**PART I**

**ITEM 1. BUSINESS**

Unisys Corporation ( "Unisys" or the "Company" ) is a worldwide technology services and solutions company. The Company's employees apply Unisys expertise in consulting, systems integration, outsourcing, infrastructure, and server technology to help clients achieve secure business operations.

Unisys has two business segments Services and Technology. Financial information concerning the two segments is set forth in Note 17, Segment information, of the Notes to Consolidated Financial Statements appearing in the Unisys 2006 Annual Report to Stockholders, and such information is incorporated herein by reference.

The principal executive offices of Unisys are located at Unisys Way, Blue Bell, Pennsylvania 19424.

**Principal Products and Services**

Unisys provides services and technology to commercial businesses and governments throughout most of the world.

In the Services segment, Unisys provides end-to-end services and solutions designed to help clients improve their competitiveness and efficiency in the global marketplace. The Unisys portfolio of solutions and services includes systems integration and consulting; outsourcing, including the management of a customer's internal information systems and management of specific business processes, such as check processing, insurance claims processing, health claims processing, mortgage administration and cargo management; infrastructure services involving the design and support of customers' IT infrastructure, including desktops, servers, mobile and wireless systems, and networks; enterprise-wide security solutions to protect systems, networks, applications and data; and core maintenance (maintenance on Unisys proprietary products).

In the Technology segment, Unisys develops servers and related products that operate in transaction-intensive, mission-critical environments. Major offerings include enterprise-class servers based on the Unisys Cellular MultiProcessing architecture, such as the ClearPath Plus family of servers, which integrates proprietary and open platforms, and the ES7000 family of servers, which provide enterprise-class attributes on Intel-based servers; operating system software and middleware to power high-end servers; and specialized technologies such as payment systems, chip testing and third-party products.

The primary vertical markets Unisys serves worldwide include financial services, communications, transportation, commercial, and public sector, including the U.S. federal government.

Products and services are marketed primarily through a direct sales force. In certain foreign countries, Unisys markets primarily through distributors.

### **Materials**

Unisys purchases components and supplies from a number of suppliers around the world. For certain technology products, the Company relies on a single or limited number of suppliers, although the Company makes every effort to assure that alternative sources are available if the need arises. The failure of the Company's suppliers to deliver components and supplies in sufficient quantities and in a timely manner could adversely affect the Company's business.

### **Patents, Trademarks and Licenses**

Unisys owns many domestic and foreign patents relating to the design and manufacture of its products, has granted licenses under certain of its patents to others and is licensed under the patents of others. Unisys does not believe that its business is materially dependent upon any single patent or license or related group thereof. Trademarks and service marks used on or in connection with Unisys products and services are considered to be valuable assets of Unisys.

### **Seasonality**

The Company's revenue is affected by such factors as the introduction of new products and services, the length of sales cycles and the seasonality of purchases. Seasonality has generally resulted in higher fourth quarter revenue than in other quarters.

### **Customers**

No single customer accounts for more than 10% of Unisys revenue. Sales of commercial products and services to various agencies of the U.S. government represented 16% of total consolidated revenue in 2006.

### **Backlog**

In the Services segment, firm order backlog at December 31, 2006 was \$6.6 billion, compared to \$6.4 billion at December 31, 2005. Approximately \$2.9 billion (44%) of 2006 backlog is expected to be filled in 2007. Although the Company believes that this backlog is firm, the Company may, for commercial reasons, allow the orders to be cancelled, with or without penalty. In addition, funded government contracts included in this backlog are generally subject to termination, in whole or part, at the convenience of the government or if funding becomes unavailable. In such cases, the Company is generally entitled to receive payment for work completed plus allowable termination or cancellation costs.

At the end of 2006, the Company also had \$2.0 billion of potential future Services order value which it may receive under certain multi-year U.S. government contracts for which funding is appropriated annually. The comparable value of unfunded multi-year U.S. government contracts at the end of 2005 was \$2.3 billion.

Because of the relatively short cycle between order and shipment in its Technology segment, the Company believes that backlog information for this segment is not material to the understanding of its business.

