NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION

Transcontinental Realty Investors, Inc. (TCI , We , The Company , Our or Us) is a Nevada corporation and invests in real estate through direct ownership, leases and partnerships.

The Company is headquartered in Dallas, Texas and its common stock trades on the New York Stock Exchange under the symbol TCI . American Realty Investors, Inc. owns approximately 83.2% of the Company s common stock (NYSE: ARL). Prime Income Asset Management, LLC (Prime) is the Company s external advisor. Regis Realty I, LLC, an affiliate of Prime, manages the Company s commercial properties. Regis Hotel I, LLC, another Prime affiliate, manages the Company s hotel investments. TCI engages four third-party companies to lease and manage its apartment properties.

Properties

The Company owned or had interests in a total property portfolio of 75 and 89 properties as of June 30, 2008 and December 31, 2007, respectively. The commercial properties aggregate approximately 5.4 million and 4.8 million net rentable square feet as of June 30, 2008 and December 31, 2007, respectively.

At June 30, 2008 the properties consisted of:

27 commercial buildings, which consists of 17 office buildings, six commercial warehouses, and four retail centers;

48 apartment communities; and

6,325 acres of developed and undeveloped land.

The Company is involved in the construction of 13 apartment development projects as of June 30, 2008. In addition, the Company invests in several tracts of land and is at several stages of predevelopment on many of these properties. The Company partners with various third-party developers to construct residential projects. The third-party developer typically takes a general partner interest in the development partnership while the Company takes a limited partner (and majority) interest. The Company is required to fund the equity contributions. The third-party developer is responsible for obtaining financing, hiring a general contractor and for the overall management and delivery of the project, and is compensated with a fee equal to a certain percentage of the construction costs.

The accompanying interim financial statements are unaudited; however, the financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments necessary for a fair presentation of the financial statements for these periods have been included. The results of operations for the interim periods are not necessarily indicative of the results to be obtained for other interim periods or for the full fiscal year. The year end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. These financial statements should be read in conjunction with the Company s financial statement and notes thereto contained in the Company s Annual Report on Form 10-K for its fiscal year ended December 31, 2007.

Table of Contents

Newly issued accounting standards.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. (SFAS No. 157). SFAS No. 157 defines fair value and establishes a framework for measuring fair value, which includes a hierarchy based on the quality of inputs used to measure fair value. SFAS No. 157 also expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements. SFAS No. 157 requires the categorization of financial assets and liabilities, based on the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs. SFAS No. 157 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. The levels of the SFAS No. 157 fair value hierarchy are described as follows:

Level 1 Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.

Level 2 Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability.

Level 3 Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

SFAS No. 157 became effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB deferred the effective date of SFAS No. 157 for one year for nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis. The FASB also removed certain leasing transactions from the scope of SFAS No. 157. On January 1, 2008, the Company adopted SFAS No. 157. The Company currently does not have any non-financial assets or non-financial liabilities that are required to be measured under SFAS No. 157.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FASB Statement No. 115*. (SFAS No. 159). SFAS No. 159 permits entities to choose, at specified election dates, to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. Unrealized gains and losses shall be reported on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 became effective for fiscal years beginning after November 15, 2007. On January 1, 2008, the Company adopted SFAS No. 159 and has currently not elected to measure any financial instruments or other items (not currently required to be measured at fair value) at fair value.

In December 2007, the FASB issued SFAS No. 141 (revised in 2007) (SFAS 141R), *Business Combinations*. SFAS 141R establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. The statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combinations. SFAS 141R is effective for financial statements issued for fiscal years beginning after December 15, 2008. Accordingly, any business combinations the Company engages in will be recorded and disclosed following existing accounting principles until January 1, 2009. The Company expects SFAS 141R will affect the Company's consolidated financial statements when effective, but the nature and magnitude of the specific effects will depend upon the nature, term and size of the acquisitions, if any, the Company consummates after the effective date.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements*. effective for financial statements issued for fiscal years beginning after December 15, 2008. SFAS No. 160 states that accounting and reporting for minority interests will be recharacterized as noncontrolling interests and classified as a component of equity. SFAS No. 160 applies to all entities that prepare consolidated financial statements, except not-for-profit organizations, and will impact the recording of minority interest. The Company is currently evaluating the effects the adoption of SFAS No. 160 will have on its financial position and results of operations.

