AMERICAN GREETINGS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Three and Six Months Ended August 26, 2016 and August 28, 2015

Note 1 Basis of Presentation

The accompanying unaudited consolidated financial statements of American Greetings Corporation and its subsidiaries (the Corporation) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary to fairly present financial position, results of operations and cash flows for the periods have been included.

The Corporation's fiscal year ends on February 28 or 29. References to a particular year refer to the fiscal year ending in February of that year. For example, 2016 refers to the year ended February 29, 2016. The Corporation's subsidiary, AG Retail Cards Limited is consolidated on a one-month lag corresponding with its fiscal year-end of January 28 for 2017.

These interim financial statements should be read in conjunction with the Corporation's financial statements and notes thereto included in its Annual Report on Form 10-K for the year ended February 29, 2016, from which the Consolidated Statement of Financial Position at February 29, 2016, presented herein, has been derived. Certain amounts in the prior year financial statements have been reclassified to conform to the 2017 presentation. These reclassifications had no material impact on financial position, earnings or cash flows.

The Corporation's investments in less than majority-owned companies in which it has the ability to exercise significant influence over the operating and financial policies are accounted for using the equity method except when they qualify as variable interest entities (VIE) and the Corporation is the primary beneficiary, in which case, the investments are consolidated in accordance with Accounting Standards Codification (ASC) Topic 810 (ASC 810), Consolidation.

The Corporation provides limited credit support to Schurman Fine Papers (Schurman) which is a VIE as defined in ASC 810. Schurman owns and operates specialty card and gift retail stores in the United States and Canada. The stores are primarily located in malls and strip shopping centers. This limited credit support is provided through the provision of a liquidity guaranty (Liquidity Guaranty) in favor of the lenders under Schurman's senior revolving credit facility (the Senior Credit Facility). Pursuant to the terms of the Liquidity Guaranty, the Corporation has guaranteed the repayment of up to \$10.0 million of Schurman's borrowings under the Senior Credit Facility to help ensure that Schurman has sufficient borrowing availability under this facility. The Liquidity Guaranty is required to be backed by a letter of credit for the term of the Liquidity Guaranty, which expires in January 2019. The Corporation's obligations under the Liquidity Guaranty generally may not be triggered unless Schurman's lenders under its Senior Credit Facility have substantially completed the liquidation of the collateral under Schurman's Senior Credit Facility, or 91 days after the liquidation is started, whichever is earlier, and will be limited to the deficiency, if any, between the amount owed and the amount collected in connection with the liquidation. There was no triggering event or liquidation of collateral as of August 26, 2016 requiring the use of the Liquidity Guaranty.

During the current period, the Corporation assessed the variable interests in Schurman and determined that a third party holder of variable interests has the controlling financial interest in the VIE and thus, the third party, not the

Corporation, is the primary beneficiary. In completing this assessment, the Corporation identified the activities that it considers most significant to the future economic success of the VIE and determined that it does not have the power to direct those activities. As such, Schurman is not consolidated in the Corporation's results.

Table of Contents

The Corporation's maximum exposure to loss as it relates to Schurman as of August 26, 2016 includes:

Liquidity Guaranty of Schurman's indebtedness of \$10.0 million;

normal course of business trade and other receivables due from Schurman of \$31.3 million, the balance of which fluctuates throughout the year due to the seasonal nature of the business; and

the retail store operating leases currently subleased to Schurman, the aggregate lease payments for the remaining life of which was \$1.8 million as of August 26, 2016.

Note 2 Seasonal Nature of Business

A significant portion of the Corporation's business is seasonal in nature. Therefore, the results of operations for interim periods are not necessarily indicative of the results for the fiscal year taken as a whole.

Note 3 Recent Accounting Pronouncements

In August 2016, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2016-15, "Statement of Cash Flows (Topic 230): Clarification of Certain Cash Receipts and Cash Payments." The objective of ASU 2016-15 is to eliminate the diversity in practice related to the classification of certain cash receipts and payments in the statement of cash flows, by adding or clarifying guidance on eight specific cash flow issues. For public business entities, ASU 2016-15 is effective for annual and interim reporting periods beginning after December 15, 2017, with early adoption permitted. The amendments in this update should be applied retrospectively to all periods presented, unless deemed impracticable, in which case, prospective application is permitted. The Corporation is currently evaluating the new guidance and has not determined the impact this standards update may have on its consolidated financial statements.

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments." ASU 2016-13 introduces a new forward-looking approach, based on expected losses, to estimate credit losses on certain types of financial instruments, including trade receivables. The estimate of expected credit losses will require entities to incorporate considerations of historical information, current information and reasonable and supportable forecasts. This ASU also expands the disclosure requirements to enable users of financial statements to understand the entity's assumptions, models and methods for estimating expected credit losses. For public business entities, ASU 2016-13 is effective for annual and interim reporting periods beginning after December 15, 2019, and the guidance is to be applied using the modified-retrospective approach. Earlier adoption is permitted for annual and interim reporting periods beginning after December 15, 2018. The Corporation is currently evaluating the new guidance and has not determined the impact this standards update may have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)." ASU 2016-02 will require lessees to recognize a right-of-use asset and a lease liability. The right-of-use asset and lease liability will be initially measured at the present value of the lease payments in the statement of financial position. Lessor accounting under the new guidance is largely unchanged. For public business entities, ASU 2016-02 is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a

modified-retrospective approach, which includes a number of optional practical expedients. The Corporation is currently evaluating the new guidance and has not determined the impact this standards update may have on its consolidated financial statements.

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 addresses certain aspects of recognition, measurement, presentation and disclosure of financial instruments. In particular, this ASU requires equity investments (except those accounted for under the equity method or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. ASU 2016-01 is effective for interim and annual periods beginning after December 15, 2017. The Corporation is currently evaluating the new guidance and has not determined the impact this standards update may have on its consolidated financial statements.

Table of Contents

In August 2014, the FASB issued ASU No. 2014-15, *Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern*. ASU 2014-15 requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued and provides guidance on determining when and how to disclose going concern uncertainties in the financial statements. Certain disclosures will be required if conditions give rise to substantial doubt about an entity's ability to continue as a going concern. ASU 2014-15 applies to all entities and is effective for annual and interim reporting periods ending after December 15, 2016, with early adoption permitted. The Corporation does not expect that the adoption of this standards update will impact its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*. Subsequent accounting standards updates have been issued which amend and/or clarify the application of ASU 2014-09. The objective of ASU 2014-09, and its related amendments and clarifications, is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle of the new guidance is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. More detailed disclosures will also be required to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. For public business entities, the new revenue recognition guidance will be effective for annual and interim reporting periods beginning after December 15, 2017. Earlier adoption is permitted for annual and interim reporting periods beginning after December 15, 2016. The new guidance permits the use of either a retrospective or modified-retrospective transition method. The Corporation is currently evaluating the new guidance and has not determined the impact it may have on its consolidated financial statements, nor the preferred method of adoption.

Note 4 Acquisitions and Dispositions

Sale of Strawberry Shortcake

As reported in its Annual Report on Form 10-K for the year ended February 29, 2016, in March 2015, the Corporation completed the sale of its Strawberry Shortcake property and related intangible assets and licensing agreements (*Strawberry Shortcake*) and received cash proceeds of \$105.0 million, which are reflected in *Proceeds from sale of Strawberry Shortcake* within *Investing Activities* on the Consolidated Statement of Cash Flows for the six months ended August 28, 2015. The Corporation also recognized a net gain of \$61.6 million from the sale, which is included in *Other operating income - net* on the Consolidated Statement of Income for the six months ended August 28, 2015.

