NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

U.S. Global Investors, Inc. (the Company or U.S. Global) has prepared the consolidated financial statements pursuant to accounting principles generally accepted in the United States of America (U.S. GAAP) and the rules and regulations of the United States Securities and Exchange Commission (SEC) that permit reduced disclosure for interim periods. The financial information included herein reflects all adjustments (consisting solely of normal recurring adjustments), which are, in management s opinion, necessary for a fair presentation of results for the interim periods presented. The Company has consistently followed the accounting policies set forth in the notes to the consolidated financial statements in the Company s Form 10-K for the fiscal year ended June 30, 2012.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, United Shareholder Services, Inc. (USSI), U.S. Global Investors (Guernsey) Limited, U.S. Global Brokerage, Inc., and U.S. Global Investors (Bermuda) Limited.

All significant intercompany balances and transactions have been eliminated in consolidation. Certain amounts have been reclassified for comparative purposes. The results of operations for the three months ended September 30, 2012, are not necessarily indicative of the results to be expected for the entire year.

The unaudited interim financial information in these condensed financial statements should be read in conjunction with the consolidated financial statements contained in the Company s annual report.

Recent Accounting Pronouncements

In June 2011, the FASB issued ASU No. 2011-05, *Presentation of Comprehensive Income*. This standard eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. Under this guidance, an entity can elect to present items of net income and other comprehensive income in one continuous statement or in two separate, but consecutive, statements. This guidance is effective for publicly traded companies for fiscal years beginning after December 15, 2011 and interim and annual periods thereafter, except for the changes that relate to the presentation of reclassification adjustments. Early adoption is permitted, but full retrospective application is required. As the Company reports comprehensive income within its consolidated statement of operations, the adoption of this guidance did not result in a change in the presentation of comprehensive income in the Company s consolidated financial statements.

NOTE 2. DIVIDEND

Payment of cash dividends is within the discretion of the Company s board of directors and is dependent on earnings, operations, capital requirements, general financial condition of the Company, and general business conditions. A monthly dividend of \$0.02 per share is authorized through December 2012 and will be reviewed by the board quarterly.

NOTE 3. INVESTMENTS

As of September 30, 2012, the Company held investments with a market value of approximately \$14.4 million and a cost basis of approximately \$14.1 million. The market value of these investments is approximately 35.0 percent of the Company s total assets.

Investments in securities classified as trading are reflected as current assets on the consolidated balance sheet at their fair market value. Unrealized holding gains and losses on trading securities are included in earnings in the consolidated statements of operations and comprehensive income.

Investments in securities classified as available-for-sale, which may not be readily marketable, are reflected as non-current assets on the consolidated balance sheet at their fair value. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and

reported in other comprehensive income as a separate component of shareholders' equity until realized.

Investment income can be volatile and varies depending on market fluctuations, the Company's ability to participate in investment opportunities, and timing of transactions. A significant portion of the unrealized gains and losses for the three months ended September 30, 2012, is concentrated in a small number of issuers. The Company expects that gains and losses will continue to fluctuate in the future.

Investment income (loss) from the Company's investments includes:

realized gains and losses on sales of securities;
unrealized gains and losses on trading securities;
realized foreign currency gains and losses;
other-than-temporary impairments on available-for-sale securities; and
dividend and interest income.

The following summarizes investment income reflected in earnings for the periods discussed:

Investment Income	Three Months Ended September 30,	
	2012	2011
Realized losses on sales of trading securities	\$ -	\$ (2,638)
Unrealized gains (losses) on trading securities	171,581	(591,562)
Realized foreign currency losses	(25)	(36)

Dividend and interest income	29,095	42,398
Total Investment Income	\$ 200,651	\$ (551,875)

NOTE 4. FAIR VALUE DISCLOSURES

Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a hierarchy that prioritizes inputs to valuation techniques used to measure fair value and requires companies to disclose the fair value of their financial instruments according to a fair value hierarchy (i.e., Levels 1, 2, and 3 inputs, as defined below). The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. Additionally, companies are required to provide enhanced disclosures regarding instruments in the Level 3 category (which have inputs to the valuation techniques that are unobservable and require significant management judgment), including a reconciliation of the beginning and ending values separately for each major category of assets or liabilities.

Financial instruments measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities at the reporting date. Since valuations are based on quoted prices that are readily and regularly available in an active market, value of these products does not entail a significant degree of judgment.

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly.

