As of October 21, 2016, 94,761,691 of Corporate Office Properties Trust's Common Shares of Beneficial Interest, \$0.01 par value, were issued and outstanding.

#### EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended September 30, 2016 of Corporate Office Properties Trust ("COPT") and subsidiaries (collectively, the "Company") and Corporate Office Properties, L.P. ("COPLP") and subsidiaries (collectively, the "Operating Partnership"). Unless stated otherwise or the context otherwise requires, "we," "our," and "us" refer collectively to COPT, COPLP and their subsidiaries.

COPT is a real estate investment trust, or REIT, and the sole general partner of COPLP. As of September 30, 2016, COPT owned approximately 96.3% of the outstanding common units and approximately 95.5% of the outstanding preferred units in COPLP; the remaining common and preferred units in COPLP were owned by third parties. As the sole general partner of COPLP, COPT controls COPLP and can cause it to enter into major transactions including acquisitions, dispositions and refinancings and cause changes in its line of business, capital structure and distribution policies.

There are a few differences between the Company and the Operating Partnership which are reflected in this Form 10-Q. We believe it is important to understand the differences between the Company and the Operating Partnership in the context of how the Company and the Operating Partnership operate as an interrelated, consolidated company. COPT is a real estate investment trust, whose only material asset is its ownership of partnership interests of COPLP. As a result, COPT does not conduct business itself, other than acting as the sole general partner of COPLP, issuing public equity from time to time and guaranteeing certain debt of COPLP. COPT itself is not directly obligated under any indebtedness but guarantees some of the debt of COPLP. COPLP owns substantially all of the assets of COPT either directly or through its subsidiaries, conducts almost all of the operations of the business and is structured as a limited partnership with no publicly traded equity. Except for net proceeds from public equity issuances by COPT, which are contributed to COPLP in exchange for partnership units, COPLP generates the capital required by COPT's business through COPLP's operations, by COPLP's direct or indirect incurrence of indebtedness or through the

issuance of partnership units.

Noncontrolling interests and shareholders' equity and partners' capital are the main areas of difference between the consolidated financial statements of COPT and those of COPLP. The common limited partnership interests in COPLP not owned by COPT are accounted for as partners' capital in COPLP's consolidated financial statements and as noncontrolling interests in COPT's consolidated financial statements. COPLP's consolidated financial statements also reflect COPT's noncontrolling interests in certain real estate partnerships, limited liability companies ("LLCs"), business trusts and corporations; the differences between shareholders' equity, partners' capital and noncontrolling interests result from the differences in the equity issued at the COPT and COPLP levels and in COPT's noncontrolling interests in these real estate partnerships, LLCs, business trusts and corporations. The only other significant differences between the consolidated financial statements of COPT and those of COPLP are assets in connection with a non-qualified elective deferred compensation plan

(comprised primarily of mutual funds and equity securities) and the corresponding liability to the plan's participants that are held directly by COPT.

We believe combining the quarterly reports on Form 10-Q of the Company and the Operating Partnership into this single report results in the following benefits:

combined reports better reflect how management and the analyst community view the business as a single operating unit;

combined reports enhance investors' understanding of the Company and the Operating Partnership by enabling them to view the business as a whole and in the same manner as management;

combined reports are more efficient for the Company and the Operating Partnership and result in savings in time, effort and expense; and

combined reports are more efficient for investors by reducing duplicative disclosure and providing a single document for their review.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership: consolidated financial statements;

the following notes to the consolidated financial statements:

Note 3, Fair Value Measurements of COPT and subsidiaries and COPLP and subsidiaries; and

Note 14, Earnings per Share of COPT and subsidiaries and Earnings per Unit of COPLP and subsidiaries;

"Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources of COPT"; and

"Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources of COPLP."

This report also includes separate sections under Part I, Item 4. Controls and Procedures and separate Exhibit 31 and Exhibit 32 certifications for each of COPT and COPLP to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that COPT and COPLP are compliant with Rule 13a-15 and Rule 15d-14 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and 18 U.S.C. §1350.

See accompanying notes to consolidated financial statements.

Corporate Office Properties Trust and Subsidiaries and Corporate Office Properties, L.P. and Subsidiaries Notes to Consolidated Financial Statements (unaudited)

1. Organization

Corporate Office Properties Trust ("COPT") and subsidiaries (collectively, the "Company") is a fully-integrated and self-managed real estate investment trust ("REIT"). Corporate Office Properties, L.P. ("COPLP") and subsidiaries (collectively, the "Operating Partnership") is the entity through which COPT, the sole general partner of COPLP, conducts almost all of its operations and owns almost all of its assets. Unless otherwise expressly stated or the context otherwise requires, "we", "us" and "our" as used herein refer to each of the Company and the Operating Partnership. We own, manage, lease, develop and selectively acquire office and data center properties. The majority of our portfolio is in locations that support United States Government agencies and their contractors, most of whom are engaged in national security, defense and information technology ("IT") related activities servicing what we believe are growing, durable priority missions ("Defense/IT Locations"). We also own a complementary portfolio of traditional office properties located in select urban/urban-like submarkets within our regional footprint with durable Class-A office fundamentals and characteristics, as well as other properties supporting general commercial office tenants ("Regional Office"). As of September 30, 2016, our properties included the following:

168 operating office properties totaling 17.5 million square feet, including 12 triple-net leased, single-tenant data center properties. We owned six of these properties through an unconsolidated real estate joint venture;
10 office properties under, or contractually committed for, construction or redevelopment that we estimate will total approximately 1.2 million square feet upon completion, including two partially operational properties included above and two properties completed but held for future lease to the United States Government;
4,358 acres of land we control that we believe could be developed into approximately 16.2 million square feet; and a wholesale data center with a critical load of 19.25 megawatts.

COPLP owns real estate both directly and through subsidiary partnerships and limited liability companies ("LLCs"). In addition to owning real estate, COPLP also owns subsidiaries that provide real estate services such as property management and construction and development services primarily for our properties but also for third parties. Some of these services are performed by a taxable REIT subsidiary ("TRS").

Equity interests in COPLP are in the form of common and preferred units. As of September 30, 2016, COPT owned 96.3% of the outstanding COPLP common units ("common units") and 95.5% of the outstanding COPLP preferred units ("preferred units"); the remaining common and preferred units in COPLP were owned by third parties. Common units in COPLP not owned by COPT carry certain redemption rights. The number of common units in COPLP owned by COPT is equivalent to the number of outstanding common shares of beneficial interest ("common shares") of COPT, and the entitlement of all COPLP common units to quarterly distributions and payments in liquidation is substantially the same as those of COPT common shareholders. Similarly, in the case of each series of preferred units in COPLP held by COPT, there is a series of preferred shares of beneficial interest ("preferred shares") in COPT that is equivalent in number and carries substantially the same terms as such series of COPLP preferred units. COPT's common shares are publicly traded on the New York Stock Exchange ("NYSE") under the ticker symbol "OFC".

Because COPLP is managed by COPT, and COPT conducts substantially all of its operations through COPLP, we refer to COPT's executive officers as COPLP's executive officers, and although, as a partnership, COPLP does not have a board of trustees, we refer to COPT's Board of Trustees as COPLP's Board of Trustees.

2. Summary of Significant Accounting Policies

#### Basis of Presentation

The COPT consolidated financial statements include the accounts of COPT, the Operating Partnership, their subsidiaries and other entities in which COPT has a majority voting interest and control. The COPLP consolidated financial statements include the accounts of COPLP, its subsidiaries and other entities in which COPLP has a majority voting interest and control. We also consolidate certain entities when control of such entities can be achieved through means other than voting rights ("variable interest entities" or "VIEs") if we are deemed to be the primary beneficiary of such entities. We eliminate all intercompany balances and transactions in consolidation.

We use the equity method of accounting when we own an interest in an entity and can exert significant influence over but cannot control the entity's operations. We discontinue equity method accounting if our investment in an entity (and net

advances) is reduced to zero unless we have guaranteed obligations of the entity or are otherwise committed to provide further financial support for the entity.

We use the cost method of accounting when we own an interest in an entity and cannot exert significant influence over its operations.

These interim financial statements should be read together with the consolidated financial statements and notes thereto as of and for the year ended December 31, 2015 included in our 2015 Annual Report on Form 10-K. The unaudited consolidated financial statements include all adjustments that are necessary, in the opinion of management, to fairly state our financial position and results of operations. All adjustments are of a normal recurring nature. The consolidated financial statements have been prepared using the accounting policies described in our 2015 Annual Report on Form 10-K.

#### **Recent Accounting Pronouncements**

We adopted guidance issued by the Financial Accounting Standards Board ("FASB") effective January 1, 2016 regarding the presentation of extraordinary and unusual items in statements of operations. This guidance eliminates the concept of extraordinary items. However, the presentation and disclosure requirements for items that are either unusual in nature or infrequent in occurrence remain and will be expanded to include items that are both unusual in nature and infrequent in occurrence. Our adoption of this guidance did not affect on our reported consolidated financial statements.

We adopted guidance issued by the FASB effective January 1, 2016 modifying the analysis that must be performed by us in determining whether we should consolidate certain types of legal entities. The guidance did not amend the existing disclosure requirements for VIEs or voting interest model entities. The guidance, however, modified the requirements to qualify under the voting interest model. Under the revised guidance, COPLP is considered a variable interest entity of COPT. As COPLP was already consolidated in the balance sheets of COPT, the identification of COPLP as a variable interest entity had no impact on the consolidated financial statements. There were no other legal entities qualifying under the scope of the revised guidance that were consolidated as a result of the adoption. In addition, there were no voting interest entities under prior existing guidance determined to be variable interest entities under the revised guidance.

We adopted effective January 1, 2016 guidance that eliminates the requirement to restate prior period financial statements for measurement period adjustments following a business combination. The guidance requires that the cumulative impact of a measurement period adjustment (including the impact on prior periods) be recognized in the reporting period in which the adjustment is identified. The prior period impact of the adjustment should be either presented separately on the face of the statement of operations or disclosed in the notes. Our adoption of this guidance did not affect our reported consolidated financial statements.

In May 2014, the FASB issued guidance regarding the recognition of revenue from contracts with customers. Under this guidance, an entity will recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additionally, this guidance requires improved disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. We are required to adopt this guidance for our annual and interim periods beginning January 1, 2018 using one of two methods: retrospective restatement for each reporting period presented at the time of adoption, or retrospectively with the cumulative effect of initially applying this guidance recognized at the date of initial application. We are currently assessing the financial impact of this guidance on our consolidated financial statements.

In February 2016, the FASB issued guidance that sets forth principles for the recognition, measurement, presentation and disclosure of leases. This guidance requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase of the leased asset by the lessee. The resulting classification determines whether the lease expense is recognized based on an effective interest method or straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases, direct financing leases and operating leases. This guidance is effective for reporting periods beginning after December 15, 2018, with early adoption permitted. We are currently assessing the financial impact of this guidance on our consolidated financial statements.

In March 2016, the FASB issued guidance intended to simplify certain aspects of the accounting for employee based share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities and classification on the consolidated statement of cash flows. This guidance is effective for annual periods beginning after

December 15, 2016, and interim periods within those annual periods, with early adoption permitted. We are currently assessing the financial impact of this guidance on our consolidated financial statements.

In June 2016, the FASB issued guidance that changes how entities measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. The guidance replaces the current incurred loss model with an expected loss approach, resulting in a more timely recognition of such losses. The guidance is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted after December 2018. We are currently assessing the financial impact of this guidance on our consolidated financial statements.