Character Property Rights Acquisition

As reported in its Annual Report on Form 10-K for the year ended February 29, 2016, in conjunction with and based on the proceeds resulting from the March 2015 sale of Strawberry Shortcake, the Corporation paid an additional \$2.8 million for character property rights associated with Strawberry Shortcake, that were previously purchased from a third party during 2015. This payment is included in *Cash paid for acquired character property rights* within *Investing Activities* on the Consolidated Statement of Cash Flows for the six months ended August 28, 2015.

Sale of AGI In-Store

As reported in its Annual Report on Form 10-K for the year ended February 29, 2016, in March 2015, the Corporation finalized the working capital adjustments related to the 2015 sale of its wholly-owned display fixtures business, AGI In-Store, which resulted in a payment of \$3.2 million to the buyer. This payment is included in *Adjustment to*

proceeds from sale of AGI In-Store within Investing Activities on the Consolidated Statement of Cash Flows for the six months ended August 28, 2015.

Table of Contents**Surrender of Certain Corporate-Owned Life Insurance Policies**

As reported in its Annual Report on Form 10-K for the year ended February 29, 2016, in March 2015, in connection with the 2015 surrender of certain corporate-owned life insurance policies, the Corporation received proceeds of \$24.1 million that are included in Proceeds from surrender of corporate-owned life insurance policies within Investing Activities on the Consolidated Statement of Cash Flows for the six months ended August 28, 2015.

Note 5 Royalty Revenue and Related Expenses

The Corporation has agreements for licensing certain characters and other intellectual property. These license agreements provide for royalty revenue to the Corporation, which is recorded in Other revenue on the Consolidated Statement of Income. These license agreements may include the receipt of upfront advances, which are recorded as deferred revenue and earned during the period of the agreement. Revenues and expenses associated with the servicing of these agreements, primarily relating to the licensing activities included in the Non-reportable segment, are summarized as follows:

The valuation of inventory under the Last-In, First-Out (LIFO) method is made at the end of each fiscal year based on inventory levels and costs at that time. Accordingly, interim LIFO calculations, by necessity, are based on estimates of expected fiscal year-end inventory levels and costs, and are subject to final fiscal year-end LIFO inventory calculations.

Inventory held on location for retailers with scan-based trading arrangements, which is included in finished products, totaled \$65.3 million, \$63.5 million and \$64.2 million as of August 26, 2016, February 29, 2016 and August 28, 2015, respectively.

Note 10 Deferred Costs

Deferred costs and future payment commitments for retail supply agreements are included in the following financial statement captions:

Table of Contents

The Corporation maintains an allowance for deferred costs related to supply agreements of \$3.2 million, \$3.6 million and \$3.5 million at August 26, 2016, February 29, 2016 and August 28, 2015, respectively. This allowance is included in Other assets on the Consolidated Statement of Financial Position.

Note 11 Other Liabilities

Included in Other liabilities on the Consolidated Statement of Financial Position is a deferred lease obligation related to an operating lease with H L & L Property Company (H L & L), for a building that will function as the Corporation's world headquarters. The relocation to the building will be completed in the third quarter of fiscal 2017.

H L & L is an indirect affiliate of the Corporation as it is indirectly owned by members of the Weiss Family (as defined in Note 17). Due to, among other things, the Corporation's involvement in the construction of the building, the Corporation is required to be treated, for accounting purposes only, as the deemed owner of the new world headquarters building during the construction period. Accordingly, the Corporation has recorded an asset and associated offsetting liability during the construction of the building, even though the Corporation does not own the asset and is not the obligor on the corresponding construction debt. The asset included in Property, plant and equipment at cost and corresponding liability included in Other liabilities on the Consolidated Statement of Financial Position, was \$117.7 million, \$94.7 million and \$57.4 million as of August 26, 2016, February 29, 2016 and August 28, 2015, respectively. See Note 17 for further information.

Note 12 Debt

Long-term debt and their related calendar year due dates as of August 26, 2016, February 29, 2016 and August 28, 2015, respectively, were as follows:

(In thousands)	August 26, 2016	February 29, 2016	August 28, 2015
Term loan, due 2019	\$ 185,000	\$ 185,000	\$ 185,000
7.375% senior notes, due 2021	225,000	225,000	225,000
Revolving credit facility, due 2018	15,000		56,000
6.10% senior notes, due 2028	181	181	181
Unamortized financing fees	(6,219)	(7,123)	(8,026)
	\$ 418,962	\$ 403,058	\$ 458,155

At August 26, 2016, the balances outstanding on the term loan facility and revolving credit facility each bear interest at a rate of approximately 3.0%. The revolving credit facility provides the Corporation with funding of up to \$250 million. The Corporation is also a party to an accounts receivable facility that provides funding of up to \$50 million, under which there were no borrowings outstanding as of August 26, 2016, February 29, 2016 and August 28, 2015, respectively. Outstanding letters of credit, which reduce the total credit available under the revolving credit and the accounts receivable facilities, totaled \$25.9 million at August 26, 2016.

On July 27, 2016, the Corporation amended its accounts receivable facility. The amendment modified the accounts receivable facility to, among other things: (i) extend the scheduled termination date to July 27, 2018 and (ii) revise the bases upon which fees are assessed under this facility.

In March 2015 the Corporation made a voluntary prepayment of \$65.0 million on the term loan facility, thereby eliminating all future quarterly installment payments prior to its August 9, 2019 maturity date. During the six months ended August 28, 2015, the Corporation expensed an additional \$1.8 million of unamortized financing fees as a result of the prepayment.

The total fair value of the Corporation's publicly traded debt, which was considered a Level 1 valuation as it was based on quoted market prices, was \$235.5 million (at a carrying value of \$225.2 million), \$229.6 million (at a carrying value of \$225.2 million) and \$234.1 million (at a carrying value of \$225.2 million) at August 26, 2016, February 29, 2016 and August 28, 2015, respectively.

Table of Contents

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs. ASU 2015-03 requires that all costs incurred to issue debt be presented in the balance sheet as a direct deduction from the carrying value of the debt, similar to the presentation of debt discounts. The Corporation adopted ASU 2015-03 effective March 1, 2016, on a retrospective basis, and accordingly, debt issuance costs of \$3.3 million and \$3.6 million were reclassified from Other assets to Long-term debt on the Consolidated Statements of Financial Position at February 29, 2016 and August 28, 2015, respectively.

The total fair value of the Corporation's non-publicly traded debt, which was considered a Level 2 valuation as it was based on comparable privately traded debt prices, was \$200.0 million (at a principal carrying value of \$200.0 million), \$185.0 million (at a principal carrying value of \$185.0 million), and \$240.5 million (at a principal carrying value of \$241.0 million) at August 26, 2016, February 29, 2016 and August 28, 2015, respectively.

At August 26, 2016, the Corporation was in compliance with the financial covenants under its borrowing agreements.

As reported in its Annual Report on Form 10-K for the year ended February 29, 2016, prior to January 1, 2016, the Corporation sponsored a discretionary profit-sharing plan with a contributory 401(k) provision covering most of its

United States employees. Under this arrangement, the Corporation made separate discretionary profit-sharing and 401(k) matching contributions annually, after fiscal year-end, depending on its financial results.

