2001 Stock Option Plan

Our 2001 Stock Option Plan ("2001 Plan") was unanimously adopted by the Board of Directors on November 1, 2001 and approved by our stockholders at a special meeting held on November 1, 2001. The 2001 Plan provides for the issuance of 5,000,000 shares of common stock underlying stock options available for grant thereunder. The purpose of the 2001 Plan is to provide additional incentive to our directors, officers, employees and consultants who are primarily responsible for our management and growth. Each option will be designated at the time of grant as either an incentive stock option (an "ISO") or as a non-qualified stock option (a "NQSO"). As of December 31, 2004, options to purchase 1,143,000 shares of common stock have been granted under the 2001 Plan.

8

The 2001 Plan will be administered by our Board of Directors, or by any committee that we may in the future form and to which the Board of Directors may delegate the authority to perform such functions (in either case, the "Administrator").

Every person who at the date of grant of an option is an employee of ours or any affiliate of ours is eligible to receive NQSOs or ISOs under the 2001 Plan. Every person who at the date of grant is a consultant to, or non-employee director of, ours or any affiliate of ours is eligible to receive NQSOs under the 2001 Plan.

The exercise price of a NQSO will be not less than 85% of the fair market value of the stock subject to the option on the date of grant. To the extent required by applicable laws, rules and regulations, the exercise price of a NQSO granted to any person who owns, directly or by attribution under the Code (currently Section 424(d)), stock possessing more than 10% of the total combined voting power of all classes of our stock or stock of any of our affiliates (a "10% Shareholder") will not be less than 110% of the fair market value of the stock covered by the option at the time the option is granted. The exercise price of an ISO will be determined in accordance with the applicable provisions of the Code and will not be less than the fair market value of the stock covered by the option at the time the option is granted. The exercise price of an ISO granted to any 10% Shareholder will not be less than 110% of the fair market value of the stock covered by the option at the time the option is granted.

The Administrator, in its sole discretion, will fix the term of each option, provided that the maximum term of an option will be ten years. ISOs granted to a 10% Shareholder will expire not more than five years after the date of grant. The 2001 Plan provides for the earlier expiration of options in the

Edgar Filing: ASTRALIS LTD - Form 10KSB/A

event of certain terminations of employment of the holder.

Options may be granted and exercised under the 2001 Plan only after there has been compliance with all applicable federal and state securities laws. The 2001 Plan will terminate within ten years from the date of its adoption by the Board of Directors.

If for any reason other than death or permanent and total disability, an optionee ceases to be employed by us or any of our affiliates (such event being called a "Termination"), options held at the date of Termination (to the extent then exercisable) may be exercised in whole or in part at any time within three months of the date of such Termination, or such other period of not less than thirty days after the date of such Termination as is specified in the Option Agreement or by amendment thereof (but in no event after the expiration date of the option (the "Expiration Date")); provided, however, that if such exercise of the option would result in liability for the optionee under Section 16(b) of the Exchange Act, then such three-month period automatically will be extended until the tenth day following the last date upon which optionee has any liability under Section 16(b) (but in no event after the Expiration Date).

The Board of Directors may at any time amend, alter, suspend or discontinue the 2001 Plan. Without the consent of an optionee, no amendment, alteration, suspension or discontinuance may adversely affect outstanding options except to conform the 2001 Plan and ISOs granted under the 2001 Plan to the requirements of federal or other tax laws relating to ISOs. No amendment, alteration, suspension or discontinuance will require shareholder approval unless (i) shareholder approval is required to preserve incentive stock option treatment for federal income tax purposes or (ii) the Board of Directors otherwise concludes that shareholder approval is advisable.

9

We currently have seven Directors, each serving a term until the next annual meeting of stockholders. Edgar Filing: ASTRALIS LTD - Form 10KSB/A

to each Strategic Planning Committee member, other than the Chairman; and \$1,000 paid to each Strategic Planning Committee member for each half-day strategic planning meeting attended in person. In addition, each non-executive Director will receive a one-time grant upon election to the Board of stock options to purchase 50,000 shares of our common stock, vesting over a four-year period with the first 25% vesting on the date of grant, and an annual grant upon the anniversary of election to the Board of stock options to purchase 20,000 shares of our common stock, vesting over a four-year period with the first 25% vesting on the date of grant.

