PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the “Board”) of CNO Financial Group, Inc. (“CNO” or the “Company”) for the Annual Meeting of Shareholders (the “Annual Meeting”) to be held at the CNO Conference Center, 11825 North Pennsylvania Street, Carmel, Indiana on May 7, 2014, at 8:00 a.m., Eastern Daylight Time. We are sending the Notice or the Proxy Materials and proxy to shareholders on or about March 27, 2014.

Solicitation of Proxies

The proxies are solicited by the Board of Directors. Proxies may be solicited by mail, telephone, internet or in person. Proxies may be solicited by the CNO directors and officers. All expenses relating to the preparation and distribution to shareholders of the Notice, the Proxy Materials and the form of proxy are to be paid by CNO.

If the form of proxy is properly executed and delivered in time for the Annual Meeting, the named proxy holders will vote the shares represented by the proxy in accordance with the instructions marked on the proxy. Each shareholder may appoint a person (who need not be a shareholder), other than the persons named in the proxy, to represent him or her at the Annual Meeting by properly completing a proxy. In either case, such completed proxy should be returned in the envelope provided to you for that purpose (if you have requested or received a paper copy of the Proxy Materials) for delivery no later than May 6, 2014. Proxies received that are unmarked will be voted for each of the Board’s nominees for director (Proposal 1), for the reapproval of the material terms of the performance goals under the Company’s Amended and Restated Long-Term Incentive Plan (the “LTIP Performance Goals”) (Proposal 2), for ratification of the appointment of the Company’s independent registered public accounting firm (Proposal 3), and for approval of the compensation paid to our Named Executive Officers (Proposal 4). A shareholder may revoke a proxy at any time before it is exercised by mailing or delivering to CNO a written notice of revocation or a later-dated proxy, or by attending the Annual Meeting and voting in person.

Record Date and Voting

Only holders of record of shares of CNO’s common stock as of the close of business on March 14, 2014, will be entitled to vote at the Annual Meeting. On such record date, CNO had 221,076,237 shares of common stock outstanding and entitled to vote at the Annual Meeting. Each share of common stock will be entitled to one vote with respect to each matter submitted to a vote at the Annual Meeting. The presence in person or by proxy of the holders of a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting is necessary to constitute a quorum.

On or about March 27, 2014, we either mailed you a Notice notifying you how to vote online and how to electronically access a copy of the Proxy Materials or mailed you a complete set of the Proxy Materials. If you have not received but would like to receive printed copies of these documents, including a proxy card in paper format, you should follow the instructions for requesting such materials contained in the Notice.

TABLE OF CONTENTS

The following sets forth how a shareholder can vote over the Internet, by telephone or by mail:

Voting By Internet

If you hold your shares in street name (that is, if you hold your shares through a broker, bank or other holder of record), you can vote at www.proxyvote.com, 24 hours a day, seven days a week. You will need the 12-digit Control Number included on your Notice or your paper voting instruction form (if you received a paper copy of the Proxy Materials).

Voting By Telephone

If you hold your shares in street name, you can vote using a touch-tone telephone by calling the toll-free number included on your paper voting instruction form (if you received a paper copy of the Proxy Materials), 24 hours a day, seven days a week. You will need the 12-digit Control Number included on your paper voting instruction form.

If you hold your shares in street name, you may also submit voting instructions to your bank, broker or other holder of record. In most instances, you will be able to do this over the Internet, by telephone, or by mail. Please refer to the information from your bank, broker or other holder of record on how to submit voting instructions.

The Internet and telephone voting procedures, which comply with Delaware law and the SEC rules, are designed to authenticate shareholders' identities, to allow shareholders to vote their shares and to confirm that their instructions have been properly recorded.

Voting By Mail

If you have received a paper copy of the Proxy Materials by mail, you may complete, sign, date and return by mail the paper proxy card or voting instruction form sent to you in the envelope provided to you with your Proxy Materials or voting instruction form.

Deadline for Submitting Votes by Internet, Telephone or Mail

If you hold your shares through a bank or brokerage account, proxies submitted over the Internet or by telephone as described above must be received by 11:59 p.m., Eastern Daylight Time, on May 6, 2014.

Proxies submitted by mail should be returned in the envelope provided to you with your paper proxy card or voting instruction form, and must be received no later than May 6, 2014.

If you want to vote in person at the Annual Meeting and you hold your shares in street name, you must obtain a legal proxy from your bank, broker or other holder of record authorizing you to vote. You must then bring the legal proxy to the Annual Meeting.

Please note that you may receive multiple copies of the Notice or Proxy Materials (electronically and/or by mail).

These materials may not be duplicates as you may receive separate copies of the Notice or Proxy Materials for each type of account in which you hold shares. Please be sure to vote all of your shares in each of your accounts in accordance with the directions on the proxy card(s) and/or voting instruction form(s) that you receive. In the case of duplicate votes for shares in a particular account, your last vote is the one that counts.

Votes Required

The election of each director (Proposal 1) will be determined by the vote of the majority of the votes cast (where the number of votes cast "for" a director exceeds the number of votes cast "against" that director) by the holders of shares represented (in person or by proxy) and entitled to vote on the subject matter provided a quorum is present. The vote required to reapprove the LTIP Performance Goals (Proposal 2), to approve the ratification of the appointment of the Company's independent registered public accounting firm (Proposal 3) and for the advisory vote to approve executive compensation (Proposal 4), and any other proposal properly brought before the Annual Meeting, is the affirmative vote of a

TABLE OF CONTENTS

majority of the shares represented (in person or by proxy) and entitled to vote on the applicable subject matter. Abstentions from voting will have no impact on the election of directors (Proposal 1) and will have the same legal effect as voting against each other proposal.

Abstentions and shares represented by “broker non-votes”, as described below, are counted as present and entitled to vote for the purpose of determining a quorum. A broker non-vote occurs if you hold your shares in street name and do not provide voting instructions to your broker on a proposal and your broker does not have discretionary authority to vote on such proposal. Under current New York Stock Exchange rules, your broker will not have discretionary authority to vote your shares at the Annual Meeting with respect to Proposal 1 (election of nine directors as listed in this Proxy Statement), Proposal 2 (reapproval of the LTIP Performance Goals) and Proposal 4 (advisory vote to approve executive compensation). “Broker non-votes” will have no effect on the outcome of Proposals 1, 2, 3 and 4. Your broker will have discretion to vote your uninstructed shares on Proposal 3 (ratification of the appointment of PricewaterhouseCoopers LLP as the Company’s independent registered public accounting firm for 2014).

PROPOSAL 1

ELECTION OF DIRECTORS

Nine individuals will be elected to the Board at the Annual Meeting each for a one-year term expiring at the 2015 annual meeting of shareholders. Each nominee listed below is currently a member of the Board. All directors will serve until their successors are duly elected and qualified.

Director Qualifications and Experience

In considering candidates for the Board, the Governance and Nominating Committee reviews the experience, skills, attributes and qualifications of the current Board members and other potential candidates to ensure that the Board has the skills and experience to properly oversee the interests of the Company. In doing so, the Governance and Nominating Committee considers the experience, skills, attributes and qualifications of candidates in these areas:

- - Insurance and financial services industry;
- - Accounting or other financial management;
- - Investments;
- - Legal and regulatory;
- - Actuarial;
- - Management including service as a chief executive officer or manager of business units or functions;
- - Marketing;
- - Talent management; and
- - Experience as a director of other companies.

The key experiences, skills, qualifications and skills of each of the nominees are included in their individual biographies below.

Consideration is also given to each nominee's independence, financial literacy, personal and professional accomplishments and experience in light of the needs of the Company. For incumbent directors, past performance on

the Board and contributions to their respective committees are also considered. The Governance and Nominating Committee and the Board seek directors with qualities that will contribute to the goal of having a well-rounded, diverse Board that functions well as a unit and is able to satisfy its oversight responsibilities effectively. The Governance and Nominating Committee expects each of the directors to have proven leadership, sound judgment, high ethical standards and a commitment to the success of the Company.

The Governance and Nominating Committee does not have a specific diversity policy with respect to Board candidates, but it strongly believes that the Board should have a variety of differences in viewpoints, professional experiences, educational background, skills, race, gender and age, and considers issues of diversity and background in its process of selecting candidates for the Board.

Board Nominees

Should any of the nominees become unable to accept election, the persons named in the proxy will have the right to exercise their voting power in favor of such person or persons as the Board may recommend. All of the nominees have consented to being named in this Proxy Statement and to serve if elected. The Board knows of no reason why any of its nominees would be unable to accept election.

The Governance and Nominating Committee will consider candidates for director nominees put forward by shareholders. See “Shareholder Proposals for 2015 Annual Meeting” for a description of the advance notice procedures for shareholder nominations for directors.

Board Leadership Structure

CNO has a non-executive, independent director, who serves as chairman of the Board. Mr. Schneider was elected Chairman in 2011 and continues to serve in that capacity. The Board believes that its leadership structure, with a non-executive chairman position separate from the chief executive officer, provides appropriate, independent oversight of management and the Company. The non-executive chairman of the Board (1) presides at all meetings of the Board and shareholders; (2) presides during regularly held sessions with only the independent directors; (3) encourages and facilitates active participation of all directors; (4) develops the calendar of and agendas for Board meetings in consultation with the chief executive officer and other members of the Board; (5) determines, in consultation with the chief executive officer, the information that should be provided to the Board in advance of the meeting; and (6) performs any other duties requested by the other members of the Board.

As discussed below, all members of our Board are independent other than Mr. Bonach, our chief executive officer. As CEO, Mr. Bonach, subject to the direction of the Board, is in charge of the business and affairs of CNO and is our chief policy making officer. Our Board and its committees play an active role in overseeing the Company’s business. The directors bring a broad range of leadership, business and professional experience to the Board and actively participate in Board discussions. The Board believes that having a non-executive chairman and a Board comprised almost entirely of independent, non-employee directors best serves the interests of our shareholders and the Company.

Board Meetings and Attendance

During 2013, the Board met on 12 occasions. Each director attended at least 75% of the aggregate of the meetings of the Board and Board committees on which he or she served. The independent directors regularly meet in executive session without the chief executive officer or any other member of management. The non-executive chairman presides at such executive sessions.

In addition, CNO has a policy that all directors attend the annual meeting of shareholders. All of our directors attended the annual meeting of shareholders held in 2013.

Director Independence

The Board annually determines the independence of directors based on a review by the directors. Although the Board has not adopted categorical standards of materiality for independence purposes, no director is considered independent unless the Board has determined that he or she has no material relationship with CNO, either directly or as an officer, shareholder or partner of an organization that has a material relationship with CNO. Material relationships can include commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships, among others. The Board considers the Company’s Corporate Governance Guidelines, the applicable rules and regulations of the Securities and Exchange Commission and the listing standards of the New York Stock Exchange in making its determination regarding independence and the materiality of any relationships with CNO. The Board has determined that all current directors other than Mr. Bonach are independent.

