FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Basis of Presentation

We, Famous Dave s of America, Inc. (Famous Dave s or the Company), were incorporated in Minnesota on March 14, 1994. We develop, own, operate and franchise restaurants under the name Famous Dave s . As of March 31, 2013, there were 187 Famous Dave s restaurants operating in 34 states and 1 Canadian province, including 53 company-owned restaurants and 134 franchise-operated restaurants. An additional 68 franchise restaurants were committed to be developed through signed area development agreements as of March 31, 2013.

We prepared these consolidated financial statements in accordance with Securities and Exchange Commission (SEC) Rules and Regulations. These unaudited financial statements represent the consolidated financial statements of Famous Dave s and its subsidiaries as of March 31, 2013 and December 30, 2012 and for the three month periods ended March 31, 2013 and April 1, 2012. The information furnished in these financial statements includes normal recurring adjustments and reflects all adjustments, which are, in our opinion, necessary for a fair presentation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 30, 2012 as filed with the SEC.

Due to the seasonality of our business, revenue and operating results for the three months ended March 31, 2013 are not necessarily indicative of the results to be expected for the full year.

Reclassifications Certain reclassifications have been made to prior year amounts to conform to the current year s presentation.

(2) Net Income Per Common Share

Basic net income per common share (EPS) is computed by dividing net income by the weighted average number of common shares outstanding for the reporting period. Diluted EPS equals net income divided by the sum of the weighted average number of shares of common stock outstanding plus all additional common stock equivalents, such as stock options, when dilutive.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Following is a reconciliation of basic and diluted net income per common share:

	Three Months Ended	
	March 31,	April 1,
	2013	2012
<i>(in thousands, except per share data)</i>		
Net income per common share basic:		
Net income	\$ 62	\$ 817
Weighted average shares outstanding	7,370	7,636
Net income per common share basic	\$ 0.01	\$ 0.11
Net income per common share diluted:		
Net income	\$ 62	\$ 817
Weighted average shares outstanding	7,370	7,636
Dilutive impact of common stock equivalents outstanding	278	111
Adjusted weighted average shares outstanding	7,648	7,747
Net income per common share diluted	\$ 0.01	\$ 0.11

There were 15,000 stock options outstanding as of March 31, 2013 that were not included in the computation of diluted EPS because they were anti-dilutive. All options outstanding as of April 1, 2012 were included in the computation of diluted EPS.

(3) Allowance for Doubtful Accounts

Accounts Receivable, Net We provide an allowance for uncollectible accounts on accounts receivable based on historical losses and existing economic conditions, when relevant. We provide for a general bad debt reserve for franchise receivables due to increases in days sales outstanding and deterioration in general economic market conditions. This general reserve is based on the aging of receivables meeting specified criteria and is adjusted each quarter based on past due receivable balances. Additionally, we have periodically established a specific reserve on certain receivables as necessary. Any changes to the reserve are recorded in general and administrative expenses. The allowance for uncollectible accounts was approximately \$156,000 and \$236,000, at March 31, 2013 and December 30, 2012, respectively. Accounts receivable are written off when they become uncollectible, and payments subsequently received on such receivables are credited to allowance for doubtful accounts. Accounts receivable balances written off have not exceeded allowances provided. We believe all accounts receivable in excess of the allowance are fully collectible. If accounts receivable in excess of provided allowances are determined uncollectible, they are charged to expense in the period that determination is made. Outstanding past due accounts receivable are subject to a monthly interest charge on unpaid balances which is recorded as interest income in our consolidated statements of operations. In assessing recoverability of these receivables, we make judgments regarding the financial condition of the franchisees based primarily on past and current payment trends, as well as other variables, including annual financial information, which the franchisees are required to submit to us, as well as other variables.

(4) Public Relations and Marketing Development Fund and Restricted Cash

We have a system-wide Public Relations and Marketing Development Fund, to which Company-owned restaurants, in addition to the majority of franchise-operated restaurants contribute a percentage of net sales, currently 0.75%, for use in public relations and marketing development efforts throughout the system. The assets held by this fund are considered restricted. Accordingly, we reflect the cash related to this fund in restricted cash and reflect the liability in accounts payable on our consolidated balance sheets as of March 31, 2013 and December 30, 2012. We had approximately \$709,000 and \$689,000, in this fund, as of March 31, 2013 and December 30, 2012, respectively.

Table of Contents**FAMOUS DAVES OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(5) Intangible Assets, net**

The Company has intangible assets that consist of liquor licenses and lease interest assets. The liquor licenses are indefinite lived assets and are not subject to amortization. The lease interest assets are amortized, to occupancy costs, on a straight-line basis over the remaining term of each respective lease.

A reconciliation of beginning and ending amounts of intangible assets at March 31, 2013 and December 30, 2012, respectively, are presented in the table below:

<i>(in thousands)</i>	Remaining estimated useful life (years)	Original Cost	Accumulated Amortization	Net Book Value	Less Current Portion	Non Current Portion

<i>(in thousands)</i>	Remaining estimated useful life (years)	Original Cost	Accumulated Amortization	Net Book Value	Less Current Portion	Non Current Portion
Balance at March 31, 2013						
Lease interest assets	26.8	\$ 1,417	\$ (147)	\$ 1,270	\$ (48)	\$ 1,222
Liquor licenses ⁽¹⁾		1,810		1,810		1,810
Total		\$ 3,227	\$ (147)	\$ 3,080	\$ (48)	\$ 3,032

⁽¹⁾ The company purchased a liquor license for a new company-owned restaurant, anticipated to open the fourth quarter of fiscal 2013, for a total of \$250,000: \$21,000 was recorded in fiscal 2012 and \$229,000 was recorded in the first quarter of fiscal 2013.