NOTE 9. DISCONTINUED OPERATIONS

The Company applies the provisions of SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. SFAS No. 144 requires that long-lived assets that are to be disposed of by sale be measured at the lesser of (1) book value or (2) fair value less cost to sell. In addition, it requires that one accounting model be used for long-lived assets to be disposed of by sale and broadens the presentation of discontinued operations to include more disposal transactions.

The following table summarizes income from discontinued operations (net of minority interest) and the related realized gains on sales of real estate from discontinued operations.

The Company's application of SFAS No. 144 results in the presentation of the net operating results of these qualifying properties sold or held for sale during 2008 as income from discontinued operations. The application of SFAS No. 144 does not have an impact on net income available to common shareholders. SFAS No. 144 only impacts the presentation of these properties within the Consolidated Statements of Operations.

NOTE 10. COMMITMENTS AND CONTINGENCIES

Partnership Obligations. TCI is the limited partner in partnerships that are currently constructing residential properties. As permitted in the respective partnership agreements, TCI intends to purchase the interests of the general and any other limited partners in these partnerships subsequent to the completion of these projects. The amounts paid to buy out the nonaffiliated partners are limited to development fees earned by the non-affiliated partners, and are set forth in the respective partnership agreements.

Guarantees. We are a joint grantor, with Income Opportunity Realty Investors, Inc., an affiliated entity, on a loan with an outstanding balance of \$37.3 million as of June 30, 2008. We have \$8.7 million of this amount included in the Notes and interest payable section on our balance sheet. As a joint grantor of the loan, we have joint and several liability of the obligations and liabilities of the loan in its entirety, which include but are not limited to payment of all unpaid and accrued interest and principal for the entire outstanding loan balance.

Liquidity. Management believes that TCI will generate excess cash from property operations; such excess, however, will not be sufficient to discharge all of TCI's obligations as they become due. Management intends to sell income producing assets, refinance real estate, and obtain additional borrowings primarily secured by real estate to meet its liquidity requirements.

Litigation. TCI is involved in various other lawsuits arising in the ordinary course of business. Management is of the opinion that the outcome of these lawsuits will have no material impact on TCI's financial condition, results of operations or liquidity.

NOTE 11. SUBSEQUENT EVENTS

On July 23, 2008, we purchased 24.1 acres of land known as Las Colinas land located in Irving, Texas for \$6.7 million. We financed the transaction with \$2.2 million in cash and a \$4.5 million mortgage secured by the property.

On July 23, 2008, we purchased 246.0 acres of land known as Windmill Farms Harlan land located in Kaufman County, Texas for \$6.8 million. We financed the transaction with \$1.3 million cash and seller financing of \$5.5 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report.

This Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws, principally, but not only, under the captions Business, Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations. We caution investors that any forward-looking statements in this report, or which management may make orally or in

These statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors, that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. We caution you that, while forward-looking statements reflect our good faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update our forward-looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following:

general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases, dependence on tenants' financial condition, and competition from other developers, owners and operators of real estate);

risks associated with the availability and terms of construction and mortgage financing and the use of debt to fund acquisitions and developments;

demand for apartments and commercial properties in the Company's markets and the effect on occupancy and rental rates;

the Company's ability to obtain financing, enter into joint venture arrangements in relation to or self-fund the development or acquisition of properties;

risks associated with the timing and amount of property sales and the resulting gains/losses associated with such sales;

failure to manage effectively our growth and expansion into new markets or to integrate acquisitions successfully;

risks and uncertainties affecting property development and construction (including, without limitation, construction delays, cost overruns, inability to obtain necessary permits and public opposition to such activities);

risks associated with downturns in the national and local economies, increases in interest rates, and volatility in the securities markets;

costs of compliance with the Americans with Disabilities Act and other similar laws and regulations;

potential liability for uninsured losses and environmental contamination;

risks associated with our dependence on key personnel whose continued service is not guaranteed; and

the other risk factors identified in this Form 10-Q, including those described under the caption Risk Factors. The risks included here are not exhaustive. Other sections of this report, including Part I, Item I Business Risk Factors, include additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Investors should also refer to our quarterly reports on Form 10-Q for future periods and current reports on Form 8-K as we file them with the SEC, and to other materials we may furnish to the public from time to time through Forms 8-K or otherwise.