Item 12. Certain Relationships and Related Transactions

Relationship with Dr. Jose Antonio O'Daly

In January 2004 the United States Patent and Trademark Office ("PTO") issued a patent to Dr. Jose O'Daly for the "Compositions and Methods for the Treatment and Clinical Remission of Psoriasis" (the "Psoriasis Formula"). Under the terms of a license agreement and assignment of license agreement, we have the exclusive right and license to use and exploit this patent. Dr. O'Daly will continue to maintain ownership rights with respect to the patent and patent application. However, Dr. O'Daly has granted us a perpetual, royalty free license to his patent under the agreements, which will terminate only upon the expiration of the patent, or upon the commencement of a bankruptcy or insolvency proceeding involving our company or upon our dissolution or liquidation.

In March 2002, Akiva LLC, an entity controlled by Dr. O'Daly, also filed an application to obtain patent protection internationally for the Psoriasis Formula under the Patent Cooperation Treaty. In addition, in August 2003, Akiva LLC filed patent applications in the European Union, Australia, Brazil, Canada, Mexico and Japan. We have rights to these applications, which are currently pending, pursuant to the license and assignment of license agreements described above.

In January 2004, Dr. O'Daly filed a patent application with the PTO focusing primarily on the mechanism of action of our initial injectable product candidate, Psoraxine(R), expanding the claims to include medical indications other than psoriasis, such as Atopic Dermatitis, Psoriatic Arthritis and Rheumatoid Arthritis. In January 2004, Dr. O'Daly also filed a second patent

Edgar Filing: ASTRALIS LTD - Form 10KSB/A

relating to a culture medium for parasitic organisms, which is part of our technology platform. Dr. O'Daly has assigned to us the rights in these patent applications.

Centro Para La Investigacion y Tratamiento De La Psoriasis ("CITP"), a research entity owned by Helen O'Daly, the spouse of Dr. Jose Antonio O'Daly, provided assistance in the research and development of Psoraxine(R) in Venezuela commencing in November 2001 and terminating in May 2002. We paid approximately \$275,000 to CITP for the services it provided.

Relationship with SkyePharma

We entered into a Purchase Agreement dated as of December 10, 2001 with SkyePharma pursuant to which SkyePharma purchased an aggregate of 2,000,000 shares of our Series A Preferred Stock, for an aggregate purchase price of \$20.0 million. On January 20, 2004, pursuant to an Omnibus Conversion Agreement dated January 12, 2004 between us and SkyePharma ("Omnibus Conversion Agreement"), SkyePharma converted all of its 2,000,000 shares of Series A Preferred Stock into 25,000,000 shares of our common stock at a conversion price of \$0.80 per share. On March 3, 2005, SkyePharma acquired 11,160,000 additional shares of our common stock in a privately negotiated transaction. As a result, as of April 29, 2005 SkyePharma beneficially owns 49.7% of our common stock on a fully diluted basis.

On January 20, 2004, in connection with SkyePharma's conversion of our Series A Preferred Stock, we entered into a Call Option Agreement ("Call Option Agreement") with SkyePharma, pursuant to which we received the right to repurchase some or all of 12,500,000 shares of our common stock from SkyePharma at a premium to the \$0.80 conversion price. In the event we exercise the call option, the exercise price will be between \$1.28 and \$1.52 per share, depending on the date of exercise. The call option will be exercisable by us upon our achievement of a certain milestone event and ending on January 20, 2007.

