On April 26, 2018, Verisk Analytics, Inc. (the "Company") announced that it has updated its operating segments. The Company previously reported results based on its two operating segments, Decision Analytics and Risk Assessment. During the first quarter of 2018, the chief operating decision maker changed how he makes operating decisions, assesses the performance of the business, and allocates resources in a manner that caused its operating segments to change. Consequently, effective for the first quarter of 2018, the Company's operating segments are based on three vertical markets it serves: Insurance, Energy and Specialized Markets, and Financial Services.

Insurance includes underwriting & rating, claims analytics, catastrophe modeling, repair cost estimating, and aerial imagery and remote sensing solutions.

Energy and Specialized Markets includes its energy business, environmental health and safety services, and weather risk solutions.

Financial Services includes the financial services and retail analytics solutions.

To assist in the analysis of the Company's new reportable segment structure, the Company has recast operating results for each of the four quarters and full year of 2017 and 2016, and full year of 2015 in Exhibit 99.1 to this Form 8-K.
