or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 333-169258

CDW CORPORATION

(Exact name of registrant as specified in its charter)

Edgar Filing: CDW Corp - Form 10-Q

Delaware
(State or other jurisdiction of
incorporation or organization)

26-0273989
(I.R.S. Employer
Identification No.)

200 N. Milwaukee Avenue

Vernon Hills, Illinois
(Address of principal executive offices)

60061
(Zip Code)

(847) 465-6000

(Registrant's telephone number, including area code)

None

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

The registrant has been subject to the filing requirements of Sections 13 and 15(d) for less than 90 days since the registrant's Registration Statement on Form S-4 was declared effective by the Commission on November 14, 2011. The registrant has filed (a) all reports required to be filed by it since that date and (b) all reports which it would have been required to file during the preceding 12 months had it been subject to such provisions.

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 8, 2011, there were 100,000 Class A common shares, \$0.01 par value, outstanding, and 912,706 Class B common shares, \$0.01 par value, outstanding, all of which were owned by CDW Holdings LLC.

CDW CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. Description of Business and Summary of Significant Accounting Policies

Description of Business

The Company is a leading provider of multi-branded information technology products and services in the U.S. and Canada. The Company provides comprehensive and integrated solutions for its customers' technology needs through an extensive range of hardware, software and service offerings. The Company's breadth of offerings allows its customers to streamline their procurement processes by using a complete solution provider for their technology needs.

Basis of Presentation

The accompanying unaudited interim consolidated financial statements as of September 30, 2011 and for the three and nine months ended September 30, 2011 and 2010 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) and the rules and regulations of the U.S. Securities and Exchange Commission (SEC) for interim financial statements. The unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 (December 31, 2010 financial statements). The significant accounting policies used in preparing these unaudited interim consolidated financial statements were applied on a basis consistent with those reflected in the December 31, 2010 financial statements, except as disclosed below under the heading Revision to Prior Period Financial Statements and in Note 2, Recent Accounting Pronouncements. In the opinion of management, the unaudited interim consolidated financial statements contain all adjustments (consisting of a normal, recurring nature) necessary to present fairly the Company's financial position, results of operations, cash flows, and changes in shareholders' deficit as of the dates and for the periods indicated. The unaudited consolidated statements of operations for such interim periods reported are not necessarily indicative of results for the full year.

CDW Corporation (Parent) is owned directly by CDW Holdings LLC, a company controlled by investment funds affiliated with Madison Dearborn Partners, LLC and Providence Equity Partners, Inc., certain other co-investors and certain members of CDW management.

Parent has two wholly owned subsidiaries, CDW LLC and CDW Finance Corporation. CDW LLC is an Illinois limited liability company that, together with its wholly owned subsidiaries, holds all material assets and conducts all business activities and operations. CDW Finance Corporation is a Delaware corporation formed for the sole purpose of acting as co-issuer of certain debt obligations as described in Note 4 and does not hold any material assets or engage in any business activities or operations.

Throughout this report, the terms the Company and CDW refer to Parent and its wholly owned subsidiaries.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Parent and its wholly owned subsidiaries. All intercompany transactions and accounts are eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires management to make use of certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reported periods. The Company bases its estimates on historical experience and on various other assumptions that management believes are reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

Edgar Filing: CDW Corp - Form 10-Q

The notes to consolidated financial statements contained in the December 31, 2010 financial statements include an additional discussion of the significant accounting policies and estimates used in the preparation of the Company's consolidated financial statements. There have been no material changes to the Company's significant accounting policies and estimates during the nine months ended September 30, 2011; however, the Company has included an expanded discussion of its revenue recognition policy below.

Revenue Recognition

The Company is a primary distribution channel for a large group of vendors and suppliers, including original equipment manufacturers (OEMs), software publishers and wholesale distributors. The Company records revenue from sales transactions when title and risk of loss are passed to the customer, there is persuasive evidence of an arrangement for sale, delivery has occurred and/or services have been rendered, the sales price is fixed or determinable, and collectability is reasonably assured. The Company's shipping terms typically specify F.O.B. destination, at which time title and risk of loss have passed to the customer.

Table of Contents

CDW CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Revenues from the sales of hardware products or software products and licenses are generally recognized on a gross basis with the selling price to the customer recorded as sales and the acquisition cost of the product recorded as cost of sales. These items can be delivered to customers in a variety of ways, including (i) as physical product shipped from the Company's warehouse, (ii) via drop-shipment by the vendor, or (iii) via electronic delivery for software licenses. At the time of sale, the Company records an estimate for sales returns and allowances based on historical experience. The Company's vendor OEMs warrant most of the products it sells.

The Company leverages drop-ship arrangements with many of its vendors and suppliers to deliver products to its customers without having to physically hold the inventory at its warehouses, thereby increasing efficiency and reducing costs. The Company recognizes revenue for drop-ship arrangements on a gross basis upon delivery to the customer with contract terms that typically specify F.O.B. destination.

Revenue from professional services is either recognized as incurred for services billed at an hourly rate or recognized using the percentage of completion method for services provided at a fixed fee. Revenue for data center services, including internet connectivity, web hosting, server co-location and managed services, is recognized over the period service is provided.

The Company also sells certain products for which it acts as an agent. Products in this category include the sale of third-party services, extended warranties or software assurance (SA). SA is an insurance or maintenance product that allows customers to upgrade, at no additional cost, to the latest technology if new applications are introduced during the period that the SA is in effect. These sales do not meet the criteria for gross sales recognition, and thus are recognized on a net basis at the time of sale. Under net sales recognition, the cost paid to the vendor or third-party service provider is recorded as a reduction to sales, resulting in net sales being equal to the gross profit on the transaction.

The Company's larger customers are offered the opportunity by certain of its vendors to purchase software licenses and SA under enterprise agreements (EAs). Under EAs, customers are considered to be compliant with applicable license requirements for the ensuing year, regardless of changes to their employee base. Customers are charged an annual true-up fee for changes in the number of users over the year. With most EAs, the Company's vendors will transfer the license and bill the customer directly, paying resellers such as the Company an agency fee or commission on these sales. The Company records these fees as a component of net sales as earned and there is no corresponding cost of sales amount. In certain instances, the Company bills the customer directly under an EA and accounts for the individual items sold based on the nature of the item. The Company's vendors typically dictate how the EA will be sold to the customer.

From time to time, the Company sells some of its products and services as part of bundled contract arrangements containing multiple deliverables, which may include a combination of products and services. For each deliverable that represents a separate unit of accounting, revenue is allocated based upon the relative selling prices of each element as determined by the Company's selling price for the deliverable when it is sold on a stand-alone basis.

The Company records freight billed to its customers as sales and the related freight costs as a cost of sales. Vendor rebates are recorded over the period earned as a reduction of cost of sales. Price protection is recorded when earned as a reduction to cost of sales or merchandise inventory, as applicable.

Deferred revenue includes (1) payments received from customers in advance of providing the product or performing services, and (2) amounts deferred if other conditions of revenue recognition have not been met.

The Company performs an analysis of the estimated number of days of sales in-transit to customers at the end of each period based on a weighted-average analysis of commercial delivery terms that includes drop-ship arrangements. This analysis is the basis upon which the Company estimates the amount of sales in-transit at the end of the period and adjusts revenue and the related costs to reflect only what has been received by the customer. Changes in delivery patterns may result in a different number of business days used in making this adjustment and could have a material impact on the Company's revenue recognition for the period.

Revision to Prior Period Financial Statements

Edgar Filing: CDW Corp - Form 10-Q

As discussed in Note 3, the Company has historically entered into agreements with certain financial intermediaries to facilitate the purchase of inventory from various suppliers under certain terms and conditions. The Company has determined that its previous classification of its obligations for certain inventory financing agreements was in error and that amounts owed under these agreements should be classified separately on the Company's consolidated balance sheets and not included within accounts payable to trade creditors. Accordingly, the Company has changed the classification to reflect \$28.2 million at December 31, 2010 as accounts payable - inventory financing with no impact on current liabilities.

Table of Contents**CDW CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(unaudited)

The Company has also revised its consolidated statements of cash flows for the nine months ended September 30, 2010 to correct the classification of the cash flow impacts of amounts owed under certain inventory financing arrangements from cash flows from operating activities and include them as cash flows from financing activities. There is no impact on consolidated net cash generated or used during the period as the amount of the adjustment between cash flow captions are equal and offset one another in the same period. There is also no impact on the Company's debt covenants for any period. The Company has determined that these adjustments are not material either individually or in aggregate to any of its previously issued financial statements; however, due to the nature of the revisions, the Company has revised its presentation for these classification errors in both the consolidated balance sheets and statements of cash flows for the prior periods presented. These adjustments have no impact on net income (loss), total shareholders' deficit, or Adjusted EBITDA, a non-GAAP measure as defined in the Company's credit agreements. A summary of the revision to the consolidated statement of cash flows for the nine months ended September 30, 2010 is as follows:

(in millions)	As Previously Reported	Revision	As Revised
Net cash provided by operating activities	\$ 397.6	\$ (33.8)	\$ 363.8
Net cash used in financing activities	\$ (335.8)	\$ 33.8	\$ (302.0)
Net (decrease) in cash and cash equivalents	\$ (21.0)	\$	\$ (21.0)

Comprehensive Income (Loss)

Comprehensive income (loss) was \$30.0 million and \$12.4 million for the three months ended September 30, 2011 and 2010, respectively, and \$(4.1) million and \$0 for the nine months ended September 30, 2011 and 2010, respectively.

2. Recent Accounting Pronouncements**Testing Goodwill for Impairment**

In September 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-08 that is intended to reduce the cost and complexity of the annual goodwill impairment test by providing entities an option to perform a qualitative assessment to determine whether further impairment testing is necessary. If an entity concludes that it is not more likely than not that a reporting unit's fair value is less than its carrying amount using the qualitative assessment, the entity would not be required to perform the two-step goodwill impairment test for that reporting unit. This update is effective for annual and interim goodwill impairment tests performed in fiscal years beginning after December 15, 2011 with early adoption permitted. The Company does not expect the adoption of this guidance will have a material impact on its consolidated financial position, results of operations, or cash flows.

Presentation of Comprehensive Income

In June 2011, the FASB issued ASU 2011-05 which amends current guidance on the presentation of comprehensive income. The new guidance eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. It requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The guidance does not change the items which must be reported in other comprehensive income, how such items are measured or when they must be reclassified to net income. This update is to be applied retrospectively and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. As this guidance impacts presentation only, the Company does not expect the adoption of this guidance will have an impact on the Company's consolidated financial position, results of operations or cash flows.

Fair Value Measurements

In May 2011, the FASB issued ASU 2011-04. The new guidance results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and International Financial Reporting Standards (IFRS). The new guidance does not extend the use of fair value accounting, but provides guidance on how it should be applied where its use is already required or permitted by other standards within GAAP or IFRS. This update is effective for interim and annual periods beginning after December 15, 2011, with early adoption prohibited for public entities. The Company does not expect the adoption of this guidance will have a material impact on its consolidated financial position, results of operations, or cash flows.

Table of Contents

CDW CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

In January 2010, the FASB issued ASU 2010-06 to amend and expand the disclosure requirements for fair value measurements. The guidance requires new disclosures about transfers in and transfers out of Levels 1 and 2 fair value measurements and presentation of the activities within Level 3 fair value measurements (presented gross in a roll forward of activity). The guidance also clarifies existing disclosures about the level of disaggregation of fair value for each class of assets and liabilities and about inputs and valuation techniques used to measure fair value. Except for the disclosures in the roll forward of activity in Level 3 fair value measurements, ASU 2010-06 was effective for the Company as of January 1, 2010. The disclosures in the roll forward of activity in Level 3 fair value measurements became effective for the Company as of January 1, 2011. As this guidance only required additional disclosure and the Company did not have any Level 3 fair value measurements, the adoption of ASU 2010-06 did not have an impact on the Company's consolidated financial position, results of operations or cash flows.

Revenue Arrangements

In October 2009, the FASB issued two ASUs to authoritative guidance on revenue arrangements. ASU 2009-13 modifies the criteria for separating consideration in multiple-deliverable arrangements, establishes a selling price hierarchy for determining the relative selling price of a deliverable, eliminates the residual method of allocation and expands the disclosures related to multiple-deliverable revenue arrangements. From time to time, the Company sells some of its products and services as part of bundled contract arrangements containing multiple deliverables, which may include a combination of products and services. For each deliverable that represents a separate unit of accounting, revenue is allocated based upon the relative selling prices of each element as determined by the Company's selling price for the deliverable when it is sold on a stand-alone basis. The Company adopted the amended guidance in ASU 2009-13 on a prospective basis as of January 1, 2011. This adoption did not significantly change the Company's units of accounting or the method used by the Company to allocate revenue to separate units of accounting and consequently did not have a material impact on the Company's consolidated financial position, results of operations or cash flows.

ASU 2009-14 modifies the scope of authoritative guidance for revenue arrangements that include both tangible products and software elements to exclude from its requirements (1) non-software components of tangible products, and (2) software components of tangible products that are sold, licensed or leased with tangible products when the software components and non-software components of the tangible product function together to deliver the tangible product's essential functionality. The Company adopted the amended guidance in ASU 2009-14 on a prospective basis as of January 1, 2011. The adoption of ASU 2009-14 did not have a material impact on the Company's consolidated financial position, results of operations or cash flows.

3. Inventory Financing Agreements

The Company has entered into agreements with certain financial intermediaries to facilitate the purchase of inventory from various suppliers under certain terms and conditions. At September 30, 2011 and December 31, 2010, the Company owed a total of \$223.8 million and \$28.2 million, respectively, under these agreements. These amounts are classified separately as accounts payable-inventory financing in the accompanying consolidated balance sheets.

In June 2011, the Company entered into a new senior secured asset-based revolving credit facility as described in Note 4, which incorporates a \$400.0 million floorplan sub-facility to facilitate the purchase of inventory from a certain vendor. In connection with the floorplan sub-facility, the Company entered into an inventory financing agreement on an unsecured basis with a financial intermediary to facilitate the purchase of inventory from this vendor (the Revolving Loan financing agreement). Amounts outstanding under the Revolving Loan financing agreement are unsecured and non-interest bearing. At September 30, 2011, the Company owed \$186.0 million under this agreement.

From time to time, the Company may enter into an agreement with a financial intermediary relating to the purchase of inventory from a supplier who has factored its receivables to the financial intermediary. The Company's obligations under these agreements are not collateralized. The Company does not incur any interest expense associated with these agreements as balances are paid when they are due. At September 30, 2011 and December 31, 2010, the Company owed a financial intermediary \$34.4 million and \$18.6 million, respectively, under such an agreement.