Level 3 Valuations based on inputs that are unobservable and significant to the fair value measurement.

The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument.

Edgar Filing: U S GLOBAL INVESTORS INC - Form 10-Q

For actively traded securities, the Company values investments using the closing price of the securities on the exchange or market on which the securities principally trade. If the security is not actively traded, it is valued based on the last bid and/or ask quotation. Securities that are not traded on an exchange or market are generally valued at cost, monitored by management and fair value adjusted as considered necessary. The Company values the mutual funds, offshore funds and a venture capital investment at net asset value.

The following table presents fair value measurements, as of September 30, 2012, for the three major categories of U.S. Global's investments measured at fair value on a recurring basis:

	Fair Value Measurement using (in thousands) September 30, 2012			Total
	Quoted Prices (Level 1)	Significant Other Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Trading securities				
Common stock	\$ 227	\$ 34	\$ -	\$ 261
Mutual funds	4,041	-	-	4,041
Offshore fund	-	1,086	-	1,086
Total trading securities	4,268	1,120	-	5,388

Total Investments	\$ 8,245	\$ 5,986	\$ 168	\$ 14,399

Approximately 57 percent of the Company's financial assets measured at fair value are derived from Level 1 inputs including SEC-registered mutual funds and equity securities traded on an active market, 42 percent of the Company's financial assets measured at fair value are derived from Level 2 inputs, including an investment in an offshore fund, and the remaining one percent are Level 3 inputs. The Company recognizes transfers between levels at the end of each quarter. The Company did not transfer any securities between Level 1 and Level 2 during the three months ended September 30, 2012.

In Level 2, the Company has an investment in an offshore fund with a fair value of \$1,086,100 that invests in companies in the energy and natural resources sectors. The Company may redeem this investment on the first business day of each month after providing a redemption notice at least forty-five days prior to the proposed redemption date.

The Company also has a Level 2 investment in an offshore fund with a fair value of \$4,866,000 that invests in dividend-paying equity and debt securities of companies located around the world. The Company may redeem this investment on the first business day of each month after providing a redemption notice at least forty-five days prior to the proposed redemption date.

In Level 3, the Company held investments in three securities with a value of zero and one venture capital investment that was measured at fair value using significant unobservable inputs at September 30, 2012.

The Level 3 venture capital investment has a fair value of approximately \$168,464 and primarily invests in companies in the medical and medical technology sectors. The Company may redeem this investment with general partner approval. As of September 30, 2012, the Company has an unfunded commitment of \$62,500 related to this investment.

NOTE 5. INVESTMENT MANAGEMENT, TRANSFER AGENT AND OTHER FEES

The Company serves as investment adviser to U.S. Global Investors Funds (USGIF) and receives a fee based on a specified percentage of net assets under management.

USSI also serves as transfer agent to USGIF and receives fees based on the number of shareholder accounts as well as transaction and activity-based fees. Additionally, the Company receives certain miscellaneous fees directly from USGIF shareholders. Fees for providing investment management, administrative, distribution and transfer agent services to USGIF continue to be the Company's primary revenue source.

The advisory agreement for the nine equity funds provides for a base advisory fee that is adjusted upwards or downwards by 0.25 percent when there is a performance difference of 5 percent or more between a fund's performance and that of its designated benchmark index over the prior rolling 12 months. For the three months ended September 30, 2012, the Company adjusted its base advisory fees downwards by \$346,914. For the corresponding period in the prior fiscal year, base advisory fees were increased by \$265,133.

The Company has voluntarily waived or reduced its fees and/or agreed to pay expenses on all thirteen funds. These caps will continue on a voluntary basis at the Company's discretion. Effective with the March 1, 2010, offering of institutional class shares in three USGIF funds, the Company voluntarily agreed to waive all institutional class-specific expenses. The aggregate fees waived and expenses borne by the Company for the three months ended September 30, 2012, were \$850,042 compared with \$803,229 for the corresponding period in the prior fiscal year.

The above waived fees include amounts waived under an agreement whereby the Company has voluntarily agreed to waive fees and/or reimburse the U.S. Treasury Securities Cash Fund and the U.S. Government Securities Savings Fund to the extent necessary to maintain the respective fund's yield at a certain level as determined by the Company (Minimum Yield). For the three months ended September 30, 2012, total fees waived and/or expenses reimbursed as a result of this agreement were \$300,635. For the corresponding period in fiscal year 2012, the total fees waived and/or expenses reimbursed were \$405,150.