Amortization of the lease interest assets is expected to be approximately \$48,000 per year, for each of the next five years.

(6) Credit Facility, Long-Term Debt and Debt Covenants

The Company and certain of its subsidiaries (collectively known as the Borrower) currently have a Credit Agreement with Wells Fargo Bank, National Association. The Credit Agreement will expire on July 5, 2016. It contains a \$30.0 million revolving credit facility (the Facility) with an opportunity to increase to \$50.0 million, a term loan (the Term Loan) and up to \$3.0 million of letters of credit which reduce the availability of the Facility. At March 31, 2013, the principal amount outstanding under the Facility and the Term Loan was \$10.5 million and \$5.2 million, respectively, along with approximately \$620,000 in letters of credit for real estate

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

locations. The Credit Agreement allows for the termination of the Facility by the Borrower without penalty at any time. We expect to use any borrowings under the Credit Agreement for general working capital purposes as needed. Under the Credit Agreement, the Borrower has granted the Lender a security interest in all current and future personal property of the Borrower.

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate or Base Rate plus an applicable margin. The applicable margin depends on the Company's Adjusted Leverage Ratio at the end of the previous quarter. For the three months ended March 31, 2013 and April 1, 2012, our weighted average interest rate for the Facility was 3.09% and 2.74%, respectively. Unused portions of the Facility are subject to a fee which was 0.375% of the unused amount at March 31, 2013. An option exercise fee would also apply to increased outstanding amounts between \$30.0 and \$50.0 million.

Principal amounts outstanding under the Term Loan bear interest at the same rate as the Facility. The weighted average interest rate of the Term Loan for the three months ended March 31, 2013 and April 1, 2012 was 2.75% and 2.31%, respectively. The Company is required to make minimum annual amortization payments of 10.0% of the principal balance of the Term Loan.

The Facility contains various financial covenants as well as customary affirmative and negative covenants for credit facilities of this type. For more information regarding the details of the various financial covenants and customary affirmative and negative covenants, please read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 30, 2012. We were in compliance with all covenants as of March 31, 2013.

(7) Other Current Liabilities

⁽²⁾ The 2013 Program's stock-based compensation reflected \$147,000 related to performance shares and \$18,000 related to performance stock units.

Performance Shares and Performance Stock Units

Edgar Filing: FAMOUS DAVES OF AMERICA INC - Form 10-Q

During the first quarter of fiscal 2013, we issued 146,910 shares upon satisfaction of conditions under the 2010 performance share program, representing the achievement of approximately 86.9% of the target payout for this program. Recipients elected to forfeit 59,801 of those shares to satisfy tax withholding obligations, resulting in a net issuance of 87,099 shares.

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For fiscal 2010, 2011 and 2012, performance, under the Company's performance share programs, was measured by comparing actual earnings per share to a target earnings per share amount. For fiscal 2013, the Compensation Committee of the Board of Directors has elected to replace earnings per share with Adjusted EBITDA as the metric by which to measure performance. For these purposes, Adjusted EBITDA is defined as income from operations of the Company, plus depreciation, and amortization, non-cash adjustments (such as asset impairment, lease termination and other closing costs) and other non-cash items as approved by the Company's Compensation Committee and subject to adjustment by the Compensation Committee in its sole discretion for non-recurring items.

We recognize compensation cost for performance share awards over the requisite service period (i.e. fixed treatment) based on their fair value, which is the closing stock price at the date of grant. Participants in each performance share program are entitled to receive a specified number of shares of our common stock (Performance Shares) based upon our achieving a specified percentage of the cumulative total of the earnings per share or Adjusted EBITDA goals established by our compensation committee for each fiscal year within a three-year performance period (the Cumulative EPS Goal or Cumulative Adjusted EBITDA Goal).

We recognize compensation cost for performance stock unit awards over the requisite service period based on their initial fair value, which is the closing stock price at the date of grant. This award is adjusted to fair value based on the closing stock price at the end of each fiscal quarter. Participants in each performance stock unit award are entitled to receive a specified cash payout based on a number of our stock units awarded (Performance Stock Unit) and based upon our achieving a specified percentage of the cumulative total of Adjusted EBITDA goals established by our compensation committee for each fiscal year within a three-year performance period (the Cumulative Adjusted EBITDA).

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

At March 31, 2013, the following performance share programs were in progress:

Award Date	Program	Target No. of Performance Shares and Performance Stock Units (Originally Granted) ⁽¹⁾	Target No. of Performance Shares and Performance Stock Units (Outstanding at March 31, 2013) ⁽³⁾	Minimum Cumulative Earnings Goal	Maximum Payout (as a percent of target number)
1/3/2011	2011 Program ⁽²⁾	129,900	97,525 ⁽⁴⁾	80.0%	100.0%
1/2/2012	2012 Program	144,200	134,400	* ⁽⁵⁾	110.0%
1/8/2013	2013 Program ⁽⁶⁾	205,450	205,450	* ⁽⁷⁾	100.0%

(1) Assumes achievement of 100% of the applicable Cumulative EPS or Adjusted EBITDA Goal.

