ASTRONOVA, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(1) Overview

On September 25, 2015, Astro-Med, Inc. announced it would immediately begin doing business as AstroNova on a worldwide basis. The name change is part of the plan to modernize the Company and effectively communicate our strategy. The AstroNova name and brand emphasizes our traditional strengths in aerospace and acknowledges our expanding presence in test & measurement, product identification and other new areas where we can apply our data visualization technology. On May 18, 2016, the name change was formally approved by the Company's shareholders, and the Company's Restated Articles of Incorporation were amended to officially change the Company's name to AstroNova, Inc. The Company's common stock trades on the NASDAQ Global Market stock exchange under its new name, AstroNova, Inc., using the ticker symbol, ALOT.

Headquartered in West Warwick, Rhode Island, AstroNova, Inc. leverages its expertise in data visualization technologies to design, develop, manufacture and distribute a broad range of specialty printers and data acquisition and analysis systems. Our products are distributed through our own sales force and authorized dealers in the United States. We also sell to customers outside of the United States primarily through our Company offices in Canada, China, Europe, Mexico and Southeast Asia as well as through independent dealers and representatives. AstroNova, Inc. products are used around the world in a wide range of aerospace, apparel, automotive, avionics, chemical, computer peripherals, communications, distribution, food and beverage, general manufacturing, packaging and transportation applications.

The business consists of two segments, Product Identification (previously known as our QuickLabel segment), which includes products sold under the QuickLabel® brand name, and Test & Measurement which includes products sold under the AstroNova brand name.

Products sold under the QuickLabel brand are used in industrial and commercial product packaging and automatic identification applications to digitally print custom labels and other visual identification marks on demand. Products sold under the AstroNova Test & Measurement brand acquire and record visual and electronic signal data from local and networked data streams and sensors. The recorded data is processed and analyzed and then stored and presented in various visual output formats. In the aerospace market, the Company has a long history of using its data visualization technologies to provide high-resolution printers for use in airborne applications.

Unless otherwise indicated, references to AstroNova, the Company, we, our, and us in this Quarterly Report on Form 10-Q refer to AstroNova, Inc. and its consolidated subsidiaries.

(2) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission, and reflect all adjustments consisting of normal recurring adjustments which, in the opinion of management, are necessary for a fair presentation of the results of the interim periods included herein. These financial statements do not include all disclosures associated with annual financial statements and, accordingly, should be read in conjunction with footnotes contained in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2016.

Results of operations for the interim periods presented herein are not necessarily indicative of the results that may be expected for the full year.

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported and disclosed in the condensed consolidated financial statements and accompanying notes. Some of the more significant estimates relate to the allowances for doubtful accounts and credits, inventory valuation, impairment of long-lived assets and goodwill, income taxes, share-based compensation, accrued expenses and warranty reserves. Management's estimates are based on the facts and circumstances available at the time estimates are made, historical experience, risk of loss, general economic conditions and trends, and management's assessments of the probable future outcome of these matters. Consequently, actual results could differ from those estimates.

Certain amounts in the prior year's financial statements have been reclassified to conform to the current year's presentation.

Table of Contents**(3) Principles of Consolidation**

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany accounts and transactions are eliminated in consolidation.

(4) Acquisition

On June 19, 2015, the Company completed the acquisition of the aerospace printer product line for civil and commercial aircraft from Rugged Information Technology Equipment Corporation (RITEC) under the terms of an Asset Purchase Agreement dated June 18, 2015. The products of RITEC consist of aerospace printers for use in commercial aircraft sold primarily to aircraft manufacturers, tier one contractors and directly to airlines around the world. AstroNova's aerospace printer product line is part of the Test & Measurement (T&M) product group and is reported as part of the T&M segment. The Company began shipment of the RITEC products in the third quarter of fiscal 2016.

The purchase price of the acquisition was \$7,360,000 which was funded using available cash and investment securities. The Company withheld \$750,000 of the purchase price in escrow for twelve months following the acquisition date to support sellers' indemnifications in the event of any breach in the representations, warranties or covenants of RITEC. The Company retained \$99,000 from the escrow, which was recorded as other income in the condensed consolidated statements of income for the nine-month period ended October 29, 2016.

The assets acquired from RITEC consist principally of accounts receivable and certain intangible assets. Acquisition-related costs of approximately \$109,000 were included in the general and administrative expenses in the Company's consolidated statements of income for fiscal year ended January 31, 2016. The acquisition was accounted for under the acquisition method in accordance with the guidance provided by FASB ASC 805, Business Combinations.

AstroNova also entered into a Transition Services Agreement (TSA) with RITEC, under which RITEC provided transition services and continued to manufacture products in the acquired product line until the Company transitioned the manufacturing to its West Warwick, Rhode Island facility. The TSA concluded in the third quarter of fiscal 2017, and AstroNova agreed to purchase the remaining inventory held by RITEC at its book value (net of reserves), which the Company estimates will be approximately \$175,000.

Also as part of the Asset Purchase Agreement, the Company entered into a 5-year License Agreement with RITEC, which grants RITEC certain rights to use the intellectual property acquired by the Company in the design, development, marketing, manufacture, sale and servicing of aerospace printers for aircraft sold to the military end-user market and printers sold to other non-aircraft market segments. RITEC will pay royalties equal to 7.5% of the selling price on all products sold into the military end-user aircraft market during the License Agreement period.

The purchase price of the acquisition has been allocated on the basis of the fair value as follows:

(In thousands)	
Accounts Receivable	\$ 50
Identifiable Intangible Assets	3,780
Goodwill	3,530

Total Purchase Price

\$ 7,360

The fair value of the intangible assets acquired was estimated by applying the income approach. This fair value measurement is based on significant inputs that are not observable in the market and therefore, represent a Level 3 measurement as defined in ASC 820, Fair Value Measurement and Disclosure, which requires management judgment due to the absence of quoted market prices. Key assumptions include (1) a weighted average cost of capital of 15.5%; (2) a range of earnings projections from \$110,000-\$700,000 and (3) a range of contract renewal probability from 30%-100%.

Goodwill of \$3,530,000, which is deductible for tax purposes, represents the excess of the purchase price over the estimated fair value assigned to the tangible and identifiable intangible assets acquired from RITEC. The carrying amount of the goodwill was allocated to the T&M segment of the Company.

Table of Contents

The following table reflects the fair value of the acquired identifiable intangible assets and related estimated useful lives:

(In thousands)	Fair Value	Useful Life (Years)
Customer Contract Relationships	\$ 2,830	10
Non-Competition Agreement	950	5
Total	\$ 3,780	

Assuming the acquisition of RITEC occurred on February 1, 2015, the impact on net sales, net income and earnings per share would not have been material to the Company for the three and nine month periods ended October 31, 2015.

