1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited condensed consolidated interim financial statements include the accounts of Titan International, Inc. and its subsidiaries (Titan or the Company) and have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) for interim financial information and in accordance with the rules and regulations of the United States Securities and Exchange Commission (the SEC). Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. These unaudited condensed consolidated interim financial statements reflect all normal and recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the Company's financial position as of March 31, 2019, and the results of operations and cash flows for the three months ended March 31, 2019 and 2018, and should be read in conjunction with the consolidated financial statements and the related notes thereto included in the Company's latest Annual Report on Form 10-K for the year ended December 31, 2018, filed with the SEC on March 7, 2019 (the 2018 Form 10-K). All significant intercompany transactions have been eliminated in consolidation. These unaudited condensed consolidated interim financial statements include estimates and assumptions of management that affect the amounts reported in the condensed consolidated financial statements. Actual results could differ from these estimates.

Fair value of financial instruments

The Company records all financial instruments, including cash and cash equivalents, accounts receivable, notes receivable, accounts payable, other accruals, and notes payable at cost, which approximates fair value due to their short term or stated rates. Investments in marketable equity securities are recorded at fair value. The 6.50% senior secured notes due 2023 (senior secured notes) were carried at a cost of \$395.3 million at March 31, 2019. The fair value of the senior secured notes at March 31, 2019, as obtained through an independent pricing source, was approximately \$366.8 million.

Cash dividends

The Company declared cash dividends of \$0.005 per share of common stock for each of the quarters ended March 31, 2019 and 2018, respectively. The first quarter 2019 cash dividend of \$0.005 per share of common stock was paid on April 15, 2019, to shareholders of record on March 29, 2019.

New accounting standards:

Adoption of new accounting standards

On January 1, 2019, the Company adopted Accounting Standards Update (ASU) No. 2016-02, "Leases (Topic 842)" (New Lease Standard) to increase transparency and comparability among entities by recognizing lease assets and liabilities on the balance sheet and disclosing key information about lease arrangements. Titan elected the modified retrospective with cumulative effect transition approach to adopt the New Lease Standard and thus will not restate its comparative periods in the year of transition. The Company adopted the practical expedients of the New Lease Standard which include (i) not reassessing whether expired or existing contracts contain leases, (ii) not reassessing the lease classification for any expired or existing leases, and (iii) not revaluing initial direct costs for existing leases. The Company did not elect the hindsight practical expedient. The adoption of this standard resulted in the recognition of operating lease right-of-use assets and corresponding lease liabilities on the Condensed Consolidated Balance Sheet, which resulted in a net credit adjustment to retained earnings as of January 1, 2019, of \$0.6 million. The New Lease Standard did not materially impact operating results or liquidity. Further disclosures related to the New Lease

Standard are included in Note 10, Leases.

The Company adopted ASU No. 2018-02, "Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income" effective January 1, 2019. The amendments in this update allow a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the 2017 Tax Cuts and Jobs Act (TCJA). Consequently, the amendments eliminate the stranded tax effects resulting from the 2017 TCJA and improve the usefulness of information reported to financial statement users. As a result of adopting this standard, the Company recorded a \$4.9 million reclassification to decrease accumulated other comprehensive income and increase retained earnings as of January 1, 2019.

TITAN INTERNATIONAL, INC.

**Notes to Condensed Consolidated Financial Statements
(Unaudited)**

The Company adopted the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 606, "Revenue from Contracts with Customers" (the New Revenue Standard), effective January 1, 2018, using the modified retrospective approach which requires the recognition of the cumulative effect of initially applying the standard as an adjustment to opening retained earnings for the fiscal year beginning January 1, 2018. The adoption of the New Revenue Standard resulted in the recognition of an immaterial cumulative adjustment to opening retained earnings as of January 1, 2018, and had an immaterial effect on the Company's financial position and results of operations. Results for reporting periods beginning after January 1, 2018, are presented under the New Revenue Standard, which prescribes that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Titan recognizes revenue when the performance obligations specified in the Company's contracts have been satisfied. Titan's contracts typically contain a single performance obligation that is fulfilled on the date of delivery based on shipping terms stipulated in the contract. The impact on net sales was immaterial and the disaggregation of revenues, which is according to the major markets the Company serves, has not changed from how it is presented in Note 18, Segment Information in Item 1 of this Form 10-Q.

The Company adopted ASU No. 2017-07, "Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost" on January 1, 2018, using the retrospective transition method. This standard changed the presentation of net periodic pension and postretirement benefit cost (net benefit cost) within the Condensed Consolidated Statement of Operations. Under the previous guidance, net benefit cost was reported as an employee cost within operating income. The amendment requires the bifurcation of net benefit cost, with the service cost component to be presented with other employee compensation costs in operating income, while the other components will be reported separately outside of income from operations.

The Company early-adopted ASU No. 2018-15, "Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract," effective September 30, 2018, using the retrospective approach. ASU 2018-15 requires a customer in a hosting arrangement that is a service contract to apply the guidance on internal-use software to determine which implementation costs to recognize as an asset and which costs to expense. Costs to develop or obtain internal-use software that cannot be capitalized under Subtopic 350-40, such as training costs and certain data conversion costs, also cannot be capitalized for a hosting arrangement that is a service contract. The amendments in this update require a customer in a hosting arrangement that is a service contract to determine whether an implementation activity relates to the preliminary project stage, the application development stage, or the post-implementation stage. Costs for implementation activities in the application development stage will be capitalized depending on the nature of the costs, while costs incurred during the preliminary project and post-implementation stages will be expensed. As a result of the adoption of this accounting standard, the Company capitalized an aggregate of \$7.4 million of implementation costs for the year ended December 31, 2018, from selling, general and administration in the Condensed Consolidated Statement of Operations to other assets in the Condensed Consolidated Balance Sheets.

In March 2018, the FASB issued ASU No. 2018-05, "Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118." This ASU updates the income tax accounting in US GAAP to reflect the SEC's interpretive guidance released on December 22, 2017, when the 2017 TCJA was enacted.

In May 2017, the FASB issued ASU No. 2017-09, "Stock Compensation (Topic 718): Scope of Modification Accounting." This update provides guidance about which changes to the terms or conditions of a share-based payment

award require an entity to apply modification accounting. Disclosure requirements under Topic 718 remain unchanged. The Company adopted ASU 2017-09 effective January 1, 2018. The adoption of this guidance did not have a material effect on the Company's condensed consolidated financial statements; no changes were made to the terms or conditions of share-based payments.

