Consolidated Results

Mexico City, D.F., February 17, 2011—Grupo Televisa, S.A.B. (NYSE:TV; BMV: TLEVISA CPO; “Televisa” or “the Company”), today announced results for fourth quarter and full year 2010. The results have been prepared in accordance with Mexican Financial Reporting Standards (Mexican FRS).

The following table sets forth a condensed consolidated statement of income for the years ended December 31, 2010 and 2009, in millions of Mexican pesos, as well as the percentage of net sales that each line represents and the percentage change when comparing 2010 with 2009:

	2010	Margin	2009	Margin	Change
		%		%	%
Consolidated net sales	57,856.8	100.0	52,352.5	100.0	10.5
Operating segment income	23,062.9	39.0	20,744.7	38.8	11.2
Consolidated net income	8,515.9	14.7	6,582.7	12.6	29.4
Controlling interest net income	7,683.4	13.3	6,007.1	11.5	27.9

Consolidated net sales increased 10.5% to Ps.57,856.8 million in 2010 compared with Ps.52,352.5 million in 2009. This increase was attributable to revenue growth across all our business segments with the exception of Publishing, which underwent a restructuring process. Growth was especially strong in our Telecom businesses.

Controlling interest net income increased 27.9% to Ps.7,683.4 million in 2010 compared with Ps.6,007.1 million in 2009. The net increase of Ps.1,676.3 million primarily reflected a i) Ps.425.7 million increase in operating income; a ii) Ps.1,197.7 million decrease in other expense, net; and iii) a Ps.503.4 million decrease in equity in losses of affiliates, net. These favorable variances were offset by a i) Ps.55.3 million increase in integral cost of financing; ii) a Ps.138.3 million increase in income taxes; and iii) a Ps.256.9 million increase in non-controlling interest net income.

Television Broadcasting Fourth-quarter sales increased 2.1% compared with the same period of 2009. Four of the top-five rated shows transmitted in Mexico through broadcast television during the quarter were transmitted and produced by Televisa.

Full-year sales increased 5.5% to Ps.22,750.1 million compared with Ps.21,561.6 million in 2009, which is in line with our guidance for the year. Televisa's content continued to outperform with the final episode of the novela "Soy tu Dueña" being the highest rated program transmitted in Mexico through broadcast television during the year. Additionally, nine of the top-ten rated shows on over-the-air television in Mexico were transmitted by Televisa. Upfront deposits represented 78.3% of revenues during the year and the remaining were sales in the spot market. This figure compares with 78.9% in 2009.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 6-K

Fourth-quarter operating segment income increased 2.8% compared with the same period of 2009, and the margin was 49.9%.

Full-year operating segment income increased 3.8% to Ps.10,714.3 million compared with Ps.10,323.9 million in 2009; the margin was 47.1%. The decrease in margin of 80 basis points was in line with guidance and is primarily explained by the transmission during the year of programs produced around the Soccer World Cup and the soccer matches, which are less profitable than Televisa's regular programming.

Pay Television Networks Fourth-quarter sales increased 15.7% compared with the same period of 2009, mainly driven by the success of our pay-TV channels and the growth in pay-TV penetration in Mexico.

Full-year sales increased 15% to Ps.3,146.2 million compared with Ps.2,736.6 million in 2009. The annual increase was achieved in spite of a negative translation effect of foreign-currency-denominated sales; and was driven by higher revenues from channels sold in Mexico as well as higher advertising sales, which represented 22.7% of segment revenue in 2010. As of December 31, 2010, and through our cable and DTH affiliates worldwide, our Pay Television Networks business reached 26 million subscribers. Subscribers abroad carry an average of 3 Televisa pay-TV channels each, meanwhile subscribers in Mexico carry an average of 11.4 Televisa pay-TV channels each. Some of the most successful channels during the year included "Clásico TV" and the 2-hour delayed version of Channel 2. Additionally, during the year, Televisa successfully added to its portfolio of high-definition channels "Golden" and "American Network", and launched the "TL Novela" channel in Brazil.

Fourth-quarter operating segment income increased 27.6% compared with the same period of 2009, and the margin increased to 59.9%, mainly due to the absence of amortization costs related to the transmission of the 2010 Soccer World Cup.

