FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Basis of Presentation

We, Famous Dave s of America, Inc. (Famous Dave s or the Company), were incorporated in Minnesota on March 14, 1994. We develop, own, operate and franchise restaurants under the name Famous Dave s . As of September 29, 2013, there were 191 Famous Dave s restaurants operating in 34 states, the Commonwealth of Puerto Rico and 1 Canadian province, including 53 company-owned restaurants and 138 franchise-operated restaurants. An additional 63 franchise restaurants were committed to be developed through signed area development agreements as of September 29, 2013.

We prepared these consolidated financial statements in accordance with Securities and Exchange Commission (SEC) Rules and Regulations. These unaudited financial statements represent the consolidated financial statements of Famous Dave s and its subsidiaries as of September 29, 2013 and December 30, 2012 and for the three and nine month periods ended September 29, 2013 and September 30, 2012, respectively. The information furnished in these financial statements includes normal recurring adjustments and reflects all adjustments, which are, in our opinion, necessary for a fair presentation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 30, 2012 as filed with the SEC.

Due to the seasonality of our business, revenue and operating results for the three and nine months ended September 29, 2013 are not necessarily indicative of the results to be expected for the full year.

Reclassifications Certain reclassifications have been made to prior year amounts to conform to the current year s presentation.

During the second quarter of fiscal 2013, in order to be more comparable to other public restaurant companies, the Company made the decision to reflect multi-unit supervision expenses within general and administrative expenses as opposed to operating expenses, where it previously had been reflected. The prior year s results have been reclassified to be comparable with the current fiscal year s presentation. For the third quarter of fiscal 2012, the reclassification from operating expenses to general and administrative expenses was approximately \$467,000. For the first nine months of fiscal 2012, this adjustment was approximately \$1.4 million.

(2) Net Income Per Common Share

Basic net income per common share (EPS) is computed by dividing net income by the weighted average number of common shares outstanding for the reporting period. Diluted EPS equals net income divided by the sum of the weighted average number of shares of common stock outstanding plus all additional common stock equivalents, such as stock options, when dilutive.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Following is a reconciliation of basic and diluted net income per common share:

All options outstanding as of September 29, 2013 were included in the computation of diluted earnings per share. There were 15,000 stock options outstanding September 30, 2012 excluded from the computation of diluted earnings per share because they were anti-dilutive.

(3) Allowance for Doubtful Accounts

Accounts Receivable, Net We provide an allowance for uncollectible accounts on accounts receivable based on historical losses and existing economic conditions, when relevant. We provide for a general bad debt reserve for franchise receivables due to increases in days sales outstanding and deterioration in general economic market conditions. This general reserve is based on the aging of receivables meeting specified criteria and is adjusted each quarter based on past due receivable balances. Additionally, we have periodically established a specific reserve on certain receivables as necessary. Any changes to the reserve are recorded in general and administrative expenses. The allowance for uncollectible accounts was approximately \$133,000 and \$236,000, at September 29, 2013 and December 30, 2012, respectively. Accounts receivable are written off when they become uncollectible, and payments subsequently received on such receivables are credited to allowance for doubtful accounts. Accounts receivable balances written off have not exceeded allowances provided. We believe all accounts receivable in excess of the allowance are fully collectible. If accounts receivable in excess of provided allowances are determined uncollectible, they are charged to expense in the period that determination is made. Outstanding past due accounts receivable are subject to a monthly interest charge on unpaid balances which is recorded as interest income in our consolidated statements of operations. In assessing recoverability of these receivables, we make judgments regarding the financial condition of the franchisees based primarily on past and current payment trends, as well as other variables, including annual financial information, which the franchisees are required to submit to us, as well as other variables.

(4) Public Relations and Marketing Development Fund and Restricted Cash

We have a system-wide Public Relations and Marketing Development Fund, to which Company-owned restaurants, in addition to the majority of franchise-operated restaurants, contribute a percentage of net sales, currently 0.75%, for use in public relations and marketing development efforts throughout the system. The assets held by this fund are considered restricted. Accordingly, we reflect the cash related to this fund in restricted cash and reflect the liability in accounts payable on our consolidated balance sheets as of September 29, 2013 and December 30, 2012. We had approximately \$723,000 and \$689,000, in this fund, as of September 29, 2013 and December 30, 2012, respectively.

(6) Credit Facility, Long-Term Debt and Debt Covenants

The Company and certain of its subsidiaries (collectively known as the Borrower) currently have a Credit Agreement with Wells Fargo Bank, National Association. The Credit Agreement will expire on July 5, 2016. It contains a \$30.0 million revolving credit facility (the Facility) with an opportunity to increase to \$50.0 million, a term loan (the Term Loan) and up to \$3.0 million of letters of credit, which reduce the availability of the Facility. At September 29, 2013, the principal amount outstanding under the Facility and the Term Loan was \$6.9 million and \$4.9 million, respectively, along with approximately \$620,000 in letters of credit for real estate locations. The Credit Agreement allows for the termination of the Facility by the Borrower without penalty at any time. We expect to use any borrowings under the Credit Agreement for general working capital purposes as needed. Under the Credit Agreement, the Borrower has granted the Lender a security interest in all current

and future personal property of the Borrower.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate or Base Rate plus an applicable margin. The applicable margin depends on the Company's Adjusted Leverage Ratio at the end of the previous quarter. For the nine months ended September 29, 2013 and September 30, 2012, our weighted average interest rate for the Facility was 3.22% and 2.79%, respectively. Unused portions of the Facility are subject to a fee, which was 0.375% of the unused amount at September 29, 2013. An option exercise fee would also apply to increased outstanding amounts between \$30.0 and \$50.0 million.