(2) If the Company achieves the minimum Cumulative EPS Goal, then each recipient will be entitled to receive a percentage of the Target number of Performance Shares granted that is equal to the percentage of the Cumulative EPS Goal achieved, up to the maximum payout. The maximum share payout a recipient will be entitled to receive under this program will be 100% of the Target number of Performance Shares granted if the Cumulative EPS Goal is met or exceeded.

(3) Net of employee forfeitures.

(4) Assumes an estimated payout equal to the forecasted achievement of 82.9% of the applicable Cumulative EPS Goal.

(5) The participants' rights to receive Performance Shares will be contingent on the Company achieving cumulative earnings per share for fiscal 2012-2014 equal to at least the sum of the amounts achieved by the Company during fiscal 2011-2013 (as adjusted by the Compensation Committee, if applicable). If the Company achieves this threshold, then participants will be entitled to receive a percentage of their Target number of Performance Shares equal to the percentage of the Cumulative EPS Goal achieved by the Company, up to 100%. If the Company achieves more than 100% of the Cumulative EPS Goal, then participants will be entitled to receive 100% of their Target number of Performance Shares, plus an additional percentage equal to twice the incremental percentage increase in the Cumulative EPS Goal achieved over 100% (e.g., if the Company achieves 103% of the Cumulative EPS Goal, then participants will be entitled to receive 106% of their Target number of Performance Shares); provided that the maximum payout under the fiscal 2012 program is capped at 110% of the Target number of Performance Shares.

(6) This program includes 185,405 performance shares and 20,045 performance stock units.

(7) The participants' rights to receive Performance Shares or Performance Stock Units will be contingent on the Company achieving the cumulative Adjusted EBITDA goal for fiscal 2013-2015 equal to at least the sum of the amounts achieved by the Company during fiscal 2012-2014 (as adjusted by the Compensation Committee, if applicable). If the Company achieves this threshold, then participants will be entitled to receive a percentage of their Target number of Performance Shares and Performance Stock Units equal to the percentage of the Adjusted EBITDA Goal achieved by the Company, up to 100%.

Board of Directors Compensation

We recognized Board of Directors compensation expense in our consolidated statement of operations for the three months ended March 31, 2013 and April 1, 2012, respectively, as follows:

The grants to Ms. Kro and Mr. Doolin had grant date fair values of \$168,000 and \$150,000, respectively, and will vest ratably over a period of five years beginning on the commencement date of their board service.

⁽²⁾ On August 2, 2011, a one-time 15,000 share restricted stock award was granted to John F. Gilbert III, upon joining the board of directors. The grant to Mr. Gilbert had a grant date fair value of \$153,750 and will vest ratably over a period of five years which began on the commencement date of his board service.

Stock Options

The stock options we had issued under the Plans were fully vested as of January 3, 2010 and expire 10 years from the date of grant. The 1995 Stock Option and Compensation Plan expired on December 29, 2005, the 1997 Employee Stock Option Plan expired on June 24, 2007, and the 1998 Director Stock Option Plan expired on June 19, 2008. Although incentives are no longer eligible for grant under these plans, each such plan will remain in effect until all outstanding incentives granted thereunder have either been satisfied or terminated.

Common Share Repurchases

On May 1, 2012, our Board of Directors approved a stock repurchase program that authorized the repurchase of up to 1.0 million shares of our common stock in both the open market or through privately negotiated transactions. We did not repurchase any shares during the first three months of fiscal 2013. Since the program was adopted May 2012, we have repurchased 323,862 shares for approximately \$3.4 million at an average market price per share of \$10.49, excluding commissions.

Employee Stock Purchase Plan

Edgar Filing: FAMOUS DAVES OF AMERICA INC - Form 10-Q

The Company maintains an Employee Stock Purchase Plan, which gives eligible employees the option to purchase Common Stock (total purchases in a year may not exceed 10% of an employee's current year compensation) at 100% of the fair market value of the Common Stock at the end of each calendar quarter. There

were approximately 1,149 and 1,228 shares purchased with a fair value per share of \$11.03 and \$11.57, during the first quarter of 2013 and first quarter of 2012, respectively. The Company recognized no expense related to the stock purchase plan due to it being non-compensatory as defined by IRS Section 423.

(10) Retirement Savings Plans

401(k) Plan

We have a pre-tax salary reduction/profit-sharing plan under the provisions of Section 401(k) of the Internal Revenue Code, which covers employees meeting certain eligibility requirements. In fiscal 2013, we will match 25.0%, and in fiscal 2012, we matched 25.0%, of the employee's contribution up to 4.0% of their earnings. Employee contributions were approximately \$135,000 and \$169,000 for the first quarter of fiscal years 2013 and 2012, respectively. The employer match was approximately \$23,000 and \$24,000 for the first quarter of fiscal years 2013 and 2012, respectively. There were no discretionary contributions to the Plan in the first quarter of fiscal 2013 and 2012.

