EXTRAORDINARY GENERAL MEETING

EXPOSITION TO SHAREHOLDERS

Shareholders,

Marlim Participações S.A. (MARLIMPAR) and Nova Marlim Participações S.A. (NOVAMARLIMPAR) were established to serve as means for the financial structuring prepared with a view to raise funds for the complementary development of the Marlim Field. Both were created as publicly-traded corporations to facilitate the entry of new investors and raise funds from the capital markets.

The financial structuring of the project foresaw the acquisition by PETROBRAS, after the completion of the project which required fund raising, of the shares representing the joint stock of MARLIMPAR and NOVAMARLIMPAR, a fact which occurred, respectively, on 04/30/2009 and 07/31/2009.

Given that the goals that motivated the registration of both companies as publicly-traded corporations had already been achieved, PETROBRAS, the sole owner of both companies' joint stock, asked the Securities and Exchange Commission - CVM, under the terms of proceedings RJ-2009-4555 and RJ-2009-4556, for exemption from making a public stock acquisition offer to change the control over and cancel the records as publicly-traded corporations for those companies, a request the Autarchy granted on 04/30/2009 and 07/31/2009, respectively.

Whereas PETROBRAS is the sole shareholder of MARLIMPAR and NOVAMARLIMPAR, and whereas PETROBRAS is interested in taking advantage of the tax credits accumulated by both companies with regard to income tax (IRPJ), social contribution on net income (CSLL), PIS and COFINS, something that can only be done by means of a merger, it was concluded that the merger of MARLIMPAR and NOVAMARLIMPAR into PETROBRAS would be the most efficient way to absorb both companies' assets.

Thus, the Board of Directors decided to submit to this Extraordinary General Meeting for analysis and decision, with the assent of the Audit Committee, the Agenda set out in the General Meeting Notice.

1 - Services proposed and reports

The scope of our services, as well as the reports to be issued, are contained in **Schedule I - Services Proposed and Reports**, shown below:

The accounting appraisal criteria to be used shall be those provided for in article 183 of Law no. 6.404/76, amended by Law no. 11.638/07, to review the assets at fair value accounting abovementioned.

Our reviews will be carried out pursuant to procedures set in the Auditing Standard and Procedures - NPA 14 - Appraisal Reports, issued by independent accountant from *IBRACON* (Brazilian Independent Accountant Institute) and shall mainly comprise the following procedures:

- Test-based comparison of certain balance sheet assets with accounting books and corresponding tax documentation.
- Confirmation of balances.

- Review of events and/or transactions subsequent to September 30th, 2010, and until issuance date of appraisal report that could adversely affect the issuance hereof.
- Other auditing procedures that we deem necessary due to the circumstances, as per NPA 14.

At the end of our works we will request letters of representation from you, by which you shall confirm, to the best of your knowledge, the representations made during our reviews.

As a result of the restrictions that are inherent to internal controls, the execution of test-based reviews, and other limitations regarding this type of work, a review aiming issuance of appraisal report at fair value accounting may not provide absolute assurance that the associated balances of the asset appraised are clear from unfitness due to fraud, irregularities or errors.

Whereas it is our responsibility to issue an accounting appraisal report on **CPM's** and **MPSA's** stockholders' equity, on the base date September 30th, 2010, it is Management's responsibility for the preparation of such information and all data contained therein. The Management is further responsible for the selection of proper accounting policies, for the implementation of an internal controls framework to maintain the reliability of the financial statements and provide reasonable security against occurrence of substantive errors and irregularities regarding the financial statements.

B - Characteristics of the reports to be issued

The appraisal reports at fair value accounting, which shall be included as part of the incorporation process of **CPM** by its parent, **MPSA**, and the latter by **Petrobras**, will be issued in Portuguese and will show the fair value accounting of **CPM's** and **MPSA's** stockholders' equity on the base date of September 30th, 2010, and shall comprise:

- a. Purpose of appraisal
- b. Scope of the works
- c. Conclusion
- d. Balance sheet on base date of September 30th, 2010.