Principal amounts outstanding under the Term Loan bear interest at the same rate as the Facility. The weighted average interest rate of the Term Loan for the nine months ended September 29, 2013 and September 30, 2012 was 2.73% and 2.37%, respectively. The Company is required to make minimum annual amortization payments of 10.0% of the principal balance of the Term Loan.

The Facility contains various financial covenants as well as customary affirmative and negative covenants for credit facilities of this type. For more information regarding the details of the various financial covenants and customary affirmative and negative covenants, please read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 30, 2012. We were in compliance with all covenants as of September 29, 2013.

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For fiscal 2010, 2011 and 2012, performance under the Company's performance share programs was measured by comparing actual earnings per share to a target earnings per share amount. For fiscal 2013, the Compensation Committee of the Board of Directors has elected to replace earnings per share with Adjusted EBITDA as the metric by which to measure performance. For these purposes, Adjusted EBITDA is defined as income from operations of the Company, plus depreciation, and amortization, non-cash adjustments (such as asset impairment, lease termination and other closing costs) and other non-cash items as approved by the Company's Compensation Committee. Adjusted EBITDA is subject to adjustment by the Compensation Committee in its sole discretion for non-recurring items.

We recognize compensation cost for performance share awards over the requisite service period (i.e. fixed treatment) based on their fair value, which is the closing stock price at the date of grant. Participants in each performance share program are entitled to receive a number of shares of our common stock (Performance Shares) based upon the extent to which we achieve the cumulative total of the earnings per share or Adjusted EBITDA goals established by our Compensation Committee for each fiscal year within a three-year performance period (the Cumulative EPS Goal or Cumulative Adjusted EBITDA Goal). Receipt of any performance shares is contingent upon our achieving a specified minimum percentage of the Cumulative EPS Goal or Cumulative Adjusted EBITDA Goal (as applicable).

We recognize compensation cost for performance stock unit awards over the requisite service period based on their initial fair value, which is the closing stock price at the date of grant. This award is adjusted to fair value based on the closing stock price at the end of each fiscal quarter. Recipients of performance stock unit awards are entitled to receive a cash payout based on a number of our stock units awarded (Performance Stock Unit) to extent we achieve the Cumulative Adjusted EBITDA Goal, and the market value of our common stock.

(10) Retirement Savings Plans

401(k) Plan

We have a pre-tax salary reduction/profit-sharing plan under the provisions of Section 401(k) of the Internal Revenue Code, which covers employees meeting certain eligibility requirements. In fiscal 2013 and 2012, we matched 25.0% of the employee's contribution up to 4.0% of their earnings. Employee contributions were approximately \$144,000 and \$136,000 for the third quarter of fiscal years 2013 and 2012, respectively. The employer match was \$25,000 and \$24,000, respectively, for the third quarter of fiscal years 2013 and 2012. For the nine months ended September 29, 2013 and September 30, 2012, eligible participants contributed approximately \$426,000 and \$427,000, respectively, to the plan and the Company provided matching funds of approximately \$72,000 and \$70,000, respectively. There were no discretionary contributions to the plan during the first nine months of fiscal year 2013 and fiscal year 2012.

Non-Qualified Deferred Compensation Plan

We have a Non-Qualified Deferred Compensation Plan effective as of February 25, 2005 (the "Deferred Compensation Plan"). Eligible participants are those employees who are at the director level and above and who are selected by the Company to participate in the Deferred Compensation Plan. Participants must complete a deferral election each year to indicate the level of compensation (salary, bonus and commissions) they wish to have deferred for the coming year. This deferral election is irrevocable except to the extent permitted by the Deferred Compensation Plan Administrator, and the Regulations promulgated by the IRS. In fiscal 2013 and 2012, we matched 25% of the first 4.0% contributed and paid a declared interest rate of 6.0% on balances outstanding. The board of directors administers the Deferred Compensation Plan and may change the rate or any other aspects of the Deferred Compensation Plan at any time.

Deferral periods are limited to the earlier of termination of employment or not less than three calendar years following the end of the applicable plan year. Extensions of the deferral period for a minimum of five years are allowed provided an election for extension is made at least one year before the first payment affected by the change. Payments can be in a lump sum or in equal payments over a two-, five- or ten-year period, plus interest from the commencement date.

The Deferred Compensation Plan assets are kept in an unsecured account that has no trust fund. In the event of bankruptcy, participants entitled to future payments under the Deferred Compensation Plan would have no greater rights than that of an unsecured general creditor of the Company and the Deferred Compensation Plan confers no legal rights for interest or claim on any specific assets of the Company. Benefits provided by the Deferred Compensation Plan are not insured by the Pension Benefit Guaranty Corporation (PBGC) under Title IV of the Employee Retirement Income Security Act of 1974 (ERISA), because the pension insurance provisions of ERISA do not apply to the Deferred Compensation Plan.