(5) Net Income Per Common Share

Basic net income per share is calculated by dividing net income by the weighted average number of shares outstanding during the period. Diluted net income per share is calculated by dividing net income by the weighted average number of shares and, if dilutive, common equivalent shares, determined using the treasury stock method for stock options, restricted stock awards and restricted stock units outstanding during the period. A reconciliation of the shares used in calculating basic and diluted net income per share is as follows:

	Three Months Ended		Nine Months Ended	
	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015
Weighted Average Common Shares Outstanding Basic	7,444,478	7,294,595	7,406,977	7,277,356
Effect of Dilutive Options, Restricted Stock Awards and Restricted Stock Units	149,750	171,557	164,705	185,058
Weighted Average Common Shares Outstanding Diluted	7,594,228	7,466,152	7,571,682	7,462,414

For the three and nine months ended October 29, 2016 the diluted per share amounts do not reflect common equivalent shares outstanding of 406,187 and 460,667, respectively. For the three and nine months ended October 31, 2015 the diluted per share amounts do not reflect common equivalent shares outstanding of 449,100 and 424,100, respectively. These outstanding common equivalent shares were not included due to their anti-dilutive effect. Anti-dilutive shares consist of those common stock equivalents that have either an exercise price above the average stock price for the period, or the common stock equivalent's related average unrecognized stock compensation expense is sufficient to buy back the entire amount of shares. Restricted stock units which vest based upon achievement of performance targets are excluded from the diluted shares outstanding unless the performance targets have been met as of the end of the reporting period, regardless of whether such performance targets are probable of achievement as of the end of the measurement period.

(6) Intangible Assets

Intangible assets are as follows:

	October 29, 2016			January 31, 2016		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
(In thousands)						
Miltope:						
Customer Contract Relationships	\$ 3,100	\$ (1,020)	\$ 2,080	\$ 3,100	\$ (758)	\$ 2,342
RITEC:						
Customer Contract Relationships	2,830	(163)	2,667	2,830	(31)	2,799
Non-Competition Agreement	950	(254)	696	950	(111)	839
Intangible Assets, net	\$ 6,880	\$ (1,437)	\$ 5,443	\$ 6,880	\$ (900)	\$ 5,980

Table of Contents

There were no impairments to intangible assets during the three and nine months ended October 29, 2016 and October 31, 2015. Amortization expense of \$179,000 and \$152,000 related to the above acquired intangibles has been included in the condensed consolidated statement of income for the three months ended October 29, 2016 and October 31, 2015, respectively. Amortization expense of \$536,000 and \$347,000 related to the above acquired intangibles has been included in the condensed consolidated statement of income for the nine months ended October 29, 2016 and October 31, 2015, respectively.

Estimated amortization expense for the next five years is as follows:

(In thousands)	2017	2018	2019	2020	2021
Estimated amortization expense	\$ 179	\$ 774	\$ 769	\$ 803	\$ 706
(7) Share-Based Compensation					

AstroNova has two equity incentive plans the 2007 Equity Incentive Plan (the 2007 Plan) and the 2015 Equity Incentive Plan (the 2015 Plan). Under these plans, the Company may grant incentive stock options, non-qualified stock options, stock appreciation rights, time or performance based restricted stock units (RSUs), restricted stock awards (RSAs), and other stock-based awards to executives, key employees, directors and other eligible individuals. At October 29, 2016, 87,988 shares were available for grant under the 2007 Plan, of which 50,000 are reserved for stock options that the Company is obligated to issue to its CEO in fiscal 2018 pursuant to an Equity Incentive Award Agreement dated as of November 24, 2014 (the CEO Equity Incentive Agreement). The 2007 Plan will expire in May 2017. The 2015 Plan authorizes the issuance of up to 500,000 shares (subject to adjustment for stock dividends and stock splits) and at October 29, 2016, 157,871 shares were available for grant under the 2015 Plan. The 2015 Plan will expire in May 2025. Options granted to date to employees under both plans vest over four years and expire after ten years. The exercise price of each stock option is established at the discretion of the Compensation Committee; however, any incentive stock options granted under the 2007 Plan, and all options granted under the 2015 Plan, must be issued at an exercise price of not less than the fair market value of the Company's common stock on the date of grant.

Under the plans, each non-employee director receives an automatic annual grant of ten-year options to purchase 5,000 shares of stock upon the adjournment of each annual shareholders meeting. Each such option is exercisable at the fair market value of the Company's common stock as of the grant date, and vests immediately prior to the next succeeding annual shareholders meeting. Accordingly, on May 18, 2016, 30,000 options were issued to the non-employee directors.

In addition to the plans, the Company has a Non-Employee Director Annual Compensation Program (the Program). Prior to August 1, 2016, this program provided that each non-employee director be entitled to an annual cash retainer of \$7,000 (the Annual Cash Retainer), plus \$500 for each Board and committee meeting attended. In addition, the Chairman of the Board received an annual retainer of \$6,000, and the Chairs of the Audit and Compensation Committees each received an annual retainer of \$4,000 (Chair Retainer). The non-employee directors could elect, for any fiscal year, to receive all or a portion of the Annual Cash Retainer and/or Chair Retainer (collectively the Cash Retainer) in the form of common stock of the Company, which was issued under one of the Plans. If a non-employee director elected to receive all or a portion of the Cash Retainer in the form of common stock, such shares were issued in four quarterly installments on the first day of each fiscal quarter, and the number of shares of common stock issued was based on the fair market value of the Company's common stock on the date such installment was payable. The common stock received in lieu of such Cash Retainer was fully vested upon issuance. However, a non-employee director who received common stock in lieu of all or a portion of the Cash Retainer could not sell, transfer, assign,

pledge or otherwise encumber the common stock prior to the first anniversary of the date on which such shares were issued. In the event of the death or disability of a non-employee director, or a change in control of the Company, any shares of common stock issued in lieu of the Cash Retainer would no longer be subject to such restrictions on transfer. During the nine months ended October 29, 2016, a total of 1,168 shares was awarded to non-employee directors in lieu of the Cash Retainer. In addition, under the Program, each non-employee director received RSAs with a value equal to \$20,000 (the Equity Retainer) upon the adjournment of the annual shareholders meeting. The Equity Retainer vests on the earlier of 12 months after the grant date or the date immediately prior to the next annual meeting of the shareholders following the meeting at which such RSAs were granted. However, a non-employee director could not sell, transfer, assign, pledge or otherwise encumber the vested common stock prior to the second anniversary of the vesting date. In the event of the death or disability of a non-employee director, or a change in control of the Company, the RSAs would immediately vest and would no longer be subject to such restrictions on transfer. During the second quarter of fiscal 2017, 8,262 shares were awarded as the Equity Retainer to the non-employee directors.

Effective August 1, 2016, the Non-Employee Director Annual Compensation Program was amended. Under the amended Program, and commencing on the first business day of the third fiscal quarter of fiscal 2017, each non-employee director receives an automatic grant of RSAs on the first business day of each fiscal quarter. The number of whole shares to be granted each quarter is equal to 25% of the number calculated by dividing the director compensation amount by the fair market value of the Company's stock on such day. The director annual compensation amount is \$55,000 for the remainder of fiscal year 2017, \$65,000 for fiscal 2018, and \$75,000 for fiscal 2019. In addition, the Chairman of the Board receives RSAs with an aggregate value of \$6,000, and the Chairs of

Table of Contents

the Audit and Compensation Committees each receive RSAs with an aggregate value of \$4,000, also issued in quarterly installments and calculated in the same manner as the directors' RSA grants. RSAs granted pursuant to the amended Program become fully vested on the first anniversary of the date of grant. During the third quarter of fiscal 2017, a total of 5,495 shares were awarded to the non-employee directors as compensation under the amended Program.