Effective January 1, 2016, the existing profit-sharing and 401(k) retirement savings plan was replaced with a safe harbor 401(k) arrangement. Pursuant to the new arrangement, the matching contributions became non-discretionary, were increased, and are now made throughout the year, rather than on an annual basis. The increased matching contributions effectively replace the Corporation's discretionary profit-sharing contributions, which were discontinued for fiscal years ending after February 29, 2016. The 401(k) matching contributions for the three and six month periods ended August 26, 2016 were \$3.4 million and \$8.5 million, respectively, as compared to the combined expense attributable to the profit-sharing and 401(k) matching contributions for the three and six month periods ended August 28, 2015 of \$3.0 million and \$5.9 million, respectively.

Table of Contents

At August 26, 2016, February 29, 2016 and August 28, 2015, the liability for postretirement benefits other than pensions was \$18.9 million, \$17.8 million and \$19.2 million, respectively, and is included in Other liabilities on the Consolidated Statement of Financial Position. At August 26, 2016, February 29, 2016 and August 28, 2015, the long-term liability for pension benefits was \$77.9 million, \$80.2 million and \$78.6 million, respectively, and is included in Other liabilities on the Consolidated Statement of Financial Position.

Note 14 Fair Value Measurements

Assets and liabilities measured at fair value are classified using the fair value hierarchy based upon the transparency of inputs as of the measurement date. The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. The three levels are defined as follows:

Level 1 Valuation is based upon quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Valuation is based upon unobservable inputs that are significant to the fair value measurement. The following table summarizes the financial assets and liabilities measured at fair value as of August 26, 2016:

(In thousands)	August 26, 2016	Level 1	Level 2	Level 3
Assets measured on a recurring basis:				
Deferred compensation plan assets	\$ 11,914	\$ 10,683	\$ 1,231	\$

Table of Contents

The deferred compensation plan includes investments in mutual funds and a money market fund. Assets held in mutual funds are recorded at fair value, which is considered a Level 1 valuation as it is based on each fund's quoted market value per share in an active market. The money market fund is classified as Level 2 as substantially all of the fund's investments are determined using amortized cost. The fair value of the deferred compensation plan liabilities is based on the fair value of: (i) the plan's assets for invested deferrals and (ii) hypothetical investments for unfunded deferrals.

The investment in equity securities is considered a Level 1 valuation as it is based upon a quoted price in an active market.

Note 15 - Contingency

The Corporation is presently involved in various judicial, administrative, and regulatory proceedings concerning matters arising in the ordinary course of business, including but not limited to, employment and commercial disputes. These matters are inherently subject to many uncertainties regarding the possibility of a loss to the Corporation. These uncertainties will ultimately be resolved when one or more future events occur or fail to occur, confirming the inurrence of a liability or reduction of a liability. In accordance with ASC Topic 450, Contingencies, the Corporation accrues for these contingencies by a charge to income when it is both probable that one or more future events will occur confirming the fact of a loss and the amount of the loss can be reasonably estimated. This accrual is included in Accrued liabilities on the Consolidated Statement of Financial Position. Due to this uncertainty, the actual amount of any loss may ultimately prove to be larger or smaller than the amounts reflected in the Corporation's Consolidated Financial Statements. Some of these proceedings are at preliminary stages and some of these proceedings seek an indeterminate amount of damages.

Note 16 Income Taxes

The Corporation's provision for income taxes in interim periods is computed by applying its estimated annual effective tax rate against income before income tax expense for the period. In addition, non-recurring or discrete items are recorded during the period in which they occur. The magnitude of the impact that discrete items have on the Corporation's quarterly effective tax rate is dependent on the level of income in the period. The effective tax rate was 32.5% and 32.6% for the three and six months ended August 26, 2016, respectively, and 21.0% and 31.7% for the three and six months ended August 28, 2015, respectively. The lower than U.S. statutory rate for the three and six month periods ended August 26, 2016 is primarily related to the domestic production activities deduction, tax treatment of corporate-owned life insurance and lower tax rates in foreign jurisdictions, partially offset by state income tax rates on U.S. income, net of federal benefit. The lower than statutory rate in the prior period is primarily related to the release of a \$4.3 million unrecognized tax benefit due to the issuance of regulations that clarified the law and the expiration of a statute of limitations, as well as the impact of lower tax rates in foreign jurisdictions, domestic production activities deduction and the tax treatment of corporate-owned life insurance.

As reported in its Annual Report on Form 10-K for the year ended February 29, 2016, a previously nonmarketable investment established a readily determinable fair value as the result of the investment's successfully completed initial public offering. Therefore, the Corporation began recording adjustments to mark-to-market the value of this investment. Consequently, a decrease in the Corporation's deferred tax assets in the amount of \$10.0 million and \$22.0 million was recognized in other comprehensive income for the six month periods ended August 26, 2016 and August 28, 2015, respectively.

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes, which simplifies the presentation of deferred income taxes. This ASU requires that deferred tax assets and liabilities be classified as

non-current in a statement of financial position. The Corporation early adopted ASU 2015-17 during the fourth quarter of 2016 on a prospective basis. Adoption of ASU 2015-17 resulted in a reclassification of the Corporation's net current deferred tax asset to the net non-current deferred tax asset in the Corporation's Consolidated Statement of Financial Position as of February 29, 2016. No prior periods were retrospectively adjusted.

As of August 26, 2016, the Corporation had unrecognized tax benefits of \$17.1 million that, if recognized, would have a favorable effect on the Corporation's income tax expense of \$15.4 million. It is reasonably possible that the Corporation's unrecognized tax positions as of August 26, 2016 could decrease \$1.4 million during the next twelve months due to the expiration of the statute of limitations.

Table of Contents

The Corporation recognizes interest and penalties accrued on unrecognized tax benefits and refundable income taxes as a component of income tax expense. During the six months ended August 26, 2016, the Corporation recognized a net expense of \$0.2 million for interest and penalties on unrecognized tax benefits and refundable income taxes. As of August 26, 2016, the total amount of gross accrued interest and penalties related to unrecognized tax benefits less refundable income taxes was a net payable of \$1.8 million.

With few exceptions, the Corporation is subject to examination in the U.S. and various state and local jurisdictions for tax years 2010 to the present. The Corporation is also subject to tax examination in various international tax jurisdictions including Canada, the United Kingdom, Australia, Italy, Mexico and New Zealand for tax years 2011 to the present.

Note 17 Related Party Information

World Headquarters Relocation

In May 2011, the Corporation announced that it will be relocating its world headquarters to a new location in the City of Westlake, Ohio, in a mixed-use development known as Crocker Park (the Crocker Park Development), which offers a vibrant urban setting, with retail stores and restaurants, offices and apartments. After putting the project on hold pending the outcome of the going private transaction, the Corporation announced plans in October 2013 to resume the project and, on March 26, 2014, the Corporation purchased from Crocker Park, LLC, the owner of the Crocker Park Development, 14.48 acres of land at the south end of the Crocker Park Development (the Crocker Park Site) on which the new world headquarters will be built. The purchase price for the land was \$7.4 million (based on a per acre price of \$0.5 million). Morry Weiss, the Chairman of the Board of the Corporation, Zev Weiss and Jeffrey Weiss, directors and the Co-Chief Executive Officers of the Corporation, and Gary and Elie Weiss, directors and non-executive officers of the Corporation, together with members of their family (collectively, the Weiss Family), indirectly own a minority stake in Crocker Park, LLC through their indirect ownership of approximately 37% of the membership interests in Crocker Park, LLC. In addition, Morry Weiss and other members of the Weiss Family have guaranteed certain of Crocker Park, LLC's obligations, including obligations incurred in connection with the Crocker Park Development. The authority to conduct, manage and control the business of Crocker Park, LLC, including operating the Crocker Park Development and the decision whether to sell the Crocker Park Site to the Corporation, was reserved to the manager of Crocker Park, LLC. The manager of Crocker Park, LLC is not an affiliate of the Weiss Family, but is an affiliate of Stark Enterprises, Inc.