For the quarter ended September 29, 2013 and September 30, 2012, eligible participants contributed approximately \$27,000 and \$36,000 to the Deferred Compensation Plan, respectively. The Company provided matching funds and interest of approximately \$19,000 and \$20,000 for the quarters ended September 29, 2013 and September 30, 2012, respectively. For the nine months ended September 29, 2013 and September 30, 2012, eligible participants contributed approximately \$100,000 and \$113,000, respectively, to the Deferred Compensation Plan and the Company provided matching funds and interest of approximately \$55,000 and \$57,000, respectively.

(11) Asset Impairment and Estimated Lease Termination and Other Closing Costs

In accordance with FASB Accounting Standards Codification for Property, Plant, and Equipment, we evaluate restaurant sites and long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of restaurant sites to be held and used is measured by a comparison of the carrying amount of the restaurant site to the undiscounted future net

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

cash flows expected to be generated on a restaurant-by-restaurant basis. If a restaurant is determined to be impaired, the loss is measured by the amount by which the carrying amount of the restaurant's assets exceeds its fair value. Fair value is estimated based on the best information available including estimated future cash flows, expected growth rates in comparable restaurant sales, remaining lease terms, discount rate and other factors. If these assumptions change in the future, we may be required to take additional impairment charges for the related assets. Considerable management judgment is necessary to estimate future cash flows. Accordingly, actual results could vary significantly from such estimates. Restaurant sites that are operating but have been previously impaired are reported at the lower of their carrying amount or fair value less estimated costs to sell. Following is a summary of these events for the three and nine months ended September 29, 2013 and September 30, 2012.

Asset Impairment and Estimated Lease Termination and Other Closing Costs (in thousands):

Restaurants	Reason	Three Months Ended September 29, 2013	Nine Months Ended September 29, 2013

Gaithersburg, MD	Costs for closed restaurants ⁽³⁾	33	23
Total for 2013		\$ 1,176	\$ 1,166

(1) Based on the Company's assessment of expected cash flows, an asset impairment charge was recorded for this restaurant. The remaining asset balance can be transferred to other restaurants.

(2) Lease costs associated with terminating, and then entering into a new lease for this restaurant.

(3) The Company incurred various costs for this restaurant, which closed at the end of its natural lease term.

Various	Costs for closed restaurants ⁽²⁾	13	211
Total for 2012		\$ 13	\$ 288

(1) The lease reserve equals the net present value of the remaining lease obligations for the Vernon Hills, IL restaurant, net of expected sublease income, which is equal to zero.

(2) The Company incurred various costs for the closure of the Vernon Hills, IL and Tulsa, OK restaurants.

(12) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement framework establishes a three-tier hierarchy. The three levels, in order of priority, are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Level 1 measurements are determined by observable inputs which include data sources and market prices available and visible outside of the entity.

- 15 -

Table of Contents

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Level 2: Observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly.

Level 3: Inputs that are used to estimate the fair value of the asset or liability. Level 3 measurements are determined by unobservable inputs, which include data and analyses developed within the entity to assess the fair value.

Transfers in and out of levels will be based on our judgment of the availability of unadjusted quoted prices in active markets, other observable inputs, and non-observable inputs.

The following table (in thousands) summarizes the performance stock units measured at fair value in our consolidated balance sheet as of September 29, 2013:

	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>

Performance Stock Units	\$ 72	\$	\$	\$ 72

The performance stock units are measured on a recurring basis and classified as other long-term liabilities on our balance sheet. There were no performance stock units as of December 30, 2012.

Reclassification of additional-paid-in-capital to payroll taxes payable for performance shares issued	\$ 641	\$ 1,189

⁽¹⁾ The decrease in cash paid for taxes was primarily due to the benefit realized in the third and fourth quarter of 2012 from the cumulative impact of tax credits for employee reported tips for fiscal 2012 as well as the four previous tax years that were amended resulting in an over payment that reduced the cash paid for taxes in fiscal 2013.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OVERVIEW

Famous Dave s of America, Inc. was incorporated as a Minnesota corporation in March 1994 and opened its first restaurant in Minneapolis in June 1995. As of September 29, 2013, there were 191 Famous Dave s restaurants operating in 34 states, the Commonwealth of Puerto Rico and 1 Canadian province, including 53 company-owned restaurants and 138 franchise-operated restaurants. An additional 63 franchise restaurants were in various stages of development as of September 29, 2013.

Fiscal Year

Our fiscal year ends on the Sunday closest to December 31st. Our fiscal year is generally 52 weeks; however, it periodically consists of 53 weeks. The fiscal years ending December 29, 2013 (fiscal 2013) and December 30, 2012 (fiscal 2012) are both 52 week fiscal years.

