PROSPECTUS SUPPLEMENT SUMMARY

The following is a summary of selected information contained elsewhere or incorporated by reference. It does not contain all of the information that you should consider before buying our securities. You should read this prospectus in its entirety, including the information incorporated by reference herein and therein.

Company Overview

We are a medical device company that develops, manufactures, and markets medical diagnostic products designed for the early detection and monitoring of chronic diseases and medical conditions. Our medical diagnostic products are sold worldwide in two markets: 1) clinical laboratories and 2) point of care (physicians' offices and over-the-counter

drugstores). Our diagnostic test kits are used to analyze blood, urine, or fecal specimens from patients in the diagnosis of various diseases and other medical complications, or to measure the level of specific hormones, antibodies, antigens or other substances, which may exist in the human body in extremely small concentrations.

We primarily focus on products for gastrointestinal diseases, food intolerances, diabetes and esoteric tests. These diagnostic test products utilize immunoassay technology. Some of these products have not yet been submitted for clearance by the Food and Drug Administration, or FDA, or each country's equivalent for diagnostic use, but can still be sold in various foreign countries for research use without this approval.

Technological advances in medical diagnostics have made it possible to perform diagnostic tests within the home and the physician's office (the point of care), rather than in the clinical laboratory. One of our objectives has been to develop and market rapid diagnostic tests that are accurate, employ easily obtained specimens, and are simple to perform without instrumentation. Our over-the-counter and professional rapid diagnostic products help to manage existing medical conditions and may save lives through early detection and prompt diagnosis. In the past, tests of this kind required the services of medical technologists and sophisticated instrumentation. Frequently, results were not available until at least the following day. We believe that rapid point of care tests can be as accurate as laboratory tests when used properly, require no instrumentation, give reliable results in minutes and can be performed with confidence in the home or the physician's office.

We maintain our headquarters in Irvine, California where we house administration, product development, sales and marketing, customer services and some manufacturing operations. A part of our manufacturing and assembly operations is located in Mexicali, Mexico, in order to reduce the cost of manufacturing and compete more effectively worldwide. We have established wholly owned subsidiaries in both Mexico and Germany. We expend considerable funds in the effort to ready certain new products for market (both internally developed and licensed from others). We utilize technical personnel to conduct product improvement and technical transfer development activities, as well as explore potential new technologies that we may wish to develop. We are currently pursuing the development of two tests for the gastrointestinal market.

Corporate Information

Biomerica was originally incorporated in Delaware in September 1971. We also have two wholly owned subsidiaries, Biomerica de Mexico, which is used as a maquiladora, and BioEurope GmbH, which acts as a distributor of Biomerica products in certain markets. Our principal executive offices are located at 17571 Von Karman Avenue, Irvine, California 92614, and our telephone number is (949) 645-2111. Our corporate website address is www.biomerica.com. Information contained on or accessible through our website is not a part of this prospectus, and the inclusion of our website address in this prospectus is an inactive textual reference only.

RISK FACTORS

Before making an investment decision, you should carefully consider the risks described below and discussed in the section titled "Risk Factors" in our most recent Annual Report on Form 10-K, as well as the risks, uncertainties and additional information set forth in our SEC reports on Forms 10-K, 10-Q and 8-K and in other documents incorporated by reference in this prospectus. We expect to update these Risk Factors from time to time in the periodic and current reports that we file with the SEC after the date of this prospectus. These updated Risk Factors will be incorporated by reference in this prospectus.

Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business, financial condition, results of operations and prospects. Certain statements below are forward-looking statements. See the information included under the heading "Note Regarding Forward-Looking Statements."

Risks Related to This Offering

You may experience immediate and substantial dilution.