Non-Qualified Deferred Compensation Plan

We have a Non-Qualified Deferred Compensation Plan effective as of February 25, 2005 (the "Plan"). Eligible participants are those employees who are at the "director" level and above and who are selected by the Company to participate in the Plan. Participants must complete a deferral election each year to indicate the level of compensation (salary, bonus and commissions) they wish to have deferred for the coming year. This deferral election is irrevocable except to the extent permitted by the Plan administrator, and the regulations promulgated by the IRS. During fiscal 2013, we will match 25.0%, and in fiscal 2012, we matched 25.0%, of the first 4.0% contributed and are paying a declared interest rate of 6.0% on balances outstanding. The Board of Directors administers the Plan and may change the rate or any other aspects of the Plan at any time.

Deferral periods are limited to the earlier of termination of employment or not less than three calendar years following the end of the applicable Plan year. Extensions of the deferral period for a minimum of five years are allowed provided an election for extension is made at least one year before the first payment affected by the change. Payments can be in a lump sum or in equal payments over a two-, five- or ten-year period, plus interest from the commencement date.

The Plan assets are kept in an unsecured account that has no trust fund. In the event of bankruptcy, any future payments would have no greater rights than that of an unsecured general creditor of the Company and they confer no legal rights for interest or claim on any assets of the Company. Benefits provided by the Plan are not insured by the Pension Benefit Guaranty Corporation (PBGC) under Title IV of the Employee Retirement Income Security Act of 1974 ("ERISA"), because the pension insurance provisions of ERISA do not apply to the Plan.

For the quarter ended March 31, 2013 and April 1, 2012, eligible participants contributed approximately \$35,000 and \$47,000, respectively, to the Plan, and the Company provided matching funds and interest of approximately \$18,000 and \$19,000, respectively.

(11) Asset Impairment and Estimated Lease Termination and Other Closing Costs

We evaluate restaurant sites and long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of restaurant sites to be held and used is measured by a comparison of the carrying amount of the restaurant site to the undiscounted future net cash flows expected to be generated on a restaurant-by-restaurant basis. If a restaurant is determined to be impaired, the loss is measured by the amount by which the carrying amount of the restaurant site exceeds its fair value. Fair value is estimated based on the best information available including estimated future

Table of Contents**FAMOUS DAVES OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

cash flows, expected growth rates in comparable restaurant sales, remaining lease terms and other factors. If these assumptions change in the future, we may be required to take additional impairment charges for the related assets. Considerable management judgment is necessary to estimate future cash flows. Accordingly, actual results could vary significantly from such estimates. Restaurant sites that are operating but have been previously impaired are reported at the lower of their carrying amount or fair value less estimated costs to sell. Following is a summary of these events during the first quarter of fiscal 2013 and fiscal 2012.

(12) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement framework establishes a three-tier hierarchy. The three levels, in order of priority, are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Level 1 measurements are determined by observable inputs which include data sources and market prices available and visible outside of the entity.

Level 2: Observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly.

Level 3: Inputs that are used to estimate the fair value of the asset or liability. Level 3 measurements are determined by unobservable inputs which include data and analyses developed within the entity to assess the fair value.

Transfers in and out of Levels will be based on our judgment of the availability of unadjusted quoted prices in active markets, other observable inputs, and non-observable inputs.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OVERVIEW

Famous Dave s of America, Inc. was incorporated as a Minnesota corporation in March 1994 and opened its first restaurant in Minneapolis in June 1995. As of March 31, 2013, there were 187 Famous Dave s restaurants operating in 34 states and 1 Canadian province, including 53 company-owned restaurants and 134 franchise-operated restaurants. An additional 68 franchise restaurants were in various stages of development as of March 31, 2013.

Fiscal Year

Our fiscal year ends on the Sunday closest to December 31st. Our fiscal year is generally 52 weeks; however, it periodically consists of 53 weeks. The fiscal years ending December 29, 2013 (fiscal 2013) and December 30, 2012 (fiscal 2012) are both 52 week fiscal years.

Revenue

Our revenue consists of restaurant sales, franchise-related revenue, and licensing and other revenue. Our franchise-related revenue is comprised of three separate and distinct earnings processes; area development fees, initial franchise fees, and continuing royalty payments. Currently, our domestic area development fee for domestic growth consists of a one-time, non-refundable payment of approximately \$10,000 per restaurant in consideration for the services we perform in preparation of executing each area development agreement. Substantially all of these services, which include, but are not limited to, conducting market and trade area analysis, a meeting with Famous Dave s Executive Team, and performing potential franchise background investigation, are completed prior to our execution of the area development agreement and receipt of the corresponding area development fee. As a result, we recognize this fee in full upon receipt. Currently, our initial, non-refundable, franchise fee for domestic growth is \$45,000 per restaurant, of which approximately \$5,000 is recognized immediately when a franchise agreement is signed, reflecting the commission earned and expenses incurred related to the sale. The remaining non-refundable fee is included in deferred franchise fees and is recognized as revenue when we have performed substantially all of our obligations, which generally occurs upon the franchise entering into a lease agreement for the restaurant(s). Finally, franchisees are also required to pay us a monthly royalty equal to a percentage of their net sales, which has historically varied from 4% to 5%. In general, new franchises pay us a monthly royalty of 5% of their net sales.

