NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

(dollars in thousands, except for per share data, unless otherwise noted)

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

Lazard Ltd, a Bermuda holding company, and its subsidiaries (collectively referred to as "Lazard Ltd", "Lazard", "we" or the "Company"), including Lazard Ltd's indirect investment in Lazard Group LLC, a Delaware limited liability company (collectively referred to, together with its subsidiaries, as "Lazard Group"), is one of the world's preeminent financial advisory and asset management firms and has long specialized in crafting solutions to the complex financial and strategic challenges of our clients. We serve a diverse set of clients around the world, including corporations, governments, institutions, partnerships and individuals.

Lazard Ltd indirectly held approximately 99.5% of all outstanding Lazard Group common membership interests as of March 31, 2014 and December 31, 2013. Lazard Ltd, through its control of the managing members of Lazard Group, controls Lazard Group, which is governed by an Operating Agreement dated as of May 10, 2005, as amended (the "Operating Agreement"). LAZ-MD Holdings LLC ("LAZ-MD Holdings"), an entity owned by Lazard Group's current and former managing directors, held approximately 0.5% of the outstanding Lazard Group common membership interests as of March 31, 2014 and December 31, 2013. Additionally, LAZ-MD Holdings was the sole owner of the one issued and outstanding share of Lazard Ltd's Class B common stock (the "Class B common stock") which provided LAZ-MD Holdings with approximately 0.6% of the voting power but no economic rights in the Company as of March 31, 2014 and December 31, 2013. Subject to certain limitations, LAZ-MD Holdings' interests in Lazard Group are exchangeable for Lazard Ltd Class A common stock, par value \$0.01 per share ("Class A common stock").

Our sole operating asset is our indirect ownership of common membership interests of Lazard Group and our managing member interest of Lazard Group, whose principal operating activities are included in two business segments:

Financial Advisory, which offers corporate, partnership, institutional, government, sovereign and individual clients across the globe a wide array of financial advisory services regarding mergers and acquisitions ("M&A") and other strategic matters, restructurings, capital structure, capital raising and various other financial matters, and

Asset Management, which offers a broad range of global investment solutions and investment management services in equity and fixed income strategies, alternative investments and private equity funds to corporations, public funds, sovereign entities, endowments and foundations, labor funds, financial intermediaries and private clients.

In addition, we record selected other activities in our Corporate segment, including management of cash, investments and outstanding indebtedness, as well as certain commercial banking activities of Lazard Group's Paris-based subsidiary Lazard Frères Banque SA ("LFB").

LFB is a registered bank regulated by the Autorité de Contrôle Prudentiel et de Résolution ("ACPR"). It is engaged primarily in commercial and private banking services for clients and funds managed by Lazard Frères Gestion SAS ("LFG") and other clients, investment banking activities, including participation in underwritten offerings of securities in France, and asset-liability management.

LAZARD LTD

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(UNAUDITED)

(dollars in thousands, except for per share data, unless otherwise noted)

Basis of Presentation

The accompanying condensed consolidated financial statements of Lazard Ltd have been prepared pursuant to the rules and regulations of the United States Securities and Exchange Commission (the "SEC") regarding interim financial reporting. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America ("U.S. GAAP") for complete financial statements and should be read in conjunction with the audited consolidated financial statements and notes thereto included in Lazard Ltd's Annual Report on Form 10-K for the year ended December 31, 2013 (the "Form 10-K"). The accompanying December 31, 2013 unaudited condensed consolidated statement of financial condition data was derived from audited consolidated financial statements, but does not include all disclosures required by U.S. GAAP for annual financial statement purposes. The accompanying condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods presented.

Preparing financial statements requires management to make estimates and assumptions that affect the amounts that are reported in the financial statements and the accompanying disclosures. Discretionary compensation and benefits expense for interim periods is accrued based on the year-to-date amount of revenue earned, and an assumed annual ratio of compensation and benefits expense to revenue, with the applicable amounts adjusted for certain items. Although these estimates are based on management's knowledge of current events and actions that Lazard may undertake in the future, actual results may differ materially from the estimates.

The consolidated results of operations for the three month period ended March 31, 2014 are not necessarily indicative of the results to be expected for any future interim or annual period.

The condensed consolidated financial statements include Lazard Ltd, Lazard Group and Lazard Group's principal operating subsidiaries: Lazard Frères & Co. LLC ("LFNY"), a New York limited liability company, along with its subsidiaries, including Lazard Asset Management LLC and its subsidiaries (collectively referred to as "LAM"); the French limited liability companies Compagnie Financière Lazard Frères SAS ("CFLF") along with its subsidiaries, LFB and LFG, and Maison Lazard SAS and its subsidiaries; and Lazard & Co., Limited ("LCL"), through Lazard & Co., Holdings Limited ("LCH"), an English private limited company, together with their jointly owned affiliates and subsidiaries.

The Company's policy is to consolidate (i) entities in which it has a controlling financial interest, (ii) variable interest entities ("VIEs") where the Company has a variable interest and is deemed to be the primary beneficiary and (iii) limited partnerships where the Company is the general partner, unless the presumption of control is overcome. When the Company does not have a controlling interest in an entity, but exerts significant influence over such entity's operating and financial decisions, the Company applies the equity method of accounting in which it records in earnings its share of earnings or losses of the entity. Intercompany transactions and balances have been eliminated.

Table of Contents**LAZARD LTD****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(UNAUDITED)****(dollars in thousands, except for per share data, unless otherwise noted)****2. RECENT ACCOUNTING DEVELOPMENTS**

Presentation of Unrecognized Tax Benefits In July 2013, the Financial Accounting Standards Board (the "FASB") issued guidance on the presentation of unrecognized tax benefits when net operating losses or tax credit carryforwards exist. The guidance requires that the unrecognized tax benefit, or a portion of such unrecognized tax benefit, be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except in certain situations, as defined in the guidance. The new presentation requirements are effective prospectively for interim and annual reporting periods beginning after December 15, 2013, with early adoption permitted. The Company elected to adopt this guidance in the fourth quarter of 2013, the impact of which did not have a material impact on the Company's consolidated financial statements.

3. RECEIVABLES

The Company's receivables represent receivables from fees, customers and other and related parties.

Receivables are stated net of an estimated allowance for doubtful accounts, for past due amounts and for specific accounts deemed uncollectible, which may include situations where a fee is in dispute. Activity in the allowance for doubtful accounts for the three month periods ended March 31, 2014 and 2013 was as follows:

	Three Months Ended March 31,

Charge-offs, foreign currency translation and other adjustments	(6,589)	(360)
Balance, March 31	\$ 31,324	\$ 22,805

At March 31, 2014 and December 31, 2013, the Company had receivables past due or deemed uncollectible of \$35,566 and \$39,341, respectively.

Of the Company's fee receivables at March 31, 2014 and December 31, 2013, \$65,241 and \$69,464, respectively, represented interest-bearing financing receivables. Based upon our historical loss experience, the credit quality of the counterparties, and the lack of past due or uncollectible amounts, there was no allowance for doubtful accounts required at those dates related to such receivables.

The aggregate carrying amount of our non-interest bearing receivables of \$457,841 and \$443,211 at March 31, 2014 and December 31, 2013, respectively, approximates fair value.

(a) Interests in alternative investment funds, debt funds and equity funds include investments with fair values of \$8,626, \$25,520 and \$95,933, respectively, at March 31, 2014 and \$7,099, \$31,515 and \$130,481, respectively, at December 31, 2013, held in order to satisfy the Company's liability upon vesting of previously granted Lazard Fund Interests (Lazard Fund Interests) and other similar deferred compensation arrangements. Lazard Fund Interests represent grants by the Company to eligible employees of actual or notional interests in a number of Lazard-managed funds (see Notes 6 and 12 of Notes to Condensed Consolidated Financial Statements).

Debt securities primarily consist of seed investments invested in debt securities held within separately managed accounts related to our Asset Management business and non-U.S. government debt securities.

Equities primarily consist of seed investments invested in marketable equity securities of large-, mid- and small-cap domestic, international and global companies held within separately managed accounts related to our Asset Management business.

Alternative investment funds primarily consist of interests in various Lazard-managed hedge funds and funds of funds.

Edgar Filing: Lazard Ltd - Form 10-Q

Debt funds primarily consist of seed investments in funds related to our Asset Management business that invest in debt securities, and amounts related to Lazard Fund Interests discussed above.

Equity funds primarily consist of seed investments in funds related to our Asset Management business that invest in equity securities, and amounts related to Lazard Fund Interests discussed above.

Table of Contents**LAZARD LTD****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(UNAUDITED)****(dollars in thousands, except for per share data, unless otherwise noted)**

Private equity investments include those owned by Lazard and those consolidated but not owned by Lazard. Private equity investments owned by Lazard are primarily comprised of investments in private equity funds. Such investments primarily include (i) a mezzanine fund, which invests in mezzanine debt of a diversified selection of small- to mid-cap European companies, (ii) Corporate Partners II Limited (CP II), a fund targeting significant noncontrolling-stake investments in established private companies, (iii) Edgewater Growth Capital Partners III, L.P. (EGCP III), a fund primarily making equity and buyout investments in middle market companies and (iv) Lazard Australia Corporate Opportunities Fund (COF2), a Lazard-managed Australian fund targeting Australian mid-market investments.

Private equity investments consolidated but not owned by Lazard relate to the economic interests that are owned by the management team and other investors in the Edgewater Funds (Edgewater) which totaled \$9,286 and \$9,787 at March 31, 2014 and December 31, 2013, respectively (see Note 10 of Notes to Condensed Consolidated Financial Statements).

During the three month periods ended March 31, 2014 and 2013, the Company reported in revenue-other on its condensed consolidated statements of operations gross unrealized investment gains and losses pertaining to trading securities as follows:

	Three Months Ended March 31,	
	2014	2013
Gross unrealized investment gains	\$ 3,084	\$ 8,395
Gross unrealized investment losses	\$ 2,593	\$ 1,636

5. FAIR VALUE MEASUREMENTS

Lazard categorizes its investments and certain other assets and liabilities recorded at fair value into a three-level fair value hierarchy as follows:

- Level 1.* Assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that Lazard has the ability to access.
- Level 2.* Assets and liabilities whose values are based on (i) quoted prices for similar assets or liabilities in an active market, or quoted prices for identical or similar assets or liabilities in non-active markets, (ii) assets valued based on net asset value (NAV) or its equivalent redeemable at the measurement date or within the near term without redemption restrictions, or (iii) inputs other than quoted prices that are directly observable or derived principally from, or corroborated by, market data.
- Level 3.* Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect our own assumptions about the assumptions a market participant would use in pricing the asset or liability. Items included in Level 3 include securities or other financial assets whose trading volume and level of activity have significantly decreased when compared with normal market activity and there is no longer sufficient frequency or volume to provide pricing information on an ongoing basis, as well as assets valued based on NAV or its equivalent, but not redeemable within the near term as a result of redemption restrictions.

Edgar Filing: Lazard Ltd - Form 10-Q

The Company's investments in non-U.S. Government and other debt securities are classified as Level 1 when their respective fair values are based on unadjusted quoted prices in active markets and are classified as Level 2 when their fair values are primarily based on prices as provided by external pricing services.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(UNAUDITED)

(dollars in thousands, except for per share data, unless otherwise noted)

The fair value of equities is classified as Level 1 or Level 3 as follows: marketable equity securities are classified as Level 1 and are valued based on the last trade price on the primary exchange for that security as provided by external pricing services; equity securities in private companies are generally classified as Level 3.

The fair value of investments in alternative investment funds is classified as Level 2 and is valued at NAV or its equivalent, which is primarily determined based on information provided by external fund administrators. Such investments are redeemable within the near term.

The fair value of investments in debt funds is classified as Level 1 when the fair values are primarily based on the publicly reported closing price for the fund, and classified as Level 2 when the fair values are primarily based on NAV or its equivalent and are redeemable within the near term.

The fair value of investments in equity funds is classified as Level 1 or 2 as follows: publicly traded asset management funds are classified as Level 1 and are valued based on the reported closing price for the fund; and investments in asset management funds redeemable in the near term are classified as Level 2 and are valued at NAV or its equivalent, which is primarily determined based on information provided by external fund administrators.

The fair value of investments in private equity funds is classified as Level 3, and is primarily based on NAV or its equivalent. Such investments are not redeemable within the near term.

The fair values of derivatives entered into by the Company are classified as Level 2 and are based on the values of the related underlying assets, indices or reference rates as follows - the fair value of forward foreign currency exchange rate contracts is a function of the spot rate and the interest rate differential of the two currencies from the trade date to settlement date; the fair value of total return swaps is based on the change in fair values of the related underlying equity security, financial instrument or index and a specified notional holding; the fair value of interest rate swaps is based on the interest rate yield curve; and the fair value of derivative liabilities related to Lazard Fund Interests and other similar deferred compensation arrangements is based on the value of the underlying investments, adjusted for forfeitures. See Note 6 of Notes to Condensed Consolidated Financial Statements.

Where reported information regarding an investment is based on data received from external fund administrators or pricing services, the Company reviews such information and classifies the investment at the relevant level within the fair value hierarchy.

Investment Capital Funding Commitments At March 31, 2014, the Company's maximum unfunded commitments for capital contributions to investment funds arose from (i) commitments to CP II, which amounted to \$1,940 for potential follow-on investments and/or for fund expenses through the earlier of February 25, 2017 or the liquidation of the fund, (ii) commitments to EGCP III, which amounted to \$18,337, through the earlier of October 12, 2016 (*i.e.*, the end of the investment period) for investments and/or expenses (with a portion of the undrawn amount of such commitments as of that date remaining committed until October 12, 2023 in respect of follow-on investments and/or fund expenses) or the liquidation of the fund and (iii) commitments to COF2, which amounted to \$6,879, through the earlier of November 11, 2016 (*i.e.*, the end of the investment period) for investments and/or fund expenses (with a portion of the undrawn amount of such commitments as of that date remaining committed until November 11, 2019 in respect of follow-on investments and/or fund expenses) or the liquidation of the fund.

6. DERIVATIVES

The Company enters into forward foreign currency exchange rate contracts, interest rate swaps, interest rate futures, total return swap contracts on various equity and debt indices and other derivative contracts to economically hedge exposures to fluctuations in currency exchange rates, interest rates and equity and debt prices. The Company reports its derivative instruments separately as assets and liabilities unless a legal right of set-off exists under a master netting agreement enforceable by law. The Company's derivative instruments are recorded at their fair value, and are included in other assets and other liabilities on the consolidated statements of financial condition. Gains and losses on the Company's derivative instruments not designated as hedging instruments are included in interest income and interest expense, respectively, or revenue-other, depending on the nature of the underlying item, on the consolidated statements of operations.

In addition to the derivative instruments described above, the Company records derivative liabilities relating to its obligations pertaining to Lazard Fund Interests awards and other similar deferred compensation arrangements, the fair value of which is based on the value of the underlying investments, adjusted for estimated forfeitures, and is included in accrued compensation and benefits in the consolidated statements of financial condition. Changes in the fair value of the derivative liabilities are included in compensation and benefits in the consolidated statements of operations, the impact of which equally offsets the changes in the fair value of investments which are currently expected to be delivered upon settlement of Lazard Fund Interests awards and other similar deferred compensation arrangements, which are reported in revenue-other in the consolidated statements of operations.

