☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act
(17 CFR 240.13e-4(c))

Item 1.01. Entry into a Material Definitive Agreement.

On March 10, 2016, Murphy Oil USA, Inc. (“Borrower”) amended and restated that certain credit agreement dated August 30, 2013 among Borrower, Murphy USA Inc. (“Murphy USA”), and certain subsidiaries of Murphy Oil USA, Inc. (the “Borrowing Subsidiaries”, and, together with the Borrower, the “Borrowers”), JPMorgan Chase Bank, N.A., as administrative agent (the “Administrative Agent”), and the other lenders and agents party thereto (the “Predecessor Credit Agreement”) by entering into an Amended and Restated Credit Agreement among the Borrower, Murphy USA, the Borrowing Subsidiaries, the Administrative Agent, and the lenders party thereto (the “Credit Agreement”).

The Credit Agreement provides for an asset-based revolving facility (the “ABL facility”), which provides borrowing availability of up to \$450 million, subject to the borrowing base described below. Up to \$150 million of additional borrowing capacity under the ABL facility may be extended at the request of the Borrowers and with the consent of the lenders providing such incremental extension commitments. The ABL facility is scheduled to mature on the fifth anniversary of the Effective Date, subject to the ability to extend with the consent of the extending lenders.

The borrowing base is, at any time of determination, an amount (net of reserves equal to the sum of:

- 100% of eligible cash at such time, plus
- 90% of the eligible credit card receivables at such time, plus
- 90% of the eligible investment grade accounts minus the dilution reserve applicable to such accounts, minus any other reserves applicable to such accounts, plus
- 85% of the eligible other accounts minus the dilution reserve applicable to such accounts, minus any other reserves applicable to such accounts, plus
- 80% of the eligible midstream refined products inventory at such time, plus
- 75% of the eligible retail refined products inventory at such time, plus
- the lesser of (i) 70% of the eligible retail merchandise inventory at such time, valued at cost, determined on an average cost basis, minus the reserves applicable to eligible retail merchandise inventory, and (ii) 85% of the net orderly liquidation value percentage identified in the most recent inventory appraisal ordered by the Administrative Agent of the eligible retail merchandise inventory at such time, valued at cost, determined on an average cost basis, minus the reserves applicable to eligible retail merchandise inventory, minus
- any other reserves established by the Administrative Agent in its permitted discretion.

The ABL facility includes a \$200 million sublimit for the issuance of letters of credit. Letters of credit issued under the ABL facility reduce availability under the ABL facility.

In addition to the ABL facility, the Credit Agreement provides for a \$200 million term facility (the “term facility,” and together with the ABL facility, the “credit facilities”), that will mature on the fourth anniversary of the Effective Date.

On the Effective Date, the Borrower incurred \$200 million of indebtedness under the credit facilities, the proceeds of which were used, in part, to repay the term loans outstanding under the term credit agreement, dated as of February 5, 2016, among the Borrower, the lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent, and will be used, in part, for working capital and other general corporate purposes.

Interest payable on the credit facilities is based on either:

- the London interbank offered rate, adjusted for statutory reserve requirements (the “Adjusted LIBO Rate”); or
- the Alternate Base Rate, which is defined as the highest of (a) the prime rate, (b) the federal funds effective rate from time to time plus 0.50% per annum and (c) the one-month Adjusted LIBO Rate plus 1.00% per annum, plus, (A) in the case Adjusted LIBO Rate borrowings, (i) with respect to the ABL facility, spreads ranging from 1.50% to 2.00% per annum depending on a total debt to EBITDA ratio under the ABL facility or (ii) with respect to the term facility, spreads ranging from 2.50% to 2.75% per annum depending on a total debt to EBITDA ratio and (B) in the case of Alternate Base Rate borrowings, (i) with respect to the ABL facility, spreads ranging from 0.50% to 1.00% per annum depending on a total debt to EBITDA ratio or (ii) with respect to the term facility, spreads ranging from 1.50% to 1.75% per annum depending on a total debt to EBITDA ratio.

The interest rate period with respect to the Adjusted LIBO Rate interest rate option can be set at one-, two-, three-, or six-months as selected by the Borrower in accordance with the terms of the Credit Agreement,

The Borrower is obligated to make quarterly principal payments on the outstanding principal amount of the term facility beginning on July 1, 2016 in amounts equal to 5% of the term loans made on the Effective Date, with the remaining balance payable on the maturity date of the term facility. Borrowings under the credit facilities are prepayable at the Borrower’s option without premium or penalty. The Borrower is also required to prepay the term facility with the net cash proceeds of certain asset sales or casualty events, subject to certain exceptions. The Credit Agreement also includes certain customary mandatory prepayment provisions with respect to the ABL facility.

The Credit Agreement contains certain covenants that limit, among other things, the ability of the Borrower, Murphy USA and certain of the Borrowing Subsidiaries to incur additional indebtedness or liens, to make certain investments, to enter into sale-leaseback transactions, to make certain restricted payments, to enter into consolidations, mergers or sales of material assets and other fundamental changes, to transact with affiliates, to enter into agreements restricting the ability of subsidiaries to incur liens or pay dividends, or to make certain accounting changes. In addition, the Credit Agreement requires Murphy USA to maintain a minimum fixed charge coverage ratio of a minimum of 1.0 to 1.0 when availability for at least three consecutive business days is less than the greater of (a) 17.5% of the lesser of the aggregate ABL facility commitments and the borrowing base and (b) \$70,000,000 (including as of the most recent fiscal quarter end on the first date when availability is less than such amount), as well as a maximum secured debt to EBITDA ratio of 4.5 to 1.0 at any time when term facility commitments or term loans thereunder are outstanding. The Credit Agreement also contains customary events of default.

All obligations under the Credit Agreement are guaranteed by Murphy USA, the Borrower and the Borrowing Subsidiaries, and all obligations under the Credit Agreement, including the

guarantees of those obligations, are secured by certain assets of Murphy USA, the Borrower and the Borrowing Subsidiaries.

The foregoing description of the Credit Agreement is only a summary of the Credit Agreement. For the complete text of the Credit Agreement, please see the agreement filed with this Current Report on Form 8-K as Exhibit 10.1, which is incorporated by reference.

Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

The information under Item 1.01 is incorporated herein by reference.

Item 9.01. Financial Statements and Exhibits.