The Corporation is leasing a portion of the Crocker Park Site to H L & L, which is constructing the new world headquarters building on the Crocker Park Site, and beginning in the third quarter of fiscal 2017 will lease the new world headquarters building back to the Corporation. In addition, to accommodate additional office needs, H L & L is constructing an additional approximately 60,000 square foot building (Tech West) and, together with the world headquarters building, the Creative Studios Buildings) adjacent to the world headquarters building and a surface parking lot (Surface Lot) on land that it is leasing from the Corporation. The Corporation has also entered into an operating lease to lease the Tech West building and Surface Lot from H L & L, also beginning in the third quarter of fiscal 2017. The initial lease terms are fifteen years and the annual rent is expected to be approximately \$10.6 million. See Note 11 for further information.

Although the majority of the costs to construct the new world headquarters was financed through H L & L, due to the inherent difficulty in estimating costs associated with projects of this scale and nature, the costs associated with this project may have been higher than expected and the Corporation may have had to dedicate additional funds to the project, including providing additional funds to H L & L. As a result, effective as of December 1, 2014, the Corporation entered into a loan agreement with H L & L under which the Corporation may from time to time make

revolving loans to H L & L. Loans made to H L & L under this agreement may only be used to fund construction costs associated with the world headquarters project and the maximum principal and market-rate interest that may be outstanding as of any given time under this loan agreement may not exceed \$9.0 million. There were no amounts outstanding under this loan agreement as of August 26, 2016, February 29, 2016 and August 28, 2015.

Table of Contents**Transactions with Parent Companies and Other Affiliated Companies**

From time to time employees of the Corporation may provide services to its parent companies as well as companies that are owned or controlled by members of the Weiss Family, in each case provided that such services do not interfere with the Corporation's employees' ability to perform services on its behalf. When providing such services, the affiliated companies reimburse the Corporation for such services, based on the costs of employing the individual (including salary and benefits) and the amount of time spent by such employee in providing services to the affiliated company.

The Corporation paid cash dividends in the aggregate amount of \$13.9 million to Century Intermediate Holding Company (Parent), its parent and sole shareholder during the six months ended August 26, 2016, for the sole purpose of paying interest on the \$285.0 million aggregate principal amount 9.750%/10.500% Senior PIK Toggle Notes due 2019, (the PIK notes) which were issued by Century Intermediate Holding Company 2, an indirect parent of the Corporation.

The Corporation, Parent and certain of their subsidiaries and affiliates, file a consolidated U.S. federal income tax return. The Corporation pays all taxes on behalf of the group included in this consolidated federal income tax return. Pursuant to this tax sharing arrangement, there was \$0.3 million due from affiliates at August 26, 2016 and February 29, 2016 and no amounts due to or due from affiliates as of August 28, 2015.

Note 18 Business Segment Information

The Corporation operates in five business segments: North American Social Expression Products, International Social Expression Products, Retail Operations, AG Interactive and Non-reportable. The North American Social Expression Products segment primarily designs, manufactures and sells greeting cards and other related products through various channels of distribution with mass merchandising as the primary channel. The International Social Expression Products segment primarily designs and sells greeting cards and other related products through various channels of distribution and is located principally in the United Kingdom, Australia and New Zealand. At August 26, 2016, the Retail Operations segment operated 393 card and gift retail stores in the United Kingdom. The stores sell products purchased from the International Social Expression Products segment as well as products purchased from other vendors. AG Interactive distributes social expression products, including electronic greetings and a broad range of graphics and digital services and products, through a variety of electronic channels, including Web sites, Internet portals and electronic mobile devices. The Corporation's Non-reportable operating segment primarily includes licensing activities.

For the three and six month periods ended August 26, 2016, this includes income recognized from state tax credits of \$1.1 million and \$2.1 million, respectively, as compared to \$6.5 million for both the three and six month periods ended August 28, 2015. See Note 6 for further information.

For the six months ended August 28, 2015, Non-reportable segment earnings included a gain of \$61.6 million from the sale of Strawberry Shortcake. See Note 4 for further information.

Termination Benefits

Termination benefits are primarily considered part of an ongoing benefit arrangement, accounted for in accordance with ASC Topic 712, Compensation—Nonretirement Postemployment Benefits, and are recorded when payment of the benefits is probable and can be reasonably estimated.

The balance of the severance accrual was \$2.6 million, \$3.5 million and \$2.1 million at August 26, 2016, February 29, 2016 and August 28, 2015, respectively. The payments expected within the next twelve months are included in

Accrued liabilities while the remaining payments beyond the next twelve months are included in Other liabilities on the Consolidated Statement of Financial Position.

Overview

Second Quarter Results of Operations

Total revenue for the current year second quarter was \$377.0 million, a decrease of \$44.0 million, or 10.5%, compared to the prior year period. This decrease was primarily the result of decreased sales of greeting cards, gift packaging and party goods, as well as an unfavorable foreign currency translation impact of approximately \$13 million. Excluding the impact of foreign currency translation, the lower revenue was primarily within the North American Social Expression Products and International Social Expression Products segments.

Second quarter operating income was \$21.7 million, a decrease of \$15.7 million compared to the same period in the prior year. The current and prior year quarters include income of \$1.1 million and \$6.5 million, respectively, from tax credits received from the State of Ohio to maintain our world headquarters in Ohio. Net of the year-over-year impact of the tax credits, the remaining earnings decrease was primarily within our North American Social Expression Products segment driven by lower sales.

Table of Contents**Results of Operations*****Three months ended August 26, 2016 and August 28, 2015***

Net income was \$10.3 million in the second quarter compared to \$24.5 million in the prior year period.

Our results for the three months ended August 26, 2016 and August 28, 2015 are summarized below:

(Dollars in thousands)	2016	% Total Revenue	2015	% Total Revenue

For the three months ended August 26, 2016, consolidated net sales were \$374.7 million, down from \$418.6 million in the prior year second quarter. This 10.5%, or \$43.9 million, decrease was driven by lower sales of greeting cards of approximately \$23 million, the unfavorable impact of foreign currency translation of approximately \$13 million, and lower sales of gift packaging and party goods of approximately \$9 million. The current year quarter includes a nominal impact related to scan-based trading (SBT) implementations, which is favorable to the prior year quarter by approximately \$1.5 million.

Wholesale Unit and Pricing Analysis for Greeting Cards

Unit and pricing comparatives (on a sales less returns basis), excluding intercompany eliminations and the impact of foreign currency translation, for the three months ended August 26, 2016 and August 28, 2015 are summarized below:

Increase (Decrease) From the Prior Year		
Everyday Cards	Seasonal Cards	Total Greeting Cards

	2016	2015	2016	2015	2016	2015
Unit volume	(7.2%)	(1.1%)	(10.5%)	10.9%	(7.7%)	1.2%
Selling prices	2.6%	2.0%	4.2%	(1.1%)	2.9%	1.4%
Overall increase / (decrease)	(4.8%)	0.9%	(6.7%)	9.6%	(5.1%)	2.6%

During the second quarter, combined everyday and seasonal greeting card sales less returns decreased 5.1% compared to the prior year quarter, including a decrease in unit volume of 7.7%, partially offset by an increase in selling prices of 2.9%. The overall decrease was driven by decreased unit volumes in both everyday and seasonal greeting cards in our North American Social Expression Products and International Social Expressions Products segments, partially offset by an increase in selling prices in both the everyday and seasonal greeting cards in our International Social Expressions Products segment.