Revenue

Our revenue consists of restaurant sales, franchise-related revenue, and licensing and other revenue. Our franchise-related revenue is comprised of three separate and distinct earnings processes: area development fees, initial franchise fees, and continuing royalty payments. Currently, our domestic area development fee for domestic growth consists of a one-time, non-refundable payment of approximately \$10,000 per restaurant in consideration for the services we perform in preparation of executing each area development agreement. Substantially all of these services, which include, but are not limited to, conducting market and trade area analysis, a meeting with Famous Dave s Executive Team, and performing potential franchise background investigation, are completed prior to our execution of the area development agreement and receipt of the corresponding area development fee. As a result, we recognize this fee in full upon receipt. Currently, our initial, non-refundable, franchise fee for domestic growth is \$45,000 per restaurant, of which approximately \$5,000 is recognized immediately when a franchise agreement is signed, reflecting the commission earned and expenses incurred related to the sale. The remaining non-refundable fee is included in deferred franchise fees and is recognized as revenue when we have performed substantially all of our obligations, which generally occurs upon the franchise entering into a lease agreement for the restaurant(s). Finally, franchisees are also required to pay us a monthly royalty equal to a percentage of their net sales, which has historically varied from 4% to 5%. In general, new franchises pay us a monthly royalty of 5% of their net sales.

Costs and Expenses

Restaurant costs and expenses include food and beverage costs, labor and benefits costs, operating expenses which include occupancy costs, repair and maintenance costs, supplies, advertising and promotion, and restaurant depreciation and amortization. Certain of these costs and expenses are variable and will increase or decrease with sales volume. The primary fixed costs are corporate and restaurant management salaries and occupancy costs. Our experience is that when a new restaurant opens, it incurs higher than normal levels of labor and food costs until operations stabilize, usually during the first three to four months of operation. As restaurant management and staff gain experience following a restaurant s opening, labor scheduling, food cost management and operating expense control typically improve to levels similar to those at our more established restaurants.

General and Administrative Expenses

General and administrative expenses include all corporate and administrative functions that provide an infrastructure to support existing operations and support future growth. Salaries, bonuses, team member benefits, legal fees, accounting fees, consulting fees, travel, rent and general insurance are major items in this category.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**

Additionally, we record expense for Managers In Training (MIT s) in this category for approximately six weeks prior to a restaurant opening. We also provide franchise services for which the revenue is included in other revenue and the expenses are included in general and administrative expenses.

The following table presents items in our unaudited consolidated statements of operations as a percentage of net restaurant sales or total revenue, as indicated, for the following periods: ⁽⁶⁾

⁽²⁾ As a percentage of total revenue

⁽³⁾ In order to be consistent with what the Company believes to be a more prevalent practice among other public restaurant companies, the Company has decided to reflect multi-unit supervision expenses within general and administrative expenses, rather than as operating expenses, where they previously have been reflected. For the third quarter of fiscal 2012, this adjustment was approximately \$467,000. For the first nine months of fiscal 2012, this adjustment was approximately \$1,398,000.

⁽⁴⁾ Restaurant level margin is equal to taking restaurant sales, net less restaurant level costs and expenses. Restaurant level costs and expenses include food and beverage costs, labor and benefit costs, operating expenses, restaurant level depreciation and amortization, asset impairment and estimated lease termination and other closing costs, pre-opening expenses and net loss on disposal of equipment.

⁽⁵⁾ Restaurant level cash flow margins are equal to taking restaurant sales, net less restaurant level food and beverage costs, labor and benefit costs, and operating expenses.

⁽⁶⁾ Data regarding our restaurant operations as presented in the table, includes sales, costs and expenses associated with our Rib Team, which netted a loss of \$2,000 and \$40,000 for the three months ended September 29, 2013 and September 30, 2012, respectively. The Rib Team netted a loss of \$47,000 and \$64,000 for the nine months ended September 29, 2013 and September 30, 2012, respectively. Our Rib Team travels around the country introducing people to our brand of barbecue, building brand awareness.

Results of Operations Three and Nine months ended September 29, 2013 compared to Three and Nine months ended September 30, 2012.

Total Revenue

Total revenue of approximately \$39.2 million for the third quarter of fiscal 2013 decreased approximately \$700,000 or 1.8%, from \$39.9 million for the comparable quarter in fiscal 2012. For the nine months ended September 29, 2013, total revenue of approximately \$119.2 million increased approximately \$445,000 or 0.4% from revenue of approximately \$118.7 million, for the nine months ended September 30, 2012.

Restaurant Sales, net

Restaurant sales were approximately \$34.4 million for the third quarter of fiscal 2013 compared to approximately \$34.9 million for the same period in fiscal 2012, reflecting a 1.5% decrease. The decrease, year-over-year, reflected a comparable sales decrease of 0.8%, the closure of the Lombard, Illinois restaurant during the 4th quarter of 2012, which was at the end of its lease term, and the closure of the Gaithersburg, Maryland restaurant, which was relocated to Germantown, Maryland during the 3rd quarter of 2013. These decreases were partially offset by the annualized impact of a company-owned restaurant that opened in the fourth quarter of 2012 in Evergreen Park, Illinois, in addition to a weighted average price increase of approximately 3.0%. On a weighted basis, To Go sales increased by 2.4%, completely offset by 2.4% and 0.8% declines in dine-in and catering sales, respectively. Off-premise sales grew to 37.5%, of which To Go represented 25.0% and catering represented 12.5%. This compares to off premise sales of 35.2% for the prior year. As a percentage of dine-in sales, our adult beverage sales for our company-owned restaurants were 9.3% and 9.1% for the third quarter of fiscal 2013 and 2012, respectively.

