PART I - FINANCIAL INFORMATION

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The following discussions and analysis should be read in conjunction with the Company's condensed consolidated financial statements and the notes presented following the condensed consolidated financial statements. The discussion of results, causes and trends should not be constructed to imply any conclusion that such results or trends will necessarily continue in the future.

During the quarter ended September 30, 2004, we diligently worked to finalize agreements for our newly launched "Message On The Bottle" advertising program through our Aquacell Media subsidiary. Aquacell Media installs our patented Aquacell 1000 Bottled Water Cooler Systems free of charge into various locations while retaining ownership of the coolers. Revenue is generated through the sale of advertising on the band of the cooler's permanently attached five-gallon bottle, as well as on the cup holder.

Subsequent to the end of the quarter, we signed our first Water Cooler Placement Agreement with Rite Aid Corporation, the third largest drug chain in America with more than 3000 stores. Rite Aid conducted an extensive test over several months on the performance of our coolers in their corporate office as well as in several stores.

Under an initial term of five years, Rite Aid has agreed that the Aquacell 1000 coolers will be installed on a national basis at no cost to Rite Aid, and that AquaCell may sell the advertising space on the bottle band. The initial rollout, expected to be completed by the end of December 2004, will entail replacing water fountains in approximately half of the stores. Aquacell has been manufacturing coolers in anticipation of this agreement and is in position to use current inventory to supply the water coolers for these initial locations.

We are in negotiations with other retailers including other national chain drug stores and supermarkets, as well as other national chain retail stores for installations in these locations, as well. Test units have been installed in many of these locations and we anticipate the signing of agreements with additional retailers in the near future.

Also subsequent to the end of the quarter, we secured our first advertiser, Unilever, one of the world's largest consumer products companies. This inaugural program is for the Dove(R) product line, the timing of which coincides with the roll out of installations in Rite Aid stores. The program also includes advertising in other chain drug stores.

The "Message On The Bottle" advertising provides a unique point-of-sale opportunity for manufacturers to reach the consumer. Advertising on the bottle gets face-to-face impact reaching the consumers while they are in the store. We are negotiating with other major manufacturers and providers of health care related products and/or their agencies, for the advertisement of their products.

Edgar Filing: AQUACELL TECHNOLOGIES INC - Form 10QSB/A

AquaCell has engaged several new marketing partners, including Beau Dietl & Associates. This organization has agreed to provide us with introductions to
=====
distribution channels and to potential advertisers on our coolers as well as
=====
consulting on future promotional activities. Our agreement runs through August,
=====
2006. Through this association, we retained the services of J. DeKama
=====
Associates. Our consulting agreement with J. DeKama Associates, which runs
=====
through February 2007, provides for that organization to assist us in securing
=====
retail locations for our coolers and for securing potential advertisers.
=====
Through J. DeKama Associates' efforts, we have signed consulting agreements
=====
with former Unilever executives who have tapped into the services of Advantage
Sales and Marketing. This network has been instrumental in assisting us in
developing a wide variety of companies for both advertising and for placement
of Aquacell 1000 coolers into retail locations. By utilizing these and other
individuals who are responsible for payment of their own expenses, and who
will receive cash compensation only upon the generation of revenues, we do not
anticipate incurring any significant direct sales and marketing expenses in
the rollout of this program.

During the quarter ended September 30, 2004 we incurred non-cash charges
for stock based compensation for warrants issued to consultants, which we
believe is a benefit to the Company and its shareholders for the growth of the
Company.

We are embarking on additional opportunities, including expansion of our
"Message On The Bottle" advertising program into more diverse areas, such as
=====
medical offices, car dealerships, health clubs and law offices, which we believe
=====
will provide long-term benefits to the Company.

Liquidity and Capital Resources

During the three months ended September 30, 2004 we raised, through the
repricing of warrants to purchase common shares, net equity of approximately
\$209,000.

Cash used by operations during the three months ended September 30, 2004
amounted to \$818,000. Net loss of \$868,000 was reduced by non-cash stock based
compensation in the amount of \$242,000, and depreciation and amortization of
\$6,000. Cash used by operations was further increased by decreases in accounts
payable of \$138,000, accrued expenses of \$41,000, and customer deposits in the
amount of \$41,000. Net loss was further decreased by net changes in inventories
and prepaid expenses aggregating \$22,000.

Cash used by investing activities during the three months ended September
30, 2004 represented capital expenditures in the amount of \$84,000 increased by
payments on a note issued for the purchase of equipment in the amount of \$1,000.
The note which was payable in three equal installments of \$333 has been paid.
=====

Edgar Filing: AQUACELL TECHNOLOGIES INC - Form 10QSB/A

Cash provided by financing activities was approximately \$246,000. Proceeds from sales of common stock purchase warrants amounted to \$209,000 and expenses of warrant exercises amounted to \$3,000. Proceeds from subscriptions receivable were \$40,000.

We have granted warrants, subsequent to our initial public offering in connection with private placements, consulting, marketing and financing agreements that remain outstanding at the date of this filing and may generate additional capital of up to approximately \$13,800,000 if exercised. There is no assurance however, that any of the warrants will be exercised.

Management believes that its present cash position combined with subsequent equity raises and conversion of warrants, and cash flows expected to be generated from future operations will be sufficient to meet presently anticipated needs for working capital and capital expenditures through at least the next 12 months; however, there can be no assurance in that regard. The Company presently has no material commitments for future capital expenditures.

PART II. OTHER INFORMATION

ITEM 3. CONTROLS AND PROCEDURES

As of the end of the period covered by this Report the Company carried out
=====

an evaluation, under the supervision and with the participation of the Company's management, including the Company's chief executive officer and chief financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e)
=====

adopted under the Securities Exchange Act of 1934. Based upon that evaluation, the chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures are effective. There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls as of the date of their evaluation.