Table of Contents

Everyday card sales less returns during the three months ended August 26, 2016 decreased 4.8% compared to the prior year quarter primarily due to decreased unit volume experienced in the International Social Expression Products segment that was partially offset by selling price increases. The lower unit volume in the International Social Expression Products segment was primarily the continuation of the reduced distribution to a significant customer.

Seasonal card sales less returns decreased 6.7% during the second quarter, including a 10.5% decrease in unit volume, offset by an increase in selling price of 4.2%. Due to the fact that the second quarter has the fewest holidays, the impact of changes in selling price and unit volume appear large on a percentage basis, compared to other quarters. The decrease in unit volume was primarily driven by the Father's Day program in our International Social Expression Products segment, primarily due to the continuation of the reduced distribution to a significant customer, as well as the Father's Day and Fall programs in our North American Social Expression Products segment. The selling price increase was primarily driven by the Father's Day program in our International Social Expression Products segment and the Fall program in our North American Social Expression Products segment.

Expense Overview

Material, labor and other production costs (MLOPC) for the three months ended August 26, 2016 were \$159.2 million, compared to \$178.0 million in the prior year three months. As a percentage of total revenue, these costs were 42.2% in the current period compared to 42.3% for the three months ended August 28, 2015. The \$18.8 million decrease was primarily due to the impact of lower sales volume and favorable product mix in the wholesale card business of approximately \$12 million, the favorable impact of foreign currency translation of approximately \$7 million and favorable production expenses of approximately \$5 million. Partially offsetting these decreases were higher scrap expenses of approximately \$3 million and higher product content costs of approximately \$2 million.

Selling, distribution and marketing (SDM) expenses for the three months ended August 26, 2016 were \$142.1 million, decreasing \$11.5 million from \$153.6 million in the prior year second quarter. As a percentage of total revenue, these costs were 37.7% in the current period compared to 36.5% for the prior year period. The dollar decrease in the current year second quarter was driven by the favorable impact of foreign currency translation of approximately \$7 million, lower expenses in our Retail Operations segment of approximately \$3 million, and other cost savings of approximately \$1 million.

Administrative and general expenses were \$55.8 million for the three months ended August 26, 2016, a decrease of \$3.6 million from \$59.4 million for the three months ended August 28, 2015. This decrease was driven primarily by lower technology costs, predominantly related to our information technology systems refresh project of approximately \$2 million, and the favorable impact of foreign currency translation of approximately \$1 million.

Other operating income net was \$1.7 million for the three months ended August 26, 2016 compared to \$7.3 million for the prior year second quarter. The current year period includes income of \$1.1 million compared to \$6.5 million in the prior year period, from tax credits received from the State of Ohio under certain incentive programs made available to us in connection with our decision to maintain our world headquarters in Ohio.

The effective tax rate was 32.5% and 21.0% for the three months ended August 26, 2016 and August 28, 2015, respectively. The lower than statutory rate for the current period is primarily related to the domestic production activities deduction, tax treatment of corporate-owned life insurance and lower tax rates in foreign jurisdictions, partially offset by state income tax rates on U.S. income, net of federal benefit. The lower than statutory rate in the prior period was primarily related to the release of a \$4.3 million unrecognized tax benefit due to the issuance of regulations that clarified the law and the expiration of a statute of limitations, as well as the impact of lower tax rates in foreign jurisdictions, domestic production activities deduction and the tax treatment of corporate-owned life

insurance.

Table of Contents**Results of Operations*****Six months ended August 26, 2016 and August 28, 2015***

Net income was \$36.8 million in the six months ended August 26, 2016 compared to \$97.2 million in the prior year six months.

Our results for the six months ended August 26, 2016 and August 28, 2015 are summarized below:

Income tax expense	17,748	2.2%	45,087	5.0%
Net income	\$ 36,774	4.5%	\$ 97,244	10.9%

For the six months ended August 26, 2016, consolidated net sales were \$811.9 million, down from \$890.5 million in the prior year six months. This 8.8%, or \$78.6 million, decrease was driven by lower sales of greeting cards of approximately \$47 million, the unfavorable impact of foreign currency translation of approximately \$20 million, lower sales of our gift packaging and party goods of approximately \$11 million, and decreased sales of other ancillary products of approximately \$2 million. These decreases were partially offset by the favorable impact of fewer SBT implementations of approximately \$1 million. The impact of SBT implementations in the current year six months was a charge of approximately \$1 million.

Wholesale Unit and Pricing Analysis for Greeting Cards

Unit and pricing comparatives (on a sales less returns basis), excluding intercompany eliminations and the impact of foreign currency translation, for the six months ended August 26, 2016 and August 28, 2015 are summarized below:

	Increase (Decrease) From the Prior Year					
	Everyday Cards		Seasonal Cards		Total Greeting Cards	
	2016	2015	2016	2015	2016	2015

Overall increase / (decrease)	(5.2%)	0.8%	(4.9%)	(0.3%)	(5.1%)	0.5%

During the six months ended August 26, 2016, combined everyday and seasonal greeting card sales less returns decreased 5.1% compared to the prior year six months. The overall decrease was primarily driven by decreased unit volume, partially offset with increased selling prices from our everyday and seasonal greeting cards in our International Social Expression Products segment.

Table of Contents

Everyday card sales less returns are down 5.2% compared to the prior year six months, as a result of decreased unit volume of 7.4%, partially offset by an increase in selling prices of 2.4%. The unit volume decrease is primarily due to the continuation of the reduced distribution to a significant customer in our International Social Expression Products segment, as well as lower sales within our North American Social Expression Products segment. The increase in selling prices was driven by our International Social Expression Products segment.

Seasonal card sales less returns decreased 4.9%, with a unit volume decline of 7.6%, offset by a selling price increase of 3.0%. The decrease in unit volume was attributable to our Easter, Mother's Day, and Father's Day programs in our International Social Expression Products segment, primarily due to the continuation of the reduced distribution to a significant customer, as well as the Easter and Father's Day programs in our North American Social Expression Products segment. The increase in selling prices was driven by our Mother's Day and Easter programs in our International Social Expression Products segment, and our Father's Day program in both our North American Social Expression Products and International Social Expression Products segments, partially offset by a decrease in our Easter program in our North American Social Expression Products segment.

Expense Overview

MLOPC for the six months ended August 26, 2016 were \$338.1 million, a decrease of \$35.4 million from \$373.5 million for the comparable period in the prior year. As a percentage of total revenue, these costs were 41.4% in the current period compared to 41.8% for the six months ended August 28, 2015. The \$35.4 million dollar decrease was primarily due to the impact of lower sales volume and favorable product mix in the wholesale card business of approximately \$20 million, the favorable impact of foreign currency translation of approximately \$9 million, favorable production expenses of approximately \$9 million, and the favorable impact of lower sales in the Retail Operations segment of approximately \$1 million. Partially offsetting these decreases were higher product content costs of approximately \$3 million and unfavorable scrap expense of approximately \$1 million.