In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments." This update addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. The Company adopted this guidance effective January 1, 2018, with no resulting changes to the Company's condensed consolidated financial statements.

(Unaudited)****Accounting standards issued but not yet adopted**

In August 2018, the FASB issued ASU No. 2018-13, "Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement." The amendments in this update modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement. The amendments in this update are effective for fiscal years beginning after December 15, 2019. The adoption of this guidance is not expected to have a material effect on the Company's condensed consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-14, "Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans." The amendments in this update modify the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. The amendments in this update are effective for fiscal years ending after December 15, 2020. The adoption of this guidance is not expected to have a material effect on the Company's condensed consolidated financial statements.

6.50% senior secured notes due 2023

The senior secured notes are due November 2023. Including the impact of debt issuance costs, these notes had an effective yield of 6.79% at issuance. These notes are secured by the land and buildings of the following subsidiaries of the Company: Titan Tire Corporation, Titan Tire Corporation of Bryan, Titan Tire Corporation of Freeport, and Titan Wheel Corporation of Illinois.

Titan Europe credit facilities

The Titan Europe credit facilities contain borrowings from various institutions totaling \$36.7 million in aggregate principal amount at March 31, 2019. Maturity dates on this debt range from less than one year to nine years. The Titan Europe facilities are secured by the assets of Titan's subsidiaries in Italy, Spain, Germany, and Brazil.

Revolving credit facility

The Company has a \$75 million revolving credit facility (credit facility) with agent BMO Harris Bank N.A. and other financial institutions party thereto. The credit facility is collateralized by accounts receivable and inventory of certain of the Company's domestic subsidiaries and is scheduled to mature in February 2022. From time to time Titan's availability under this credit facility may be less than \$75 million as a result of outstanding letters of credit and eligible accounts receivable and inventory balances at certain of its domestic subsidiaries. At March 31, 2019, under the credit facility there were \$25.0 million in borrowings, a \$10.3 million letter of credit, and the amount available totaled \$39.7 million.

Other debt

The Company has working capital loans at Titan Pneus do Brasil Ltda and Voltyre-Prom at various interest rates, which totaled \$8.1 million and \$28.3 million at March 31, 2019, respectively. Maturity dates on this debt range from less than one year to three years.

8. DERIVATIVE FINANCIAL INSTRUMENTS

The Company uses financial derivatives to mitigate its exposure to volatility in foreign currency exchange rates. These derivative financial instruments are recognized at fair value. The Company has not designated these financial instruments as hedging instruments. Any gain or loss on the re-measurement of the fair value is recorded as an offset to currency exchange gain/loss. For the three months ended March 31, 2019 and March 31, 2018, the Company recorded currency exchange loss related to these derivatives of \$0.1 million and \$0.3 million, respectively.

TITAN INTERNATIONAL, INC.**Notes to Condensed Consolidated Financial Statements
(Unaudited)****9. REDEEMABLE NONCONTROLLING INTEREST**

The Company, in partnership with One Equity Partners (OEP) and the Russian Direct Investment Fund (RDIF), owns all of the equity interests in Voltyre-Prom, a leading producer of agricultural and industrial tires in Volgograd, Russia. The Company is party to a shareholders' agreement with OEP and RDIF (Shareholders' Agreement) which was entered into in connection with the acquisition of Voltyre-Prom. The agreement contains a settlement put option which was exercisable during a six-month period beginning July 9, 2018. The settlement put option would require Titan to purchase the equity interests from OEP and RDIF in Voltyre-Prom with cash or Titan common stock, at a value set by the agreement. The value set by the agreement is the greater of: the aggregate of the investment of the selling party and an amount representing an internal rate of return of 8%, or the last twelve months of EBITDA multiplied by 5.5 less net debt times the selling party's ownership percentage.

On November 14, 2018, the Company received notification of exercise of the put option from RDIF. On February 11, 2019, the Company entered into a definitive agreement (the "Agreement") with an affiliate of RDIF relating to the put option that was exercised by RDIF. The Agreement provides, among other things, that in full satisfaction of the put option, within ten business days following the date of the Agreement, Titan would pay to RDIF \$25 million in cash and, subject to the completion of regulatory approval, will issue to RDIF in a private placement \$25 million in shares of restricted Titan common stock, with RDIF being required to hold such shares for three years from the date of the Agreement. Immediately following the closing, RDIF continued to own the same interest in Voltyre-Prom, subject to the terms of the Agreement and the Shareholders' Agreement. Titan has retained the right to buy back the Titan shares from RDIF for \$25 million during such three-year period and, if the stock buyback is consummated within one year, at the time of such buyback, RDIF would be required to convey to Titan, based on current ownership, a 10.71% interest in Voltyre-Prom, resulting in RDIF reducing its interest in Voltyre-Prom from 35.71% to 25%. The transaction closed on February 22, 2019. Under the terms of the Agreement, in full satisfaction of the settlement put option that was exercised by RDIF, Titan paid to RDIF \$25 million in cash at the closing of the transaction, and agreed, subject to the completion of regulatory approval, to issue to RDIF in a private placement 4,032,259 shares of restricted Titan common stock. Due to pending regulatory approval, the issuance of the shares of restricted Titan common stock pursuant to the agreement was not completed as of March 31, 2019.

On January 8, 2019, the Company received notification of exercise of the put option from OEP. As of March 31, 2019, Titan had not paid any amounts, or issued any shares, to OEP in satisfaction of its obligations under the put option.

As of March 31, 2019, the value of the redeemable noncontrolling interest held by OEP was recorded at the aggregate of the investment of the selling party and an amount representing an internal rate of return of 8%. The redeemable noncontrolling interest held by RDIF was recorded at \$25 million, the value of the shares of restricted stock to be issued.

The noncontrolling interest is presented as a redeemable noncontrolling interest separately from total equity in the Condensed Consolidated Balance Sheet at the redemption value of the settlement put option. If the redemption value is greater than the carrying value of the noncontrolling interest, the increase in the redemption value is adjusted directly to retained earnings of the affected entity, or additional paid-in capital if there are no available retained earnings applicable to the redeemable noncontrolling interest.

The following is a reconciliation of redeemable noncontrolling interest as of March 31, 2019 and 2018 (amounts in thousands):

	2019	2018
Balance at January 1	\$119,813	\$113,193
Reclassification as a result of Agreement regarding put option	(49,883)	—
Loss attributable to redeemable noncontrolling interest	(334)	(515)
Currency translation	428	348
Redemption value adjustment	776	2,343
Balance at March 31	\$70,800	\$115,369

This obligation approximates the cost to the Company if all remaining equity interests in the consortium were purchased by the Company on March 31, 2019, and is presented in the Condensed Consolidated Balance Sheet in redeemable noncontrolling interest, which is treated as mezzanine equity.