Overview

TCI is an externally advised and managed real estate investment company that owns a diverse portfolio of income-producing properties and land held for development. The Company's portfolio of income-producing properties includes residential apartment communities, office buildings, hotels and other commercial properties. TCI's investment strategy includes acquiring existing income-producing properties as well as developing new properties on land already owned or acquired for a specific development project. TCI acquires land primarily in urban in-fill locations or high-growth suburban markets. We are an active buyer and seller. During 2008, we acquired over \$78.4 million and sold over \$163.0 million of land and income-producing properties.

As of June 30, 2008, the Company owned approximately 9,356 units in 48 residential apartment communities and 27 commercial properties of approximately 5.4 million rentable square feet. In addition, we own over 6,325 acres of land held for development and 13 projects under construction.

We finance our acquisitions primarily through operating cash flow, proceeds from the sale of land and income-producing properties and debt financing primarily in the form of property-specific first-lien mortgage loans from commercial banks and institutional lenders. We financed our development projects principally with short-term, variable interest rate construction loans that are converted

to long-term, fixed rate amortizing mortgages when the development project is completed and occupancy has been stabilized. The Company will, from time to time, also enter into partnerships with various investors to acquire income-producing properties or land and to sell interests in certain of its wholly owned properties. When the Company sells assets, it may carry a portion of the sales price generally in the form of a short-term, interest bearing seller-financed note receivable. The Company generates operating revenues primarily by leasing apartment units to residents; leasing office, retail and industrial space to commercial tenants; and renting hotel rooms to guests. TCI is advised by Prime under a contractual arrangement that is reviewed annually by TCI's Board of Directors. TCI's commercial properties are managed by Regis Commercial while the Company's hotels are managed by Regis Hotel. TCI currently contracts with four third-party companies to manage the Company's apartment communities. Approximately 83.2% of TCI's common stock is owned by ARI. TCI is a C Corporation for U.S. federal income tax purposes and files an annual consolidated income tax return with ARI. TCI does not qualify as a Real Estate Investment Trust (REIT) for federal income tax purposes primarily due to ARI's majority ownership of the Company.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, or GAAP, requires management to use judgment in the application of accounting policies, including making estimates and assumptions. We base our estimates on historical experience and on various other assumptions believed to be reasonable under the circumstances. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied resulting in a different presentation of our financial statements. From time to time, we evaluate our estimates and assumptions. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current information. Below is a discussion of accounting policies that we consider critical in that they may require complex judgment in their application or require estimates about matters that are inherently uncertain.

Real Estate

Upon acquisitions of real estate, TCI assesses the fair value of acquired tangible and intangible assets, including land, buildings, tenant improvements, above-market and below-market leases, origination costs, acquired in-place leases, other identified intangible assets and assumed liabilities in accordance with Statement of Financial Accounting Standards, SFAS No. 141, *Business Combinations*, and allocates the purchase price to the acquired assets and assumed liabilities, including land at appraised value and buildings at replacement cost.

We assess and consider fair value based on estimated cash flow projections that utilize appropriate discount and/or capitalization rates, as well as available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known and anticipated trends, and market and economic conditions. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant. We also consider an allocation of purchase price of other acquired intangibles, including acquired in-place leases that may have a customer relationship intangible value, including (but not limited to) the nature and extent of the existing relationship with the tenants, the tenants' credit quality and expectations of lease renewals. Based on our acquisitions to date, our allocation to customer relationship intangible assets has been immaterial.

We record acquired above-market and below-market leases at their fair values (using a discount rate which reflects the risks associated with the leases acquired) equal to the difference between (1) the contractual amounts to be paid pursuant to each in-place lease and (2) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed rate renewal options for below-market leases.

Other intangible assets acquired include amounts for in-place lease values that are based on our evaluation of the specific characteristics of each tenant's lease. Factors to be considered include estimates of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, we include real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, we consider leasing commissions, legal and other related expenses.

Real estate is stated at depreciated cost. The cost of buildings and improvements includes the purchase price of property, legal fees and other acquisition costs. Costs directly related to the development of properties are capitalized. Capitalized development costs include interest, property taxes, insurance, and other project costs incurred during the period of development.