SDM expenses for the six months ended August 26, 2016 were \$295.6 million, decreasing \$21.8 million from \$317.4 million for the comparable period in the prior year. As a percentage of total revenue, these costs were 36.2% in the current period compared to 35.5% for the prior year period. The decrease was primarily driven by the favorable impact of foreign currency translation of approximately \$11 million, lower expenses in the Retail Operations segment of approximately \$4 million, decreased marketing and advertising costs of approximately \$4 million, and lower supply chain costs of approximately \$3 million.

Administrative and general expenses were \$119.8 million for the six months ended August 26, 2016, an increase of \$2.2 million from \$117.6 million in the prior year period. The increase was driven primarily by higher technology costs, predominantly related to our information technology systems refresh project of approximately \$2 million and higher combined 401(k) match and profit-sharing expense of approximately \$2 million, offset by the favorable impact of foreign currency translation of approximately \$2 million. See Segment Information Unallocated Items in this Quarterly Report on Form 10-Q for more information related to our combined 401(k) match and profit-sharing expense.

Other operating income net was \$3.6 million for the six months ended August 26, 2016 compared to \$69.7 million for the prior year six month period. The current year six month period includes \$2.1 million compared to \$6.5 million in the prior year period, from tax credits received from the State of Ohio under certain incentive programs made available to us in connection with our decision to maintain our world headquarters in Ohio. Additionally, the prior year includes the net gain on the sale of Strawberry Shortcake of \$61.6 million.

The effective tax rate was 32.6% and 31.7% for the six months ended August 26, 2016 and August 28, 2015, respectively. The lower than U.S. statutory rate for the six month period ended August 26, 2016 is primarily related to the domestic production activities deduction, tax treatment of corporate-owned life insurance and lower tax rates in foreign jurisdictions, partially offset by state income tax rates on U.S. income, net of federal benefit. The lower than statutory rate in the prior period was primarily related to the release of a \$4.3 million unrecognized tax benefit due to the issuance of regulations that clarified the law and the expiration of a statute of limitations, as well as the impact of lower tax rates in foreign jurisdictions, domestic production activities deduction and the tax treatment of corporate-owned life insurance.

Table of Contents**Segment Information**

Our operations are organized and managed according to a number of factors, including product categories, geographic locations and channels of distribution. Our North American Social Expression Products segment primarily designs, manufactures and sells greeting cards and other related products through various channels of distribution with mass merchandising as the primary channel. The International Social Expression Products segment primarily designs and sells greeting cards and other related products through various channels of distribution and is located principally in the United Kingdom, Australia and New Zealand. As permitted under ASC Topic 280, Segment Reporting, certain operating segments have been aggregated into the International Social Expression Products segment. The aggregated operating divisions have similar economic characteristics, products, sourcing processes, types of customers and distribution methods. At August 26, 2016 we operated 393 card and gift retail stores in the United Kingdom (UK) through our Retail Operations segment. These stores sell products purchased from the International Social Expression Products segment as well as products purchased from other vendors. The AG Interactive segment distributes social expression products, including electronic greetings, and a broad range of graphics and digital services and products, through a variety of electronic channels, including Web sites, Internet portals and electronic mobile devices. The Non-reportable segment primarily includes licensing activities.

Segment results are reported using actual foreign exchange rates for the periods presented. Refer to Note 18, Business Segment Information, to the Consolidated Financial Statements for further information and a reconciliation of total segment revenue to consolidated Total revenue and total segment earnings (loss) before tax to consolidated Income before income tax expense.

Segment earnings	37,627	46,209	(18.6%)	97,772	119,336	(18.1%)

Total revenue of our North American Social Expression Products segment decreased \$14.8 million for the three months ended August 26, 2016 and decreased \$27.9 million for the six months ended August 26, 2016 compared to the prior year periods. The decrease during the current quarter was primarily driven by lower sales of gift packaging and party goods of approximately \$9 million, greeting cards of approximately \$6 million, and other ancillary products of approximately \$1 million, partially offset by the favorable impact of fewer SBT implementations of approximately \$1.5 million. The decrease in total revenue for the six months ended August 26, 2016 was primarily attributable to sales declines of greetings cards of approximately \$16 million, gift packaging and party goods of approximately \$10 million, other ancillary products of approximately \$2 million, and the unfavorable impact of foreign currency translation of approximately \$1 million. These decreases were partially offset by the favorable impact of fewer SBT implementations of approximately \$1 million.

Segment earnings decreased \$8.6 million in the current quarter compared to the three months ended August 28, 2015. The decline was driven primarily by the impact of lower revenues, higher costs in our supply chain of approximately \$1 million, partially offset by lower technology costs of approximately \$2 million.

Segment earnings decreased \$21.6 million in the six month period ended August 26, 2016 compared to the prior year period. This decrease was driven primarily by the impact of lower revenues, higher technology costs of approximately \$2 million and higher business taxes of approximately \$1 million. These decreases were offset by lower costs in our

supply chain of approximately \$1 million and other general cost savings of approximately \$1 million.

Segment (loss) earnings	(1,246)	830	(250.1%)		(3,031)	(3,429)	11.6%	

Total revenue of our International Social Expression Products segment decreased \$18.0 million for the three month period ended August 26, 2016 compared to the prior year period. The decrease was primarily due to lower sales of greeting cards of approximately \$14 million and the unfavorable impact of foreign currency translation of approximately \$4 million. Total revenue of our International Social Expression Products segment decreased \$32.9 million for the six month period ended August 26, 2016 compared to the prior year period. The decrease was primarily due to lower sales of greeting cards of approximately \$27 million and the unfavorable impact of foreign currency translation of approximately \$6 million. The lower sales of greetings cards in both the three and six month periods ended August 26, 2016 are, as expected, primarily the result of the continuation of the reduced distribution to a significant customer.

Segment earnings decreased \$2.1 million in the three months ended August 26, 2016 compared to the same period in the prior year. The decrease is driven primarily by the impact on earnings from lower sales, offset by favorable supply chain costs of approximately \$2 million and cost savings initiatives undertaken to offset the impact of lower sales of approximately \$1 million.

Segment loss decreased \$0.4 million in the six months ended August 26, 2016, compared to the six months ended August 28, 2015. The decrease in segment loss was primarily driven by favorable supply chain costs of approximately \$6 million, lower production expenses of approximately \$4 million, favorable scrap expense of approximately \$2 million, and cost savings initiatives undertaken to offset the impact of lower sales of approximately \$2 million, offset by the margin impact of lower sales of approximately \$14 million.

Segment loss	(10,693)	(12,615)	15.2%		(18,155)	(20,758)	12.5%	

Total revenue of our Retail Operations segment decreased \$10.4 million and \$16.8 million for the three and six months ended August 26, 2016, respectively, compared to the prior year periods. The decreases were driven by the unfavorable impact of foreign currency translation of approximately \$9 million and \$12 million for the three and six month periods, respectively, as well as lower sales of greeting cards in both the three and six month periods. During the three and six month periods ended August 26, 2016, net sales at stores open one year or more were down approximately 0.1% and 0.6%, respectively, compared to the same periods in the prior year.

Segment loss decreased \$1.9 million and \$2.6 million in the three and six month periods ended August 26, 2016 compared to the prior year periods, respectively. The improved earnings in both the three and six months ended August 26, 2016 were primarily driven by lower retail store operating expenses and the favorable impact of foreign currency translation on the loss, partially offset by lower margins resulting from the decrease in revenue.