In August 2016, the FASB issued guidance that clarifies how entities should classify certain cash receipts and cash payments on the statement of cash flows with the objective of reducing the existing diversity in practice related to eight specific cash flow issues. The guidance is effective for annual periods beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

#### 3. Fair Value Measurements

#### Recurring Fair Value Measurements

COPT has a non-qualified elective deferred compensation plan for certain members of our management team that permits participants to defer up to 100% of their compensation on a pre-tax basis and receive a tax-deferred return on such deferrals. The assets held in the plan (comprised primarily of mutual funds and equity securities) and the corresponding liability to the participants are measured at fair value on a recurring basis on COPT's consolidated balance sheet using quoted market prices, as are other marketable securities that we hold. The balance of the plan, which was fully funded, totaled \$5.3 million as of September 30, 2016, and is included in the accompanying COPT consolidated balance sheets in the line entitled restricted cash and marketable securities. The offsetting liability associated with the plan is adjusted to fair value at the end of each accounting period based on the fair value of the plan assets and reported in other liabilities on COPT's consolidated balance sheets. The assets of the plan and other marketable securities that we hold are classified in Level 1 of the fair value hierarchy. The liability associated with the plan is classified in Level 2 of the fair value hierarchy.

The fair values of our interest rate derivatives are determined using widely accepted valuation techniques, including a discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate market data and implied volatilities in such interest rates. While we determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our interest rate derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default. However, as of September 30, 2016, we assessed the significance of the impact of the credit valuation adjustments are not significant. As a result, we determined that our interest rate derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

The carrying values of cash and cash equivalents, restricted cash, accounts receivable, other assets (excluding investing receivables) and accounts payable and accrued expenses are reasonable estimates of their fair values because of the short maturities of these instruments. As discussed in Note 6, we estimated the fair values of our investing receivables based on the discounted estimated future cash flows of the loans (categorized within Level 3 of the fair value hierarchy); the discount rates used approximate current market rates for loans with similar maturities and credit quality, and the estimated cash payments include scheduled principal and interest payments. For our disclosure of

debt fair values in Note 8, we estimated the fair value of our unsecured senior notes based on quoted market rates for publicly-traded debt (categorized within Level 2 of the fair value hierarchy) and estimated the fair value of our other debt based on the discounted estimated future cash payments to be made on such debt (categorized within Level 3 of the fair value hierarchy); the discount rates used approximate current market rates for loans, or groups of loans, with similar maturities and credit quality, and the estimated future payments include scheduled principal and interest payments. Fair value estimates are made as of a specific point in time, are subjective in nature and involve uncertainties and matters of significant judgment. Settlement at such fair value amounts may not be possible and may not be a prudent management decision.

For additional fair value information, please refer to Note 6 for investing receivables, Note 8 for debt and Note 9 for interest rate derivatives.

### COPT and Subsidiaries

The table below sets forth financial assets and liabilities of COPT and its subsidiaries that are accounted for at fair value on a recurring basis as of September 30, 2016 and the hierarchy level of inputs used in measuring their respective fair values under applicable accounting standards (in thousands):

| Description                              | Quoted Prices in<br>Active Markets for<br>Identical Assets(Le | Significant Other<br>Observable Inputs(L<br>evel I) | Significant<br>even@bservable In | Total<br>puts(Level 3) |

Nonrecurring Fair Value Measurements

In the first quarter of 2016, we set a goal to raise cash from sales of properties in 2016 considerably in excess of the \$96.8 million in assets held for sale at December 31, 2015. The specific properties we would sell to achieve this goal had not been identified when the goal was established. Throughout 2016, we have been in the process of identifying properties we will sell.

In the first quarter of 2016, we reclassified: most of our properties in Greater Philadelphia (included in our Regional Office segment); two properties in the Fort Meade/BW Corridor sub-segment; and our remaining land holdings in Colorado Springs, Colorado to held for sale and recognized \$2.4 million of impairment losses. As of March 31, 2016, we had \$225.9 million of assets held for sale.

During the second quarter of 2016, as part of our closing process, we conducted our quarterly review of our portfolio for indicators of impairment considering the refined investment strategy of our then newly-appointed Chief Executive Officer and the goals of the asset sales program and concluded that we would: (1) not hold our operating properties in Aberdeen, Maryland ("Aberdeen") for the long-term; (2) not develop commercial properties on land in Frederick,

Maryland; (3) sell specific properties in our Northern Virginia Defense/IT and Fort Meade/BW Corridor sub-segments; and (4) sell the remaining operating property in Greater Philadelphia that had not previously been classified as held for sale. Accordingly, we performed recoverability analyses for each of these properties and recorded the following impairment losses:

\$34.4 million on operating properties in Aberdeen (included in our Other segment). After shortening our estimated holding period for these properties, we determined that the carrying amount of the properties would not likely be recovered from the operation and eventual dispositions of the properties during the shortened holding period. Accordingly, we adjusted the properties to their estimated fair values;

\$4.4 million on land in Aberdeen. In performing our analysis related to the operating properties in Aberdeen, we determined that the weakening leasing and overall commercial real estate conditions in that market indicated that our

land holdings in the market may be impaired. As a result, we determined that the carrying amount of the land was not recoverable and adjusted the land to its estimated fair value;

\$8.2 million on land in Frederick, Maryland. We determined that the carrying amount of the land would not likely be recovered from its sale and adjusted the land to its estimated fair value;

\$14.1 million on operating properties in our Northern Virginia and Fort Meade/BW Corridor sub-segments that we reclassified to held for sale during the period whose carrying amounts exceeded their estimated fair values less costs to sell; and

\$6.2 million on the property in Greater Philadelphia (included in our Regional Office segment) that we reclassified to held for sale during the period and adjusted to fair value less costs to sell.

There were no property sales in the second quarter of 2016 and as of June 30, 2016, we had \$300.6 million of assets held for sale.

During the third quarter of 2016, as part of our closing process, we conducted our quarterly review of our portfolio for indicators of impairment considering refinements to our disposition strategy made during the third quarter of 2016 to sell an additional operating property in our Northern Virginia Defense/IT sub-segment, an additional operating property in our Fort Meade/BW Corridor sub-segment and our remaining operating properties and land in White Marsh, Maryland ("White Marsh") that had not previously been classified as held for sale. In connection with our determinations that we planned to sell these properties, we performed recoverability analyses for each of these properties and recorded the following impairment losses:

\$13.3 million on the operating property in our Northern Virginia Defense/IT sub-segment. Communication with a major tenant in the building during the quarter led us to conclude that there was significant uncertainty with respect to the tenant renewing its lease expiring in 2019. As a result of this information and continuing sub-market weakness, we determined that this property no longer met our long-term hold strategy and we placed it into our asset sales program. Accordingly, we adjusted the carrying amount of the property to its estimated fair value less costs to sell; and \$2.9 million on the other properties that we reclassified as held for sale, primarily associated with a land parcel in White Marsh. As of June 30, 2016, this land was under a sales contract subject to a re-zoning contingency. During the third quarter, we were denied favorable re-zoning and the contract was canceled. As a result, we determined this property will be sold as is, reclassified it to held for sale and adjusted its carrying value to its estimated fair value less costs to sell.

During our review we also recognized additional impairment losses of \$11.5 million on properties previously classified as held for sale. Approximately \$10 million of these losses pertained to properties in White Marsh due to our assessment that certain significant tenants will likely exercise lease termination rights and to reflect market conditions. The remainder of these losses pertained primarily to properties in San Antonio, Texas (in our Other segment), where prospective purchasers reduced offering prices late in the third quarter. We executed property sales of \$210.7 million in the third quarter of 2016 (discussed further in Note 4), and had \$161.5 million of assets held for sale at September 30, 2016.

Changes in the expected future cash flows due to changes in our plans for specific properties (especially our expected holding period) could result in the recognition of additional impairment losses. In addition, because properties held for sale are carried at the lower of carrying value or estimated fair values less costs to sell, declines in their estimated fair values due to market conditions and other factors could result in the recognition of additional impairment losses.

The table below sets forth the fair value hierarchy of the valuation technique we used to determine nonrecurring fair value measurements of these assets as of September 30, 2016 (dollars in thousands):

Fair Values as of September 30, 2016 Quoted Prices in Significant

Assets held for sale, net

\$ 161,454 \$ 96,782

Acquisitions

We acquired the following operating properties in 2015:

250 W. Pratt Street, a 367,000 square foot office property in Baltimore, Maryland that was 96.2% leased, for \$61.8 million on March 19, 2015;

2600 Park Tower Drive, a 237,000 square foot office property in Vienna, Virginia (in the Northern Virginia region) that was 100% leased, for \$80.5 million on April 15, 2015; and

100 Light Street, a 558,000 square foot office property in Baltimore, Maryland that was 93.5% leased, and its structured parking garage, 30 Light Street, for \$121.2 million on August 7, 2015. In connection with that acquisition, we assumed a \$55.0 million mortgage loan with a fair value at assumption of \$55.5 million.

These properties contributed:

revenues of \$9.2 million for the three months ended September 30, 2016, \$6.9 million for the three months ended September 30, 2015, \$27.6 million for the nine months ended September 30, 2016 and \$11.2 million for the nine months ended September 30, 2015; and

net income from continuing operations of \$432,000 for the three months ended September 30, 2016, \$487,000 for the three months ended September 30, 2015, \$2.4 million for the nine months ended September 30, 2016 and \$697,000 for the nine months ended September 30, 2015.

We accounted for these acquisitions as business combinations. We included the results of operations for the acquisitions in our consolidated statements of operations from their respective purchase dates through September 30, 2016. The following table presents pro forma information for COPT and subsidiaries as if these acquisitions had occurred on January 1, 2014. This pro forma information also includes adjustments to reclassify operating property acquisition costs to the nine months ended September 30, 2014 from the 2015 periods in which they were actually incurred. The pro forma financial information was prepared for comparative purposes only and is not necessarily indicative of what would have occurred had these acquisitions been made at that time or of results which may occur in the future (in thousands, except per share amounts).

(1) This disposition also included land.

#### We also sold:

a 50% interest in six triple-net leased, single-tenant data center properties in Virginia by contributing them into a newly-formed joint venture, GI-COPT DC Partnership LLC ("GI-COPT"), for an aggregate property value of \$147.6 million on July 21, 2016. We obtained \$60.0 million in non-recourse mortgage loans on the properties through the joint venture immediately prior to the sale of our interest and received the net proceeds. Our partner in the joint venture acquired the 50% interest in the joint venture from us for \$44.3 million. We account for our 50% interest in the joint venture using the equity method of accounting as described further in Note 5. We recognized a partial gain on the sale of our interest of \$17.9 million; and

other land for \$5.7 million, with no gain recognized.

#### 2016 Construction Activities

During the nine months ended September 30, 2016, we placed into service 490,000 square feet in five newly constructed office properties (including a partially operational property) and 55,000 square feet in two redeveloped properties (including a partially operational property). As of September 30, 2016, we had seven office properties under construction, or for which we were contractually committed to construct, that we estimate will total 1.1 million square feet upon completion (including two properties completed but held for future lease to the United States Government) and three office properties under redevelopment that we estimate will total 104,000 square feet upon completion.