TITAN INTERNATIONAL, INC.**Notes to Condensed Consolidated Financial Statements
(Unaudited)****10. LEASES**

The Company leases certain buildings and equipment under both operating and finance leases. Certain lease agreements provide for renewal options, fair value purchase options, and payment of property taxes, maintenance, and insurance by the Company. Under ASC 842, the Company made an accounting policy election, by class of underlying asset, not to separate non-lease components such as those previously stated, from lease components and instead will treat the lease agreement as a single lease component for all asset classes. Operating right-of-use (ROU) assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent Titan's obligations to make lease payments arising from the lease. The majority of Titan's leases are operating leases. Operating lease ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. As most of Titan's leases do not provide an implicit rate, the Company used its incremental borrowing rate (6.79%), based on the information available at the lease commencement date, in determining the present value of lease payments. Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of sales and selling, general and administrative expense on the Condensed Consolidated Statement of Operations. Amortization and interest expense associated with finance leases are included in cost of sales and selling, general and administrative expense and interest expense, respectively, on the Condensed Consolidated Statement of Operations. Short-term operating leases, which have an initial term of twelve months or less, are not recorded on the balance sheet.

Supplemental balance sheet information related to leases was as follows (amounts in thousands):

11. EMPLOYEE BENEFIT PLANS

The Company has three frozen defined benefit pension plans covering certain employees or former employees of three U.S. subsidiaries. The Company also has pension plans covering certain employees of several foreign subsidiaries. The Company also sponsors a number of defined contribution plans in the U.S. and at foreign subsidiaries. The Company contributed approximately \$0.4 million to the pension plans during the three months ended March 31, 2019, and expects to contribute approximately \$2.3 million to the pension plans during the remainder of 2019.

The components of net periodic pension cost consisted of the following for the periods set forth below (amounts in thousands):

	Three months ended March 31, 2019 2018	
Service cost	\$225	\$137
Interest cost	1,123	1,083
Expected return on assets	(1,189)	(1,492)
Amortization of unrecognized prior service cost	56	50
Amortization of net unrecognized loss	765	676
Net periodic pension cost	\$980	\$454

Service cost is recorded as cost of sales in the Condensed Consolidated Statement of Operations while all other components are recorded in other income.

12. VARIABLE INTEREST ENTITIES

The Company holds a variable interest in three joint ventures for which the Company is the primary beneficiary. Two of the joint ventures operate distribution facilities that primarily distribute mining products. Titan is the 50% owner of one of these distribution facilities, which is located in Canada, and the 40% owner of the other such facility, which is located in Australia. The Company's variable interests in these two joint ventures relate to sales of Titan product to these entities, consigned inventory, and working capital loans. The third joint venture is the consortium that owns Voltyre-Prom. Titan owns 43% of the consortium owning Voltyre-Prom, which is subject to a shareholders' agreement. See Note 9 for additional information.

The Company also holds a variable interest in five other entities for which Titan is the primary beneficiary. Each of these entities provides specific manufacturing related services at the Company's Tennessee facility. Titan's variable interest in these entities relates to financial support through providing many of the assets used by these entities in their business. The Company owns no equity in these entities.

As the primary beneficiary of these variable interest entities (VIEs), the VIEs' assets, liabilities, and results of operations are included in the Company's condensed consolidated financial statements. The other equity holders'

interests are reflected in “Net income (loss) attributable to noncontrolling interests” in the Condensed Consolidated Statements of Operations and “Noncontrolling interests” in the Condensed Consolidated Balance Sheets.

TITAN INTERNATIONAL, INC.
Notes to Condensed Consolidated Financial Statements
(Unaudited)

The following table summarizes the carrying amount of the entities' assets and liabilities included in the Company's Condensed Consolidated Balance Sheets at March 31, 2019, and December 31, 2018 (amounts in thousands):

	March 31, December 31,	
	2019	2018
Cash and cash equivalents	\$ 12,055	\$ 9,064
Inventory	17,046	12,987
Other current assets	44,970	38,533
Property, plant and equipment, net	28,593	28,057
Other long-term assets	3,348	2,971
Total assets	\$ 106,012	\$ 91,612
Current liabilities	\$ 49,350	\$ 36,246
Other long-term liabilities	5,986	6,353
Total liabilities	\$ 55,336	\$ 42,599

All assets in the above table can only be used to settle obligations of the consolidated VIE to which the respective assets relate. Liabilities are nonrecourse obligations. Amounts presented in the table above are adjusted for intercompany eliminations.

The Company holds variable interests in certain VIEs that are not consolidated because Titan is not the primary beneficiary. The Company's involvement with these entities is in the form of direct equity interests and prepayments related to purchases of materials. The maximum exposure to loss as reflected in the table below represents the loss of assets recognized by Titan relating to non-consolidated entities and amounts due to the non-consolidated assets. The assets and liabilities recognized in Titan's Condensed Consolidated Balance Sheets related to Titan's interest in these non-consolidated VIEs and the Company's maximum exposure to loss relating to non-consolidated VIEs as of the dates set forth below were as follows (amounts in thousands):

	March 31, December 31,	
	2019	2018
Investments	\$ 4,017	\$ 3,985
Other current assets	1,248	1,200
Total VIE assets	5,265	5,185
Accounts payable	2,185	2,350
Maximum exposure to loss	\$ 7,450	\$ 7,535

13. ROYALTY EXPENSE

The Company has trademark license agreements with The Goodyear Tire & Rubber Company to manufacture and sell certain farm tires under the Goodyear name. These agreements cover sales in North America, Latin America, Europe, the Middle East, Africa, Russia, and other Commonwealth of Independent States countries. Each of these agreements expires in 2025. The Company also has a trademark license agreement with Goodyear to manufacture and sell certain non-farm tire products in Latin America which expires in June 2019. Royalty expenses recorded were \$2.6 million and \$2.7 million for the three months ended March 31, 2019 and 2018, respectively.

14. OTHER INCOME

Other income consisted of the following for the periods set forth below (amounts in thousands):

	Three months ended March 31, 2019 2018	
Equity investment income	\$875	\$1,116
Gain on sale of assets	370	181
Interest income	340	617
Building rental income	255	578
Other (expense) income	(844)	5,258
	\$996	\$7,750

15. INCOME TAXES

The Company recorded income tax expense (benefit) of \$1.9 million and \$(0.8) million for the quarters ended March 31, 2019 and 2018, respectively. The Company's effective income tax rate was 66% and (5)% for the quarters ended March 31, 2019 and 2018, respectively.