Management reviews its long-lived assets used in operations for impairment when there is an event or change in circumstances that indicates an impairment in value. An impairment loss is recognized if the carrying amount of its assets is not recoverable and exceeds its fair value. If such

impairment is present, an impairment loss is recognized based on the excess of the carrying amount of the asset over its fair value. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. If we determine that impairment has occurred, the affected assets must be reduced to their face value.

Table of Contents

SFAS No. 144 requires that qualifying assets and liabilities and the results of operations that have been sold, or otherwise qualify as held for sale, be presented as discontinued operations in all periods presented if the property operations are expected to be eliminated and the Company will not have significant continuing involvement following the sale. The components of the property's net income that is reflected as discontinued operations include the net gain (or loss) upon the disposition of the property held for sale, operating results, depreciation and interest expense (if the property is subject to a secured loan). We generally consider assets to be held for sale when the transaction has been approved by our Board of Directors, or a committee thereof, and there are no known significant contingencies relating to the sale, such that the property sale within one year is considered probable. Following the classification of a property as held for sale, no further depreciation is recorded on the assets.

A variety of costs are incurred in the acquisition, development and leasing of properties. After determination is made to capitalize a cost, it is allocated to the specific component of a project that is benefited. Determination of when a development project is substantially complete and capitalization must cease involves a degree of judgment. Our capitalization policy on development properties is guided by SFAS No. 34

Capitalization of Interest Cost. and SFAS No. 67 *Accounting for Costs and the Initial Rental Operations of Real Estate Properties.* The costs of land and buildings under development include specifically identifiable costs. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. We consider a construction project as substantially completed and held available for occupancy upon the receipt of certificates of occupancy, but no later than one year from cessation of major construction activity. We cease capitalization on the portion (1) substantially completed and (2) occupied or held available for occupancy, and we capitalize only those costs associated with the portion under construction.

Investments in Unconsolidated Real Estate Ventures

Except for ownership interests in variable interest entities, TCI accounts for our investments in unconsolidated real estate ventures under the equity method of accounting because the Company exercises significant influence over, but does not control, these entities. These investments are recorded initially at cost, as investments in unconsolidated real estate ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Any difference between the carrying amount of these investments on the Company's balance sheet and the underlying equity in net assets is amortized as an adjustment to equity in earnings of unconsolidated real estate ventures over the life of the related asset. Under the equity method of accounting, TCI's net equity is reflected within the Consolidated Balance Sheets, and our share of net income or loss from the joint ventures is included within the Consolidated Statements of Operations. The joint venture agreements may designate different percentage allocations among investors for profits and losses; however, TCI's recognition of joint venture income or loss generally follows the joint venture's distribution priorities, which may change upon the achievement of certain investment return thresholds. For ownership interests in variable interest entities, the Company consolidates those in which we are the primary beneficiary.

Recognition of Rental Income

Rental income for commercial property leases is recognized on a straight-line basis over the respective lease terms. In accordance with SFAS 141, we recognize rental revenue of acquired in-place above-market and below-market leases at their fair values over the terms of the respective leases. On our Consolidated Balance Sheets we include as a receivable the excess of rental income recognized over rental payments actually received pursuant to the terms of the individual commercial lease agreements.

Reimbursements of operating costs, as allowed under most of our commercial tenant leases, consist of amounts due from tenants for common area maintenance, real estate taxes and other recoverable costs, and are recognized as revenue in the period in which the recoverable expenses are incurred. We record these reimbursements on a gross basis, since we generally are the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier and have the credit risk with respect to paying the supplier.

Rental income for residential property leases is recorded when due from residents and is recognized monthly as earned, which is not materially different than on a straight-line basis as lease terms are generally for periods of one year or less.

Revenues for hotel properties for room sales and guest services are recognized as rooms are occupied and services are rendered.

An allowance for doubtful accounts is recorded for all past due rents and operating expense reimbursements considered to be uncollectible.

Revenue Recognition on the Sale of Real Estate

Sales of real estate are recognized when and to the extent permitted by Statement of Financial Accounting Standards No. 66, *Accounting for Sales of Real Estate.* (SFAS No. 66), as amended by SFAS No. 144. Until the requirements of SFAS No. 66 for full profit recognition have been

Edgar Filing: TRANSCONTINENTAL REALTY INVESTORS INC - Form 10-Q

met, transactions are accounted for using the deposit, installment, cost recovery or financing method, whichever is appropriate. When TCI provides seller financing, gain is not recognized at the time of sale unless the buyer's initial investment and continuing investment are deemed to be adequate as determined by SFAS 66 guidelines.