Board's Role in Risk Oversight

Enterprise risk management is integral to our business. The Board is responsible for overseeing the Company's risk profile and management's processes for managing risk. The oversight of certain risks, including those relating to the Company's capital structure and capital management is done by the full Board. The Board has delegated primary responsibility for many aspects of the Board's risk oversight to the Audit and Enterprise Risk Committee. The Audit and Enterprise Risk Committee receives reports at its meetings and oversees management's processes for managing enterprise risk, including the risk management process associated with financial controls, insurance reserves, legal, regulatory and compliance risks, and the overall risk management structure, process and function. Other Board committees oversee risk management related to specific functions. The Investment Committee oversees investment and asset-liability management risk. The Human Resources and Compensation Committee oversees risks associated with our compensation programs so that incentives are not provided for inappropriate risk taking, as further discussed below.

Our leadership strongly supports an active and engaged risk management process. CNO has established an enterprise risk management committee comprised of senior management from business units and functions throughout the Company. This enterprise risk management committee meets at least once each quarter and is co-chaired by the chief executive officer and the chief financial officer. CNO also has an investment and asset-liability management committee comprised of senior management from various functions and the presidents of each business segment. This committee meets at least once each quarter and is chaired by the chief investment officer. The Company has a senior vice president who is responsible for the coordination of enterprise risk management activities. Reports on different aspects of the Company's enterprise risk management are provided to the Board, to the Audit and Enterprise Risk Committee, to the Investment Committee and to other Board committees, as appropriate, on a regular basis.

As part of its risk oversight responsibilities, the Board and its committees review policies and processes that senior management uses to manage the Company's risk exposure. In doing so, the Board and its committees review the Company's overall risk function and senior management's establishment of appropriate systems and processes for managing insurance risk, interest rate and asset-liability management risk, credit and counterparty risk, liquidity risk, operational risk and reputational risk.

Relationship of Compensation Policies and Practices to Risk Management

The Human Resources and Compensation Committee has reviewed our compensation programs and believes that they carefully balance risks and rewards and do not incentivize inappropriate risk taking. Our incentive plans include multiple performance measures, most of which are financial in nature, and are designed to hold employees accountable for sustained improvement in the core operating performance of the Company. We structure our pay to include both fixed and variable compensation and our variable compensation is capped at no more than two times the target opportunities. In addition, our officers' compensation aligns them with shareholder interests through equity-based awards with multiple year vesting.

Approval of Related Party Transactions

Under the Company's written policy, transactions and agreements with related persons (directors, director nominees and executive officers or members of their immediate families, or shareholders owning five percent or more of the Company's outstanding stock) that meet the minimum threshold for disclosure in the proxy statement under applicable SEC rules (generally transactions involving amounts exceeding \$120,000 in which a related person has a direct or indirect material interest) must be approved by the Board or a committee comprised solely of independent directors. In considering the transaction or agreement, the Board or committee will consider all relevant factors including the business reason for the transaction, available alternatives on comparable terms, actual or apparent conflicts of interest and the overall fairness of the transaction to the Company. Any proposed transactions that might be considered a related person transaction are to be raised with the chairman of the Board or the chairman of the Governance and Nominating Committee. They will jointly determine whether the proposed transaction should be considered by the full Board (recusing any directors with conflicts) or by a Board committee of independent directors. Related person transactions are to be approved in advance whenever practicable, but if not approved in advance are to be ratified (if the Board or committee considers it appropriate to do so) as soon as practicable after the transaction.

TABLE OF CONTENTS

Various Company policies and procedures, including the Code of Business Conduct and Ethics and annual questionnaires completed by all company directors, officers and employees, require disclosure of transactions or relationships that may constitute conflicts of interest or otherwise require disclosure under applicable SEC rules. Any related person transactions that are identified under these additional policies and procedures are to be considered under the process described above.

Code of Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all officers, directors and employees regarding their obligations in the conduct of the Company's affairs. A copy of the Code of Business Conduct and Ethics is available under Corporate Governance in the Investor Relations section of our website at www.CNOinc.com. Within the time period specified, and to the extent required, by the SEC and the New York Stock Exchange, we will post on our website any amendment to our Code of Business Conduct and Ethics and any waiver applicable to our principal executive officer, principal financial officer or principal accounting officer (there have been no such waivers).

Corporate Governance Guidelines

CNO is committed to best practices in corporate governance. Upon the recommendation of the Governance and Nominating Committee, the Company adopted a set of Board Governance Operating Guidelines. A copy of the CNO Board Governance Operating Guidelines is available under Corporate Governance in the Investor Relations section of our website at www.CNOinc.com.

Director Stock Ownership Guidelines

The Board has adopted guidelines regarding ownership of CNO common stock by the directors. The amounts set forth in these guidelines were increased in 2013 and the guidelines now provide for each director to own shares of common stock with a value of at least five times his or her annual base cash compensation. Directors are given five years from the date of their initial election to reach that level of ownership. Based on the current base cash compensation for directors of \$80,000 per year, the ownership guidelines call for each director to own shares with a value of at least \$400,000. As of March 14, 2014, all directors who have served on the Board for at least five years met these stock ownership guidelines, and each of the other directors met, or was on track to meet, these increased guidelines.

Succession Planning

The Board is actively involved with the Company's talent management process. Annually, the Board reviews the Company's leadership team, which includes a detailed discussion of succession plans for the chief executive officer and other members of executive and senior management. In addition, the Board regularly discusses the Company's plans for talent development, with a focus on high potential individuals who are in the position to make the most significant contributions to the Company and to serve as its future leaders.

The Corporate Secretary will forward any communications to the director or directors specified by the shareholder or other interested party.

- Percent of Variable and Performance-Based Pay: Variable pay comprises between 71% and 81% of Total Direct Compensation (as described below) for our Named Executive Officers, with the majority of variable pay composed of long-term incentives.
-
- Continued to utilize a “Governor” in the Annual Incentive Plan: In 2013, we continued a policy adopted in 2009 which limits P4P payments on non-income-related metrics when we do not achieve overall threshold in Combined In-force EBIT.
-
- Strong Clawback Rights: Our P4P and Long-term Incentive (LTI) plans have clawback provisions that include recapture rights of any incentive amount paid or vested in the event that the Committee determines that the achievement of performance goals was based on incorrect data, errors, omissions or fraud.
-
- Assessing level of risk: The Committee annually assesses the level of risk associated with our incentive plans.
-
- Ongoing succession planning: The Committee regularly engages throughout the year in in-depth discussions regarding succession planning and talent development of our executives.

Philosophy, Objectives and Role of Human Resources and Compensation Committee

Philosophy

The Committee, which is comprised solely of independent, non-employee Directors, has developed a philosophy and a comprehensive compensation strategy to reward overall and individual performance that drives long-term success for our shareholders.

Our compensation philosophy consists of the following guiding principles:

- - Pay for Performance: Rewards will vary based on company, business segment and individual performance.
- - Target Total Rewards Position: The overall rewards will be competitive by targeting compensation at approximately the median of the relevant comparator group with additional compensation for achieving superior performance.
- - Relevant Comparator Group: We will utilize a relevant comparator group of companies in the insurance/financial services industry and general industry where appropriate, taking both asset size and revenue into consideration, which includes the best available data for comparison with our peers and companies with which we compete for executive talent.

TABLE OF CONTENTS

Pay for Performance Objectives

The Committee strives to provide a clear reward program that allows us to attract, incentivize and retain seasoned executive talent with the significant industry experience required to continue to improve our performance and build long-term shareholder value. To achieve this, our programs are designed to:

-
- Reward sustainable operational and productivity improvements. This means that (1) we set performance goals under our P4P plan at targeted performance levels for key financial metrics and (2) we set multi-year performance goals for our P-Share (performance share) awards;
-
- Align the interests of our executives with those of our shareholders by rewarding shareholder value creation;
-
- Integrate with the Company-wide annual performance management program of individual goal setting and formal evaluation;
-
- Provide for discretion to make adjustments and modifications based upon how well individual executives meet our performance standards for expected achievement of business results, as well as uphold our values and leadership behaviors; and
-
- Offer the opportunity to earn above-market compensation when overall and individual performances exceed expectations.

Target Total Rewards and Selection of the Comparator Groups

In setting target executive compensation opportunities, the Committee looks at Total Annual Cash (which is comprised of base salary and target cash incentives) and Total Direct Compensation (which is the sum of Total Annual Cash and long-term incentives). Our long-term incentives may include annual stock option awards as well as restricted shares and P-Share awards. The Committee intends to compensate our executives at approximately the 50th percentile (meaning within a range of +/- 15% of the 50th percentile dollar value) for total direct compensation, for the achievement of target performance, with additional compensation opportunities for the achievement of superior results.

The Committee assesses “competitive market” compensation annually using a number of sources. In determining the competitive compensation levels, at the recommendation of the independent compensation consultant, the Committee reviews targeted proxy data from a select group of peer companies identified below for the Named Executive Officers, and also compares our other executives to the Diversified Insurance Study published by Towers Watson. Both of these sources provide a much more focused analysis of very specific industry peers with whom the Company competes for talent. We will continue to use our peer companies for the Named Executive Officers as the relevant comparator group and all other executives will be compared to the Towers Watson Diversified Industry Study in 2013.

Peer Companies:

Aflac, Inc.
American Financial Group, Inc.
Assurant, Inc.

Principal Financial Group, Inc.
Protective Life Corporation
Reinsurance Group of America Incorporated

Cincinnati Financial Corporation
Genworth Financial, Inc.
Kemper Corporation
Lincoln National Corporation

StanCorp Financial Group, Inc.
Torchmark Corporation
Universal American Corp.
Unum Group

Although aggregate pay levels are generally consistent with our compensation philosophy, it is possible that pay levels for specific individuals may be above or below the targeted competitive benchmark levels based on a number of factors, including each individual's role and responsibilities within our Company, the individual's experience and expertise, the pay levels for peers within the Company, and the pay levels for similar job functions in the marketplace. The Committee is responsible for approving all compensation

19

TABLE OF CONTENTS

programs for our senior executive officers. In determining executive compensation, the Committee considers all forms of compensation and benefits, and uses appropriate tools — such as tally sheets and market studies — to review the value delivered to each executive through each component of compensation.

Tally sheets provide a vehicle for the Committee to examine external market practices and compare them to our internal evaluations and decisions. Our tally sheets capture and report:

-
- Competitive external market data on a base salary, Total Annual Cash and Total Direct Compensation basis;
-
- Individual Total Annual Cash compensation including annual salary, target bonus opportunity, and actual bonus paid;
-
- Long-term equity grants and their vesting status and value at a hypothetically established share price; and
-
- Employment agreement terms and conditions.

Competitive market data is used as a reference point, and we avoid automatic adjustments based on annual competitive benchmarking data, since we believe a given executive's compensation should also reflect Company-specific factors such as the relative importance of the role within the organization, the compensation for other positions at the same level, and individual factors such as experience, expertise, and individual performance. In addition to the objective review of external factors, the Committee also considers internal equity among colleagues when determining executive compensation levels. This means that, although the Committee examines competitive pay data for specific positions, market data is not the sole factor considered in setting pay levels. The Committee also considers factors such as our organizational structure and the relative roles and responsibilities of individuals within that structure. The Committee believes that this approach fosters an environment of cooperation among executives that improves sales growth, profitability and customer satisfaction.

