**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**Note 1: Summary of Significant Accounting Policies**

**Organization**

PetMed Express, Inc. and subsidiaries, d/b/a 1-800-PetMeds (the “Company”), is a leading nationwide pet pharmacy. The Company markets prescription and non-prescription pet medications, health products, and supplies for dogs and cats, direct to the consumer. The Company offers consumers an attractive alternative for obtaining pet medications in terms of convenience, price, and speed of delivery. The Company markets its products through national advertising campaigns, which aim to increase the recognition of the “1-800-PetMeds” brand name, and “PetMeds” family of trademarks, increase traffic on its website at [www.1800petmeds.com](http://www.1800petmeds.com), acquire new customers, and maximize repeat purchases. The majority of the Company’s sales are to residents in the United States. The Company’s corporate headquarters and distribution facility are located in Delray Beach, Florida. The Company’s fiscal year end is March 31, and references herein to Fiscal 2019 or Fiscal 2018 refer to the Company's fiscal years ending March 31, 2019 and 2018, respectively.

**Basis of Presentation and Consolidation**

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, the accompanying Condensed Consolidated Financial Statements contain all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position of the Company at December 31, 2018, the Statements of Comprehensive Income for the three and nine months ended December 31, 2018 and 2017, and Cash Flows for the nine months ended December 31, 2018 and 2017. The results of operations for the three and nine months ended December 31, 2018 are not necessarily indicative of the operating results expected for the fiscal year ending March 31, 2019. These financial statements should be read in conjunction with the financial statements and notes thereto contained in the Company’s annual report on Form 10-K for the fiscal year ended March 31, 2018. The Condensed Consolidated Financial Statements include the accounts of PetMed Express, Inc. and its wholly owned subsidiaries. All significant intercompany transactions have been eliminated upon consolidation.

#### Use of Estimates

The preparation of Condensed Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Fair Value of Financial Instruments

The carrying amounts of the Company's cash and cash equivalents, accounts receivable, and accounts payable approximate fair value due to the short-term nature of these instruments.

#### Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued ASU 2014-09, “Revenue from Contracts with Customers” (“ASC 606”). ASC 606 clarifies the accounting for revenue arising from contracts with customers and specifies the disclosures that an entity should include in its financial statements. During 2016, the FASB issued certain amendments to the standard relating to the principal versus agent guidance, accounting for licenses of intellectual property and identifying performance obligations as well as the guidance on transition, collectability, noncash consideration and the presentation of sales and other similar taxes. The Company adopted ASC 606 using the modified retrospective method on April 1, 2018. Therefore, the comparative financial information has not been restated and continues to be reported under the accounting standards in effect for those periods.

The Company evaluated only contracts not completed at the date of initial application for each of the five steps in ASC 606, which are as follows: 1) Identify the contract with the customer; 2) Identify the performance obligations in the contract; 3) Determine the transaction price; 4) Allocate the transaction price to the performance obligations; and 5) Recognize revenue when (or as) performance obligations are satisfied. The effect of initially applying ASC 606 did not result in an opening balance adjustment to retained earnings or any other Balance Sheet accounts because the Company: (1) identified similar performance obligations under ASC 606 as compared with deliverables and separate units of account previously identified; (2) determined the transaction price to be consistent; and (3) concluded that revenue is recorded at the same point in time, upon shipment under both ASC 605 and ASC 606. Additionally, the Company concluded that the accounting for fulfillment costs or costs incurred to obtain a contract is unchanged by the adoption of ASC 606. The adoption of ASC 606 did not require significant changes in our internal controls and procedures over financial reporting and disclosures. However, we made enhancements to existing internal controls and procedures to ensure compliance with the new guidance.

In February 2016, the FASB issued guidance on leases which supersedes the current lease guidance. The core principle requires lessees to recognize the assets and liabilities that arise from nearly all leases in the statement of financial position. Accounting applied by lessors will remain largely consistent with previous guidance. Additional changes are expected to align lessor accounting with the revised lessee model and the FASB's revenue recognition guidance. The amendments are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. The Company is currently assessing the impact of this standard on its consolidated financial statements. We do not expect the standard to have a material impact on our consolidated financial statements.

The Company does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, will have a material effect on the Company's consolidated financial position, results of operations, or cash flows.