On January 20, 2004, we, SkyePharma, Dr. O'Daly and our other original shareholders amended the Stockholders Agreement (the "Amended Agreement"), dated as of December 10, 2001. Pursuant to the Amended Agreement, our Board of Directors is now required to be comprised of at least seven Directors and must include at least two independent Directors. Per the Amended Agreement, SkyePharma has the right to nominate one Director. Michael Ashton is SkyePharma's initial and current nominated Director. Until January 20, 2007, Dr. O'Daly has the right to nominate one Director. The Amended Agreement will terminate upon the later of (i) the date on which SkyePharma no longer beneficially owns, in the aggregate, at least 20% of our outstanding common stock or (ii) January 20, 2007. Further, the Amended Agreement may be terminated by the mutual written consent of the parties. Pursuant to the Amended Agreement, SkyePharma is required to vote its shares of our common stock in favor of certain enumerated transactions, where those transactions have been approved by our Board of Directors and all of the independent Directors. These transactions include (i) the amendment of our certificate of incorporation solely to increase our authorized capital stock, (ii) the adoption or amendment of an employee benefit plan applicable to all employees, (iii) the issuance of additional securities for cash and (iv) the sale of all of our outstanding capital stock or all or substantially all of our assets, or our merger with another entity, provided that SkyePharma will receive the same consideration for its shares as other holders of common stock and will be able to participate in the sale or merger on the same terms as the most favorable terms available to any of our other stockholders and the total consideration for the transaction is greater than \$135 million.

We also entered into two agreements concerning the formulation and development of Psoraxine(R) with SkyePharma. Under the terms of the Technology Access Option Agreement ("Technology Access Option Agreement"), dated December 10, 2001, we paid to SkyePharma a \$5.0 million technology access fee for the option to acquire a license for certain drug delivery technologies owned by SkyePharma. Under the terms of the Technology Access Option Agreement, if we exercise our option, we must pay a royalty of 5% of net sales of all products manufactured or sold that use or exploit the drug delivery technologies that we

15

license from SkyePharma. In addition, if we exercise our option, SkyePharma retains the right during the term of the Technology Access Option Agreement to undertake the manufacture of all of our products that incorporate or utilize the drug delivery technologies. The option we received under the Technology Access Option Agreement expires on December 10, 2008, unless terminated sooner pursuant to the terms of the Technology Access Option Agreement. Pursuant to the Technology Access Option Agreement, SkyePharma also has the right of first negotiation to acquire the worldwide marketing rights to Psoraxine(R). Based on an evaluation of the technology access option fee we paid under the Technology Access Option Agreement, which we have been capitalizing as a research and development intangible asset over a seven-year period, we have determined that as of December 31, 2004, the technology access option fee exceeded its fair market value. Consequently, we recorded as additional research and development costs in 2004 a charge of \$2,797,612 to reflect an impairment of this intangible asset.

On December 10, 2001, we entered into a Service Agreement ("Service Agreement") with SkyePharma pursuant to which SkyePharma was to provide us with development, manufacturing, pre-clinical and clinical development services in consideration of \$11 million. The Service Agreement terminated on December 31, 2002. We entered into an Amendment to the Service Agreement with SkyePharma, effective as of January 1, 2003, to extend the term of the Service Agreement and modify the services to be provided by SkyePharma such that SkyePharma continued to provide certain services to us through December 31, 2004, in consideration for payments made during 2002. The agreement expired on December 31, 2004.

Relationship with FPP Capital Advisors

In connection with private placements of units consisting of common stock and warrants that occurred in 2004, FPP Advisors, an entity controlled by our board member, Fabien Pictet, received a consulting fee of \$261,496. In addition, for consulting services provided in connection with the private placement, FPP Advisors and certain other selling stockholders received warrants to purchase an aggregate of 418,394 shares of our common stock at \$0.50 per share and warrants to purchase an aggregate of 418,394 shares of our common stock at \$0.73 per share. Upon exercise of the warrants issued in the private placement, we will pay a cash commission equal to 5% of the amounts raised through the exercise of the warrants.

In addition, in consideration for services provided in negotiating our Omnibus Conversion Agreement with SkyePharma, we issued to FPP Capital Advisors units consisting of 150,000 shares of common stock and warrant stock and warrants to purchase 150,000 shares of common stock at an exercise price of \$0.73 per share. We also assigned the right to purchase 1,250,000 shares under our Call Option Agreement with SkyePharma to FPP Capital Advisors.

In addition to FPP Capital Advisors, Fabien Pictet controls FPP Emerging Hedge Fund I, Ltd. and Pictet & Cie, both of which were investors in our private