The Company may recapture any fees waived and/or expenses reimbursed within three years after the end of the funds' fiscal year of such waiver and/or reimbursement to the extent that such recapture would not cause the funds' yield to fall below the Minimum Yield. Thus, \$1,047,980 of these waivers is recoverable by the Company through December 31, 2012; \$1,562,956 through December 31, 2013; \$1,604,076 through December 31, 2014; and \$958,858 through December 31, 2015. Management believes these waivers could increase in the future. Such increases

Edgar Filing: U S GLOBAL INVESTORS INC - Form 10-Q

in fee waivers could be significant and will negatively impact the Company's revenues and net income. Management cannot predict the impact of the waivers and/or reimbursements due to the number of variables and the range of potential outcomes.

The Company provides advisory services for three offshore clients and receives monthly advisory fees based on the net asset values of the clients and quarterly performance fees, if any, based on the overall increase in net asset values. The Company recorded advisory and performance fees from these clients totaling \$90,562 for the three months ended September 30, 2012, and \$94,697 for the corresponding period in the prior fiscal year. Frank Holmes, CEO, serves as a director of the offshore clients.

The Company receives additional revenue from several sources including custodial fee revenues, mailroom operations, and investment income.

NOTE 6. BORROWINGS

As of September 30, 2012, the Company has no long-term liabilities.

The Company has access to a \$1 million credit facility with a one-year maturity for working capital purposes. The credit agreement requires the Company to maintain certain quarterly financial covenants to access the line of credit. The Company has been in compliance with all financial covenants during the fiscal year. As of September 30, 2012, this credit facility remained unutilized by the Company.

NOTE 7. STOCK-BASED COMPENSATION

The Company accounts for stock-based compensation in accordance with ASC 718 *Compensation - Stock Compensation*. Stock-based compensation expense is recorded for the cost of stock options. Stock-based compensation expense for the three months ended September 30, 2012, was \$7,710, compared to \$9,660 in the corresponding period in fiscal 2012. As of September 30, 2012, and 2011, respectively, there was approximately \$9,557 and \$41,083 of total unrecognized share-based compensation cost related to share-based compensation granted under the plans that will be recognized over the remainder of their respective vesting periods.

Stock compensation plans

The Company's stock option plans provide for the granting of class A shares as either incentive or nonqualified stock options to employees and non-employee directors. Options are subject to terms and conditions determined by the Compensation Committee of the Board of Directors. The following table summarizes information about the Company's stock option plans for the three months ended September 30, 2012.

	Number of Options	Weighted Average Exercise Price
Options outstanding, beginning of year	29,000	\$ 17.03
Granted	-	-
Exercised	-	-
Forfeited	-	-
Options outstanding, end of period	29,000	\$ 17.03

NOTE 8. EARNINGS PER SHARE

The basic earnings per share (EPS) calculation excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution of EPS that could occur if options to issue common stock were exercised.

The following table sets forth the computation for basic and diluted EPS:

	Three Months Ended September 30,	
	2012	2011
Net income	\$ 48,800	\$ 749,518
Weighted average number of outstanding shares		
Basic	15,475,887	15,425,705
Effect of dilutive securities		
Employee stock options	-	516
Diluted	15,475,887	15,426,221
Earnings per share		
Basic	\$ 0.00	\$ 0.05
Diluted	\$ 0.00	\$ 0.05

The diluted EPS calculation excludes the effect of stock options when their exercise prices exceed the average market price for the period. For the three months ended September 30, 2012, 29,000 options were excluded from diluted EPS, and 25,300 were excluded in the corresponding period in fiscal 2012.

The Company may repurchase stock from employees. The Company made no repurchases of shares of its class A, class B, or class C common stock during the three months ended September 30, 2012. Upon repurchase, these shares are classified as treasury shares and are deducted from outstanding shares in the earnings per share calculation.

NOTE 9. INCOME TAXES

The Company and its subsidiaries file a consolidated federal income tax return. Provisions for income taxes include deferred taxes for temporary differences in the bases of assets and liabilities for financial and tax purposes, resulting from the use of the liability method of accounting for income taxes. The current deferred tax asset primarily consists of unrealized losses on trading securities as well as temporary differences in the deductibility of accrued liabilities. The long-term deferred tax asset is composed primarily of unrealized losses and other-than-temporary impairments on available-for-sale securities and the difference in tax treatment of stock options.

