ACCESS PLANS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2012

(UNAUDITED)

NOTE 1 NATURE OF BUSINESS

Access Plans, Inc. (the Company) develops and distributes consumer membership plans and consumer driven healthcare programs.

The Company's operations are currently organized under three segments:

Wholesale Plans Division plan offerings are customized membership marketing plans primarily offered at rent-to-own retail stores.

Retail Plans Division plan offerings are primarily healthcare savings plans. These plans are not insurance, but allow members access to a variety of healthcare networks to obtain discounts from usual and customary fees.

Corporate includes compensation and other expenses for individuals performing services for administration of overall operations of the Company.

On February 22, 2012, the Company completed the sale of its subsidiary, America's Health Care/Rx Plan Agency, Inc. (AHCP), for the adjusted purchase price of \$1,850,000, paid in a combination of \$350,000 in cash and a promissory note made by Reliant Financial Group, LLC, the purchaser, in the principal amount of \$1,500,000. AHCP was the centerpiece of the Company's Insurance Marketing Division. AHCP distributed major medical, short term medical, critical illness and related health insurance products to small businesses, self-employed and other individuals and families through a network of independent agents which have carrier appointments through AHCP. Prior to the sale, the related assets, liabilities, results of operations and cash flows had been classified as discontinued operations in the Company's consolidated financial statements.

NOTE 2 BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended September 30, 2011.

All adjustments that, in the opinion of management, are necessary for a fair presentation for the periods presented have been reflected as required by Regulation S-X, Rule 10-01. All such adjustments made during the six months ended March 31, 2012 and 2011 are of a normal, recurring nature.

NOTE 3 SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results may differ from those estimates and the differences may be material to our financial statements. Certain significant estimates are required in the evaluation of goodwill for impairment and intangible assets for amortization, allowances for doubtful recoveries of advanced agent commissions, deferred income taxes, accounts receivable and the waiver reimbursements liability. Actual results may differ from those estimates and the differences

could be material.

Table of Contents

Accounts Receivable and Credit Policies

Accounts receivable are presented net of the allowance for doubtful accounts established to provide for losses on uncollectible accounts based on management's estimates and historical collection experience. The allowance for doubtful accounts was \$102,242 at March 31, 2012 and September 30, 2011. The Company recorded bad debt expense of \$0 and \$28,067, respectively for the six months ended March 31, 2012 and 2011.

Goodwill and Intangible Assets

Goodwill from acquisitions represents the excess of the cost of a business acquired over the net of the amounts assigned to assets acquired, including identifiable intangible assets and liabilities assumed. Generally Accepted Accounting Principles specifies criteria to be used in determining whether intangible assets acquired in a business combination must be recognized and reported separately from goodwill. Amounts assigned to goodwill and other identifiable intangible assets are based on independent appraisals or internal estimates.

Stock Based Compensation

We measure stock based compensation expense using the modified prospective method. Under the modified prospective method, stock-based compensation cost is measured at the award date based on the fair value of the award and, when applicable, is recognized as expense on a straight-line basis over the requisite service or vesting period.

Restricted Cash

Restricted cash represents investments with original maturities of one year or less pledged to obtain bonds for regulatory licenses and processing and collection arrangements for credit card and automated clearing house payments.

Earnings per Share

Basic net earnings per common share was computed by dividing net earnings applicable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net earnings per common share was determined using the weighted-average number of common share shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents, consisting of shares that may be issued upon exercise of common stock options.

Certain Reclassifications

Certain 2011 items were reclassified to conform to the current year presentation. Such reclassifications had no effect on 2011 net income.

Waiver Reimbursements

The Wholesale Plans Division has contractual arrangements to administer certain membership programs primarily in the rental purchase industry under which clients are reimbursed when the clients waive rental payments required of their customers under specifically defined and limited circumstances. These circumstances include situations in which the customers become unemployed for a stated period of time or when the clients provide product service to their customers. These reimbursement obligations do not have any kind of a tail that extends beyond the clients payment obligations following termination of the Division's contractual arrangement or agreement with the clients or the clients' customers. The estimated waiver reimbursement obligations are recorded as a liability. The amount of the waiver reimbursement liability requires the exercise of judgment and is based primarily upon number of members of clients that have waiver reimbursement contractual rights, trends in the unemployment rates within the applicable geographical areas and waiver reimbursement expenses incurred in prior periods.