Prior to the issuance of such accounting appraisal reports on of **CPM's** and **MPSA's** stockholders' equity, we will discuss the result of our works with the Management. However, any relevant issues found during our works shall be promptly brought to your acquaintance.

We also point out that the documents to be requested by **KPMG** shall be furnished on an agreed date, so that we comply with the contract time to deliver the appraisal reports at fair value accounting.

The reports mentioned above shall be discussed with you prior to its final issuance.

C - Reports

CI - Appraisal reports at fair value accounting

The contents of the said reports shall be discussed with **Petrobras'**, **MPSA's** and **CPM's** Management prior to its final issuance. In case there is no further manifestation from the Companies, the issuance of reports by **KPMG** to **Petrobras**, **MPSA** and **CPM** shall correspond to their acceptance of services; unreasonable non acceptance shall correspond to automatic assumption, by **Petrobras**, **MPSA** and **CPM**, of full and unconditional responsibility on the effects resulting from the non-receipt that may harm the Companies, **KPMG** or third parties..

2 - Fees and payment

Such fees may be paid in 2 installments, the first of which due 30 days after the beginning of works, and the second upon delivery of our draft report.

Our fees were set considering the duties currently required. Consequently, the amendments to the federal, state and municipal tax laws that result in escalation of the applicable tax burden, whether it is through a raise in the existing taxes, the establishment of new taxes or also through the replacement of current taxes by new ones, shall have their relevant additional charges automatically transferred to the price of services, so that the economic-financial balance established in this hiring is maintained.

Likewise, our fees envisage the levy of Services Tax, in form currently required, due to the location of our offices. It is therefore hereby established that the encumbrance regarding any taxes required by the municipality of the location where the contracting party is established or the location where the services shall be totally or partially rendered, under any name or form, shall be directly borne by the contracting party or shall be added to the amount of fees due, as the case may be.

Petrobras shall certify that the information, records and documents necessary to our works will be made available to **KPMG**, as well as access to key personnel involved in the process, and all necessary assistance to our team.

3 - Other terms and conditions for hiring our services

A - Responsibilities and limitations

The scope of an auditing work that aims at issuing an appraisal report at fair value accounting is the same as that of financial statements; therefore, we inform that the events and circumstances listed below are inherent to the auditing works of financial statements and shall by no means be considered as an insufficiency or deficiency whatsoever in the performance of auditing services:

- a. The auditing services are test-based and, due to this restriction and others inherent to auditing and any internal control system, it is likely that some relevant failures in the financial statements go undetected.
- b. The scope of the works now proposed does not envisage the specific and determined obligation by **KPMG** of detecting fraud actions in the operations in **MPSA's** and **CPM's** records and documents. Nevertheless, upon observance of evidence or existence of fraud or the mere existence of proper environment for its occurrence, they shall be promptly notified to **Petrobras'**, **MPSA's** and **CPM's** Management.
- c. The scope of auditing works do not provide for the compliance with personal or specific interests and is related to legal, regulatory and ethical issues that establish that the works are performed in an independent manner.
- d. Our legislation is complex and, many times, the same provision allows more than one interpretation. **KPMG** pursues constant updating concerning the several interpretation currents, thus enabling a wide appraisal of the alternatives and risks involved. Therefore, it is certain that there may be interpretations of the law different from ours. Given such conditions, neither **KPMG** nor any other firm may provide **Petrobras**, **MPSA** and **CPM** with total assurance that this appraisal will not be challenged by third parties or even notified by supervisory bodies.

We emphasize that the participation of **MPSA** and **CPM** employees, that shall be appointed until the beginning date of the auditing services, will be fundamental for the achievement of a proper result. Therefore, **MPSA** and **CPM** will be liable for contributing to the execution of the services, providing us with access to their data, information and personnel, carrying out a non-exclusive delivery of relevant documents and accounting records, the delivery of information that may be requested by **KPMG** according to the

auditing services, the regular execution of normal accounting works and the compilation of relevant data, in addition to preparation of analyses, schedules, conciliations e statements.

