NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of Presentation

The consolidated balance sheet of Graco Inc. and Subsidiaries (the "Company") as of June 30, 2017 and the related statements of earnings and comprehensive income for the three and six months ended June 30, 2017 and June 24, 2016, and cash flows for the six months ended June 30, 2017 and June 24, 2016 have been prepared by the Company and have not been audited.

In the opinion of management, these consolidated financial statements reflect all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position of the Company as of June 30, 2017, and the results of operations and cash flows for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. Therefore, these statements should be read in conjunction with the financial statements and notes thereto included in the Company's 2016 Annual Report on Form 10-K.

The results of operations for interim periods are not necessarily indicative of results that will be realized for the full fiscal year.

2. Earnings per Share

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share amounts):

	Three Months Ended		Six Months Ended	
	June 30, 2017	June 24, 2016	June 30, 2017	June 24, 2016
Net earnings available to common shareholders	\$79,828	\$50,947	\$140,560	\$90,499
Weighted average shares outstanding for basic earnings per share	55,801	55,634	55,785	55,514
Dilutive effect of stock options computed using the treasury stock method and the average market price	2,126	1,406	2,035	1,361
Weighted average shares outstanding for diluted earnings per share	57,927	57,040	57,820	56,875
Basic earnings per share	\$1.43	\$0.92	\$2.52	\$1.63
Diluted earnings per share	\$1.38	\$0.89	\$2.43	\$1.59

Stock options to purchase 267,000 and 509,000 shares were not included in the June 30, 2017 and June 24, 2016 computations of diluted earnings per share, respectively, because they would have been anti-dilutive.

Table of Contents

The Company recognized year-to-date share-based compensation of \$13.5 million in 2017 and \$12.7 million in 2016. As of June 30, 2017, there was \$16.2 million of unrecognized compensation cost related to unvested options, expected to be recognized over a weighted average period of 2.2 years.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions and results:

	Six Months Ended			
	June 30, 2017		June 24, 2016	
Expected life in years	7.0		7.0	
Interest rate	2.2	% 1.4	%	%
Volatility	26.7	% 30.1	%	%
Dividend yield	1.6	% 1.8	%	%
Weighted average fair value per share	\$24.23		\$19.00	

Under the Company's Employee Stock Purchase Plan, the Company issued 167,000 shares in 2017 and 170,000 shares in 2016. The fair value of the employees' purchase rights under this Plan was estimated on the date of grant. The benefit of the 15 percent discount from the lesser of the fair market value per common share on the first day and the last day of the plan year was added to the fair value of the employees' purchase rights determined using the Black-Scholes option-pricing model with the following assumptions and results:

	Six Months Ended			
	June 30, 2017		June 24, 2016	
Expected life in years	1.0		1.0

On February 21, 2017, the Company entered into an accelerated share repurchase arrangement (“ASR”) with a financial institution. In exchange for an up-front payment of \$90 million, the financial institution delivered 850,000 shares of Company common stock with a fair value of \$78 million. The total number of shares ultimately delivered under the ASR is determined at the end of the purchase period (up to five months, but not less than two months) based on the volume weighted-average price (“VWAP”) of the Company’s common stock during that period. Subsequent to the end of the second quarter, the purchase period ended and the Company received an additional 31,499 shares to complete the ASR at an average realized price of \$102.10 per share.

The Company accounted for the up-front payment as a reduction of shareholders’ equity in the period made. Shares received under the ASR were retired and reflected as a reduction of outstanding shares on the date delivered for purposes of calculating earnings per share. The forward contract aspect of the ASR met all of the applicable criteria for equity classification, and therefore was accounted for as a derivative indexed to the Company’s equity.