Edgar Filing: CDW Corp - Form 10-Q

At September 30, 2011, the Company had inventory floorplan arrangements in place allowing for a maximum credit line of \$12.5 million collateralized by the inventory purchases under these floorplan arrangements financed by the financial intermediaries and a second lien on the related accounts receivable. The Company does not incur any interest expense associated with these agreements as balances are paid when they are due. At September 30, 2011 and December 31, 2010, the Company owed the financial intermediaries \$3.4 million and \$9.6 million, respectively, under these inventory floorplan arrangements.

4. Long-Term Debt

Long-term debt, excluding capital leases, was as follows:

(in millions)	September 30, 2011	December 31, 2010
Senior secured asset-based revolving credit facility	\$ 5.0	\$ 188.1
Senior secured term loan facility	1,540.5	1,672.5
Senior secured notes due 2018	500.0	500.0
Senior notes due 2015	129.0	1,207.0
Senior notes due 2019	1,175.0	
Senior subordinated notes due 2017	721.5	721.5
Total long-term debt	4,071.0	4,289.1
Less current maturities of long-term debt		(132.0)
Long-term debt, excluding current maturities	\$ 4,071.0	\$ 4,157.1

As of September 30, 2011, the Company was in compliance with the covenants under its various credit agreements as described below.

Senior Secured Asset-Based Revolving Credit Facility (Revolving Loan)

At September 30, 2011, the Company had outstanding borrowings of \$5.0 million under the Revolving Loan (at an effective weighted-average interest rate of 4.50% per annum), \$1.8 million of undrawn letters of credit and \$190.6 million reserved related to the floorplan sub-facility (discussed below).

On June 24, 2011, the Company entered into the Revolving Loan, a new five-year \$900.0 million senior secured asset-based revolving credit facility, with the facility being available to the Company for borrowings, issuance of letters of credit and floorplan financing for certain vendor products. The Revolving Loan matures on June 24, 2016, subject to an acceleration provision discussed below. The Revolving Loan replaces the Company's previous revolving loan credit facility that was to mature on October 12, 2012. The Revolving Loan (i) increased the overall revolving credit facility capacity available to the Company from \$800.0 million to \$900.0 million, (ii) increased the maximum aggregate amount of increases that may be made to the revolving credit facility from \$100.0 million to \$200.0 million, (iii) added a maturity acceleration provision based upon excess cash availability whereby the Revolving Loan may mature 45 days prior to both the maturity of the non-extended portion of the Company's senior secured term loan facility and the maturity of the Company's senior exchange notes due 2015, if excess cash availability does not exceed the outstanding borrowings of the subject maturing debt at the time of the test plus \$150 million, (iv) increased the fee on the unused portion of the revolving credit facility from 25 basis points to either 37.5 or 50 basis points, depending on the amount of utilization, (v) increased the applicable interest rate margin, and (vi) incorporated a \$300.0 million floorplan sub-facility, which was increased to \$400.0 million on August 2, 2011. In connection with the termination of the previous facility, the Company recorded a loss on extinguishment of long-term debt of \$1.6 million on the Company's consolidated statement of operations for the nine months ended September 30, 2011, representing a write-off of a portion of unamortized deferred financing costs. Fees of \$7.2 million related to the Revolving Loan were capitalized as deferred financing costs and are being amortized over the term of the facility on a straight-line basis.

As described in Note 3, in connection with the floorplan sub-facility, the Company entered into the Revolving Loan financing agreement. Amounts outstanding under the Revolving Loan financing agreement are unsecured and non-interest bearing. The Company will either pay the outstanding Revolving Loan financing agreement amounts when they become due, or the Revolving Loan's administrative agent will

Edgar Filing: CDW Corp - Form 10-Q

automatically initiate an advance on the Revolving Loan and use the proceeds to pay the balance on the due date. As of September 30, 2011, the Company owed \$186.0 million under the Revolving Loan financing agreement, which is included in accounts payable inventory financing on the Company's balance sheet. Changes in cash flows from the Revolving Loan financing agreement are reported in financing activities on the Company's statement of cash flows.

Borrowings under the Revolving Loan bear interest at a variable interest rate plus an applicable margin. The variable interest rate is based on one of two indices, either (i) LIBOR, or (ii) the Alternate Base Rate (ABR) with the ABR being the greatest of (a) the prime rate, (b) the federal funds effective rate plus 50 basis points or (c) the one-month LIBOR plus 1.00%. The applicable margin varies (2.00% to 2.50% for LIBOR borrowings and 1.00% to 1.50% for ABR borrowings) depending upon the Company's average daily excess cash availability under the agreement and is subject to a reduction of 0.25% if the senior secured leverage ratio is less than 3.0. The senior secured leverage ratio is defined as the ratio of senior secured debt (including amounts owed under certain inventory floorplan arrangements and capital leases) less cash and cash equivalents, to Adjusted EBITDA, a non-GAAP measure, for the four most recently ended fiscal quarters. The margins on the previous revolving loan credit facility varied from 1.00% to 1.75% for LIBOR borrowings and 0.00% to 0.75% for ABR borrowings.

Table of Contents

CDW CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Availability under the Revolving Loan is limited to (a) the lesser of the revolving commitment of \$900.0 million and the amount of the borrowing base less (b) outstanding borrowings, letters of credit, and amounts outstanding under the Revolving Loan financing agreement plus a reserve of 15% of open orders. The borrowing base is (a) the sum of the products of the applicable advance rates on eligible accounts receivable and on eligible inventory as defined in the agreement less (b) any reserves. At September 30, 2011, the borrowing base was \$1,048.8 million as supported by eligible inventory and accounts receivable balances as of August 31, 2011. The Company could have borrowed up to an additional \$702.6 million under the Revolving Loan at September 30, 2011.

CDW LLC is the borrower under the Revolving Loan. All obligations under the Revolving Loan are guaranteed by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. Borrowings under the Revolving Loan are collateralized by a first priority interest in inventory (excluding inventory collateralized under the inventory floorplan arrangements as described in Note 3), deposits, and accounts receivable, and a second priority interest in substantially all other assets. The Revolving Loan contains negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Revolving Loan also includes maintenance of a minimum average daily excess cash availability requirement. Should the Company fall below the minimum average daily excess cash availability requirement for five consecutive business days, the Company becomes subject to a fixed charge coverage ratio until such time as the daily excess cash availability requirement is met for 30 consecutive business days.

Senior Secured Term Loan Facility (Term Loan)

At September 30, 2011, the outstanding principal amount of the Company's Term Loan was \$1,540.5 million, with \$484.5 million of non-extended loans and \$1,056.0 million of extended loans. The effective weighted-average interest rate on Term Loan principal amounts outstanding on September 30, 2011 was 4.14% per annum. For the nine months ended September 30, 2011, the effective weighted-average interest rate without giving effect to the interest rate swap agreements (see Note 5) was 4.45% per annum. For the nine months ended September 30, 2011, the effective weighted-average interest rate including the effect of the interest rate swap agreements was 4.68% per annum. The interest rate swap agreements terminated on January 14, 2011.

Borrowings under the Term Loan bear interest at either (a) the ABR plus a margin; or (b) LIBOR plus a margin. The margin is based on the Company's senior secured leverage ratio as defined in the amended agreement evidencing the Term Loan. Effective with the March 2011 amendment discussed below, the margins were reduced on extended loans. For ABR borrowings, the applicable margin varies within a range of 2.50% to 3.00% for non-extended loans and 1.75% to 2.25% for extended loans. For LIBOR borrowings, the applicable margin varies within a range of 3.50% to 4.00% for non-extended loans and 2.75% to 3.25% for extended loans. The non-extended loans mature on October 10, 2014. The extended loans mature on July 15, 2017. The maturity of the extended loans was subject to acceleration to July 15, 2015 if, as of July 14, 2015, (i) the senior secured leverage ratio is greater than or equal to 3.00 to 1.00 and (ii) the outstanding principal amount of Senior Notes with a maturity date of October 12, 2015 is greater than or equal to \$500.0 million. The Company completed a cash tender offer and follow-on cash tender offer (described below) and, as a result of the reduction in the outstanding balances of the Senior Notes due 2015, the maturity of extended loans will not be accelerated.

On March 11, 2011, the Company entered into an amendment to the Term Loan, which became effective on March 14, 2011. This amendment, among other things: (i) reduced the margins with respect to the extended loans, (ii) established a LIBOR floor of 1.25% and an ABR floor of 2.25% with respect to the extended loans, (iii) reset the start date for accumulating restricted payments that count against the general limit of \$25.0 million and (iv) provided a 1% prepayment premium for certain repayments or re-pricings of any extended loans for the six month period following the effective date of the amendment. In connection with this amendment, the Company recorded a loss on extinguishment of long-term debt of \$3.2 million on the Company's consolidated statement of operations for the nine months ended September 30, 2011. This loss represents a write-off of a portion of the unamortized deferred financing costs related to the Term Loan.

Edgar Filing: CDW Corp - Form 10-Q

The Term Loan requires the Company to make certain mandatory prepayments of principal amounts under certain circumstances, including (i) a prepayment in an amount equal to 50% of the Company's excess cash flow for a fiscal year (the percentage rate of which can decrease based upon the total net leverage ratio as defined in the governing agreement); and (ii) the net cash proceeds from the incurrence of certain additional indebtedness by the Company or its subsidiaries. Excess cash flow is defined as Adjusted EBITDA, plus items such as reductions in working capital, less items such as increases in working capital, certain taxes paid in cash, interest that will be paid in cash, capital expenditures and repayment of long-term indebtedness. On March 16, 2011, the Company made a mandatory prepayment of \$132.0 million with respect to the year ended December 31, 2010 under the excess cash flow provision.

(unaudited)

CDW LLC is the borrower under the Term Loan. All obligations under the Term Loan are guaranteed by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The Term Loan is collateralized by a second priority interest in substantially all inventory (excluding inventory collateralized under the inventory floorplan arrangements as described in Note 3), deposits, and accounts receivable, and by a first priority interest in substantially all other assets. The Term Loan contains negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Term Loan also includes a senior secured leverage ratio requirement. The senior secured leverage ratio is required to be maintained on a quarterly basis. Compliance may be determined after giving effect to a designated equity contribution to the Company to be included in the calculation of Adjusted EBITDA. The senior secured leverage ratio for the four quarters ended September 30, 2011 was required to be at or below 7.5. For the four quarters ended September 30, 2011, the senior secured leverage ratio was 2.9. The interest rate margin on the extended loans will decrease by 0.25% upon filing of the required officer's certificate as a result of the senior secured leverage ratio being less than 3.0. The Company is required to maintain an interest rate hedge to fix or cap the interest rate on at least 50% of the outstanding principal amount of the Term Loan through maturity, subject to certain limitations currently in effect. With the interest rate cap agreements as described in Note 5, the Company expects to be in compliance with this requirement through January 14, 2013.

8.0% Senior Secured Notes due 2018 (Senior Secured Notes)

The Senior Secured Notes were issued on December 17, 2010 and will mature on December 15, 2018. At September 30, 2011, the outstanding principal amount of the Senior Secured Notes was \$500.0 million.

CDW LLC and CDW Finance Corporation are the co-issuers of the Senior Secured Notes and the obligations under the notes are guaranteed by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The Senior Notes are secured on a pari passu basis with the Term Loan by a second priority interest in substantially all inventory (excluding inventory collateralized under the inventory floorplan arrangements as described in Note 3), deposits, and accounts receivable, and by a first priority interest in substantially all other assets. The Senior Secured Note Indenture contains negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Senior Secured Note Indenture does not contain any financial covenants.

11.0% Senior Exchange Notes due 2015 (Senior Exchange Notes); 11.50% / 12.25% Senior PIK Election Exchange Notes due 2015 (PIK Election Notes together with the Senior Exchange Notes the Senior Notes)

At September 30, 2011, the outstanding principal amount of the Senior Notes was \$129.0 million. The Senior Notes have a maturity date of October 12, 2015. The Senior Notes are comprised of \$49.3 million of Senior Exchange Notes and \$79.7 million of PIK Election Notes. The Company is required to pay cash interest on the outstanding principal of the Senior Exchange Notes. For PIK Election Notes, the Company paid cash interest for the interest period April 15, 2011 through October 15, 2011 and is required to pay cash interest on the outstanding principal of the PIK Election Notes for the remaining interest periods through maturity.

On April 13, 2011, the Company completed a cash tender offer (the Initial Senior Notes Tender Offer) and purchased \$665.1 million aggregate principal amount of Senior Notes comprised of \$519.2 million of the Senior Exchange Notes and \$145.9 million of the PIK Election Notes. The Company concurrently issued \$725.0 million in aggregate principal amount of 8.5% Senior Notes due 2019. The proceeds from this offering, together with cash on hand and borrowings under the then-outstanding revolving loan credit facility, were used to fund the purchase of the tendered Senior Notes, including \$665.1 million aggregate principal amount of Senior Notes, \$59.9 million in tender offer premium and \$36.5 million of accrued and unpaid interest, along with transaction fees and expenses.

Edgar Filing: CDW Corp - Form 10-Q

On May 20, 2011, the Company completed a follow-on cash tender offer (the Follow-on Senior Notes Tender Offer, and together with the Initial Senior Notes Tender Offer, the Senior Notes Tender Offers) and purchased an additional \$412.8 million aggregate principal amount of Senior Notes comprised of \$321.4 million of the Senior Exchange Notes and \$91.4 million of the PIK Election Notes. The Company concurrently issued \$450.0 million in aggregate principal amount of additional 8.5% Senior Notes due 2019. The proceeds from this offering, together with cash on hand and borrowings under the then-outstanding revolving loan credit facility, were used to fund the purchase of the tendered Senior Notes, including \$412.8 million aggregate principal amount of Senior Notes, \$37.2 million in tender offer premium and \$4.5 million of accrued and unpaid interest, along with transaction fees and expenses. The aggregate principal amount of Senior Notes outstanding following the Senior Notes Tender Offers is \$129.0 million. As a result, the maturity of extended loans under the Term Loan will not be subject to acceleration on July 15, 2015 as described above.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

In connection with the Senior Notes Tender Offers, the Company recorded a loss on extinguishment of long-term debt of \$114.1 million on the Company's consolidated statement of operations for the nine months ended September 30, 2011. This loss represents \$97.0 million in tender offer premiums and \$17.1 million for the write-off of a portion of the unamortized deferred financing costs related to the Senior Notes. In connection with the issuance of 8.5% Senior Notes due 2019, fees of \$19.1 million were capitalized as deferred financing costs and are being amortized over the term of the notes using the interest method.

CDW LLC and CDW Finance Corporation are the co-issuers of the Senior Notes. Obligations under the Senior Notes are guaranteed on an unsecured senior basis by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The Senior Notes contain negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Senior Notes do not contain any financial covenants.

