SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended March 31, 2012

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

Commission File Number 1-815

E. I. du Pont de Nemours and Company
(Exact Name of Registrant as Specified in Its Charter)

Delaware

(State or other Jurisdiction of

Incorporation or Organization)

1007 Market Street, Wilmington, Delaware 19898

(Address of Principal Executive Offices)

51-0014090

(I.R.S. Employer

Identification No.)

(302) 774-1000

(Registrant's Telephone Number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that registrant was required to submit and post such files.) Yes ☒ No ☐

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer ☒

Accelerated Filer ☐

Non-Accelerated Filer ☐

Smaller reporting company ☐

Indicate by check mark whether the Registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

The Registrant had 937,039,000 shares (excludes 87,041,000 shares of treasury stock) of common stock, \$0.30 par value, outstanding at April 16, 2012.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Note 1. Summary of Significant Accounting Policies

Interim Financial Statements

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP) for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair statement of the results for interim periods have been included. Results for interim periods should not be considered indicative of results for a full year. These interim Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and Notes thereto contained in the company's Annual Report on Form 10-K for the year ended December 31, 2011, collectively referred to as the "2011 Annual Report". The Consolidated Financial Statements include the accounts of the company and all of its subsidiaries in which a controlling interest is maintained, as well as variable interest entities for which DuPont is the primary beneficiary. Certain reclassifications of prior year data have been made to conform to current year classifications.

Note 2. Other Income, Net

	Three Months Ended March 31,	
	2012	2011
Cozaar®/Hyzaar® income	\$25	\$48
Royalty income	41	31
Interest income	23	28
Equity in earnings of affiliates, excluding exchange gains/losses	10	48
Net gain on sales of assets	5	6
Net exchange losses ¹	(80)	(143)
Miscellaneous income and expenses, net ²	2	7
Total	\$26	\$25

The company routinely uses foreign currency exchange contracts to offset its net exposures, by currency, related to the foreign currency-denominated monetary assets and liabilities. The objective of this program is to maintain an approximately balanced position in foreign currencies in order to minimize, on an after-tax basis, the effects of exchange rate changes on net monetary asset positions. The net pre-tax exchange gains and losses are recorded in other income, net and the related tax impact is recorded in provision for income taxes on the interim Consolidated Income Statements.

² Miscellaneous income and expenses, net, generally includes interest items, insurance recoveries, litigation settlements and other items.

Note 3. Provision for Income Taxes

In the first quarter 2012, the company recorded a tax provision of \$441, including \$36 of tax benefit primarily associated with the company's policy of hedging the foreign currency-denominated monetary assets and liabilities of its operations.

In the first quarter 2011, the company recorded a tax provision of \$258, including \$135 of tax benefit primarily associated with the company's policy of hedging the foreign currency-denominated monetary assets and liabilities of its operations.

Each year the company files hundreds of tax returns in the various national, state and local income taxing jurisdictions in which it operates. These tax returns are subject to examination and possible challenge by the taxing authorities. Positions challenged by the taxing authorities may be settled or appealed by the company. As a result, there is an uncertainty in income taxes recognized in the company's financial statements in accordance with accounting for income taxes and accounting for uncertainty in income taxes. It is reasonably possible that changes to the company's global unrecognized tax benefits could be significant, however, due to the uncertainty regarding the timing of completion of audits and possible outcomes, a current estimate of the range of increases or decreases that may occur within the next twelve months cannot be made.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Note 4. Earnings Per Share of Common Stock

Set forth below is a reconciliation of the numerator and denominator for basic and diluted earnings per share calculations for the periods indicated:

	Three Months Ended March 31,	
	2012	2011
Numerator:		
Net income attributable to DuPont	\$1,488	\$1,431
Preferred dividends	(3)	(3)
Net income available to common stockholders	\$1,485	\$1,428
Denominator:		
Weighted-average number of common shares outstanding - Basic	933,910,000	924,897,000
Dilutive effect of the company's employee compensation plans	10,328,000	16,012,000
Weighted-average number of common shares outstanding - Diluted	944,238,000	940,909,000

The following average number of stock options were antidilutive, and therefore, were not included in the diluted earnings per share calculations:

	Three Months Ended March 31,	
	2012	2011
Average number of stock options	10,724,000	—

The change in the average number of stock options that were antidilutive in the three months ended March 31, 2012 compared to the same period last year was primarily due to changes in the company's average stock price.

Note 5. Inventories

	March 31, 2012	December 31, 2011
Finished products	\$4,497	\$4,541
Semifinished products	1,796	2,293
Raw materials, stores and supplies	1,239	1,262
	7,532	8,096
Adjustment of inventories to a last-in, first-out (LIFO) basis	(916)	(901)
Total	\$6,616	\$7,195

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Note 6. Goodwill and Other Intangible Assets

There were no significant changes in goodwill for the three months ended March 31, 2012.

The gross carrying amounts and accumulated amortization of other intangible assets by major class are as follows:

	March 31, 2012			December 31, 2011		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Intangible assets subject to amortization (Definite-lived):						
Customer lists	\$1,859	\$(248))\$1,611	\$1,841	\$(220))\$1,621
Patents	514	(84))430	518	(77))441
Purchased and licensed technology	1,920	(934))986	1,854	(878))976
Trademarks	57	(26))31	57	(25))32
Other ¹	326	(149))177	330	(151))179
	4,676	(1,441))3,235	4,600	(1,351))3,249
Intangible assets not subject to amortization(Indefinite-lived):						
In-process research and development	70	—	70	70	—	70
Microbial cell factories ²	306	—	306	306	—	306
Pioneer germplasm ³	975	—	975	975	—	975
Trademarks/tradenames	824	—	824	813	—	813
	2,175	—	2,175	2,164	—	2,164
Total	\$6,851	\$(1,441))\$5,410	\$6,764	\$(1,351))\$5,413

¹ Primarily consists of sales and grower networks, marketing and manufacturing alliances and noncompetition agreements.