Realized total compensation in any year may be significantly above or below the target compensation levels depending on whether our incentive goals were attained and whether shareholder value was created. In some cases, the amount and structure of compensation results from negotiations with executives at the time they were hired, which may reflect competitive pressures to attract and hire quality executive talent in the insurance industry. To help attract and retain such talent, the Committee also seeks to provide a level of benefits in line with those of comparable publicly traded companies without matching such benefits item by item.

Role of the Human Resources and Compensation Committee

The Committee determines the components and amount of compensation for our executive officers and provides overall guidance for our employee compensation policies and programs. In addition, the Committee actively monitors our executive development and succession planning activities related to our senior executives and other members of management. Currently, there are four members of our Board of Directors who sit on the Committee, each of whom is an independent director under the New York Stock Exchange listing requirements, the exchange upon which our stock trades. From time to time, other Board members may also participate in the Committee's meetings, though these ad hoc participants do not participate in making pay decisions. The full Board of Directors receives regular reports of Committee deliberations and decisions and, at least once annually, the full Board reviews the Committee's written evaluation of the Chief Executive Officer's performance and compensation. The Committee's functions are more fully described in its charter, which can be found on our website at www.CNOinc.com.

In making executive compensation decisions, the Committee receives advice from its independent compensation consultant, Aon Hewitt. The Committee evaluates Aon Hewitt's independence annually, and pursuant to the SEC's rules and the NYSE's rules, concluded that no conflict of interest existed in connection with the services Aon Hewitt performed for the Compensation Committee in 2013. As an independent consultant, any services performed by Aon Hewitt for our Company are at the Committee's direction. Aon Hewitt did not have a prior relationship with the Chief Executive Officer or any of our

20

TABLE OF CONTENTS

executive officers at the time the Committee initially engaged Aon Hewitt in October 2008. No member of the Aon Hewitt team that works with the Committee has a business or personal relationship with either any member of executive management or member of the Committee. Other than its services to the Committee, Aon Hewitt does not provide any other compensation-related services to our management.

Although Aon Hewitt is retained directly by the Committee, Aon Hewitt personnel interact with our executive officers as needed, specifically the Chief Executive Officer, Executive Vice President of Human Resources, General Counsel, and Chief Financial Officer, and their staffs to provide the Committee with relevant compensation and performance data for our executives and the Company. In addition, Aon Hewitt personnel may interact with management to confirm information, identify data questions, and/or exchange ideas.

As requested by the Committee, Aon Hewitt's services to the Committee in 2013 included:

-
- Providing competitive analysis of total compensation components for our senior executive officers, including our Named Executive Officers;
-
- Researching and presenting competitive and emerging compensation practices and regulatory issues;
-
- Attending Committee meetings, in person and telephonically;
-
- Reviewing and evaluating changes to the executive compensation philosophy and proposed plan changes; and
-
- Assisting with the assessment of the risk analysis of our compensation plans.

The Committee has the authority under its charter to retain outside consultants or other advisors. In making its decisions, the Committee collects and considers input from multiple sources. The Committee may ask senior executive officers to attend Committee meetings where executive compensation, overall and individual performance are discussed and evaluated. During these meetings, executives provide insight, suggestions or recommendations regarding executive compensation. Deliberations generally occur with input from Aon Hewitt, members of management and other Board members. However, only the members of the Committee make decisions regarding executive compensation. In the case of the Chief Executive Officer's compensation, these decisions are submitted to the full Board for its review and approval.

The Committee reviewed the results of the shareholder vote on the Say on Pay proposal from the 2013 Annual Meeting, at which approximately 99.3% of the votes cast were for approval of the Company's 2012 executive compensation as described in last year's proxy statement. After consideration of the positive voting results and its discussion with Aon Hewitt, the Committee determined that its approach to compensation is balanced and effective and made no fundamental changes to the program for fiscal year 2013.

Compensation Components

Our compensation program is composed of the following components:

-
- Base Salary

- - Annual cash incentives (P4P)
- - Long-term equity incentives (stock options and P-Shares)
- - Benefits

Table 1 summarizes information about the target level of 2013 Total Annual Cash (TAC) and Total Direct Compensation (TDC) for our Named Executive Officers. This table differs from the Summary Compensation Table on page 32 in that values generally represent target amounts and equity grants which are part of our normal long-term incentive program for 2013 only. Further discussion about these compensation components can be found later in this section. Each component is discussed with a brief description of the strategy, plan design and plan performance.

Compensation Mix

In delivering compensation to our Named Executive Officers, the mix of pay is heavily weighted to variable, performance-based pay (currently between 71% and 81% of Target TDC, with the majority of variable pay composed of long-term incentives) with base salary comprising a relatively small portion of Target TDC (between 19% and 29%) for all the Named Executive Officers. The focus of the pay mix on variable pay elements continues to support our objectives of pay for performance and shareholder value creation.

The pie charts below summarize the 2013 annual compensation pay mix at target for our Chief Executive Officer and other Named Executive Officers:

Base Salaries

Strategy

In establishing base salaries, the Committee begins by targeting the 50th percentile of the competitive market and adjusts upwards or downwards as appropriate to reflect each position's responsibilities and each individual's experience level, unique skills or competencies. Base salaries generally range from the 25th percentile (for recently promoted employees or those who otherwise have less experience in the current position) to the 75th percentile (for high performers with significant industry experience) of the competitive market data. Annual reviews of executives' base salaries consider numerous factors, including:

- - Job responsibilities;
- - Impact on the development and achievement of our strategic initiatives;
- - Competitive labor market pressures;
- - Company performance for the prior 12 months;
- - Individual performance for the prior 12 months, as expressed in the executive's performance review; and
- - Salaries paid for comparable positions within our relevant comparator group.

No specific weighting of these factors is used. However, given our desire for a performance-based culture, the Committee's use of discretion generally results in increases for our top performers and little or no increases in base

salary for average or lower performing employees.

2013 Merit Increases

Based on Company performance, a review of general trends, and an analysis of positioning relative to the comparator market data, the Committee awarded base salary increases to four of the Named Executive Officers in addition to most of the other executives in February 2013.

- - Mr. Bonach's base salary increase of 14.3% not only recognized his individual performance in 2012 as CEO, but adjusted for below market comparability for CEO base salary market pay levels.
- - Base salary increases for Messrs. Crawford, Perry and Nickle of 3.0%, 2.8% and 4.0%, respectively, reflected their overall performance and base salaries in relation to the market pay levels for their respective positions.

TABLE OF CONTENTS

Annual Cash Incentives

Strategy

Our annual incentive plan, the “Pay for Performance” Plan (P4P), is designed to focus on and reward achievement of annual performance goals. It is the broadest of our management incentive programs, covering our Named Executive Officers and other key employees. All participants in the P4P plan, including our Named Executive Officers, are assigned target incentive opportunities expressed as a percentage of base salary.

2013 Pay for Performance (P4P) Plan Design

During February and March 2013, the Committee reviewed the P4P plan design for 2013 in order to ensure alignment between shareholder and participant interests, to keep senior executives focused on the financial performance of the enterprise, to improve alignment with financial metrics that participants influence and to select operational/business metrics that drive financial success. This review was accomplished by focusing on the selection of appropriate performance metrics and the determination of performance levels which would contribute to financial success. As a result of this review, most performance metrics and weightings remained the same. Metrics which continued to be part of 2013 incentive plans applicable to Named Executive Officers include:

-
- Operating Earnings Per Share (EPS), defined as net after tax operating income divided by the average number of diluted shares outstanding. Operating earnings exclude the impact of realized gains (losses), loss on extinguishment of debt, fair value changes due to fluctuations in the interest rates used to discount embedded derivatives related to our fixed index annuities and changes to our valuation allowance for deferred taxes. The Committee believes Operating EPS is a key measure of our operating performance, is less impacted by events that are unrelated to the underlying fundamentals of the business and is directly impacted by management during the calendar year.
-
- Combined and Business Segment In-force Earnings Before Interest and Taxes (EBIT), where Combined In-force EBIT is a corporate roll-up of individual business segment In-force EBIT. In-force EBIT includes pre-tax revenues and expenses associated with the sales of insurance products that were completed more than one year before the end of the reporting period, but excludes the impact of realized gains (losses), loss on extinguishment of debt, and fair value changes due to fluctuations in the interest rates used to discount embedded derivatives related to our fixed index annuities. In the Committee’s view, this metric enhances line of sight for our operating management and increases their focus on improving the longer-term core profitability of our operations. In-force EBIT excludes the impacts of activities related to the generation of New Business.
-
- Combined and Business Segment Value of New Business (VNB), which calculates the present value of expected profits from product sales. The selection of VNB is based on the Committee’s desire to have a focus on growing through sales of profitable products as opposed to rewarding only top-line sales growth.
-
- Operating ROE, which is net operating income divided by average GAAP Equity, excluding accumulated other comprehensive income and the GAAP value of net operating loss carryforwards. This metric represents the Committee’s desire to encourage efficient use of capital.
-

- GAAP Yield, which is period investment income (net of investment expenses), divided by average invested assets for the same period.
-
- GAAP Investment Income, which is the income earned on general account invested assets, net of investment expenses.

Limiting the number of metrics to no more than five for any individual participant enhances the simplicity and effectiveness of the P4P plan. The program is designed to pay additional compensation when the Company achieves superior performance.

24

TABLE OF CONTENTS

Our plan design rewards a threshold level of financial performance which corresponds to 25% of target payout; target level of performance which provides 100% of target payout; and a maximum level of performance which provides a payout of 200% of target. Any payout between these financial performance goals is determined through straight line interpolation between the appropriate levels of performance. Consistent with our compensation philosophy, target annual incentive levels are established to generate Total Annual Cash compensation at competitive market median levels. Further, in 2013 we continued a policy that 50% of the approved threshold performance level for Combined In-force EBIT must be achieved before there can be any above-target payouts with respect to other financial and operational metrics. This policy limits incentive payments on non-income-related metrics when threshold operating earnings are not achieved by the enterprise.

Although we have a large net operating loss carry-forward, the Committee continues to administer the P4P and long-term incentive plans so that payments qualify as “performance-based compensation” under Section 162(m) of the Internal Revenue Code. However, the Committee does reserve the right to make awards that do not qualify as “performance-based compensation” under Section 162(m) to the extent it deems it advisable to do so.