The offering price per share in this offering may exceed the net tangible book value per share of our common stock. Assuming that an aggregate of 2,034,883 shares of our common stock are sold at a price of \$3.44 per share pursuant to this prospectus which was the last reported sale price of our common stock on the NASDAQ on November 30, 2017, for aggregate gross proceeds of \$6,725,000 after deducting commissions and estimated aggregate offering expenses payable by us, you would experience immediate dilution of \$2.41 per share, representing a difference between our as adjusted net tangible book value per share as of August 31, 2017 after giving effect to this offering and the assumed offering price. The exercise of outstanding stock options and warrants may result in further dilution of your investment. See the section entitled "Dilution" on page S-9 of this prospectus for a more detailed illustration of the

dilution you would incur if you participate in this offering.

Management will have broad discretion as to the use of the proceeds from this offering and may not use the proceeds effectively.

Because we have not designated the amount of net proceeds from this offering to be used for any particular purpose, our management will have broad discretion as to the application of the net proceeds from this offering and could use them for purposes other than those contemplated at the time of the offering. Our management may use the net proceeds for corporate purposes that may not improve our financial condition or market value.

Future sales of substantial amounts of our common stock, or the possibility that such sales could occur, could adversely affect the market price of our common stock.

We may issue up to \$7 million of common stock from time to time in this offering. The issuance from time to time of shares in this offering, as well as our ability to issue such shares in this offering, could have the effect of depressing the market price or increasing the market price volatility of our common stock. See Plan of Distribution on page S-12 of this prospectus for more information about the possible adverse effects of our sales under the sales agreement.

It is not possible to predict the actual number of shares we will sell under the At Market Issuance Sales Agreement, or the gross proceeds resulting from those sales.

Subject to certain limitations in the At Market Issuance Sales Agreement and compliance with applicable law, we have the discretion to deliver a placement notice to the sales agent at any time throughout the term of the At Market Issuance Sales Agreement. The number of shares that are sold through the sales agent after delivering a placement notice will fluctuate based on a number of factors, including the market price of the common stock during the sales period, the limits we set with the sales agent in any applicable placement notice, and the demand for our common stock during the sales period. Because the price per share of each share sold will fluctuate during the sales period, it is not currently possible to predict the number of shares that will be sold or the gross proceeds to be raised in connection with those sales.

S-5

The common stock offered hereby will be sold in at the market offerings, and investors who buy shares at different times will likely pay different prices.

Investors who purchase shares in this offering at different times will likely pay different prices, and so may experience different levels of dilution and different outcomes in their investment results. We will have discretion, subject to market demand, to vary the timing, prices, and numbers of shares sold in this offering. In addition, there is no minimum or maximum sales price for shares to be sold in this offering. Investors may experience a decline in the value of the shares they purchase in this offering as a result of sales made at prices lower than the prices they paid.

S-6

NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference into this prospectus contain certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, in reliance upon the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, statements regarding the success, safety and efficacy of our products, product approvals, product sales, revenues, development timelines, product acquisitions, liquidity and capital resources and trends, and other statements containing forward-looking words, such as, believes, may, could, would, will, expects, intends, anticipates, plans, seeks, or continues or the negative thereof or variation thereon or similar terminology (although all forward-looking statements contain these words). Such forward-looking statements are based on the beliefs of our management as well as assumptions made by and information currently available to our management. Readers should not put undue reliance on these forward-looking statements. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified; therefore, our actual results may differ materially from those described in any forward-looking statements. The risks and uncertainties include those noted in our SEC filings or any applicable prospectus supplement.

We urge you to consider these factors carefully in evaluating the forward-looking statements contained in this prospectus and any prospectus supplement. All subsequent written or oral forward-looking statements attributable to our company or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. The forward-looking statements included in this prospectus are made only as of the date of this prospectus. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent that we are required to do so by law.

S-7

USE OF PROCEEDS

The amount of proceeds from this offering will depend upon the number of shares of our common stock sold and the market price at which they are sold. There can be no assurance that we will be able to sell any shares under or fully utilize the sales agreement with B. Riley FBR.