8.5% Senior Notes due 2019 (2019 Senior Notes)

On April 13, 2011, the Company issued \$725.0 million principal amount of 2019 Senior Notes and on May 20, 2011, the Company issued an additional \$450.0 million principal amount of 2019 Senior Notes. The proceeds from these issuances together with cash on hand and borrowings under the then-outstanding revolving loan credit facility were used to fund the Senior Notes Tender Offers. The 2019 Senior Notes will mature on April 1, 2019. At September 30, 2011, the outstanding principal amount of the 2019 Senior Notes was \$1,175.0 million.

CDW LLC and CDW Finance Corporation are the co-issuers of the 2019 Senior Notes. Obligations under the 2019 Senior Notes are guaranteed on an unsecured senior basis by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The 2019 Senior Notes contain negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The 2019 Senior Notes do not contain any financial covenants.

12.535% Senior Subordinated Exchange Notes due 2017 (Senior Subordinated Notes)

At September 30, 2011, the outstanding principal amount of the Company's Senior Subordinated Notes was \$721.5 million. The Senior Subordinated Notes have a maturity date of October 12, 2017. On March 10, 2010, one of the Company's wholly owned subsidiaries purchased \$28.5 million of principal amount of senior subordinated debt for a purchase price of \$18.6 million. The Company recorded a gain on the extinguishment of long-term debt of \$9.2 million on the Company's consolidated statement of operations for the nine months ended September 30, 2010 related to this repurchase. In May 2010, the \$28.5 million in principal amount of senior subordinated debt that were repurchased were exchanged for increasing rate notes and subsequently surrendered to the indenture trustee for cancellation.

CDW LLC and CDW Finance Corporation are the co-issuers of the Senior Subordinated Notes. Obligations under the Senior Subordinated Notes are guaranteed on an unsecured senior basis by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The Senior Subordinated Notes contain negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Senior Subordinated Notes do not contain any financial covenants.

Fair Value

Based on the quoted market price, trades and/or composite bid prices from dealers, all of which were obtained from independent sources, the estimated fair value of the Company's long-term debt at September 30, 2011 approximated \$3,745.5 million.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

5. Derivative Instruments and Hedging Activities

The Company is exposed to interest rate risk associated with fluctuations in the interest rates on its floating-rate debt. In order to manage the risk associated with changes in interest rates on borrowings under the Term Loan, the Company has entered into interest rate derivative agreements to hedge a portion of the cash flows associated with the Term Loan.

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate fluctuations. To accomplish these objectives, the Company primarily uses interest rate caps and swaps as part of its interest rate risk management strategy. Interest rate caps involve the receipt of floating-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up-front premium. Interest rate swaps involve the receipt of floating-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

Interest Rate Cap Agreements

In April 2010, the Company entered into four interest rate cap agreements with a combined \$1,100.0 million notional amount. Under these agreements, the Company made premium payments totaling \$5.9 million to the counterparties in exchange for the right to receive payments from them of the amount, if any, by which three-month LIBOR exceeds 3.5% during the agreement period. The cap agreements are effective from January 14, 2011 through January 14, 2013.

During the first nine months of 2011, the Company entered into four interest rate cap agreements with a combined \$500.0 million notional amount. Under the agreements, the Company made premium payments totaling \$3.7 million to the counterparties in exchange for the right to receive payments from them of the amount, if any, by which three-month LIBOR exceeds 3.5% during the agreement period. The cap agreements are effective from January 14, 2013 through January 14, 2015.

These cap agreements have not been designated as cash flow hedges of interest rate risk for accounting purposes. Instead, the interest rate cap agreements are recorded at fair value on the Company's consolidated balance sheet each period, with changes in fair value recorded directly to interest expense, net on the Company's consolidated statements of operations.

Interest Rate Swap Agreements

On January 14, 2011, the Company's two existing interest rate swap agreements terminated. The interest rate swaps hedged a portion of the cash flows associated with the Term Loan. On October 24, 2007, the Company entered into the first swap agreement with a notional amount of \$1,500.0 million, and later amended this swap agreement effective July 14, 2009. On November 27, 2007, the Company entered into the second interest rate swap agreement with a notional amount of \$700.0 million, which was reduced to \$500.0 million as of January 14, 2010.

For the Company's interest rate swaps designated as cash flow hedges of interest rate risk for accounting purposes, the effective portion of the changes in fair value of the swaps was initially recorded as a component of accumulated other comprehensive income (loss) (AOCI) on the Company's consolidated balance sheets and subsequently reclassified into interest expense, net on the Company's consolidated statements of operations in the period that the hedged forecasted transaction affected earnings. The ineffective portion of the change in fair value of the swaps was recognized directly in earnings in interest expense, net. For the Company's interest rate swap not designated as a cash flow hedge of interest rate risk, changes in fair value of the swap were recorded directly to interest expense, net on the Company's consolidated statements of operations.

Both of the Company's interest rate swaps were initially designated as cash flow hedges. However, as a result of the amendment to the \$1,500.0 million interest rate swap agreement, the Company prospectively discontinued the hedge accounting on the original interest rate swap agreement. Simultaneously, the Company designated the amended interest rate swap agreement as a cash flow hedge. On December 17, 2010, the Company discontinued the hedge accounting on the amended \$1,500.0 million interest rate swap agreement as a result of an amendment to the Term Loan. The Company continued to report the net loss related to the discontinued cash flow hedges in AOCI, which was reclassified into earnings on a straight-line basis through January 14, 2011.

Edgar Filing: CDW Corp - Form 10-Q

The amount of the loss reclassified into earnings during the three and nine months ended September 30, 2010 was \$9.4 million and \$28.0 million, respectively. The Company did not reclassify any losses into earnings during the three months ended September 30, 2011. The amount of loss reclassified into earnings during the nine months ended September 30, 2011 was \$2.1 million.

The Company utilized the hypothetical derivative method to measure hedge ineffectiveness each period for interest rate swaps designated as cash flow hedges. For the three and nine months ended September 30, 2010, the Company recognized \$9.5 million and \$54.1 million, respectively, of non-cash gains due to hedge ineffectiveness on the amended \$1,500.0 million swap. The Company did not recognize any gains or losses due to hedge ineffectiveness during the three or nine months ended September 30, 2011.

⁽¹⁾ The Company reclassified realized losses of \$2.8 million from AOCI to net loss, or \$1.9 million net of tax as reflected on the Company's consolidated statement of shareholders' deficit.

There was no balance remaining in AOCI related to the Company's interest rate swap agreements as of September 30, 2011. The Company had no derivative instruments with credit-risk-related contingent features that were in a liability position as of September 30, 2011.

6. Fair Value Measurements

Fair value is defined under GAAP as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value hierarchy has been established for valuation inputs to prioritize the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1 inputs are based on unadjusted quoted prices for identical instruments traded in active markets.

Level 2 inputs are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models and similar techniques.

The fair value of financial assets measured on a recurring basis as of September 30, 2011 was as follows:

(in millions)	Level 1	Level 2	Level 3	Total
---------------	---------	---------	---------	-------

Edgar Filing: CDW Corp - Form 10-Q

Interest rate cap agreements	\$	\$ 0.9	\$	\$ 0.9
------------------------------	----	--------	----	--------

The fair value of the Company's interest rate caps, as described in Note 5, is classified as Level 2 in the hierarchy. The valuation of the cap agreements is derived by using a discounted cash flow analysis on the expected cash receipts that would occur if variable interest rates rise above the strike rate of the caps. This analysis reflects the contractual terms of the cap agreements, including the period to maturity, and uses observable market-based inputs, including LIBOR curves and implied volatilities. The Company also incorporates credit valuation adjustments to appropriately reflect the respective counterparty's nonperformance risk in the fair value measurements. The counterparty credit spreads are based on publicly available credit information obtained from a third party credit data provider.

7. Income Taxes

The Company's effective income tax rate was 32.3% for the three months ended September 30, 2011, which was less than the statutory rate due to a decrease in the deferred state income tax rate during the quarter reflecting an update of the state apportionment factors. For the three months ended September 30, 2010, the effective income tax rate was 13.5% due to the small amount of pre-tax earnings adjusted for permanent items.

The effective income tax rate was (18.3)% for the nine months ended September 30, 2011. Although the Company recognized a small pre-tax loss for the first nine months of 2011, a year-to-date increase in the deferred state income tax rate and 2011 enacted state law changes resulted in the \$0.3 million income tax expense for the period. An effective tax rate of 33.9% was recognized for the nine months ended September 30, 2010.

Table of Contents**CDW CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(unaudited)

In the ordinary course of business, the Company is subject to review by domestic and foreign taxing authorities, including the Internal Revenue Service (IRS). The IRS is currently auditing tax years 2008 through 2010. In general, the Company is no longer subject to examination by the IRS for tax years prior to 2008. In addition, the Company is generally no longer subject to state and local or foreign income tax examinations by taxing authorities for tax years prior to 2005. Various taxing authorities are in the process of auditing income tax returns of the Company and its subsidiaries. The Company does not anticipate that any adjustments from the audits would have a material impact on its consolidated financial position, results of operations or cash flows.

For tax purposes, the Company was deemed to have paid a redemption premium in connection with the amendment to the Term Loan in December 2010 that, in addition to certain expenses, is deductible in determining taxable income. As a result, the Company incurred a net operating loss for tax purposes that resulted in the receipt of \$53.3 million of refunds of previously paid income taxes. As of September 30, 2011, the Company has received the \$53.3 million of refunds.

8. Equity-Based Compensation

The Company recognized \$4.2 million in equity-based compensation expense for the three months ended September 30, 2011. In the third quarter of 2010, the Company recognized a \$5.3 million reduction to equity-based compensation expense due to a change in the cumulative forfeiture rate assumed with respect to the MPK II Plan. As a result, the Company recognized income for equity-based compensation of \$1.0 million for the three months ended September 30, 2010. The Company recognized \$12.3 million and \$7.4 million in equity-based compensation expense for the nine months ended September 30, 2011 and 2010, respectively.

The following table sets forth the summary of equity plan activity for the nine months ended September 30, 2011:

	Class B Common Units ⁽¹⁾	MPK Plan Units ^{(1) (2)}
Equity Awards		
Outstanding at January 1, 2011	191,651	74,826
Granted	7,069	
Forfeited	(2,311)	(2,505) ⁽³⁾
Repurchased/Settled	(458)	(462) ⁽⁴⁾
Outstanding at September 30, 2011	195,951	71,859
Vested at September 30, 2011	(65,878)	(362) ⁽⁵⁾

⁽¹⁾ The weighted-average grant date fair market value for Class B Common Units granted during the period is \$145.47. The weighted-average grant date fair market value for outstanding Class B Common Units is \$288.29. The weighted-average grant date fair market value for outstanding MPK Plan Units is \$1,000.

⁽²⁾ Represents units notionally credited to participants accounts.

⁽³⁾ The Company contributes the units represented by the awards forfeited under the plan (or their equivalent value) to a charitable foundation. The contribution is generally made in the quarter following that in which the units are forfeited. As of September 30, 2011, the Company owes a contribution for 1,512 units.

- (4) Represents Class B Common Units that were repurchased by the Company from former participants and the settlement of vested MPK Plan Units through the issuance of Class A Common Units in exchange for the vested MPK Plan Units.
- (5) Represents units that have vested but not yet converted to Class A Common Units.

As of September 30, 2011, there was \$46.4 million of total unrecognized compensation cost related to nonvested equity-based compensation awards granted under the Company's plans. The unrecognized cost is expected to be recognized over the weighted-average vesting period of 4.7 years.

9. Deferred Compensation Plan

In connection with the Company's purchase of \$28.5 million of the principal amount of senior subordinated debt as described in Note 4, on March 10, 2010, the Company established the Restricted Debt Unit Plan (the RDU Plan), an unfunded nonqualified deferred compensation plan. Participants in the RDU Plan were granted Restricted Debt Units (RDUs) that entitle the participant to a proportionate share of payments under the RDU Plan, determined by dividing the number of RDUs held by the participant by the total number of RDUs outstanding. The total number of RDUs that can be granted under the RDU Plan is 28,500. As of September 30, 2011, 24,974 RDUs had been granted to participants.

Table of Contents

CDW CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

RDU s that are outstanding as of September 30, 2011 vest daily on a pro rata basis over the three-year period commencing January 1, 2012 through December 31, 2014. Vesting ceases upon separation from service except in certain conditions as set forth in the RDU Plan. All outstanding RDU s become vested immediately prior to a sale of the Company. Upon completion of the vesting period, December 31, 2014, or earlier in the case of a sale of the Company, any unallocated RDU s will be allocated to participants on a pro rata basis according to each participant s total RDU s.

The total amount of compensation available to be paid under the RDU Plan is based on two components, a principal component and an interest component. The principal component credits the RDU Plan with an amount equal to the \$28.5 million of the principal amount of senior subordinated debt. Payment of the principal component of the RDU Plan will be made on October 12, 2017, unless accelerated due to a sale of the Company. By December 31, 2014, amounts accrued under the RDU Plan are expected to equal the present value of future principal payments, plus any unpaid accrued interest thereon. The interest component credits the RDU Plan with amounts equal to the interest expense on \$28.5 million principal amount of senior subordinated debt from March 10, 2010 through October 12, 2017. Payment of the interest component for the period from March 10, 2010 through December 31, 2011 will be made in January 2012. The interest component for periods starting on January 1, 2012 and thereafter will be paid semiannually on April 15 and October 15. Payments under the RDU Plan may be impacted if certain significant events occur or circumstances change that would impact the financial condition or structure of the Company.

Compensation expense of \$2.0 million related to the RDU Plan was recognized in the three months ended September 30, 2011 and 2010, and compensation expense of \$6.1 million and \$5.1 million was recognized in the nine months ended September 30, 2011 and 2010, respectively. As of September 30, 2011, total unrecognized compensation expense of approximately \$28.1 million related to the RDU Plan is expected to be recognized over the next 3.25 years.

10. Contingencies

The Company is party to legal proceedings that arise from time to time in the ordinary course of its business, including various pending litigation matters. The Company is also subject to audit by federal, state and local authorities, by various customers, including government agencies, relating to sales under certain contracts and by vendors. In addition, from time to time, customers of the Company file voluntary petitions for reorganization or liquidation under the U.S. bankruptcy laws. In such cases, certain pre-petition payments received by the Company could be considered preference items and subject to return to the bankruptcy administrator.

As of September 30, 2011, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these proceedings and matters, if any, has been incurred. However, the ultimate resolutions of these proceedings and matters are inherently unpredictable. As such, the Company s financial condition and results of operations could be adversely affected in any particular period by the unfavorable resolution of one or more of these proceedings or matters.