9. Other Current Liabilities

Components of other current liabilities were (in thousands):

	June 30, December 30,	
	2017	2016
Accrued self-insurance retentions	\$7,182	\$ 7,105
Accrued warranty and service liabilities	9,650	8,934
Accrued trade promotions	6,821	6,007

Income taxes payable	3,562	8,608
Other	25,226	22,505
Total	\$74,623	\$ 71,887

The Company manages certain self-insured loss exposures through a wholly-owned captive insurance subsidiary. Cash balances of \$8.3 million as of June 30, 2017 and \$9.2 million as of December 30, 2016 were restricted to funding of the captive's loss reserves and are included within other current assets on the Company's Consolidated Balance Sheets.

A liability is established for estimated future warranty and service claims that relate to current and prior period sales. The Company estimates warranty costs based on historical claim experience and other factors including evaluating specific product warranty issues. Following is a summary of activity in accrued warranty and service liabilities (in thousands):

Balance, December 30, 2016	\$8,934
Charged to expense	3,733
Margin on parts sales reversed	1,298
Reductions for claims settled	(4,315)
Balance, June 30, 2017	\$9,650

10. Fair Value

Assets and liabilities measured at fair value on a recurring basis and fair value measurement level were as follows (in thousands):

	Level	June 30, December 30,	
		2017	2016
Assets			
Cash surrender value of life insurance	2	\$ 14,883	\$ 13,785
Forward exchange contracts	2	—	571
Total assets at fair value		\$ 14,883	\$ 14,356
Liabilities			
Contingent consideration	3	\$ 4,081	\$ 4,081
Deferred compensation	2	3,527	3,265
Forward exchange contracts	2	272	—
Total liabilities at fair value		\$ 7,880	\$ 7,346

Contracts insuring the lives of certain employees who are eligible to participate in certain non-qualified pension and deferred compensation plans are held in trust. Cash surrender value of the contracts is based on performance measurement funds that shadow the deferral investment allocations made by participants in certain deferred compensation plans. The deferred compensation liability balances are valued based on amounts allocated by participants to the underlying performance measurement funds.

Contingent consideration liability represents the estimated value (using a probability-weighted expected return approach) of future payments to be made to previous owners of an acquired business based on future revenues.

Table of Contents

Long-term notes payable with fixed interest rates have a carrying amount of \$300 million (including \$75 million classified as current) and an estimated fair value of \$325 million as of June 30, 2017 and \$325 million as of December 30, 2016. The fair value of variable rate borrowings approximates carrying value. The Company uses significant other observable inputs to estimate fair value (level 2 of the fair value hierarchy) based on the present value of future cash flows and rates that would be available for issuance of debt with similar terms and remaining maturities.

11.Recent Accounting Pronouncements

A new accounting standard that changed certain aspects of accounting for share-based payments became effective for the Company in the first quarter of 2017. Excess tax benefits on exercised stock options that were previously credited to equity now reduce the current income tax provision. For the quarter, the change in accounting for excess tax benefits decreased the current income tax provision and increased net earnings by \$13.6 million, reduced the effective income tax rate by 14 percentage points, increased the number of diluted average shares outstanding by 0.5 million and increased diluted earnings per share by \$0.23. For the year to date, the change in accounting for excess tax benefits decreased the current income tax provision and increased net earnings by \$17.2 million, reduced the effective income tax rate by 10 percentage points, increased the number of diluted average shares outstanding by 0.5 million and increased diluted earnings per share by \$0.28. Under the new standard, excess tax benefits are no longer reclassified out of cash flows from operating activities to financing activities in the Consolidated Statements of Cash Flows. We elected to apply the cash flow presentation requirements retrospectively to all periods presented, which resulted in a year-to-date increase in previously reported net cash provided by operating activities and a decrease in net cash provided by financing activities of \$5.5 million for the six months ended June 24, 2016. Also under the new standard, the Company elected to account for share-based grant forfeitures as they occur. The impact of the change in accounting for forfeitures was not significant, and was reflected in share-based compensation cost in the first quarter.