In April 2013 (fiscal year 2014), the Company granted options and RSUs to officers (2014 RSUs). The 2014 RSUs vested as follows: twenty-five percent vested on the third anniversary of the grant date, fifty percent vested upon the Company achieving its cumulative budgeted net sales target for fiscal years 2014 through 2016 (the Measurement Period), and twenty-five percent vested upon the Company achieving a target average annual ORONA (operating income return on net assets as calculated under the Domestic Management Bonus Plan) for the Measurement Period. The grantee may not sell, transfer or otherwise dispose of more than fifty percent of the common stock issued upon vesting of the 2014 RSUs until the first anniversary of the vesting date. In April 2016, 9,300 of the 2014 RSUs vested, as the Company achieved the targeted average annual ORONA, as defined in the plan, for the Measurement Period and another 9,300 vested as a result of the third year anniversary date of the grant. Additionally, on February 1, 2014, the Company accelerated the vesting of 4,166 of the 2014 RSUs held by Everett Pizzuti in connection with his retirement.

In March 2015 (fiscal year 2016), the Company granted 50,000 options and 537 RSAs to its CEO pursuant to the CEO Equity Incentive Agreement, and 35,000 options to other key employees. The options and RSAs vest in four equal annual installments commencing on the first anniversary of the grant date.

In May 2015 (fiscal year 2016), the Company granted an aggregate of 80,000 time-based and 155,000 performance-based RSUs (2016 RSUs) to certain officers of the Company. The time-based 2016 RSUs vest in four equal annual installments commencing on the first anniversary of the grant date. The performance-based 2016 RSUs vest over three years based upon the increase in revenue, if any, achieved each fiscal year relative to a three-year revenue increase goal. Performance-based 2016 RSUs that are earned based on organic revenue growth will be fully vested when earned, while those earned based on revenue growth via acquisitions will vest annually over a three-year period following the fiscal year in which the revenue growth occurs. Any performance-based 2016 RSUs that have not been earned at the end of the three-year performance period will be forfeited. The expense for such shares is recognized in the fiscal year in which the results are achieved, however, the shares are not fully earned until approved by the Compensation Committee in the first quarter of the following fiscal year. Based upon revenue in fiscal 2016, 15,810 of the performance based 2016 RSUs were earned in the first quarter of fiscal 2017.

In March 2016 (fiscal year 2017), the Company granted 50,000 options and 4,030 RSAs to its CEO pursuant to the CEO Equity Incentive Agreement. The options and RSAs vest in four equal annual installments commencing on the first anniversary of the grant date.

In May 2016, the Company granted 37,000 options to certain key employees. On August 1, 2016 the Company granted 5,000 options to its interim Chief Financial Officer. The options vest in four equal installments commencing on the first anniversary of the grant date.

The Company accounts for compensation cost related to share-based payments based on the estimated fair value of the award. The Company has estimated the fair value of each option on the date of grant using the Black-Scholes option-pricing model. The Company's estimate requires a number of complex and subjective assumptions including our stock price volatility, employee exercise patterns (expected life of the options), the risk-free interest rate and the Company's dividend yield. The stock price volatility assumption is based on the historical weekly price data of the Company's common stock over a period equivalent to the weighted average expected life of our options. Management

evaluated whether there were factors during that period which were unusual and would distort the volatility figure if used to estimate future volatility and concluded that there were no such factors. In determining the expected life of the option grants, the Company has observed the actual terms of prior grants with similar characteristics and the actual vesting schedule of the grant and has assessed the expected risk tolerance of different option groups. The risk-free interest rate is based on the actual U.S. Treasury zero coupon rate for bonds matching the expected term of the option as of the option grant date. The dividend assumption is based upon the prior year's average dividend yield. The Company's accounting for share-based compensation for RSUs and RSAs is also based on the fair value method. The fair value of the RSUs and RSAs is based on the closing market price of the Company's common stock on the date of grant. Reductions in compensation expense associated with forfeited awards are estimated at the date of grant, and this estimated forfeiture rate is adjusted periodically based on actual forfeiture experience.

Table of Contents

Share-based compensation expense was recognized as follows:

(In thousands)	Three Months Ended		Nine Months Ended	
	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015
Stock Options	\$ 85	\$ 69	\$ 253	\$ 212
Restricted Stock Awards and Restricted Stock Units	96	318	468	614
Employee Stock Purchase Plan	4	4	10	8
Total	\$ 185	\$ 391	\$ 731	\$ 834

Stock Options

The fair value of stock options granted during the nine months ended October 29, 2016 and October 31, 2015 was estimated using the following weighted average assumptions:

	Nine Months Ended	
	October 29, 2016	October 31, 2015
Risk Free Interest Rate	1.4%	1.6%
Expected Volatility	28.3%	22.7%
Expected Life (in years)	5.0	5.0
Dividend Yield	1.9%	2.0%

The weighted average fair value per share for options granted during the nine months ended October 29, 2016 was \$3.22, compared to \$2.43 during the nine months ended October 31, 2015.

Aggregated information regarding stock options granted under the plans for the nine months ended October 29, 2016 is summarized below:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (in Years)		Aggregate Intrinsic Value
Outstanding at January 31, 2016	657,936	\$ 11.00	6.1	\$	3,083,000
Granted	122,000	14.82			
Exercised	(83,107)	8.64			
Forfeited	(4,250)	13.91			
Canceled	(3,123)	8.95			
Outstanding at October 29, 2016	689,456	\$ 11.96	6.3	\$	1,849,400

Exercisable at October 29, 2016	435,906	\$	10.61	4.9	\$	1,740,336
---------------------------------	---------	----	-------	-----	----	-----------

As of October 29, 2016, there was approximately \$558,000 of unrecognized compensation expense related to stock options which is expected to be recognized over a weighted average period of approximately 2.4 years.

Table of Contents*Restricted Stock Units (RSUs) and Restricted Stock Awards (RSAs)*

Aggregated information regarding RSUs and RSAs granted under the Plan for the nine months ended October 29, 2016 is summarized below:

	RSAs & RSUs	Weighted Average Grant Date Fair Value
Unvested at January 31, 2016	293,088	\$ 13.28
Granted	18,955	14.97
Vested	(75,132)	12.05
Forfeited	(27,028)	11.31
Unvested at October 29, 2016	209,883	\$ 14.12

As of October 29, 2016, there was approximately \$953,000 of unrecognized compensation expense related to RSUs and RSAs which is expected to be recognized over a weighted average period of 2.2 years.

Employee Stock Purchase Plan

AstroNova has an Employee Stock Purchase Plan allowing eligible employees to purchase shares of common stock at a 15% discount from fair value on the date of purchase. A total of 247,500 shares were originally reserved for issuance under this plan. During the nine months ended October 29, 2016 and October 31, 2015, there were 4,707 and 3,795 shares, respectively, purchased under this plan. As of October 29, 2016, 46,893 shares remain available.

