CDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Description of Business and Summary of Significant Accounting Policies

Description of Business

CDW is a Fortune 500 company and a leading provider of integrated information technology (“IT”) solutions to small, medium and large business, government, education and healthcare customers in the U.S. and Canada. The Company's offerings range from discrete hardware and software products to integrated IT solutions such as mobility, security, data center optimization, cloud computing, virtualization and collaboration.

Basis of Presentation

The accompanying unaudited interim consolidated financial statements as of March 31, 2013 and for the three months ended March 31, 2013 and 2012 ("consolidated financial statements") have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") for interim financial statements. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted pursuant to such rules and regulations. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 ("December 31, 2012 financial statements"). The significant accounting policies used in preparing these consolidated financial statements were applied on a basis consistent with those reflected in the December 31, 2012 financial statements, except as disclosed in Note 2. In the opinion of management, the consolidated financial statements contain all adjustments (consisting of a normal, recurring nature) necessary to present fairly the Company's financial position, results of operations, comprehensive income, cash flows and changes in shareholders' equity as of the dates and for the periods indicated. The unaudited consolidated statements of operations for such interim periods reported are not necessarily indicative of results for the full year.

CDW Corporation ("Parent") is owned directly by CDW Holdings LLC, a company controlled by investment funds affiliated with Madison Dearborn Partners, LLC and Providence Equity Partners, L.L.C., certain other co-investors and certain members of CDW management.

Parent has two 100% owned subsidiaries, CDW LLC and CDW Finance Corporation. CDW LLC is an Illinois limited liability company that, together with its 100% owned subsidiaries, holds all material assets and conducts all business activities and operations. CDW Finance Corporation is a Delaware corporation formed for the sole purpose of acting as co-issuer of certain debt obligations as described in Note 10 and does not hold any material assets or engage in any business activities or operations.

Throughout this report, the terms “the Company” and “CDW” refer to Parent and its 100% owned subsidiaries.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Parent and its 100% owned subsidiaries. All intercompany transactions and accounts are eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires management to make use of certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reported periods. The Company bases its estimates on historical experience and on various other assumptions that management believes are reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

The notes to the consolidated financial statements contained in the December 31, 2012 financial statements include an additional discussion of the significant accounting policies and estimates used in the preparation of the Company's consolidated financial statements. There have been no material changes to the Company's significant accounting

policies and estimates during the three months ended March 31, 2013.

8

Table of ContentsCDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Reclassifications

Certain reclassifications have been made to the prior period consolidated financial statements to conform to the current period presentation.

Registration Statement on Form S-1

On March 22, 2013, the Company filed a Registration Statement on Form S-1 with the SEC relating to the proposed initial public offering of its common shares. The number of shares to be offered and the price range for the offering have not yet been determined. The Company makes no assurances that the Registration Statement on Form S-1 will be declared effective or that the proposed transaction will be consummated.

2. Recent Accounting Pronouncements

Disclosure of the Effects of Reclassifications from Accumulated Other Comprehensive Income

In February 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-02, which required that the effects of significant reclassifications from accumulated other comprehensive income to net income be shown parenthetically on the face of the consolidated financial statements or disclosed in a note. The adoption of this new guidance on January 1, 2013 did not have an impact on the Company's consolidated financial position, results of operations or cash flows.

3. Inventory Financing Agreements

The Company has entered into agreements with certain financial intermediaries to facilitate the purchase of inventory from various suppliers under certain terms and conditions, as described below. These amounts are classified separately as accounts payable-inventory financing on the accompanying consolidated balance sheets. The Company does not incur any interest expense associated with these agreements as balances are paid when they are due.

The following table presents the amounts included in accounts payable-inventory financing:

(in millions)	March 31, 2013	December 31, 2012
Revolving Loan inventory financing agreement	\$ 252.8	\$ 248.3
Other inventory financing agreements	0.1	0.9
Accounts payable-inventory financing	\$ 252.9	\$ 249.2

The Company maintains a senior secured asset-based revolving credit facility as described in Note 4, which incorporates a \$400.0 million floorplan sub-facility to facilitate the purchase of inventory from a certain vendor. In connection with the floorplan sub-facility, the Company maintains an inventory financing agreement on an unsecured basis with a financial intermediary to facilitate the purchase of inventory from this vendor (the "Revolving Loan inventory financing agreement"). Amounts outstanding under the Revolving Loan inventory financing agreement are unsecured and non-interest bearing.

The Company also maintains other inventory financing agreements with financial intermediaries to facilitate the purchase of inventory from certain vendors. At March 31, 2013 and December 31, 2012, amounts owed under other inventory financing agreements of \$0.1 million and \$0.9 million, respectively, were collateralized by the inventory purchased under these financing agreements and a second lien on the related accounts receivable.

4. Long-Term Debt

Long-term debt was as follows:

(dollars in millions)	Interest Rate (1)		March 31, 2013	December 31, 2012
Senior secured asset-based revolving credit facility	—	%	\$—	\$—
Senior secured term loan facility	3.9	%	1,299.5	1,339.5
Senior secured notes due 2018	8.0	%	500.0	500.0
Senior notes due 2019	8.5	%	1,305.0	1,305.0
Unamortized premium on senior notes due 2019			4.8	5.0
Senior subordinated notes due 2017	12.535	%	571.5	621.5
Senior notes due 2015	—	%	—	—
Total long-term debt			3,680.8	3,771.0
Less current maturities of long-term debt			—	(40.0)
Long-term debt, excluding current maturities			\$3,680.8	\$3,731.0

(1) Weighted-average interest rate at March 31, 2013.

At March 31, 2013, the Company was in compliance with the covenants under its various credit agreements as described below.

Senior Secured Asset-Based Revolving Credit Facility (“Revolving Loan”)

At March 31, 2013, the Company had no outstanding borrowings under the Revolving Loan, \$1.7 million of undrawn letters of credit and \$248.9 million reserved related to the floorplan sub-facility. The Revolving Loan matures on June 24, 2016.

In connection with the floorplan sub-facility, the Company maintains a Revolving Loan inventory financing agreement. Amounts outstanding under the Revolving Loan inventory financing agreement are unsecured and noninterest bearing. The Company will either pay the outstanding Revolving Loan inventory financing agreement amounts when they become due, or the Revolving Loan's administrative agent will automatically initiate an advance on the Revolving Loan and use the proceeds to pay the balance on the due date. At March 31, 2013, the financial intermediary reported an outstanding balance of \$236.7 million under the Revolving Loan inventory financing agreement. The total amount reported on the Company's consolidated balance sheet as accounts payable-inventory financing related to the Revolving Loan inventory financing agreement is \$16.1 million more than the \$236.7 million owed to the financial intermediary due to differences in the timing of reporting activity under the Revolving Loan inventory financing agreement. The outstanding balance reported by the financial intermediary excludes \$12.2 million in reserves for open orders that reduce the availability under the Revolving Loan.

Availability under the Revolving Loan is limited to (a) the lesser of the revolving commitment of \$900.0 million and the amount of the borrowing base less (b) outstanding borrowings, letters of credit, and amounts outstanding under the Revolving Loan inventory financing agreement plus a reserve of 15% of open orders. At March 31, 2013, the borrowing base was \$1,009.7 million based on the amount of eligible inventory and accounts receivable balances as of February 28, 2013. The Company could have borrowed up to an additional \$649.4 million under the Revolving Loan at March 31, 2013.

Senior Secured Term Loan Facility (“Term Loan”)

At March 31, 2013, the outstanding principal amount of the Term Loan was \$1,299.5 million, with \$408.7 million of non-extended loans due October 10, 2014 and \$890.8 million of extended loans due July 15, 2017.