Table of Contents

Revenue Recognition

Revenue for each of the Company's segments is presented on a gross basis. The Company contracts with its clients to offer the Company's products to clients' consumers at a contractually agreed upon per member, per month rate, which is the amount of revenue recognized on a monthly basis. The Company's clients determine their own markup above their contracted rate with us and that amount has no impact on our revenue.

The Company recognizes revenue when four basic criteria are met:

Persuasive evidence of an arrangement exists;

Delivery has occurred or services have been rendered;

The seller's price to the buyer is fixed or determinable; and,

Collectability is reasonably assured.

Wholesale Plans The Wholesale Plans membership offerings are made primarily through Rental Purchase businesses to their customers as an incremental add-on sale to their rental of durable household merchandise. These businesses contract with the Company to provide a package of benefits to their enrolled customers that the Company supports with member fulfillment and customer service. They pay the Company a per enrolled member fee per month.

Retail Plans The Retail Plans membership offerings are in conjunction with non-Rental Purchases businesses, direct to consumers via the internet or a multi-level marketing channel. The Company's clients in this segment include insurance companies, household product retailers, pharmacies, employer groups, financial organizations and associations. About half of the revenue of this segment is derived from membership plans whereby consumers make periodic membership payments directly to the Company generally on a monthly basis via credit card, debit card or automated clearing house transactions. The Company recognizes this revenue on a monthly basis. The remainder of revenue within this segment is derived from membership plan sales whereby the fees are collected by the Company's clients or where the Company has contractual arrangements to provide administrative services for a membership offering.

Benefits and costs associated with our Wholesale and Retail Plans membership offerings are as follows:

Discount Medical In order to deliver the Company's discount medical membership offerings, the Company contracts with third parties having established national networks of service providers which have agreed to provide discounts to the Company's members. The Company paid the company that organized the network a per member, per month fee for the Company's members to access the network of providers and the Company expenses these fees on a monthly basis as incurred. The network service providers were responsible for funding the discounts to the Company's members. In addition, the Company maintains networks of dental and vision providers, under the brand names Access Dental and Access Vision, through which the Company's members may obtain discounts from usual and customary charges.

Insurance For its insurance offerings, the Company contracts with a third party insurance company to provide the coverage the Company's members have selected. Multiple insurance products are available and each product has a contractually agreed upon premium associated with it. The Company pays and expenses the premium for each member's plan on a monthly basis. The third party insurance company is responsible for providing the coverage.

Edgar Filing: Access Plans Inc - Form 10-Q

Automotive Discounts The automotive service offerings are furnished by a third party provider whose services are outsourced to independent contractors of the provider. The Company paid the third party provider a per member, per month fee for its services. The third party provider was responsible for funding the services to its independent contractors.

Food and Entertainment and Other Miscellaneous Benefits These services are also furnished by a third party provider who has established a network of 250,000 retail locations that has agreed to provide discounts to the Company's members. The Company paid the third party provider a per member, per month fee for the Company's members to access provider's network of retail locations. Each retail location was responsible for funding the discounts to the Company's members.

Table of Contents

The Wholesale Plans segment also includes reimbursement of the client for certain expenses incurred in the operation of a particular membership program. Under these arrangements, the Company was responsible for reimbursing the client when (under the terms of the agreement with its customer) the client waives rental payments required of the customer under specifically defined and limited circumstances, including when the customer becomes unemployed for a stated period of time or when the Company's client provides product service to its customer. These client reimbursements are expensed as incurred. See Note 8 Waiver Reimbursements Liability, below.

The product service costs relate to an element of some of the Company's plan offerings in the Wholesale Plans division. This product service expense represents costs the Company incurs on the repair of household merchandise. Plan members that complete their rental purchase term and choose to continue on a month-to-month membership were entitled to repair or replacement of such merchandise by the dealer in cases of mechanical failure. The Company reimbursed the dealer for these costs. This element of a member's plan terminates 12 months following the member's date of product ownership (12 months following the end of the member's rental term), or at any time that membership lapses.

Recently Issued Accounting Pronouncements

There were various accounting standards and interpretations issued in the three months ended March 31, 2012, none of which are expected to have a material impact on the Company's financial position, operations or cash flows.