Restaurant sales for the nine months ended September 29, 2013 were approximately \$105.0 million compared to approximately \$103.9 million for the nine months ended September 30, 2012, reflecting a 1.0% increase. As a percentage of dine-in sales, our adult beverage sales at our company-owned restaurants were 9.3% for the nine months of fiscal 2013 and 2012, respectively.

Franchise-Related Revenue

Franchise-related revenue consists of royalty revenue and franchise fees, which include initial franchise fees and area development fees. Franchise-related revenue was approximately \$4.5 million for the third quarter of fiscal 2013, compared to \$4.6 million for the third quarter of fiscal 2012. There were 138 and 134 franchise-operated restaurants open at September 29, 2013 and September 30, 2012, respectively. The year over year decrease is primarily related to a decrease in franchise fees and a comparable sales decline of 2.3% in franchise royalties partially offset by four net new franchise restaurants that opened since the end of the third quarter of 2012.

Franchise-related revenue was approximately \$13.3 million for the nine months ended September 29, 2013 compared to approximately \$13.9 million for the nine months ended September 30, 2012, primarily reflecting a year-over-year decrease in royalty revenue of 2.2% for the nine month timeframe as a result of a year over year decrease in comparable sales of 3.4%.

Licensing and Other Revenue

Licensing revenue includes royalties from a retail line of business, including sauces, rubs, marinades and seasonings. Other revenue includes opening assistance and training we provide to our franchise partners. For the third quarter of fiscal 2013, the licensing royalty revenue was approximately \$194,000 compared to approximately \$201,000 for the comparable period of fiscal 2012. Licensing royalty revenue was approximately \$647,000 for the nine months ended September 29, 2013 as compared to \$600,000 for the comparable period of fiscal 2012.

Other revenue for the fiscal 2013 third quarter was approximately \$115,000 compared to \$177,000 for the comparable prior year quarter. Other revenue for the nine months ended September 29, 2013 was approximately \$237,000 compared to approximately \$300,000 for the comparable period of fiscal 2012.

Food and Beverage Costs

Food and beverage costs for the third quarter of fiscal 2013 were approximately \$10.5 million or 30.6% of net restaurant sales, compared to approximately \$11.0 million or 31.5% of net restaurant sales for the third quarter of fiscal 2012. Food and beverage costs for the first nine months of fiscal 2013 were approximately \$32.0 million or 30.5% of net restaurant sales compared to approximately \$32.4 million or 31.2% of net restaurant sales for the comparable period of fiscal 2012.

Food and beverage costs benefited from the favorable impact of strategic initiatives we had been working towards as well as the decline in contracted food costs. We are benefiting from a decrease on our pork and brisket pricing, both of which are contracted through the remainder of fiscal 2013, as well as other items such as hamburger, seafood, and corn. Our chicken contract is locked in through the end of the year at a slight increase year over year. We will continue our efforts to further improve margin through key core-item promotions, opportunistic commodity purchases and strategic menu mix management. During the third quarter, we executed a contract for a majority of our pork for all of fiscal 2014 at an approximate savings of 4.0% year over year. Additionally, our margin should benefit from a price increase of 1.6% that we took along with our new menu in September. This increase was based on the insights we obtained from our menu pricing consultant. Based on our results over the first nine months, which included a significant mix shift to brisket as a result of the launch of our new burnt ends product, we are moderating our previous guidance for food and beverage costs for fiscal 2013, to be approximately 75 to 85 basis points lower than fiscal 2012's percentage.

Labor and Benefits Costs

Labor and benefits costs for the third quarter ended September 29, 2013 were approximately \$11.0 million or 31.9% of net restaurant sales, compared to approximately \$11.5 million or 32.8% of net restaurant sales for the three months ended September 30, 2012. This decrease was primarily due to lower direct labor and employee benefit costs partially offset by sales deleverage. Labor and benefits for the nine months ended September 29, 2013 were approximately \$33.4 million or 31.8% of net restaurant sales, compared to approximately \$33.7 million or 32.4% of net restaurant sales for the nine months ended September 30, 2012. For the full year, we now anticipate labor and benefits costs, as a percentage of sales, to be 65 to 75 basis points favorable to fiscal 2012's percentage.

Operating Expenses

Operating expenses for the third quarter of fiscal 2013 were approximately \$8.7 million or 25.2% of net restaurant sales, compared to operating expenses of approximately \$10.3 million or 29.6% of net restaurant sales for the third quarter of fiscal 2012. This decrease in operating expenses, as a percentage of net sales, was predominantly due to savings of approximately \$1.2 million in advertising after management determined that a direct mail program similar to the prior year was not a productive use of media spend. Additionally, 2013's third quarter operating expenses were positively impacted by lower supply and repair and maintenance costs. Operating expenses for the nine months ended September 29, 2013 were approximately \$26.8 million or 25.5% of net restaurant sales, compared to approximately \$28.2 million or 27.2% of net restaurant sales for the nine months ended September 30, 2012.