Costs and Expenses

Restaurant costs and expenses include food and beverage costs, labor and benefits costs, operating expenses which include occupancy costs, repair and maintenance costs, supplies, advertising and promotion, and restaurant depreciation and amortization. Certain of these costs and expenses are variable and will increase or decrease with sales volume. The primary fixed costs are corporate and restaurant management salaries and occupancy costs. Our experience is that when a new restaurant opens, it incurs higher than normal levels of labor and food costs until operations stabilize, usually during the first three to four months of operation. As restaurant management and staff gain experience following a restaurant s opening, labor scheduling, food cost management and operating expense control typically improve to levels similar to those at our more established restaurants.

General and Administrative Expenses

General and administrative expenses include all corporate and administrative functions that provide an infrastructure to support existing operations and support future growth. Salaries, bonuses, team member benefits, legal fees, accounting fees, consulting fees, travel, rent and general insurance are major items in this category.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**

Additionally, we record expense for Managers In Training (MIT s) in this category for approximately six weeks prior to a restaurant opening. We also provide franchise services for which the revenue is included in other revenue and the expenses are included in general and administrative expenses.

The following table presents items in our unaudited consolidated statements of operations as a percentage of net restaurant sales or total revenue, as indicated, for the following periods:

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the accompanying unaudited consolidated financial statements and notes, and the audited consolidated financial statements and notes included in our Annual Report on Form 10-K for the fiscal year ended December 30, 2012.

Results of Operations Three months ended March 31, 2013 compared to three months ended April 1, 2012.**Total Revenue**

Total revenue of approximately \$36.6 million for the first quarter of fiscal 2013 decreased approximately \$893,000, or 2.4%, from total revenue of \$37.5 million in the comparable quarter of fiscal 2012.

Restaurant Sales, net

Restaurant sales were approximately \$32.3 million for the first quarter of fiscal 2013 compared to approximately \$32.7 million for the same period in fiscal 2012. During the first quarter, company-owned restaurant sales declined year-over-year, by approximately 1.3%, primarily reflecting a 1.8% comparable sales decrease stemming from adverse weather and macro-economic conditions that negatively impacted consumers. Additionally, sales were unfavorably impacted by the shift of Easter from the second quarter of fiscal 2012 to the first quarter of fiscal 2013. These decreases were partially offset by a weighted average price increase of approximately 1.5%. On a weighted basis, Dine-In sales decreased by 3.5%, which was partially offset by increases in To Go and catering sales of 1.3% and 0.4%, respectively. Off-premise sales as a percentage of net sales, increased approximately 10% year over year and grew from 28.3% for the first quarter of 2012 to 31.1% for the first quarter of fiscal 2013, where To Go represented 25.4% and catering represented 5.7%. Finally, as a percentage of dine-in sales, our adult beverage sales at our company-owned restaurants were approximately 9.5% and 9.7% for the first quarter of fiscal 2013 and 2012, respectively.

Franchise-Related Revenue

Franchise-related revenue consists of royalty revenue and franchise fees, which include initial franchise fees and area development fees. Franchise-related revenue was approximately \$4.1 million for the first quarter of fiscal 2013, compared to \$4.5 million for the first quarter of 2012. Franchise royalties decreased year over year, reflecting a comparable sales decline of 6.1%, partially offset by nine new franchise-operated restaurants that opened since the first quarter of 2012 at higher sales volumes than the seven restaurants that closed during the same timeframe.

Licensing and Other Revenue

Licensing revenue includes royalties from a retail line of business, including sauces, rubs, marinades and seasonings. Other revenue includes opening assistance and training we provide to our franchise partners. For the first quarter of fiscal 2013, the licensing royalty revenue was approximately \$174,000 compared to approximately \$161,000 for the comparable period of fiscal 2012. Other revenue for the fiscal 2013 first quarter was approximately \$10,000 compared to \$88,000 for the comparable prior year quarter due to no openings of franchise restaurants during the first quarter of fiscal 2013 compared to one opening in the first quarter of fiscal 2012.

Same Store Net Sales

It is our policy to include in our same store net sales base, restaurants that are open year round and have been open at least 24 months. Same store net sales for company-owned restaurants for the first quarter of fiscal 2013 decreased 1.8%, compared to fiscal 2012's first quarter decrease of 1.6%. At the end of the first quarter of fiscal 2013 and the first quarter of fiscal 2012, there were 49 and 50 restaurants, respectively, included in this base.

Same store net sales for franchise-operated restaurants for the first quarter of fiscal 2013 decreased 6.1%, compared to a decrease of 0.1%, for the prior year comparable period. For the first quarter of 2013 and the first quarter of 2012, there were 114 and 112 restaurants, respectively, included in the franchise-operated comparable sales base.

Food and Beverage Costs

Food and beverage costs for the first quarter of fiscal 2013 were approximately \$10.0 million or 30.8% of net restaurant sales, compared to approximately \$10.2 million or 31.1% of net restaurant sales for the first quarter of fiscal 2012. Food and beverage costs as a percentage of net sales declined during the quarter, primarily due to a decline in discounts as well as the positive impact from some of the strategic initiatives, such as our new house-smoked brisket. Our contracted food costs performed as expected during the first quarter as many of our current contracts include the effects of the historically high corn and soy prices of 2012, which are key ingredients in many of our products as well as livestock feed. We are beginning to see these prices soften and anticipate modest relief in fiscal 2013, as it relates to the contracts that are still being negotiated for the remainder of the year. As we begin to look beyond 2013, we are optimistic that we will see greater savings in fiscal 2014.