(8) Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market and include material, labor and manufacturing overhead. The components of inventories are as follows:

(In thousands)	October 29, 2016	January 31, 2016
Materials and Supplies	\$ 12,507	\$ 10,197
Work-In-Process	1,496	1,025
Finished Goods	10,063	7,491
	24,066	18,713
Inventory Reserve	(4,947)	(3,823)
	\$ 19,119	\$ 14,890

(9) Income Taxes

The Company's effective tax rates for the period, which are based on the projected effective tax rate for the full year, are as follows:

	Three Months Ended	Nine Months Ended
Fiscal 2017	35.1%	31.5%
Fiscal 2016	39.8%	35.5%

During the three months ended October 29, 2016, the Company recognized income tax expense of \$623,000. During the three months ended October 31, 2015, the Company recognized income tax expense of \$873,000, which was directly impacted by a \$65,000 tax expense due to a change in estimate relating to the Company's prior year federal taxes, and the difference in R&D tax credits included in each year's tax provision calculation.

During the nine months ended October 29, 2016, the Company recognized income tax expense of \$1,595,000. The effective tax rate in this period was directly impacted by a \$97,000 tax benefit relating to the filing of amended returns; a \$52,000 tax benefit related to the expiration of the statute of limitations on a previously uncertain tax position and a \$39,000 tax benefit related to disqualifying dispositions of Company stock. During the nine months ended October 31, 2015, the Company recognized income tax expense of \$2,031,000 which was directly impacted by a \$135,000 tax benefit related to the expiration of the statute of limitations on a previously uncertain tax position, offset by a \$65,000 tax expense due to a change in estimate relating to the Company's prior year federal taxes.

As of October 29, 2016, the Company's cumulative unrecognized tax benefits totaled \$568,000 compared to \$591,000 as of January 31, 2016. There were no other developments affecting unrecognized tax benefits during the quarter ended October 29, 2016.

Table of Contents**(10) Note Receivable and Line of Credit Issued**

On January 30, 2012, the Company completed the sale of its label manufacturing operations in Asheboro, North Carolina to Label Line Ltd. The net sale price of \$1,000,000 was received in the form of a promissory note issued by Label Line Ltd. which was secured by a first lien on various collateral, including the Asheboro plant and plant assets. The note bears interest at 3.75% and was payable in sixteen quarterly installments of principal and interest which commenced on January 30, 2013. In February 2016, the balance remaining on this note was paid in full.

The terms of the Asheboro sale also included an agreement for AstroNova to provide Label Line Ltd. with additional financing in the form of a revolving line of credit in the amount of \$600,000. This line of credit is secured by a first lien on various collateral of Label Line Ltd., including the Asheboro plant and plant assets, and bears interest at a rate equal to the United States prime rate plus an additional margin of two percent on the outstanding credit balance. The term of this revolving line of credit has been extended through January 31, 2017. As of October 29, 2016, \$115,000 remains outstanding on this revolving line of credit.

(11) Segment Information

AstroNova reports two segments: Product Identification (previously the QuickLabel segment) and Test & Measurement (T&M). The Company evaluates segment performance based on the segment profit before corporate expenses.

Summarized below are the Net Sales and Segment Operating Profit for each reporting segment:

(In thousands)	Three Months Ended				Nine Months Ended			
	Revenue		Segment Operating Profit		Revenue		Segment Operating Profit	
	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015
Product Identification	\$ 16,892	\$ 17,744	\$ 2,443	\$ 2,901	\$ 51,126	\$ 50,487	\$ 7,069	\$ 7,599
T&M	6,450	7,009	1,282	849	21,665	20,410	3,625	2,674
Total	\$ 23,342	\$ 24,753	3,725	3,750	\$ 72,791	\$ 70,897	10,694	10,273
Corporate Expenses			1,891	1,891			5,566	5,132

Net Income			\$ 1,151	\$ 1,319			\$ 3,461	\$ 3,697

Table of Contents

(12) Recent Accounting Pronouncements

Statement of Cash Flows

In August 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-15, Classification of Certain Cash Receipts and Cash Payments (Topic 230). ASU 2016-15 addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice for certain cash receipts and cash payments. The standard is effective for interim and annual reporting periods beginning after December 15, 2017 (Q1 fiscal 2019 for AstroNova), with early adoption permitted. The Company is currently evaluating the requirements of this ASU and has not yet determined its impact on the Company's consolidated financial statements.

Revenue Recognition

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 completes the joint effort by the FASB and International Accounting Standards Board to improve financial reporting by creating common revenue recognition guidance for U.S. GAAP and International Financial Reporting Standards. ASU 2014-09 applies to all companies that enter into contracts with customers to transfer goods or services. In August 2015, the FASB modified ASU 2014-09 to be effective for annual reporting periods beginning after December 15, 2017 (Q1 fiscal 2019 for AstroNova), including interim periods within that reporting period. As modified, the FASB permits the adoption of the new revenue standard early, but not before annual periods beginning after December 15, 2016. Entities have the choice to apply ASU 2014-09 either retrospectively to each reporting period presented or by recognizing the cumulative effect of applying ASU 2014-09 at the date of initial application and not adjusting comparative information.

In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606) Principal versus Agent Consideration. In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606) Identifying Performance Obligations and Licensing. In May 2016, the FASB issued ASU 2016-11, Revenue from Contracts with Customers (Topic 606) and Derivatives and Hedging (Topic 815) Rescission of SEC Guidance Because of ASU 2014-09 and 2014-16 and ASU 2016-12, Revenue from Contracts with Customers (Topic 606) Narrow Scope Improvements and Practical Expedients. All of these ASUs do not change the core principle of the guidance in Topic 606 (as amended by ASU 2014-09), but rather provide further guidance to improve the operability and understandability of the implementation guidance included in ASU 2014-09. The effective date for all of these ASUs is the same as the effective date of ASU 2014-09 as amended by ASU 2015-14, for annual reporting periods beginning after December 15, 2017, including interim periods within those years (Q1 fiscal 2019 for AstroNova). The Company is currently evaluating the requirements of these ASUs along with ASU 2014-09 and has not yet determined their impact on the Company's consolidated financial statements.

Table of Contents

Share-Based Compensation

In March 2016, the FASB issued ASU 2016-09, Compensation—Stock Compensation (Topic 718) Improvements to Employee Share-Based Payment Accounting. ASU 2016-09 simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. For public entities, ASU 2016-09 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods (Q1 fiscal 2018 for AstroNova). As permitted by ASU 2016-09, we adopted this guidance prospectively in fiscal 2017. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

Leases

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). ASU 2016-02 supersedes current guidance related to accounting for leases and is intended to increase transparency and comparability among organizations by requiring lessees to recognize assets and liabilities in the balance sheet for operating leases with lease terms greater than twelve months. The update also requires improved disclosures to help users of financial statements better understand the amount, timing and uncertainty of cash flows arising from leases. ASU 2016-02 will be effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years (Q1 fiscal 2020 for AstroNova), with early adoption permitted. At adoption, this update will be applied using a modified retrospective approach. The Company is currently evaluating the effect of this new guidance on the Company's consolidated financial statements.