During the execution of their duties, **MPSA** and **CPM** shall observe that: (i) the data to be made available shall express, in a thorough manner, the transactions or operations they refer to, and they shall be presented in a timely manner; (ii) the Management is the sole responsible for the preparation of financial statements, including relevant disclosures, and such responsibility includes proper bookkeeping and internal controls, the selection and application of accounting standards and the protection of **MPSA's** and **CPM's** assets; and (iii) as part of the auditing process, **KPMG** shall be entitled to request **MPSA's** and **CPM's** Management a written confirmation of the oral representations and information that may be provided to **KPMG**

In this context, **MPSA** and **CPM** shall be solely liable for the performance of their employees and agents, for the accuracy and completeness of the information furnished to us to carry out the services of this proposal. **KPMG** shall, by no means, be held liable for loss or damage arising out of the untimely submission of data, from **MPSA** and **CPM**, that may harm the regular progress or the outcome of the services, nor shall it bear such loss or damage. Also, **KPMG** shall not be held liable for the quality or sufficiency of the documents, major and auxiliary accounting records and data that may be made available in response to the requests made by us.

Since it is **MPSA** and **CPM's** interest to hire the services proposed and, as there are no objections to such hiring, **KPMG** shall execute the services in compliance with this proposal and according to the standards set forth by the applicable law and the regulatory procedures issued by regulatory entities for **MPSA's** and **CPM's** activities and by professional Brazilian trade entities, upon the hiring of qualified professionals in sufficient number, for whom **MPSA** and **CPM** shall provide proper infrastructure, necessary and indispensable for the execution of the services.

B - Ownership and use of the results

For the improvement of our services, we create, purchased or have several concepts, methodologies and techniques, models, standards, software, operator interfaces or screen designs, advisory tools of general and software use, and systems operation methods, logic and coherence (jointly referred to as "KPMG Property"). We hold all KPMG Property rights. In this sense, from the part of **Petrobras**, **MPSA** and **CPM**, there shall not be any interest or right on such property. In addition, regardless of the acceptance of this proposal by **Petrobras**, **MPSA** and **CPM**, we shall be free to offer our services to any other party, at our sole discretion, and we may use KPMG Property to do so. We acknowledge that KPMG Property shall not include any confidential information from **Petrobras**, **MPSA** or **CPM**, nor shall their tangible or intangible assets, and we shall not have any title over **Petrobras'**, **MPSA's** or **CPM's** property.

The acceptance of this proposal shall imply the acknowledge and agreement by **Petrobras, MPSA and CPM** that any recommendation and/or information supplied by us regarding this proposal shall be for its confidential use. Except for cases provided by law or those in which our deliverables aim at the disclosure to third parties, **Petrobras, MPSA and CPM** shall not expose or allow access to any such recommendation, information or deliverables to third parties, nor shall they summarize or refer to such recommendation and/or information or deliverables or the contents of the documents that support our hiring, including this proposal, unless upon prior, valid and express consent by us. Therefore, **Petrobras, MPSA and CPM** undertake to indemnify, defend and hold **KPMG** harmless from and against any obligations evoked by any third party, to the extent resulting from the unduly use, possession or disclosure thereof.

Petrobras, MPSA and CPM undertake to previously and expressly consult us on their intention to disclose any material made available by us to third parties, due to or resulting from the services object of this proposal or its total or partial reproduction and to make available the material to be disclosed in writing on the opportunity for consultation, so that we have the conditions to exclusively review and state an opinion according to the ethical and legal principles we are subject to by internal regulatory and legal statutes.

C - Working Papers

During the execution of auditing services, we shall have access to oral and written information, documents and data in general, which shall be recorded and filed, as necessary, in electronic media, comprising **Petrobras'**, **MPSA's** and **CPM's** obligation to maintain, for the legal time, all accounting records and other documents that support their commercial and tax entries.