Table of Contents

Non-performing Notes Receivable

TCI considers a note receivable to be non-performing when the maturity date has passed without principal repayment and the borrower is not making interest payments. Any new note receivable that results from a modification or extension of a note considered non-performing will also be considered non-performing, without regard to the borrower's adherence to payment terms.

Interest Recognition on Notes Receivable

Interest income is not recognized on notes receivable that have been delinquent for 60 days or more. In addition, accrued but unpaid interest income is only recognized to the extent that the net realizable value of the underlying collateral exceeds the carrying value of the receivable.

Allowance for Estimated Losses

A valuation allowance is provided for estimated losses on notes receivable considered to be impaired. Impairment is considered to exist when it is probable that all amounts due under the terms of the note will not be collected. Valuation allowances are provided for estimated losses on notes receivable to the extent that the investment in the note exceeds management's estimate of fair value of the collateral securing such note.

Fair Value of Financial Instruments

The following assumptions were used in estimating the fair value of TCI's notes receivable, marketable equity securities and notes payable. For performing notes receivable, the fair value was estimated by discounting future cash flows using current interest rates for similar loans. For non-performing notes receivable, the estimated fair value of TCI's interest in the collateral property was used. For marketable equity securities, fair value was based on the year-end closing market price of each security. For notes payable, the fair value was estimated using current rates for mortgages with similar terms and maturities.

Liquidity and Capital Resources

Our principal sources of cash have historically been and will continue to be:

property operations;

proceeds from land and income-producing property sales;

the collection of mortgage notes receivable;

the collection of receivables from affiliated companies;

refinancing of existing mortgage notes payable; and

additional borrowing, including mortgage notes payable and lines of credit.

Our principal liquidity needs over the next twelve months include:

funding of normal recurring expenses and obligations;

Edgar Filing: TRANSCONTINENTAL REALTY INVESTORS INC - Form 10-Q

funding current development costs not covered by construction loans;

meeting debt service requirements including loan maturities;

funding capital expenditures; and

funding acquisition costs for land and income-producing properties not covered by acquisition financing.

We draw on multiple financing sources to fund our long-term capital needs. We generally fund our development projects with construction loans.

Management anticipates that our available cash from property operations may not be sufficient to meet all of our cash requirements. Management intends to selectively sell land and income producing assets, refinance or extend real estate debt and seek additional borrowing secured by real estate to meet its liquidity requirements. Historically, management has been successful at extending a portion of the Company's current maturity obligations. Management also anticipates funding ongoing real estate development projects and the acquisition of new real estate from cash generated by sales of land and income-producing properties, debt refinancings or extensions and additional borrowings.

Cash flow summary

The following summary discussion of our cash flows is based on the statements of cash flows as presented in Item 1 and is not meant to be an all-inclusive discussion of the changes in our cash flow.

Cash and cash equivalents were \$346,000 and \$5.1 million as of the six months ended June 30, 2008 and 2007, respectively. For the six months ended June 30, 2008, cash provided by operating activities was \$1.4 million, cash provided by investing activities was \$15.6 million and cash used in financing activities was \$(27.9) million.

Cash provided by operating activities was \$1.4 million for the six months ended June 30, 2008. Our primary source of cash from operating activities is from rental income on properties. Our primary use of cash for operations is from daily operating costs, general and administrative, interest expense, and land holding costs.