Inventory

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330). ASU 2015-11 requires inventory to be measured at the lower of cost and net realizable value instead of at lower of cost or market. This guidance does not apply to inventory that is measured using last-in, first out (LIFO) or the retail inventory method but applies to all other inventory including inventory measured using first-in, first-out (FIFO) or the average cost method. ASU 2015-11 will be effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years (Q1 fiscal 2018 for AstroNova) and should be applied prospectively. Early adoption is permitted as of the beginning of an interim or annual reporting period. AstroNova is currently evaluating the effect of this new guidance on the Company's consolidated financial statements.

No other new accounting pronouncements, issued or effective during the third quarter of the current year, have had or are expected to have a material impact on our consolidated financial statements.

(13) Securities Available for Sale

Pursuant to our investment policy, securities available for sale include state and municipal securities with various contractual or anticipated maturity dates ranging from 1 to 29 months. Securities available for sale are carried at fair value, with unrealized gains and losses reported as a component of accumulated other comprehensive income (loss) in shareholders' equity until realized. Realized gains and losses from the sale of available for sale securities, if any, are determined on a specific identification basis. A decline in the fair value of any available for sale security below cost that is determined to be other than temporary will result in a write-down of its carrying amount to fair value. No such impairment charges were recorded for any period presented. All short-term investment securities have original maturities greater than 90 days.

The fair value, amortized cost and gross unrealized gains and losses of securities available for sale are as follows:

(In thousands)

October 29, 2016	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
State and Municipal Obligations	\$ 7,246	\$ 3	\$ (5)	\$ 7,244

January 31, 2016	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
State and Municipal Obligations	\$ 10,363	\$ 15	\$ (2)	\$ 10,376

Table of Contents**(14) Fair Value**

We measure our financial assets at fair value on a recurring basis in accordance with the guidance provided in ASC 820, Fair Value Measurement and Disclosures which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). In addition, ASC 820 establishes a three-tiered hierarchy for inputs used in management's determination of fair value of financial instruments that emphasizes the use of observable inputs over the use of unobservable inputs by requiring that observable inputs be used when available. Observable inputs are inputs that reflect management's belief about the assumptions market participants would use in pricing a financial instrument based on the best information available in the circumstances.

The fair value hierarchy is summarized as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities;

Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Cash and cash equivalents, accounts receivable, accounts payable, line of credit receivable, accrued compensation, other liabilities and accrued expenses and income tax payable are reflected in the condensed consolidated balance sheet at carrying value, which approximates fair value due to the short term nature of these instruments.

Assets measured at fair value on a recurring basis are summarized below:

(In thousands)

October 29, 2016	Level 1	Level 2	Level 3	Total
Money Market Funds (included in Cash and Cash Equivalents)	\$ 7,570	\$	\$	\$ 7,570
State and Municipal Obligations (included in Securities Available for Sale)		7,244		7,244
Total	\$ 7,570	\$ 7,244	\$	\$ 14,814

January 31, 2016	Level 1	Level 2	Level 3	Total
Money Market Funds (included in Cash and Cash Equivalents)	\$ 4,340	\$	\$	\$ 4,340
State and Municipal Obligations (included in Securities Available for Sale)		10,376		10,376

Total	\$ 4,340	\$ 10,376	\$	\$ 14,716
-------	----------	-----------	----	-----------

For our money market funds and state and municipal obligations, we utilize the market approach to measure fair value. The market approach is based on using quoted prices for identical or similar assets.

(15) Accumulated Other Comprehensive Loss

The changes in the balance of accumulated other comprehensive loss by component are as follows:

(In thousands)	Foreign Currency Translation Adjustments	Unrealized Holding Gain (Loss) on Available for Sale Securities		Total
Balance at January 31, 2016	\$ (983)	\$	8	\$ (975)
Other Comprehensive Loss	(11)		(10)	(21)
Balance at October 29, 2016	\$ (994)	\$	(2)	\$ (996)

The amounts presented above in other comprehensive loss are net of any applicable taxes.

Table of Contents

(16) Commitments and Contingencies

Product Replacement Program

In April 2013, tests conducted by the Company revealed that one of its suppliers had been using a non-conforming part in power supplies for certain models of AstroNova's Test & Measurement printers. No malfunctions have been reported by customers as a result of the non-conforming material.

Upon identifying this issue, AstroNova immediately suspended production of the printers, notified all customers and contacted the supplier who confirmed the problem. AstroNova is continuing to work with its customers to replace the non-conforming material on existing printers with conforming material. The estimated costs associated with the replacement program were \$672,000, which was based upon the number of printers shipped during the period the non-conforming material was used. Those estimated costs were recognized and recorded as a reserve in the first quarter of fiscal 2014. Since fiscal 2014, the Company has expended a total of \$419,000 in replacement costs which have been charged against this reserve. The remaining reserve amount of \$253,000 is included in other accrued expenses in the accompanying condensed consolidated balance sheet at October 29, 2016.

Since the supplier deviated from the agreed-upon specifications for the power supply while providing certificates of conformance to the original specifications, in January 2014, AstroNova received a non-refundable \$450,000 settlement from the supplier for recovery of the costs and expense associated with this issue. In addition to this cash settlement, the Company received lower product prices from the supplier through the first quarter of fiscal year 2017.

(17) Line of Credit

The Company has a \$10.0 million revolving line of credit available for ongoing working capital requirements, business acquisitions or general corporate purposes as needed. This line of credit is scheduled to expire on August 30, 2017. Any borrowings made under this line of credit bear interest at either a fluctuating base rate equal to the highest of (i) the Prime Rate, (ii) 1.50% above the daily one month LIBOR, and (iii) the Federal Funds Rate in effect plus 1.50% or at a fixed rate of LIBOR plus an agreed upon margin of between 0% and 2.25%, based on the Company's funded debt to EBITDA ratio as defined in the agreement. In addition, the agreement provides for two financial covenant requirements, namely, Total Funded Debt to Adjusted EBITDA (as defined) of not greater than 3 to 1 and a Fixed Charge Coverage Ratio (as defined) of not less than 1.25 to 1, both measured at the end of each quarter on a rolling four quarter basis. As of October 29, 2016, there have been no borrowings against this line of credit, and the Company was in compliance with its financial covenants.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Business Overview

This section should be read in conjunction with the AstroNova condensed consolidated financial statements included elsewhere herein and our Annual Report on Form 10-K for the fiscal year ended January 31, 2016.

On September 25, 2015, we announced we would immediately begin doing business as AstroNova on a worldwide basis. The name change is part of the plan to modernize the Company and effectively communicate our strategy. The AstroNova name and brand emphasizes our traditional strengths in aerospace and acknowledges our expanding presence in test & measurement, product identification and other new areas where we can apply our data visualization technology. On May 18, 2016, the name change was formally approved by the Company's shareholders, and the Company's Restated Articles of Incorporation were amended to officially change the Company's name to AstroNova, Inc.

AstroNova is a multi-national enterprise that leverages its proprietary data visualization technologies to design, develop, manufacture, distribute and service a broad range of products that acquire, store, analyze and present data in multiple formats. The Company organizes its structure around a core set of competencies, including research and development, manufacturing, service, marketing and distribution. It markets and sells its products and services through the following two segments:

Product Identification (previously QuickLabel) offers product identification and label printer hardware, software, servicing contracts, and consumable products.