A valuation allowance is provided when it is more likely than not that some portion of the deferred tax amount will not be realized. No valuation allowance was included or deemed necessary at September 30, 2012, or June 30, 2012.

NOTE 10. FINANCIAL INFORMATION BY BUSINESS SEGMENT

The Company operates principally in two business segments: providing investment management services to the funds it manages and investing for its own account in an effort to add growth and value to its cash position. The following schedule details total revenues and income by business segment:

	Investment Management Services	Corporate Investments	Consolidated
Three months ended September 30, 2012			
Net revenues	\$ 4,777,461	\$ 200,105	\$ 4,977,566

Depreciation	71,458	-	71,458
Capital expenditures	-	-	-

NOTE 11. CONTINGENCIES AND COMMITMENTS

The Company continuously reviews all investor, employee and vendor complaints, and pending or threatened litigation. The likelihood that a loss contingency exists is evaluated through consultation with legal counsel, and a loss contingency is recorded if probable and reasonably estimable.

During the normal course of business, the Company may be subject to claims, legal proceedings, and other contingencies. These matters are subject to various uncertainties, and it is possible that some of these matters may be resolved unfavorably. The Company establishes accruals for matters for which the outcome is probable and can be reasonably estimated. Management believes that any liability in excess of these accruals upon the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial statements of the Company.

The Board has authorized a monthly dividend of \$0.02 per share through December 2012, at which time it will be considered for continuation by the Board. Payment of cash dividends is within the discretion of the Company's Board of Directors and is dependent on earnings, operations,

Edgar Filing: U S GLOBAL INVESTORS INC - Form 10-Q

capital requirements, general financial condition of the Company, and general business conditions. The total amount of cash dividends to be paid to class A and class C shareholders from October to December 2012 will be approximately \$929,215.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

U.S. Global has made forward-looking statements concerning the Company's performance, financial condition, and operations in this report. The Company from time to time may also make forward-looking statements in its public filings and press releases. Such forward-looking statements are subject to various known and unknown risks and uncertainties and do not guarantee future performance. Actual results could differ materially from those anticipated in such forward-looking statements due to a number of factors, some of which are beyond the Company's control, including: (i) the volatile and competitive nature of the investment management industry, (ii) changes in domestic and foreign economic conditions, (iii) the effect of government regulation on the Company's business, and (iv) market, credit, and liquidity risks associated with the Company's investment management activities. Due to such risks, uncertainties, and other factors, the Company cautions each person receiving such forward-looking information not to place undue reliance on such statements. All such forward-looking statements are current only as of the date on which such statements were made.

BUSINESS SEGMENTS

The Company, with principal operations located in San Antonio, Texas, manages two business segments: (1) the Company offers a broad range of investment management products and services to meet the needs of individual and institutional investors; and (2) the Company invests for its own account in an effort to add growth and value to its cash position. Although the Company generates the majority of its revenues from its investment advisory segment, the Company holds a significant amount of its total assets in investments. The following is a brief discussion of the Company's two business segments.

Investment Management Services

The Company generates substantially all of its operating revenues from managing and servicing USGIF and other advisory clients. These revenues are largely dependent on the total value and composition of assets under its management. Fluctuations in the markets and investor sentiment directly impact the funds' asset levels, thereby affecting income and results of operations.

Detailed information regarding the SEC-registered funds managed by the Company can be found on the Company's website, www.usfunds.com, including performance information for each fund for various time periods, assets under management as of the most recent month end and inception date of each fund.

SEC-registered mutual fund shareholders are not required to give advance notice prior to redemption of shares in the funds; however, the equity funds charge a redemption fee if the fund shares have been held for less than the applicable periods of time set forth in the funds' prospectuses. The fixed income and money market funds charge no redemption fee. Detailed information about redemption fees can be found in the funds' prospectus, which is available on the Company's website, www.usfunds.com.

The Company provides advisory services for three offshore clients and receives monthly advisory fees based on the net asset values of the clients and quarterly performance fees, if any, based on the overall increase in net asset values. The Company recorded advisory and performance fees from these clients totaling \$90,562 for the three months ended September 30, 2012, and \$94,697 for the corresponding period in fiscal 2012. Frank Holmes, CEO, serves as a director of the offshore clients.

At September 30, 2012, total assets under management as of period-end, including both SEC-registered funds and offshore clients, were \$1.766 billion versus \$2.050 billion at September 30, 2011, a decrease of 13.8 percent. During the three months ended September 30, 2012, average assets under management were \$1.664 billion versus \$2.453 billion during the three months ended September 30, 2011. Total assets under management as of period-end at September 30, 2012, were \$1.766 billion versus \$1.624 billion at June 30, 2012, the Company's prior fiscal year end.