We intend to use the net proceeds from this offering, if any, for general corporate purposes, including, without limitation, sales and marketing activities, clinical studies and product development, making acquisitions of assets, businesses, companies or securities, capital expenditures, and for working capital needs. We may temporarily invest the net proceeds in short-term, interest-bearing instruments or other investment-grade securities. We have not determined the amount of net proceeds to be used specifically for such purposes. As a result, management will retain broad discretion over the allocation of net proceeds.

S-8

DILUTION

If you invest in our common stock, your ownership interest will be diluted to the extent of the difference between the public offering price per share and the as-adjusted net tangible book value per share after this offering. Our net tangible book value of our common stock on August 31, 2017 was approximately \$4,129,804, or approximately \$0.49 per share of common stock based on 8,512,173 shares outstanding. We calculate net tangible book value per share by dividing the net tangible book value, which is tangible assets less total liabilities, by the number of outstanding shares of our common stock.

After giving effect to the sale of our common stock pursuant to this prospectus in the aggregate amount of \$7 million at an assumed offering price of \$3.44 per share, the last reported sale price of our common stock on the NASDAQ on November 30, 2017, and after deducting commissions and estimated aggregate offering expenses payable by us, our net tangible book value as of August 31, 2017 would have been \$10,854,804, or \$1.03 per share of common stock. This represents an immediate increase in the net tangible book value of \$0.54 per share to our existing stockholders and an immediate dilution in net tangible book value of \$2.41 per share to new investors. The following table illustrates this per share dilution:

Assumed offering price per share		\$	3.44
Net tangible book value per share as of August 31, 2017	\$	0.49	
Increase in net tangible book value per share after this offering	\$	0.54	
As-adjusted net tangible book value per share after this offering		\$	1.03
Dilution per share to new investors in this offering		\$	2.41

The above discussion and table are based on approximately 8,512,173 shares of our common stock outstanding as of August 31, 2017 and excludes the following:

945,000 shares of our common stock issuable upon the exercise of options outstanding as of August 31, 2017, having a weighted average exercise price of \$1.06 per share;

8,250 shares of our common stock reserved for future issuance as of August 31, 2017 under our 2010 Stock Incentive Plan;

86,250 shares of our common stock reserved for future issuance as of August 31, 2017 under our 2014 Stock Incentive Plan; and

900,000 shares of our common stock reserved for future issuance under our 2017 Stock Incentive Plan, adopted September 20, 2017, subject to stockholder approval.

DIVIDEND POLICY

We currently intend to retain all of our future earnings, if any, to finance the operation and expansion of our business. Any future determination relating to our dividend policy will be made at the discretion of our board of directors and will depend on a number of factors, including future earnings, capital requirements, future prospects, contractual restrictions and covenants and other factors that our board of directors may deem relevant.

S-10

DESCRIPTION OF CAPITAL STOCK

The following is a summary of all material characteristics of our capital stock as set forth in our First Amended and Restated Certificate of Incorporation and Bylaws. The summary does not purport to be complete and is qualified in its entirety by reference to our First Amended and Restated Certificate of Incorporation and Bylaws, copies of which have been filed as exhibits to the registration statement of which this prospectus is a part.

Common Stock

We may issue shares of our common stock from time to time. We are authorized to issue 25,000,000 shares of common stock, par value \$0.08 per share. As of November 30, 2017, there were 8,529,548 shares of common stock issued and outstanding. The holders of common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. The holders of common stock are not entitled to cumulative voting rights with respect to the election of directors, and as a consequence, minority stockholders will not be able to elect directors on the basis of their votes alone. Subject to preferences that may be applicable to any shares of preferred stock issued in the future, holders of common stock are entitled to receive dividends on a pro rata basis as may be declared by our board out of funds legally available therefor. In the event of a liquidation, dissolution or winding up of our Company, holders of our common stock are entitled to share ratably in all assets remaining after payment of liabilities and the liquidation preference of any then outstanding preferred stock. Holders of common stock have no preemptive rights and no right to convert their common stock into any other securities. There are no redemption or sinking fund provisions applicable to our common stock. All outstanding shares of our common stock are, and all shares of our common stock to be outstanding upon completion of this offering will be, fully paid and nonassessable.