The Term Loan requires the Company to make certain mandatory prepayments of principal amounts under certain circumstances, including (i) a prepayment in an amount equal to 50% of the Company's excess cash flow for a fiscal year (the percentage rate of which decreases to 25% when the total net leverage ratio, as defined in the governing agreement, is less than or equal to 5.5 but greater than 4.5; and decreases to 0% when the total net leverage ratio is

less than or equal to 4.5), and (ii) the net cash proceeds from the incurrence of certain additional indebtedness by the

10

Table of ContentsCDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Company or its subsidiaries. The total net leverage ratio was 4.9 and 5.2 at March 31, 2013 and December 31, 2012, respectively. On January 30, 2013, the Company made an optional prepayment of \$40.0 million aggregate principal amount. The optional prepayment satisfied the excess cash flow payment provision of the Term Loan with respect to the year ended December 31, 2012. The prepayment was allocated on a pro rata basis between the extended and non-extended loans.

The Term Loan includes a senior secured leverage ratio requirement to be maintained on a quarterly basis. The senior secured leverage ratio for the four quarters ended March 31, 2013 was required to be at or below 6.5. For the four quarters ended March 31, 2013, the senior secured leverage ratio was 2.1.

The Company is required to maintain interest rate derivative arrangements to fix or cap the interest rate on at least 50% of the outstanding principal amount of the Term Loan through maturity, subject to certain limitations currently in effect. The Company utilizes interest rate cap agreements to maintain compliance with this requirement. The Company has ten interest rate cap agreements in effect through January 14, 2015 with a combined notional amount of \$1,150.0 million. Of the ten cap agreements, four entitle the Company to payments from the counterparty of the amount, if any, by which three-month LIBOR exceeds 3.5% during the agreement period. The other six cap agreements entitle the Company to payments from the counterparty of the amount, if any, by which the three-month LIBOR exceeds 1.5% during the agreement period. The fair value of the Company's interest rate cap agreements was \$0.1 million at both March 31, 2013 and December 31, 2012.

See Note 11 for a description of the Term Loan refinancing transaction completed during the second quarter of 2013.
8.0% Senior Secured Notes due 2018 (“Senior Secured Notes”)

The Senior Secured Notes were issued on December 17, 2010 and mature on December 15, 2018. At March 31, 2013, the outstanding principal amount of the Senior Secured Notes was \$500.0 million.

11.0% Senior Exchange Notes due 2015 (“Senior Exchange Notes”); 11.5% / 12.25% Senior PIK Election Exchange Notes due 2015 (“PIK Election Notes” together with the Senior Exchange Notes, the “Senior Notes due 2015”)

At March 31, 2013 and December 31, 2012, there were no outstanding Senior Notes due 2015.

In February and March 2012, the Company purchased or redeemed the remaining \$129.0 million aggregate principal amount of Senior Notes due 2015, funded with the issuance of \$130.0 million aggregate principal amount of additional Senior Notes (as defined below). In connection with these transactions, the Company recorded a loss on extinguishment of long-term debt of \$9.4 million in the Company's consolidated statement of operations for the three months ended March 31, 2012. This loss represented \$7.9 million in tender and redemption premiums and \$1.5 million for the write-off of the remaining unamortized deferred financing costs related to the Senior Notes due 2015.
8.5% Senior Notes due 2019 (“Senior Notes”)

On February 17, 2012, the Company issued \$130.0 million aggregate principal amount of additional Senior Notes at an issue price of 104.375% of par. The \$5.7 million premium received is reported on the consolidated balance sheets as an addition to the face amount of the Senior Notes and is being amortized as a reduction to interest expense over the term of the related debt. At March 31, 2013, the outstanding principal amount of Senior Notes was \$1,305.0 million, excluding \$4.8 million in unamortized premium. The Senior Notes mature on April 1, 2019.

12.535% Senior Subordinated Exchange Notes due 2017 (“Senior Subordinated Notes”)

At March 31, 2013, the outstanding principal amount of the Company's Senior Subordinated Notes was \$571.5 million. The Senior Subordinated Notes mature on October 12, 2017.

On March 8, 2013, the Company redeemed \$50.0 million aggregate principal amount of Senior Subordinated Notes at a redemption price that was 106.268% of the principal amount redeemed. Cash on hand was used to fund the redemption of \$50.0 million aggregate principal amount, \$3.1 million of redemption premium and \$2.5 million in accrued and unpaid interest. In connection with this redemption, the Company recorded a loss on extinguishment of long-term debt of \$3.9 million in the Company's consolidated statement of operations for three months ended March 31, 2013. This loss represented \$3.1 million in redemption premium and \$0.8 million for the write-off of a portion of

the unamortized deferred financing costs related to the Senior Subordinated Notes.

11

Table of ContentsCDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

On December 21, 2012, the Company redeemed \$100.0 million aggregate principal amount of Senior Subordinated Notes at a redemption price that was 106.268% of the principal amount redeemed. Cash on hand was used to fund the redemption of \$100.0 million aggregate principal amount, \$6.3 million of redemption premium and \$2.3 million in accrued and unpaid interest. In connection with this redemption, the Company recorded a loss on extinguishment of long-term debt of \$7.8 million in the Company's consolidated statement of operations for the year ended December 31, 2012. This loss represented \$6.3 million in redemption premium and \$1.5 million for the write-off of a portion of the unamortized deferred financing costs related to the Senior Subordinated Notes.

Fair Value

The fair value of the Company's long-term debt instruments at March 31, 2013 was \$3,938.1 million. The fair value of the Senior Secured Notes, Senior Notes and Senior Subordinated Notes is estimated using quoted market prices for identical assets or liabilities that are traded in over-the-counter secondary markets that are not considered active. The fair value of the Term Loan is estimated using dealer quotes for identical assets or liabilities in markets that are not considered active. Consequently, the Company's long-term debt is classified as Level 2 within the fair value hierarchy. At March 31, 2013, the carrying value of the Company's long-term debt was \$3,676.0 million, excluding \$4.8 million in unamortized premium.

5. Income Taxes

The Company's effective income tax rate was 36.4% for the three months ended March 31, 2013 and differed from the U.S. federal statutory rate primarily due to state income taxes. For the three months ended March 31, 2012, the effective income tax rate was 27.9% and differed from the U.S. federal statutory rate primarily due to favorable adjustments to state tax credits that were recorded in the first quarter of 2012.

In the ordinary course of business, the Company is subject to review by domestic and foreign taxing authorities, including the Internal Revenue Service ("IRS"). The Company was previously under audit by the IRS for the years 2008 through 2010. The Company has been notified that the audit was completed and approved. In general, the Company is no longer subject to audit by the IRS, state and local or foreign taxing authorities for tax years prior to 2008. Various other taxing authorities are in the process of auditing income tax returns of the Company and its subsidiaries. The Company does not anticipate that any adjustments from the audits would have a material impact on its consolidated financial position, results of operations or cash flows.

6. Equity-Based Compensation

The Company recognized \$1.9 million and \$5.7 million in equity-based compensation expense for the three months ended March 31, 2013 and 2012, respectively. Equity-based compensation expense for the three months ended March 31, 2012 included incremental expense of \$1.6 million related to a modified Class B Common Unit grant agreement with the Company's former chief executive officer, which was entered into in June 2011.

The following table sets forth the summary of equity plan activity for the three months ended March 31, 2013:

Equity Awards	Class B Common Units ⁽¹⁾	MPK Plan Units ^{(1) (2)}
Outstanding at January 1, 2013	216,483	66,137
Granted	400	—
Forfeited	(665)	(1,534) ⁽³⁾
Repurchased/Settled	(126) ⁽⁴⁾	(482) ⁽⁴⁾
Outstanding at March 31, 2013	216,092	64,121
Vested at March 31, 2013	125,903	112 ⁽⁵⁾

(1) The weighted-average grant date fair market value for Class B Common Units granted during the period ended March 31, 2013 is \$119.00. The weighted-average grant date fair market value for outstanding Class B Common Units inclusive of the \$60.00 per unit impact of the March 2010 modification and the impact of the June 2011 modification for the Company's former chief executive officer is \$279.58. The weighted-average grant date fair

market value for outstanding MPK Plan Units is \$1,000.