The Company's 2019 income tax expense and rate differed from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of U.S. and certain foreign jurisdictions that incurred a full valuation allowance on deferred tax assets created by current year projected losses. In addition, there were non-deductible royalty expenses and statutorily required income adjustments made in certain foreign jurisdictions that negatively impacted the tax rate for the three months ended March 31, 2019.

The Company's 2018 income tax expense and rate differed from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of a reduction of the liability for unrecognized tax positions and U.S. and certain foreign jurisdictions that incurred a full valuation allowance on deferred tax assets created by current year projected losses. In addition, there were non-deductible royalty expenses and statutorily required income adjustments made in certain foreign jurisdictions that negatively impacted the tax rate for the three months ended March 31, 2018.

The Company continues to monitor the realization of its deferred tax assets and assesses the need for a valuation allowance. The Company analyzes available positive and negative evidence to determine if a valuation allowance is needed based on the weight of the evidence. This objectively verifiable evidence primarily includes the past three years' profit and loss positions. This process requires management to make estimates, assumptions, and judgments that are uncertain in nature. The Company has established valuation allowances with respect to deferred tax assets in U.S. and certain foreign jurisdictions and continues to monitor and assess potential valuation allowances in all its jurisdictions.

The 2017 TCJA was enacted on December 22, 2017, and included a number of changes in existing tax law impacting businesses, including a one-time deemed repatriation of cumulative undistributed foreign earnings and a permanent reduction in the U.S. federal statutory income tax rate from 35% to 21% effective January 1, 2018. Under U.S. GAAP, changes in tax rates and tax law are accounted for in the period of enactment and deferred tax assets and liabilities are re-measured at the enacted tax rate. The re-measured U.S. net deferred asset was fully offset by a change in the valuation allowance in 2017. The Company's net cumulative undistributed foreign earnings were a cumulative loss and therefore no additional income tax expense related to the one-time deemed repatriation toll charge was recorded in 2017.

The 2017 TCJA also created a new requirement that certain income (i.e., global intangible low taxed income, hereinafter referred to as GILTI) earned by foreign subsidiaries must be included currently in the gross income of the U.S. shareholder. For 2018 and 2019, the Company has estimated an amount of GILTI income that is included in the calculation of 2018 and 2019 income tax expense. This GILTI income inclusion, however, is fully offset by a change in the valuation allowance.

17. LITIGATION

The Company is a party to routine legal proceedings arising out of the normal course of business. Due to the difficult nature of predicting unresolved and future legal claims, the Company cannot anticipate or predict the material adverse effect on its consolidated financial condition, results of operations, or cash flows as a result of efforts to comply with, or liabilities pertaining to, legal judgments.

At March 31, 2019, two of Titan's subsidiaries were involved in litigation concerning environmental laws and regulations.

In June 2015, Titan Tire Corporation (Titan Tire) and Dico, Inc. (Dico) appealed a U.S. District Court order granting the U.S. motion for summary judgment that found Dico liable for violating the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) and an Environmental Protection Agency (EPA) Administrative Order and awarded response costs, civil penalties, and punitive damages.

In December 2015, the United States Court of Appeals for the Eighth Circuit reversed the District Court's summary judgment order with respect to "arranger" liability for Titan Tire and Dico under CERCLA and the imposition of punitive damages against Dico for violating the EPA Administrative Order, but affirmed the summary judgment order imposing civil penalties in the amount of \$1.62 million against Dico for violating the EPA Administrative Order. The case was remanded to the District Court for a new trial on the remaining issues.

The trial occurred in April 2017. On September 5, 2017, the District Court issued an order: (a) concluding Titan Tire and Dico arranged for the disposal of a hazardous substance in violation of 42 U.S.C. § 9607(a); (b) holding Titan Tire and Dico jointly and severally liable for \$5.45 million in response costs previously incurred and reported by the United States relating to the alleged violation, including enforcement costs and attorney's fees; and (c) awarding a declaratory judgment holding Titan Tire and Dico jointly and severally liable for all additional response costs previously incurred but not yet reported or to be incurred in the future, including enforcement costs and attorney's fees. The District Court also held Dico liable for \$5.45 million in punitive damages under 42 U.S.C. § 9607(c)(3) for violating a unilateral administrative order. The punitive damages award does not apply to Titan Tire. The Company accrued a contingent liability of \$6.5 million, representing \$5.45 million in costs incurred by the United States and \$1.05 million of additional response costs, for this order in the quarter ended September 30, 2017. As of March 31, 2019, the \$6.5 million remains outstanding.

Titan Tire and Dico appealed the case to the United States Court of Appeals for the Eighth Circuit. On April 11, 2019, the U.S. Court of Appeals for the Eighth Circuit affirmed the District Court's September 5, 2017, order. Dico and Titan Tire will file a petition for rehearing with the U.S. Court of Appeals for the Eighth Circuit, which must be filed by no later than May 26, 2019. While the Company believes it has meritorious arguments, the outcome of this petition cannot be predicted. As a result of the current judgment in favor of the United States, and pursuant to Iowa Code § 624.23, a judgment lien exists over Titan Tire's real property in the State of Iowa. The United States has agreed, however, that it will take no steps to execute on this judgment lien. In exchange, Titan Tire has obtained a supersedeas bond in the amount of \$6.0 million that stays enforcement of the judgment pending the outcome of the appeal and petition.

TITAN INTERNATIONAL, INC.**Notes to Condensed Consolidated Financial Statements
(Unaudited)****18. SEGMENT INFORMATION**

The Company has aggregated its operating units into reportable segments based on its three customer markets: agricultural, earthmoving/construction, and consumer. These segments are based on the information used by the Chief Executive Officer to make certain operating decisions, allocate portions of capital expenditures, and assess segment performance. Segment external sales, expenses, and income from operations are determined based on the results of operations for the operating units of the Company's manufacturing facilities. Segment assets are generally determined on the basis of the tangible assets located at such operating units' manufacturing facilities and the intangible assets associated with the acquisitions of such operating units. However, certain operating units' property, plant and equipment balances are carried at the corporate level.

Titan is organized primarily on the basis of products being included in three market segments, with each reportable segment including wheels, tires, wheel/tire assemblies, and undercarriage systems and components.