Microbial cell factories, derived from natural microbes, are used to sustainably produce enzymes, peptides and chemicals using natural metabolic processes. The company recognized the microbial cell factories as an intangible asset upon the acquisition of Danisco. This intangible asset is expected to contribute to cash flows beyond the foreseeable future and there are no legal, regulatory, contractual, or other factors which limit its useful life.

Pioneer germplasm is the pool of genetic source material and body of knowledge gained from the development and delivery stage of plant breeding. The company recognized germplasm as an intangible asset upon the acquisition of Pioneer. This intangible asset is expected to contribute to cash flows beyond the foreseeable future and there are no legal, regulatory, contractual, or other factors which limit its useful life.

The aggregate pre-tax amortization expense for definite-lived intangible assets was \$106 and \$67 for the three months ended March 31, 2012, and 2011, respectively. The estimated aggregate pre-tax amortization expense for 2012 and each of the next five years is approximately \$338, \$332, \$348, \$351, \$308 and \$180.

Note 7. Commitments and Contingent Liabilities

Guarantees

Indemnifications

In connection with acquisitions and divestitures, the company has indemnified respective parties against certain liabilities that may arise in connection with these transactions and business activities prior to the completion of the transaction. The term of these indemnifications, which typically pertain to environmental, tax and product liabilities, is generally indefinite. In addition, the company indemnifies its duly elected or appointed directors and officers to the

fullest extent permitted by Delaware law, against liabilities incurred as a result of their activities for the company, such as adverse judgments relating to litigation matters. If the indemnified party were to incur a liability or have a liability increase as a result of a successful claim, pursuant to the terms of the indemnification, the company would be required to reimburse the indemnified party. The maximum amount of potential future payments is generally unlimited. The carrying amounts recorded for all indemnifications as of March 31, 2012 and December 31, 2011 was \$105. Although it is reasonably possible that future payments may exceed amounts accrued, due to the nature of indemnified items, it is not possible to make a reasonable estimate of the maximum potential loss or range of loss. No assets are held as collateral and no specific recourse provisions exist.

In connection with the 2004 sale of the majority of the net assets of Textiles and Interiors, the company indemnified the purchasers, subsidiaries of Koch Industries, Inc. (INVISTA), against certain liabilities primarily related to taxes, legal and environmental matters and other representations and warranties under the Purchase and Sale Agreement. The estimated fair value of the indemnity

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

obligations under the Purchase and Sale Agreement was \$70 and was included in the indemnifications balance of \$105 at March 31, 2012. Under the Purchase and Sale Agreement, the company's total indemnification obligation for the majority of the representations and warranties cannot exceed \$1,400. The other indemnities are not subject to this limit. In March 2008, INVISTA filed suit in the Southern District of New York alleging that certain representations and warranties in the Purchase and Sale Agreement were breached and, therefore, that DuPont is obligated to indemnify it. DuPont disagrees with the extent and value of INVISTA's claims. DuPont has not changed its estimate of its total indemnification obligation under the Purchase and Sale Agreement as a result of the lawsuit. A 2012 trial date has been set.

Obligations for Equity Affiliates & Others

The company has directly guaranteed various debt obligations under agreements with third parties related to equity affiliates, customers and suppliers. At March 31, 2012 and December 31, 2011, the company had directly guaranteed \$526 and \$563, respectively, of such obligations. In addition, the company had \$20 relating to guarantees of historical obligations for divested subsidiaries as of March 31, 2012 and December 31, 2011. These amounts represent the maximum potential amount of future (undiscounted) payments that the company could be required to make under the guarantees. The company would be required to perform on these guarantees in the event of default by the guaranteed party.

The company assesses the payment/performance risk by assigning default rates based on the duration of the guarantees. These default rates are assigned based on the external credit rating of the counterparty or through internal credit analysis and historical default history for counterparties that do not have published credit ratings. For counterparties without an external rating or available credit history, a cumulative average default rate is used.

In certain cases, the company has recourse to assets held as collateral, as well as personal guarantees from customers and suppliers. Assuming liquidation, these assets are estimated to cover approximately 53 percent of the \$323 of guaranteed obligations of customers and suppliers. Set forth below are the company's guaranteed obligations at March 31, 2012:

	Short-Term	Long-Term	Total
Obligations for customers and suppliers ¹ :			
Bank borrowings (terms up to 5 years)	\$243	\$80	\$323
Obligations for equity affiliates ² :			
Bank borrowings (terms up to 2 years)	201	2	203
Total obligations for customers, suppliers and equity affiliates	444	82	526
Obligations for divested subsidiaries (terms up to 6 years)	16	4	20
Total	\$460	\$86	\$546

¹ Existing guarantees for customers and suppliers arose as part of contractual agreements.

² Existing guarantees for equity affiliates arose for liquidity needs in normal operations.

Imprelis®

The company has received claims and been served with multiple lawsuits, including lawsuits seeking class action status, alleging that the use of Imprelis® herbicide caused damage to certain trees. The majority of the lawsuits seeking class actions have been consolidated in federal court in Philadelphia, Pennsylvania. In August 2011, the company suspended sales of Imprelis® and in September began a process to fairly resolve claims associated with the use of Imprelis®. The deadline for property owners to file claims was February 1, 2012, although DuPont continues to receive claims at a significantly reduced rate which it expects to consider as part of the claims resolution process. However, the company believes that the number of unasserted claims, if any, is limited due to the fact that sales were

suspended in August 2011 and the product was last applied during the 2011 spring application season.

The company has established review processes to verify and evaluate damage claims. There are several variables that impact the evaluation process including the number of trees on a property, the species of tree with reported damage, the height of the tree, the extent of damage and the possibility for trees to naturally recover over time. Upon receiving claims, DuPont verifies their accuracy and validity which often requires physical review of the property.