Long-term Equity Incentives

Design and Strategy

The Committee uses long-term equity incentives to balance the short-term focus of the P4P program by tying rewards to performance achieved over multi-year periods. Under the Amended and Restated Long-Term Incentive Plan, the Committee may grant a variety of long-term incentive awards, including stock options, stock appreciation rights, restricted stock or restricted stock units, and performance shares or units, settled in cash or stock. We currently use stock options, performance shares, and a limited amount of restricted stock as our long-term compensation vehicles. To focus executives' efforts on longer-term results, we have historically granted awards of stock options that generally vest over three years, performance shares that vest at the end of a three-year period, and restricted stock that vest after no less than two years. Recent stock option grants vest in equal installments in the second and third years from the anniversary date of grant, and performance shares are measured over a three-year performance period at which time they will vest only if the financial goals have been achieved. Unless otherwise noted, grants to our Named Executive Officers have vesting schedules identical to those for other executives. To be eligible to vest in long-term equity incentive awards, employees must continue to work for us through the vesting dates or satisfy the definition of Retirement adopted in 2011.

Our current granting process involves developing long-term incentive grant values (by position level) for groups of executives, including our Named Executive Officers. Within these general grant guidelines, individual awards may be adjusted up or down to reflect the performance of the executive and his or her potential to contribute to the success of our initiatives to create shareholder value, as well as other individual considerations. The Committee also assesses aggregate share usage and dilution levels in comparison to general industry norms. Through this method, the Committee believes it is mindful of total cost, grants awards that are competitive within the market, promotes internal equity and reinforces our philosophy of pay for performance.

TABLE OF CONTENTS

The Committee reviews and approves individual grants for the Named Executive Officers as well as all stock options and performance share (P-Share) grants made to other executives under the purview of the Committee. Annual grants for all officers are reviewed and approved at the Committee's scheduled meeting at approximately the same time each year. Stock options may be granted only with an exercise price at or above the closing market price of our common stock on the date of grant (Fair Market Value). Interim or off-cycle grants are reviewed and approved by the Committee as circumstances warrant. The Chief Executive Officer has been authorized by the Committee to utilize a designated number of shares each year to grant equity awards to non-Section 16 executives to attract, reward, motivate and/or retain such employees, as deemed appropriate by the CEO. Such awards are periodically reviewed by the Committee.

Equity Grants in 2013

The Committee established the annual target for all long-term equity incentive grants based on competitive market data. The approach was intended to deliver median Total Direct Compensation using a combination of stock options and P-Shares. In 2013, the Committee continued its practice of using a 15-day average of our stock price to calculate the number of shares granted to each executive and continued to use a Black-Scholes valuation model.

In 2013, the Committee granted a mix of stock options (67%) and P-Shares (33%). This mix of long-term equity incentives focuses solely on performance elements. The P-Shares awarded in 2013 are bifurcated and subject to meeting goals based on average Operating ROE (as defined below) and relative TSR for our comparator group over the course of the three-year performance period ending December 31, 2015 and have up-side opportunity of 150% of the target award. Dividends are paid on previously granted shares of restricted stock prior to vesting, and dividend equivalents are paid on P-Shares upon vesting.

Table 6 shows the annual equity awards granted to our Named Executive Officers in 2013.

Long-Term Incentive Program Performance for Awards Granted in 2011, 2012 and 2013**2011–2013 P-Share Performance**

P-Share vesting for the 2011–2013 grant was based on the achievement of three-year average Pre-Tax Operating Income over the performance period. We believed that increased Pre-Tax Operating Income was a good measure of fundamental operating improvement in our Company that would drive shareholder value. For the 2011–2013 grant, we intended to deliver compensation at the 50th percentile of the relevant

TABLE OF CONTENTS

comparator group at target performance. At the end of the performance period (December 31, 2013), the Company achieved a three-year average Pre-Tax Operating Income of \$390.8 million, above the maximum performance target. Accordingly, 150% of P-Shares vested from this grant.

Table 7 shows actual P-Share vestings for Named Executive Officers related to the 2011-2013 award.

Table 7 — 2011–2013 P-Share Award Vesting for Named Executive Officers in 2013

- 2011–2013 P-Share awards were granted prior to Mr. Crawford joining CNO.

2012–2014 and 2013–2015 P-Share Performance Metrics and Targets

The 2012–2014 grant was bifurcated between three year average Pre-Tax Operating Income, with a \$400.0 million target, and relative TSR for our comparator group, targeting the 50th percentile for target performance.

The 2013–2015 grant was bifurcated between three year average Operating ROE, with an 8.25% target, and relative TSR for our comparator group, targeting the 50th percentile for target performance.

Adding relative Total Shareholder Return to the 2012–2014 and 2013–2015 grants provides an incentive to CNO executives to deliver shareholder value by outperforming our peers. The Company's relative TSR will be ranked for the 2012–2014 performance period against the following TSR performance peers, derived from common industry companies and those companies with competing products:

Benefits

Our Named Executive Officers are eligible to participate in all of the broad-based Company-sponsored benefits programs on the same basis as other full-time employees. These include our health and welfare benefits, such as our medical/dental plans, disability plans and life insurance. We do not offer any supplemental executive health and welfare programs. Executives may also participate in our 401(k) Plan. The Company also has a non-qualified deferred compensation plan. This plan is primarily intended as a “restoration” plan, giving participants the ability to defer their own compensation above the Internal Revenue Service limits imposed on the 401(k) Plan. At present, we do not make annual contributions to the non-qualified deferred compensation plan in addition to the amounts contributed by our executives.

Compensation of Chief Executive Officer

Mr. Bonach’s base salary, target incentive, and equity compensation awards for fiscal 2013 were determined in accordance with the compensation philosophy described above, including the policy of targeting our compensation within our “competitive market” as described above. In setting his salary, target incentive and equity compensation, the Committee relied on market competitive pay data and the strong belief in the necessity of appropriately incentivizing the Chief Executive Officer who significantly and directly influences our overall performance.

Based on the less than competitive placement of his base salary relative to his peers in the market, Mr. Bonach received a base salary increase from \$875,000 to \$1,000,000 in 2013. No change to his target annual incentive percentage occurred in 2013. Through the delivery of equity, the Committee strengthened the alignment of Mr. Bonach’s compensation with the interests of our shareholders.

Based on the achievement of Operating EPS at \$1.17 per share, Combined EBIT of \$653.3 million, Operating ROE of 8.7% and Combined VNB of \$77.9 million, Mr. Bonach’s incentive payment for 2013 was \$2,300,263. In addition, the Board awarded Mr. Bonach an annual equity grant in recognition for his performance and leadership in delivering on our business objectives and strengthening our capital position.

Additional Information

Stock Ownership Guidelines

In May 2011 the Committee adopted Stock Ownership Guidelines for our Chief Executive Officer and the executives who report to him. The Guidelines further align management’s interests with those of our shareholders and provides a continuing incentive for management to focus on long-term growth. The individuals covered by the guidelines have until the fifth anniversary of their adoption (or the fifth anniversary of the date of the executive’s appointment to the covered position, whichever is later) to meet those guidelines. Until such time as the individual meets the guidelines, he or she shall retain ownership of not less than one-half of the net shares of common stock received, after payment of applicable taxes, upon the vesting or exercise, as applicable, of any equity award under the company’s Long-Term Incentive Plan or any other similar plan adopted by the Company.

TABLE OF CONTENTS

Table 9 shows that our Named Executive Officers are in compliance with these guidelines.

Table 9 — Stock Ownership Guidelines and Compliance

Named Executive Officer	Stock Ownership Guideline as a Multiple of Base Salary	2013 Compliance with Stock Ownership Guidelines?
Edward Bonach	5x	Yes
Frederick Crawford	2x	Yes
Scott Perry	2x	Yes
Eric Johnson	2x	Yes
Christopher Nickle	2x	Yes

Stock ownership for the purpose of these guidelines includes direct ownership, indirect beneficial ownership (such as shares owned by immediate family or trusts), pre-tax unvested restricted stock and vested but unexercised “in-the-money” stock options. The Committee reviews adherence to these guidelines each year.

Prohibition against Trading in Derivatives

It violates our policy for any senior personnel to purchase, sell or engage in any other transaction involving any derivative securities or hedging related to any of our equity securities. This prohibition does not, however, apply to any exercise of our stock options pursuant to our Amended and Restated Long-Term Incentive Plan or any other benefit plans that we may adopt from time to time, any sale of our stock in connection with any cashless exercise (if otherwise permitted), or payment of withholding tax upon the exercise, of any such stock option.

Clawback Rights

Our Amended and Restated Long-Term Incentive Plan contains a clawback provision relating to our long-term equity awards: stock options, P-Shares and restricted stock. Under this clawback provision, if our financial statements are required to be restated as a result of errors, omissions, or fraud, the Committee may, at its discretion, based on the facts and circumstances surrounding the restatement, direct the recovery of all or a portion of an equity award from one or more executives with respect to any fiscal year in which our financial results are negatively affected by such restatement. To do this, we may pursue various ways to recover awards from one or more executives: (1) seek repayment from the executive; (2) reduce the amount that would otherwise be payable to the executive under another benefit plan; (3) withhold future equity grants, bonus awards, or salary increases; or (4) take any combination of these actions.

Our Pay for Performance (P4P) Plan contains recapture rights of any incentive amount paid or vested in the event that the Committee determines that the achievement of performance goals was based on incorrect data.

Impact of Tax and Accounting on Compensation Decisions

As a general matter, the Committee considers the various tax and accounting implications of our compensation vehicles.

When determining amounts of long-term equity incentive grants to executives and employees, the Committee considers the accounting cost associated with the grants. Under FASB ASC Topic 718, grants of stock options, restricted stock, restricted stock units and other share-based payments result in an accounting charge that is reflected in our financial statements.

Section 162(m) of the Internal Revenue Code generally prohibits any publicly held corporation from taking a federal income tax deduction for compensation paid in excess of \$1 million in any taxable year to the chief executive officer and the next three highest compensated officers excluding the Chief Financial Officer. Exceptions are made for qualified performance-based compensation, among other things. It is the Committee’s policy to maximize the effectiveness of our executive compensation plans in this regard.

TABLE OF CONTENTS

However, the Committee believes that compensation and benefits decisions should be primarily driven by the needs of the business, rather than by tax policy. Therefore, the Committee may make pay decisions (such as the determination of the Chief Executive Officer's base salary) that result in compensation expense that is not fully deductible under Section 162(m). Despite our large net operating loss carry-forward, the Committee continues to administer our incentive plans so that payments qualify as "performance-based compensation" under Section 162(m) of the Internal Revenue Code.

Termination and Change in Control Arrangements

Under the terms of award agreements under our equity-based compensation plans and under our employment agreements, the Named Executive Officers are entitled to payments and benefits upon the occurrence of specified events including termination of employment for various reasons. The specific terms of these arrangements, as well as an estimate of the compensation that would have been payable had they been triggered as of fiscal year-end, are described in the section entitled "Potential Payments upon Termination or Change in Control" on page 39. The terms of these arrangements were set through the course of employment agreement negotiations with each of the Named Executive Officers, with an emphasis on internal consistency. In addition, as part of these negotiations, the Committee also analyzed the terms of the same or similar arrangements for comparable executives employed by companies similar to our own.

The termination of employment provisions of the employment agreements were entered into in order to address competitive concerns when the Named Executive Officers were recruited. Providing those individuals with a fixed amount of compensation offset the potential risk of leaving their prior employer or foregoing other opportunities in order to work for us. At the time of entering into these arrangements, the Committee considered our aggregate potential obligations in the context of the desirability of hiring the individual and the expected compensation upon joining us.

