Item 8.01 Other Events.

On September 6, 2012, StemCells, Inc. (the "Company") issued a press release announcing a second award to the Company of up to \$20 million by the California Institute for Regenerative Medicine (CIRM) under its Disease Team Therapy Development Award program (RFA 10-05). The second award was made by the CIRM's governing board on September 5, 2012, after additional review and comment by the CIRM. The award is to fund preclinical development of the Company's HuCNS-SC product candidate (purified human neural stem cells) as a potential treatment for Alzheimer's disease, with the aim of filing an IND with the FDA within four years. The CIRM made an earlier award under RFA 10-05 to the Company of up to \$20 million to fund preclinical development of HuCNS-SC cells as a potential treatment for cervical spinal cord injury. Funding to companies under RFA 10-05 will be structured as loans, in accordance with mutually agreed upon terms and conditions and CIRM regulations. The Company will evaluate its HuCNS-SC cells as a potential treatment for both cervical spinal cord injury and Alzheimer's disease in collaboration with researchers at the University of California, Irvine.

A copy of this press release is attached hereto as Exhibit 99.1.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

Exhibit 99.1 Press Release, dated July 26, 2012, announcing a funding award by the California Institute for Regenerative Medicine.