In May 2014, the Financial Accounting Standards Board (FASB) issued a final standard on revenue from contracts with customers. The new standard sets forth a single comprehensive model for recognizing and reporting revenue. The new standard will become effective for the Company beginning with the first quarter of 2018, and the Company plans to adopt the accounting standard using the modified retrospective transition approach. The modified retrospective transition approach will recognize any changes from the beginning of the year of initial application through retained earnings with no restatement of comparative periods.

We have established an implementation team and engaged a third-party consultant to assist with our assessment of the impact of the new revenue guidance on our operations, consolidated financial statements and related disclosures. To date, this assessment has included (1) utilizing questionnaires to assist with the identification of our revenue streams, (2) performing sample contract analyses for each revenue stream identified, (3) assessing the noted differences in recognition and measurement that may result from adopting this new standard, (4) performing detailed analyses of contracts with larger customers, and (5) developing plans to test transactions for consistency with contract provisions that affect revenue recognition. Based on the preliminary results of the evaluation, which is still in process, nothing has come to our attention that would indicate that adoption of the new standard will have a material impact on our consolidated financial statements. However, given our acquisition strategy, there may be additional revenue streams acquired prior to the adoption date. We currently believe the most significant potential changes relate to variable consideration and whether certain contracts' revenues will be recognized over time or at a point in time, although our technical analysis of these potential impacts is still on-going. We also anticipate changes to the consolidated balance sheet related to accounts receivable, contract assets, and contract liabilities.

We are in the process of evaluating and designing the necessary changes to our business processes, systems and controls to support recognition and disclosure under the new standard. Further, we are continuing to assess what incremental disaggregated revenue disclosures will be required in our consolidated financial statements.

In March 2017, the FASB issued a final standard that changes the presentation of net periodic benefit cost related to defined benefit plans. The Company will adopt the standard when it becomes effective in fiscal 2018 and it will be applied retrospectively to all periods presented. Under the new standard, net periodic benefit costs are required to be disaggregated between service costs presented as operating expenses and other components of pension costs presented as non-operating expenses. The Company currently charges service costs to segment operations and includes other components of pension cost in unallocated corporate operating expenses. Under the new standard, unallocated corporate operating expenses will decrease, operating earnings will increase and other expense will increase by the amount of other (non-service) components of pension cost. There will be no impact on reported segment earnings, net earnings or earnings per share.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The Company designs, manufactures and markets systems and equipment to move, measure, control, dispense and spray fluid and coating materials. Management classifies the Company's business into three reportable segments: Industrial, Process and Contractor. Key strategies include developing and marketing new products, leveraging products and technologies into additional, growing end-user markets, expanding distribution globally and completing strategic acquisitions that provide additional channel and technologies.

The following Management's Discussion and Analysis reviews significant factors affecting the Company's results of operations and financial condition. This discussion should be read in conjunction with the financial statements and the accompanying notes to the financial statements.

Consolidated Results

A summary of financial results follows (in millions except per share amounts):

	Three Months Ended			Six Months Ended		
	June 30, 2017	June 24, 2016	% Change	June 30, 2017	June 24, 2016	% Change
Net Sales	\$379.5	\$348.1	9 %	\$720.1	\$653.0	10 %
Operating Earnings	98.8	78.3	26 %	184.6	139.3	33 %
Net Earnings	79.8	50.9	57 %	140.6	90.5	55 %
Diluted Net Earnings per Common Share	\$1.38	\$0.89	55 %	\$2.43	\$1.59	53 %

Solid sales growth combined with improved gross margins and lower operating expenses levered operating earnings to increases of 26 percent and 33 percent for the quarter and year to date, respectively. Diluted earnings per share include \$0.23 for the quarter and \$0.28 for the year to date from a required change in accounting for stock compensation. Increases in diluted earnings per share include \$0.01 for the quarter and \$0.02 for the year to date from reduced amortization expense resulting from the impairment charge recorded in the fourth quarter of 2016.