Compensation Committee Report

The Human Resources and Compensation Committee has reviewed the Compensation Discussion and Analysis and has discussed it with management. Based on the Committee's review and discussions with management, the Committee recommended to our Board that the Compensation Discussion and Analysis be included in this proxy statement. This report is provided by the following independent directors, who comprise the Committee:

(1)

- The amount shown in this column is a bonus payment specified by the terms of the individual’s employment agreement. Amounts paid under the Company’s Pay for Performance Incentive Plan are included in the column “Non-Equity Incentive Plan Compensation.”

(2)

- This column represents the aggregate grant date fair value of restricted stock and performance share awards, in accordance with ASC 718, excluding the impact of estimated forfeitures related to service-based vesting conditions. Fair value is calculated using the closing price of CNO common stock on the date of grant. For additional information, see Note 9 to the CNO financial statements in the Form 10-K for the year ended

December 31, 2013, as filed with the SEC. See the Grants of Plan-Based Awards table for information on awards made in 2013. The amounts in this column do not necessarily correspond to the actual value that will be recognized by the Named Executive Officers. The amounts in this column for 2013 include the grant date value of performance share awards based on the targeted amounts for each of the Named Executive Officers. Under the terms of those performance share awards, the officers are entitled to receive 150% of the targeted number of shares if the Company equals or exceeds the maximum levels set forth in those awards. If the maximum levels are achieved for the performance share awards made in 2013, the aggregate grant date value of the awards shown in this column would be as follows: Mr. Bonach, \$1,312,257; Mr. Crawford, \$498,720; Mr. Perry, \$472,226; Mr. Johnson, \$314,817; and Mr. Nickele, \$464,961.

(3)

- This column represents the aggregate grant date fair value of stock options granted to each of the Named Executive Officers, in accordance with ASC 718, excluding the impact of estimated forfeitures related to service-based vesting conditions. For additional information on the valuation assumptions with respect to the 2013 grants, refer to Note 9 of the CNO financial statements in the Form 10-K for the year ended December 31, 2013, as filed with the SEC. For information on the valuation assumptions with respect to grants made prior to 2013, refer to the note on stockholders' equity and stock-related information to the CNO financial statements in the Form 10-K for the respective year-end. See the Grants of Plan-Based Awards table for information on options granted in 2013. The amounts in this column do not necessarily correspond to the actual value that will be recognized by the Named Executive Officers.

Terms of Equity-Based Awards

Vesting Schedule

Unless otherwise provided in the footnote disclosure to the table of Outstanding Equity Awards at 2013 Fiscal Year-End on pages 36–38 of this Proxy Statement, one-half of each option award vests on the 38 of this Proxy Statement, one-half of each option award vests on the second anniversary of the date of grant and the other one-half vests on the third anniversary of the date of grant. Options granted in 2006 and prior years expire ten years from the date of grant; options granted in 2007-2009 expire five years from the date of grant; and options granted in 2010 and subsequent years expire seven years from the date of grant.

Annual awards of restricted stock vest in three equal annual installments beginning one year after the grant, subject to continued service through the vesting dates. The vesting schedule for special awards of restricted stock is generally over a period of two or three years. For the special retention awards of

TABLE OF CONTENTS

restricted stock made to Mr. Bonach and Mr. Perry in January 2011, one-half of the award vested in December 2012 and the other one-half vested in December 2013. Performance share awards are measured over a three-year performance period at which time they will vest only if the financial goals have been achieved, subject to continued service through the vesting dates. Unless otherwise noted, grants to the Named Executive Officers have vesting schedules identical to other officers.

Forfeiture and Post-Employment Treatment

Holders of stock options generally have 90 days after termination of employment to exercise options to the extent they were vested on the date of termination. Unvested restricted stock and performance shares are generally forfeited upon termination of employment except upon retirement. Awards outstanding under the Company's Amended and Restated Long-Term Incentive Plan will be treated as follows upon an individual's retirement: (i) outstanding stock options will continue to vest on the original vesting schedule and the retiree may exercise the options until the earlier of the expiration date for such options or five years after the date of retirement; (ii) any unvested restricted stock will continue to vest after retirement on the same vesting schedule as if the individual had remained employed by CNO; and (iii) a pro rata portion of any performance shares will vest and will be payable to the extent the performance criteria are met at the same time as others receive payments under such performance share award. For the purpose of the Amended and Restated Long-Term Incentive Plan, "retirement" means voluntary termination of employment after achieving either 62 years of age, or 60 years of age with at least 10 years of employment with the Company.

Option Exercise Price

Options granted under the Company's Amended and Restated Long-Term Incentive Plan have an exercise price equal to the closing price on the date of grant.

Dividends

Holders of unvested restricted stock are entitled to receive any cash dividends at the same times and in the same amounts per share as holders of the Company's common stock. Such payments are taxed as compensation income to the holders of restricted stock. Holders of performance share awards are entitled to dividend equivalents on any performance shares that vest. Such dividend equivalents are payable in cash at the time of vesting of the performance shares to the extent that cash dividends are paid on the common stock underlying the performance shares after the award date and prior to the issuance of shares upon vesting. The Company began paying dividends on its common stock in the second quarter of 2012.

- All options in this table that were granted in 2006 or prior years have a 10 year expiration date, while options granted in 2007–2009 have a five year expiration date and options granted in 2010–2013 have a seven year expiration date. All options are subject to acceleration for certain events.

(2)

- Based on the closing sales price of CNO common stock on December 31, 2013 (\$17.69).

(3)

- In accordance with SEC rules, the amounts included in this column represent the number of shares of CNO common stock to which the Named Executive Officer will be entitled if the Company achieves the maximum performance level with respect to the performance share awards made in 2012 and 2013. For the 2012 performance share award, one-half of the award is based on the Company's three-year average pre-tax operating earnings, with a target of \$400.0 million, and the other half is based on relative total shareholder return for a comparator group, targeting the 50th percentile. For purposes of this award, "pre-tax operating earnings" is defined as pre-tax income before (i) gain or loss on extinguishment or modification of debt; (ii) net realized investment gains or losses, net of amortization; (iii) discontinued operations; (iv) the cumulative effect of changes in accounting principles; (v) dividends on preferred stock; and (vi) unusual income or expense items that are unlikely to recur as determined by the Human Resources and Compensation Committee. For the 2013 performance share award, one-half of the award is based on the Company's three-year average operating return on equity, with a target of 8.25%, and the other half is based on relative total shareholder return for a comparator group, targeting the 50th percentile.

(4)

- The dollar amounts in this column equal the number of maximum level performance shares, calculated as described in footnote (3) above, multiplied by the closing sales price of CNO common stock on December 31, 2013 (\$17.69).

(5)

- One-half of these options vested on March 8, 2013 and the balance vested on March 8, 2014. The remaining shares from this restricted stock award vested on March 8, 2014.

(6)

- One-half of these options vested on February 28, 2014 and the balance vests on February 28, 2015. This restricted stock award vests in three equal annual installments commencing March 25, 2013.

TABLE OF CONTENTS

The 2013 Nonqualified Deferred Compensation table presents amounts deferred under our Deferred Compensation Plan. Participants may defer up to 100% of their base salary and annual incentive plan payments under the Deferred Compensation Plan. Deferred Amounts are credited with earnings or losses based on the return of mutual funds selected by the executive, which the executive may change at any time. We do not make matching contributions to participants' accounts under the Deferred Compensation Plan. Distributions are made in either a lump sum or an annuity as chosen by the executive at the time of deferral.

PROPOSAL 2

REAPPROVAL OF THE MATERIAL TERMS OF THE PERFORMANCE GOALS UNDER THE COMPANY'S AMENDED AND RESTATED LONG-TERM INCENTIVE PLAN

On March 31, 2009, the Board of Directors unanimously approved the Amended and Restated Long-Term Incentive Plan (the "Plan"). The Plan was approved by the shareholders of the Company at the 2009 Annual Meeting. In order to satisfy the requirements of Section 162(m) of the Internal Revenue Code with respect to certain performance awards that may be granted under the Plan, the Company is seeking shareholder reapproval of the material terms of the performance goals that may be utilized for purposes of determining performance awards that may be granted under the Plan. The material terms include the employees eligible under the Plan, the business criteria on which performance goals are based, and the maximum amount of compensation payable under the Plan to any one employee during a specified period.

We are not seeking to make any changes with respect to the material terms of the performance goals or any other terms of the Plan at this time; however, in order to ensure tax deductibility, in accordance with regulations under Section 162(m) of the Internal Revenue Code, we are seeking reapproval of the material terms of the performance goals under the Plan. The material terms of the performance goals under the Plan are described below under "Performance-Based Awards."

Summary Description of the Plan

Shares Available. The number of shares that may be issued under the Plan (from the date of its initial adoption) is 25,846,268 shares of common stock, subject to adjustment in the event of a reorganization, stock split, merger or similar change in the corporate structure of the Company. Shares used for awards assumed in an acquisition do not count against the shares reserved under the Plan.

The issuance of shares pursuant to an award will reduce the total number of shares available under the Plan except that each full-value share awarded and distributed will reduce the total number of shares available under the Plan by 1.25 shares. Also, the full number of shares of common stock subject to an option or SAR will count against the number of shares remaining available for issuance pursuant to awards granted under the plan, even if fewer shares are actually delivered to a participant as a result of a net settlement. Further, any shares tendered or withheld to satisfy the exercise price or tax withholding obligations of an outstanding award shall no longer be available for issuance under the plan. Notwithstanding, shares will remain available for new awards if an award is cancelled, expired, forfeited, settled in cash, or otherwise terminated without delivery of the shares. Shares delivered under the Plan may be either newly issued or treasury shares.

Per-Person Award Limitations. The Plan includes a limitation on the amount of awards that may be granted to any one participant in a given year in order to qualify awards as "performance-based" compensation not subject to the limitation on deductibility under Section 162(m) of the Code. Under this annual per-person limitation, no participant may in any year be granted share-denominated awards under the Plan relating to more than his or her "Annual Limit". The Annual Limit equals 1,000,000 shares, subject to adjustment for splits and other extraordinary corporate events. In the case of cash-denominated Awards, the Plan limits performance Awards that may be earned by a participant to the participant's defined Annual Limit, which for this purpose equals \$4 million. The per-person limit for cash-denominated performance Awards does not operate to limit the amount of share-based Awards, and vice versa. These limits apply only to awards under the Plan, and do not limit the Company's ability to enter into compensation arrangements outside of the Plan.

Adjustments. Adjustments to the number and kind of shares subject to the share limitations and specified in the share-based Annual Limit are authorized in the event of a large, special or non-recurring dividend or distribution, recapitalization, stock split, stock dividend, reorganization, business combination, or other similar corporate transaction or event affecting the common stock. The Company is also obligated to adjust outstanding awards upon the occurrence of these types of events to preserve, without enlarging, the rights of participants with respect to such awards. The Compensation Committee may adjust

TABLE OF CONTENTS

performance conditions and other terms of Awards in response to these kinds of events or to changes in applicable laws, regulations, or accounting principles, except that adjustments to Awards intended to qualify as “performance-based” generally must conform to requirements imposed by Section 162(m).