#### 5. Real Estate Joint Ventures

#### Consolidated Joint Ventures

The table below sets forth information pertaining to our investments in consolidated real estate joint ventures as of September 30, 2016 (dollars in thousands):

|                             |           | Nominal   |  |                     |            |                    |
|-----------------------------|-----------|-----------|--|---------------------|------------|--------------------|
|                             |           | Ownership |  | September           | r 30, 2016 | (1)                |
|                             | Date      | % as of   |  | Total               | Encumbered | Total              |
|                             | Acquired  | 9/30/2016 | Nature of Activity                           | Assets              | Assets     | Liabilities        |
| LW Redstone<br>Company, LLC | 3/23/2010 |           | estate (2)                                   | \$157,108           | \$ 80,154  | \$53,056           |
| M Square Associates,<br>LLC | 6/26/2007 | 50%       | Development and operation of real estate (3) | 66,053              | 47,006     | 45,807             |
| Stevens Investors, LLC      | 8/11/2015 | 95%       | Development of real estate (4)               | 40,282<br>\$263,503 |            | 7,680<br>\$106,543 |

(1) Excludes amounts eliminated in consolidation.

(2) This joint venture's properties are in Huntsville, Alabama.

(3) This joint venture's properties are in College Park, Maryland.

(4) This joint venture's property is in Washington, DC.

In January 2016, our partner in Stevens Investors, LLC contributed to the joint venture, for a value of \$22.6 million, interests in contracts controlling land to be developed (including a purchase agreement and a ground lease). Our partner subsequently received a cash distribution from the joint venture of \$13.4 million, which was funded by us. Our partner is also entitled to receive an additional distribution from the joint venture of \$6.7 million to be funded by us (expected in 2017) that was reported in other liabilities on our consolidated balance sheet as of September 30, 2016.

#### Unconsolidated Joint Venture

As described further in Note 4, on July 21, 2016, we sold a 50% interest in six triple-net leased, single-tenant data center properties in Virginia by contributing them into GI-COPT, a newly-formed joint venture. We account for our 50% interest in the joint venture using the equity method of accounting. As of September 30, 2016, we had an investment balance in GI-COPT of \$25.7 million. Our balance is \$18.5 million lower than our share of the joint venture's equity due to a difference between our cost basis and our share of the underlying equity in the net assets upon formation of the joint venture; we are amortizing this basis difference into equity in income from unconsolidated entities over the lives of the underlying assets. Under the terms of the joint venture agreement, we and our partner receive returns in proportion to our investments in the joint venture.

#### 6. Investing Receivables

Investing receivables, including accrued interest thereon, consisted of the following (in thousands):

|  | September 30, | December 31, |
|--|---------------|--------------|
|  | 2016          | 2015         |
| Notes receivable from the City of Huntsville | \$ 48,098     | \$ 44,875    |
| Other investing loans receivable             | 3,021         | 3,000        |
| -  | \$ 51,119     | \$ 47,875    |

Our notes receivable from the City of Huntsville funded infrastructure costs in connection with our LW Redstone Company, LLC joint venture (see Note 5) and carry an interest rate of 9.95%.

We did not have an allowance for credit losses in connection with our investing receivables as of September 30, 2016 or December 31, 2015. The fair value of these receivables approximated their carrying amounts as of September 30, 2016 and December 31, 2015.

#### 7. Prepaid Expenses and Other Assets, Net

Prepaid expenses and other assets consisted of the following (in thousands):

|  | September 30, | December 31, |
|--|---------------|--------------|
|  | 2016          | 2015         |
| Prepaid expenses   | \$ 28,752     | \$ 23,009    |
| Lease incentives, net                                      | 19,106        | 11,133       |
| Construction contract costs incurred in excess of billings | 6,367         | 3,261        |
| Furniture, fixtures and equipment, net                     | 5,492         | 6,004        |
| Deferred financing costs, net (1)                          | 3,812         | 5,867        |
| Deferred tax asset, net (2)                                | 3,282         | 3,467        |
| Other assets   | 6,727         | 7,283        |
| Prepaid expenses and other assets, net                     | \$ 73,538     | \$ 60,024    |

(1) Represents deferred costs, net of accumulated amortization, attributable to our Revolving Credit Facility and interest rate derivatives.

(2) Includes a valuation allowance of \$2.1 million.

#### 8. Debt, Net

Our debt consisted of the following (dollars in thousands):

|  |             | alue (1) as of<br>3 <b>D</b> ecember 31,<br>2015 | Stated Interest Rates as of September 30, 2016 | Scheduled Maturity<br>as of<br>September 30, 2016 |

| Unsecured notes payable                | 1,428       | 1,508  | 0% (11)  | 2026  |
| Total debt, net                        | \$1,873,836 | \$ 2,077,752                                     |  |   |

(1) The carrying values of our loans other than the Revolving Credit Facility reflect net deferred financing costs of \$6.9 million as of September 30, 2016 and \$8.0 million as of December 31, 2015.

Several of the fixed rate mortgages carry interest rates that were above or below market rates upon assumption and therefore were recorded at their fair value based on applicable effective interest rates. The carrying values of

(2) these loans reflect net unamortized premiums totaling \$440,000 as of September 30, 2016 and \$514,000 as of December 31, 2015.

(3) The weighted average interest rate on our fixed rate mortgage loans was 4.20% as of September 30, 2016.

(4) The interest rate on our variable rate secured loan as of September 30, 2016 was 2.37%. As of September 30, 2016, we had an additional \$150 million in borrowings available to be drawn under a term have been divided with the additional \$150 million in borrowings available to be drawn under a term

(5) loan. In addition, we had the ability to borrow an additional \$430.0 million in the aggregate under these term loan facilities, provided that there is no default under the facilities and subject to the approval of the lenders. On October 12, 2016, we repaid a \$120.0 million term loan that was scheduled to mature in August 2019.

(6) The weighted average interest rate on these loans was 2.17% as of September 30, 2016. The carrying value of these notes reflects an unamortized discount totaling \$2.0 million as of September 30, 2016

(7) and \$2.2 million as of December 31, 2015. The effective interest rate under the notes, including amortization of the issuance costs, was 3.70%.

The carrying value of these notes reflects an unamortized discount totaling \$3.5 million as of September 30, 2016

(8) and \$3.8 million as of December 31, 2015. The effective interest rate under the notes, including amortization of the issuance costs, was 5.49%.

The carrying value of these notes reflects an unamortized discount totaling \$1.8 million as of September 30, 2016

(9) and \$2.1 million as of December 31, 2015. The effective interest rate under the notes, including amortization of the issuance costs, was 3.85%.

(10) The carrying value of these notes reflects an unamortized discount totaling \$3.1 million as of September 30, 2016 and \$3.3 million as of December 31, 2015. The effective interest rate under the notes, including amortization of the issuance costs, was 5.15%.

(11) These notes carry interest rates that were below market rates upon assumption and therefore were recorded at their fair value based on applicable effective interest rates. The carrying value of these notes reflects an

unamortized discount totaling \$483,000 as of September 30, 2016 and \$554,000 as of December 31, 2015.

All debt is owed by the Operating Partnership. While COPT is not directly obligated by any debt, it has guaranteed the Operating Partnership's Revolving Credit Facility, Term Loan Facilities and Unsecured Senior Notes.

Certain of our debt instruments require that we comply with a number of restrictive financial covenants. As of September 30, 2016, we were within the compliance requirements of these financial covenants.

We capitalized interest costs of \$1.2 million in the three months ended September 30, 2016, \$1.5 million in the three months ended September 30, 2015, \$4.3 million in the nine months ended September 30, 2016 and \$5.6 million in the nine months ended September 30, 2015.

(1) The notional amount of this instrument is scheduled to amortize to \$12.1 million.

Each of the interest rate swaps set forth in the table above was designated as a cash flow hedge of interest rate risk.

The table below sets forth the fair value of our interest rate derivatives as well as their classification on our consolidated balance sheets (in thousands):

|  |                                   | Fair Value at        |
|--|-----------------------------------|----------------------|
| Derivatives  | Balance Sheet Location            | SeptenDeceBilder 31, |
| Derivatives  | Balance Sheet Location            | 2016 2015            |
| Interest rate swaps designated as cash flow hedges | Prepaid expenses and other assets | \$ — \$   53         |
| Interest rate swaps designated as cash flow hedges | Interest rate derivatives         | (17),27(3,160)       |

The table below presents the effect of our interest rate derivatives on our consolidated statements of operations and comprehensive income (in thousands):

|   | For the Three   | For the Nin | ne        |
|---|-----------------|-------------|-----------|
|   | Months Ended    | Months Er   | nded      |
|   | September 30,   | September   | : 30,     |
|   | 2016 2015       | 2016        | 2015      |
| Amount of gain (loss) recognized in accumulated other comprehensive loss ("AOCL") (effective portion) | \$407 \$(3,638) | \$(16,581)  | \$(6,720) |
| Amount of losses reclassified from AOCL into interest expense (effective portion)                     | 1,043 915       | 2,763       | 2,457     |

Amount of gain (loss) recognized in interest expense (ineffective portion) 1,523 — (347) —

Over the next 12 months, we estimate that approximately \$5.2 million of losses will be reclassified from AOCL as an increase to interest expense.

We have agreements with each of our interest rate derivative counterparties that contain provisions under which, if we default or are capable of being declared in default on defined levels of our indebtedness, we could also be declared in default on our derivative obligations. These agreements also incorporate the loan covenant provisions of our indebtedness with a lender affiliate of the derivative counterparties. Failure to comply with the loan covenant provisions could result in our being declared in default on any derivative instrument obligations covered by the agreements. As of September 30, 2016, the fair value of interest rate derivatives in a liability position related to these agreements was \$17.9 million, excluding the effects of accrued interest and credit valuation adjustments. As of September 30, 2016, we had not posted any collateral related to these agreements. We are not in default with any of these provisions. If we breached any of these provisions, we could be required to settle our obligations under the agreements at their termination value of \$18.4 million.

### 10. Redeemable Noncontrolling Interests

Our partners in two real estate joint ventures, LW Redstone Company, LLC and Stevens Investors, LLC (discussed further in Note 5), have the right to require us to acquire their respective interests at fair value; accordingly, we classify the fair value of our partners' interests as redeemable noncontrolling interests in the mezzanine section of our consolidated balance sheet. We determine the fair value of the interests based on unobservable inputs after considering the assumptions that market participants would make in pricing the interest. We apply a discount rate to the estimated future cash flows allocable to our partners from the properties underlying the respective joint ventures. Estimated cash flows used in such analyses are based on our plans for the properties and our views of market and economic conditions, and consider items such as current and future rental rates, occupancies for the properties and comparable properties and estimated operating and capital expenditures. The table below sets forth the activity for these redeemable noncontrolling interests (in thousands):

|   | For the N | ine      |
|---|-----------|----------|
|   | Months E  | Inded    |
|   | Septembe  | er 30,   |
|   | 2016      | 2015     |
| Beginning balance                                   | \$19,218  | \$18,417 |
| Contributions from noncontrolling interests         | 22,779    |          |
| Distributions to noncontrolling interests           | (21,344)  | (1,098)  |
| Net income attributable to noncontrolling interests | 1,679     | 1,690    |
| Adjustment to arrive at fair value of interests     | 516       | 599      |
| Ending balance                                      | \$22,848  | \$19,608 |
|   |           |          |

### 11. Equity

In September 2016, COPT established a new at-the-market ("ATM") stock offering program under which it may, from time to time, offer and sell common shares in "at the market" stock offerings having an aggregate gross sales price of up to \$200.0 million. This program replaced an ATM stock offering program that we previously had in place.

During the nine months ended September 30, 2016, certain COPLP limited partners redeemed 87,000 common units in COPLP for an equal number of common shares in COPT.