The table below presents information about certain operating results, separated by market segments, for each of the three months ended March 31, 2019 and 2018 (amounts in thousands):

19. FAIR VALUE MEASUREMENTS

19

TITAN INTERNATIONAL, INC.
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Accounting standards for fair value measurements establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers are defined as:

Level 1 – Quoted prices in active markets for identical instruments.

Level 2 – Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 – Unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities measured at fair value on a recurring basis consisted of the following as of the dates set forth below (amounts in thousands):

	March 31, 2019			December 31, 2018

20. RELATED PARTY TRANSACTIONS

The Company sells products and pays commissions to companies controlled by persons related to the Chairman of the Board of Directors of the Company, Mr. Maurice Taylor. The related party is Mr. Fred Taylor, who is Mr. Maurice Taylor's brother. The companies with which Mr. Fred Taylor is associated that do business with Titan include the following: Blacksmith OTR, LLC; F.B.T. Enterprises, Inc.; Green Carbon, Inc.; Silverstone, Inc.; and OTR Wheel Engineering, Inc. Sales of Titan products to these companies were approximately \$0.3 million for each of the three months ended March 31, 2019 and 2018. Titan had trade receivables due from these companies of approximately \$0.1 million at March 31, 2019, and approximately \$0.2 million at December 31, 2018. Sales commissions paid to the above companies were approximately \$0.4 million for the three months ended March 31, 2019, as compared to \$0.6 million for the three months ended March 31, 2018.

In July 2013, the Company entered into a Shareholders' Agreement with OEP and RDIF to acquire Voltyre-Prom. Mr. Richard M. Cashin Jr., a director of the Company, is the President of OEP, which owns 21.4% of the joint venture. The Shareholders' Agreement contained a settlement put option which potentially required the Company to purchase equity interests in the joint venture from OEP and RDIF at a value set by the agreement. On January 8, 2019, the Company received notification of exercise of the put option from OEP. See Note 9 for additional information.

The senior secured notes are guaranteed by the following wholly-owned subsidiaries of the Company: Titan Tire Corporation, Titan Tire Corporation of Bryan, Titan Tire Corporation of Freeport, and Titan Wheel Corporation of Illinois. The note guarantees are full and unconditional, joint and several obligations of the guarantors. The guarantees of the guarantor subsidiaries are subject to release in limited circumstances only upon the occurrence of certain customary conditions. See the indenture governing the senior secured notes incorporated by reference to the 2018 Form 10-K for additional information. The following condensed consolidating financial statements are presented using the equity method of accounting. Certain sales and marketing expenses recorded by non-guarantor subsidiaries have not been allocated to the guarantor subsidiaries.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's discussion and analysis of financial condition and results of operations (MD&A) is designed to provide a reader of the financial statements included in this quarterly report with a narrative from the perspective of the management of Titan International, Inc. (Titan or the Company) on Titan's financial condition, results of operations, liquidity, and other factors that may affect the Company's future results. The MD&A in this quarterly report should be read in conjunction with the condensed consolidated financial statements and other financial information included elsewhere in this quarterly report and the MD&A and audited consolidated financial statements and related notes in the Company's Annual Report on Form 10-K for the year ended December 31, 2018, filed with the SEC on March 7, 2018 (the 2018 Form 10-K).

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains forward-looking statements, which are covered by the "Safe Harbor for Forward-Looking Statements" provided by the Private Securities Litigation Reform Act of 1995. Readers can identify these statements by the fact that they do not relate strictly to historical or current facts. The Company tried to identify forward-looking statements in this report by using words such as "anticipates," "estimates," "expects," "intends," "plans," and "believes," and similar expressions or future or conditional verbs such as "will," "should," "would," "may," and "could." These forward-looking statements include, among other items:

- The Company's financial performance;
- Anticipated trends in the Company's business;
- Expectations with respect to the end-user markets into which the Company sells its products (including agricultural equipment, earthmoving/construction equipment, and consumer products);
- Future expenditures for capital projects;
- The Company's ability to continue to control costs and maintain quality;
- The Company's ability to meet conditions of loan agreements;
- The Company's business strategies, including its intention to introduce new products;
- Expectations concerning the performance and success of the Company's existing and new products; and
- The Company's intention to consider and pursue acquisition and divestiture opportunities.

Readers of this Form 10-Q should understand that these forward-looking statements are based on the Company's current expectations and assumptions about future events and are subject to a number of risks, uncertainties, and changes in circumstances that are difficult to predict, including, but not limited to, the factors discussed in Part 1, Item 1A, Risk Factors, of the 2018 Form 10-K, certain of which are beyond the Company's control.

Actual results could differ materially from these forward-looking statements as a result of certain factors, including:

- The effect of a recession on the Company and its customers and suppliers;
- Changes in the Company's end-user markets into which the Company sells its products as a result of world economic or regulatory influences or otherwise;
- Changes in the marketplace, including new products and pricing changes by the Company's competitors;
- Ability to maintain satisfactory labor relations;
- Unfavorable outcomes of legal proceedings;
- The Company's ability to comply with current or future regulations applicable to the Company's business and the industry in which it competes or any actions taken or orders issued by regulatory authorities;
- Availability and price of raw materials;
- Levels of operating efficiencies;
- The effects of the Company's indebtedness and its compliance with the terms thereof;

Changes in the interest rate environment and their effects on the Company's outstanding indebtedness;

26

TITAN INTERNATIONAL, INC.
Management's Discussion and Analysis of
Financial Condition and Results of Operations

- Unfavorable product liability and warranty claims;
- Actions of domestic and foreign governments, including the imposition of additional tariffs;
- Geopolitical and economic uncertainties relating to the countries in which the Company operates or does business;
- Risks associated with acquisitions, including difficulty in integrating operations and personnel, disruption of ongoing business, and increased expenses;
- Results of investments;
- The effects of potential processes to explore various strategic transactions, including potential dispositions;
- Fluctuations in currency translations;
- Climate change and related laws and regulations;
- Risks associated with environmental laws and regulations;
- Risks relating to our manufacturing facilities, including that any of our material facilities may become inoperable; and
- Risks related to financial reporting, internal controls, tax accounting, and information systems.

Any changes in such factors could lead to significantly different results. Any assumptions that are inaccurate or do not prove to be correct could have a material adverse effect on the Company's ability to achieve the results as indicated in the forward-looking statements. Forward-looking statements included in this report speak only as of the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. In light of these risks and uncertainties, there can be no assurance that the forward-looking information and assumptions contained in this report will in fact transpire. The reader should not place undue reliance on the forward-looking statements included in this report or that may be made elsewhere from time to time by the Company, or on its behalf. All forward-looking statements attributable to Titan are expressly qualified by these cautionary statements.