At March 31, 2012, DuPont had recorded charges of \$225 related to the Imprelis® matter, which included a \$50 charge recorded during the first quarter 2012. It is reasonably possible that additional charges could result related to this matter. While there is a high degree of uncertainty, total charges could range as high as \$575. DuPont intends to seek recovery from its insurance carriers for costs associated with this matter in excess of \$100.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Litigation

The company is subject to various legal proceedings arising out of the normal course of its business including product liability, intellectual property, commercial, environmental and antitrust lawsuits. It is not possible to predict the outcome of these various proceedings. Except as otherwise noted, management does not anticipate their resolution will have a materially adverse effect on the company's consolidated financial position or liquidity. However, the ultimate liabilities could be significant to results of operations in the period recognized.

PFOA

DuPont uses PFOA (collectively, perfluorooctanoic acids and its salts, including the ammonium salt), as a processing aid to manufacture fluoropolymer resins and dispersions at various sites around the world including its Washington Works plant in West Virginia. At March 31, 2012, DuPont has accruals of \$16 related to the PFOA matters discussed below.

The accrual includes charges related to DuPont's obligations under agreements with the U.S. Environmental Protection Agency and voluntary commitments to the New Jersey Department of Environmental Protection. These obligations include surveying, sampling and testing drinking water in and around certain company sites and offering treatment or an alternative supply of drinking water if tests indicate the presence of PFOA in drinking water at or greater than the national Provisional Health Advisory.

Drinking Water Actions

In August 2001, a class action, captioned Leach v DuPont, was filed in West Virginia state court alleging that residents living near the Washington Works facility had suffered, or may suffer, deleterious health effects from exposure to PFOA in drinking water.

DuPont and attorneys for the class reached a settlement in 2004 that binds about 80,000 residents. In 2005, DuPont paid the plaintiffs' attorneys' fees and expenses of \$23 and made a payment of \$70, which class counsel designated to fund a community health project. The company is also funding a series of health studies by an independent science panel of experts (the "C8 Science Panel") in the communities exposed to PFOA to evaluate available scientific evidence on whether any probable link exists, as defined in the settlement agreement, between exposure to PFOA and human disease. The company expects the C8 Science Panel to complete these health studies through July 2012 at a total estimated cost of \$33.

In December 2011, the C8 Science Panel concluded that there is a probable link, as defined in the settlement agreement, between exposure to PFOA and pregnancy-induced hypertension, which includes preeclampsia. In April 2012, the C8 Science Panel announced its probable link determinations regarding cancer and adult onset diabetes. The C8 Science Panel found a probable link between exposure to PFOA and two categories of cancer (kidney and testicular). A panel of medical experts will determine an appropriate medical monitoring protocol, if any, as a result of these findings. If a medical monitoring protocol for any of these diseases is defined, DuPont is required to fund a medical monitoring program to pay for such medical testing. Plaintiffs may pursue personal injury claims against DuPont only for those human disease(s) for which the C8 Science Panel determines a probable link exists once the C8 Science Panel completes its work. In January 2012, the company put \$1 in an escrow account as required by the settlement agreement. The company will reassess its liability based on the medical monitoring panel's determination since costs are not reasonably estimable until a medical monitoring protocol, if any, is identified. The company will continue to reassess its liability based on the C8 Science Panel's future probable link findings, if any, and associated medical monitoring protocols, if any. Under the settlement agreement, the company's total obligation to pay for medical monitoring cannot exceed \$235. In addition, the company must continue to provide state-of-the-art water treatment systems designed to reduce the level of PFOA in water to six area water districts, including the Little

Hocking Water Association (LHWA), and private well users.

An Ohio action brought by the LHWA is currently in discovery. In addition to general claims of PFOA contamination of drinking water, the action claims “imminent and substantial endangerment to health and or the environment” under the Resource Conservation and Recovery Act (RCRA). DuPont denies these claims and is defending itself vigorously.

While DuPont believes that it is reasonably possible that it could incur losses related to PFOA matters in addition to those matters discussed above for which it has established accruals, a range of such losses, if any, cannot be reasonably estimated at this time.

Environmental

The company is also subject to contingencies pursuant to environmental laws and regulations that in the future may require the company to take further action to correct the effects on the environment of prior disposal practices or releases of chemical or petroleum substances by the company or other parties. The company accrues for environmental remediation activities consistent with the policy as described in the company's 2011 Annual Report in Note 1, “Summary of Significant Accounting Policies.” Much of this liability results from the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA, often referred to as Superfund), RCRA and similar state and global laws. These laws require the company to undertake certain

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

investigative, remediation and restoration activities at sites where the company conducts or once conducted operations or at sites where company-generated waste was disposed. The accrual also includes estimated costs related to a number of sites identified by the company for which it is probable that environmental remediation will be required, but which are not currently the subject of enforcement activities.

Remediation activities vary substantially in duration and cost from site to site. These activities, and their associated costs, depend on the mix of unique site characteristics, evolving remediation technologies, diverse regulatory agencies and enforcement policies, as well as the presence or absence of potentially responsible parties. At March 31, 2012, the Condensed Consolidated Balance Sheet included a liability of \$424, relating to these matters and, in management's opinion, is appropriate based on existing facts and circumstances. The average time frame, over which the accrued or presently unrecognized amounts may be paid, based on past history, is estimated to be 15-20 years. Considerable uncertainty exists with respect to these costs and, under adverse changes in circumstances, potential liability may range up to three times the amount accrued as of March 31, 2012.

Other

The company has various purchase commitments incident to the ordinary conduct of business. In the aggregate, such commitments are not at prices in excess of current market.

Note 8. Stockholders' Equity**Share Repurchase Program**

In the first quarter 2012, the company entered into an agreement with a financial institution and paid \$400 for the purchase of shares of common stock. The shares will be received by May 2012. This repurchase will complete the 2001 \$2,000 share buyback plan and will begin purchases under the April 2011 \$2,000 share buyback plan. There is no expiration date on the current authorizations.

During the first quarter 2011, the company purchased and retired 5.0 million shares at a total cost of \$272 under the 2001 plan. Under the 2001 plan, the company has purchased 39.7 million shares at a total cost of \$1,884 as of March 31, 2012.