NOTE 4 DISCONTINUED OPERATIONS

In November 2011, the Company's board of directors advised management to use its best efforts to explore the sale or discontinue the Insurance Marketing segment business. America's Health Care Plan/Rx Agency, Inc. (AHCP) was the centerpiece of the Insurance Marketing Division. On February 22, 2012, the Company completed the sale of AHCP for the adjusted purchase price of \$1,850,000, paid in a combination of \$350,000 in cash and a promissory note made by Reliant Financial Group, LLC, the purchaser, in the principal amount of \$1,500,000. The current portion of \$400,000 is shown as note receivable in the current asset section and \$1,100,000 is included in other assets. AHCP distributed major medical, short term medical, critical illness and related health insurance products to small businesses, self-employed and other individuals and families through a network of independent agents which have carrier appointments through AHCP. As a result of the sale of AHCP, the related assets, liabilities, results of operations and cash flows have been classified as discontinued operations in the consolidated financial statements.

NOTE 8 WAIVER REIMBURSEMENTS LIABILITY

The Company has entered into contractual arrangements to administer certain membership programs for its clients, primarily in the rental purchase industry. For some clients, the administration duties include reimbursing the client for certain expenses incurred in the operation of a particular membership program. Under these arrangements, the Company was responsible for reimbursing the client when (under the terms of the agreement with the client's customer) the client waives rental payments required of the client's customer under specifically defined and limited circumstances, including the situation when the customer becomes unemployed for a stated time period or when the Company's client provided product service to its customer.

The life of the contracts subject to the Company's reimbursement of clients for the waiver of rental payments and product service commitments is generally one week. The Wholesale Plans Division clients in the rental purchase industry entered into agreements with their customers for the rental of merchandise that had a term equivalent to their scheduled payment period and for the majority of agreements that period is one week. The agreement was renewed weekly by the customer by making its scheduled weekly payment. The average length of a customer relationship under such an agreement lasted for four months as approximately 75% of the customers return the rented item within the four months, 17% exercised early purchase options and 8% rent for the full term and became owners. The customer may return the merchandise and terminate the rental agreement at any time without any future obligation.

Product service expense represented costs the Company incurred on the repair of household merchandise. Plan members that completed their rental purchase term and choose to continue their membership on a month-to-month basis were entitled to repair or replacement of such merchandise by the dealer in cases of mechanical failure. The Company reimbursed the dealer for those costs. This element of a member's plan terminated 12 months following their date of product ownership (12 months following the end of the member's rental term) or at any time that the member did not maintain its month-to-month membership.

Table of Contents

The Company's policy was to reserve the necessary funds in order to meet the anticipated reimbursement obligation owed to the Company's clients in the event the Company's reimbursement obligations required payment in the future. The Company's obligations for these reimbursements did not have any kind of a tail that extended beyond the Company's client's payment obligations following termination of the contractual arrangement or agreement with either the Company's client or the client's customer. The Company's estimated incurred-but-not-reported-reimbursements obligation consisted of the following for the six months ending March 31, 2012:

Balance at September 30, 2011	\$ 699,500
Claims paid, 10/1/11 - 03/31/12	(2,435,324)
Claims accrued, 10/1/11 - 03/31/12	2,392,524
Balance at March 31, 2012	\$ 656,700

NOTE 9 RELATED PARTY TRANSACTIONS

The Company occupies its corporate offices and Wholesale Plans Division in Norman, Oklahoma under a lease that expires September 30, 2012. The total leased space is approximately 6,523 square feet. The lease agreement was with Southwest Brokers, Inc., a company owned by Brett Wimberley, one of the Company's Directors, President and Chief Financial Officer. This lease was executed on May 1, 2005, amended on August 1, 2006 and August 1, 2008, September 30, 2009, September 30, 2010 and September 30, 2011. In the event the Company is required to move from the current Norman, Oklahoma office facilities, the terms and cost of occupancy may be substantially different than those under which the office space is currently occupied and the rental rate may be substantially greater.

The Company's rent expense associated with this related party transaction was approximately \$50,000 for each of the six month periods ending March 31, 2012 and 2011.

NOTE 10 SEGMENT REPORTING

The Company operates in three reportable business segments; a) Wholesale Plans; b) Retail Plans; and c) Corporate (holding company).

In November 2011 the Company's board of directors advised management to use its best efforts to explore the sale of or discontinue the Insurance Marketing segment business. AHCP was the centerpiece of the Insurance Marketing Division. On February 22, 2012, the Company completed the sale of AHCP. As a result of the sale of AHCP, the related assets, liabilities, results of operations and cash flows had been classified as discontinued operations.

Reportable business segment information follows.