Anti-Takeover Effects of Provisions of Our First Amended and Restated Certificate of Incorporation, Bylaws and Delaware Law

We are subject to the provisions of Section 203 of the Delaware General Corporation Law. Section 203 prohibits a publicly-held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the person became an interested stockholder, unless the business combination is approved in a prescribed manner. A business combination includes mergers, asset sales and other transactions resulting in a financial benefit to the interested stockholder. Subject to certain exceptions, an interested stockholder is a person who, together with affiliates and associates, owns, or within the prior three years did own, 15% or more of the corporation's voting stock.

Our First Amended and Restated Certificate of Incorporation and Bylaws, among other things, prohibit cumulative voting in the election of directors. The First Amended and Restated Certificate of Incorporation authorizes the board of directors to issue up to 5,000,000 shares of preferred stock and to determine the rights, preferences and privileges of these shares of preferred stock without any further vote or action by the stockholders, and specifies that the authorized number of directors may be changed only by a resolution of the board of directors. Special meetings of the stockholders may be called only by the board of directors, the chairman of the board of directors or the President or Secretary. The provisions described above could have the effect of making it more difficult for a third-party to acquire a majority of our outstanding voting stock, or delay, prevent or deter a merger, acquisition or tender offer in which our stockholders could receive a premium for their shares, a proxy contest or other change in our management.

NASDAQ Capital Market Listing

Our common stock is listed on the NASDAQ Capital Market and traded under the symbol **BMRA**. On November 30, 2017, the last reported sale price for our common stock on the NASDAQ Capital Market was \$3.44 per share.

Transfer Agent and Registrar

The transfer agent and registrar for the common stock is Interwest Transfer Co. The transfer agent and registrar's address is 1981 East 4800 So, Suite 100, Salt Lake City, Utah 84117.

We have entered into a sales agreement with B. Riley FBR on December 1, 2017 which we filed as an exhibit to our Current Report on Form 8-K on December 1, 2017 and incorporate by reference in this prospectus supplement and the accompanying prospectus. Under the terms of the sales agreement, we may offer and sell up to \$7,000,000 of shares of our common stock from time to time through the sales agent. Sales of shares of our common stock, if any, under this prospectus may be made in negotiated transactions or transactions that are deemed to be at the market offerings as defined in Rule 415 under the Securities Act.

We will pay the sales agent commissions for its services in acting as agent in the sale of our common stock at a commission rate equal to 3.0% of the gross sale price per share sold. The sales agent may effect sales to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the sales agent and/or purchasers of shares of common stock for whom it may act as agent or to whom it may sell as principal. We estimate that the total expenses for the offering, excluding compensation and reimbursements payable to the sales agent under the sales agreement, will be approximately \$40,000. We have also agreed to reimburse the sales agent for its reasonable out-of-pocket expenses, including attorney's fees, in an amount not to exceed \$25,000.

Settlement for sales of common stock will occur on the second business day following the date on which any sales are made, or on some other date that is agreed upon by us and the sales agent in connection with a particular transaction, in return for payment of the net proceeds to us. There is no arrangement for funds to be received in an escrow, trust or similar arrangement.

In connection with the sale of the common stock on our behalf, B. Riley FBR will be deemed to be an underwriter within the meaning of the Securities Act, and its compensation as sales agent will be deemed to be underwriting commissions or discounts. We have agreed to provide indemnification and contribution to B. Riley FBR against certain civil liabilities, including liabilities under the Securities Act.