Eligibility. Executive officers and other employees of the Company and its subsidiaries, and non-employee directors, consultants and others who provide substantial services to the Company and its subsidiaries, are eligible to be granted Awards under the Plan. In addition, any person who has been offered employment by the Company or a subsidiary may be granted Awards, but such prospective grantee may not receive any payment or exercise any right relating to the Award until he or she has commenced employment or the providing of services.

Administration. The Plan is administered by the Compensation Committee, except that the Board may itself act to administer the Plan. (References to the “Compensation Committee” here mean the Compensation Committee or the full Board exercising authority with respect to a given Award.) Subject to the terms and conditions of the Plan, the Compensation Committee is authorized to select participants, determine the type and number of Awards to be granted and the number of shares to which Awards will relate or the amount of a performance award, specify times at which Awards will be exercisable or settled, including performance conditions that may be required as a condition thereof, set other terms and conditions of such Awards, prescribe forms of Award agreements, interpret and specify rules and regulations relating to the Plan, and make all other determinations which may be necessary or advisable for the administration of the Plan. Nothing in the Plan precludes the Compensation Committee from authorizing payment of other compensation, including bonuses based upon performance, to officers and employees, including the executive officers, outside of the Plan. The Plan provides that members of the Compensation Committee and the Board shall not be personally liable, and shall be fully indemnified, in connection with any action, determination, or interpretation taken or made in good faith under the Plan.

Stock Options and SARs. The Compensation Committee is authorized to grant stock options, including both qualified ISOs, which can result in potentially favorable tax treatment to the participant, and non-qualified stock options. SARs may also be granted, entitling the participant to receive the excess of the fair market value of a share on the date of exercise over the SAR’s designated “base price.” The exercise price of an option and the base price of an SAR are determined by the Compensation Committee, but generally may not be less than the fair market value of the shares on the date of grant (except as described below under “Other Terms of Awards”). The maximum term of each option or SAR will be ten years. Subject to this limit, the times at which each option or SAR will be exercisable and provisions requiring forfeiture of unexercised options (and in some cases gains realized upon an earlier exercise) at or following termination of employment or upon the occurrence of other events generally are fixed by the Compensation Committee. Options may be exercised by payment of the exercise price in cash, shares having a fair market value equal to the exercise price or surrender of outstanding awards or other property having a fair market value equal to the exercise price, as the Compensation Committee may determine. This may include withholding of option shares to pay the exercise price if that would not result in additional accounting expense. The Compensation Committee also is permitted to establish procedures for broker-assisted cashless exercises. Methods of exercise and settlement and other terms of SARs will be determined by the Compensation Committee. SARs may be exercisable for shares or for cash, as determined by the Compensation Committee. Options and SARs may be granted on terms that cause such awards not to be subject to Code Section 409A (“Section 409A”). Alternatively, such awards and cash SARs may have terms that cause those awards to be deemed deferral arrangements subject to Section 409A. The Compensation Committee can require that outstanding options be surrendered in exchange for a grant of SARs with economically matching terms.

Restricted and Deferred Stock/Restricted Stock Units. The Compensation Committee is authorized to grant restricted stock and deferred stock. Prior to the end of the restricted period, shares granted as restricted stock may not be sold, and will be forfeited in the event of termination of employment in specified circumstances. The Compensation Committee will establish the length of the restricted period for awards of restricted stock. Aside from the risk of forfeiture and non-transferability, an award of restricted stock entitles the participant to the rights of a shareholder of the Company, including the right to vote the shares and to receive dividends (which may be forfeitable or non-forfeitable), unless otherwise determined by the Compensation Committee.

TABLE OF CONTENTS

Deferred stock gives a participant the right to receive shares at the end of a specified deferral period. Deferred stock subject to forfeiture conditions may be denominated as an award of “restricted stock units.” The Compensation Committee will establish any vesting requirements for deferred stock/restricted stock units granted for continuing services. One advantage of restricted stock units, as compared to restricted stock, is that the period during which the award is deferred as to settlement can be extended past the date the award becomes non-forfeitable, so the Compensation Committee can require or permit a participant to continue to hold an interest tied to common stock on a tax-deferred basis. Prior to settlement, deferred stock awards, including restricted stock units, carry no voting or dividend rights or other rights associated with stock ownership, but dividend equivalents (which may be forfeitable or non-forfeitable) will be paid or accrue if authorized by the Compensation Committee.

Other Stock-Based Awards, Stock Bonus Awards, and Awards in Lieu of Other Obligations. The Plan authorizes the Compensation Committee to grant awards that are denominated or payable in, valued in whole or in part by reference to, or otherwise based on or related to common stock. The Compensation Committee will determine the terms and conditions of such awards, including the consideration to be paid to exercise awards in the nature of purchase rights, the periods during which awards will be outstanding, and any forfeiture conditions and restrictions on awards. In addition, the Compensation Committee is authorized to grant shares as a bonus free of restrictions, or to grant shares or other awards in lieu of obligations under other plans or compensatory arrangements, subject to such terms as the Compensation Committee may specify.

Performance-Based Awards. The Compensation Committee may grant performance awards, which may be cash-denominated awards or share-based awards. Generally, performance awards require satisfaction of pre-established performance goals, consisting of one or more business criteria and a targeted performance level with respect to such criteria as a condition of awards being granted or becoming exercisable or settled, or as a condition to accelerating the timing of such events. Performance may be measured over a period of any length specified by the Compensation Committee. If so determined by the Compensation Committee, to avoid the limitations on tax deductibility under Section 162(m) of the Code, the business criteria used by the Compensation Committee in establishing performance goals applicable to performance awards to the named executive officers will be selected from among the following:

-
- Gross or net revenue, premiums collected, new annualized premiums, and investment income;
-
- Any earnings or net income measure, including earnings from operations, earnings before taxes, earnings before interest and/or taxes and/or depreciation, statutory earnings before realized gains (losses), or net income available to common shareholders;
-
- Operating earnings per common share (either basic or diluted);
-
- Return on assets, return on investment, return on capital, return on equity, or return on tangible equity;
-
- Economic value created including the value of new business;
-

- Operating margin or profit margin;
-
- Net interest margin;
-
- Asset quality;
-
- Stock price or total stockholder return; and
-
- Strategic business criteria, consisting of one or more objectives based on meeting specified market penetration, total market capitalization, business retention, new product generation, rate increase actions, geographic business expansion goals, cost targets (including cost of capital), investment portfolio yield, risk-based capital, statutory capital, Best Capital Adequacy Ratio, tax net operating loss utilization, customer satisfaction, employee satisfaction, agency ratings, management of employment practices and employee benefits, supervision of litigation and information technology, and goals relating to acquisitions or divestitures of subsidiaries, affiliates or joint ventures.

TABLE OF CONTENTS

The Compensation Committee retains discretion to set the level of performance for a given business criteria that will result in the earning of a specified amount under a performance award. These goals may be set with fixed, quantitative targets, targets relative to past Company performance, or targets compared to the performance of other companies, such as a published or special index or a group of companies selected by the Compensation Committee for comparison. The Compensation Committee may specify that these performance measures will be determined before payment of bonuses, capital charges, non-recurring or extraordinary income or expense, or other financial and general and administrative expenses for the performance period, if so specified by the Compensation Committee.

The Committee may provide in any performance award that any evaluation of performance shall include or exclude any of the following items: (1) asset write-downs; (2) litigation or regulatory claims, judgments or settlements; (3) the effect of changes in tax laws, accounting principles, regulations, or other laws or regulations affecting reported results; (4) any reorganization and restructuring programs; (5) acquisitions or divestitures; (6) unusual nonrecurring or extraordinary items identified in the Company's audited financial statements, including footnotes; (7) annual incentive payments or other bonuses; or (8) capital charges.

Annual Incentive Awards. One type of performance award that may be granted under the Plan is annual incentive awards that may be settled in cash or in shares upon achievement of pre-established performance objectives achieved during a specified period of up to one year. The Compensation Committee generally must establish the terms of annual incentive awards, including the applicable performance goals and the corresponding amounts payable (subject to per-person limits), and other terms of settlement, and all other terms of these awards, not later than 90 days after the beginning of the fiscal year. As stated above, annual incentive awards granted to named executive officers are intended to constitute "performance-based compensation" not subject to the limitation on deductibility under Code Section 162(m). In order for such an annual incentive award to be earned, one or more of the performance objectives described above will have to be achieved. The Compensation Committee may specify additional requirements for the earning of such awards.

Other Terms of Awards. Awards may be settled in cash, shares, other awards or other property, in the discretion of the Compensation Committee. The Compensation Committee may require or permit participants to defer the settlement of all or part of an award, including shares issued upon exercise of an option subject to compliance with Code Section 409A, in accordance with such terms and conditions as the Compensation Committee may establish, including payment or crediting of interest or dividend equivalents on any deferred amounts. The Plan allows vested but deferred awards to be paid out to the participant in the event of an unforeseeable emergency. The Compensation Committee is authorized to place cash, shares or other property in trusts or make other arrangements to provide for payment of the Company's obligations under the Plan. The Compensation Committee may condition awards on the payment of taxes, and may provide for mandatory or elective withholding of a portion of the shares or other property to be distributed in order to satisfy tax obligations. Awards granted under the Plan generally may not be pledged or otherwise encumbered and are not transferable except by will or by the laws of descent and distribution, or to a designated beneficiary upon the participant's death, except that the Compensation Committee may permit transfers of awards other than incentive stock options on a case-by-case basis. This flexibility can allow for estate planning or other limited transfers consistent with the incentive purpose of the Plan.

The Compensation Committee is authorized to impose non-competition, non-solicitation, confidentiality, non-disparagement and other requirements as a condition on the participant's right to retain an award or gains realized by exercise or settlement of an award. Awards under the Plan may be granted without a requirement that the participant pay consideration in the form of cash or property for the grant (as distinguished from the exercise), except to the extent required by law. The Compensation Committee may, however, grant awards in substitution for, exchange for or as a buyout of other awards under the Plan, awards under other Company plans, or other rights to payment from the Company, and may exchange or buy out outstanding awards for cash or other property. The Compensation Committee also may grant awards in addition to and in tandem with other awards or rights. In granting a new award, the Compensation Committee may determine that the in-the-money value or fair value of any surrendered award may be applied to reduce the exercise price of any option, base price of any SAR, or purchase price of any other award.

TABLE OF CONTENTS

Dividend Equivalents. The Compensation Committee may grant dividend equivalents with respect to awards other than stock options (including ISOs) or SARs. These are rights to receive payments equal in value to the amount of dividends paid on a specified number of shares of common stock while an award is outstanding. These amounts may be in the form of cash or rights to receive additional Awards or additional shares of common stock having a value equal to the cash amount. The awards may be granted on a stand-alone basis or in conjunction with another award, and the Compensation Committee may specify whether the dividend equivalents will be forfeitable or non-forfeitable. However, the payout of dividends or dividend equivalents on unvested performance-based awards is prohibited. Typically, rights to dividend equivalents are granted in connection with performance share units (p-shares), so that the participant can earn amounts upon vesting equal to dividends paid on the number of shares covered by the award while the award is outstanding.