The following table presents an overview of components of net earnings as a percentage of net sales:

Consolidated	10%	0%	(1)%	9%	12%	0%	(2)%	10%

Gross Profit

Gross profit margin rate increased by one-half percentage point for the quarter and one percentage point for the year to date. Favorable effects from higher production volume and realized pricing were partially offset by unfavorable impacts of currency translation and product mix.

Operating Expenses

Total operating expenses for the quarter and year to date were slightly lower than last year. Year-to-date reductions from the impact of currency translation, decreased amortization expense and lower unallocated corporate expenses (mostly central warehouse) more than offset volume and rate-related increases.

Income Taxes

The effective income tax rate for the quarter was 17 percent, down from 31 percent last year. The effective income tax rate for the year to date was 21 percent, down from 31 percent last year. Adoption of a new accounting standard, requiring excess tax benefits related to stock option exercises to be credited to the income tax provision (formerly credited to equity), reduced the tax provision by \$13.6 million for the quarter and \$17.2 million for the year to date, decreasing the effective tax rate for the quarter and year to date by 14 and 10 percentage points, respectively.

Segment Results

Certain measurements of segment operations compared to last year are summarized below:

Industrial Segment

The following table presents net sales and operating earnings as a percentage of sales for the Industrial segment (dollars in millions):

	Three Months Ended		Six Months Ended	
	June 30, 2017	June 24, 2016	June 30, 2017	June 24, 2016

Segment Total	13%	0%	(2)%	11%	10%	1%	(2)%	9%

Sales increased in all Industrial segment product applications. Year-to-date operating margin rate for the Industrial segment increased 3 percentage points compared to last year. Favorable effects of higher sales volume, improved gross margin rate and expense leverage were partially offset by the unfavorable effect of currency translation.

Process Segment

The following table presents net sales and operating earnings as a percentage of sales for the Process segment (dollars in millions):

	Three Months Ended		Six Months Ended	
	June 30, 2017	June 24, 2016	June 30, 2017	June 24, 2016

Segment Total	15%	0%	(2)%	13%	13%	0%	(2)%	11%

The Process segment had solid sales growth across most product applications, partially offset by the effects of continued weakness in Oil and Natural Gas. Operating margin rates for this segment increased 7 percentage points compared to last year due to higher sales volume, favorable expense leverage and a decrease in intangible amortization related to the impairment recorded in the fourth quarter of 2016.

Contractor Segment

The following table presents net sales and operating earnings as a percentage of sales for the Contractor segment (dollars in millions):

	Three Months Ended		Six Months Ended	
	June 30, 2017	June 24, 2016	June 30, 2017	June 24, 2016

Asia Pacific	7%	0%	(1)%	6%	4%	0%	0%	4%
Segment Total	5%	0%	(1)%	4%	12%	0%	0%	12%

Contractor segment sales increased 4 percent compared to second quarter last year, which included new product launches that created a tough comparable for this year. Operating margin rates for the Contractor segment increased 3 percentage points compared to last year due to higher sales volume, improved gross margin rate and favorable expense leverage.

Liquidity and Capital Resources

Net cash provided by operating activities of \$136 million increased \$42 million compared to the first half of last year, mostly driven by the increase in net earnings. Increases in accounts receivable, inventories and accrued liabilities reflect growth in business activity in the first half of 2017. The Company used cash of \$10 million in 2017 and \$49 million in 2016 to acquire businesses that were not material to the consolidated financial statements. Other significant uses of cash in 2017 included share repurchases of \$90 million (partially offset by \$36 million of net proceeds from shares issued), cash dividends of \$40 million and property, plant and equipment additions of \$17 million.

At June 30, 2017, cash balances of \$8 million were restricted to funding of certain self-insured loss reserves. Restricted cash is included within other current assets on the Company's consolidated balance sheet.

Table of Contents

At June 30, 2017, the Company had various lines of credit totaling \$547 million, of which \$525 million was unused. Internally generated funds and unused financing sources are expected to provide the Company with the flexibility to meet its liquidity needs in 2017.