11. Segment Information

Segment information is presented in accordance with a management approach, which designates the internal reporting used by the chief operating decision-maker for making decisions and assessing performance as the source of the Company s reportable segments. The Company s segments are organized in a manner consistent with which separate financial information is available and evaluated regularly by the chief operating decision-maker in deciding how to allocate resources and in assessing performance.

The Company has two reportable segments: Corporate, which is comprised primarily of business customers, and Public, which is comprised of government entities and education and healthcare institutions. The Company also has two other operating segments, CDW Advanced Services and Canada, which do not meet the reportable segment quantitative thresholds and, accordingly, are combined together as Other.

Edgar Filing: CDW Corp - Form 10-Q

The Company has centralized logistics and headquarters functions that provide services to the segments. The logistics function includes purchasing, distribution and fulfillment services to support both the Corporate and Public segments. As a result, costs and intercompany charges associated with the logistics function are fully allocated to both of these segments based on a percent of sales. The centralized headquarters function provides services in areas such as accounting, information technology, marketing, legal and coworker services. Headquarters function costs that are not allocated to the segments are included under the heading of Headquarters in the tables below.

The Company allocates resources to and evaluates performance of its segments based on net sales, income (loss) from operations and Adjusted EBITDA, a non-GAAP measure as defined in the Company's credit agreements. However, the Company has concluded that income (loss) from operations is the more useful measure in terms of discussion of operating results as it is a GAAP measure.

Segment information for total assets and capital expenditures is not presented as such information is not used in measuring segment performance or allocating resources between segments.

12. Supplemental Guarantor Information

As described in Note 4, the Senior Secured Notes, Senior Notes, Senior Subordinated Notes and 2019 Senior Notes are guaranteed by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries (the Guarantor Subsidiaries). All guarantees by Parent and Guarantor Subsidiaries are full and unconditional, and joint and several. CDW LLC's Canada subsidiary (the Non-Guarantor Subsidiary) does not guarantee the debt obligations. CDW LLC and CDW Finance Corporation, as co-issuers, are wholly owned by Parent, and each of the Guarantor Subsidiaries and the Non-Guarantor Subsidiary is wholly owned by CDW LLC.

The following tables set forth condensed consolidating balance sheets as of September 30, 2011 and December 31, 2010, consolidating statements of operations for the three and nine months ended September 30, 2011 and 2010, and condensed consolidating statements of cash flows for the nine months ended September 30, 2011 and 2010, in accordance with Rule 3-10 of Regulation S-X. The consolidating financial information includes the accounts of CDW Corporation (the Parent Guarantor), which has no independent assets or operations, the accounts of CDW LLC (the Subsidiary Issuer), the combined accounts of the Guarantor Subsidiaries, the accounts of the Non-Guarantor Subsidiary, and the accounts of CDW Finance Corporation (the Co-Issuer) for the periods indicated. The information was prepared on the same basis as the Company's consolidated financial statements.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Unless otherwise indicated or the context otherwise requires, as used in this Management's Discussion and Analysis of Financial Condition and Results of Operations, the terms we, us, the Company, our, CDW and similar terms refer to CDW Corporation and its subsidiaries. Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the unaudited interim consolidated financial statements and the related notes included elsewhere in this report and with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. This discussion contains forward-looking statements that are subject to numerous risks and uncertainties. Actual results may differ materially from those contained in any forward-looking statements. See Forward-Looking Statements at the end of this discussion.

Overview

We are a leading multi-brand technology solutions provider to business, government, education and healthcare customers in the U.S. and Canada. We provide comprehensive and integrated solutions for our customers' technology needs through our extensive hardware, software and value-added service offerings. Our breadth of offerings allows our customers to streamline their procurement processes by partnering with us as a complete technology solutions provider. Our hardware offerings include products with leading brands across multiple categories such as network communications, notebooks/mobile devices, data storage, video monitors, printers, desktops and servers, among others. Our software offerings include licensing, licensing management and software solutions and services that help our customers to optimize their software investments. We offer a full suite of value-added services, which typically are delivered as part of a technology solution, to help our customers meet their specific needs. Our solutions range from configuration services for computer devices to fully integrated solutions such as virtualization, collaboration, security, mobility, data center optimization and cloud computing. We also offer complementary services including installations, sales of warranties and managed services such as remote network and data center monitoring. We believe both software and service offerings will be important growth areas for us in the future.

We have two reportable segments: Corporate, which is comprised primarily of business customers, and Public, which is comprised of government entities and education and healthcare institutions. Our Corporate segment is divided into a medium-large business customer channel, primarily serving customers having between 100 and 1,000 employees, and a small business customer channel, primarily serving customers with up to 100 employees. We also have two other operating segments, CDW Advanced Services and Canada, which do not meet the reportable segment quantitative thresholds and, accordingly, are combined together as Other. The CDW Advanced Services business consists primarily of customized engineering services delivered by CDW professional engineers and managed services, including hosting and data center services. Revenues from the sale of hardware, software, custom configuration and third-party provided services are recorded within our Corporate and Public segments.

Our business is well-diversified across customers, product and service offerings and vendors from whom we purchase products and software for resale. We have aligned our sales and marketing functions around customer channels to retain and increase our sales to existing customers and to acquire new customers. We have an experienced and dedicated direct selling organization consisting of account managers who provide inside sales coverage, and field account executives who work within an assigned territory and interact with customers in person. Our direct selling organization is supported by a team of technology specialists who design solutions and provide recommendations in the selection and procurement processes. We purchase products for resale from original equipment manufacturers (OEMs) and distributors. We believe that effective purchasing from a diverse vendor base is a key element of our business strategy. We are authorized by OEMs to sell via direct marketing all or selected products offered by the manufacturer. We also operate as a reseller for major software publishers that allows the end-user customer to acquire packaged software or licensed products and services. Our authorization with each OEM or software publisher may include one or more of the following: product return privileges, price protection policies, purchase discounts and vendor incentive programs, such as volume rebates and cooperative advertising reimbursements.

We market the CDW brand on a national basis through a variety of public and community relations and corporate communications efforts, and through brand advertising that includes the use of print, broadcast, online, social and other media. We also market to current and prospective customers through integrated marketing programs that include print and online media, events and sponsorships. As a result of our relationships with our vendors, a substantial portion of our advertising and marketing expenses are reimbursed through cooperative advertising reimbursement programs. Such programs are at the discretion of our vendors and are typically tied to sales or purchasing volumes or other commitments to be met by us within a specified period of time.

An important factor affecting our ability to generate sales and achieve our targeted operating results is the impact of general economic conditions on our customers' willingness to spend on information technology. During the recent economic downturn beginning in late 2008 and into 2009, we experienced significantly lower sales and gross profit as our customers generally reduced spending on information technology products and services. During 2010, we experienced significant increases in sales, gross profit and operating income compared to 2009. In the first nine months of 2011, we have continued to experience year-

Table of Contents

over-year increases in sales, gross profit and operating income at a more moderate level compared to the higher growth rates we experienced in 2010. While general economic conditions and our recent operating results have generally improved, competitive pricing pressures continue in the market. Downturns in the global economy, declines in the availability of credit, weakening consumer and business confidence or increased unemployment could result in reduced spending by our customers on information technology products and services and increased competitive pricing pressures. Our Public segment sales are impacted by government spending policies, budget priorities and revenue levels. Although our sales to the federal government are diversified across multiple agencies and departments, they collectively accounted for 11.0% of our net sales in 2010. Further, our sales to state and local governments accounted for 4.6% of our net sales in 2010. An adverse change in any of these factors could cause our Public segment customers to reduce their purchases or to terminate or not renew contracts with us, which could adversely affect our business, results of operations or cash flows. See Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010 for further discussion.

Our management monitors a number of financial and non-financial measures and ratios on a regular basis in order to track the progress of our business and make adjustments as necessary. We believe that the most important of these measures and ratios include average daily sales, gross margin, operating margin, EBITDA and Adjusted EBITDA, cash and cash equivalents, net working capital, cash conversion cycle (defined to be days of sales outstanding in accounts receivable plus days of supply in inventory minus days of purchases outstanding in accounts payable), debt levels including available credit and leverage ratios, sales per coworker and coworker turnover. These measures and ratios are compared to standards or objectives set by management, so that actions can be taken, as necessary, in order to achieve the standards and objectives. Adjusted EBITDA, a non-GAAP financial measure, also provides helpful information as it is the primary measure used in certain financial covenants contained in our credit agreements.

Results of Operations***Three Months Ended September 30, 2011 Compared to Three Months Ended September 30, 2010***

The following table presents our results of operations, in dollars and as a percentage of net sales, for the three months ended September 30, 2011 and 2010:

	Three Months Ended September 30, 2011		Three Months Ended September 30, 2010	
	Dollars in Millions	Percentage of Net Sales	Dollars in Millions	Percentage of Net Sales

Table of Contents*Net sales*

The following table presents our net sales by segment, in dollars and as a percentage of total net sales, and the year-over-year dollar and percentage change in net sales for the three months ended September 30, 2011 and 2010:

	Three Months Ended September 30, 2011		2010		Dollar Change	Percent Change
	Dollars in Millions	Percentage of Net Sales	Dollars in Millions	Percentage of Net Sales		
Corporate	\$ 1,330.3	51.5%	\$ 1,224.7	51.6%	\$ 105.6	8.6%
Public	1,123.1	43.5	1,051.7	44.3	71.4	6.8
Other	128.0	5.0	98.0	4.1	30.0	30.6
Total net sales	\$ 2,581.4	100.0%	\$ 2,374.4	100.0%	\$ 207.0	8.7%

The following table presents our net sales by customer channel for our Corporate and Public segments and the year-over-year dollar and percentage change in net sales for the three months ended September 30, 2011 and 2010:

(in millions)	Three Months Ended September 30,		Dollar Change	Percent Change
	2011	2010		
Corporate:				
Medium / Large	\$ 1,070.6	\$ 973.7	\$ 96.9	10.0%
Small Business	259.7	251.0	8.7	3.4
Total Corporate	\$ 1,330.3	\$ 1,224.7	\$ 105.6	8.6%
Public:				
Government	\$ 388.1	\$ 397.1	\$ (9.0)	(2.3)%
Education	415.7	392.5	23.2	5.9
Healthcare	319.3	262.1	57.2	21.8
Total Public	\$ 1,123.1	\$ 1,051.7	\$ 71.4	6.8%

Total net sales for the three months ended September 30, 2011 increased \$207.0 million, or 8.7%, to \$2,581.4 million, compared to \$2,374.4 million for the three months ended September 30, 2010. There were 64 selling days for both the three months ended September 30, 2011 and 2010. The increase in total net sales was the result of general volume growth and increased demand in the information technology industry overall, in addition to our focus on growing our market share. The most significant driver of sales growth for the three months ended September 30, 2011 was hardware unit volume growth in our Corporate segment.

Corporate segment net sales for the three months ended September 30, 2011 increased \$105.6 million, or 8.6%, compared to the three months ended September 30, 2010. Within our Corporate segment, net sales to medium / large customers increased 10.0% between periods, and net sales to small business customers increased 3.4% between periods. These increases were primarily a result of hardware unit volume growth, most notably in notebook/mobile devices, netcomm products and telephony, as we continued to benefit from increased demand from our Corporate customers. Public segment net sales for the three months ended September 30, 2011 increased \$71.4 million, or 6.8%, between periods, driven by continued strong growth in the healthcare customer channel. Net sales to healthcare customers increased \$57.2 million, or 21.8%, between periods, driven by hardware unit volume increases in desktop computers and notebook/mobile devices and additional sales from an expanded relationship with a group purchasing organization beginning in the fourth quarter of 2009. Within our Public segment, net sales to government customers decreased \$9.0 million, or 2.3%, between periods, driven by a decline in net sales to state and local government customers due to budget uncertainty resulting from uncertain general economic conditions, while net sales to Federal government customers grew modestly. Net sales to education customers increased \$23.2 million, or 5.9%, between periods, reflecting increased sales to both higher education and K-12 customers.

Gross profit

Gross profit increased \$52.5 million, or 14.3%, to \$420.8 million for the three months ended September 30, 2011, compared to \$368.4 million for the three months ended September 30, 2010. As a percentage of total net sales, gross profit was 16.3% for the three months ended September 30, 2011, up from 15.5% for the three months ended September 30, 2010. Gross profit margin increased 80 basis points between periods, primarily due to a higher mix of net service contract revenue of 30 basis points and favorable price/mix changes within product margin across most product categories of 20 basis points. Net service contract revenue, including items such as third-party services and extended warranties, has a positive impact on gross profit margin as our cost paid to the vendor or third-party service provider is recorded as a reduction to sales, resulting in net sales being equal to the gross profit on the transaction.

Table of Contents

The gross profit margin may fluctuate based on various factors, including vendor incentive and inventory price protection programs, cooperative advertising funds classified as a reduction of cost of sales, product mix, net service contract revenue, commission revenue, pricing strategies, market conditions, and other factors, any of which could result in changes in gross profit margins.

Selling and administrative expenses

Selling and administrative expenses increased \$17.1 million, or 7.3%, to \$252.8 million for the three months ended September 30, 2011, compared to \$235.8 million for the three months ended September 30, 2010. The increase was primarily due to higher payroll costs of \$23.0 million driven by increased sales commissions and other variable compensation costs, such as incentive bonuses, consistent with higher sales and gross profits. In addition, our sales force increased to 3,658 coworkers at September 30, 2011, compared to 3,395 coworkers at September 30, 2010, while total coworker count increased to 6,692 coworkers at September 30, 2011, compared to 6,210 coworkers at September 30, 2010. Included in payroll costs for the three months ended September 30, 2010 was a \$5.3 million reduction to equity-based compensation expense due to a change in the cumulative forfeiture rate assumed with respect to the MPK II Plan that did not repeat in the same period of 2011.

Advertising expense

Advertising expense increased \$0.4 million, or 1.3%, to \$28.3 million for the three months ended September 30, 2011, compared to \$28.0 million for the three months ended September 30, 2010. Higher expenditures on web-based advertising and e-commerce support were partially offset by decreased spending on print advertising and production costs. As a percentage of net sales, advertising expense was 1.1% for the three months ended September 30, 2011, compared to 1.2% for the same period in 2010.

