ITEM 2.02. Results of Operations and Financial Condition

On July 30, 2015, FTI Consulting, Inc. (FTI Consulting) held a conference call relating to the press release issued on July 30, 2015 announcing financial results for the three- and six-months ended June 30, 2015 and updating guidance for the year ending December 31, 2015. The text of the transcript of the conference call is furnished as Exhibit 99.1 hereto and incorporated by reference herein.

ITEM 7.01. Regulation FD Disclosure

FTI Consulting defines Segment Operating Income (Loss) as a segment's share of consolidated operating income (loss). FTI Consulting defines Total Segment Operating Income (Loss) as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. FTI Consulting uses Segment Operating Income (Loss) for the purpose of calculating Adjusted Segment EBITDA. FTI Consulting defines Adjusted EBITDA as consolidated net income (loss) before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and loss on early extinguishment of debt. Adjusted Segment EBITDA as a segment's share of consolidated operating income before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges, and Total Adjusted Segment EBITDA as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. FTI Consulting defines Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of total revenues, and Adjusted Segment EBITDA Margin as Adjusted Segment EBITDA as a percentage of a segment's share of revenue. Although Adjusted EBITDA, Adjusted Segment EBITDA, Total Adjusted Segment EBITDA, Adjusted EBITDA Margin and Adjusted Segment EBITDA Margin are not measures of financial condition or performance determined in accordance with generally accepted accounting principles (GAAP), FTI Consulting believes that they can be useful supplemental operating performance measures. FTI Consulting uses Adjusted Segment EBITDA to internally evaluate the financial performance of each of its segments because it believes it is a useful supplemental measure which reflects current core operating performance and provides an indicator of the segment's ability to generate cash. FTI Consulting also believes that these non-GAAP measures, when considered together with GAAP financial results, provide management and investors with a more complete understanding of FTI Consulting's operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. In addition, EBITDA is a common alternative measure of operating performance used by many of FTI Consulting's competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in FTI Consulting's industry. Therefore, FTI Consulting also believes that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of its operating results to the operating results of other companies.

FTI Consulting defines Adjusted Net Income and Adjusted Earnings per Diluted Share (Adjusted EPS) as net income (loss) and earnings per diluted share, respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. FTI Consulting uses Adjusted Net Income for the purpose of calculating Adjusted EPS and uses Adjusted EPS to assess total FTI Consulting operating performance on a consistent basis. FTI Consulting believes that this non-GAAP measure, when considered together with its GAAP financial results, provides management and investors with a more complete understanding of its business operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in FTI Consulting's Consolidated Statements of

Comprehensive Income. Reconciliations of GAAP to non-GAAP financial measures are included in the accompanying tables to the press release.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.