Outlook

Demand in the second quarter remained broad-based across products and geographies and continues to exceed our expectations. As a result, we are raising our full-year 2017 outlook to mid-to-high single-digit organic sales growth on a constant currency basis worldwide, from a prior outlook of mid single-digit growth. We expect to achieve mid-to-high single-digit growth in each geographic region for the full year 2017.

Cautionary Statement Regarding Forward-Looking Statements

The Company desires to take advantage of the “safe harbor” provisions regarding forward-looking statements of the Private Securities Litigation Reform Act of 1995 and is filing this Cautionary Statement in order to do so. From time to time various forms filed by our Company with the Securities and Exchange Commission, including our Form 10-K, Form 10-Qs and Form 8-Ks, and other disclosures, including our 2016 Overview report, press releases, earnings releases, analyst briefings, conference calls and other written documents or oral statements released by our Company, may contain forward-looking statements. Forward-looking statements generally use words such as “expect,” “foresee,” “anticipate,” “believe,” “project,” “should,” “estimate,” “will,” and similar expressions, and reflect our Company’s expectations concerning the future. All forecasts and projections are forward-looking statements. Forward-looking statements are based upon currently available information, but various risks and uncertainties may cause our Company’s actual results to differ materially from those expressed in these statements. The Company undertakes no obligation to update these statements in light of new information or future events.

Future results could differ materially from those expressed due to the impact of changes in various factors. These risk factors include, but are not limited to: our Company’s growth strategies, which include making acquisitions, investing in new products, expanding geographically and targeting new industries; economic conditions in the United States and other major world economies; changes in currency translation rates; changes in laws and regulations; compliance with anti-corruption and trade laws; new entrants who copy our products or infringe on our intellectual property; risks incident to conducting business internationally; the ability to meet our customers’ needs and changes in product demand; supply interruptions or delays; security breaches; the possibility of asset impairments if acquired businesses do not meet performance expectations; political instability; results of and costs associated with litigation, administrative proceedings and regulatory reviews incident to our business as well as indemnification claims under our asset purchase agreement with Carlisle Companies Incorporated, Carlisle Fluid Technologies, Inc., and Finishing Brands Holdings Inc.; the possibility of decline in purchases from few large customers of the Contractor segment; variations in activity in the construction, automotive, mining and oil and natural gas industries; our ability to attract, develop and retain qualified personnel; and catastrophic events. Please refer to Item 1A of our Annual Report on Form 10-K for fiscal year 2016 for a more comprehensive discussion of these and other risk factors. These reports are available on the Company’s website at www.graco.com and the Securities and Exchange Commission’s website at www.sec.gov. Shareholders, potential investors and other readers are urged to consider these factors in evaluating forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements.

Investors should realize that factors other than those identified above and in Item 1A might prove important to the Company’s future results. It is not possible for management to identify each and every factor that may have an impact on the Company’s operations in the future as new factors can develop from time to time.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes related to market risk from the disclosures made in the Company's 2016 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

As of the end of the fiscal quarter covered by this report, the Company carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures. This evaluation was done under the supervision and with the participation of the Company's President and Chief Executive Officer, the Chief Financial Officer and Treasurer, the Vice President, Controller and Information Systems, and the Vice President, General Counsel and Secretary. Based upon that evaluation, they concluded that the Company's disclosure controls and procedures are effective.

Changes in internal controls

During the quarter, there was no change in the Company's internal control over financial reporting that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes to the Company's risk factors from those disclosed in the Company's 2016 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

On April 24, 2015, the Board of Directors authorized the Company to purchase up to 6,000,000 shares of its outstanding common stock, primarily through open-market transactions. The authorization is for an indefinite period of time or until terminated by the Board.

In addition to shares purchased under the Board authorizations, the Company purchases shares of common stock held by employees who wish to tender owned shares to satisfy the exercise price or tax due upon exercise of options or vesting of restricted stock.

No shares were purchased in the second quarter of 2017. As of June 30, 2017, there were 2,967,367 shares that may yet be purchased under the Board authorization.