Income (loss) from operations

The following table presents income (loss) from operations by segment, in dollars and as a percentage of net sales, and the year-over-year percentage change in income (loss) from operations for the three months ended September 30, 2011 and 2010:

	Three Months Ended September 30, 2011		Three Months Ended September 30, 2010		Percent Change in Income (Loss) from Operations
	Dollars in Millions	Operating Margin Percentage	Dollars in Millions	Operating Margin Percentage	
Segments: ⁽¹⁾					
Corporate	\$ 80.7	6.1%	\$ 63.4	5.2%	27.3%
Public	79.9	7.1	63.2	6.0	26.4
Other	6.5	5.1	2.8	2.9	100.0+
Headquarters ⁽²⁾	(27.4)	N/A	(24.8)	N/A	(10.8)
Total income (loss) from operations	\$ 139.7	5.4%	\$ 104.6	4.4%	33.5%

⁽¹⁾ Segment income (loss) from operations includes the segment's direct operating income (loss) and allocations for Headquarters' costs, allocations for logistics services, certain inventory adjustments and volume rebates and cooperative advertising from vendors.

⁽²⁾ Includes Headquarters' function costs that are not allocated to the segments.

Income from operations was \$139.7 million for the three months ended September 30, 2011, an increase of \$35.0 million, or 33.5%, compared to \$104.6 million for the three months ended September 30, 2010. This increase was driven by higher net sales and gross profit, partially offset by higher selling and administrative expenses.

Corporate segment income from operations was \$80.7 million for the three months ended September 30, 2011, an increase of \$17.3 million, or 27.3%, compared to \$63.4 million for the three months ended September 30, 2010. The increase in Corporate segment income from operations was primarily driven by higher net sales and gross profit margin, partially offset by higher selling and administrative costs, resulting in a net increase before allocations of \$9.9 million in 2011 compared to 2010. In addition, Corporate segment income from operations benefited from an

Edgar Filing: CDW Corp - Form 10-Q

increase of \$4.4 million in income allocations from our logistics operations for the three months ended September 30, 2011 compared to the three months ended September 30, 2010. The improved profitability of our logistics operations was driven by stronger operating leverage given higher purchase volumes partially offset by a moderate increase in support structure costs. Headquarters expense allocations to the Corporate segment decreased by \$3.1 million on a year-over-year basis.

Table of Contents

Public segment income from operations was \$79.9 million for the three months ended September 30, 2011, an increase of \$16.7 million, or 26.4%, compared to \$63.2 million for the three months ended September 30, 2010. The increase reflected higher operating income before allocations of \$10.4 million as a result of increased net sales and gross profit margin, partially offset by higher selling and administrative costs. In addition, Public segment income from operations benefited from an increase of \$3.3 million in income allocations from our logistics operations for the three months ended September 30, 2011 compared to the three months ended September 30, 2010. Headquarters expense allocations to the Public segment decreased by \$2.9 million on a year-over-year basis.

The loss from operations for our Headquarters function of \$27.4 million for the three months ended September 30, 2011 was \$2.7 million higher than the loss from operations of \$24.8 million for the same period of the prior year. The increase of \$2.7 million reflected a net decrease in costs of \$2.8 million, offset by lower intercompany allocations to the operating segments of \$5.5 million.

Interest expense, net

At September 30, 2011, our outstanding long-term debt, excluding capital leases, totaled \$4,071.0 million. Net interest expense for the three months ended September 30, 2011 was \$85.5 million, a decrease of \$19.6 million compared to \$105.1 million for the three months ended September 30, 2010. This decrease was primarily due to lower effective interest rates for the three months ended September 30, 2011 resulting from the termination of our interest rate swaps in January 2011 and the debt refinancing activities completed during the first half of 2011.

Income tax expense (benefit)

Income tax expense was \$17.6 million for the three months ended September 30, 2011, compared to an income tax benefit of \$0.04 million for the same period of the prior year. The effective income tax rate, expressed by calculating income tax benefit as a percentage of loss before income taxes, was 32.3% for the three months ended September 30, 2011, which was less than the statutory rate due to a decrease in the deferred state income tax rate during the quarter reflecting an update of the state apportionment factors. For the three months ended September 30, 2010, the effective income tax rate was 13.5% due to the small amount of pre-tax earnings adjusted for permanent items.

Net income (loss)

Net income was \$37.1 million for the three months ended September 30, 2011, compared to a net loss of \$0.3 million for the three months ended September 30, 2010.

Adjusted EBITDA

Adjusted EBITDA was \$200.1 million for the three months ended September 30, 2011, an increase of \$36.5 million, or 22.3%, compared to \$163.6 million for the three months ended September 30, 2010. As a percentage of net sales, Adjusted EBITDA was 7.8% and 6.9% for the three months ended September 30, 2011 and 2010, respectively.

We have included a reconciliation of EBITDA and Adjusted EBITDA for the three months ended September 30, 2011 and 2010 in the table below. EBITDA is defined as earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA, which is a measure defined in our credit agreements, means EBITDA adjusted for certain items which are described in the table below. Both EBITDA and Adjusted EBITDA are considered non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. We believe that EBITDA and Adjusted EBITDA provide helpful information with respect to our operating performance and cash flows including our ability to meet our future debt service, capital expenditures, and working capital requirements. Adjusted EBITDA also provides helpful information as it is the primary measure used in certain financial covenants contained in our credit agreements.

Table of Contents*Net sales*

The following table presents our net sales by segment, in dollars and as a percentage of total net sales, and the year-over-year dollar and percentage change in net sales for the nine months ended September 30, 2011 and 2010:

	Nine Months Ended September 30, 2011		Nine Months Ended September 30, 2010		Dollar Change	Percent Change ⁽¹⁾
	Dollars in Millions	Percentage of Net Sales	Dollars in Millions	Percentage of Net Sales		
Corporate	\$ 3,948.0	55.4%	\$ 3,534.8	54.1%	\$ 413.2	11.7%
Public	2,798.2	39.3	2,702.9	41.4	95.3	3.5
Other	376.9	5.3	294.1	4.5	82.8	28.2
Total net sales	\$ 7,123.1	100.0%	\$ 6,531.8	100.0%	\$ 591.3	9.1%

⁽¹⁾ There were 192 and 191 selling days for the nine months ended September 30, 2011 and 2010, respectively. On an average daily basis, total net sales increased 8.5%.

The following table presents our net sales by customer channel for our Corporate and Public segments and the year-over-year dollar and percentage change in net sales for the nine months ended September 30, 2011 and 2010:

(in millions)	Nine Months Ended September 30,		Dollar	Percent
	2011	2010	Change	Change
Corporate:				
Medium / Large	\$ 3,168.5	\$ 2,831.3	\$ 337.2	11.9%
Small Business	779.5	703.5	76.0	10.8
Total Corporate	\$ 3,948.0	\$ 3,534.8	\$ 413.2	11.7%
Public:				
Government	\$ 916.1	\$ 1,020.7	\$ (104.6)	(10.2)%
Education	973.6	958.4	15.2	1.6
Healthcare	908.5	723.8	184.7	25.5
Total Public	\$ 2,798.2	\$ 2,702.9	\$ 95.3	3.5%

Total net sales for the nine months ended September 30, 2011 increased \$591.3 million, or 9.1%, to \$7,123.1 million, compared to \$6,531.8 million for the nine months ended September 30, 2010. There were 192 and 191 selling days for the nine months ended September 30, 2011 and 2010, respectively. On an average daily basis, total net sales increased 8.5%. The increase in total net sales was the result of general volume growth and increased demand in the information technology industry overall, in addition to our focus on growing our market share. The most significant driver of sales growth for the nine months ended September 30, 2011 was hardware unit volume growth in our Corporate segment.

Corporate segment net sales for the nine months ended September 30, 2011 increased \$413.2 million, or 11.7%, compared to the nine months ended September 30, 2010. Within our Corporate segment, net sales to medium / large customers increased 11.9% between periods, and net sales to small business customers increased 10.8% between periods. These increases were primarily a result of hardware unit volume growth, most notably in notebook/mobile devices, as we continued to benefit from increased demand from our Corporate customers. Public segment net sales for the nine months ended September 30, 2011 increased \$95.3 million, or 3.5%, between periods as growth in the healthcare customer channel more than offset a decline in the government customer channel. Net sales to healthcare customers increased \$184.7 million, or 25.5%, between periods, driven by hardware unit volume increases in desktop computers and notebook/mobile devices and additional sales from an expanded relationship with a group purchasing organization beginning in the fourth quarter of 2009. Within our Public segment, net sales to

Edgar Filing: CDW Corp - Form 10-Q

government customers decreased \$104.6 million, or 10.2%, between periods, driven by a decline in net sales to Federal government customers due to negative trends in Federal government spending as a result of budget uncertainty. Net sales to education customers increased \$15.2 million, or 1.6%, between periods.

Gross profit

Gross profit increased \$140.0 million, or 13.5%, to \$1,174.1 million for the nine months ended September 30, 2011, compared to \$1,034.1 million for the nine months ended September 30, 2010. As a percentage of total net sales, gross profit was 16.5% for the nine months ended September 30, 2011, up from 15.8% for the nine months ended September 30, 2010. Gross profit margin increased 70 basis points between periods, primarily due to favorable price/mix changes within product margin across most product categories of 30 basis points, and a higher mix of commission revenue and net service contract revenue of 30 basis points. Commission revenue, including agency fees earned on sales of software licenses and software assurance under enterprise

Table of Contents

agreements, has a positive impact on our gross profit margin as we record the fee or commission as a component of net sales when earned and there is no corresponding cost of sales amount. Net service contract revenue, including items such as third-party services and extended warranties, also has a positive impact on gross profit margin as our cost paid to the vendor or third-party service provider is recorded as a reduction to sales, resulting in net sales being equal to the gross profit on the transaction.

The gross profit margin may fluctuate based on various factors, including vendor incentive and inventory price protection programs, cooperative advertising funds classified as a reduction of cost of sales, product mix, net service contract revenue, commission revenue, pricing strategies, market conditions, and other factors, any of which could result in changes in gross profit margins.

Selling and administrative expenses

Selling and administrative expenses increased \$37.9 million, or 5.5%, to \$727.6 million for the nine months ended September 30, 2011, compared to \$689.7 million for the nine months ended September 30, 2010. The increase was primarily due to higher payroll costs of \$41.5 million driven by increased sales commissions and other variable compensation costs consistent with higher sales and gross profits. In addition, our sales force increased to 3,658 coworkers at September 30, 2011, compared to 3,395 coworkers at September 30, 2010, while total coworker count increased to 6,692 coworkers at September 30, 2011, compared to 6,210 coworkers at September 30, 2010. Included in payroll costs for the nine months ended September 30, 2010 was a \$5.3 million reduction to equity-based compensation expense due to a change in the cumulative forfeiture rate assumed with respect to the MPK II Plan that did not repeat in the same period of 2011.

Advertising expense

Advertising expense increased \$14.1 million, or 19.3%, to \$86.9 million for the nine months ended September 30, 2011, compared to \$72.9 million for the nine months ended September 30, 2010. Higher expenses were due to increased spending on web-based advertising, e-commerce support, customer-focused marketing events and sponsorships. As a percentage of net sales, advertising expense was 1.2% for the three months ended September 30, 2011, compared to 1.1% for the same period in 2010.

Income (loss) from operations

The following table presents income (loss) from operations by segment, in dollars and as a percentage of net sales, and the year-over-year percentage change in income (loss) from operations for the nine months ended September 30, 2011 and 2010:

	Nine Months Ended September 30, 2011		Nine Months Ended September 30, 2010		Percent Change in Income (Loss) from Operations
	Dollars in Millions	Operating Margin Percentage	Dollars in Millions	Operating Margin Percentage	
Segments: ⁽¹⁾					
Corporate	\$ 246.7	6.3%	\$ 188.8	5.3%	30.7%
Public	178.0	6.4	152.4	5.6	16.8
Other	14.5	3.8	9.8	3.3	47.7
Headquarters ⁽²⁾	(79.6)	N/A	(79.5)	N/A	(0.2)
Total income (loss) from operations	\$ 359.6	5.1%	\$ 271.5	4.2%	32.4%

⁽¹⁾ Segment income (loss) from operations includes the segment's direct operating income (loss) and allocations for Headquarters' costs, allocations for logistics services, certain inventory adjustments and volume rebates and cooperative advertising from vendors.

⁽²⁾ Includes Headquarters' function costs that are not allocated to the segments.

Income from operations was \$359.6 million for the nine months ended September 30, 2011, an increase of \$88.1 million, or 32.4%, compared to \$271.5 million for the nine months ended September 30, 2010. This increase was driven by higher net sales and gross profit, partially offset by higher advertising expense and selling and administrative expenses.

Edgar Filing: CDW Corp - Form 10-Q

Corporate segment income from operations was \$246.7 million for the nine months ended September 30, 2011, an increase of \$57.9 million, or 30.7%, compared to \$188.8 million for the nine months ended September 30, 2010. The increase in Corporate segment income from operations was primarily driven by higher net sales and gross profit margin, partially offset by higher selling and administrative costs, resulting in a net increase before allocations of \$39.4 million in 2011 compared to 2010. In addition, Corporate segment income from operations benefited from an increase of \$20.2 million in income allocations from our logistics operations for the nine months ended September 30, 2011 compared to the nine months ended September 30, 2010. The improved profitability of our logistics operations was driven by stronger operating leverage given higher purchase volumes while support structure costs remained flat. Partially offsetting the above items was an increase in Headquarters expense allocations to the Corporate segment of \$1.7 million.

Table of Contents

Public segment income from operations was \$178.0 million for the nine months ended September 30, 2011, an increase of \$25.6 million, or 16.8%, compared to \$152.4 million for the nine months ended September 30, 2010. The increase reflected higher operating income before allocations of \$17.5 million as a result of higher net sales and gross profit margin, partially offset by higher selling and administrative costs. In addition, Public segment income from operations benefited from an increase of \$8.8 million in income allocations from our logistics operations for the nine months ended September 30, 2011 compared to the nine months ended September 30, 2010.

The loss from operations for our Headquarters function of \$79.6 million for the nine months ended September 30, 2011 was flat compared to the loss from operations of \$79.5 million for the same period of the prior year.

Interest expense, net

At September 30, 2011, our outstanding long-term debt, excluding capital leases, totaled \$4,071.0 million. Net interest expense for the nine months ended September 30, 2011 was \$243.3 million, a decrease of \$45.4 million compared to \$288.7 million for the nine months ended September 30, 2010. Interest expense was reduced by \$19.4 million during the nine months ended September 30, 2011, because of adjustments to the long-term accrued interest liability associated with the extinguishment of \$1,078.0 million of senior notes due 2015. The long-term accrued interest liability represents the difference between interest expense previously recognized under the effective interest method and actual interest paid. The remaining decrease of \$26.0 million was primarily due to lower effective interest rates for the nine months ended September 30, 2011 resulting from the termination of our interest rate swaps in January 2011 and the debt refinancing activities completed during the first half of 2011, partially offset by non-cash gains on hedge ineffectiveness recorded to interest expense in the prior year.