Amortization expense of intangible assets for the three month periods ended March 31, 2014 and 2013 was \$1,220 and \$877, respectively. Estimated future amortization expense is as follows:

Year Ending December 31,	Amortization Expense (a)
2014 (April 1 through December 31)	\$ 5,591
2015	6,433
2016	5,181
Total amortization expense	\$ 17,205

(a) Approximately 43% of intangible asset amortization is attributable to a noncontrolling interest.

9. SENIOR AND SUBORDINATED DEBT

Senior Debt Senior debt is comprised of the following as of March 31, 2014 and December 31, 2013:

	Initial Principal	Maturity	Annual Interest	Outstanding As of	
	Amount	Date	Rate	March 31, 2014	December 31, 2013
Lazard Group 6.85% Senior Notes	600,000	6/15/17	6.85%	\$ 548,350	\$ 548,350

Total				\$ 1,048,350	\$ 1,048,350
-------	--	--	--	--------------	--------------

In November 2013, and in connection with Lazard Group's redemption of \$528,500 aggregate principal amount of its then outstanding 7.125% senior notes maturing on May 15, 2015 (the "2015 Notes"), Lazard Group issued \$500,000 aggregate principal amount of 4.25% senior notes maturing on November 14, 2020 (the "2020 Notes"). Interest on the 2020 Notes is payable semi-annually on May 14 and November 14 of each year commencing on May 14, 2014.

On September 25, 2012, Lazard Group entered into a \$150,000, three-year senior revolving credit facility with a group of lenders (the "Credit Facility"), which expires in September 2015. The Credit Facility replaced a similar revolving credit facility which was terminated as a condition to effectiveness of the Credit Facility. Interest rates under the Credit Facility vary and are based on either a Federal Funds rate or a Eurodollar rate, in each case plus an

applicable margin. As of March 31, 2014, the annual interest rate for a loan accruing interest (based on the Federal Funds overnight rate), including the applicable margin, was 0.78%. At March 31, 2014 and December 31, 2013, no amounts were outstanding under the Credit Facility.

The Credit Facility contains customary terms and conditions, including certain financial covenants. In addition, the Credit Facility, the indenture and the supplemental indentures relating to Lazard Group's senior notes contain certain covenants, events of default and other customary provisions, including a customary make-whole provision in the event of early redemption, where applicable. As of March 31, 2014, the Company was in compliance with such provisions. All of the Company's senior debt obligations are unsecured.

As of March 31, 2014, the Company had approximately \$258,000 in unused lines of credit available to it, including the Credit Facility, and unused lines of credit available to LFB of approximately \$48,000 (at March 31, 2014 exchange rates) and Edgewater of \$55,000. In addition, LFB has access to the Eurosystem Covered Bond Purchase Program of the Banque de France.

The Company's senior debt at March 31, 2014 and December 31, 2013 is carried at historical amounts. At those dates, the fair value of such senior debt was approximately \$1,140,000 and \$1,117,000, respectively, and exceeded the aggregate carrying value by approximately \$92,000 and \$69,000, respectively. The fair value of the Company's senior debt is based on market quotations. The Company's senior debt would be categorized within Level 2 of the hierarchy of fair value measurements if carried at fair value.

10. COMMITMENTS AND CONTINGENCIES

Leases The Company has various leases and other contractual commitments arising in the ordinary course of business. In the opinion of management, the fulfillment of such commitments, in accordance with their terms, will not have a material adverse effect on the Company's consolidated financial position or results of operations.

Guarantees In the normal course of business, LFB provides indemnifications to third parties to protect them in the event of non-performance by its clients. At March 31, 2014, LFB had \$5,908 of such indemnifications and held \$5,255 of collateral/counter-guarantees to secure these commitments. The Company believes the likelihood of loss with respect to these indemnities is remote. Accordingly, no liability is recorded in the condensed consolidated statement of financial condition.

Certain Business Transactions On July 15, 2009, the Company established a private equity business with Edgewater. Edgewater manages funds primarily focused on buy-out and growth equity investments in middle market companies. The acquisition was structured as a purchase by Lazard Group of interests in a holding company that in turn owns interests in the general partner and management company entities of the current Edgewater private equity funds (the "Edgewater Acquisition"). Following the Edgewater Acquisition, Edgewater's leadership team retained a substantial economic interest in such entities.

The aggregate fair value of the consideration recognized by the Company at the acquisition date was \$61,624. Such consideration consisted of (i) a one-time cash payment, (ii) 1,142,857 shares of Class A common stock (the "Initial Shares") and (iii) up to 1,142,857 additional shares of Class A common stock (the "Earnout Shares") that are subject to earnout criteria and payable over time. The Initial Shares are subject to forfeiture provisions that lapse only upon the achievement of certain performance thresholds and transfer restrictions during the four year period ending December 2014. The Earnout Shares will be issued only if certain performance thresholds are met. As of March 31, 2014 and December 31, 2013, of the Initial Shares and Earnout

Shares, 1,371,992 shares have been earned because applicable performance thresholds have been satisfied. Such shares are no longer subject to any contingencies. As of December 31, 2013, 1,029,006 of such shares have been settled, and no additional shares have been settled as of March 31, 2014.

Contingent Consideration Relating To Other Business Acquisitions For a business acquired in 2012, at December 31, 2012, 170,988 shares of Class A common stock (including dividend equivalent shares) were issuable on a non-contingent basis. Such shares were delivered in the first quarter of 2013. The Company is obligated to issue a maximum of 202,650 additional shares of Class A common stock if certain performance thresholds are achieved.

Other Commitments In the normal course of business, LFB enters into commitments to extend credit, predominately at variable interest rates. These commitments have varying expiration dates, are fully collateralized and generally contain requirements for the counterparty to maintain a minimum collateral level. These commitments may not represent future cash requirements as they may expire without being drawn upon. At March 31, 2014, these commitments were not material.

See Notes 5 and 13 of Notes to Condensed Consolidated Financial Statements for information regarding commitments relating to investment capital funding commitments and obligations to fund our pension plans, respectively.

The Company has various other contractual commitments arising in the ordinary course of business. In addition, from time to time, LFB enters into underwriting commitments in which it participates as a joint underwriter. The settlement of such transactions are not expected to have a material adverse effect on the Company's consolidated financial position or results of operations. At March 31, 2014, LFB had no such underwriting commitments.

In the opinion of management, the fulfillment of the commitments described herein will not have a material adverse effect on the Company's consolidated financial position or results of operations.

Legal The Company is involved from time to time in judicial, regulatory and arbitration proceedings and inquiries concerning matters arising in connection with the conduct of our businesses, including proceedings initiated by former employees alleging wrongful termination. The Company reviews such matters on a case-by-case basis and establishes any required accrual if a loss is probable and the amount of such loss can be reasonably estimated. The Company experiences significant variation in its revenue and earnings on a quarterly basis. Accordingly, the results of any pending matter or matters could be significant when compared to the Company's earnings in any particular fiscal quarter. The Company believes, however, based on currently available information, that the results of any pending matters, in the aggregate, will not have a material effect on its business or financial condition.

11. STOCKHOLDERS' EQUITY

Lazard Group Distributions As previously described, Lazard Group's common membership interests are held by subsidiaries of Lazard Ltd and by LAZ-MD Holdings. Pursuant to provisions of the Operating Agreement, Lazard Group distributions in respect of its common membership interests are allocated to the holders of such interests on a pro rata basis. Such distributions represent amounts necessary to fund (i) any dividends Lazard Ltd may declare on its Class A common stock and (ii) tax distributions in respect of income taxes that Lazard Ltd's subsidiaries and the members of LAZ-MD Holdings incur as a result of holding Lazard Group common membership interests.

Table of Contents**LAZARD LTD****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(UNAUDITED)****(dollars in thousands, except for per share data, unless otherwise noted)**

During the three month periods ended March 31, 2014 and 2013, Lazard Group distributed the following amounts to LAZ-MD Holdings and the subsidiaries of Lazard Ltd (none of which related to tax distributions):

	Three Months Ended March 31,	
	2014	2013
LAZ-MD Holdings	\$ 213	\$
Subsidiaries of Lazard Ltd	35,917	
	\$ 36,130	\$

Pursuant to Lazard Group's Operating Agreement, Lazard Group allocates and distributes to its members a substantial portion of its distributable profits in installments, as soon as practicable after the end of each fiscal year. Such installment distributions usually begin in February.

See Noncontrolling Interests below for additional information regarding Lazard Ltd's and LAZ-MD Holdings' ownership interests in Lazard Group.

Share Repurchase Program During the years ended December 31, 2013, 2012 and 2011, the Board of Directors of Lazard Ltd authorized the repurchase of Class A common stock and Lazard Group common membership interests as set forth in the table below.

Date	Share Repurchase Authorization	Expiration
February, 2011	\$ 250,000	December 31, 2012
October, 2011	\$ 125,000	December 31, 2013
April, 2012	\$ 125,000	December 31, 2013
October, 2012	\$ 200,000	December 31, 2014
October, 2013	\$ 100,000	December 31, 2015

The Company expects that the share repurchase program, with respect to the Class A common stock, will primarily be used to offset a portion of the shares that have been or will be issued under the Lazard Ltd 2005 Equity Incentive Plan (the 2005 Plan) and the Lazard Ltd 2008 Incentive Compensation Plan (the 2008 Plan). Pursuant to the share repurchase program, purchases have been made in the open market or through privately negotiated transactions. Purchases with respect to such program are set forth in the table below:

	Number of Shares/Common Membership Interests Purchased	Average Price Per Share/Common Membership Interest
Three Months Ended March 31:		

Edgar Filing: Lazard Ltd - Form 10-Q

2013	831,157	\$	36.30
2014	2,392,674	\$	44.69

As of March 31, 2014, a total of \$14,654 of share repurchase authorization remained available under the Company's share repurchase program, which will expire on December 31, 2015.

In April 2014, the Board of Directors of Lazard Ltd authorized the repurchase of up to an additional \$200,000 in aggregate cost of Class A common stock and Lazard Group common membership interests through December 31, 2015.

Preferred Stock Lazard Ltd has 15,000,000 authorized shares of preferred stock, par value \$0.01 per share, inclusive of its Series A and Series B preferred stock. Series A and Series B preferred shares were issued in connection with certain prior year business acquisitions and are each non-participating securities convertible into Class A common stock, and have no voting or dividend rights. As of both March 31, 2014 and December 31, 2013, 7,921 shares of Series A preferred stock were outstanding, and no shares of Series B preferred stock were outstanding. At March 31, 2014 and December 31, 2013, no shares of Series A preferred stock were convertible into shares of Class A common stock on a contingent or a non-contingent basis.

Dividend Declared, April 2014 On April 30, 2014, Lazard Ltd announced a quarterly dividend of \$0.30 per share on its Class A common stock, payable on May 23, 2014, to stockholders of record on May 12, 2014.

12. INCENTIVE PLANS**Share-Based Incentive Plan Awards**

A description of Lazard Ltd's 2005 Plan and 2008 Plan and activity with respect thereto during the three month periods ended March 31, 2014 and 2013, is presented below.

Shares Available Under the 2005 Plan and 2008 Plan

The 2005 Plan authorizes the issuance of up to 25,000,000 shares of Class A common stock pursuant to the grant or exercise of stock options, stock appreciation rights, restricted stock units (RSUs) and other equity-based awards. Each stock unit or similar award granted under the 2005 Plan represents a contingent right to receive one share of Class A common stock, at no cost to the recipient. The fair value of such awards is generally determined based on the closing market price of Class A common stock at the date of grant.

In addition to the shares available under the 2005 Plan, additional shares of Class A common stock are available under the 2008 Plan. The maximum number of shares available under the 2008 Plan is based on a formula that limits the aggregate number of shares that may, at any time, be subject to awards that are considered outstanding under the 2008 Plan to 30% of the then-outstanding shares of Class A common stock (treating, for this purpose, the then-outstanding exchangeable interests of LAZ-MD Holdings on a fully-exchanged basis as described in the 2008 Plan).

The following reflects the amortization expense recorded with respect to share-based incentive plans within compensation and benefits expense (with respect to RSUs, performance-based restricted stock units (PRSUs) and restricted stock awards) and professional services expense (with respect to deferred stock units (DSUs)) within the Company's accompanying condensed consolidated statements of operations for the three month periods ended March 31, 2014 and 2013:

	Three Months Ended March 31,	
	2014	2013
Share-based incentive awards:		
RSUs (a)	\$ 52,285	\$ 64,942

Edgar Filing: Lazard Ltd - Form 10-Q

PRSUs	1,798	438
Restricted Stock (b)	6,612	5,261
DSUs	102	71
Total	\$ 60,797	\$ 70,712

Table of Contents**LAZARD LTD****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(UNAUDITED)****(dollars in thousands, except for per share data, unless otherwise noted)**

(a) Includes, during the three month period ended March 31, 2013, charges relating to the cost saving initiatives of \$4,455 (see Note 14 of Notes to Condensed Consolidated Financial Statements).

(b) Includes, during the three month period ended March 31, 2013, charges relating to the cost saving initiatives of \$233.

The ultimate amount of compensation and benefits expense relating to share-based awards is dependent upon the actual number of shares of Class A common stock that vest. The Company periodically assesses the forfeiture rates used for such estimates. A change in estimated forfeiture rates results in a cumulative adjustment to previously recorded compensation and benefits expense and also would cause the aggregate amount of compensation expense recognized in future periods to differ from the estimated unrecognized compensation expense described below.

For purposes of calculating diluted net income per share, RSU and restricted stock awards are included in the diluted weighted average shares of Class A common stock outstanding using the treasury stock method. PRSUs are included in the diluted weighted average shares of Class A common stock outstanding to the extent the performance conditions are met at the end of the reporting period, also using the treasury stock method.

The Company's incentive plans are described below.

RSUs and DSUs

RSUs generally require future service as a condition for the delivery of the underlying shares of Class A common stock (unless the recipient is then eligible for retirement under the Company's retirement policy) and convert into shares of Class A common stock on a one-for-one basis after the stipulated vesting periods. PRSUs, which are RSUs that are also subject to service-based vesting conditions, have additional conditions, and are described below. The grant date fair value of the RSUs, net of an estimated forfeiture rate, is amortized over the vesting periods or requisite service periods (generally one-third after two years, and the remaining two-thirds after the third year), and is adjusted for actual forfeitures over such period.

RSUs generally include a dividend participation right that provides that during vesting periods each RSU is attributed additional RSUs (or fractions thereof) equivalent to any dividends paid on Class A common stock during such period. During the three month period ended March 31, 2014, issuances of RSUs pertaining to such dividend participation rights and respective charges to retained earnings, net of estimated forfeitures, (with corresponding credits to additional paid-in-capital), consisted of the following:

	Three Months Ended March 31, 2014
Number of RSUs issued	115,297
Charges to retained earnings, net of estimated forfeitures	\$ 5,013

Non-executive members of the Board of Directors (Non-Executive Directors) receive approximately 55% of their annual compensation for service on the Board of Directors and its committees in the form of DSUs. No such DSUs were granted in connection with annual compensation during the three month periods ended March 31, 2014 and 2013. Their remaining compensation is payable in cash, which they may elect to receive in the form of additional DSUs under the Directors' Fee Deferral Unit Plan described below. DSUs are convertible into shares of Class A common stock at the time of cessation of service to the Board and, for purposes of calculating diluted net income per share, are included in the diluted weighted average shares of Class A common stock

Table of Contents**LAZARD LTD****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(UNAUDITED)****(dollars in thousands, except for per share data, unless otherwise noted)**

outstanding using the treasury stock method. DSUs include a cash dividend participation right equivalent to any ordinary quarterly dividends paid on Class A common stock, and resulted in nominal cash payments for the three month period ended March 31, 2014.