The offering pursuant to the sales agreement will terminate upon the earlier of (1) the issuance and sale of all shares of our common stock subject to the sales agreement; and (2) the termination of the sales agreement as permitted therein.

The prospectus in electronic format may be made available on websites maintained by the sales agent.

The sales agent and its affiliates have in the past and may in the future provide various investment banking and other financial services for us and our affiliates, for which services it may in the future receive customary fees. To the extent required by Regulation M, the sales agent will not engage in any market making activities involving our common stock while the offering is ongoing under this prospectus supplement. ABOUT THE COMPANY

*The following is a summary of what we believe to be the most important aspects of our business. Please read the additional information in the sections entitled **Incorporation of Certain Documents by Reference** and **Where You Can Find More Information**.*

Our Company

We are a medical device company that develops, manufactures, and markets medical diagnostic products designed for the early detection and monitoring of chronic diseases and medical conditions. Our medical diagnostic products are sold worldwide in two primary markets: 1) clinical laboratories and 2) point of care (physicians' offices and over-the-counter drugstores). Our diagnostic test kits are used to analyze blood, urine, or fecal specimens from patients in the diagnosis of various diseases and other medical complications, or to measure the level of specific hormones, antibodies, antigens or other substances, which may exist in the human body in extremely small concentrations. Our focus is on products for gastrointestinal, food intolerances, diabetes and esoteric tests. These diagnostic test products utilize immunoassay technology.

Corporate Information

We were originally incorporated in Delaware in September 1971 as Nuclear Medical Systems, Inc. We also have two wholly owned subsidiaries, Biomerica de Mexico, established for future use as a maquiladora, and BioEurope GmbH, which acts as a distributor of Biomerica products in certain markets. Our principal executive offices are located at 17571 Von Karman Avenue, Irvine, California 92614, and our telephone number is (949) 645-2111. Our corporate website address is www.biomerica.com. Information contained on or accessible through our website is not a part of this prospectus, and the inclusion of our website address in this prospectus is an inactive textual reference only.

Implications of Being a Smaller Reporting Company

We are a smaller reporting company as defined in the Securities Exchange Act of 1934, or the Exchange Act, and have elected to take advantage of certain of the scaled disclosures available to smaller reporting companies.

3

RISK FACTORS

Investing in our securities involves a high degree of risk. Before making an investment decision, you should carefully consider the risks described in (i) the sections entitled "Risk Factors" in our most recent Annual Report on Form 10-K and subsequent quarterly, annual and other reports, each as filed with the SEC, which are incorporated by reference in this prospectus in their entirety and (ii) any amendment or updates to our risk factors reflected in subsequent filings with the SEC, including in any applicable prospectus supplement or related free writing prospectus. For more information, see the sections entitled "Incorporation of Certain Documents by Reference" and "Where You Can Find More Information." Our business, financial condition or results of operations could be materially adversely affected by any of these risks. In addition, the trading price of our securities could decline due to any of these risks, and you may lose all or part of your investment. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business, financial condition or results of operations.

This prospectus and the documents we incorporate by reference in this prospectus contain forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks described in this prospectus and in the documents incorporated by reference in this prospectus. For more information, see "Special Note Regarding Forward-Looking Information."

4

USE OF PROCEEDS

We will retain broad discretion over the use of the net proceeds from the sale of our common stock offered hereby. Except as described in any prospectus supplement or any related free writing prospectus that we may authorize to be provided to you, we currently intend to use the net proceeds from the sale of our common stock offered hereby for working capital and general corporate purposes, which may include capital expenditures, debt repayment, research and development, sales and marketing and general and administrative expenses. We may also use a portion of the net proceeds to acquire or invest in businesses, products and technologies that are complementary to our own, although we have no current plans, commitments or agreements with respect to any such acquisitions or investments as of the date of this prospectus. We will set forth in the applicable prospectus supplement or free writing prospectus our intended use for the net proceeds received from the sale of any common stock sold pursuant to the prospectus supplement or free writing prospectus. Our management will have broad discretion in the allocation of the net proceeds from this offering.