(2) Represents units notionally credited to participants' accounts.

CDW CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

The Company contributes the fair market value of awards forfeited under the plan to a charitable foundation. The (3) contribution is generally made in the quarter following that in which the units are forfeited. As of March 31, 2013, the Company owed a contribution of 1,534 units.

Represents Class B Common Units that were repurchased by the Company from former participants and the (4) settlement of vested MPK Plan Units through the issuance of Class A Common Units in exchange for the vested MPK Plan Units.

(5) Represents MPK Plan Units that have vested but not yet converted to Class A Common Units.

As of March 31, 2013, the total unrecognized compensation cost of \$28.5 million related to nonvested equity-based compensation awards granted under the equity plans is expected to be recognized over the weighted-average period of 4.3 years. As discussed in Note 1, on March 22, 2013, the Company filed a Registration Statement on Form S-1 with the SEC relating to the proposed initial public offering of its common shares. In the event of an initial public offering of the Company's shares, the vesting of certain equity awards will accelerate, resulting in the acceleration of the related compensation expense during the period such event occurs.

7. Deferred Compensation Plan

On March 10, 2010, the Company established the Restricted Debt Unit Plan (the "RDU Plan"), an unfunded nonqualified deferred compensation plan. The total number of RDUs that can be granted under the RDU Plan is 28,500. As of March 31, 2013, 26,499 RDUs were outstanding.

Compensation expense of \$2.1 million related to the RDU Plan was recognized in both the three months ended March 31, 2013 and 2012. As of March 31, 2013, total unrecognized compensation expense of \$15.6 million related to the RDU Plan is expected to be recognized over the next 1.8 years.

At March 31, 2013 and December 31, 2012, the Company had \$17.6 million and \$15.5 million of liabilities related to the RDU Plan recorded on the consolidated balance sheets, respectively.

8. Commitments and Contingencies

The Company is party to various legal proceedings that arise in the ordinary course of its business, which include commercial, intellectual property, employment, tort and other litigation matters. The Company is also subject to audit by federal, state and local authorities, by various partners and large customers, including government agencies, relating to purchases and sales under various contracts. In addition, the Company is subject to indemnification claims under various contracts. From time to time, certain customers of the Company file voluntary petitions for reorganization or liquidation under the U.S. bankruptcy laws. In such cases, certain pre-petition payments received by the Company could be considered preference items and subject to return to the bankruptcy administrator.

As of March 31, 2013, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these proceedings and matters, if any, has been incurred. However, the ultimate resolutions of these proceedings and matters are inherently unpredictable. As such, the Company's financial condition and results of operations could be adversely affected in any particular period by the unfavorable resolution of one or more of these proceedings or matters.

9. Segment Information

Segment information is presented in accordance with a "management approach," which designates the internal reporting used by the chief operating decision-maker for making decisions and assessing performance as the source of the Company's reportable segments. The Company's segments are organized in a manner consistent with which separate financial information is available and evaluated regularly by the chief operating decision-maker in deciding how to allocate resources and in assessing performance.

The Company has two reportable segments: Corporate, which is comprised primarily of private sector business customers, and Public, which is comprised of government agencies and education and healthcare institutions. The Company also has two other operating segments, CDW Advanced Services and Canada, which do not meet the reportable segment quantitative thresholds and, accordingly, are combined together as "Other."

Table of ContentsCDW CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

The Company has centralized logistics and headquarters functions that provide services to the segments. The logistics function includes purchasing, distribution and fulfillment services to support both the Corporate and Public segments. As a result, costs and intercompany charges associated with the logistics function are fully allocated to both of these segments based on a percent of sales. The centralized headquarters function provides services in areas such as accounting, information technology, marketing, legal and coworker services. Headquarters' function costs that are not allocated to the segments are included under the heading of "Headquarters" in the tables below. Depreciation expense is included in Headquarters as it is not allocated among segments or used in measuring segment performance.

The Company allocates resources to and evaluates performance of its segments based on net sales, income (loss) from operations and Adjusted EBITDA, a non-GAAP measure as defined in the Company's credit agreements. However, the Company has concluded that income (loss) from operations is the more useful measure in terms of discussion of operating results, as it is a GAAP measure.

Segment information for total assets and capital expenditures is not presented as such information is not used in measuring segment performance or allocating resources between segments.

Selected Segment Financial Information

The following table presents information about the Company's segments for the three months ended March 31, 2013 and 2012:

(in millions)	Corporate	Public	Other	Headquarters	Total
Three Months Ended March 31, 2013:					
Net sales	\$1,403.9	\$846.8	\$161.0	\$—	\$2,411.7
Income (loss) from operations	94.1	45.6	6.1	(25.7)) 120.1
Depreciation and amortization expense	(24.4) (11.0) (2.3) (14.3) (52.0
Three Months Ended March 31, 2012:					
Net sales	\$1,362.8	\$817.6	\$138.8	\$—	\$2,319.2
Income (loss) from operations	84.8	42.1	2.5	(25.8)) 103.6

10. Supplemental Guarantor Information

The Senior Secured Notes, Senior Notes and Senior Subordinated Notes are guaranteed by Parent and each of CDW LLC's direct and indirect, 100% owned, domestic subsidiaries (the "Guarantor Subsidiaries"). All guarantees by Parent and Guarantor Subsidiaries are joint and several, and full and unconditional; provided that each guarantee by the Guarantor Subsidiaries is subject to certain customary release provisions contained in the indentures governing the Senior Secured Notes, Senior Notes and Senior Subordinated Notes. CDW LLC's Canada subsidiary (the "Non-Guarantor Subsidiary") does not guarantee the debt obligations. CDW LLC and CDW Finance Corporation, as co-issuers, are 100% owned by Parent, and each of the Guarantor Subsidiaries and the Non-Guarantor Subsidiary is 100% owned by CDW LLC.

The following tables set forth condensed consolidating balance sheets as of March 31, 2013 and December 31, 2012, consolidating statements of operations for the three months ended March 31, 2013 and 2012, condensed consolidating statements of comprehensive income for the three months ended March 31, 2013 and 2012, and condensed consolidating statements of cash flows for the three months ended March 31, 2013 and 2012, in accordance with Rule 3-10 of Regulation S-X. The consolidating financial information includes the accounts of CDW Corporation (the "Parent Guarantor"), which has no independent assets or operations, the accounts of CDW LLC (the "Subsidiary Issuer"), the combined accounts of the Guarantor Subsidiaries, the accounts of the Non-Guarantor Subsidiary, and the accounts of CDW Finance Corporation (the "Co-Issuer") for the periods indicated. The information was prepared on the same basis as the Company's consolidated financial statements.

11. Subsequent Events

On April 29, 2013, the Company entered into a new seven-year, \$1,350.0 million aggregate principal amount senior secured term loan facility (the "New Term Loan Facility"). A majority of the proceeds were used to repay the \$1,299.5 million outstanding aggregate principal amount of the Term Loan. The New Term Loan Facility was issued at a price of 99.75%. Borrowings under the New Term Loan Facility bear interest at LIBOR plus a margin ranging from 2.25% to 2.50% with a LIBOR floor of 1.00%. The New Term Loan Facility is subject to 0.25% quarterly amortization of the original principal amount, payable on a quarterly basis. Additionally, the New Term Loan Facility is subject to similar requirements as was the Term Loan to make mandatory annual excess cash flow prepayments. Unlike the Term Loan, the New Term Loan Facility does not include a senior secured leverage ratio requirement or a hedging requirement. In connection with this refinancing, the Company expects to record a loss on extinguishment of long-term debt of \$10.3 million in the consolidated statement of operations during the second quarter of 2013, primarily related to the write-off of unamortized deferred financing costs.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Unless otherwise indicated or the context otherwise requires, as used in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," the terms "we," "us," "the Company," "our," "CDW" and similar terms refer to CDW Corporation and its subsidiaries. "Management's Discussion and Analysis of Financial Condition and Results of Operations" should be read in conjunction with the unaudited interim consolidated financial statements and the related notes included elsewhere in this report and with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. This discussion contains forward-looking statements that are subject to numerous risks and uncertainties. Actual results may differ materially from those contained in any forward-looking statements. See "Forward-Looking Statements" at the end of this discussion.