Total revenue of our AG Interactive segment decreased \$0.6 million and \$1.1 million for the three and six months ended August 26, 2016, respectively, compared to the prior year periods. The decrease in revenue for the three months ended August 26, 2016 compared to the same period in the prior year was driven by the unfavorable impact of foreign currency translation. The decrease in revenue for the six months ended August 26, 2016 compared to the same period in the prior year was driven primarily by lower subscription revenue as well as the unfavorable impact of foreign currency translation. At the end of the second quarter of 2017, AG Interactive had approximately 3.3 million online paid subscriptions compared to 3.4 million at the end of the same period in the prior year.

Segment earnings decreased \$1.4 million and \$2.0 million for the three and six months ended August 26, 2016 primarily due to the impact of lower revenue and higher operating expenses.

Total revenue of our Non-reportable segment decreased \$0.2 million for the three months ended August 26, 2016 and increased \$0.5 million for the six months ended August 26, 2016, compared to the prior year periods.

Segment loss decreased \$0.5 million for the three months ended August 26, 2016 compared to the same period in the prior year due to lower film production costs. Segment earnings decreased \$59.8 million for the six months ended August 26, 2016 compared to the prior year period, which was primarily due to the net gain of \$61.6 million recorded in connection with the 2016 sale of Strawberry Shortcake, partially offset by lower film production costs in the current year.

Unallocated Items

Centrally incurred and managed costs are not allocated back to the operating segments. The unallocated items include interest expense for centrally-incurred debt, domestic 401(k) match and profit-sharing expense, as well as costs associated with corporate operations such as the senior management, corporate finance, legal and insurance programs.

Total Unallocated	\$ (13,902)	\$ (7,768)	\$ (29,824)	\$ (22,378)

Interest expense is lower by \$0.5 million in the three month period ended August 26, 2016 compared to the same period in the prior year primarily due to the interest capitalized in conjunction with our systems refresh project. Interest expense is lower by \$3.1 million in the six month period ended August 26, 2016 compared to the same period in the prior year primarily due to the prior year write-off of debt issuance costs of \$1.9 million due to our voluntary prepayment of our Term Loan facility, and the continued interest capitalized in conjunction with our systems refresh project of \$1.1 million.

Table of Contents

As reported in our Annual Report on Form 10-K for the year ended February 29, 2016, prior to January 1, 2016, we sponsored a discretionary profit-sharing plan with a contributory 401(k) provision covering most of its United States employees. Under this arrangement, we made separate discretionary profit-sharing and 401(k) matching contributions annually, after fiscal year-end, depending on our financial results.

Effective January 1, 2016, the existing profit-sharing and 401(k) retirement savings plan was replaced with a safe harbor 401(k) arrangement. Pursuant to the new arrangement, the matching contributions became non-discretionary, were increased, and are now made throughout the year, rather than on an annual basis. The increased matching contributions effectively replace our discretionary profit-sharing contributions, which were discontinued for fiscal years ending after February 29, 2016. We expect that the current year quarterly expense will vary from the prior year expense pattern and the full year 2017 expense to be slightly higher than the combined profit-sharing and match components of the profit-sharing and 401(k) retirement savings plan in effect during the prior year.

Corporate overhead expense for the three and six month periods ended August 26, 2016, includes income of \$1.1 million and \$2.1 million, respectively, from tax credits received from the State of Ohio under certain incentive programs made available to us in connection with our decision to maintain our world headquarters in the state of Ohio. The three and six month periods in the prior year included \$6.5 million related to these incentives.

Liquidity and Capital Resources

The seasonal nature of our business precludes a useful comparison of the current period and the fiscal year-end financial statements; therefore, a Consolidated Statement of Financial Position as of August 28, 2015, has been included.

Operating Activities

Operating activities used \$32.0 million of cash during the six months ended August 26, 2016, compared to using \$65.5 million in the prior year period.

Accounts receivable provided \$17.9 million of cash during the six months ended August 26, 2016, compared to a use of \$3.4 million of cash during the prior year period. The year-over-year increase in cash flow of approximately \$21.3 million occurred mainly within our North American Social Expression Products segment primarily due to lower sales and the timing of collections from, or credits issued to, certain customers occurring in a different pattern in the current year period compared to the prior year period in both our North American Social Expression Products and International Social Expression Products segments.

Inventory used \$65.5 million of cash during the six months ended August 26, 2016, compared to \$49.9 million in the prior year six months. Historically, the first half of our fiscal year is a period of inventory build, and thus a use of cash, in preparation for the fall and winter seasonal holidays.

Deferred costs - net generally represents payments under agreements with retailers net of the related amortization of those payments. During the six months ended August 26, 2016, amortization exceeded payments by \$17.5 million. During the six months ended August 28, 2015, amortization exceeded payments by \$19.4 million. See Note 10, Deferred Costs, to the Consolidated Financial Statements for further detail of deferred costs related to customer agreements.

Accounts payable and other liabilities used \$83.5 million of cash during the six months ended August 26, 2016, compared to using \$91.7 million in the prior year period. The year-over-year change in cash usage was attributable to

an increase in accounts payable payments due to normal year-over-year timing of business transactions.

Table of Contents

Investing Activities

Investing activities used \$45.2 million of cash during the six months ended August 26, 2016, compared to a source of \$91.4 million in the prior year period. The current year includes primarily capital expenditures of \$46.0 million. The prior year included capital expenditures of \$31.7 million, and cash payments of \$2.8 million and \$3.2 million for acquired character property rights and the final working capital adjustments made in connection with the sale of AGI In-Store, respectively. These cash uses were offset by proceeds of \$105.0 received from the sale of Strawberry Shortcake and proceeds of \$24.1 million received from the surrender of certain corporate-owned life insurance policies.

Financing Activities

Financing activities provided \$1.1 million of cash during the current year six months, compared to a use of \$34.0 million in the prior year six month period. The current year source of cash was driven by additional borrowings, net of repayments, under our revolving credit facility of \$15.0 million, partially offset by a cash dividend payment of \$13.9 million. The prior year use of cash was primarily driven by a voluntary prepayment made on our term loan of \$65.0 million and cash dividend payments of \$20.7 million, partially offset by additional borrowings, net of repayments, under our revolving credit facility of \$51.7 million.

Credit Sources

Substantial credit sources are available to us. In total, we had available sources of credit of approximately \$485 million at August 26, 2016, which included \$185 million outstanding on our term loan facility, a \$250 million revolving credit facility and a \$50 million accounts receivable securitization facility, of which, \$259.1 million, in the aggregate, was unused as of August 26, 2016. Borrowings under the accounts receivable securitization facility are limited based on our eligible receivables outstanding. At August 26, 2016, we had \$15 million of borrowings outstanding under our revolving credit facility and we had no borrowings outstanding under our accounts receivable securitization facility. We had, in the aggregate, \$25.9 million outstanding under letters of credit, which reduced the total credit availability thereunder as of August 26, 2016.

Please refer to the discussion of our borrowing arrangements as disclosed in the *Credit Sources* section under Part II, Item 7 of our Annual Report on Form 10-K for the year ended February 29, 2016 for further information.

At August 26, 2016, we were in compliance with our financial covenants under the borrowing agreements described above.