Cash provided by investing activities was \$15.6 million. The majority of the cash is from the sale of income producing properties of \$139.7 million. We sold 22 properties in seven transactions. The most significant transaction was the sale of 14 apartments; The 4400, Arbor Pointe, Ashton Way, Autumn Chase, Courtyard, Coventry Pointe, Fairway, Fountains at Waterford, Hunters Glen, Southgate, Sunchase, Thornwood, Westwood, and Woodview located in Midland and Odessa, Texas in a single transaction. This was followed by the sale of three hotels in a single transaction; City Suites, Majestic, and the Willows, located in Chicago, Illinois and five other transactions consisting of the Lexington commercial building in Colorado Springs, Colorado, the Fairway View apartments in El Paso, Texas, the Executive Court in Memphis, Tennessee, the Hotel Akademia in Worclaw, Poland, and the Willow Creek apartments in El Paso, Texas. The sale of land provided \$11.6 million. We sold 80.1 acres of undeveloped land located in Texas. We received \$11.8 million from our investments in marketable securities. This was offset by \$(63.2) million used to purchase income producing properties. We acquired six properties consisting of two apartment complexes; Bridgewood Ranch in Kaufman, Texas, and Quail Hollow in Holland, Ohio and four commercial buildings; Alpenloan building in Dallas, Texas, Teleport Boulevard building in Irving, Texas, Thermalloy Building in Farmers Branch, Texas, and Stanford Centre in Dallas, Texas. We used \$(65.4) million on the construction and development of 13 apartment complexes. In addition, we purchased 259 acres of undeveloped land in Dallas, Texas and the surrounding area for \$(15.2) million.

Cash used in financing activities was \$(27.9) million. We paid off the existing notes on properties sold consisting of 22 buildings and 80.1 acres of land using \$(146.6) million. We paid down \$(9.0) million in recurring debt obligations. This was offset by \$129.1 million in note proceeds which were used to acquire 259 acres of undeveloped land, two apartments, Bridgewood and Quail Hollow, and four commercial buildings, Alpenloan building, Teleport Boulevard building, Thermalloy building and Stanford Centre.

Management reviews the carrying values of TCI's properties and mortgage notes receivable at least annually and whenever events or a change in circumstances indicate that impairment may exist. Impairment is considered to exist if, in the case of a property, the future cash flow from the property (undiscounted and without interest) is less than the carrying amount of the property. For notes receivable, impairment is considered to exist if it is probable that not all amounts due under the terms of the note will be collected. If impairment is found to exist, a provision for loss is recorded by a charge against earnings. The note receivable review includes an evaluation of the collateral property securing such note. The property review generally includes: (1) selective property inspections; (2) a review of the property's current rents compared to market rents; (3) a review of the property's expenses; (4) a review of maintenance requirements; (5) a review of the property's cash flow; (6) discussions with the manager of the property; and (7) a review of properties in the surrounding area.

Related Party Transactions

The Company has historically engaged in and may continue to engage in certain business transactions with related parties, including but not limited to asset acquisition and dispositions. Transactions involving related parties cannot be presumed to be carried out on an arm's length basis due to the absence of free market forces that naturally exist in business dealings between two or more unrelated entities. Related party transactions may not always be favorable to our business and may include terms, conditions and agreements that are not necessarily beneficial to or in the best interest of our company.

Commitments and Contingencies

TCI has contractual obligations and commitments primarily concerning payment of mortgages.

Results of Operations

Edgar Filing: TRANSCONTINENTAL REALTY INVESTORS INC - Form 10-Q

The following discussion is based on our Consolidated Statements of Operations for the three and six months ended June 30, 2008 and 2007 as included in Part 1, Item 1 Financial Statements of this report. We had or owned interests in a total property portfolio of 75 and 93 properties as of June 30, 2008 and 2007, respectively.

Table of Contents

Comparison of the three months ended June 30, 2008 as compared to the same period ended June 30, 2007

For the three months ended June 30, 2008, TCI reported a net loss applicable to common shares of \$(14.5) million or \$(1.80) per diluted earnings per share, as compared to a net loss applicable to common shares of \$(13.1) million or \$(1.66) per diluted earnings per share.

Revenues

Rental and other property revenues increased by \$4.3 million for the three months ended June 30, 2008 as compared to the same period ended 2007. A significant portion of the increase was from apartments that are in the lease up stage. For the three months ended June 30, 2008, we had 14 new apartments in the lease up stage with revenues of \$4.0 million as compared to five new apartments in the lease up stage during the same period ended 2007 with revenues of \$1.4 million in revenues. New properties acquired during the second quarter 2008 increased revenues by \$600,000. Revenues generated from our land holdings were up by \$550,000 in 2008 as compared to 2007. The remainder of increase is due to an overall increase in occupancy in both the commercial and apartment portfolios.

Expenses

Property operating expenses increased by \$2.9 million for the three months ended June 30, 2008 as compared to the same period ended June 30, 2007. The majority of the increase of \$1.9 million was due to our new apartments which are in the lease up phase, and \$300,000 came from our acquisitions of new properties in the second quarter of 2008. The remainder of the increase is from an overall increase in prices effecting operating costs.