Overview

CDW is a Fortune 500 company and a leading provider of integrated IT solutions in the U.S. and Canada. We help our customer base of more than 250,000 small, medium and large business, government, education and healthcare customers by delivering critical solutions to their increasingly complex IT needs. Our broad array of offerings range from discrete hardware and software products to integrated IT solutions such as mobility, security, data center optimization, cloud computing, virtualization and collaboration. We are technology "agnostic," with a product portfolio that includes more than 100,000 products from more than 1,000 brands. We provide our products and solutions through sales force and service delivery teams consisting of more than 4,300 coworkers, including nearly 1,400 highly skilled technology specialists and engineers.

We are a leading U.S. sales channel partner for many original equipment manufacturers ("OEMs") and software publishers (collectively, our "vendor partners"), whose products we sell or include in the solutions we offer. We believe we are an important extension of our vendor partners' sales and marketing capabilities, providing them with a cost-effective way to reach customers and deliver a consistent brand experience through our established end-market coverage and extensive customer access.

We have two reportable segments: Corporate, which is comprised primarily of private sector business customers, and Public, which is comprised of government agencies and education and healthcare institutions. Our Corporate segment is divided into a medium/large business customer channel, primarily serving customers with more than 100 employees, and a small business customer channel, primarily serving customers with up to 100 employees. We also have two other operating segments, CDW Advanced Services and Canada, which do not meet the reportable segment quantitative thresholds and, accordingly, are combined together as "Other." The CDW Advanced Services business consists primarily of customized engineering services delivered by technology specialists and engineers and managed services that include Infrastructure as a Service ("IaaS") offerings. Revenues from the sale of hardware, software, custom configuration and third-party provided services are recorded within our Corporate and Public segments. We may sell all or only select products that our vendor partners offer. Each vendor partner agreement provides for specific terms and conditions, which may include one or more of the following: product return privileges, price protection policies, purchase discounts and vendor incentive programs, such as purchase or sales rebates and cooperative advertising reimbursements. We also resell software for major software publishers. Our agreements with software publishers allow the end-user customer to acquire software or licensed products and services. In addition to helping our customers determine the best software solutions for their needs, we help them manage their software agreements, including warranties and renewals. A significant portion of our advertising and marketing expenses is reimbursed through cooperative advertising reimbursement programs with our vendor partners. These programs are at the discretion of our vendor partners and are typically tied to sales or purchasing volumes or other commitments to be met by us within a specified period of time.

On March 22, 2013, we filed a Registration Statement on Form S-1 with the SEC relating to the proposed initial public offering of our common shares. The number of shares to be offered and the price range for the offering have not yet been determined. We make no assurances that the Registration Statement on Form S-1 will be declared effective or that the proposed transaction will be consummated.

Table of Contents

Trends and key factors affecting our financial performance

We believe the following trends may have an important impact on our financial performance:

An important factor affecting our ability to generate sales and achieve our targeted operating results is the impact of general economic conditions on our customers' willingness to spend on information technology. While our operating results have improved significantly from the recent financial crisis, beginning in the second quarter of 2012, we began to see customers take a more cautious approach to spending as increased macroeconomic uncertainty impacted decision-making and led to some customers delaying purchases. We expect this trend to continue for the remainder of 2013. Uncertainties related to the potential impacts of federal budget negotiations, potential changes in tax and regulatory policy, weakening consumer and business confidence or increased unemployment could result in reduced or deferred spending by our customers on information technology products and services and increased competitive pricing pressures.

Our Public segment sales are impacted by government spending policies, budget priorities and revenue levels. An adverse change in any of these factors could cause our Public segment customers to reduce their purchases or to terminate or not renew contracts with us, which could adversely affect our business, results of operations or cash flows. Although our sales to the federal government are diversified across multiple agencies and departments, they collectively accounted for approximately 10%, 10% and 11% of our net sales for the years ended December 31, 2012, 2011 and 2010, respectively.

We believe that our customers' transition to more complex technology solutions will continue to be an important growth area for us in the future. However, because the market for technology products and services is highly competitive, our success at capitalizing on this transition will be based on our ability to tailor specific solutions to customer needs, the quality and breadth of our product and service offerings, the knowledge and expertise of our sales force, price, product availability and speed of delivery.

Key business metrics

Our management monitors a number of financial and non-financial measures and ratios on a regular basis in order to track the progress of our business and make adjustments as necessary. We believe that the most important of these measures and ratios include average daily sales, gross margin, operating margin, EBITDA and Adjusted EBITDA, cash and cash equivalents, net working capital, cash conversion cycle (defined to be days of sales outstanding in accounts receivable plus days of supply in inventory minus days of purchases outstanding in accounts payable, based on a rolling three-month average), debt levels including available credit and leverage ratios, sales per coworker and coworker turnover. These measures and ratios are compared to standards or objectives set by management, so that actions can be taken, as necessary, in order to achieve the standards and objectives. Adjusted EBITDA, a non-GAAP financial measure, also provides helpful information as it is the primary measure used in certain financial covenants contained in our credit agreements. See "Results of Operations" for the definition of Adjusted EBITDA and a reconciliation to net income.

The results of certain of our key business metrics are as follows:

(dollars in millions)	Three months ended March 31,	
	2013	2012
Net sales	\$2,411.7	\$2,319.2
Gross profit	402.0	384.6
Income from operations	120.1	103.6
Net income	28.3	10.9
Adjusted EBITDA	178.6	166.4
Average daily sales	38.3	36.2
Net debt (defined as long-term debt minus cash and cash equivalents)	3,533.7	3,835.1
Cash conversion cycle (in days)	23	26

Net sales

The following table presents our net sales by segment, in dollars and as a percentage of total net sales, and the year-over-year dollar and percentage change in net sales for the three months ended March 31, 2013 and 2012:

(dollars in millions)	Three Months Ended March 31, 2013		2012		Dollar Change	Percent Change ⁽¹⁾	
	Net Sales	Percentage of Total Net Sales	Net Sales	Percentage of Total Net Sales			
Corporate	\$1,403.9	58.2	% \$1,362.8	58.8	% \$41.1	3.0	%
Public	846.8	35.1	817.6	35.3	29.2	3.6	
Other	161.0	6.7	138.8	5.9	22.2	16.0	
Total net sales	\$2,411.7	100.0	% \$2,319.2	100.0	% \$92.5	4.0	%

⁽¹⁾ There were 63 selling days for the three months ended March 31, 2013, compared to 64 selling days for the three months ended March 31, 2012. On an average daily basis, total net sales increased 5.6%.

Table of Contents

The following table presents our net sales by customer channel for our Corporate and Public segments and the year-over-year dollar and percentage change in net sales for the three months ended March 31, 2013 and 2012:

(dollars in millions)	Three Months Ended March 31,		Dollar	Percent	
	2013	2012	Change	Change	
Corporate:					
Medium / Large	\$1,146.2	\$1,089.6	\$56.6	5.2	%
Small Business	257.7	273.2	(15.5)	(5.7))
Total Corporate	\$1,403.9	\$1,362.8	\$41.1	3.0	%
Public:					
Government	\$252.3	\$262.6	\$(10.3)	(3.9))%
Education	232.2	221.7	10.5	4.8	
Healthcare	362.3	333.3	29.0	8.7	
Total Public	\$846.8	\$817.6	\$29.2	3.6	%

Total net sales for the three months ended March 31, 2013 increased \$92.5 million, or 4.0%, to \$2,411.7 million, compared to \$2,319.2 million for the three months ended March 31, 2012. There were 63 selling days for the three months ended March 31, 2013, compared to 64 selling days for the three months ended March 31, 2012. On an average daily basis, total net sales increased 5.6%. The increase in total net sales was the result of favorable price/mix changes in hardware, growth in software, a more tenured sales force, and a continued focus on seller productivity across all areas of the organization. Our total net sales growth for the three months ended March 31, 2013 reflected increased sales of software and netcomm products, and unit volume growth in notebooks/mobile devices, partially offset by a decline in sales of desktop computers. Software gains were driven by growth in virtualization, operating systems, security and network management software.