Other Comprehensive Income

A summary of the changes in other comprehensive income for the three months ended March 31, 2012 and 2011 is provided below:

	Three Months Ended March 31, 2012			Three Months Ended March 31, 2011		
	Pre-Tax	Tax	After-Tax	Pre-Tax	Tax	After-Tax

(Dollars in millions, except per share)

Note 9. Financial Instruments

Debt

The estimated fair value of the company's total debt including interest rate financial instruments was determined using level 2 inputs within the fair value hierarchy, as described in the company's 2011 Annual Report in Note 1, "Summary of Significant Accounting Policies." Based on quoted market prices for the same or similar issues or on current rates offered to the company for debt of the same remaining maturities, the fair value of the company's debt was approximately \$15,940 and \$13,880 as of March 31, 2012 and December 31, 2011, respectively.

Cash Equivalents

The estimated fair value of the company's cash equivalents was determined using level 2 inputs. Based on current interest rates for similar investments with comparable credit risk and time to maturity, the fair value of the company's cash equivalents approximates its stated value of \$1,788 and \$1,932 as of March 31, 2012 and December 31, 2011, respectively.

Derivative Instruments

Objectives and Strategies for Holding Derivative Instruments

In the ordinary course of business, the company enters into contractual arrangements (derivatives) to reduce its exposure to foreign currency, interest rate and commodity price risks. The company has established a variety of derivative programs to be utilized for financial risk management. These programs reflect varying levels of exposure coverage and time horizons based on an assessment of risk.

Derivative programs have procedures and controls and are approved by the Corporate Financial Risk Management Committee, consistent with the company's financial risk management policies and guidelines. Derivative instruments used are forwards, options, futures and swaps. The company has not designated any nonderivatives as hedging instruments.

The company's financial risk management procedures also address counterparty credit approval, limits and routine exposure monitoring and reporting. The counterparties to these contractual arrangements are major financial institutions and major commodity exchanges. The company is exposed to credit loss in the event of nonperformance by these counterparties. The company anticipates performance by counterparties to these contracts and therefore no material loss is expected. Market and counterparty credit risks associated with these instruments are regularly reported to management.

The notional amounts of the company's derivative instruments were as follows:

	March 31, 2012	December 31, 2011
Derivatives designated as hedging instruments:		
Interest rate swaps	\$1,000	\$1,000
Foreign currency contracts	2,377	2,032
Commodity contracts	334	553
Derivatives not designated as hedging instruments:		
Foreign currency contracts	7,382	6,444
Commodity contracts	224	437

Foreign Currency Risk

The company's objective in managing exposure to foreign currency fluctuations is to reduce earnings and cash flow volatility associated with foreign currency rate changes. Accordingly, the company enters into various contracts that

change in value as foreign exchange rates change to protect the value of its existing foreign currency-denominated assets, liabilities, commitments and cash flows.

The company routinely uses forward exchange contracts to offset its net exposures, by currency, related to the foreign currency-denominated monetary assets and liabilities of its operations. The primary business objective of this hedging program is to maintain an approximately balanced position in foreign currencies so that exchange gains and losses resulting from exchange rate changes, net of related tax effects, are minimized. The company also uses foreign currency exchange contracts to offset a portion of the company's exposure to certain foreign currency-denominated revenues so that gains and losses on these contracts offset changes in the USD value of the related foreign currency-denominated revenues. The objective of the hedge program is to reduce earnings and cash flow volatility related to changes in foreign currency exchange rates.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Interest Rate Risk

The company uses interest rate swaps to manage the interest rate mix of the total debt portfolio and related overall cost of borrowing.

Interest rate swaps involve the exchange of fixed for floating rate interest payments to effectively convert fixed rate debt into floating rate debt based on USD LIBOR. Interest rate swaps allow the company to achieve a target range of floating rate debt.

Commodity Price Risk

Commodity price risk management programs serve to reduce exposure to price fluctuations on purchases of inventory such as copper, corn, soybeans, soybean meal and natural gas. The company enters into over-the-counter and exchange-traded derivative commodity instruments to hedge the commodity price risk associated with energy feedstock and agricultural commodity exposures.

Fair Value Hedges**Interest Rate Swaps**

At March 31, 2012, the company maintained a number of interest rate swaps, which were implemented at the time debt instruments were issued, to manage the interest rate mix of the total debt portfolio and related overall cost of borrowing. All interest rate swaps qualify for the shortcut method of hedge accounting, thus there is no ineffectiveness related to these hedges.

Cash Flow Hedges**Foreign Currency Contracts**

The company uses foreign currency exchange instruments such as forwards and options to offset a portion of the company's exposure to certain foreign currency-denominated revenues so that gains and losses on these contracts offset changes in the USD value of the related foreign currency-denominated revenues.

Commodity Contracts

The company enters into over-the-counter and exchange-traded derivative commodity instruments, including options, futures and swaps, to hedge the commodity price risk associated with energy feedstock and agriculture commodity exposures.

While each risk management program has a different time maturity period, most programs currently do not extend beyond the next two-year period. Cash flow hedge results are reclassified into earnings during the same period in which the related exposure impacts earnings. Reclassifications are made sooner if it appears that a forecasted transaction will not materialize. The following table summarizes the after-tax effect of cash flow hedges on accumulated other comprehensive income (loss) for the three months ended March 31, 2012 and 2011:

	Three Months Ended March 31,	
	2012	2011
Beginning balance	\$41	\$(31)
Net revaluation and clearance of cash flow hedges to earnings	(23)) 22
Ending balance	\$18	\$(9)

At March 31, 2012, the after-tax amount expected to be reclassified from accumulated other comprehensive income (loss) into earnings over the next 12 months is \$15.

Derivatives not Designated in Hedging Relationships

Foreign Currency Contracts

The company routinely uses forward exchange contracts to reduce its net exposure, by currency, related to foreign currency-denominated monetary assets and liabilities of its operations so that exchange gains and losses resulting from exchange rate changes are minimized. The netting of such exposures precludes the use of hedge accounting; however, the required revaluation of the forward contracts and the associated foreign currency-denominated monetary assets and liabilities intends to achieve a minimal earnings impact, after taxes. Additionally, the company has cross-currency swaps to hedge foreign currency fluctuations on long-term intercompany loans.