## **Note 2: Revenue Recognition**

The Company generates revenue by selling pet medication products and pet supplies. Certain pet supplies offered on the Company's website are drop shipped to customers. The Company considers itself the principal in the arrangement because the Company controls the specified good before it is transferred to the customer. Revenue contracts contain one performance obligation, which is delivery of the product; customer care and support is deemed not to be a material right in the contract. The transaction price is adjusted at the date of sale for any applicable sales discounts and an estimate of product returns, which are estimated based on historical patterns; however this is not considered a key judgment. There are no amounts excluded from variable consideration. Revenue is recognized when control transfers to the customer at the point in time in which shipment of the product occurs. This key judgment is determined as the shipping point represents the point in time in which the Company has a present right to payment, title has transferred to the customer, and the customer has assumed the risks and rewards of ownership. Outbound shipping and handling fees are an accounting policy election, and are included in sales as the Company considers itself the principal in the

arrangement given responsibility for supplier selection and discretion over pricing. Shipping costs associated with outbound freight after control over a product has transferred to a customer are an accounting policy election and are accounted for as fulfillment costs and are included in cost of sales.

The Company disaggregates revenue in the following two categories: (1) Reorder revenue vs new order revenue, and (2) Internet revenue vs. contact center revenue. The following table illustrates revenue by various classifications:

**Three Months Ended December 30,**

The majority of the Company's sales are paid by credit cards and the Company usually receives the cash settlement in two to three banking days. Credit card sales minimize the accounts receivable balances relative to sales. The Company had no material contract asset or contract liability balances as of December 31, 2018 or March 31, 2018.

**Note 3: Net Income Per Share**

In accordance with the provisions of Accounting Standards Codification (ASC) Topic 260 ("*Earnings Per Share*") basic net income per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted net income per common share includes the dilutive effect of potential restricted stock and the effects of the potential conversion of preferred shares, calculated using the treasury stock method. Unvested restricted stock and convertible preferred shares issued by the Company represent the only dilutive effect reflected in the diluted weighted average shares outstanding.

The following is a reconciliation of the numerators and denominators of the basic and diluted net income per share computations for the periods presented (in thousands, except for per share amounts):

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>December 31, 2018</b>	<b>December 31, 2017</b>	<b>December 31, 2018</b>	<b>December 31, 2017</b>
Net income (numerator):				
Net income	\$7,787	\$9,064	\$31,121	\$27,100
Shares (denominator):				

Edgar Filing: PETMED EXPRESS INC - Form 10-Q

Weighted average number of common shares outstanding used in basic computation	20,483	20,368	20,452	20,337
Common shares issuable upon vesting of restricted stock	-	47	25	90
Common shares issuable upon conversion of preferred shares	10	10	10	10
Shares used in diluted computation	20,493	20,425	20,487	20,437
Net income per common share:				
Basic	\$0.38	\$0.45	\$1.52	\$1.33
Diluted	\$0.38	\$0.44	\$1.52	\$1.33

For the three and nine months ended December 31, 2018, 127,318 shares of common restricted stock were excluded from the computations of diluted net income per common share, as their inclusion would have had an anti-dilutive effect on diluted net income per common share. For the three and nine months ended December 31, 2017, 77,600 shares of common restricted stock were excluded from the computations of diluted net income per common share, as their inclusion would have had an anti-dilutive effect on diluted net income per common share.

**Note 4: Accounting for Stock-Based Compensation**

The Company records compensation expense associated with restricted stock in accordance with ASC Topic 718 (“*Share Based Payment*”) (ASU 2016-09). The compensation expense related to all of the Company’s stock-based compensation arrangements is recorded as a component of general and administrative expenses. The Company had 972,175 restricted common shares issued under the 2006 Employee Equity Compensation Restricted Stock Plan (“2006 Employee Plan”), 85,600 restricted common shares issued under the 2016 Employee Equity Compensation Restricted Stock Plan (“2016 Employee Plan” and collectively referred to with the 2006 Employee Plan as the “Employee Plans”), 272,000 restricted common shares issued under the 2006 Outside Director Equity Compensation Restricted Stock Plan (“2006 Director Plan”), and 97,500 restricted common shares issued under the 2015 Outside Director Equity Compensation Restricted Stock Plan (“2015 Director Plan”, and collectively referred to with the 2006 Director Plan as the “Director Plans”) at December 31, 2018, all shares of which were issued subject to a restriction or forfeiture period that lapses ratably on the first, second, and third anniversaries of the date of grant, and the fair value of which is being amortized over the three-year restriction period.