See Note 13 for disclosure of COPT common share and COPLP common unit activity pertaining to our share-based compensation plans.

### 12. Information by Business Segment

We have the following reportable segments: Defense/IT Locations; Regional Office; our operating wholesale data center; and other. We also report on Defense/IT Locations sub-segments, which include the following: Fort George G. Meade and the Baltimore/Washington Corridor (referred to herein as "Fort Meade/BW Corridor"); Northern Virginia Defense/IT Locations; Lackland Air Force Base (in San Antonio); locations serving the U.S. Navy ("Navy Support Locations"), which included properties proximate to the Washington Navy Yard, the Naval Air Station Patuxent River in Maryland and the Naval Surface Warfare Center Dahlgren Division in Virginia; Redstone Arsenal (in Huntsville); and data center shells (properties leased to tenants to be operated as data centers in which the tenants generally fund the costs for the power, fiber connectivity and data center infrastructure). Effective in the quarter ended September 30, 2016, we changed our segment reporting measures to include certain amounts discussed below pertaining to investments in unconsolidated real estate joint ventures ("UJVs"); this change did not affect prior periods reported herein as we did not own any investments in UJVs during such periods prior to July 21, 2016 (see Note 5).

We measure the performance of our segments through the measure we define as net operating income from real estate operations ("NOI from real estate operations"), which includes: real estate revenues and property operating expenses from continuing and discontinued operations; and the net of revenues and property operating expenses of real estate operations owned through UJVs that is allocable to COPT's ownership interest ("UJV NOI allocable to COPT"). Amounts reported for segment assets represent long-lived assets associated with consolidated operating properties (including the carrying value of properties, intangible assets, deferred leasing costs, deferred rents receivable and lease incentives) and the carrying value of investments in UJVs owning operating properties. Amounts reported as additions to long-lived assets represent additions to existing consolidated operating properties, excluding transfers from non-operating properties, which we report separately.

As previously discussed, we provide real estate services such as property management and construction and development services primarily for our properties but also for third parties. The primary manner in which we evaluate the operating performance of our service activities is through a measure we define as net operating income from service operations ("NOI from service operations"), which is based on the net of revenues and expenses from these activities. Construction contract and other service revenues and expenses consist primarily of subcontracted costs that are reimbursed to us by the customer along with a management fee. The operating margins from these activities are small relative to the revenue. We believe NOI from service operations is a useful measure in assessing both our level of activity and our profitability in conducting such operations. The table below sets forth the computation of our NOI from service operations (in thousands):

|  | For the T     | hree     | For the Nine  |          |  |
|--|---------------|----------|---------------|----------|--|
|  | Months E      | Inded    | Months Ended  |          |  |

| (Loss) gain on early extinguishment of debt   | (59)                              | 85,745   | (37)                     | 85,677    |   |
| (Loss) income from continuing operations  | \$(4,829)                         | \$94,279 | \$(45,049)               | \$122,105 |   |
|   |                                   |          |                          |           |   |

The following table reconciles our segment assets to the consolidated total assets of COPT and subsidiaries (in thousands):

|                                | September 30, | September 30, |
|--------------------------------|---------------|---------------|
|                                | 2016          | 2015          |
| Segment assets                 | \$ 3,027,125  | \$ 3,354,762  |
| Non-operating property assets  | 421,364       | 416,540       |
| Other assets                   | 185,705       | 140,790       |
| Total COPT consolidated assets | \$ 3,634,194  | \$ 3,912,092  |

The accounting policies of the segments are the same as those used to prepare our consolidated financial statements, except that discontinued operations are not presented separately for segment purposes. In the segment reporting presented above, we did not allocate interest expense, depreciation and amortization, impairment losses, (loss) gain on early extinguishment of debt, gain on sales of real estate and equity in income of unconsolidated entities not included in NOI to our real estate segments since they are not included in the measure of segment profit reviewed by management. We also did not allocate general, administrative and leasing expenses, business development expenses and land carry costs, interest and other income, income taxes and noncontrolling interests because these items represent general corporate or non-operating property items not attributable to segments.

13. Share-Based Compensation and Other Compensation Matters

Performance Share Units ("PSUs")

On March 1, 2016, our Board of Trustees granted 26,299 PSUs with an aggregate grant date fair value of \$1.0 million to executives. The PSUs have a performance period beginning on January 1, 2016 and concluding on the earlier of December 31, 2018 or the date of: (1) termination by us without cause, death or disability of the executive or

constructive discharge of the executive (collectively, "qualified termination"); or (2) a sale event. The number of PSUs earned ("earned PSUs") at the end of the performance period will be determined based on the percentile rank of COPT's total shareholder return relative to a peer group of companies, as set forth in the following schedule:

Percentile RankEarned PSUs Payout %75th or greater200% of PSUs granted50th or greater100% of PSUs granted25th50% of PSUs grantedBelow 25th0% of PSUs granted

If the percentile rank exceeds the 25th percentile and is between two of the percentile ranks set forth in the table above, then the percentage of the earned PSUs will be interpolated between the ranges set forth in the table above to reflect any performance between the listed percentiles. At the end of the performance period, we, in settlement of the award, will issue a number of fully-vested COPT common shares equal to the sum of:

the number of earned PSUs in settlement of the award plan; plus

the aggregate dividends that would have been paid with respect to the common shares issued in settlement of the earned PSUs through the date of settlement had such shares been issued on the grant date, divided by the share price on such settlement date, as defined under the terms of the agreement.

If a performance period ends due to a sale event or qualified termination, the number of earned PSUs is prorated based on the portion of the three-year performance period that has elapsed. If employment is terminated by the employee or by us for cause, all PSUs are forfeited. PSUs do not carry voting rights. We computed a grant date fair value of \$38.21 per PSU using a Monte Carlo model, which included assumptions of, among other things, the following: baseline common share value of \$23.90; expected volatility for COPT common shares of 20.4%; and a risk-free interest rate of 0.96%. We are recognizing the grant date fair value in connection with these PSU awards over the period commencing on March 1, 2016 and ending on December 31, 2018.

Based on COPT's total shareholder return relative to its peer group of companies, for PSUs issued in 2014 and 2015, we made the following common share issuances in settlement of such PSUs during the nine months ended September 30, 2016:

10,326 shares on May 30, 2016 to Mr. Wayne H. Lingafelter, our former Executive Vice President, Development & Construction Services, who departed on March 31, 2016; and 20,569 shares on July 12, 2016 to Mr. Roger A. Waesche, Jr., our former Chief Executive Officer, who departed on May 12, 2016.

#### **Restricted Shares**

During the nine months ended September 30, 2016, certain employees were granted a total of 206,487 restricted common shares with an aggregate grant date fair value of \$5.0 million (weighted average of \$24.31 per share). Restricted shares granted to employees vest based on increments and over periods of time set forth under the terms of the respective awards provided that the employees remain employed by us. During the nine months ended September 30, 2016, forfeiture restrictions lapsed on 189,569 previously issued common shares; these shares had a weighted average grant date fair value of \$27.52 per share, and the aggregate intrinsic value of the shares on the vesting dates was \$4.7 million.

#### Deferred Share Awards

During the nine months ended September 30, 2016, nonemployee members of our Board of Trustees were granted a total of 24,944 deferred share awards with an aggregate grant date fair value of \$671,000 (\$26.89 per share). Deferred share awards vest on the first anniversary of the grant date, provided that the Trustee remains in his or her position. We settle deferred share awards by issuing an equivalent number of common shares upon vesting of the awards or a later date elected by the Trustee (generally upon cessation of being a Trustee). During the nine months ended September 30, 2016, we issued 12,028 common shares in settlement of deferred share awards granted in 2015; these shares had a grant date fair value of \$26.70 per share, and the aggregate intrinsic value of the shares on the settlement date was \$322,000.

#### **Executive Transition Costs**

Our Board of Trustees appointed Stephen E. Budorick, our Executive Vice President and Chief Operating Officer since September 2011, to become our President and Chief Executive Officer effective May 12, 2016, the date of the Company's 2016 Annual Meeting of Shareholders. On that date, Roger A. Waesche, Jr., our current President and Chief Executive Officer, left the Company to pursue other interests, and he was not nominated for reelection as a Trustee. The Board appointed Mr. Budorick to our Board of Trustees after the 2016 Annual Meeting of Shareholders. In addition, our Executive Vice President, Development & Construction Services, Wayne H. Lingafelter, and our Senior Vice President, General Counsel and Secretary, Karen M. Singer, departed the Company to pursue other interests effective March 31, 2016 and August 31, 2016, respectively. We recognized executive transition costs of approximately \$6.0 million in the nine months ended September 30, 2016 primarily for termination benefits in connection with the departures of Mr. Waesche, Mr. Lingafelter and Ms. Singer.

# 14. Earnings Per Share ("EPS") and Earnings Per Unit ("EPU")

### COPT and Subsidiaries EPS

We present both basic and diluted EPS. We compute basic EPS by dividing net income available to common shareholders allocable to unrestricted common shares under the two-class method by the weighted average number of unrestricted common shares outstanding during the period. Our computation of diluted EPS is similar except that:

the denominator is increased to include: (1) the weighted average number of potential additional common shares that would have been outstanding if securities that are convertible into COPT common shares were converted; and (2) the effect of dilutive potential common shares outstanding during the period attributable to share-based compensation using the treasury stock or if-converted methods; and

the numerator is adjusted to add back any changes in income or loss that would result from the assumed conversion into common shares that we added to the denominator.

Summaries of the numerator and denominator for purposes of basic and diluted EPS calculations are set forth below (in thousands, except per share data):

|  | For the T<br>Months E<br>September<br>2016 | Ended          | For the Nit<br>Ended Sep<br>2016 | ne Months<br>stember 30,<br>2015 |

|   | For the              |       | For the   |      |
|   | Three                |       | Nine      |      |
|   | Months               |       | Months    |      |
|   | Ended                |       | Ended     |      |
|   | September            |       | September |      |
|   | 30,                  |       | 30,       |      |
|   | 2016                 | 2015  | 2016      | 2015 |
| Conversion of common units              | 3,591                | 3,679 | 3,648     |      |
| Conversion of Series I Preferred Units  | 176                  | 176   | 176       | 176  |
| Conversion of Series K Preferred Shares | 434                  |       | 434       | 434  |

The following share-based compensation securities were excluded from the computation of diluted EPS because their effects were antidilutive:

weighted average restricted shares and deferred share awards for the three months ended September 30, 2016 and 2015 of 375,000 and 411,000, respectively, and for the nine months ended September 30, 2016 and 2015 of 394,000 and 412,000, respectively; and

weighted average options for the three months ended September 30, 2016 and 2015 of 233,000 and 440,000, respectively, and for the nine months ended September 30, 2016 and 2015 of 307,000 and 480,000, respectively.

We had outstanding senior notes, which we redeemed in April 2015, with an exchange settlement feature, but such notes did not affect our diluted EPS reported above since the weighted average closing price of COPT's common shares during each of the periods was less than the exchange prices per common share applicable for such periods.

COPLP and Subsidiaries EPU

We present both basic and diluted EPU. We compute basic EPU by dividing net income available to common unitholders allocable to unrestricted common units under the two-class method by the weighted average number of unrestricted common units outstanding during the period. Our computation of diluted EPU is similar except that:

the denominator is increased to include: (1) the weighted average number of potential additional common units that would have been outstanding if securities that are convertible into our common units were converted; and (2) the effect of dilutive potential common units outstanding during the period attributable to share-based compensation using the treasury stock or if-converted methods; and

the numerator is adjusted to add back any changes in income or loss that would result from the assumed conversion into common units that we added to the denominator.