Test and Measurement (T&M) offers a suite of products and services that acquire and record visual and electronic signal data from local and networked data streams and sensors as well as wired and wireless networks. The recorded data is processed and analyzed and then stored and presented in various visual output formats. The T&M segment also includes a line of aerospace printers that are used to print hard copies of data required for the safe and efficient operation of aircraft including navigation maps, arrival and departure procedures, flight itineraries, weather maps, performance data, passenger data, and various air traffic control data. Aerospace products also include Ethernet switches which are used in military aircraft and military vehicles to connect multiple computers or Ethernet devices.

AstroNova markets and sells its products and services globally through a diverse distribution structure of direct sales personnel, manufacturer's representatives and authorized dealers that deliver a full complement of branded products and services to customers in our respective markets.

On June 19, 2015, AstroNova completed the asset purchase of the aerospace printer product line from RITEC. AstroNova's aerospace printer product line is part of the T&M product group and is reported as part of the T&M segment. The Company began shipment of the RITEC products in the third quarter of fiscal 2016. Refer to Note 4, Acquisition, in the condensed consolidated financial statements included elsewhere in this report.

Results of Operations

Three Months Ended October 29, 2016 vs. Three Months Ended October 31, 2015

Edgar Filing: AstroNova, Inc. - Form 10-Q

Revenue by segment and current quarter percentage change over prior year for the three months ended October 29, 2016 and October 31, 2015 was:

<i>(Dollars in thousands)</i>	October 29, 2016	As a % of Net Sales	October 31, 2015	As a % of Net Sales	% Change Over Prior Year
Product Identification	\$ 16,892	72.4%	\$ 17,744	71.7%	(4.8)%
T&M	6,450	27.6%	7,009	28.3%	(8.0)%
Total	\$ 23,342	100.0%	\$ 24,753	100.0%	(5.7)%

Revenue for the third quarter of the current year was \$23,342,000, representing a 5.7% decrease compared to the previous year's third quarter revenue of \$24,753,000. Current quarter revenue was lower than revenue in the same quarter of the prior year primarily as a result of the anticipation related to the introduction of new Product Identification products, as well as delayed traction for new products in both segments. Revenue through the domestic channels for the current quarter was \$16,733,000, a decrease of 6.3% from the prior year third quarter. International revenue for the third quarter of the current year was \$6,609,000, representing a 4.2% decrease from the previous year. Current year's third quarter international revenue includes an unfavorable foreign exchange rate impact of \$161,000, while prior year third quarter international revenue included an unfavorable foreign exchange impact of \$694,000.

Table of Contents

Hardware revenue in the current quarter was \$7,751,000, an 11.0% decrease compared to prior year's third quarter hardware revenue of \$8,710,000.

Consumables revenue in the current quarter was \$13,570,000, representing a 2.4% decrease over prior year's third quarter consumable revenue of \$13,897,000.

Service and other revenues of \$2,021,000 in the current quarter were flat compared to prior year's third quarter service and other revenues of \$2,017,000, as the increased parts revenue during the quarter was offset by declines in revenue from repairs, service and freight.

Current year third quarter gross profit was \$9,641,000, representing a 5.0% decline from the prior year's third quarter gross profit of \$10,152,000. The gross profit margin of 41.3% in the current quarter increased from the prior year's third quarter gross profit margin of 41.0%. The lower gross profit for the current quarter compared to prior year is primarily attributable to lower revenue; while the current quarter's increase in margin is due to product mix and lower purchased material prices and manufacturing cost.

Operating expenses for the current quarter were \$7,807,000, a 5.9% decrease compared to prior year's third quarter operating expenses of \$8,293,000. The decrease is primarily attributable to a 27.2% decrease in R&D expenses in the current quarter compared to the same period in the prior year due to higher costs recognized in the prior year related to development of new products and transitional R&D costs for RITEC products. The R&D spending level, as a percentage of revenue, for the current quarter is 5.7% compared to 7.4% for the same period of the prior year. G&A expenses remained constant in the third quarter at \$1,891,000. Selling and marketing expenses were essentially flat at \$4,578,000 compared to \$4,563,000 in the third quarter of the prior year.

Current year third quarter operating income was \$1,834,000, a 1.3% decline from the prior year's third quarter operating income of \$1,859,000; operating profit margin of 7.9% in the current quarter increased from the prior year's third quarter operating profit margin of 7.5%. The lower operating income for the current quarter compared to prior year is primarily attributable to the lower revenue. Increased operating margin is attributable to the higher gross margin and reduced operating costs.

Other expense during the third quarter was \$60,000 compared to other income of \$333,000 in the third quarter of the previous year primarily attributable to residual proceeds received from a transaction in the third quarter of the prior year.

Table of Contents

The provision for federal, state and foreign income taxes for the third quarter of the current year was \$623,000, reflecting an effective tax rate of 35.1%, compared to the prior year's third quarter income tax provision of \$873,000, reflecting an effective tax rate of 39.8%. The difference in effective tax rates for the third quarter of the current year versus the prior year was attributable to a \$65,000 tax expense in the prior year due to a change in estimate related to the Company's prior year federal taxes, and the difference in R&D tax credits included in each year's tax provision calculation.

The Company reported net income of \$1,151,000 for the third quarter of the current year, generating EPS of \$0.15 per revenue share compared to the prior year's third quarter net income of \$1,319,000 and related EPS of \$0.18 per diluted share. Return on revenue was 4.9% for the third quarter fiscal 2017 compared to 5.3% in the third quarter of fiscal 2016.

Nine Months Ended October 29, 2016 vs. Nine Months Ended October 31, 2015

Revenue by product group and current quarter percentage change over prior year for the nine months ended October 29, 2016 and October 31, 2015 was:

<i>(Dollars in thousands)</i>	October 29, 2016	As a % of Revenue	October 31, 2015	As a % of Revenue	% Change Over Prior Year
Product Identification	\$ 51,126	70.2%	\$ 50,487	71.2%	1.3%
T&M	21,665	29.8%	20,410	28.8%	6.1%
Total	\$ 72,791	100.0%	\$ 70,897	100.0%	2.7%

Revenue for the first nine months of the current year was \$72,791,000, representing a 2.7% increase compared to the previous year's revenue of \$70,897,000 during the first nine months of the prior year. Revenue through the domestic channels for the first nine months of the current year was \$51,153,000, a slight increase over the prior year period domestic revenue of \$50,882,000. International revenue for the first nine months of the current year was \$21,638,000, representing an 8.1% increase over the prior year period. The current year's first nine months international revenue included an unfavorable foreign exchange rate impact of \$331,000; prior year international revenue included an unfavorable foreign exchange impact of \$2,556,000.

Hardware revenue in the first nine months of the current year was \$25,338,000, a slight decrease compared to prior year revenue of \$25,692,000 due to anticipation of the introduction of new Product Identification products at the end of the Company's third fiscal quarter of 2017, and delayed traction for new products in both segments. The decline in hardware revenue was somewhat offset by the 24.4% increase in T&M hardware revenue from \$13,965,000 in the prior year to \$17,372,000 in the current year attributable to the double-digit growth in the Company's Aerospace product line sales from the fulfillment of orders received in previous quarters.