The Company's Directors' Fee Deferral Unit Plan permits the Non-Executive Directors to elect to receive additional DSUs pursuant to the 2005 Plan in lieu of some or all of their cash fees. The number of DSUs that shall be granted to a Non-Executive Director pursuant to this election will equal the value of cash fees that the applicable Non-Executive Director has elected to forego pursuant to such election, divided by the market value of a share of Class A common stock on the date immediately preceding the date of the grant. During the three month periods ended March 31, 2014 and 2013, 2,310 and 1,886 DSUs, respectively, had been granted pursuant to such Plan.

DSU awards are expensed at their fair value on their date of grant, inclusive of amounts related to the Directors' Fee Deferral Unit Plan.

The following is a summary of activity relating to RSUs and DSUs during the three month periods ended March 31, 2014 and 2013:

	RSUs			DSUs

Balance, March 31, 2013	17,464,144	\$ 34.26	206,382	\$ 31.52	

In connection with RSUs that vested during the three month periods ended March 31, 2014 and 2013, the Company satisfied its minimum statutory tax withholding requirements in lieu of issuing 1,843,389 and 3,231,285 shares of Class A common stock in the respective three month periods. Accordingly, 4,474,223 and 5,037,459 shares of Class A common stock held by the Company were delivered during the three month periods ended March 31, 2014 and 2013, respectively.

During the fourth quarter of 2012, 958,213 RSUs were modified through forward purchase agreements into liability awards. Such liability awards were settled on March 1, 2013 for \$28,612. During the three month period ended March 31, 2013, compensation expense of \$1,690 was recorded for such liability awards.

Table of Contents**LAZARD LTD****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(UNAUDITED)****(dollars in thousands, except for per share data, unless otherwise noted)**

As of March 31, 2014, unrecognized RSU compensation expense, adjusted for estimated forfeitures, was approximately \$267,421, with such expense expected to be recognized over a weighted average period of approximately 1.6 years subsequent to March 31, 2014.

Restricted Stock

The following is a summary of activity related to shares of restricted Class A common stock associated with compensation arrangements during the three month periods ended March 31, 2014 and 2013:

	Restricted Shares	Weighted Average Grant Date Fair Value
Balance, January 1, 2014	575,054	\$ 32.72
Granted	449,344	\$ 45.52
Vested	(205,075)	\$ 35.23
Balance, March 31, 2014	819,323	\$ 39.11
Balance, January 1, 2013	1,972,609	\$ 34.85
Granted	388,763	\$ 36.73
Forfeited	(3,269)	\$ 36.64
Vested	(1,715,275)	\$ 36.04
Balance, March 31, 2013	642,828	\$ 32.81

In connection with shares of restricted Class A common stock that vested during the three month periods ended March 31, 2014 and 2013, the Company satisfied its minimum statutory tax withholding requirements in lieu of delivering 29,999 and 12,308 shares of Class A common stock during the respective three month periods. Accordingly, 175,076 and 1,702,967 shares of Class A common stock held by the Company were delivered during the three month periods ended March 31, 2014 and 2013, respectively.

The restricted stock awards include a cash dividend participation right equivalent to any ordinary quarterly dividends paid on Class A common stock during the period, which will vest concurrently with the underlying restricted stock award. At March 31, 2014, unrecognized restricted stock expense was approximately \$20,657, with such expense to be recognized over a weighted average period of approximately 1.9 years subsequent to March 31, 2014.

PRSUs

PRSUs are subject to both performance-based and service-based vesting conditions. The number of shares of Class A common stock that a recipient will receive upon vesting of a PRSU will be calculated by reference to certain performance metrics that relate to the Company's performance over a three-year period. The target number of shares of Class A common stock subject to each PRSU is one; however, based on the achievement of the performance criteria, the number of shares of Class A common stock that may be received in connection with each PRSU can range from zero to two times the target number (or, for PRSUs granted in 2013, three times the target number in the event of a substantial increase in fiscal year 2014 revenue (adjusted for certain items)). The PRSUs granted in 2014 will vest on a single date three years following the

Edgar Filing: Lazard Ltd - Form 10-Q

date of the grant and the PRSUs granted in 2013 will vest 33% in March 2015 and 67% in March 2016, in each case provided the applicable service and performance conditions are satisfied. In addition, the performance metrics applicable to each PRSU

Table of Contents**LAZARD LTD****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(UNAUDITED)****(dollars in thousands, except for per share data, unless otherwise noted)**

will be evaluated on an annual basis at the end of each fiscal year during the performance period and, if the Company has achieved a threshold level of performance with respect to the fiscal year, 25% of the target number of shares of Class A common stock subject to each PRSU will no longer be at risk of forfeiture based on the achievement of performance criteria. PRSUs include dividend participation rights that provide that during vesting periods the target number of PRSUs receive dividend equivalents at the same rate that dividends are paid on Class A common stock during such period. These dividend equivalents are credited as RSUs that are not subject to the performance-based vesting criteria but are otherwise subject to the same restrictions as the underlying PRSUs to which they relate.

The following is a summary of activity relating to PRSUs during the three month periods ended March 31, 2014 and 2013 at the target level:

	PRSUs	Weighted Average Grant Date Fair Value
Balance, January 1, 2014	448,128	\$ 36.11
Granted	360,783	\$ 44.46
Balance, March 31, 2014	808,911	\$ 39.83
Balance, January 1, 2013		
Granted	448,128	\$ 36.11
Balance, March 31, 2013	448,128	\$ 36.11

Compensation expense recognized for PRSU awards is determined by multiplying the number of shares of Class A common stock underlying such awards that, based on the Company's estimate, are considered probable of vesting, by the grant date fair value. As of March 31, 2014, the total estimated unrecognized compensation expense was approximately \$33,673, and the Company expects to amortize such expense over a weighted-average period of approximately 2.0 years subsequent to March 31, 2014.

Lazard Fund Interests and Other Similar Deferred Compensation Arrangements

Commencing in February 2011, the Company granted Lazard Fund Interests to eligible employees. In connection with the Lazard Fund Interests and other similar deferred compensation arrangements, which generally require future service as a condition for vesting, the Company recorded a prepaid compensation asset and a corresponding compensation liability on the grant date based upon the fair value of the award. The prepaid asset is amortized on a straight-line basis over the applicable vesting periods or requisite service periods (which are generally similar to the comparable periods for RSUs), and is charged to compensation and benefits expense within the Company's consolidated statement of operations. Lazard Fund Interests and similar deferred compensation arrangements that do not require future service are expensed immediately. The related compensation liability is accounted for at fair value as a derivative liability, which contemplates the impact of estimated forfeitures, and is adjusted for changes in fair value primarily related to changes in value of the underlying investments.

13. EMPLOYEE BENEFIT PLANS

The Company provides retirement and other post-retirement benefits to certain of its employees through defined benefit pension plans (the pension plans) and, in the U.S., a partially funded contributory post-retirement plan covering qualifying U.S. employees (the medical plan and together with the pension plans, the post-retirement plans). The Company also offers defined contribution plans. The post-retirement plans generally provide benefits to participants based on average levels of compensation. Expenses related to the Company's employee benefit plans are included in compensation and benefits expense on the condensed consolidated statements of operations.

Employer Contributions to Pension Plans The Company's funding policy for its U.S. and non-U.S. pension plans is to fund when required or when applicable upon an agreement with the plans' Trustees. Management also evaluates from time to time whether to make voluntary contributions to the plans. The Company did not make a contribution to the U.S. pension plans during the three month period ended March 31, 2014.

On April 30, 2012, the Company and the Trustees of the U.K. pension plans concluded the December 31, 2010 triennial valuations of the plans. In connection with such valuations and a previously negotiated agreement with the Trustees, the Company and the Trustees agreed upon pension funding terms (the agreement) (which superseded the terms of an agreement reached in June 2009 with respect to the previous triennial valuation as of December 31, 2007) whereby the Company: (i) made a contribution in December 2011 to the plans of 2.3 million British pounds (\$3,687 at December 31, 2011 exchange rates) from a previously established escrow account, (ii) agreed to make contributions of 1 million British pounds during each year from 2012 through 2020 inclusive and (iii) amended the previous escrow arrangement into an account security arrangement covering 10.2 million British pounds, committing to make annual contributions of 1 million British pounds into such account security arrangement during each year from 2014 through 2020 inclusive. It was further agreed that, to the extent that the value of the plans' assets falls short of the funding target for June 1, 2020 that has been agreed upon with the Trustees, the assets from the account security arrangement would be released into the plans at that date. Additionally, the Company agreed to fund the expenses of administering the plans, including certain regulator levies and the cost of other professional advisors to the plans. The terms of the agreement are subject to adjustment based on the results of subsequent triennial valuations. The aggregate amount in the account security arrangement was approximately \$17,000 and \$16,900 at March 31, 2014 and December 31, 2013, respectively, and has been recorded in cash deposited with clearing organizations and other segregated cash on the accompanying condensed consolidated statements of financial condition. Income on the account security arrangement accretes to the Company and is recorded in interest income.

During the three month period ended March 31, 2014, no contribution to these U.K. pension plans was required to be made. Contributions were made to other non-U.S. pension plans of approximately \$4,800.

14. COST SAVING INITIATIVES

Cost Saving Initiatives In October 2012, the Company announced cost saving initiatives (the "Cost Saving Initiatives") relating to the Company's operations. These initiatives include streamlining our corporate structure and consolidating support functions; realigning our investments into areas with potential for the greatest long-term return; the settlement of certain contractual obligations; reducing occupancy costs; and creating greater flexibility to retain and attract the best people and invest in new growth areas.

Expenses associated with the implementation of the Cost Saving Initiatives were completed during the second quarter of 2013. The Company incurred these expenses, by segment, as reflected in the tables below:

	Financial Advisory	Asset Management	Corporate	Total

15. INCOME TAXES

As a result of its indirect investment in Lazard Group, Lazard Ltd, through certain of its subsidiaries, is subject to U.S. federal income taxes on its portion of Lazard Group's operating income. Although a portion of Lazard Group's income is subject to U.S. federal income taxes, Lazard Group primarily operates in the U.S. as a limited liability company that is treated as a partnership for U.S. federal income tax purposes. As a result, Lazard Group's income from its U.S. operations is generally not subject to U.S. federal income taxes because such income is attributable to its partners. In addition, Lazard Group is subject to New York City Unincorporated Business Tax (UBT) which is attributable to Lazard Group's operations apportioned to New York City. UBT is incremental to the U.S. federal statutory tax rate. Outside the U.S., Lazard Group operates principally through subsidiary corporations that are subject to local income taxes.

The Company recorded income tax provisions of \$21,751 and \$3,948 for the three month periods ended March 31, 2014 and 2013, respectively, representing effective tax rates of 20.3% and 18.3%, respectively. The difference between the U.S. federal statutory rate of 35.0% and the effective tax rates reflected above principally relates to (i) Lazard Group primarily operating as a limited liability company in the U.S., (ii) taxes payable to

foreign jurisdictions that are not offset against U.S. income taxes, (iii) foreign source income (loss) not subject to U.S. income taxes (including interest on intercompany financings), (iv) change in the U.S. federal valuation allowance affecting the provision for income taxes, (v) Lazard Group's income from U.S. operations attributable to noncontrolling interests, and (vi) U.S. state and local taxes (primarily UBT), which are incremental to the U.S. federal statutory tax rate.

Substantially all of Lazard's foreign operations are conducted in pass-through entities for U.S. income tax purposes and the Company provides for U.S. income taxes on a current basis for substantially all of those earnings. The repatriation of prior earnings attributable to non-pass-through entities would not result in the recognition of a material amount of additional U.S. income taxes.

Tax Receivable Agreement

The redemption of historical partner interests in connection with the Company's separation and recapitalization that occurred in May 2005 and the subsequent exchanges of LAZ-MD Holdings exchangeable interests for shares of Class A common stock have resulted, and future exchanges of LAZ-MD Holdings exchangeable interests for shares of Class A common stock may result, in increases in the tax basis of the tangible and/or intangible assets of Lazard Group. The tax receivable agreement dated as of May 10, 2005 with LFCM Holdings LLC (LFCM Holdings), see Note 17 below) requires the Company to pay LFCM Holdings 85% of the cash savings, if any, in U.S. federal, state and local income tax or

franchise tax that the Company

(dollars in thousands, except for per share data, unless otherwise noted)

actually realizes as a result of these increases in tax basis. The Company calculates this provision annually and includes such amounts in operating expenses on its consolidated statements of operations once the results of operations for the full year are known. If any provision is required pursuant to the tax receivable agreement, such amount would be fully offset by a reduction in the Company's income tax expense.

16. NET INCOME PER SHARE OF CLASS A COMMON STOCK

The Company's basic and diluted net income per share calculations for the three month periods ended March 31, 2014 and 2013 are computed as described below.

Basic Net Income Per Share

Numerator utilizes net income attributable to Lazard Ltd for the respective years, plus applicable adjustments to such net income associated with the inclusion of shares of Class A common stock issuable on a non-contingent basis.

Denominator utilizes the weighted average number of shares of Class A common stock outstanding for the respective years, plus applicable adjustments to such shares associated with shares of Class A common stock issuable on a non-contingent basis.

Diluted Net Income Per Share

Numerator utilizes net income attributable to Lazard Ltd for the respective years as in the basic net income per share calculation described above, plus, to the extent applicable and dilutive, (i) interest expense on convertible debt, (ii) changes in net income attributable to noncontrolling interests resulting from assumed Class A common stock issuances in connection with share-based incentive compensation, convertible debt and convertible preferred stock and, on an as-if-exchanged basis, amounts applicable to LAZ-MD Holdings exchangeable interests and (iii) income tax related to (i) and (ii) above.

Denominator utilizes the weighted average number of shares of Class A common stock outstanding for the respective years as in the basic net income per share calculation described above, plus, to the extent dilutive, the incremental number of shares of Class A common stock to settle share-based incentive compensation, convertible debt, convertible preferred stock and LAZ-MD Holdings exchangeable interests, using the treasury stock method, the if converted method or the as-if-exchanged basis, as applicable.

LFCM Holdings

LFCM Holdings owns and operates the capital markets business and fund management activities, as well as other specified non-operating assets and liabilities, that were transferred to it by Lazard Group (referred to as the "separated businesses") in May 2005 and is owned by former and current managing directors (which also include the Company's executive officers) who were or are also members of LAZ-MD Holdings. In addition to the master separation agreement, dated as of May 10, 2005, by and among Lazard Ltd, Lazard Group, LAZ-MD Holdings and LFCM Holdings (the "master separation agreement"), which effected the separation and recapitalization that occurred in May 2005, LFCM Holdings entered into certain agreements that addressed various business matters associated with the separation, including agreements related to administrative and support services (the "administrative services agreement"), employee benefits, insurance matters and licensing. In addition, LFCM Holdings and Lazard Group entered into a business alliance agreement (the "business alliance agreement"). Certain of these agreements are described in more detail in the Company's Form 10-K.