Summaries of the numerator and denominator for purposes of basic and diluted EPU calculations are set forth below (in thousands, except per unit data):

|   | For the T<br>Months I<br>Septemb | Ended                       | For the Nine Months<br>Ended September 30, |           |  |

Our diluted EPU computations do not include the effects of the following securities since the conversions of such securities would increase diluted EPU for the respective periods (in thousands):

Weighted Average Units Excluded from Denominator For the For the Three Nine Months Months Ended Ended September September 30. 30. 20162015 2016 2015 Conversion of Series I preferred units 176 176 176 176 Conversion of Series K preferred units 434 — 434 434

The following share-based compensation securities were excluded from the computation of diluted EPU because their effects were antidilutive:

weighted average restricted units and deferred share awards for the three months ended September 30, 2016 and 2015 of 375,000 and 411,000, respectively, and for the nine months ended September 30, 2016 and 2015 of 394,000 and 412,000, respectively; and

weighted average options for the three months ended September 30, 2016 and 2015 of 233,000 and 440,000, respectively, and for the nine months ended September 30, 2016 and 2015 of 307,000 and 480,000, respectively.

We had outstanding senior notes, which we redeemed in April 2015, with an exchange settlement feature, but such notes did not affect our diluted EPU reported above since the weighted average closing price of COPT's common shares during each of the periods was less than the exchange prices per common share applicable for such periods.

#### 15. Commitments and Contingencies

Litigation

In the normal course of business, we are involved in legal actions arising from our ownership and administration of properties. We establish reserves for specific legal proceedings when we determine that the likelihood of an unfavorable outcome is probable and the amount of loss can be reasonably estimated. Management does not anticipate that any liabilities that may result from such proceedings will have a materially adverse effect on our financial position, operations or liquidity. Our assessment of the potential outcomes of these matters involves significant judgment and is subject to change based on future developments.

#### Environmental

We are subject to various Federal, state and local environmental regulations related to our property ownership and operation. We have performed environmental assessments of our properties, the results of which have not revealed any environmental liability that we believe would have a materially adverse effect on our financial position, operations or liquidity.

Tax Incremental Financing Obligation

In August 2010, Anne Arundel County, Maryland issued \$30 million in tax incremental financing bonds to third-party investors in order to finance public improvements needed in connection with our project known as National Business Park North. The real estate taxes on increases in assessed value of a development district encompassing National Business Park North are to be transferred to a special fund pledged to the repayment of the bonds. We recognized a \$1.3 million liability through September 30, 2016 representing our estimated obligation to fund through a special tax any future shortfalls between debt service on the bonds and real estate taxes available to repay the bonds.

### **Operating Leases**

We are obligated as lessee under operating leases (mostly ground leases) with various expiration dates extending to the year 2100. Future minimum rental payments due under the terms of these operating leases as of September 30, 2016 follow (in thousands):

| Year Ending Decemb | per 31,  |
|--------------------|----------|
| 2016 (1)           | \$307    |
| 2017               | 1,159    |
| 2018               | 1,113    |
| 2019               | 1,082    |
| 2020               | 1,089    |
| Thereafter         | 86,806   |
|                    | \$91,556 |

(1) Represents the three months ending December 31, 2016.

#### **Contractual Obligations**

We had amounts remaining to be incurred under various contractual obligations as of September 30, 2016 that included the following:

new development and redevelopment obligations of \$77.6 million; capital expenditures for operating properties of \$60.5 million; third party construction and development of \$10.5 million; and purchase obligations of \$1.8 million.

Environmental Indemnity Agreement

In connection with a lease and subsequent sale in 2008 and 2010 of three properties in Dayton, New Jersey, we agreed to provide certain environmental indemnifications limited to \$19 million in the aggregate. We have insurance coverage in place to mitigate much of any potential future losses that may result from these indemnification agreements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

During the nine months ended September 30, 2016:

we finished the period with occupancy of our portfolio of operating office properties at 91.3%, including six properties owned through an unconsolidated real estate joint venture;

we placed into service an aggregate of 545,000 square feet in newly constructed and redeveloped properties that were 86.9% leased as of September 30, 2016;

we sold:

15 operating properties totaling 1.1 million square feet that were 92.1% occupied for \$210.7 million and other land for \$5.7 million;

a 50% interest in six triple-net leased, single-tenant data center properties by contributing them into GI-COPT, a newly-formed joint venture, for an aggregate property value of \$147.6 million. We obtained \$60.0 million in non-recourse mortgage loans on the properties through the joint venture immediately prior to the sale of our interest and received the net proceeds. Our partner in the joint venture acquired the 50% interest from us for \$44.3 million; We used most of the proceeds from these sales to repay borrowings under our Revolving Credit Facility and for general corporate purposes.

our Board of Trustees appointed Stephen E. Budorick, our Executive Vice President and Chief Operating Officer since September 2011, to become our President and Chief Executive Officer effective May 12, 2016, the date of the Company's 2016 Annual Meeting of Shareholders. On that date, Roger A. Waesche, Jr., our current President and Chief Executive Officer, departed the Company to pursue other interests, and he was not nominated for re-election as a Trustee. The Board appointed Mr. Budorick to our Board of Trustees after the 2016 Annual Meeting of Shareholders; and

our Executive Vice President, Development & Construction Services, Wayne H. Lingafelter, and our Senior Vice President, General Counsel and Secretary, Karen M. Singer, departed the Company to pursue other interests effective March 31, 2016 and August 31, 2016, respectively.

We discuss significant factors contributing to changes in our net income in the section below entitled "Results of Operations." The results of operations discussion is combined for COPT and COPLP because there are no material differences in the results of operations between the two reporting entities.

In addition, the section below entitled "Liquidity and Capital Resources" includes discussions of, among other things:

how we expect to generate cash for short and long-term capital needs; and our commitments and contingencies.

You should refer to our consolidated financial statements and the notes thereto as you read this section.

This section contains "forward-looking" statements, as defined in the Private Securities Litigation Act of 1995, that are based on our current expectations, estimates and projections about future events and financial trends affecting the financial condition and operations of our business. Forward-looking statements can be identified by the use of words such as "may," "will," "should," "could," "believe," "anticipate," "expect," "estimate," "plan" or other comparable terminolog Forward-looking statements are inherently subject to risks and uncertainties, many of which we cannot predict with accuracy and some of which we might not even anticipate. Although we believe that the expectations, estimates and projections reflected in such forward-looking statements are based on reasonable assumptions at the time made, we can give no assurance that these expectations, estimates and projections will be achieved. Future events and actual results may differ materially from those discussed in the forward-looking statements. Important factors that may affect

these expectations, estimates and projections include, but are not limited to:

general economic and business conditions, which will, among other things, affect office property and data center demand and rents, tenant creditworthiness, interest rates, financing availability and property values; adverse changes in the real estate markets, including, among other things, increased competition with other companies;

governmental actions and initiatives, including risks associated with the impact of a prolonged government shutdown or budgetary reductions or impasses, such as a reduction in rental revenues, non-renewal of leases and/or a curtailment of demand for additional space by our strategic customers;

our ability to borrow on favorable terms;

risks of real estate acquisition and development activities, including, among other things, risks that development projects may not be completed on schedule, that tenants may not take occupancy or pay rent or that development or operating costs may be greater than anticipated;

risks of investing through joint venture structures, including risks that our joint venture partners may not fulfill their financial obligations as investors or may take actions that are inconsistent with our objectives;

changes in our plans for properties or views of market economic conditions or failure to obtain development rights, either of which could result in recognition of significant impairment losses;

our ability to satisfy and operate effectively under Federal income tax rules relating to real estate investment trusts and partnerships;

the dilutive effects of issuing additional common shares; our ability to achieve projected results; and environmental requirements.

We undertake no obligation to update or supplement forward-looking statements.

Occupancy and Leasing

#### Office Properties

The tables below set forth occupancy information pertaining to our portfolio of operating office properties, which included six properties owned through an unconsolidated real estate joint venture:

|  | September 30, December |   |          | ıber |
|--|------------------------|---|----------|------|
|  | 2016                   |   | 31, 2015 |      |
| Occupancy rates at period end  |                        |   |          |      |
| Total  | 91.3                   | % | 91.6     | %    |
| Defense/IT Locations:  |                        |   |          |      |
| Fort Meade/BW Corridor   | 93.0                   | % | 94.5     | %    |
| Northern Virginia Defense/IT   | 84.6                   | % | 81.9     | %    |
| Lackland Air Force Base  | 100.0                  | % | 100.0    | %    |
| Navy Support Locations   | 73.6                   | % | 72.1     | %    |
| Redstone Arsenal   | 100.0                  | % | 97.0     | %    |
| Data Center Shells   | 100.0                  | % | 100.0    | %    |
| Regional Office  | 95.3                   | % | 95.4     | %    |
| Other  | 55.1                   | % | 57.3     | %    |
| Average contractual annual rental rate per square foot at period end (1) | \$ 29.53               |   | \$29.55  | 5    |

(1) Includes estimated expense reimbursements. Amounts reported include the portion of properties owned through an unconsolidated real estate joint venture that was allocable to our ownership interest.

|   | RentableOccupied<br>Square F <b>Set</b> uare Feet<br>(in thousands) |        |   |  |
|---|---|--------|---|--|
| December 31, 2015   | 18,053  | 16,535 |   |  |
| Square feet vacated upon lease expiration (1)                           |   | (420   | ) |  |
| Occupancy of previously vacated space in connection with new leases (2) |   | 389    |   |  |
| Square feet constructed or redeveloped                                  | 551   | 502    |   |  |
| Dispositions  | (1,126)   | (1,036 | ) |  |
| Other changes   | 10  | (1     | ) |  |
| September 30, 2016  | 17,488  | 15,969 |   |  |

(1) Includes lease terminations and space reductions occurring in connection with lease renewals.

(2) Excludes occupancy of vacant square feet acquired or developed.

During the nine months ended September 30, 2016, we completed 2.3 million square feet of leasing, including 571,000 of construction and redevelopment space, and renewed 78.5% of the square footage of our lease expirations (including the effect of early renewals).

Occupancy of our Same Office Properties decreased from 91.6% as of December 31, 2015 to 91.4% as of September 30, 2016.

# Wholesale Data Center Property

The leased portion of our 19.25 megawatt wholesale data center property decreased from 17.8 megawatts as of December 31, 2015 to 15.8 megawatts as of September 30, 2016 due to a tenant departure.

# **Results of Operations**

We evaluate the operating performance of our properties using NOI from real estate operations, our segment performance measure, which includes: real estate revenues and property operating expenses from continuing and discontinued operations; and the net of revenues and property operating expenses of real estate operations owned through unconsolidated real estate joint ventures ("UJVs") that is allocable to COPT's ownership interest ("UJV NOI allocable to COPT"). We measure the performance of our segments through the measure we define as NOI from real estate operations. We view our NOI from real estate operations as comprising the following primary categories of operating properties:

office properties continually owned and 100% operational throughout the current and prior year reporting periods, excluding properties held for sale. We define these as changes from "Same Office Properties"; office properties acquired during the current and prior year reporting periods; constructed or redeveloped office properties placed into service that were not 100% operational throughout the current and prior year reporting periods; our wholesale data center; properties held for sale as of September 30, 2016; and property dispositions.