Full-year operating segment income decreased marginally 2.3% to Ps.1,622 million compared with Ps.1,660.4 million in 2009, and the margin was 51.6%. This decrease reflects an increase in cost of sales and operating expenses, driven mainly by investments made in the production and launch of two new channels. In August 2009 we launched our sports pay-TV channel, Televisa Deportes Network ("TDN"), which carried on an exclusive basis ten of the 64 games of the 2010 Soccer World Cup. Additionally, in February 2010 we launched Foro TV, our 24-hours news pay-TV channel, which as of September 2010 is broadcast on our free-to-air channel 4.

Programming Exports Fourth-quarter sales increased 32% compared with the same period of 2009. The royalty from Univision increased 12.6% compared with the fourth quarter in 2009. The rest of the growth was driven by higher revenue abroad, specifically in Brazil.

Full-year sales increased 8% to Ps.3,074.8 million compared with Ps.2,845.9 million in 2009. The annual increase was attributable to i) an increase in royalties from Univision, from US\$143 million in 2009 to US\$156.1 million in 2010; and ii) higher programming sales mainly in Europe as well as higher revenue from co-productions abroad. This increase was partially offset by a negative translation effect on foreign-currency-denominated sales amounting to Ps.160.2 million.

Fourth-quarter operating segment income increased 43.5% compared with the same period of 2009, and the margin reached a fourth-quarter record high of 53.8%.

Full-year operating segment income increased 4.6% to Ps.1,503.6 million compared with Ps.1,437.2 million in 2009, and the margin was 48.9%. These results reflect higher sales that were partially offset by higher cost of sales and operating expenses.

Publishing	<p>Fourth-quarter sales reached the same level of sales as in 2009.</p> <p>Full-year sales decreased 3.8% to Ps.3,229.6 million compared with Ps.3,356.1 million in 2009. Advertising sales abroad increased, but were impacted by a negative translation effect on foreign-currency-denominated sales which partly explains the decrease in revenue. As part of the restructuring of the business, which included taking some magazines off the market, magazine circulation in Mexico was lower and consequently so was advertising revenue.</p> <p>Fourth-quarter operating segment income increased Ps.175.1 million compared with the same period of 2009, and the margin reached 18.7%.</p> <p>Full-year operating segment income increased 123% to Ps.425.3 million compared with Ps.190.7 million in 2009, and the margin improved to 13.2%. This increase reflects i) lower paper and printing costs in connection with the restructuring process; and ii) lower operating expenses due to nonrecurrent charges such as a decrease in allowances and doubtful accounts.</p>
Sky	<p>Fourth-quarter sales increased 9% compared with the same period of 2009. During the quarter, Sky added a total of 291 thousand subscribers mainly in Mexico.</p> <p>Full-year sales increased 12.4% to Ps.11,248.2 million compared with Ps.10,005.2 million in 2009. The annual increase was driven by solid growth in the subscriber base in Mexico explained mainly by the success of Sky's new low-cost offerings. Additionally, Sky transmitted exclusively 24 matches of the 2010 Soccer World Cup and in some packages sold it as a pay-per-view event. As of December 31, 2010, the number of gross active subscribers increased to 3,044,028 (including 149,899 commercial subscribers), compared with 1,959,722 (including 144,326 commercial subscribers) as of December 31, 2009. Sky closed the quarter with more than 145 thousand subscribers in Central America and the Dominican Republic.</p> <p>Fourth-quarter operating segment income increased 11.3% compared with the same period of 2009, and the margin increased to 44.3%, mainly due to the absence of costs amortized related with the exclusive transmission of certain matches of the 2010 Soccer World Cup.</p> <p>Full-year operating segment income increased 13.3% to Ps.5,074.5 million compared with Ps.4,478.8 million in 2009, and the margin increased to 45.1%. This increase reflects higher sales as well as a reduction in the amount of costs amortized related to the exclusive transmission of certain 2010 World Cup matches. These variances were partially offset by higher operating expenses.</p>
Cable and Telecom	<p>Fourth-quarter sales increased 19.4% compared with the same period of 2009 driven by the growth in all our cable platforms.</p> <p>Full-year sales increased 27.8% to Ps.11,814.2 million compared with Ps.9,241.8 million in 2009. This increase was attributable to i) the consolidation of Cablevision de Monterrey ("TVI") starting October 1, 2009, which represented incremental sales of Ps.1,463.5 million; and ii) the addition of more than 356 thousand revenue generating units (RGUs) in Cablevisión and Cablemás during the year driven mainly by the success of our competitive triple-play bundles. During the year, Cablevisión, Cablemás, and Bestel net sales increased 15.7%, 11.3%, and 15.4%, respectively.</p> <p>The following table sets forth the breakdown of subscribers for each of our three cable and telecom subsidiaries as of December 31, 2010.</p>