Corporate segment net sales for the three months ended March 31, 2013 increased \$41.1 million, or 3.0%, compared to the three months ended March 31, 2012, driven by sales growth in the medium/large customer channel. On an average daily basis, Corporate segment net sales increased 4.6% between periods. Within our Corporate segment, net sales to medium/large customers increased 5.2% between periods due to a more tenured sales force and a continued focus on seller productivity. This increase was led by growth in netcomm products and software. Partially offsetting the growth in the medium/large customer channel was a 5.7% decrease in net sales to small business customers, due to certain of these customers continuing to take a more cautious approach to spending as macroeconomic uncertainty impacted decision-making. This decrease was led by unit volume declines in notebooks/mobile devices.

Public segment net sales for the three months ended March 31, 2013 increased \$29.2 million, or 3.6%, between periods, driven by continued strong performance in the healthcare customer channel. On an average daily basis, Public segment net sales increased 5.2% between periods. Net sales to healthcare customers increased \$29.0 million, or 8.7%, between periods, led by growth in software, enterprise storage and notebooks/mobile devices. The healthcare customer channel growth was primarily the result of deeper relationships with several group purchasing organizations and increased healthcare industry demand for IT products, as the healthcare industry continued its adoption of electronic medical records and point of care technologies. Net sales to government customers decreased \$10.3 million, or 3.9%, between periods, as uncertainty related to sequestration and federal government budget negotiations led to reduced or deferred federal government spending on IT products and services during the quarter. The government customer channel net sales decline was led by decreases in sales of desktop computers, netcomm products and servers, partially offset by growth in software. Net sales to education customers increased \$10.5 million, or 4.8%, between periods, driven by growth in net sales to K-12 customers, reflecting an increased level of funding certainty for certain of these customers. Partially offsetting the increase in net sales to K-12 customers was a reduction in net sales to higher education customers, reflecting ongoing budget constraints.

Gross profit

Gross profit increased \$17.4 million, or 4.5%, to \$402.0 million for the three months ended March 31, 2013, compared to \$384.6 million for the three months ended March 31, 2012. As a percentage of total net sales, gross profit

increased 10 basis points to 16.7% for the three months ended March 31, 2013, up from 16.6% for the three months ended March 31, 2012. Gross profit margin was positively impacted 30 basis points by a higher mix of commission revenue and 10 basis points by higher net sales and gross profit related to professional services. These increases were partially offset by an unfavorable impact of 30 basis points from price/mix changes within product margin. Commission revenue, including agency fees earned on sales of software licenses and software assurance under enterprise agreements, has a positive impact on our gross profit margin, as we record the fee or commission as a component of net sales when earned and there is no corresponding cost of sales.

Table of Contents

The gross profit margin may fluctuate based on various factors, including vendor incentive and inventory price protection programs, cooperative advertising funds classified as a reduction of cost of sales, product mix, net service contract revenue, commission revenue, pricing strategies, market conditions, and other factors, any of which could result in changes in gross profit margins.

Selling and administrative expenses

Selling and administrative expenses were \$251.5 million for the three months ended March 31, 2013, compared to \$251.6 million for the three months ended March 31, 2012, or essentially flat between years. As a percentage of total net sales, selling and administrative expenses decreased 40 basis points to 10.4% in the first quarter of 2013, down from 10.8% in the first quarter of 2012. Sales payroll, including sales commissions and other variable compensation costs, increased \$5.3 million, or 4.9%, between years, consistent with higher sales and gross profit. Offsetting the majority of this increase was a reduction in non-cash compensation costs of \$3.8 million between years related to our equity-based compensation plans, driven by the vesting period for certain awards being fully satisfied by the end of 2012. Occupancy costs also declined \$1.8 million between years, primarily due to a \$1.9 million lease termination charge recorded for the three months ended March 31, 2012. Total coworker count decreased by 60 coworkers from 6,839 at March 31, 2012 to 6,779 at March 31, 2013.

Advertising expense

Advertising expense increased \$1.0 million, or 3.0%, to \$30.4 million for the three months ended March 31, 2013, compared to \$29.4 million for the three months ended March 31, 2012. As a percentage of total net sales, advertising expense was 1.3% for each of the three months ended March 31, 2013 and 2012. The increase in advertising expense was due to a focus on development of integrated campaigns to advertise our solutions and products which reinforce our reputation as a leading IT solutions provider. We leveraged personalized digital advertising techniques aimed at our target audience; those costs were partially offset by decreases in television advertising expenditures.

Income from operations

The following table presents income (loss) from operations by segment, in dollars and as a percentage of net sales, and the year-over-year percentage change in income (loss) from operations for the three months ended March 31, 2013 and 2012:

	Three Months Ended March 31, 2013		Three Months Ended March 31, 2012		Percent Change in Income (loss) from Operations	
	Dollars in Millions	Operating Margin Percentage	Dollars in Millions	Operating Margin Percentage		
Segments: ⁽¹⁾						
Corporate	\$94.1	6.7	% \$84.8	6.2	% 11.0	%
Public	45.6	5.4	42.1	5.2	8.3	
Other	6.1	3.8	2.5	1.8	142.9	
Headquarters ⁽²⁾	(25.7) nm*	(25.8) nm*	(0.5)
Total income from operations	\$120.1	5.0	% \$103.6	4.5	% 15.9	%

* Not meaningful

Segment income from operations includes the segment's direct operating income and allocations for Headquarters' (1) costs, allocations for logistics services, certain inventory adjustments, and volume rebates and cooperative advertising from vendors.

(2) Includes certain Headquarters' function costs that are not allocated to the segments.

Income from operations was \$120.1 million for the three months ended March 31, 2013, an increase of \$16.5 million, or 15.9%, compared to \$103.6 million for the three months ended March 31, 2012. The results for the three months ended March 31, 2013 were driven by higher net sales and gross profit, partially offset by higher advertising expense. Total operating margin percentage increased 50 basis points to 5.0% for the three months ended March 31, 2013, from 4.5% for the three months ended March 31, 2012. Operating margin percentage benefited from the increase in gross

profit margin and the decrease in selling and administrative expenses as a percentage of net sales.

Corporate segment income from operations was \$94.1 million for the three months ended March 31, 2013, an increase of \$9.3 million, or 11.0%, compared to \$84.8 million for the three months ended March 31, 2012. This increase was primarily driven by higher net sales and gross profit margin, partially offset by higher selling and administrative expenses, resulting in a

Table of Contents

net increase in segment operating income before allocations of \$5.5 million for the three months ended March 31, 2013 compared to the same period of 2012. In addition, Corporate segment income from operations benefited from a decrease of \$3.3 million in Headquarters' expense allocations to the Corporate segment on a year-over-year basis. Public segment income from operations was \$45.6 million for the three months ended March 31, 2013, an increase of \$3.5 million, or 8.3%, compared to \$42.1 million for the three months ended March 31, 2012. The increase reflected higher segment operating income before allocations of \$1.4 million as a result of increased net sales and gross profit dollars, partially offset by higher selling and administrative expenses. In addition, Public segment income from operations benefited from a decrease of \$1.6 million in Headquarters' expense allocations on a year-over-year basis.