Average investment management fee	0.97%	0.00%	0.79%
Average net assets	\$ 1,328,897	\$ 301,727	\$ 1,630,624

(Dollars in Thousands)	Changes in Assets Under Management Three Months Ended September 30, 2011 Money Market		
	Equity	Fixed Income	Total
Beginning Balance	\$ 2,225,729	\$ 336,793	\$ 2,562,522
Market appreciation/(depreciation)	(416,835)	991	(415,844)
Dividends and distributions	-	(365)	(365)
Net shareholder purchases/(redemptions)	(125,847)	(2,697)	(128,544)
Ending Balance	\$ 1,683,047	\$ 334,722	\$ 2,017,769
Average investment management fee	0.99%	0.00%	0.85%
Average net assets	\$ 2,079,705	\$ 335,278	\$ 2,414,983

As shown above, period-end assets under management were lower at September 30, 2012, compared to September 30, 2011. Also, average net assets for the current quarter were lower than the same quarter in the previous fiscal year. Net shareholder redemptions adversely affected both the current quarter and the same quarter in the previous year. The money market funds in both periods decreased as shareholders sought alternatives to low yields. The shareholder redemptions in the current quarter, however, were offset by market appreciation, resulting in an overall increase in net assets at September 30, 2012, compared to June 30, 2012.

The average annualized investment management fee rate (total mutual fund advisory fees, excluding performance fees, as a percentage of average assets under management) was 85 basis points in the first quarter of fiscal 2012 and 79 basis points in the same period in fiscal 2013. The average investment management fee for the fixed income funds was nil for the periods. This is due to voluntary fee waivers on these funds

Edgar Filing: U S GLOBAL INVESTORS INC - Form 10-Q

as discussed in Note 5 to the financial statements, including a voluntary agreement to support the yields for the money market funds.

Investment Activities

Management believes it can more effectively manage the Company's cash position by broadening the types of investments used in cash management and continues to believe that such activities are in the best interest of the Company. The Company's investment activities are reviewed and monitored by Company compliance personnel, and various reports are provided to certain investment advisory clients. Written procedures are in place to manage compliance with the code of ethics and other policies affecting the Company's investment practices. This source of revenue does not remain consistent and is dependent on market fluctuations, the Company's ability to participate in investment opportunities, and timing of transactions.

As of September 30, 2012, the Company held investments with a market value of approximately \$14.4 million and a cost basis of approximately \$14.1 million. The market value of these investments is approximately 35.0 percent of the Company's total assets. See Note 3 (Investments) and Note 4 (Fair Value Disclosures) for additional detail regarding investment activities.

RESULTS OF OPERATIONS THREE MONTHS ENDED SEPTEMBER 30, 2012 AND 2011

The Company posted net income of \$48,800 (\$0.00 per share) for the three months ended September 30, 2012, compared with net income of \$749,518 (\$0.05 per share) for the three months ended September 30, 2011, a decrease of \$700,718, or 93.5 percent.

Revenues

Total consolidated revenues for the three months ended September 30, 2012, decreased \$2,814,342, or 36.1 percent, compared with the three months ended September 30, 2011. This decrease was primarily attributable to the following:

Mutual fund advisory fees decreased by \$2,544,304, or 46.6 percent, as a result of lower assets under management. Of that amount, \$1,932,257 was attributable to a decrease in mutual fund management fees and \$612,047 was attributable to a swing in performance fees. The performance fee adjustments were driven by net payments to the funds in the current period versus net receipts from the funds in the comparable period. Performance fees are paid or received when there is a performance difference of 5 percent or more between a fund's performance and that of its designated benchmark index over the prior rolling 12 months.

Distribution fee revenue decreased by \$502,222, or 39.4 percent, as a result of lower average net assets under management upon which these fees are based.

Transfer agent fee revenue decreased by \$357,109, or 32.7 percent, as a result of a decline in the number of shareholder accounts and the number of shareholder transactions.

Administrative services fee revenue decreased by \$157,682, or 38.3%, as a result of lower average net assets under management upon which these fees are based.

Offsetting the items above, investment income increased \$752,526, or 136.4 percent, primarily due to unrealized gains on trading securities for the three months ended September 30, 2012, compared to unrealized losses on trading securities for the three months ended September 30, 2011.