NOTE 11 PENDING MERGER

On February 24, 2012, the Company entered into the Agreement and Plan of Merger (the Merger Agreement) with Affinity Insurance Services, Inc., (Affinity), and Atlas Acquisition Corp., a wholly-owned subsidiary of Affinity (Merger Sub). Pursuant to the Merger Agreement, at the effective time, Merger Sub will merge with and into the Company and the Company will continue as the surviving corporation and as a wholly-owned subsidiary of Affinity (the Merger). At the effective time of the Merger, each share of the Company common stock issued and outstanding immediately prior to the effective time (other than the Company treasury shares, shares of Company common stock held by Affinity or any of the Company's or Affinity's wholly-owned subsidiaries and Company shares with respect to which appraisal rights are validly exercised by the Company's dissenting shareholders) will be converted into the right to receive cash of approximately \$3.30 per share (the Per Share

Merger Consideration).

In connection with the Merger, all outstanding in-the-money stock options (those stock options exercisable for the purchase of Company common stock having an exercise price less than the Per Share Merger Consideration) will be cancelled immediately prior to the effective time of the Merger and will be converted at the effective time into the right to receive the Per Share Merger Consideration reduced by the respective exercise prices of those options. All outstanding out-of-the-money options (those stock options exercisable for the purchase of Company common stock having an exercise price equal to or greater than the Per Share

Merger Consideration) will be cancelled immediately prior to the effective time and no consideration will be exchanged for those options.

Table of Contents

The adoption of the Merger Agreement by the Company's shareholders required the affirmative vote or written consent of the holders of a majority of our outstanding shares of common stock. On February 25 and February 26, 2012, shareholders who collectively own approximately 54.9% of the issued and outstanding shares of the Company's common stock executed written consents approving and adopting the Merger Agreement and the transactions contemplated in the Merger Agreement, including the Merger. Consequently, except as required by law, further vote or approval by the Company's shareholders is not required to complete the Merger pursuant to the Merger Agreement. The Company anticipates that the Merger will be completed in June 2012.

If the Merger is not completed, our ongoing businesses may be adversely affected and we will be subject to several risks and consequences, including the following:

we may be required, under certain circumstances, to pay Affinity a termination fee of \$2.8 million under the Merger Agreement;

we may be required, under certain circumstances, to pay up to \$750,000 of certain out-of-pocket costs and expenses of Affinity relating to the Merger, whether or not the Merger is completed, including legal, accounting, financial advisor fees;

under the Merger Agreement, we are subject to certain restrictions on the conduct of our business prior to completing the Merger which may adversely affect our ability to execute certain of our business strategies; and

matters relating to the Merger have required substantial commitments of time and resources by our management, which could otherwise have been devoted to other opportunities that may have been beneficial to us.

In addition, if the Merger is not completed, we may experience negative reactions from the financial markets and from our customers and employees. We also could be subject to litigation related to any failure to complete the Merger or to enforcement proceedings commenced against Affinity or us to perform its or our respective obligations under the Merger Agreement. If the Merger is not completed, we cannot assure our shareholders that the risks described above will not materialize and will not materially affect our business, financial results and stock price.

NOTE 12 SUBSEQUENT EVENTS

There are no subsequent events as of May 14, 2012 that would require adjustments to or disclosure in the financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Except as otherwise indicated, the first personal plural pronoun in the nominative case form "we" and its objective case form "us", its possessive and the intensive case forms "our" and "ourselves" and its reflexive form "ourselves" in this report refer collectively to Access Plans, Inc. and its subsidiaries and its executive officers and directors.

Overview

Our operations are currently organized under three segments:

Wholesale Plans Division plan offerings are customized membership marketing plans primarily offered at rent-to-own retail stores.

Retail Plans Division plan offerings are primarily healthcare savings plans. These plans are not insurance, but allow members access to a variety of healthcare networks to obtain discounts from usual and customary fees.

Edgar Filing: Access Plans Inc - Form 10-Q

Corporate includes compensation and other expenses for individuals performing services for administration of overall management and operations of the Company.

In November 2011, the Company's board of directors advised management to use its best efforts to explore the sale of or discontinue the Insurance Marketing segment business. On February 22, 2012, the Company completed the sale of its subsidiary, America's Health Care/Rx Plan Agency, Inc. (AHCP), for the adjusted purchase price of \$1,850,000, paid in a combination of \$350,000 in cash and a promissory note made by Reliant Financial Group, LLC, the purchaser, in the principal amount of \$1,500,000. AHCP was the centerpiece of the Insurance Marketing Division. AHCP distributes major medical, short term medical, critical illness and related health insurance products to small businesses, self-employed and other individuals and families through a network of independent agents which have carrier appointments through AHCP. As a result of the sale of AHCP, the related assets, liabilities, results of operations and cash flows had been classified as discontinued operations.