For the three month periods ended March 31, 2014 and 2013, amounts recorded by Lazard Group relating to the administrative services agreement amounted to \$369 and \$632, respectively, and net referral fees for underwriting, private placement, M&A and restructuring transactions under the business alliance agreement amounted to \$543 and \$500, respectively. Amounts relating to the administrative services agreement are reported as reductions to operating expenses. Net referral fees for underwriting transactions under the business alliance agreement are reported in "revenue-other". Net referral fees for private placement, M&A and restructuring transactions under the business alliance agreement are reported in advisory fee revenue.

Receivables from LFCM Holdings and its subsidiaries as of March 31, 2014 and December 31, 2013 include \$2,967 and \$3,112, respectively, related to administrative and support services and other receivables which include sublease income and reimbursement of expenses incurred on behalf of LFCM Holdings, and \$1,100 and \$4,682, respectively, related to referral fees for underwriting and private placement transactions. Payables to LFCM Holdings and its subsidiaries at March 31, 2014 and December 31, 2013 include \$414 and \$3,051, respectively, primarily relating to referral fees for Financial Advisory transactions, and, at March 31, 2014 and December 31, 2013, \$1,249 related to obligations

Other

Other payables at March 31, 2014 and December 31, 2013 primarily relate to referral fees for M&A and restructuring transactions with MBA Lazard Holdings S.A. and its affiliates, an Argentina-based group in which the Company has a 50% ownership interest.

LAZ-MD Holdings

Lazard Group provides certain administrative and support services to LAZ-MD Holdings through the administrative services agreement as discussed above, with such services generally to be provided until December 31, 2014 unless terminated earlier because of a change in control of either party. Lazard Group charges LAZ-MD Holdings for these services based on Lazard Group's cost allocation methodology and, for the three month periods ended March 31, 2014 and 2013, such charges amounted to \$250 for each period.

18. REGULATORY AUTHORITIES

LFNY is a U.S. registered broker-dealer and is subject to the net capital requirements of Rule 15c3-1 under the Exchange Act. Under the basic method permitted by this rule, the minimum required net capital, as defined, is a specified fixed percentage ($6\frac{2}{3}\%$) of total aggregate indebtedness recorded in LFNY's Financial and Operational Combined Uniform Single (FOCUS) report filed with the Financial Industry Regulatory Authority (FINRA), or \$100, whichever is greater. At March 31, 2014, LFNY's regulatory net capital was \$100,252, which exceeded the minimum requirement by \$97,110.

Certain U.K. subsidiaries of the Company, including LCL, Lazard Fund Managers Limited and Lazard Asset Management Limited (the U.K. Subsidiaries) are regulated by the Financial Conduct Authority. At March 31, 2014, the aggregate regulatory net capital of the U.K. Subsidiaries was \$92,574, which exceeded the minimum requirement by \$75,634.

CFLF, under which asset management and commercial banking activities are carried out in France, is subject to regulation by the ACPR for its banking activities conducted through its subsidiary, LFB. The investment services activities of the Paris group, exercised through LFB and other subsidiaries of CFLF, primarily LFG (asset management), also are subject to regulation and supervision by the Autorité des Marchés Financiers. At March 31, 2014, the consolidated regulatory net capital of CFLF was \$140,872, which exceeded the minimum requirement set for regulatory capital levels by \$105,079. In addition, pursuant to the consolidated supervision rules in the European Union, LFB, in particular, as a French credit institution, is required to be supervised by a regulatory body, either in the U.S. or in the European Union. During the third quarter of 2013, the Company and the ACPR agreed on terms for the consolidated supervision of LFB and certain other non-financial advisory European subsidiaries of the Company (referred to herein, on a combined basis, as the combined European regulated group) under such rules. Under this new supervision, the combined European regulated group is required to comply with periodic financial, regulatory net capital and other reporting obligations. Additionally, the combined European regulated group, together with our European financial advisory entities, is required to perform an annual risk assessment and provide certain other information on a periodic basis, including financial reports and information relating to financial performance, balance sheet data and capital structure (which is similar to the information that the Company had already been providing informally). This new supervision under, and provision of information to, the ACPR became effective December 31, 2013.

Certain other U.S. and non-U.S. subsidiaries are subject to various capital adequacy requirements promulgated by various regulatory and exchange authorities in the countries in which they operate. At March 31, 2014, for those subsidiaries with regulatory capital requirements, their aggregate net capital was \$105,753, which exceeded the minimum required capital by \$77,600.

At March 31, 2014, each of these subsidiaries individually was in compliance with its regulatory capital requirements.

Any new or expanded rules and regulations that may be adopted in countries in which we operate (including regulations that have not yet been proposed) could affect us in other ways.

19. SEGMENT INFORMATION

The Company's reportable segments offer different products and services and are managed separately as different levels and types of expertise are required to effectively manage the segments' transactions. Each segment is reviewed to determine the allocation of resources and to assess its performance. The Company's principal operating activities are included in two business segments as described in Note 1 above - Financial Advisory and Asset Management. In addition, as described in Note 1 above, the Company records selected other activities in its Corporate segment.

The Company's segment information for the three months ended March 31, 2014 and 2013 is prepared using the following methodology:

Revenue and expenses directly associated with each segment are included in determining operating income.

Expenses not directly associated with specific segments are allocated based on the most relevant measures applicable, including headcount, square footage and other factors.

Segment assets are based on those directly associated with each segment, and include an allocation of certain assets relating to various segments, based on the most relevant measures applicable, including headcount, square footage and other factors.

The Company allocates investment gains and losses, interest income and interest expense among the various segments based on the segment in which the underlying asset or liability is reported.

Each segment's operating expenses include (i) compensation and benefits expenses incurred directly in support of the businesses and (ii) other operating expenses, which include directly incurred expenses for occupancy and equipment, marketing and business development, technology and information services, professional services, fund administration and outsourced services and indirect support costs (including compensation and other operating expenses related thereto) for administrative services. Such administrative services include, but are not limited to, accounting, tax, legal, facilities management and senior management activities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with Lazard Ltd's condensed consolidated financial statements and the related notes included elsewhere in this Quarterly Report on Form 10-Q (the "Form 10-Q"), as well as Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") included in our Annual Report on Form 10-K for the year ended December 31, 2013 (the "Form 10-K"). All references to 2014, 2013, first quarter, three months or the period refer to, as the context requires, the three month periods ended March 31, 2014 and March 31, 2013.

Forward-Looking Statements and Certain Factors that May Affect Our Business

Management has included in Parts I and II of this Form 10-Q, including in its MD&A, statements that are forward-looking statements. In some cases, you can identify these statements by forward-looking words such as may, might, will, should, could expect, plan, anticipate, estimate, predict, potential, target, goal or continue, and the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies, business plans and initiatives and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. These factors include, but are not limited to, those discussed in our Form 10-K under the caption "Risk Factors," including the following:

a decline in general economic conditions or the global financial markets,

a decline in our revenues, for example due to a decline in overall mergers and acquisitions ("M&A") activity, our share of the M&A market or our assets under management ("AUM"),

losses caused by financial or other problems experienced by third parties,

losses due to unidentified or unanticipated risks,

a lack of liquidity, *i.e.*, ready access to funds, for use in our businesses, and

competitive pressure on our businesses and on our ability to retain and attract employees at current compensation levels.

These risks and uncertainties are not exhaustive. Other sections of the Form 10-K and this Form 10-Q describe additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for our management to predict all risks and uncertainties, nor can management assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. Business Summary

Lazard is one of the world's preeminent financial advisory and asset management firms. We have long specialized in crafting solutions to the complex financial and strategic challenges of a diverse set of clients around the world, including corporations, governments, institutions, partnerships and individuals. Founded in 1848 in New Orleans, we currently operate from 41 cities in key business and financial centers across 26 countries throughout Europe, North America, Asia, Australia, the Middle East and Central and South America.

Our primary business purpose is to serve our clients. Our deep roots in business centers around the world form a global network of relationships with key decision-makers in corporations, governments and investing institutions. This network is both a competitive strength and a powerful resource for Lazard and our clients. As a firm that competes on the quality of our advice, we have two fundamental assets: our people and our reputation.

We operate in cyclical businesses across multiple geographies, industries and asset classes. In recent years, we have expanded our geographic reach, bolstered our industry expertise and continued to build in growth areas.

Table of Contents

Companies, government bodies and investors seek independent advice with a geographic perspective, deep understanding of capital structure, informed research and knowledge of global economic conditions. We believe that our business model as an independent advisor will continue to create opportunities for us to attract new clients and key personnel.

Our principal sources of revenue are derived from activities in the following business segments:

Financial Advisory, which offers corporate, partnership, institutional, government, sovereign and individual clients across the globe a wide array of financial advisory services regarding M&A and other strategic matters, restructurings, capital structure, capital raising and various other financial matters, and

Asset Management, which offers a broad range of global investment solutions and investment management services in equity and fixed income strategies, alternative investments and private equity funds to corporations, public funds, sovereign entities, endowments and foundations, labor funds, financial intermediaries and private clients.

In addition, we record selected other activities in our Corporate segment, including management of cash, investments and outstanding indebtedness, as well as certain commercial banking activities of Lazard Group's Paris-based subsidiary, Lazard Frères Banque SA (LFB).

LFB is a registered bank regulated by the Autorité de Contrôle Prudentiel et de Résolution (ACPR). It is engaged primarily in commercial and private banking services for clients and funds managed by Lazard Frères Gestion SAS (LFG) and for other clients, investment banking activities, including participation in underwritten offerings of securities in France, and asset-liability management.

Our consolidated net revenue was derived from the following segments:

	Three Months Ended March 31,	
	2014	2013
Financial Advisory	52%	42%
Asset Management	50	61
Corporate	(2)	(3)
Total	100%	100%

We also invest our own capital from time to time, generally alongside capital of qualified institutional and individual investors in alternative investments or private equity investments, and, since 2005, we have engaged in a number of alternative investments and private equity activities, including investments through (i) the Edgewater Funds (Edgewater), our Chicago-based private equity firm (see Note 10 of Notes to Condensed Consolidated Financial Statements), (ii) Lazard Australia Corporate Opportunities Fund 2 (COF2), a Lazard-managed Australian fund targeting Australasian mid-market investments, (iii) a mezzanine fund, which invests in mezzanine debt of a diversified selection of small-to mid-cap European companies and (iv) a fund targeting significant noncontrolling-stake investments in established private companies. We also make investments to seed our Asset Management strategies. We may explore and discuss opportunities to expand the scope of our alternative investment and private equity activities in Europe, the U.S. and elsewhere. These opportunities could include internal growth of new funds and direct investments by us, partnerships or strategic relationships, investments with third parties or acquisitions of existing funds or management companies. Also, consistent with any obligations to LFCM Holdings LLC (LFCM Holdings), we may explore capital markets opportunities.

Business Environment and Outlook

Economic and global financial market conditions can materially affect our financial performance. As described above, our principal sources of revenue are derived from activities in our Financial Advisory and Asset Management business segments. As our Financial Advisory revenues are primarily dependent on the successful completion of merger, acquisition, restructuring, capital raising or similar transactions, and our Asset Management revenues are primarily driven by the levels of AUM, weak economic and global financial market conditions can result in a challenging business environment for M&A and capital-raising activity as well as our Asset Management business, but may provide opportunities for our restructuring business.

Equity market indices for developed markets at March 31, 2014 increased as compared to such indices at March 31, 2013, while equity market indices for emerging markets decreased as compared to March 31, 2013. On an industry-wide basis, during the first quarter of 2014, the number of completed and announced M&A transactions decreased as compared to the same period in the prior year, while the value of announced transactions increased as compared to the same period in the prior year. Global restructuring activity, as measured by the number of corporate defaults, was lower in the first quarter of 2014 as compared to the same period in the prior year, and the aggregate value of debt defaults remained low, consistent with the last several years.

In early 2014, interest rates remain low and corporate cash balances remain high. Macroeconomic conditions appear to be improving in the developed countries, particularly in North America, CEO and board confidence appears to be returning and, as such, companies based in these regions may be better positioned to make acquisitions for future growth and investors may be increasingly interested in deploying capital for investment purposes. Although market volatility may continue, we believe the long term trends appear positive.

We intend to leverage our existing infrastructure to capitalize on any global macroeconomic recovery, any upturn in the M&A cycle, and any momentum in the global equity markets. We expect to generate revenue growth by remaining adequately staffed to capitalize on any macroeconomic recovery and deploying our intellectual capital to generate new revenue streams. The cost saving initiatives that we began in 2012 are effectively complete, and through 2013, more than two-thirds of these savings were realized, with the full impact of all the savings expected to be reflected in our 2014 results. See *Cost Saving Initiatives* below and Note 14 of Notes to Condensed Consolidated Financial Statements.

Our outlook with respect to our Financial Advisory and Asset Management businesses is described below.

Financial Advisory In the near- to mid-term, we expect that the U.S. macroeconomic environment will likely be the strongest of the developed economies. Certain legal decisions in the U.S. reinforce the importance of independent advice, and the global scale and breadth of our Financial Advisory business allows us to advise on large, complex cross-border transactions across a variety of industries. We continue to develop our range of advisory capabilities, in particular in Europe, with our Sovereign Advisory, Restructuring and Capital Advisory businesses. In addition, we believe our businesses throughout the emerging markets, Japan and Australia position us for growth in these markets, while enhancing our relationships with, and the services that we can provide to, clients in developed economies. We have also established the Lazard Africa initiative, to leverage our sovereign and corporate expertise in this rapidly growing region, for our clients in both developed and developing countries.

Asset Management Generally, we have seen increased investor demand across regions and investment platforms. In the short to intermediate term, we expect most of our growth will come from defined benefit and defined contribution plans in the developed economies because of their sheer scope and size. Over the longer term, we expect an increasing share of our AUM to come from the developing economies in Asia, Latin America and the Middle East, as their retirement systems evolve and individual wealth is increasingly deployed in the financial markets. Our global footprint is already well established in the developed economies and we expect our business in the developing economies will continue to expand. Given our globally diversified platform and our ability to provide investment

Table of Contents

solutions for a global mix of clients, we believe we are positioned to benefit from growth that may occur in the asset management industry. We recently extended the global footprint of our Asset Management business by opening new offices in Zurich, Singapore and Dubai. We are continually developing and seeding new investment strategies that extend our existing platforms. Recent examples of growth initiatives include the following investment strategies: Emerging Markets Debt, Core Emerging Markets Equity, Emerging Markets Small Cap Equity, Real Estate, Managed Volatility Strategies, Middle East North African Equities and Asian Equities.

We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge continuously, and it is not possible for our management to predict all risks and uncertainties, nor can we assess the impact of all potentially applicable factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. See Item 1A, "Risk Factors" in our Form 10-K. Furthermore, net income and revenue in any period may not be indicative of full-year results or the results of any other period and may vary significantly from year to year and quarter to quarter.