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 6-K

2010	Cablevisión	Cablemás	TVI
Video	668,985	997,239	301,698
Broadband	299,157	360,049	147,268
Telephony	190,441	205,180	106,129
RGUs	1,158,583	1,562,468	555,095

Fourth-quarter operating segment income increased 39% compared with the same period of 2009, and the margin increased to 34.5%. Bestel contributed to the margin expansion by improving the mix of the services sold, decreasing the revenue share of less profitable services such as long distance calls. Excluding Bestel, the margin for the cable operations alone was, on the aggregate, 37.7%, compared with 33.7% during fourth-quarter 2009.

Full-year operating segment income increased 31.5% to Ps.3,907.2 million compared with Ps.2,971.9 million in 2009, and the margin increased to 33.1%. These results reflect continued growth in the cable platforms as well as a positive translation effect on foreign-currency-denominated costs. The margin expansion is mainly explained by the homologation of accounting criteria between TVI and our other cable platforms, resulting in a positive effect in TVI's margins.

The following table sets forth the breakdown of revenues and operating segment income, excluding consolidation adjustments, for our four cable and telecom subsidiaries for the year.

Millions of Mexican pesos	Cablevisión	Cablemás	TVI	Bestel
Revenue(1)	3,910.2	4,065.2	1,854.5	2,280.3
Operating Segment Income(1)	1,505.1	1,523.2	764.4	318.0
Margin	38.5%	37.5%	41.2%	13.9%

(1) These results do not include consolidation adjustments of Ps.296 million in revenues and Ps.203.5 million in Operating Segment Income, which are considered in the consolidated results of Cable and Telecom.

Other Businesses Fourth-quarter sales increased 8.8% compared with the same period of 2009 driven principally by our soccer and gaming businesses. These positive variances were partially offset by lower revenues in our feature-film distribution business.

Full-year sales increased marginally 1.1% to Ps.3,812.3 million compared with Ps.3,771.4 million in 2009. Businesses that performed well include gaming, soccer, and radio. The results of our gaming business were driven by the continued success of the soccer-related lottery game launched in January and the radio business benefited from Soccer World Cup advertising revenues. These favorable variances were offset by the termination of a distribution agreement with Warner Brothers Pictures in December 2009.

Fourth-quarter operating segment loss decreased 50.9% compared with the same period of 2009.

Full-year operating segment loss decreased 42.2% to Ps.184 million compared with Ps.318.2 million in 2009, reflecting a reduction in losses in our soccer, gaming, and publishing distribution businesses, as well as an increase in the operating income of our radio business.

Corporate Expenses

Share-based compensation expense in 2010 and 2009 amounted to Ps.560.6 million and Ps.375.7 million, respectively, and was accounted for as corporate expense. Share-based compensation expense is measured at fair value at the time the equity benefits are granted to officers and employees, and is recognized over the vesting period.

Non-operating Results

Other Expense, Net

Other expense, net, in the year ended December 31, 2010, included expenses related to financial advisory and professional services mainly associated with the Univision transaction, loss on disposition of property and equipment, non-recurring expenses in connection with the refinancing of debt in our Cable and Telecom segment, and an impairment adjustment to the carrying value of goodwill of a business within our Publishing segment. These expenses were partially offset by a net gain on disposition of investments.