Consumables revenue in the first nine months of the current year was \$41,359,000, representing a 6.0% increase over prior year's first nine months revenue of \$39,005,000. The current year increase in consumables revenue is due primarily to the increase in label and tag sales, as well as digital color printer supplies product sales in the Product Identification segment.

Service and other revenues of \$6,094,000 in the first nine months of the current year declined 1.7% compared to prior year's first nine months service and other revenues of \$6,200,000, due to declines in revenue from repairs, service and freight. These declines were slightly offset by increased parts revenue during the quarter.

Table of Contents

Gross profit in the current year first nine months was \$29,418,000, reflecting a 1.3% improvement compared to prior year's first nine months gross profit of \$29,028,000. The Company's gross profit margin of 40.4% in the current year decreased from the prior year's first nine months gross profit margin of 40.9%, primarily attributable to the increase in unabsorbed overhead; the current year period decrease in margin is due to product mix and higher manufacturing expenses overall, offset somewhat by reduced cost of purchased materials.

Operating expenses for the first nine months of the fiscal year were \$24,290,000, a 1.4% increase compared to prior year's first nine months operating expenses of \$23,887,000. Selling and marketing expenses for the current year of \$14,186,000 increased 4.7% compared to the previous year's first nine months due primarily to increases in wages and benefits as well as outside service fees related to the Company's rebranding initiative. G&A expenses increased 8.5% to \$5,566,000 in the first nine months of the current year compared to prior year's first nine months G&A expenses of \$5,132,000 primarily due to an increase in professional and outside service fees. The increase in operating expenses in the current year period was slightly offset by the decrease in R&D spending in the first nine months of the current year, from \$5,200,000 in the prior year's first nine months to \$4,538,000 in the current year, due primarily to a decrease in outside service cost for development and integration of the RITEC products. Current year spending in R&D represents 6.2% of sales compared to prior year's first nine months level of 7.3%.

First nine months operating income of \$5,128,000 for the current year, resulted in an operating profit margin of 7.0%, compared to the prior year's first nine months operating income of \$5,141,000 with a related operating margin of 7.3%. The decrease in operating profit and related margin for the current year is due to product mix, lower factory absorption and an increase in operating expenses.

Other expense during the first nine months of the current year was \$72,000 compared to other income of \$587,000 in the first nine months of the previous year. The current year decrease was due primarily to income of \$248,000 in fiscal 2016 recognized from a settlement of an escrow account related to the Miltope transaction which was included in other income, as well as residual proceeds received from a transaction in the third quarter of the prior year.

The Company recognized a \$1,595,000 income tax expense for the first nine months of the current fiscal year, which includes a \$97,000 tax benefit relating to the filing of amended returns; a \$52,000 tax benefit related to expiration of the statute of limitations on a previously uncertain tax position, a \$39,000 tax benefit related to disqualifying dispositions of Company stock and approximately \$195,000 related to R&D tax credits. This compares to the prior year's first nine months income tax expense of \$2,031,000 which included a \$135,000 benefit related to expiration of the statute of limitations on a previously uncertain tax position, offset by a \$65,000 tax expense due to the change in estimate relating to prior year's federal taxes.

The Company reported net income of \$3,461,000 for the first nine months of the current year, reflecting a return on sales of 4.8% and generating EPS of \$0.46 per diluted share. On a comparative basis, in the prior year's first nine months, the Company recognized net income of \$3,697,000, reflecting a return on sales of 5.2% and EPS of \$0.50 per diluted share.

Table of Contents**Segment Analysis**

The Company reports two segments: Product Identification (previously the QuickLabel segment) and Test & Measurement (T&M). The Company evaluates segment performance based on the segment profit before corporate and financial administration expenses.

Summarized below are the Revenue and Segment Operating Profit for each reporting segment:

(In thousands)	Three Months Ended				Nine Months Ended			
	Revenue		Segment Operating Profit		Revenue		Segment Operating Profit	
	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015	October 29, 2016	October 31, 2015
Product Identification	\$ 16,892	\$ 17,744	\$ 2,443	\$ 2,901	\$ 51,126	\$ 50,487	\$ 7,069	\$ 7,599
T&M	6,450	7,009	1,282	849	21,665	20,410	3,625	2,674
Total	\$ 23,342	\$ 24,753	3,725	3,750	\$ 72,791	\$ 70,897	10,694	10,273
Corporate Expenses			1,891	1,891			5,566	5,132

Net Income			\$ 1,151	\$ 1,319			\$ 3,461	\$ 3,697

Product Identification

Revenue from the Product Identification segment decreased 4.8% with revenue of \$16,892,000 in the third quarter of the current year compared to \$17,744,000 in the same period of the prior year. The current quarter decrease was due primarily to a decline in both hardware and consumable products due to anticipation of the introduction of new Product Identification products at the end of the Company's third fiscal quarter of 2017, and delayed traction for new products. Product Identification current quarter segment operating profit was \$2,443,000, reflecting a profit margin of 14.5%. This compares to prior year third quarter segment profit of \$2,901,000 and related profit margin of 16.3%. The decrease in Product Identification current quarter segment operating profit and profit margin is primarily due to lower current quarter sales and product mix.

Revenue from the Product Identification segment in the first nine months of the current year increased 1.3% with revenue of \$51,126,000 compared to \$50,487,000 in the same period of the prior year. This increase is attributable to a 4.9% increase in consumable revenue due to a sustained increase in demand for label and tag products, as well as digital color printer supplies products, which have increased 6.3% and 10.6%, respectively, in the first nine months of the current year compared to the same period in the prior year. The Product Identification segment current year operating profit was \$7,069,000, reflecting a profit margin of 13.8%, a decline compared to prior year's third quarter

segment profit of \$7,599,000 and related profit margin of 15.1%. The decrease in the current quarter segment operating profit and profit margin is primarily due to product mix as well as higher manufacturing and operating expenses.

Table of Contents

Test & Measurement T&M

Revenue from the T&M segment was \$6,450,000 for the third quarter of the current fiscal year, representing an 8.0% decrease compared to revenue of \$7,009,000 for the same period in the prior year primarily due to delayed traction for new hardware products. The current quarter decrease is traceable to sales of the hardware product line compared to the same period in the prior year. The segment's third quarter operating profit of \$1,282,000 resulted in a 19.9% profit margin compared to prior year segment operating profit of \$849,000 and related operating margin of 12.1%. The increase in segment operating profit and related margin in the current quarter is due to lower manufacturing and operating expenses and favorable product mix.

Revenue from the T&M segment was \$21,665,000 for the first nine months of the current fiscal year, representing a 6.1% increase compared to revenue of \$20,410,000 for the same period in the prior year. The current year increase is attributable to sales in the Aerospace hardware product line, which have increased 11.6% compared to the same period of the prior year. The segment's first nine months operating profit of \$3,625,000 resulted in a 16.7% profit margin compared to prior year segment operating profit of \$2,674,000 and related operating margin of 13.1%. The higher segment operating profit and related profit margin for the current year is due to higher sales, favorable product mix and lower operating expenses.