Overall, we continue to focus on the development of our business, including the generation of stable revenue and earnings growth and stockholder returns, the prudent management of our costs and expenses, the efficient use of our assets and the return of capital to our stockholders.

Certain data with respect to our Financial Advisory and Asset Management businesses is included below.

Financial Advisory

As reflected in the following table, which sets forth global M&A industry statistics, the value and number of all completed transactions decreased in the first quarter of 2014 as compared to the first quarter of 2013, however for deals with values greater than \$500 million, the value and number increased in the current period as compared to the prior period. With respect to announced M&A transactions, the value of all transactions, including deals with values greater than \$500 million, increased substantially in the first quarter of 2014 as compared to the first quarter of 2013.

Global restructuring activity during the first quarter of 2014, as measured by the number of corporate defaults, decreased as compared to the first quarter of 2013, and the aggregate value of debt defaults remained low, consistent with the last several years. The number of defaulting issuers decreased to 8 in the first quarter of 2014, according to Moody's Investors Service, Inc., as compared to 21 in the first quarter of 2013. In the U.S., the number of corporate defaults decreased 36% in the first quarter of 2014 as compared to the first quarter of 2013, while the value of such defaults decreased 67% during the same period.

Asset Management

The percentage change in major equity market indices at March 31, 2014, as compared to such indices at December 31, 2013, and at March 31, 2013, is shown in the table below.

	Percentage Changes	
	March 31, 2014 vs.	
	December 31, 2013	March 31, 2013
MSCI World Index	1%	17%
Euro Stoxx	2%	21%
MSCI Emerging Market	(1)%	(4)%
S&P 500	1%	19%

The fees that we receive for providing investment management and advisory services are primarily driven by the level of AUM and the nature of the AUM product mix. Accordingly, market movements, foreign currency volatility and changes in our AUM product mix will impact the level of revenues we receive from our Asset Management business when comparing periodic results. A substantial portion of our AUM is invested in equities. Movements in AUM during the period generally reflect the changes in equity market indices. Our AUM at March 31, 2014 increased 1% versus AUM at December 31, 2013, due to market and foreign exchange appreciation as well as net inflows. Average AUM in the first quarter of 2014 increased 9% as compared to average AUM in the first quarter of 2013.

Cost Saving Initiatives

In October 2012, we announced cost saving initiatives which, at that time, were expected to result in approximately \$125 million in annual savings from our compensation and non-compensation cost base. We currently expect total annual savings related to the cost saving initiatives to be approximately \$160 million, partially offset by investment in our business.

Approximately \$120 million of the expected annual savings relate to compensation expense associated with our headcount, and approximately \$40 million to non-compensation expense. Through 2013, more than two-thirds of these savings were realized, with the full impact of all the savings expected to be reflected in our 2014 results.

Expenses associated with implementation of the cost saving initiatives were completed in the second quarter of 2013 and were reflected in our financial results. These implementation expenses were approximately: \$38 million in the second quarter of 2013; \$26 million in the first quarter of 2013; and \$103 million in the fourth quarter of 2012, for a total of approximately \$167 million.

The cost saving initiatives are intended to improve our profitability with minimal impact on revenue growth. The initiatives include: streamlining our corporate structure and consolidating support functions; realigning our investments into areas with potential for the greatest long-term return; the settlement of certain contractual obligations; reducing occupancy costs; and creating greater flexibility to retain and attract the best people and invest in new growth areas.

Financial Statement Overview

Net Revenue

The majority of Lazard's Financial Advisory net revenue historically has been earned from the successful completion of M&A transactions, strategic advisory matters, restructuring and capital structure advisory services, capital raising and similar transactions. The main drivers of Financial Advisory net revenue are overall M&A activity, the level of corporate debt defaults and the environment for capital raising activities, particularly in the industries and geographic markets in which Lazard focuses. In some client engagements, often those involving financially distressed companies, revenue is earned in the form of retainers and similar fees that are contractually agreed upon with each client for each assignment and are not necessarily linked to the completion of a transaction. In addition, Lazard also earns fees from providing strategic advice to clients, with such fees not being dependent on a specific transaction, and may also earn fees in connection with public and private securities offerings and for referring opportunities to LFCM Holdings for underwriting, distribution and placement of securities. The referral fees received from LFCM Holdings are generally one-half of the revenue recorded by LFCM Holdings in respect of such activities. Significant fluctuations in Financial Advisory net revenue can occur over the course of any given year, because a significant portion of such net revenue is earned upon the successful completion of a transaction, restructuring or capital raising activity, the timing of which is uncertain and is not subject to Lazard's control.

Lazard's Asset Management segment principally includes LAM, LFG and Edgewater. Asset Management net revenue is derived from fees for investment management and advisory services provided to clients. As noted above, the main driver of Asset Management net revenue is the level and product mix of AUM, which is generally influenced by the performance of the global equity markets and, to a lesser extent, fixed income markets as well as Lazard's investment performance, which impacts its ability to successfully attract and retain assets. As a result, fluctuations (including timing thereof) in financial markets and client asset inflows and outflows have a direct effect on Asset Management net revenue and operating income. Asset Management fees are generally based on the level of AUM measured daily, monthly or quarterly, and an increase or reduction in AUM, due to market price fluctuations, currency fluctuations, changes in product mix, or net client asset flows will result in a corresponding increase or decrease in management fees. The majority of our investment advisory contracts are generally terminable at any time or on notice of 30 days or less. Institutional and individual clients, and firms with which we have strategic alliances, can terminate their relationship with us, reduce the aggregate amount of AUM or shift their funds to other types of accounts with different rate structures for a number of reasons, including investment performance, changes in prevailing interest rates and financial market performance. In addition, as Lazard's AUM includes significant amounts of assets that are denominated in currencies other than U.S. Dollars, changes in the value of the U.S. Dollar relative to foreign currencies will impact the value of Lazard's AUM. Fees vary with the type of assets managed and the vehicle in which they are managed, with higher fees earned on equity assets and alternative investment funds, such as hedge funds and private equity funds, and lower fees earned on fixed income and cash management products.

The Company earns performance-based incentive fees on various investment products, including traditional products and alternative investment funds, such as hedge funds and private equity funds.

For hedge funds, incentive fees are calculated based on a specified percentage of a fund's net appreciation, in some cases in excess of established benchmarks or thresholds. The Company records incentive fees on traditional products and hedge funds at the end of the relevant performance measurement period, when potential uncertainties regarding the ultimate realizable amounts have been determined. The incentive fee measurement period is generally an annual period (unless an account terminates during the year). The incentive fees received at the end of the measurement period are not subject to reversal or payback. Incentive fees on hedge funds are often subject to loss carryforward provisions in which losses incurred by the hedge funds in any year are applied against certain gains realized by the hedge funds in future periods before any incentive fees can be earned.

For private equity funds, incentive fees may be earned in the form of a carried interest if profits arising from realized investments exceed a specified threshold. Typically, such carried interest is ultimately calculated

Table of Contents

on a whole-fund basis and, therefore, clawback of carried interest during the life of the fund can occur. As a result, incentive fees earned on our private equity funds are not recognized until potential uncertainties regarding the ultimate realizable amounts have been determined, including any potential for clawback.

Corporate segment net revenue consists primarily of investment gains and losses on the Company's seed investments related to our Asset Management business, principal investments in private equity funds and equity method investments, net of hedging activities, as well as gains and losses on investments held in connection with Lazard Fund Interests and on the extinguishment of debt (to the extent applicable), interest income and interest expense. Corporate net revenue also can fluctuate due to changes in the fair value of investments classified as trading, as well as due to changes in interest and currency exchange rates and in the levels of cash, investments and indebtedness.

Although Corporate segment net revenue during the first quarter of 2014 represented (2)% of Lazard's net revenue, total assets in the Corporate segment represented 57% of Lazard's consolidated total assets as of March 31, 2014, which are attributable to investments in government bonds and money market funds, fixed income funds, alternative investment funds and other securities, private equity investments, cash and assets associated with LFB.

Operating Expenses

The majority of Lazard's operating expenses relate to compensation and benefits for managing directors and employees. Our compensation and benefits expense includes (i) salaries and benefits, (ii) amortization of the relevant portion of previously granted deferred incentive compensation awards, including (a) share-based incentive compensation under the Lazard Ltd 2005 Equity Incentive Plan (the 2005 Plan) and the Lazard Ltd 2008 Incentive Compensation Plan (the 2008 Plan) and (b) Lazard Fund Interests awards and other similar deferred compensation arrangements (see Note 12 of Notes to Condensed Consolidated Financial Statements), (iii) a provision for discretionary or guaranteed cash bonuses and profit pools and (iv) when applicable, severance payments. Compensation expense in any given period is dependent on many factors, including general economic and market conditions, our actual and forecasted operating and financial performance, staffing levels, competitive pay conditions and the nature of revenues earned, as well as the mix between current and deferred compensation.

For interim periods, we use adjusted compensation and benefits expense and the ratio of adjusted compensation and benefits expense to operating revenue, both non-U.S. GAAP measures, for comparison of compensation and benefits expense between periods. For the reconciliations and calculations with respect to adjusted compensation and benefits expense and related ratios to operating revenue, see the table under Consolidated Results of Operations below.

We believe that awarded compensation and benefits expense and the ratio of awarded compensation and benefits expense to operating revenue, both non-U.S. GAAP measures, are the most appropriate measures to assess the annual cost of compensation and provide the most meaningful basis for comparison of compensation and benefits expense between present, historical and future years. Awarded compensation and benefits expense for a given year is calculated using adjusted compensation and benefits expense, also a non-U.S. GAAP measure, as modified by the following items:

We deduct amortization expense recorded for U.S. GAAP purposes in each fiscal year associated with the vesting of deferred incentive compensation awards,

We add (i) the grant date fair value of the deferred incentive compensation awards granted applicable to the relevant year-end compensation process (*i.e.* the grant date fair value of deferred incentive awards granted in 2014, 2013 and 2012 related to the 2013, 2012 and 2011 year-end compensation processes, respectively) and (ii) investments in people (*i.e.* sign-on bonuses) and other special deferred incentive awards granted throughout the applicable year, with such amounts in (i) and (ii) reduced by an estimate of future forfeitures of such awards, and

We adjust for year-end foreign exchange fluctuations.

Table of Contents

Compensation and benefits expense is the largest component of our operating expenses. Our goal is for awarded compensation and benefits expense to rise at a slower rate than operating revenue growth, and if operating revenue declines, awarded compensation and benefits expense should also decline. In addition, we seek to maintain discipline with respect to the rate at which we award deferred compensation. Based on a similar level and mix of revenues from our business as in 2012 and a gradual improvement in the macroeconomic environment, we believe that over the cycle we can attain a ratio of awarded compensation and benefits expense to operating revenue in the mid-to-high-50s percentage range, which compares to 58.3% for the year ended December 31, 2013. While we have implemented initiatives, including the cost saving initiatives announced in October 2012 (see *Cost Saving Initiatives* above and Note 14 of Notes to Condensed Consolidated Financial Statements), that we believe will assist us in attaining a ratio within this range, there can be no guarantee that such a ratio will be attained or that our policies or initiatives will not change in the future. We may benefit from pressure on compensation costs within the financial services industry in future periods; however, increased competition for senior professionals, changes in the macroeconomic environment or the financial markets generally, lower operating revenue resulting from, for example, a decrease in M&A activity, our share of the M&A market, AUM levels and/or changes in the mix of revenues from our businesses or various other factors could prevent us from attaining this goal.

Our operating expenses also include non-compensation expense, which includes costs for occupancy and equipment, marketing and business development, technology and information services, professional services, fund administration and outsourced services and other expenses, and, in the 2013 period, the relevant portion of the expense relating to the implementation of the cost saving initiatives. For all periods, the amortization of intangible assets related to acquisitions pertains primarily to the acquisition of Edgewater.

We believe that adjusted non-compensation expense, a non-U.S. GAAP measure, provides a more meaningful basis for assessing our operating results. For calculations with respect to adjusted non-compensation expense see the table under *Consolidated Results of Operations* below.

Provision for Income Taxes

As a result of its indirect investment in Lazard Group, Lazard Ltd, through certain of its subsidiaries, is subject to U.S. federal income taxes on its portion of Lazard Group's operating income. Although a portion of Lazard Group's income is subject to U.S. federal income taxes, Lazard Group primarily operates in the U.S. as a limited liability company that is treated as a partnership for U.S. federal income tax purposes. As a result, Lazard Group's income from its U.S. operations is generally not subject to U.S. federal income taxes because such income is attributable to its partners. Outside the U.S., Lazard Group operates principally through subsidiary corporations that are subject to local income taxes. Income taxes shown on Lazard's consolidated statements of operations are principally related to foreign taxes from non-U.S. entities and to New York City Unincorporated Business Tax (UBT) attributable to Lazard Group's operations apportioned to New York City (see Note 15 of Notes to Condensed Consolidated Financial Statements for additional information).

Noncontrolling Interests

Noncontrolling interests primarily consist of amounts related to Edgewater's management vehicles that the Company is deemed to control but not own and the amount attributable to LAZ-MD Holdings' ownership interest in the net income of Lazard Group. See Note 11 of Notes to Condensed Consolidated Financial Statements for information regarding the Company's noncontrolling interests. The Company expects that all remaining interests in LAZ-MD Holdings that are exchangeable for shares of the Company's Class A common stock will be exchanged in May 2014. Following such event, Lazard Group will be a wholly-owned indirect subsidiary of Lazard Ltd, and the sole issued and outstanding share of the Company's Class B common stock will automatically convert into one share of the Company's Class A common stock.

Consolidated Results of Operations

Lazard's consolidated financial statements are presented in U.S. Dollars. Many of our non-U.S. subsidiaries have a functional currency (*i.e.*, the currency in which operational activities are primarily conducted) that is other than the U.S. Dollar, generally the currency of the country in which the subsidiaries are domiciled. Such

Table of Contents

subsidiaries' assets and liabilities are translated into U.S. Dollars using exchange rates as of the respective balance sheet date, while revenue and expenses are translated at average exchange rates during the respective periods based on the daily closing exchange rates. Adjustments that result from translating amounts from a subsidiary's functional currency are reported as a component of stockholders' equity. Foreign currency remeasurement gains and losses on transactions in non-functional currencies are included in the consolidated statements of operations.

The condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). Selected financial data from the Company's reported condensed consolidated results of operations is set forth below, followed by a more detailed discussion of both the consolidated and business segment results.

The tables below describe the components of operating revenue, adjusted compensation and benefits expense, adjusted non-compensation expense, earnings from operations and related key ratios, which are non-U.S. GAAP measures used by the Company to manage its business. We believe such non-U.S. GAAP measures provide the most meaningful basis for comparison between present, historical and future periods, as described above.

Operating Results

The Company's quarterly revenue and profits can fluctuate materially depending on the number, size and timing of completed transactions on which it advised, as well as seasonality, the performance of equity markets and other factors. Accordingly, the revenue and profits in any particular quarter may not be indicative of future results. Lazard management believes that annual results are the most meaningful basis for comparison among present, historical and future periods.