Interest expense, net

At March 31, 2013, our outstanding long-term debt totaled \$3,680.8 million compared to \$3,871.6 million at March 31, 2012. Net interest expense for the three months ended March 31, 2013 was \$72.1 million, a decrease of \$6.8 million compared to \$78.9 million for the three months ended March 31, 2012. Net interest expense decreased \$5.3 million due to lower debt balances and lower effective interest rates for the three months ended March 31, 2013 compared to the same period of the prior year as a result of debt repayments and refinancing activities completed during 2012 and 2013. The remaining decrease was primarily attributable to reduced amortization of deferred financing costs for the three months ended March 31, 2013.

Net loss on extinguishments of long-term debt

During the three months ended March 31, 2013, we recorded a net loss on extinguishment of long-term debt of \$3.9 million compared to \$9.4 million for the same period in 2012.

In March 2013, we redeemed \$50.0 million aggregate principal amount of senior subordinated notes due 2017 for \$53.1 million. We recorded a loss on extinguishment of long-term debt of \$3.9 million for the three months ended March 31, 2013, representing the difference between the redemption price and the net carrying amount of the purchased debt, adjusted for a portion of the unamortized deferred financing costs.

In February and March 2012, we purchased or redeemed the remaining \$129.0 million of senior notes due 2015, funded with the issuance of an additional \$130.0 million of senior notes due 2019. As a result, we recorded a loss on extinguishment of long-term debt of \$9.4 million, representing the difference between the purchase or redemption price of the senior notes due 2015 and the net carrying amount of the purchased debt, adjusted for the remaining unamortized deferred financing costs.

Income tax expense

Income tax expense was \$16.2 million for the three months ended March 31, 2013, compared to \$4.2 million for the same period of the prior year. The effective income tax rate, expressed by calculating the income tax expense as a percentage of income before income taxes, was 36.4% for the three months ended March 31, 2013, compared to 27.9% for the same period of the prior year. The change in the effective income tax rate between periods was primarily attributable to favorable adjustments to state tax credits that were recorded during the three months ended March 31, 2012, which did not recur during the three months ended March 31, 2013.

Net income

Net income was \$28.3 million for the three months ended March 31, 2013, compared to \$10.9 million for the three months ended March 31, 2012. The results for the three months ended March 31, 2013 and 2012 included after tax losses on extinguishments of long-term debt of \$2.4 million and \$5.7 million, respectively. Other significant factors and events causing the net changes between the periods are discussed above.

Adjusted EBITDA

Adjusted EBITDA was \$178.6 million for the three months ended March 31, 2013, an increase of \$12.2 million, or 7.3%, compared to \$166.4 million for the three months ended March 31, 2012. As a percentage of net sales, Adjusted EBITDA was 7.4% for the three months ended March 31, 2013 compared to 7.2% for the three months ended March 31, 2012.

We have included a reconciliation of EBITDA and Adjusted EBITDA for the three months ended March 31, 2013 and 2012 in the table below. EBITDA is defined as consolidated net income before interest expense, income tax expense, depreciation and amortization. Adjusted EBITDA, which is a measure defined in our credit agreements, means

EBITDA adjusted for certain items which are described in the table below. Both EBITDA and Adjusted EBITDA are considered non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position or cash flows that either excludes or includes amounts that are not normally included or excluded in the most

30

Table of Contents

directly comparable measure calculated and presented in accordance with GAAP. Non-GAAP measures used by the Company may differ from similar measures used by other companies, even when similar terms are used to identify such measures. We believe that EBITDA and Adjusted EBITDA provide helpful information with respect to our operating performance and cash flows including our ability to meet our future debt service, capital expenditures and working capital requirements. Adjusted EBITDA also provides helpful information as it is the primary measure used in certain financial covenants contained in our credit agreements.

(in millions)	Three Months Ended March 31,	
	2013	2012
Net income	\$28.3	\$10.9
Depreciation and amortization	52.0	52.5
Income tax expense	16.2	4.2
Interest expense, net	72.1	78.9
EBITDA	168.6	146.5
Adjustments:		
Non-cash equity-based compensation	1.9	5.7
Sponsor fee	1.3	1.3
Consulting and debt-related professional fees	0.1	0.1
Net loss on extinguishments of long-term debt	3.9	9.4
Other adjustments ⁽¹⁾	2.8	3.4
Total adjustments	10.0	19.9
Adjusted EBITDA	\$178.6	\$166.4

(1) Other adjustments primarily include certain retention costs and equity investment income.

Seasonality

While we have not historically experienced significant seasonality throughout the year, sales in our Corporate segment, which primarily serves private sector business customers, are typically higher in the fourth quarter than in other quarters due to customers spending their remaining technology budget dollars at the end of the year.

Additionally, sales in our Public segment have historically been higher in the third quarter than in other quarters primarily due to the buying patterns of the federal government and education customers.

Liquidity and Capital ResourcesOverview

We finance our operations and capital expenditures through a combination of internally generated cash from operations and from borrowings under our senior secured asset-based revolving credit facility. We believe that our current sources of funds will be sufficient to fund our cash operating requirements for the next year. In addition, we believe that, in spite of the uncertainty of future macroeconomic conditions, we have adequate sources of liquidity and funding available to meet our longer-term needs. However, there are a number of factors that may negatively impact our available sources of funds. The amount of cash generated from operations will be dependent upon factors such as the successful execution of our business plan and general economic conditions.

Table of Contents

Cash Flows

Cash flows from operating, investing and financing activities were as follows:
(in millions)

	Three Months Ended March 31,	
	2013	2012
Net cash provided by (used in):		
Operating activities	\$208.0	\$223.0
Investing activities	(8.8) (8.3
Net change in accounts payable-inventory financing	3.7	(74.0
Other cash flows from financing activities	(93.2) (204.4
Financing activities	(89.5) (278.4
Effect of exchange rate changes on cash and cash equivalents	(0.5) 0.3
Net increase (decrease) in cash and cash equivalents	\$109.2	\$(63.4

Operating Activities

Net cash provided by operating activities for the three months ended March 31, 2013 decreased \$15.0 million compared to the same period of the prior year. The decrease was primarily driven by changes in assets and liabilities, which resulted in a \$21.8 million decrease in cash between periods. Changes in accounts receivable and accounts payable-trade were the largest drivers of the cash decrease. During the three months ended March 31, 2013, accounts receivable contributed \$18.8 million compared to \$160.9 million during the prior year period. The decrease in cash contributions from accounts receivable was primarily due to higher cash collections in the first quarter of 2012 compared to the same period in 2013. Accounts payable-trade contributed \$124.2 million during the three months ended March 31, 2013 compared to \$3.0 million during the prior year period. The increase in cash contributions was primarily due to higher purchase volumes to support the increase in net sales. A higher mix of payables with certain vendors from whom we have more favorable payment terms and favorable timing of quarter-end payments also contributed to the increase.

In order to manage our working capital and operating cash needs, we monitor our cash conversion cycle, defined as days of sales outstanding in accounts receivable plus days of supply in inventory, less days of purchases outstanding in accounts payable. The following table presents the components of our cash conversion cycle:

(in days)	March 31,	
	2013	2012
Days of sales outstanding (DSO) ⁽¹⁾	44	43
Days of supply in inventory (DIO) ⁽²⁾	15	16
Days of purchases outstanding (DPO) ⁽³⁾	(36) (33
Cash conversion cycle	23	26

Represents the rolling three month average of the balance of trade accounts receivable, net at the end of the period (1) divided by average daily net sales for the same three month period. Also incorporates components of other miscellaneous receivables.

(2) Represents the rolling three month average of the balance of inventory at the end of the period divided by average daily cost of sales for the same three month period.

Represents the rolling three month average of the combined balance of accounts payable-trade, excluding cash (3) overdrafts, and accounts payable-inventory financing at the end of the period divided by average daily cost of sales for the same three month period.