OVERVIEW

Titan International, Inc., together with its subsidiaries, is a global manufacturer of off-highway wheels, tires, assemblies and undercarriage products. As a leading manufacturer in the off-highway industry, Titan produces a broad range of products to meet the specifications of original equipment manufacturers (OEMs) and aftermarket customers in the agricultural, earthmoving/construction, and consumer markets. Titan manufactures under the Goodyear Farm Tire and Titan Tire brands and has complete research and development test facilities to validate wheel and rim designs.

Agricultural Segment: Titan's agricultural rims, wheels, tires, and undercarriage systems and components are manufactured for use on various agricultural equipment, including tractors, combines, skidders, plows, planters, and irrigation equipment, and are sold directly to OEMs and to the aftermarket through independent distributors, equipment dealers, and Titan's distribution centers. The wheels and rims range in diameter from nine inches to 54 inches, with the 54 inch diameter being the largest agricultural wheel manufactured in North America. Titan's agricultural tires range from approximately one foot to approximately seven feet in outside diameter and from five inches to 55 inches in width. The Company offers the added value of delivering a complete wheel and tire assembly to OEM and aftermarket customers.

Earthmoving/Construction Segment: The Company manufactures rims, wheels, tires, and undercarriage systems and components for various types of off-the-road (OTR) earthmoving, mining, military, construction, and forestry equipment, including skid steers, aerial lifts, cranes, graders and levelers, scrapers, self-propelled shovel loaders, articulated dump trucks, load transporters, haul trucks, backhoe loaders, crawler tractors, lattice cranes, shovels, and hydraulic excavators. The Company provides a broad range of earthmoving/construction wheels and tires with the

wheels ranging in diameter from 15 to 63 inches and in weight from 125 to 7,000 pounds, while the tires range from approximately three to 13 feet in outside diameter and weigh between 50 to 12,500 pounds. The Company offers the added value of wheel and tire assembly for certain applications in the earthmoving/construction segment.

Consumer Segment: Titan manufactures bias truck tires in Latin America and light truck tires in Russia. Titan also offers select products for ATVs, turf, and golf cart applications. This segment also includes sales that do not readily fall into the Company's other segments.

TITAN INTERNATIONAL, INC.
Management's Discussion and Analysis of
Financial Condition and Results of Operations

The Company's top customers include global leaders in agricultural and construction equipment manufacturing and include AGCO Corporation, Caterpillar Inc., CNH Global N.V., Deere & Company, Hitachi, Ltd., Kubota Corporation, Liebherr, and Volvo, in addition to many other off-highway equipment manufacturers. The Company distributes products to OEMs, independent and OEM-affiliated dealers, and through a network of distribution facilities.

MARKET CONDITIONS AND OUTLOOK

AGRICULTURAL MARKET OUTLOOK

Agriculture-related commodity prices remain low and declined further as a result of ongoing tariffs and trade concerns. Within North America, farm income has stabilized and is anticipated to remain relatively stable when compared to 2018. Most major OEMs are forecasting modest growth in agricultural equipment sales (0%-5%) during 2019 within most regions. North American used equipment inventory levels and values have both improved over the past year. The current age of the existing fleet and the need to replace equipment as part of a typical replacement cycle is expected to drive additional volume for larger equipment over time. Many variables, including weather, volatility in the price of commodities, grain prices, export markets, foreign currency exchange rates, government policies, subsidies, and the demand for used equipment can greatly impact the Company's performance in the agricultural market in a given period.

EARTHMOVING/CONSTRUCTION MARKET OUTLOOK

The earthmoving/construction market continues to be strong in the beginning of 2019. Demand for larger construction equipment used for highways and infrastructure has been strong and mining industry equipment demand continues to strengthen within certain regions in 2019. Construction is mainly driven by GDP by country and the need for infrastructure developments. Mining is primarily driven by the cost of commodities. Demand for Titan's products in this market is anticipated to continue improving throughout 2019. Demand for small and medium-sized earthmoving/construction equipment used in the housing and commercial construction sectors is also anticipated to increase. The earthmoving/construction segment is affected by many variables, including commodity prices, road construction, infrastructure, government appropriations, housing starts, and other macroeconomic drivers.

CONSUMER MARKET OUTLOOK

The consumer market consists of several different distinct product lines within different regions. These products include light truck tires, turf equipment, specialty products, and train brakes. Overall, the Company expects modest growth within this market during 2019. The consumer segment is affected by many variables including consumer spending, interest rates, government policies, and other macroeconomic drivers.

TITAN INTERNATIONAL, INC.
Management's Discussion and Analysis of
Financial Condition and Results of Operations

Net Sales

Net sales for the quarter ended March 31, 2019, were \$410.4 million, compared to \$425.4 million in the comparable quarter of 2018, a decrease of 3.5% driven by sales decreases in all segments. Overall net sales volume was down 3.5% from the comparable prior year quarter, due primarily to continued market challenges in Russia and the agriculture segment in Europe. Favorable changes in price/mix positively impacted net sales by 5.8% but were offset by an equal amount of unfavorable currency translation.

Gross Profit

Gross profit for the first quarter of 2019 was \$45.3 million, or 11.0% of net sales, compared to \$59.6 million, or 14.0% of net sales, for the first quarter of 2018. The decrease in gross profit was driven by the impact of lower volume in Russia and Europe and currency devaluation. Additionally, North American gross profit and margins were negatively affected by certain focused sales incentives that were implemented to drive aftermarket sales. North American gross profit and margins were further negatively impacted by short-term impacts of higher costs of inventory from production in the fourth quarter when there were lower volume levels.

Selling, General and Administrative Expenses

Selling, general and administrative (SG&A) expenses for the first quarter of 2019 were \$35.9 million, or 8.7% of net sales, compared to \$34.6 million, or 8.1% of net sales, for the first quarter of 2018. The increase in SG&A primarily related to certain investments in information technology in North America.

Research and Development Expenses

Research and development (R&D) expenses for the first quarter of 2019 were \$2.6 million, or 0.6% of net sales, compared to \$2.9 million, or 0.7% of net sales, for the first quarter of 2018. The R&D spending reflects initiatives to improve product designs and an ongoing focus on quality.