Commodity Contracts

The company utilizes options, futures and swaps that are not designated as hedging instruments to reduce exposure to commodity price fluctuations on purchases of inventory such as corn, soybeans and soybean meal.

Total derivatives	\$(4) \$9	\$(110)(409)

¹ OCI is defined as other comprehensive income (loss).

For cash flow hedges, this represents the effective portion of the gain (loss) reclassified from accumulated OCI into

² income during the period. For the three months ended March 31, 2012 and 2011, there was no material ineffectiveness with regard to the company's cash flow hedges.³ Gain (loss) recognized in income of derivative is offset to \$0 by gain (loss) recognized in income of the hedged item.⁴ COGS is defined as costs of goods sold and other operating charges.

Gain (loss) recognized in other income, net, was partially offset by the related gain (loss) on the foreign

⁵ currency-denominated monetary assets and liabilities of the company's operations, which were \$48 and \$230 for the three months ended March 31, 2012 and 2011, respectively.

Note 10. Long-Term Employee Benefits

The following sets forth the components of the company's net periodic benefit cost for pensions:

	Three Months Ended March 31,	
	2012	2011
Service cost	\$68	\$59
Interest cost	297	310
Expected return on plan assets	(381)(365
Amortization of unrecognized loss	219	153
Amortization of prior service cost	4	4
Net periodic benefit cost	\$207	\$161

The following sets forth the components of the company's net periodic benefit cost for other long-term employee benefits:

Three Months Ended

	March 31, 2012	2011	
Service cost	\$9	\$8	
Interest cost	48	53	
Amortization of unrecognized loss	22	15	
Amortization of prior service benefit	(30)(30)
Net periodic benefit cost	\$49	\$46

Note 11. Segment Information

Segment sales include transfers to another business segment. Products are transferred between segments on a basis intended to reflect, as nearly as practicable, the market value of the products. Segment pre-tax operating income (loss) (PTOI) is defined as operating income (loss) before income taxes, exchange gains (losses), corporate expenses and interest. Prior year data has been reclassified to reflect the current organizational structure.

Three Months Ended March 31, 2012	Agriculture	Electronics & Communications	Industrial & Bio-sciences	Nutrition & Health	Performance Chemicals	Performance Coatings	Performance Materials	Safety & Protection	Pharmaceuticals	Optical	Total
Segment sales	\$ 4,080	\$ 677	\$ 288	\$ 808	\$ 1,900	\$ 1,050	\$ 1,600	\$ 941	\$ —	\$ 1	\$ 11,345
Less: Transfers	2	4	3	—	77	—	26	3	—	—	115
Net sales	4,078	673	285	808	1,823	1,050	1,574	938	—	1	11,230
PTOI	1,264	² 33	41	83	512	87	240	100	27	(60)	2,327
2011											
Segment sales	\$ 3,504	\$ 811	\$ —	\$ 324	\$ 1,797	\$ 993	\$ 1,707	\$ 965	\$ —	\$ 36	\$ 10,137
Less: Transfers	—	5	—	—	67	—	28	3	—	—	103
Net sales	3,504	806	—	324	1,730	993	1,679	962	—	36	10,034
PTOI	1,111	111	—	25	394	65	288	145	50	(64)	2,125

As of March 31, 2012, Agriculture net assets were \$7,509, an increase of \$2,744 from \$4,765 at December 31, 2011.

¹ The increase was primarily due to higher trade receivables due to normal seasonality in the sales and cash collections cycle.

² Included a \$(50) charge recorded in cost of goods sold and other operating charges associated with the company's process to fairly resolve claims associated with the use of Imprelis®. See Note 7 for additional information.

Reconciliation to Consolidated Income Statements

	Three Months Ended March 31,	
	2012	2011
Total segment PTOI	\$2,327	\$2,125
Net exchange losses, including affiliates	(80)	(143)
Corporate expenses and net interest	(306)	(280)
Income before income taxes	\$1,941	\$1,702

Note 12. Subsequent Event

In April 2012, the company completed the sale of its interest in an equity method investment and expects to record an after-tax gain of about \$75.

Cautionary Statements About Forward-Looking Statements

This report contains forward-looking statements which may be identified by their use of words like "plans," "expects," "will," "anticipates," "believes," "intends," "projects," "estimates" or other words of similar meaning. All statements that address expectations or projections about the future, including statements about the company's strategy for growth, product development, regulatory approval, market position, anticipated benefits of recent acquisitions, outcome of contingencies, such as litigation and environmental matters, expenditures and financial results, are forward-looking statements.

Forward-looking statements are based on certain assumptions and expectations of future events which may not be accurate or realized. Forward-looking statements also involve risks and uncertainties, many of which are beyond the company's control. Some of the important factors that could cause the company's actual results to differ materially from those projected in any such forward-looking statements are:

- Fluctuations in energy and raw material prices;
- Failure to develop and market new products and optimally manage product life cycles;
- Outcome of significant litigation and environmental matters, including those related to divested businesses;
- Failure to appropriately manage process safety and product stewardship issues;
- Effect of changes in tax, environmental and other laws and regulations or political conditions in the United States of America (U.S.) and other countries in which the company operates;
- Conditions in the global economy and global capital markets, including economic factors, such as inflation, deflation and fluctuations in currency exchange rates, interest rates and commodity prices, as well as regulatory requirements;
- Impact of business disruptions, including supply disruptions, and security threats, regardless of cause, including acts of sabotage, terrorism or war, weather events and natural disasters;
- Inability to protect and enforce the company's intellectual property rights; and
- Successful integration of acquired businesses and completion of divestitures of underperforming or non-strategic assets or businesses.

For additional information on these and other risks and factors that could affect our forward-looking statements, see the company's Risk Factors set forth under Part I, Item 1A of the company's 2011 Annual Report.

Results of Operations

Overview

The company continued to execute its strategy for growth by applying its science and technology to address three challenges driven by global population growth: feeding the world, reducing our dependence on fossil fuels and keeping people and the environment safe. The following are highlights from the results of operations for the first quarter 2012:

• First quarter 2012 earnings were \$1.57 per share versus \$1.52 per share in 2011.