Pending the application of the net proceeds, we may invest the net proceeds in short-term, investment grade, interest-bearing securities, certificates of deposit or direct or guaranteed obligations of the U.S. government.

DESCRIPTION OF CAPITAL STOCK

The following is a summary of all material characteristics of our capital stock as set forth in our First Amended and Restated Certificate of Incorporation and Bylaws. The summary does not purport to be complete and is qualified in its entirety by reference to our First Amended and Restated Certificate of Incorporation and Bylaws, copies of which have been filed as exhibits to the registration statement of which this prospectus is a part.

Common Stock

We may issue shares of our common stock from time to time. We are authorized to issue 25,000,000 shares of common stock, par value \$0.08 per share. As of June 29, 2017, there were 8,511,173 shares of common stock issued and outstanding. The holders of common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. The holders of common stock are not entitled to cumulative voting rights with respect to the election of directors, and as a consequence, minority stockholders will not be able to elect directors on the basis of their votes alone. Subject to preferences that may be applicable to any shares of preferred stock issued in the future, holders of common stock are entitled to receive dividends on a pro rata basis as may be declared by our board out of funds legally available therefor. In the event of a liquidation, dissolution or winding up of our Company, holders of our common stock are entitled to share ratably in all assets remaining after payment of liabilities and the liquidation preference of any then outstanding preferred stock. Holders of common stock have no preemptive rights and no right to convert their common stock into any other securities. There are no redemption or sinking fund

provisions applicable to the common stock. All outstanding shares of common stock are, and all shares of common stock to be outstanding upon completion of this offering will be, fully paid and nonassessable.

Anti-Takeover Effects of Provisions of Our First Amended and Restated Certificate of Incorporation, Bylaws and Delaware Law

We are subject to the provisions of Section 203 of the Delaware General Corporation Law. Section 203 prohibits a publicly-held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the person became an interested stockholder, unless the business combination is approved in a prescribed manner. A business combination includes mergers, asset sales and other transactions resulting in a financial benefit to the interested stockholder. Subject to certain exceptions, an interested stockholder is a person who, together with affiliates and associates, owns, or within the prior three years did own, 15% or more of the corporation's voting stock.

Our First Amended and Restated Certificate of Incorporation and Bylaws, among other things, prohibit cumulative voting in the election of directors. The First Amended and Restated Certificate of Incorporation authorizes the board of directors to issue up to 5,000,000 shares of preferred stock and to determine the rights, preferences and privileges of these shares of preferred stock without any further vote or action by the stockholders, and specifies that the authorized number of directors may be changed only by a resolution of the board of directors. Special meetings of the stockholders may be called only by the board of directors, the chairman of the board of directors or the President or Secretary. The provisions described above could have the effect of making it more difficult for a third-party to acquire a majority of our outstanding voting stock, or delay, prevent or deter a merger, acquisition or tender offer in which our stockholders could receive a premium for their shares, a proxy contest or other change in our management.

NASDAQ Capital Market Listing

Our common stock is listed on the NASDAQ Capital Market and traded under the symbol **BMRA**. On June 29, 2017, the last reported sale price for our common stock on the NASDAQ Capital Market was \$2.66 per share.

Transfer Agent and Registrar

The transfer agent and registrar for the common stock is Interwest Transfer Co. The transfer agent and registrar's address is 1981 East 4800 So, Suite 100, Salt Lake City, Utah 84117.

PLAN OF DISTRIBUTION

We may sell shares of our common stock from time to time pursuant to underwritten public offerings, negotiated transactions, block trades or a combination of these methods. We may sell shares of our common stock to or through underwriters or dealers, through agents, or directly to one or more purchasers. We may distribute shares of our common stock from time to time in one or more transactions:

- at a fixed price or prices, which may be changed;

- at market prices prevailing at the time of sale;
- at prices related to such prevailing market prices; or
- at negotiated prices.

