaint alleges that the defendants issued false and misleading financial statements during the first, second and third calendar quarters of 1997 which misrepresented and understated the impact that changes in Medicare reimbursement policies would have on Ventas's core services and profitability. The complaint further alleges that the defendants issued a series of materially false statements concerning the purportedly successful integration of Ventas's acquisitions and prospective earnings per share for 1997 and 1998, which the defendants knew lacked any reasonable basis and were not being achieved. The suit seeks unspecified damages, interest, punitive damages, reasonable attorneys' fees, expert witness fees and other costs, and any extraordinary equitable and/or injunctive relief permitted by law or equity to assure that the Company and Ventas have an effective remedy. In October 2002, the defendants filed a motion to dismiss for failure to prosecute the case. The court granted the motion to dismiss but the plaintiff subsequently moved the court to vacate the dismissal. The defendants filed an opposition to the plaintiff's motion to vacate the dismissal, but in August 2003 the court reinstated the lawsuit. In September 2003, the Company filed a renewed motion to dismiss, as to all defendants, based upon the plaintiff's failure to make a demand for remedy upon the appropriate board of directors. On July 26, 2005, the court granted the defendants' motion to dismiss based upon the plaintiff's failure to make a statutorily required demand for remedy upon the appropriate board of directors. On August 25, 2005, the plaintiff filed an appeal with the Court of Appeals of Kentucky. The parties currently are awaiting the Court of Appeals' order setting a briefing schedule. The Company believes that the allegations in the complaint are without merit and intends to defend this action vigorously.

The Company is a party to various legal actions (some of which are not insured), and regulatory and other government investigations and sanctions arising in the ordinary course of its business. The Company is unable to predict the ultimate outcome of pending litigation and regulatory and other government investigations. In addition, there can be no assurance that the DOJ, CMS or other federal and state enforcement and regulatory agencies will not initiate additional investigations related to the Company's businesses in the future, nor can there be any assurance that the resolution of any litigation or investigations, either individually or in the aggregate, would not have a material adverse effect on the Company's financial position, results of operations or liquidity.

**Table of Contents****PART II. OTHER INFORMATION (Continued)****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds****(c) Purchases of Equity Securities by the Issuer and Affiliated Purchasers****Issuer Purchases of Equity Securities**