### **Competition**

Unisys business is affected by rapid change in technology in the information services and technology industries and aggressive competition from many domestic and foreign companies. Principal competitors are systems integrators, consulting and other professional services firms, outsourcing providers, infrastructure services providers, computer hardware manufacturers and software providers. Unisys competes primarily on the basis of service, product performance, technological innovation, and price. Unisys believes that its continued focused investment in engineering and research and development, coupled with its marketing capabilities, will have a favorable impact on its competitive position.

### **Research and Development**

Unisys-sponsored research and development costs were \$231.7 million in 2006, \$263.9 million in 2005, and \$294.3 million in 2004.

### **Environmental Matters**

Capital expenditures, earnings and the competitive position of Unisys have not been materially affected by compliance with federal, state and local laws regulating the protection of the environment. Capital expenditures for environmental control facilities are not expected to be material in 2007 and 2008.

### **Employees**

As of December 31, 2006, Unisys had approximately 31,500 employees.

Unisys uses the title `partner` for certain members of its services business management. In using the term `partner` or `partners`, Unisys does not mean to imply that these individuals are partners in the legal sense or to imply any intention to create a separate legal entity, such as a partnership.

### **International and Domestic Operations**

Financial information by geographic area is set forth in Note 17, `Segment information`, of the Notes to Consolidated Financial Statements appearing in the Unisys 2006 Annual Report to Stockholders, and such information is incorporated herein by reference.

**Available Information**

Unisys makes available, free of charge through its Internet web site at [http://www.unisys.com/about\\_unisys/investors](http://www.unisys.com/about_unisys/investors), its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC.

Unisys also makes available on its Internet website its Guidelines on Significant Corporate Governance Issues, the charters of the Audit Committee, Compensation Committee, Finance Committee, and Nominating and Corporate Governance Committee of its board of directors, and its Code of Ethics and Business Conduct. Such information is also available in print to stockholders upon request.

**ITEM 1A. RISK FACTORS**

Discussion of risk factors is set forth under the heading "Factors that may affect future results" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Unisys 2006 Annual Report to Stockholders and is incorporated herein by reference.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

Not applicable.

**ITEM 2. PROPERTIES**

As of December 31, 2006, Unisys had 21 major facilities in the United States with an aggregate floor space of approximately 4.2 million square feet, located primarily in California, Georgia, Michigan, Minnesota, New Jersey, Pennsylvania, Utah and Virginia. Two of these facilities, with aggregate floor space of approximately 1.0 million square feet, were owned by Unisys and 19, with approximately 3.2 million square feet of floor space, were leased to Unisys. Approximately 3.6 million square feet of the U.S. facilities were in current operation, approximately .1 million square feet were subleased to others, and approximately .5 million square feet were being held in reserve or were declared surplus with disposition efforts in progress.

As of December 31, 2006, Unisys had 23 major facilities outside the United States with an aggregate floor space of approximately 2.3 million square feet, located primarily in Australia, Brazil, France, Germany, India, Netherlands, South Africa, Switzerland and the United Kingdom. Four of these facilities, with approximately .7 million square feet of floor space, were owned by Unisys and 19, with approximately 1.6 million square feet of floor space, were leased to Unisys. Approximately 1.8 million square feet were in current operation, approximately .2 million square feet were subleased to others, and approximately .3 million square feet were being held in reserve or were declared surplus with disposition efforts in progress.

Unisys major facilities include offices, laboratories, centers of excellence, manufacturing plants, warehouses, and distribution and sales centers. Unisys believes that its facilities are suitable and adequate for current and presently projected needs. Unisys continuously reviews its anticipated requirements for facilities and will from time to time acquire additional facilities, expand existing facilities, and dispose of existing facilities or parts thereof, as necessary.

### **ITEM 3. LEGAL PROCEEDINGS**

As of the date of filing of this report, Unisys has no material legal proceedings required to be disclosed under this Item 3.

### **ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

No matters were submitted to a vote of security holders of Unisys during the fourth quarter of 2006.