For the quarters ended December 31, 2018 and 2017, the Company recognized \$813,000 and \$712,000, respectively, of compensation expense related to the Employee and Director Plans. For the nine months ended December 31, 2018 and 2017, the Company recognized \$2.3 million and \$1.9 million, respectively, of compensation expense related to the Employee and Director Plans. At December 31, 2018 and 2017, there was \$4.7 million and \$5.1 million of unrecognized compensation cost related to the non-vested restricted stock awards, respectively, which is expected to be recognized over the next three years. At December 31, 2018 and 2017, there were approximately 191,000 and 233,000 non-vested restricted shares, respectively.

**Note 5: Fair Value**

The Company carries various assets and liabilities at fair value in the Condensed Consolidated Balance Sheets. Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability. ASC Topic 820 (“Fair Value Measurements”) establishes a three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Include other inputs that are directly or indirectly observable in the marketplace.

Level 3 - Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. At December 31, 2018, the Company had invested the majority of its \$93.2 million cash and cash equivalents balance in money market funds which are classified within level 1.

**Note 6: Commitments and Contingencies**

The Company has settled complaints that had been filed with various states' regulatory boards in the past. There can be no assurances made that other states will not attempt to take similar actions against the Company in the future. The Company initiates litigation to protect its trade or service marks. There can be no assurance that the Company will be successful in protecting its trade or service marks. Legal costs related to the above matters are expensed as incurred.

**Note 7: Changes in Shareholders' Equity and Comprehensive Income:**

Changes in shareholders' equity for the nine months ended December 31, 2018 are summarized below (in thousands):

	<b>Additional Paid-In Capital</b>	<b>Retained Earnings</b>
Beginning balance at March 31, 2018:	\$ 9,381	\$106,320
Share based compensation	2,312	-
Dividends declared	-	(16,306 )
Net income	-	31,121
Ending balance at December 31, 2018:	\$ 11,693	\$121,135

No shares of treasury stock were purchased or retired in the nine months ended December 31, 2018 and 2017.

**Note 8: Income Taxes**

For the quarters ended December 31, 2018 and 2017, the Company recorded an income tax provision of approximately \$2.4 million and \$2.9 million, respectively, and for the nine months ended December 31, 2018 and 2017, the Company recorded an income tax provision of approximately \$9.4 million and \$12.2 million, respectively. The effective tax rate for the quarter ended December 31, 2018 was approximately 23.5%, compared to 24.0% for the quarter ended December 31, 2017. The effective tax rate for the nine months ended December 31, 2018 was approximately 23.2%, compared to 31.1% for the nine months ended December 31, 2017. The decrease to the income tax provision for the three months ended December 31, 2018 was due to a decrease in taxable income, and the decrease to the effective tax rate for the nine months ended December 31, 2018, was related to a decrease in the federal tax rate from 35.0% to 21.0% pursuant to the Tax Cuts and Jobs Act of 2017.

**Note 9: Subsequent Events**

On January 22, 2019 our Board of Directors declared a quarterly dividend of \$0.27 per share. The Board established a February 4, 2019 record date and a February 15, 2019 payment date. Based on the outstanding share balance as of January 29, 2019 the Company estimates the dividend payable to be approximately \$5.6 million.

On January 25, 2019 our Board of Directors authorized an additional \$30.0 million under the Company's share repurchase plan for future share repurchases. Currently, the Company has a total of \$40.2 million authorized for future share repurchases.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.**

### **Executive Summary**

PetMed Express was incorporated in the state of Florida in January 1996. The Company's common stock is traded on the NASDAQ Global Select Market under the symbol "PETS." The Company began selling pet medications and other pet health products in September 1996. In March 2010, the Company started offering for sale additional pet supplies on its website, and these items are drop shipped to customers by third party vendors. Presently, the Company's product line includes approximately 3,000 of the most popular pet medications, health products, and supplies for dogs and cats.

