Merger update: clearance from both French and U.S. securities regulators

Our proposed merger with Lucent Technologies has cleared two important milestones: we have received clearance from both French and U.S. securities regulators concerning the necessary financial details of the merger transaction filed with the two institutions: the U.S. Securities and Exchange Commission (SEC) in the United States and the Autorité des marchés financiers (AMF) in France.

Regarding the U.S. securities regulations, on August 4, the SEC declared Alcatel's Registration Statement on Form F-4 effective, registering the Alcatel ordinary shares underlying the Alcatel American Depositary Shares to be issued in the proposed transaction. The SEC is the U.S. securities regulatory agency that regulates U.S. financial markets in order to protect investors, maintain fair, orderly and efficient markets, and facilitate capital formation. Before any public offering of new securities, a registration statement has to be filed with the SEC. This registration statement must disclose pertinent information relating to the company's operations, securities, management and purpose of the public offering.

On August 7, the French financial markets regulatory agency, the Autorité des marchés financiers (AMF), issued an approval (*visa*) for the French prospectus (*note d'opération*), in order to allow, upon closing of the transaction between Alcatel and Lucent, the listing on the Eurolist market of Euronext Paris of the new Alcatel shares to be issued to Lucent shareholders.

The French securities regulator's purpose, among other things, is to set rules for and monitor transactions involving the securities of publicly traded companies, including rules for companies intending to merge. Alcatel was required to submit this *note d'opération*, which outlined all the financial details of the proposed merger with Lucent Technologies and in particular the offering of Alcatel American Depositary Shares and underlying Alcatel ordinary shares in the proposed merger transaction. This prospectus is the official listing document approved by the French securities regulator in connection with the issuance of new Alcatel shares in exchange for Lucent securities.

For the purpose of ensuring an equivalence of information provided in France and in the United States, the *note d'opération* and the F-4 filed by Alcatel include substantially the same information.

The two companies are still waiting for regulatory approvals from countries such as Canada, China and Brazil, as well as clearance by the Committee on Foreign Investment in the United States (CFIUS) and the ratification of the proposed transaction by the shareholders of Alcatel and Lucent on September 7.

Once these steps have been achieved, Alcatel and Lucent will be very close to the finish line, and we remain confident that we will close this merger by the end of this calendar year.