Three Months Ended March 31, 2014 versus March 31, 2013

The Company reported net income attributable to Lazard Ltd of \$81 million, as compared to net income of \$15 million in the 2013 period. The changes in the Company's operating results during these periods are described below.

Net revenue increased \$131 million, or 33%, with operating revenue increasing \$127 million, or 31%, as compared to the 2013 period. Fee revenue from investment banking and other advisory activities increased \$105 million, or 62%, primarily due to increases in M&A and Other Advisory fees. The increase in M&A and Other Advisory fee revenue was primarily due to an increase in the absolute number of completed transactions involving fees greater than \$1 million as compared to the 2013 period, as well as in the number of those transactions generating fees significantly greater than \$1 million. Money management fees, including incentive fees, increased \$22 million, or 9%, principally reflecting a \$15 billion, or 9%, increase in average AUM as compared to the 2013 period. In the aggregate, interest income, other revenue and interest expense reflected an increase in net revenue of \$5 million as compared to the 2013 period. Such increase was primarily due to a decrease in interest expense as a result of the refinancing of the Company's 7.125% senior notes due 2015 (the 2015 Notes) (See Note 9 of Notes to Condensed Consolidated Financial Statements for additional information).

Compensation and benefits expense increased \$44 million, or 16%, as compared to the 2013 period (which included a \$24 million charge related to the cost saving initiatives), primarily driven by higher operating revenue.

Adjusted compensation and benefits expense (which excludes certain items and which we believe allows for improved comparability between interim periods, as described above), was \$318 million, an increase of \$70

Table of Contents

million, or 28%, as compared to \$248 million in the 2013 period, primarily driven by higher operating revenue. The ratio of adjusted compensation and benefits expense to operating revenue was 58.8% for the 2014 period, which is consistent with the 2013 full year adjusted compensation ratio, as compared to 60.0% for the 2013 period. As described above, when analyzing compensation and benefits expense on an interim basis, we believe that adjusted compensation and benefits expense provides the most meaningful basis for comparison of compensation and benefits expense between present, historical and future interim periods.

Non-compensation expense increased \$2 million, or 2%, as compared to the 2013 period (which included a charge of \$2 million related to the cost saving initiatives). When excluding such charge, as well as non-compensation costs relating to noncontrolling interests, adjusted non-compensation expense increased \$3 million, or 3%, as compared to the 2013 period, primarily due to increases in (i) marketing and business development expense associated with higher expenses for travel and other business development; (ii) higher mutual fund servicing fees and outsourced services reflecting the implementation of an existing outsourcing arrangement across a broader number of accounts, as well as the increase in average AUM, partially offset by a decrease in professional fees. The ratio of adjusted non-compensation expense to operating revenue was 19.1%, as compared to 24.1% in the 2013 period.

Amortization of intangible assets remained substantially unchanged as compared to the 2013 period.

Operating income increased \$86 million, as compared to the 2013 period (including the charges relating to the cost saving initiatives of \$26 million). Operating income, as a percentage of net revenue, was 20.1%, as compared to 5.4% in the 2013 period.

Earnings from operations increased \$54 million, or 81%, as compared to the 2013 period, and, as a percentage of operating revenue, was 22.1%, as compared to 15.9% in the 2013 period.

The provision for income taxes reflects an effective tax rate of 20.3%, as compared to 18.3% for the 2013 period. The increase in the effective tax rate is primarily reflective of the change in the geographic mix of earnings (see Note 15 of Notes to Condensed Consolidated Financial Statements for additional information).

Net income attributable to noncontrolling interests increased \$2 million as compared to the 2013 period.

Business Segments

The following is a discussion of net revenue and operating income for the Company's segments - Financial Advisory, Asset Management and Corporate. Each segment's operating expenses include (i) compensation and benefits expenses that are incurred directly in support of the segment and (ii) other operating expenses, which include directly incurred expenses for occupancy and equipment, marketing and business development, technology and information services, professional services, fund administration and outsourcing, and indirect support costs (including compensation and benefits expense and other operating expenses related thereto) for administrative services. Such administrative services include, but are not limited to, accounting, tax, legal, information technology, facilities management and senior management activities. Such support costs are allocated to the relevant segments based on various statistical drivers such as revenue, headcount, square footage and other factors.

Net revenue trends in Financial Advisory for M&A and Other Advisory and Restructuring are generally correlated to the level of completed industry-wide M&A transactions and restructuring transactions occurring subsequent to corporate debt defaults, respectively. However, deviations from this relationship can occur in any given year for a number of reasons. For instance, our results can diverge from industry-wide activity where there are material variances from the level of industry-wide M&A activity in a particular market where Lazard has significant market share, or regarding the relative number of our advisory engagements with respect to larger-sized transactions, and where we are involved in non-public or sovereign advisory assignments. For example, in the 2014 period, the industry statistics for global M&A transactions described above reflect a 1% decrease in the value, and an 18% decrease in the number, of all completed transactions as compared to the 2013 period. For M&A deals with values greater than \$500 million, the value of completed transactions increased 6%, while the number of such deals remained flat, as compared to the 2013 period. Our M&A and Other Advisory revenue (which includes Sovereign and Capital Structure Advisory revenue) increased 98% as compared to the 2013 period.

The geographical distribution of Financial Advisory net revenue is set forth below in percentage terms and is based on the Lazard offices that generate Financial Advisory net revenue, which are located in the U.S., Europe (primarily in the U.K., France, Italy, Spain and Germany) and the rest of the world (primarily in Australia) and therefore may not be reflective of the geography in which the clients are located.

The Company's managing directors and many of its professionals have significant experience, and many of them are able to use this experience to advise on M&A, strategic advisory matters and restructuring transactions, depending on clients' needs. This flexibility allows Lazard to better match its professionals with the counter-cyclical business cycles of mergers and acquisitions and restructurings. While Lazard measures revenue by practice area, Lazard does not separately measure the costs or profitability of M&A services as compared to restructuring services. Accordingly, Lazard measures performance in its Financial Advisory segment based on overall segment operating revenue and operating income margins.

Financial Advisory Results of Operations

Financial Advisory's quarterly revenue and profits can fluctuate materially depending on the number, size and timing of completed transactions on which it advised, as well as seasonality and other factors. Accordingly, the revenue and profits in any particular quarter or period may not be indicative of future results. Lazard management believes that annual results are the most meaningful basis for comparison among present, historical and future periods.

Three Months Ended March 31, 2014 versus March 31, 2013

Total Strategic Advisory net revenue, representing fees from our M&A and Other Advisory and Capital Raising businesses, increased \$110 million, or 81%, and Restructuring revenue decreased \$3 million, or 9%, as compared to the 2013 period.

M&A and Other Advisory revenue increased \$118 million, or 98%, while Capital Raising revenue decreased by \$8 million, or 58%, as compared to the 2013 period. The increase in M&A and Other Advisory revenue was primarily due to an increase in the absolute number of completed transactions involving fees greater than \$1 million as compared to the 2013 period, as well as in the number of those transactions generating fees significantly greater than \$1 million. Our major clients, which in the aggregate represented a significant portion of our M&A and Other Advisory revenue for the 2014 period, included Cadence Pharmaceuticals, The Coca-Cola Company, Fiat, Google, Leap Wireless, Royal Bank of Scotland, Singapore Power, Shire and Shapell Industries.

Restructuring revenue is derived from various activities including bankruptcy assignments, global debt and financing restructurings, distressed asset sales and advice on complex on- and off-balance sheet assignments, the timing of which may not correspond to industry announced defaults. The decrease in Restructuring revenue in the 2014 period was generally in line with the continued industry-wide low level of corporate restructuring activity. Our major clients, which in the aggregate represented a significant portion of our restructuring revenue for the 2014 period, included A.T.U, Cengage Learning, Dubai Group, Munshaat and Savient Pharmaceuticals.

Operating expenses increased \$29 million, or 13%, as compared to the 2013 period, and in the 2013 period included a \$22 million charge related to the cost saving initiatives. Excluding such charge, operating expenses increased \$51 million, or 26%. The primary contributors to the increase were higher compensation and benefits expense due to higher operating revenue.

Table of Contents

Financial Advisory operating income was \$30 million, an increase of \$78 million as compared to operating loss of \$48 million (including the impact of the \$22 million charge related to the cost saving initiatives) in the 2013 period and, as a percentage of net revenue, was 10.9%, as compared to (28.8%) in the 2013 period. Excluding the impact of such charges in the 2013 period, operating income increased \$57 million as compared to operating income in the 2013 period.

Asset Management

The following table shows the composition of AUM for the Asset Management segment:

Private Equity	1,156	1,151
Cash Management	166	147
Total AUM	\$ 189,453	\$ 186,924

Total AUM at March 31, 2014 was \$189 billion, an increase of \$3 billion, or 1%, as compared to total AUM of \$187 billion at December 31, 2013, due to market and foreign exchange appreciation and net inflows. Average AUM for the three months ended March 31, 2014 was 9% higher than that for three months ended March 31, 2013.

As of March 31, 2014, approximately 89% of our AUM was managed on behalf of institutional clients, including corporations, labor unions, public pension funds, insurance companies and banks, and through sub-advisory relationships, mutual fund sponsors, broker-dealers and registered advisors, and approximately 11% of our AUM was managed on behalf of individual client relationships, which are principally with family offices and individuals, and was substantially unchanged from the corresponding percentages at December 31, 2013.

As of March 31, 2014, AUM denominated in foreign currencies represented approximately 62% of our total AUM, as compared to 63% at December 31, 2013. Foreign denominated AUM generally declines in value with the strengthening of the U.S. Dollar and increases in value as the U.S. Dollar weakens, with all other factors held constant.

Asset Management Results of Operations

Asset Management's quarterly revenue and profits in any particular quarter or period may not be indicative of future results and may fluctuate based on the performance of the equity and other capital markets. Lazard management believes that annual results are the most meaningful basis for comparison among present, historical and future periods.

Three Months Ended March 31, 2014 versus March 31, 2013

Asset Management net revenue increased \$25 million, or 10%, as compared to the 2013 period. Management fees increased \$20 million, or 9%, as compared to the 2013 period, reflecting a \$15 billion, or 9%, increase in average AUM. Incentive fees increased \$2 million, or 18%, as compared to the 2013 period, primarily due to fees related to traditional investment products. Other revenue increased \$3 million, or 22%, as compared to the 2013 period, primarily due to higher transaction based commission revenue as a result of increased market activity and custody fees.

Operating expenses increased \$21 million, or 13%, as compared to the 2013 period, primarily in (i) compensation and benefits expense related to the increase in operating revenue, (ii) mutual fund servicing fees and in outsourced services reflecting the implementation of an existing outsourcing arrangement across a broader number of accounts, as well as the increase in average AUM, and (iii) travel and other business

development expenses.

Table of Contents

Asset Management operating income was \$93 million, an increase of \$4 million, or 4%, as compared to operating income of \$89 million (including the impact of the \$0.2 million charge related to the cost saving initiatives) in the 2013 period and, as a percentage of net revenue, was 34.6%, as compared to 36.5% in the 2013 period.

Corporate

(a) In 2013, includes \$4,072 associated with the implementation of the cost saving initiatives.

Corporate Results of Operations

Corporate operating results in any particular quarter or period may not be indicative of future results and may fluctuate based on a variety of factors. Lazard management believes that annual results are the most meaningful basis for comparison among present, historical and future periods.

Three Months Ended March 31, 2014 versus March 31, 2013

Net interest expense decreased \$4 million, or 23%, as compared to the 2013 period, primarily due to the refinancing of the 2015 Notes.

Other revenue decreased \$5 million, or 51%, as compared to the 2013 period, primarily due to decreased investment income.

Operating expenses decreased \$3 million, or 39%, as compared to the 2013 period, and included in the 2013 period charges of \$4 million associated with the cost saving initiatives. Excluding the impact of such charges, operating expenses remained substantially unchanged as compared to the 2013 period.

Cash Flows

The Company's cash flows are influenced primarily by the timing of the receipt of Financial Advisory and Asset Management fees, the timing of distributions to shareholders, payments of incentive compensation to managing directors and employees and purchases of Class A common stock. M&A and Other Advisory and Asset Management fees are generally collected within 60 days of billing, while Restructuring fee collections may extend beyond 60 days, particularly those that involve bankruptcies with court-ordered holdbacks. Fees from our Private Fund Advisory activities are generally collected over a four-year period from billing and typically include an interest component.

Table of Contents

The Company makes cash payments for, or in respect of, a significant portion of its incentive compensation during the first three months of each calendar year with respect to the prior year's results. In addition, during 2014 and 2013, the Company made cash payments, including severance payments, associated with the cost saving initiatives (see "Cost Saving Initiatives" above and Note 14 of Notes to Condensed Consolidated Financial Statements).

Liquidity and Capital Resources

The Company's liquidity and capital resources are derived from operating activities, financing activities and equity offerings.

Operating Activities

Net revenue, operating income and cash receipts fluctuate significantly between periods. In the case of Financial Advisory, fee receipts are generally dependent upon the successful completion of client transactions, the occurrence and timing of which is irregular and not subject to

Edgar Filing: Lazard Ltd - Form 10-Q

Lazard's control.

Liquidity is significantly impacted by cash payments for, or in respect of, incentive compensation, a significant portion of which are made during the first three months of the year. As a consequence, cash on hand generally

Table of Contents

declines in the beginning of the year and gradually builds over the remainder of the year. We also pay certain tax advances during the year on behalf of our managing directors, which serve to reduce their respective incentive compensation payments. We expect this seasonal pattern of cash flow to continue. During 2013, liquidity was also impacted by cash payments, including severance payments, associated with the cost saving initiatives (see *Cost Saving Initiatives* above and Note 14 of Notes to Condensed Consolidated Financial Statements).

Lazard's consolidated financial statements are presented in U.S. Dollars. Many of Lazard's non-U.S. subsidiaries have a functional currency (*i.e.*, the currency in which operational activities are primarily conducted) that is other than the U.S. Dollar, generally the currency of the country in which such subsidiaries are domiciled. Such subsidiaries' assets and liabilities are translated into U.S. Dollars at the respective balance sheet date exchange rates, while revenue and expenses are translated at average exchange rates during the year based on the daily closing exchange rates. Adjustments that result from translating amounts from a subsidiary's functional currency are reported as a component of members'/stockholders equity. Foreign currency remeasurement gains and losses on transactions in non-functional currencies are included on the consolidated statements of operations.

We regularly monitor our liquidity position, including cash levels, credit lines, principal investment commitments, interest and principal payments on debt, capital expenditures, dividend payments, purchases of shares of Class A common stock and Lazard Group common membership interests and matters relating to liquidity and to compliance with regulatory net capital requirements. At March 31, 2014, Lazard had approximately \$667 million of cash, with such amount including approximately \$313 million held at Lazard's operations outside the U.S. Since Lazard provides for U.S. income taxes on substantially all of its unrepatriated foreign earnings, no material amount of additional U.S. income taxes would be recognized upon receipt of dividends or distributions of such earnings from its foreign operations.