The Company markets its products through national advertising campaigns which aim to increase the recognition of the "1-800-PetMeds" brand name, and "PetMeds" family of trademarks, increase traffic on its website at [www.1800petmeds.com](http://www.1800petmeds.com), acquire new customers, and maximize repeat purchases. Approximately 84% of all sales were generated via the Internet for both the quarters ended December 31, 2018 and 2017. The Company's sales consist of products sold mainly to retail consumers. The three-month average purchase was approximately \$84 and \$86 per order for the quarters ended December 31, 2018 and 2017, respectively, and for the nine months ended December 31, 2018 and 2017, the average purchase was approximately \$87 and \$86 per order, respectively.

### **Critical Accounting Policies**

Our discussion and analysis of our financial condition and the results of our operations are based upon our Condensed Consolidated Financial Statements and the data used to prepare them. The Company's Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America. On an ongoing basis we re-evaluate our judgments and estimates including those related to product returns, bad debts, inventories, and income taxes. We base our estimates and judgments on our historical experience, knowledge of current conditions, and our beliefs of what could occur in the future considering available information. Actual results may differ from these estimates under different assumptions or conditions. Our estimates are guided by observing the following critical accounting policies.

Revenue recognition

The Company generates revenue by selling pet medication products and pet supplies. Certain pet supplies offered on the Company's website are drop shipped to customers. The Company considers itself the principal in the arrangement because the Company controls the specified good before it is transferred to the customer. Revenue contracts contain one performance obligation, which is delivery of the product; customer care and support is deemed not to be a material right to the contract. The transaction price is adjusted at the date of sale for any applicable sales discounts and an estimate of product returns, which are estimated based on historical patterns; however this is not considered a key judgment. There are no amounts excluded from variable consideration. Revenue is recognized when control transfers to the customer at the point in time in which shipment of the product occurs. This key judgment is determined as the shipping point represents the point in time in which the Company has a present right to payment, title has transferred to the customer, and the customer has assumed the risks and rewards of ownership.

Outbound shipping and handling fees are an accounting policy election, and are included in sales as the Company considers itself the principal in the arrangement given responsibility for supplier selection and discretion over pricing. Shipping costs associated with outbound freight after control over a product has transferred to a customer are an accounting policy election and are accounted for as fulfillment costs and are included in cost of sales. The majority of the Company's sales are paid by credit cards and the Company usually receives the cash settlement in two to three banking days. Credit card sales minimize accounts receivable balances relative to sales.

The Company maintains an allowance for doubtful accounts for losses that the Company estimates will arise from customers' inability to make required payments, arising from either credit card charge-backs or insufficient funds checks. The Company determines its estimates of the uncollectibility of accounts receivable by analyzing historical bad debts and current economic trends. The allowance for doubtful accounts was approximately \$19,000 at December 31, 2018 compared to \$35,000 at March 31, 2018.

### Valuation of inventory

Inventories consist of prescription and non-prescription pet medications and pet supplies that are available for sale and are priced at the lower of cost or market value using a weighted average cost method. The Company writes down its inventory for estimated obsolescence. The inventory reserve was approximately \$81,000 at December 31, 2018 compared to \$58,000 at March 31, 2018.

### Advertising

The Company's advertising expense consists primarily of Internet marketing and direct mail/print advertising. Internet costs are expensed in the month incurred and direct mail/print advertising costs are expensed when the related catalogs, brochures, and postcards are produced, distributed, or superseded.

### Accounting for income taxes

The Company accounts for income taxes under the provisions of ASC Topic 740 ("*Accounting for Income Taxes*"), which generally requires recognition of deferred tax assets and liabilities for the expected future tax benefits or consequences of events that have been included in the Consolidated Financial Statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on differences between the financial reporting carrying values and the tax bases of assets and liabilities, and are measured by applying enacted tax rates and laws for the taxable years in which those differences are expected to reverse.