We have been testing new media strategies and consequently, have redeployed our marketing spend more effectively. For 2013, we expect advertising expense to now be approximately 2.4% of net sales for all of fiscal 2013, including a 0.75% contribution to the Marketing Fund. This compares to a 2012 spend of 3.4% of net sales, which included a 1.0% contribution to the Marketing Fund. As a result of our nine month results and the anticipated decline in advertising spend, we are updating our previous guidance and now anticipate operating expenses as a percentage of net sales for fiscal 2013 to be approximately 145 - 155 basis points lower than 2012's percentage.

Depreciation and Amortization

Depreciation and amortization expense for the third quarter of 2013 was approximately \$1.5 million or 3.8% of total revenue, essentially flat to the third quarter of fiscal 2012. Depreciation and amortization expense for the nine months ended September 29, 2013 and September 30, 2012 was approximately \$4.6 million and \$4.4 million, respectively, and was 3.8% and 3.7%, respectively, of total revenue.

Pre-opening Expenses

Pre-opening expenses consist of labor, food, utilities, training and rent costs incurred prior to the opening of a restaurant. Included in pre-opening costs is pre-opening rent for approximately 16 weeks prior to opening but this will vary based on lease terms. During the third quarter of 2013, we incurred approximately \$293,000 of pre-opening expenses which included pre-opening rent. During the third quarter of 2012, we incurred approximately \$19,000 of pre-opening expenses, which included pre-opening rent. During the nine months ended September 29, 2013 and September 30, 2012, we incurred pre-opening expenses of \$369,000 and \$317,000, respectively. We now anticipate pre-opening costs for 2013 to be approximately \$569,000 for the opening of two ground-up full-service company-owned restaurants; one which opened in the third quarter of 2013 and one which will open in the fourth quarter of 2014.

Asset Impairment and Estimated Lease Termination and Other Closing Costs

In accordance with FASB Accounting Standards Codification for Property, Plant, and Equipment, we evaluate restaurant sites and long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of restaurant sites to be held and used is measured by a comparison of the carrying amount of the restaurant site to the undiscounted future net cash flows expected to be generated on a restaurant-by-restaurant basis. If a restaurant is determined to be impaired, the loss is measured by the amount by which the carrying amount of the restaurant's assets exceeds its fair value. Fair value is estimated based on the best information available including estimated future cash flows,

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES**

expected growth rates in comparable restaurant sales, remaining lease terms, discount rate and other factors. If these assumptions change in the future, we may be required to take additional impairment charges for the related assets. Considerable management judgment is necessary to estimate future cash flows. Accordingly, actual results could vary significantly from such estimates. Restaurant sites that are operating but have been previously impaired are reported at the lower of their carrying amount or fair value less estimated costs to sell. The following is a summary of these events during the three and nine months ended September 29, 2013 and September 30, 2012.

Asset Impairment and Estimated Lease Termination and Other Closing Costs (in thousands):

Restaurants	Reason	Three Months Ended September 29, 2013	Nine Months Ended September 29, 2013
Salisbury, MD	Asset impairment ⁽¹⁾	\$ 943	\$ 943
Oakton, VA	Lease termination fee ⁽²⁾	200	200
Gaithersburg, MD	Costs for closed restaurants ⁽³⁾	33	23
Total for 2013		\$ 1,176	\$ 1,166

(1) Based on the Company's assessment of expected cash flows, an asset impairment charge was recorded for this restaurant. The remaining asset balance can be transferred to other restaurants.

(2) Lease costs associated with terminating, and then entering into a new lease for this restaurant.

(3) The Company incurred various costs for this restaurant which closed at the end of its natural lease term.

Asset Impairment and Estimated Lease Termination and Other Closing Costs (in thousands):

Restaurants	Reason	Three Months Ended September 30, 2012	Nine Months Ended September 30, 2012
Vernon Hills, IL	Lease reserve ⁽¹⁾	\$ 77	\$ 77
Various	Costs for closed restaurants ⁽²⁾	13	211
Total for 2012		\$ 13	\$ 288

(1) The lease reserve equals the net present value of the remaining lease obligations for the Vernon Hills, IL restaurant, net of expected sublease income, which is equal to zero.

(2) The Company incurred various costs for the closure of the Vernon Hills, IL and Tulsa, OK restaurants.

General and Administrative Expenses

General and administrative expenses for the third quarter of 2013 were approximately \$4.9 million or 12.5% of total revenue, compared to approximately \$4.8 million or 12.1% of total revenue for the third quarter of fiscal 2012. This increase reflects the year over year impact of 2013's bonus accrual, equal to approximately \$435,000, or 110 basis points, partially offset by the reduction in force and other cost savings initiatives. General and administrative expense for both periods reflects the reclassification of multi-unit supervision expenses from operating expenses to general and administrative expenses. Supervision expense for fiscal 2012's third quarter, now included in general and administrative expenses, was approximately \$467,000.

Edgar Filing: FAMOUS DAVES OF AMERICA INC - Form 10-Q

General and administrative expenses for the first nine months of fiscal 2013, were approximately \$16.0 million or 13.5% of total revenue, compared to approximately \$13.9 million or 11.7% of total revenue for the first

nine months of fiscal 2012. This increase reflects the year over year impact of 2013's bonus accrual, equal to approximately \$1.4 million. General and administrative expense for both periods reflects the reclassification of multi-unit supervision expenses from operating expenses to general and administrative expenses. Supervision expense for the first nine months of fiscal 2012, now included in general and administrative expenses, was approximately \$1.4 million.