The cash conversion cycle decreased to 23 days at March 31, 2013 compared to 26 days at March 31, 2012, driven by a three-day increase in DPO. The increase in DPO was primarily due to a higher mix of payables with certain vendors from whom we have more favorable payment terms and an increase in payables for third-party services such as software assurance and warranties. These services have a favorable impact on DPO as the payable is recognized on the balance sheet without a corresponding cost of sales in the statement of operations because the cost paid to the

vendor or third-party service provider is recorded as a reduction to net sales. The timing of quarter-end payments also had a favorable impact on DPO at March 31, 2013. The DSO increase was primarily driven by an increase in receivables for third-party services, which offsets the related increase in DPO discussed above, and slower collections in the Corporate segment. The decrease in DIO was primarily due to a

Table of Contents

lower three-month average inventory balance at March 31, 2013 compared to March 31, 2012. During the first quarter of 2012, we increased purchases of certain products, primarily hard-disk drives, to address supply shortages from vendor partners whose operations were impacted by the flooding in Thailand. There was no corresponding activity in the first quarter of 2013.

Investing Activities

Net cash used in investing activities for the three months ended March 31, 2013 increased \$0.5 million compared to the same period of the prior year. Capital expenditures were \$8.8 million and \$8.3 million for the three months ended March 31, 2013 and 2012, respectively, primarily for improvements to our information technology systems during both periods.

Financing Activities

Net cash used in financing activities decreased \$188.9 million for the three months ended March 31, 2013 compared to the same period in 2012. The decrease was primarily driven by debt transactions and changes in accounts payable-inventory financing. The net impact of our debt transactions resulted in cash outflows of \$93.1 million and \$204.1 million during the three months ended March 31, 2013 and 2012, respectively, as cash was used in each period to reduce our total long-term debt. The decrease in debt transactions is primarily attributable to a lower 2013 required prepayment related to the excess cash flow provision of the senior secured term loan facility, partially offset by a 2013 partial redemption of our senior subordinated exchange notes due 2017, for which there was no corresponding activity in the first quarter of 2012. Each debt transaction is described below under "Long-Term Debt and Financing Arrangements". In addition, during the three months ended March 31, 2013, changes in accounts payable-inventory financing increased cash by \$3.7 million compared to a reduction in cash of \$74.0 million for the three months ended March 31, 2012. Although the 2013 cash flows related to changes in accounts payable-inventory financing were essentially flat, the reduction in cash during 2012 was primarily due to lower purchasing volume during March of 2012 compared to December of 2011. Also, in the first quarter of 2012 we terminated one of our inventory financing agreements and began reporting the amounts owed for subsequent purchases as accounts payable-trade on the consolidated balance sheets and as cash flows from operating activities in the consolidated statements of cash flows.

Long-Term Debt and Financing Arrangements

Long-term debt was as follows:

(dollars in millions)	Interest Rate (1)		March 31, 2013	December 31, 2012
Senior secured asset-based revolving credit facility	—	%	\$—	\$—
Senior secured term loan facility	3.9	%	1,299.5	1,339.5
Senior secured notes due 2018	8.0	%	500.0	500.0
Senior notes due 2019	8.5	%	1,305.0	1,305.0
Unamortized premium on senior notes due 2019			4.8	5.0
Senior subordinated notes due 2017	12.535	%	571.5	621.5
Senior notes due 2015	—	%	—	—
Total long-term debt			3,680.8	3,771.0
Less current maturities of long-term debt			—	(40.0)
Long-term debt, excluding current maturities			\$3,680.8	\$3,731.0

(1)Weighted-average interest rate at March 31, 2013.

At March 31, 2013, we were in compliance with the covenants under our various credit agreements as described below.

Senior Secured Asset-Based Revolving Credit Facility ("Revolving Loan")

At March 31, 2013, we had no outstanding borrowings under the Revolving Loan, \$1.7 million of undrawn letters of credit and \$248.9 million reserved related to the floorplan sub-facility. The Revolving Loan matures on June 24, 2016. In connection with the floorplan sub-facility, we maintain a Revolving Loan inventory financing agreement. Amounts outstanding under the Revolving Loan inventory financing agreement are unsecured and noninterest bearing. We will either pay the outstanding Revolving Loan inventory financing agreement amounts when they become due, or the

Revolving Loan's administrative agent will automatically initiate an advance on the Revolving Loan and use the proceeds to pay the balance on the due date. At March 31, 2013, the financial intermediary reported an outstanding balance of \$236.7 million under the Revolving Loan inventory financing agreement. The total amount reported on the consolidated balance sheet as accounts

Table of Contents

payable-inventory financing related to the Revolving Loan inventory financing agreement is \$16.1 million more than the \$236.7 million owed to the financial intermediary due to differences in the timing of reporting activity under the Revolving Loan inventory financing agreement. The outstanding balance reported by the financial intermediary excludes \$12.2 million in reserves for open orders that reduce the availability under the Revolving Loan.

Availability under the Revolving Loan is limited to (a) the lesser of the revolving commitment of \$900.0 million and the amount of the borrowing base less (b) outstanding borrowings, letters of credit, and amounts outstanding under the Revolving Loan inventory financing agreement plus a reserve of 15% of open orders. At March 31, 2013, the borrowing base was \$1,009.7 million based on the amount of eligible inventory and accounts receivable balances as of February 28, 2013. We could have borrowed up to an additional \$649.4 million under the Revolving Loan at March 31, 2013.

Senior Secured Term Loan Facility (“Term Loan”)

At March 31, 2013, the outstanding principal amount of the Term Loan was \$1,299.5 million, with \$408.7 million of non-extended loans due October 10, 2014 and \$890.8 million of extended loans due July 15, 2017.

The Term Loan requires us to make certain mandatory prepayments of principal amounts under certain circumstances, including (i) a prepayment in an amount equal to 50% of our excess cash flow for a fiscal year (the percentage rate of which decreases to 25% when the total net leverage ratio, as defined in the governing agreement, is less than or equal to 5.5 but greater than 4.5; and decreases to 0% when the total net leverage ratio is less than or equal to 4.5), and (ii) the net cash proceeds from the incurrence of certain additional indebtedness by us or our subsidiaries. The total net leverage ratio was 4.9 and 5.2 at March 31, 2013 and December 31, 2012, respectively. On January 30, 2013, we made an optional prepayment of \$40.0 million aggregate principal amount. The optional prepayment satisfied the excess cash flow payment provision of the Term Loan with respect to the year ended December 31, 2012. The prepayment was allocated on a pro rata basis between the extended and non-extended loans.

The Term Loan includes a senior secured leverage ratio requirement to be maintained on a quarterly basis. The senior secured leverage ratio for the four quarters ended March 31, 2013 was required to be at or below 6.5. For the four quarters ended March 31, 2013, the senior secured leverage ratio was 2.1.

The senior secured leverage ratio is a material component of the Term Loan. Non-compliance with the senior secured leverage ratio requirement would result in a default under the credit agreement governing the Term Loan and could prevent us from borrowing under our Revolving Loan. If there were an event of default under the credit agreement governing the Term Loan that was not cured or waived, the lenders under the Term Loan could cause all amounts outstanding under the Term Loan to be due and payable immediately, which would have a material adverse effect on our financial position and cash flows. For a discussion of net cash provided by operating activities, investing activities and financing activities, see “Cash Flows” above. For a reconciliation of Adjusted EBITDA to net cash provided by operating activities, see “Results of Operations” above.

We are required to maintain interest rate derivative arrangements to fix or cap the interest rate on at least 50% of the outstanding principal amount of the Term Loan through maturity, subject to certain limitations currently in effect. We utilize interest rate cap agreements to maintain compliance with this requirement. We have ten interest rate cap agreements in effect through January 14, 2015 with a combined notional amount of \$1,150.0 million. Of the ten cap agreements, four entitle us to payments from the counterparty of the amount, if any, by which three-month LIBOR exceeds 3.5% during the agreement period. The other six cap agreements entitle us to payments from the counterparty of the amount, if any, by which the three-month LIBOR exceeds 1.5% during the agreement period. The fair value of our interest rate cap agreements was \$0.1 million at both March 31, 2013 and December 31, 2012.