In addition to owning properties, we provide construction management and other services. The primary manner in which we evaluate the operating performance of our construction management and other service activities is through a measure we define as NOI from service operations, which is based on the net of the revenues and expenses from these activities consist primarily of subcontracted costs that are reimbursed to us by customers along with a management fee. The operating margins from these activities are small relative to the revenue. We believe NOI from service operations is a useful measure in assessing both our level of activity and our profitability in conducting such operations.

We believe that operating income, as reported on our consolidated statements of operations, is the most directly comparable generally accepted accounting principles ("GAAP") measure for both NOI from real estate operations and NOI from service operations. Since both of these measures exclude certain items includable in operating income, reliance on these measures has limitations; management compensates for these limitations by using the measures simply as supplemental measures that are considered alongside other GAAP and non-GAAP measures.

The table below reconciles NOI from real estate operations and NOI from service operations to operating income reported on the consolidated statements of operations of COPT and subsidiaries:

|  | For the T  | hree     | For the Ni | ne Months   |

(1) Includes minimum base rents, net of abatements, and lease incentives on a straight-line basis for the three-month periods set forth above.

Our Same Office Properties pool consisted of 129 office properties, comprising 74.6% of our total operating office square footage as of September 30, 2016 (80.4% excluding the effect of properties held for sale). This pool of

properties included the following changes from the pool used for purposes of comparing 2015 and 2014 in our 2015 Annual Report on Form 10-K: the addition of three properties placed in service and 100% operational by January 1, 2015; and the removal of ten same office properties reclassified to held for sale in 2016, seven same office properties disposed in 2016 and two same office properties in which we sold a 50% interest in 2016 that were owned by a UJV as of September 30, 2016.

Our NOI from constructed office properties placed in service included 11 properties placed in service in 2015 and 2016, and our NOI from acquired office properties included our 2015 acquisitions of 250 W. Pratt Street, 2600 Park Tower Drive and 100 and 30 Light Street.

The increase in NOI from our wholesale data center was attributable to higher occupancy in the current period.

NOI from Service Operations

|  | For the Three Months |          |           |  |
|--|----------------------|----------|-----------|--|
|  | Ended September 30,  |          |           |  |
|  | 2016                 | 2015     | Variance  |  |
|  | (in thousands)       |          |           |  |
| Construction contract and other service revenues | \$11,149             | \$17,058 | \$(5,909) |  |
| Construction contract and other service expenses | 10,341               | 16,132   | (5,791)   |  |
| NOI from service operations                      | \$808                | \$926    | \$(118)   |  |

Construction contract and other service revenue and expenses decreased due primarily to a lower volume of construction activity in connection with several of our tenants. Construction contract activity is inherently subject to significant variability depending on the volume and nature of projects undertaken by us (primarily on behalf of tenants). Service operations are an ancillary component of our overall operations that typically contribute little operating income relative to our real estate operations.

Depreciation and Amortization Expense

The decrease in depreciation and amortization expense was attributable primarily to additional expense recognized in the prior period of \$3.8 million on disposed office properties and \$3.1 million from our revision of the useful lives of properties that were removed from service for redevelopment.

Impairment Losses

The increase in impairment losses for the current three-month period was attributable to the losses described below in our explanation for the increase for the nine-month period ended September 30, 2016.

Business Development Expenses and Land Carry Costs

The decrease in business development expenses and land carry costs was due primarily to additional expense in the prior period of \$2.7 million in acquisition costs expensed in connection with operating property acquisitions and \$930,000 in demolition costs on a property undergoing redevelopment.

## Interest Expense

The decrease in interest expense in the current period included: a gain of \$1.5 million in hedge ineffectiveness on our interest rate swaps recognized in the current period; the effect of a 9% decrease in our average outstanding debt in the current period relative to the prior period; and \$1.3 million in incremental additional interest expense in the prior period under the default rate on a non-recourse loan that we extinguished via conveyance of properties.

(Loss) Gain on Early Extinguishment of Debt

We recognized a gain on early extinguishment of \$85.7 million in the prior period primarily in connection with our transfer of ownership in two properties serving as collateral for a \$150.0 million nonrecourse mortgage loan to the

mortgage lender and the removal of the debt obligation and accrued interest from our balance sheet.

Gain on Sales of Real Estate

We recognized gain on sales of real estate in the current period of \$17.9 million on our sale of a 50% interest in six triple-net leased, single-tenant data center properties and \$16.2 million in connection with other operating property dispositions.

| Average straight-line tent per occupied square root (1)                           | \$ 19.10                             | \$ 19.02          |     | \$0.08     |      |

(1) Includes minimum base rents, net of abatements, and lease incentives on a straight-line basis for the nine-month periods set forth above.

Our NOI from constructed office properties placed in service included 11 properties placed in service in 2015 and 2016, and our NOI from acquired office properties included our 2015 acquisitions of 250 W. Pratt Street, 2600 Park

Tower Drive and 100 and 30 Light Street.

The increase in NOI from our wholesale data center was attributable to higher occupancy in the current period.

NOI from Service Operations

|  | For the Nine Months Ended |          |            |  |
|--|---------------------------|----------|------------|--|
|  | September 30,             |          |            |  |
|  | 2016                      | 2015     | Variance   |  |
|  | (in thous                 | sands)   |            |  |
| Construction contract and other service revenues | \$34,372                  | \$97,554 | \$(63,182) |  |
| Construction contract and other service expenses | 32,513                    | 94,923   | (62,410)   |  |
| NOI from service operations                      | \$1,859                   | \$2,631  | \$(772)    |  |

Construction contract and other service revenue and expenses decreased due primarily to a lower volume of construction activity in connection with several of our tenants.

Impairment Losses

In the first quarter of 2016, we set a goal to raise cash from sales of properties in 2016 considerably in excess of the \$96.8 million in assets held for sale at December 31, 2015. The specific properties we would sell to achieve this goal had not been identified when the goal was established. Throughout 2016, we have been in the process of identifying properties we will sell.

In the first quarter of 2016, we reclassified: most of our properties in Greater Philadelphia (included in our Regional Office segment); two properties in the Fort Meade/BW Corridor sub-segment; and our remaining land holdings in Colorado Springs, Colorado to held for sale and recognized \$2.4 million of impairment losses. As of March 31, 2016, we had \$225.9 million of assets held for sale.

During the second quarter of 2016, as part of our closing process, we conducted our quarterly review of our portfolio for indicators of impairment considering the refined investment strategy of our then newly-appointed Chief Executive Officer and the goals of the asset sales program and concluded that we would: (1) not hold our operating properties in Aberdeen, Maryland ("Aberdeen") for the long-term; (2) not develop commercial properties on land in Frederick, Maryland; (3) sell specific properties in our Northern Virginia Defense/IT and Fort Meade/BW Corridor sub-segments; and (4) sell the remaining operating property in Greater Philadelphia that had not previously been classified as held for sale. Accordingly, we performed recoverability analyses for each of these properties and recorded the following impairment losses:

\$34.4 million on operating properties in Aberdeen (included in our Other segment). After shortening our estimated holding period for these properties, we determined that the carrying amount of the properties would not likely be recovered from the operation and eventual dispositions of the properties during the shortened holding period. Accordingly, we adjusted the properties to their estimated fair values;

\$4.4 million on land in Aberdeen. In performing our analysis related to the operating properties in Aberdeen,

• we determined that the weakening leasing and overall commercial real estate conditions in that market indicated that our land holdings in the market may be impaired. As a result, we determined that the carrying amount of the land was not recoverable and adjusted the land to its estimated fair value;

\$8.2 million on land in Frederick, Maryland. We determined that the carrying amount of the land would not likely be recovered from its sale and adjusted the land to its estimated fair value;

\$14.1 million on operating properties in our Northern Virginia and Fort Meade/BW Corridor sub-segments that we reclassified to held for sale during the period whose carrying amounts exceeded their estimated fair values less costs to sell; and

\$6.2 million on the property in Greater Philadelphia (included in our Regional Office segment) that we reclassified to held for sale during the period and adjusted to fair value less costs to sell.

There were no property sales in the second quarter of 2016 and as of June 30, 2016, we had \$300.6 million of assets held for sale.

During the third quarter of 2016, as part of our closing process, we conducted our quarterly review of our portfolio for indicators of impairment considering refinements to our disposition strategy made during the third quarter of 2016 to sell an additional operating property in our Northern Virginia Defense/IT sub-segment, an additional operating property in our Fort Meade/BW Corridor sub-segment and our remaining operating properties and land in White Marsh, Maryland ("White Marsh") that had not previously been classified as held for sale. In connection with our determinations that we planned to sell these properties, we performed recoverability analyses for each of these properties and recorded the following impairment losses:

\$13.3 million on the operating property in our Northern Virginia Defense/IT sub-segment. Communication with a major tenant in the building during the quarter led us to conclude that there was significant uncertainty with respect to

the tenant renewing its lease expiring in 2019. As a result of this information and continuing sub-market weakness, we determined that this property no longer met our long-term hold strategy and we placed it into our asset sales program. Accordingly, we adjusted the carrying amount of the property to its estimated fair value less costs to sell; and \$2.9 million on the other properties that we reclassified as held for sale, primarily associated with a land parcel in White Marsh. As of June 30, 2016, this land was under a sales contract subject to a re-zoning contingency. During the third quarter, we were denied favorable re-zoning and the contract was canceled. As a result, we determined this property will be sold as is, reclassified it to held for sale and adjusted its carrying value to its estimated fair value less costs to sell.

During our review we also recognized additional impairment losses of \$11.5 million on properties previously classified as held for sale. Approximately \$10 million of these losses pertained to properties in White Marsh due to our assessment that certain significant tenants will likely exercise lease termination rights and to reflect market conditions. The remainder of these losses pertained primarily to properties in San Antonio, Texas (in our Other segment), where prospective purchasers reduced offering prices late in the third quarter. We executed property sales of \$210.7 million in the third quarter of 2016 (discussed further in Note 4), and had \$161.5 million of assets held for sale at September 30, 2016.

Changes in the expected future cash flows due to changes in our plans for specific properties (especially our expected holding period) could result in the recognition of additional impairment losses. In addition, because properties held for sale are carried at the lower of carrying value or estimated fair values less costs to sell, declines in their estimated fair values due to market conditions and other factors could result in the recognition of additional impairment losses.

General, Administrative and Leasing Expenses

The increase in general, administrative and leasing expenses was attributable primarily to \$6.0 million in executive transition costs incurred in the current period, mostly in connection with the departures of Mr. Waesche, Mr. Lingafelter and Ms. Singer.

Business Development Expenses and Land Carry Costs

The decrease in business development expenses and land carry costs was due primarily to additional expense in the prior period of \$4.1 million in acquisition costs expensed in connection with operating property acquisitions.

(Loss) Gain on Early Extinguishment of Debt

We recognized a gain on early extinguishment of \$85.7 million in the prior period as described above for the three-month period.

Gain on Sales of Real Estate

The increase in gain on sales of real estate in the current period was attributable to the gains described for the three month period ended September 30, 2016.