We may also sell shares of our common stock covered by this registration statement in an at the market offering as defined in Rule 415 under the Securities Act. Such offering may be made into an existing trading market for such securities in transactions at other than a fixed price, either:

- on or through the facilities of the NASDAQ Capital Market or any other stock exchange or quotation or trading service on which our common stock may be listed, quoted or traded at the time of sale; and/or
- to or through a market maker other than on the NASDAQ Capital Market or such other stock exchanges or quotation or trading services.

Such at-the-market offerings, if any, may be conducted by underwriters acting as principal or agent.

A prospectus supplement or supplements (and any related free writing prospectus that we may authorize to be provided to you) will describe the terms of the offering of our common stock, including, to the extent applicable:

- the name or names of any underwriters, dealers or agents, if any;
- the purchase price of the common stock and the proceeds we will receive from the sale;
- any over-allotment options under which underwriters may purchase additional common stock from us;
- any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation;
- any public offering price;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchange or market on which our common stock may be listed.

Only underwriters named in the prospectus supplement are underwriters of the common stock offered by the prospectus supplement.

If underwriters are used in the sale, they will acquire the common stock for their own account and may resell the common stock from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the common stock will be subject to the conditions set forth in the applicable underwriting agreement. We may offer our common stock to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Subject to certain conditions unless otherwise specified in the prospectus supplement, the underwriters will be obligated to purchase all of the common stock offered by the prospectus supplement. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may change from time to time. We may use underwriters with whom we have a material relationship. We will describe in the prospectus supplement, naming the underwriter, the nature of any such relationship.

We may sell our common stock directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of our common stock, and we will describe any commissions we will pay the agent in

the prospectus supplement. Unless the prospectus supplement states otherwise, our agent will act on a best-efforts basis for the period of its appointment.

We may authorize agents or underwriters to solicit offers by certain types of institutional investors to purchase common stock from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

We may provide agents and underwriters with indemnification against civil liabilities related to any offering pursuant to this prospectus, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

Any underwriter may engage in overallotment, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Overallotment involves sales in excess of the offering size, which create a short position. This short sales position may involve either covered short sales or naked short sales. Covered short sales are short sales made in an amount not greater than the underwriters' over-allotment option to purchase additional shares in the offering. The underwriters may close out any covered short position either by exercising their over-allotment option or by purchasing shares of our common stock in the open market. To determine how they will close the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market, as compared to the price at which they may purchase shares through the over-allotment option. Naked short sales are short sales in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that, in the open market after pricing, there may be downward pressure on the price of the shares that could adversely affect investors who purchase shares in the offering. Stabilizing transactions permit bids to purchase the underlying security for the purpose of fixing the price of the security so long as the stabilizing bids do not exceed a specified maximum. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions.

Any underwriters who are qualified market makers on the NASDAQ Capital Market, or any other stock exchange or which our common stock may be listed at the time of sale, may engage in passive market making transactions in our common stock on the NASDAQ Capital Market or such other stock exchange in accordance with Rule 103 of Regulation M, during the business day prior to the pricing of the offering, before the commencement of offers or sales of the shares of our common stock. Passive market makers must comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for our common stock; if all independent bids are lowered below the passive market maker's bid, however, the passive market maker's bid must then be lowered when certain purchase limits are exceeded.

Similar to other purchase transactions, an underwriter's purchase to cover the syndicate short sales or to stabilize the market price of our common stock may have the effect of raising or maintaining the market price of our common stock or preventing or mitigating a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. The imposition of a penalty bid might also have an effect on the price of the common stock if it discourages resales of the shares.

Neither we nor the underwriters makes any representation or prediction as to the effect that the transactions described above may have on the price of the common stock offered by this prospectus. If such transactions are commenced, they may be discontinued without notice at any time.