### Results of Operations

The following should be read in conjunction with the Company's Condensed Consolidated Financial Statements and the related notes thereto included elsewhere herein. **Sales**

Sales were \$60.1 million for the quarters ended December 31, 2018 and 2017. For the nine months ended December 31, 2018, sales increased by approximately \$12.4 million, or 6.0%, to approximately \$218.9 million compared to \$206.5 million for the nine months ended December 31, 2017. The increase in sales for the nine months ended December 31, 2018 was primarily due to increased reorder sales. The Company acquired approximately 81,000 new customers for the quarter ended December 31, 2018, compared to approximately 106,000 new customers for the same period the prior year. For the nine months ended December 31, 2018 the Company acquired approximately 366,000 new customers, compared to 408,000 new customers for the nine months ended December 31, 2017. The following chart illustrates sales by various sales classifications:

Going forward sales may be adversely affected due to increased competition and consumers giving more consideration to price. No guarantees can be made that sales will grow in the future. The majority of our product sales are affected by the seasons, due to the seasonality of mainly heartworm, and flea and tick medications. For the quarters ended June 30, September 30, December 31, and March 31 of Fiscal 2018, the Company's sales were approximately 29%, 24%, 22%, and 25%, respectively.

### **Cost of sales**

Cost of sales increased by approximately \$2.5 million, or 6.6%, to approximately \$40.7 million for the quarter ended December 31, 2018, from approximately \$38.2 million for the quarter ended December 31, 2017. For the nine months ended December 31, 2018, cost of sales increased by approximately \$10.7 million, or 8.0%, to approximately \$144.3 million compared to \$133.6 million for the same period in the prior year. Cost of sales as a percent of sales was 67.7% and 63.5% for the quarters ended December 31, 2018 and 2017, respectively, and for the nine months ended December 31, 2018 and 2017 the cost of sales was 65.9% and 64.7%, respectively. The cost of sales increases and percentage increases can be attributed to increases in discounts given to customers to stimulate sales in response to increased online competition and an increase in product costs during the quarter and nine months ended December 31, 2018.

### **Gross profit**

Gross profit decreased by approximately \$2.6 million, or 11.7%, to approximately \$19.4 million for the quarter ended December 31, 2018, from approximately \$21.9 million for the quarter ended December 31, 2017. For the nine months ended December 31, 2018 gross profit increased by approximately \$1.7 million, or 2.3%, to approximately \$74.6 million, compared to \$72.9 million for the same period in the prior year. The decrease in gross profit for the quarter ended December 31, 2018 is related to increased discounts given to customers to stimulate sales. The increases in gross profit for the nine months ended December 31, 2018 is directly related to increased sales offset by increased discounts given to customers to stimulate sales. Gross profit as a percentage of sales was 32.3% and 36.5% for the three months ended December 31, 2018 and 2017, respectively, and for the nine months ended December 31, 2018 and 2017, gross profit was 34.1% and 35.3%, respectively. The gross profit percentage decreases for the quarter and nine months ended December 31, 2018 are mainly attributed to increased discounts given to customers to stimulate sales in response to increased online competition for the quarter and nine months.

### **General and administrative expenses**

General and administrative expenses for both quarters ended December 31, 2018 and 2017 was \$5.8 million. General and administrative expenses as a percentage of sales was 9.6% and 9.7% for the quarters ended December 31, 2018 and 2017, respectively. The percentage decrease for the quarter ended December 31, 2018 can be attributed to a slight reduction in general and administrative expenses. For the nine months ended December 31, 2018, general and administrative expenses increased by approximately \$705,000, or 3.9%, to approximately \$18.9 million from approximately \$18.2 million for the nine months ended December 31, 2017. The increase in general and administrative expenses for the nine months ended December 31, 2018 was primarily due to the following: a \$286,000 increase in bank service fees; a \$238,000 increase in property expenses; a \$151,000 increase in payroll expenses, and a net increase of \$30,000 in other expenses which included professional fees, telephone, bad debt, and office expenses.