## Funds from Operations

Funds from operations ("FFO") is defined as net income computed using GAAP, excluding gains on sales of, and impairment losses on, previously depreciated operating properties, plus real estate-related depreciation and amortization. When multiple properties consisting of both operating and non-operating properties exist on a single tax parcel, we classify all of the gains on sales of, and impairment losses on, the tax parcel as all being for previously depreciated operating properties when most of the value of the parcel is associated with operating properties on the

parcel. FFO also includes adjustments to net income for the effects of the items noted above pertaining to UJVs that were allocable to our ownership interest in the UJVs. We believe that we use the National Association of Real Estate Investment Trusts ("NAREIT") definition of FFO, although others may interpret the definition differently and, accordingly, our presentation of FFO may differ from those of other REITs. We believe that FFO is useful to management and investors as a supplemental measure of operating performance because, by excluding gains related to sales of, and impairment losses on, previously depreciated operating properties, net of related tax benefit, and excluding real estate-related depreciation and amortization, FFO can help one compare our operating performance between periods. In addition, since most equity REITs provide FFO information to the investment community, we believe that FFO is useful to investors as a supplemental measure for comparing our results to those of other equity REITs. We believe that net income is the most directly comparable GAAP measure to FFO.

Since FFO excludes certain items includable in net income, reliance on the measure has limitations; management compensates for these limitations by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures. FFO is not necessarily an indication of our cash flow available to fund cash needs. Additionally, it should not be used as an alternative to net income when evaluating our financial performance or to cash flow from operating, investing and financing activities when evaluating our liquidity or ability to make cash distributions or pay debt service.

Basic FFO available to common share and common unit holders ("Basic FFO") is FFO adjusted to subtract (1) preferred share dividends, (2) issuance costs associated with redeemed preferred shares, (3) income attributable to noncontrolling interests through ownership of preferred units in the Operating Partnership or interests in other consolidated entities not owned by us, (4) depreciation and amortization allocable to noncontrolling interests in other consolidated entities and (5) Basic FFO allocable to restricted shares. With these adjustments, Basic FFO represents FFO available to common shareholders and common unitholders. Common units in the Operating Partnership are substantially similar to our common shares and are exchangeable into common shares, subject to certain conditions. We believe that Basic FFO is useful to investors due to the close correlation of common units to common shares. We believe that net income is the most directly comparable GAAP measure to Basic FFO. Basic FFO has essentially the same limitations as FFO; management compensates for these limitations in essentially the same manner as described above for FFO.

Diluted FFO available to common share and common unit holders ("Diluted FFO") is Basic FFO adjusted to add back any changes in Basic FFO that would result from the assumed conversion of securities that are convertible or exchangeable into common shares. We believe that Diluted FFO is useful to investors because it is the numerator used to compute Diluted FFO per share, discussed below. We believe that net income is the most directly comparable GAAP measure to Diluted FFO. Since Diluted FFO excludes certain items includable in the numerator to diluted EPS, reliance on the measure has limitations; management compensates for these limitations by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures. Diluted FFO is not necessarily an indication of our cash flow available to fund cash needs. Additionally, it should not be used as an alternative to net income when evaluating our financial performance or to cash flow from operating, investing and financing activities when evaluating our liquidity or ability to make cash distributions or pay debt service.

Diluted FFO available to common share and common unit holders, as adjusted for comparability is defined as Diluted FFO adjusted to exclude operating property acquisition costs; gains on sales of, and impairment losses on, properties other than previously depreciated operating properties, net of associated income tax; gain or loss on early extinguishment of debt; FFO associated with properties securing non-recourse debt on which we have defaulted and which we have extinguished, or expect to extinguish, via conveyance of such properties, including property NOI and interest expense (discussed further below); loss on interest rate derivatives; demolition costs on redevelopment properties; executive transition costs (including separation related compensation and replacement recruitment for Vice President level positions and above); and issuance costs associated with redeemed preferred shares. This measure also includes adjustments for the effects of the items noted above pertaining to UJVs that were allocable to our ownership interest in the UJVs. We believe this to be a useful supplemental measure alongside Diluted FFO as it excludes gains and losses from certain investing and financing activities and certain other items that we believe are not closely correlated to (or associated with) our operating performance. The adjustment for FFO associated with properties securing non-recourse debt on which we have defaulted pertains to the periods subsequent to our default on one loan's payment terms, which was the result of our decision to not support payments on the loan since the estimated fair value of the properties was less than the loan balance. While we continued as the legal owner of the properties during this period up until the transfer of ownership, all cash flows produced by them went directly to the lender and we did not fund any debt service shortfalls, which included incremental additional interest under the default rate of \$1.3 million in the three months ended September 30, 2015 and \$5.3 million in the nine months ended September 30, 2015. We

believe that net income is the most directly comparable GAAP measure to this non-GAAP measure. This measure has essentially the same limitations as Diluted FFO, as well as the further limitation of not reflecting the effects of the excluded items; we compensate for these limitations in essentially the same manner as described above for Diluted FFO.

Diluted FFO per share is (1) Diluted FFO divided by (2) the sum of the (a) weighted average common shares outstanding during a period, (b) weighted average common units outstanding during a period and (c) weighted average number of potential additional common shares that would have been outstanding during a period if other securities that are convertible or exchangeable into common shares were converted or exchanged. We believe that Diluted FFO per share is useful to investors because it provides investors with a further context for evaluating our FFO results in the same manner that investors use earnings per share ("EPS") in evaluating net income available to common shareholders. In addition, since most equity REITs provide Diluted FFO per share information to the investment community, we believe that Diluted FFO per share is a useful supplemental measure for comparing us to other equity REITs. We believe that diluted EPS is the most directly comparable

GAAP measure to Diluted FFO per share. Diluted FFO per share has most of the same limitations as Diluted FFO (described above); management compensates for these limitations in essentially the same manner as described above for Diluted FFO.

Diluted FFO per share, as adjusted for comparability is (1) Diluted FFO, as adjusted for comparability divided by (2) the sum of the (a) weighted average common shares outstanding during a period, (b) weighted average common units outstanding during a period and (c) weighted average number of potential additional common shares that would have been outstanding during a period if other securities that are convertible or exchangeable into common shares were converted or exchanged. We believe that this measure is useful to investors because it provides investors with a further context for evaluating our FFO results. We believe this to be a useful supplemental measure alongside Diluted FFO per share as it excludes gains and losses from certain investing and financing activities and certain other items that we believe are not closely correlated to (or associated with) our operating performance. We believe that diluted EPS is the most directly comparable GAAP measure to this per share measure. This measure has most of the same limitations as Diluted FFO (described above) as well as the further limitation of not reflecting the effects of the excluded items; we compensate for these limitations in essentially the same manner as described above for Diluted FFO.

The computations for all of the above measures on a diluted basis assume the conversion of common units in COPLP but do not assume the conversion of other securities that are convertible into common shares if the conversion of those securities would increase per share measures in a given period.

We use measures called payout ratios as supplemental measures of our ability to make distributions to investors based on each of the following: FFO; Diluted FFO; and Diluted FFO, adjusted for comparability. These measures are defined as (1) the sum of (a) dividends on common shares and (b) distributions to holders of interests in COPLP and dividends on convertible preferred shares when such distributions and dividends are included in Diluted FFO divided by either (2) FFO, Diluted FFO or Diluted FFO, adjusted for comparability.

The table appearing on the following page sets forth the computation of the above stated measures for the three and nine months ended September 30, 2016 and 2015, and provides reconciliations to the GAAP measures of COPT and subsidiaries associated with such measures:

## Property Additions

The table below sets forth the major components of our additions to properties for the nine months ended September 30, 2016 (in thousands):

Construction, development and redevelopment \$136,815

Tenant improvements on operating properties 26,226 (1)

Capital improvements on operating properties 14,850

#### \$177,891

(1) Tenant improvement costs incurred on newly-constructed properties are classified in this table as construction, development and redevelopment.

## Cash Flows

Net cash flow provided by operating activities increased \$22.2 million when comparing the nine months ended September 30, 2016 and 2015. This increase included: a \$29.0 million increase in cash flow from construction contracts and other services from 2015 to 2016 due in large part to the timing of cash collections and payments on third party construction services; and a \$10.0 million increase in cash flow from real estate operations due primarily to properties acquired and placed in service since the prior period; offset in part by a \$15.4 million increase in interest expense paid from the prior to the current period due primarily to the timing of interest payments from new debt requiring interest payments semi-annually rather than monthly.

Net cash flow provided by investing activities increased \$449.2 million when comparing the nine months ended September 30, 2016 and 2015 due primarily to: an increase in property sales in 2016 relative to 2015; operating property acquisitions in 2015 when none occurred in 2016; and lower development expenditures in 2016.

Net cash flow used in financing activities in the nine months ended September 30, 2016 was \$260.6 million, and included the following:

dividends and/or distributions to equity holders of \$92.2 million; and

distributions to redeemable noncontrolling interests of \$14.3 million related primarily to distributions to our partner in Stevens Investors, LLC, as discussed in Note 5 to the consolidated financial statements; offset in part by net proceeds from debt borrowings of \$146.0 million.

Net cash flow provided by financing activities in the nine months ended September 30, 2015 was \$221.3 million, and included the following:

net proceeds from debt borrowings of \$294.9 million; and net proceeds from the issuance of common shares (or units) of \$28.6 million; offset in part by dividends and/or distributions to equity holders of \$91.9 million.

Liquidity and Capital Resources of COPT

COPLP is the entity through which COPT, the sole general partner of COPLP, conducts almost all of its operations and owns almost all of its assets. COPT issues public equity from time to time, but does not otherwise generate any capital itself or conduct any business itself, other than incurring certain expenses in operating as a public company which are fully reimbursed by COPLP. COPT itself does not hold any indebtedness, and its only material asset is its ownership of partnership interests of COPLP. COPT's principal funding requirement is the payment of dividends on its common and preferred shares. COPT's principal source of funding for its dividend payments is distributions it receives

## from COPLP.

As of September 30, 2016, COPT owned 96.3% of the outstanding common units and 95.5% of the outstanding preferred units in COPLP; the remaining common and preferred units in COPLP were owned by third parties. As the sole general partner of COPLP, COPT has the full, exclusive and complete responsibility for COPLP's day-to-day management and control.

The liquidity of COPT is dependent on COPLP's ability to make sufficient distributions to COPT. The primary cash requirement of COPT is its payment of dividends to its shareholders. COPT also guarantees some of the Operating Partnership's debt, as discussed further in Note 8 of the notes to consolidated financial statements included elsewhere herein. If the Operating Partnership fails to fulfill certain of its debt requirements, which trigger COPT's guarantee obligations, then

COPT will be required to fulfill its cash payment commitments under such guarantees. However, COPT's only significant asset is its investment in COPLP.

As discussed further below, we believe the Operating Partnership's sources of working capital, specifically its cash flow from operations, and borrowings available under its unsecured line of credit, are adequate for it to make its distribution payments to COPT and, in turn, for COPT to make its dividend payments to its shareholders.

COPT's short-term liquidity requirements consist primarily of funds to pay for future dividends expected to be paid to its shareholders. COPT periodically accesses the public equity markets to raise capital by issuing common and/or preferred shares.

For COPT to maintain its qualification as a REIT, it must pay dividends to its shareholders aggregating annually at least 90% of its ordinary taxable income. As a result of this distribution requirement, it cannot rely on retained earnings to fund its ongoing operations to the same extent that some other companies can. COPT may need to continue to raise capital in the equity markets to fund COPLP's working capital needs, acquisitions and developments.

## Liquidity and Capital Resources of COPLP

Our primary cash requirements are for operating expenses, debt service, development of new properties, improvements to existing properties and acquisitions. We expect to continue to use cash flow provided by operations as the primary source to meet our short-term capital needs, including property operating expenses, general and administrative expenses, interest expense, scheduled principal amortization of debt, distributions to our security holders and improvements to existing properties. As of September 30, 2016, we had \$47.6 million in cash and cash equivalents.