Royalty Expense

The Company has trademark license agreements with The Goodyear Tire & Rubber Company to manufacture and sell certain farm tires under the Goodyear name. These agreements cover sales in North America, Latin America, Europe, the Middle East, Africa, Russia, and other Commonwealth of Independent States countries. Each of these agreements is scheduled to expire in 2025. The Company also has a trademark license agreement with Goodyear to manufacture and sell certain non-farm tire products in Latin America which is scheduled to expire in June 2019.

Royalty expenses for the first quarter of 2019 were \$2.6 million, or 0.6% of net sales, compared to \$2.7 million, or 0.6% of net sales, for the first quarter of 2018.

Income from Operations

Income from operations for the first quarter of 2019 was \$4.1 million, compared to \$19.4 million for the first quarter of 2018. The decrease in income from operations was primarily driven by lower net sales and the net result of the items previously discussed.

OTHER PROFIT/LOSS ITEMS

Interest Expense

Interest expense was \$7.9 million and \$7.5 million for the quarters ended March 31, 2019 and 2018, respectively. The increase in interest expense was primarily due to increased borrowings under Titan's revolving credit facility.

Foreign Exchange Gain (Loss)

Foreign exchange gain was \$5.7 million for the first quarter of 2019, compared to a loss of \$4.4 million for the first quarter of 2018. Foreign currency gain or loss is the result of the translation of intercompany loans at certain foreign subsidiaries which are denominated in local currencies, not the reporting currency which is the United States dollar. Since such loans are expected to be settled in cash at some point in the future, these loans are adjusted each reporting period to reflect the current exchange rates.

TITAN INTERNATIONAL, INC.
Management's Discussion and Analysis of
Financial Condition and Results of Operations

Other Income

Other income was \$1.0 million for the quarter ended March 31, 2019, as compared to \$7.8 million in the comparable quarter of 2018. The decrease in other income for the quarter ended March 31, 2019, as compared to the same period in 2018 is primarily attributable to a non-recurring legal settlement in 2018.

Provision for Income Taxes

The Company recorded income tax expense (benefit) of \$1.9 million and \$(0.8) million for the quarters ended March 31, 2019 and 2018, respectively. The Company's effective income tax rate was 66% and (5)% for the quarters ended March 31, 2019 and 2018, respectively.

The Company's 2019 income tax expense and rate differed from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of U.S. and certain foreign jurisdictions that incurred a full valuation allowance on deferred tax assets created by current year projected losses. In addition, there were non-deductible royalty expenses and statutorily required income adjustments made in certain foreign jurisdictions that negatively impacted the tax rate for the three months ended March 31, 2019.

The Company's 2018 income tax expense and rate differed from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of a reduction of the liability for unrecognized tax positions and U.S. and certain foreign jurisdictions that incurred a full valuation allowance on deferred tax assets created by current year projected losses. In addition, there were non-deductible royalty expenses and statutorily required income adjustments made in certain foreign jurisdictions that negatively impacted the tax rate for the three months ended March 31, 2018.

Net Income and Earnings per Share

Net income for the first quarter of 2019 was \$1.0 million, compared to net income of \$16.0 million in the comparable quarter of 2018. For the quarters ended March 31, 2019 and 2018, basic and diluted earnings per share were \$0.02 and \$0.26, respectively. The Company's net income and earnings per share were due to the items previously discussed.

Agricultural Segment Results

Agricultural segment results for the periods presented below were as follows:

<i>(Amounts in thousands)</i>	Three months ended March 31,			%
	2019	2018	Increase/(Decrease)	
Net sales	\$191,730	\$194,166	(1.3)%
Gross profit	22,125	29,961	(26.2)%
Income from operations	13,928	21,321	(34.7)%

Net sales in the agricultural segment were \$191.7 million for the quarter ended March 31, 2019, as compared to \$194.2 million for the comparable period in 2018, a decrease of 1.3%. Lower sales volumes contributed 2.5% of this decrease while unfavorable currency translation, primarily in Latin America and Europe, further decreased net sales by 5.7%. Favorable price/mix partially offset these decreases with a 7.0% positive impact on net sales.

Gross profit in the agricultural segment was \$22.1 million for the quarter ended March 31, 2019, as compared to \$30.0 million in the comparable quarter of 2018. As described earlier, North American gross profit and margins were negatively affected by certain focused sales incentives that were implemented to drive aftermarket sales, with further negative short-term impacts from higher costs of inventory from production that occurred in the fourth quarter of 2018 when there were lower volume levels. Unfavorable foreign currency translation and lower sales volumes in Russia, South American and Europe also drove the overall decrease in gross profit. Income from operations in the agricultural segment was \$13.9 million for the quarter ended March 31, 2019, as compared to \$21.3 million for the comparable period in 2018.

TITAN INTERNATIONAL, INC.
Management's Discussion and Analysis of
Financial Condition and Results of Operations

The Company's earthmoving/construction segment net sales were \$176.7 million for the quarter ended March 31, 2019, as compared to \$188.7 million in the comparable quarter of 2018, a decrease of 6.4%. The decrease in earthmoving/construction sales was driven by decreased volume which negatively impacted net sales by 4.1%. Unfavorable currency translation across all non-US geographies decreased net sales by 5.5% which was partially offset by a favorable price/mix of 3.3% on net sales.

Gross profit in the earthmoving/construction segment was \$18.2 million for the quarter ended March 31, 2019, as compared to \$22.5 million in the comparable quarter of 2018. The decrease in gross profit was primarily due to lower sales creating production inefficiencies, and also from unfavorable foreign currency translation. The Company's earthmoving/construction segment income from operations was \$5.5 million for the quarter ended March 31, 2019, as compared to \$10.0 million for the comparable quarter of 2018.

Consumer Segment Results

Consumer segment results for the periods presented below were as follows:

<i>(Amounts in thousands)</i>	Three months ended			% Increase/(Decrease)
	March 31,			
	2019	2018		
Net sales	\$41,899	\$42,483	(1.4)%
Gross profit	4,969	7,138	(30.4)%
Income from operations	2,121	3,947	(46.3)%

Consumer segment net sales were \$41.9 million for the quarter ended March 31, 2019, as compared to \$42.5 million in the comparable quarter of 2018, a decrease of approximately 1.4%. This decrease was driven by unfavorable currency translation, primarily in Latin America, which drove an 8.1% decrease to net sales, and lower volume, which contributed an additional decrease of 4.9% to net sales, which was primarily from lower sales in the light truck business in Latin America. Favorable price/mix contributed 11.6% to net sales partially offsetting the aforementioned variables.