We are expecting stock-based and board of director cash compensation to be approximately \$2.1 million in fiscal 2013, as follows (in thousands):

Performance Shares and Performance Stock Units	Restricted Stock and Restricted Stock Units	Board of Directors Stock and Cash Compensation	Total
\$ 1,153	\$ 405	\$ 549	\$ 2,107

As an update to our previous guidance, we now anticipate general and administrative expenses, as a percentage of revenue, to be approximately 110 to 120 basis points unfavorable to the prior year primarily due to the full year impact of the bonus accrual partially offset by the impact from a reduction in force and corporate restructuring, along with other cost savings initiatives.

Interest Expense

Interest expense was approximately \$233,000 or 0.6% of total revenue for the third quarter of fiscal 2013, compared to approximately \$282,000 or 0.7% of total revenue for the comparable time frame of fiscal 2012. This decrease reflects lower average balances on our revolving line of credit. This category includes interest expense for our term loan, financing lease obligations, our line of credit, and interest for deferrals made under our non-qualified deferred compensation plan.

Interest expense was approximately \$771,000 or 0.6% of total revenue for the first nine months of fiscal 2013 and approximately \$793,000 or 0.7% of total revenue for the first nine months of fiscal 2012. For full fiscal 2013, we expect interest expense to be lower both in dollars and as a percentage of revenue compared to fiscal 2012 as a result of lower average balances on our revolving line of credit.

Interest Income

Interest income was approximately \$1,000 and \$2,000 for the third quarter of fiscal 2013 and fiscal 2012, respectively. Interest income was approximately \$6,000 and \$5,000 for the first nine months of fiscal 2013 and fiscal 2012, respectively. Interest income reflects interest received on short-term cash and cash equivalent balances.

Provision for Income Taxes

For the third quarter of 2013, we recorded an estimated tax provision of approximately \$228,000 or 23.6% of income before income taxes, and for the nine months ended September 29, 2013, our tax provision was approximately \$1.1 million, or 28.1% of income before income taxes. This compares to an estimated tax benefit of approximately \$399,000 or 89.5% of income before income taxes, for the third quarter of 2012, and an estimated tax expense of approximately \$1.0 million, or 22.1% of income before income taxes, for the nine months ended September 30, 2012. The difference year over year primarily reflects the adoption of a more precise calculation methodology for employee related tax credits in 2012 and the impact of amending prior year tax returns. For fiscal 2013, we estimate an effective tax rate of approximately 28.1%, reflecting the results of the first nine months of 2013.

Basic and Diluted Net Income Per Common Share

Net income for the three months ended September 29, 2013 was approximately \$737,000, or \$0.10 per basic and diluted share, respectively, on approximately 7,450,000 weighted average basic shares outstanding and 7,721,000 weighted average diluted shares outstanding, respectively. Net income for the three months ended September 30, 2012 was approximately \$845,000, or \$0.12 per basic share and \$0.11 per diluted share on approximately 7,327,000 weighted average basic shares outstanding and 7,478,000 weighted average diluted shares outstanding, respectively.

Net income for the nine months ended September 29, 2013 was approximately \$2.9 million, or \$0.39 per basic share and \$0.38 per diluted share, respectively, on approximately 7,419,000 weighted average basic shares outstanding and approximately 7,695,000 weighted average diluted shares outstanding, respectively. Net income for the nine months ended September 30, 2012 was approximately \$3.6 million, or \$0.48 per basic share and \$0.47 per diluted share, respectively, on approximately 7,494,000 weighted average basic shares outstanding and approximately 7,659,000 weighted average diluted shares outstanding, respectively.

Financial Condition, Liquidity and Capital Resources

Our balance of unrestricted cash and cash equivalents was approximately \$1.8 million at September 29, 2013 and approximately \$2.1 million at December 30, 2012.

Our current ratio, which measures our immediate short-term liquidity, was 0.84 at September 29, 2013 and 1.02 at December 30, 2012. The current ratio is computed by dividing total current assets by total current liabilities. The change in our ratio was primarily due to increases in accounts payable as a result of strategic decisions to make minor adjustments to vendor terms to allow the company to reduce its debt levels, as well as, increased accrued compensation and benefits as a result of bonus accruals. As is true with most restaurant companies, we often operate in a negative working capital environment due to the fact that we receive cash up front from customers and then pay our vendors on a delayed basis.

Net cash provided by operating activities through the third quarter of 2013 was approximately \$11.8 million and reflects net income of approximately \$2.9 million, depreciation and amortization of approximately \$4.6 million, asset impairment and estimated lease termination and other closing costs of approximately \$1.2 million, stock-based compensation of approximately \$1.2 million and increases in accounts payable of approximately \$1.5 million as well as deferred rent of approximately \$733,000.