Our senior unsecured debt is currently rated investment grade by the three major rating agencies. We aim to maintain an investment grade rating to enable us to use debt comprised of unsecured, primarily fixed-rate debt (including the effect of interest rate swaps) from public markets and banks. We also use secured nonrecourse debt from institutional lenders and banks, when appropriate. In addition, we periodically access the public equity markets to raise capital by issuing common and/or preferred shares.

We use our Revolving Credit Facility to initially finance much of our investing activities. We subsequently pay down the facility using proceeds from long-term borrowings, equity issuances and property sales. The lenders' aggregate commitment under the facility is \$800.0 million, with the ability for us to increase the lenders' aggregate commitment to \$1.3 billion, provided that there is no default under the facility and subject to the approval of the lenders. Amounts available under the facility are computed based on 60% of our unencumbered asset value, as defined in the loan agreement. The Revolving Credit Facility matures in May 2019, and may be extended by two six-month periods at our option, provided that there is no default under the facility and we pay an extension fee of 0.075% of the total availability of the facility. As of September 30, 2016, the maximum borrowing capacity under this facility totaled \$800.0 million, all of which was available.

In addition, as of September 30, 2016, we have \$150.0 million available to be drawn upon under an unsecured term loan that we expect to use for general corporate purposes.

We believe that our liquidity and capital resources are adequate for our near-term and longer-term requirements without necessitating property sales. We do, however, expect to raise in excess of \$100 million from sales of interests in properties during the remainder of 2016 and use the proceeds to repay borrowings and fund development costs.

|  | For the Periods Ending December 31, |           |          |           |           |             |             |  |

| Capital expenditures for operating       | 2,946                               | 39,679    | 17,877   | _         | _         | _           | 60,502      |  |
| properties (5)(7)                        | 2,740                               | 57,077    | 17,077   |           |           |             | 00,302      |  |
| Operating leases (8)                     | 307                                 | 1,159     | 1,113    | 1,082     | 1,089     | 86,806      | 91,556      |  |
| Other obligations                        | 278                                 | 730       | 388      | 310       | 120       | 5           | 1,831       |  |
| Total contractual cash obligations       | \$63,603                            | \$159,334 | \$96,327 | \$194,099 | \$379,752 | \$1,693,912 | \$2,587,027 |  |

The following table summarizes our contractual obligations as of September 30, 2016 (in thousands):

The contractual obligations set forth in this table exclude property operations contracts that may be terminated with (1)notice of one month or less and also excludes accruals and payables incurred and therefore reflected in our reported liabilities.

Represents scheduled principal amortization payments and maturities only and therefore excludes net debt discounts and deformed financing costs of \$17.4 million. On October 12, 2016, we repeat a \$120.0 million to

 (2) discounts and deferred financing costs of \$17.4 million. On October 12, 2016, we repaid a \$120.0 million term loan that was scheduled to mature in 2019 primarily using cash on hand and proceeds from our Revolving Credit Facility.

Represents interest costs for our outstanding debt as of September 30, 2016 for the terms of such debt. For

- (3) variable rate debt, the amounts reflected above used September 30, 2016 interest rates on variable rate debt in computing interest costs for the terms of such debt.
- (4) Represents contractual obligations pertaining to new development and redevelopment activities.
- (5) Due to the long-term nature of certain construction and development contracts and leases included in these lines, the amounts reported in the table represent our estimate of the timing for the related obligations being payable.
- (6) Represents contractual obligations pertaining to projects for which we are acting as construction manager on behalf of unrelated parties who are our clients. We expect to be reimbursed in full for these costs by our clients.
- Represents contractual obligations pertaining to recurring and nonrecurring capital expenditures for our operating
- <sup>(7)</sup> properties. We expect to finance these costs primarily using cash flow from operations.
- (8) We expect to pay these items using cash flow from operations.

We expect to spend approximately \$30 million on construction and development costs and approximately \$20 million on improvements to operating properties (including the commitments set forth in the table above) during the remainder of 2016. We expect to fund the construction and development costs using primarily cash on hand and borrowings under our Revolving Credit Facility. We expect to use proceeds from the disposition of properties to repay borrowings under our Revolving Credit Facility. We expect to fund improvements to existing operating properties using cash flow from operations.

Certain of our debt instruments require that we comply with a number of restrictive financial covenants, including maximum leverage ratio, unencumbered leverage ratio, minimum net worth, minimum fixed charge coverage, minimum unencumbered interest coverage ratio, minimum debt service and maximum secured indebtedness ratio. As of September 30, 2016, we were in compliance with these financial covenants.

#### **Off-Balance Sheet Arrangements**

On July 21, 2016, we sold a 50% interest in six triple-net leased, single-tenant data center properties in Virginia by contributing them into GI-COPT, a newly-formed joint venture. We account for our 50% interest in the joint venture using the equity method of accounting.

We managed the joint venture's property operations and earned fees for these services in 2016 since its formation. This joint venture has a two-member management committee that is responsible for making major decisions (as defined in the joint venture agreement) and we control one of the management committee positions. We and our partner receive returns generally in proportion to our investments in the joint venture.

As of September 30, 2016, we had an investment balance in GI-COPT of \$25.7 million. Our balance is \$18.5 million lower than our share of the joint venture's equity due to a difference between our cost basis and our share of the underlying equity in the net assets upon formation of the joint venture; we are amortizing this basis difference into equity in income from unconsolidated entities over the lives of the underlying assets. We recognized income on our investment in this joint venture of \$593,000 in 2016. We also realized a net cash inflow from this joint venture of \$552,000 in 2016. In addition, we earned fees totaling \$26,000 from the joint venture in 2016 for property management services.

We had no other material off-balance sheet arrangements during the nine months ended September 30, 2016.

During 2016, we also owned investments in three consolidated joint ventures. We enter into joint ventures such as these from time to time for reasons that include the following: (1) they can provide access to new markets and investment opportunities while enabling us to benefit from the expertise and relationships of our partners; (2) they are an alternative source for raising capital to put towards acquisition or development activities; and (3) they can reduce our exposure to risks associated with a property and its activities. Our consolidated and unconsolidated joint ventures are discussed in Note 5 to our Consolidated Financial Statements.

#### Inflation

Most of our tenants are obligated to pay their share of a building's operating expenses to the extent such expenses exceed amounts established in their leases, which are based on historical expense levels. Some of our tenants are obligated to pay their full share of a building's operating expenses. These arrangements somewhat reduce our exposure to increases in such costs resulting from inflation.

#### **Recent Accounting Pronouncements**

See Note 2 to our consolidated financial statements for information regarding recent accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to certain market risks, one of the most predominant of which is a change in interest rates. Increases in interest rates can result in increased interest expense under our Revolving Credit Facility and other variable rate debt. Increases in interest rates can also result in increased interest expense when our fixed rate debt matures and needs to be refinanced.

The following table sets forth as of September 30, 2016 our debt obligations and weighted average interest rates on debt maturing each year (dollars in thousands):

For the Periods Ending December 31,

|                                   | 2016    | 2017    | 2018    | 2019      | 2020      | Thereafter  | Total       |
|-----------------------------------|---------|---------|---------|-----------|-----------|-------------|-------------|
| Debt:                             |         |         |         |           |           |             |             |
| Fixed rate debt (1)               | \$900   | \$3,692 | \$3,858 | \$3,991   | \$3,718   | \$1,341,385 | \$1,357,544 |
| Weighted average interest rate    | 4.33 %  | 4.34 %  | 4.37 %  | 4.36 %    | 3.96 %    | 4.30 %      | 4.30 %      |
| Variable rate debt (2)            | \$89    | \$369   | \$383   | \$120,396 | \$312,438 | \$100,000   | \$533,675   |
| Weighted average interest rate (3 | )2.37 % | 2.37 %  | 2.37 %  | 2.62 %    | 1.95 %    | 2.33 %      | 2.17 %      |

(1) Represents principal maturities only and therefore excludes net discounts and deferred financing costs of \$17.4 million.

(2) On October 12, 2016, we repaid a \$120.0 million term loan that was scheduled to mature in 2019 primarily using cash on hand and proceeds from our Revolving Credit Facility.

(3) The amounts reflected above used September 30, 2016 interest rates on variable rate debt.

The fair value of our debt was \$1.9 billion as of September 30, 2016. If interest rates had been 1% lower, the fair value of our fixed-rate debt would have increased by approximately \$103 million as of September 30, 2016.

The following table sets forth information pertaining to interest rate swap contracts in place as of September 30, 2016 and December 31, 2015 and their respective fair values (dollars in thousands):

|           |            |                     |                |                 | Fair Value              | e at      |   |

|           |            |                     |                |                 | \$(17,272)              | \$ (3,107 | ) |

(1) The notional amount of this instrument is scheduled to amortize to \$12.1 million.

Based on our variable-rate debt balances, including the effect of interest rate swap contracts, our interest expense would have increased by \$1.7 million in the nine months ended September 30, 2016 if the one-month LIBOR rate was 1% higher.

Item 4. Controls and Procedures

COPT

(a) Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of its disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of September 30, 2016. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures as of September 30, 2016 were functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed or submitted under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

(b) Change in Internal Control over Financial Reporting

No change in the Company's internal control over financial reporting occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting.

#### COPLP

(a) Evaluation of Disclosure Controls and Procedures

The Operating Partnership's management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of its disclosure controls and procedures (as defined in Rule 15d-15(e) under the Exchange Act) as of September 30, 2016. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Operating Partnership's disclosure controls and procedures as of September 30, 2016 were functioning effectively to provide reasonable assurance that the information required to be disclosed by the Operating Partnership in reports filed or submitted under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to the Operating Partnership's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

#### (b) Change in Internal Control over Financial Reporting

No change in the Operating Partnership's internal control over financial reporting occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting.

## PART II

Item 1. Legal Proceedings

We are not currently involved in any material litigation nor, to our knowledge, is any material litigation currently threatened against the Company or the Operating Partnership (other than routine litigation arising in the ordinary course of business, substantially all of which is expected to be covered by liability insurance).

Item 1A. Risk Factors

There have been no material changes to the risk factors included in our 2015 Annual Report on Form 10-K.

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended September 30, 2016, 60,242 of COPLP's common units were exchanged for 60,242

- (a) COPT common shares in accordance with COPLP's Second Amended and Restated Limited Partnership
   Agreement, as amended. The issuance of these common shares was effected in reliance upon the exemption from registration under Section 4(a)(2) of the Securities Act of 1933, as amended.
- (b) Not applicable
- (c) Not applicable
- Item 3. Defaults Upon Senior Securities
- (a) Not applicable
- (b) Not applicable
- Item 4. Mine Safety Disclosures

Not applicable

Item 5. Other Information

On November 1, 2016, we entered into a Letter Agreement (the "2016 Agreement") with Anthony Mifsud, our Executive Vice President and Chief Financial Officer, regarding Mr. Mifsud's participation in our Executive Change in Control and Severance Plan (the "Plan"). The 2016 Agreement supersedes a previous Letter Agreement between us and Mr. Mifsud, dated January 19, 2015, pertaining to his participation in the Plan. The 2016 Agreement establishes a five-year participation period for Mr. Mifsud under the Plan, after which he will cease to participate in the Plan unless otherwise agreed to by us and Mr. Mifsud. The previous Letter Agreement had no defined term. Other than to reflect such change, the 2016 Agreement contains no changes in substantive terms.