Net (loss) gain on extinguishments of long-term debt

During the nine months ended September 30, 2011, we recorded a loss on extinguishments of long-term debt of \$118.9 million, as a result of debt transactions completed during the first half of 2011.

In March 2011, we amended our senior secured term loan facility and recorded a loss on extinguishment of long-term debt of \$3.2 million, representing a write-off of a portion of the unamortized deferred financing costs on this facility.

In April and May 2011, we purchased \$1,078.0 million of senior notes due 2015, funded with the issuance of \$1,175.0 million of senior notes due 2019. As a result, we recorded a loss on extinguishment of long-term debt of \$114.1 million, representing the difference between the purchase price of the senior notes due 2015 at 109% of par value and the net carrying amount of the purchased debt, adjusted for a portion of the unamortized deferred financing costs.

In June 2011, we entered into a new \$900.0 million senior secured asset-based revolving credit facility, replacing the existing \$800.0 million facility. As a result, we recorded a loss on extinguishment of long-term debt of \$1.6 million representing a write-off of a portion of the unamortized deferred financing costs related to the previous facility.

During the nine months ended September 30, 2010, we recorded a gain of \$9.2 million on extinguishment of long-term debt resulting from the March 2010 repurchase of \$28.5 million of principal amount of senior subordinated debt for a purchase price of \$18.6 million. The gain represents the difference between the purchase price, including expenses paid to the debt holders and agent, and the net carrying amount of the purchased debt, adjusted for a portion of the unamortized deferred financing costs. The \$28.5 million in principal amount of senior subordinated debt that were repurchased were exchanged for increasing rate notes and subsequently surrendered to the indenture trustee for cancellation.

Income tax (expense) benefit

Income tax expense was \$0.3 million for the nine months ended September 30, 2011, compared to an income tax benefit of \$2.6 million for the same period of the prior year. The effective income tax rate, expressed as a percentage of loss before income taxes, was (18.3)% for the nine months ended September 30, 2011. Although we recognized a small pre-tax loss for the first nine months of 2011, a year-to-date increase in the deferred state income tax rate and 2011 enacted state law changes resulted in the \$0.3 million income tax expense for the period. An effective tax rate of 33.9% was recognized for the nine months ended September 30, 2010.

Net loss

The net loss was \$1.9 million for the nine months ended September 30, 2011, compared to \$5.1 million for the nine months ended September 30, 2010.

Table of Contents*Adjusted EBITDA*

Adjusted EBITDA was \$543.1 million for the nine months ended September 30, 2011, an increase of \$87.2 million, or 19.1%, compared to \$456.0 million for the nine months ended September 30, 2010. As a percentage of net sales, Adjusted EBITDA was 7.6% and 7.0% for the nine months ended September 30, 2011 and 2010, respectively.

We have included a reconciliation of EBITDA and Adjusted EBITDA for the nine months ended September 30, 2011 and 2010 in the table below. EBITDA is defined as earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA, which is a measure defined in our credit agreements, means EBITDA adjusted for certain items which are described in the table below. Both EBITDA and Adjusted EBITDA are considered non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. We believe that EBITDA and Adjusted EBITDA provide helpful information with respect to our operating performance and cash flows including our ability to meet our future debt service, capital expenditures, and working capital requirements. Adjusted EBITDA also provides helpful information as it is the primary measure used in certain financial covenants contained in our credit agreements.

(in millions)	Nine Months Ended September 30,

Table of Contents**Seasonality**

While we have not historically experienced significant seasonality throughout the year, sales in our Corporate segment, which primarily serves business customers, are typically higher in the fourth quarter than in other quarters due to customers spending their remaining technology budget dollars at the end of the year. Additionally, sales in our Public segment have historically been higher in the third quarter than in other quarters primarily due to the buying patterns of the federal government.

Liquidity and Capital Resources***Overview***

We finance our operations and capital expenditures through a combination of internally generated cash from operations and from borrowings under our senior secured asset-based revolving credit facility. We believe that our current sources of funds will be sufficient to fund our cash operating requirements for the next year. In addition, we believe that, in spite of the uncertainty of future macroeconomic conditions, we have adequate sources of liquidity and funding available to meet our longer-term needs. However, there are a number of factors that may negatively impact our available sources of funds. The amount of cash generated from operations will be dependent upon factors such as the successful execution of our business plan and general economic conditions.

Cash Flows

We have revised our consolidated statement of cash flows for the nine months ended September 30, 2010. See Note 1 to the consolidated financial statements for further information.

Cash flows from operating, investing and financing activities were as follows:

(in millions)	Nine Months Ended September 30,	
	2011	2010
Net cash provided by (used in):		
Operating activities	\$ 171.5	\$ 363.8
Investing activities	(36.2)	(82.9)
Financing activities	(144.9)	(302.0)
Effect of exchange rate changes on cash and cash equivalents	(1.1)	0.1
Net decrease in cash and cash equivalents	\$ (10.7)	\$ (21.0)

Operating Activities

Net cash provided by operating activities for the nine months ended September 30, 2011 decreased \$192.3 million compared to the same period of the prior year. For the first nine months of 2011, changes in assets and liabilities, excluding cash and cash equivalents, reduced net cash provided by operating activities by \$122.4 million compared to a contribution of \$207.4 million for the first nine months of 2010, driven by accounts payable. The increase in accounts payable from December 31, 2010 to September 30, 2011 was \$27.1 million compared to an increase of \$260.7 million for the same period of the prior year. At the end of 2009, we accelerated a substantial amount of payments to take advantage of early pay discounts, resulting in a significant cash inflow during the first nine months of 2010. We accelerated a considerably lower amount of payments at the end of 2010 compared to 2009, which resulted in a lower cash inflow during the first nine months of 2011. The impact of changes in other current liabilities increased net cash provided by operating activities by \$63.7 million in the first nine months of 2011, compared to an increase of \$123.8 million in the same period of the prior year. This was driven by higher cash payments for compensation accrued as of the prior year-end. Net income as adjusted for non-cash items increased \$137.5 million between periods reflecting our improved operating results.

Table of Contents

In order to manage our working capital and operating cash needs, we monitor our cash conversion cycle, defined as days of sales outstanding in accounts receivable plus days of supply in inventory, less days of purchases outstanding in accounts payable. The following table presents the components of our cash conversion cycle:

(in days)	September 30,	
	2011	2010
Days of sales outstanding (DSO) ⁽¹⁾	42	43
Days of supply in inventory (DIO) ⁽²⁾	15	15
Days of purchases outstanding (DPO) ⁽³⁾	(32)	(25)
Cash conversion cycle	25	33

⁽¹⁾ Represents the rolling three month average of the balance of trade accounts receivable, net at the end of the period divided by average daily net sales. Also incorporates components of other miscellaneous receivables.

⁽²⁾ Represents the rolling three month average of the balance of inventory at the end of the period divided by average daily cost of goods sold.

⁽³⁾ Represents the rolling three month average of the combined balance of accounts payable-trade, excluding cash overdrafts, and accounts payable-inventory financing at the end of the period divided by average daily cost of goods sold.

The cash conversion cycle decreased to 25 days at September 30, 2011 compared to 33 days at September 30, 2010, driven by a seven-day increase in DPO. The increase in DPO reflects a higher combined balance of accounts payable-trade and accounts payable-inventory financing at September 30, 2011 compared to September 30, 2010 as purchase volumes increased to support higher net sales and we received more favorable payment terms with certain vendors. The one day decline in DSO from 43 days to 42 days was driven by improvement in the Public segment.

For tax purposes, we were deemed to have paid a redemption premium in connection with the amendment to the Term Loan Facility in December 2010 that, in addition to certain expenses, is deductible in determining taxable income. As a result, we incurred a net operating loss for tax purposes that resulted in the receipt of \$53.3 million of refunds of previously paid income taxes. As of September 30, 2011, we had received the \$53.3 million of refunds.

Investing Activities

Net cash used in investing activities for the nine months ended September 30, 2011 decreased \$46.7 million compared to the same period of the prior year. This was primarily due to a decrease of \$52.1 million in cash payments under our interest rate swap agreements, as the \$6.6 million paid in the first nine months of 2011 reflected the final payment upon termination of the swap agreements on January 14, 2011. Capital expenditures were \$25.9 million for the nine months ended September 30, 2011 and \$18.3 million for the nine months ended September 30, 2010, primarily for improvements to our information technology systems during both periods. During the first nine months of 2011 and 2010, we paid \$3.7 million and \$5.9 million, respectively, for new interest rate cap agreements.

Financing Activities

Net cash used in financing activities decreased \$157.1 million for the nine months ended September 30, 2011 compared to the same period of 2010. This change was primarily driven by lower net repayments of \$117.2 million under our senior secured revolving credit facility during the first nine months of 2011 compared to 2010, and an increase of \$161.9 million in advances under our inventory financing agreements between years. The impact of these items was partially offset by an increase of \$115.5 million in repayments under our senior secured term loan facility. Payments totaling \$1,175.0 million to extinguish long-term debt during the first nine months of 2011 were funded by proceeds of \$1,175.0 million from new debt issuances. In connection with our debt transactions during the first half of 2011, we paid \$26.3 million in deferred financing costs. In March 2010, we paid \$18.6 million to extinguish a portion of our senior subordinated debt.

Table of Contents**Long-Term Debt and Financing Arrangements**

Long-term debt, excluding capital leases, was as follows:

(in millions)	September 30, 2011	December 31, 2010
Senior secured asset-based revolving credit facility	\$ 5.0	\$ 188.1
Senior secured term loan facility	1,540.5	1,672.5
Senior secured notes due 2018	500.0	500.0
Senior notes due 2015	129.0	1,207.0
Senior notes due 2019	1,175.0	
Senior subordinated notes due 2017	721.5	721.5
Total long-term debt	4,071.0	4,289.1
Less current maturities of long-term debt		(132.0)
Long-term debt, excluding current maturities	\$ 4,071.0	\$ 4,157.1

As of September 30, 2011, we were in compliance with the covenants under our various credit agreements as described below.

Senior Secured Asset-Based Revolving Credit Facility (Revolving Loan)

At September 30, 2011, we had outstanding borrowings of \$5.0 million under the Revolving Loan (at an effective weighted-average interest rate of 4.50% per annum), \$1.8 million of undrawn letters of credit and \$190.6 million reserved related to the floorplan sub-facility (discussed below).

On June 24, 2011, we entered into the Revolving Loan, a new five-year \$900.0 million senior secured asset-based revolving credit facility, with the facility being available to us for borrowings, issuance of letters of credit and floorplan financing for certain vendor products. The Revolving Loan matures on June 24, 2016, subject to an acceleration provision discussed below. The Revolving Loan replaces our previous revolving loan credit facility that was to mature on October 12, 2012. The Revolving Loan (i) increased the overall revolving credit facility capacity available to us from \$800.0 million to \$900.0 million, (ii) increased the maximum aggregate amount of increases that may be made to the revolving credit facility from \$100.0 million to \$200.0 million, (iii) added a maturity acceleration provision based upon excess cash availability whereby the Revolving Loan may mature 45 days prior to both the maturity of the non-extended portion of our senior secured term loan facility and the maturity of our senior exchange notes due 2015, if excess cash availability does not exceed the outstanding borrowings of the subject maturing debt at the time of the test plus \$150 million, (iv) increased the fee on the unused portion of the revolving credit facility from 25 basis points to either 37.5 or 50 basis points, depending on the amount of utilization, (v) increased the applicable interest rate margin, and (vi) incorporated a \$300.0 million floorplan sub-facility, which was increased to \$400.0 million on August 2, 2011. In connection with the termination of the previous facility, we recorded a loss on extinguishment of long-term debt of \$1.6 million on the consolidated statement of operations for the nine months ended September 30, 2011, representing a write-off of a portion of unamortized deferred financing costs. Fees of \$7.2 million related to the Revolving Loan were capitalized as deferred financing costs and are being amortized over the term of the facility on a straight-line basis.

As described in Note 3 to the consolidated financial statements, in connection with the floorplan sub-facility, we entered into the Revolving Loan financing agreement. Amounts outstanding under the Revolving Loan financing agreement are unsecured and non-interest bearing. We will either pay the outstanding Revolving Loan financing agreement amounts when they become due, or the Revolving Loan's administrative agent will automatically initiate an advance on the Revolving Loan and use the proceeds to pay the balance on the due date. As of September 30, 2011, we owed \$186.0 million under the Revolving Loan financing agreement, which is included in accounts payable inventory financing on our balance sheet. Changes in cash flows from the Revolving Loan financing agreement are reported in financing activities on our statement of cash flows.

Borrowings under the Revolving Loan bear interest at a variable interest rate plus an applicable margin. The variable interest rate is based on one of two indices, either (i) LIBOR, or (ii) the Alternate Base Rate (ABR) with the ABR being the greatest of (a) the prime rate, (b) the federal funds effective rate plus 50 basis points or (c) the one-month LIBOR plus 1.00%. The applicable margin varies (2.00% to 2.50% for LIBOR borrowings and 1.00% to 1.50% for ABR borrowings) depending upon our average daily excess cash availability under the agreement and is subject to a reduction of 0.25% if the senior secured leverage ratio is less than 3.0. The senior secured leverage ratio is defined as the ratio of

Edgar Filing: CDW Corp - Form 10-Q

senior secured debt (including amounts owed under certain inventory floorplan arrangements and capital leases) less cash and cash equivalents, to Adjusted EBITDA, a non-GAAP measure, for the four most recently ended fiscal quarters. The margins on the previous revolving loan credit facility varied from 1.00% to 1.75% for LIBOR borrowings and 0.00% to 0.75% for ABR borrowings.

Table of Contents

Availability under the Revolving Loan is limited to (a) the lesser of the revolving commitment of \$900.0 million and the amount of the borrowing base less (b) outstanding borrowings, letters of credit, and amounts outstanding under the Revolving Loan financing agreement plus a reserve of 15% of open orders. The borrowing base is (a) the sum of the products of the applicable advance rates on eligible accounts receivable and on eligible inventory as defined in the agreement less (b) any reserves. At September 30, 2011, the borrowing base was \$1,048.8 million as supported by eligible inventory and accounts receivable balances as of August 31, 2011. We could have borrowed up to an additional \$702.6 million under the Revolving Loan at September 30, 2011.

CDW LLC is the borrower under the Revolving Loan. All obligations under the Revolving Loan are guaranteed by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. Borrowings under the Revolving Loan are collateralized by a first priority interest in inventory (excluding inventory collateralized under the inventory floorplan arrangements as described in Note 3 to the consolidated financial statements), deposits, and accounts receivable, and a second priority interest in substantially all other assets. The Revolving Loan contains negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Revolving Loan also includes maintenance of a minimum average daily excess cash availability requirement. Should we fall below the minimum average daily excess cash availability requirement for five consecutive business days, we become subject to a fixed charge coverage ratio until such time as the daily excess cash availability requirement is met for 30 consecutive business days.