Wholesale Plans

Our Wholesale Plans Division provides our clients with customized membership marketing plans that leverage their brand names, customer relationships and typically their payment mechanism, plus offer benefits that appeal to their customers. The value provided by our plans to our clients, includes increased customer attraction and retention, plus incremental fee income with limited risk or capital cost.

Our plans are primarily offered at rent-to-own stores. Based on the Association of Progressive Rental Organizations (APRO) 2009 information, nationwide there are approximately 8,600 locations serving approximately 4.1 million households. It is estimated that company owned locations of the two largest rent-to-own industry participants, account for approximately 4,150 of the total number of stores, and the majority of the remainder of the industry consists of operations with fewer than 50 stores. The industry has been consolidating and is expected to continue, resulting in an increased concentration of stores in the two largest rent-to-own industry participants.

Table of Contents

The rent-to-own industry serves a highly diverse customer base. According to the APRO, approximately 96% of rent-to-own customers have household incomes between \$15,000 and \$50,000 per year. The rent-to-own industry serves a wide variety of customers by allowing them to obtain merchandise that they might otherwise be unable to obtain due to insufficient cash resources or a lack of access to credit. APRO also estimates that 95% of customers have high school diplomas.

We currently manage about 208 membership plans for our clients that include rental-purchase dealers, insurance companies, financial institutions, retail merchants, and consumer finance companies. At March 31, 2012, our wholesale plans were offered at approximately 5,503 locations. Of the locations at March 31, 2012, 3,680 locations were Rent-A-Center company-owned locations and RAC Acceptance kiosk locations. Rent-A-Center, Inc. (NASDAQ: RCII) is the largest rent-to-own company in the United States, Puerto Rico and Canada. Our revenue attributable to the contractual arrangements with Rent-A-Center was approximately \$3.6 million (41% of total revenue) and \$7.8 million (45% of total revenue) during the three and six months ended March 31, 2012, respectively compared to \$3.2 million (24% of total revenue) and \$6.4 million (23% of total revenue) during the three and six months ended March 31, 2011, respectively. Revenue attributable to our Wholesale Plans Division accounted for \$7.0 million (79% of total revenue) and \$13.5 million (78% of total revenue) during the three and six months ended March 31, 2012, respectively compared to \$6.3 million (46% of total revenue) and \$12.4 million (44% of total revenue) during the three and six months ended March 31, 2011, respectively. Our growth in wholesale plans revenue is dependent in significant part on an increase in the number of rent-to-own locations at which our plans are offered and the sales efforts of those locations. Although we have contracts with Rent-A-Center and other rent-to-own companies, loss of which, especially Rent-A-Center would or may have a significant impact on our revenues, profitability and our ability to negotiate discounts with our vendors. Our Rent-a-Center contract expires February 28, 2013 and we have reached agreement in principal to extend that agreement on equally favorable terms until February 28, 2015.

Retail Plans

Our Retail Plans offerings include healthcare savings plans and association memberships that include healthcare savings, consumer discounts and may provide insurance features. These healthcare savings plans are not insurance, but allow members access to a variety of healthcare networks to obtain discounts from usual and customary fees. We offer wellness programs, prescription drug and dental discount programs, medical discount cards, and limited benefit insured plans. Our members pay providers the discounted rate at the time services are provided to them. These plans are designed to serve the markets in which individuals either have no health insurance or limited healthcare benefits. Our revenue attributable to retail plans was approximately \$3.0 million (34% of total revenue) and \$6.5 million (38% of total revenue) during the three and six months ended March 31, 2012 compared to \$4.3 million (31% of total revenue) and \$8.8 million (32% of total revenue) during the three and six months ended March 31, 2011.

This Division is comprised of the membership business of Alliance Healthcard, The Capella Group, Inc. (Capella) and Protective Marketing Enterprises, Inc. (PME). PME also owns and manages proprietary networks of dental and vision providers that provide services at negotiated rates to certain members of our plans and other plans that have contracted with us for access to our networks.

Through our healthcare savings plans, we believe customers save an average of 35% on their medical costs and between 10% and 50% on services through other discount medical providers.

