This Amendment No. 5 (this Amendment) amends and supplements the Tender Offer Statement on Schedule TO filed by Harland Clarke Holdings Corp., a Delaware corporation (Parent), and V Acquisition Sub, Inc. (Purchaser), a Delaware corporation and a wholly owned subsidiary of Parent, with the Securities and Exchange Commission on January 6, 2014 (together with any subsequent amendments and supplements thereto, the Schedule TO). The Schedule TO relates to the offer by Purchaser to purchase all of the outstanding shares of common stock, par value \$0.01 per share (Shares), of Valassis Communications, Inc., a Delaware corporation, at a price of \$34.04 per Share, net to the seller in cash, without interest thereon and less any applicable withholding taxes, upon the terms and conditions set forth in the offer to purchase dated January 6, 2014 (the Offer to Purchase), a copy of which is attached as Exhibit (a)(1)(A), and in the related letter of transmittal (the Letter of Transmittal), a copy of which is attached as Exhibit (a)(1)(B), which, as each may be amended or supplemented from time to time, collectively constitute the Offer.

This Amendment is being filed to amend and supplement the Offer to Purchase. All information set forth in the Offer to Purchase, as amended and supplemented by this Amendment, and the accompanying Letter of Transmittal, including all schedules thereto, is hereby incorporated by reference herein in response to Items 1 through 9 and Item 11 in the Schedule TO.

Amendments to the Offer to Purchase

The second paragraph included under the caption debt financing within Section 9 Source and Amount of Funds of the Offer to Purchase is hereby amended, restated and supplemented as follows:

Pursuant to the Commitment Letter, the Debt Financing Sources have committed to provide or arrange, subject to the terms and conditions of the Commitment Letter, new funded indebtedness of \$1.365 billion in aggregate principal amount, of which \$775 million would be secured, as well as new secured revolving credit commitments of \$70 million. Assuming that Parent successfully obtains certain amendments to its existing revolving credit facility and existing term loan facility, it would obtain \$70 million of incremental commitments to Parent's existing revolving credit facility, \$500 million of incremental secured term loans under Parent's existing term loan facility, and \$275 million of new secured notes and/or secured bridge loans with interest rates which Parent expects to be no higher than its existing secured notes. In the event that such amendments could not be obtained, the Commitment Letter provides that the Debt Financing Sources would make a new revolving credit facility available to Parent in the amount of \$150 million to replace the existing revolving credit facility in the amount of \$80 million, and that Parent would obtain \$250 million of incremental term loans under Parent's existing term loan facility, and \$525 million of new secured notes and/or secured bridge loans. The revolving credit facility will be secured on a first lien basis by certain assets including inventory and receivables of, and on a second lien basis by substantially all other assets of, Parent and the applicable guarantors. The incremental term loans and secured notes will be secured on a first lien basis by all assets of Parent and the applicable guarantors, other than those assets which secure the revolving credit facility on a first lien basis, as to which the incremental term loans and secured notes will be secured on a second lien basis. Regardless of whether such amendments are obtained, the new unsecured indebtedness would be in the form of new unsecured notes and/or unsecured bridge loans.

Parent expects the incremental secured term loans, the new revolving credit facility or incremental revolving loans (as applicable), and the new unsecured notes and/or unsecured bridge loans to have interest rates comparable to Parent's existing term loans, existing revolving credit facility, and existing unsecured notes, respectively. Parent's existing term loans bear interest at Parent's option at either (i) LIBOR, divided by a percentage equal to 1 minus the stated maximum rate of all reserves required to be maintained against Eurocurrency liabilities as specified in Regulation D (with a 1.50% floor for such adjusted LIBOR rate for certain term loans), plus 5.25-5.50% (depending on the class of term loans), or (ii) the alternate base rate (as defined in the existing term loan credit agreement and with a 2.50% floor for certain term loans) plus 4.25-4.50% (depending on the class of term loans). Under the existing term loan credit agreement, the alternate base rate means a rate per annum equal to the greatest of (1) the prime rate in effect on such day and (2) the federal funds effective rate in effect on such day plus 0.50%. Loans under Parent's existing revolving

credit facility bear interest at Parent's option at either (i) LIBOR, divided by a percentage equal to 1 minus the stated maximum rate of all reserves required to be maintained against Eurocurrency liabilities as specified in Regulation D, plus 1.75-2.25% (depending on the average excess availability for the prior fiscal quarter), or (ii) the alternate base rate (as defined in the existing revolving credit agreement) plus 0.75-1.25% (depending on the average excess availability for the prior fiscal quarter). Under the existing revolving credit agreement, the alternate base rate means, for any day, a rate per annum equal to the greatest of (1) the prime rate in effect on such day, (2) the federal funds effective rate in effect on such day plus 0.50%, and (3) the adjusted LIBOR on such day for a deposit in dollars with a maturity of one month plus 1.00%. Parent's existing fixed-rate unsecured notes bear interest at 9.50%, Parent's existing floating-rate unsecured notes bear interest at LIBOR (with a 1.25% floor) plus 4.75% and Parent's existing secured notes bear interest at 9.75%.