Expenses

Total consolidated expenses for the three months ended September 30, 2012, decreased \$1,741,792, or 26.3 percent, compared with the three months ended September 30, 2011. This was largely attributable to the following:

Platform fees decreased \$566,719, or 44.2 percent, primarily due to lower assets held through broker-dealer platforms.

Employee compensation and benefits decreased by \$494,343, or 17.1 percent, primarily as a result of lower performance-based bonuses and fewer employees.

Advertising decreased by \$396,376, or 71.2 percent, as a result of a scaled back advertising campaign.

General and administrative expense decreased by \$281,643, or 15.5 percent, primarily due to lower travel and consulting expenses.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2012, the Company had net working capital (current assets minus current liabilities) of approximately \$25.0 million and a current ratio (current assets divided by current liabilities) of 9.1 to 1. With approximately \$19.7 million in cash and cash equivalents and approximately \$14.4 million in marketable securities, the Company has adequate liquidity to meet its current obligations. Total shareholders equity is approximately \$38.0 million, with cash, cash equivalents, and marketable securities comprising 82.9 percent of total assets.

As of September 30, 2012, the Company has no long-term liabilities. The Company has access to a \$1 million credit facility with a one-year maturity for working capital purposes. The credit agreement requires the Company to maintain certain quarterly financial covenants to access the line of credit. The Company has been in compliance with all financial covenants during the fiscal year. As of September 30, 2012, this credit

facility remained unutilized by the Company.

Management believes current cash reserves, financing available, and potential cash flow from operations will be sufficient to meet foreseeable cash needs or capital necessary for the above-mentioned activities and allow the Company to take advantage of opportunities for growth whenever available.

The investment advisory and related contracts between the Company and USGIF were renewed effective October 1, 2012. The Company provides advisory services to three offshore clients for which the Company receives a monthly advisory fee and a quarterly performance fee, if any, based on agreed-upon performance measurements. The contracts between the Company and these offshore clients expire periodically, and management anticipates that its offshore clients will renew the contracts.

The Company receives additional revenue from several sources including custodial fee revenues, mailroom operations, and investment income.

CRITICAL ACCOUNTING ESTIMATES

For a discussion of critical accounting policies that the Company follows, please refer to the notes to the consolidated financial statements included in the Annual Report on Form 10-K for the year ended June 30, 2012. As discussed in Note 1 of the Notes to Consolidated Financial Statements, the Company has adopted certain recently issued financial accounting pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's balance sheet includes assets whose fair value is subject to market risks. Due to the Company's investments in equity securities, equity price fluctuations represent a market risk factor affecting the Company's consolidated financial position. The carrying values of investments subject to equity price risks are based on quoted market prices or, if not actively traded, management's estimate of fair value as of the balance sheet date. Market prices fluctuate, and the amount realized in the subsequent sale of an investment may differ significantly from the reported market value.

The Company's investment activities are reviewed and monitored by Company compliance personnel, and various reports are provided to certain investment advisory clients. Written procedures are in place to manage compliance with the code of ethics and other policies affecting the Company's investment practices.

The table below summarizes the Company's equity price risks as of September 30, 2012, and shows the effects of a hypothetical 25 percent increase and a 25 percent decrease in market prices.

	Fair Value at September 30, 2012	Hypothetical Percentage Change	Estimated Fair Value After Hypothetical Price Change	Increase (Decrease) in Shareholders Equity, Net of Tax
Trading securities ¹	\$5,387,719	25% increase	\$6,734,649	\$888,974
		25% decrease	\$4,040,789	(\$888,974)
Available-for-sale ²	\$9,011,000	25% increase	\$11,263,750	\$1,486,815
		25% decrease	\$6,758,250	(\$1,486,815)

¹Unrealized and realized gains and losses on trading securities are included in earnings in the statement of operations.

²Unrealized and realized gains and losses on available-for-sale securities are excluded from earnings and recorded in other comprehensive income as a component of shareholders' equity until realized.

Edgar Filing: U S GLOBAL INVESTORS INC - Form 10-Q

The selected hypothetical changes do not reflect what could be considered best- or worst-case scenarios. Results could be significantly different due to both the nature of equity markets and the concentration of the Company's investment portfolio.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of September 30, 2012, was conducted under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective as of September 30, 2012.

There has been no change in the Company's internal control over financial reporting that occurred during the three months ended September 30, 2012, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