In addition to our wholesale and retail offerings, certain clients may choose to include our benefits with their own membership plan offering. In these instances, the client bears the cost of marketing and fulfillment and we provide customer service. These offerings are designed to enhance our clients existing offering and improve their product value relative to their competition and in some instances to improve their customer retention. While these plans provide lower periodic member fees, we incur limited implementation costs and receive higher revenue participation rates. Our additional distribution channels also include network marketing representatives, independent agents and consumer direct sales call centers. We also market to internet portals and financial institutions.

In order to deliver our membership offerings, we contract with a number of different vendors to provide various products and services to our members. The majority of these vendor relationships involve the vendor providing our members access to their network or providers or their locations and our members obtain a discount at the time of service. We have vendor relationships with medical networks, automotive service companies, insurance companies, travel related entities and food and entertainment consumer discount providers. Our vendors value the relationship with us because we deliver many customers to them without incremental capital cost or risk on their part and these relationships are governed by multi-year agreements and aggregated volume scaling.

Critical Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results may differ from those estimates and the differences may be material to our financial statements. Certain significant estimates are required in the evaluation of goodwill for impairment and intangible assets for amortization, allowances for doubtful recoveries of advanced agent commissions, deferred income taxes, accounts receivable and the waiver reimbursements liability. Actual results may differ from those estimates and the differences could be material.

Accounts Receivable and Credit Policies

Accounts receivable are presented net of the allowance for doubtful accounts established to provide for losses on uncollectible accounts based on management's estimates and historical collection experience. The allowance for doubtful accounts was \$102,242 at March 31, 2012 and September 30, 2011. The Company recorded bad debt expense of \$0 and \$28,067, respectively for the six months ended March 31, 2012 and 2011.

Goodwill and Intangible Assets

Goodwill from acquisitions represents the excess of the cost of a business acquired over the net of the amounts assigned to assets acquired, including identifiable intangible assets and liabilities assumed. Generally Accepted Accounting Principles specifies criteria to be used in determining whether intangible assets acquired in a business combination must be recognized and reported separately from goodwill. Amounts assigned to goodwill and other identifiable intangible assets are based on independent appraisals or internal estimates.

Stock Based Compensation

We measure stock based compensation expense using the modified prospective method. Under the modified prospective method, stock-based compensation cost is measured at the award date based on the fair value of the award and, when applicable, is recognized as an expense on a straight-line basis over the requisite service or vesting period.

Restricted Cash

Restricted cash represents investments with original maturities of one year or less pledged to obtain bonds for regulatory licenses and processing and collection arrangements for credit card and automated clearing house payments.

Earnings per Share

Basic net earnings per common share was computed by dividing net earnings applicable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net earnings per common share was determined using the weighted-average number of common share shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents, consisting of shares that may be issued upon exercise of common stock options.

Waiver Reimbursements

The Wholesale Plans Division has contractual arrangements to administer certain membership programs primarily in the rental purchase industry under which clients are reimbursed when the clients waive rental payments required of their customers under specifically defined and limited circumstances. These circumstances include situations in which the customers become unemployed for a stated period of time or when the clients provide product service to their customers. These reimbursement obligations do not have any kind of a tail that extends beyond the clients payment obligations following termination of the Division's contractual arrangement or agreement with the clients or the clients' customers. The estimated waiver reimbursement obligations are recorded as a liability. The amount of the waiver reimbursement liability requires the exercise of judgment and is based primarily upon number of members of clients that have waiver reimbursement contractual rights, trends in the unemployment rates within the applicable geographical areas and waiver reimbursement expenses incurred in prior periods.

Certain Reclassifications

Certain 2011 items were reclassified to conform to the current year presentation. Such reclassifications had no effect on 2011 net income.

Revenue Recognition

Revenue for each of our segments is presented on a gross basis. The Company contracts with its clients to offer the Company's products to client's consumers at a contractually agreed upon per member, per month rate, which is the amount of revenue recognized on a monthly basis. The Company's clients determine their own markup above their contracted rate with us and that amount has no impact on our revenue.

The Company recognizes revenue when four basic criteria are met:

Persuasive evidence of an arrangement exists;

Delivery has occurred or services have been rendered;

The seller's price to the buyer is fixed or determinable; and,

Collectability is reasonably assured.

Wholesale Plans - The Wholesale Plans membership offerings are made primarily through rental purchase businesses to their customers as an incremental add-on sale to their rental of durable household merchandise. These businesses contract with us to provide a package of benefits to their enrolled customers that we support with member fulfillment and customer service. They pay us a per enrolled member fee per month.