Vesting, Forfeitures, and Related Award Terms. The Compensation Committee may in its discretion determine the vesting schedule of options and other awards, the circumstances that will result in forfeiture of the awards, the post-termination exercise periods of options and similar awards, and the events that will result in acceleration of the ability to exercise and the lapse of restrictions, or the expiration of any deferral period, on any Award. In addition, the Plan provides that following a “Change in Control,” the Compensation Committee may take any of the following actions with respect to an Award: provide for its full vesting, provide for its termination beyond the date of full vesting, deem performance goals to have been met, provide for the settlement of an award in cash or for termination of the Award or cause the Award to be assumed as part of the transaction. A “Change in Control” generally includes (A) a merger, reorganization, consolidation, or similar transaction in which the stockholders of the Company immediately prior to the transaction do not own more than 51% of the voting power of the surviving corporation, (B) any “person” becomes the owner, directly or indirectly of shares representing at least 51% of the Company’s voting power, and (C) certain changes of more than half of the membership of the Board of Directors. Change-in-control provisions are limited, however, by applicable restrictions under Code Section 409A.

Amendment and Termination of the Plan. The Board may amend, suspend, discontinue, or terminate the Plan or the Compensation Committee’s authority to grant awards hereunder without shareholder approval, except as required by law or regulation or under the New York Stock Exchange rules, which require shareholder approval of any material amendment to plans such as the Plan. Under these rules, however, shareholder approval will not necessarily be required for all amendments which might increase the cost of the Plan or broaden eligibility. Unless earlier terminated, the authority of the Compensation Committee to make grants under the Plan will terminate ten years after the latest shareholder approval of the Plan, and the Plan will terminate when no shares remain available and the Company has no further obligation with respect to any outstanding award.

Federal Income Tax Implications of the Plan

The Company believes that under current law the following federal income tax consequences generally would arise with respect to awards under the Plan.

Options and SARs that are not deemed to be deferral arrangements under Section 409A would have the following tax consequences: The grant of an option or an SAR will create no federal income tax consequences for the participant or the Company. A participant will not have taxable income upon exercising an option which is an ISO, except that the alternative minimum tax may apply. Upon exercising an option which is not an ISO, the participant generally must recognize ordinary income equal to the difference between the exercise price and the fair market value of the freely transferable and nonforfeitable shares acquired on the date of exercise. Upon exercising an SAR, the participant must generally recognize ordinary income equal to the cash or the fair market value of the shares received. Upon a disposition of shares acquired upon exercise of an ISO before the end of the applicable ISO holding periods, the participant must generally recognize ordinary income equal to the lesser of: (i) the fair market value of the ISO shares at the date of exercise minus the exercise price, or (ii) the amount realized upon the disposition of the ISO shares minus the exercise price. Otherwise, a participant’s sale of shares acquired by exercise of an option generally will result in short-term or long-term capital gain or loss measured by the difference between the sale price and the participant’s tax “basis” in such shares. The tax “basis” normally is the

TABLE OF CONTENTS

exercise price plus any amount he or she recognized as ordinary income in connection with the option's exercise. A participant's sale of shares acquired by exercise of an SAR generally will result in short-term or long-term capital gain or loss measured by the difference between the sale price and the tax "basis" in the shares, which generally is the amount he or she recognized as ordinary income in connection with the SAR's exercise.

The Company normally can claim a tax deduction equal to the amount recognized as ordinary income by a participant in connection with an option or SAR, but no tax deduction relating to a participant's capital gains. Accordingly, the Company will not be entitled to any tax deduction with respect to an ISO if the participant holds the shares for the applicable ISO holding periods before selling the shares.

Some options and SARs, such as those with deferral features, and an SAR that is settled in cash, may be subject to Code Section 409A, which regulates deferral arrangements. In such case, the distribution to the participant of shares or cash relating to the award would have to meet certain restrictions in order for the participant not to be subject to tax and a tax penalty at the time of vesting. One significant restriction would be a requirement that the distribution not be controlled by the participant's discretionary exercise of the option or SAR (subject to limited exceptions). If the distribution and other award terms meet applicable requirements under Code Section 409A, the participant would realize ordinary income at the time of distribution rather than earlier, with the amount of ordinary income equal to the distribution date value of the shares less any exercise price actually paid. The Company would not be entitled to a tax deduction at the time of exercise, but would become entitled to a tax deduction at the time shares are delivered at the end of the deferral period.

Awards other than options and SARs that result in a transfer to the participant of cash or shares or other property generally will be structured under the Plan to meet applicable requirements under Code Section 409A. If no restriction on transferability or substantial risk of forfeiture applies to amounts distributed to a participant, the participant generally must recognize ordinary income equal to the cash or the fair market value of shares actually received. Thus, for example, if the Company grants an award of deferred stock that has vested or requires or permits deferral of receipt of cash or shares under a vested award, the participant should not become subject to income tax until the time at which shares are actually delivered, and the Company's right to claim a tax deduction will be deferred until that time. On the other hand, if a restriction on transferability and substantial risk of forfeiture applies to shares or other property actually distributed to a participant under an award (such as, for example, a grant of restricted stock), the participant generally must recognize ordinary income equal to the fair market value of the transferred amounts at the earliest time either the transferability restriction or risk of forfeiture lapses. In all cases, the Company can claim a tax deduction in an amount equal to the ordinary income recognized by the participant, except as discussed below. A participant may elect to be taxed at the time of grant of restricted stock or other property rather than upon lapse of restrictions on transferability or the risk of forfeiture, but if the participant subsequently forfeits such shares or property he or she would not be entitled to any tax deduction, including as a capital loss, for the value of the shares or property on which he or she previously paid tax.

Any award that is deemed to be a deferral arrangement (excluding certain exempted short-term deferrals) will be subject to Code Section 409A. Certain participant elections and the timing of distributions relating to such awards must meet requirements under Code Section 409A for income taxation to be deferred and tax penalties avoided by the participant upon vesting of the award.

As discussed above, compensation that qualifies as "performance-based" compensation is excluded from the \$1 million deductibility cap of Code Section 162(m), and therefore remains fully deductible by the company that pays it. Under the Plan, options and SARs granted with an exercise price or base price at least equal to 100% of fair market value of the underlying stock at the date of grant, annual incentive awards to employees the Compensation Committee expects to be named executive officers at the time compensation is received, and certain other awards which are conditioned upon achievement of performance goals are intended to qualify as such "performance-based" compensation. A number of requirements must be met in order for particular compensation to so qualify, however, so there can be no assurance that such compensation under the Plan will be fully deductible under all circumstances. In addition, other awards under the Plan generally will not so qualify, so that compensation paid to named executive officers in connection with such awards may, to the extent it and other compensation subject to

TABLE OF CONTENTS

Code Section 162(m)'s deductibility cap exceed \$1 million in a given year, not be deductible by the Company as a result of Code Section 162(m).

The foregoing provides only a general description of the application of federal income tax laws to certain awards under the Plan. This discussion is intended for the information of shareholders considering how to vote at the Annual Meeting and not as tax guidance to participants in the Plan, as the consequences may vary with the types of awards made, the identity of the recipients and the method of payment or settlement. Different tax rules may apply, including in the case of variations in transactions that are permitted under the Plan (such as payment of the exercise price of an option by surrender of previously acquired shares). The summary does not address the effects of other federal taxes (including possible "golden parachute" excise taxes) or taxes imposed under state, local, or foreign tax laws.

Vote Needed for Approval

Approval of this proposal will require the affirmative vote of the holders of a majority in voting power of the shares of Common Stock that are present, or represented by proxy, and entitled to vote on the proposal at the Annual Meeting. Abstentions will have the effect of a vote "against" this proposal. Broker non-votes will have no effect on the outcome of the vote with respect to this proposal because the shares subject to the broker non-vote will not be entitled to vote on this matter.

Recommendation of our Board of Directors

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" THE REAPPROVAL OF THE MATERIAL TERMS OF THE PERFORMANCE GOALS UNDER THE COMPANY'S AMENDED AND RESTATED LONG-TERM INCENTIVE PLAN.

PROPOSAL 3

**RATIFICATION OF THE APPOINTMENT OF OUR INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

PricewaterhouseCoopers LLP (“PwC”) served as our independent registered public accounting firm for 2013 and has been selected to serve as our independent registered public accounting firm for the fiscal year ending December 31, 2014. Representatives of the Company’s independent registered public accounting firm are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they so desire, and will be available to respond to appropriate questions from the shareholders.

Required Vote

Approval of the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014 requires the affirmative vote of the majority of shares of common stock present in person, or represented by proxy, and entitled to vote on the proposal at the Annual Meeting.

Recommendation of our Board of Directors

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE “FOR” RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2014.

Evaluation of the Independent Registered Public Accounting Firm

In considering the appointment of PwC as the Company’s independent registered public accounting firm, the Audit and Enterprise Risk Committee (the “Audit Committee”) considered the following factors:

-
- the appropriateness of the proposed audit fee in comparison to the fees reported by the CNO peer group;
-
- the professional qualifications of the firm and the lead audit partner assigned to CNO, including both industry experience and technical expertise in accounting and auditing;
-
- the quality and candor of the firm’s communications with the Committee and the Company during the prior audit;
-
- the results of the independent review of the firm’s quality control system;
-
- evidence supporting the firm’s independence, objectivity, and professional skepticism;
-
- the quality and efficiency of the services provided by the firm during prior audits; and
-
- the firm’s capability, technical expertise, and knowledge of the Company’s operations and industry.

The Audit Committee meets regularly with the independent registered public accounting firm (“independent auditor”), including attendance by the independent auditor at all regularly scheduled Audit Committee meetings and separate executive sessions at least four meetings per year. The Audit Committee uses these interactions, as well as the factors noted above to assess the performance of the independent auditor.

CNO undertakes an annual benchmarking of audit fees paid by our peers in the insurance industry. This data provides a reference point to the Audit Committee to judge the appropriateness of the audit fee. Additionally, the Audit Committee evaluates the scope of the audit, the complexity of the CNO environment, any history of prior issues and adjustments and the overall audit plan presented by the independent auditor in arriving at an appropriate fee.

Pre-Approval Policy

The Audit Committee has adopted a policy requiring pre-approval of all audit and permissible non-audit services provided by our independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Under the policy, pre-approval is generally provided for work associated with the following:

-
- internal control reviews and assistance with internal control reporting requirements;
-
- tax compliance, tax planning and related tax services; and
-
- due diligence work for potential transactions.

Each proposed service is evaluated by the Audit Committee to ensure that it would not impair the independence of PwC under SEC and other applicable rules. In 2012 and 2013, all new engagements of PwC were pre-approved by the Audit Committee for all audit, audit-related, tax and other services.