Capital Deployment and Investments

On February 10, 2014, Century Intermediate Holding Company 2 (*CIHC2*), an indirect parent of American Greetings, issued \$285 million aggregate principal amount of 9.750%/10.500% Senior PIK Toggle Notes due 2019 (the *PIK Notes*). Excluding the first and last interest payment periods, which must be paid in cash, CIHC2 may elect to either accrue or pay cash interest on the PIK Notes. The PIK Notes carry a cash interest rate of 9.750%. Prior to the payment of interest by CIHC2, it is expected that we will provide CIHC2 with the cash flow for CIHC2 to pay interest on the PIK Notes. Assuming interest is paid regularly in cash, rather than accrued, the annual cash required to pay the interest is expected to be approximately \$27.8 million while the entire issuance of PIK Notes are outstanding. For further information, refer to the discussion of the PIK Notes as disclosed in *Transactions with Parent Companies and Other Affiliated Companies* in Note 18, *Related Party Information*, to the Consolidated Financial Statements under Part II, Item 8 of our Annual Report on Form 10-K for the year ended February 29, 2016.

Throughout fiscal 2017 and thereafter, we will continue to consider all options for capital deployment including growth opportunities, acquisitions and other investments in third parties, expanding customer relationships, expenditures or investments related to our current product leadership initiatives or other future strategic initiatives, capital expenditures, the information technology systems refresh project, paying down debt, paying dividends and, as appropriate, preserving cash. Our future operating cash flow and borrowing availability under our credit

agreement and our accounts receivable securitization facility are expected to meet these and other currently anticipated funding requirements. The seasonal nature of our business results in peak working capital requirements that may be financed through short-term borrowings when cash on hand is insufficient.

Over the next several years, we expect to allocate resources, including capital, to refresh our information technology systems by modernizing our systems, redesigning and deploying new processes, and evolving new organization structures, all of which are intended to drive efficiencies within the business and add new capabilities. Amounts that we spend could be material in any fiscal year and over the life of the project. During the six months ended August 26, 2016, we spent approximately \$33 million, including capital of approximately \$29 million and expense of approximately \$4 million, on these information technology systems. Based on the current scope of the project, we presently expect to spend at least an additional \$162 million on these information technology systems, the majority of which we expect will be capital expenditures. We believe these investments are important to our business, help us drive further efficiencies and add new capabilities; however, there can be no assurance that we will not spend more or less than \$162 million, or that we will achieve the anticipated efficiencies or any cost savings.

In May 2011, we announced plans to relocate our world headquarters to the Crocker Park mixed use development in Westlake, Ohio, which offers a vibrant urban setting, with retail stores and restaurants, offices and apartments. After putting the project on hold pending the outcome of the going private transaction, we announced plans in October 2013 to resume the project and on March 26, 2014, we purchased the land on which the new world headquarters will be built (the Crocker Park Site). We are leasing a portion of the Crocker Park Site to H L & L Property Company (H L & L), an indirect affiliate of American Greetings, which is constructing the new world headquarters building on the Crocker Park Site and, beginning in the third quarter of our fiscal 2017, will sublease the new world headquarters building back to the Corporation. In addition, to accommodate additional office needs, H L & L is constructing an additional approximately 60,000 square foot building (Tech West) adjacent to the world headquarters building and a surface parking lot (Surface Lot) on land that it is leasing from the Corporation. The Corporation has also entered into an operating lease to lease the Tech West building and Surface Lot from H L & L, also beginning in third quarter of fiscal 2017. The initial lease terms are fifteen years and the annual rent is expected to be approximately \$10.6 million. Further details of the relocation undertaking are provided in Note 18, Related Party Information, to the Consolidated Financial Statements under Part II, Item 8 of our Annual Report on Form 10-K for the fiscal year ended February 29, 2016 and Note 17, Related Party Information, to the Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

During the quarter ended August 26, 2016, we paid a cash dividend in the aggregate amount of \$13.9 million to Century Intermediate Holding Company, our parent and sole shareholder, for the purpose of paying interest on the PIK Notes.

Critical Accounting Policies

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. Please refer to the discussion of our Critical Accounting Policies under Part II, Item 7 of our Annual Report on Form 10-K for the year ended February 29, 2016.

Factors That May Affect Future Results

Certain statements in this report may constitute forward-looking statements within the meaning of the Federal securities laws. These statements can be identified by the fact that they do not relate strictly to historic or current facts.

They use such words as anticipate, estimate, expect, project, intend, plan, believe and other words and terms having similar meaning in connection with any discussion of future operating or financial performance. These forward-looking statements are based on currently available information, but are subject to a variety of uncertainties, unknown risks and other factors concerning our operations and business environment, which are difficult to predict and may be beyond our control. Important factors that could cause actual results to differ materially from those suggested by these forward-looking statements, and that could adversely affect our future financial performance, include, but are not limited to, the following:

Table of Contents

a weak retail environment and general economic conditions;

the loss of one or more retail customers and/or retail consolidations, acquisitions and bankruptcies, including the possibility of resulting adverse changes to retail contract terms;

competitive terms of sale offered to customers, including costs and other terms associated with new and expanded customer relationships;

our ability to successfully complete the turnaround efforts in our retail business in the UK;

risks associated with leasing substantial amounts of space for our retail stores;

the timing and impact of expenses incurred and investments made to support new retail or product strategies, as well as new product introductions and achieving the desired benefits from those investments;

unanticipated expenses we may be required to incur relating to our world headquarters project;

our ability to qualify for, and stay qualified for, state and local incentives offered to assist us in the development of a new world headquarters;

the timing and amount of investments in, together with the ability to successfully implement or achieve the desired benefits and cost savings associated with, any information systems refresh we may implement;

the timing and impact of converting customers to a scan-based trading model;

Schurman Fine Paper's ability to successfully operate its retail operations and satisfy its obligations to us;

consumer demand for social expression products generally, shifts in consumer shopping behavior, and consumer acceptance of products as priced and marketed, including the success of advertising and marketing efforts;

the impact and availability of technology, including social media, on product sales;

escalation in the cost of providing employee health care;

the ability to comply with our debt covenants;

our ability to adequately maintain the security of our electronic and other confidential information;

fluctuations in the value of currencies in major areas where we operate, including the U.S. Dollar, Euro, UK Pound Sterling and Canadian Dollar; and

the outcome of any legal claims, known or unknown.

The risks and uncertainties identified above are not the only risks we face. Additional risks and uncertainties not presently known to us or that we believe to be immaterial also may adversely affect us. Should any known or unknown risks or uncertainties develop into actual events, or underlying assumptions prove inaccurate, these developments could have material adverse effects on our business, financial condition and results of operations. For further information concerning the risks we face and issues that could materially affect our financial performance related to forward-looking statements, refer to our periodic filings with the Securities and Exchange Commission, including the Risk Factors section included in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended February 29, 2016.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The majority of inventory purchases within our UK wholesale operations are denominated in U.S. Dollars. Subsequent to the Brexit event, we estimate that a hypothetical 10% strengthening of the U.S. Dollar against the UK Pound Sterling, compared to the average exchange rate during the year ended February 29, 2016, would negatively impact fiscal 2017 operating income in the International Social Expression Products segment by approximately \$5 million.

For further information, refer to our Annual Report on Form 10-K for the year ended February 29, 2016.

Item 4. Controls and Procedures

American Greetings maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to the Corporation's management, including its Co-Chief Executive Officers and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

American Greetings carries out a variety of on-going procedures, under the supervision and with the participation of the Corporation's management, including its Co-Chief Executive Officers and Chief Financial Officer, to evaluate the effectiveness of the design and operation of the Corporation's disclosure controls and procedures. Based on the foregoing, the Co-Chief Executive Officers and Chief Financial Officer of American Greetings concluded that the Corporation's disclosure controls and procedures were effective as of the end of the period covered by this report.

There has been no change in the Corporation's internal control over financial reporting during the Corporation's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.