Sales of \$11.2 billion were up 12 percent including a 7 percent net sales increase from portfolio changes.

- Volume, down 2 percent compared to the same period last year, showed sequential improvement in industrial markets, which includes titanium dioxide, indicating a positive shift in momentum heading into the second quarter 2012. Sales in developing markets¹ grew 15 percent, led by growth in Agriculture.

Segment pre-tax operating income increased \$202 million, or 10 percent versus the prior year, principally due to gains in Agriculture, Performance Chemicals and the benefit of prior-year acquisitions in Nutrition & Health and Industrial Biosciences.

•

Agriculture delivered 16 percent higher sales and a 14 percent increase in pre-tax operating income versus last year's first quarter. This reflects strong global business performance and an early start to the North American and European selling seasons, which increased first quarter 2012 earnings about \$0.03 per share.

- DuPont continues to achieve fixed cost, working capital and variable cost productivity through disciplined business processes called DuPont Integrated Business Management and DuPont Production Systems. The company remains on track with productivity initiatives achieving improvements of approximately \$100 million for both fixed costs and working capital in the first quarter 2012.

¹ Developing markets include China, India and countries located in Latin America, Eastern and Central Europe, Middle East, Africa and Southeast Asia.

Table of Contents

Net Sales

Net sales for the first quarter 2012 were \$11.2 billion versus \$10.0 billion in the prior year, an increase of 12 percent, reflecting a 7 percent net increase from portfolio changes, principally the Danisco acquisition, and an 8 percent increase in local prices, partly offset by 2 percent lower volume and a 1 percent sales reduction from currency impact. The 2 percent decline in total company volume reflects strong Agriculture segment volume gains in all regions offset by lower volume for most segments in Asia Pacific. Lower volume in Asia Pacific resulted from weaker market demand for titanium dioxide, electronic materials and polymers. Sales in developing markets totaling \$3.4 billion improved 15 percent from 2011 including the benefit from portfolio changes. The percentage of total company sales in these markets increased to 31 percent from 30 percent in the prior year.

The table below shows a regional breakdown of net sales based on location of customers and percentage variances from the prior year:

	Three Months Ended March 31, 2012		Percent Change Due to:			
	Net Sales (\$ Billions)	Percent Change vs. 2011	Local Price	Currency Effect	Volume	Portfolio
Worldwide	\$ 11.2	12	8	(1)(2)7
U.S. & Canada	4.8	13	9	—	—	4
Europe, Middle East & Africa (EMEA)	3.2	14	8	(3)(1)10
Asia Pacific	2.0	—	4	1	(13)8
Latin America	1.2	23	15	(3)4	7

Other Income, Net

Other income, net, totaled \$26 million for the first quarter 2012, essentially flat compared to \$25 million in the prior year.

Additional information related to the company's other income, net, is included in Note 2 to the interim Consolidated Financial Statements.

Cost of Goods Sold and Other Operating Charges (COGS)

COGS totaled \$7.5 billion in the first quarter 2012 versus \$6.8 billion in the prior year, an increase of 10 percent. COGS as a percent of net sales decreased 1 percentage point to 67 percent, principally reflecting higher selling prices and productivity improvements more than offsetting raw material, energy and freight costs, which were up about 7 percent as compared to the same period last year.

Selling, General and Administrative Expenses (SG&A)

SG&A totaled \$1.2 billion for the first quarter 2012 versus \$1.0 billion in the prior year. The increase was due to additional selling expense of acquired companies and increased global commissions and selling and marketing investments primarily in the Agriculture segment. SG&A was approximately 10 percent of net sales for the first quarter 2012 and 2011.

Research and Development Expense (R&D)

R&D totaled \$505 million for the first quarter 2012 compared to \$399 million in 2011. The increase was primarily due to the addition of R&D from acquired companies and continued growth investments in the Agriculture segment, primarily related to spending for development of new products. R&D was approximately 4 percent of net sales for the first quarter 2012 and 2011.

Interest Expense

Interest expense totaled \$114 million in the first quarter 2012 compared to \$100 million in 2011. The increase was primarily due to higher average debt resulting from financing for the Danisco acquisition, partially offset by lower interest rates.

Provision for Income Taxes

The company's effective tax rate for the first quarter 2012 was 22.7 percent as compared to 15.2 percent in 2011. The higher effective tax rate in 2012 versus 2011 principally relates to the tax impact associated with the company's policy of hedging the foreign currency-denominated monetary assets and liabilities of its operations and geographic mix of earnings.

See Note 3 to the interim Consolidated Financial Statements for additional information.

Table of Contents

Net Income Attributable to DuPont

Net income attributable to DuPont for the first quarter 2012 was \$1.5 billion versus \$1.4 billion in the first quarter 2011, a 4 percent increase for the reasons noted above.

Segment Reviews

Summarized below are comments on individual segment sales and pre-tax operating income (loss) (PTOI) for the three month period ended March 31, 2012 compared with the same period in 2011. Segment sales include transfers to another business segment. Products are transferred between segments on a basis intended to reflect, as nearly as practicable, the market value of the products. Segment PTOI is defined as operating income (loss) before income taxes, exchange gains (losses), corporate expenses and interest. All references to selling prices are on a U.S. dollar (USD) basis, including the impact of currency. A reconciliation of segment sales to consolidated net sales and segment PTOI to income before income taxes for the three month periods ended March 31, 2012 and 2011 is included in Note 11 to the interim Consolidated Financial Statements.