On a same store basis for fiscal 2013, based on what we have contracted to date along with our continued strategy to optimize our distribution networks and freight costs, we still anticipate a 2.0% decline in our contracted food and beverage costs, year over year. This decline does not include the purchasing volume of any new restaurant openings for the remainder of 2013. We are under contract for the majority of our pork product for all of fiscal 2013, which positions us well to capitalize on future savings should we see further opportunities in 2013 to blend and extend our contract into fiscal 2014. We anticipate a decrease for our brisket, which is contracted through the end of 2013, as well as other items such as hamburger, seafood, and French fries. With regard to chicken, the feed and process components are locked in through the remainder of 2013 at a slight increase year over year.

Despite an anticipated decrease in contracted food costs from prior year, we will continue our efforts to further improve margin through key core-item promotions as well as through strategic menu mix management. Another strategy we will utilize this year is to take advantage of opportunistic commodity purchases. For example, we were able to secure a core product, at favorable pricing terms, baby back ribs. With some promotional support from our vendors, we will feature baby back ribs, along with our St. Louis ribs, in our

Table of Contents

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

summer rib promotion. Also, we took a price increase of approximately 1.5% on selected menu items in April, concurrent with the new menu launch, and in accordance with the recommendations of our pricing consultant (RMS). Later in 2013, we will determine whether or not we will take additional price later in the year based on greater insight obtained from our work with RMS. During the quarter, we began selling our chicken wings by weight as opposed to by the piece. This has allowed us to standardize food costs by protecting us from the variability of size and weight, but most importantly, it did not change portion sizes or the value delivered to our guest. We will continue to test and evaluate expanding this strategy to our ribs. We are updating our previous guidance and now anticipate food and beverage costs for fiscal 2013, as a percentage of net sales, to be approximately 145 to 150 basis points lower than fiscal 2012's percentage.

Labor and Benefits Costs

Labor and benefits costs for the three months ended March 31, 2013 were approximately \$10.8 million or 33.3% of net restaurant sales, compared to approximately \$10.9 million or 33.2% of net restaurant sales for the three months ended April 1, 2012. For the first quarter of fiscal 2013, labor and benefits, as a percentage of net restaurant sales, were unfavorable to the comparable period in fiscal 2012, primarily due to sales deleverage on fixed labor, partially offset by a slight decline in direct labor costs and lower than anticipated employee benefit costs due to a worker's compensation refund. We affirm our previous guidance and still anticipate labor and benefits costs, as a percentage of sales, to be 30 to 35 basis points favorable to fiscal 2012's percentage.

Operating Expenses

Operating expenses for the first quarter of fiscal 2013 were approximately \$9.0 million or 27.8% of net restaurant sales, compared to operating expenses of approximately \$8.9 million or 27.3% of net restaurant sales for the first quarter of fiscal 2012. Operating expenses for the first quarter as a percentage of net sales were unfavorable to the prior year due to sales deleverage, increased gas costs due to an elongated and colder winter, and increased advertising costs due to a shift in media spending. These increases were partially offset by lower costs associated with the timing of our menu printing.

For the remainder of 2013, we made the decision to decrease our media spend while we evaluate whether or not our prior programs provide the intended results and a satisfactory return. We are updating our previous guidance and currently anticipate advertising expense will be approximately 2.85% of net sales for all of fiscal 2013, including a 0.75% contribution to the Marketing Fund. This compares to a 2012 spend of 3.4% of net sales, which included a 1% contribution to the Marketing Fund. Based primarily on this change in advertising spend, we are updating our previous guidance and now anticipate operating expenses as a percentage of net sales for fiscal 2013 to be approximately 115 to 120 basis points lower than 2012's percentage.

Depreciation and Amortization

Depreciation and amortization expense for the first quarter of 2013 was approximately \$1.5 million or 4.2% of total revenue compared to \$1.5 million, or 3.9% of total revenue for the first quarter of fiscal 2012.

Pre-opening Expenses

Pre-opening expenses consist of labor, food, utilities, training and rent costs incurred prior to the opening of a restaurant. Included in pre-opening costs is pre-opening rent for approximately 16 weeks prior to opening but this will vary based on lease terms. Fiscal 2013's first quarter had \$6,000 of pre-opening expenses, compared to \$18,000 in the first quarter of 2012. We are updating our previous guidance and now anticipate pre-opening costs for 2013 to be approximately \$529,000 for the opening of two ground-up full service company-owned restaurants later this year.

We evaluate restaurant sites and long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of restaurant sites to be held and used is measured by a comparison of the carrying amount of the restaurant site to the undiscounted future net cash flows expected to be generated on a restaurant-by-restaurant basis. If a restaurant is determined to be impaired, the loss is measured by the amount by which the carrying amount of the restaurant assets exceeds its fair value. Fair value is estimated based on the best information available including estimated future cash flows, expected growth rates in comparable restaurant sales, remaining lease terms and other factors. If these assumptions change in the future, we may be required to take additional impairment charges for the related assets. Considerable management judgment is necessary to estimate future cash flows. Accordingly, actual results could vary significantly from such estimates. Restaurant sites that are operating but have been previously impaired are reported at the lower of their carrying amount or fair value less estimated costs to sell. Below is a summary of these events and situations during the first quarter of fiscal 2013 and fiscal 2012.