### **Advertising expenses**

Advertising expenses decreased by approximately \$507,000, or 12.3%, to approximately \$3.6 million for the quarter ended December 31, 2018, from approximately \$4.1 million for the quarter ended December 31, 2017. For the nine months ended December 31, 2018, advertising expenses increased by approximately \$682,000, or 4.6%, to approximately \$15.6 million compared to advertising expenses of approximately \$14.9 million for the nine months ended December 31, 2017. The decrease in advertising expenses for the quarter ended December 31, 2018 can be attributed to a lower-than-expected consumer response, which may be attributed to increased online competition. The advertising expenditures for the three and nine months ended December 31, 2018 were intended to stimulate sales and acquire new customers. The advertising costs of acquiring a new customer, defined as total advertising costs divided by new customers acquired, increased to \$45 for the quarter ended December 31, 2018 compared to \$39 for the quarter ended December 31, 2017. For the nine months ended December 31, 2018 and 2017 the advertising costs of

acquiring a new customer were \$43 and \$37, respectively. The increases to customer acquisition costs for the quarter and nine months ended December 31, 2018 can be attributed to increased costs and a lower-than-expected consumer response, which may be attributed to increased online competition. Advertising cost of acquiring a new customer can be impacted by the advertising environment, the effectiveness of our advertising creative, advertising spending, and price competition. Historically, the advertising environment fluctuates due to supply and demand. A more favorable advertising environment may positively impact future sales, whereas a less favorable advertising environment may negatively impact future sales.

As a percentage of sales, advertising expense was 6.0% and 6.8% for the quarters ended December 31, 2018 and 2017, respectively, and for the nine months ended December 31, 2018 and 2017 advertising expense was 7.1% and 7.2%, respectively. The decrease in advertising expense as a percentage of total sales for the quarter ended December 31, 2018 can be attributed to decreased advertising spending in the quarter. The Company currently anticipates advertising as a percentage of sales to be between approximately 7.0% and 8.0% for fiscal 2019. However, the advertising percentage will fluctuate quarter to quarter due to seasonality and advertising availability.

### **Depreciation**

Depreciation expense for the quarter ended December 31, 2018 increased by \$24,000 to \$556,000 compared to \$532,000 for the quarter ended December 31, 2017. For the nine months ended December 31, 2018 depreciation expense increased by approximately \$74,000 to \$1.7 million compared to \$1.6 million for the same period in the prior year. The increases to depreciation expense for the quarter and nine months ended December 31, 2018 can be attributed to an increase in new property and equipment additions.

### **Other income**

Other income increased by approximately \$307,000 to approximately \$763,000 for the quarter ended December 31, 2018 from approximately \$456,000 for the quarter ended December 31, 2017. For the nine months ended December 31, 2018 other income increased by approximately \$970,000 to approximately \$2.1 million compared to approximately \$1.2 million for the same period in the prior year. The increases to other income for the quarter and nine months ended December 31, 2018 are primarily attributed to increased interest income due to increased interest rates. Interest income may decrease in the future as the Company utilizes its cash balances on its share repurchase plan, with approximately \$10.2 million remaining as of December 31, 2018, on any quarterly dividend payment, or on its operating activities.

### **Provision for income taxes**

For the quarters ended December 31, 2018 and 2017, the Company recorded an income tax provision of approximately \$2.4 million and \$2.9 million, respectively, and for the nine months ended December 31, 2018 and 2017, the Company recorded an income tax provision of approximately \$9.4 million and \$12.2 million, respectively. The effective tax rate for the quarter ended December 31, 2018 was approximately 23.5%, compared to 24.0% for the quarter ended December 31, 2017, and the effective tax rate for the nine months ended December 31, 2018 was approximately 23.2%, compared to 31.1% for the nine months ended December 31, 2017. The decrease to the income tax provision for the three months ended December 31, 2018 was due to a decrease in taxable income, and the decrease to the effective tax rate for the nine months ended December 31, 2018, was related to a decrease in the federal tax rate from 35.0% to 21.0% pursuant to the Tax Cuts and Jobs Act of 2017.

### **Liquidity and Capital Resources**

The Company's working capital at December 31, 2018 and March 31, 2018 was \$105.4 million and \$87.1 million, respectively. The \$18.3 million increase in working capital was primarily attributable to cash flow generated from operations, offset by dividends paid in the period. Net cash provided by operating activities was \$32.0 million and \$35.1 million for the nine months ended December 31, 2018 and 2017, respectively. This change can be mainly attributed to an increase in the Company's net income and accounts payable balance, offset by an increase in the Company's inventory balance and decrease in the income taxes payable balance, compared to the same period in the prior year. Net cash used in investing activities decreased to \$507,000 for the nine months ended December 31, 2018, compared to net cash used in investing activities of \$564,000 for the nine months ended December 31, 2017. Net cash used in financing activities was \$16.3 million for the nine months ended December 31, 2018, compared to \$12.3 million for the same period in the prior year, which represented an increase in dividends paid in the period ended December 31, 2018.