Financial Condition and Liquidity

The Company believes that cash provided by operations will continue to be sufficient to meet its operating and capital needs for at least the next twelve months. However, in the event that cash from operations is not sufficient, the Company has a substantial cash and short term marketable securities balance as well as a \$10.0 million revolving bank line of credit. Borrowings made under this line of credit bear interest at either a fluctuating base rate equal to the highest of (i) the Prime Rate, (ii) 1.50% above the daily one month LIBOR, and (iii) the Federal Funds Rate in effect plus 1.50% or at a fixed rate of LIBOR plus an agreed upon margin of between 0% and 2.25%, based on the Company's funded debt to EBITDA ratio as defined in the agreement. As of the filing date of this Quarterly Report on Form 10-Q, there have been no borrowings against this line of credit, and the entire line is currently available.

The Company's statements of cash flows for the nine months ended October 29, 2016 and October 31, 2015 are included on page 6 of this report. Net cash flows provided by operating activities were \$7,335,000 for the first nine months of fiscal 2017 compared to \$8,245,000 for the same period of the previous year. The decrease in operating cash flow for the current year is primarily due to the increase in inventory, change in taxes and lower net income, slightly offset by non-cash items and change in other current assets due to collection of a residual receivable from a prior year disposition. Inventory increased to \$19,119,000 at the end of the third quarter compared to \$14,890,000 at the previous fiscal year-end, and inventory days on hand increased to 122 days on hand at the end of the current quarter from 92 days at year-end due to the ramp-up of inventory for the anticipated demand for new products. The accounts receivable balance decreased to \$14,698,000 at the end of the third quarter compared to \$15,325,000 at the previous fiscal year-end. Accounts receivable days outstanding was 52 days compared to 50 days sales outstanding at year-end due to a change in the mix of customers and related difference in payment terms.

The Company's cash, cash equivalents and investments at the end of the third quarter were \$25,368,000 compared to \$20,419,000 at year-end. The increased cash and investment position at October 29, 2016 resulted from the current period's operating cash flow, as discussed above. This increase was partially offset by dividends paid of \$1,559,000 and cash used to acquire property, plant and equipment of \$896,000.

Table of Contents

The Company's backlog decreased 12.6% from year-end to \$14,533,000 at the end of the third quarter of fiscal 2017.

Critical Accounting Policies, Commitments and Certain Other Matters

In the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2016, the Company's most critical accounting policies and estimates upon which our financial status depends were identified as those relating to revenue recognition, warranty claims, bad debts, inventories, income taxes, long-lived assets, goodwill and share-based compensation. We considered the disclosure requirements of Financial Release (FR) 60 (FR-60) regarding critical accounting policies and FR-61 regarding liquidity and capital resources, certain trading activities and related party disclosures, and concluded that nothing materially changed during the quarter that would warrant further disclosure under these releases.

Forward-Looking Statements

This Quarterly Report on Form 10-Q may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical fact, but rather reflect our current expectations concerning future events and results. We generally use the words believes, expects, intends, plans, anticipates, likely, continues, may, will, and similar expressions to identify forward-looking statements. Such forward-looking statements, including those concerning our expectations, involve risks, uncertainties and other factors, some of which are beyond our control, which may cause our actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. Factors which could cause actual results to differ materially from those anticipated include, but are not limited to (a) general economic, financial and business conditions; (b) declining demand in the test and measurement markets, especially defense and aerospace; (c) competition in the specialty printer industry; (d) ability to develop market acceptance of our products and effective design of customer required features; (e) competition in the data acquisition industry; (f) the impact of changes in foreign currency exchange rates on the results of operations; (g) the ability to successfully integrate acquisitions and realize benefits from divestitures; (h) the business abilities and judgment of personnel and changes in business strategy; (i) the efficacy of research and development investments to develop new products; (j) the launching of significant new products which could result in unanticipated expenses; (k) bankruptcy or other financial problems at major suppliers or customers that could cause disruptions in the Company's supply chain or difficulty in collecting amounts owed by such customers; and (l) other risks included under Item 1A-Risk Factors in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2016. We assume no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as required by law.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The registrant is a smaller reporting company and is not required to provide this information.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management has evaluated, under the supervision and with the participation of its Chief Executive Officer and Chief Financial Officer, the effectiveness of its disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended

(Exchange Act). Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective in ensuring that information required to be disclosed in the Company's Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to have materially affected, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

There are no pending or threatened legal proceedings against the Company believed to be material to the financial position or results of operations of the Company.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A Risk Factors in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2016, which could materially affect our business, financial condition or future operating results. The risks described in our Annual Report on 10-K are not the only risks that could affect our business, as additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results, as well as adversely affect the value of our common stock.

There have been no material updates to the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the third quarter of fiscal 2017, the Company made the following repurchases of its common stock:

			Maximum Number
	Total Number	Average	of Shares
	of Shares	Price paid	Total Number of
	Repurchased	Per Share	Shares Purchased as
			Part of
			Publicly
			Announced Plans or
			Programs
			May Be Purchased
			Under The
			Plans
			or Programs
July 31 - Aug 27		\$	390,000
Aug 28 - Sept 24	9,440(a)(b)(c)	\$ 15.22(a)(b)(c)	390,000
Sept 25 - Oct 29		\$	390,000

- (a) On September 6, 2016, the Company's Chief Executive Officer delivered 4,168 shares of the Company's common stock toward the satisfaction of taxes due with respect to vesting of restricted shares. The shares delivered were valued at an average market value of \$14.93 per share and are included with treasury stock in the consolidated balance sheet. This transaction did not impact the number of shares authorized for repurchase under the Company's current repurchase program.
- (b) On September 8, 2016, the Company's Chief Executive Officer delivered 3,168 shares of the Company's common stock to satisfy the exercise price for 1,500 stock options exercised. The shares delivered were valued at an

average market value of \$15.61 per share and are included with treasury stock in the consolidated balance sheet. This transaction did not impact the number of shares authorized for repurchase under the Company's current repurchase program.

- (c) On September 20, 2016, the Company's former Corporate Controller delivered 2,104 shares of the Company's common stock to satisfy the exercise price for 2,250 stock options exercised. The shares delivered were valued at an average market value of \$15.19 per share and are included with treasury stock in the consolidated balance sheet. This transaction did not impact the number of shares authorized for repurchase under the Company's current repurchase program.

Item 6. Exhibits

The following exhibits are filed as part of this report on Form 10-Q:

- 31.1 Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification of Chief Executive Officer Pursuant 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification of Chief Financial Officer Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 101 The following materials from Registrant's Quarterly Report on Form 10-Q for the period ended October 29, 2016, formatted in XBRL (eXtensible Business Reporting Language): (i) the Condensed Consolidated Balance Sheets, (ii) the Condensed Consolidated Statements of Income, (iii) the Condensed Consolidated Statements of Comprehensive Income, (iv) the Condensed Consolidated Statements of Cash Flows, and (vi) the Notes to the Condensed Consolidated Financial Statements. Filed electronically herein.