Depreciation and amortization were relatively consistent for the three months ended June 30, 2008 as compared to the same period ended 2007.

General and administrative costs were also consistent for the three months ended June 30, 2008 as compared to the same period ended 2007.

Advisory fees increased by \$270,000 for the three months ended June 30, 2008 as compared to the same period ended 2007. The increase is due to an overall increase in revenues in our operating activities. Advisory fees are based in part on revenues received.

Other Income/ Expense

Interest income decreased by \$121,000 for the three months ended June 30, 2008 as compared to the same period ended 2007. This is due to our reduction in notes receivable from our affiliates compared to the prior period ended 2007.

Other income was relative consistent for the three months ended June 30, 2008 as compared to the same period ended 2007.

Mortgage and loan interest expense increased by \$1.1 million for the three months ended June 30, 2008 as compared to the same period ended 2007. The majority of the increase of \$1.0 million is due to new apartments in the lease up phase. During the construction of the apartments the interest expense is capitalized. Once construction is completed and the apartments start leasing up, the interest on the construction loans goes to expense. Of the 14 apartments currently in the lease up phase, ten of those apartments incurred interest expense during the three months ended June 2008, and no interest expense was incurred for the same period ended 2007.

Gain on land sales was \$2.6 million for the three month period ended June 30, 2008. We sold 66.2 acres of undeveloped land in Texas in four transactions, averaging a gain of \$41,000 per acre. No land was sold during the same period ended 2007.

Equity in investees decreased by \$1.3 million for the three months ended June 30, 2008 as compared to the same period ended 2007. The equity in investees represents our equity prorata share of the unconsolidated investments. The majority of the decrease is due to loss incurred during the second quarter in our investment in Income Opportunity Realty Investors, Inc., an affiliated entity.

Net loss from discontinued operations decreased by \$1.9 million for the three months ended June 30, 2008 as compared to the same period ended 2007. Discontinued operations relates to 25 apartments of which one was sold in the second quarter of 2008 and six commercial buildings and four hotels. Income from discontinued operations for the three months ended June 30, 2008 and 2007 is included below:

Comparison of the six months ended June 30, 2008 as compared to the same period ended June 30, 2007

For the six months ended June 30, 2008, TCI reported a net income applicable to common shares of \$52.6 million or \$6.51 per diluted earnings per share, as compared to a net loss applicable to common shares of \$(19.6) million or \$(2.49) per diluted earnings per share.

Revenues

Rental and other property revenues increased by \$5.8 million for the six month period ended June 30, 2008 as compared to the same period ended 2007. Our new apartments which are in the lease up phase generated an increase in revenues of \$4.6 million. We have 14 new apartments that are currently in the lease up phase. These new apartments generated revenues of \$7.1 million for the six month period ended June 30, 2008, as compared to five apartments in the lease up phase generating \$2.5 million in revenues for the same period ended 2007. Current year acquisitions provided additional revenues of \$600,000. The remaining increase is due to overall increased occupancies in both our apartments and commercial portfolios.

Expenses

Property operating expenses increased by \$7.1 million for the six months ended June 30, 2008 as compared to the same period ended 2007. Our new apartments that went into lease up phase increased our operating expenses by \$3.6 million. We had 14 apartments in lease up phase as compared to five in the prior period ended June 30, 2007 and the operating costs in our apartment portfolio increased by \$1.8 million. The operating costs on our commercial portfolio increased by \$1.6 million as compared to prior period. The remaining difference is due to a slight increase in our land holding costs.

Depreciation increased by \$1.6 million for the six month period ended June 30, 2008 as compared to the same period ended 2007. The majority of the increase is due to our new apartments which were completed and went into the lease up phase, and the acquisition of new properties during the current period.

General and administrative expenses decreased by \$538,000 for the six months ended June 30, 2008 as compared to the same period ended 2007. This is due to management's efforts to control costs.

Edgar Filing: TRANSCONTINENTAL REALTY INVESTORS INC - Form 10-Q

The advisory fee to the affiliate increased by \$866,000 for the six month period ended June 30, 2008 as compared to the same period ended 2007. The fee is based in part on our gross net assets which have increased as compared to the prior period.