Gross profit from the consumer segment was \$5.0 million for the quarter ended March 31, 2019, as compared to \$7.1 million for the comparable quarter of 2018. Consumer segment income from operations was \$2.1 million for the quarter ended March 31, 2019, as compared to \$3.9 million for the comparable quarter of 2018.

Corporate & Unallocated Expenses

Income from operations on a segment basis does not include corporate expenses totaling \$17.4 million for the quarter ended March 31, 2019, as compared to \$15.8 million for the comparable quarter of 2018. This increase was driven primarily from increased information technology costs related to investments to upgrade the Company's operational and financial ERP systems.

Cash used for investing activities	\$ (34,259)	\$ (7,013)	\$ (27,246)

Net cash used for investing activities was \$34.3 million in the first quarter of 2019, as compared to \$7.0 million in the first quarter of 2018. The Company made a \$25 million payment related to a redeemable noncontrolling interest agreement in the first quarter of 2019. The Company invested a total of \$9.5 million in capital expenditures in the first quarter of 2019, compared to \$7.8 million in the first quarter of 2018. The expenditures during the first three months of 2019 and 2018 represent various equipment purchases and improvements to enhance production capabilities of Titan's existing business and to maintain existing equipment.

Financing Cash Flows

Summary of cash flows from financing activities:

<i>(Amounts in thousands)</i>	Three months		
	ended March 31,		
	2019	2018	Change

Cash provided by financing activities	\$36,740	\$10,461	\$26,279

In the first quarter of 2019, \$36.7 million of cash was provided by financing activities. This cash was primarily provided through debt financing, with borrowing providing \$52.4 million, offset by payments on debt of \$15.4 million.

Debt Restrictions

The Company's revolving credit facility (credit facility) and indenture relating to the 6.50% senior secured notes due 2023 contain various restrictions, including:

When remaining availability under the credit facility is less than 10% of the total commitment under the credit facility (\$7.5 million as of March 31, 2019), the Company is required to maintain a minimum fixed charge coverage ratio of not less than 1.0 to 1.0 (calculated quarterly on a trailing four quarter basis);

• Limits on dividends and repurchases of the Company's stock;

• Restrictions on the ability of the Company to make additional borrowings, or to consolidate, merge, or otherwise fundamentally change the ownership of the Company;

• Limitations on investments, dispositions of assets, and guarantees of indebtedness; and

• Other customary affirmative and negative covenants.

These restrictions could limit the Company's ability to respond to market conditions, provide for unanticipated capital investments, raise additional debt or equity capital, pay dividends, or take advantage of business opportunities,

including future acquisitions.

Liquidity Outlook

At March 31, 2019, the Company had \$68.3 million of cash and cash equivalents. At March 31, 2019, under the Company's \$75 million credit facility there were \$25 million in borrowings, a \$10.3 million letter of credit, and the amount available totaled \$39.7 million. Titan's availability under this credit facility may be less than \$75 million as a result of outstanding letters of credit and eligible accounts receivable and inventory balances at certain domestic subsidiaries. The cash and cash equivalents balance of \$68.3 million included \$52.6 million held in foreign countries. The Company's current plans do not demonstrate a need to repatriate the foreign amounts to fund U.S. operations. As a result of the 2017 Tax Cuts and Jobs Act, the Company can repatriate the cumulative undistributed foreign earnings back to the U.S. when needed with minimal additional taxes other than state income and foreign withholding tax. Titan expects to contribute approximately \$2.3 million to its defined benefit pension plans during the remainder of 2019.

Total capital expenditures for 2019 are forecasted to be approximately \$40 million to \$50 million. Cash payments for interest are currently forecasted to be approximately \$30 million for the last nine months of 2019 based on March 31, 2019, debt balances. The forecasted interest payments are comprised primarily of the semi-annual payment of approximately \$13 million (paid in May and November) for the 6.50% senior secured notes.

The Company's redeemable noncontrolling interest in Voltyre-Prom includes a settlement put option that was exercisable during a six-month period beginning July 9, 2018. As of the filing date of this Form 10-Q, both shareholders have exercised their put option in accordance with the Shareholder's Agreement; however, the Company has only entered into a definitive settlement agreement with one of the shareholders, RDIF, relating to the settlement of the put. See Note 9 to the Company's condensed consolidated financial statements regarding the Company's redeemable noncontrolling interest and the settlement put option.

In the future, Titan may seek to grow by making acquisitions, which will depend in large part on its ability to identify suitable acquisition candidates, negotiate acceptable terms for their acquisition, finance those acquisitions, and successfully integrate the acquired assets or business.

Subject to the terms of the agreements governing Titan's outstanding indebtedness, the Company may finance future acquisitions with cash on hand, cash from operations, additional indebtedness, issuing additional equity securities, divestitures, and alternative financing options.

Cash and cash equivalents, totaling \$68.3 million at March 31, 2019, along with anticipated internal cash flows from operations and utilization of remaining available borrowings, are expected to provide sufficient liquidity for working capital needs, debt maturities, and capital expenditures. Potential divestitures and unencumbered assets are also a means to provide for future liquidity needs.

CRITICAL ACCOUNTING ESTIMATES

There were no material changes in the Company's Critical Accounting Estimates since the filing of the 2018 Form 10-K. As discussed in the 2018 Form 10-K, the preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates, assumptions, and judgments that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates and assumptions. Also see Note 1 - Basis of Presentation and Significant Accounting

Policies in Part I, Item 1, Notes to Condensed Consolidated Financial Statements of this Form 10-Q for a discussion of the Company's updated accounting policies, including with respect to revenue recognition.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See Item 7A - Quantitative and Qualitative Disclosures About Market Risk included in the 2018 Form 10-K. There have been no material changes in this information.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Titan management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined under Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) as of March 31, 2019. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2019, Titan's disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by Titan in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported accurately and within the time frames specified in the SEC's rules and forms and accumulated and communicated to Titan management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls

There were no changes in internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the first quarter of fiscal 2019 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Inherent Limitations on the Effectiveness of Controls

Because of its inherent limitations, the Company's disclosure controls and procedures or internal control over financial reporting may not prevent or detect all misstatements or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in a cost-effective control system, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected.

These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur due to simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject, from time to time, to certain legal proceedings and claims arising out of the normal course of its business, which cover a wide range of matters, including environmental issues, product liability, contracts, and labor and employment matters. See Note 17 - Litigation in Part I, Item 1, Notes to Condensed Consolidated Financial Statements of this Form 10-Q for further discussion.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in Item 1A. Risk Factors to the 2018 Form 10-K.