See Note 11 to the accompanying unaudited interim consolidated financial statements for a description of the Term Loan refinancing transaction completed during the second quarter of 2013.

8.0% Senior Secured Notes due 2018 (“Senior Secured Notes”)

The Senior Secured Notes were issued on December 17, 2010 and mature on December 15, 2018. At March 31, 2013, the outstanding principal amount of the Senior Secured Notes was \$500.0 million.

11.0% Senior Exchange Notes due 2015 (“Senior Exchange Notes”); 11.5% / 12.25% Senior PIK Election Exchange Notes due 2015 (“PIK Election Notes” together with the Senior Exchange Notes, the “Senior Notes due 2015”)

At March 31, 2013 and December 31, 2012, there were no outstanding Senior Notes due 2015.

In February and March 2012, we purchased or redeemed the remaining \$129.0 million aggregate principal amount of Senior Notes due 2015, funded with the issuance of \$130.0 million aggregate principal amount of additional Senior Notes (as

Table of Contents

defined below). In connection with these transactions, we recorded a loss on extinguishment of long-term debt of \$9.4 million in the consolidated statement of operations for the three months ended March 31, 2012. This loss represented \$7.9 million in tender and redemption premiums and \$1.5 million for the write-off of the remaining unamortized deferred financing costs related to the Senior Notes due 2015.

8.5% Senior Notes due 2019 (“Senior Notes”)

On February 17, 2012, we issued \$130.0 million aggregate principal amount of additional Senior Notes at an issue price of 104.375% of par. The \$5.7 million premium received is reported on the consolidated balance sheets as an addition to the face amount of the Senior Notes and is being amortized as a reduction to interest expense over the term of the related debt. At March 31, 2013, the outstanding principal amount of Senior Notes was \$1,305.0 million, excluding \$4.8 million in unamortized premium. The Senior Notes mature on April 1, 2019.

12.535% Senior Subordinated Exchange Notes due 2017 (“Senior Subordinated Notes”)

At March 31, 2013, the outstanding principal amount of our Senior Subordinated Notes was \$571.5 million. The Senior Subordinated Notes mature on October 12, 2017.

On March 8, 2013, we redeemed \$50.0 million aggregate principal amount of Senior Subordinated Notes at a redemption price that was 106.268% of the principal amount redeemed. Cash on hand was used to fund the redemption of \$50.0 million aggregate principal amount, \$3.1 million of redemption premium and \$2.5 million in accrued and unpaid interest. In connection with this redemption, we recorded a loss on extinguishment of long-term debt of \$3.9 million in the consolidated statement of operations for three months ended March 31, 2013. This loss represented \$3.1 million in redemption premium and \$0.8 million for the write-off of a portion of the unamortized deferred financing costs related to the Senior Subordinated Notes.

On December 21, 2012, we redeemed \$100.0 million aggregate principal amount of Senior Subordinated Notes at a redemption price that was 106.268% of the principal amount redeemed. Cash on hand was used to fund the redemption of \$100.0 million aggregate principal amount, \$6.3 million of redemption premium and \$2.3 million in accrued and unpaid interest. In connection with this redemption, we recorded a loss on extinguishment of long-term debt of \$7.8 million in the consolidated statement of operations for the year ended December 31, 2012. This loss represented \$6.3 million in redemption premium and \$1.5 million for the write-off of a portion of the unamortized deferred financing costs related to the Senior Subordinated Notes.

Inventory Financing Agreements

We have entered into agreements with certain financial intermediaries to facilitate the purchase of inventory from various suppliers under certain terms and conditions, as described below. These amounts are classified separately as accounts payable-inventory financing on the accompanying consolidated balance sheets. We do not incur any interest expense associated with these agreements as balances are paid when they are due.

The following table presents the amounts included in accounts payable-inventory financing:

(in millions)	March 31, 2013	December 31, 2012
Revolving Loan inventory financing agreement	\$252.8	\$248.3
Other inventory financing agreements	0.1	0.9
Accounts payable-inventory financing	\$252.9	\$249.2

We maintain a senior secured asset-based revolving credit facility as described above and in Note 4 to the consolidated financial statements, which incorporates a \$400.0 million floorplan sub-facility to facilitate the purchase of inventory from a certain vendor. In connection with the floorplan sub-facility, we maintain an inventory financing agreement on an unsecured basis with a financial intermediary to facilitate the purchase of inventory from this vendor (the “Revolving Loan inventory financing agreement”). Amounts outstanding under the Revolving Loan inventory financing agreement are unsecured and non-interest bearing.

We also maintain other inventory financing agreements with financial intermediaries to facilitate the purchase of inventory from certain vendors. At March 31, 2013 and December 31, 2012, amounts owed under other inventory financing agreements of \$0.1 million and \$0.9 million, respectively, were collateralized by the inventory purchased under these financing agreements and a second lien on the related accounts receivable.

Table of Contents

Contractual Obligations

Other than as discussed above in “Long-Term Debt and Financing Arrangements,” there have been no material changes to our contractual obligations from those reported in our Annual Report on Form 10-K for the year ended December 31, 2012.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a material current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Commitments and Contingencies

We are party to various legal proceedings that arise in the ordinary course of our business, which include commercial, intellectual property, employment, tort and other litigation matters. We are also subject to audit by federal, state and local authorities, by various partners and large customers, including government agencies, relating to purchases and sales under various contracts. In addition, we are subject to indemnification claims under various contracts. From time to time, certain of our customers file voluntary petitions for reorganization or liquidation under the U.S. bankruptcy laws. In such cases, certain pre-petition payments received by us could be considered preference items and subject to return to the bankruptcy administrator.

As of March 31, 2013, we do not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these proceedings and matters, if any, has been incurred. However, the ultimate resolutions of these proceedings and matters are inherently unpredictable. As such, our financial condition and results of operations could be adversely affected in any particular period by the unfavorable resolution of one or more of these proceedings or matters.

Critical Accounting Policies and Estimates

Our critical accounting policies have not changed from those reported in Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2012.

Recent Accounting Pronouncements

Disclosure of the Effects of Reclassifications from Accumulated Other Comprehensive Income

In February 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2013-02, which required that the effects of significant reclassifications from accumulated other comprehensive income to net income be shown parenthetically on the face of the consolidated financial statements or disclosed in a note. The adoption of this new guidance on January 1, 2013 did not have an impact on our consolidated financial position, results of operations or cash flows.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the federal securities laws. All statements other than statements of historical fact included in this report are forward-looking statements. These statements relate to analyses and other information, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies. We claim the protection of The Private Securities Litigation Reform Act of 1995 for all forward-looking statements in this report. These forward-looking statements are identified by the use of terms and phrases such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “will” and similar terms and phrases, including references to assumptions. However, these words are not the exclusive means of identifying such statements. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that we will achieve those plans, intentions or expectations. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected.

Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under the section entitled “Risk Factors” included in our Annual Report on Form 10-K for the year ended December 31, 2012. All written and oral forward-looking statements attributable to us, or persons acting on our

behalf, are expressly qualified in their entirety by the cautionary statements contained in the section entitled “Risk Factors” included elsewhere in this report as well as other cautionary statements that are made from time to time in our other SEC filings and

36

Table of Contents

public communications. You should evaluate all forward-looking statements made in this report in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this report are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Quantitative and Qualitative Disclosures of Market Risks” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012. As of March 31, 2013, there had been no material change in this information.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) or Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective in recording, processing, summarizing, and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act, and that information is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely discussions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in the Company’s internal control over financial reporting during the quarter ended March 31, 2013 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

See Note 8 “Commitments and Contingencies” to the accompanying unaudited interim consolidated financial statements.

Item 1A. Risk Factors

See “Risk Factors” in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. As of March 31, 2013, there had been no material change in this information.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information