We maintain lines of credit in excess of anticipated liquidity requirements. As of March 31, 2014, Lazard had approximately \$258 million in unused lines of credit available to it, including a \$150 million, three-year, senior revolving credit facility with a group of lenders that expires in September 2015 (the *Credit Facility*) (see *Financing Activities* below) and unused lines of credit available to LFB of approximately \$48 million (at March 31, 2014 exchange rates) and Edgewater of \$55 million. In addition, LFB has access to the Eurosystem Covered Bond Purchase Program of the Banque de France.

The Credit Facility contains customary terms and conditions, including limitations on consolidations, mergers, indebtedness and certain payments, as well as financial condition covenants relating to leverage and interest coverage ratios. Lazard Group's obligations under the Credit Facility may be accelerated upon customary events of default, including non-payment of principal or interest, breaches of covenants, cross-defaults to other material debt, a change in control and specified bankruptcy events.

Financing Activities

The table below sets forth our corporate indebtedness as of March 31, 2014 and December 31, 2013. The agreements with respect to this indebtedness are discussed in more detail in our condensed consolidated financial statements and related notes included elsewhere in this Form 10-Q and in our Form 10-K.

During the fourth quarter of 2013, the Company completed a refinancing of the 2015 Notes by issuing a tender and redemption notice for the 2015 Notes and issuing \$500 million of 4.25% senior notes maturing in 2020 (the 2020 Notes).

Lazard's annual cash flow generated from operations historically has been sufficient to enable it to meet its annual obligations. Lazard has not drawn on its Credit Facility and prior revolving credit facility since June 30, 2006. We believe that our cash flows from operating activities, along with the use of our credit lines as needed, should be sufficient for us to fund our current obligations for the next 12 months.

As long as the lenders' commitments remain in effect, any loan pursuant to the Credit Facility remains outstanding and unpaid or any other amount is due to the lending bank group, the Credit Facility includes financial covenants that require that Lazard Group not permit (i) its Consolidated Leverage Ratio (as defined in the Credit Facility) for the 12-month period ending on the last day of any fiscal quarter to be greater than 4.00 to 1.00 or (ii) its Consolidated Interest Coverage Ratio (as defined in the Credit Facility) for the 12-month period ending on the last day of any fiscal quarter to be less than 3.00 to 1.00. For the 12-month period ended March 31, 2014, Lazard Group was in compliance with such ratios, with its Consolidated Leverage Ratio being 1.50 to 1.00 and its Consolidated Interest Coverage Ratio being 10.85 to 1.00. In any event, no amounts were outstanding under the Credit Facility as of March 31, 2014.

In addition, the Credit Facility, indenture and supplemental indentures relating to Lazard Group's senior notes contain certain other covenants (none of which relate to financial condition), events of default and other customary provisions. At March 31, 2014, the Company was in compliance with all of these provisions. We may, to the extent required and subject to restrictions contained in our financing arrangements, use other financing sources, which may cause us to be subject to additional restrictions or covenants.

See Note 9 of Notes to Condensed Consolidated Financial Statements for additional information regarding senior and subordinated debt.

Stockholders' Equity

At March 31, 2014, total stockholders' equity was \$556 million, as compared to \$630 million at December 31, 2013, including \$486 million and \$560 million attributable to Lazard Ltd on the respective dates. The net activity in stockholders' equity during the three month period ended March 31, 2014 is reflected in the table below (in millions of dollars):

Stockholders' Equity January 1, 2014	\$ 630
Increase (decrease) due to:	
Net income	85
Other comprehensive income	7
Amortization of share-based incentive compensation	61
Purchase of Class A common stock	(107)
Settlement of share-based incentive compensation, net of related tax benefit of \$2 (a)	(80)
Class A common stock dividends	(36)
Distributions to noncontrolling interests, net	(4)
Stockholders' Equity March 31, 2014	\$ 556

(a) The tax withholding portion of share-based compensation is settled in cash, not shares.

The Board of Directors of Lazard Ltd has issued a series of authorizations to repurchase Class A common stock and Lazard Group common membership interests, which help offset the dilutive effect of our share-based incentive compensation plans. During a given year the Company intends to repurchase at least as many shares as

Table of Contents

it expects to ultimately issue pursuant to such compensation plans in respect of year-end incentive compensation attributable to the prior year. The rate at which the Company purchases shares in connection with this annual objective may vary from quarter to quarter due to a variety of factors. Purchases with respect to such program are set forth in the table below:

	Number of Shares/Common Membership Interests Purchased	Average Price Per Share/Common Membership Interest
Three Months Ended March 31:		
2013	831,157	\$ 36.30
2014	2,392,674	\$ 44.69

As of March 31, 2014, a total of \$15 million of share repurchase authorization remained available under the Company's share repurchase program, which will expire on December 31, 2015.

During the three months ended March 31, 2014, the Company had in place trading plans under Rule 10b5-1 of the Securities Exchange Act of 1934, pursuant to which it effected stock repurchases in the open market.

In April 2014, the Board of Directors of Lazard Ltd authorized the repurchase of up to an additional \$200 million in aggregate cost of Class A common stock and Lazard Group common membership interests through December 31, 2015.

The Company plans to continue to deploy excess cash and may do so in a variety of ways, which may include repurchasing outstanding shares of Class A common stock, paying dividends to stockholders and repurchasing its outstanding debt.

See Note 11 and 12 of Notes to Condensed Consolidated Financial Statements for additional information regarding Lazard's stockholders' equity and incentive plans, respectively.

Regulatory Capital

We actively monitor our regulatory capital base. Our principal subsidiaries are subject to regulatory requirements in their respective jurisdictions to ensure their general financial soundness and liquidity, which require, among other things, that we comply with certain minimum capital requirements, record-keeping, reporting procedures, relationships with customers, experience and training requirements for employees and certain other requirements and procedures. These regulatory requirements may restrict the flow of funds to and from affiliates. See Note 18 of Notes to Condensed Consolidated Financial Statements for further information. These regulations differ in the U.S., the U.K., France and other countries in which we operate. Our capital structure is designed to provide each of our subsidiaries with capital and liquidity consistent with its business and regulatory requirements. For a discussion of regulations relating to us, see Item 1, "Business Regulation" included in our Form 10-K.

Table of Contents**Contractual Obligations**

The following table sets forth information relating to Lazard's contractual obligations as of March 31, 2014:

(a) See Note 9 of Notes to Condensed Consolidated Financial Statements.

(b) See Note 5 of Notes to Condensed Consolidated Financial Statements. These amounts are generally due on demand and therefore are presented in the less than 1 year category.

(c) The table above excludes contingent obligations, as well as any possible payments for uncertain tax positions and payments pursuant to the Company's tax receivable agreement, given the inability to estimate the possible amounts and timing of any such payments. See Notes 10, 12, 13 and 15 of Notes to Condensed Consolidated Financial Statements regarding information in connection with commitments, incentive plans, employee benefit plans and income taxes, respectively.

Critical Accounting Policies and Estimates

Management's discussion and analysis of our consolidated financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in conformity with U.S. GAAP. The preparation of Lazard's consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, Lazard evaluates its estimates, including those related to revenue recognition, income taxes, investing activities and goodwill. Lazard bases these estimates on historical experience and various other assumptions that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments, including judgments regarding the carrying values of assets and liabilities, that are not readily apparent from other sources. Actual results may differ from these estimates.

Lazard believes that the critical accounting policies set forth below comprise the most significant estimates and judgments used in the preparation of its consolidated financial statements.

Revenue Recognition

Lazard generates substantially all of its net revenue from providing Financial Advisory and Asset Management services to clients. Lazard recognizes revenue when the following criteria are met:

there is persuasive evidence of an arrangement with a client,

the agreed-upon services have been provided,

fees are fixed or determinable, and

collection is probable.

The Company earns performance-based incentive fees on various investment products, including traditional products and alternative investment funds such as hedge funds and private equity funds (see [Financial Statement Overview](#) for a description of our revenue recognition policies on such fees).

Table of Contents

If, in Lazard's judgment, collection of a fee is not probable, Lazard will not recognize revenue until the uncertainty is removed. We maintain an allowance for doubtful accounts to provide coverage for estimated losses from our receivables. We determine the adequacy of the allowance by estimating the probability of loss based on our analysis of the client's creditworthiness and specifically reserve against exposures where we determine the receivables are impaired, which may include situations where a fee is in dispute or litigation has commenced.

With respect to fees receivable from Financial Advisory activities, such receivables are generally deemed past due when they are outstanding 60 days from the date of invoice. However, some Financial Advisory transactions include specific contractual payment terms that may vary from one month to four years (as is the case for our Private Fund Advisory fees) following the invoice date or may be subject to court approval (as is the case with restructuring assignments that include bankruptcy proceedings). In such cases, receivables are deemed past due when payment is not received by the agreed-upon contractual date or the court approval date, respectively. Financial Advisory fee receivables past due in excess of 180 days are fully provided for unless there is evidence that the balance is collectible. Asset Management fees are deemed past due and fully provided for when such receivables are outstanding 12 months after the invoice date. Notwithstanding our policy for receivables past due, we specifically reserve against exposures relating to Financial Advisory and Asset Management fees where we determine receivables are impaired.

Compensation Liabilities

Annual discretionary compensation represents a significant portion of our annual compensation and benefits expense. We allocate the estimated amount of such annual discretionary compensation to interim periods in proportion to the amount of operating revenue earned in such periods based on an assumed annual ratio of awarded compensation and benefits expense to operating revenue. See Financial Statement Overview Operating Expenses for more information on our periodic compensation and benefits expense.

Income Taxes

As part of the process of preparing our consolidated financial statements, we estimate our income taxes for each of our tax-paying entities in each of their respective jurisdictions. In addition to estimating actual current tax liability for these jurisdictions, we also must account for the tax effects of differences between the financial reporting and tax reporting of items, such as deferred revenue, compensation and benefits expense, unrealized gains or losses on investments and depreciation and amortization, as well as intercompany transactions such as revenue sharing, dividends and interest expense. Differences that are temporary in nature result in deferred tax assets and liabilities. Significant judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities as discussed below, any valuation allowance recorded against our deferred tax assets and our unrecognized tax benefits.

A deferred tax asset is recognized if it is more likely than not (defined as a likelihood of greater than 50%) that a tax benefit will be accepted by a taxing authority. The measurement of deferred tax assets and liabilities is based upon currently enacted tax rates in the applicable jurisdictions. At December 31, 2013, on a consolidated basis, we recorded gross deferred tax assets of approximately \$1.40 billion.

Subsequent to the initial recognition of deferred tax assets, we also must continually assess the likelihood that such deferred tax assets will be realized. If we determine that we may not fully derive the benefit from a deferred tax asset, we consider whether it would be appropriate to apply a valuation allowance against the applicable deferred tax asset. In order to determine whether we apply a valuation allowance, we must assess whether it is more likely than not that such asset will be realized, taking into account all available information. The ultimate realization of a deferred tax asset for a particular entity depends, among other things, on the generation of taxable income by such entity in the applicable jurisdiction. Although we have been profitable on a consolidated basis for the three year periods ended December 31, 2013 and March 31, 2014, certain of our tax-paying entities have individually experienced minimal profits on a cumulative basis during such years and losses

Table of Contents

in 2012, primarily due to permanent differences between net income and taxable income at such entities. Considering the recent operating results of such entities and the other factors listed below, we recorded a valuation allowance of approximately \$1.23 billion on our deferred tax assets as of December 31, 2013 and have not changed our assessment regarding the level of valuation allowance as of March 31, 2014.

We consider multiple possible sources of taxable income when assessing a valuation allowance against a deferred tax asset, including:

future reversals of existing taxable temporary differences;

future taxable income exclusive of reversing temporary differences and carryforwards;

taxable income in prior carryback years; and

tax-planning strategies.

The assessment regarding whether a valuation allowance is required or should be adjusted also considers all available information, including the following:

nature, frequency and magnitude of any past losses and current operating results,

duration of statutory carryforward periods,

historical experience with tax attributes expiring unused, and

near-term and medium-term financial outlook.

The weight we give to any particular item is, in part, dependent upon the degree to which it can be objectively verified. We give greater weight to the recent results of operations of a relevant entity. Pre-tax operating losses on a three year cumulative basis or lack of sustainable profitability are considered significant evidence and will generally outweigh a projection of future taxable income.

As mentioned previously, certain of our tax-paying entities have individually experienced minimal profits on a cumulative basis over the past several years and losses in 2012. Taking into account all available information, we cannot determine that it is more likely than not that deferred tax assets will be realized. If the cumulative positive information outweighs the negative, including among other matters the achievement by the relevant tax-paying entities of sustainable levels of profitability, the evaluation of the realizability of the deferred tax assets could change and a significant amount of the valuation allowance could be released in whole or in part. This could occur at some point or points over the next few years, including as early as the end of 2014. If any significant valuation allowance reduction were to occur, we would likely have a negative effective tax rate in the period in which such reduction occurs. Included in our deferred tax assets as of December 31, 2013 are approximately \$652 million related to certain basis step-ups and approximately \$257 million of net operating losses generated by the amortization of such step-up assets, all of which are subject to the tax receivable agreement. Under the tax receivable agreement, Lazard Group will retain 15% of the actual cash tax savings relating to such assets and will pay 85% of such savings to the owners of Lazard prior to the separation. As a result, in the event of a reduction of our valuation allowance, we also would recognize a liability relating to the portion expected to be payable under the tax receivable agreement. The creation of this liability could potentially offset a significant amount (but not all) of the income we would otherwise recognize upon a release of the valuation allowance.

If any valuation allowance reduction were to occur, for subsequent periods, our effective tax rate, with all other factors being held constant, would increase and could be significantly higher than our effective tax rate in the period immediately preceding the reduction in the valuation allowance. In such a situation, with all other factors being held constant, an increase in our effective tax rate as a result of a reduction in the

valuation allowance would not impact the amount of cash income taxes we would pay to taxing authorities in those subsequent periods.

Table of Contents

The Company records tax positions taken or expected to be taken in a tax return based upon the amount that is more likely than not to be realized or paid, including in connection with the resolution of any related appeals or other legal processes. Accordingly, the Company recognizes liabilities for certain unrecognized tax benefits based on the amounts that are more likely than not to be settled with the relevant taxing authority. Such liabilities are evaluated periodically as new information becomes available and any changes in the amounts of such liabilities are recorded as adjustments to income tax expense. Liabilities for unrecognized tax benefits involve significant judgment and the ultimate resolution of such matters may be materially different from our estimates.

In addition to the discussion above regarding deferred tax assets and associated valuation allowances, as well as unrecognized tax benefit liability estimates, other factors affect our provision for income taxes, including changes in the geographic mix of our business, the level of our annual pre-tax income, transfer pricing and intercompany transactions.

See Item 1A, Risk Factors and see Note 17 of Notes to Consolidated Financial Statements in our Form 10-K for additional information related to income taxes.

Investments

Investments consist primarily of debt and equity securities, interests in alternative investment, debt, equity and private equity funds and investments accounted for under the equity method of accounting.

These investments, with the exception of equity method investments, are carried at fair value on the consolidated statements of financial condition, and any increases or decreases in the fair value of these investments are reflected in earnings. The fair value of investments is generally based upon market prices or the net asset value (NAV) or its equivalent for investments in funds. See Note 5 of Notes to Condensed Consolidated Financial Statements for additional information on the measurement of the fair value of investments.