General and Administrative Expenses

General and administrative expenses for the first quarter of 2013 were approximately \$5.0 million or 13.7% of total revenue, compared to approximately \$4.5 million or 11.9% of total revenue for the first quarter of fiscal 2012. Approximately 130 basis points of the 180 basis point increase in general and administrative expenses as a percentage of revenue year over year reflects the reorganization of the Chief Executive Officer and Chief Operating Officer positions, including bonus and stock-based compensation, as well as legal and professional fees incurred related to board activity. The remainder of the increase was primarily due to a decline in total revenue leverage. We still anticipate stock-based compensation and board of director cash compensation to be approximately \$2.3 million for fiscal 2013, as follows (in thousands):

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**

Performance Shares and Performance Stock Units	Restricted Stock and Restricted Stock Units	Board of Directors Stock-Based and Cash Compensation	Total
\$ 1,381	\$ 405	\$ 549	\$ 2,335

Over the course of 2013, we will look to implement various initiatives aimed at reducing general and administrative expenses. If we were to exclude stock based compensation, board of director cash compensation and achievement of full bonus, collectively equaling 170 basis points year over year, general and administrative expenses as a percentage of revenue would be 30-35 basis points favorable.

Interest Expense

Interest expense was approximately \$285,000 or 0.8% of total revenue for the first quarter of fiscal 2013, compared to approximately \$264,000 or 0.7% of total revenue for the comparable time frame of fiscal 2012. Interest expense for the first quarter of fiscal 2013 was slightly unfavorable in both dollars and as a percentage of revenue compared to the prior year due to a year over year increase in weighted average interest rates and a higher average outstanding balance on our line of credit. For full fiscal 2013, we still expect interest expense to be essentially flat, as a percentage of revenue, to fiscal 2012.

Interest Income

Interest income was approximately \$4,000 and \$2,000 for the first quarter of fiscal 2013 and fiscal 2012, respectively. Interest income reflects interest earned on short-term cash and cash equivalent balances and on outstanding notes and accounts receivable balances.

Provision for Income Taxes

For the first quarter of 2013, we recorded an estimated provision for income taxes of approximately \$23,000 or 27.1% of income before income taxes, compared to a tax provision of approximately \$422,000 or 34.0% of income before income taxes, for the first quarter of 2012. The difference year over year was primarily due to a more precise calculation methodology for employee related tax credits. We still expect an approximate 29.0% effective tax rate for fiscal 2013.

Basic and Diluted Net Income Per Common Share

Net income for the three months ended March 31, 2013 was approximately \$62,000 or \$0.01 per basic and per diluted share on approximately 7,370,000 weighted average basic shares outstanding and 7,648,000 weighted average diluted shares outstanding, respectively. Net income for the three months ended April 1, 2012 was approximately \$817,000 or \$0.11 per basic and per diluted share on approximately 7,636,000 weighted average basic shares outstanding and 7,747,000 weighted average diluted shares outstanding, respectively.

Financial Condition, Liquidity and Capital Resources

Our balance of unrestricted cash and cash equivalents was approximately \$2.0 million at March 31, 2013 and approximately \$2.1 million at December 30, 2012.

Our current ratio, which measures our immediate short-term liquidity, was 0.88 at March 31, 2013 and 1.02 at December 31, 2012. The current ratio is computed by dividing total current assets by total current liabilities. The change in our ratio was primarily due to an increase in accounts payable as a result of strategic decisions to make minor adjustments to vendor terms to allow the company to reduce its debt levels. This increase was

partially offset by an increase in our prepaid expenses relating to our payments for insurance premiums. As is true with most restaurant companies, we often operate in a negative working capital environment due to the fact that we receive cash up front from customers and then pay our vendors on a delayed basis.

Net cash provided by operating activities through the first quarter of 2013 was approximately \$3.9 million and reflects net income of approximately \$62,000, depreciation and amortization of approximately \$1.5 million, an increase in accounts payable of \$2.8 million and a decrease in accounts receivable of \$817,000. These were partially offset by a decrease in accrued compensation and benefits of \$1.3 million and an increase in prepaid expense and other current assets of \$650,000.

Net cash used for operating activities for the three months ended April 1, 2012 was approximately \$33,000. Cash used for operating activities was primarily from net income of approximately \$817,000, depreciation and amortization of approximately \$1.5 million, increases in accounts payable of \$1.8 million, and tax benefit for equity awards issued of \$901,000. These net increases were partially offset by decreases in accrued compensation and benefits of \$3.1 million and other current liabilities of \$1.1 million, as well as an increase in prepaid expense and other current assets of \$1.5 million.

