Item 2.02 Results of Operations and Financial Condition

On March 14, 2012, Vera Bradley, Inc. issued an earnings press release for the quarterly and annual periods ended January 28, 2012. The press release, including attachments, is furnished as Exhibit 99.1 to this report.

The press release furnished as Exhibit 99.1 contains financial measures that are not calculated in accordance with accounting principles generally accepted in the United States (GAAP). The non-GAAP financial measures are adjusted operating income, adjusted income tax expense, adjusted net income, and adjusted net income (or earnings) per share. The non-GAAP financial information should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. Management, however, believes that these non-GAAP financial measures, when used in conjunction with the results presented in accordance with GAAP, may provide a more complete understanding of the Company's core operating results and may facilitate a fuller analysis of the Company's results, particularly in evaluating performance from one period to another. Management has chosen to provide this supplemental information to investors, analysts, and other interested parties to enable them to perform additional analyses of operating results and to illustrate the results of operations giving effect to the non-GAAP adjustments shown in the reconciliation. Management strongly encourages investors to review the Company's consolidated financial statements and publicly filed reports in their entirety and cautions investors that the non-GAAP measures used by the Company may differ from similar measures used by other companies, even when similar terms are used to identify such measures.