Senior Secured Term Loan Facility (Term Loan)

At September 30, 2011, the outstanding principal amount of our Term Loan was \$1,540.5 million, with \$484.5 million of non-extended loans and \$1,056.0 million of extended loans. The effective weighted-average interest rate on Term Loan principal amounts outstanding on September 30, 2011 was 4.14% per annum. For the nine months ended September 30, 2011, the effective weighted-average interest rate without giving effect to the interest rate swap agreements (see Note 5 to the consolidated financial statements) was 4.45% per annum. For the nine months ended September 30, 2011, the effective weighted-average interest rate including the effect of the interest rate swap agreements was 4.68% per annum. The interest rate swap agreements terminated on January 14, 2011.

Borrowings under the Term Loan bear interest at either (a) the ABR plus a margin; or (b) LIBOR plus a margin. The margin is based on our senior secured leverage ratio as defined in the amended agreement evidencing the Term Loan. Effective with the March 2011 amendment discussed below, the margins were reduced on extended loans. For ABR borrowings, the applicable margin varies within a range of 2.50% to 3.00% for non-extended loans and 1.75% to 2.25% for extended loans. For LIBOR borrowings, the applicable margin varies within a range of 3.50% to 4.00% for non-extended loans and 2.75% to 3.25% for extended loans. The non-extended loans mature on October 10, 2014. The extended loans mature on July 15, 2017. The maturity of the extended loans was subject to acceleration to July 15, 2015 if, as of July 14, 2015, (i) the senior secured leverage ratio is greater than or equal to 3.00 to 1.00 and (ii) the outstanding principal amount of Senior Notes with a maturity date of October 12, 2015 is greater than or equal to \$500.0 million. We completed a cash tender offer and follow-on cash tender offer (described below) and, as a result of the reduction in the outstanding balances of the Senior Notes due 2015, the maturity of extended loans will not be accelerated.

On March 11, 2011, we entered into an amendment to the Term Loan, which became effective on March 14, 2011. This amendment, among other things: (i) reduced the margins with respect to the extended loans, (ii) established a LIBOR floor of 1.25% and an ABR floor of 2.25% with respect to the extended loans, (iii) reset the start date for accumulating restricted payments that count against the general limit of \$25.0 million and (iv) provided a 1% prepayment premium for certain repayments or re-pricings of any extended loans for the six month period following the effective date of the amendment. In connection with this amendment, we recorded a loss on extinguishment of long-term debt of \$3.2 million on the consolidated statement of operations for the nine months ended September 30, 2011. This loss represents a write-off of a portion of the unamortized deferred financing costs related to the Term Loan.

The Term Loan requires us to make certain mandatory prepayments of principal amounts under certain circumstances, including (i) a prepayment in an amount equal to 50% of our excess cash flow for a fiscal year (the percentage rate of which can decrease based upon the total net leverage ratio as defined in the governing agreement); and (ii) the net cash proceeds from the incurrence of certain additional indebtedness by us or our subsidiaries. Excess cash flow is defined as Adjusted EBITDA, plus items such as reductions in working capital, less items such as increases in working capital, certain taxes paid in cash, interest that will be paid in cash, capital expenditures and repayment of long-term indebtedness. On March 16, 2011, we made a mandatory prepayment of \$132.0 million with respect to the year ended December 31, 2010 under the excess cash flow provision.

Table of Contents

CDW LLC is the borrower under the Term Loan. All obligations under the Term Loan are guaranteed by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The Term Loan is collateralized by a second priority interest in substantially all inventory (excluding inventory collateralized under the inventory floorplan arrangements as described in Note 3 to the consolidated financial statements), deposits, and accounts receivable, and by a first priority interest in substantially all other assets. The Term Loan contains negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Term Loan also includes a senior secured leverage ratio requirement. The senior secured leverage ratio is required to be maintained on a quarterly basis. Compliance may be determined after giving effect to a designated equity contribution to us to be included in the calculation of Adjusted EBITDA. The senior secured leverage ratio for the four quarters ended September 30, 2011 was required to be at or below 7.5. For the four quarters ended September 30, 2011, the senior secured leverage ratio was 2.9. The interest rate margin on the extended loans will decrease by 0.25% upon filing of the required officer's certificate as a result of the senior secured leverage ratio being less than 3.0. The senior secured leverage ratio is a material component of the Term Loan. Non-compliance with the senior secured leverage ratio requirement would result in a default under the credit agreement governing the Term Loan and could prevent us from borrowing under our Revolving Loan. If there were an event of default under the credit agreement governing the Term Loan that was not cured or waived, the lenders under the Term Loan could cause all amounts outstanding under the Term Loan to be due and payable immediately, which would have a material adverse effect on our financial position and cash flows. For a discussion of net cash from operating activities, investing activities and financing activities, see Cash Flows. For a reconciliation of Adjusted EBITDA to net cash from operating activities, see Results of Operations. We are required to maintain an interest rate hedge to fix or cap the interest rate on at least 50% of the outstanding principal amount of the Term Loan through maturity, subject to certain limitations currently in effect. With the interest rate cap agreements as described in Note 5 to the consolidated financial statements, we expect to be in compliance with this requirement through January 14, 2013.

8.0% Senior Secured Notes due 2018 (Senior Secured Notes)

The Senior Secured Notes were issued on December 17, 2010 and will mature on December 15, 2018. At September 30, 2011, the outstanding principal amount of the Senior Secured Notes was \$500.0 million.

CDW LLC and CDW Finance Corporation are the co-issuers of the Senior Secured Notes and the obligations under the notes are guaranteed by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The Senior Notes are secured on a pari passu basis with the Term Loan by a second priority interest in substantially all inventory (excluding inventory collateralized under the inventory floorplan arrangements as described in Note 3 to the consolidated financial statements), deposits, and accounts receivable, and by a first priority interest in substantially all other assets. The Senior Secured Note Indenture contains negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Senior Secured Note Indenture does not contain any financial covenants.

11.0% Senior Exchange Notes due 2015 (Senior Exchange Notes); 11.50% / 12.25% Senior PIK Election Exchange Notes due 2015 (PIK Election Notes together with the Senior Exchange Notes the Senior Notes)

At September 30, 2011, the outstanding principal amount of the Senior Notes was \$129.0 million. The Senior Notes have a maturity date of October 12, 2015. The Senior Notes are comprised of \$49.3 million of Senior Exchange Notes and \$79.7 million of PIK Election Notes. We are required to pay cash interest on the outstanding principal of the Senior Exchange Notes. For PIK Election Notes, we paid cash interest for the interest period April 15, 2011 through October 15, 2011 and are required to pay cash interest on the outstanding principal of the PIK Election Notes for the remaining interest periods through maturity.

On April 13, 2011, we completed a cash tender offer (the Initial Senior Notes Tender Offer) and purchased \$665.1 million aggregate principal amount of Senior Notes comprised of \$519.2 million of the Senior Exchange Notes and \$145.9 million of the PIK Election Notes. We concurrently issued \$725.0 million in aggregate principal amount of 8.5% Senior Notes due 2019. The proceeds from this offering, together with cash on hand and borrowings under the then-outstanding revolving loan credit facility, were used to fund the purchase of the tendered Senior Notes, including \$665.1 million aggregate principal amount of Senior Notes, \$59.9 million in tender offer premium and \$36.5 million of accrued and unpaid interest, along with transaction fees and expenses.

On May 20, 2011, we completed a follow-on cash tender offer (the Follow-on Senior Notes Tender Offer, and together with the Initial Senior Notes Tender Offer, the Senior Notes Tender Offers) and purchased an additional \$412.8 million aggregate principal amount of Senior Notes comprised of \$321.4 million of the Senior Exchange Notes and \$91.4 million of the PIK Election Notes. We concurrently issued \$450.0 million in aggregate principal amount of additional 8.5% Senior Notes due 2019. The proceeds from this offering, together with cash on hand and

Edgar Filing: CDW Corp - Form 10-Q

borrowings under the then-outstanding revolving loan credit facility, were used to fund the purchase of the tendered Senior Notes, including \$412.8 million aggregate principal amount of Senior Notes, \$37.2 million in tender offer premium and \$4.5 million of accrued and unpaid interest, along with transaction fees and expenses. The aggregate principal amount of the Senior Notes outstanding following the Senior Notes Tender Offers is \$129.0 million. As a result, the maturity of extended loans under the Term Loan will not be subject to acceleration on July 15, 2015 as described above.

Table of Contents

In connection with the Senior Notes Tender Offers, we recorded a loss on extinguishment of long-term debt of \$114.1 million on the consolidated statement of operations for the nine months ended September 30, 2011. This loss represents \$97.0 million in tender offer premiums and \$17.1 million for the write-off of a portion of the unamortized deferred financing costs related to the Senior Notes. In connection with the issuance of 8.5% Senior Notes due 2019, fees of \$19.1 million were capitalized as deferred financing costs and are being amortized over the term of the notes using the interest method.

CDW LLC and CDW Finance Corporation are the co-issuers of the Senior Notes. Obligations under the Senior Notes are guaranteed on an unsecured senior basis by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The Senior Notes contain negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Senior Notes do not contain any financial covenants.

8.5% Senior Notes due 2019 (2019 Senior Notes)

On April 13, 2011, we issued \$725.0 million principal amount of 2019 Senior Notes and on May 20, 2011, we issued an additional \$450.0 million principal amount of 2019 Senior Notes. The proceeds from these issuances together with cash on hand and borrowings under the then-outstanding revolving loan credit facility were used to fund the Senior Notes Tender Offers. The 2019 Senior Notes will mature on April 1, 2019. At September 30, 2011, the outstanding principal amount of the 2019 Senior Notes was \$1,175.0 million.

CDW LLC and CDW Finance Corporation are the co-issuers of the 2019 Senior Notes. Obligations under the 2019 Senior Notes are guaranteed on an unsecured senior basis by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The 2019 Senior Notes contain negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The 2019 Senior Notes do not contain any financial covenants.

12.535% Senior Subordinated Exchange Notes due 2017 (Senior Subordinated Notes)

At September 30, 2011, the outstanding principal amount of our Senior Subordinated Notes was \$721.5 million. The Senior Subordinated Notes have a maturity date of October 12, 2017. On March 10, 2010, one of our wholly owned subsidiaries purchased \$28.5 million of principal amount of senior subordinated debt for a purchase price of \$18.6 million. We recorded a gain on the extinguishment of long-term debt of \$9.2 million on the consolidated statement of operations for the nine months ended September 30, 2010 related to this repurchase. In May 2010, the \$28.5 million in principal amount of senior subordinated debt that were repurchased were exchanged for increasing rate notes and subsequently surrendered to the indenture trustee for cancellation.

CDW LLC and CDW Finance Corporation are the co-issuers of the Senior Subordinated Notes. Obligations under the Senior Subordinated Notes are guaranteed on an unsecured senior basis by Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries. The Senior Subordinated Notes contain negative covenants that, among other things, place restrictions and limitations on the ability of Parent and each of CDW LLC's direct and indirect, wholly owned, domestic subsidiaries to dispose of assets, incur additional indebtedness, incur guarantee obligations, prepay other indebtedness, make distributions or other restricted payments, create liens, make equity or debt investments, make acquisitions, engage in mergers or consolidations, or engage in certain transactions with affiliates. The Senior Subordinated Notes do not contain any financial covenants.

Inventory Financing Agreements

We have entered into agreements with certain financial intermediaries to facilitate the purchase of inventory from various suppliers under certain terms and conditions. At September 30, 2011 and December 31, 2010, we owed a total of \$223.8 million and \$28.2 million, respectively, under these agreements. These amounts are classified separately as accounts payable-inventory financing in the accompanying consolidated balance sheets.

Table of Contents

In June 2011, we entered into a new senior secured asset-based revolving credit facility as described above, which incorporates a \$400.0 million floorplan sub-facility to facilitate the purchase of inventory from a certain vendor. In connection with the floorplan sub-facility, we entered into an inventory financing agreement on an unsecured basis with a financial intermediary to facilitate the purchase of inventory from this vendor (the Revolving Loan financing agreement). Amounts outstanding under the Revolving Loan financing agreement are unsecured and non-interest bearing. At September 30, 2011, we owed \$186.0 million under this agreement.

From time to time, we may enter into an agreement with a financial intermediary relating to the purchase of inventory from a supplier who has factored its receivables to the financial intermediary. Our obligations under these agreements are not collateralized. We do not incur any interest expense associated with these agreements as balances are paid when they are due. At September 30, 2011 and December 31, 2010, we owed a financial intermediary \$34.4 million and \$18.6 million, respectively, under such an agreement.

At September 30, 2011, we had inventory floorplan arrangements in place allowing for a maximum credit line of \$12.5 million collateralized by the inventory purchases under these floorplan arrangements financed by the financial intermediaries and a second lien on the related accounts receivable. We do not incur any interest expense associated with these agreements as balances are paid when they are due. At September 30, 2011 and December 31, 2010, we owed the financial intermediaries \$3.4 million and \$9.6 million, respectively, under these inventory floorplan arrangements.

Contractual Obligations

Other than as discussed above in Long-Term Debt and Financing Arrangements, there have been no material changes to our contractual obligations from those reported at December 31, 2010 in our Annual Report on Form 10-K.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a material current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Contingencies

We are party to legal proceedings that arise from time to time in the ordinary course of our business, including various pending litigation matters. We are also subject to audit by federal, state and local authorities, by various customers, including government agencies, relating to sales under certain contracts and by vendors. In addition, from time to time, certain of our customers file voluntary petitions for reorganization or liquidation under the U.S. bankruptcy laws. In such cases, certain pre-petition payments received by us could be considered preference items and subject to return to the bankruptcy administrator.

As of September 30, 2011, we do not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these proceedings and matters, if any, has been incurred. However, the ultimate resolutions of these proceedings and matters are inherently unpredictable. As such, our financial condition and results of operations could be adversely affected in any particular period by the unfavorable resolution of one or more of these proceedings or matters.

Critical Accounting Policies and Estimates

Our critical accounting policies have not changed from those reported in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2010; however, we have expanded our revenue recognition policy discussion which is included below.

Revenue Recognition

We are a primary distribution channel for a large group of vendors and suppliers, including OEMs, software publishers and wholesale distributors. We record revenue from sales transactions when title and risk of loss are passed to our customer, there is persuasive evidence of an arrangement for sale, delivery has occurred and/or services have been rendered, the sales price is fixed or determinable, and collectability is reasonably assured. Our shipping terms typically specify F.O.B. destination, at which time title and risk of loss have passed to the customer.