Other Income/Expense

Interest income for the six months ended June 30, 2008 is relatively consistent as compared to the same period ended 2007.

Other income for the six months ended June 30, 2008 is relatively consistent as compared to the same period ended 2007.

Table of Contents

Mortgage and loan interest expense increased by \$3.9 million for the six months ended June 30, 2008 as compared to the same period ended 2007. The majority of the increase of \$3.3 million is due to new apartments in the lease up phase. During the construction of the apartments the interest expense is capitalized. Once construction is completed and the apartments start leasing up, the interest expense on the loans goes to expense. Of the 14 apartments currently in the lease up phase, ten of those apartments incurred interest expense during the six months ended June 2008, and no interest expense for the same period ended 2007. The remaining increase is due to higher rates on new loans that accompanied the purchases of our properties, and higher rates associated with the refinancings of existing debt.

Bad debt allowance expense was \$7.0 million for the six months ended June 30, 2008. Management recorded an allowance account against various investments within our portfolio.

Gain on land sales was \$3.6 million for the six month period ended June 30, 2008. We sold 80.1 acres of land for an average gain of \$50,000 per acre.

Net income fee to affiliate decreased by \$700,000 for the six months ended June 30, 2008 as compared to the same period ended June 30, 2007. This fee is based on our income. There is no fee from continuing operations due to losses incurred during the quarter.

Equity in income of investee increased by \$3.8 million for the six months ended June 30, 2008 as compared to the same period ended 2007. The majority of the increase is due to our equity prorata share of the earnings of Income Opportunity Realty Investors, Inc., an affiliated entity.

Income from discontinued operations increased by \$52.4 million for the six months ended June 30, 2008 as compared to the same period ended 2007. Discontinued operations relates to 25 apartments of which 16 were sold in 2008 and six commercial buildings of which two were sold in 2008 and four hotels were sold in 2008. Tax Matter

Edgar Filing: TRANSCONTINENTAL REALTY INVESTORS INC - Form 10-Q

Financial statement income varies from taxable income principally due to the accounting for income and losses of investees, gains and losses from asset sales, depreciation on owned properties, amortization of discounts on notes receivable and payable and the difference in the allowance for estimated losses. TCI reported a loss, after the use of net operating loss carryforwards, for federal income tax purposes in the first six months of 2008 and a loss, after the use of net operating loss carryforwards, in the first six months of 2007; therefore, it recorded no provision for income taxes.

At June 30, 2008, TCI had a net deferred tax asset of \$34 million due to tax deductions available to it in future years. However, as management cannot determine that it is more likely than not that TCI will realize the benefit of the deferred tax assets, a 100% valuation allowance has been established.

Table of Contents***Inflation***

The effects of inflation on TCI's operations are not quantifiable. Revenues from property operations tend to fluctuate proportionately with inflationary increases and decreases in housing costs. Fluctuations in the rate of inflation also affect sales values of properties and the ultimate gain to be realized from property sales. To the extent that inflation affects interest rates, earnings from short-term investments, the cost of new financings and the cost of variable interest rate debt will be affected.

Environmental Matters

Under various federal, state and local environmental laws, ordinances and regulations, TCI may be potentially liable for removal or remediation costs, as well as certain other potential costs, relating to hazardous or toxic substances (including governmental fines and injuries to persons and property) where property-level managers have arranged for the removal, disposal or treatment of hazardous or toxic substances. In addition, certain environmental laws impose liability for release of asbestos-containing materials into the air, and third parties may seek recovery for personal injury associated with such materials.

Management is not aware of any environmental liability relating to the above matters that would have a material adverse effect on TCI's business, assets or results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

At June 30, 2008, TCI's exposure to a change in interest rates on its debt is as follows:

	Balance	Weighted Average Interest Rate	Effect of 1% Increase in Base Rates
Notes payable:			
Variable rate	\$ 281,825	6.03%	
Total decrease in TCI's annual net income			\$ 2,818
Per share			0.35

ITEM 4. CONTROLS AND PROCEDURES

- (a) As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Principal Executive Officer and Chief Financial Officer per the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Company's Principal Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings.
- (b) There have been no changes in the Company's internal controls over financial reporting during the quarter ended June 30, 2008, that have materially affected or are reasonably likely to materially affect the Company's internal controls over financial reporting.