Other expense, net, decreased by Ps.1,197.7 million, or 67.9%, to Ps.567.2 million for the year ended December 31, 2010, compared with Ps.1,764.9 million for the year ended December 31, 2009. This decrease reflected primarily a reduction in non-cash impairment adjustments to the carrying value of goodwill in our Cable and Telecom, Television Broadcasting and Publishing segments, as well as the gain on disposition of investments in shares, which effect was partially offset by nonrecurring expenses related to the refinancing of debt of Cablemás, and increases in other expenses related to financial advisory and professional services and the disposition of equipment.

Integral Cost of Financing

The following table sets forth integral cost of financing stated in millions of Mexican pesos for the years ended December 31, 2010 and 2009.

	2010	2009	Increase (decrease)
Interest expense	3,615.3	3,136.4	478.9
Interest income	(1,047.5)	(1,053.4)	5.9
Foreign exchange loss, net	460.8	890.3	(429.5)
Integral cost of financing	3,028.6	2,973.3	55.3

The net expense attributable to integral cost of financing increased by Ps.55.3 million, or 1.9%, to Ps.3,028.6 million for the year ended December 31, 2010 from Ps.2,973.3 million for the year ended December 31, 2009. This variance primarily reflected i) a Ps.478.9 million increase in interest expense, due mainly to a higher average principal amount of long-term debt in 2010; and ii) a Ps.5.9 million decrease in interest income explained primarily by a reduction of interest rates applicable to cash equivalents and temporary investments in 2010. These unfavorable variances were offset by a Ps.429.5 million decrease in foreign exchange loss resulting primarily from the favorable effect of a 5.5% appreciation of the Mexican peso against the US dollar in 2010 on our average net US dollar liability position in 2010, which changed from a net US dollar asset position in 2009.

Equity in Losses of Affiliates, Net

Equity in losses of affiliates, net, decreased by Ps.503.4 million, or 70.4%, to Ps.211.9 million in 2010 compared with Ps.715.3 million in 2009. This decrease reflected mainly a reduction in equity in loss of La Sexta, our 40.5% interest in a free-to-air television channel in Spain. This decrease was partially offset by the absence of equity in earnings of i) Volaris, as we disposed of this investment in the third quarter of 2010; and ii) TVI, as we began consolidating its assets, liabilities and result of operations in our consolidated financial statements effective in the fourth quarter of 2009. Equity in losses of affiliates, net, for the year ended December 31, 2010, is comprised for the most part by the equity in loss of La Sexta, which was partially offset by the equity in earnings of other associates.

Income Taxes

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 6-K

Income taxes increased by Ps.138.3 million, or 4.4%, to Ps.3,259 million in 2010 from Ps.3,120.7 million in 2009. This increase reflected primarily a higher income tax base, which was partially offset by a lower effective income tax rate.

Noncontrolling Interest Net Income

Noncontrolling interest net income increased by Ps.256.9 million, or 44.6%, to Ps.832.5 million in 2010, from Ps.575.6 million in 2009. This increase primarily reflected a higher portion of consolidated net income attributable to interests held by noncontrolling stockholders in our Cable and Telecom and Sky segments.

We also have the option to acquire an additional 5% equity stake in BMP at fair market value, subject to certain limitations on the exercise of the option. 1 National urban ratings and audience share are certified by IBOPE and are based upon IBOPE's national surveys, which are calculated seven days a week, in Mexico City, Guadalajara, Monterrey, and 25 other cities with a population of more than 500,000 people. "Ratings" for a period refers to the number of television sets tuned into the Company's programs as a percentage of the total number of all television households. "Audience share" is the number of television sets tuned into the Company's programs as a percentage of the number of households watching conventional over-the-air television during that period, without regard to the number of viewers.

2 "Total Televisa" includes the Company's four networks as well as all local affiliates (including affiliates of Channel 4, most of which receive only a portion of their daily programming from Channel 4). Programming on affiliates of Channel 4 is generally broadcast in 12 of the 28 cities covered by national surveys. Programming on Channel 9 affiliates is broadcast in all of the cities covered by national surveys.

3 "Televisa Prime Time" is the time during which the Company generally charges its highest rates for its networks.