Retail Plans - The Retail Plans membership offerings are in conjunction with non-rental purchases businesses, direct to consumers via the internet or a multi-level marketing channel. Our clients in this segment include insurance companies, household product retailers, pharmacies, employer groups, financial organizations and associations. About half of the revenue of this segment is derived from membership plans whereby consumers make periodic membership payments directly to us generally on a monthly basis via credit card, debit card or automated clearing house transactions. We recognize this revenue on a monthly basis. The remainder of revenue within this segment is derived from membership plan sales whereby the fees are collected by our clients or where we have contractual arrangements to provide administrative services for a membership offering.

Benefits and costs associated with our Wholesale and Retail Plans membership offerings are as follows:

Discount Medical - In order to deliver our discount medical membership offerings, we contract with third parties having established national networks of service providers which have agreed to provide discounts to our members. We pay the company that organized the network a per member, per month fee for our members to access the network of providers and expense these fees on a monthly basis as incurred. The network service providers are responsible for funding the discounts to our members. In addition, we maintain networks of dental and vision providers, under the brand names Access Dental and Access Vision, through which our members may obtain discounts from usual and customary charges.

Insurance - For our insurance offerings, we contract with a third party insurance company to provide the coverage our members have selected. Multiple insurance products are available and each product has a contractually agreed upon premium associated with it. We pay and expense the premium for each member's plan on a monthly basis. The third party insurance company is responsible for providing the coverage.

Edgar Filing: Access Plans Inc - Form 10-Q

Automotive Discounts - The automotive service offerings are furnished by a third party provider whose services are outsourced to independent contractors of the provider. We pay the third party provider a per member, per month fee for its services. The third party provider is responsible for funding the services to its independent contractors.

Food and Entertainment and Other Miscellaneous Benefits - These services are also furnished by a third party provider who has established a network of 250,000 retail locations that has agreed to provide discounts to our members. We pay the third party provider a per member, per month fee for our members to access provider's network of retail locations. Each retail location was responsible for funding the discounts to our members.

Table of Contents

The Wholesale Plans segment also includes reimbursement of the client for certain expenses incurred in the operation of a particular membership program. Under these arrangements, we are responsible for reimbursing the client when (under the terms of the agreement with its customer) the client waives rental payments required of the customer under specifically defined and limited circumstances, including when the customer becomes unemployed for a stated period of time or when our client provides product service to its customer. These client reimbursements are expensed as incurred.

The product service costs relate to an element of some of our plan offerings in the Wholesale Plans Division. This product service expense represents costs we incur on the repair of household merchandise. Plan members that complete their rental purchase term and choose to continue on a month-to-month membership were entitled to repair or replacement of such merchandise by the dealer in cases of mechanical failure. We reimburse the dealer for these costs. This element of a member's plan terminates 12 months following the member's date of product ownership (12 months following the end of the member's rental term), or at any time that membership lapsed.

Recently Issued Accounting Pronouncements

There were various accounting standards and interpretations issued in the three months ended March 31, 2012, none of which are expected to have a material impact on the Company's financial position, operations or cash flows.

Discussion of Three Months Ended March 31, 2012 and 2011

Revenues decreased \$0.4 million (a 3% decrease) during the three months ended March 31, 2012 (the 2012 2nd quarter), compared with the three months ended March 31, 2011 (the 2011 2nd quarter) to \$8.8 million from \$9.2 million. The decrease in revenues was primarily due to:

Growth in our Wholesale Plans Division of approximately \$0.7 million attributable to additional rent-to-own locations offering our plans and an increase in member acceptance rates among existing clients; (see the Segment Discussion Analysis below for additional information);

A decrease in our Retail Plans Division of approximately \$1.3 million attributable to a portion of our existing clients approaching the end of their contract term (see the Segment Discussion Analysis below for additional information); and

Other increases of \$0.2 million.

Direct costs increased \$0.1 million (a 1% increase) during the 2012 2nd quarter compared with the 2011 2nd quarter to \$4.3 million from \$4.2 million. The increase in direct costs was primarily due to an increase in fulfillment expense and was offset by a decline in commission expense and other fees relating to a decline in revenue for legacy programs in our Retail Plans Division.

Edgar Filing: Access Plans Inc - Form 10-Q

Operating expenses increased \$0.3 million (a 15% increase) during the 2012 2nd quarter to \$2.2 million from \$1.9 million in the 2011 2nd quarter. The increase was attributable to an increase in compensation expense for two new employees and other overhead expenses related to our Retail Plans Division and additional legal expenses in our Corporate Segment. See the Segment Discussion Analysis below for additional information.