Net cash provided by operating activities for the nine months ended September 30, 2012 was approximately \$6.0 million. Cash provided by operating activities was primarily from net income of approximately \$3.6 million, depreciation and amortization of approximately \$4.4 million, a tax benefit for equity awards issued of approximately \$961,000, increases in accounts payable of approximately \$1.8 million, stock-based compensation of approximately \$1.1 million and deferred rent of approximately \$695,000. These net increases were partially offset by a decrease in accrued compensation and benefits of \$3.4 million as well as an increase in prepaid expense and other current assets of approximately \$1.3 million.

Net cash used for investing activities was approximately \$3.9 million for the first nine months of fiscal 2013. Net cash used for investing activities was approximately \$3.1 million for the comparable period in fiscal 2012. During the first nine months of 2013, we used approximately \$3.6 million on capital expenditures for our existing restaurants and for other infrastructure projects. During the first nine months of 2012, we used approximately \$4.3 million for capital expenditures for our existing restaurants and for other infrastructure projects. On March 2, 2012, the Company sold the restaurant assets of its Tulsa, Oklahoma restaurant for approximately \$1.2 million.

Table of Contents

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

We are updating our previous guidance and now expect total 2013 capital expenditures to be approximately \$6.8 million, reflecting two new ground-up, full-service restaurant openings, continued investments in our existing restaurants, and investments in corporate infrastructure systems.

Net cash used for financing activities was approximately \$8.2 million in the first nine months of fiscal 2013. Net cash used for financing activities was approximately \$2.1 million for the comparable period in fiscal 2012. During the first nine months of 2013, we had draws of \$13.9 million on our line of credit and had made repayments of \$20.6 million. During the first nine months of fiscal 2013, we used approximately \$1.2 million to repurchase 74,842 shares at an average price of \$16.13, excluding commissions, under the May 2012 share repurchase programs. During the nine months ended September 30, 2012, we had draws of \$23.7 million on our line of credit and had made repayments of \$20.3 million. During the first nine months of fiscal 2012, we used approximately \$5.9 million to repurchase 539,596 shares at an average price of \$10.68, excluding commissions, under the May 2012 and November 2010 share repurchase programs.

The Company and certain of its subsidiaries (collectively known as the Borrower) currently have a Credit Agreement with Wells Fargo Bank, National Association. The Credit Agreement will expire on July 5, 2016. It contains a \$30.0 million revolving credit facility (the Facility) with an opportunity to increase to \$50.0 million, a term loan (the Term Loan) and up to \$3.0 million of letters of credit which reduce the availability of the Facility. At September 29, 2013, the principal amount outstanding under the Facility and the Term Loan was \$6.9 million and \$4.9 million, respectively, along with approximately \$620,000 in letters of credit for real estate locations. The Credit Agreement allows for the termination of the Facility by the Borrower without penalty at any time. We expect to use any borrowings under the Credit Agreement for general working capital purposes as needed. Under the Credit Agreement, the Borrower has granted the Lender a security interest in all current and future personal property of the Borrower.

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate or Base Rate plus an applicable margin. The applicable margin depends on the Company's Adjusted Leverage Ratio at the end of the previous quarter. For the nine months ended September 29, 2013 and September 30, 2012, our weighted average interest rate for the Facility was 3.22% and 2.79%, respectively. Unused portions of the Facility are subject to a fee, which was 0.375% of the unused amount at September 29, 2013. An option exercise fee would also apply to increased outstanding amounts between \$30.0 and \$50.0 million.

Principal amounts outstanding under the Term Loan bear interest at the same rate as the Facility. The weighted average interest rate of the Term Loan for the nine months ended September 29, 2013 and September 30, 2012 was 2.73% and 2.37%, respectively. The Company is required to make minimum annual amortization payments of 10.0% of the principal balance of the Term Loan.

The Facility contains various financial covenants as well as customary affirmative and negative covenants for credit facilities of this type. For more information regarding the details of the various financial covenants and customary affirmative and negative covenants, please read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 30, 2012. We were in compliance with all covenants as of September 29, 2013.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our Company s financial instruments include cash and cash equivalents and long-term debt. Our Company includes as unrestricted cash and cash equivalents investments with original maturities of three months or less when purchased and which are readily convertible into known amounts of cash. Our Company s unrestricted cash and cash equivalents are not subject to significant interest rate risk due to the short maturities of these instruments. We have no derivative financial instruments. Our total outstanding long-term debt as of September 29, 2013 was approximately \$15.6 million, including our line of credit, our term loan with Wells Fargo Bank, National Association, and financing lease obligations. The terms of our credit facility with Wells Fargo Bank, National Association, as administrative agent and lender are discussed above under

Management s Discussion and Analysis of Financial Condition and Results of Operations Financial Condition, Liquidity and Capital Resources.

Some of the food products purchased by us are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside our control. To control this risk in part, we have fixed-priced purchase commitments for food from vendors. In addition, we believe that substantially all of our food is available from several sources, which helps to control food commodity risks. We have secondary source suppliers for certain items and in 2013 we have continued to make this a key area of focus in order to protect the supply chain and to ensure a more fair and competitive pricing environment. We believe we have the ability to increase menu prices, or vary the menu options offered, if needed, in response to a food product price increase.

Item 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There has been no change in our internal control over financial reporting during the quarterly period coverage by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