Revenues from the sales of hardware products or software products and licenses are generally recognized on a gross basis with the selling price to the customer recorded as sales and the acquisition cost of the product recorded as cost of sales. These items can be delivered to customers in a

Edgar Filing: CDW Corp - Form 10-Q

variety of ways, including (i) as physical product shipped from our warehouse, (ii) via drop-shipment by the vendor, or (iii) via electronic delivery for software licenses. At the time of sale, we record an estimate for sales returns and allowances based on historical experience. Our vendor OEMs warrant most of the products we sell.

Table of Contents

We leverage drop-ship arrangements with many of our vendors and suppliers to deliver products to our customers without having to physically hold the inventory at our warehouses, thereby increasing efficiency and reducing costs. We recognize revenue for drop-ship arrangements on a gross basis upon delivery to the customer with contract terms that typically specify F.O.B. destination. We recognize revenue on a gross basis as the principal in the transaction because we are the primary obligor in the arrangement, we assume inventory risk if the product is returned by the customer, we set the price of the product charged to the customer, we assume credit risk for the amounts invoiced, and we work closely with our customers to determine their hardware and software specifications. These arrangements generally represent approximately 20% to 30% of total net sales.

Revenue from professional services is either recognized as incurred for services billed at an hourly rate or recognized using the percentage of completion method for services provided at a fixed fee. Revenue for data center services, including internet connectivity, web hosting, server co-location and managed services, is recognized over the period service is provided.

We also sell certain products for which we act as an agent. Products in this category include the sale of third-party services, extended warranties or software assurance (SA). SA is an insurance or maintenance product that allows customers to upgrade, at no additional cost, to the latest technology if new applications are introduced during the period that the SA is in effect. These sales do not meet the criteria for gross sales recognition, and thus are recognized on a net basis at the time of sale. Under net sales recognition, the cost paid to the vendor or third-party service provider is recorded as a reduction to sales, resulting in net sales being equal to the gross profit on the transaction.

Our larger customers are offered the opportunity by certain of our vendors to purchase software licenses and SA under enterprise agreements (EAs). Under EAs, customers are considered to be compliant with applicable license requirements for the ensuing year, regardless of changes to their employee base. Customers are charged an annual true-up fee for changes in the number of users over the year. With most EAs, our vendors will transfer the license and bill the customer directly, paying resellers such as us an agency fee or commission on these sales. We record these fees as a component of net sales as earned and there is no corresponding cost of sales amount. In certain instances, we bill the customer directly under an EA and account for the individual items sold based on the nature of the item. Our vendors typically dictate how the EA will be sold to the customer.

From time to time, we sell some of our products and services as part of bundled contract arrangements containing multiple deliverables, which may include a combination of products and services. For each deliverable that represents a separate unit of accounting, revenue is allocated based upon the relative selling prices of each element as determined by our selling price for the deliverable when it is sold on a stand-alone basis.

We record freight billed to our customers as net sales and the related freight costs as a cost of sales. Vendor rebates are recorded over the period earned as a reduction of cost of sales. Price protection is recorded when earned as a reduction to cost of sales or merchandise inventory, as applicable.

Deferred revenue includes (1) payments received from customers in advance of providing the product or performing services, and (2) amounts deferred if other conditions of revenue recognition have not been met.

We perform an analysis of the estimated number of days of sales in-transit to customers at the end of each period based on a weighted-average analysis of commercial delivery terms that includes drop-ship arrangements. This analysis is the basis upon which we estimate the amount of sales in-transit at the end of the period and adjust revenue and the related costs to reflect only what has been received by the customer. Changes in delivery patterns may result in a different number of business days used in making this adjustment and could have a material impact on our revenue recognition for the period.

Recent Accounting Pronouncements

Testing Goodwill for Impairment

In September 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-08 that is intended to reduce the cost and complexity of the annual goodwill impairment test by providing entities an option to perform a qualitative assessment to determine whether further impairment testing is necessary. If an entity concludes that it is not more likely than not that a reporting unit's fair value is less than its carrying amount using the qualitative assessment, the entity would not be required to perform the two-step goodwill impairment test for that reporting unit. This update is effective for annual and interim goodwill impairment tests performed in fiscal years beginning after December 15, 2011 with early adoption permitted. We do not expect the adoption of this guidance will have a material impact on our consolidated financial position, results of operations, or cash flows.

Presentation of Comprehensive Income

In June 2011, the FASB issued ASU 2011-05 which amends current guidance on the presentation of comprehensive income. The new guidance eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. It requires an entity to present the total of comprehensive income, the components of net income, and the

Table of Contents

components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The guidance does not change the items which must be reported in other comprehensive income, how such items are measured or when they must be reclassified to net income. This update is to be applied retrospectively and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. As this guidance impacts presentation only, we do not expect the adoption of this guidance will have an impact on our consolidated financial position, results of operations or cash flows.

Fair Value Measurements

In May 2011, the FASB issued ASU 2011-04. The new guidance results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and International Financial Reporting Standards (IFRS). The new guidance does not extend the use of fair value accounting, but provides guidance on how it should be applied where its use is already required or permitted by other standards within GAAP or IFRS. This update is effective for interim and annual periods beginning after December 15, 2011, with early adoption prohibited for public entities. We do not expect the adoption of this guidance will have a material impact on our consolidated financial position, results of operations, or cash flows.

In January 2010, the FASB issued ASU 2010-06 to amend and expand the disclosure requirements for fair value measurements. The guidance requires new disclosures about transfers in and transfers out of Levels 1 and 2 fair value measurements and presentation of the activities within Level 3 fair value measurements (presented gross in a roll forward of activity). The guidance also clarifies existing disclosures about the level of disaggregation of fair value for each class of assets and liabilities and about inputs and valuation techniques used to measure fair value. Except for the disclosures in the roll forward of activity in Level 3 fair value measurements, ASU 2010-06 was effective for us as of January 1, 2010. The disclosures in the roll forward of activity in Level 3 fair value measurements became effective for us as of January 1, 2011. As this guidance only required additional disclosure and we did not have any Level 3 fair value measurements, the adoption of ASU 2010-06 did not have an impact on our consolidated financial position, results of operations or cash flows.

Revenue Arrangements

In October 2009, the FASB issued two ASUs to authoritative guidance on revenue arrangements. ASU 2009-13 modifies the criteria for separating consideration in multiple-deliverable arrangements, establishes a selling price hierarchy for determining the relative selling price of a deliverable, eliminates the residual method of allocation and expands the disclosures related to multiple-deliverable revenue arrangements. From time to time, we sell some of our products and services as part of bundled contract arrangements containing multiple deliverables, which may include a combination of products and services. For each deliverable that represents a separate unit of accounting, revenue is allocated based upon the relative selling prices of each element as determined by our selling price for the deliverable when it is sold on a stand-alone basis. We adopted the amended guidance in ASU 2009-13 on a prospective basis as of January 1, 2011. This adoption did not significantly change our units of accounting or the method we use to allocate revenue to separate units of accounting and consequently did not have a material impact on our consolidated financial position, results of operations or cash flows.

ASU 2009-14 modifies the scope of authoritative guidance for revenue arrangements that include both tangible products and software elements to exclude from its requirements (1) non-software components of tangible products, and (2) software components of tangible products that are sold, licensed or leased with tangible products when the software components and non-software components of the tangible product function together to deliver the tangible product's essential functionality. We adopted the amended guidance in ASU 2009-14 on a prospective basis as of January 1, 2011. The adoption of ASU 2009-14 did not have a material impact on our consolidated financial position, results of operations or cash flows.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the federal securities laws. All statements other than statements of historical fact included in this report are forward-looking statements. These statements relate to analyses and other information, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies. We claim the protection of The Private Securities Litigation Reform Act of 1995 for all forward-looking statements in this report.

These forward-looking statements are identified by the use of terms and phrases such as anticipate, believe, could, estimate, expect, intend, plan, predict, project, will and similar terms and phrases, including references to assumptions. However, these words are not the exclusive means of identifying such statements. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that we will achieve those plans, intentions or expectations. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected.

Table of Contents

Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under the section entitled "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2010. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements contained in the section entitled "Risk Factors" included elsewhere in this report as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this report in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this report are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Quantitative and Qualitative Disclosures of Market Risks" in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. As of September 30, 2011, there had been no material change in this information.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act, and that information is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely discussions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended September 30, 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

See Note 10 Contingencies to the accompanying unaudited interim consolidated financial statements.

Item 1A. Risk Factors

The information presented below amends, updates and should be read in conjunction with the risk factors and information disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Our business depends on our vendor partner relationships and the availability of their products.

We purchase products for resale from vendor partners, which include OEMs and software publishers, and wholesale distributors. For the year ended December 31, 2010, we purchased approximately 47% of the products we sold directly from vendor partners and the remaining amount from wholesale distributors. We are authorized by vendor partners to sell all or some of their products via direct marketing activities. Our authorization with each vendor partner is subject to specific terms and conditions regarding such things as sales channel restrictions, product return privileges, price protection policies, purchase discounts and vendor incentive programs, including purchase rebates, sales volume rebates and cooperative advertising reimbursements. However, we do not have any long-term contracts with our vendor partners and many of these arrangements are terminable upon notice by either party. In addition, a reduction in the amount of credit granted to us by our vendor partners could increase our need for, and the cost of, working capital and could have an adverse effect on our business, results of operations or cash flows.

From time to time, vendor partners may terminate or limit our right to sell some or all of their products or change the terms and conditions or reduce or discontinue the incentives that they offer us. For example, there is no assurance that, as our vendor partners continue to sell directly to end users and through resellers, they will not limit or curtail the availability of their products to resellers like us. Any such termination or limitation or the implementation of such changes could have a negative impact on our business, results of operations or cash flows.

Although we purchase from a diverse vendor base, in 2010, products we purchased from distributors Ingram Micro, Tech Data and SYNEX represented approximately 13%, 12% and 11%, respectively, of our total purchases. In addition, sales of Apple, Cisco, Hewlett-Packard, Lenovo and Microsoft products comprise a substantial portion of our sales, representing approximately 50% of net sales in 2010. Sales of products manufactured by Hewlett-Packard represented approximately 24% of our 2010 net sales. The loss of, or change in business relationship with, any of these or any other key vendor partners, the diminished availability of their products, or backlogs for their products leading to manufacturer allocation, could reduce the supply and increase the cost of products we sell and negatively impact our competitive position.

Additionally, the relocation of key distributors utilized in our purchasing model could increase our need for, and the cost of, working capital and have an adverse effect on our business, results of operations or cash flows. Further, the sale, spin-off or combination of any of our vendor partners and/or certain of their business units, including any such sale to or combination with a vendor with whom we do not currently have a commercial relationship or whose products we do not sell, could have an adverse impact on our business, results of operations or cash flow.

If we lose any of our key personnel, or are unable to attract and retain the talent required for our business, our business could be disrupted and our financial performance could suffer.

Our success is heavily dependent upon our ability to attract, develop and retain key personnel to manage and grow our business, including our key executive, management, sales, services and technical coworkers.

Our future success will depend to a significant extent on the efforts of Thomas E. Richards, our newly appointed Chief Executive Officer effective October 1, 2011, as well as the continued service and support of John A. Edwardson, our outgoing Chief Executive Officer who is expected to remain as Chairman of our Board through 2012, and our other named executive officers. Our future success also will depend on our ability to retain our customer-facing coworkers, who have been given critical CDW knowledge regarding, and the opportunity to develop strong relationships with, many of our customers. In addition, as we seek to expand our offerings of value-added services and solutions, our success will even more heavily depend on attracting and retaining highly skilled technology specialists and engineers, for which the market is extremely competitive.

Edgar Filing: CDW Corp - Form 10-Q

Our inability to attract, develop and retain key personnel could have an adverse effect on our relationships with our vendor partners and customers and adversely affect our ability to expand our offerings of value-added services and solutions. Moreover, our inability to train our sales, services and technical personnel effectively to meet the rapidly changing technology needs of our customers could cause a decrease in the overall quality and efficiency of such personnel. Such consequences could adversely affect our business, results of operations or cash flows.

Table of Contents

The interruption of the flow of products from international suppliers could disrupt our supply chain.

A significant portion of the products we sell are manufactured or purchased by our vendor partners outside of the U.S., primarily in Asia. Political, social or economic instability in Asia, or in other regions in which our vendor partners purchase or manufacture the products we sell, could cause disruptions in trade, including exports to the U.S. Other events that could also cause disruptions to exports to the U.S. include:

the imposition of additional trade law provisions or regulations;

the imposition of additional duties, tariffs and other charges on imports and exports;

foreign currency fluctuations;

natural disasters or other adverse occurrences at any of our suppliers' facilities;

restrictions on the transfer of funds;

the financial instability or bankruptcy of manufacturers; and

Significant labor disputes, such as strikes.

We cannot predict whether the countries in which the products we sell are purchased or manufactured, or may be purchased or manufactured in the future, will be subject to new or additional trade restrictions imposed by the U.S. or foreign governments, including the likelihood, type or effect of any such restrictions. Trade restrictions, including new or increased tariffs or quotas, embargos, safeguards and customs restrictions against the products we sell, as well as foreign labor strikes and work stoppages or boycotts, could increase the cost or reduce the supply of product available to us and adversely affect our business, results of operations or cash flows.

We are exposed to risks from legal proceedings and audits.

We are party to various legal proceedings that arise from time to time in the ordinary course of our business, which include consumer, employment, tort and other litigation.

We are subject to intellectual property infringement claims against us, either because of the over 100,000 products we sell or the business systems we use to sell such products, in the form of cease-and-desist letters, licensing inquiries, lawsuits and other communications and demands. In our industry, such intellectual property claims have become more frequent as the complexity of technological products and the intensity of competition in our industry have increased. Increasingly, many of these assertions are brought by non-practicing entities whose principal business model is to secure patent licensing revenue.

Because of our significant sales to governmental entities, we also are subject to audits by federal, state and local authorities. We also are subject to audits by various vendor partners and large customers, including government agencies, relating to purchases and sales under various contracts. In addition, we are subject to indemnification claims under various contracts.

Current and future litigation, infringement claims, governmental proceedings, audits or indemnification claims that we face may result in substantial costs and expenses and significantly divert the attention of our management regardless of the outcome. In addition, current and future litigation, infringement claims, governmental proceedings, audits or indemnification claims could lead to increased costs or interruptions of our normal business operations. Litigation, infringement claims, governmental proceedings, audits or indemnification claims involve uncertainties and the eventual outcome of any litigation, infringement claim, governmental proceeding, audit or indemnification claim could adversely affect our business, results of operations or cash flows.