Table of Contents

Provision for income taxes, net decreased by \$0.5 million during the 2012 2nd quarter to \$0.7 million from \$1.2 million in the 2011 2nd quarter. The decrease was attributable to a decrease in the provision for income taxes resulting from the sale of AHCP.

Income from continuing operations decreased \$0.1 million (a 6% decrease) to approximately \$1.7 million during the 2012 2nd quarter compared to \$1.8 million during the 2011 2nd quarter.

Income (loss) from discontinued operations represents the net income (loss) from the operations of America's Healthcare/Rx Plan Agency (AHCP). In November 2011, the Company's board of directors advised management to use its best efforts to explore the sale or discontinue the Insurance Marketing segment business (AHCP). On February 22, 2012, the Company completed the sale of its subsidiary, America's Health Care/Rx Plan Agency, Inc. (AHCP), for the adjusted purchase price of \$1,850,000, paid in a combination of \$350,000 in cash and a promissory note made by Reliant Financial Group, LLC, the purchaser, in the principal amount of \$1,500,000. AHCP was the centerpiece of the Insurance Marketing Division. AHCP distributed major medical, short term medical, critical illness and related health insurance products to small businesses, self-employed and other individuals and families through a network of independent agents which have carrier appointments through AHCP. As a result of the sale of AHCP, the related assets, liabilities, results of operations and cash flows had been classified as discontinued operations. The Company recorded a gain on disposal of \$467,343 during the 2012 2nd quarter.

Revenues increased \$0.7 million (an 11% increase) during the 2012 2nd quarter to \$7.0 million from \$6.3 million during the 2011 2nd quarter. The increase in revenues was related to the increase in the number of new rent-to-own locations offering our membership plans plus membership growth from existing locations.

Direct costs increased \$0.1 million (a 1% increase) during the 2012 2nd quarter to \$4.1 million from \$4.0 million during the 2011 2nd quarter. This increase was primarily attributable to revenue growth and lower product service expense resulting from lower repair and replacement costs of consumer electronics.

We enter into contractual arrangements to administer certain membership programs for clients, primarily in the rent-to-own industry. For approximately 3,790 (69%) of rent-to-own locations the administration duties include reimbursing the client for certain expenses it incurs in the operation of the program. Those expenses were related to product service expenses and the client's waiver of rental payments under defined circumstances including circumstances when the client's customer becomes unemployed for a stated period of time. It is our policy to reserve the necessary funds in order to reimburse our clients as those obligations become due in the future.

Operating expenses increased \$0.1 million to \$0.5 million during the 2012 2nd quarter from \$0.4 million during the 2011 2nd quarter primarily attributable to an increase in compensation expense for additional employees.

Operating income increased \$0.7 million (a 34% increase) during the 2012 2nd quarter to \$2.5 million from \$1.8 million during the 2011 2nd quarter.

Our working capital was \$18.5 million at March 31, 2012 compared to \$13.8 million at September 30, 2011. The improvement of working capital by \$4.7 million was due to the following:

Accounts receivable decreased \$0.7 million primarily attributable to the prepayment of income taxes during the quarter ended September 30, 2011;

Deferred income taxes decreased \$0.4 million;

Accounts payable increased \$0.3 million attributable to fulfillment expenses;

Other accrued liabilities decreased \$0.6 million primarily attributable to bonus compensation paid in December, 2011; and

Other increases of \$0.2 million.

Cash provided by operating activities was \$4.5 million for the six months ended March 31, 2012 compared to \$3.3 million for the same period in 2011. The increase of \$1.2 million was attributable to:

A decrease in net income of \$0.1 million;

Claims and other accrued liabilities increased \$1.1 million primarily attributable to compensation payable of \$0.8 million;

Gain on sale of ACHP at \$0.5 million;

Edgar Filing: Access Plans Inc - Form 10-Q

Discontinued operations decreased \$0.9 million; and

Other increases of \$0.4 million.

Cash provided by investing activities decreased by \$0.1 million to cash provided of \$0.5 million for the six months ended March 31, 2012 from cash provided of \$0.6 million for the same 2011 period. The decrease of \$0.1 million was primarily attributable to cash received from the sale of AHCP of \$0.4 million offset by a decrease in restricted cash of \$0.3 million.

We anticipate that our cash on hand, together with cash flow from operations, will be sufficient for the next 12 months and beyond to finance operations, make capital investments in the ordinary course of business, and pay indebtedness when due.