Net cash used for investing activities was approximately \$968,000 for the first three months of fiscal 2013. Net cash provided by investing activities was approximately \$431,000 for the comparable period in fiscal 2012. The company paid the remaining balance of a liquor license for a new company-owned restaurant scheduled to open in the fourth quarter of fiscal 2013. During the first three months of 2013, we used approximately \$739,000 on capital expenditures for our existing restaurants and for other infrastructure projects. During the first three months of 2012, we used approximately \$785,000 on capital expenditures for our existing restaurants and for other infrastructure projects. On March 2, 2012, the Company sold the restaurant assets of its Tulsa, Oklahoma restaurant for approximately \$1.2 million.

We still expect total 2013 capital expenditures to be approximately \$7.0 million, reflecting two new ground-up, full-service restaurant openings, continued investments in our existing restaurants, including a remodeling project, and investments in corporate infrastructure systems.

Net cash used for financing activities was approximately \$3.0 million in the first three months of fiscal 2013. Net cash provided by financing activities was approximately \$181,000 for the comparable period in fiscal 2012. During the first three months of 2013, we had draws of \$5.3 million on our line of credit and had repayments of \$8.4 million. During the three months ended April 1, 2012, we had draws of \$8.4 million on our line of credit and had repayments of \$7.4 million. During the first three months of fiscal 2012, we also used approximately \$1.5 million to repurchase 147,719 shares at an average price of \$10.97, excluding commissions, under the November 2010 share repurchase program.

The Company and certain of its subsidiaries (collectively known as the Borrower) currently have a Credit Agreement with Wells Fargo Bank, National Association. The Credit Agreement will expire on July 5, 2016. It contains a \$30.0 million revolving credit facility (the Facility) with an opportunity to increase to \$50.0 million, a term loan (the Term Loan) and up to \$3.0 million of letters of credit which reduce the availability of the Facility. At March 31, 2013, the principal amount outstanding under the Facility and the Term Loan was \$10.5 million and \$5.2 million, respectively, along with approximately \$620,000 in letters of credit for real estate locations. The Credit Agreement allows for the termination of the Facility by the Borrower without penalty at any time. We expect to use any borrowings under the Credit Agreement for general working capital purposes as needed. Under the Credit Agreement, the Borrower has granted the Lender a security interest in all current and future personal property of the Borrower.

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate or Base Rate plus an applicable margin. The applicable margin depends on the Company's Adjusted Leverage Ratio at the end of the previous quarter. For the three months ended March 31, 2013 and April 1, 2012, our weighted

average interest rate for the Facility was 3.09% and 2.74%, respectively. Unused portions of the Facility are subject to a fee, which was 0.375% of the unused amount at March 31, 2013. An option exercise fee would also apply to increased outstanding amounts between \$30.0 and \$50.0 million.

Principal amounts outstanding under the Term Loan bear interest at the same rate as the Facility. The weighted average interest rate of the Term Loan for the three months ended March 31, 2013 and April 1, 2012 was 2.75% and 2.31%, respectively. The Company is required to make minimum annual amortization payments of 10.0% of the principal balance of the Term Loan.

The Facility contains various financial covenants as well as customary affirmative and negative covenants for credit facilities of this type. For more information regarding the details of the various financial covenants and customary affirmative and negative covenants, please read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 30, 2012. We were in compliance with all covenants as of March 31, 2013.

Contractual Obligations

See Notes 8 and 9 to our Consolidated Financial Statements as well as Part II, Item 7 of our Management Discussion and Analysis in our Fiscal 2012 Annual Report on Form 10-K for the details of our contractual obligations.

Under the combined Facility and Term Loan we are subject to various financial covenants which include maximum target capital expenditures, cash flow ratios and adjusted leverage ratios.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Critical Accounting Policies

Our significant accounting policies are described in Note 1 to the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 30, 2012. The accounting policies used in preparing our interim 2013 consolidated financial statements are the same as those described in our Fiscal 2012 Annual Report on Form 10-K.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our Company s financial instruments include cash and cash equivalents and long-term debt. Our Company includes as unrestricted cash and cash equivalents investments with original maturities of three months or less when purchased and which are readily convertible into known amounts of cash. Our Company s unrestricted cash and cash equivalents are not subject to significant interest rate risk due to the short maturities of these instruments. We have no derivative financial instruments. Our total outstanding long-term debt as of March 31, 2013 was approximately \$18.8 million, including our line of credit, our term loan with Wells Fargo and financing lease obligations. The terms of our credit facility with Wells Fargo Bank, National Association, as administrative agent and lender are discussed above under *Management s Discussion and Analysis of Financial Condition and Results of Operations - Financial Condition, Liquidity and Capital Resources*.

Some of the food products purchased by us are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside our control. To control this risk in part, we have fixed-priced purchase commitments for food from vendors. In addition, we believe that substantially all of our food is available from several sources, which helps to control food commodity risks. We have secondary source suppliers for certain items and in 2013 we have continued to make this a key area of focus in order to protect the supply chain and to ensure a more fair and competitive pricing environment. We believe we have the ability to increase menu prices, or vary the menu options offered, if needed, in response to a food product price increase.

Item 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There has been no change in our internal control over financial reporting during the quarterly period coverage by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

From time to time, we are involved in various legal actions arising in the ordinary course of business. In the opinion of our management, the ultimate dispositions of these matters will not have a material adverse effect on our consolidated financial position and results of operations. Currently, there are no significant legal matters pending.