Report of the Audit and Enterprise Risk Committee

The Audit Committee provides assistance to the Board in fulfilling its responsibilities for oversight of the integrity of the financial statements, public disclosures and financial reporting practices of the Company, including the systems of internal controls. The Audit Committee has sole authority to appoint or replace the Company's independent registered public accounting firm. The independent registered public accounting firm reports directly to the Audit Committee. In overseeing the preparation of the Company's audited financial statements for the year ended December 31, 2013, the Audit Committee reviewed and discussed the audited financial statements with management and with PwC, the

Company's independent registered public accounting firm. The Audit Committee also discussed with PwC the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1, AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

The Audit Committee has received from PwC the written disclosure and letter required by applicable requirements of the Public Company Accounting Oversight Board regarding PwC's communications with the Audit Committee concerning independence, and the Audit Committee has discussed the independence of PwC with that firm.

PROPOSAL 4 — NON-BINDING ADVISORY VOTE ON EXECUTIVE COMPENSATION

General

In accordance with the requirements of Section 14A of the Exchange Act (which was added by the Dodd-Frank Wall Street Reform and Consumer Protection Act) and the related rules of the SEC, we are including in these proxy materials a separate resolution subject to shareholder vote to approve, in a non-binding advisory vote, the compensation paid to our Named Executive Officers as discussed on pages 16–40. While the results of the vote are non-binding and advisory in nature, the Board intends to carefully 40. While the results of the vote are non-binding and advisory in nature, the Board intends to carefully consider the results of this vote. The current frequency of non-binding advisory votes on executive compensation is an annual vote and we anticipate that the next vote will be at the next Annual Meeting. The language of the resolution is as follows:

“RESOLVED, that the compensation paid to the Company’s named executive officers, as disclosed in this proxy statement pursuant to the rules of the SEC, including the Compensation Discussion and Analysis, compensation tables and any related narrative discussion, is hereby approved.”

The compensation of our executive officers is based on a philosophy and a comprehensive compensation and benefits strategy developed by the Human Resources and Compensation Committee designed to reward overall and individual performance that drives long-term success for our shareholders. The committee strives to provide a clear award program that allows us to attract, incentivize and retain seasoned executive talent with significant industry experience required to continue to improve our performance and build long-term shareholder value. In considering their vote, shareholders are urged to read the section of this proxy statement entitled “Executive Compensation”, including the Compensation Discussion and Analysis, for a detailed discussion of how our compensation policies and practices implement our compensation philosophy.

Required Vote

The affirmative vote of the majority of shares of common stock present in person or represented by proxy and entitled to vote on the subject matter is required to approve the compensation paid to our Named Executive Officers.

Abstentions will have the effect of a vote “against” this proposal. Broker non-votes will have no effect on the outcome of the vote with respect to this proposal because the shares subject to the broker non-vote will not be entitled to vote on this matter.

Recommendation of our Board of Directors

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE “FOR” THE APPROVAL OF THE COMPENSATION PAID TO OUR NAMED EXECUTIVE OFFICERS.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires CNO’s directors and executive officers, and each person who is the beneficial owner of more than 10 percent of any class of CNO’s outstanding equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of common stock and other equity securities of CNO. Specific due dates for these reports have been established by the SEC, and CNO is required to disclose any failure by such persons to file such reports for fiscal year 2013 by the prescribed dates. Officers, directors and greater than 10 percent beneficial owners are required to furnish CNO with copies of all reports filed with the SEC pursuant to Section 16(a). To CNO’s knowledge, based solely on review of the copies of the reports furnished to CNO and written representations that no other reports were required, all filings required pursuant to Section 16(a) of the Securities Exchange Act of 1934 applicable to CNO’s officers, directors and greater than 10 percent beneficial owners were timely made by each such person during the year ended December 31, 2013.

TABLE OF CONTENTS

SHAREHOLDER PROPOSALS FOR 2015 ANNUAL MEETING

Any proper proposal which a shareholder wishes to have included in the Board's proxy statement and form of proxy for the 2015 Annual Meeting must be received by CNO by November 27, 2014. Such proposals must meet the requirements set forth in the rules and regulations of the SEC in order to be eligible for inclusion in the proxy statement for the 2015 Annual Meeting. In addition to the SEC rules concerning shareholder proposals, the Company's Bylaws establish advance notice procedures with regard to certain matters, including shareholder nominations for directors, to be brought before a meeting of shareholders at which directors are to be elected. In the case of an annual meeting, notice must be received by the Secretary of the Company not less than 60 days nor more than 90 days prior to the first anniversary of the preceding year's annual meeting. In the case of a special meeting of shareholders at which directors are to be elected, notice of a shareholder nomination must be received by the Secretary of the Company no later than the close of business on the 10th day following the earlier of the day on which notice of the date of the meeting was mailed or public disclosure of the meeting was made. A nomination will not be considered if it does not comply with these notice procedures and the additional requirements set forth in our Bylaws. Please note that these bylaw requirements are separate from the SEC's requirements to have a shareholder nomination or other proposal included in our proxy statement. Any shareholder who wishes to submit a proposal to be acted upon at the 2015 Annual Meeting or who wishes to nominate a candidate for election as director should obtain a copy of these bylaw provisions and may do so by written request addressed to the Secretary of CNO Financial Group, Inc. at 11825 North Pennsylvania Street, Carmel, Indiana 46032.

ANNUAL REPORT

Access to CNO's Annual Report for 2013 (which includes its annual report on Form 10-K as filed with the SEC) is being provided with this proxy statement to all holders of common stock as of March 14, 2014. The Annual Report is not part of the proxy solicitation material. If you wish to receive an additional copy of the Annual Report for 2013, the Form 10-K, this Proxy Statement or the Notice without charge, please contact CNO Financial Group, Inc. HOUSEHOLDING OF PROXY MATERIALS

SEC rules permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements and notices with respect to two or more shareholders sharing the same address by delivering a single proxy statement or a single notice addressed to those shareholders. This process, which is commonly referred to as "householding," provides cost savings for companies. Some brokers household proxy materials, delivering a single proxy statement or notice to multiple shareholders sharing an address unless contrary instructions have been received from the affected shareholders. Once you have received notice from your broker that they will be householding materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement or notice, or if you are receiving duplicate copies of these materials and wish to have householding apply, please notify your broker. You may also call (800) 542-1061 or write to: Broadridge Financial Solutions, Inc., 51 Mercedes Way, Edgewood, New York, New York 11717, and include your name, the name of your broker or other nominee, and your account number(s). You can also request prompt delivery of a copy of the proxy statement and annual report by contacting CNO Financial Group, Inc. INFORMATION RELATED TO CERTAIN NON-GAAP FINANCIAL MEASURES

Net operating income is defined as net income before: (i) loss related to reinsurance transaction, net of income taxes; (ii) net realized investment gains (losses), net of related amortization and income taxes; (iii) fair value changes due to fluctuations in the interest rates used to discount embedded derivative liabilities related to our fixed index annuities, net of related amortization and income taxes; (iv) equity in earnings of certain non-strategic investments and earnings attributable to non-controlling interests, net of income taxes; (v) loss on extinguishment of debt, net of income taxes; and (vi) changes in our valuation

TABLE OF CONTENTS

allowance for deferred tax assets and other tax items. Management uses this measure to evaluate performance because the items excluded from net operating income can be affected by events that are unrelated to the Company's underlying fundamentals. A reconciliation from net income to net operating income is as follows (dollars in millions):

	Year ended December 31,	
	2013	2012
Net income	\$ 478.0	\$ 221.0
Loss related to reinsurance transaction, net of taxes	63.3	—
Net realized investment gains, net of related amortization and taxes	(20.7)	(48.4)
Fair value changes in embedded derivative liabilities, net of related amortization and taxes	(23.0)	1.8
Equity in earnings of certain non-strategic investments and earnings attributable to non-controlling interests, net of taxes	9.9	—
Loss on extinguishment of debt, net of taxes	64.0	177.5
Valuation allowance for deferred tax assets and other tax items	(301.5)	(171.5)
Net operating income (a non-GAAP financial measure)	\$ 270.0	\$ 180.4

Book value per diluted share reflects the potential dilution that could occur if outstanding stock options and warrants were exercised, restricted stock and performance units were vested and convertible securities were converted. The dilution from options, warrants, restricted shares and performance units is calculated using the treasury stock method. Under this method, we assume the proceeds from the exercise of the options and warrants (or the unrecognized compensation expense with respect to restricted stock and performance units) will be used to purchase shares of our common stock at the closing market price on the last day of the period. The dilution from convertible securities is calculated assuming the securities were converted on the last day of the period. In addition, the calculation of this non-GAAP measure differs from the corresponding GAAP measure because accumulated other comprehensive income (loss) has been excluded from the value of capital used to determine this measure. Management believes this non-GAAP measure is useful because it removes the volatility that arises from changes in the unrealized appreciation (depreciation) of our investments.

A reconciliation from book value per share to book value per diluted share, excluding accumulated other comprehensive income (loss) is as follows (dollars in millions, except per share amounts):

	December 31,	
	2013	2012
Total shareholders' equity	\$ 4,955.2	\$ 5,049.3
Shares outstanding at period end	220,323,823	221,502,371
Book value per share	\$ 22.49	\$ 22.80
Total shareholders' equity	\$ 4,955.2	\$ 5,049.3
Less accumulated other comprehensive income	(731.8)	(1,197.4)
Add carrying value of convertible debentures	—	89.6
Adjusted shareholders' equity excluding accumulated other comprehensive income	\$ 4,223.4	\$ 3,941.5
Shares outstanding at period end	220,323,823	221,502,371
Dilutive common stock equivalents related to:		
Convertible debentures	—	17,038,882
Warrants, stock options, restricted stock and performance units	6,543,950	4,647,584
Diluted shares outstanding	226,867,773	243,188,837
Book value per diluted share (a non-GAAP financial measure)	\$ 18.62	\$ 16.21

TABLE OF CONTENTS

The debt to capital ratio, excluding accumulated other comprehensive income (loss), differs from the debt to capital ratio because accumulated other comprehensive income (loss) has been excluded from the value of capital used to determine this measure. Management believes this non-GAAP financial measure is useful because it removes the volatility that arises from changes in accumulated other comprehensive income (loss). Such volatility is often caused by changes in the estimated fair value of our investment portfolio resulting from changes in general market interest rates rather than the business decisions made by management. A reconciliation of these ratios is as follows (dollars in millions):

	December 31,	
	2013	2012
Corporate notes payable	\$ 856.4	\$ 1,004.2
Total shareholders' equity	4,955.2	5,049.3
Total capital	\$ 5,811.6	\$ 6,053.5
Debt to capital ratio	14.7 %	16.6 %
Corporate notes payable	\$ 856.4	\$ 1,004.2
Total shareholders' equity	4,955.2	5,049.3
Less accumulated other comprehensive income	(731.8)	(1,197.4)
Total capital	\$ 5,079.8	\$ 4,856.1
Debt to total capital ratio, excluding accumulated other comprehensive income (a non-GAAP financial measure)	16.9 %	20.7 %