The following table summarizes first quarter 2012 segment sales and related variances versus prior year:

	Three Months Ended		Percentage Change Due to:		
	March 31, 2012				
Segment	Percent	Selling Price			
Sales	Change vs.	Volume			
(\$ Billions)	2011	Portfolio and Other			
Agriculture	\$4.1	16	8	8	—
Electronics & Communications	0.7	(17) 1	(18)—
Industrial Biosciences	0.3	nm	nm	nm	nm
Nutrition & Health	0.8	149	—	(5) 154
Performance Chemicals	1.9	6	16	(10)—
Performance Coatings	1.1	6	6	—	—
Performance Materials	1.6	(6) 6	(10) (2)
Safety & Protection	0.9	(2) 3	(5)—

nm - not meaningful

Agriculture - Sales of \$4.1 billion were up \$576 million, or 16 percent, with 8 percent price and 8 percent volume gains. Seed sales of \$3.2 billion grew 20 percent reflecting strong global performance with robust North American corn sales, a strong, early start to the European season and commercial success in Brazil's Safrinha season. Crop Protection product sales of \$0.9 billion increased 7 percent underpinned by particular strength in insect control product volumes and price gains across the portfolio. PTOI of \$1.3 billion improved 14 percent on higher volume and price partially offset by input cost increases, unfavorable currency impact, higher spending for growth investments and a \$50 million charge related to Imprelis® herbicide claims. See Note 7 to the interim Consolidated Financial Statements for more information related to this matter.

Electronics & Communications - Sales of \$677 million were down 17 percent on 18 percent lower volume. Sales reflect continued soft demand in photovoltaics, partially offset by increased demand for smart phones and tablets. Although photovoltaic sales were lower compared to the same period last year, there was sequential growth from the fourth quarter 2011. PTOI of \$33 million declined \$78 million from lower volume and plant utilization.

Industrial Biosciences - Sales of \$288 million and PTOI of \$41 million primarily reflect the acquisition of Danisco's enzyme business. PTOI includes \$5 million of amortization expense associated with the fair value step-up of acquired intangible assets.

Nutrition & Health - Sales of \$808 million increased \$484 million and PTOI of \$83 million was up \$58 million reflecting the benefits from the integration and cost synergies related to the Danisco specialty food ingredients acquisition. PTOI includes \$21 million of amortization expense associated with the fair value step-up of acquired intangible assets.

Performance Chemicals - Sales of \$1.9 billion were up 6 percent, with 16 percent higher selling prices and 10 percent lower volume. Higher selling prices more than offset higher raw material costs. Lower volume reflects continued softness in titanium dioxide, particularly in Asia Pacific. Global demand for titanium dioxide increased sequentially from the fourth quarter 2011. PTOI of \$512 million increased \$118 million on higher selling prices and continued productivity actions.

Table of Contents

Performance Coatings - Sales of \$1.1 billion were up 6 percent on higher selling prices. Higher selling prices across all regions and market segments offset higher raw material costs. Automotive builds were up globally. Continued strong demand in OEM motor vehicle and industrial coatings, particularly in the North American heavy duty truck market, was offset by softening in refinish primarily in southern Europe. PTOI of \$87 million increased \$22 million on higher selling prices, mix enrichment and continued productivity actions.

Performance Materials - Sales of \$1.6 billion were down 6 percent, with 10 percent lower volume and a 2 percent reduction from a portfolio change partially offset by 6 percent higher selling prices. Demand improved in the automotive market, particularly in North America, but was more than offset by continued softness in the industrial and electronic markets. Although volume was down compared to the same period last year, there was sequential growth from the fourth quarter 2011. Higher selling prices offset higher raw material costs. PTOI of \$240 million decreased \$48 million due to lower volume.

Safety & Protection - Sales of \$941 million were down 2 percent, with 5 percent lower volume partially offset by 3 percent higher selling prices. Volume was lower on continued softness in industrial markets. Higher selling prices reflect value-based pricing. PTOI of \$100 million decreased \$45 million on lower volume and higher spending for growth initiatives primarily related to costs associated with operating the new Kevlar® aramids Cooper River plant.

Pharmaceuticals - PTOI was \$27 million compared to \$50 million in the same period last year. Decreased PTOI reflects the expiration of certain patents for Cozaar®/Hyzaar®.

Liquidity & Capital Resources

(Dollars in millions)	March 31, 2012	December 31, 2011
Cash, cash equivalents and marketable securities	\$3,601	\$4,019
Total debt	14,825	12,553

The company believes its ability to generate cash from operations and access to capital markets will be adequate to meet anticipated cash requirements to fund working capital, capital spending, dividend payments, debt maturities and other cash needs. The company's liquidity needs can be met through a variety of sources, including: cash provided by operating activities, cash and cash equivalents, marketable securities, commercial paper, syndicated credit lines, bilateral credit lines, equity and long-term debt markets and asset sales. The company's current strong financial position, liquidity and credit ratings provide excellent access to the capital markets. In addition, spending and capital productivity actions have been implemented. The company will continue to monitor the financial markets in order to respond to changing conditions. Depending on these conditions, the proceeds of commercial paper may be invested in cash equivalents or marketable securities.

Pursuant to its cash discipline policy, the company seeks first to maintain a strong balance sheet and second, to return excess cash to shareholders unless the opportunity to invest for growth is compelling. Cash, cash equivalents and marketable securities provide primary liquidity to support all short-term obligations. A substantial majority of the company's cash, cash equivalents and marketable securities is held by foreign subsidiaries and is considered to be indefinitely reinvested and expected to be utilized to fund local operating activities and capital expenditure requirements. The company believes that it has sufficient sources of domestic liquidity to further support its assumption that undistributed earnings at March 31, 2012 can be considered reinvested indefinitely. The company has access to approximately \$4.3 billion in unused credit lines with several major financial institutions, as additional support to meet short-term liquidity needs and general corporate purposes, including letters of credit.

The company continually reviews its debt portfolio and occasionally may rebalance it to ensure adequate liquidity and an optimum debt maturity schedule.

The company's credit ratings impact its access to the debt capital market and cost of capital. The company remains committed to a strong financial position and strong investment-grade rating. The company's long-term and short-term credit ratings are as follows:

	Long-term	Short-term	Outlook
Standard & Poor's	A	A-1	Stable
Moody's Investors Service	A2	P-1	Stable
Fitch Ratings	A	F1	Stable

Table of Contents

Summary of Cash Flows

Cash used for operating activities was \$1.9 billion for the three months ended March 31, 2012 compared to cash used for operating activities of \$1.5 billion during the same period last year. The \$0.4 billion change was primarily due to a \$0.5 billion contribution to the U.S. pension plan.