At December 31, 2018, the Company had approximately \$10.2 million remaining under the Company's share repurchase plan. Subsequent to December 31, 2018, on January 25, 2019 our Board of Directors authorized an additional \$30.0 million under the Company's share repurchase plan for a total of \$40.2 million authorized for future share repurchases. Subsequent to December 31, 2018, on January 22, 2019 our Board of Directors declared a quarterly dividend of \$0.27 per share. The Board established a February 4, 2019 record date and a February 15, 2019 payment date. Depending on future market conditions the Company may utilize its cash and cash equivalents on the remaining balance of its current share repurchase plan, on dividends, or on its operating activities. At December 31, 2018, the Company had no material outstanding lease commitments. We are not currently bound by any long or short term agreements for the purchase or lease of capital expenditures. Any material amounts expended for capital expenditures would be the result of an increase in the capacity needed to adequately provide for any increase in our business. To date we have paid for any needed additions to our capital equipment infrastructure from working capital funds and anticipate this being the case in the future. Presently, we have approximately \$250,000 forecasted for capital expenditures for the remainder of fiscal 2019, which will be funded through cash from operations. The Company's primary source of working capital is cash from operations. The Company presently has no need for alternative sources of working capital, and has no commitments or plans to obtain additional capital.

### **Off-Balance Sheet Arrangements**

The Company had no off-balance sheet arrangements at December 31, 2018.

### **Cautionary Statement Regarding Forward-Looking Information**

Certain information in this Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. You can identify these forward-looking statements by the words "believes," "intends," "expects," "may," "will," "should," "plans," "projects," "contemplates," "intends," "budgets," "predicts," "estimates," "anticipates," or similar expressions. These statements are based on our beliefs, as well as assumptions we have used based upon information currently available to us. Because these statements reflect our current views concerning future events, these statements involve risks, uncertainties, and assumptions. Actual future results may differ significantly from the results discussed in the forward-looking statements. A reader, whether investing in our common stock or not, should not place undue reliance on these forward-looking statements, which apply only as of the date of this quarterly report. When used in this quarterly report on Form 10-Q, "PetMed Express," "1-800-PetMeds," "PetMeds," "PetMed," "PetMeds.com," "1800PetMeds.com," "PetMed.com," "PetMed Express.com," "the Company," "we," "our," and "us" refers to PetMed Express, Inc. and our subsidiaries.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

Market risk generally represents the risk that losses may occur in the value of financial instruments as a result of movements in interest rates, foreign currency exchange rates, and commodity prices. Our financial instruments include cash and cash equivalents, accounts receivable, and accounts payable. The book values of cash equivalents, accounts receivable, and accounts payable are considered to be representative of fair value because of the short maturity of these instruments. Interest rates affect our return on excess cash and cash equivalents. At December 31, 2018, we had \$93.2 million in cash and cash equivalents, and a majority of our cash and cash equivalents generate interest income based on prevailing interest rates. A significant change in interest rates would impact the amount of interest income generated from our excess cash and cash equivalents. It would also impact the market value of our money market funds. Our cash equivalents are subject to market risk, primarily interest rate and credit risk. Our cash equivalents are managed by a limited number of outside professional managers within investment guidelines set by our Board of Directors. Such guidelines include security type, credit quality, and maturity, and are intended to limit market risk by restricting our investments to high-quality debt instruments with both short and long term maturities. We do not hold any derivative financial instruments that could expose us to significant market risk. At December 31, 2018, we had no debt obligations.

**ITEM 4. CONTROLS AND PROCEDURES.**

The Company's management, including our Chief Executive Officer and Chief Financial Officer, has conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 promulgated under the Securities Exchange Act of 1934, as amended) as of the quarter ended December 31, 2018, the end of the period covered by this report (the "Evaluation Date"). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective such that the information relating to our Company, including our consolidated subsidiaries, required to be disclosed by the Company in reports that it files or submits under the Exchange Act: (1) is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and (2) is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