Gains and losses on investment positions held, which arise from sales or changes in the fair value of the investments, are not predictable and can cause periodic fluctuations in net income and therefore subject Lazard to market and credit risk.

as Level 3 investments. Substantially all of our Level 3 investments at both dates are priced based on NAV. During the three months ended March 31, 2014 and 2013, gains of approximately \$6 million and \$1 million, respectively, were recognized in revenue-other on the consolidated statement of operations pertaining to Level 3 investments. See Notes 4 and 5 of Notes to Condensed Consolidated Financial Statements for additional information regarding investments measured at fair value, including the levels of fair value within which such measurements of fair value fall.

As of March 31, 2014 and December 31, 2013, the Company held seed investments of approximately \$151 million and \$174 million, respectively. Seed investments held in entities in which the Company maintained a controlling interest were \$46 million in six entities as of March 31, 2014, as compared to \$58 million in nine entities as of December 31, 2013.

As of March 31, 2014 and December 31, 2013, the Company did not consolidate or deconsolidate any seed investment entities. As such, 100% of the recorded balance of seed investments as of March 31, 2014 and December 31, 2013 represented the Company's economic interest in the seed investments. See Consolidation of Variable Interest Entities below for more information on the Company's policy regarding the consolidation of seed investment entities.

For additional information regarding risks associated with our investments, see Risk Management Investments below as well as Item 1A. Risk Factors Other Business Risks Our results of operations may be affected by fluctuations in the fair value of positions held in our investment portfolios in our Form 10-K.

Assets Under Management

AUM primarily consists of debt and equity instruments, which have a value that is readily available based on either prices quoted on a recognized exchange or prices provided by external pricing services.

Prices of equity and debt securities and other instruments that comprise our AUM are provided by well-recognized, independent, third-party vendors. Such third-party vendors rely on prices provided by external pricing services which are obtained from recognized exchanges or markets, or, for certain fixed income securities, from an evaluated bid or other similarly sourced price.

Either directly, or through our third-party vendors, we perform a variety of regular due diligence procedures on our pricing service providers. Those procedures include oversight by our internal operations group, review of the pricing service providers' internal control frameworks, review of the pricing service providers' valuation methodologies, reconciliation to client custodial account values and comparison of significant pricing differences.

Goodwill

In accordance with current accounting guidance, goodwill has an indefinite life and is tested for impairment annually or more frequently if circumstances indicate impairment may have occurred. For years prior to 2011, Lazard made estimates and assumptions in order to determine the fair value of its assets and liabilities and to project future earnings using various valuation techniques. Commencing in 2011, as permitted under an amendment issued by the Financial Accounting Standards Board, the Company elected to perform a qualitative evaluation about whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount in lieu of actually calculating the fair value of the reporting unit. During the fourth quarter of 2013, the Company changed the date of its annual impairment testing from December 31 to November 1. See Note 8 of Notes to Condensed Consolidated Financial Statements for additional information regarding goodwill.

Table of Contents

Consolidation of Variable Interest Entities

The consolidated financial statements include the accounts of Lazard Group and entities in which it has a controlling interest. Lazard determines whether it has a controlling interest in an entity by first evaluating whether the entity is a voting interest entity (VOE) or a variable interest entity (VIE) under U.S. GAAP.

Voting Interest Entities. VOEs are entities in which (i) the total equity investment at risk is sufficient to enable the entity to finance itself independently and (ii) the equity holders have the obligation to absorb losses, the right to receive residual returns and the right to make decisions about the entity's activities. Lazard is required to consolidate a VOE if it either holds a majority of the voting interest in such entity or is the general partner in such entity and the third-party investors do not have the right to replace the general partner.

Variable Interest Entities. VIEs are entities that lack one or more of the characteristics of a VOE. If Lazard has a variable interest, or a combination of variable interests, in a VIE, it is required to analyze whether it needs to consolidate such VIE. Lazard is required to consolidate a VIE if, through our variable interests, we absorb a majority of the expected losses, expected residual returns, or both, of such entity.

Lazard's involvement with various entities that are VOEs or VIEs primarily arises from investment management contracts with fund entities in our Asset Management business. Lazard is not required to consolidate such entities because, with the exception of certain seed investments, as discussed below, we do not hold more than an inconsequential equity interest in such entities and we do not hold other variable interests (including our investment management agreements, which do not meet the definition of variable interests) in such entities.

Lazard makes seed investments in certain entities that are considered VOEs and often require consolidation as a result of our investment. The impact of seed investment entities that require consolidation on the consolidated financial statements, including any consolidation or deconsolidation of such entities, is not material to our financial statements. Our exposure to loss from entities in which we have made seed investments is limited to the extent of our investment in, or investment commitment to, such entities. See Critical Accounting Policies and Estimates *Investments* above for more information regarding our investments.

Generally, when the Company initially invests to seed an investment entity, the Company is the majority owner of the entity. Our majority ownership in seed investment entities represents a controlling interest, except when we are the general partner in such entities and the third-party investors have the right to replace the general partner. To the extent material, we consolidate seed investment entities in which we own a controlling interest, and we would deconsolidate any such entity when we no longer have a controlling interest in such entity.

Risk Management

Investments

The Company has investments in a variety of asset classes, primarily debt and equity securities, and interests in alternative investments, debt, equity and private equity funds. The Company makes investments primarily to seed strategies in our Asset Management business or to reduce exposure arising from Lazard Fund Interests and other similar deferred compensation arrangements. The Company measures its net economic exposure to market and other risks arising from investments that it owns, excluding (i) investments held in connection with Lazard Fund Interests and other similar deferred compensation arrangements and (ii) investments in funds owned entirely by the noncontrolling interest holders of certain acquired entities.

Risk sensitivities include the effects of economic hedging. For equity market price risk, investment portfolios and their corresponding hedges are beta-adjusted to the All-Country World equity index. Fair value

Table of Contents

and sensitivity measurements presented herein are based on various portfolio exposures at a particular point in time and may not be representative of future results. Risk exposures may change as a result of ongoing portfolio activities and changing market conditions, among other things.

Equity Market Price Risk As of March 31, 2014 and December 31, 2013, the Company's exposure to equity market price risk in its investment portfolio, which primarily relates to investments in equity securities, equity funds and hedge funds, was approximately \$117 million and \$134 million, respectively. The Company hedges market exposure arising from a significant portion of our equity investment portfolios by entering into total return swaps. The Company estimates that a hypothetical 10% adverse change in market prices would result in a net decrease of approximately \$1.0 million and \$1.7 million in the carrying value of such investments as of March 31, 2014 and December 31, 2013, respectively, including the effect of the hedging transactions.

Interest Rate/Credit Spread Risk As of March 31, 2014 and December 31, 2013, the Company's exposure to interest rate and credit spread risk in its investment portfolio related to investments in debt securities or funds which invest primarily in debt securities was \$44 million and \$48 million, respectively. The Company hedges market exposure arising from a portion of our debt investment portfolios by entering into total return swaps. The Company estimates that a hypothetical 100 basis point adverse change in interest rates or credit spreads would result in a decrease of approximately \$0.7 million and \$0.9 million in the carrying value of such investments as of March 31, 2014 and December 31, 2013, respectively, including the effect of the hedging transactions.

Foreign Exchange Rate Risk As of March 31, 2014 and December 31, 2013, the Company's exposure to foreign exchange rate risk in its investment portfolio, which primarily relates to investments in foreign currency denominated equity and debt securities, was \$71 million and \$85 million, respectively. A significant portion of the Company's foreign currency exposure is hedged through the aforementioned total return swaps. The Company estimates that a 10% adverse change in foreign exchange rates versus US dollars would result in a decrease of approximately \$0.3 million and \$1.4 million in the carrying value of such investments as of March 31, 2014 and December 31, 2013, respectively, including the effect of the hedging transactions.

Private Equity The Company invests in private equity primarily as a part of its co-investment activities and in connection with certain legacy businesses. As of March 31, 2014 and December 31, 2013, the Company's exposure to changes in the fair value of such investments was approximately \$106 million and \$104 million, respectively. The Company estimates that a hypothetical 10% adverse change in fair value would result in a decrease of approximately \$10.6 million and \$10.4 million in the carrying value of such investments as of March 31, 2014 and December 31, 2013, respectively.

Risks Related to Receivables

We maintain an allowance for doubtful accounts to provide coverage for probable losses from our receivables. We determine the adequacy of the allowance by estimating the probability of loss based on our analysis of the client's creditworthiness and specifically provide for exposures where we determine the receivables are impaired. At March 31, 2014, total receivables amounted to \$523 million, net of an allowance for doubtful accounts of \$31 million. As of that date, Financial Advisory and Asset Management fees, and customer and related party receivables comprised 77%, 22% and 1% of total receivables, respectively. At December 31, 2013, total receivables amounted to \$513 million, net of an allowance for doubtful accounts of \$29 million. As of that date, Financial Advisory and Asset Management fees, and customer and related party receivables comprised 88%, 10% and 2% of total receivables, respectively. At March 31, 2014 and December 31, 2013, the Company had receivables past due or deemed uncollectible of approximately \$36 million and \$39 million, respectively. See also Critical Accounting Policies and Estimates Revenue Recognition above and Note 3 of Notes to Condensed Consolidated Financial Statements for additional information regarding receivables.

Table of Contents

LFB engages in lending activities, including commitments to extend credit. At March 31, 2014 and December 31, 2013, customer receivables included \$22 million and \$15 million of LFB loans, respectively. Such loans are closely monitored for counterparty creditworthiness to help minimize exposure. In addition, as of March 31, 2014, LFB's commitments to lend, which are fully collateralized and generally contain requirements for the counterparty to maintain a minimum collateral level, were not significant.

Credit Concentrations

To reduce the exposure to concentrations of credit, the Company monitors large exposures to individual counterparties. As of March 31, 2014, the Company's largest individual counterparty exposure was a Financial Advisory fee receivable of \$12 million.

Risks Related to Derivatives

Lazard enters into interest rate swaps and forward foreign currency exchange contracts to hedge exposures to interest rates and currency exchange rates and uses total return swap contracts on various equity and debt indices to hedge a portion of its market exposure with respect to certain seed investments related to our Asset Management business. Derivative contracts are recorded at fair value. Derivative assets amounted to \$0.3 million and \$1 million at March 31, 2014 and December 31, 2013, respectively, and derivative liabilities, excluding the derivative liability arising from the Company's obligation pertaining to Lazard Fund Interests and other similar deferred compensation arrangements, amounted to \$6 million and \$2 million at such respective dates.

The Company also records derivative liabilities relating to its obligations pertaining to Lazard Fund Interests awards and other similar deferred compensation arrangements, the fair value of which is based on the value of the underlying investments, adjusted for estimated forfeitures. Changes in the fair value of the derivative liabilities are equally offset by the changes in the fair value of investments which are expected to be delivered upon settlement of Lazard Fund Interests awards. Derivative liabilities relating to Lazard Fund Interests amounted to \$213 million and \$162 million at March 31, 2014 and December 31, 2013, respectively.

In addition, LFB enters into interest rate swaps, forward foreign currency exchange contracts and other derivative contracts to hedge exposures to interest rate and currency fluctuations on open positions that arise primarily from client activity. Such foreign currency and interest rate positions are subject to strict internal limits and, based on account balances as of March 31, 2014, we do not believe that the impact of potential significant movements in either the currency or interest rate markets on LFB's positions would materially affect the Company's annual operating income.

Risks Related to Short-Term Investments and Corporate Indebtedness

A significant portion of the Company's indebtedness has fixed interest rates, while its short-term investments generally have floating interest rates. Based on account balances as of March 31, 2014, Lazard estimates that its annual operating income relating to cash and short-term investments and corporate indebtedness would increase by approximately \$7 million in the event interest rates were to increase by 1% and decrease by approximately \$1 million if rates were to decrease by 1%.

As of March 31, 2014, the Company's cash and cash equivalents totaled approximately \$667 million. Substantially all of the Company's cash and cash equivalents were invested in highly liquid institutional money market funds (a significant majority of which were invested solely in U.S. Government or agency money market funds), in short-term interest earning accounts at a number of leading banks throughout the world, and in short-term certificates of deposit from such banks. Cash and cash equivalents are constantly monitored. On a regular basis, management reviews its investment profile as well as the credit profile of its list of depositor banks in order to adjust any deposit or investment thresholds as necessary.

Operational Risks

Operational risk is inherent in all our business and may, for example, manifest itself in the form of errors, breaches in the system of internal controls, business interruptions, fraud or legal actions due to operating deficiencies or noncompliance. The Company maintains a framework including policies and a system of internal controls designed to monitor and manage operational risk and provide management with timely and accurate

information. Management within each of the operating companies is primarily responsible for its operational risk programs. The Company has in place business continuity and disaster recovery programs that manage its capabilities to provide services in the case of a disruption. We purchase insurance policies designed to help protect the Company against accidental loss and losses that may significantly affect our financial objectives, personnel, property or our ability to continue to meet our responsibilities to our various stakeholder groups.

Recent Accounting Developments

For a discussion of recently issued accounting developments and their impact or potential impact on Lazard's consolidated financial statements, see Note 2 of Notes to Condensed Consolidated Financial Statements.

Item 4. Controls and Procedures

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934 (the Exchange Act) as of the end of the period covered by this quarterly report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this quarterly report, our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) are effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

In addition, no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during our most recent fiscal quarter that has materially affected, or is likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

The Company is involved from time to time in a number of judicial, regulatory and arbitration proceedings and inquiries concerning matters arising in connection with the conduct of our businesses, including proceedings initiated by former employees alleging wrongful termination. The Company reviews such matters on a case-by-case basis and establishes any required accrual if a loss is probable and the amount of such loss can be reasonably estimated. The Company does experience significant variation in its revenue and earnings on a quarterly basis. Accordingly, the results of any pending matter or matters could be significant when compared to the Company's earnings in any particular fiscal quarter. The Company believes, however, based on currently available information, that the results of any pending matters, in the aggregate, will not have a material effect on its business or financial condition.

Item 1A. Risk Factors

There were no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

program is used primarily to offset a portion of the shares to be issued under the 2005 Plan and the 2008 Plan. Purchases under the share repurchase program may be made in the open market or through privately negotiated transactions. Amounts shown in this line item include repurchases of Class A common stock and exclude the shares of Class A common stock withheld by the Company to meet the minimum statutory tax withholding requirements as described below.

During the three months ended March 31, 2014, the Company had in place trading plans under Rule 10b5-1 of the Securities Exchange Act of 1934, pursuant to which it effected stock repurchases in the open market.

In April 2014, the Board of Directors authorized the repurchase of up to an additional \$200 million in aggregate cost of Class A common stock and Lazard Group common membership interests through December 31, 2015.

- (2) Under the terms of the 2005 Plan and the 2008 Plan, upon the vesting of RSUs, PRSUs and delivery of restricted Class A common stock, shares of Class A common stock may be withheld by the Company to meet the minimum statutory tax withholding requirements. During the three month period ended March 31, 2014, the Company satisfied such obligations in lieu of issuing (i) 1,843,389 shares of Class A common stock upon the vesting of 6,317,612 RSUs and (ii) 29,999 shares of Class A common stock upon the vesting of 205,075 shares of restricted Class A common stock.