Cash used for investing activities was \$0.2 billion for the three months ended March 31, 2012 compared to cash used for investing activities of \$1.0 billion for the same period last year. The \$0.8 billion change was primarily due to a decrease in restricted cash from the issuance of debt in connection with the Danisco acquisition, partially offset by lower proceeds from the sale of short-term financial instruments. Purchases of property, plant and equipment for the three months ended March 31, 2012 totaled \$301 million, a decrease of \$22 million compared to the same period last year.

Cash provided by financing activities was \$1.8 billion for the three months ended March 31, 2012, essentially unchanged from the \$1.9 billion provided during the same period last year.

(Dollars in millions)	Three Months Ended March 31,	
	2012	2011
Cash used for operating activities	\$(1,877	\$(1,484
Purchases of property, plant and equipment	(301	(323
Free cash flow	\$(2,178	\$(1,807

Free cash flow is a measurement not recognized in accordance with generally accepted accounting principles in the U.S. (GAAP) and should not be viewed as an alternative to GAAP measures of performance. All companies do not calculate non-GAAP financial measures in the same manner and, accordingly, the company's free cash flow definition may not be consistent with the methodologies used by other companies. The company defines free cash flow as cash provided by operating activities less purchases of property, plant and equipment, and therefore indicates operating cash flow available for payment of dividends, other investing activities and other financing activities. Free cash flow is useful to investors and management to evaluate the company's cash flow and financial performance, and is an integral financial measure used in the company's financial planning process.

Dividends paid to shareholders during the three months ended March 31, 2012 totaled \$386 million. In January 2012, the company's Board of Directors declared a first quarter common stock dividend of \$0.41 per share. The first quarter dividend was the company's 43rd consecutive quarterly dividend since the company's first dividend in the fourth quarter 1904.

In the first quarter 2012, the company entered into an agreement with a financial institution and paid \$400 million for the purchase of shares of common stock. The shares will be received by May 2012. See Note 8 to the interim Consolidated Financial Statements for additional information.

Guarantees and Off-Balance Sheet Arrangements

For detailed information related to Guarantees, Indemnifications, and Obligations for Equity Affiliates and Others, see page 31 of the company's 2011 Annual Report, and Note 7 to the interim Consolidated Financial Statements.

Contractual Obligations

Information related to the company's contractual obligations at December 31, 2011 can be found on page 31 of the company's 2011 Annual Report. There have been no significant changes to the company's contractual obligations during the three months ended March 31, 2012.

PFOA

See discussion under “PFOA” on page 35 of the company's 2011 Annual Report and Note 7 to the interim Consolidated Financial Statements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

See Note 9, “Financial Instruments”, to the interim Consolidated Financial Statements. See also Part II, Item 7A, Quantitative and Qualitative Disclosures About Market Risk, on pages 35 - 36 of the company's 2011 Annual Report for information on the company's utilization of financial instruments and an analysis of the sensitivity of these instruments.

Item 4. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures

The company maintains a system of disclosure controls and procedures to give reasonable assurance that information required to be disclosed in the company's reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. These controls and procedures also give reasonable assurance that information required to be disclosed in such reports is accumulated and communicated to management to allow timely decisions regarding required disclosures.

As of March 31, 2012, the company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO), together with management, conducted an evaluation of the effectiveness of the company's disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based on that evaluation, the CEO and CFO concluded that these disclosure controls and procedures are effective.

b) Changes in Internal Control over Financial Reporting

There has been no change in the company's internal control over financial reporting that occurred during the quarter ended March 31, 2012 that has materially affected or is reasonably likely to materially affect the company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The company is subject to various litigation matters, including, but not limited to, product liability, patent infringement, antitrust claims, and claims for third party property damage or personal injury stemming from alleged environmental torts. Information regarding certain of these matters is set forth below and in Note 7 to the interim Consolidated Financial Statements.

Litigation

Imprelis® Herbicide Claims Process

Information related to this matter is included in Note 7 to the interim Consolidated Financial Statements under the heading Imprelis®.

PFOA: Environmental and Litigation Proceedings

For purposes of this report, the term PFOA means collectively perfluorooctanoic acid and its salts, including the ammonium salt and does not distinguish between the two forms. Information related to this matter is included in Note 7 to the interim Consolidated Financial Statements under the heading PFOA.

Environmental Proceedings

Belle Plant, West Virginia

The U.S. Environmental Protection Agency (EPA) is investigating three chemical releases at DuPont's Belle facility in West Virginia which occurred in January 2010. One of the releases involved the death of a DuPont employee after exposure to phosgene.

Chambers Works Plant, Deepwater, New Jersey

In 2010, the government initiated an enforcement action alleging that the facility violated recordkeeping requirements of certain provisions of the Clean Air Act (CAA) and the Federal Clean Air Act Regulations (FCAR) governing Leak Detection and Reporting and that it failed to report emissions of a compound from Chambers Works' waste water treatment facility under the Emergency Planning and Community Right-to-Know Act. The alleged non-compliance was identified by EPA in 2007 and 2009 following separate environmental audits. DuPont is in settlement negotiations with EPA and the Department of Justice (DOJ).

Yerkes Plant, Buffalo, New York

The government alleges that the facility violated recordkeeping requirements of certain provisions of the CAA and the FCAR governing Leak Detection and Reporting and that it failed to accurately report emissions under the Emergency Planning and Community Right-to-Know Act. The alleged non-compliance was identified by EPA in 2006 and 2010 following separate environmental audits. DuPont is in settlement negotiations with EPA and DOJ.

LaPorte Plant, LaPorte, Texas

EPA conducted a multimedia inspection at the LaPorte facility in January of 2008. DuPont, EPA and DOJ began discussions in the fall of 2011 relating primarily to the management of certain materials in the facility's wastewater treatment system. These negotiations continue.
